☒ **ANNUAL REPORT PURSUANT TO SECTION 13 OR
15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**
For the fiscal year ended December 31, 2013

OR

☐ **TRANSITION REPORT PURSUANT TO SECTION 13 OR
15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**
For the transition period from _____ to _____.

Commission File No. 001-11241

CATERPILLAR FINANCIAL SERVICES CORPORATION

(Exact name of Registrant as specified in its charter)

Delaware
(State or other jurisdiction of incorporation
or organization)

37-1105865
(I.R.S. Employer Identification No.)

2120 West End Ave.,
Nashville, Tennessee
(Address of principal executive offices)

37203-0001
(Zip Code)

Registrant's telephone number, including area code: **(615) 341-1000**

The Registrant is a wholly-owned subsidiary of Caterpillar Inc. and meets the conditions set forth in General Instruction (I)(1)(a) and (b) of Form 10-K, and is therefore filing this Form with the reduced disclosure format.

Securities registered pursuant to Section 12(b) of the Act:

Title of each class

Medium-Term Notes, Series G,
2.05% Notes Due 2016

**Name of each exchange
on which registered**

New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes ☒ No ☐

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act.

Yes ☐ No ☒

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes ☒ No ☐

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of the registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. ☒

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐ Accelerated filer ☐ Non-accelerated filer ☒ Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act).

Yes ☐ No ☒

As of February 18, 2014, one share of common stock of the registrant was outstanding, which is owned by Caterpillar Inc.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

Certain statements contained in this Annual Report on Form 10-K may be considered "forward-looking statements" as that term is defined in the Private Securities Litigation Reform Act of 1995. These statements may relate to future events or our future financial performance, which may involve known and unknown risks and uncertainties and other factors that may cause our actual results, levels of activity, performance or achievement to be materially different from those expressed or implied by any forward-looking statements. From time to time, we may also provide forward-looking statements in oral presentations to the public or in other materials we issue to the public. Forward-looking statements give current expectations or forecasts of future events about the company. You may identify these statements by the fact that they do not relate to historical or current facts and may use words such as "believes," "expects," "estimates," "anticipates," "will," "should," "plan," "project," "intend," "could" and similar words or phrases. These statements are only predictions. Actual events or results may differ materially due to factors that affect international businesses, including changes in economic conditions and disruptions in the global financial and credit markets, and changes in laws and regulations (including regulations implemented under the Dodd-Frank Wall Street Reform and Consumer Protection Act) and political stability, as well as factors specific to Cat Financial and the markets we serve, including the market's acceptance of our products and services, the creditworthiness of our customers, interest rate and currency rate fluctuations and estimated residual values of leased equipment. These risk factors may not be exhaustive. We operate in a continually changing business environment, and new risk factors emerge from time to time. We cannot predict these new risk factors, nor can we assess the impact, if any, of these new risk factors on our businesses or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those projected in any forward-looking statements. Accordingly, forward-looking statements should not be relied upon as a prediction of actual results. Moreover, we do not assume responsibility for the accuracy and completeness of those statements. All of the forward-looking statements are qualified in their entirety by reference to the factors discussed under the captions "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in this Form 10-K and could cause results to differ materially from those projected in the forward-looking statements. Cat Financial undertakes no obligation to publicly update forward-looking statements, whether as a result of new information, future events or otherwise. You may, however, consult any related disclosures we may make in our subsequent Form 10-Q and Form 8-K reports filed with the SEC.

Item 1. Business.

General

Caterpillar Financial Services Corporation was organized in 1981 in the State of Delaware (together with its subsidiaries, "Cat Financial," "the Company," "we" or "our"). We are a wholly-owned finance subsidiary of Caterpillar Inc. (together with its other subsidiaries, "Caterpillar" or "Cat") and our corporate headquarters is located in Nashville, Tennessee.

Nature of Operations

Our primary business is to provide retail and wholesale financing alternatives for Caterpillar products to customers and dealers around the world. Retail financing is primarily comprised of financing of Caterpillar equipment, machinery and engines. In addition, we also provide financing for vehicles, power generation facilities and marine vessels that, in most cases, incorporate Caterpillar products. We also provide wholesale financing to Caterpillar dealers and purchase short-term receivables from Caterpillar. The various financing plans offered by Cat Financial are primarily designed to increase the opportunity for sales of Caterpillar products and generate financing income for Cat Financial. A significant portion of our activities is conducted in North America. However, we have additional offices and subsidiaries in Asia/Pacific, Europe and Latin America. We have more than 30 years of experience in providing financing for Caterpillar products, contributing to our knowledge of asset values, industry trends, product structuring and customer needs.

The Company's retail leases and installment sale contracts (totaling 53 percent*) include:

- Tax leases that are classified as either operating or finance leases for financial accounting purposes, depending on the characteristics of the lease. For tax purposes, we are considered the owner of the equipment (15 percent*).
- Finance (non-tax) leases, where the lessee for tax purposes is considered to be the owner of the equipment during the term of the lease, that either require or allow the customer to purchase the equipment for a fixed price at the end of the term (19 percent*).
- Installment sale contracts, which are equipment loans that enable customers to purchase equipment with a down payment or trade-in and structure payments over time (18 percent*).
- Governmental lease-purchase plans in the U.S. that offer low interest rates and flexible terms to qualified non-federal government agencies (1 percent*).

The Company's wholesale notes receivable, finance leases and installment sale contracts (totaling 14 percent*) include:

- Inventory/rental programs, which provide assistance to dealers by financing their new Caterpillar inventory and rental fleets (5 percent*).
- Short-term receivables we purchase from Caterpillar at a discount (9 percent*).

The Company's retail notes receivable (33 percent*) include:

- Loans that allow customers and dealers to use their Caterpillar equipment or other assets as collateral to obtain financing.

*Indicates the percentage of total portfolio as of December 31, 2013. We define total portfolio as total net finance receivables plus equipment on operating leases, less accumulated depreciation.

Competitive Environment

We operate in a highly competitive environment, with financing for users of Caterpillar equipment available through a variety of sources, principally commercial banks and finance and leasing companies. Our competitors include Wells Fargo Equipment Finance Inc., General Electric Capital Corporation and various other banks and finance companies. In addition, many of the manufacturers that compete with Caterpillar also own financial subsidiaries such as Volvo Financial Services, Komatsu Financial L.P. and John Deere Capital Corporation that utilize below-market interest rate programs (funded by the manufacturer) to assist machine sales. We work with Caterpillar to provide a broad array of financial merchandising programs around the world in order to offer below market interest rates.

We provide financing only when acceptable criteria are met. Credit decisions are based upon, among other factors, the customer's credit history, financial strength and intended use of equipment. We typically maintain a security interest in retail financed equipment and require physical damage insurance coverage on financed equipment. We continue to finance a significant portion of Caterpillar dealers' sales and inventory of Caterpillar products throughout the world (see Note 15 of Notes to Consolidated Financial Statements for more information regarding our segments and geographic areas). We participate in certain marketing programs sponsored by Caterpillar and/or Caterpillar dealers that allow us to offer financing to customers at interest rates that are below-market rates. Under these programs, Caterpillar, or the dealer, funds an amount at the outset of the transaction, which we then recognize as revenue over the term of the financing. These marketing programs provide us with a significant competitive advantage in financing Caterpillar products.

In certain instances, our operations are subject to supervision and regulation by state, federal and various foreign government authorities and may be subject to various laws and judicial and administrative decisions imposing various requirements and restrictions, which, among other things, (i) regulate credit granting activities and the administration of loans, (ii) establish maximum interest rates, finance charges and other charges, (iii) require disclosures to customers and investors, (iv) govern secured transactions, (v) set collection, foreclosure, repossession and other trade practices and (vi) regulate the use and reporting of information related to a borrower's credit experience. Our ability to comply with these and other governmental and legal requirements and restrictions affects our operations.

We also have agreements with Caterpillar that are significant to our operation. These agreements provide us with certain types of operational and administrative support from Caterpillar such as the administration of employee benefit plans, financial support, funding support and various forms of corporate services that are integral to the conduct of our business. For more information on these agreements, please refer to Note 13 of Notes to Consolidated Financial Statements.

Employment

As of December 31, 2013, the Company had 1,767 full-time employees, an increase of 1 percent from December 31, 2012.

Available Information

The Company files electronically with the Securities and Exchange Commission ("SEC") required reports on Form 8-K, Form 10-Q, Form 10-K and registration statements on Form S-3 and other forms or reports as required. The public may read and copy any materials the Company has filed with the SEC at the SEC's Public Reference Room at 100 F Street, N.E., Washington, DC 20549. The public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC maintains an Internet site (www.sec.gov) that contains reports, proxies and information statements and other information regarding issuers that file electronically with the SEC. Copies of our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and any amendments to these reports filed or furnished with the SEC are available free of charge through Caterpillar's Internet site (www.caterpillar.com/secfilings) as soon as reasonably practicable after filing with the SEC. Copies may also be obtained free of charge by writing to: Legal Dept., Caterpillar Financial Services Corporation, 2120 West End Ave., Nashville, Tennessee 37203-0001. In addition, the public may obtain more detailed information about our parent company, Caterpillar by visiting its Internet site (www.caterpillar.com). None of the information contained at any time on our Internet site, Caterpillar's or the SEC's Internet sites is incorporated by reference into this document.

Item 1A. Risk Factors.

The statements in this section describe the most significant risks to our business and may contain "forward-looking statements" that are subject to the caption "CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS" presented prior to Item 1 of this report. The statements in this section should also be considered carefully in conjunction with "Management's Discussion and Analysis of Financial Condition and Results of Operations" and the "Notes to Consolidated Financial Statements" to this Form 10-K. The risk factors described below are a cautionary discussion of risks, uncertainties and assumptions that we believe are significant to our business. These are factors that, individually or in the aggregate, we believe could make our actual results differ materially from expected or past results. Because it is impossible to predict or identify all such factors, the following factors should not be considered to be a complete discussion of risks and uncertainties.

Disruptions or volatility in global financial markets could adversely impact the industries and markets in which we serve and operate

Global economic conditions may cause volatility and disruptions in the capital and credit markets. Should global economic conditions deteriorate or access to credit markets be reduced, we could experience reduced levels of liquidity and increased credit spreads in the markets we serve. Continuing to meet our cash requirements over the long-term could require substantial liquidity and access to sources of funds, including capital and credit markets. We have continued to maintain access to key global medium-term note and commercial paper markets, but there can be no assurance that such markets will continue to represent a reliable source of financing. If global economic conditions were to deteriorate, we could face materially higher financing costs, become unable to access adequate funding to operate and grow our business and/or meet our debt service obligations as they mature, and we could be required to draw upon contractually committed lending agreements primarily provided by global banks and/or by seeking other funding sources. However, under extreme market conditions, there can be no assurance that such agreements and other funding sources would be available or sufficient. Any of these events could negatively impact our business, results of operations and financial condition.

The extent of any impact on our ability to meet our funding or liquidity needs would depend on several factors, including our operating cash flows, the duration of any market disruptions, changes in counterparty credit risk, the impact of government intervention in financial markets including the effects of any programs or legislation designed to increase or restrict liquidity for certain areas of the market, general credit conditions, the volatility of equity and debt markets, our credit ratings and credit capacity and the cost of financing and other general economic and business conditions. Market disruption and volatility may also lead to a number of other risks in connection with these events, including but not limited to:

- Market developments that may affect customer confidence levels and may cause declines in the demand for financing and adverse changes in payment patterns, causing increases in delinquencies and default rates, which could impact our write-offs and provision for credit losses;
- The process we use to estimate losses inherent in our credit exposure requires a high degree of management's judgment regarding numerous subjective, qualitative factors, including forecasts of economic conditions and how economic predictors might impair the ability of our borrowers to repay their loans. If financial market disruption and volatility is experienced, the accuracy of these judgments may be impacted;
- Our ability to engage in routine funding transactions or borrow from other financial institutions on acceptable terms or at all could be adversely affected by disruptions in the capital markets or other events, including actions by rating agencies and deteriorating investor expectations; and
- Because our counterparties are financial institutions, their ability to perform in accordance with any of our underlying agreements could be adversely affected by market volatility and/or disruptions in the equity and credit markets.

Changes in government monetary or fiscal policies may negatively impact our results

Most countries have established central banks to regulate monetary systems and influence economic activities, generally by adjusting interest rates. Interest rate changes affect overall economic growth, which in turn affects Caterpillar's sales and our financing activities. Interest rate changes also affect customers' abilities to finance machine purchases, can change the optimal time to keep machines in a fleet and can impact the ability of Caterpillar's suppliers to finance the production of parts and components necessary to manufacture and support Caterpillar products. An increase in interest rates could result in lower sales of Caterpillar's products and adversely impact our business, results of operations and financial condition.

Central banks and other policy arms of many countries may take actions to vary the amount of liquidity and credit available in an economy. Changes in liquidity and credit policies could impact the customers and markets we serve or our suppliers, which could adversely impact our business, results of operations and financial condition.

Government policies on taxes and spending also affect our business. Throughout the world, government spending finances a significant portion of infrastructure development, such as highways, airports, sewer and water systems and dams. Tax regulations determine depreciation lives and the amount of money users of our products can retain, both of which influence investment decisions. Unfavorable developments, such as declines in government revenues, decisions to reduce public spending or increases in taxes, could negatively impact our results.

Our global operations are exposed to political and economic risks, commercial instability and events beyond our control in the countries in which we operate

Our global operations are dependent upon products manufactured, purchased, sold and financed in the U.S. and internationally, including in countries with political and economic instability. In some cases, these countries have greater political and economic volatility and greater vulnerability to infrastructure and labor disruptions than in our other markets. Operating and seeking to expand business in a number of different regions and countries exposes us to a number of risks, including:

- Multiple and potentially conflicting legal and regulatory requirements that are subject to change, including but not limited to, those legal and regulatory requirements described in Item 1 of this report under the heading Competitive Environment;
- Increased exposure to currency fluctuations and imposition of currency restrictions, restrictions on repatriation of earnings or other similar restraints;
- Difficulty of enforcing agreements and collecting receivables through foreign legal systems;
- Difficulty in staffing and managing (including ensuring compliance with internal policies and controls) geographically widespread operations and the application of foreign labor regulations;
- Natural disasters, embargoes, catastrophic events and national and international conflict, including acts of terrorism; and
- Political and economic instability or civil unrest that may severely disrupt economic activity in affected countries, particularly in emerging markets.

The occurrence of one or more of these events may negatively impact our business, results of operations and financial condition.

Failure to maintain our credit ratings would increase our cost of borrowing and could adversely affect our access to capital markets

Caterpillar and Cat Financial's costs of borrowing and ability to access the capital markets are affected not only by market conditions but also by the short-term and long-term debt ratings assigned to our respective debt by the major credit rating agencies. These ratings are based, in significant part, on each of Caterpillar's and Cat Financial's performance as measured by financial metrics such as interest coverage and leverage ratios, as well as transparency with rating agencies and timeliness of financial reporting. There can be no assurance that Caterpillar or Cat Financial will be able to maintain their credit ratings and failure of either Caterpillar or Cat Financial to do so could adversely affect our cost of funds, liquidity, competitive position and access to the capital markets, including restricting, in whole or in part, our access to the commercial paper market. There can be no assurance that the commercial paper market will continue to be a reliable source of short-term financing for Cat Financial or an available source of short-term financing for Caterpillar. An inability to access the capital markets could have a material adverse effect on our cash flows, results of operations and financial condition.

Changes in interest rates, foreign currency exchange rates or market liquidity conditions could adversely affect our earnings and/or cash flows

Changes in interest rates, foreign currency exchange rates and market liquidity conditions could have a material adverse effect on our earnings and cash flows. Because a significant number of our loans are made at fixed interest rates, our business is subject to fluctuations in interest rates. Changes in market interest rates may influence our financing costs, returns on financial investments and the valuation of derivative contracts and could reduce our earnings and/or cash flows. In addition, because we make a significant number of loans in currencies other than the U.S. dollar, fluctuations in foreign currency exchange rates could also reduce our earnings and cash flows. We also rely on a number of diversified global debt capital markets and funding programs to provide liquidity for our global operations, including commercial paper, medium-term notes, retail notes, variable denomination floating rate demand notes and bank loans. Significant changes in market liquidity conditions could impact our access to funding and the associated funding cost and reduce our earnings and cash flows.

Although we manage interest rate, foreign currency exchange rate and market liquidity risks with a variety of techniques, including a match funding program, the selective use of derivatives and a broadly diversified funding program, there can be no assurance that fluctuations in interest rates, currency exchange rates and market liquidity conditions will not have a material adverse effect on our earnings and cash flows. If any of the variety of instruments and strategies we use to hedge our exposure to these various types of risk is ineffective, we may incur losses.

Our business is significantly influenced by the credit risk associated with our customers and an increase in delinquencies, repossessions or net losses could adversely affect our results

Our business is significantly influenced by the credit risk associated with our customers. The creditworthiness of each customer and the rate of delinquencies, repossessions and net losses on customer obligations are directly impacted by several factors, including, but not limited to, relevant industry and economic conditions and the availability of capital. Any increase in delinquencies, repossessions and net losses on customer obligations could have a material adverse effect on our earnings and cash flows.

In addition, although we evaluate and adjust our Allowance for credit losses related to past due and non-performing receivables on a regular basis, adverse economic conditions or other factors that might cause deterioration of the financial health of our customers could change the timing and level of payments received and necessitate an increase in our estimated losses, which could also have a material adverse effect on our earnings and cash flows.

A decrease in the residual value of the equipment that we finance could adversely affect our results

Declines in the residual value of equipment financed by us may reduce our earnings. The residual value of leased equipment is determined based on its estimated future wholesale market value at the time of the expiration of the lease term. We estimate the residual value of leased equipment at the inception of the lease based on a number of factors, including historical wholesale market sales prices, past remarketing experience and any known significant market/product trends. If estimated future market values significantly decline due to economic factors, obsolescence or other adverse circumstances, we may not realize such residual value, which could reduce our earnings, either through an increase in depreciation expense or a decrease in finance revenue.

The success of our business depends upon the demand for Caterpillar's products

Our primary business is to provide retail and wholesale financing alternatives for Caterpillar products to customers and dealers and is therefore largely dependent upon the demand for Caterpillar's products and customers' willingness to enter into financing or leasing agreements, which may be negatively affected by challenging global economic conditions. As a result, a significant or prolonged decrease in demand could have a material adverse effect on our business, financial condition, results of operations and cash flows. The demand for Caterpillar's products and our products and services is influenced by a number of factors, including:

- General world economic conditions and the level of mining, construction and manufacturing activity;
- Changes and uncertainties in the monetary and fiscal policies of various governmental and regulatory entities;
- Fluctuations in demand and prices for certain commodities;
- Fluctuations in currency exchange rates and interest rates;
- Political, economic and legislative changes;
- Caterpillar's ability to produce products that meet customers' needs;
- Caterpillar's ability to maintain key dealer relationships;
- The ability of Caterpillar dealers to sell Caterpillar products and their practices regarding inventory control; and
- Changes in pricing policies by Caterpillar or its competitors.

Any significant adverse changes to these factors could negatively impact our results.

Changes in the marketing, operational or administrative support that we receive from Caterpillar could adversely affect our results

We participate in certain marketing programs sponsored by Caterpillar and/or Caterpillar dealers that allow us to offer financing to customers at interest rates that are below-market rates. These marketing programs provide us with a significant competitive advantage in financing Caterpillar products. Any change in these marketing programs or reduction in our ability to offer competitively priced financing to customers could reduce the percentage of Caterpillar products financed by us, which could have a material adverse effect on our business, financial condition, results of operations and cash flows. Caterpillar also provides us with other types of operational and administrative support, such as the administration of employee benefit plans, which is integral to the conduct of our business. Any changes in the levels of support from Caterpillar could also negatively impact our results.

The success of our business depends on our ability to develop, produce and market quality products and services that meet our customers' needs

We operate in a highly competitive environment, with financing for users of Caterpillar equipment available through a variety of sources, principally commercial banks and finance and leasing companies. Increasing competition may adversely affect our business if we are unable to match the products and services of our competitors. Also, as noted above, any changes to the marketing programs sponsored by Caterpillar and/or Caterpillar dealers, which allow us to offer financing to customers at interest rates that are below-market rates, could have a materially adverse effect on our business.

New regulations or changes in financial services regulation could adversely impact our results of operations and financial condition

Our operations are highly regulated by governmental authorities in the locations where we operate, which can impose significant additional costs and/or restrictions on our business. In the U.S. for example, our operations are subject to the U.S. Dodd-Frank Wall Street Reform and Consumer Protection Act ("Dodd-Frank"). Dodd-Frank was signed into law in July 2010 and includes extensive provisions regulating the financial services industry. Many of the regulations implementing the derivatives provisions of Dodd-Frank became effective in 2013 and additional requirements will become effective in 2014. As such, we have become and could continue to become subject to additional regulatory costs both directly and indirectly, through increased costs of doing business with more marketing intermediaries that are now subject to extensive regulation pursuant to Dodd-Frank. For example, derivatives dealers may seek to pass to us the cost of any margin, capital or other regulatory requirements that they are subject to under Dodd-Frank. As the regulatory regime is still developing and important additional regulations have yet to be adopted, the ultimate costs of Dodd-Frank on our business remains uncertain. However, such costs could be significant and could have an adverse effect on our results of operations and financial condition. Additional regulations in the U.S. or internationally impacting the financial services industry could also add significant cost or operational constraints that might have an adverse effect on our results of operations and financial condition.

Our global operations are subject to extensive anti-corruption laws and regulations

The U.S. Foreign Corrupt Practices Act and similar foreign anti-corruption laws generally prohibit companies and their intermediaries from making improper payments or providing anything of value to improperly influence foreign government officials for the purpose of obtaining or retaining business, or obtaining an unfair advantage. Recent years have seen a substantial increase in the global enforcement of anti-corruption laws. Our continued operation and expansion outside the United States, including in developing countries, could increase the risk of such violations. Notwithstanding the compliance programs applicable to our international operations, violations of these laws may result in severe criminal or civil sanctions, could disrupt our business, and result in an adverse effect on our reputation, business and results of operations or financial condition.

We may incur additional tax expense or become subject to additional tax exposure

We are subject to income taxes in the United States and numerous foreign jurisdictions, and our domestic and international tax liabilities are dependent upon the distribution of income among these different jurisdictions. Our Provision for income taxes and related tax payments in the future could be adversely affected by numerous factors, including, but not limited to, income before taxes being lower than anticipated in countries with lower statutory tax rates and higher than anticipated in countries with higher statutory tax rates, changes in the valuation of deferred tax assets and liabilities and changes in tax laws and regulations. For example, our effective tax rate is reduced due to a provision of United States tax law that defers the imposition of United States tax on certain active financial services income until that income is repatriated to the United States as a dividend. This provision, which expired at the end of 2013, has been extended by Congress multiple times since 1999 but there is no assurance that it will continue to be extended. If this provision is not extended, we expect our effective tax rate to increase significantly after 2014. We are also subject to the continuous examination of our income tax returns by the U.S. Internal Revenue Service and other tax authorities. The results of audits and examinations of previously filed tax returns and continuing assessments of our tax exposures may have an adverse effect on the Company's Provision for income taxes and related tax payments.

Restrictive covenants in our debt agreements could limit our financial and operating flexibility

Cat Financial and our subsidiaries have agreements under which we borrow or have the ability to borrow funds for use in our respective businesses that are utilized primarily for general corporate purposes. Certain of these agreements include covenants relating to our financial performance and financial position. The two most significant financial covenants included in these agreements are: (1) a leverage ratio covenant that requires us to maintain a ratio of consolidated debt to consolidated net worth of not greater than 10 to 1, calculated (i) on a monthly basis as the average of the leverage ratios determined on the last day of each of the six preceding calendar months and (ii) at each December 31; and (2) an interest coverage ratio that requires us to maintain a ratio of (i) profit excluding income taxes, interest expense and net gain/(loss) from interest rate derivatives to (ii) interest expense of not less than 1.15 to 1, in each case, calculated at the end of each calendar quarter for the rolling four-quarter period then most recently ended for us and our subsidiaries on a consolidated basis in accordance with generally accepted accounting principles. In addition, we are restricted in a number of our agreements from terminating, amending or modifying our support agreement with Caterpillar. We are also restricted in our ability to incur secured indebtedness or consolidate, merge or sell assets. Similarly, we are also bound by covenants in various agreements that involve Caterpillar and its obligation to maintain a consolidated net worth of not less than \$9 billion at all times during each fiscal year.

Although we do not believe any of these covenants presently materially restrict our operations, our ability to meet any one particular financial covenant may be affected by events that could be beyond our control and could result in material adverse consequences that negatively impact our business, results of operations and financial condition. These consequences may include the acceleration of repayment of amounts outstanding under certain of our credit agreements, the triggering of an obligation to redeem certain debt securities, the termination of existing unused credit commitments by our lenders, the refusal by our lenders to extend further credit under one or more of our credit agreements or the lowering or modification of our credit ratings, including those of any of our subsidiaries. We cannot provide assurance that we will continue to comply with each credit covenant, particularly if we were to encounter challenging and volatile market conditions.

Changes in accounting guidance could have an adverse effect on our results of operations, as reported in our financial statements

Our consolidated financial statements are subject to the application of generally accepted accounting principles in the United States of America, which is periodically revised and/or expanded. Accordingly, from time to time we are required to adopt new or revised accounting guidance and related interpretations issued by recognized authoritative bodies, including the Financial Accounting Standards Board and the SEC. Market conditions have prompted accounting standard setters to issue new guidance, which further interprets or seeks to revise accounting pronouncements related to various transactions, as well as to issue new guidance expanding disclosures. The impact of accounting pronouncements that have been issued but not yet implemented is disclosed in our annual and quarterly reports on Form 10-K and Form 10-Q. An assessment of proposed guidance is not provided, as such proposals are subject to change through the exposure process and, therefore, their effects on our financial statements cannot

be meaningfully assessed. It is possible that future accounting guidance we are required to adopt could change the current accounting treatment that we apply to our consolidated financial statements and that such changes could have a material adverse effect on our business, results of operations and financial condition.

Increased information technology security threats and more sophisticated computer crime pose a risk to our systems, networks, products and services

We rely upon information technology systems and networks in connection with a variety of business activities, some of which are managed by third parties. Additionally, we collect and store data that is sensitive to us and our customers. The secure operation of these information technology systems and networks, and the processing and maintenance of this data is critical to our business operations and strategy. Information technology security threats -- from user error to attacks designed to gain unauthorized access to our systems, networks and data -- are increasing in frequency and sophistication. Attacks may range from random attempts to coordinated and targeted attacks, including sophisticated computer crime and advanced persistent threats. These threats pose a risk to the security of our systems and networks and the confidentiality, availability and integrity of our data. If an attack against us were to succeed it could expose us and our customers, dealers and suppliers to misuse of information or systems, the compromising of confidential information, manipulation and destruction of data, defective products and operations disruptions. The occurrence of any of these events could adversely affect our reputation, competitive position, business and results of operations. In addition, such breaches in security could result in litigation, regulatory action and potential liability and the costs and operational consequences of implementing further data protection measures.

Item 1B. Unresolved Staff Comments.

None.

Item 2. Properties.

Our corporate headquarters are located in Nashville, Tennessee. We maintain forty-six offices in total, of which nine are located in North America (eight in the U.S. and one in Canada), twenty-one are located in Europe, one is located in the Middle East, nine are located in Asia/Pacific and six are located in Latin America (see Note 15 of Notes to Consolidated Financial Statements for more information regarding our segments and geographic areas). All of our offices are leased.

Item 3. Legal Proceedings.

We are involved in unresolved legal actions that arise in the normal course of business. Although it is not possible to predict with certainty the outcome of our unresolved legal actions, we believe that these unresolved legal actions will neither individually nor in the aggregate have a material adverse effect on our consolidated financial position, liquidity or results of operations.

Item 4. Mine Safety Disclosures.

Not applicable.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

Our stock is not publicly traded. Caterpillar Inc. is the owner of our one outstanding share. Cash dividends of \$200 million, \$250 million and \$600 million were paid to Caterpillar in 2013, 2012 and 2011, respectively.

OVERVIEW: 2013 VS. 2012

We reported revenues of \$2.78 billion for 2013, an increase of \$90 million, or 3 percent, compared with 2012. Profit after tax was \$530 million, a \$98 million, or 23 percent, increase from 2012.

- The increase in revenues was primarily due to a \$229 million favorable impact from higher average earning assets, partially offset by a \$123 million unfavorable impact from lower average financing rates on new and existing finance receivables and operating leases and a \$14 million unfavorable impact from returned or repossessed equipment.
- Profit before income taxes was \$718 million for 2013, compared with \$591 million for 2012. The increase was primarily due to a \$97 million favorable impact from higher average earning assets and a \$67 million decrease in the provision for credit losses. These increases were partially offset by a \$14 million unfavorable impact from returned or repossessed equipment.
- The provision for income taxes reflects an annual tax rate of 25 percent for both 2013 and 2012. The 2013 annual tax rate of 25 percent excludes a benefit of \$7 million, reflecting the impact of the American Taxpayer Relief Act.
- New retail financing for 2013 was \$13.09 billion, a decrease of \$868 million, or 6 percent, from 2012. New retail financing decreased across all operating segments with the exception of North America, which increased.
- At the end of 2013, past dues were 2.37 percent, compared with 2.45 percent at the end of the third quarter of 2013 and 2.26 percent at the end of 2012.
- Write-offs, net of recoveries, were \$123 million for 2013, compared with \$102 million for 2012. Full-year 2013 write-offs, net of recoveries, were 0.46 percent of average annual retail portfolio, compared with 0.42 percent in 2012. The increase in write-offs was primarily related to our European marine portfolio and was previously provided for in the Allowance for credit losses.
- At year-end 2013, our Allowance for credit losses totaled \$378 million or 1.30 percent of net finance receivables, compared with \$426 million or 1.49 percent of net finance receivables at year-end 2012. The overall decrease of \$48 million in Allowance for credit losses during the year reflects a \$55 million decrease associated with the lower allowance rate, partially offset by a \$7 million increase in allowance due to an increase in our net finance receivables portfolio.

2013 VS. 2012

REVIEW OF CONSOLIDATED STATEMENTS OF PROFIT

REVENUES

Retail and wholesale revenue for 2013 was \$1.69 billion, an increase of \$17 million from 2012. The increase was due to a \$139 million favorable impact from higher average earning assets, partially offset by a \$122 million unfavorable impact from lower interest rates on new and existing retail and wholesale receivables. The annualized average yield was 5.88 percent for 2013, compared with 6.31 percent in 2012.

Operating lease revenue for 2013 was \$945 million, an increase of \$85 million from 2012. The increase in operating lease revenue was due to a \$121 million favorable impact from higher average earning assets, partially offset by a \$36 million unfavorable impact from lower average financing rates on operating leases.

Other revenue, net, items were as follows:

(Millions of dollars)		
	2013	2012
Finance receivable and operating lease fees (including late charges)	\$ 76	\$ 70
Fees on committed credit facility extended to Caterpillar	41	41
Interest income on Notes Receivable from Caterpillar	19	21
Net loss on returned or repossessed equipment	(14)	—
Miscellaneous other revenue, net	22	24
Total Other revenue, net	<u>\$ 144</u>	<u>\$ 156</u>

EXPENSES

Interest expense for 2013 was \$734 million, a decrease of \$67 million from 2012. This decrease was primarily due to a reduction of 48 basis points in the average cost of borrowing to 2.45 percent for 2013, down from 2.93 percent for 2012, partially offset by the impact of a 9 percent increase in average borrowings.

Depreciation expense on equipment leased to others was \$768 million, up \$80 million from 2012 due to an increase in the average operating lease portfolio.

General, operating and administrative expenses were \$427 million for 2013, compared with \$416 million for 2012. The increase was primarily due to increases in personnel costs. There were 1,767 full-time employees as of December 31, 2013, compared with 1,745 as of December 31, 2012.

The Provision for credit losses was \$94 million for 2013 compared with \$161 million in 2012. The decrease was primarily due to a reduction in provision expense for finance receivables (the result of a decrease in the allowance rate and slower growth in the portfolio, partially offset by an increase in write-offs, net of recoveries). The Allowance for credit losses as of December 31, 2013 was 1.30 percent of net finance receivables compared with 1.49 percent as of December 31, 2012. The lower allowance rate reflects write-offs taken in 2013, primarily related to our European marine portfolio that had been previously provided for in the Allowance for credit losses, favorable changes in our estimated probabilities of default (due to improved financial health of our customers), continued refinements of estimated loss emergence periods and general improvement in the economic conditions of the industries we serve. See Note 3B of Notes to Consolidated Financial Statements for further discussion.

Other expenses were \$24 million for 2013, compared with \$29 million for 2012.

Other income (expense) items were as follows:

(Millions of dollars)		
	2013	2012
Net gain from interest rate derivatives	\$ 4	\$ 15
Net currency exchange loss, including forward points	(22)	(22)
Total Other income (expense)	<u>\$ (18)</u>	<u>\$ (7)</u>

The Provision for income taxes was \$174 million for 2013, compared with \$148 million for 2012. The Provision for income taxes reflects an annual tax rate of 25 percent for both 2013 and 2012. The 2013 annual tax rate of 25 percent excludes a benefit of \$7 million, reflecting the impact of the American Taxpayer Relief Act.

PROFIT

As a result of the performance discussed above, we had profit of \$530 million for 2013, an increase of \$98 million, or 23 percent, from 2012.

REVIEW OF CONSOLIDATED STATEMENTS OF FINANCIAL POSITION

ASSETS

Total assets were \$35.14 billion as of December 31, 2013, an increase of \$396 million, or 1 percent, from December 31, 2012, primarily due to an increase in equipment on operating leases, net and an increase in net finance receivables, partially offset by a decrease in our cash position.

During 2013, new retail financing was \$13.09 billion, a decrease of \$868 million, or 6 percent, from 2012. New retail financing decreased across all operating segments with the exception of North America, which increased.

Total Off-Balance Sheet Managed Assets

We manage and service receivables and leases that have been sold to third parties with limited or no recourse to us to mitigate the concentration of credit risk with certain customers. These receivables/leases are not available to pay our creditors.

Off-balance sheet managed assets as of December 31, were as follows:

(Millions of dollars)		
	2013	2012
Retail notes receivable	\$ 126	\$ 49
Retail finance leases	103	116
Operating leases	61	60
Retail installment sale contracts	32	66
Total off-balance sheet managed assets	<u>\$ 322</u>	<u>\$ 291</u>

TOTAL PAST DUE FINANCE AND RENTS RECEIVABLE

At the end of 2013, past dues were 2.37 percent, compared with 2.45 percent at the end of the third quarter of 2013 and 2.26 percent at the end of 2012. Write-offs, net of recoveries, were \$123 million for 2013, compared with \$102 million for 2012. Full-year 2013 write-offs, net of recoveries, were 0.46 percent of average annual retail portfolio, compared with 0.42 percent in 2012. The increase in write-offs was primarily related to our European marine portfolio and was previously provided for in the Allowance for credit losses.

THREE MONTHS ENDED DECEMBER 31, 2013 VS. THREE MONTHS ENDED DECEMBER 31, 2012

REVIEW OF CONSOLIDATED STATEMENTS OF PROFIT

REVENUES

Retail and wholesale revenue for the fourth quarter of 2013 was \$423 million, a decrease of \$7 million from the same period in 2012. The decrease was due to a \$23 million unfavorable impact from lower interest rates on new and existing retail and wholesale receivables, partially offset by a \$16 million favorable impact from higher average earning assets. The annualized average yield was 5.83 percent for the fourth quarter of 2013, compared with 6.15 percent for the fourth quarter of 2012.

Operating lease revenue for the fourth quarter of 2013 was \$258 million, an increase of \$46 million from the same period in 2012. The increase was due to a \$38 million favorable impact from higher average earning assets and an \$8 million favorable impact from higher average financing rates on operating leases.

Other revenue, net, items were as follows:

(Millions of dollars)	Three Months Ended December 31,	
	2013	2012
Finance receivable and operating lease fees (including late charges)	\$ 17	\$ 17
Fees on committed credit facility extended to Caterpillar	11	11
Interest income on Notes Receivable from Caterpillar	5	5
Net loss on returned or repossessed equipment	(9)	(2)
Miscellaneous other revenue, net	6	6
Total Other revenue, net	<u>\$ 30</u>	<u>\$ 37</u>

EXPENSES

Interest expense for the fourth quarter of 2013 was \$177 million, a decrease of \$21 million from the same period in 2012. This decrease was primarily due to a reduction of 41 basis points in the average cost of borrowing to 2.30 percent for 2013, down from 2.71 percent for 2012, partially offset by the impact of a 4 percent increase in average borrowings.

Depreciation expense on equipment leased to others was \$212 million, up \$39 million from the fourth quarter of 2012 due to an increase in the average operating lease portfolio.

General, operating and administrative expenses were \$110 million for the fourth quarter of 2013, compared with \$108 million for the same period in 2012.

The Provision for credit losses was \$8 million for the fourth quarter of 2013 compared with \$69 million from the fourth quarter of 2012. The decrease was primarily due to a reduction in provision expense for finance receivables (the result of a decrease in the allowance rate, a decrease in write-offs, net of recoveries and slower growth in the portfolio). The Allowance for credit losses as of December 31, 2013 was 1.30 percent of net finance receivables compared with 1.49 percent as of December 31, 2012. The lower allowance rate reflects write-offs taken in 2013, primarily related to our European marine portfolio that had been previously provided for in the Allowance for credit losses, favorable changes in our estimated probabilities of default (due to improved financial health of our customers), continued refinements of estimated loss emergence periods and general improvement in the economic conditions of the industries we serve. See Note 3B of Notes to Consolidated Financial Statements for further discussion.

Other expenses were \$8 million for the fourth quarter of 2013, compared with \$9 million for the fourth quarter of 2012.

Other income (expense) items were as follows:

(Millions of dollars)	Three Months Ended December 31,	
	2013	2012
Net currency exchange gain (loss), including forward points	\$ 14	\$ (3)
Net gain (loss) from interest rate derivatives	(2)	5
Total Other income (expense)	<u>\$ 12</u>	<u>\$ 2</u>

The Provision for income taxes was \$43 million for the fourth quarter of 2013, compared with \$22 million for the fourth quarter of 2012. The Provision for income taxes reflects an annual tax rate of 25 percent for the fourth quarters of both 2013 and 2012.

PROFIT

As a result of the performance discussed above, we had profit of \$160 million for the fourth quarter of 2013, an increase of \$61 million, or 62 percent, from the fourth quarter of 2012.

2012 VS. 2011

REVIEW OF CONSOLIDATED STATEMENTS OF PROFIT

REVENUES

Retail and wholesale revenue for 2012 was \$1.68 billion, an increase of \$87 million from 2011. The increase was due to a \$145 million favorable impact from higher average earning assets, partially offset by a \$58 million unfavorable impact from lower interest rates on new and existing retail and wholesale receivables. The annualized average yield was 6.31 percent for 2012, compared with 6.53 percent in 2011.

Operating lease revenue for 2012 was \$860 million, a decrease of \$10 million from 2011. The decrease in operating lease revenue was due to a \$49 million unfavorable impact from lower average financing rates on operating leases, partially offset by a \$39 million favorable impact from higher average earning assets.

Other revenue, net, items were as follows:

(Millions of dollars)		
	2012	2011
Finance receivable and operating lease fees (including late charges)	\$ 70	\$ 68
Fees on committed credit facility extended to Caterpillar	41	40
Interest income on Notes Receivable from Caterpillar	21	16
Net gain on returned or repossessed equipment	—	33
Miscellaneous other revenue, net	24	28
Total Other revenue, net	<u>\$ 156</u>	<u>\$ 185</u>

EXPENSES

Interest expense for 2012 was \$801 million, a decrease of \$26 million from 2011. This decrease was primarily due to a reduction of 47 basis points in the average cost of borrowing to 2.93 percent for 2012, down from 3.40 percent for 2011, partially offset by the impact of a 12 percent increase in average borrowings.

Depreciation expense on equipment leased to others was \$688 million, down \$2 million from 2011.

General, operating and administrative expenses were \$416 million for 2012, compared with \$405 million for 2011. The increase was primarily due to increases in personnel costs. There were 1,745 full-time employees as of December 31, 2012, compared with 1,670 as of December 31, 2011.

The Provision for credit losses was \$161 million for 2012, down \$15 million from 2011 due to an \$11 million decrease in the provision expense related to finance receivables (a result of a decrease in write-offs, net of recoveries, partially offset by the impact of an increase in the allowance rate and portfolio growth) and a \$4 million decrease in the provision expense for miscellaneous receivables. The Allowance for credit losses as of December 31, 2012 was 1.49 percent of net finance receivables compared with 1.47 percent as of December 31, 2011. See Note 3B of Notes to Consolidated Financial Statements for further discussion.

Other expenses were \$29 million for 2012, compared with \$34 million for 2011.

Other income (expense) items were as follows:

(Millions of dollars)		
	2012	2011
Net gain (loss) from interest rate derivatives	\$ 15	\$ (7)
Net currency exchange loss, including forward points	(22)	(5)
Other miscellaneous income	—	3
Total Other income (expense)	<u>\$ (7)</u>	<u>\$ (9)</u>

The Provision for income taxes was \$148 million for 2012, compared with \$111 million for 2011. The Provision for income taxes reflects an annual tax rate of 25 percent for both 2012 and 2011. The 2011 Provision for income taxes included a \$15 million benefit related to prior years.

PROFIT

As a result of the performance discussed above, we had profit of \$432 million for 2012, an increase of \$54 million, or 14 percent, from 2011.

REVIEW OF CONSOLIDATED STATEMENTS OF FINANCIAL POSITION

ASSETS

Total assets were \$34.74 billion as of December 31, 2012, an increase of \$4.63 billion, or 15 percent, from December 31, 2011, primarily due to an increase in net finance receivables and an increase in our cash position.

During 2012, new retail financing was \$13.96 billion, an increase of \$2.63 billion, or 23 percent, from 2011. The increase was a result of growth across all operating segments, with the largest increases occurring in our Europe and Caterpillar Power Finance, Asia/Pacific and Mining operating segments.

Total Off-Balance Sheet Managed Assets

We manage and service receivables and leases that have been sold to third parties with limited or no recourse to us to mitigate the concentration of credit risk with certain customers. These receivables/leases are not available to pay our creditors.

Off-balance sheet managed assets as of December 31, were as follows:

(Millions of dollars)		
	2012	2011
Retail finance leases	\$ 116	\$ 133
Retail installment sale contracts	66	48
Operating leases	60	15
Retail notes receivable	49	39
Total off-balance sheet managed assets	<u>\$ 291</u>	<u>\$ 235</u>

TOTAL PAST DUE FINANCE AND RENTS RECEIVABLE

During 2012, our overall portfolio quality reflected continued improvement. At the end of 2012, past dues were 2.26 percent compared with 2.80 percent at the end of the third quarter of 2012 and 2.89 percent at the end of 2011. Write-offs, net of recoveries, were \$102 million for the full-year 2012, compared with \$158 million for 2011. Full-year 2012 write-offs, net of recoveries, were 0.42 percent of average annual retail portfolio, compared with 0.70 percent in 2011.

CAPITAL RESOURCES AND LIQUIDITY

Capital resources and liquidity provide us with the ability to meet our financial obligations on a timely basis. Maintaining and managing adequate capital and liquidity resources includes management of funding sources and their utilization based on current, future and contingent needs. Throughout 2013, we experienced favorable liquidity conditions. We intend to maintain a strong cash and liquidity position. We ended 2013 with \$1.32 billion of cash, a decrease of \$760 million from year-end 2012. Our cash balances are held in numerous locations throughout the world with approximately \$465 million held by our non-U.S. subsidiaries. Amounts held outside the United States are available for general corporate use and could be used in the United States without incurring significant additional U.S. taxes. We expect to meet our United States funding needs without repatriating undistributed profits that are indefinitely reinvested outside the United States. We do not generate material funding through structured finance transactions.

In the event that we, or any of our debt securities, experience a credit rating downgrade it would likely result in an increase in our borrowing costs and make access to certain credit markets more difficult. In the event economic conditions deteriorate such that access to debt markets becomes unavailable, we would rely on cash flows from our existing portfolio, utilization of existing cash balances, access to our revolving credit facilities and our other credit facilities and potential borrowings from Caterpillar. In addition, Caterpillar maintains a support agreement with us, which requires Caterpillar to remain as our sole owner and which may, under certain circumstances, require Caterpillar to make payments to us should we fail to maintain certain financial ratios.

BORROWINGS

Borrowings consist primarily of medium-term notes, commercial paper, bank borrowings and variable denomination floating rate demand notes, the combination of which is used to manage interest rate risk and funding requirements. (Please refer to Notes 6, 7, 8 and 9 of Notes to Consolidated Financial Statements for additional discussion.)

Total borrowings outstanding as of December 31, 2013, were \$30.09 billion, an increase of \$157 million over December 31, 2012, primarily due to increasing portfolio balances. Outstanding borrowings as of December 31 were as follows:

(Millions of dollars)

	2013	2012
Medium-term notes, net of unamortized discount	\$ 23,829	\$ 23,475
Commercial paper, net of unamortized discount	2,502	3,654
Bank borrowings – long-term	1,483	1,602
Bank borrowings – short-term	545	418
Variable denomination floating rate demand notes	616	579
Notes payable to Caterpillar	1,118	208
Total outstanding borrowings	<u>\$ 30,093</u>	<u>\$ 29,936</u>

Medium-term notes

We issue medium-term unsecured notes through securities dealers or underwriters in the U.S., Canada, Europe, Australia, Japan, Hong Kong, Argentina and Mexico to both retail and institutional investors. These notes are offered in several currencies and with a variety of maturities. These notes are senior unsecured obligations of the Company. Medium-term notes outstanding as of December 31, 2013, mature as follows:

(Millions of dollars)

2014	\$	5,973
2015		6,050
2016		4,567
2017		2,622
2018		2,289
Thereafter		2,328
Total	<u>\$</u>	<u>23,829</u>

Medium-term notes issued totaled \$6.15 billion and redeemed totaled \$5.39 billion for the year ended December 31, 2013.

Commercial paper

We issue unsecured commercial paper in the U.S., Europe and other international capital markets. These short-term promissory notes are issued on a discounted basis and are payable at maturity.

Revolving credit facilities

We have three global credit facilities with a syndicate of banks totaling \$10.00 billion (Credit Facility) available in the aggregate to both Caterpillar and us for general liquidity purposes. Based on management's allocation decision, which can be revised from time to time, the portion of the Credit Facility available to us as of December 31, 2013 was \$7.25 billion.

- The 364-day facility of \$3.00 billion (of which \$2.18 billion is available to us) expires in September 2014.
- The 2010 four-year facility, as amended in September 2013, of \$2.60 billion (of which \$1.88 billion is available to us) expires in September 2016.
- The 2011 five-year facility, as amended in September 2013, of \$4.40 billion (of which \$3.19 billion is available to us) expires in September 2018.

At December 31, 2013, Caterpillar's consolidated net worth was \$25.03 billion, which was above the \$9.00 billion required under the Credit Facility. The consolidated net worth is defined in the Credit Facility as the consolidated stockholders' equity including preferred stock but excluding the pension and other postretirement benefits balance within Accumulated other comprehensive income/(loss).

At December 31, 2013, our covenant interest coverage ratio was 1.96 to 1. This is above the 1.15 to 1 minimum ratio, calculated as (1) profit excluding income taxes, interest expense and net gain/(loss) from interest rate derivatives to (2) interest expense calculated at the end of each calendar quarter for the rolling four quarter period then most recently ended, required by the Credit Facility.

In addition, at December 31, 2013, our six-month covenant leverage ratio was 8.14 to 1 and our year-end covenant leverage ratio was 7.99 to 1. This is below the maximum ratio of debt to net worth of 10 to 1, calculated (1) on a monthly basis as the average of the leverage ratios determined on the last day of each of the six preceding calendar months and (2) at each December 31, required by the Credit Facility.

In the event that either Caterpillar or we do not meet one or more of our respective financial covenants under the Credit Facility in the future (and are unable to obtain a consent or waiver), the syndicate of banks may terminate the commitments allocated to the party that does not meet its covenants. Additionally, in such event, certain of our other lenders under other loan agreements where similar financial covenants or cross default provisions are applicable, may, at their election, choose to pursue remedies under those loan agreements, including accelerating the repayment of outstanding borrowings. At December 31, 2013, there were no borrowings under the Credit Facility.

Bank borrowings

Credit lines with banks as of December 31, 2013 totaled \$4.28 billion. These committed and uncommitted credit lines, which may be eligible for renewal at various future dates or have no specified expiration date, are used primarily by our non-U.S. subsidiaries for local funding requirements. The remaining available credit commitments may be withdrawn any time at the lenders' discretion. As of December 31, 2013, we had \$2.03 billion outstanding against these credit lines compared with \$2.02 billion as of December 31, 2012, and were in compliance with all debt covenants under these credit lines.

Variable denomination floating rate demand notes

We obtain funding from the sale of variable denomination floating rate demand notes, which may be redeemed at any time at the option of the holder without any material restriction. We do not hold reserves to fund the payment of the demand notes. The notes are offered on a continuous basis by prospectus only.

Notes receivable from/payable to Caterpillar

Under our variable amount lending agreements and other notes receivable with Caterpillar, we may borrow up to \$2.33 billion from Caterpillar and Caterpillar may borrow up to \$1.29 billion from us. The agreements are in effect for indefinite periods of time and may be changed or terminated by either party with 30 days notice. We had notes receivable of \$345 million and notes payable of \$1.12 billion outstanding under these agreements as of December 31, 2013, compared with notes receivable of \$360 million and notes payable of \$208 million as of December 31, 2012.

Committed credit facility

In addition, in 2011, we extended a \$2 billion committed credit facility to Caterpillar, which expires in February 2019. We receive a fee from Caterpillar based on amounts drawn under the credit facility and a commitment fee for the undrawn amounts under the credit facility. At December 31, 2013, there were no borrowings under this credit facility.

OFF-BALANCE SHEET ARRANGEMENTS

We lease all of our facilities. In addition, we have potential payment exposure for guarantees issued to third parties totaling \$55 million as of December 31, 2013. Please refer to Notes 10 and 14 of Notes to Consolidated Financial Statements for further information.

Transfers of receivables

Certain finance receivables and equipment on operating leases are sold to third parties with limited or no recourse to us to mitigate the concentration of credit risk with certain customers. In 2013, we received \$243 million of cash proceeds from the sale of such assets. We typically maintain servicing responsibilities for these third-party assets.

CONTRACTUAL OBLIGATIONS

We have committed cash outflow related to long-term debt, operating lease agreements and purchase obligations. Minimum payments for these obligations are:

(Millions of dollars)							
	2014	2015	2016	2017	2018	After 2018	Total
Long-term debt	\$ 6,592	\$ 6,446	\$ 4,796	\$ 2,747	\$ 2,350	\$ 2,381	\$ 25,312
Operating leases	15	14	12	12	11	29	93
Purchase obligations ⁽¹⁾	15	2	1	—	—	—	18
Interest payable on long-term debt	553	394	323	248	182	184	1,884
Total contractual obligations	<u>\$ 7,175</u>	<u>\$ 6,856</u>	<u>\$ 5,132</u>	<u>\$ 3,007</u>	<u>\$ 2,543</u>	<u>\$ 2,594</u>	<u>\$ 27,307</u>

⁽¹⁾Represents short-term contractual obligations made in the ordinary course of business for contracted services at December 31, 2013.

These contractual obligations do not include unused commitments and lines of credit for dealers and customers discussed in Note 10 of Notes to Consolidated Financial Statements.

CASH FLOWS

Operating cash flow for 2013 was \$1.10 billion compared with \$1.04 billion for 2012. Net cash used for investing activities in 2013 was \$2.53 billion compared with \$4.35 billion for 2012. The change is primarily due to less net cash used for finance receivables due to slower growth in the portfolio. Net cash provided by financing activities in 2013 was \$697 million compared with \$4.30 billion in 2012. The change is primarily due to lower funding requirements for investing activities, the net impact of our various lending arrangements with Caterpillar and the use of existing cash.

CRITICAL ACCOUNTING POLICIES

The preparation of financial statements, in conformity with generally accepted accounting principles in the United States of America, requires management to make estimates and assumptions that affect reported amounts. The most significant estimates include those related to the residual values for leased assets, our Allowance for credit losses and the income tax reserve. Actual results may differ from these estimates.

Residual values for leased assets

Lease residual values, which are based upon the estimated wholesale market value of leased equipment at the time of the expiration of the lease, are based on a careful analysis of historical wholesale market sales prices, projected forward on a level trend line without consideration for inflation or possible future pricing action. At the inception of the lease, residual values are derived from consideration of the following critical factors: market size and demand, any known significant market/product trends, total expected hours of usage, machine configuration, application, location, model changes, quantities and past re-marketing experience, third-party residual guarantees and contractual customer purchase options. Many of these factors are gathered in an application survey that is completed prior to quotation. The lease agreement also clearly defines applicable return conditions and remedies for non-compliance, to ensure that the leased equipment will be in good operating condition upon return. Model changes and updates, as well as market strength and product acceptance, are monitored and adjustments are made to residual values in accordance with the significance of any such changes. Remarketing sales staff works closely with customers and dealers to manage the sale of lease returns and the recovery of residual exposure.

During the term of the leases, residual amounts are monitored. If estimated market values reflect a non-temporary impairment due to economic factors, obsolescence or other adverse circumstances, the residuals are adjusted to the lower estimated values by a charge to earnings. For equipment on operating leases, the charge is recognized through depreciation expense. For finance leases, it is recognized through a reduction of finance revenue.

Allowance for credit losses

The Allowance for credit losses is an estimate of the losses inherent in our finance receivable portfolio and includes consideration of accounts that have been individually identified as impaired, as well as pools of finance receivables where it is probable that certain receivables in the pool are impaired but the individual accounts cannot yet be identified. In identifying and measuring impairment, management takes into consideration past loss experience, known and inherent risks in the portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of underlying collateral and current economic conditions. In estimating probable credit losses, we review accounts that are past due, non-performing, in bankruptcy or otherwise identified as at-risk for potential credit loss including accounts which have been modified. Accounts are identified as at-risk for potential credit loss using information available about the customer, such as financial statements, news reports and published credit ratings, as well as general information regarding industry trends and the economic environment in which our customers operate.

The Allowance for credit losses attributable to specific accounts is based on the most probable source of repayment, which is normally the liquidation of collateral. In determining collateral value, we estimate the current fair market value of the collateral less selling costs. We also consider credit enhancements such as additional collateral and contractual third-party guarantees. The Allowance for credit losses attributable to the remaining accounts not yet individually identified as impaired is estimated utilizing probabilities of default and the estimated loss given default. In addition, qualitative factors not able to be fully captured in previous analysis including industry trends, macroeconomic factors and model imprecision are considered in the evaluation of the adequacy of the Allowance for credit losses. These qualitative factors are subjective and require a degree of management judgment.

While management believes it has exercised prudent judgment and applied reasonable assumptions, there can be no assurance that in the future, changes in economic conditions or other factors would not cause changes in the financial health of our customers. If the financial health of our customers deteriorates, the timing and level of payments received could be impacted and therefore, could result in a change to our estimated losses.

Income tax reserve

We are subject to the income tax laws of the many jurisdictions in which we operate. These tax laws are complex and the manner in which they apply to our facts is sometimes open to interpretation. In establishing the Provision for income taxes, we must make judgments about the application of these inherently complex tax laws.

Despite our belief that our tax return positions are consistent with applicable tax laws, we believe that taxing authorities could challenge certain positions. Settlement of any challenge can result in no change, a complete disallowance, or some partial adjustment reached through negotiations or litigation. We record tax benefits for uncertain tax positions based upon management's evaluation of the information available at the reporting date. To be recognized in the financial statements, a tax benefit must be at least more likely than not of being sustained based on technical merits. The benefit for positions meeting the recognition threshold is measured as the largest benefit more likely than not of being realized upon ultimate settlement with a taxing authority that has full knowledge of all relevant information. Significant judgment is required in making these determinations and adjustments to unrecognized tax benefits may be necessary to reflect actual taxes payable upon settlement. Adjustments related to positions impacting the effective tax rate affect the Provision for income taxes. Adjustments related to positions impacting the timing of deductions impact deferred tax assets and liabilities.

Our income tax positions and analysis are based on currently enacted tax law. Future changes in tax law could significantly impact the Provision for income taxes, the amount of taxes payable and the deferred tax asset and liability balances. Deferred tax assets generally represent tax benefits for tax deductions or credits available in future tax returns. Certain estimates and assumptions are required to determine whether it is more likely than not that all or some portion of the benefit of a deferred tax asset will not be realized. In making this assessment, management analyzes and estimates the impact of future taxable income, reversing temporary differences and available prudent and feasible tax planning strategies. Should a change in facts or circumstances lead to a change in judgment about the ultimate realizability of a deferred tax asset, we record or adjust the related valuation allowance in the period that the change in facts and circumstances occurs, along with a corresponding increase or decrease in the Provision for income taxes.

A provision for U.S. income taxes has not been recorded on undistributed profits of our non-U.S. subsidiaries that we have determined to be indefinitely reinvested outside the U.S. If management intentions or U.S. tax law changes in the future, there may be a significant negative impact on the Provision for income taxes to record an incremental tax liability in the period the change occurs. A deferred tax asset is recognized only if we have definite plans to generate a U.S. tax benefit by repatriating earnings in the foreseeable future.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

We use derivative financial instruments to prudently manage foreign currency exchange rate and interest rate exposure that we encounter as a part of our normal business. Our Risk Management Policy prevents us from using these instruments for speculative purposes.

Interest rate risk

We have a match funding policy whereby the interest rate profile (fixed or floating rate) of our debt portfolio is matched to the interest rate profile of our earning asset portfolio (finance receivables and operating leases) within certain parameters. In connection with that policy, we use interest rate swap agreements to modify the debt structure. Match funding assists us in maintaining our interest rate spreads, regardless of the direction interest rates move.

In order to properly manage our sensitivity to changes in interest rates, we measure the potential impact of different interest rate assumptions on pre-tax earnings. All on-balance sheet positions, including derivative financial instruments, are included in the analysis. The primary assumptions used in the analysis are that there are no new fixed rate assets or liabilities, the proportion of fixed rate debt to fixed rate assets remains unchanged and the level of floating rate assets and debt remains constant. An analysis of the December 31, 2013 balance sheet, using these assumptions, estimates the impact of a 100 basis point immediate and sustained adverse change in interest rates to have a minimal impact on pre-tax earnings. Last year, similar assumptions and calculations yielded a potential adverse impact to pre-tax earnings of less than \$1 million.

This analysis does not necessarily represent our current outlook of future market interest rate movement, nor does it consider any actions management could undertake in response to changes in interest rates. Accordingly, no assurance can be given that actual results would be consistent with the results of our analysis.

Foreign exchange rate risk

In managing foreign currency risk, our objective is to minimize earnings volatility resulting from conversion and the remeasurement of net foreign currency balance sheet positions and related expected future transactions. Our policy allows the use of foreign currency forward, option and cross currency contracts to offset the risk of currency mismatch between our assets and liabilities and exchange rate risk associated with related expected future transactions. An analysis of the December 31, 2013 balance sheet estimates the impact of a 10 percent change in the value of the U.S. dollar relative to all other currencies, except the Chinese Yuan where a 2 percent change was used, to have an impact to pre-tax earnings of less than \$1 million. The same analysis performed on the December 31, 2012 balance sheet resulted in an estimated impact to pre-tax earnings of less than \$1 million.

This analysis does not necessarily represent our current outlook for the U.S. dollar relative to all other currencies, nor does it consider any actions management could undertake in response to changes in the foreign currency markets. Accordingly, no assurance can be given that actual results would be consistent with the results of our analysis.

Item 8. Financial Statements and Supplementary Data.

Information required by Item 8 is included following the Report of Independent Registered Public Accounting Firm.

Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure.
--

None.

Item 9A. Controls and Procedures.
--

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our chief executive officer and our chief financial officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined under Exchange Act Rule 13a-15(e). Based on this evaluation, our chief executive officer and our chief financial officer concluded that our disclosure controls and procedures were effective as of December 31, 2013.

Management's Report on Internal Control

The management of Cat Financial is responsible for establishing and maintaining adequate internal control over financial reporting. Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of our financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Our internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. Management assessed the effectiveness of our internal control over financial reporting as of December 31, 2013. In making this assessment, we used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control — Integrated Framework (1992). Based on our assessment we concluded that, as of December 31, 2013, our internal control over financial reporting was effective based on those criteria.

The effectiveness of our internal control over financial reporting as of December 31, 2013, has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm. Their report appears immediately following Management's Report on Internal Control over Financial Reporting.

Changes in Internal Control Over Financial Reporting

During the fourth quarter, there have been no significant changes in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Item 9B. Other Information.

None.

PART III

Item 14. Principal Accounting Fees and Services.

As a wholly-owned subsidiary of Caterpillar Inc., our principal accounting fees and services are subject to Caterpillar Inc.'s Audit Committee pre-approval policies and procedures described in its Proxy Statement. This Proxy Statement can be located at Caterpillar Inc.'s Internet site (www.caterpillar.com), under Investors, Financial Information, Proxy Statement. Other than these policies and procedures, the information contained at that Internet site is not incorporated by reference in this filing. During 2013, all services provided by the external auditor were pre-approved by Caterpillar's Audit Committee in accordance with such policy.

Fees for professional services provided by our auditors include the following:

(Millions of dollars)		
	2013	2012
Audit fees ⁽¹⁾	\$ 3.9	\$ 3.9
Audit-related fees ⁽²⁾	—	.3
Tax fees ⁽³⁾	.4	.5
Total	<u>\$ 4.3</u>	<u>\$ 4.7</u>

⁽¹⁾ "Audit fees" principally includes audit and review of financial statements (including internal control over financial reporting), statutory and subsidiary audits, SEC registration statements, comfort letters and consents.

⁽²⁾ "Audit-related fees" principally includes accounting consultations and pre- or post- implementation reviews of processes or systems.

⁽³⁾ "Tax fees" include, among other things, statutory tax return preparation and review and advising on the impact of changes in local tax laws.

PART IV

Item 15. Exhibits and Financial Statement Schedules.

(a) The following documents are filed as part of this report.

1 Financial Statements

- Management's Report on Internal Control Over Financial Reporting
- Report of Independent Registered Public Accounting Firm
- Consolidated Statements of Profit
- Consolidated Statements of Comprehensive Income
- Consolidated Statements of Financial Position
- Consolidated Statements of Changes in Stockholder's Equity
- Consolidated Statements of Cash Flows
- Notes to Consolidated Financial Statements

(b) Exhibits

- 3.1 Certificate of Incorporation of the Company, as amended (incorporated by reference from Exhibit 3.1 to the Company's Form 10 for the year ended December 31, 1984).
- 3.2 Bylaws of the Company, as amended (incorporated by reference from Exhibit 3.2 to the Company's Quarterly Report on Form 10-Q, for the quarter ended June 30, 2005).
- 4.1 Indenture, dated as of April 15, 1985, between the Company and Morgan Guaranty Trust Company of New York, as Trustee (incorporated by reference from Exhibit 4.1 to the Company's Registration Statement on Form S-3, Commission File No. 33-2246).
- 4.2 First Supplemental Indenture, dated as of May 22, 1986, amending the Indenture dated as of April 15, 1985, between the Company and Morgan Guaranty Trust Company of New York, as Trustee (incorporated by reference from Exhibit 4.1 to the Company's Quarterly Report on Form 10-Q, for the quarter ended June 20, 1986).
- 4.3 Second Supplemental Indenture, dated as of March 15, 1987, amending the Indenture dated as of April 15, 1985, between the Company and Morgan Guaranty Trust Company of New York, as Trustee (incorporated by reference from Exhibit 4.3 to the Company's Current Report on Form 8-K, dated April 24, 1987).
- 4.4 Third Supplemental Indenture, dated as of October 2, 1989, amending the Indenture dated as of April 15, 1985, between the Company and Morgan Guaranty Trust Company of New York, as Trustee (incorporated by reference from Exhibit 4.3 to the Company's Current Report on Form 8-K, dated October 16, 1989).
- 4.5 Fourth Supplemental Indenture, dated as of October 1, 1990, amending the Indenture dated April 15, 1985, between the Company and Morgan Guaranty Trust Company of New York, as Trustee (incorporated by reference from Exhibit 4.3 to the Company's Current Report on Form 8-K, dated October 29, 1990).
- 4.6 Indenture, dated as of July 15, 1991, between the Company and Continental Bank, National Association, as Trustee (incorporated by reference from Exhibit 4.1 to the Company's Current Report on Form 8-K, dated July 25, 1991).
- 4.7 First Supplemental Indenture, dated as of October 1, 2005, amending the Indenture dated as of July 15, 1991, between the Company and U.S. Bank Trust National Association (as successor to the former Trustee) (incorporated by reference from Exhibit 4.3 to Amendment No. 5 to the Company's Registration Statement on Form S-3 filed October 20, 2005, Commission File No. 333-114075).
- 4.8 Support Agreement, dated as of December 21, 1984, between the Company and Caterpillar (incorporated by reference from Exhibit 10.2 to the Company's amended Form 10, for the year ended December 31, 1984).
- 4.9 First Amendment to the Support Agreement dated June 14, 1995, between the Company and Caterpillar (incorporated by reference from Exhibit 4 to the Company's Current Report on Form 8-K, dated June 14, 1995).
- The registrant hereby undertakes upon request to furnish the Commission with a copy of any instrument with respect to long-term debt where the total amount of securities authorized thereunder does not exceed 10% of the total assets of the registrant and its subsidiaries on a consolidated basis.
- 10.1 Tax Sharing Agreement, dated as of June 21, 1984, between the Company and Caterpillar (incorporated by reference from Exhibit 10.3 to the Company's amended Form 10, for the year ended December 31, 1984).
- 10.2 Four-Year Credit Agreement, dated as of September 16, 2010 (2010 Four-Year Credit Agreement), among the Company, Caterpillar, Caterpillar International Finance Limited, Caterpillar Finance Corporation, certain other financial institutions named therein and Citibank, N.A., The Bank of Tokyo-Mitsubishi UFJ, Ltd., Citibank International plc, Banc of America Securities LLC, J.P. Morgan Securities LLC and Citigroup Global Markets Inc. (incorporated by reference from Exhibit 99.4 to the Company's Current Report on Form 8-K, filed September 21, 2010).

- 10.3 Japan Local Currency Addendum to the 2010 Four-Year Credit Agreement among the Company, Caterpillar Finance Corporation, the Japan Local Currency Banks named therein, Citibank, N.A. and The Bank of Tokyo-Mitsubishi UFJ, Ltd. (incorporated by reference from Exhibit 99.6 to the Company's Current Report on Form 8-K, filed September 21, 2010).
- 10.4 Local Currency Addendum to the 2010 Four-Year Credit Agreement among the Company, Caterpillar International Finance Limited, the Local Currency Banks named therein, Citibank, N.A. and Citibank International plc (incorporated by reference from Exhibit 99.5 to the Company's Current Report on Form 8-K, filed September 21, 2010).
- 10.5 Amendment No. 1 to the 2010 Four-Year Credit Agreement among the Company, Caterpillar, Caterpillar Finance Corporation, Caterpillar International Finance Limited, the Banks named therein, the Local Currency Banks, the Japan Local Currency Banks, The Bank of Tokyo-Mitsubishi UFJ, Ltd., Citibank International plc and Citibank, N.A. (incorporated by reference from Exhibit 99.7 to the Company's Current Report on Form 8-K, filed September 16, 2011).
- 10.6 Amendment No. 2 to the 2010 Four-Year Credit Agreement among the Company, Caterpillar, Caterpillar Finance Corporation, Caterpillar International Finance Limited, the Banks named therein, the Local Currency Banks, the Japan Local Currency Banks, The Bank of Tokyo-Mitsubishi UFJ, Ltd., Citibank International plc and Citibank, N.A. (incorporated by reference from Exhibit 99.4 to the Company's Current Report on Form 8-K, filed September 17, 2012).
- 10.7 Omnibus Amendment No. 3, dated as of September 12, 2013, to the 2010 Four-Year Credit Agreement and Amendment No. 1 to Local Currency Addendum to the 2010 Four-Year Credit Agreement, by and among the Company, Caterpillar, Caterpillar International Finance Limited and Caterpillar Finance Corporation, the Banks named therein, Local Currency Banks and Japan Local Currency Banks party thereto, Citibank, N.A., as Agent, Citibank International plc, as Local Currency Agent, and The Bank of Tokyo-Mitsubishi UFJ, Ltd., as Japan Local Currency Agent (incorporated by reference from Exhibit 99.4 to the Company's Current Report on Form 8-K filed September 17, 2013).
- 10.8 364-Day Credit Agreement dated September 12, 2013 (2013 364-Day Credit Agreement) among the Company, Caterpillar, Caterpillar International Finance Limited, Caterpillar Finance Corporation, certain financial institutions named therein, Citibank, N.A., as Agent, Citibank International plc, as Local Currency Agent, and The Bank of Tokyo-Mitsubishi UFJ, Ltd., as Japan Local Currency Agent (incorporated by reference from Exhibit 99.1 to the Company's Current Report on Form 8-K, filed September 17, 2013).
- 10.9 Local Currency Addendum, dated as of September 12, 2013, to the 2013 364-Day Credit Agreement among the Company, Caterpillar International Finance Limited, the Local Currency Banks named therein, Citibank, N.A. and Citibank International plc (incorporated by reference from Exhibit 99.2 to the Company's Current Report on Form 8-K, filed September 17, 2013).
- 10.10 Japan Local Currency Addendum, dated as of September 12, 2013, to the 2013 364-Day Credit Agreement among the Company, Caterpillar Finance Corporation, the Japan Local Currency Banks named therein, Citibank, N.A. and The Bank of Tokyo-Mitsubishi UFJ, Ltd. (incorporated by reference from Exhibit 99.3 to the Company's Current Report on Form 8-K, filed September 17, 2013).
- 10.11 Five-Year Credit Agreement, dated as of September 15, 2011 (2011 Five-Year Credit Agreement), among the Company, Caterpillar, Caterpillar International Finance Limited, Caterpillar Finance Corporation, certain financial institutions named therein, Citibank, N.A., Citibank International plc, The Bank of Tokyo-Mitsubishi UFJ Ltd., Citigroup Global Markets Inc., Merrill Lynch, Pierce, Fenner & Smith Incorporated and J.P. Morgan Securities LLC (incorporated by reference from Exhibit 99.4 to the Company's Current Report on Form 8-K, filed September 16, 2011).
- 10.12 Local Currency Addendum to the 2011 Five-Year Credit Agreement among the Company, Caterpillar International Finance Limited, the Local Currency Banks named therein, Citibank, N.A. and Citibank International plc (incorporated by reference from Exhibit 99.5 to the Company's Current Report on Form 8-K, filed September 16, 2011).
- 10.13 Japan Local Currency Addendum to the 2011 Five-Year Credit Agreement among the Company, Caterpillar Finance Corporation, the Japan Local Currency Banks named therein, Citibank, N.A. and The Bank of Tokyo-Mitsubishi UFJ, Ltd. (incorporated by reference from Exhibit 99.6 to the Company's Current Report on Form 8-K, filed September 16, 2011).
- 10.14 Amendment No. 1 to the 2011 Five-Year Credit Agreement among the Company, Caterpillar, Caterpillar Finance Corporation, Caterpillar International Finance Limited, the Banks named therein, the Local Currency Banks, the Japan Local Currency Banks, The Bank of Tokyo-Mitsubishi UFJ, Ltd., Citibank International plc and Citibank, N.A. (incorporated by reference from Exhibit 99.5 to the Company's Current Report on Form 8-K, filed September 17, 2012).
- 10.15 Omnibus Amendment No. 2, dated as of September 12, 2013, to the 2011 Five-Year Credit Agreement and Amendment No. 1 to Local Currency Addendum to the 2011 Five-Year Credit Agreement dated as of September 15, 2011, by and among the Company, Caterpillar, Caterpillar International Finance Limited and Caterpillar Finance Corporation, the Banks named therein, Local Currency Banks and Japan Local Currency Banks party thereto, Citibank, N.A., as Agent, Citibank International plc, as Local Currency Agent, and The Bank of Tokyo-Mitsubishi UFJ, Ltd., as Japan Local Currency Agent (incorporated by reference from Exhibit 99.5 to the Company's Current Report on Form 8-K filed September 17, 2013).
- 12 Computation of Ratio of Profit to Fixed Charges.
- 23 Consent of Independent Registered Public Accounting Firm.
- 31.1 Certification of Kent M. Adams, President, Director and Chief Executive Officer of Caterpillar Financial Services Corporation, as required pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 31.2 Certification of James A. Duensing, Executive Vice President and Chief Financial Officer of Caterpillar Financial Services Corporation, as required pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

32	Certifications of Kent M. Adams, President, Director and Chief Executive Officer of Caterpillar Financial Services Corporation, and James A. Duensing, Executive Vice President and Chief Financial Officer of Caterpillar Financial Services Corporation, as required pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

EXHIBIT INDEX

- 3.1 Certificate of Incorporation of the Company, as amended (incorporated by reference from Exhibit 3.1 to the Company's Form 10 for the year ended December 31, 1984).
- 3.2 Bylaws of the Company, as amended (incorporated by reference from Exhibit 3.2 to the Company's Quarterly Report on Form 10-Q, for the quarter ended June 30, 2005).
- 4.1 Indenture, dated as of April 15, 1985, between the Company and Morgan Guaranty Trust Company of New York, as Trustee (incorporated by reference from Exhibit 4.1 to the Company's Registration Statement on Form S-3, Commission File No. 33-2246).
- 4.2 First Supplemental Indenture, dated as of May 22, 1986, amending the Indenture dated as of April 15, 1985, between the Company and Morgan Guaranty Trust Company of New York, as Trustee (incorporated by reference from Exhibit 4.1 to the Company's Quarterly Report on Form 10-Q, for the quarter ended June 20, 1986).
- 4.3 Second Supplemental Indenture, dated as of March 15, 1987, amending the Indenture dated as of April 15, 1985, between the Company and Morgan Guaranty Trust Company of New York, as Trustee (incorporated by reference from Exhibit 4.3 to the Company's Current Report on Form 8-K, dated April 24, 1987).
- 4.4 Third Supplemental Indenture, dated as of October 2, 1989, amending the Indenture dated as of April 15, 1985, between the Company and Morgan Guaranty Trust Company of New York, as Trustee (incorporated by reference from Exhibit 4.3 to the Company's Current Report on Form 8-K, dated October 16, 1989).
- 4.5 Fourth Supplemental Indenture, dated as of October 1, 1990, amending the Indenture dated April 15, 1985, between the Company and Morgan Guaranty Trust Company of New York, as Trustee (incorporated by reference from Exhibit 4.3 to the Company's Current Report on Form 8-K, dated October 29, 1990).
- 4.6 Indenture, dated as of July 15, 1991, between the Company and Continental Bank, National Association, as Trustee (incorporated by reference from Exhibit 4.1 to the Company's Current Report on Form 8-K, dated July 25, 1991).
- 4.7 First Supplemental Indenture, dated as of October 1, 2005, amending the Indenture dated as of July 15, 1991, between the Company and U.S. Bank Trust National Association (as successor to the former Trustee) (incorporated by reference from Exhibit 4.3 to Amendment No. 5 to the Company's Registration Statement on Form S-3 filed October 20, 2005, Commission File No. 333-114075).
- 4.8 Support Agreement, dated as of December 21, 1984, between the Company and Caterpillar (incorporated by reference from Exhibit 10.2 to the Company's amended Form 10, for the year ended December 31, 1984).
- 4.9 First Amendment to the Support Agreement dated June 14, 1995, between the Company and Caterpillar (incorporated by reference from Exhibit 4 to the Company's Current Report on Form 8-K, dated June 14, 1995).
- The registrant hereby undertakes upon request to furnish the Commission with a copy of any instrument with respect to long-term debt where the total amount of securities authorized thereunder does not exceed 10% of the total assets of the registrant and its subsidiaries on a consolidated basis.
- 10.1 Tax Sharing Agreement, dated as of June 21, 1984, between the Company and Caterpillar (incorporated by reference from Exhibit 10.3 to the Company's amended Form 10, for the year ended December 31, 1984).
- 10.2 Four-Year Credit Agreement, dated as of September 16, 2010 (2010 Four-Year Credit Agreement), among the Company, Caterpillar, Caterpillar International Finance Limited, Caterpillar Finance Corporation, certain other financial institutions named therein and Citibank, N.A., The Bank of Tokyo-Mitsubishi UFJ, Ltd., Citibank International plc, Banc of America Securities LLC, J.P. Morgan Securities LLC and Citigroup Global Markets Inc. (incorporated by reference from Exhibit 99.4 to the Company's Current Report on Form 8-K, filed September 21, 2010).
- 10.3 Japan Local Currency Addendum to the 2010 Four-Year Credit Agreement among the Company, Caterpillar Finance Corporation, the Japan Local Currency Banks named therein, Citibank, N.A. and The Bank of Tokyo-Mitsubishi UFJ, Ltd. MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

The management of Cat Financial is responsible for establishing and maintaining adequate internal control over financial reporting. Our internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of our financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Our internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of our internal control over financial reporting as of December 31, 2013. In making this assessment, we used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control — Integrated Framework (1992). Based on our assessment we concluded that, as of December 31, 2013, our internal control over financial reporting was effective based on those criteria.

The effectiveness of our internal control over financial reporting as of December 31, 2013, has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm. Their report appears immediately following Management's Report on Internal Control Over Financial Reporting.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholder of Caterpillar Financial Services Corporation:

In our opinion, the accompanying consolidated statements of financial position and the related consolidated statements of profit, comprehensive income, changes in stockholder's equity and cash flows present fairly, in all material respects, the financial position of Caterpillar Financial Services Corporation and its subsidiaries at December 31, 2013, 2012 and 2011, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2013 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2013, based on criteria established in *Internal Control - Integrated Framework* (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for these financial statements, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control over Financial Reporting. Our responsibility is to express opinions on these financial statements and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

See Notes to Consolidated Financial Statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Nature of Operations

Caterpillar Financial Services Corporation, a Delaware corporation organized in 1981 (together with its subsidiaries, "Cat Financial," "the Company," "we" and "our"), is a wholly-owned finance subsidiary of Caterpillar Inc. (together with its other subsidiaries, "Caterpillar" or "Cat"). Our primary business is to provide retail and wholesale financing alternatives for Caterpillar products to customers and dealers around the world. Retail financing is primarily comprised of financing of Caterpillar equipment, machinery and engines. In addition, we also provide financing for vehicles, power generation facilities and marine vessels that, in most cases, incorporate Caterpillar products. We also provide wholesale financing to Caterpillar dealers and purchase short-term receivables from Caterpillar.

B. Basis of Consolidation

The consolidated financial statements include the accounts of Cat Financial. Investments in companies that are owned 20 percent to 50 percent or are less than 20 percent owned and for which we have significant influence are accounted for by the equity method. Investments in companies that are less than 20 percent owned and for which we do not have significant influence are accounted for by the cost method. All material intercompany balances have been eliminated.

We consolidate all variable-interest entities (VIEs) where we are the primary beneficiary. For VIEs, we assess whether we are the primary beneficiary as prescribed by the accounting guidance on the consolidation of VIEs. The primary beneficiary of a VIE is the party that has the power to direct the activities that most significantly impact the performance of the entity and the obligation to absorb losses or the right to receive benefits that could potentially be significant to the entity. Please refer to Note 10 for more information.

C. Recognition of Earned Income

- Retail finance revenue on finance leases and installment sale contracts is recognized over the term of the contract at a constant rate of return on the scheduled outstanding principal balance. Revenue on retail notes is recognized based on the daily balance of retail receivables outstanding and the applicable effective interest rate.
- Operating lease revenue is recorded on a straight-line basis in the period earned over the life of the contract.
- Wholesale finance revenue on installment sale contracts and finance leases related to financing dealer inventory and rental fleets is recognized over the term of the contract at a constant rate of return on the scheduled outstanding principal balance. Revenue on wholesale notes is recognized based on the daily balance of wholesale receivables outstanding and the applicable effective interest rate.
- Loan origination and commitment fees are deferred and amortized to revenue using the interest method over the life of the finance receivables.

Recognition of income is suspended and the loan or finance lease is placed on non-accrual status when management determines that collection of future income is not probable (generally after 120 days past due except in locations where local regulatory requirements dictate a different method, or instances in which relevant information is known that warrants placing the loan or finance lease on non-accrual status). Accrual is resumed, and previously suspended income is recognized, when the receivable becomes contractually current and/or collection doubts are removed. Cash receipts on impaired finance receivables are first recorded against the receivable and then to any unrecognized income. A finance receivable is considered impaired, based on current information and events, if it is probable that we will be unable to collect all amounts due according to the contractual terms of the loan or finance lease. We consider a loan or finance lease past due if any portion of a contractual payment is due and unpaid for more than 30 days.

Revenues are presented net of sales and other related taxes.

D. Depreciation

Depreciation for equipment on operating leases is recognized using the straight-line method over the lease term, typically one to seven years. The depreciable basis is the original cost of the equipment less the estimated residual value of the equipment at the end of the lease term.

E. Residual Values

The residuals for leases classified as operating leases are included in Equipment on operating leases. The residuals for leases classified as capital leases, in accordance with lease accounting, are included in finance leases and installment sale contracts.

During the term of the leases, residual amounts are monitored. If estimated market values reflect a non-temporary impairment due to economic factors, obsolescence or other adverse circumstances, the residuals are adjusted to the lower estimated values by a charge to earnings. For equipment on operating leases, the charge is recognized through depreciation expense. For finance leases, it is recognized through a reduction of finance revenue.

F. Debt Issuance Costs

Debt issuance costs are capitalized and amortized to Interest expense over the term of the debt issue.

G. Derivative Financial Instruments

Our earnings and cash flows are subject to fluctuations due to changes in foreign currency exchange rates and interest rates. Our Risk Management Policy allows for the use of derivative financial instruments to prudently manage foreign currency exchange rate and interest rate exposures and not for the purpose of creating speculative positions. Derivatives that we use are primarily foreign currency forward and option contracts, cross currency contracts and interest rate swaps. All derivatives are recorded at fair value. See Note 9 for additional information.

H. Allowance for Credit Losses

The Allowance for credit losses is an estimate of the losses inherent in our finance receivable portfolio and includes consideration of accounts that have been individually identified as impaired, as well as pools of finance receivables where it is probable that certain receivables in the pool are impaired but the individual accounts cannot yet be identified. In identifying and measuring impairment, management takes into consideration past loss experience, known and inherent risks in the portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of underlying collateral and current economic conditions. In estimating probable credit losses, we review accounts that are past due, non-performing, in bankruptcy or otherwise identified as at-risk for potential credit loss including accounts which have been modified. Accounts are identified as at-risk for potential credit loss using information available about the customer, such as financial statements, news reports and published credit ratings, as well as general information regarding industry trends and the economic environment in which our customers operate.

The Allowance for credit losses attributable to specific accounts is based on the most probable source of repayment, which is normally the liquidation of collateral. In determining collateral value, we estimate the current fair market value of the collateral less selling costs. We also consider credit enhancements such as additional collateral and contractual third-party guarantees. The Allowance for credit losses attributable to the remaining accounts not yet individually identified as impaired is estimated utilizing probabilities of default and the estimated loss given default. In addition, qualitative factors not able to be fully captured in previous analysis including industry trends, macroeconomic factors and model imprecision are considered in the evaluation of the adequacy of the Allowance for credit losses. These qualitative factors are subjective and require a degree of management judgment.

Uncollectible receivable balances, including accrued interest, are written off against the Allowance for credit losses when the underlying collateral is repossessed or when we determine that it is probable that the receivable balance is uncollectible. Subsequent recoveries, if any, are credited to the Allowance for credit losses when received.

I. Income Taxes

The Provision for income taxes is determined using the asset and liability approach. Tax laws require items to be included in tax filings at different times than the items are reflected in the financial statements. A current liability is recognized for the estimated taxes payable for the current year. Deferred taxes represent the future tax consequences expected to occur when the reported amounts of assets and liabilities are recovered or paid. Deferred taxes are adjusted for enacted changes in tax rates and tax laws. Valuation allowances are recorded to reduce deferred tax assets when it is more likely than not that a tax benefit will not be realized.

When appropriate, we combine certain income tax filings with those of Caterpillar. In such instances, in accordance with our tax sharing agreement with Caterpillar, we generally pay to or receive from Caterpillar our allocated share of income taxes or credits based on our relative share of taxable income or loss.

J. Foreign Currency Translation

Assets and liabilities of foreign subsidiaries (the majority of which use the local currency as their functional currency) are translated at current exchange rates. The effects of translation adjustments are reported as a separate component of Accumulated other comprehensive income entitled "Foreign currency translation." Gains and losses resulting from the remeasurement of foreign currency amounts to functional currency are included in Other income (expense) on the Consolidated Statements of Profit.

K. Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements, in conformity with generally accepted accounting principles in the United States of America, requires management to make estimates and assumptions that affect the reported amounts. Significant estimates include the Allowance for credit losses, residual values for leased assets, income taxes and the assumptions used to determine the fair value of derivatives. Actual results may differ from these estimates.

L. New Accounting Pronouncements

Presentation of comprehensive income – In June 2011, the FASB issued accounting guidance on the presentation of comprehensive income. The guidance provides two options for presenting net income and other comprehensive income. The total of comprehensive income, the components of net income, and the components of other comprehensive income may be presented in either a single continuous statement of comprehensive income or in two separate but consecutive statements. We elected to present two separate statements. This guidance was effective January 1, 2012.

Disclosures about offsetting assets and liabilities – In December 2011, the FASB issued accounting guidance on disclosures about offsetting assets and liabilities. The guidance requires entities to disclose both gross and net information about instruments and transactions that are offset in the statement of financial position, as well as instruments and transactions that are subject to an enforceable master netting arrangement or similar agreement. In January 2013, the FASB issued guidance clarifying the scope of the disclosures to apply only to derivatives, including bifurcated embedded derivatives, repurchase and reverse repurchase agreements, and securities lending and securities borrowing transactions. This guidance was effective January 1, 2013, with retrospective application required. The guidance did not have a material impact on our financial statements. See Note 9 for additional information.

Reporting of amounts reclassified out of accumulated other comprehensive income – In February 2013, the FASB issued accounting guidance on the reporting of reclassifications out of accumulated other comprehensive income. The guidance requires an entity to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income if the amount is reclassified to net income in its entirety in the same reporting period. For other amounts not required to be reclassified in their entirety to net income in the same reporting period, a cross reference to other disclosures that provide additional detail about the reclassification amounts is required. This guidance was effective January 1, 2013 and did not have a material impact on our financial statements. See Note 2 for additional information.

Joint and several liability arrangements – In February 2013, the FASB issued accounting guidance on the recognition, measurement and disclosure of obligations resulting from joint and several liability arrangements. The guidance requires an entity to measure obligations resulting from joint and several liability arrangements for which the total amount of the obligation within the scope of this guidance is fixed at the reporting date, as the sum of the amount the reporting entity agreed to pay on the basis of its arrangement among its co-obligors and any additional amount the reporting entity expects to pay on behalf of its co-obligors. The entity is also required to disclose the nature and amount of the obligation as well as any other information about those obligations. This guidance is effective January 1, 2014, with retrospective application required. We do not expect the adoption to have a material impact on our financial statements.

Parent's accounting for the cumulative translation adjustment upon derecognition of certain subsidiaries or groups of assets within a foreign entity or of an investment in a foreign entity – In March 2013, the FASB issued accounting guidance on the parent's accounting for the cumulative translation adjustment (CTA) upon derecognition of certain subsidiaries or groups of assets within a foreign entity or of an investment in a foreign entity. The new standard clarifies existing guidance regarding when the CTA should be released into earnings upon various deconsolidation and consolidation transactions. This guidance is effective January 1, 2014. We do not expect the adoption to have a material impact on our financial statements.

Presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists – In July 2013, the FASB issued accounting guidance on the financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. The guidance requires an unrecognized tax benefit, or a portion of an unrecognized tax benefit, to be presented as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward in the financial statements if available under the applicable tax jurisdiction. The guidance is effective January 1, 2014. We do not expect the adoption to have a material impact on our financial statements.

NOTE 2 – ACCUMULATED OTHER COMPREHENSIVE INCOME/(LOSS)

Comprehensive income/(loss) and its components are presented in the Consolidated Statements of Comprehensive Income. Changes in Accumulated other comprehensive income/(loss), net of tax, included in the Consolidated Statements of Changes in Stockholder's Equity, consisted of the following:

(Millions of dollars)	Foreign currency translation	Derivative financial instruments	Total
Balance at December 31, 2011	\$ 122	\$ (6)	\$ 116
Balance at December 31, 2012	\$ 184	\$ (8)	\$ 176
Balance at December 31, 2012	\$ 184	\$ (8)	\$ 176
Other comprehensive income/(loss) before reclassifications	(62)	(1)	(63)
Amounts reclassified from accumulated other comprehensive income/(loss)	—	4	4
Other comprehensive income/(loss)	(62)	3	(59)
Balance at December 31, 2013	\$ 122	\$ (5)	\$ 117

The effect of the reclassifications out of Accumulated other comprehensive income/(loss) on the Consolidated Statements of Profit during the year ended December 31, 2013 was as follows:

(Millions of dollars)	Classification of income (expense)	2013
Foreign exchange contracts	Other income (expense)	\$ —
Interest rate contracts	Interest expense	(6)
Reclassifications before tax		(6)
Tax (provision) benefit		2
Total reclassifications from Accumulated other comprehensive income/(loss)		\$ (4)

NOTE 3 – FINANCING ACTIVITIES

A. Contractual Maturities of Finance Receivables

The contractual maturities and future scheduled payments of outstanding receivables, as of December 31, 2013, were:

(Millions of dollars)							
Amounts due in	Retail Installment Sale Contracts	Wholesale Installment Sale Contracts	Retail Finance Leases	Wholesale Finance Leases	Retail Notes	Wholesale Notes	Total
2014	\$ 2,218	\$ 145	\$ 3,277	\$ 84	\$ 3,628	\$ 3,749	\$ 13,101
2015	1,709	24	2,215	64	2,263	231	6,506
2016	1,156	14	1,314	37	1,758	150	4,429
2017	626	3	595	17	1,475	18	2,734
2018	215	—	207	9	669	5	1,105
Thereafter	29	—	139	—	1,070	—	1,238
	5,953	186	7,747	211	10,863	4,153	29,113
Guaranteed residual value	—	—	386	58	—	—	444
Unguaranteed residual value	—	—	496	25	—	—	521
Less: Unearned income	(100)	(1)	(739)	(22)	(89)	(25)	(976)
Total	\$ 5,853	\$ 185	\$ 7,890	\$ 272	\$ 10,774	\$ 4,128	\$ 29,102
Less: Allowance for credit losses							(378)
Total net finance receivables							\$ 28,724

Receivables generally may be repaid or refinanced without penalty prior to contractual maturity, and we also sell receivables. Accordingly, this presentation should not be regarded as a forecast of future cash collections.

B. Credit Quality of Financing Receivables and Allowance for Credit Losses

We apply a systematic methodology to determine the Allowance for credit losses for finance receivables. Based upon our analysis of credit losses and risk factors, our portfolio segments are as follows:

- **Customer** - Finance receivables with retail customers.
- **Dealer** - Finance receivables with Caterpillar dealers.
- **Caterpillar Purchased Receivables** - Trade receivables purchased from Caterpillar entities.

We further evaluate our portfolio segments by the class of finance receivables, which is defined as a level of information (below a portfolio segment) in which the finance receivables have the same initial measurement attribute and a similar method for assessing and monitoring credit risk. Typically, our finance receivables within a geographic area have similar credit risk profiles and methods for assessing and monitoring credit risk. Our classes, which align with management reporting for credit losses, are as follows:

- **North America** - Finance receivables originated in the United States or Canada.
- **Europe** - Finance receivables originated in Europe, Africa, Middle East and the Commonwealth of Independent States.
- **Asia/Pacific** - Finance receivables originated in Australia, New Zealand, China, Japan, South Korea and Southeast Asia.
- **Mining** - Finance receivables related to large mining customers worldwide.
- **Latin America** - Finance receivables originated in Central and South American countries and Mexico.
- **Caterpillar Power Finance** - Finance receivables related to marine vessels with Caterpillar engines worldwide and Caterpillar electrical power generation, gas compression and co-generation systems and non-Caterpillar equipment that is powered by these systems worldwide.

Impaired loans and finance leases

For all classes, a loan or finance lease is considered impaired, based on current information and events, if it is probable that we will be unable to collect all amounts due according to the contractual terms of the loan or finance lease. Loans and finance leases reviewed for impairment include loans and finance leases that are past due, non-performing or in bankruptcy. Recognition of income is suspended and the loan or finance lease is placed on non-accrual status when management determines that collection of future income is not probable (generally after 120 days past due except in locations where local regulatory requirements dictate a different method, or instances in which relevant information is known that warrants placing the loan or finance lease on non-accrual status). Accrual is resumed and previously suspended income is recognized, when the loan or finance lease becomes contractually current and/or collection doubts are removed. Cash receipts on impaired loans or finance leases are recorded against the receivable and then to any unrecognized income.

There were no impaired loans or finance leases as of December 31, 2013, 2012 and 2011, for the Dealer and Caterpillar Purchased Receivables portfolio segments. The average recorded investment for impaired loans and finance leases for the Dealer and Caterpillar Purchased Receivables portfolio segments was zero during 2013, 2012 and 2011.

Individually impaired loans and finance leases for the Customer portfolio segment were as follows:

Non-accrual and past due loans and finance leases

For all classes, we consider a loan or finance lease past due if any portion of a contractual payment is due and unpaid for more than 30 days. Recognition of income is suspended and the loan or finance lease is placed on non-accrual status when management determines that collection of future income is not probable (generally after 120 days past due except in locations where local regulatory requirements dictate a different method, or instances in which relevant information is known that warrants placing the loan or finance lease on non-accrual status). Accrual is resumed and previously suspended income is recognized, when the loan or finance lease becomes contractually current and/or collection doubts are removed.

As of December 31, 2013, 2012 and 2011, there were no loans or finance leases on non-accrual status for the Dealer or Caterpillar Purchased Receivables portfolio segments.

The investment in customer loans and finance leases on non-accrual status as of December 31, was as follows:

(Millions of dollars)			
	2013	2012	2011
Customer			
North America	\$ 26	\$ 59	\$ 112
Europe	28	38	58

Allowance for credit losses

The Allowance for credit losses as of December 31, 2013 was \$378 million or 1.30 percent of net finance receivables compared with \$426 million or 1.49 percent as of December 31, 2012. The overall decrease of \$48 million in Allowance for credit losses during the year reflects a \$55 million decrease associated with the lower allowance rate, partially offset by a \$7 million increase due to an increase in our net finance receivables portfolio. The lower allowance rate reflects write-offs taken in 2013, primarily related to our European marine portfolio that had been previously provided for in the Allowance for credit losses, favorable changes in our estimated probabilities of default (due to improved financial health of our customers), continued refinements of estimated loss emergence periods and general improvement in the economic conditions of the industries we serve.

The Allowance for credit losses as of December 31, 2012 was \$426 million or 1.49 percent of net finance receivables compared with \$369 million or 1.47 percent as of December 31, 2011. The overall increase of \$57 million in Allowance for credit losses during the year reflects a \$51 million increase in allowance due to an increase in our net finance receivables portfolio and a \$6 million increase associated with the higher allowance rate.

An analysis of the Allowance for credit losses during 2013, 2012 and 2011 was as follows:

(Millions of dollars)

	December 31, 2013			
	Customer	Dealer	Caterpillar Purchased Receivables	Total

Credit quality of finance receivables

The credit quality of finance receivables is reviewed on a monthly basis. Credit quality indicators include performing and non-performing. Non-performing is defined as finance receivables currently over 120 days past due and/or on non-accrual status or in bankruptcy. Finance receivables not meeting the criteria listed above are considered performing. Non-performing receivables have the highest probability for credit loss. The Allowance for credit losses attributable to non-performing receivables is based on the most probable source of repayment, which is normally the liquidation of collateral. In determining collateral value, we estimate the current fair market value of the collateral less selling costs. In addition, consideration is given to credit enhancements such as additional collateral and contractual third-party guarantees in determining the Allowance for credit losses attributable to non-performing receivables.

The recorded investment in performing and non-performing finance receivables was as follows:

Troubled debt restructurings

A restructuring of a loan or finance lease receivable constitutes a troubled debt restructuring (TDR) when the lender grants a concession it would not otherwise consider to a borrower experiencing financial difficulties. Concessions granted may include extended contract maturities, inclusion of interest only periods, below market interest rates and extended skip payment periods.

TDRs are reviewed along with other receivables as part of management's ongoing evaluation of the adequacy of the Allowance for credit losses. The Allowance for credit losses attributable to TDRs is based on the most probable source of repayment, which is normally the liquidation of collateral. In determining collateral value, we estimate the current fair market value of the collateral less selling costs. In addition, consideration is given to credit enhancements such as additional collateral and contractual third-party guarantees in determining the Allowance for credit losses attributable to TDRs.

There were no loans or finance lease receivables modified as TDRs during the years ended December 31, 2013, 2012 and 2011 for the Dealer or Caterpillar Purchased Receivables portfolio segments.

Loans and finance lease receivables in the Customer portfolio segment modified as TDRs during the years ended December 31, 2013, 2012 and 2011, were as follows:

(Dollars in millions)

		Year Ended December 31, 2013		
	Number of Contracts	Pre-TDR Outstanding Recorded Investment	Post-TDR Outstanding Recorded Investment

Caterpillar Power Finance ⁽¹⁾	35	117	117	
Total ⁽²⁾	125	\$ 184	\$ 184	

⁽¹⁾ During the years ended December 31, 2013, 2012 and 2011, \$25 million, \$24 million and \$15 million, respectively, of additional funds were subsequently loaned to a borrower whose terms had been modified in a TDR. The \$25 million, \$24 million and \$15 million of additional funds are not reflected in the tables above as no incremental modifications have been made with the borrower during the periods presented. At December 31, 2013, remaining commitments to lend additional funds to a borrower whose terms have been modified in a TDR were \$6 million.

⁽²⁾ Modifications include extended contract maturities, inclusion of interest only periods, below market interest rates, and extended skip payment periods.

TDRs in the Customer portfolio segment with a payment default during the years ended December 31, 2013, 2012 and 2011, which had been modified within twelve months prior to the default date, were as follows:

(Dollars in millions)

	Year Ended December 31, 2013		Year Ended December 31, 2012		Year Ended December 31, 2011

C. Transfers of Receivables

Securitized retail installment sale contracts and finance leases

We have periodically transferred certain finance receivables relating to our retail installment sale contracts and finance leases to special purpose entities (SPEs) as part of our asset-backed securitization program. These SPEs were concluded to be VIEs. We determined that we were the primary beneficiary based on our power to direct activities through our role as servicer and our obligation to absorb losses and right to receive benefits and therefore consolidated these securitization SPEs.

On April 25, 2011, we exercised a cleanup call on our only outstanding asset-backed securitization transaction. As a result, we had no assets or liabilities related to our securitization program as of December 31, 2013, 2012 or 2011.

Off-balance sheet managed assets

Certain finance receivables and equipment on operating leases are sold to third parties with limited or no recourse to us to mitigate the concentration of credit risk with certain customers and are generally accounted for as sales. In 2013, 2012 and 2011, we received \$243 million, \$206 million and \$207 million, respectively, of cash proceeds and recognized pre-tax gains of \$4 million, \$3 million and \$4 million, respectively, from the sale of such assets. We typically maintain servicing responsibilities for these third-party assets, which totaled \$322 million, \$291 million and \$235 million as of December 31, 2013, 2012 and 2011, respectively. Because we do not receive a servicing fee for these assets, a servicing liability is recorded. As of December 31, 2013, 2012 and 2011, these liabilities were not material. None of the receivables that are directly or indirectly sold or transferred to third parties in any of the foregoing transactions are available to pay our creditors.

Total off-balance sheet managed assets as of December 31, were as follows:

(Millions of dollars)

	2013	2012	2011
Retail notes receivable	\$ 126	\$ 49	\$ 39
Retail finance leases	103	116	133
Operating leases	61	60	15
Retail installment sale contracts	32	66	48
Total off-balance sheet managed assets	\$ 322	\$ 291	\$ 235

D. Purchases of Trade Receivables from Caterpillar Entities

We purchase trade receivables from Caterpillar entities at a discount. The discount is an estimate of the amount of financing revenue that would be earned at a market rate on these trade receivables over their expected life. The discount is amortized into revenue on an effective yield basis over the life of the receivables and recognized as Wholesale finance revenue. For the years ended December 31, 2013, 2012 and 2011, amortized discounts for the trade receivables were \$233 million, \$241 million and \$212 million, respectively. In the Consolidated Statements of Cash Flows, collection of the discount is included in investing activities as the receivables are collected.

NOTE 4 – EQUIPMENT ON OPERATING LEASES

Components of equipment on operating leases, less accumulated depreciation as of December 31, were as follows:

(Millions of dollars)			
	2013	2012	2011
Equipment on operating leases, at cost	\$ 5,111	\$ 4,410	\$ 4,082
Less: Accumulated depreciation	(1,581)	(1,451)	(1,471)
Equipment on operating leases, net	<u>\$ 3,530</u>	<u>\$ 2,959</u>	<u>\$ 2,611</u>

At December 31, 2013, scheduled minimum rental payments for operating leases were as follows:

2014	2015	2016	2017	2018	Thereafter	Total
\$ 874	\$ 597	\$ 359	\$ 179	\$ 88	\$ 33	\$ 2,130

NOTE 5 – CONCENTRATION OF CREDIT RISK

Financial instruments with potential credit risk consist primarily of finance receivables. Additionally, to a lesser extent, we have potential credit risk associated with counterparties to derivative contracts.

As of December 31, 2013, 2012 and 2011, receivables from customers in construction-related industries made up approximately one-third of our total portfolio. As of December 31, 2013, 2012 and 2011, approximately 40 percent of construction-related receivables related to customers in North America. No single customer or dealer represented a significant concentration of credit risk. We typically maintain a security interest in retail financed equipment and require physical damage insurance coverage on all financed equipment. See Note 15 for further information concerning business segments.

Regarding our derivative instruments, collateral is not generally required of the counterparties or of us. We generally enter into International Swaps and Derivatives Association (ISDA) master netting agreements, which permit the net settlement of amounts owed. Our exposure to credit loss in the event of nonperformance by the counterparties is limited to only those gains that we have recorded, but for which we have not yet received cash payment. The master netting agreements reduce the amount of loss the Company would incur should the counterparties fail to meet their obligations. As of December 31, 2013, 2012 and 2011, the maximum exposure to credit loss, including accrued interest, was \$178 million, \$306 million and \$342 million, respectively, before the application of any master netting agreements. See Note 9 for further information concerning derivatives.

NOTE 6 – CREDIT COMMITMENTS

Revolving credit facilities

We have three global credit facilities with a syndicate of banks totaling \$10.00 billion (Credit Facility) available in the aggregate to both Caterpillar and us for general liquidity purposes. Based on management's allocation decision, which can be revised from time to time, the portion of the Credit Facility available to us as of December 31, 2013 was \$7.25 billion.

- The 364-day facility of \$3.00 billion (of which \$2.18 billion is available to us) expires in September 2014.
- The 2010 four-year facility, as amended in September 2013, of \$2.60 billion (of which \$1.88 billion is available to us) expires in September 2016.
- The 2011 five-year facility, as amended in September 2013, of \$4.40 billion (of which \$3.19 billion is available to us) expires in September 2018.

At December 31, 2013, Caterpillar's consolidated net worth was \$25.03 billion, which was above the \$9.00 billion required under the Credit Facility. The consolidated net worth is defined in the Credit Facility as the consolidated stockholders' equity including preferred stock but excluding the pension and other postretirement benefits balance within Accumulated other comprehensive income/(loss).

At December 31, 2013, our covenant interest coverage ratio was 1.96 to 1. This is above the 1.15 to 1 minimum ratio, calculated as (1) profit excluding income taxes, interest expense and net gain/(loss) from interest rate derivatives to (2) interest expense calculated at the end of each calendar quarter for the rolling four quarter period then most recently ended, required by the Credit Facility.

In addition, at December 31, 2013, our six-month covenant leverage ratio was 8.14 to 1 and our year-end covenant leverage ratio was 7.99 to 1. This is below the maximum ratio of debt to net worth of 10 to 1, calculated (1) on a monthly basis as the average of the leverage ratios determined on the last day of each of the six preceding calendar months and (2) at each December 31, required by the Credit Facility.

In the event that either Caterpillar or we do not meet one or more of our respective financial covenants under the Credit Facility in the future (and are unable to obtain a consent or waiver), the syndicate of banks may terminate the commitments allocated to the party that does not meet its covenants. Additionally, in such event, certain of our other lenders under other loan agreements where similar financial covenants or cross default provisions are applicable, may, at their election, choose to pursue remedies under those loan agreements, including accelerating the repayment of outstanding borrowings. At December 31, 2013, there were no borrowings under the Credit Facility.

Bank borrowings

Credit lines with banks as of December 31, 2013 totaled \$4.28 billion. These committed and uncommitted credit lines, which may be eligible for renewal at various future dates or have no specified expiration date, are used primarily by our non-U.S. subsidiaries for local funding requirements. The remaining available credit commitments may be withdrawn any time at the lenders' discretion. As of December 31, 2013, we had \$2.03 billion outstanding against these credit lines compared with \$2.02 billion as of December 31, 2012, and were in compliance with all debt covenants under these credit lines.

Variable denomination floating rate demand notes

We obtain funding from the sale of variable denomination floating rate demand notes, which may be redeemed at any time at the option of the holder without any material restriction. We do not hold reserves to fund the payment of the demand notes. The notes are offered on a continuous basis by prospectus only.

Notes receivable from/payable to Caterpillar

Under our variable amount lending agreements and other notes receivable with Caterpillar, we may borrow up to \$2.33 billion from Caterpillar and Caterpillar may borrow up to \$1.29 billion from us. The agreements are in effect for indefinite periods of time and may be changed or terminated by either party with 30 days notice. We had notes receivable of \$345 million and notes payable of \$1.12 billion outstanding under these agreements as of December 31, 2013, compared with notes receivable of \$360 million and notes payable of \$208 million as of December 31, 2012.

Committed credit facility

In addition, in 2011, we extended a \$2 billion committed credit facility to Caterpillar, which expires in February 2019. We receive a fee from Caterpillar based on amounts drawn under the credit facility and a commitment fee for the undrawn amounts under the credit facility. At December 31, 2013, there were no borrowings under this credit facility.

NOTE 7 – SHORT-TERM BORROWINGS

Short-term borrowings outstanding as of December 31, were comprised of the following:

(Millions of dollars)	2013		2012		2011	
	Balance	Avg. Rate	Balance	Avg. Rate	Balance	Avg. Rate
Commercial paper, net	\$ 2,502	0.5%	\$ 3,654	0.6%	\$ 2,818	1.0%
Bank borrowings	545	6.4%	418	5.6%	527	7.3%
Variable denomination floating rate demand notes	616	0.8%	579	0.8%	550	0.9%
Total	<u>\$ 3,663</u>		<u>\$ 4,651</u>		<u>\$ 3,895</u>	

NOTE 8 – LONG-TERM DEBT

During 2013, we issued \$6.15 billion of medium-term notes, of which \$3.99 billion were at fixed interest rates and \$2.16 billion were at floating interest rates, primarily indexed to LIBOR. At December 31, 2013, the outstanding medium-term notes had remaining maturities ranging up to 12 years.

Long-term debt outstanding as of December 31, was comprised of the following:

(Millions of dollars)	2013		2012		2011	
	Balance	Avg. Rate	Balance	Avg. Rate	Balance	Avg. Rate
Medium-term notes	\$ 23,837	2.8%	\$ 23,488	3.2%	\$ 20,058	3.9%
Unamortized discount	(8)		(13)		(10)	
Medium-term notes, net	23,829		23,475		20,048	
Bank borrowings	1,483	3.2%	1,602	4.1%	1,583	3.7%
Total	<u>\$ 25,312</u>		<u>\$ 25,077</u>		<u>\$ 21,631</u>	

Long-term debt outstanding as of December 31, 2013, matures as follows:

(Millions of dollars)	
2014	\$ 6,592
2015	6,446
2016	4,796
2017	2,747
2018	2,350
Thereafter	2,381
Total	<u>\$ 25,312</u>

NOTE 9 – DERIVATIVE FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Our earnings and cash flow are subject to fluctuations due to changes in foreign currency exchange rates and interest rates. Our Risk Management Policy (policy) allows for the use of derivative financial instruments to prudently manage foreign currency exchange rate and interest rate exposures. Our policy specifies that derivatives are not to be used for speculative purposes. Derivatives that we use are primarily foreign currency forward and option contracts, cross currency contracts and interest rate swaps. Our derivative activities are subject to the management, direction and control of our senior financial officers. Risk management practices, including the use of financial derivative instruments, are presented to the Audit Committee of the Caterpillar Inc. Board of Directors at least annually.

All derivatives are recognized on the Consolidated Statements of Financial Position at their fair value. On the date the derivative contract is entered into, we designate the derivative as (1) a hedge of the fair value of a recognized asset or liability (fair value hedge), (2) a hedge of a forecasted transaction or the cash flow variability associated with variable-rate debt (cash flow hedge) or (3) an undesignated instrument. Changes in the fair value of a derivative that is qualified, designated and highly effective as a fair value hedge, along with the gain or loss on the hedged recognized asset or liability that is attributable to the hedged risk, are recorded in current earnings. Changes in the fair value of a derivative that is qualified, designated and highly effective as a cash flow hedge are recorded in Accumulated other comprehensive income (loss) (AOCI), to the extent effective, on the Consolidated Statements of Financial Position until they are reclassified to earnings in the same period or periods during which the hedged transaction affects earnings. Changes in the fair value of undesignated derivative instruments and the ineffective portion of designated derivative instruments are reported in current earnings. Cash flows from designated derivative financial instruments are classified within the same category as the item being hedged on the Consolidated Statements of Cash Flows. Cash flows from undesignated derivative financial instruments are included in the investing category on the Consolidated Statements of Cash Flows.

We formally document all relationships between hedging instruments and hedged items, as well as the risk-management objective and strategy for undertaking various hedge transactions. This process includes linking all derivatives that are designated as fair value hedges to specific assets and liabilities on the Consolidated Statements of Financial Position and linking cash flow hedges to specific forecasted transactions or variability of cash flow.

We also formally assess, both at the hedge's inception and on an ongoing basis, whether the designated derivatives that are used in hedging transactions are highly effective in offsetting changes in fair value or cash flow of hedged items. When a derivative is determined not to be highly effective as a hedge or the underlying hedged transaction is no longer probable, we discontinue hedge accounting prospectively, in accordance with derecognition criteria for hedge accounting.

Foreign currency exchange rate risk

We have net foreign currency balance sheet positions and expected future transactions denominated in foreign currencies, thereby creating exposure to movements in foreign exchange rates. In managing foreign currency risk, our objective is to minimize earnings volatility resulting from conversion and the remeasurement of net foreign currency balance sheet positions and expected future transactions denominated in foreign currencies. Our policy allows the use of foreign currency forward, option and cross currency contracts to offset the risk of currency mismatch between our receivables and debt and exchange rate risk associated with expected future transactions denominated in foreign currencies. Substantially all such foreign currency forward, option and cross currency contracts are undesignated.

Interest rate risk

Interest rate movements create a degree of risk by affecting the amount of our interest payments and the value of our fixed-rate debt. Our practice is to use interest rate swaps to manage our exposure to interest rate changes and, in some cases, to lower the cost of borrowed funds.

We have a match-funding policy that addresses interest rate risk by aligning the interest rate profile (fixed or floating rate) of our debt portfolio with the interest rate profile of our receivables portfolio within predetermined ranges on an ongoing basis. In connection with that policy, we use interest rate derivative instruments to modify the debt structure to match assets within the receivables portfolio. This matched funding reduces the volatility of margins between interest-bearing assets and interest-bearing liabilities, regardless of which direction interest rates move.

Our policy allows us to use fixed-to-floating, floating-to-fixed and floating-to-floating interest rate swaps to meet the match-funding objective. We designate fixed-to-floating interest rate swaps as fair value hedges to protect debt against changes in fair value due to changes in the benchmark interest rate. We designate most floating-to-fixed interest rate swaps as cash flow hedges to protect against the variability of cash flows due to changes in the benchmark interest rate.

As of December 31, 2013, \$3 million of deferred net losses, net of tax, included in equity (AOCI in the Consolidated Statements of Financial Position), related to our floating-to-fixed interest rate swaps, are expected to be reclassified to Interest expense over the next twelve months. The actual amount recorded in Interest expense will vary based on interest rates at the time the hedged transactions impact earnings.

We have, at certain times, liquidated fixed-to-floating interest rate swaps that resulted in deferred gains at the time of liquidation. The deferred gains associated with these interest rate swaps are included in Long-term debt in the Consolidated Statements of Financial Position and are being amortized to Interest expense over the remaining term of the previously designated hedged item.

The location and fair value of derivative instruments reported in the Consolidated Statements of Financial Position were as follows:

(Millions of dollars)		Asset (Liability) Fair Value		
		December 31,		
	Consolidated Statements of Financial Position Location	2013	2012	2011
Designated derivatives				
Interest rate contracts	Other assets	\$ 122	\$ 226	\$ 248

Balance sheet offsetting

We enter into International Swaps and Derivatives Association (ISDA) master netting agreements that permit the net settlement of amounts owed under their respective derivative contracts. Under these master netting agreements, net settlement generally permits us or the counterparty to determine the net amount payable for contracts due on the same date and in the same currency for similar types of derivative transactions. The master netting agreements generally also provide for net settlement of all outstanding contracts with a counterparty in the case of an event of default or a termination event.

Collateral is generally not required of the counterparties or us under the master netting agreements. As of December 31, 2013, 2012 and 2011, no cash collateral was received or pledged under the master netting agreements.

The effect of the net settlement provisions of the master netting agreements on our derivative balances upon an event of default or a termination event as of December 31, was as follows:

Offsetting of Derivative Assets and Liabilities

NOTE 10 – COMMITMENTS AND CONTINGENT LIABILITIES

We provide loan guarantees to third-party lenders for financing associated with machinery purchased by customers. These guarantees have varying terms and are secured by the machinery being financed. In addition, we participate in standby letters of credit issued to third parties on behalf of our customers. These standby letters of credit have varying terms and beneficiaries and are secured by customer assets.

We provided a limited indemnity to a third-party bank resulting from the assignment of certain leases to that bank. The indemnity was for the possibility that the insurers of these leases would become insolvent. The indemnity expired December 15, 2012.

No loss has been experienced or is anticipated under any of these guarantees. At December 31, 2013, 2012 and 2011, the related liability was \$1 million, \$2 million and \$2 million, respectively. The maximum potential amount of future payments (undiscounted and without reduction for any amounts that may possibly be recovered under recourse or collateralized provisions) we could be required to make under the guarantees was as follows:

(Millions of dollars)			
	2013	2012	2011
Guarantees with customers	\$ 55	\$ 61	\$ 69
Limited indemnity	—	—	11
Total guarantees	<u>\$ 55</u>	<u>\$ 61</u>	<u>\$ 80</u>

We provide guarantees to repurchase certain loans of Caterpillar dealers from a special purpose corporation (SPC) that qualifies as a VIE (see Note 1 for additional information regarding the accounting guidance on the consolidation of VIEs). The purpose of the SPC is to provide short-term working capital loans to Caterpillar dealers. This SPC issues commercial paper and uses the proceeds to fund its loan program. We have a loan purchase agreement with the SPC that obligates us to purchase certain loans that are not paid at maturity. We receive a fee for providing this guarantee, which provides a source of liquidity for the SPC. We are the primary beneficiary of the SPC as our guarantees result in us having both the power to direct the activities that most significantly impact the SPC's economic performance and the obligation to absorb losses and therefore we have consolidated the financial statements of the SPC. As of December 31, 2013, 2012 and 2011, the SPC's assets of \$1.01 billion, \$927 million and \$586 million, respectively, are primarily comprised of loans to dealers, which are included in Retail notes receivable in the Consolidated Statements of Financial Position, and the SPC's liabilities of \$1.01 billion, \$927 million and \$586 million, respectively, are primarily comprised of commercial paper, which is included in Short-term borrowings in the Consolidated Statements of Financial Position. The assets of the SPC are not available to pay our creditors. We may be obligated to perform under the guarantee if the SPC experiences losses. No loss has been experienced or is anticipated under this loan purchase agreement.

We are party to agreements in the normal course of business with selected customers and Caterpillar dealers in which we commit to provide a set dollar amount of financing on a pre-approved basis. We also provide lines of credit to certain customers and Caterpillar dealers, of which a portion remains unused as of the end of the period. Commitments and lines of credit generally have fixed expiration dates or other termination clauses. It has been our experience that not all commitments and lines of credit will be used. Management applies the same credit policies when making commitments and granting lines of credit as it does for any other financing. We do not require collateral for these commitments/lines, but if credit is extended, collateral may be required upon funding. As of December 31, 2013, 2012 and 2011, the amount of the unused commitments and lines of credit for dealers was \$10.63 billion, \$10.97 billion and \$6.60 billion, respectively. As of December 31, 2013, 2012 and 2011, the amount of the unused commitments and lines of credit for customers was \$4.64 billion, \$4.69 billion and \$2.79 billion, respectively.

We are involved in unresolved legal actions that arise in the normal course of business. Although it is not possible to predict with certainty the outcome of our unresolved legal actions, we believe that these unresolved legal actions will neither individually nor in the aggregate have a material adverse effect on our consolidated financial position, liquidity or results of operations.

NOTE 11 – INCOME TAXES

The components of Profit before income taxes for the years ended December 31, were as follows:

(Millions of dollars)			
	2013	2012	2011
U.S.	\$ 94	\$ 38	\$ 49
Non-U.S.	624	553	455
Total	<u>\$ 718</u>	<u>\$ 591</u>	<u>\$ 504</u>

Profit (loss) before income taxes, as shown above, is based on the location of the entity to which such earnings are attributable. Where an entity's earnings are subject to taxation, however, may not correlate solely to where an entity is located. Thus, the income tax provision shown below as U.S. or non-U.S. may not correspond to the earnings shown above.

The components of the Provision for income taxes were as follows for the years ended December 31:

(Millions of dollars)			
	2013	2012	2011
Current income tax provision (benefit):			
U.S.	\$ (14)	\$ 14	\$ (14)
Non-U.S.	183	179	164
State (U.S.)	—	(2)	2
	<u>169</u>	<u>191</u>	<u>152</u>
Deferred income tax provision (benefit):			
U.S.	18	(13)	(5)
Non-U.S.	(12)	(27)	(32)
State (U.S.)	(1)	(3)	(4)
	<u>5</u>	<u>(43)</u>	<u>(41)</u>
Total Provision for income taxes	<u>\$ 174</u>	<u>\$ 148</u>	<u>\$ 111</u>

Current income tax provision is the amount of income taxes reported or expected to be reported on our income tax returns. Generally, under our tax sharing agreement with Caterpillar, we have paid to or received from (or will pay to or will receive from) Caterpillar, our allocated share of certain income tax liabilities or benefits based on our relative share of taxable income or loss.

The actual Provision for income taxes differs from the Provision for income taxes that would result from applying the U.S. statutory rate to Profit before income taxes for the years ended December 31, for the reasons set forth in the following reconciliation:

(Millions of dollars)							
	2013		2012		2011		
Taxes computed at U.S. statutory rates	\$	251	35.0 %	\$	207	35.0 %	\$ 176 35.0 %
(Decreases) increases in taxes resulting from:							
State Income Tax, net of Federal Tax		(1)	(0.1)%		(3)	(0.5)%	(1) (0.2)%
Prior Year Non-U.S. tax and interest adjustment – Other		—	— %		—	— %	(15) (3.0)%
Subsidiaries' results subject to tax rates other than U.S. statutory rates		(69)	(9.6)%		(50)	(8.6)%	(46) (9.1)%
Other, net		(7)	(1.0)%		(6)	(1.0)%	(3) (0.6)%
Provision for income taxes	<u>\$</u>	<u>174</u>	<u>24.3 %</u>	<u>\$</u>	<u>148</u>	<u>24.9 %</u>	<u>\$ 111 22.1 %</u>

The prior year Non-U.S. tax and interest adjustment recorded in 2011 of \$15 million relates to a cumulative correction of immaterial errors in deferred tax amounts reported in prior periods in various non-U.S. tax jurisdictions.

We have recorded income tax expense at U.S. tax rates on all profits, except for undistributed profits of non-U.S. subsidiaries, which are considered indefinitely reinvested. Determination of the amount of unrecognized deferred income tax liability related to indefinitely reinvested profits is not feasible.

Accounting for income taxes under generally accepted accounting principles in the United States of America requires individual tax-paying entities of the Company to offset deferred income tax assets and liabilities within each particular tax jurisdiction and present them as a single amount in the Consolidated Statements of Financial Position. Amounts in different tax jurisdictions cannot be offset against each other. The amounts of deferred income taxes at December 31, included in the following lines in our Consolidated Statements of Financial Position were:

(Millions of dollars)			
	2013	2012	2011
Assets:			
Deferred and refundable income taxes	\$ 97	\$ 104	\$ 84
Liabilities:			
Deferred income taxes and other liabilities	(505)	(539)	(584)
Deferred income taxes, net	<u>\$ (408)</u>	<u>\$ (435)</u>	<u>\$ (500)</u>

Differences between accounting rules and income tax laws cause differences between the bases of certain assets and liabilities for financial reporting and income tax purposes. The income tax effects of these differences, to the extent they are temporary, are recorded as deferred income tax assets and liabilities netted by tax jurisdiction and taxpayer.

Our consolidated deferred income taxes consisted of the following components as of December 31:

(Millions of dollars)			
	2013	2012	2011
Deferred tax assets:			
Allowance for credit losses	\$ 139	\$ 156	\$ 114
Tax credit carryforwards	—	—	13
Net operating loss carryforwards	56	59	69
	<u>195</u>	<u>215</u>	<u>196</u>
Deferred income tax liabilities (primarily lease basis differences)	(461)	(468)	(494)
Valuation allowance for deferred income tax assets	(9)	(9)	(9)
Deferred income tax on translation adjustment	<u>(133)</u>	<u>(173)</u>	<u>(193)</u>
Deferred income taxes, net	<u>\$ (408)</u>	<u>\$ (435)</u>	<u>\$ (500)</u>

As of December 31, 2013, amounts and expiration dates of net operating loss (NOL) carryforwards in various U.S. state taxing jurisdictions were:

(Millions of dollars)						
2014	2015	2016	2017	2018-2029	Total	
\$ —	\$ —	\$ —	\$ 6	\$ 212	\$ 218	

The gross deferred income tax asset associated with these NOL carryforwards is \$17 million as of December 31, 2013, partially offset by a valuation allowance of \$6 million. The valuation allowance indicates the loss carryforwards are likely to expire prior to utilization.

In some U.S. state income tax jurisdictions, we join with other Caterpillar entities in filing combined income tax returns. In other U.S. state income tax jurisdictions, we file on a separate, stand-alone basis.

As of December 31, 2013, amounts and expiration dates of NOL carryforwards in various non-U.S. taxing jurisdictions were:

(Millions of dollars)						
2014	2015	2016	2017	2018-2029	Unlimited	Total
\$ 2	\$ 3	\$ 1	\$ 1	\$ 32	\$ 137	\$ 176

Valuation allowances totaling \$3 million have been recorded at certain non-U.S. subsidiaries that have not yet demonstrated consistent and/or sustainable profitability to support the recognition of net deferred income tax assets.

A reconciliation of the beginning and ending amounts of gross unrecognized income tax benefits for uncertain income tax positions, including positions impacting only the timing of income tax benefits was as follows:

(Millions of dollars)			
	2013	2012	2011
Reconciliation of unrecognized income tax benefits⁽¹⁾:			
Balance at beginning of year	\$ 2	\$ —	\$ 7
Additions for income tax positions related to prior year	—	2	—
Reductions for income tax positions related to prior year	—	—	(7)
Reductions for income tax positions related to settlements ⁽²⁾	(2)	—	—
Balance at end of year	<u>\$ —</u>	<u>\$ 2</u>	<u>\$ —</u>
Amount that, if recognized, would impact the effective tax rate	<u>\$ —</u>	<u>\$ 2</u>	<u>\$ —</u>

⁽¹⁾ Foreign currency translation amounts are included within each line as applicable.

⁽²⁾ Includes cash payment or other reduction of assets to settle liability.

We classify interest and penalties on income taxes as a component of the Provision for income taxes. During the years ended December 31, 2013, 2012 and 2011, we recognized a benefit of less than \$1 million, a benefit of \$5 million and a benefit of less than \$1 million in interest and penalties, respectively. As of December 31, 2013, 2012 and 2011, the total amount of accrued interest and penalties was less than \$1 million, less than \$1 million and \$5 million, respectively.

It is reasonably possible that the amount of unrecognized income tax benefits will change in the next 12 months. The U.S. Internal Revenue Service (IRS) is currently examining U.S. tax returns for 2007 to 2009. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on our financial position, liquidity or results of operations.

In our major non-U.S. jurisdictions, tax years are typically subject to examination for three to six years.

NOTE 12 – FAIR VALUE MEASUREMENTS

A. Fair Value Measurements

The guidance on fair value measurements defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. This guidance also specifies a fair value hierarchy based upon the observability of inputs used in valuation techniques. Observable inputs (highest level) reflect market data obtained from independent sources, while unobservable inputs (lowest level) reflect internally developed market assumptions. In accordance with this guidance, fair value measurements are classified under the following hierarchy:

- **Level 1** – Quoted prices for identical instruments in active markets.
- **Level 2** – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs or significant value-drivers are observable in active markets.
- **Level 3** – Model-derived valuations in which one or more significant inputs or significant value-drivers are unobservable.

When available, we use quoted market prices to determine fair value and we classify such measurements within Level 1. In some cases where market prices are not available, we make use of observable market-based inputs to calculate fair value, in which case the measurements are classified within Level 2. If quoted or observable market prices are not available, fair value is based upon internally developed models that use, where possible, current market-based parameters such as interest rates, yield curves and currency rates. These measurements are classified within Level 3.

Fair value measurements are classified according to the lowest level input or value-driver that is significant to the valuation. A measurement may therefore be classified within Level 3 even though there may be significant inputs that are readily observable.

Fair value measurement includes the consideration of nonperformance risk. Nonperformance risk refers to the risk that an obligation (either by a counterparty or us) will not be fulfilled. For financial assets traded in an active market (Level 1), the nonperformance risk is included in the market price. For certain other financial assets and liabilities (Level 2 and 3), our fair value calculations have been adjusted accordingly.

Derivative financial instruments

The fair value of interest rate swap derivatives is primarily based on standard industry accepted models that utilize the appropriate market-based forward swap curves and zero-coupon interest rates to determine discounted cash flows. The fair value of foreign currency forward and cross currency contracts is based on a standard industry accepted valuation model that discounts cash flows resulting from the differential between the contract price and the market-based forward rate.

Guarantees

The fair value of guarantees is based on our estimate of the premium a market participant would require to issue the same guarantee in a stand-alone, arms-length transaction with an unrelated party. If quoted or observable market prices are not available, fair value is based upon internally developed models that utilize current market-based assumptions.

Assets and liabilities measured on a recurring basis at fair value included in our Consolidated Statements of Financial Position are summarized below:

(Millions of dollars)				
December 31, 2013				
	Level 1	Level 2	Level 3	Total Assets/Liabilities, at Fair Value
Assets				
Derivative financial instruments, net	\$ —	\$ 128	\$ —	\$ 128

Total Liabilities	\$ —	\$ —	\$ 2	\$ 2
December 31, 2011				
	Level 1	Level 2	Level 3	Total Assets/Liabilities, at Fair Value
Assets				
Derivative financial instruments, net	\$ —	\$ 232	\$ —	\$ 232
Total Assets	\$ —	\$ 232	\$ —	\$ 232
Liabilities				
Guarantees	\$ —	\$ —	\$ 2	\$ 2
Total Liabilities	\$ —	\$ —	\$ 2	\$ 2

Below are roll-forwards of assets and liabilities measured at fair value using Level 3 inputs for the years ended December 31, 2013, 2012 and 2011. These instruments were valued using pricing models that, in management's judgment, reflect the assumptions of a marketplace participant.

(Millions of dollars)		Guarantees
Balance as of December 31, 2010		\$ 3
Issuance of guarantees		4
Expiration of guarantees		(5)
Balance as of December 31, 2011		<u>\$ 2</u>
Issuance of guarantees		2
Expiration of guarantees		(2)
Balance as of December 31, 2012		<u>\$ 2</u>
Issuance of guarantees		2
Expiration of guarantees		(3)
Balance as of December 31, 2013		<u>\$ 1</u>

Impaired loans

In addition to the amounts above, our impaired loans are subject to measurement at fair value on a nonrecurring basis. A loan is considered impaired when management determines that collection of contractual amounts due is not probable. In these cases, an Allowance for credit losses may be established based primarily on the fair value of associated collateral. As the collateral's fair value is based on observable market prices and/or current appraised values, the impaired loans are classified as Level 2 measurements. We had impaired loans carried at the fair value of the underlying collateral value of \$81 million, \$117 million and \$96 million as of December 31, 2013, 2012 and 2011, respectively.

B. Fair Values of Financial Instruments

In addition to the methods and assumptions we use to record the fair value of financial instruments as discussed in the Fair Value Measurements section above, we used the following methods and assumptions to estimate the fair value of our financial instruments.

Cash and cash equivalents – carrying amount approximated fair value.

Finance receivables, net – fair value was estimated by discounting the future cash flows using current rates representative of receivables with similar remaining maturities.

Restricted cash and cash equivalents – carrying amount approximated fair value.

Short-term borrowings – carrying amount approximated fair value.

Long-term debt – fair value for fixed and floating-rate debt was estimated based on quoted market prices.

Please refer to the table below for the fair values of our financial instruments.

(Millions of dollars)	2013		2012		2011		Fair Value Levels	Reference
	Carrying Amount	Fair Value	Carrying Amount	Fair Value	Carrying Amount	Fair Value		
Cash and cash equivalents	\$ 1,320	\$ 1,320	\$ 2,080	\$ 2,080	\$ 1,176	\$ 1,176	1	
Foreign currency contracts:

Guarantees	\$ (1)	\$ (1)	\$ (2)	\$ (2)	\$ (2)	\$ (2)	3	Note 10

⁽¹⁾ As of December 31, 2013, 2012 and 2011, represents finance leases with a net carrying value of \$8.06 billion, \$7.97 billion and \$7.33 billion, respectively.

⁽²⁾ Included in Other assets in the Consolidated Statements of Financial Position.

NOTE 13 – TRANSACTIONS WITH RELATED PARTIES

We have a Support Agreement with Caterpillar, which provides that Caterpillar will (1) remain, directly or indirectly, our sole owner; (2) cause us to maintain a tangible net worth of at least \$20 million and (3) ensure that we maintain a ratio of profit before income taxes and interest expense to interest expense (as defined by the Support Agreement) of not less than 1.15 to 1, calculated on an annual basis. In 2013, 2012 and 2011, Caterpillar did not make any significant capital contributions. Although this agreement can be modified by agreement or terminated by either party, any termination or any modification which would adversely affect holders of our debt requires the consent of holders of 66-2/3 percent in principal amount of outstanding debt of each series so affected. Any modification or termination which would adversely affect the lenders under the Credit Facility requires their consent. Caterpillar's obligation under this agreement is not directly enforceable by any of our creditors and does not constitute a guarantee of any of our obligations. A cash dividend totaling \$200 million was paid to Caterpillar in 2013, \$100 million was paid in the second quarter of 2013 and \$100 million was paid in the fourth quarter of 2013. A cash dividend of \$250 million was paid to Caterpillar in the first quarter of 2012. A cash dividend totaling \$600 million was paid to Caterpillar in 2011, \$300 million was paid in the first quarter of 2011 and \$300 million was paid in the third quarter of 2011.

We have variable amount lending agreements and other notes receivable with Caterpillar. Under these agreements, we may borrow up to \$2.33 billion from Caterpillar, and Caterpillar may borrow up to \$1.29 billion from us. The agreements are in effect for indefinite periods of time and may be changed or terminated by either party with 30 days notice. In 2011, we extended a \$2 billion committed credit facility to Caterpillar, which expires in February 2019. Under this agreement, we receive a fee from Caterpillar based on amounts drawn under the credit facility and a commitment fee for the undrawn amounts under the credit facility. Information concerning these agreements was as follows:

(Millions of dollars)			
	2013	2012	2011
Notes payable as of December 31,	\$ 1,118	\$ 208	\$ —
Notes receivable as of December 31,	\$ 345	\$ 360	\$ 327
Interest expense	\$ 7	\$ 4	\$ 1
Interest income on Notes Receivable with Caterpillar ⁽¹⁾	\$ 19	\$ 21	\$ 16
Fees on committed credit facility extended to Caterpillar ⁽¹⁾	\$ 41	\$ 41	\$ 40

⁽¹⁾Included in Other revenues, net in the Consolidated Statements of Profit.

We have agreements with Caterpillar to purchase certain trade receivables at a discount. Information pertaining to these purchases was as follows:

(Millions of dollars)			
	2013	2012	2011
Purchases made	\$ 33,018	\$ 36,665	\$ 32,068
Discounts earned	\$ 233	\$ 241	\$ 212
Balance as of December 31,	\$ 3,092	\$ 3,114	\$ 3,154

We participate in certain marketing programs sponsored by Caterpillar by providing financing to customers at interest rates that are below market rates. Under these programs, Caterpillar funds an amount at the outset of the transaction, which we then recognize as revenue over the term of the financing. During 2013, 2012 and 2011, relative to such programs, we received \$189 million, \$160 million and \$131 million, respectively.

We participate in various benefit plans, which are administered by Caterpillar. These plans include employee medical plans and postretirement benefit plans. We reimburse Caterpillar for these charges. During 2013, 2012 and 2011, these charges amounted to \$27 million, \$26 million and \$23 million, respectively. Included in these charges are contributions to defined benefit plans in the amount of \$7 million for each of 2013, 2012 and 2011. These contributions are related to our participation in the following defined benefit plans that are administered by Caterpillar: the Caterpillar Inc. Retirement Income Plan, the Caterpillar Inc. Supplemental Retirement Plan and the Caterpillar Inc. Retiree Benefit Program. The total cost of the defined benefit plans is determined by actuarial valuation and we receive an allocation of the service and prior service cost based on headcount. Further information about these plans is available in Caterpillar's 2013 Annual Report on Form 10-K filed separately with the Securities and Exchange Commission.

We participate in the Caterpillar stock incentive plans. In 2013, 2012 and 2011, Caterpillar allocated to us \$11 million, \$10 million and \$8 million, respectively, in expenses related to stock based compensation.

Caterpillar provides operational and administrative support, which is integral to the conduct of our business. In 2013, 2012 and 2011, these operational and support charges for which we reimburse Caterpillar amounted to \$33 million, \$32 million and \$27 million, respectively. In addition, we provide administrative support services to certain Caterpillar subsidiaries. Caterpillar reimburses us for these charges. During 2013, 2012 and 2011, these charges amounted to \$12 million, \$10 million and \$9 million, respectively.

When appropriate, we combine certain income tax filings with those of Caterpillar. In such instances, in accordance with our tax sharing agreement with Caterpillar, we generally pay to or receive from Caterpillar our allocated share of income taxes or credits based on our relative share of taxable income or loss.

NOTE 14 – LEASES

We lease our offices and other property through operating leases. Rental expense is charged to operations as incurred. For 2013, 2012 and 2011, total rental expense for operating leases was \$17 million, \$16 million and \$15 million, respectively. At December 31, 2013, minimum payments for operating leases having initial or remaining non-cancelable terms in excess of one year were as follows:

(Millions of dollars)	
2014	\$ 15
2015	14
2016	12
2017	12
2018	11
Thereafter	29
Total	<u>\$ 93</u>

NOTE 15 – SEGMENT INFORMATION

A. Description of Segments

Our segment data is based on disclosure requirements of accounting guidance on segment reporting, which requires that financial information be reported on the basis that is used internally for measuring segment performance. Internally, we report information for operating segments based on management responsibility. Our operating segments offer primarily the same types of services within each of the respective segments. The operating segments are as follows:

- **North America** - Includes our operations in the United States and Canada that serve local dealers and customers.
- **Europe and Caterpillar Power Finance** - This segment includes our operations that serve dealers and customers in Europe, Africa, Middle East and the Commonwealth of Independent States. This segment also includes Caterpillar Power Finance (CPF), which finances marine vessels with Caterpillar engines worldwide and also provides debt financing for Caterpillar electrical power generation, gas compression and co-generation systems, as well as non-Caterpillar equipment that is powered by these systems worldwide.
- **Asia/Pacific** - This segment includes our operations in Australia, China, Japan, South Korea and Southeast Asia that serve local dealers and customers.
- **Latin America** - Includes our operations in Brazil, Mexico and Chile that serve local dealers and customers in Central and South America.
- **Mining** - This segment includes large mining customers worldwide. This segment also provides project financing in various countries.

B. Measurement and Reconciliations

Cash, debt and other expenses are allocated to operating segments based on their respective portfolios. The related Interest expense is calculated based on the amount of allocated debt and the rates associated with that debt. The performance of each segment is assessed based on a consistent leverage ratio. The Provision for credit losses included in each operating segment's profit is based on each operating segment's share of the Company's Allowance for credit losses.

Reconciling items are created based on accounting differences between operating segment reporting and our consolidated external reporting. For the reconciliation of profit before income taxes, we have grouped the reconciling items as follows:

- **Unallocated** - This item is related to corporate requirements and strategies that are considered to be for the benefit of the entire organization. Also included are the consolidated results of the special purpose corporation (see Note 10 for additional information) and other miscellaneous items.
- **Timing** - Timing differences in the recognition of costs between operating segment reporting and consolidated external reporting.
- **Methodology** - Methodology differences between our operating segment reporting and our consolidated external reporting are as follows:
 - Segment assets include off-balance sheet managed assets for which we typically maintain servicing responsibilities.
 - The impact of the difference between the actual leverage and the segment leverage ratios is included as a methodology difference.
 - Interest expense includes realized forward points on foreign currency forward contracts, with the mark-to-market elements of the forward exchange contracts included as a methodology difference.
 - The profit attributable to noncontrolling interests is considered a component of segment profit.

As noted above, the operating segment information is presented on a management-reporting basis. Unlike financial reporting, there is no authoritative guidance for management reporting equivalent to U.S. GAAP.

Supplemental segment data and reconciliations to consolidated external reporting for the years ended December 31 was as follows:

(Millions of dollars)

SECTION 302 CERTIFICATIONS

I, Kent M. Adams, certify that:

1. I have reviewed this annual report on Form 10-K of Caterpillar Financial Services Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the periods covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and we have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's Board of Directors (or persons performing the equivalent function):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
