SIGNAL SECURITIES, INC.

NOTES TO FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 2020

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

History and organization -

Signal Securities, Inc. (the Company) was incorporated on September 24, 1984, as a securities broker-dealer. The Company is registered with the Securities and Exchange Commission (SEC) and the Financial Industry Regulatory Authority (FINRA).

Accounting policies -

The financial statements of the Company have been prepared on an accrual basis in accordance with generally accepted accounting principles.

Cash and restricted cash and cash equivalents -

For purposes of the statement of cash flows, the Company considers all clearing deposits and money market accounts to be cash equivalents. Restricted cash represents monies held for the benefit of customers.

Property and equipment -

Property and equipment are carried at cost. The Company has a policy whereby property additions below a minimum amount are expensed as incurred. Depreciation of property and equipment is provided using the straight-line method for financial reporting purposes based on the following useful lives.

<u>Assets</u>	<u>Estimated Useful Lives</u>
Machinery and Equipment	7 years
Furniture and Fixtures	7 years
Data Processing Equipment	5 years
Leasehold improvements	10 years

For federal income tax purposes, depreciation is computed using the modified accelerated cost recovery system. Expenditures for major renewals and betterments that extend the useful lives of property and equipment are capitalized. Expenditures for maintenance and repairs are charged to expense as incurred.

U. S. Federal Income Taxes -

The Company has elected to be taxed under the provision of Subchapter S of the Internal Revenue Code. Under those provisions, the Company does not pay federal corporate income taxes on its taxable income. Instead, the shareholders are liable for individual federal income taxes on their respective shares of net income.

Advertising costs -

The advertising costs are expensed as incurred. Advertising costs for the year ended December 31, 2020 were \$3,974.

NOTES TO FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 2020  
(CONTINUED)

Compensated absences -

Compensated absences have not been accrued because the amount cannot be reasonably estimated.

Receivables from dealers -

The Company uses the direct write off method for recording uncollectible receivables from dealers. Management has determined that the receivables from dealers are totally collectible.

Estimates -

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from these estimates.

Marketable securities -

The Company records marketable securities at fair market value. Upon the sale of marketable securities, gain or loss is included in the income statement. Actual cost is used in computing gain or loss. Unrealized gain or loss on marketable securities has been included in other income in the statement of income.

(2) PROPERTY AND EQUIPMENT:

Property and equipment are summarized by major classifications as follows:

Machinery and Equipment	\$ 21,815
Furniture and Fixtures	29,205

(4) REVENUE FROM CONTRACTS WITH CUSTOMERS:

Investment Advisory Fees -

The Company earns investment advisory fees from its contracts with customers to provide asset management and financial planning services. Management fees for the majority of the Company's customers are assessed quarterly in advance of service based on the account valuation on the last day of the preceding calendar quarter. Quarterly fees collected in advance are recognized as revenue in monthly, one-third increments as they are earned by the advisers. Occasionally, management fees for customers are assessed in arrears at the end of each quarter of service based on the account valuation on the last day of the quarter. Quarterly fees collected in arrears are recognized as revenue in total at the time that the payment is received. The Company may contract with a customer to charge a flat fee for the creation of a financial plan or asset review. Fees collected for financial planning are recognized at the time when the services are rendered.

Introducing Broker/Dealer Revenue from Clearing Firm -

The Company earns commissions and fees from transactions effected in customer accounts at the Company's clearing firm, Hilltop Securities. Clearing firm revenue is recognized monthly by the Company upon receipt of a month-end correspondent settlement.

Brokerage and Insurance Commissions and Fees -

The Company earns commissions and fees from customer contracts for investment company products, annuities, and insurance policies. Revenue from mutual fund and insurance companies is recognized in the period the income was earned.

REIT and Limited Partnership Sales on the Secondary Market -

The Company effectuates all financial transactions pertaining to the settlement of limited partnership and REIT trades on the secondary market through a bank account designated as "Special Account for the Exclusive Benefit of Customers". All fees and commission pertaining to a trade are recognized as revenue at the time that the trade closes and the funds are transferred to the Company's operating account.

(5) SUBORDINATED LOAN FROM A RELATED PARTY:

During March 2020, the Company requested approval from FINRA for an extension to an existing Subordinated Loan Agreement involving one of its shareholders. On March 30, 2020 FINRA approved a three-year extension to the agreement, providing for a new loan expiration date of May 31, 2023. Subsequent to FINRA's approval of the extension, the Company has treated the subordinated loan as equity subordination on FOCUS report filings, since it now satisfies the requirements for this classification.

FOR THE YEAR ENDED DECEMBER 31, 2019  
(CONTINUED)

(6) PAYCHECK PROTECTION PROGRAM LOAN:

On April 28, 2020, the Company received loan proceeds in the amount of \$145,800 under the Paycheck Protection Program ("PPP"). The PPP, established by Section 1106(b) of the Coronavirus Aid, Relief and Economic Security Act ("CARES" Act), provides for loans to qualifying businesses for amounts up to 2.5 times their average monthly payroll expenses. The loans and accrued interest are forgivable after 8 or 24 weeks (covered period) as long as the borrower uses the loan proceeds for eligible purposes (including payroll, benefits, rent and utilities) and maintains its payroll levels. The amount of loan forgiveness will be reduced if the borrower terminates employees or reduces salaries during the 8- or 24-week period.

The unforgiven portion of the PPP loan is payable over two years at an interest rate of 1%, with a deferral of payments for the first six months. While the Company currently believes that its use of the loan proceeds will meet the conditions for forgiveness of the loan, the Company cannot be assured that the actions taken will cause the Company to be eligible for forgiveness of the loan, in whole or in part. The Company has submitted the application to the SBA for forgiveness of the PPP loan, but has not received notification as of this date that the loan has been forgiven.

The Company has included the PPP loan as a long-term liability on its financial statements. Per FINRA guidance, the Company has added the Forgivable Expense Amount back to net capital during and following the covered period to the extent that the Company is able to demonstrate that its recorded expenses for the costs and payments constitute a Forgivable Expense Amount. The Company has created and retained documentation of the basis of the add-back, including a record of its computation of the Forgivable Expense Amount, a record of the costs and payments making up that amount, and a record of its estimate of any limits under Section 1106(d) with the basis for such estimate.

(7) SUBSEQUENT EVENTS:

The Company evaluated subsequent events after the statement of financial condition date of December 31, 2020 through February 25, 2021, which was the date the financial statements were issued, and concluded that no additional disclosures are required.

(8) NET CAPITAL REQUIREMENTS:

The Company is subject to the Securities and Exchange Commission uniform net capital rule (Rule 15c3-1), which requires the maintenance of minimum net capital. This rule requires a minimum net capital of \$100,000 for brokers who participate in initial public offerings as part of the selling group. At December 31, 2020, the Company has net capital of \$803,217, which is in excess of its required net capital.

(10) COMMITMENTS AND CONTINGENCIES:

The Company leases its office space under an operating lease. The existing lease has a term of 6 years with a commencement date of January 1, 2017. The lease will expire December 31, 2022. On April 1, 2019, in compliance with FINRA Regulatory Notice 19-08, a right-of-use asset and operating lease liability were recorded pertaining to this office lease. As this lease does not provide an implicit interest rate, the Company utilized a 5.5% discount rate to determine the lease liability. The lease was recorded as an asset and a liability in the amount of \$336,880. Operating lease expense is recognized on a straight-line basis over the lease term. Operating lease expense for the right-of-use asset for the year ended 2020 was \$89,835.

At December 31, 2020, the Company had settled the arbitration case reported in the financial statements for the year ended December 31, 2019. The settlement payments have been recorded in the operating overhead in the Statement of Income (Loss).
