**Washington, D.C. 20549**

**FORM 10-Q**

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2011

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

\_\_\_\_\_  
Commission file number: 000-24523

***CNB Corporation***

(Exact name of registrant as specified in its charter)

South Carolina  
(State or other jurisdiction of incorporation or organization)

57-0792402  
(I.R.S. Employer Identification No.)

1400 Third Avenue, Conway, S.C.  
(Address of principal executive offices)

29526  
(Zip Code)

(Registrant's telephone number, including area code): (843) 248-5721

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes  No  (Not yet applicable to Registrant)

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer   
Non-accelerated filer  (Do not check if a smaller reporting company)

Accelerated filer   
Smaller Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).  
 Yes  No.

State the number of shares outstanding of each of the issuer's classes of common equity as of the latest practical date: 1,664,614 shares of common stock, par value \$5 per share, May 2, 2011.

## **CAUTIONARY NOTICE WITH RESPECT TO FORWARD LOOKING STATEMENTS**

This report contains "forward-looking statements" within the meaning of the securities laws. The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements. In order to comply with the terms of the safe harbor, the Company notes that a variety of factors could cause the Company's actual results and experience to differ materially from the anticipated results or other expectations expressed in the Company's forwarding-looking statements.

All statements that are not historical facts are statements that could be "forward-looking statements." You can identify these forward-looking statements through the use of words such as "may," "will," "should," "could," "would," "expect," "anticipate," "assume," "indicate," "contemplate," "seek," "plan," "predict," "target," "potential," "believe," "intend," "estimate," "project," "continue," or other similar words. Forward-looking statements include, but are not limited to, statements regarding the Company's future business prospects, revenues, working capital, liquidity, capital needs, interest costs, income, business operations and proposed services.

These forward-looking statements are based on current expectations, estimates and projections about the banking industry and the economy, management's beliefs, and assumptions made by management. Such information includes, without limitation, discussions as to estimates, expectations, beliefs, plans, strategies, and objectives concerning future financial and operating performance. These statements are not guarantees of future performance and are subject to risks, uncertainties and assumptions that are difficult to predict. Therefore, actual results may differ materially from those expressed or forecasted in such forward-looking statements. The risks and uncertainties include, but are not limited to:

- future economic and business conditions;
- lack of sustained growth in the economies of the Company's market areas;
- government monetary and fiscal policies;
- the effects of changes in interest rates on the levels, composition and costs of deposits, loan demand, and the values of loan collateral, securities, and interest sensitive assets and liabilities;
- the effects of competition from a wide variety of local, regional, national and other providers of financial, investment, and insurance services, as well as competitors that offer banking products and services by mail, telephone, computer and/or the Internet;
- credit risks;
- higher than anticipated levels of defaults on loans;
- perceptions by depositors about the safety of their deposits;
- ability to weather the current economic downturn;
- loss of consumer or investor confidence;
- the failure of assumptions underlying the establishment of the allowance for loan losses and other estimates, including the value of collateral securing loans;
- the risks of opening new offices, including, without limitation, the related costs and time of building customer relationships and integrating operations as part of these endeavors and the failure to achieve expected gains, revenue growth and/or expense savings from such endeavors;
- increases in deposit insurance premiums;
- changes in laws and regulations, including tax, banking and securities laws and regulations;
- changes in accounting policies, rules and practices;
- the effect of agreements with regulatory authorities, which restrict various activities and impose additional administrative requirements without commensurate benefits;
- changes in requirements of regulatory authorities;
- changes in technology or products may be more difficult or costly, or less effective, than anticipated;
- the effects of war or other conflicts, acts of terrorism or other catastrophic events that may affect general economic conditions and economic confidence; and
- other factors and information described in this report and in any of the other reports that we file with the Securities and Exchange Commission under the Securities Exchange Act of 1934.

All forward-looking statements are expressly qualified in their entirety by this cautionary notice. The Company has no obligation, and does not undertake, to update, revise or correct any of the forward-looking statements after the date of this report. The Company has expressed its expectations, beliefs and projections in good faith and believes they have a reasonable basis. However, there is no assurance that these expectations, beliefs or projections will result or be achieved or accomplished.

CNB CORPORATION AND SUBSIDIARY (The "Company")

CNB CORPORATION (The "Parent")

THE CONWAY NATIONAL BANK (The "Bank")

## NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(All Dollar Amounts in Thousands)

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Net income per share - Net income per share is computed on the basis of the weighted average number of common shares outstanding resulting in 1,664,620 shares for the three-month period ended March 31, 2011 and 1,676,890 for the three month period ended March 31, 2010.

#### Fair values of financial instruments

Financial Accounting Standards Board Accounting Standards Codification 820 (FASB ASC 820), "*Fair Value of Financial Instruments*," requires disclosure of fair value information for financial instruments, whether or not recognized in the balance sheet, when it is practicable to estimate the fair value. FASB ASC 820 defines a financial instrument as cash, evidence of an ownership interest in an entity or contractual obligations which require the exchange of cash or other financial instruments. Certain items are specifically excluded from the disclosure requirements, including the Company's common stock. In addition, other nonfinancial instruments such as premises and equipment and other assets and liabilities are not subject to the disclosure requirements.

The following methods and assumptions were used by the Company in estimating fair values of financial instruments as disclosed herein:

*Cash and due from banks* - The carrying amounts of cash and due from banks (cash on hand, due from banks and interest bearing deposits with other banks) approximate their fair value.

*Federal funds sold* - The carrying amounts of federal funds sold approximate their fair value.

*Investment securities available for sale and held to maturity* - Fair values for investment securities are based on quoted market prices.

*Other investments* - No ready market exists for Federal Reserve and Federal Home Loan Bank Stock and they have no quoted market value. However, redemption of this stock has historically been at par value. Management has determined it is not practicable to estimate the fair value and has not performed an impairment analysis.

*Loans* - For variable rate loans that reprice frequently and for loans that mature within one year, fair values are based on carrying values. Fair values for all other loans are estimated using discounted cash flow analyses, with interest rates currently being offered for loans with similar terms to borrowers of similar credit quality. Fair values for impaired loans are estimated using discounted cash flow analyses or underlying collateral values, where applicable.

*Deposits* - The fair values disclosed for demand deposits are, by definition, equal to their carrying amounts. The carrying amounts of variable rate, fixed-term money market accounts and short-term certificates of deposit approximate their fair values at the reporting date. Fair values for long-term fixed-rate certificates of deposit are estimated using a discounted cash flow calculation that applies interest rates currently being offered on certificates to a schedule of aggregated expected monthly maturities.

*Short-term borrowings* - The carrying amounts of borrowings under repurchase agreements and U. S. Treasury demand notes approximate their fair values.

*Federal Home Loan Bank Advances* - Fair value is estimated based on discounted cash flows using current market rates for borrowings with similar terms.

*Off balance sheet instruments* - Fair values of off balance sheet lending commitments are based on fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the counterparties' credit standing.

Recently Issued Accounting Pronouncements – The following is a summary of recent authoritative pronouncements that could impact the accounting, reporting, and/or disclosure of financial information by the Company.

In July 2010, the Receivables topic of the Accounting Standards Codification (“ASC”) was amended by Accounting Standards Update (“ASU”) 2010-20 to require expanded disclosures related to a company’s allowance for credit losses and the credit quality of its financing receivables. The amendments require the allowance disclosures to be provided on a disaggregated basis. The Company is required to include these disclosures in its interim and annual financial statements (See Note 4 to the financial statements – Loans and Allowance for Loan Losses).

Disclosures about Troubled Debt Restructurings (“TDRs”) required by ASU 2010-20 were deferred by the Financial Accounting Standards Board (“FASB”) in ASU 2011-01 issued in January 2011. In April 2011 FASB issued ASU 2011-02 to assist creditors with their determination of when a restructuring is a TDR. The determination is based on both whether the restructuring constitutes a concession and whether the debtor is experiencing financial difficulties.

Disclosures related to TDRs under ASU 2010-20 will be effective for reporting periods beginning after June 15, 2011.

Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies are not expected to have a material impact on the Company’s financial position, results of operations and cash flows.

#### **NOTE 2 – RESTRICTIONS ON CASH AND DUE FROM BANKS**

The Bank is required to maintain average reserve balances either at the Bank or on deposit with the Federal Reserve Bank. The average amounts of these reserve balances for the three-month period ended March 31, 2011 and for the year ended December 31, 2010 were approximately \$1,199 and \$2,001 respectively.

**NOTE 3 – INVESTMENT SECURITIES**

The following summaries reflect the book value, unrealized gains and losses, approximate market value, and tax-equivalent yields of investment securities listed by type of issuer and maturity at March 31, 2011 and at December 31, 2010.

(1) Tax equivalent adjustment on tax exempt obligations based on a 34% tax rate

As of the year ended December 31, 2010, the Bank did not hold any securities of an issuer that exceeded 10% of stockholders' equity.

### **NOTE 3 – INVESTMENT SECURITIES, Continued**

During 2010, the Company sold \$2,255 par value (\$2,370 fair value) of held to maturity securities, consisting of four securities, for a net gain of \$73. Two of these held to maturity securities, \$770 par value (\$785 fair value), were sold under exception “a.” of ASC 320-10-25-6 as a result of both securities losing their rating due to a downgrade of the insurer. Two of these held to maturity securities, \$1,485 par value (\$1,585 fair value), were sold under exception “d.” of ASC 320-10-25-6 because the primary regulator of the Company’s subsidiary bank has increased scrutiny of capital and its components and, consequently, due to continued uncertainty in the municipal bond markets, the amount of investment in individual municipal securities issuers. In response to these regulatory concerns related to capital and its components, the Company sold all of its municipal securities of individual issuers in excess of \$600, including all municipal securities in this size category classified held to maturity as well as those classified available for sale. We believe that the sale of these held to maturity securities should not be considered inconsistent with the original classification and the remaining portfolio is not tainted.

Management reviews securities for other-than-temporary impairment on at least a quarterly basis, and more frequently when economic or market concerns warrant such evaluation. Consideration is given to (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, and (3) the fact that Company does not intend to sell these securities, and it is more likely than not that the Company will not be required to sell these securities before recovery of their amortized cost.

### **NOTE 4 – LOANS AND ALLOWANCE FOR LOAN LOSSES**

The following is a summary of loans at March 31, 2011 and December 31, 2010 by major classification:

|   | <b><u>March 31,</u></b><br><b><u>2011</u></b> | <b><u>December 31,</u></b><br><b><u>2010</u></b> |

| <b>Net loans</b>  | <u>\$ 511,942</u>                             | <u>\$ 522,559</u>                                |

Changes in the allowance for loan losses for the quarters ended March 31, 2011 and 2010, and the year ended December 31, 2010 are summarized as follows:

|  | <b>Quarter Ended</b> |                    | <b>Year Ended</b>   |
|--|----------------------|--------------------|---------------------|
|  | <b>March 31,</b>     |                    | <b>December 31,</b> |
|  | <b><u>2011</u></b>   | <b><u>2010</u></b> | <b><u>2010</u></b>  |
| <b>Balance, beginning of period</b>  | \$ 11,627            | \$ 9,142           | \$ 9,142            |
| <b>Charge-offs:</b>  |                      |                    |                     |
| Commercial, financial, and agricultural  | 280                  | 697                | 3,273               |
| Real Estate - construction and mortgage  | 1,962                | 1,862              | 7,444               |
| Loans to individuals   | <u>236</u>           | <u>331</u>         | <u>899</u>          |
| <b>Total charge-offs</b>   | <u>\$ 2,478</u>      | <u>\$ 2,890</u>    | <u>\$11,616</u>     |
| <b>Recoveries:</b>   |                      |                    |                     |
| Commercial, financial, and agricultural  | \$ 62                | \$ 100             | \$ 259              |
| Real Estate - construction and mortgage  | 406                  | 11                 | 73                  |
| Loans to individuals   | <u>74</u>            | <u>184</u>         | <u>372</u>          |
| <b>Total recoveries</b>  | <u>\$ 542</u>        | <u>\$ 295</u>      | <u>\$ 704</u>       |
| <b>Net charge-offs</b>   | <u>\$ 1,936</u>      | <u>\$ 2,595</u>    | <u>\$10,912</u>     |
| <b>Additions charged to operations</b>   | <u>\$ 2,112</u>      | <u>\$ 3,763</u>    | <u>\$13,397</u>     |
| <b>Balance, end of period</b>  | <u>\$11,803</u>      | <u>\$10,310</u>    | <u>\$11,627</u>     |
| <b>Ratio of net charge-offs during the period<br/>to average loans outstanding during the<br/>period</b> | <u>.37%</u>          | <u>.45%</u>        | <u>1.90%</u>        |

The entire balance of the allowance for loan losses is available to absorb future loan losses.

**NOTE 4 – LOANS AND ALLOWANCE FOR LOAN LOSSES, Continued**

At March 31, 2011, December 31, 2010, and March 31, 2010 loans on which no interest was being accrued totaled \$26,393, \$25,704, and 13,537, respectively. All loans on which no interest was being accrued as well as other loans identified by management as having weaknesses which result in a determination of an inability on the part of the borrower to make full and timely payment of principal and interest are classified as impaired. Impaired loans at March 31, 2011, December 31, 2010, and March 31, 2010 were \$28,803, \$29,074, and \$21,029, respectively. The portion of the allowance for loan losses specifically allocated to impaired loans at March 31, 2011, December 31, 2010, and March 31, 2010 was \$745, \$709, and \$0, respectively. The Company had \$6,446 of foreclosed real estate at March 31, 2011, \$5,476 at December 31, 2010, and \$2,387 at March 31, 2010. Loans 90 days past due and still accruing interest totaled \$1,431, \$1,042, and \$560 at March 31, 2011, December 31, 2010, and March 31, 2010, respectively.

At March 31, 2011, December 31, 2010, and March 31, 2010 classified assets, the majority consisting of classified loans, were \$73,548, \$76,642, and \$80,540, respectively. At March 31, 2011, December 31, 2010, and March 31, 2010 classified assets represented 74.90%, 78.24%, and 84.32% of total capital (the sum of Tier 1 Capital and the Allowance for Loan Losses), respectively.

As of March 31, 2011 and December 31, 2010 loans individually evaluated and considered impaired under ASC 310-10 “Receivables” were as follows (tabular amounts in thousands):

|   | <b>March 31,<br/>2011</b> | <b>December 31,<br/>2010</b> |
|---|---------------------------|------------------------------|
| Total loans considered impaired   | \$28,803                  | \$ 29,074                    |
| Loans considered impaired for which there is a related allowance for loan loss:     |                           |                              |
| Outstanding loan balance  | 8,026                     | 8,620                        |
| Related allowance established   | 745                       | 709                          |
| Loans considered impaired and previously written down to fair value                 | 20,777                    | 20,454                       |
| Loans considered impaired and which are classified as troubled debt restructurings. | 20                        | 20                           |
| Average investment in impaired loans  | 29,356                    | 25,241                       |
| Interest income recognized on impaired loans during the period of impairment.       | 52                        | 636                          |

**NOTE 4 - LOANS AND ALLOWANCE FOR LOAN LOSSES – Continued**

The following tables summarize (in thousands of dollars) commercial and consumer credit exposure by internally assigned grade, collateral, and purpose as indicators of credit quality existing in the Company’s loan portfolios as of March 31, 2011 and December 31, 2010. The Company utilizes four “Pass” grade categories and the regulatorily defined “Other Assets Especially Mentioned,” “Substandard,” and “Doubtful” grade categories to monitor credit risk existing in its loan portfolios on an on-going basis. The four pass grades are defined as: Pass-1, loans that have minimal credit risk and are of excellent quality; Pass-2, loans with satisfactory credit risk; Pass-3, loans with reasonable credit risk, however a degree of watchfulness is warranted; and Pass-4, loans which demonstrate some weakness and a higher degree of watchfulness is warranted. “Other Assets Especially Mentioned (OAEM)” loans have weaknesses and warrant management’s close attention. “Substandard” loans have a high degree of credit risk and credit factors that indicate potential further deterioration, which could result in a protracted workout or possible loss. “Doubtful” loans have a high degree of potential loss, in whole or in part.

**Commercial Credit Exposure  
Credit Risk Profile by Internally Assigned Grade  
For the Quarter Ended March 31, 2011**

|             | <u>Commercial<br/>Other</u> | <u>Commercial<br/>Real Estate Construction</u> | <u>Commercial<br/>Real Estate- Other</u> |

**NOTE 4 - LOANS AND ALLOWANCE FOR LOAN LOSSES – Continued**

In addition to those loans placed in a nonaccrual status, there are certain loans in the portfolio which are not yet 90 days past due but about which management has concerns regarding the ability of the borrower to comply with present loan repayment terms. Such loans and nonaccrual loans are classified as impaired. Problem loan identification includes a review of individual loans, the borrower's and guarantor's financial capacity and position, loss potential, and present economic conditions. A specific allocation is provided for impaired loans not yet placed in nonaccrual status and not yet written down to fair value in management's determination of the allowance for loan losses. The following table outlines Company's loans classified as impaired by collateral type and purpose at March 31, 2011 and December 31, 2010 (tabular amounts in thousands).

**Impaired Loans

**NOTE 4 - LOANS AND ALLOWANCE FOR LOAN LOSSES – Continued**

The following table outlines the Company's loans on nonaccrual status by collateral type and purpose at March 31, 2011 and December 31, 2010 (tabular amounts in thousands).

**Loans on Nonaccrual Status**

|                                     | <b>March 31,</b><br><b><u>2011</u></b> | <b>December 31,</b><br><b><u>2010</u></b> |
|-------------------------------------|--|---|
| Commercial                          | \$ 551                                 | \$ 315                                    |
| Commercial real estate:             |  |   |
| Commercial real estate construction | 9,116                                  | 9,711                                     |
| Commercial real estate – other      | 8,954                                  | 9,250                                     |
| Consumer:                           |  |   |
| Consumer-credit card                | -                                      | -   |
| Consumer-other                      | -                                      | -   |
| Residential:                        |  |   |
| Residential                         | <u>7,772</u>                           | <u>6,428</u>                              |
| Total                               | <u>\$ 26,393</u>                       | <u>\$ 25,704</u>                          |

The total amount of interest earned on nonaccrual loans was \$33 for the three-month period ended March 31, 2011 and \$408 in 2010. The gross interest income which would have been recorded under the original terms of the nonaccrual loans amounted to \$768 for the three-month period ended March 31, 2011 and \$1,847 in 2010. Foregone interest on nonaccrual loans totaled \$735 for the three-month period ended March 31, 2011 and \$1,439 in 2010. The Company writes down any confirmed losses associated with nonaccrual loans at the time such loans are placed in a nonaccrual status. Accrued and unpaid current period interest income on nonaccrual loans is reversed to current period income at the time a loan is placed in nonaccrual status. Accrued and unpaid prior period interest income on nonaccrual loans is charged to the Allowance for Loan Losses at the time the loan is placed in nonaccrual status. Any payments received on loans placed in nonaccrual status are applied first to principal. The Company recognized \$33 of interest on a cash basis on one loan relationship consisting of four nonaccrual loans totaling \$1,962 during the three-month period ended March 31, 2011. The Company did not recognize interest income on nonaccrual loans on a cash basis during any of 2010.

At March 31, 2011 and December 31, 2010 the amount of loans ninety days or more past due and still accruing interest totaled \$1,431 and \$1,042, respectively. Loans ninety days or more past due and still accruing interest consist of consumer loans which are placed in nonaccrual status at one hundred twenty days or more past due.

At March 31, 2011 and December 31, 2010 classified assets, the majority consisting of classified loans, were \$73,548 and \$76,642, respectively. At March 31, 2011 and December 31, 2010 classified assets represented 74.90% and 78.24% of total capital (the sum of Tier 1 Capital and the Allowance for Loan Losses), respectively.

## **NOTE 5 - PREMISES AND EQUIPMENT**

Property at March 31, 2011 and December 31, 2010 is summarized as follows:

|   | <b>March 31,<br/>2011</b> | <b>December 31,<br/>2010</b> |
|---|---------------------------|------------------------------|
| <b>Land and buildings</b>                             | \$ 26,386                 | \$ 26,386                    |
| <b>Furniture, fixtures and equipment</b>              | 8,921                     | 8,897                        |
| <b>Construction in progress</b>                       | <u>134</u>                | <u>-</u>                     |
|   | \$ 35,441                 | \$ 35,283                    |
| <b>Less accumulated depreciation and amortization</b> | <u>13,519</u>             | <u>13,195</u>                |
|   | <u>\$ 21,922</u>          | <u>\$ 22,088</u>             |

Depreciation and amortization of bank premises and equipment charged to operating expense was \$370 and \$371 for the three-month period ended March 31, 2011 and 2010, respectively, and \$1,493 for the year ended December 31, 2010. The construction in progress is primarily related to an Automated Teller Machine (ATM) kiosk and equipment replacement program at various branch offices and a minor renovation at the Company's Operations and Administration Center. There is approximately \$118 of remaining costs associated with the Company's ATM replacement program. There are no additional remaining costs for the minor Operations and Administration Center renovation.

## **NOTE 6 - CERTIFICATES OF DEPOSIT IN EXCESS OF \$100**

At March 31, 2011 and December 31, 2010, certificates of deposit of \$100 or more included in time deposits totaled approximately \$219,781 and \$215,935, respectively. Interest expense on these deposits was approximately \$819 and \$1,225 for the three-month periods ended March 31, 2011 and 2010, respectively, and \$4,362 for the year ended December 31, 2010.

## **NOTE 7 - SECURITIES SOLD UNDER REPURCHASE AGREEMENTS**

At March 31, 2011 and December 31, 2010, securities sold under repurchase agreements totaled \$111,274 and \$99,153, respectively. Securities with a book value of \$116,969 (\$117,417 fair value) and \$117,386 (\$117,549 fair value), respectively, were used as collateral for the agreements. The weighted-average interest rate of these agreements was .26 percent and .46 percent at March 31, 2011 and December 31, 2010, respectively.

## **NOTE 8 - LINES OF CREDIT**

At March 31, 2011, the Bank had unused short-term lines of credit to purchase Federal Funds from unrelated banks totaling \$35,500. These lines of credit are available on a one to seven day basis for general corporate purposes of the Bank. All of the lenders have reserved the right to withdraw these lines at their option.

The Bank has a demand note through the U.S. Treasury, Tax and Loan system with the Federal Reserve Bank of Richmond. The Bank may borrow up to \$7,000 under the arrangement at a variable interest rate. The note is secured by bonds with a market value of \$3,023 at March 31, 2011. The amount outstanding under the note totaled \$1,336 and \$2,324 at March 31, 2011 and December 31, 2010, respectively.

The Bank also has a line of credit from the Federal Home Loan Bank of Atlanta for \$57,018 secured by a lien on the Bank's 1-4 family mortgage loans. Allowable terms range from overnight to twenty years at varying rates set daily by the FHLB. There were no borrowings under the agreement at March 31, 2011 or at December 31, 2010.

## **NOTE 9 - INCOME TAXES**

Income tax expense/(benefit) for the three months ended March 31, 2011 and March 31, 2010 on pretax income/(loss) of \$486 and \$(270) totaled \$104 and \$(227), respectively. The provision for federal income taxes is calculated by applying the 34% statutory federal income tax rate and increasing or reducing this amount due to any tax-exempt interest, state bank tax (net of federal benefit), business credits, surtax exemption, tax preferences, alternative minimum tax calculations, or other factors. A summary of income tax components and a reconciliation of income taxes to the federal statutory rate are included in fiscal year-end reports.

The Company accounts for income taxes in accordance with FASB ASC 740 "Income Taxes."

## **NOTE 10 - COMMITMENTS AND CONTINGENT LIABILITIES**

From time to time the Bank is a party to various litigation matters, both as plaintiff and as defendant, arising from its normal operations. No material losses are anticipated in connection with any of these matters at March 31, 2011.

In the normal course of business, the Bank is a party to financial instruments with off-balance-sheet risk including commitments to extend credit and standby letters of credit. Such instruments have elements of credit risk in excess of the amount recognized in the balance sheet. The exposure to credit loss in the event of nonperformance by the other parties to the financial instruments for commitments to extend credit and standby letters of credit is represented by the contractual notional amount of those instruments. Generally, the same credit policies used for on-balance-sheet instruments, such as loans, are used in extending loan commitments and standby letters of credit.

Following are the off-balance-sheet financial instruments whose contract amounts represent credit risk:

|                                  | <b><u>March 31, 2011</u></b> |
|----------------------------------|------------------------------|
| <b>Loan Commitments</b>          | \$ 37,804                    |
| <b>Standby letters of credit</b> | 1,517                        |

Loan commitments involve agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and some involve payment of a fee. Many of the commitments are expected to expire without being fully drawn. Therefore, the total amount of loan commitments does not necessarily represent future cash requirements. Each customer's creditworthiness is evaluated on a case-by-case basis. The amount of collateral obtained, if any, upon extension of credit is based on management's credit evaluation of the borrower. Collateral held varies but may include certificates of deposit or other negotiable collateral, commercial and residential real properties, accounts receivable, inventory and equipment.

Standby letters of credit are conditional commitments to guarantee the performance of a customer to a third party. The credit risk involved in issuing standby letters of credit is the same as that involved in making loan commitments to customers. Many letters of credit will expire without being drawn upon and do not necessarily represent future cash requirements.

Management believes that its various sources of liquidity provide the resources necessary for the Bank to fund the loan commitments and to perform under standby letters of credit, if the need arises. Neither the Company nor the Bank are involved in other off-balance sheet contractual relationships or transactions that could result in liquidity needs or other commitments or significantly impact earnings.

## **NOTE 11 - EMPLOYEE BENEFIT PLAN**

The Bank has a defined contribution pension plan covering all employees who have attained age twenty-one and have a minimum of one year of service. Upon ongoing approval of the Board of Directors, the Bank matches one-hundred percent of employee contributions up to three percent of employee salary deferred and fifty percent of employee contributions in excess of three percent and up to five percent of salary deferred. The Board of Directors may also make discretionary contributions to the Plan. For the three-month period ended March 31, 2011 and the year ended December 31, 2010, \$92, and \$388, respectively, was charged to operations under the plan.

## **NOTE 12 - REGULATORY MATTERS**

The Bank and the Company are subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory - and possibly additional discretionary - actions by regulators that, if undertaken, could have a direct material effect on the financial statements. The regulations require the Bank and the Company to meet specific capital adequacy guidelines that involve quantitative measures of assets, liabilities, and certain off-balance-sheet items as calculated under regulatory accounting practices. The capital classification is also subject to qualitative judgments by the regulators about components, risk weightings, and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the maintenance of minimum amounts and ratios (set forth in the tables below) of Tier 1 capital to adjusted total assets (Leverage Capital ratio) and minimum ratios of Tier 1 and total capital to risk-weighted assets. To be considered adequately capitalized under the regulatory framework for prompt corrective action, the Company and the Bank must maintain minimum Tier 1 leverage, Tier 1 risk-based and total risk-based ratios as set forth in the tables below. The Company's and the Bank's actual capital ratios are presented in the tables below as of March 31, 2011:

### **Company**

|   | <u>Actual</u>                                  |              | <u>For<br/>Capital adequacy<br/>Purposes<br/>Minimum</u> |              |
|---|--|--------------|--|--------------|
|   | <u>Amount</u>                                  | <u>Ratio</u> | <u>Amount</u>  | <u>Ratio</u> |
|   | <b>Total Capital (to risk weighted assets)</b> | \$93,881     | 16.83%   | \$44,619     |
| <b>Tier 1 Capital (to risk weighted assets)</b> | 86,850   | 15.57        | 22,309   | 4.0          |
| <b>Tier 1 Capital (to average assets)</b>       | 86,850   | 9.35         | 37,137   | 4.0          |

### **Bank**

|   | <u>Actual</u>                                  |              | <u>For<br/>Capital adequacy<br/>Purposes<br/>Minimum</u> |              | <u>To be<br/>Well capitalized<br/>under prompt<br/>corrective action<br/>provisions<br/>Minimum</u> |              |
|---|--|--------------|--|--------------|---|--------------|
|   | <u>Amount</u>                                  | <u>Ratio</u> | <u>Amount</u>  | <u>Ratio</u> | <u>Amount</u>   | <u>Ratio</u> |
|   | <b>Total Capital (to risk weighted assets)</b> | \$93,424     | 16.75%   | \$44,616     | 8.0%  | \$55,770     |
| <b>Tier 1 Capital (to risk weighted assets)</b> | 86,393   | 15.49        | 22,308   | 4.0          | 33,462  | 6.0          |
| <b>Tier 1 Capital (to average assets)</b>       | 86,393   | 9.31         | 37,136   | 4.0          | 46,420  | 5.0          |

Although the Bank has experienced a leveling of impaired loans and improved income in the three-month period ended March 31, 2011 and the fourth quarter of 2010, because the Bank had increasing trends in the level of impaired loans and a declining trend in net income during 2010, the Bank's primary regulator (the OCC) may exercise its authority to require the Bank to maintain capital ratios in excess of those shown to be well capitalized in the table above. The OCC may also seek the Bank's agreement to take other specified actions intended to reduce the risks faced by the Bank. The OCC has the authority to enforce such an agreement with various regulatory actions.

## **NOTE 13 - ESTIMATED FAIR VALUE OF FINANCIAL INSTRUMENTS**

The estimated fair values of the Company's financial instruments were as follows at March 31, 2011 and December 31, 2010 (amounts in thousands):

|  | <b><u>March 31, 2011</u></b>  |                               | <b><u>December 31, 2010</u></b> |                          |
|--|-------------------------------|-------------------------------|---------------------------------|--------------------------|
|  | <b><u>Carrying Amount</u></b> | <b><u>Fair Value</u></b>      | <b><u>Carrying Amount</u></b>   | <b><u>Fair Value</u></b> |
| <b>FINANCIAL ASSETS</b>  |                               |                               |                                 |                          |
| Cash and due from banks and Federal Reserve balance in excess of requirement | \$ 62,821                     | \$ 62,821                     | \$ 32,517                       | \$ 32,517                |
| Federal funds sold   | 32,000                        | 32,000                        | 14,000                          | 14,000                   |
| Investment securities available for sale                                     | 269,421                       | 269,421                       | 275,381                         | 275,381                  |
| Investment securities held to maturity                                       | 19,203                        | 19,431                        | 20,678                          | 20,784                   |
| Other investments  | 2,729                         | 2,729                         | 2,729                           | 2,729                    |
| Loans (net)  | 511,942                       | 516,816                       | 522,559                         | 527,787                  |
| <b>FINANCIAL LIABILITIES</b>   |                               |                               |                                 |                          |
| Deposits   | 736,947                       | 735,775                       | 718,140                         | 716,733                  |
| Securities sold under repurchase agreements                                  | 111,274                       | 111,274                       | 99,153                          | 99,153                   |

| Standby letters of credit  | 1,517                         |                               | 1,577                           |                          |

Accounting standards require disclosures about the fair value of assets and liabilities recognized in the balance sheet in periods subsequent to initial recognition, whether the measurements are made on a recurring basis (for example, available for sale investment securities) or on a nonrecurring basis (for example, impaired loans).

The accounting standard defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. It also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

- Level 1      Quoted market prices in active markets for identical assets or liabilities. Level 1 assets and liabilities include debt and equity securities and derivative contracts that are traded in an active exchange market, as well as U.S. Treasuries, and money market funds.
  
- Level 2      Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Level 2 assets and liabilities include debt securities with quoted prices that are traded less frequently than exchange-traded instruments, mortgage-backed securities, municipal bonds, corporate debt securities, and derivative contracts whose value is determined using a pricing model with inputs that are observable in the market or can be derived principally from or corroborated by observable market data. This category generally includes certain derivative contracts and impaired loans.

## **NOTE 13 - ESTIMATED FAIR VALUE OF FINANCIAL INSTRUMENTS, Continued**

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation. For example, this category generally includes certain private equity investments, retained residual interests in securitizations, residential mortgage servicing rights, and highly-structured or long-term derivative contracts.

Following is a description of valuation methodologies used by the Company for assets and liabilities recorded on the balance sheet at fair value on a recurring or non-recurring basis:

### **Investment Securities Available for Sale**

Measurement is on a recurring basis based upon quoted market prices, if available. If quoted market prices are not available, fair values are measured using independent pricing models or other model-based valuation techniques such as the present value of future cash flows, adjusted for prepayment assumptions, projected credit losses, and liquidity. Level 1 securities include those traded on an active exchange or by dealers or brokers in active over-the-counter markets. Level 2 securities include securities issued by government sponsored enterprises, municipal securities, and mortgage-backed securities issued by government sponsored enterprises. Generally these fair values are priced from established pricing models.

### **Impaired Loans**

Loans that are considered impaired are recorded at fair value on a non-recurring basis. Once a loan is considered impaired, the fair value is measured using one of several methods, including collateral liquidation value, market value of similar debt and discounted cash flows. Those impaired loans not requiring a specific charge against the allowance represent loans for which the fair value of the expected repayments or collateral meet or exceed the recorded investment in the loan. At March 31, 2011, substantially all of the total impaired loans were evaluated based on the fair value of the underlying collateral. When the Company records the fair value based upon a current appraisal, the fair value measurement is considered a non-recurring Level 2 measurement. When a current appraisal is not available or there is estimated further impairment, the measurement is considered a non-recurring Level 3 measurement.

### **Other Real Estate Owned (OREO)**

Other real estate owned is adjusted to fair value upon transfer of the loans to other real estate owned by foreclosure or deed-in-lieu of foreclosure. Subsequently, other real estate owned is carried at the lower of carrying value or fair value. Fair value is based upon independent market prices, appraised values of the collateral or management's estimation of the value of the collateral. When the fair value of the collateral is based on an observable market price or a current appraised value, the Bank records the other real estate owned as nonrecurring Level 2. When an appraised value is not available or management determines the fair value of the collateral is further impaired below the appraised value and there is no observable market price, the Company records the other real estate owned as non-recurring Level 3.

**NOTE 13 - ESTIMATED FAIR VALUE OF FINANCIAL INSTRUMENTS, Continued**

Assets and liabilities measured at fair value on a recurring basis for March 31, 2011 and December 31, 2010 are presented in the following table (dollars in thousands):

| <b><u>March 31, 2011</u></b>     | Quoted<br>market price<br>in active markets<br><u>(Level 1)</u> | Significant other<br>observable inputs<br><u>(Level 2)</u> | Significant<br>unobservable<br>inputs<br><u>(Level 3)</u> |
|----------------------------------|---|--|---|
| Available for sale securities    |   |  |   |
| Government Sponsored Enterprises | \$ -  | \$ 237,339   | \$ -  |
| State, County, and Municipal     | -   | 19,471   | -   |
| Mortgage backed securities       | -   | 11,518   | -   |
| Other                            | -   | <u>1,093</u>   | -   |
| Total                            | <u>\$ -</u>   | <u>\$ 269,421</u>  | <u>\$ -</u>   |
| <b><u>December 31, 2010</u></b>  |   |  |   |
| Available for sale securities    |   |  |   |
| Government Sponsored Enterprises | \$ -  | \$ 244,497   | \$ -  |
| State, County, and Municipal     | -   | 19,475   | -   |
| Mortgage backed securities       | -   | 10,308   | -   |
| Other                            | -   | <u>1,101</u>   | -   |
| Total                            | <u>\$ -</u>   | <u>\$ 275,381</u>  | <u>\$ -</u>   |

Certain assets and liabilities are measured at fair value on a nonrecurring basis; that is, the instruments are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances (for example, when there is evidence of impairment). The following table presents the assets and liabilities carried on the balance sheet by caption and by level within the valuation hierarchy (as described above) as of March 31, 2011 and December 31, 2010 for which a non-recurring change in fair value was recorded during the three months and year ended March 31, 2011 and December 31, 2010.

| <b><u>March 31, 2011</u></b>    | Quoted<br>market price<br>in active markets<br><u>(Level 1)</u> | Significant other<br>observable inputs<br><u>(Level 2)</u> | Significant<br>unobservable<br>inputs<br><u>(Level 3)</u> |
|---------------------------------|---|--|---|
| Other real estate owned         | \$ -  | \$ 6,446   | \$ -  |
| Impaired loans                  | -   | <u>28,058</u>  | -   |
|                                 | <u>\$ -</u>   | <u>\$ 34,504</u>   | <u>\$ -</u>   |
| <b><u>December 31, 2010</u></b> |   |  |   |
| Other real estate owned         | \$ -  | \$ 5,476   | \$ -  |
| Impaired loans                  | -   | <u>28,385</u>  | -   |
|                                 | <u>\$ -</u>   | <u>\$ 33,861</u>   | <u>\$ -</u>   |

**NOTE 14 - CONDENSED FINANCIAL INFORMATION**

Following is condensed financial information of CNB Corporation (parent company only):

**NOTE 15 – SUBSEQUENT EVENTS**

Subsequent events are events or transactions that occur after the balance sheet date but before financial statements are issued. Recognized subsequent events are events or transactions that provide additional evidence about conditions that existed at the date of the balance sheet, including the estimates inherent in the process of preparing financial statements. Non-recognized subsequent events are events that provide evidence about conditions that did not exist at the date of the balance sheet but arose after that date. Management has reviewed events occurring through the date the financial statements were available to be issued and no subsequent events occurred requiring accrual or disclosure.

## Item 2.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(All dollar amounts in thousands, except per share data.)

Management's Discussion and Analysis is provided to afford a clearer understanding of the major elements of the Company's results of operations, financial condition, liquidity, and capital resources. The following discussion should be read in conjunction with the Company's financial statements and notes thereto and other detailed information appearing elsewhere in this report. In addition, the results of operations for the interim periods shown in this report are not necessarily indicative of results to be expected for the fiscal year. The accompanying consolidated financial statements include all accounts of the Company and the Bank. All significant intercompany accounts and transactions have been eliminated in consolidation. The accompanying unaudited consolidated financial statements for the three-month period ending March 31, 2011 and 2010 and the year ended December 31, 2010 have been prepared in accordance with generally accepted accounting principles ("GAAP") for interim financial information and with the instructions to Form 10-Q of the Securities and Exchange Commission. Accordingly, they do not include all information and footnotes required by GAAP for complete financial statements. However, in the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included.

#### DISTRIBUTION OF ASSETS AND LIABILITIES

The Company has historically maintained a conservative approach in determining the distribution of assets and liabilities. Loans decreased 7.7% from \$567,702 at March 31, 2010 to \$523,745 at March 31, 2011, and decreased 2.0%, from \$534,186 at December 31, 2010 to \$523,745 at March 31, 2011. Loans decreased as a percentage of total assets from 61.0% to 55.6% from March 31, 2010 to March 31, 2011 and decreased from 58.6% to 55.6% from December 31, 2010 to March 31, 2011. Loan demand in our market area has continued to soften during the period due to the continuing subdued local real estate market. Securities and federal funds sold increased as a percentage of total assets from 28.3% at March 31, 2010 to 34.1% at March 31, 2011, and increased from 34.0% of total assets at December 31, 2010 to 34.1% at March 31, 2011, a reflection of continued soft loan demand coupled with higher levels of deposits. The level of investments and excess Federal Reserve deposits provide for a more than adequate supply of liquidity.

Management has sought to build the deposit base with stable, relatively non-interest-sensitive deposits by offering the small to medium deposit account holders a wide array of deposit instruments at competitive rates. Non-interest-bearing demand deposits increased as a percentage of total assets from 11.2% at March 31, 2010 to 11.8% at March 31, 2011, and remained flat at 11.8% at December 31, 2010 and 11.8% at March 31, 2011. As more customers, both business and personal, are attracted to interest-bearing deposit accounts, we expect the percentage of non-interest bearing demand deposits to decline over the long-term. Interest-bearing deposits, as a percent of total assets, remained relatively stable from 66.6% of total assets at March 31, 2010 to 66.5% at March 31, 2011, and decreased slightly from 66.9% at December 31, 2010 to 66.5% at March 31, 2011. Securities sold under agreement to repurchase increased from 11.1% of total assets at March 31, 2010 to 11.8% at March 31, 2011, and increased from 10.9% of total assets at December 31, 2010 to 11.8% at March 31, 2011. Management anticipates that securities sold under agreement to repurchase will decline over time as a percent of total assets due, in part to new wholesale funding limitations scheduled to be implemented by the Company during the second quarter of 2011. Other short-term borrowings decreased from .3% of total assets at December 31, 2010 to .1% at March 31, 2011 and decreased from 1.1% at March 31, 2010 to .1% at March 31, 2011.

The following table sets forth the percentage relationship to total assets of significant components of the Company's balance sheets as of March 31, 2011 and March 31, 2010 and December 31, 2010:

|   | <b>March 31,</b>   |                    | <b>December 31,</b> |
|---|--------------------|--------------------|---------------------|

## RESULTS OF OPERATIONS

Earnings/(losses) for the three-month periods ended March 31, 2011 and 2010 were \$382 and \$(43) respectively, resulting in a return on average assets of .16% and (.02)% and a return on average stockholders' equity of 1.75% and (.20)%, respectively.

The increase in earnings for the three-month period ended March 31, 2011 is primarily attributable to a decrease in provision for loan losses, partially offset by small declines in net interest income and noninterest income, increased noninterest expenses, and increased income taxes. (See Net Income – Net Interest Income, Net Income – Provision for Loan Losses, Net Income – Noninterest Expenses, and Net Income-Income Taxes). The losses for the three-month period ended March 31, 2010 were primarily attributable to a decline in net interest income and increased provision for loan losses. (See Net Income-Net Interest Income and Net Income – Provision for Loan Losses). Management anticipates, but cannot assure, that earnings will remain well below historical levels through 2011, but above the level of income experienced for 2010. Total assets increased \$10,400 or 1.1% to \$941,532 at March 31, 2011 from \$931,132 at March 31, 2010. The following table sets forth the financial highlights for the three month periods ended at March 31, 2011 and March 31, 2010:

### CNB Corporation and Subsidiary FINANCIAL HIGHLIGHTS

- (1) For the three-month period ended March 31, 2011, average total assets amounted to \$928,437 with average stockholders' equity totaling \$87,202 for the same period.

## NET INCOME/(LOSS)

Net Interest Income - Earnings are dependent to a large degree on net interest income, defined as the difference between gross interest and fees earned on earning assets, primarily loans and securities, and interest paid on deposits and borrowed funds. Net interest income is affected by the interest rates earned or paid and by volume changes in accruing loans, securities, deposits, and borrowed funds.

Interest rates paid on deposits and borrowed funds and earned on loans and investments have generally followed the fluctuations in market interest rates. However, fluctuations in market interest rates do not necessarily have a significant impact on net interest income, depending on the bank's interest rate sensitivity position. A rate sensitive asset (RSA) is any loan or investment on which the interest rate can be repriced either up or down within a certain time interval. A rate sensitive liability (RSL) is an interest paying deposit or other liability on which the interest rate can be repriced either up or down within a certain time interval. When a proper balance between RSA and RSL exists, market interest rate fluctuations should not have a significant impact on earnings. The larger the imbalance, the greater the interest rate risk assumed by the Bank and the greater the positive or negative impact of interest rate fluctuations on earnings. The Bank seeks to manage its assets and liabilities in a manner that will limit interest rate risk and thus stabilize long-term earning power. Management believes that a 200 basis point rise or fall in interest rates will have less than a 10 percent effect on before-tax net interest income over a one-year period, which is within Bank guidelines.

The Bank maintained net interest margins for the three-month periods ended March 31, 2011 and 2010, of 3.50% and 3.57%, respectively, as compared to management's long-term target of 4.20%. Net interest margins have been compressed for the Bank and industry-wide for several years for a variety of reasons. Dramatic decreases in market interest rates by the Federal Reserve during the first quarter of 2008 and additional decreases in market rates during the remainder of 2008 placed further significant pressure on net interest margins for the industry as a whole. The resulting more historically typical upward-sloping yield curve would generally enhance the Bank's net interest margin. However, market interest rates have been reduced to historically low levels, which do not enhance net interest margin. Further, the persistence of an extremely low interest rate environment places increasing pressure on net interest margin as more and more earning assets re-price. Additionally, competition in the Bank's specific market remains significant, as new competitors seek market share and other competitors attempt to reduce their dependence on wholesale funding. These factors tend to compress margins by keeping the cost of deposits high in relation to established national benchmark rates without increasing yields on loans due to softened loan demand. Moreover, the Bank is experiencing a historically high level of non-performing assets. The loss of interest income from these assets has negatively impacted net interest margin. The impact of these assets on net interest margin should diminish as the level of these assets declines over time.

Fully-tax-equivalent net interest income for the three-month period ended March 31, 2011 was \$7,609, a decrease of 2.8% from the \$7,828 attained for the three-month period ended March 31, 2010. For the same periods, total fully-tax-equivalent interest income decreased by 12.3% to \$9,257 from \$10,551 and total interest expense decreased by 39.5% to \$1,648 from \$2,723. Fully-tax-equivalent net interest income as a percentage of average total earning assets decreased 2.0% to 3.50% for the three-month period ended March 31, 2011 from 3.57% for the three-month period ended March 31, 2010.

The tables on the following two pages present an analysis of average balances, yields and rates for the interest sensitive segments of the Company's balance sheets for the three-month periods ended March 31, 2011 and 2010, and a summary of changes in net interest income resulting from changes in volume and changes in rate between the three-month periods ended March 31, 2011 and 2010.

(1) The Company had no out-of-period adjustments or foreign activities. Loan fees of \$126 and \$156 are included in the above interest income for March 31, 2011 and 2010, respectively. Loans on a non-accrual basis for the recognition of interest income totaling \$26,393 and \$13,539 for March 31, 2011 and 2010, respectively, are included in loans for the purpose of this analysis.

(2) Tax-exempt income is presented on a tax-equivalent basis using a 34% tax rate. The amounts shown include tax-equivalent adjustments of \$134 and \$161 for March 31, 2011 and 2010, respectively.

The tables "Rate/Volume Variance Analysis" provide a summary of changes in net interest income resulting from changes in rate and changes in volume. The changes due to rate are calculated as the difference between the current and prior year's rates multiplied by the prior year's volume. The changes due to volume are calculated as the difference between the current and prior year's volume multiplied by the current rates earned or paid (this calculation effectively allocates all rate/volume variances to volume variances).

(1) Includes non-accruing loans which does not have a material effect on the Net Yield on Earning Assets.

(2) Tax-equivalent adjustment based on a 34% tax rate.

(3) Annualized

## **NET INCOME/(LOSS) (continued)**

Provision for Loan Losses – The allowance for loan losses is maintained at an amount based on considerations of classified and internally-identified problem loans, the current trend in delinquencies, the volume of past-due loans, historical loss experience, current economic conditions, the levels of higher-risk loans, declines in collateral value, the effects of changes in risk selection or underwriting practices, the experience, ability and depth of lending management and staff, industry conditions, the effect of changes in concentrations of credit, loan administration risks, and levels of policy, collateral, and documentation exceptions.

The level of the allowance for loan losses is determined through the utilization of both quantitative and qualitative measures. Loans are identified as impaired as a result of management's determination of an inability on the part of the borrower to make full and timely payment of principal and interest, a decline in project performance, loan structuring issues which evolve in the course of deterioration, and past due status. Quantified losses associated with such loans are segregated as a component in the determination of the allowance for loan losses.

The Company employs migration analysis to determine the levels of risks and associated losses with homogenous pools of loans. This analysis determines levels of loss associated with pools of loans based on risk grade and historical loss factors by risk grades. Risk grading procedures incorporate a review of various loan attributes, the deterioration of which would result in a loan being downgraded to a higher risk pool. These loan attributes are: demonstrated financial capacity and position, the borrower's demonstrated willingness to pay, loan structure, lien perfection on collateral, documentation, conformance to loan agreement covenants, and adherence to loan policy, among others. Quantified losses associated with pools of loans from migration analysis are segregated as a component in the determination of the allowance for loan losses.

The Company utilizes various qualitative factors to quantify additional risks and potential inherent losses existing in the Company's loan portfolios. These include the consideration of levels and trends in delinquencies, changes in the loan grading mix, trends in the volume and terms of loans, over-margined real estate loans, national and local economic trends and conditions, changes in risk selection and underwriting practices, the experience, ability and depth of lending management and staff, industry conditions, loan concentrations, geographic concentrations, regulatory considerations, various loan administration risks, and levels of policy, collateral and documentation exceptions. Quantified losses associated with these qualitative factors are segregated as a component in the determination of the allowance for loan losses.

When the amount necessary to maintain the allowance for loan losses at an adequate level has been determined and that amount is greater than the existing allowance for loan losses after accounting for loan charge-offs and recoveries during the period, the allowance is increased to the amount determined to be necessary by a provision for loan losses which is charged to operating income. The provision for loan losses was \$2,112 for the three-month period ended March 31, 2011 and \$3,763 for the three-month period ended March 31, 2010. This decline in the provision for loan losses is due to declining total classified assets and lower net loan charge-offs for the first quarter of 2011 as compared to the first quarter of 2010. Net loan charge-offs totaled \$1,936 for the three-month period ended March 31, 2011 and \$2,595 for the same period in 2010. Although the provision for loan losses and net loan charge-offs decreased for the three-month period ended March 31, 2011 as compared to the same period in 2010, both the provision for loan losses and net loan charge-offs remain historically high and reflect continued difficulties in local real estate markets. The Myrtle Beach-Conway-North Myrtle Beach South Carolina Metropolitan Statistical Area, wherein the majority of the Company's operations are situated, has experienced significant declines in various sectors of its economy, primarily in the real estate sectors. The allowance for loan losses as a percentage of net loans was 2.31% at March 31, 2011 and was 1.85% at March 31, 2010.

The levels of loans on which no interest was being accrued, impaired loans, foreclosed real estate, and classified assets at March 31, 2011 and 2010 are outlined in the notes to the consolidated unaudited financial statements (See NOTE 4 – LOANS AND ALLOWANCE FOR LOAN LOSSES). All of these measurements increased during 2010, some markedly. During the fourth quarter of 2010 the increasing trend in impaired loans leveled while classified assets, as a percent of capital, declined, and foreclosed real estate increased. These trends continued during the three-month period ended March 31, 2011. Although increased, management considers all such levels manageable and the current trends positive. One factor which contributes, in part, to higher levels of classified assets is the local market's high number of foreclosure actions in process, which has placed a substantial burden on the judiciary and courts and consequently significantly lengthened the time necessary to accomplish a foreclosure action. Additionally, the judiciary imposes sanctions and additional procedural requirements related to foreclosure proceedings from time to time. Management recognizes the potential for continued difficult economic conditions in the Company's market areas in the short-term, especially with respect to real estate related activities and real property values. However, management believes, but cannot assure, that substantially all of the Company's credit risks associated with the current real estate market decline have been identified. Nonetheless, management anticipates the Company will continue to need to make above average provisions through 2011.

## **NET INCOME/(LOSS) (continued)**

Securities Transactions – At March 31, 2011, December 31, 2010, and March 31, 2010 total market value appreciation in the investment portfolio totaled \$651, \$(119), and \$2,106, respectively. As indicated, the market values of the Company's investment portfolio decreased from March 31, 2010 to December 31, 2010, and increased from December 31, 2010 to March 31, 2011. The yield curve has generally normalized during the period commencing with the first reduction in interest rates in October 2007 through March 31, 2011, although the current yield curve in total and particularly short-term interest rates remain at historically low levels.

The Company had no sales of investment securities during the three-month periods ending March 31, 2011 or 2010. In 2010, the Company sold securities primarily to restructure its investment in longer-term municipal securities in order to remove from the portfolio municipal securities which had lost their rating, and to reduce the level of exposure to individual municipal securities issuers in response to increased regulatory scrutiny related to capital and its components (See Note 3 to the financial statements – Investment Securities). The increase in the total market value of the investment portfolio during the three-month period ended March 31, 2011 is attributable to general fluctuations in bond prices. The changes in market value appreciation/(depreciation) in the investment portfolio do not generally directly affect operating results since the Company does not acquire investment securities for trading. However, the changes in the market value appreciation in the investment portfolio for the three-month periods ended March 31, 2011 and 2010 are a component of Comprehensive Income and are set forth in the Condensed Consolidated Statements of Comprehensive Income contained herein.

Noninterest Income - Noninterest income decreased by 2.8% to \$1,391 for the three-month period ended March 31, 2011 from \$1,431 for the three-month period ended March 31, 2010. This decline was primarily attributable to a decline of service charges on deposit accounts.

Noninterest Expenses - Noninterest expenses increased by 11.8% to \$6,268 for the three-month period ended March 31, 2011 from \$5,605 for the three-month period ended March 31, 2010. The major components of noninterest expenses are salaries and employee benefits, which increased .4% to \$3,423 from \$3,411; occupancy expense which increased 3.5% to \$830 from \$802; examination and professional fees which increased 58.0% to \$256 from \$162; FDIC deposit insurance assessments which increased 24.0% to \$356 from \$287; net cost of operation of other real estate owned which increased 429.6% to \$286 from \$54; and other operating expenses which increased by 25.6% to \$1,117 from \$889. Other operating expenses increased due to expenses associated with non-performing loans.

Income Taxes – Provisions for income taxes increased 145.8% to \$104 for the three-month period ended March 31, 2011 from a benefit of \$(227) for the three-month period ended March 31, 2010. Income before income taxes less interest on tax-exempt investment securities increased 138.7% to \$225 for the three-month period ended March 31, 2011 from \$(582) for the same period in 2010.

## **LIQUIDITY**

The Bank's liquidity position is primarily dependent on short-term demands for funds caused by customer credit needs and deposit withdrawals and upon the liquidation of bank assets to meet these needs. The Bank's liquidity sources include cash and due from banks, federal funds sold, and short-term investments. In addition, the Bank has established federal funds lines of credit from correspondent banks and has the ability to borrow funds from the Federal Home Loan Bank of Atlanta. Management believes that short-term and long-term liquidity sources are adequate to meet funding needs, including the funding of off-balance sheet loan commitments and standby letters of credit, if the need arises. Although the Bank has not experienced liquidity pressures, there can be no assurance that such pressures will not be felt in the future. Neither the Company nor the Bank is involved in other off-balance sheet contractual relationships or other commitments that could result in liquidity needs or significantly impact earnings.

## **LIQUIDITY (continued)**

The table below summarizes future contractual obligations as of March 31, 2011 (in thousands).

|                                | <b>At March 31, 2011</b>      |                                     |                                       |  |                               | <b><u>Total</u></b> |

## **CAPITAL RESOURCES**

Total stockholders' equity was \$87,103 and \$86,333 at March 31, 2011 and December 31, 2010, representing 9.25% and 9.47% of total assets, respectively. At March 31, 2011, the Company and the Bank exceeded quantitative measures established by regulation to ensure capital adequacy (see NOTE 12 to the consolidated unaudited financial statements - REGULATORY MATTERS). Capital is considered sufficient by management to meet current and prospective capital requirements.

## **CRITICAL ACCOUNTING POLICIES**

We have adopted various accounting policies which govern the application of accounting principles generally accepted in the United States of America in the preparation of our financial statements. Our significant accounting policies are described in the notes to the consolidated financial statements at December 31, 2010 as filed in our Annual Report on Form 10-K. Certain accounting policies involve significant judgments and assumptions by us which have a material impact on the carrying value of certain assets and liabilities. We consider these accounting policies to be critical accounting policies. The judgments and assumptions we use are based on historical experience and other factors, which we believe to be reasonable under the circumstances. Because of the nature of the judgments and assumptions we make, actual results could differ from these judgments and estimates that could have a major impact on our carrying values of assets and liabilities and our results of operations.

We believe the allowance for loan losses is a critical accounting policy that requires the most significant judgments and estimates used in preparation of our consolidated financial statements. Refer to the portions of our 2010 Annual Report on Form 10-K and this Form 10-Q that address our allowance for loan losses for description of our processes and methodology for determining our allowance for loan losses.

## **RISKS AND UNCERTAINTIES**

In the normal course of its business, the Company encounters two significant types of risks: economic and regulatory. There are three main components of economic risk: interest rate risk, credit risk, and market risk. The Company is subject to interest rate risk to the degree that its interest-bearing liabilities mature or re-price at different speeds, or on a different basis, than its interest-earning assets. Credit risk is the risk of default on the Company's loan portfolio that results from borrowers' inability or unwillingness to make contractually required payments. Market risk, as it relates to lending and real estate held for operating locations, results from potential changes in the value of collateral underlying loans receivable and the market value of real estate held by the Company.

The Company is subject to the regulations of various governmental agencies. These regulations can and do change significantly from period to period. The Company also undergoes periodic examinations by the regulatory agencies, which may subject it to further changes with respect to asset valuations, amounts of required loss allowances and capital, and operating restrictions from the regulators' judgments based on information available to them at the time of their examination.

### **Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

Market risk, in regard to interest rate risk, is the risk of loss from adverse changes in market prices and rates. The Company's market risk arises principally from the interest rate risk inherent in its lending, deposit, and borrowing activities. Management actively monitors and manages its interest rate risk exposure. In addition to other risks which the Company manages in the normal course of business, such as credit quality and liquidity risk, management considers interest rate risk to be a significant market risk that could potentially have a material effect on the Company's financial condition and results of operations (See MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Net Income – Net Interest Income). Other types of market risks, such as foreign currency risk and commodity price risk, do not arise in the normal course of the Company's business activities.

### **Item 4. CONTROLS AND PROCEDURES**

Based on the evaluation required by 17 C.F.R. Section 240.13a-15(b) or 240.15d-15(b) of the Company's disclosure controls and procedures (as defined in 17 C.F.R. Sections 240.13a-15(e) and 240.15d-15(e)), the Company's chief executive officer and chief financial officer concluded that such controls and procedures, as of the end of the period covered by this quarterly report, were effective.

There has been no change in the Company's internal control over financial reporting during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

## PART II

### Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

#### ISSUER PURCHASES OF EQUITY SECURITIES

| Period                         | (a) Total Number of Shares Purchased (1) | (b) Average Price Paid per Share | (c) Total Number of Shares Purchased as Part of Publicly Announced Program | (d) Maximum Number of Shares that May Yet Be Purchased Under the Program |
|--------------------------------|--|----------------------------------|--|--|
| January 1 – January 31, 2011   | -  | \$ -                             | -  | -  |
| February 1 – February 28, 2011 | 1  | 61.00                            | -  | -  |
| March 1 – March 31, 2011       | <u>7</u>                                 | <u>61.00</u>                     | -  | -  |
| Total                          | 8  | \$61.00                          | -  | -  |

(1) During the period covered by this report, the Company purchased 8 shares of stock from shareholders, at the request of the shareholders, which are held by the Company as authorized and unissued shares. These shares were purchased on a case-by-case basis and not pursuant to any formal program.

#### Item 6. EXHIBITS

All exhibits, the filing of which are required with this Form, are listed below

- 31.1 Certification of Principal Executive Officer required by Rule 13a-14(a) or Rule 15d-14(a) of the Securities Exchange Act of 1934, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 31.2 Certification of Principal Financial Officer required by Rule 13a-14(a) or Rule 15d-14(a) of the Securities Exchange Act of 1934, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 32.1 Certification of Chief Executive Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
- 32.2 Certification of Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

#### SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
