**DREYFUS BOND FUNDS, INC.:  
Dreyfus Municipal Bond Fund**

**Supplement to Current Statement of Additional Information**

**The following information supersedes and replaces any contrary information contained in the Statement of Additional Information:**

On July 1, 2007, The Bank of New York Company, Inc. and Mellon Financial Corporation completed their merger to form a new company called The Bank of New York Mellon Corporation (“BNY Mellon”). The Dreyfus Corporation (“Dreyfus”), the Fund’s investment adviser, previously a wholly-owned subsidiary of Mellon Financial Corporation, is now a wholly-owned subsidiary of BNY Mellon. BNY Mellon is a global financial services company incorporated under Delaware law in 2007 and registered under the Federal Bank Holding Company Act of 1956, as amended. The company is a leading provider of financial services for institutions, corporations and high-net-worth individuals, providing asset and wealth management, asset servicing, issuer services, and treasury services.

BNY Mellon and its affiliates may have deposit, loan and commercial banking or other relationships with the issuers of securities purchased by the Fund. Dreyfus has informed management of the Fund that in making its investment decisions it does not obtain or use material inside information that BNY Mellon or its affiliates may possess with respect to such issuers.

## DESCRIPTION OF THE COMPANY AND THE FUND

The Company is a Maryland corporation formed on July 12, 1976. The Fund is a separate series of the Company, an open-end management investment company, known as a municipal bond fund. As a municipal bond fund, the Fund invests in debt obligations issued by states, territories and possessions of the United States and the District of Columbia and their political subdivisions, agencies and instrumentalities, or multistate agencies or authorities, and certain other specified securities, the interest from which is, in the opinion of bond counsel to the issuer, exempt from Federal income tax ("Municipal Bonds"). The Fund is a diversified fund, which means that, with respect to 75% of its total assets, the Fund will not invest more than 5% of its assets in the securities of any single issuer nor hold more than 10% of the outstanding voting securities of any single issuer (other than, in each case, securities issued or guaranteed by the U.S. Government, its agencies or instrumentalities).

The Dreyfus Corporation (the "Manager" or "Dreyfus") serves as the Fund's investment adviser.

MBSC Securities Corporation (the "Distributor") is the distributor of the Fund's shares.

### Certain Portfolio Securities

The following information supplements and should be read in conjunction with the Fund's Prospectus.

Municipal Bonds. As a fundamental policy, the Fund normally invests at least 80% of the value of its net assets (plus borrowings for investment purposes) in Municipal Bonds (or other instruments with similar economic characteristics). Municipal Bonds generally include debt obligations issued to obtain funds for various public purposes as well as certain industrial development bonds issued by or on behalf of public authorities. Municipal Bonds are classified as general obligation bonds, revenue bonds and notes. General obligation bonds are secured by the issuer's pledge of its full faith, credit and taxing power for the payment of principal and interest. Revenue bonds are payable from the revenue derived from a particular facility or class of facilities or, in some cases, from the proceeds of a special excise or other specific revenue source, but not from the general taxing power. Tax-exempt industrial development bonds, in most cases, are revenue bonds that do not carry the pledge of the credit of the issuing municipality, but generally are guaranteed by the corporate entity on whose behalf they are issued. Notes are short-term instruments, which are obligations of the issuing municipalities or agencies and are sold in anticipation of a bond sale, collection of taxes or receipt of other revenues. Municipal Bonds include municipal lease/purchase agreements, which are similar to installment purchase contracts for property or equipment issued by municipalities. Municipal Bonds bear fixed, floating or variable rates of interest, which are determined in some instances by formulas under which the Municipal Bond's interest rate will change directly or inversely to changes in interest rates or an index, or multiples thereof, in many cases subject to a maximum and minimum. Certain Municipal Bonds are subject to redemption at a date earlier than their stated maturity pursuant to call options, which may be separated from the related Municipal Bond and purchased and sold separately.

For the purpose of diversification under the Investment Company Act of 1940, as amended (the “1940 Act”), the identification of the issuer of Municipal Bonds depends on the terms and conditions of the security. When the assets and revenues of an agency, authority, instrumentality or other political subdivision are separate from those of the government creating the subdivision and the security is backed only by the assets and revenues of the subdivision, such subdivision would be deemed to be the sole issuer. Similarly, in the case of an industrial development bond, if that bond is backed only by the assets and revenues of the non-governmental user, then such non-governmental user would be deemed to be the sole issuer. If, however, in either case, the creating government or some other entity guarantees a security, such a guaranty would be considered a separate security and will be treated as an issue of such government or other entity.

The yields on Municipal Bonds are dependent on a variety of factors, including general economic and monetary conditions, money market factors, conditions in the Municipal Bond market, size of a particular offering, maturity of the obligation and rating of the issue.

Municipal Bonds include certain private activity bonds (a type of revenue bond), the income from which is subject to the alternative minimum tax (AMT). The Fund may invest without limitation in such Municipal Bonds if the Manager determines that their purchase is consistent with the Fund’s investment objective.

Certain Tax Exempt Obligations. The Fund may purchase floating and variable rate demand notes and bonds, which are tax exempt obligations ordinarily having stated maturities in excess of one year, but which permit the holder to demand payment of principal at any time or at specified intervals. Variable rate demand notes include master demand notes, which are obligations that permit the Fund to invest fluctuating amounts, at varying rates of interest, pursuant to direct arrangements between the Fund, as lender, and the borrower. These obligations permit daily changes in the amount borrowed. Because these obligations are direct lending arrangements between the lender and borrower, it is not contemplated that such instruments generally will be traded, and there generally is no established secondary market for these obligations, although they are redeemable at face value, plus accrued interest. Accordingly, where these obligations are not secured by letters of credit or other credit support arrangements, the Fund's right to redeem is dependent on the ability of the borrower to pay principal and interest on demand. Each obligation purchased by the Fund will meet the quality criteria established for the purchase of Municipal Bonds.

Tax Exempt Participation Interests. The Fund may purchase from financial institutions participation interests in Municipal Bonds (such as industrial development bonds and municipal lease/purchase agreements). A participation interest gives the Fund an undivided interest in the Municipal Bond in the proportion that the Fund's participation interest bears to the total principal amount of the Municipal Bond. These instruments may have fixed, floating or variable rates of interest. If the participation interest is unrated, it will be backed by an irrevocable letter of credit or guarantee of a bank that the Fund's Board has determined meets prescribed quality standards for banks, or the payment obligation otherwise will be collateralized by U.S. Government securities. For certain participation interests, the Fund will have the right to demand payment, on not more than seven days' notice, for all or any part of the Fund's participation interest in the Municipal Bond, plus accrued interest. As to these instruments, the Fund intends to exercise its right to demand payment

only upon a default under the terms of the Municipal Bond, as needed to provide liquidity to meet redemptions, or to maintain or improve the quality of its investment portfolio.

Municipal lease obligations or installment purchase contract obligations (collectively, “lease obligations”) have special risks not ordinarily associated with Municipal Bonds. Although lease obligations do not constitute general obligations of the municipality for which the municipality's taxing power is pledged, a lease obligation ordinarily is backed by the municipality's covenant to budget for, appropriate and make the payments due under the lease obligation. However, certain lease obligations in which the Fund may invest may contain “non-appropriation” clauses, which provide that the municipality has no obligation to make lease or installment purchase payments in future years unless money is appropriated for such purpose on a yearly basis. Although “non-appropriation” lease obligations are secured by the leased property, disposition of the property in the event of foreclosure might prove difficult. Certain lease obligations may be illiquid. Determination as to the liquidity of such securities is made in accordance with guidelines established by the Fund's Board. Pursuant to such guidelines, the Board has directed the Manager to monitor carefully the Fund's investment in such securities with particular regard to: (1) the frequency of trades and quotes for the lease obligation; (2) the number of dealers willing to purchase or sell the lease obligation and the number of potential buyers; (3) the willingness of dealers to undertake to make a market in the lease obligation; (4) the nature of the marketplace trades, including the time needed to dispose of the lease obligation, the method of soliciting offers and the mechanics of transfer; and (5) such other factors concerning the trading market for the lease obligation as the Manager may deem relevant. In addition, in evaluating the liquidity and credit quality of a lease obligation that is unrated, the Fund's Board has directed the Manager to consider: (a) whether the lease can be cancelled; (b) what assurance there is that the assets represented by the lease can be sold; (c) the strength of the lessee's general credit (e.g., its debt, administrative, economic, and financial characteristics); (d) the likelihood that the municipality will discontinue appropriating funding for the leased property because the property is no longer deemed essential to the operations of the municipality (e.g., the potential for an “event of nonappropriation”); (e) the legal recourse in the event of failure to appropriate; and (f) such other factors concerning credit quality as the Manager may deem relevant.

Tender Option Bonds. The Fund may purchase tender option bonds. A tender option bond is a Municipal Bond (generally held pursuant to a custodial arrangement) having a relatively long maturity and bearing interest at a fixed rate substantially higher than prevailing short-term tax exempt rates, that has been coupled with the agreement of a third party, such as a bank, broker-dealer or other financial institution, pursuant to which such institution grants the security holders the option, at periodic intervals, to tender their securities to the institution and receive the face value thereof. As consideration for providing the option, the financial institution receives periodic fees equal to the difference between the Municipal Bond's fixed coupon rate and the rate, as determined by a remarketing or similar agent at or near the commencement of such period, that would cause the securities, coupled with the tender option, to trade at par on the date of such determination. Thus, after payment of this fee, the security holder effectively holds a demand obligation that bears interest at the prevailing short-term tax-exempt rate. The Manager, on behalf of the Fund, will consider on an ongoing basis the creditworthiness of the issuer of the underlying Municipal Bonds, of any custodian and of the third party provider of the tender option. In certain instances and for certain tender option bonds, the option may be terminable in the event of a default in payment of principal or interest on the underlying Municipal Bonds and for other reasons.

The Fund will purchase tender option bonds only when the Manager is satisfied that the custodial and tender option arrangements, including the fee payment arrangements, will not adversely affect the tax exempt status of the underlying Municipal Bonds and that payment of any tender fees will not have the effect of creating taxable income for the Fund. Based on the tender option bond agreement, the Fund expects to be able to value the tender option bond at par; however, the value of the instrument will be monitored to assure that it is valued at fair value.

Custodial Receipts. The Fund may purchase custodial receipts representing the right to receive certain future principal and interest payments on Municipal Bonds, which underlie the custodial receipts. A number of different arrangements are possible. In a typical custodial receipt arrangement, an issuer or a third party owner of Municipal Bonds deposits such obligations with a custodian in exchange for two classes of custodial receipts. The two classes have different characteristics, but, in each case, payments on the two classes are based on payments received on the underlying Municipal Bonds. One class has the characteristics of a typical auction rate security, where at specified intervals its interest rate is adjusted, and ownership changes, based on an auction mechanism. This class's interest rate generally is expected to be below the coupon rate of the underlying Municipal Bonds and generally is at a level comparable to that of a Municipal Bond of similar quality and having a maturity equal to the period between interest rate adjustments. The second class bears interest at a rate that exceeds the interest rate typically borne by a security of comparable quality and maturity; this rate also is adjusted, but in this case inversely to changes in the rate of interest of the first class. The aggregate interest paid with respect to the two classes will not exceed the interest paid by the underlying Municipal Bonds. The value of the second-class and similar securities typically fluctuates more than the value of a Municipal Bond of comparable quality and maturity, which would increase the volatility of the Fund's net asset value. These custodial receipts are sold in private placements. The Fund also may purchase directly from issuers, and not in a private placement, Municipal Bonds having characteristics similar to custodial receipts. These securities may be issued as part of a multi-class offering and the interest rate on certain classes may be subject to a cap or floor.

Inverse Floaters. The Fund may invest in residual interest Municipal Bonds whose interest rates bear an inverse relationship to the interest rate on another security or the value of an index ("inverse floaters"). An investment in inverse floaters may involve greater risk than an investment in a fixed-rate Municipal Bond. Because changes in the interest rate on the other security or index inversely affect the residual interest paid on the inverse floater, the value of an inverse floater is generally more volatile than that of a fixed-rate Municipal Bond. Inverse floaters have interest rate adjustment formulas which generally reduce or, in the extreme, eliminate the interest paid to the Fund when short-term interest rates rise, and increase the interest paid to the Fund when short-term interest rates fall. Investing in inverse floaters involves leveraging which may magnify the Fund's gains or losses. Although volatile, inverse floaters typically offer the potential for yields exceeding the yields available on fixed-rate Municipal Bonds with comparable credit quality, coupon, call provisions and maturity. These securities usually permit the investor to convert the floating rate to a fixed rate (normally adjusted downward), and this optional conversion feature may provide a partial hedge against rising rates if exercised at an opportune time.

Inverse floaters typically are derivative instruments created by depositing municipal bonds in a trust which divides the bond's income stream into two parts: a short-term variable rate demand note and a residual interest bond (the inverse floater) which receives interest based on the remaining

cash flow of the trust after payment of interest on the note and various trust expenses. Interest on the inverse floater usually moves in the opposite direction as the interest on the variable rate demand note. The Fund may either participate in structuring an inverse floater or purchase an inverse floater in the secondary market. When structuring an inverse floater, the Fund will transfer to a trust fixed rate Municipal Bonds held in the Fund's portfolio. The trust then typically issues the inverse floaters and the variable rate demand notes that are collateralized by the cash flows of the fixed rate Municipal Bonds. In return for the transfer of the Municipal Bonds to the trust, the Fund receives the inverse floaters and cash associated with the sale of the notes from the trust. Historically, for accounting purposes the Fund has treated these transfers as sales of the Municipal Bonds (which yielded a gain or loss) and a purchase of the inverse floaters. However, as a result of recent changes in the Fund's accounting treatment of these transactions, the Fund now treats these transfers as part of a secured borrowing or financing transaction (not a sale), and the interest payments and related expenses due on the notes issued by the trusts and sold to third parties as liabilities of the Fund. The financial statements of the Fund have been restated for certain periods to reflect these changes. These changes did not impact the net asset value, total return or net investment income of the Fund. Inverse floaters purchased in the secondary market are treated as the purchase of a security and not as a secured borrowing or financing transaction.

Zero Coupon, Pay-In-Kind and Step-up Municipal Bonds. The Fund may invest in zero coupon securities, which are Municipal Bonds issued or sold at a discount from their face value that do not entitle the holder to any periodic payment of interest prior to maturity or a specified redemption date or cash payment date; pay-in-kind bonds, which are Municipal Bonds that generally pay interest through the issuance of additional bonds; and step-up coupon bonds, which are Municipal Bonds that typically do not pay interest for a specified period of time and then pay interest at a series of different rates. For zero-coupon securities, the amount of any discount varies depending on the time remaining until maturity or cash payment date, prevailing interest rates, liquidity of the security and perceived credit quality of the issuer. Zero coupon securities also may take the form of Municipal Bonds that have been stripped of their unmatured interest coupons, the coupons themselves and receipts or certificates representing interest in such stripped debt obligations and coupons. The market prices of these securities generally are more volatile and are likely to respond to a greater degree to changes in interest rates than the market prices of Municipal Bonds that pay cash interest periodically having similar maturities and credit qualities. In addition, unlike Municipal Bonds which pay cash interest throughout the period to maturity, the Fund will realize no cash until the cash payment or maturity date unless a portion of such securities are sold and, if the issuer defaults, the Fund may obtain no return at all on its investment.

Ratings of Municipal Bonds. The Fund will invest at least 75% of the value of its net assets in securities which, in the case of Municipal Bonds, are rated no lower than A by Moody's Investors Service, Inc. ("Moody's"), Standard & Poor's Ratings Services ("S&P") or Fitch Ratings ("Fitch" and, together with Moody's and S&P, the "Rating Agencies") or, if unrated, deemed to be of comparable quality by the Manager. The Fund may invest up to 25% of the value of its net assets in securities which, in the case of Municipal Bonds, are rated lower than A by the Rating Agencies and as low as the lowest rating assigned by the Rating Agencies. For purposes of the 75% requirement described in this paragraph, securities which, while not rated, are determined by the Manager to be of comparable quality to the rated securities in which the Fund may invest will be considered to have the rating so determined.

The average distribution of Fund investments (at value) in Municipal Bonds (including notes) by ratings for the fiscal year ended August 31, 2006, computed on a monthly basis, was as follows:

<u>Fitch</u>	or	<u>Moody's</u>	or	<u>S&amp;P</u>	<u>Percentage of Value</u>
AAA		Aaa		AAA	41.2%
AA		Aa		AA	21.2%
A		A		A	13.7%
BBB		Baa		BBB	14.2%
BB		Ba		BB	2.1%
B		B		B	2.2%
CCC		Caa		CCC	1.1%
F-1, F-1+		MIG 1, P-1		SP-1, A-1	1.2% <sup>(1)</sup>
Not Rated		Not Rated		Not Rated	3.1% <sup>(2)</sup>
					<u>100.0%</u>

---

<sup>(1)</sup> Includes tax exempt notes rated in one of the two highest rating categories by a Rating Agency. These securities, together with Municipal Bonds rated A or better by a Rating Agency, are taken into account at the time of purchase for purposes of determining that the Fund's portfolio meets the 75% minimum quality standard discussed above.

<sup>(2)</sup> Included in the Not Rated category are securities comprising 3.1% of the Fund's market value which, while not rated, have been determined by the Manager to be of comparable quality to securities in the following rating categories: Aaa/AAA (0.9%), Baa/BBB (0.9%), Ba/BB (0.8%) and B/B (0.5%).

Subsequent to its purchase by the Fund, an issue of rated Municipal Bonds may cease to be rated or its rating may be reduced below the minimum required for purchase by the Fund. Neither event will require the sale of such Municipal Bonds by the Fund, but the Manager will consider such event in determining whether the Fund should continue to hold the Municipal Bonds. To the extent that the ratings given by a Rating Agency for Municipal Bonds may change as a result of changes in such organization or its rating system, the Fund will attempt to use comparable ratings as standards for its investments in accordance with the investment policies described in the Prospectus and this Statement of Additional Information. The ratings of the Rating Agencies represent their opinions as to the quality of the Municipal Bonds which they undertake to rate. It should be emphasized, however, that ratings are relative and subjective and are not absolute standards of quality. Although these ratings may be an initial criterion for selection of portfolio investments, the Manager also will evaluate these securities and the creditworthiness of the issuers of such securities.

Taxable Investments. From time to time, on a temporary basis other than for temporary defensive purposes (but not to exceed 20% of the value of the Fund's net assets) or for temporary defensive purposes, the Fund may invest in taxable short-term investments ("Taxable Investments") consisting of: notes of issuers having, at the time of purchase, a quality rating within the two highest grades of a Rating Agency; obligations of the U.S. Government, its agencies or instrumentalities; commercial paper rated not lower than P-1 by Moody's, A-1 by S&P or F-1 by Fitch; certificates of deposit of U.S. domestic banks, including foreign branches of domestic banks, with assets of one billion dollars or more; time deposits; bankers' acceptances and other short-term bank obligations; and

repurchase agreements in respect of any of the foregoing. Dividends paid by the Fund that are attributable to income earned by the Fund from Taxable Investments will be taxable to investors. See “Dividends, Distributions and Taxes.” Except for temporary defensive purposes, at no time will more than 20% of the value of the Fund's net assets be invested in Taxable Investments. Under normal market conditions, the Fund anticipates that not more than 5% of the value of its total assets will be invested in any one category of Taxable Investments.

Investment Companies. The Fund may invest in securities issued by investment companies. Under the 1940 Act, the Fund's investment in such securities, subject to certain exceptions, currently is limited to (i) 3% of the total voting stock of any one investment company, (ii) 5% of the Fund's total assets with respect to any one investment company and (iii) 10% of the Fund's total assets in the aggregate. As a shareholder of another investment company, the Fund would bear, along with other shareholders, its pro rata portion of the other investment company's expenses, including advisory fees. These expenses would be in addition to the advisory fees and other expenses that the Fund bears directly in connection with its own operations. The Fund also may invest its uninvested cash reserves or cash it receives as collateral from borrowers of its portfolio securities in connection with the Fund's securities lending program in shares of one or more money market funds advised by the Manager. Such investments will not be subject to the limitations described above. See “Lending Portfolio Securities.”

Illiquid Securities. The Fund may invest up to 15% of the value of its net assets in securities as to which a liquid trading market does not exist, provided such investments are consistent with the Fund's investment objective. These securities may include securities that are not readily marketable, such as securities that are subject to legal or contractual restrictions on resale, and repurchase agreements providing for settlement in more than seven days after notice. As to these securities, the Fund is subject to a risk that should the Fund desire to sell them when a ready buyer is not available at a price the Fund deems representative of their value, the value of the Fund's net assets could be adversely affected.

#### Investment Techniques

The following information supplements and should be read in conjunction with the Fund's Prospectus. The Fund's use of certain of the investment techniques described below may give rise to taxable income.

Borrowing Money. The Fund is permitted to borrow to the extent permitted under the 1940 Act, which permits an investment company to borrow in an amount up to 33-1/3% of the value of its total assets. The Fund currently intends to borrow money only for temporary or emergency (not leveraging) purposes, in an amount up to 15% of the value of its total assets (including the amount borrowed) valued at the lesser of cost or market, less liabilities (not including the amount borrowed) at the time the borrowing is made. While such borrowings exceed 5% of the Fund's total assets, the Fund will not make any additional investments.

Lending Portfolio Securities. The Fund may lend securities from its portfolio to brokers, dealers and other financial institutions needing to borrow securities to complete certain transactions. In connection with such loans, the Fund remains the owner of the loaned securities and continues to be entitled to payments in amounts equal to the interest, dividends or other distributions payable on the loaned securities. The Fund also has the right to terminate a loan at any time. The Fund may call the

loan to vote proxies if a material issue affecting the Fund's investment is to be voted upon. Loans of portfolio securities may not exceed 33-1/3% of the value of the Fund's total assets (including the value of all assets received as collateral for the loan). The Fund will receive collateral consisting of cash, U.S. Government securities or irrevocable letters of credit which will be maintained at all times in an amount equal to at least 100% of the current market value of the loaned securities. If the collateral consists of a letter of credit or securities, the borrower will pay the Fund a loan premium fee. If the collateral consists of cash, the Fund will reinvest the cash and pay the borrower a pre-negotiated fee or "rebate" from any return earned on the investment. The Fund may participate in a securities lending program operated by Mellon Bank, N.A., as lending agent (the "Lending Agent"). The Lending Agent will receive a percentage of the total earnings of the Fund derived from lending its portfolio securities. Should the borrower of the securities fail financially, the Fund may experience delays in recovering the loaned securities or exercising its rights in the collateral. Loans are made only to borrowers that are deemed by the Manager to be of good financial standing. In a loan transaction, the Fund will also bear the risk of any decline in value of securities acquired with cash collateral. The Fund will minimize this risk by limiting the investment of cash collateral to money market funds advised by the Manager, repurchase agreements or other high quality instruments with short maturities.

Derivatives. The Fund may invest in, or enter into, derivatives for a variety of reasons, including to hedge certain market and interest rate risks, to provide a substitute for purchasing or selling particular securities or to increase potential income gain. Generally, derivatives are financial contracts whose value depends upon, or is derived from, the value of an underlying asset, reference rate or index, and may relate to stocks, bonds, interest rates, currencies, or currency exchange rates, commodities, and related indexes. Derivatives may provide a cheaper, quicker or more specifically focused way for the Fund to invest than "traditional" securities would. Examples of derivative instruments that the Fund may use (in addition to inverse floaters) include options contracts, futures contracts, options on futures contracts, and swap transactions. The Fund's portfolio manager may decide not to employ any of these strategies and there is no assurance that any derivatives strategy used by the Fund will succeed.

Derivatives can be volatile and involve various types and degrees of risk, depending upon the characteristics of the particular derivative and the portfolio as a whole. Derivatives permit the Fund to increase or decrease the level of risk, or change the character of the risk, to which its portfolio is exposed in much the same way as the Fund can increase or decrease the level of risk, or change the character of the risk, of its portfolio by making investments in specific securities. However, derivatives may entail investment exposures that are greater than their cost would suggest, meaning that a small investment in derivatives could have a large potential impact on the Fund's performance.

If the Fund invests in derivatives at inopportune times or judges market conditions incorrectly, such investments may lower the Fund's return or result in a loss. The Fund also could experience losses if its derivatives were poorly correlated with its other investments, or if the Fund were unable to liquidate its position because of an illiquid secondary market. The market for many derivatives is, or suddenly can become, illiquid. Changes in liquidity may result in significant, rapid and unpredictable changes in the prices for derivatives.

Derivatives may be purchased on established exchanges or through privately negotiated transactions referred to as over-the-counter derivatives. Exchange-traded derivatives generally are guaranteed by the clearing agency which is the issuer or counterparty to such derivatives. This

guarantee usually is supported by a daily variation margin system operated by the clearing agency in order to reduce overall credit risk. As a result, unless the clearing agency defaults, there is relatively little counterparty credit risk associated with derivatives purchased on an exchange. By contrast, no clearing agency guarantees over-the-counter derivatives. Therefore, each party to an over-the-counter derivative bears the risk that the counterparty will default. Accordingly, the Manager will consider the creditworthiness of counterparties to over-the-counter derivatives in the same manner as it would review the credit quality of a security to be purchased by the Fund. Over-the-counter derivatives are less liquid than exchange-traded derivatives since the other party to the transaction may be the only investor with sufficient understanding of the derivative to be interested in bidding for it.

Pursuant to regulations and/or published positions of the Securities and Exchange Commission, the Fund may be required to segregate permissible liquid assets to cover its obligations relating to its transactions in derivatives.

Neither the Company nor the Fund will be a commodity pool. The Company has filed notice with the Commodity Futures Trading Commission and National Futures Association of its eligibility, as a registered investment company, for an exclusion from the definition of commodity pool operator and that neither the Company nor the Fund is subject to registration or regulation as a commodity pool operator under the Commodity Exchange Act.

Futures Transactions--In General. A futures contract is an agreement between two parties to buy and sell a security for a set price on a future date. These contracts are traded on exchanges, so that, in most cases, either party can close out its position on the exchange for cash, without delivering the security. An option on a futures contract gives the holder of the option the right to buy from or sell to the writer of the option a position in a futures contract at a specified price on or before a specified expiration date. The Fund may invest in futures contracts and options on futures contracts, including those with respect to interest rates, securities, and security indexes.

Although some futures contracts call for making or taking delivery of the underlying securities, generally these obligations are closed out before delivery by offsetting purchases or sales of matching futures contracts (same exchange, underlying security or index, and delivery month). Closing out a futures contract sale is effected by purchasing a futures contract for the same aggregate amount of the specific type of financial instrument with the same delivery date. If an offsetting purchase price is less than the original sale price, the Fund realizes a capital gain, or if it is more, the Fund realizes a capital loss. Conversely, if an offsetting sale price is more than the original purchase price, the Fund realizes a capital gain, or if it is less, the Fund realizes a capital loss. Transaction costs also are included in these calculations.

The Fund may enter into futures contracts in U.S. domestic markets. Engaging in these transactions involves risk of loss to the Fund, which could adversely affect the value of the Fund's net assets. Although the Fund intends to purchase or sell futures contracts only if there is an active market for such contracts, no assurance can be given that a liquid market will exist for any particular contract at any particular time. Many futures exchanges and boards of trade limit the amount of fluctuation permitted in futures contract prices during a single trading day. Once the daily limit has been reached in a particular contract, no trades may be made that day at a price beyond that limit or trading may be suspended for specified periods during the trading day. Futures contract prices could move to the limit

for several consecutive trading days with little or no trading, thereby preventing prompt liquidation of futures positions and potentially subjecting the Fund to substantial losses.

Successful use of futures and options with respect thereto by the Fund also is subject to the Manager's ability to predict correctly movements in the direction of the relevant market and, to the extent the transaction is entered into for hedging purposes, to ascertain the appropriate correlation between the securities being hedged and the price movements of the futures contract. For example, if the Fund uses futures to hedge against the possibility of a decline in the market value of securities held in its portfolio and the prices of such securities instead increase, the Fund will lose part or all of the benefit of the increased value of securities which it has hedged because it will have offsetting losses in its futures positions. Furthermore, if in such circumstances the Fund has insufficient cash, it may have to sell securities to meet daily variation margin requirements. The Fund may have to sell such securities at a time when it may be disadvantageous to do so.

Specific Futures Transactions. The Fund may purchase and sell interest rate futures contracts. An interest rate future obligates the Fund to purchase or sell an amount of a specific debt security at a future date at a specific price.

The Fund may purchase and sell municipal bond index futures contracts. Municipal bond index futures contracts are based on an index of Municipal Bonds. The index assigns relative values to the Municipal Bonds included in the index and fluctuates with changes in the market value of such Municipal Bonds. The contract is an agreement pursuant to which two parties agree to take or make delivery of an amount of cash based upon the difference between the value of the index at the close of the last trading day of the contract and the price at which the index contract was originally written.

Options—In General. The Fund may invest up to 5% of its assets, represented by the premium paid, in the purchase of call and put options. The Fund may write (i.e., sell) covered call and put option contracts to the extent of 20% of the value of its net assets at the time such option contracts are written. A call option gives the purchaser of the option the right to buy, and obligates the writer to sell, the underlying security or securities at the exercise price at any time during the option period, or at a specific date. Conversely, a put option gives the purchaser of the option the right to sell, and obligates the writer to buy, the underlying security or securities at the exercise price at any time during the option period, or at a specific date.

A covered call option written by the Fund is a call option with respect to which the Fund owns the underlying security or otherwise covers the transaction such as by segregating permissible liquid assets. A put option written by the Fund is covered when, among other things, the Fund segregates permissible liquid assets having a value equal to or greater than the exercise price of the option to fulfill the obligation undertaken or otherwise covers the transaction. The principal reason for writing covered call and put options is to realize, through the receipt of premiums, a greater return than would be realized on the underlying securities alone. The Fund receives a premium from writing covered call or put options which it retains whether or not the option is exercised.

There is no assurance that sufficient trading interest to create a liquid secondary market on a securities exchange will exist for any particular option or at any particular time, and for some options no such secondary market may exist. A liquid secondary market in an option may cease to exist for a variety of reasons. In the past, for example, higher than anticipated trading activity or order flow, or other unforeseen events, at times have rendered certain of the clearing facilities inadequate and resulted

in the institution of special procedures, such as trading rotations, restrictions on certain types of orders or trading halts or suspensions in one or more options. There can be no assurance that similar events, or events that may otherwise interfere with the timely execution of customers' orders, will not recur. In such event, it might not be possible to effect closing transactions in particular options. If, as a covered call option writer, the Fund is unable to effect a closing purchase transaction in a secondary market, it will not be able to sell the underlying security until the option expires or it delivers the underlying security upon exercise or it otherwise covers its position.

Specific Options Transactions. The Fund may purchase and sell call and put options in respect of specific securities (or groups or “baskets” of specific securities) or indices listed on national securities exchanges or traded in the over-the-counter market. An option on an index is similar to an option in respect of specific securities, except that settlement does not occur by delivery of the securities comprising the index. Instead, the option holder receives an amount of cash if the closing level of the index upon which the option is based is greater than in the case of a call, or less than in the case of a put, the exercise price of the option. Thus, the effectiveness of purchasing or writing securities index options will depend upon price movements in the level of the index rather than the price of a particular security.

The Fund may purchase cash-settled options on interest rate swaps discussed below, denominated in U.S. dollars in pursuit of its investment objective.

Successful use by the Fund of options, including options on futures contracts, will be subject to the Manager's ability to predict correctly movements in interest rates. To the extent the Manager's predictions are incorrect, the Fund may incur losses.

Swap Transactions and Other Credit Derivatives. The Fund may engage in swap transactions, including interest rate swaps, interest rate locks, caps, collars and floors, credit default swaps, and index swap agreements and other credit derivative products, to seek to mitigate risk, manage maturity and duration, reduce portfolio turnover, or obtain a particular desired return at a lower cost to the Fund than if the Fund had invested directly in an instrument that yielded the desired return. The Fund also may enter into options in swaps, sometimes called “swaptions.”

Swap agreements are two party contracts entered into primarily by institutional investors for periods ranging from a few weeks to more than one year. In a standard “swap” transaction, two parties agree to exchange returns (or differentials in rates of return) earned or realized on particular predetermined investments or instruments. The gross returns to be exchanged or “swapped” between the parties are generally calculated with respect to a “notional amount,” i.e., the return on or increase in value of a particular dollar amount invested at a particular interest rate, in a particular foreign currency, or in a “basket” of credit default swaps or securities representing a particular index. The “notional amount” of the swap agreement is only used as a basis upon which to calculate the obligations that the parties to a swap agreement have agreed to exchange.

Most swap agreements entered into by the Fund are cash settled and calculate the obligations of the parties to the agreement on a “net basis.” Thus, the Fund’s current obligations (or rights) under a swap agreement generally will be equal only to the net amount to be paid or received under the agreement based on the relative values of the positions held by each party to the agreement (the “net amount”). The Fund’s current obligations under a swap agreement will be accrued daily (offset against any amounts owed to the Fund) and any accrued but unpaid net amounts owed to a sweep counterparty

will be covered by the segregation of permissible liquid assets of the Fund.

A swap option is a contract that gives a counterparty the right (but not the obligation) in return for payment of a premium, to enter into a new swap agreement or to shorten, extend, cancel or otherwise modify an existing swap agreement, at some designated future time on specified terms. A cash-settled option on a swap gives the purchaser the right in return for the premium paid, to receive an amount of cash equal to the value of the underlying swap as of the exercise date. These options typically are purchased in privately negotiated transactions from financial institutions, including securities brokerage firms. Depending on the terms of the particular options agreement, the Fund generally will incur a greater degree of risk when it writes a swap option than it will incur when it purchases a swap option. When the Fund purchases a swap it risks losing only the amount of the premium it has paid should it decide to let the option expire unexercised. However, when the Fund writes a swap option, upon exercise of the option the Fund will become obligated according to the terms of the underlying agreement.

Interest rate swaps are over-the-counter contracts in which each party agrees to make a periodic interest payment based on an index or the value of an asset in return for a periodic payment from the other party based on a different index or asset. The purchase of an interest rate floor entitles the purchaser, to the extent that a specified index falls below a predetermined interest rate, to receive payments of interest on a notional principal amount from the party selling such interest rate floor. The purchase of an interest rate cap entitles the purchase, to the extent that a specified index above a predetermined interest rate, to receive payments of interest on a notional principal amount from the party selling such interest rate cap. Interest rate collars involve selling a cap and purchasing a floor or vice versa to protect the Fund against interest rate movements exceeding given minimum or maximum levels.

The Fund may enter into credit default swap agreements and similar agreements, which may have as reference obligations securities that are or are not currently held by the Fund. The protection “buyer” in a credit default contract may be obligated to pay the protection “seller” an up front payment or a periodic stream of payments over the term of the contract provided generally that no credit event on a reference obligation has occurred. If a credit event occurs, the seller generally must pay the buyer the “par value” (full notional value) of the swap in exchange for an equal face amount of deliverable obligations of the reference entity described in the swap, or the seller may be required to deliver the related net cash amount, if the swap is cash settled. The Fund may be either the buyer or seller in the transaction. If the Fund is a buyer and no credit event occurs, the Fund recovers nothing if the swap is held through its termination date. However, if a credit event occurs, the Fund may elect to receive the full notional value of the swap in exchange for an equal face amount of deliverable obligations of the reference entity that may have little or no value. As a seller, the Fund generally receives an up front payment or a fixed rate of income throughout the term of the swap, which typically is between six months and three years, provided that there is no credit event. If a credit event occurs, generally the seller must pay the buyer the full notional value of the swap in exchange for an equal face amount of deliverable obligations of the reference entity that may have little or no value. Credit default swaps and similar instruments involve greater risks than if the Fund had invested in the reference obligations directly, since, in addition to general market risks, they are subject to illiquid risk, counterparty risk and credit risk.

The use of credit derivatives is a highly specialized activity which involves strategies and risks different from those associated with ordinary portfolio security transactions. If the Manager is incorrect

in its forecasts of default risks, market spreads or other applicable factors, or a counterparty defaults, the investment performance of the Fund would diminish compared with what it would have been if these techniques were not used. In addition, it is possible that developments in the credit derivatives market, including potential government regulation, could adversely affect the Fund's ability to terminate existing swap or other credit derivative agreements or to realize amounts to be received under such agreements.

The Fund will enter into swap and other credit derivatives transactions only when the Manager believes it would be in the best interest of the Fund to do so. In addition, the Fund will enter into a swap and other credit derivative agreements only with counterparties that meet certain standards of creditworthiness (generally, such counterparties would have to be eligible counterparties under the terms of the Fund's repurchase agreement guidelines).

Future Developments. The Fund may take advantage of opportunities in options and futures contracts and options on futures contracts and any other derivatives which are not presently contemplated for use by the Fund or which are not currently available but which may be developed, to the extent such opportunities are both consistent with the Fund's investment objective and legally permissible for the Fund. Before entering into such transactions or making any such investment, the Fund will provide appropriate disclosure in its Prospectus or this Statement of Additional Information.

Stand-By Commitments. The Fund may acquire "stand-by commitments" with respect to Municipal Bonds held in its portfolio. Under a stand-by commitment, the Fund obligates a broker, dealer or bank to repurchase, at the Fund's option, specified securities at a specified price and, in this respect, stand-by commitments are comparable to put options. The exercise of a stand-by commitment, therefore, is subject to the ability of the seller to make payment on demand. The Fund will acquire stand-by commitments solely to facilitate its portfolio liquidity and does not intend to exercise its rights thereunder for trading purposes. The Fund may pay for stand-by commitments if such action is deemed necessary, thus increasing to a degree the cost of the underlying Municipal Bond and similarly decreasing such security's yield to investors. Gains realized in connection with stand-by commitments will be taxable. The Fund may acquire call options on specific Municipal Bonds. The Fund generally would purchase these call options to protect the Fund from the issuer of the related Municipal Bond redeeming, or other holder of the call option from calling away, the Municipal Bond before maturity. The sale by the Fund of a call option that it owns on a specific Municipal Bond could result in the receipt of taxable income by the Fund.

Forward Commitments. The Fund may purchase or sell Municipal Bonds and other securities on a forward commitment, when-issued or delayed-delivery basis, which means that delivery and payment take place a number of days after the date of the commitment to purchase. The payment obligation and the interest rate receivable on a forward commitment, when-issued, or delayed-delivery security are fixed when the Fund enters into the commitment, but the Fund does not make payment until it receives delivery from the counterparty. The Fund will commit to purchase such securities only with the intention of actually acquiring the securities, but the Fund may sell these securities before the settlement date if it is deemed advisable. The Fund will segregate permissible liquid assets at least equal at all times to the amount of the Fund's purchase commitments.

Municipal Bonds and other securities purchased on a forward commitment, when-issued, or delayed-delivery basis are subject to changes in value (generally changing in the same way, i.e., appreciating when interest rates decline and depreciating when interest rates rise) based upon the

public's perception of the creditworthiness of the issuer and changes, real or anticipated, in the level of interest rates. Securities purchased on a forward commitment, when-issued, or delayed-delivery basis may expose the Fund to risks because they may experience such fluctuations prior to their actual delivery. Purchasing securities on a forward commitment, when-issued, or delayed-delivery basis can involve the additional risk that the yield available in the market when the delivery takes place actually may be higher than that obtained in the transaction itself. Purchasing securities on a forward commitment, when-issued, or delayed-delivery basis when the Fund is fully or almost fully invested may result in greater potential fluctuation in the value of the Fund's net assets and its net asset value per share.

### Certain Investment Considerations and Risks

General. Even though interest-bearing securities are investments, which promise a stable stream of income, the prices of such securities are inversely affected by changes in interest rates and, therefore, are subject to the risk of market price fluctuations. Certain securities that may be purchased by the Fund, such as those with interest rates that fluctuate directly or indirectly based on multiples of a stated index, are designed to be highly sensitive to changes in interest rates and can subject the holders thereof to extreme reductions of yield and possibly loss of principal. The values of fixed-income securities also may be affected by changes in the credit rating or financial condition of the issuing entities. The net asset value of the Fund generally will not be stable and should fluctuate based upon changes in the value of its respective portfolio securities. Securities in which the Fund invests may earn a higher level of current income than certain shorter-term or higher quality securities, which generally have greater liquidity, less market risk and less fluctuation in market value.

Investing In Municipal Bonds. The Fund may invest more than 25% of the value of its total assets in Municipal Bonds which are related in such a way that an economic, business or political development or change affecting one such security also would affect the other securities; for example, securities the interest upon which is paid from revenues of similar types of projects, or securities whose issuers are located in the same state. As a result, the Fund may be subject to greater risk as compared to a municipal bond fund that does not follow this practice.

Certain provisions in the Internal Revenue Code of 1986, as amended (the "Code"), relating to the issuance of Municipal Bonds may reduce the volume of Municipal Bonds qualifying for Federal tax exemption. One effect of these provisions could be to increase the cost of the Municipal Bonds available for purchase by the Fund and thus reduce available yield. Shareholders should consult their tax advisers concerning the effect of these provisions on an investment in the Fund. Proposals that may restrict or eliminate the income tax exemption for interest on Municipal Bonds may be introduced in the future. If any such proposal were enacted that would reduce the availability of Municipal Bonds for investment by the Fund so as to adversely affect Fund shareholders, the Fund would reevaluate its investment objective and policies and submit possible changes in the Fund's structure to shareholders for their consideration. If legislation were enacted that would treat a type of Municipal Bond as taxable, the Fund would treat such security as a permissible Taxable Investment within the applicable limits set forth herein.

Lower Rated Securities. The Fund may invest up to 25% of the value of its net assets in higher yielding (and, therefore, higher risk) debt securities, such as those rated below investment grade by the Rating Agencies (commonly known as "junk" bonds). They may be subject to certain risks with respect to the issuing entity and to greater market fluctuations than certain lower yielding, higher rated

Municipal Bonds. See “Appendix” for a general description of the Rating Agencies' ratings of Municipal Bonds. Although ratings may be useful in evaluating the safety of interest and principal payments, they do not evaluate the market value risk of these bonds. The Fund will rely on the Manager's judgment, analysis and experience in evaluating the creditworthiness of an issuer.

You should be aware that the market values of many of these bonds tend to be more sensitive to economic conditions than are higher rated securities and will fluctuate over time. These bonds generally are considered by the Rating Agencies to be, on balance, predominantly speculative with respect to capacity to pay interest and repay principal in accordance with the terms of the obligation and generally will involve more credit risk than securities in the higher rating categories.

Because there is no established retail secondary market for many of these securities, the Fund anticipates that such securities could be sold only to a limited number of dealers or institutional investors. To the extent a secondary trading market for these bonds does exist, it generally is not as liquid as the secondary market for higher rated securities. The lack of a liquid secondary market may have an adverse impact on market price and yield and the Fund's ability to dispose of particular issues when necessary to meet the Fund's liquidity needs or in response to a specific economic event such as a deterioration in the creditworthiness of the issuer. The lack of a liquid secondary market for certain securities also may make it more difficult for the Fund to obtain accurate market quotations for purposes of valuing the Fund's portfolio and calculating its net asset value. Adverse publicity and investor perceptions, whether or not based on fundamental analysis, may decrease the values and liquidity of these securities. In such cases, judgment may play a greater role in valuation because less reliable objective data may be available.

These bonds may be particularly susceptible to economic downturns. An economic recession could adversely affect the ability of the issuers of lower rated bonds to repay principal and pay interest thereon which would increase the incidence of default for such securities. It is likely that any economic recession also would disrupt severely the market for such securities and have an adverse impact on their value.

The Fund may acquire these bonds during an initial offering. Such securities may involve special risks because they are new issues. The Fund has no arrangement with any person concerning the acquisition of such securities, and the Manager will review carefully the credit and other characteristics pertinent to such new issues.

The credit risk factors pertaining to lower rated securities also apply to lower rated zero coupon bonds, pay-in-kind bonds and step-up bonds, in which the Fund may invest up to 5% of its total assets. In addition to the risks associated with the credit rating of the issuers, the market price of these securities may be very volatile during the period no interest is paid.

### Investment Restrictions

The Fund's investment objective and its policy to normally invest at least 80% of its net assets (plus any borrowings for investment purposes) in Municipal Bonds (or other instruments with similar economic characteristics) are fundamental policies, which cannot be changed without approval by the holders of a majority (as defined in the 1940 Act) of the Fund's outstanding voting shares. In addition, the Fund has adopted investment restrictions numbered 1 through 8 as fundamental policies.

Investment restrictions numbered 9 through 14 are not fundamental policies and may be changed by a vote of a majority of the Company's Board members at any time. The Fund may not:

1. Invest more than 5% of its assets in the obligations of any single issuer, except that up to 25% of the value of the Fund's total assets may be invested, and securities issued or guaranteed by the U.S. Government, its agencies or instrumentalities may be purchased, without regard to any such limitation.

2. Hold more than 10% of the voting securities of any single issuer. This Investment Restriction applies only with respect to 75% of the Fund's total assets.

3. Invest more than 25% of its total assets in the securities of issuers in any single industry; provided that there shall be no limitation on the purchase of Municipal Bonds and, for temporary defensive purposes, obligations issued or guaranteed by the U.S. Government, its agencies or instrumentalities.

4. Borrow money, except to the extent permitted under the 1940 Act (which currently limits borrowing to no more than 33-1/3% of the value of the Fund's total assets). For purposes of this investment restriction, the entry into options, forward contracts, futures contracts, including those relating to indices, and options on futures contracts or indices shall not constitute borrowing.

5. Purchase or sell real estate, commodities or commodity contracts, or oil and gas interests, but this shall not prevent the Fund from investing in Municipal Bonds secured by real estate or interests therein, or prevent the Fund from purchasing and selling options, forward contracts, futures contracts, including those relating to indices, and options on futures contracts or indices.

6. Underwrite the securities of other issuers, except that the Fund may bid separately or as part of a group for the purchase of Municipal Bonds directly from an issuer for its own portfolio to take advantage of the lower purchase price available, and except to the extent the Fund may be deemed an underwriter under the Securities Act of 1933, as amended, by virtue of disposing of portfolio securities.

7. Make loans to others, except through the purchase of debt obligations and the entry into repurchase agreements; however, the Fund may lend its portfolio securities in an amount not to exceed 33-1/3% of the value of its total assets. Any loans of portfolio securities will be made according to guidelines established by the Securities and Exchange Commission and the Company's Board.

8. Issue any senior security (as such term is defined in Section 18(f) of the 1940 Act), except to the extent that the activities permitted in Investment Restrictions numbered 4, 5 and 12 may be deemed to give rise to a senior security.

9. Sell securities short or purchase securities on margin, but the Fund may make margin deposits in connection with transactions in options, forward contracts, futures contracts, including those relating to indices, and options on futures contracts or indices.

10. Purchase securities other than Municipal Bonds and Taxable Investments and those arising out of transactions in futures and options or as otherwise provided in the Fund's Prospectus.

11. Invest in securities of other investment companies, except to the extent permitted under the 1940 Act.

12. Pledge, hypothecate, mortgage or otherwise encumber its assets, except to the extent necessary to secure permitted borrowings and to the extent related to the deposit of assets in escrow in connection with the purchase of securities on a when-issued or delayed-delivery basis and collateral and initial or variation margin arrangements with respect to options, forward contracts, futures contracts, including those related to indices, and options on futures contracts or indices.

13. Enter into repurchase agreements providing for settlement in more than seven days after notice or purchase securities which are illiquid (which securities could include participation interests (including municipal lease/purchase agreements) that are not subject to the demand feature described in the Fund's Prospectus, and floating and variable rate demand obligations as to which the Fund cannot exercise the demand feature described in the Fund's Prospectus on less than seven days' notice and as to which there is no secondary market) if, in the aggregate, more than 15% of its net assets would be so invested.

14. Invest in companies for the purpose of exercising control.

\* \* \*

For purposes of Investment Restriction No. 3, industrial development bonds, where the payment of principal and interest is the ultimate responsibility of companies within the same industry, are grouped together as an "industry."

If a percentage restriction is adhered to at the time of investment, a later change in percentage resulting from a change in values or assets will not constitute a violation of such restriction. With respect to Investment Restriction No. 4, however, if borrowings exceed 33-1/3% of the value of the Fund's total assets as a result of a change in values or assets, the Fund must take steps to reduce such borrowings at least to the extent of such excess.

#### MANAGEMENT OF THE COMPANY

The Company's Board is responsible for the management and supervision of the Fund, and approves all significant agreements with those companies that furnish services to the Fund. These companies are as follows:

The Dreyfus Corporation.....	Investment Adviser
MBSC Securities Corporation.....	Distributor
Dreyfus Transfer, Inc.....	Transfer Agent
The Bank of New York.....	Custodian

## Board Members of the Company \*

Board members of the Company, together with information as to their positions with the Company, principal occupations and other board memberships and affiliations, are shown below.

<u>Name (Age)</u> <u>Position with Company (Since)</u>	<u>Principal Occupation</u> <u>During Past 5 Years</u>	<u>Other Board Memberships and Affiliations</u>
Joseph S. DiMartino (63) Chairman of the Board (1995)	Corporate Director and Trustee	The Muscular Dystrophy Association, <i>Director</i> Century Business Services, Inc., a provider of outsourcing functions for small and medium size companies, <i>Director</i> The Newark Group, a provider of a national market of paper recovery facilities, paperboard mills and paperboard converting plants, <i>Director</i> Sunair Services Corporation, engaging in the design, manufacture and sale of high frequency systems for long-range voice and data communications, as well as providing certain outdoor-related services to homes and businesses, <i>Director</i> Ivory Investment Management, L.P., a registered investment adviser to three private funds, <i>Senior Advisor</i>
David W. Burke (71) Board Member (1994)	Corporate Director and Trustee	John F. Kennedy Library Foundation, <i>Director</i>
William Hodding Carter III (72) Board Member (1988)	Professor of Leadership & Public Policy, University of North Carolina, Chapel Hill (January 1, 2006 – present) President and Chief Executive Officer of the John S. and James L. Knight Foundation (February 1, 1998 – February 1, 2006)	The Century Foundation, <i>Emeritus Director</i> The Enterprise Corporation of the Delta, <i>Director</i>
Gordon J. Davis (65) Board Member (2006)	Partner in the law firm of LeBoeuf, Lamb, Greene & MacRae, LLP President, Lincoln Center for the Performing Arts, Inc. (2001)	Consolidated Edison, Inc., a utility company, <i>Director</i> Phoenix Companies, Inc., a life insurance company, <i>Director</i> Board Member/Trustee for several not-for- profit groups
Joni Evans (65) Board Member (2006)	Principal, Joni Evans Ltd. Senior Vice President of the William Morris Agency (2005)	None

\* None of the Board members are “interested persons” of the Fund, as defined in the 1940 Act.

<u>Name (Age)</u> <u>Position with Company (Since)</u>	<u>Principal Occupation</u> <u>During Past 5 Years</u>	<u>Other Board Memberships and Affiliations</u>
Ehud Houminer (66) Board Member (1994)	Executive-in-Residence at the Columbia Business School, Columbia University	Avnet Inc., an electronics distributor, <i>Director</i> International Advisory Board to the MBA Program School of Management, Ben Gurion University, <i>Chairman</i>
Richard C. Leone (67) Board Member (1976)	President of The Century Foundation (formerly, The Twentieth Century Fund, Inc.), a tax exempt research foundation engaged in the study of economic, foreign policy and domestic issues	None
Hans C. Mautner (69) Board Member (1978)	President-International Division and an Advisory Director of Simon Property Group, a real estate investment company, (1998 – present) Director and Vice Chairman of Simon Property Group (1998-2003) Chairman and Chief Executive Officer of Simon Global Limited (1999 – present)	Capital and Regional PLC, a British co-investing real estate asset manager, <i>Director</i> Member –Board of Managers of: Mezzacappa Long/Short Fund LLC Mezzacappa Partners LLC
Robin A. Melvin (43) Board Member (1995)	Director, Boisi Family Foundation, a private family foundation that supports youth-serving organizations that promote the self sufficiency of youth from disadvantaged circumstances	None
Burton N. Wallack (56) Board Member (2006)	President and co-owner of Wallack Management Company, a real estate management company	None
John E. Zuccotti (70) Board Member (1977)	Chairman of Brookfield Financial Properties, Inc. Senior Counsel of Weil, Gotshal & Manges, LLP Chairman of the Real Estate Board of New York	Emigrant Savings Bank, <i>Director</i> Wellpoint, Inc., <i>Director</i> Visiting Nurse Service of New York, <i>Director</i> Columbia University, <i>Trustee</i> Doris Duke Charitable Foundation, <i>Trustee</i>

Board members are elected to serve for an indefinite term. The Company has standing audit, nominating and compensation committees, each comprised of its Board members who are not

“interested persons” of the Company, as defined in the 1940 Act. The function of the audit committee is (i) to oversee the Fund’s accounting and financial reporting processes and the audits of the Fund’s financial statements and (ii) to assist in the Board’s oversight of the integrity of the Fund’s financial statements, the Fund’s compliance with legal and regulatory requirements and the independent registered public accounting firms’ qualifications, independence and performance. The Company’s nominating committee is responsible for selecting and nominating persons as members of the Board for elections or appointment by the Board and for election by shareholders. In evaluating potential nominees, including any nominees recommended by shareholders, the committee takes into consideration various factors listed in the nominating committee charter, including character and integrity, business and professional experience, and whether the committee believes the person has the ability to apply sound and independent business judgment and would act in the interest of the Fund and its shareholders. The nominating committee will consider recommendations for nominees from shareholders submitted to the Secretary of the Company, c/o The Dreyfus Corporation Legal Department, 200 Park Avenue, 8<sup>th</sup> Floor East, New York, New York 10166, which includes information regarding the recommended nominee as specified in the nominating committee charter. The function of the compensation committee is to establish the appropriate compensation for serving on the Board. The Company also has a standing pricing committee comprised of any one Board member. The function of the pricing committee is to assist in valuing the Fund’s investments. The Company’s audit committee met four times and its pricing and nominating committees met once during the fiscal year ended the August 31, 2006. The compensation committee did not meet during the Company’s last fiscal year.

The table below indicates the dollar range of each Board member’s ownership of Fund shares and shares of other funds in the Dreyfus Family of Funds for which he or she is a Board member, in each case as of December 31, 2006.

<u>Name of Board Member</u>	<u>Fund</u>	<u>Aggregate Holdings of Funds in the Dreyfus Family of Funds for which Responsible as a Board Member</u>
Joseph S. DiMartino	None	Over \$100,000
David W. Burke	None	Over \$100,000
William Hodding Carter III	None	None
Gordon Davis	None	\$10,001-\$50,000
Joni Evans	None	\$10,001-\$50,000
Ehud Houminer	None	Over \$100,000
Richard C. Leone	\$50,001 - \$100,000	Over \$100,000
Hans C. Mautner	Over \$100,000	Over \$100,000
Robin A. Melvin	None	Over \$100,000
Burton Wallack	None	None
John E. Zuccotti	None	Over \$100,000

As of December 31, 2006, none of the Board members or their immediate family members owned securities of the Manager, the Distributor or any person (other than a registered investment company) directly or indirectly controlling, controlled by or under common control with the Manager or the Distributor.

The Company currently pays its Board members its allocated portion of an annual retainer of \$50,000 and a fee of \$6,500 per meeting (with a minimum of \$500 per meeting and per telephone meeting) attended for the Company and eighteen other funds (comprised of 30 portfolios) in the Dreyfus Family of Funds, and reimburses them for their expenses. The Chairman of the Board receives an additional 25% of such compensation. Emeritus Board members, if any, are entitled to receive an annual retainer and a per meeting attended fee of one-half the amount payable to them as Board members. The aggregate amount of compensation paid to each Board member by the Company for the fiscal year ended August 31, 2006, and by all funds in the Dreyfus Family of Funds for which such person is a Board member (the number of portfolios of such funds is set forth in parenthesis next to each Board member's total compensation) for the year ended December 31, 2006 was as follows:

<u>Name of Board Member</u>	<u>Aggregate Compensation from the Company(*)</u>	<u>Total Compensation from the Company and Fund Complex Paid to Board Members (**)</u>
Joseph S. DiMartino	\$24,568	\$857,400 (193)
David W. Burke	\$19,644	\$285,500 (83)
Hodding Carter, III	\$19,552	\$ 51,000 (30)
Gordon Davis <sup>†</sup>	N/A	\$102,500 (39)
Joni Evans <sup>†</sup>	N/A	\$ 51,500 (30)
Arnold Hiatt <sup>†±</sup>	N/A	\$ 47,500 (30)
Ehud Houminer	\$19,552	\$143,250 (79)
Richard C. Leone	\$16,695	\$ 47,000 (30)
Hans C. Mautner	\$18,240	\$ 48,000 (30)
Robin A. Melvin	\$18,099	\$ 52,000 (30)
Burton Wallack <sup>†</sup>	N/A	\$ 51,500 (30)
John E. Zuccotti	\$19,644	\$ 51,500 (30)

-----  
 \* Amount does not include the cost of office space, secretarial services and health benefits for the Chairman and expenses reimbursed to Board members for attending Board meetings, which in the aggregate amounted to \$2,318.

\*\* Represents the number of separate portfolios comprising the investment companies in the Fund Complex, including the Fund, for which the Board member serves.

<sup>†</sup> Ms. Evans and Messrs. Davis, Hiatt and Wallack were elected Board members of the Company effective November 6, 2006. Accordingly, they received no compensation from the Company for periods prior thereto.

<sup>±</sup> Emeritus Board member since May 26, 2007.

## Officers of the Company

J. DAVID OFFICER, President since December 2006. Chief Operating Officer, Vice Chairman and a Director of the Manager, and an officer of 86 investment companies (comprised of 168 portfolios) managed by the Manager. He is 58 years old and has been an employee of the Manager since April 1998.

PHILLIP N. MAISANO, Executive Vice President since July 2007. Chief Investment Officer, Vice Chair and a director of the Manager, and an officer of 83 investment companies (comprised of 165 portfolios) managed by the Manager. Mr. Maisano also is an officer and/or board member of certain other investment management subsidiaries of The Bank of New York Mellon Corporation, each of which is an affiliate of the Manager. He is 60 years old and has been an employee of the Manager since November 2006. Prior to joining the Manager, Mr. Maisano served as Chairman and Chief Executive Officer of EACM Advisors, an affiliate of the Manager, since August 2004, and served as Chief Executive Officer of Evaluation Associates, a leading institutional investment consulting firm, from 1988 until 2004.

MARK N. JACOBS, Vice President since March 2000. Executive Vice President, Secretary and General Counsel of the Manager, and an officer of 87 investment companies (comprised of 184 portfolios) managed by the Manager. He is 61 years old and has been an employee of the Manager since June 1977.

JAMES WINDELS, Treasurer since November 2001. Director-Mutual Fund Accounting of the Manager, and an officer of 87 investment companies (comprised of 184 portfolios) managed by the Manager. He is 48 years old and has been an employee of the Manager since April 1985.

MICHAEL A. ROSENBERG, Vice President and Secretary since August 2005. Associate General Counsel of the Manager, and an officer of 87 investment companies (comprised of 184 portfolios) managed by the Manager. He is 47 years old and has been an employee of the Manager since October 1991.

JAMES BITETTO, Vice President and Assistant Secretary since August 2005. Associate General Counsel and Assistant Secretary of the Manager, and an officer of 87 investment companies (comprised of 184 portfolios) managed by the Manager. He is 41 years old and has been an employee of the Manager since December 1996.

JONI LACKS CHARATAN, Vice President and Assistant Secretary since August 2005. Associate General Counsel of the Manager, and an officer of 87 investment companies (comprised of 184 portfolios) managed by the Manager. She is 51 years old and has been an employee of the Manager since October 1988.

JOSEPH M. CHIOFFI, Vice President and Assistant Secretary since August 2005. Associate General Counsel of the Manager, and an officer of 87 investment companies (comprised of 184 portfolios) managed by the Manager. He is 45 years old and has been an employee of the Manager since June 2000.

JANETTE E. FARRAGHER, Vice President and Assistant Secretary since August 2005. Associate General Counsel of the Manager, and an officer of 87 investment companies (comprised of 184 portfolios) managed by the Manager. She is 44 years old and has been an employee of the Manager since February 1984.

JOHN B. HAMMALIAN, Vice President and Assistant Secretary since August 2005. Associate General Counsel of the Manager, and an officer of 87 investment companies (comprised of 184 portfolios) managed by the Manager. He is 44 years old and has been an employee of the Manager since February 1991.

ROBERT R. MULLERY, Vice President and Assistant Secretary since August 2005. Associate General Counsel of the Manager, and an officer of 87 investment companies (comprised of 184 portfolios) managed by the Manager. He is 55 years old and has been an employee of the Manager since May 1986.

JEFF PRUSNOFSKY, Vice President and Assistant Secretary since August 2005. Associate General Counsel of the Manager, and an officer of 87 investment companies (comprised of 184 portfolios) managed by the Manager. He is 42 years old and has been an employee of the Manager since October 1990.

GAVIN C. REILLY, Assistant Treasurer since December 2005. Tax Manager of the Investment Accounting and Support Department of the Manager, and an officer of 87 investment companies (comprised of 184 portfolios) managed by the Manager. He is 38 years old and has been an employee of the Manager since April 1991.

ROBERT S. ROBOL, Assistant Treasurer since August 2005. Senior Accounting Manager – Money Market and Municipal Bond Funds of the Manager, and an officer of 87 investment companies (comprised of 184 portfolios) managed by the Manager. He is 43 years old and has been an employee of the Manager since October 1988.

ROBERT SVAGNA, Assistant Treasurer since August 2005. Senior Accounting Manager – Equity Funds of the Manager, and an officer of 87 investment companies (comprised of 184 portfolios) managed by the Manager. He is 40 years old and has been an employee of the Manager since November 1990.

ROBERT SALVIOLO, Assistant Treasurer since July 1007. Senior Accounting Manager – Equity Funds of the Manager, and an officer of 84 investment companies (comprised of 181 portfolios) managed by the Manager. He is 40 years old and has been an employee of the Manager since June 1989.

WILLIAM GERMENIS, Anti-Money Laundering Compliance Officer since October 2002. Vice President and Anti-Money Laundering Compliance Officer of the Distributor, and the Anti-Money Laundering Compliance Officer of 83 investment companies (comprised of 180 portfolios) managed by the Manager. He is 36 years old and has been an employee of the Distributor since October 1998.

JOSEPH W. CONNOLLY, Chief Compliance Officer since September 2004. Chief Compliance Officer of the Manager and The Dreyfus Family of Funds (87 investment companies, comprised of 184 portfolios). From November 2001 through March 2004, Mr. Connolly was first Vice-President, Mutual Fund Servicing for Mellon Global Securities Services. In that capacity, Mr. Connolly was responsible for managing Mellon's Custody, Fund Accounting and Fund Administration services to third-party mutual fund clients. He is 50 years old and has served in various capacities with the Manager since 1980, including manager of the firm's Fund Accounting Department from 1997 through October 2001.

The address of each Board member and officer of the Company is 200 Park Avenue, New York, New York 10166.

The Company's Board members and officers, as a group, owned less than 1% of the Fund's shares outstanding on December 29, 2006.

As of December 29, 2006, there were no shareholders known by the Fund to own of record 5% or more of the outstanding voting securities of the Fund.

## MANAGEMENT ARRANGEMENTS

Investment Adviser. The Manager is a wholly-owned subsidiary of Mellon Financial Corporation ("Mellon"). Mellon is a global financial holding company incorporated under Pennsylvania law in 1971 and registered under the Federal Bank Holding Company Act of 1956, as amended. Mellon provides a comprehensive range of financial products and services in domestic and selected international markets.

The Manager provides management services pursuant to a Management Agreement (the "Agreement") between the Company and the Manager. As to the Fund, the Agreement is subject to annual approval by (i) the Company's Board or (ii) vote of a majority (as defined in the 1940 Act) of the outstanding voting securities of the Fund, provided that in either event the continuance also is approved by a majority of the Board members who are not "interested persons" (as defined in the 1940 Act) of the Company or the Manager, by vote cast in person at a meeting called for the purpose of voting on such approval. The Agreement is terminable without penalty, on 60 days' notice, by the Fund's Board or by vote of the holders of a majority of the Company's outstanding voting shares, or, upon not less than 90 days' notice, by the Manager. The Agreement will terminate automatically in the event of its assignment (as defined in the 1940 Act).

The following persons are officers and/or directors of the Manager: Jonathan Little, Chair of the Board; Thomas F. Eggers, President, Chief Executive Officer and a director; Jonathan Baum, Vice Chair – Distribution and a director; J. Charles Cardona, Vice Chair and a director; Diane P. Durnin,

Vice Chair and a director; Phillip N. Maisano, Chief Investment Officer, Vice Chair and a director; J. David Officer, Chief Operating Officer, Vice Chair and a director; Mark N. Jacobs, Executive Vice President, General Counsel and Secretary; Patrice M. Kozlowski, Senior Vice President-Corporate Communications; Jill Gill, Vice President-Human Resources; Anthony Mayo, Vice President-Information Systems; Theodore A. Schachar, Vice President-Tax; Alex G. Sciulli, Vice President; Gary Pierce, Controller; Joseph W. Connolly, Chief Compliance Officer; James Bitetto, Assistant Secretary; and Ronald P. O'Hanley III, director.

The Manager's Code of Ethics subjects its employees' personal securities transactions to various restrictions to ensure that such trading does not disadvantage any fund advised by the Manager. In that regard, portfolio managers and other investment personnel of the Manager must preclear and report their personal securities transactions and holdings, which are reviewed for compliance with the Code of Ethics and are also subject to the oversight of Mellon's Investment Ethics Committee (the "Committee"). Portfolio managers and other investment personnel of the Manager who comply with the preclearance and disclosure procedures of the Code of Ethics and the requirements of the Committee may be permitted to purchase, sell or hold securities which also may be or are held in fund(s) they manage or for which they otherwise provide investment advice.

The Manager maintains office facilities on behalf of the Fund, and furnishes statistical and research data, clerical help, accounting, data processing, bookkeeping and internal auditing and certain other required services to the Fund. The Manager may pay the Distributor for shareholder services from the Manager's own assets, including past profits but not including the management fee paid by the Fund. The Distributor may use part or all of such payments to pay certain financial institutions (which may include banks), securities dealers and other industry professionals (collectively, "Service Agents") in respect of these services. The Manager also may make such advertising and promotional expenditures, using its own resources, as it from time to time deems appropriate.

Expenses. All expenses incurred in the operation of the Company are borne by the Company, except to the extent specifically assumed with respect to the Fund by the Manager. The expenses borne by the Company include: taxes, interest, loan commitment fees, interest on securities sold short, brokerage fees and commissions, if any, fees of Board members who are not officers, directors, employees or holders of 5% or more of the outstanding voting securities of the Manager, Securities and Exchange Commission fees, state Blue Sky qualification fees, advisory fees, charges of custodians, transfer and dividend disbursing agents' fees, certain insurance premiums, industry association fees, outside auditing and legal expenses, costs of maintaining the Fund's existence, costs of independent pricing services, costs attributable to investor services (including, without limitation, telephone and personnel expenses), costs of shareholders' reports and meetings, costs of preparing and printing prospectuses and statements of additional information for regulatory purposes and for distribution to existing shareholders, and any extraordinary expenses. Expenses attributable to the Fund are charged against the assets of the Fund; other expenses of the Company are allocated among the Fund and the Company's other series on the basis determined by the Company's Board, but not limited to, proportionately in relation to the net assets of each.

As compensation for the Manager's services, the Fund has agreed to pay the Manager a monthly management fee at the annual rate of 0.60% of the value of the Fund's average daily net assets. All fees and expenses are accrued daily and deducted before the declaration of dividends to shareholders. For the fiscal years ended August 31, 2004, 2005 and 2006, the management fees payable by the Fund

amounted to \$13,396,456, \$12,604,537 and \$12,045,296, respectively, which amounts were reduced by \$ 922,108, \$788,226 and \$0 for the fiscal years ended August 31, 2004, 2005 and 2006 pursuant to an undertaking then in effect, resulting in net fees paid of \$12,474,348 in fiscal 2004, \$11,816,311 in fiscal 2005 and \$12,045,296 in fiscal 2006.

The Manager has agreed that if in any fiscal year the aggregate expenses of the Fund, exclusive of taxes, brokerage fees, interest on borrowings and (with the prior written consent of the necessary state securities commissions) extraordinary expenses, but including the management fee, exceed 1½% of the value of the Fund's average net assets for the fiscal year, the Fund may deduct from the payment to be made to the Manager under the Agreement, or the Manager will bear, such excess expense. Such deduction or payment, if any, will be estimated, reconciled and effected or paid, as the case may be, on a monthly basis.

The aggregate of the fees payable to the Manager is not subject to reduction as the value of the Fund's net assets increases.

Portfolio Managers. The Manager manages the Fund's portfolio of investments in accordance with the stated policies of the Fund, subject to the approval of the Company's Board. The Manager is responsible for investment decisions and provides the Fund with portfolio managers who are authorized by the Company's Board to execute purchases and sales of securities. The Fund's portfolio managers are Joseph P. Darcy, A. Paul Disdier, Douglas J. Gaylor, Joseph A. Irace, Colleen A. Meehan, W. Michael Petty, Bill Vasiliou, James Welch and Monica S. Wieboldt. The Manager also maintains a research department with a professional staff of portfolio managers and securities analysts who provide research services for the Fund and for other funds advised by the Manager.

Portfolio Manager Compensation. Portfolio manager compensation is comprised primarily of a market-based salary and an incentive compensation plan. The Fund's portfolio managers are compensated by Dreyfus or its affiliates and not by the Fund. The incentive compensation plan is comprised of three components: Fund performance (approximately 60%), individual qualitative performance (approximately 20%) and Dreyfus financial performance as measured by Dreyfus' pre-tax net income (approximately 20%). Up to 10% of the incentive plan compensation may be paid in Mellon restricted stock.

Portfolio performance is measured by a combination of yield (35%) and total return (65%) relative to the appropriate Lipper peer group. 1-year performance in each category is weighted at 40% and 3-year performance at 60%. The portfolio manager's performance is measured on either a straight average (each account weighted equally) or a combination of straight average and asset-weighted average. Generally, if the asset-weighted average is higher, then that is used to measure performance. If the straight average is higher, then typically an average of the two is used to measure performance.

Individual qualitative performance is based on Dreyfus' Chief Investment Officer's evaluation of the portfolio manager's performance based on any combination of the following: marketing contributions; new product development; performance on special assignments; people development; methodology enhancements; fund growth/gain in market; and support to colleagues. The Chief Investment Officer may consider additional factors at his discretion.

Portfolio managers are also eligible for Dreyfus' Long Term Incentive Plan. Under that plan, cash and/or Mellon restricted stock is awarded at the discretion of the Chief Investment Officer based

on individual performance and contributions to the Investment Management Department and the Mellon organization.

Additional Information About Portfolio Managers. The following table lists the number and types of other accounts advised by the Fund's primary portfolio manager and assets under management in those accounts as of the end of the Fund's fiscal year:

<b><u>Portfolio Manager</u></b>	<b><u>Registered Investment Company Accounts</u></b>	<b><u>Assets Managed</u></b>	<b><u>Pooled Accounts</u></b>	<b><u>Assets Managed</u></b>	<b><u>Other Accounts</u></b>	<b><u>Assets Managed</u></b>
Paul Disdier	2	\$2.1 Billion	0	\$0	0	\$0
Joseph Darcy*	5	\$2.9 Billion	0	\$0	0	\$0
James Welch*	4	\$1.8 Billion	0	\$0	0	\$0

None of the funds or accounts are subject to a performance-based advisory fee.

The dollar range of Fund shares beneficially owned by the primary portfolio manager are as follows as of the end of the Fund's fiscal year:

<b><u>Portfolio Manager</u></b>	<b><u>Fund Name</u></b>	<b><u>Dollar Range of Fund Shares Beneficially Owned</u></b>
Paul Disdier	Dreyfus Municipal Bond Fund	\$0
Joseph Darcy*	Dreyfus Municipal Bond Fund	\$0
James Welch*	Dreyfus Municipal Bond Fund	\$0

Portfolio managers may manage multiple accounts for a diverse client base, including mutual funds, separate accounts (assets managed on behalf of institutions such as pension funds, insurance companies and foundations), bank common trust accounts and wrap fee programs ("Other Accounts").

Potential conflicts of interest may arise because of Dreyfus' management of the Fund and Other Accounts. For example, conflicts of interest may arise with both the aggregation and allocation of securities transactions and allocation of limited investment opportunities, as Dreyfus may be perceived as causing accounts it manages to participate in an offering to increase Dreyfus' overall allocation of securities in that offering, or to increase Dreyfus' ability to participate in future offerings by the same underwriter or issuer. Allocations of bunched trades, particularly trade orders that were only partially filled due to limited availability and allocation of investment opportunities generally, could raise a potential conflict of interest, as Dreyfus may have an incentive to allocate securities that are expected to

---

\* Information is as of July 20, 2007. Portfolio Manager was appointed on July 18, 2007.

increase in value to preferred accounts. Initial public offerings, in particular, are frequently of very limited availability. Additionally, portfolio managers may be perceived to have a conflict of interest if there are a large number of Other Accounts, in addition to the Fund, that they are managing on behalf of Dreyfus. Dreyfus periodically reviews each portfolio manager's overall responsibilities to ensure that he or she is able to allocate the necessary time and resources to effectively manage the Fund. In addition, Dreyfus could be viewed as having a conflict of interest to the extent that Dreyfus or its affiliates and/or portfolio managers have a materially larger investment in Other Accounts than their investment in the Fund.

Other Accounts may have investment objectives, strategies and risks that differ from those of the Fund. For these or other reasons, the portfolio manager may purchase different securities for the Fund and the Other Accounts, and the performance of securities purchased for the Fund may vary from the performance of securities purchased for Other Accounts. The portfolio manager may place transactions on behalf of Other Accounts that are directly or indirectly contrary to investment decisions made for the Fund, which could have the potential to adversely impact the Fund, depending on market conditions.

A potential conflict of interest may be perceived to arise if transactions in one account closely follow related transactions in another account, such as when a purchase increases the value of securities previously purchased by the other account, or when a sale in one account lowers the sale price received in a sale by a second account.

Dreyfus' goal is to provide high quality investment services to all of its clients, while meeting Dreyfus' fiduciary obligation to treat all clients fairly. Dreyfus has adopted and implemented policies and procedures, including brokerage and trade allocation policies and procedures, that it believes address the conflicts associated with managing multiple accounts for multiple clients. In addition, Dreyfus monitors a variety of areas, including compliance with Fund guidelines, the allocation of IPOs, and compliance with the firm's Code of Ethics. Furthermore, senior investment and business personnel at Dreyfus periodically review the performance of the portfolio managers for Dreyfus-managed funds.

Distributor. The Distributor, a wholly-owned subsidiary of the Manager located at 200 Park Avenue, New York, New York 10166, serves as the Fund's distributor on a best efforts basis pursuant to an agreement with the Company which is renewable annually.

The Manager or the Distributor may provide cash payments out of its own resources to financial intermediaries that sell shares of the Fund or provide other services. Such payments are separate from any sales charges, 12b-1 fee and/or shareholder services fee or other expenses paid by the Fund to those intermediaries. Because those payments are not made by you or the fund, the fund's total expense ratio will not be affected by any such payments. These additional payments may be made to certain Service Agents, including affiliates that provide shareholder servicing, sub-administration, recordkeeping and/or sub-transfer agency services, marketing support and/or access to sales meetings, sales representatives and management representatives of the Service Agent. Cash compensation also may be paid from Dreyfus or DSC's own resources to Service Agents for inclusion of the Fund on a sales list, including a preferred or select sales list or in other sales programs. These payments sometimes are referred to as "revenue sharing." In some cases, these payments may create an incentive for a Service Agent to recommend or sell shares of the Fund to you. Please contact your Service Agent for details about any payments it may receive in connection with the sale of Fund shares or the provision of

services to the Fund. From time to time, the Manager or the Distributor also may provide cash or non-cash compensation to Service Agents in the form of: occasional gifts; occasional meals, tickets, or other entertainment; support for due diligence trips; educational conference sponsorship; support for recognition programs; and other forms of cash or non-cash compensation permissible under broker-dealer regulations, as periodically amended.

Transfer and Dividend Disbursing Agent and Custodian. Dreyfus Transfer, Inc. (the “Transfer Agent”), a wholly-owned subsidiary of the Manager, 200 Park Avenue, New York, New York 10166, is the Fund's transfer and dividend disbursing agent. Under a transfer agency agreement with the Company, the Transfer Agent arranges for the maintenance of shareholder account records for the Fund, the handling of certain communications between shareholders and the Fund and the payment of dividends and distributions payable by the Fund. For these services, the Transfer Agent receives a monthly fee computed on the basis of the number of shareholder accounts it maintains for the Fund during the month, and is reimbursed for certain out-of-pocket expenses.

The Bank of New York (the “Custodian”), 100 Wall Street, New York, New York 10286, is the Fund's custodian. The Custodian has no part in determining the investment policies of the Fund or which securities are to be purchased or sold by the Fund. Under a custody agreement with the Company, the Custodian holds the Fund's securities and keeps all necessary accounts and records. For its custody services, the Custodian receives a monthly fee based on the market value of the Fund's assets held in custody and receives certain securities transactions charges.

## HOW TO BUY SHARES

General. Fund shares may be purchased through the Distributor or Service Agents that have entered into service agreements with the Distributor. Fund Shares are sold without a sales charge. You may be charged a fee if you effect transaction in Fund shares through a Service Agent. You will be charged a fee if an investment check is returned unpayable. Stock certificates are issued only upon your written request. No certificates are issued for fractional shares. It is not recommended that the Fund be used as a vehicle for Keogh, IRA or other qualified retirement plans.

The Fund reserves the right to reject any purchase order. The Fund will not establish an account for a “foreign financial institution,” as that term is defined in Department of the Treasury rules implementing section 312 of the USA PATRIOT Act of 2001. Foreign financial institutions include: foreign banks (including foreign branches of U.S. depository institutions); foreign offices of U.S. securities broker-dealers, futures commission merchants, and mutual funds; non-U.S. entities that, if they were located in the United States, would be securities broker-dealers, futures commission merchants or mutual funds; and non-U.S. entities engaged in the business of a currency dealer or exchanger or a money transmitter.

As discussed under “Management Arrangements-Distributor,” Service Agents may receive revenue sharing payments from the Manager or the Distributor. The receipt of such payments could create an incentive for a Service Agent to recommend or sell shares of the Fund instead of other mutual funds where such payments are not received. Please contact your Service Agent for details about any payments it may receive in connection with the sale of Fund shares or the provision of services to the Fund.

The minimum initial investment is \$2,500, or \$1,000 if you are a client of a Service Agent which maintains an omnibus account in the Fund and has made an aggregate minimum initial purchase for its customers of \$2,500. Subsequent investments must be at least \$100. The initial investment must be accompanied by the Account Application. For full-time or part-time employees of the Manager or any of its affiliates or subsidiaries, directors of the Manager, Board members of a fund advised by the Manager, including members of the Company's Board, or the spouse or minor child of any of the foregoing, the minimum initial investment is \$1,000. For full-time or part-time employees of the Manager or any of its affiliates or subsidiaries who elect to have a portion of their pay directly deposited into their Fund accounts, the minimum initial investment is \$50. Fund shares are offered without regard to the minimum initial investment requirements to Board members of a fund advised by the Manager, including members of the Company's Board, who elect to have all or a portion of their compensation for serving in that capacity automatically allocated to the Fund. The Fund reserves the right to vary the initial and subsequent investment minimum requirements at any time.

Fund shares also are offered without regard to the minimum initial investment requirements through Dreyfus-Automatic Asset Builder®, Dreyfus Government Direct Deposit Privilege or Dreyfus Payroll Savings Plan pursuant to the Dreyfus Step Program described under "Shareholder Services." These services enable you to make regularly scheduled investments and may provide you with a convenient way to invest for long-term financial goals. You should be aware, however, that periodic investment plans do not guarantee a profit and will not protect an investor against loss in a declining market.

Shares are sold on a continuous basis at the net asset value per share next determined after an order in proper form is received by the Transfer Agent or other entity authorized to receive orders on behalf of the Fund. Net asset value per share is determined as of the close of trading on the floor of the New York Stock Exchange (usually 4:00 p.m., Eastern time) on each day the New York Stock Exchange is open for business. For purposes of computing net asset value per share, certain options and futures contracts may be valued 15 minutes after the close of trading on the floor of the New York Stock Exchange. Net asset value per share is computed by dividing the value of the Fund's net assets (i.e., the value of its assets less liabilities) by the total number of shares outstanding. For information regarding the methods employed in valuing the Fund's investments, see "Determination of Net Asset Value."

Dreyfus TeleTransfer Privilege. You may purchase shares by telephone or online if you have checked the appropriate box and supplied the necessary information on the Account Application or have filed a Shareholder Services Form with the Transfer Agent. The proceeds will be transferred between the bank account designated in one of these documents and your Fund account. Only a bank account maintained in a domestic financial institution which is an Automated Clearing House ("ACH") member may be so designated.

Dreyfus TeleTransfer purchase orders may be made at any time. If purchase orders are received by 4:00 p.m., Eastern time, on any day that the Transfer Agent and the New York Stock Exchange are open for regular business, Fund shares will be purchased at the share price determined on that day. If purchase orders are made after 4:00 p.m., Eastern time, on any day the Transfer Agent and the New York Stock Exchange are open for business, or made on Saturday, Sunday or any Fund holiday (e.g., when the New York Stock Exchange is not open for regular business), Fund shares will be purchased at the share price determined on the next business day following such purchase order. To qualify to use

the Dreyfus TeleTransfer Privilege, the initial payment for purchase of shares must be drawn on, and redemption proceeds paid to, the same bank and account as are designated on the Account Application or Shareholder Services Form on file. If the proceeds of a particular redemption are to be sent to an account at any other bank, the request must be in writing and signature-guaranteed. See “How to Redeem Shares--Dreyfus TeleTransfer Privilege.”

Reopening an Account. You may reopen an account with a minimum investment of \$100 without filing a new Account Application during the calendar year the account is closed or during the following calendar year, provided the information on the old Account Application is still applicable.

## SHAREHOLDER SERVICES PLAN

The Company has adopted, with respect to the Fund, a Shareholder Services Plan (the “Plan”) pursuant to which the Fund reimburses the Distributor an amount not to exceed an annual rate of 0.25% of the value of the Fund's average daily net assets for certain allocated expenses of providing personal services and/or maintaining shareholder accounts. The services provided may include personal services relating to shareholder accounts, such as answering shareholder inquiries regarding the Fund and providing reports and other information, and services related to the maintenance of shareholder accounts.

A quarterly report of the amounts expended under the Plan, and the purposes for which such expenditures were incurred, must be made to the Company's Board for its review. In addition, the Plan provides that material amendments of the Plan must be approved by the Company's Board and by the Board members who are not “interested persons” (as defined in the 1940 Act) of the Company and have no direct or indirect financial interest in the operation of the Plan, by vote cast in person at a meeting called for the purpose of considering such amendments. The Plan is subject to annual approval by such vote of the Board members cast in person at a meeting called for the purpose of voting on the Plan. The Plan is terminable at any time by vote of a majority of the Board members who are not “interested persons” and have no direct or indirect financial interest in the operation of the Plan.

For the fiscal year ended August 31, 2006, the Fund reimbursed the Distributor \$1,142,377 pursuant to the Plan.

## HOW TO REDEEM SHARES

General. The Fund ordinarily will make payment for all shares redeemed within seven days after receipt by the Transfer Agent of a redemption request in proper form, except as provided by the rules of the Securities and Exchange Commission. However, if you have purchased Fund shares by check, by Dreyfus TeleTransfer Privilege or through Dreyfus-Automatic Asset Builder® and subsequently submit a written redemption request to the Transfer Agent, the Fund may delay sending the redemption proceeds for up to eight business days after the purchase of such shares. In addition, the Fund will not honor checks under the Checkwriting Privilege, and will reject requests to redeem shares by wire or telephone, online or pursuant to the Dreyfus TeleTransfer Privilege, for a period of up to eight business days after receipt by the Transfer Agent of the purchase check, the Dreyfus TeleTransfer purchase or the Dreyfus-Automatic Asset Builder® order against which such redemption is requested. These procedures will not apply if your shares were purchased by wire payment, or if you otherwise

have a sufficient collected balance in your account to cover the redemption request. Fund shares may not be redeemed until the Transfer Agent has received your Account Application.

Redemption Fee. The Fund will deduct a redemption fee equal to 0.10% of the net asset value of Fund shares redeemed (including redemptions through the use of the Fund exchanges service) less than 30 days following the issuance of such shares. The redemption fee will be deducted from the redemption proceeds and retained by the Fund. For the fiscal year ended August 31, 2006, the Fund retained \$654 in redemption fees.

No redemption fee will be charged on the redemption or exchange of shares (1) through the Fund's Checkwriting Privilege, Automatic Withdrawal Plan or Dreyfus Auto-Exchange Privilege, (2) through accounts that are reflected on the records of the Transfer Agent as omnibus accounts approved by the Distributor, (3) through accounts established by securities dealers, banks or other financial institutions approved by the Distributor that utilize the National Securities Clearing Corporation's networking system, or (4) acquired through the reinvestment of dividends or distributions. The redemption fee may be waived, modified or terminated at any time.

Subject to the exceptions described in the Prospectus, shares purchased on or after March 1, 2007, and held for less than 30 days will be subject to the fund's redemption fee, whether held directly in your name or indirectly through an intermediary, such as a broker, bank, investment adviser, recordkeeper for retirement plan participants, or any other third party. If you hold your shares through an intermediary's omnibus account, the intermediary is responsible for imposing the fee and remitting the fee to the Fund.

The redemption fee will be charged and retained by the Fund on shares sold before the end of the required holding period. The Fund will use the "first-in, first-out" method to determine the holding period for the shares sold. Under this method, shares held the longest will be redeemed or exchanged first. The holding period commences on the day after your purchase order is effective. For example, the holding period for Fund shares purchased on April 10 (trade date) begins on April 11 and ends 29 days later on May 9. Thus, if you redeemed these shares on May 9, you would be assessed the fee, but you would not be assessed the fee if you redeemed on or after May 10.

The redemption fee generally is collected by deduction from the redemption proceeds, but may be imposed by billing you if the fee is not imposed as part of the redemption transaction.

The Fund may postpone the effective date of the assessment of the redemption fee on the underlying shareholder accounts within an omnibus account if an intermediary is unable to collect the Fund's redemption fee.

The Fund may impose the redemption fee at the plan level for employee benefit plans that hold shares on behalf of a limited number of employees. Plan sponsors of such benefit plans that opt to impose redemption fees at the employee account level, rather than the plan level, must enter into agreements with Dreyfus that obligate the sponsor to collect and remit redemption fees at the employee level and to provide to the Fund, at its request, shareholder identity and transaction information.

The Prospectus contains information on transactions for which the redemption fee is waived. The Fund reserves the right to exempt additional transactions from the fee.

Checkwriting Privilege. The Fund provides redemption checks (“Checks”) automatically upon opening an account, unless you specifically refuse the Checkwriting Privilege by checking the applicable “No” box on the Account Application. The Checkwriting Privilege may be established for an existing account by a separate signed Shareholder Services Form. Checks will be sent only to the registered owner(s) of the account and only to the address of record. The Account Application or Shareholder Services Form must be manually signed by the registered owner(s). Checks may be made payable to the order of any person in an amount of \$500 or more. When a Check is presented to the Transfer Agent for payment, the Transfer Agent, as your agent, will cause the Fund to redeem a sufficient number of shares in your account to cover the amount of the Check. Dividends are earned until the Check clears. After clearance, a copy of the Check will be returned to you. You generally will be subject to the same rules and regulations that apply to checking accounts, although the election of this Privilege creates only a shareholder-transfer agent relationship with the Transfer Agent.

You should date your Checks with the current date when you write them. Please do not postdate your Checks. If you do, the Transfer Agent will honor, upon presentment, even if presented before the date of the Check, all postdated Checks which are dated within six months of presentment for payment, if they are otherwise in good order.

Checks are free but the Transfer Agent will impose a fee for stopping payment of a Check upon your request or if the Transfer Agent cannot honor a Check due to insufficient funds or other valid reason. If the amount of the Check is greater than the value of the shares in your account, the Check will be returned marked insufficient funds. Checks should not be used to close an account.

The Checkwriting Privilege will be terminated immediately, without notice, with respect to any account which is, or becomes, subject to backup withholding on redemptions. Any Check written on an account which has become subject to backup withholding on redemptions will not be honored by the Transfer Agent.

Wire Redemption Privilege. By using this Privilege, you authorize the Transfer Agent to act on telephone, letter or online redemption instructions from any person representing himself or herself to be you and reasonably believed by the Transfer Agent to be genuine. Ordinarily, the Fund will initiate payment for shares redeemed pursuant to this Privilege on the next business day after receipt by the Transfer Agent of a redemption request in proper form. Redemption proceeds (\$1,000 minimum) will be transferred by Federal Reserve wire only to the commercial bank account specified by you on the Account Application or Shareholder Services Form, or to a correspondent bank if your bank is not a member of the Federal Reserve System. Fees ordinarily are imposed by such bank and borne by the investor. Immediate notification by the correspondent bank to your bank is necessary to avoid a delay in crediting the funds to your bank account.

To change the commercial bank or account designated to receive redemption proceeds, a written request must be sent to the Transfer Agent. This request must be signed by each shareholder, with each signature guaranteed as described below under “Stock Certificates; Signatures.”

Dreyfus TeleTransfer Privilege. You may request by telephone or online that redemption proceeds be transferred between your Fund account and your bank account. Only a bank account maintained in a domestic financial institution which is an ACH member may be designated. You

should be aware that if you have selected the Dreyfus TeleTransfer Privilege, any request for a wire redemption will be effected through the ACH system unless more prompt transmittal specifically is requested. Redemption proceeds will be on deposit in your account at an ACH member bank ordinarily two business days after receipt of the redemption request. See “How to Buy Shares--Dreyfus TeleTransfer Privilege.”

Stock Certificates; Signatures. Any certificates representing Fund shares to be redeemed must be submitted with the redemption request. A fee may be imposed to replace lost or stolen certificates, or certificates that were never received. Written redemption requests must be signed by each shareholder, including each holder of a joint account, and each signature must be guaranteed. Signatures on endorsed certificates submitted for redemption also must be guaranteed. The Transfer Agent has adopted standards and procedures pursuant to which signature-guarantees in proper form generally will be accepted from domestic banks, brokers, dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations, as well as from participants in the New York Stock Exchange Medallion Signature Program, the Securities Transfer Agents Medallion Program (“STAMP”) and the Stock Exchanges Medallion Program. Guarantees must be signed by an authorized signatory of the guarantor and “Signature-Guaranteed” must appear with the signature. The Transfer Agent may request additional documentation from corporations, executors, administrators, trustees or guardians, and may accept other suitable verification arrangements from foreign investors, such as consular verification. For more information with respect to signature-guarantees, please call one of the telephone numbers listed on the cover.

Redemption Commitment. The Fund has committed itself to pay in cash all redemption requests by any shareholder of record, limited in amount during any 90-day period to the lesser of \$250,000 or 1% of the value of the Fund's net assets at the beginning of such period. Such commitment is irrevocable without the prior approval of the Securities and Exchange Commission. In the case of requests for redemption in excess of such amount, the Company's Board reserves the right to make payments in whole or in part in securities or other assets of the Fund in case of an emergency or any time a cash distribution would impair the liquidity of the Fund to the detriment of the existing shareholders. In such event, the securities would be valued in the same manner as the Fund's portfolio is valued. If the recipient sells such securities, brokerage charges might be incurred.

Suspension of Redemptions. The right of redemption may be suspended or the date of payment postponed (a) during any period when the New York Stock Exchange is closed (other than customary weekend and holiday closings), (b) when trading in the markets the Fund ordinarily utilizes is restricted, or when an emergency exists as determined by the Securities and Exchange Commission so that disposal of the Fund's investments or determination of its net asset value is not reasonably practicable, or (c) for such other periods as the Securities and Exchange Commission by order may permit to protect the Fund's shareholders.

## SHAREHOLDER SERVICES

Fund Exchanges. You may purchase, in exchange for shares of the Fund, shares of certain other funds managed or administered by the Manager or shares of certain funds advised by Founders Asset Management LLC (“Founders”), an indirect subsidiary of the Manager, to the extent such shares are offered for sale in your state of residence. The Fund will deduct a redemption fee equal to 0.10% of the net asset value of Fund shares exchanged where the exchange is made less than 30 days after the

issuance of such shares. Shares of other funds purchased by exchange will be purchased on the basis of relative net asset value per share as follows:

- A. Exchanges for shares of funds offered without a sales load will be made without a sales load.
- B. Shares of funds purchased without a sales load may be exchanged for shares of other funds sold with a sales load, and the applicable sales load will be deducted.
- C. Shares of funds purchased with a sales load may be exchanged without a sales load for shares of other funds sold without a sales load.
- D. Shares of funds purchased with a sales load, shares of funds acquired by a previous exchange from shares purchased with a sales load and additional shares acquired through reinvestment of dividends or distributions of any such funds (collectively referred to herein as "Purchased Shares") may be exchanged for shares of other funds sold with a sales load (referred to herein as "Offered Shares"), but if the sales load applicable to the Offered Shares exceed the maximum sales load that could have been imposed in connection with the Purchased Shares (at the time the Purchased Shares were acquired), without giving effect to any reduced loads, the difference may be deducted.

To accomplish an exchange under item D above, you or your Service Agent acting on your behalf must notify the Transfer Agent of your prior ownership of fund shares and your account number.

To request an exchange, you must give exchange instructions to the Transfer Agent in writing, by telephone or online. The ability to issue exchange instructions by telephone or online is given to all Fund shareholders automatically, unless you check the applicable "No" box on the Account Application, indicating that you specifically refuse this privilege. By using the privilege, you authorize the Transfer Agent to act on telephonic and online instructions (including over the Dreyfus Express® automated telephone system) from any person representing himself or herself to be you and reasonably believed by the Transfer Agent to be genuine. Exchanges may be subject to limitations as to the amount involved or the number of exchanges permitted. Shares issued in certificate form are not eligible for telephone or online exchange. No fees currently are charged to shareholders directly in connection with exchanges, although the Fund reserves the right, upon not less than 60 days' written notice, to charge shareholders a nominal administrative fee in accordance with rules promulgated by the Securities and Exchange Commission.

To establish a personal retirement plan by exchange, shares of the fund being exchanged must have a value of at least the minimum initial investment required for the fund into which the exchange is being made.

During times of drastic economic or market conditions, the Fund may suspend Fund Exchanges temporarily without notice and treat exchange requests based on their separate components – redemption orders with a simultaneous request to purchase the other fund's shares. In such a case, the redemption request would be processed at the Fund's next determined net asset value but the purchase order would be effective only at the net asset value next determined after the fund being purchased receives the proceeds of the redemption, which may result in the purchase being delayed.

Dreyfus Auto-Exchange Privilege. Dreyfus Auto-Exchange Privilege permits you to purchase (on a semi-monthly, monthly, quarterly or annual basis), in exchange for shares of the Fund, shares of another fund in the Dreyfus Family of Funds or shares of a fund advised by Founders of which you are a shareholder. This Privilege is available only for existing accounts. Shares will be exchanged on the basis of relative net asset value as described above under "Fund Exchanges." Enrollment in or modification or cancellation of this Privilege is effective three business days following notification by the investor. You will be notified if your account falls below the amount designated to be exchanged under this Privilege. In this case, your account will fall to zero unless additional investments are made in excess of the designated amount prior to the next Auto-Exchange transaction. Shares held under IRA and other retirement plans are eligible for this Privilege. Exchanges of IRA shares may be made between IRA accounts from regular accounts to IRA accounts, but not from IRA accounts to regular accounts. With respect to all other retirement accounts, exchanges may be made only among those accounts.

Fund Exchanges and the Dreyfus Auto-Exchange Privilege are available to shareholders resident in any state in which shares of the fund being acquired may legally be sold. Shares may be exchanged only between accounts having certain identical identifying designations.

Shareholder Services Forms and prospectuses of the other funds may be obtained by calling 1-800-645-6561 or visiting [www.dreyfus.com](http://www.dreyfus.com). The Fund reserves the right to reject any exchange request in whole or in part. The Fund Exchanges service or the Dreyfus Auto-Exchange Privilege may be modified or terminated at any time upon notice to shareholders.

Dreyfus-Automatic Asset Builder®. Dreyfus-Automatic Asset Builder permits you to purchase Fund shares (minimum of \$100 and maximum of \$150,000 per transaction) at regular intervals selected by you. Fund shares are purchased by transferring funds from the bank account designated by you.

Dreyfus Government Direct Deposit Privilege. Dreyfus Government Direct Deposit Privilege enables you to purchase Fund shares (minimum of \$100 and maximum of \$50,000 per transaction) by having Federal salary, Social Security, or certain veterans', military or other payments from the U.S. Government automatically deposited into your Fund account.

Dreyfus Payroll Savings Plan. Dreyfus Payroll Savings Plan permits you to purchase Fund shares (minimum of \$100 per transaction) automatically on a regular basis. Depending upon your employer's direct deposit program, you may have part or all of your paycheck transferred to your existing Dreyfus account electronically through the ACH system at each pay period. To establish a Dreyfus Payroll Savings Plan account, you must file an authorization form with your employer's payroll department. It is the sole responsibility of your employer to arrange for transactions under the Dreyfus Payroll Savings Plan.

Dreyfus Step Program. Dreyfus Step Program enables you to purchase Fund shares without regard to the Fund's minimum initial investment requirements through Dreyfus-Automatic Asset Builder®, Dreyfus Government Direct Deposit Privilege or Dreyfus Payroll Savings Plan. To establish a Dreyfus Step Program account, you must supply the necessary information on the Account Application and file the required authorization form(s) with the Transfer Agent. For more information concerning this Program, or to request the necessary authorization form(s), please call toll free 1-800-

782-6620. You may terminate your participation in this Program at any time by discontinuing your participation in Dreyfus-Automatic Asset Builder, Dreyfus Government Direct Deposit Privilege or Dreyfus Payroll Savings Plan, as the case may be, as provided under the terms of such Privilege(s). The Fund may modify or terminate this Program at any time.

Dreyfus Dividend Options. Dreyfus Dividend Sweep allows you to invest automatically your dividends or dividends and capital gain distributions, if any, from the Fund in shares of another fund in the Dreyfus Family of Funds or shares of a fund advised by Founders of which you are a shareholder. Shares of other funds purchased pursuant to this privilege will be purchased on the basis of relative net asset value per share as follows:

- A. Dividends and distributions paid by a fund may be invested without a sales load in shares of other funds offered without a sales load.
- B. Dividends and distributions paid by a fund which does not charge a sales load may be invested in shares of other funds sold with a sales load, and the applicable sales load will be deducted.
- C. Dividends and distributions paid by a fund that charges a sales load may be invested in shares of other funds sold with a sales load (referred to herein as “Offered Shares”), but if the sales load applicable to the Offered Shares exceeds the maximum sales load charged by the fund from which dividends or distributions are being swept (without giving effect to any reduced loads), the difference may be deducted.
- D. Dividends and distributions paid by a fund may be invested in shares of other funds that impose a contingent deferred sales charge (“CDSC”) and the applicable CDSC, if any, will be imposed upon redemption of such shares.

Dreyfus Dividend ACH permits you to transfer electronically dividends or dividends and capital gain distributions, if any, from the Fund to a designated bank account. Only an account maintained at a domestic financial institution which is an ACH member may be so designated. Banks may charge a fee for this service.

Automatic Withdrawal Plan. The Automatic Withdrawal Plan permits you to request withdrawal of a specified dollar amount (minimum of \$50) on either a monthly or quarterly basis if you have a \$5,000 minimum account. Withdrawal payments are the proceeds from sales of Fund shares, not the yield on the shares. If withdrawal payments exceed reinvested dividends and distributions, your shares will be reduced and eventually may be depleted. The Automatic Withdrawal Plan may be terminated at any time by you, the Company or the Transfer Agent. Shares for which certificates have been issued may not be redeemed through the Automatic Withdrawal Plan.

Certain Retirement Plans, including Dreyfus-Sponsored retirement plans, may permit certain participants to establish an automatic withdrawal plan from such Retirement Plans. Participants should consult their Retirement Plan Sponsor and tax adviser for details. Such a withdrawal plan is different than the Automatic Withdrawal Plan.

## DETERMINATION OF NET ASSET VALUE

Valuation of Portfolio Securities. The Fund's investments are valued each business day by an independent pricing service (the "Service") approved by the Company's Board. When, in the judgment of the Service, quoted bid prices for investments are readily available and are representative of the bid side of the market, these investments are valued at the mean between the quoted bid prices (as obtained by the Service from dealers in such securities) and asked prices (as calculated by the Service based upon its evaluation of the market for such securities). The value of other investments (which constitute a majority of the portfolio securities) is determined by the Service based on methods which include consideration of: yields or prices of municipal bonds of comparable quality, coupon, maturity and type; indications as to values from dealers; and general market conditions. The Service may employ electronic data processing techniques and/or a matrix system to determine valuations. The Service's procedures are reviewed under the general supervision of the Company's Board. If valuations for investments (received from the Service or otherwise) are not readily available, or are determined not to reflect accurately fair value, the Fund may value those investments at fair value as determined in accordance with the procedures approved by the Company's Board. Fair value of investments may be done by the Company's Board, its pricing committee or its valuation committee in good faith using such information as it deems appropriate under the circumstances. The factors that may be considered in fair valuing a security include fundamental analytical data, the nature and duration of restrictions on disposition, an evaluation of the forces that influence the market in which the securities are purchased or sold, and public trading of similar securities of the issuer or comparable issuers. Using fair value to price investments may result in a value that is different from a security's most recent price and from prices used by other mutual funds to calculate their net asset values. Expenses and fees, including the management fee (reduced by the expense limitation, if any), are accrued daily and are taken into account for the purpose of determining the net asset value of Fund shares.

New York Stock Exchange Closings. The holidays (as observed) on which the New York Stock Exchange is closed currently are: New Year's Day, Martin Luther King Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving and Christmas.

## DIVIDENDS, DISTRIBUTIONS AND TAXES

Management believes that the Fund has qualified for treatment as a "regulated investment company" under the Code for the fiscal year ended August 31, 2006. The Fund intends to continue to so qualify if such qualification is in the best interests of its shareholders. As a regulated investment company, the Fund will pay no Federal income tax on net investment income and net realized capital gains to the extent that such income and gains are distributed to shareholders in accordance with applicable provisions of the Code. To qualify as a regulated investment company, the Fund must distribute to its shareholders at least 90% of its net income (consisting of net investment income from tax exempt obligations and taxable obligations, if any, and net short-term capital gains), and must meet certain asset diversification and other requirements. If the Fund does not qualify as a regulated investment company, it will be treated for tax purposes as an ordinary corporation subject to Federal income tax. The term "regulated investment company" does not imply the supervision of management or investment practices or policies by any government agency.

The Fund ordinarily declares dividends from its net investment income on each day the New York Stock Exchange is open for regular business. Fund shares begin earning income dividends on the

day following the date of purchase. The Fund's earnings for Saturdays, Sundays and holidays are declared as dividends on the next business day. Dividends usually are paid on the last business day of each month and are automatically reinvested in additional Fund shares at net asset value or, at your option, paid in cash. If you redeem all shares in your account at any time during the month, all dividends to which you are entitled will be paid to you along with the proceeds of the redemption. If you are an omnibus accountholder and indicate in a partial redemption request that a portion of any accrued dividends to which such account is entitled belongs to an underlying accountholder who has redeemed all shares in his or her account, such portion of the accrued dividends will be paid to you along with the proceeds of the redemption. Distributions from net realized securities gains, if any, generally are declared and paid once a year, but the Fund may make distributions on a more frequent basis to comply with the distribution requirements of the Code, in all events in a manner consistent with the provisions of the 1940 Act.

If you elect to receive dividends and distributions in cash, and your dividend or distribution check is returned to the Fund as undeliverable or remains uncashed for six months, the Fund reserves the right to reinvest such dividend or distribution and all future dividends and distributions payable to you in additional Fund shares at net asset value. No interest will accrue on amounts represented by uncashed distribution or redemption checks.

If, at the close of each quarter of its taxable year, at least 50% of the value of the Fund's total assets consists of Federal tax exempt obligations, then the Fund may designate and pay Federal exempt-interest dividends from interest earned on all such tax exempt obligations. Such exempt-interest dividends may be excluded by shareholders of the Fund from their gross income for Federal income tax purposes. Dividends derived from Taxable Investments, together with distributions from any net realized short-term securities gains, generally are taxable as ordinary income for Federal income tax purposes whether or not reinvested. Distributions from net realized long-term securities gains generally are taxable as long-term capital gains to a shareholder who is a citizen or resident of the United States, whether or not reinvested and regardless of the length of time the shareholder has held his or her shares.

Any dividend or distribution paid shortly after an investor's purchase of Fund shares may have the effect of reducing the aggregate net asset value of the shares below the cost of the investment. Such a dividend or distribution would be a return of capital in an economic sense, as described in the Prospectus. In addition, the Code provides that if a shareholder holds Fund shares for six months or less and has received an exempt-interest dividend with respect to such shares, any loss incurred on the sale of such shares will be disallowed to the extent of the exempt-interest dividend received.

Ordinarily, gains and losses realized from portfolio transactions will be treated as capital gain or loss. However, all or a portion of any gain realized from the sale or other disposition of certain market discount bonds will be treated as ordinary income. In addition, all or a portion of the gain realized from engaging in "conversion transactions" (generally including certain transactions designed to convert ordinary income into capital gain) may be treated as ordinary income.

Gain or loss, if any, realized by the Fund from certain financial futures and options transactions ("Section 1256 contracts") will be treated as 60% long-term capital gain or loss and 40% short-term capital gain or loss. Gain or loss will arise upon exercise or lapse of Section 1256 contracts as well as from closing transactions. In addition, any Section 1256 contracts remaining unexercised at the end of

the Fund's taxable year will be treated as sold for their then fair market value, resulting in additional gain or loss to the Fund characterized as described above.

Offsetting positions held by the Fund involving certain futures or forward contracts or options transactions with respect to actively traded personal property may be considered, for tax purposes, to constitute “straddles.” To the extent the straddle rules apply to positions established by the Fund, losses realized by the Fund may be deferred to the extent of unrealized gain in the offsetting position. In addition, short-term capital loss on straddle positions may be recharacterized as long-term capital loss, and long-term capital gains on straddle positions may be treated as short-term capital gains or ordinary income. Certain of the straddle positions held by a Fund may constitute “mixed straddles.” The Fund may make one or more elections with respect to the treatment of “mixed straddles,” resulting in different tax consequences. In certain circumstances, the provisions governing the tax treatment of straddles override or modify certain of the provisions discussed above.

If the Fund either (1) holds an appreciated financial position with respect to stock, certain debt obligations, or partnership interests (“appreciated financial position”) and then enters into a short sale, futures, forward, or offsetting notional principal contract (collectively, a “Contract”) with respect to the same or substantially identical property or (2) holds an appreciated financial position that is a Contract and then acquires property that is the same as, or substantially identical to, the underlying property, the Fund generally will be taxed as if the appreciated financial position were sold at its fair market value on the date the Fund enters into the financial position or acquires the property, respectively.

Investment by the Fund in securities issued at a discount or providing for deferred interest or for payment of interest in the form of additional obligations, such as zero coupon, pay-in-kind and step-up securities could, under special tax rules, affect the amount, timing and character of distributions to shareholders. For example, the Fund could be required to take into account annually a portion of the discount (or deemed discount) at which such securities were issued and to distribute such portion in order to maintain its qualification as a regulated investment company. In such case, the Fund may have to dispose of securities which it might otherwise have continued to hold in order to generate cash to satisfy these distribution requirements.

## PORTFOLIO TRANSACTIONS

General. The Manager assumes general supervision over the placement of securities purchase and sale orders on behalf of the funds it manages. In cases where the Manager or fund employs a sub-adviser, the sub-adviser, under the supervision of the Manager, places orders on behalf of the applicable fund(s) for the purchase and sale of portfolio securities.

Certain funds are managed by dual employees of the Manager and an affiliated entity in the Mellon organization. Funds managed by dual employees use the research and trading facilities, and are subject to the internal policies and procedures, of the affiliated entity. In this regard, the Manager places orders on behalf of those funds for the purchase and sale of securities through the trading desk of the affiliated entity, applying the written trade allocation procedures of such affiliate.

The Manager (and where applicable, a sub-adviser or Dreyfus affiliate) generally has the authority to select brokers (for equity securities) or dealers (for fixed income securities) and the

commission rates or spreads to be paid. Allocation of brokerage transactions, including their frequency, is made in the best judgment of the Manager (and where applicable, a sub-adviser or Dreyfus affiliate) and in a manner deemed fair and reasonable to shareholders. The primary consideration in placing portfolio transactions is prompt execution of orders at the most favorable net price. In choosing brokers or dealers, the Manager (and where applicable, a sub-adviser or Dreyfus affiliate) evaluates the ability of the broker or dealer to execute the particular transaction (taking into account the market for the security and the size of the order) at the best combination of price and quality of execution.

In general, brokers or dealers involved in the execution of portfolio transactions on behalf of a fund are selected on the basis of their professional capability and the value and quality of their services. The Manager (and where applicable, a sub-adviser or Dreyfus affiliate) attempts to obtain best execution for the funds by choosing brokers or dealers to execute transactions based on a variety of factors, which may include, but are not limited to, the following: (i) price; (ii) liquidity; (iii) the nature and character of the relevant market for the security to be purchased or sold; (iv) the measured quality and efficiency of the broker's or dealer's execution; (v) the broker's or dealer's willingness to commit capital; (vi) the reliability of the broker or dealer in trade settlement and clearance; (vii) the level of counter-party risk (*i.e.*, the broker's or dealer's financial condition); (viii) the commission rate or the spread; (ix) the value of research provided; (x) the availability of electronic trade entry and reporting links; and (xi) the size and type of order (*e.g.*, foreign or domestic security, large block, illiquid security). In selecting brokers or dealers no factor is necessarily determinative; however, at various times and for various reasons, certain factors will be more important than others in determining which broker or dealer to use. Seeking to obtain best execution for all trades takes precedence over all other considerations.

With respect to the receipt of research, the brokers or dealers selected may include those that supplement the Manager's (and where applicable, a sub-adviser's or Dreyfus affiliate's) research facilities with statistical data, investment information, economic facts and opinions. Such information may be useful to the Manager (and where applicable, a sub-adviser or Dreyfus affiliate) in serving funds or accounts that it advises and, conversely, supplemental information obtained by the placement of business of other clients may be useful to the Manager (and where applicable, a sub-adviser or Dreyfus affiliate) in carrying out its obligations to the funds. Information so received is in addition to, and not in lieu of, services required to be performed by the Manager (and where applicable, a sub-adviser or Dreyfus affiliate), and the Manager's (and where applicable, a sub-adviser's or Dreyfus affiliate's) fees are not reduced as a consequence of the receipt of such supplemental information. Although the receipt of such research services does not reduce the Manager's (and where applicable, a sub-adviser's or Dreyfus affiliate's) normal independent research activities, it enables it to avoid the additional expenses that might otherwise be incurred if it were to attempt to develop comparable information through its own staff.

Under the Manager's (and where applicable, a sub-adviser's or Dreyfus affiliate's) procedures, portfolio managers and their corresponding trading desks may seek to aggregate (or "bunch") orders that are placed or received concurrently for more than one fund or account. In some cases, this policy may adversely affect the price paid or received by a fund or an account, or the size of the position obtained or liquidated. As noted above, certain brokers or dealers may be selected because of their ability to handle special executions such as those involving large block trades or broad distributions, provided that the primary consideration of best execution is met. Generally, when trades are aggregated, each fund or account within the block will receive the same price and commission.

However, random allocations of aggregate transactions may be made to minimize custodial transaction costs. In addition, at the close of the trading day, when reasonable and practicable, the completed securities of partially filled orders will generally be allocated to each participating fund and account in the proportion that each order bears to the total of all orders (subject to rounding to “round lot” amounts).

Portfolio turnover may vary from year to year as well as within a year. In periods in which extraordinary market conditions prevail, the Manager (and where applicable, a sub-adviser or Dreyfus affiliate) will not be deterred from changing a Fund's investment strategy as rapidly as needed, in which case higher turnover rates can be anticipated which would result in greater brokerage expenses. The overall reasonableness of brokerage commissions paid is evaluated by the Manager (and where applicable, a sub-adviser or Dreyfus affiliate) based upon its knowledge of available information as to the general level of commissions paid by other institutional investors for comparable services. Higher portfolio turnover rates usually generate additional brokerage commissions and transaction costs and any short-term gains realized from these transactions are taxable to shareholders as ordinary income.

To the extent that a fund invests in foreign securities, certain of a fund's transactions in those securities may not benefit from the negotiated commission rates available to a fund for transactions in securities of domestic issuers. For funds that permit foreign exchange transactions, such transactions are made with banks or institutions in the interbank market at prices reflecting a mark-up or mark-down and/or commission.

The Manager (and where applicable, a sub-adviser or Dreyfus affiliate) may deem it appropriate for one of its accounts to sell a security while another of its accounts is purchasing the same security. Under such circumstances, the Manager (and where applicable, a sub-adviser or Dreyfus affiliate) may arrange to have the purchase and sale transactions effected directly between its accounts (“cross transactions”). Cross transactions will be effected in accordance with procedures adopted pursuant to Rule 17a-7 under the 1940 Act.

Portfolio securities ordinarily are purchased from and sold to parties acting either as principal or agent. Newly-issued securities ordinarily are purchased directly from the issuer or from an underwriter; other purchases and sales usually are placed with those dealers from which it appears that the best price or execution will be obtained. Usually no brokerage commissions, as such, are paid by the fund for such purchases and sales, although the price paid usually includes an undisclosed compensation to the dealer acting as agent. The prices paid to underwriters of newly-issued securities usually include a concession paid by the issuer to the underwriter, and purchases of after-market securities from dealers ordinarily are executed at a price between the bid and asked price. To date, no commissions have been paid by the Fund.

When transactions are executed in the over-the-counter market (*i.e.*, with dealers), the Manager (and where applicable, a sub-adviser or Dreyfus affiliate) will typically deal with the primary market makers unless a more favorable price or execution otherwise is obtainable.

Disclosure of Portfolio Holdings. It is the policy of the Company to protect the confidentiality of the Fund's portfolio holdings and prevent the selective disclosure of non-public information about such holdings. The Fund will publicly disclose its holdings in accordance with regulatory requirements, such as periodic portfolio disclosure in filings with the Securities Exchange Commission (the “SEC”).

The Fund will publicly disclose its complete schedule of portfolio holdings, as reported on a month-end basis, at [www.dreyfus.com](http://www.dreyfus.com). The information will be posted with a one-month lag and will remain accessible until the Company files a report on Form N-Q or Form N-CSR for the period that includes the date as of which the information was current. In addition, fifteen days following the end of each calendar quarter, the Fund will publicly disclose on the website its complete schedule of portfolio holdings as of the end of such quarter.

If the Fund's portfolio holdings are released pursuant to an ongoing arrangement with any party, the Fund must have a legitimate business purpose for doing so, and neither the Fund, nor Dreyfus or its affiliates, may receive any compensation in connection with an arrangement to make available information about the Fund's portfolio holdings. The Fund may distribute portfolio holdings to mutual fund evaluation services such as Standard & Poor's, Morningstar or Lipper Analytical Services; due diligence departments of broker-dealers and wirehouses that regularly analyze the portfolio holdings of mutual funds before their public disclosure; and broker-dealers that may be used by the Fund, for the purpose of efficient trading and receipt of relevant research, provided that (a) the recipient does not distribute the portfolio holdings to persons who are likely to use the information for purposes of purchasing or selling Fund shares or Fund portfolio holdings before the portfolio holdings become public information; and (b) the recipient signs a written confidentiality agreement.

The Fund may also disclose any and all portfolio information to its service providers and others who generally need access to such information in the performance of their contractual duties and responsibilities and are subject to duties of confidentiality, including a duty not to trade on non-public information, imposed by law and/or contract. These service providers include the Fund's custodians, auditors, investment adviser, administrator, and each of their respective affiliates and advisers.

Disclosure of the Fund's portfolio holdings may be authorized only by the Company's Chief Compliance Officer, and any exceptions to this policy are reported quarterly to the Company's Board.

## INFORMATION ABOUT THE COMPANY AND THE FUND

Each Fund share has one vote and, when issued and paid for in accordance with the terms of the offering, is fully paid and non-assessable. Fund shares are of one class and have equal rights as to dividends and in liquidation. Shares have no preemptive, subscription or conversion rights and are freely transferable.

Unless otherwise required by the 1940 Act, ordinarily it will not be necessary for the Fund to hold annual meetings of shareholders. As a result, Fund shareholders may not consider each year the election of Board members or the appointment of auditors. However, the holders of at least 10% of the shares outstanding and entitled to vote may require the Fund to hold a special meeting of shareholders for purposes of removing a Board member from office. Fund shareholders may remove a Board member by the affirmative vote of a majority of the Fund's outstanding voting shares. In addition, the Board will call a meeting of shareholders for the purpose of electing Board members if, at any time, less than a majority of the Board members then holding office have been elected by shareholders.

Effective January 31, 2003, the Company changed its name from "Dreyfus Municipal Bond Fund, Inc." to its current name.

The Company is a “series fund,” which is a mutual fund divided into separate portfolios, each of which is treated as a separate entity for certain matters under the 1940 Act and for other purposes. A shareholder of one portfolio is not deemed to be a shareholder of any other portfolio. For certain matters shareholders vote together as a group; as to others they vote separately by portfolio.

To date, the Board has authorized the creation of two series of shares. All consideration received by the Company for shares of one Fund and all assets in which such consideration is invested will belong to that Fund (subject only to the rights of creditors of the Company) and will be subject to the liabilities related thereto. The income attributable to, and the expenses of, one Fund are treated separately from those of the other Funds. The Company has the ability to create, from time to time, new series without shareholder approval.

Rule 18f-2 under the 1940 Act provides that any matter required to be submitted under provisions of the 1940 Act or applicable state law or otherwise to the holders of the outstanding voting securities of an investment company, such as the Company, will not be deemed to have been effectively acted upon unless approved by the holders of a majority of the outstanding shares of each series affected by such matter. Rule 18f-2 further provides that a series shall be deemed to be affected by a matter unless it is clear that the interests of each series in the matter are identical or that the matter does not affect any interest of such series. However, the Rule exempts the selection of independent accountants and the election of Board members from the separate voting requirements of the Rule.

The Fund is intended to be a long-term investment vehicle and is not designed to provide investors with a means of speculating on short-term market movements. A pattern of frequent purchases and exchanges can be disruptive to efficient portfolio management and, consequently, can be detrimental to the Fund's performance and its shareholders. If Fund management determines that an investor is following an abusive investment strategy, it may reject any purchase request or terminate the investor's exchange privilege, with or without prior notice. Such investors also may be barred from purchasing shares of other funds in the Dreyfus Family of Funds. Accounts under common ownership or control may be considered as one account for purposes of determining a pattern of excessive or abusive trading. In addition, the Fund may refuse or restrict purchase or exchange requests for Fund shares by any person or group if, in the judgment of the Fund's management, the Fund would be unable to invest the money effectively in accordance with its investment objective and policies or could otherwise be adversely affected or if the Fund receives or anticipates receiving simultaneous orders that may significantly affect the Fund. If an exchange request is refused, the Fund will take no other action with respect to the Fund shares until it receives further instructions from the investor. While the Fund will take reasonable steps to prevent excess short term trading deemed to be harmful to the Fund, it may not be able to identify excessive trading conducted through certain financial intermediaries or omnibus accounts.

The Fund sends annual and semi-annual financial statements to all its shareholders.

## COUNSEL AND INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Stroock & Stroock & Lavan LLP, 180 Maiden Lane, New York, New York 10038-4982, as counsel for the Fund, has rendered its opinion as to certain legal matters regarding the due authorization and valid issuance of the shares being sold pursuant to the Fund's Prospectus.

Ernst & Young LLP, 5 Times Square, New York, New York 10036, an independent registered public accounting firm, has been selected to serve as the independent registered public accounting firm for the Company.

## APPENDIX

### Rating Categories

Description of certain ratings assigned by S&P, Moody's, and Fitch:

#### **S&P**

##### Long-term

#### **AAA**

An obligation rated 'AAA' has the highest rating assigned by S&P. The obligor's capacity to meet its financial commitment on the obligation is extremely strong.

#### **AA**

An obligation rated 'AA' differs from the highest rated obligations only in small degree. The obligor's capacity to meet its financial commitment on the obligation is very strong.

#### **A**

An obligation rated 'A' is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligations in higher rated categories. However, the obligor's capacity to meet its financial commitment on the obligation is still strong.

#### **BBB**

An obligation rated 'BBB' exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation.

#### ***BB, B, CCC, CC, and C***

Obligations rated 'BB', 'B', 'CCC', 'CC', and 'C' are regarded as having significant speculative characteristics. 'BB' indicates the least degree of speculation and 'C' the highest. While such obligations will likely have some quality and protective characteristics, these may be outweighed by large uncertainties or major exposures to adverse conditions.

#### **BB**

An obligation rated 'BB' is less vulnerable to nonpayment than other speculative issues. However, it faces major ongoing uncertainties or exposure to adverse business, financial, or economic conditions which could lead to the obligor's inadequate capacity to meet its financial commitment on the obligation.

#### **B**

An obligation rated 'B' is more vulnerable to nonpayment than obligations rated 'BB', but the obligor currently has the capacity to meet its financial commitment on the obligation. Adverse business, financial, or economic conditions will likely impair the obligor's capacity or willingness to meet its financial commitment on the obligation.

**CCC**

An obligation rated 'CCC' is currently vulnerable to nonpayment, and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitment on the obligation. In the event of adverse business, financial, or economic conditions, the obligor is not likely to have the capacity to meet its financial commitment on the obligation.

**CC**

An obligation rated 'CC' is currently highly vulnerable to nonpayment.

**C**

A subordinated debt or preferred stock obligation rated 'C' is currently highly vulnerable to nonpayment. The 'C' rating may be used to cover a situation where a bankruptcy petition has been filed or similar action taken, but payments on this obligation are being continued. A 'C' also will be assigned to a preferred stock issue in arrears on dividends or sinking fund payments, but that is currently paying.

**D**

An obligation rated 'D' is in payment default. The 'D' rating category is used when payments on an obligation are not made on the date due even if the applicable grace period has not expired, unless S&P believes that such payments will be made during such grace period. The 'D' rating also will be used upon the filing of a bankruptcy petition or the taking of a similar action if payments on an obligation are jeopardized.

**r**

The symbol 'r' is attached to the ratings of instruments with significant noncredit risks. It highlights risks to principal or volatility of expected returns which are not addressed in the credit rating. Examples include: obligations linked or indexed to equities, currencies, or commodities; obligations exposed to severe prepayment risk—such as interest-only or principal-only mortgage securities; and obligations with unusually risky interest terms, such as inverse floaters.

**N.R.**

The designation 'N.R.' indicates that no rating has been requested, that there is insufficient information on which to base a rating, or that S&P does not rate a particular obligation as a matter of policy.

Note: The ratings from 'AA' to 'CCC' may be modified by the addition of a plus (+) or minus (-) sign designation to show relative standing within the major rating categories.

## Short-term

### **SP-1**

Strong capacity to pay principal and interest. An issue determined to possess a very strong capacity to pay debt service is given a plus sign (+) designation.

### **SP-2**

Satisfactory capacity to pay principal and interest, with some vulnerability to adverse financial and economic changes over the term of the notes.

### **SP-3**

Speculative capacity to pay principal and interest.

## Commercial paper

### **A-1**

This designation indicates that the degree of safety regarding timely payment is strong. Those issues determined to possess extremely strong safety characteristics are denoted with a plus sign (+) designation.

### **A-2**

Capacity for timely payment on issues with this designation is satisfactory. However, the relative degree of safety is not as high as for issues designated 'A-1'.

### **A-3**

Issues carrying this designation have an adequate capacity for timely payment. They are, however, more vulnerable to the adverse effects of changes in circumstances than obligations carrying the higher designations.

### **B**

Issues rated B are regarded as having only speculative capacity for timely payment.

### **C**

This rating is assigned to short-term debt obligations with a doubtful capacity for payment.

### **D**

Debt rated 'D' is payment default. The 'D' rating category is used when interest payments or principal payments are not made on the due date, even if the applicable grace period has not expired, unless S&P believes such payments will be made during such grace period.

## **Moody's**

## Long-term

### **Aaa**

Bonds rated 'Aaa' are judged to be of the best quality. They carry the smallest degree of investment risk and are generally referred to as "gilt edged." Interest payments are protected by a large or by an

exceptionally stable margin and principal is secure. While the various protective elements are likely to change, such changes as can be visualized are most unlikely to impair the fundamentally strong position of such issues.

#### **Aa**

Bonds rated 'Aa' are judged to be of high quality by all standards. Together with the 'Aaa' group they comprise what are generally known as high-grade bonds. They are rated lower than the best bonds because margins of protection may not be as large as in 'Aaa' securities or fluctuation of protective elements may be of greater amplitude or there may be other elements present which make the long-term risk appear somewhat larger than the 'Aaa' securities.

#### **A**

Bonds rated 'A' possess many favorable investment attributes and are to be considered as upper-medium-grade obligations. Factors giving security to principal and interest are considered adequate, but elements may be present which suggest a susceptibility to impairment some time in the future.

#### **Baa**

Bonds rated 'Baa' are considered as medium-grade obligations (i.e., they are neither highly protected nor poorly secured). Interest payments and principal security appear adequate for the present but certain protective elements may be lacking or may be characteristically unreliable over any great length of time. Such bonds lack outstanding investment characteristics and in fact have speculative characteristics as well.

#### **Ba**

Bonds rated 'Ba' are judged to have speculative elements; their future cannot be considered as well-assured. Often the protection of interest and principal payments may be very moderate, and thereby not well safeguarded during both good and bad times over the future. Uncertainty of position characterizes bonds in this class.

#### **B**

Bonds rated 'B' generally lack characteristics of the desirable investment. Assurance of interest and principal payments or of maintenance of other terms of the contract over any long period of time may be small.

#### **Caa**

Bonds rated 'Caa' are of poor standing. Such issues may be in default or there may be present elements of danger with respect to principal or interest.

#### **Ca**

Bonds rated 'Ca' represent obligations which are speculative in a high degree. Such issues are often in default or have other marked shortcomings.

#### **C**

Bonds rated 'C' are the lowest rated class of bonds, and issues so rated can be regarded as having extremely poor prospects of ever attaining any real investment standing.

Note: Moody's applies numerical modifiers 1, 2, and 3 in each generic rating classification from 'Aa' through 'Caa'. The modifier 1 indicates that the obligation ranks in the higher end of its generic rating category; the modifier 2 indicates a mid-range ranking; and the modifier 3 indicates a ranking in the lower end of that generic rating category.

#### Prime rating system (short-term)

Issuers rated **Prime-1** (or supporting institutions) have a superior ability for repayment of senior short-term debt obligations. Prime-1 repayment ability will often be evidenced by many of the following characteristics:

Leading market positions in well-established industries.

High rates of return on funds employed.

Conservative capitalization structure with moderate reliance on debt and ample asset protection.

Broad margins in earnings coverage of fixed financial charges and high internal cash generation.

Well-established access to a range of financial markets and assured sources of alternate liquidity.

Issuers rated **Prime-2** (or supporting institutions) have a strong ability for repayment of senior short-term debt obligations. This will normally be evidenced by many of the characteristics cited above but to a lesser degree. Earnings trends and coverage ratios, while sound, may be more subject to variation. Capitalization characteristics, while still appropriate, may be more affected by external conditions. Ample alternate liquidity is maintained.

Issuers rated **Prime-3** (or supporting institutions) have an acceptable ability for repayment of senior short-term obligations. The effect of industry characteristics and market compositions may be more pronounced. Variability in earnings and profitability may result in changes in the level of debt protection measurements and may require relatively high financial leverage. Adequate alternate liquidity is maintained.

Issuers rated Not Prime do not fall within any of the Prime rating categories.

#### MIG/VMIG--U.S. short-term

Municipal debt issuance ratings are designated as Moody's Investment Grade (MIG) and are divided into three levels -- MIG 1 through MIG 3.

The short-term rating assigned to the demand feature of variable rate demand obligations (VRDOs) is designated as VMIG. When either the long- or short-term aspect of a VRDO is not rated, that piece is designated NR, e.g., Aaa/NR or NR/VMIG 1.

**MIG 1/VMIG1**

This designation denotes superior credit quality. Excellent protection is afforded by established cash flows, highly reliable liquidity support, or demonstrated broad-based access to the market for refinancing.

**MIG 2/VMIG 2**

This designation denotes strong credit quality. Margins of protection are ample, although not as large as in the preceding group.

**MIG 3/VMIG 3**

This designation denotes acceptable credit quality. Liquidity and cash-flow protection may be narrow, and market access for refinancing is likely to be less well-established.

**SG**

This designation denotes speculative-grade credit quality. Debt instruments in this category may lack sufficient margins of protection.

**Fitch**Long-term investment grade**AAA**

**Highest credit quality.** 'AAA' ratings denote the lowest expectation of credit risk. They are assigned only in case of exceptionally strong capacity for timely payment of financial commitments. This capacity is highly unlikely to be adversely affected by foreseeable events.

**AA**

**Very high credit quality.** 'AA' ratings denote a very low expectation of credit risk. They indicate very strong capacity for timely payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events.

**A**

**High credit quality.** 'A' ratings denote a low expectation of credit risk. The capacity for timely payment of financial commitments is considered strong. This capacity may, nevertheless, be more vulnerable to changes in circumstances or in economic conditions than is the case for higher ratings.

**BBB**

**Good credit quality.** 'BBB' ratings indicate that there is currently a low expectation of credit risk. The capacity for timely payment of financial commitments is considered adequate, but adverse changes in circumstances and in economic conditions are more likely to impair this capacity. This is the lowest investment-grade category.

### Long-term speculative grade

#### **BB**

**Speculative.** 'BB' ratings indicate that there is a possibility of credit risk developing, particularly as the result of adverse economic change over time; however, business or financial alternatives may be available to allow financial commitments to be met. Securities rated in this category are not investment grade.

#### **B**

**Highly speculative.** 'B' ratings indicate that significant credit risk is present, but a limited margin of safety remains. Financial commitments are currently being met; however, capacity for continued payment is contingent upon a sustained, favorable business and economic environment.

#### **CCC, CC, C**

**High default risk.** Default is a real possibility. Capacity for meeting financial commitments is solely reliant upon sustained, favorable business or economic developments. 'CC' ratings indicate that default of some kind appears probable. 'C' ratings signal imminent default.

#### **DDD, DD, D**

**Default.** The ratings of obligations in this category are based on their prospects for achieving partial or full recovery in a reorganization or liquidation of the obligor. While expected recovery values are highly speculative and cannot be estimated with any precision, the following serve as general guidelines. 'DDD' obligations have the highest potential for recovery, around 90% - 100% of outstanding amounts and accrued interest. 'DD' ratings indicate potential recoveries in the range of 50% - 90% and 'D' the lowest recovery potential, i.e., below 50%.

Entities rated in this category have defaulted on some or all of their obligations. Entities rated 'DDD' have the highest prospect for resumption of performance or continued operation with or without a formal reorganization process. Entities rated 'DD' and 'D' are generally undergoing a formal reorganization or liquidation process; those rated 'DD' are likely to satisfy a higher portion of their outstanding obligations, while entities rated 'D' have a poor prospect of repaying all obligations.

### Short-term

A short-term rating has a time horizon of less than 12 months for most obligations, or up to three years for U.S. public finance securities, and thus places greater emphasis on the liquidity necessary to meet financial commitments in a timely manner.

#### **F1**

**Highest credit quality.** Indicates the strongest capacity for timely payment of financial commitments; may have an added "+" to denote any exceptionally strong credit feature.

#### **F2**

**Good credit quality.** A satisfactory capacity for timely payment of financial commitments, but the margin of safety is not as great as in the case of the higher ratings.

**F3**

**Fair credit quality.** The capacity for timely payment of financial commitment is adequate; however, near-term adverse changes could result in a reduction non-investment grade.

**B**

**Speculative.** Minimal capacity for timely payment of financial commitments plus vulnerability to near-term adverse changes in financial and economic conditions.

**C**

**High default risk.** Default is a real possibility. Capacity for meeting financial commitments is solely reliant upon a sustained, favorable business and economic environment.

**D**

**Default.** Denotes actual or imminent payment default.

'**NR**' indicates that Fitch does not rate the issuer or issue in question.

Notes to long-term and short-term ratings: A plus (+) or minus (-) sign designation may be appended to a rating to denote relative status within major rating categories. Such suffixes are not added to the 'AAA' long-term rating category, to categories below 'CCC', or to short-term ratings other than 'F1.'
