Those estimates are inherently subject to change and actual results could differ from those estimates.

This estimate of expected credit losses is recorded as an allowance for credit losses and is reported as a valuation adjustment on the balance sheet that is deducted from the asset's amortized cost basis.

Financial assets measured at amortized cost include cash equivalents within Cash and Cash Equivalents, Commission Receivable, Receivables from Clearing Broker, Other Receivables, and other assets within Prepaid Expenses and Other Assets in the Statement of Financial Condition.

Amounts owed to the Company related to these balances are settled within a maximum of six months, with most settling in less than three months. 4. Fair Value Measurements and Fair Value Hierarchy

ASC 820, *Fair Value Measurement*, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value, and enhances disclosure requirements for fair value measurements.

In accordance with ASC 820, the Company has categorized its financial instruments into a three-level hierarchy, which is based on the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy,

TRANSAMERICA FINANCIAL ADVISORS, INC.
NOTES TO FINANCIAL STATEMENT
(Dollars in thousands)

the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument.

Financial assets and liabilities recorded at fair value on the Statement of Financial Condition are categorized as follows:

- *Level 1.* Unadjusted quoted prices for identical assets or liabilities in an active market that the company has ability to access at measurement date.
- *Level 2.* Quoted prices in markets that are not active or inputs that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - a) Quoted prices for similar assets or liabilities in active markets
 - b) Quoted prices for identical or similar assets or liabilities in non-active markets
 - c) Inputs other than quoted market prices that are observable
 - d) Inputs that are derived principally from or corroborated by observable market data through correlation or other means
- *Level 3.* Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. Both observable and unobservable inputs may be used to determine the fair value of positions classified in Level 3. The circumstances for using unobservable measurements include those in which there is little, if any, market activity for the assets or liabilities. Therefore, the Company must make assumptions about inputs that a hypothetical market participant would use to value the assets or liabilities.

The following table presents the Company's hierarchy for its assets measured at fair value on a recurring basis at December 31, 2021:

	December 31, 2021			
	Level 1	Level 2	Level 3	Total
Assets				
Mutual funds (a)(c)	\$ 36	\$ -	\$ -	\$ 36
Equity securities (b)(c)	286	-	-	286
Money market funds (c)(d)	6,692	-	-	6,692
Total assets	\$ 7,014	\$ -	\$ -	\$ 7,014

- (a) Mutual funds are carried at the daily close price.
- (b) These investments are valued based on daily market close price of the underlying securities held in each account.
- (c) These investments are included as Investments in Securities, at Fair Value on the Statement of Financial Condition.
- (d) Cash equivalents of \$5,966 are primarily valued at amortized cost, which approximates fair value. Cash is not included in the above table.

TRANSAMERICA FINANCIAL ADVISORS, INC.
NOTES TO FINANCIAL STATEMENT
(Dollars in thousands)

The following table presents fair value of the Company's money market funds and the related redemption requirements at December 31, 2021:

	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Money market funds	\$ 6,692	\$ -	any dealing day	0 days
Total	\$ 6,692			

The carrying values of other financial instruments including accounts receivable and accounts payable approximate fair value because of the short-term nature of these instruments.

5. Income Taxes

At December 31, 2021, the Company recorded deferred tax asset of \$485 which consist of compensation, litigation, and benefit accruals.

The Company settles all accrued income taxes that are not cash settled under a tax sharing agreement through a capital contribution or dividend with its parent company. The following table summarizes the tax related contributions and/or dividends for the current year.

	2021				
	AAM	AUSA	CGC	Total	
Federal	\$ 10	\$ 14	\$ 3	\$ 27	
State	30	41	9	80	
Total contribution (capital contribution)	\$ 40	\$ 55	\$ 12	\$ 107	

The Company's federal and state (where applicable) income tax returns are consolidated with other includible affiliated companies. The method of allocation between the companies is subject to a written tax allocation agreement. Under the terms of the tax allocation agreement, allocations are based on separate income tax return calculations. The Company is entitled to recoup federal income taxes paid in the event the future losses and credits reduce the greater of the Company's separately computed income tax liability or the consolidated group's income tax liability in the year generated. The Company is also entitled to recoup federal income taxes paid in the event the losses and credits reduce the greater of the Company's separately computed income tax liability or the consolidated group's income tax liability in any carryback or carry forward year when so applied. State tax allocations do not consider the effects of state tax attribute carryovers and carrybacks in jurisdictions where the company files a consolidated state tax return.

The Company classifies interest and penalties related to income taxes as interest expense and penalty expense, respectively. These amounts are included in Other Operating Expenses on the Statement of Operations. The amount of interest and penalties accrued on the balance sheet as income taxes includes the following:

	Interest	Penalties	Total payable (receivable)
Balance at December 31, 2020	\$ 65	\$ -	\$ 65
Interest expense (benefit)	(99)	-	(99)
Penalties expense (benefit)	-	-	-
Balance at December 31, 2021	\$ (34)	\$ -	\$ (34)

The Company believes there are adequate defenses against, or sufficient provisions established related to any open or contested tax positions.

6. Related Party Transactions

The Company is a member of a group of affiliated companies that are engaged in the sale of affiliated and non-affiliated life insurance, annuities, and other investment-related activities. The related accrual as of December 31, 2021 of \$445 is reflected as Commission Receivable Affiliated on the Statement of Financial Condition.

These matters include, but are not limited to, claims relating to alleged registered representative misconduct, in which recovery of compensatory and/or punitive damages may be sought. The Company is, from time to time, also involved in regulatory investigations, actions, and inquiries. In all such matters, the Company has cooperated fully with the applicable regulatory agency or self-regulatory organization.

The Company assesses its liabilities and contingencies utilizing available information. For those matters where it is probable the Company will incur a potential loss and the amount of the loss is reasonably estimated, in accordance with FASB ASC No. 450, Contingencies, an accrued liability has been established. These reserves represent the Company's aggregate estimate of the potential loss contingency at December 31, 2021 for all legal, and are believed to be sufficient. Such liabilities may be adjusted from time to time to reflect any relevant developments.

There is an ongoing examination of the Company by the Securities and Exchange Commission (SEC). The examination relates to numerous issues, including paymaster services provided by an affiliate of the Company. The Company is fully cooperating in the examination.

At December 31, 2021, unsecured debits totaled \$30. The maximum potential amount of future payments that the Company could be required to make under these indemnifications cannot be estimated. However, the Company believes that since it only takes trades with customer invested funds, it is unlikely it will have to make material payments under these

arrangements and has not recorded any contingent liability in the financial statement for these indemnifications as of December 31, 2021. In addition, the Company has the right to pursue collection from the counterparties who do not perform under their contract.
