

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

(Mark One)

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2011

OR

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number: 000-24523

CNB Corporation

(Exact name of registrant as specified in its charter)

South Carolina
(State or other jurisdiction of incorporation or organization)

57-0792402
(I.R.S. Employer Identification No.)

1400 Third Avenue, Conway, S.C.
(Address of principal executive offices)

29526
(Zip Code)

(Registrant's telephone number, including area code): (843) 248-5721

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐.

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☐ No ☐ This is the first report for which the registrant is required to file and post an Interactive Data File.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer ☐
Non-accelerated filer ☐ (Do not check if a smaller reporting company)

Accelerated filer ☒
Smaller Reporting Company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
☐ Yes ☒ No.

State the number of shares outstanding of each of the issuer's classes of common equity as of the latest practical date: 1,664,499 shares of common stock, par value \$5 per share, August 1, 2011.

CAUTIONARY NOTICE WITH RESPECT TO FORWARD LOOKING STATEMENTS

This report contains "forward-looking statements" within the meaning of the securities laws. The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements. In order to comply with the terms of the safe harbor, the Company notes that a variety of factors could cause the Company's actual results and experience to differ materially from the anticipated results or other expectations expressed in the Company's forwarding-looking statements.

All statements that are not historical facts are statements that could be "forward-looking statements." You can identify these forward-looking statements through the use of words such as "may," "will," "should," "could," "would," "expect," "anticipate," "assume," "indicate," "contemplate," "seek," "plan," "predict," "target," "potential," "believe," "intend," "estimate," "project," "continue," or other similar words. Forward-looking statements include, but are not limited to, statements regarding the Company's future business prospects, revenues, working capital, liquidity, capital needs, interest costs, income, business operations and proposed services.

These forward-looking statements are based on current expectations, estimates and projections about the banking industry and the economy, management's beliefs, and assumptions made by management. Such information includes, without limitation, discussions as to estimates, expectations, beliefs, plans, strategies, and objectives concerning future financial and operating performance. These statements are not guarantees of future performance and are subject to risks, uncertainties and assumptions that are difficult to predict. Therefore, actual results may differ materially from those expressed or forecasted in such forward-looking statements. The risks and uncertainties include, but are not limited to:

- future economic and business conditions;
- lack of sustained growth in the economies of the Company's market areas, including, but not limited to, declining real estate values and increasing levels of unemployment;
- government monetary and fiscal policies;
- the effects of changes in interest rates on the levels, composition and costs of deposits, loan demand, and the values of loan collateral, securities, and interest sensitive assets and liabilities;
- the effects of credit rating downgrades on the value of investment securities issued or guaranteed by various governments and government agencies, including the United State of America;
- the effects of competition from a wide variety of local, regional, national and other providers of financial, investment, and insurance services, as well as competitors that offer banking products and services by mail, telephone, computer and/or the Internet;
- credit risks;
- higher than anticipated levels of defaults on loans;
- perceptions by depositors about the safety of their deposits;
- ability to weather the current economic downturn;
- loss of consumer or investor confidence;
- the failure of assumptions underlying the establishment of the allowance for loan losses and other estimates, including the value of collateral securing loans;
- the risks of opening new offices, including, without limitation, the related costs and time of building customer relationships and integrating operations as part of these endeavors and the failure to achieve expected gains, revenue growth and/or expense savings from such endeavors;
- increases in deposit insurance premiums;
- changes in laws and regulations, including tax, banking and securities laws and regulations;
- changes in accounting policies, rules and practices;
- the effect of agreements with regulatory authorities, which restrict various activities and impose additional administrative requirements without commensurate benefits;
- changes in requirements of regulatory authorities;
- changes in technology or products may be more difficult or costly, or less effective, than anticipated;
- the effects of war or other conflicts, acts of terrorism or other catastrophic events that may affect general economic conditions and economic confidence; and
- other factors and information described in this report and in any of the other reports that we file with the Securities and Exchange Commission under the Securities Exchange Act of 1934.

All forward-looking statements are expressly qualified in their entirety by this cautionary notice. The Company has no obligation, and does not undertake, to update, revise or correct any of the forward-looking statements after the date of this report. The Company has expressed its expectations, beliefs and projections in good faith and believes they have a reasonable basis. However, there is no assurance that these expectations, beliefs or projections will result or be achieved or accomplished.

CNB CORPORATION AND SUBSIDIARY (The "Company")

CNB CORPORATION (The "Parent")

THE CONWAY NATIONAL BANK (The "Bank")

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(All Dollar Amounts in Thousands)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Net income per share - Net income per share is computed on the basis of the weighted average number of common shares outstanding resulting in 1,664,617 shares for the six-month period ended June 30, 2011 and 1,676,187 for the six-month period ended June 30, 2010.

Fair values of financial instruments

Financial Accounting Standards Board Accounting Standards Codification 820 (FASB ASC 820), "*Fair Value of Financial Instruments*," requires disclosure of fair value information for financial instruments, whether or not recognized in the balance sheet, when it is practicable to estimate the fair value. FASB ASC 820 defines a financial instrument as cash, evidence of an ownership interest in an entity or contractual obligations which require the exchange of cash or other financial instruments. Certain items are specifically excluded from the disclosure requirements, including the Company's common stock. In addition, other nonfinancial instruments such as premises and equipment and other assets and liabilities are not subject to the disclosure requirements.

The following methods and assumptions were used by the Company in estimating fair values of financial instruments as disclosed herein:

Cash and due from banks - The carrying amounts of cash and due from banks (cash on hand, due from banks and interest bearing deposits with other banks) approximate their fair value.

Federal funds sold - The carrying amounts of federal funds sold approximate their fair value.

Investment securities available for sale and held to maturity - Fair values for investment securities are based on quoted market prices.

Other investments - No ready market exists for Federal Reserve and Federal Home Loan Bank Stock and they have no quoted market value. However, redemption of this stock has historically been at par value. Management has determined it is not practicable to estimate the fair value and has not performed an impairment analysis.

Loans - For variable rate loans that reprice frequently and for loans that mature within one year, fair values are based on carrying values. Fair values for all other loans are estimated using discounted cash flow analyses, with interest rates currently being offered for loans with similar terms to borrowers of similar credit quality. Fair values for impaired loans are estimated using discounted cash flow analyses or underlying collateral values, where applicable.

Deposits - The fair values disclosed for demand deposits are, by definition, equal to their carrying amounts. The carrying amounts of variable rate, fixed-term money market accounts and short-term certificates of deposit approximate their fair values at the reporting date. Fair values for long-term fixed-rate certificates of deposit are estimated using a discounted cash flow calculation that applies interest rates currently being offered on certificates to a schedule of aggregated expected monthly maturities.

Short-term borrowings - The carrying amounts of borrowings under repurchase agreements and U. S. Treasury demand notes approximate their fair values.

Federal Home Loan Bank Advances - Fair value is estimated based on discounted cash flows using current market rates for borrowings with similar terms.

Off balance sheet instruments - Fair values of off balance sheet lending commitments are based on fees currently charged to enter into similar agreements, taking into account the remaining terms of the agreements and the counterparties' credit standing.

Recently Issued Accounting Pronouncements – The following is a summary of recent authoritative pronouncements that could impact the accounting, reporting, and/or disclosure of financial information by the Company.

In July 2010, the Receivables topic of the Accounting Standards Codification (“ASC”) was amended by Accounting Standards Update (“ASU”) 2010-20 to require expanded disclosures related to a company’s allowance for credit losses and the credit quality of its financing receivables. The amendments require the allowance disclosures to be provided on a disaggregated basis. The Company is required to include these disclosures in its interim and annual financial statements (See Note 4 to the financial statements – Loans and Allowance for Loan Losses).

Disclosures about Troubled Debt Restructurings (“TDRs”) required by ASU 2010-20 were deferred by the Financial Accounting Standards Board (“FASB”) in ASU 2011-01 issued in January 2011. In April 2011 FASB issued ASU 2011-02 to assist creditors with their determination of when a restructuring is a TDR. The determination is based on both whether the restructuring constitutes a concession and whether the debtor is experiencing financial difficulties as both events must be present. Disclosures related to TDRs under ASU 2010-20 will be effective for reporting periods beginning after June 15, 2011. The Company does anticipate that a portion of its loans classified as impaired will be re-classified as troubled debt restructurings under the new guidance. The Company is evaluating the re-classifications for the third quarter of 2011.

In April 2011, the criteria used to determine effective control of transferred assets in the Transfers and Servicing topic of the ASC was amended by ASU 2011-03. The requirement for the transferor to have the ability to repurchase or redeem the financial assets on substantially the agreed terms and the collateral maintenance implementation guidance related to that criterion were removed from the assessment of effective control. The other criteria to assess effective control were not changed. The amendments are effective for the Company beginning January 1, 2012 but are not expected to have a material effect on the financial statements.

ASU 2011-04 was issued in May 2011 to amend the Fair Value Measurement topic of the ASC by clarifying the application of existing fair value measurement and disclosure requirements and by changing particular principles or requirements for measuring fair value or for disclosing information about fair value measurements. The amendments will be effective for the Company beginning January 1, 2012 but are not expected to have a material effect on the financial statements.

The Comprehensive Income topic of the ASC was amended in June 2011. The amendment eliminates the option to present other comprehensive income as a part of the statement of changes in stockholders’ equity. The amendment requires consecutive presentation of the statement of net income and other comprehensive income and requires an entity to present reclassification adjustments from other comprehensive income to net income on the face of the financial statements. The amendments will be applicable to the Company on January 1, 2012 and will be applied retrospectively.

Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies are not expected to have a material impact on the Company’s financial position, results of operations and cash flows.

NOTE 2 – RESTRICTIONS ON CASH AND DUE FROM BANKS

The Bank is required to maintain average reserve balances either at the Bank or on deposit with the Federal Reserve Bank. The average amounts of these reserve balances for the six-month period ended June 30, 2011 and for the year ended December 31, 2010 were approximately \$1,195 and \$2,001 respectively.

NOTE 3 – INVESTMENT SECURITIES

The following summaries reflect the book value, unrealized gains and losses, approximate market value, and tax-equivalent yields of investment securities listed by type of issuer and maturity at June 30, 2011 and at December 31, 2010.

	June 30, 2011

State, county, and municipal	4,534	110	-	-	4,534	110
Total	<u>\$ 6,530</u>	<u>\$ 114</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 6,530</u>	<u>\$ 114</u>

Securities classified as available for sale are recorded at fair market value. At June 2011, there were no available for sale securities in a continuous loss position for twelve months or more. At December 31, 2010, the Company owned \$323 of available for sale securities in a continuous loss position for twelve months or more with \$17 of unrealized losses consisting of one municipal security.

Securities classified as held to maturity are recorded at cost. At June 30, 2011, and December 31, 2010 there were no held to maturity securities in a continuous loss position for twelve months or more.

Investment securities with an aggregate par value of \$168,071 (\$170,996 fair value) at June 30, 2011 and \$204,917 (\$207,349 fair value) at December 31, 2010 were pledged to secure public deposits and for other purposes required by law.

For the six-month periods ended June 30, 2011 and 2010, there were no sales of available for sale securities. During all of 2010 \$20,758 of par value available for sale securities were sold for a gain of \$993.

NOTE 3 – INVESTMENT SECURITIES, Continued

For the six-month periods ended June 30, 2011 and 2010, there were no sales of held to maturity securities. During all of 2010, the Company sold \$2,255 par value (\$2,370 fair value) of held to maturity securities, consisting of four securities, for a net gain of \$73. Two of these held to maturity securities, \$770 par value (\$785 fair value), were sold under exception “a.” of ASC 320-10-25-6 as a result of both securities losing their rating due to a downgrade of the insurer. Two of these held to maturity securities, \$1,485 par value (\$1,585 fair value), were sold under exception “d.” of ASC 320-10-25-6 because the primary regulator of the Company’s subsidiary bank has increased scrutiny of capital and its components and, consequently, due to continued uncertainty in the municipal bond markets, the amount of investment in individual municipal securities issuers. In response to these regulatory concerns related to capital and its components, the Company sold all of its municipal securities of individual issuers in excess of \$600, including all municipal securities in this size category classified held to maturity as well as those classified available for sale. We believe that the sale of these held to maturity securities should not be considered inconsistent with the original classification and the remaining portfolio is not tainted.

Management reviews securities for other-than-temporary impairment on at least a quarterly basis, and more frequently when economic or market concerns warrant such evaluation. Consideration is given to (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuer, and (3) the fact that Company does not intend to sell these securities, and it is more likely than not that the Company will not be required to sell these securities before recovery of their amortized cost.

NOTE 4 – LOANS AND ALLOWANCE FOR LOAN LOSSES

The following is a summary of loans at June 30, 2011 and December 31, 2010 by major classification:

	June 30, 2011	December 31, 2010
Real estate loans – mortgage	\$ 351,879	\$ 362,998
- construction	56,840	63,080
Agricultural loans	4,922	3,282
Commercial and industrial loans	56,187	61,127
Loans to individuals for household, family and other consumer expenditures	42,606	43,350
All other loans, including overdrafts and deferred loan costs	452	349
Gross loans	<u>\$ 512,886</u>	<u>\$ 534,186</u>
Less allowance for loan losses	<u>(12,143)</u>	<u>(11,627)</u>
Net loans	<u>\$ 500,743</u>	<u>\$ 522,559</u>

Changes in the allowance for loan losses for the quarters and six month periods ended June 30, 2011 and 2010, and the year ended December 31, 2010 are summarized as follows:

	Quarter Ended June 30, 2011	Quarter Ended June 30, 2010	Year Ended December 31, 2010	Six-Months Ended June 30, 2011	Six-Months Ended June 30, 2010
Balance, beginning of period	<u>\$ 11,803</u>	<u>\$ 10,310</u>	<u>\$ 9,142</u>	<u>\$ 11,627</u>	<u>\$ 9,142</u>
Charge-offs:					
Commercial, financial, and agricultural	411	1,298	3,273	691	1,995
Real Estate - construction and mortgage	2,251	1,289	7,444	4,213	3,151
Loans to individuals	274	178	899	510	509
Total charge-offs	<u>\$ 2,936</u>	<u>\$ 2,765</u>	<u>\$11,616</u>	<u>\$ 5,414</u>	<u>\$ 5,655</u>
Recoveries:					
Commercial, financial, and agricultural	\$ 30	\$ 84	\$ 259	\$ 92	\$ 184
Real Estate - construction and mortgage	121	4	73	527	15
Loans to individuals	60	67	372	134	251
Total recoveries	<u>\$ 211</u>	<u>\$ 155</u>	<u>\$ 704</u>	<u>\$ 753</u>	<u>\$ 450</u>
Net charge-offs	<u>\$ 2,725</u>	<u>\$ 2,610</u>	<u>\$10,912</u>	<u>\$ 4,661</u>	<u>\$ 5,205</u>
Additions charged to operations	<u>\$ 3,065</u>	<u>\$ 3,806</u>	<u>\$13,397</u>	<u>\$ 5,177</u>	<u>\$ 7,569</u>
Balance, end of period	<u>\$12,143</u>	<u>\$11,506</u>	<u>\$11,627</u>	<u>\$12,143</u>	<u>\$11,506</u>
Ratio of net charge-offs during the period to average loans outstanding during the period	<u>.52%</u>	<u>.46%</u>	<u>1.90%</u>	<u>.89%</u>	<u>.91%</u>

The entire balance of the allowance for loan losses is available to absorb future loan losses.

NOTE 4 – LOANS AND ALLOWANCE FOR LOAN LOSSES, Continued

At June 30, 2011, December 31, 2010, and June 30, 2010 loans on which no interest was being accrued totaled \$25,592, \$25,704, and \$20,874, respectively. All loans on which no interest was being accrued as well as other loans identified by management as having weaknesses which result in a determination of an inability on the part of the borrower to make full and timely payment of principal and interest are classified as impaired. Impaired loans at June 30, 2011, December 31, 2010, and June 30, 2010 were \$27,994, \$29,074, and \$24,815, respectively. The portion of the allowance for loan losses specifically allocated to impaired loans at June 30, 2011, December 31, 2010, and June 30, 2010 was \$877, \$709, and \$2,000, respectively. The Company had \$7,147 of foreclosed real estate at June 30, 2011, \$5,476 at December 31, 2010, and \$3,226 at June 30, 2010. Loans 90 days past due and still accruing interest totaled \$838, \$1,042, and \$913 at June 30, 2011, December 31, 2010, and June 30, 2010, respectively.

At June 30, 2011, December 31, 2010, and June 30, 2010 classified assets, the majority consisting of classified loans, were \$66,677, \$76,642, and \$78,956, respectively. At June 30, 2011, December 31, 2010, and June 30, 2010 classified assets represented 67.62%, 78.24%, and 81.80% of total capital (the sum of Tier 1 Capital and the Allowance for Loan Losses), respectively.

As of June 30, 2011 and December 31, 2010 loans individually evaluated and considered impaired under ASC 310-10 “Receivables” were as follows (tabular amounts in thousands):

	<u>June 30, 2011</u>	<u>December 31, 2010</u>
Total loans considered impaired	\$27,994	\$ 29,074
Loans considered impaired for which there is a related allowance for loan loss:		
Outstanding loan balance	12,195	8,620
Related allowance established	877	709
Loans considered impaired and previously written down to fair value	15,779	20,454
Loans considered impaired and which are classified as troubled debt restructurings.	20	20
Average investment in impaired loans	28,508	25,241
Interest income recognized on impaired loans during the period of impairment.	211	636

NOTE 4 - LOANS AND ALLOWANCE FOR LOAN LOSSES – Continued

The following tables summarize (in thousands of dollars) commercial and consumer credit exposure by internally assigned grade, collateral, and purpose as indicators of credit quality existing in the Company's loan portfolios as of June 30, 2011 and December 31, 2010. The Company utilizes four "Pass" grade categories and the regulatorily defined "Other Assets Especially Mentioned," "Substandard," and "Doubtful" grade categories to monitor credit risk existing in its loan portfolios on an on-going basis. The four pass grades are defined as: Pass-1, loans that have minimal credit risk and are of excellent quality; Pass-2, loans with satisfactory credit risk; Pass-3, loans with reasonable credit risk, however a degree of watchfulness is warranted; and Pass-4, loans which demonstrate some weakness and a higher degree of watchfulness is warranted. "Other Assets Especially Mentioned (OAEM)" loans have weaknesses and warrant management's close attention. "Substandard" loans have a high degree of credit risk and credit factors that indicate potential further deterioration, which could result in a protracted workout or possible loss. "Doubtful" loans have a high degree of potential loss, in whole or in part.

Commercial Credit Exposure
Credit Risk Profile by Internally Assigned Grade
For the Quarter Ended June 30, 2011

	<u>Commercial Other</u>	<u>Commercial Real Estate Construction</u>	<u>Commercial Real Estate- Other</u>
PASS 1	\$ 5,102	\$ 38	\$ 37
PASS 2	16,388	9,772	50,685
PASS 3	13,992	10,304	34,712
PASS 4	14,351	16,884	35,147
OAEM	6,356	9,203	12,630
Substandard	<u>4,920</u>	<u>10,639</u>	<u>16,963</u>
Total	<u>\$ 61,109</u>	<u>\$ 56,840</u>	<u>\$150,174</u>

Consumer Credit Exposure
Credit Risk Profile by Internally Assigned Grade
For the Quarter Ended June 30, 2011

	<u>Consumer Real Estate-Residential</u>
PASS 1	\$ 771
PASS 2	69,314
PASS 3	47,932
PASS 4	48,151
OAEM	9,770
Substandard	<u>25,767</u>
Total	<u>\$ 201,705</u>

The Company had no loans classified as doubtful at June 30, 2011. The Company does not make loans defined as "sub-prime" loans.

NOTE 4 - LOANS AND ALLOWANCE FOR LOAN LOSSES – Continued

Commercial Credit Exposure
Credit Risk Profile by Internally Assigned Grade
For the Year Ended December 31, 2010

	<u>Commercial Other</u>	<u>Commercial Real Estate Construction</u>	<u>Commercial Real Estate- Other</u>
PASS 1	\$ 7,524	\$ 39	\$ -
PASS 2	12,980	8,590	55,930
PASS 3	15,859	11,168	31,521
PASS 4	16,611	18,377	30,054
OAEM	6,007	9,283	14,105
Substandard	<u>5,428</u>	<u>15,623</u>	<u>20,611</u>
Total	<u>\$ 64,409</u>	<u>\$ 63,080</u>	<u>\$152,221</u>

Consumer Credit Exposure
Credit Risk Profile by Internally Assigned Grade
For the Year Ended December 31, 2010

	<u>Consumer Real Estate-Residential</u>
PASS 1	\$ 761
PASS 2	74,462
PASS 3	48,216
PASS 4	46,158
OAEM	12,687
Substandard	<u>28,538</u>
Total	<u>\$ 210,822</u>

The Company had no loans classified as doubtful at December 31, 2010. The Company does not make loans defined as “sub-prime” loans.

The following table summarizes the Company’s consumer credit card and all other consumer loans based on performance at June 30, 2011 and December 31, 2010 (tabular amounts in thousands).

Consumer Credit Exposure
Credit Risk Profile Based on Payment Activity

	June 30, 2011			December 31, 2010	
	<u>Consumer Credit Card</u>	<u>Consumer Other</u>		<u>Consumer Credit Card</u>	<u>Consumer Other</u>
Performing	\$ 3,084	\$39,974	Performing	\$ 3,225	\$40,429
Non-Performing	-	-	Non-Performing	-	-
Total	<u>\$ 3,084</u>	<u>\$39,974</u>	Total	<u>\$ 3,225</u>	<u>\$40,429</u>

The Company had no consumer credit card or other consumer loans classified as “Non-Performing” at June 30, 2011 or December 31, 2010.

NOTE 4 - LOANS AND ALLOWANCE FOR LOAN LOSSES – Continued

The following tables outline the changes in the allowance for loan losses by collateral type and purpose, the allowances for loans individually and collectively evaluated for impairment, and the amount of loans individually and collectively evaluated for impairment at June 30, 2011 and December 31, 2010 (tabular amounts in thousands).

NOTE 4 - LOANS AND ALLOWANCE FOR LOAN LOSSES – Continued

In addition to those loans placed in a nonaccrual status, there are certain loans in the portfolio which are not yet 90 days past due but about which management has concerns regarding the ability of the borrower to comply with present loan repayment terms. Such loans, together with nonaccrual loans, are classified as impaired. Problem loan identification includes a review of individual loans, the borrower's and guarantor's financial capacity and position, loss potential, and present economic conditions. A specific allocation is provided for impaired loans not yet placed in nonaccrual status and not yet written down to fair value in management's determination of the allowance for loan losses. The following table outlines Company's loans classified as impaired by collateral type and purpose at June 30, 2011 and December 31, 2010 (tabular amounts in thousands).

Impaired Loans
For the Six-Months Ended June 30, 2011

	<u>Recorded Investment</u>	<u>Unpaid Principal Balance</u>	<u>Related Allowance</u>	<u>Average Recorded Investment</u>	<u>Interest Income Recognized</u>
With no related allowance recorded:					
Commercial real estate-construction	\$ 5,709	\$ 7,341	\$ -	\$ 6,444	\$ 4

NOTE 4 - LOANS AND ALLOWANCE FOR LOAN LOSSES – Continued

The following table outlines the Company's loans on nonaccrual status by collateral type and purpose at June 30, 2011 and December 31, 2010 (tabular amounts in thousands).

Loans on Nonaccrual Status

	June 30, <u>2011</u>	December 31, <u>2010</u>
Commercial	\$ 987	\$ 315
Commercial real estate:		
Commercial real estate construction	6,638	9,711
Commercial real estate – other	9,152	9,250
Consumer:		
Consumer-credit card	-	-
Consumer-other	148	-
Residential:		
Residential	<u>8,667</u>	<u>6,428</u>
Total	<u>\$ 25,592</u>	<u>\$ 25,704</u>

The total amount of interest earned on nonaccrual loans was \$114 and \$408 for the six-month periods ended June 30, 2011 and 2010, respectively. The gross interest income which would have been recorded under the original terms of the nonaccrual loans amounted to \$1,018 and \$1,847 for the six-month periods ended June 30, 2011 and 2010, respectively. Foregone interest on nonaccrual loans totaled \$904 and \$1,439 for the six-month periods ended June 30, 2011 and 2010, respectively. The Company writes down any confirmed losses associated with nonaccrual loans at the time such loans are placed in a nonaccrual status. Accrued and unpaid current period interest income on nonaccrual loans is reversed to current period income at the time a loan is placed in nonaccrual status. Accrued and unpaid prior period interest income on nonaccrual loans is charged to the Allowance for Loan Losses at the time the loan is placed in nonaccrual status. Any payments received on loans placed in nonaccrual status are applied first to principal. The Company recognized \$46 of interest on a cash basis on one loan relationship consisting of four nonaccrual loans totaling \$1,951 during the six-month period ended June 30, 2011. The Company did not recognize interest income on nonaccrual loans on a cash basis during any of 2010.

At June 30, 2011 and December 31, 2010 the amount of loans ninety days or more past due and still accruing interest totaled \$838 and \$1,042, respectively. Loans ninety days or more past due and still accruing interest consist primarily of consumer loans which are placed in nonaccrual status at one hundred twenty days or more past due.

At June 30, 2011 and December 31, 2010 classified assets, the majority consisting of classified loans, were \$66,667 and \$76,642, respectively. At June 30, 2011 and December 31, 2010 classified assets represented 67.62% and 78.24% of total capital (the sum of Tier 1 Capital and the Allowance for Loan Losses), respectively.

The Company had no loans classified as troubled debt restructurings at June 30, 2011 and December 31, 2010. The Company does anticipate that a portion of its loans classified as impaired will be re-classified as troubled debt restructurings under ASU 2011-02 issued by the FASB in April 2011. The Company is evaluating the re-classifications for the third quarter of 2011.

NOTE 5 - PREMISES AND EQUIPMENT

Property at June 30, 2011 and December 31, 2010 is summarized as follows:

	June 30, 2011	December 31, 2010
Land and buildings	\$ 26,386	\$ 26,386
Furniture, fixtures and equipment	9,007	8,897
Construction in progress	<u>139</u>	<u>-</u>
	\$ 35,532	\$ 35,283
Less accumulated depreciation and amortization	<u>13,843</u>	<u>13,195</u>
	<u>\$ 21,689</u>	<u>\$ 22,088</u>

Depreciation and amortization of bank premises and equipment charged to operating expense was \$717 and \$746 for the six-month period ended June 30, 2011 and 2010, respectively, and \$1,493 for the year ended December 31, 2010. The construction in progress is primarily related to an Automated Teller Machine (ATM) kiosk and equipment replacement program at various branch offices and minor renovation at the Company's Operations and Administration Center and its branch office located at 309 Main Street, Conway, S.C. There is approximately \$118 of remaining costs associated with the Company's ATM replacement program. There are no additional remaining costs for the minor Operations and Administration Center renovation. There is approximately \$32 of remaining costs associated with the Main Street branch office.

NOTE 6 - CERTIFICATES OF DEPOSIT IN EXCESS OF \$100

At June 30, 2011 and December 31, 2010, certificates of deposit of \$100 or more included in time deposits totaled approximately \$210,442 and \$215,935, respectively. Interest expense on these deposits was approximately \$1,542 for the six-month period ended June 30, 2011 and \$4,362 for the year ended December 31, 2010.

NOTE 7 - SECURITIES SOLD UNDER REPURCHASE AGREEMENTS

At June 30, 2011 and 2010, and December 31, 2010, securities sold under repurchase agreements totaled \$82,627, \$100,112, and \$99,153, respectively. Securities with a book value of \$88,996 (\$89,915 fair value), \$113,342 (\$114,544 fair value), and \$117,386 (\$117,549 fair value), were used as collateral for the agreements for the same periods, respectively. The weighted-average interest rate of these agreements was .27 percent, .78 percent, and .46 percent at June 30, 2011 and 2010, and December 31, 2010, respectively.

The Company had no brokered deposits at any of June 30, 2011, June 30, 2010, or December 31, 2010.

NOTE 8 - LINES OF CREDIT

At June 30, 2011, the Bank had unused short-term lines of credit to purchase Federal Funds from unrelated banks totaling \$35,500. These lines of credit are available on a one to seven day basis for general corporate purposes of the Bank. All of the lenders have reserved the right to withdraw these lines at their option.

The Bank has a demand note through the U.S. Treasury, Tax and Loan system with the Federal Reserve Bank of Richmond. The Bank may borrow up to \$7,000 under the arrangement at a variable interest rate to the extent collateral is pledged. The note was secured by bonds with a market value of \$3,030 at June 30, 2011 and \$3,084 at June 30, 2010. The amount outstanding under the note totaled \$1,444, \$498, and \$2,324 at June 30, 2011 and 2010, and December 31, 2010, respectively.

The Bank also has a line of credit from the Federal Home Loan Bank of Atlanta for \$49,146 secured by a lien on the Bank's 1-4 family mortgage loans. Allowable terms range from overnight to twenty years at varying rates set daily by the FHLB. There were no borrowings under the agreement at June 30, 2011 or at December 31, 2010. At June 30, 2010, the Company had \$10,000 in borrowing under the agreement.

NOTE 9 - INCOME TAXES

Income tax expense/(benefit) for the six months ended June 30, 2011 and June 30, 2010 on pretax income/(loss) of \$422 and \$(660) totaled \$10 and \$(397), respectively. The provision for federal income taxes is calculated by applying the 34% statutory federal income tax rate and increasing or reducing this amount due to any tax-exempt interest, state income tax (net of federal benefit), business credits, surtax exemption, tax preferences, alternative minimum tax calculations, or other factors. A summary of income tax components and a reconciliation of income taxes to the federal statutory rate are included in fiscal year-end reports on Form 10-K.

The Company accounts for income taxes in accordance with FASB ASC 740 "Income Taxes."

NOTE 10 - COMMITMENTS AND CONTINGENT LIABILITIES

From time to time the Bank is a party to various litigation matters, both as plaintiff and as defendant, arising from its normal operations. No material losses are anticipated in connection with any of these matters at June 30, 2011.

In the normal course of business, the Bank is a party to financial instruments with off-balance-sheet risk including commitments to extend credit and standby letters of credit. Such instruments have elements of credit risk in excess of the amount recognized in the balance sheet. The exposure to credit loss in the event of nonperformance by the other parties to the financial instruments for commitments to extend credit and standby letters of credit is represented by the contractual notional amount of those instruments. Generally, the same credit policies used for on-balance-sheet instruments, such as loans, are used in extending loan commitments and standby letters of credit.

Following are the off-balance-sheet financial instruments whose contract amounts represent credit risk:

	<u>June 30, 2011</u>
Loan Commitments	\$ 37,052
Standby letters of credit	1,349

Loan commitments involve agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and some involve payment of a fee. Many of the commitments are expected to expire without being fully drawn. Therefore, the total amount of loan commitments does not necessarily represent future cash requirements. Each customer's creditworthiness is evaluated on a case-by-case basis. The amount of collateral obtained, if any, upon extension of credit is based on management's credit evaluation of the borrower. Collateral held varies but may include certificates of deposit or other negotiable collateral, commercial and residential real properties, accounts receivable, inventory and equipment.

Standby letters of credit are conditional commitments to guarantee the performance of a customer to a third party. The credit risk involved in issuing standby letters of credit is the same as that involved in making loan commitments to customers. Many letters of credit will expire without being drawn upon and do not necessarily represent future cash requirements.

Management believes that its various sources of liquidity provide the resources necessary for the Bank to fund the loan commitments and to perform under standby letters of credit, if the need arises. Neither the Company nor the Bank are involved in other off-balance sheet contractual relationships or transactions that could result in liquidity needs or other commitments or significantly impact earnings.

NOTE 11 - EMPLOYEE BENEFIT PLAN

The Bank has a defined contribution pension plan covering all employees who have attained age twenty-one and have a minimum of one year of service. Upon ongoing approval of the Board of Directors, the Bank matches one-hundred percent of employee contributions up to three percent of employee salary deferred and fifty percent of employee contributions in excess of three percent and up to five percent of salary deferred. The Board of Directors may also make discretionary contributions to the Plan. For the six-month period ended June 30, 2011 and 2010, and the year ended December 31, 2010, \$201, \$193, and \$388, respectively, was charged to operations under the plan.

NOTE 12 - REGULATORY MATTERS

The Bank and the Company are subject to various regulatory capital requirements administered by the federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory - and possibly additional discretionary - actions by regulators that, if undertaken, could have a direct material effect on the financial statements. The regulations require the Bank and the Company to meet specific capital adequacy guidelines that involve quantitative measures of assets, liabilities, and certain off-balance-sheet items as calculated under regulatory accounting practices. The capital classification is also subject to qualitative judgments by the regulators about components, risk weightings, and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the maintenance of minimum amounts and ratios (set forth in the tables below) of Tier 1 capital to adjusted total assets (Leverage Capital ratio) and minimum ratios of Tier 1 and total capital to risk-weighted assets. To be considered adequately capitalized under the regulatory framework for prompt corrective action, the Company and the Bank must maintain minimum Tier 1 leverage, Tier 1 risk-based and total risk-based ratios as set forth in the tables below. The Company's and the Bank's actual capital ratios are presented in the tables below as of June 30, 2011 (Dollar amounts in thousands):

Company

	Actual		For Capital adequacy Purposes Minimum	
	Amount	Ratio	Amount	Ratio
Total Capital (to risk weighted assets)	\$93,750	17.22%	\$43,552	8.0%
Tier 1 Capital (to risk weighted assets)	86,880	15.96	21,776	4.0
Tier 1 Capital (to average assets)	86,880	9.37	37,083	4.0

Bank

	Actual		For Capital adequacy Purposes Minimum		To be Well capitalized under prompt corrective action provisions Minimum	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
Total Capital (to risk weighted assets)	\$93,327	17.14%	\$43,549	8.0%	\$54,436	10.0%
Tier 1 Capital (to risk weighted assets)	86,457	15.88	21,774	4.0	32,662	6.0
Tier 1 Capital (to average assets)	86,457	9.33	37,082	4.0	46,352	5.0

In addition to the regulatory capital requirements shown above, the Bank is currently required to maintain individual minimum capital ratios by the OCC. Those required ratios are: Tier 1 capital to average assets – 8.5%; Tier 1 capital to risk weighted assets – 12.0%; and total capital to risk weighted assets – 14.0%.

NOTE 13 - ESTIMATED FAIR VALUE OF FINANCIAL INSTRUMENTS

The estimated fair values of the Company's financial instruments were as follows at June 30, 2011 and December 31, 2010 (amounts in thousands):

	June 30, 2011		December 31, 2010	
	<u>Carrying Amount</u>	<u>Fair Value</u>	<u>Carrying Amount</u>	<u>Fair Value</u>
FINANCIAL ASSETS				
Cash and due from banks and Federal Reserve balance in excess of requirement	\$ 65,869	\$ 65,869	\$ 32,517	\$ 32,517
Federal funds sold	24,000	24,000	14,000	14,000
Investment securities available for sale	262,391	262,391	275,381	275,381
Investment securities held to maturity	15,029	15,389	20,678	20,784

Loans (net)	500,743	505,512	522,559	527,787
FINANCIAL LIABILITIES				
Deposits	736,846	735,864	718,140	716,733
Securities sold under repurchase agreements	82,626	82,626	99,153	99,153
U.S. Treasury demand notes	1,444	1,444	2,324	2,324
OFF BALANCE SHEET INSTRUMENTS				
	<u>Notional Amount</u>		<u>Notional Amount</u>	
Commitments to extend credit	\$ 37,052		\$ 38,343	
Standby letters of credit	1,349		1,577	

Accounting standards require disclosures about the fair value of assets and liabilities recognized in the balance sheet in periods subsequent to initial recognition, whether the measurements are made on a recurring basis (for example, available for sale investment securities) or on a nonrecurring basis (for example, impaired loans).

The accounting standard defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. It also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

- Level 1 Quoted market prices in active markets for identical assets or liabilities. Level 1 assets and liabilities include debt and equity securities and derivative contracts that are traded in an active exchange market, as well as U.S. Treasuries, and money market funds.

- Level 2 Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Level 2 assets and liabilities include debt securities with quoted prices that are traded less frequently than exchange-traded instruments, mortgage-backed securities, municipal bonds, corporate debt securities, and derivative contracts whose value is determined using a pricing model with inputs that are observable in the market or can be derived principally from or corroborated by observable market data. This category generally includes certain derivative contracts.

NOTE 13 - ESTIMATED FAIR VALUE OF FINANCIAL INSTRUMENTS, Continued

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities include financial instruments whose value is determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation. For example, this category generally includes impaired loans, other real estate owned, certain private equity investments, retained residual interests in securitizations, residential mortgage servicing rights, and highly-structured or long-term derivative contracts.

Following is a description of valuation methodologies used by the Company for assets and liabilities recorded on the balance sheet at fair value on a recurring or non-recurring basis:

Investment Securities Available for Sale

Measurement is on a recurring basis based upon quoted market prices, if available. If quoted market prices are not available, fair values are measured using independent pricing models or other model-based valuation techniques such as the present value of future cash flows, adjusted for prepayment assumptions, projected credit losses, and liquidity. Level 1 securities include those traded on an active exchange or by dealers or brokers in active over-the-counter markets. Level 2 securities include securities issued by government sponsored enterprises, municipal securities, and mortgage-backed securities issued by government sponsored enterprises. Generally these fair values are priced from established pricing models.

Impaired Loans

Loans that are considered impaired are recorded at fair value on a non-recurring basis. Once a loan is considered impaired, the fair value is measured using one of several methods, including collateral liquidation value, market value of similar debt and discounted cash flows. Those impaired loans not requiring a specific charge against the allowance represent loans for which the fair value of the expected repayments or collateral meet or exceed the recorded investment in the loan. At June 30, 2011, substantially all of the total impaired loans were evaluated based on the fair value of the underlying collateral. When the Company records the fair value based upon a current appraisal, the fair value measurement is considered a non-recurring Level 3 measurement.

Other Real Estate Owned (OREO)

Other real estate owned is adjusted to fair value upon transfer of the loans to other real estate owned by foreclosure or deed-in-lieu of foreclosure. Subsequently, other real estate owned is carried at the lower of carrying value or fair value. Fair value is based upon independent market prices, appraised values of the collateral or management's estimation of the value of the collateral. When the fair value of the collateral is based on an observable market price or a current appraised value, the Bank records the other real estate owned as nonrecurring Level 3 measurement.

NOTE 13 - ESTIMATED FAIR VALUE OF FINANCIAL INSTRUMENTS, Continued

Assets and liabilities measured at fair value on a recurring basis for June 30, 2011 and December 31, 2010 are presented in the following table (dollars in thousands):

<u>June 30, 2011</u>	Quoted market price in active markets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Available for sale securities			
Government Sponsored Enterprises	\$ -	\$ 223,790	\$ -
State, County, and Municipal	-	25,322	-
Mortgage backed securities	-	12,158	-
Other	-	1,121	-
Total	<u>\$ -</u>	<u>\$ 262,391</u>	<u>\$ -</u>

<u>December 31, 2010</u>			
Available for sale securities			
Government Sponsored Enterprises	\$ -	\$ 244,497	\$ -
State, County, and Municipal	-	19,475	-
Mortgage backed securities	-	10,308	-
Other	-	1,101	-
Total	<u>\$ -</u>	<u>\$ 275,381</u>	<u>\$ -</u>

Certain assets and liabilities are measured at fair value on a nonrecurring basis; that is, the instruments are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances (for example, when there is evidence of impairment). The following table presents the assets and liabilities carried on the balance sheet by caption and by level within the valuation hierarchy (as described above) as of June 30, 2011 and December 31, 2010 for which a non-recurring change in fair value was recorded during the six months and year ended June 30, 2011 and December 31, 2010.

<u>June 30, 2011</u>	Quoted market price in active markets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
Other real estate owned	\$ -	\$ -	\$ 7,147
Impaired loans	-	-	27,117
	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 34,264</u>
<u>December 31, 2010</u>			
Other real estate owned	\$ -	\$ -	\$ 5,476
Impaired loans	-	-	28,365
	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 33,841</u>

NOTE 14 - CONDENSED FINANCIAL INFORMATION

Following is condensed financial information of CNB Corporation (parent company only):

**CONDENSED BALANCE SHEETS
(Unaudited)**

	June 30,	
ASSETS	<u>2011</u>	<u>2010</u>
Cash	\$ 387	\$ 914

NOTE 15 – SUBSEQUENT EVENTS

Subsequent events are events or transactions that occur after the balance sheet date but before financial statements are issued. Recognized subsequent events are events or transactions that provide additional evidence about conditions that existed at the date of the balance sheet, including the estimates inherent in the process of preparing financial statements. Non-recognized subsequent events are events that provide evidence about conditions that did not exist at the date of the balance sheet but arose after that date. Management has reviewed events occurring through the date the financial statements were available to be issued and no subsequent events occurred requiring accrual or disclosure.

Item 2.**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

(All dollar amounts in thousands, except per share data.)

Management's Discussion and Analysis is provided to afford a clearer understanding of the major elements of the Company's results of operations, financial condition, liquidity, and capital resources. The following discussion should be read in conjunction with the Company's financial statements and notes thereto and other detailed information appearing elsewhere in this report. In addition, the results of operations for the interim periods shown in this report are not necessarily indicative of results to be expected for the fiscal year. The accompanying consolidated financial statements include all accounts of the Company and the Bank. All significant intercompany accounts and transactions have been eliminated in consolidation. The accompanying unaudited consolidated financial statements for the three-month and six-month periods ending June 30, 2011 and 2010 and the year ended December 31, 2010 have been prepared in accordance with generally accepted accounting principles ("GAAP") for interim financial information and with the instructions to Form 10-Q of the Securities and Exchange Commission. Accordingly, they do not include all information and footnotes required by GAAP for complete financial statements. However, in the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included.

DISTRIBUTION OF ASSETS AND LIABILITIES

The Company has historically maintained a conservative approach in determining the distribution of assets and liabilities. Loans decreased 9.1% from \$564,004 at June 30, 2010 to \$512,886 at June 30, 2011, and decreased 4.0%, from \$534,186 at December 31, 2010 to \$512,886 at June 30, 2011. Loans decreased as a percentage of total assets from 60.4% to 56.2% from June 30, 2010 to June 30, 2011 and decreased from 58.6% to 56.2% from December 31, 2010 to June 30, 2011. Loan demand in our market area has continued to soften during the period due to the continued subdued local real estate market. Securities and federal funds sold increased as a percentage of total assets from 29.3% at June 30, 2010 to 32.9% at June 30, 2011, a reflection of continued soft loan demand coupled with higher levels of deposits. Securities and federal funds sold decreased as a percentage of total assets from 34.0% at December 31, 2010 to 32.9% at June 30, 2011, as management temporarily increased cash and due from banks. The level of investments and excess Federal Reserve deposits provide for a more than adequate supply of liquidity.

Management has sought to build the deposit base with stable, relatively non-interest-sensitive deposits by offering the small to medium deposit account holders a wide array of deposit instruments at competitive rates. Non-interest-bearing demand deposits increased as a percentage of total assets from 12.0% at June 30, 2010 to 13.4% at June 30, 2011, and increased from 11.8% at December 31, 2010 to 13.4% at June 30, 2011. Management attributes these increases to new account openings resulting from the acquisition of competitors and the introduction of new fee structures by competitors. However, as more customers, both business and personal, are attracted to interest-bearing deposit accounts, we expect the percentage of non-interest bearing demand deposits to decline over the long-term. Interest-bearing deposits, as a percent of total assets, increased from 66.3% of total assets at June 30, 2010 to 67.3% at June 30, 2011, and increased from 66.9% at December 31, 2010 to 67.3% at June 30, 2011. Securities sold under agreement to repurchase decreased from 10.7% of total assets at June 30, 2010 to 9.0% at June 30, 2011, and decreased from 10.9% of total assets at December 31, 2010 to 9.0% at June 30, 2011. Management anticipates that securities sold under agreement to repurchase will further decline over time as a percent of total assets due, in part to new wholesale funding limitations implemented by the Company during the second quarter of 2011. Other short-term borrowings decreased from .3% of total assets at December 31, 2010 to .2% at June 30, 2011 and decreased from 1.1% at June 30, 2010 to .2% at June 30, 2011.

The following table sets forth the percentage relationship to total assets of significant components of the Company's balance sheets as of June 30, 2011 and June 30, 2010 and December 31, 2010:

	June 30, December 31,		
	<u>2011</u>	<u>2010</u>	<u>2010</u>
Assets:

RESULTS OF OPERATIONS

Earnings/(losses) for the three-month periods ended June 30, 2011 and 2010 were \$30 and \$(220) respectively, resulting in a return on average assets of .01% and (.09)% and a return on average stockholders' equity of .14% and (1.01)%, respectively.

Earnings/(losses) for the six-month periods ended June 30, 2011 and 2010 were \$412 and \$(263) respectively, resulting in a return on average assets of .09% and (.06)% and a return on average stockholders' equity of .94% and (.60)%, respectively.

The increase in earnings for the three-month and six-month periods ended June 30, 2011 is primarily attributable to a decrease in provision for loan losses, partially offset by a decline in noninterest income, increased noninterest expenses, increased income taxes, and a decline in net interest income for the six-month period ended June 30, 2011 (See Net Income – Net Interest Income, Net Income – Provision for Loan Losses, Net Income – Noninterest Expenses, and Net Income – Income Taxes). The losses for the three-month and six-month periods ended June 30, 2010 were primarily attributable to a decline in net interest income and increased provision for loan losses. (See Net Income – Net Interest Income and Net Income – Provision for Loan Losses). Management anticipates, but cannot assure, that earnings will remain well below historical levels through 2011, but above the level of income experienced for 2010. Total assets decreased \$20,747 or 2.2% to \$913,371 at June 30, 2011 from \$934,118 at June 30, 2010. The following table sets forth the financial highlights for the three-month and six-month periods ended at June 30, 2011 and June 30, 2010:

CNB Corporation and Subsidiary FINANCIAL HIGHLIGHTS

- (1) For the three-month period ended June 30, 2011, average total assets amounted to \$928,208 with average stockholders' equity totaling \$87,828 for the same period.

For the six-month period ended June 30, 2011, average total assets amounted to \$928,323 with average stockholders' equity totaling \$87,515 for the same period.

NET INCOME/(LOSS)

Net Interest Income - Earnings are dependent to a large degree on net interest income, defined as the difference between gross interest and fees earned on earning assets, primarily loans and securities, and interest paid on deposits and borrowed funds. Net interest income is affected by the interest rates earned or paid and by volume changes in accruing loans, securities, deposits, and borrowed funds.

Interest rates paid on deposits and borrowed funds and earned on loans and investments have generally followed the fluctuations in market interest rates. However, fluctuations in market interest rates do not necessarily have a significant impact on net interest income, depending on the bank's interest rate sensitivity position. A rate sensitive asset (RSA) is any loan or investment on which the interest rate can be repriced either up or down within a certain time interval. A rate sensitive liability (RSL) is an interest paying deposit or other liability on which the interest rate can be repriced either up or down within a certain time interval. When a proper balance between RSA and RSL exists, market interest rate fluctuations should not have a significant impact on earnings. The larger the imbalance, the greater the interest rate risk assumed by the Bank and the greater the positive or negative impact of interest rate fluctuations on earnings. The Bank seeks to manage its assets and liabilities in a manner that will limit interest rate risk and thus stabilize long-term earning power. Management believes that a 200 basis point rise or fall in interest rates will have less than a 10 percent effect on before-tax net interest income over a one-year period, which is within Bank guidelines. The Board of Directors has established policies and procedures for the proper management of assets and liabilities within risk tolerances acceptable to the Board including the establishment of acceptable interest rate sensitivity guidelines for the impact on net interest income and the economic value of equity resulting from a 100 to 400 basis point change in market rates over a 12 month period.

The Bank maintained net interest margins for the three-month and six-month periods ended June 30, 2011, of 3.60% and 3.55%, respectively, and 3.52% and 3.54%, respectively, for the same periods in 2010, as compared to management's long-term target of 4.20%. Although slightly improved from 2010 to 2011, net interest margins have been compressed for the Bank and industry-wide for several years for a variety of reasons. Dramatic decreases in market interest rates by the Federal Reserve during the first quarter of 2008 and additional decreases in market rates during the remainder of 2008 placed further significant pressure on net interest margins for the industry as a whole. The resulting more historically typical upward-sloping yield curve would generally enhance the Bank's net interest margin. However, market interest rates have been reduced to historically low levels, which do not enhance net interest margin. Further, the persistence of an extremely low interest rate environment places increasing pressure on net interest margin as more and more earning assets re-price into this environment. Additionally, competition in the Bank's specific market remains significant, as new competitors seek market share, other competitors attempt to reduce their dependence on wholesale funding, and all competitors seek to attract a diminishing pool of quality loans through aggressive pricing. These factors tend to compress margins by keeping the cost of deposits high in relation to established national benchmark rates and decreasing yields on loans. Moreover, the Bank, like the industry in general, is experiencing a historically high level of non-performing assets. The loss of interest income from these assets has negatively impacted net interest margin. The impact of these assets on net interest margin should diminish as the level of these assets declines over time.

Fully-tax-equivalent net interest income for the three-month period ended June 30, 2011 was \$7,828, an increase of 1.2% from the \$7,738 attained for the three-month period ended June 30, 2010. For the same periods, total fully-tax-equivalent interest income decreased by 9.9% to \$9,251 from \$10,270 and total interest expense decreased by 43.8% to \$1,423 from \$2,532. Fully-tax-equivalent net interest income as a percentage of average total earning assets increased 2.3% to 3.60% for the three-month period ended June 30, 2011 from 3.52% for the three-month period ended June 30, 2010.

Fully-tax-equivalent net interest income for the six-month period ended June 30, 2011 was \$15,438, a decrease of .8% from the \$15,556 attained for the six-month period ended June 30, 2010. For the same periods, total fully-tax-equivalent interest income decreased by 11.1% to \$18,509 from \$20,821 and total interest expense decreased by 41.6% to \$3,071 from \$5,255. Fully-tax-equivalent net interest income as a percentage of average total earning assets increased .3% to 3.55% for the six-month period ended June 30, 2011 from 3.54% for the six-month period ended June 30, 2010.

The tables on the following four pages present an analysis of average balances, yields and rates for the interest sensitive segments of the Company's balance sheets for the three-month and six-month periods ended June 30, 2011 and 2010, and a summary of changes in net interest income resulting from changes in volume and changes in rate for the three-month and six-month periods ended June 30, 2011 and 2010.

(1) The Company had no out-of-period adjustments or foreign activities. Loan fees of \$247 and \$278 are included in the above interest income for June 30, 2011 and 2010, respectively. Loans on a non-accrual basis for the recognition of interest income totaling \$25,593 and \$20,784 for June 30, 2011 and 2010, respectively, are included in loans for the purpose of this analysis.

(2) Tax-exempt income is presented on a tax-equivalent basis using a 34% tax rate. The amounts shown include tax-equivalent adjustments of \$282 and \$316 for June 30, 2011 and 2010, respectively.

The tables "Rate/Volume Variance Analysis" provide a summary of changes in net interest income resulting from changes in rate and changes in volume. The changes due to rate are calculated as the difference between the current and prior year's rates multiplied by the prior year's volume. The changes due to volume are calculated as the difference between the current and prior year's volume multiplied by the current rates earned or paid (this calculation effectively allocates all rate/volume variances to volume variances).

NET INCOME/(LOSS) (continued)

Provision for Loan Losses – The allowance for loan losses is maintained at an amount based on considerations of classified and internally-identified problem loans, the current trend in delinquencies, the volume of past-due loans, historical loss experience, current economic conditions, the levels of higher-risk loans, declines in collateral value, the effects of changes in risk selection or underwriting practices, the experience, ability and depth of lending management and staff, industry conditions, the effect of changes in concentrations of credit, loan administration risks, and levels of policy, collateral, and documentation exceptions.

The level of the allowance for loan losses is determined through the utilization of both quantitative and qualitative measures. Loans are identified as impaired as a result of management's determination of an inability on the part of the borrower to make full and timely payment of principal and interest, a decline in project performance, loan structuring issues which evolve in the course of deterioration, and past due status. Quantified losses associated with such loans are segregated as a component in the determination of the allowance for loan losses.

The Company employs migration analysis to determine the levels of risks and associated losses with homogenous pools of loans. This analysis determines levels of loss associated with pools of loans based on risk grade and historical loss factors by risk grades. Risk grading procedures incorporate a review of various loan attributes, the deterioration of which would result in a loan being downgraded to a higher risk pool. These loan attributes are: demonstrated financial capacity and position, the borrower's demonstrated willingness to pay, loan structure, lien perfection on collateral, documentation, conformance to loan agreement covenants, and adherence to loan policy, among others. Quantified losses associated with pools of loans from migration analysis are segregated as a component in the determination of the allowance for loan losses.

The Company utilizes various qualitative factors to quantify additional risks and potential inherent losses existing in the Company's loan portfolios. These include the consideration of levels and trends in delinquencies, changes in the loan grading mix, trends in the volume and terms of loans, over-margined real estate loans, national and local economic trends and conditions, changes in risk selection and underwriting practices, the experience, ability and depth of lending management and staff, industry conditions, loan concentrations, geographic concentrations, regulatory considerations, various loan administration risks, and levels of policy, collateral and documentation exceptions. Quantified losses associated with these qualitative factors are segregated as a component in the determination of the allowance for loan losses.

When the amount necessary to maintain the allowance for loan losses at an adequate level has been determined and that amount is greater than the existing allowance for loan losses after accounting for loan charge-offs and recoveries during the period, the allowance is increased to the amount determined to be necessary by a provision for loan losses which is charged to operating income. The provision for loan losses was \$3,065 for the three-month period ended June 30, 2011 and \$3,806 for the three-month period ended June 30, 2010. This decline in the provision for loan losses is primarily due to declining total classified assets. Net loan charge-offs totaled \$2,725 for the three-month period ended June 30, 2011 and \$2,610 for the same period in 2010. Although the provision for loan losses decreased for the three-month period ended June 30, 2011 as compared to the same period in 2010, both the provision for loan losses and net loan charge-offs remain historically high and reflect continued difficulties in local real estate markets. The Myrtle Beach-Conway-North Myrtle Beach South Carolina Metropolitan Statistical Area, wherein the majority of the Company's operations are situated, has experienced significant declines in various sectors of its economy, primarily in the real estate sectors. The allowance for loan losses as a percentage of net loans was 2.42% at June 30, 2011 and was 2.08% at June 30, 2010.

The provision for loan losses was \$5,177 for the six-month period ended June 30, 2011 and \$7,569 for the six-month period ended June 30, 2010. Loan charge-offs, net of recoveries totaled \$4,661 for the six-month period ended June 30, 2011 and \$5,205 for the same period in 2010. The decreased provision during the six-month period ended June 30, 2011 reflects declining total classified assets and lower net loan charge-offs for the first half of 2011.

The levels of loans on which no interest was being accrued, impaired loans, foreclosed real estate, and classified assets at June 30, 2011 and 2010 are outlined in the notes to the consolidated unaudited financial statements (See NOTE 4 – LOANS AND ALLOWANCE FOR LOAN LOSSES). All of these measurements increased during 2010, some markedly. During the fourth quarter of 2010 the increasing trend in impaired loans leveled while classified assets, as a percent of capital, declined, and foreclosed real estate increased. These trends continued during the three and six-month periods ended June 30, 2011. Although the levels of problem loans, foreclosed real estate and total classified assets remain at historically high levels, the Company is experiencing positive trends, and management considers all such levels manageable. One factor which contributes, in part, to higher levels of classified assets is the local market's high number of foreclosure actions in process, which has placed a substantial burden on the judiciary and courts and consequently significantly lengthened the time necessary to accomplish a foreclosure action. Additionally, the judiciary imposes sanctions and additional procedural requirements related to foreclosure proceedings from time to time. Management recognizes the potential for continued difficult economic conditions in the Company's market areas in the short-term, especially with respect to real estate related activities and real property values. However, management believes, but cannot assure, that substantially all of the Company's credit risks associated with the current real estate market decline have been identified. Nonetheless, management anticipates the Company will continue to need to make above average provisions through 2011.

NET INCOME/(LOSS) (continued)

Securities Transactions – At June 30, 2011, December 31, 2010, and June 30, 2010 total market value appreciation in the investment portfolio totaled \$2,678, \$(119), and \$2,854, respectively. As indicated, the market values of the Company's investment portfolio decreased from June 30, 2010 to December 31, 2010, and increased from December 31, 2010 to June 30, 2011. The yield curve has generally normalized during the period commencing with the first reduction in interest rates in October 2007 through June 30, 2011, although the current yield curve in total and particularly short-term interest rates remain at historically low levels.

The Company had no sales of investment securities during the six-month period ended June 30, 2011. For all of 2010, the Company sold securities primarily to restructure its investment in longer-term municipal securities in order to remove from the portfolio municipal securities which had lost their rating, and to reduce the level of exposure to individual municipal securities issuers in response to increased regulatory scrutiny related to capital and its components (See Note 3 to the financial statements – Investment Securities). The increase in the total market value of the investment portfolio during the three and six-month periods ended June 30, 2011 is attributable to general fluctuations in bond prices. The changes in market value appreciation/(depreciation) in the investment portfolio do not generally directly affect operating results since the Company does not acquire investment securities for trading. However, the changes in the market value appreciation in the investment portfolio for the three and six-month periods ended June 30, 2011 and 2010 are a component of Comprehensive Income and are set forth in the Condensed Consolidated Statements of Comprehensive Income contained herein.

Noninterest Income - Noninterest income decreased by 16.2% to \$1,511 for the three-month period ended June 30, 2011 from \$1,803 for the three-month period ended June 30, 2010. Noninterest income decreased by 10.3% to \$2,902 for the six-month period ended June 30, 2011, from \$3,234 for the six-month period ended June 30, 2010. The decreases in noninterest income for the three and six-month periods ended June 30, 2011 were primarily attributable to a decline of service charges on deposit accounts and a decline in gains on sales of investment securities, the latter being generally nonrecurring.

Noninterest Expenses - Noninterest expenses increased by 3.7% to \$6,191 for the three-month period ended June 30, 2011 from \$5,970 for the three-month period ended June 30, 2010. The major components of noninterest expenses are salaries and employee benefits, which decreased 4.5% to \$3,196 from \$3,347; occupancy expense which increased .1% to \$825 from \$814; examination and professional fees which increased 26.5% to \$291 from \$230; FDIC deposit insurance assessments which increased 20.5% to \$352 from \$292; net cost of operation of other real estate owned which increased 796.8% to \$556 from \$62; and other operating expenses which decreased by 20.7% to \$971 from \$1,225.

Noninterest expenses increased by 7.6% to \$12,459 for the six-month period ended June 30, 2011 from \$11,575 for the six-month period ended June 30, 2010. The major components of noninterest expenses are salaries and employee benefits, which decreased 2.1% to \$6,619 from \$6,758; occupancy expense which increased 2.4% to \$1,655 from \$1,616; examination and professional fees which increased 39.5% to \$547 from \$392; FDIC deposit insurance assessments which increased 22.3% to \$708 from \$579; net cost of operation of other real estate owned which increased 625.9% to \$842 from \$116; and other operating expenses which decreased by 1.2% to \$2,088 from \$2,114.

Income Taxes – Provisions for income taxes increased 44.7% to a benefit of \$(94) for the three-month period ended June 30, 2011 from a benefit of \$(170) for the three-month period ended June 30, 2010. Income/(loss) before income taxes less interest on tax-exempt investment securities and holding company expenses increased 51.6% to \$(316) for the three-month period ended June 30, 2011 from \$(653) for the same period in 2010. The Company discontinued the consolidation of holding company expenses in its determination of taxable income and has taken a 100% valuation allowance on existing holding company net operating loss carry-forwards.

Income Taxes – Provisions for income taxes increased 102.5% to \$10 for the six-month period ended June 30, 2011 from a benefit of \$(397) for the six-month period ended June 30, 2010. Income before income taxes less interest on tax-exempt investment securities and holding company expenses increased 97.4% to \$(30) for the six-month period ended June 30, 2011 from \$(1,171) for the same period in 2010. The Company discontinued the consolidation of holding company expenses in its determination of taxable income and has taken a 100% valuation allowance on existing holding company net operating loss carry-forwards.

LIQUIDITY

The Bank's liquidity position is primarily dependent on short-term demands for funds caused by customer credit needs and deposit withdrawals and upon the liquidation of bank assets to meet these needs. The Bank's liquidity sources include cash and due from banks, federal funds sold, and short-term investments. In addition, the Bank has established federal funds lines of credit from correspondent banks and has the ability to borrow funds from the Federal Home Loan Bank of Atlanta. Management believes that short-term and long-term liquidity sources are adequate to meet funding needs, including the funding of off-balance sheet loan commitments and standby letters of credit, if the need arises. Although the Bank has not experienced liquidity pressures, there can be no assurance that such pressures will not be felt in the future. Neither the Company nor the Bank is involved in other off-balance sheet contractual relationships or other commitments that could result in liquidity needs or significantly impact earnings.

LIQUIDITY (continued)

The table below summarizes future contractual obligations as of June 30, 2011 (in thousands).

	At June 30, 2011					
	Payments Due by Period					
	Within One Year	Over One to Two Years	Over Two to Three Years	Over Three to Five Years	Over Five Years	Total
Certificates of Deposit	\$304,041	\$52,684	\$9,005	\$12,723	\$ 473	\$378,926
Borrowings	<u>84,070</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>84,070</u>
Total	\$388,111	\$52,684	\$9,005	\$12,723	\$ 473	\$462,996

CAPITAL RESOURCES

Total stockholders' equity was \$88,272 and \$86,333 at June 30, 2011 and December 31, 2010, representing 9.66% and 9.47% of total assets, respectively. At June 30, 2011, the Company and the Bank exceeded quantitative measures established by regulation to ensure capital adequacy (see NOTE 12 to the consolidated unaudited financial statements - REGULATORY MATTERS). Capital is considered sufficient by management to meet current and prospective capital requirements.

REGULATORY ACTIONS

On June 7, 2011, the Bank entered into a formal agreement with the OCC requiring the Bank to take specified actions with respect to the operation of the Bank. The substantive actions called for by the agreement should strengthen the Bank and make it more efficient in the long-term. The agreement was filed as an exhibit to a Current Report on Form 8-K filed June 10, 2011. Although the execution and filing of the agreement is recent, the Company believes the Bank is working diligently to appropriately respond to all of the terms of the formal agreement, including implementing plans and programs within the timeframes required by the agreement.

On June 16, 2011, the Company entered into a memorandum of understanding with the Federal Reserve Bank of Richmond ("FRB"). The memorandum of understanding requires the Company to seek permission from the FRB before it takes certain actions that would reduce its ability to serve as a source of strength for the Bank by dissipating its assets, such as payment of dividends to shareholders, or that would make changes in senior management. The Company believes it is in compliance with the memorandum of understanding with the FRB as of June 30, 2011.

CRITICAL ACCOUNTING POLICIES

We have adopted various accounting policies which govern the application of accounting principles generally accepted in the United States of America in the preparation of our financial statements. Our significant accounting policies are described in the notes to the consolidated financial statements at December 31, 2010 as filed in our Annual Report on Form 10-K. Certain accounting policies involve significant judgments and assumptions by us which have a material impact on the carrying value of certain assets and liabilities. We consider these accounting policies to be critical accounting policies. The judgments and assumptions we use are based on historical experience and other factors, which we believe to be reasonable under the circumstances. Because of the nature of the judgments and assumptions we make, actual results could differ from these judgments and estimates that could have a major impact on our carrying values of assets and liabilities and our results of operations.

We believe the allowance for loan losses is a critical accounting policy that requires the most significant judgments and estimates used in preparation of our consolidated financial statements. Refer to the portions of our 2010 Annual Report on Form 10-K and this Form 10-Q that address our allowance for loan losses for description of our processes and methodology for determining our allowance for loan losses.

RISKS AND UNCERTAINTIES

In the normal course of its business, the Company encounters two significant types of risks: economic and regulatory. There are three main components of economic risk: interest rate risk, credit risk, and market risk. The Company is subject to interest rate risk to the degree that its interest-bearing liabilities mature or re-price at different speeds, or on a different basis, than its interest-earning assets. Credit risk is the risk of default on the Company's loan portfolio that results from borrowers' inability or unwillingness to make contractually required payments. Market risk, as it relates to lending and real estate held for operating locations, results from potential changes in the value of collateral underlying loans receivable and the market value of real estate held by the Company.

The Company is subject to the regulations of various governmental agencies. These regulations can and do change significantly from period to period. The Company also undergoes periodic examinations by the regulatory agencies, which may subject it to further changes with respect to asset valuations, amounts of required loss allowances and capital, and operating restrictions from the regulators' judgments based on information available to them at the time of their examination.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk, in regard to interest rate risk, is the risk of loss from adverse changes in market prices and rates. The Company's market risk arises principally from the interest rate risk inherent in its lending, deposit, and borrowing activities. Management actively monitors and manages its interest rate risk exposure. In addition to other risks which the Company manages in the normal course of business, such as credit quality and liquidity risk, management considers interest rate risk to be a significant market risk that could potentially have a material effect on the Company's financial condition and results of operations (See MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - Net Income – Net Interest Income). Other types of market risks, such as foreign currency risk and commodity price risk, do not arise in the normal course of the Company's business activities.

Item 4. CONTROLS AND PROCEDURES

Based on the evaluation required by 17 C.F.R. Section 240.13a-15(b) or 240.15d-15(b) of the Company's disclosure controls and procedures (as defined in 17 C.F.R. Sections 240.13a-15(e) and 240.15d-15(e)), the Company's chief executive officer and chief financial officer concluded that such controls and procedures, as of the end of the period covered by this quarterly report, were effective.

There has been no change in the Company's internal control over financial reporting during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II

Item 6. EXHIBITS

All exhibits, the filing of which are required with this Form, are listed below

- 31.1 Certification of Principal Executive Officer required by Rule 13a-14(a) or Rule 15d-14(a) of the Securities Exchange Act of 1934, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 31.2 Certification of Principal Financial Officer required by Rule 13a-14(a) or Rule 15d-14(a) of the Securities Exchange Act of 1934, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 32.1 Certification of Chief Executive Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
- 32.2 Certification of Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
- 101 Interactive Data File.
