

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2007

Commission File No. 0-13295

CATERPILLAR FINANCIAL SERVICES CORPORATION

(Exact name of Registrant as specified in its charter)

Delaware
(State of incorporation)

37-1105865
(IRS Employer I.D. No.)

2120 West End Ave.
Nashville, Tennessee
(Address of principal executive offices)

37203-0001
(Zip Code)

Registrant's telephone number, including area code: (615) 341-1000

The Registrant is a wholly owned subsidiary of Caterpillar Inc. and meets the conditions set forth in General Instruction (H)(1)(a) and (b) of Form 10-Q, and is therefore filing this form with the reduced disclosure format.

Indicate by a check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act). (Check one): Large Accelerated Filer ☐ Accelerated Filer ☐ Non-Accelerated Filer ☒

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

As of August 1, 2007, one share of common stock of the Registrant was outstanding, which is owned by Caterpillar Inc.

PART I. FINANCIAL INFORMATION

ITEM 1. CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

In addition to the accompanying unaudited consolidated financial statements for Caterpillar Financial Services Corporation (together with its subsidiaries, "Cat Financial," "the Company," "we," and "our"), we suggest that you read our 2006 Annual Report on Form 10-K. The Company files electronically with the Securities and Exchange Commission (SEC) required reports on Form 8-K, Form 10-Q, Form 10-K and registration statements on Form S-3, when necessary. The public may read and copy any materials the Company has filed with the SEC at the SEC's Public Reference Room at 100 F Street, N.E., Washington, DC 20549. The public may obtain information on the operation of the Public Reference Room by calling the SEC at (800) SEC-0330. The SEC maintains an Internet site (www.sec.gov) that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC. Copies of our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and any amendments to these reports filed or furnished with the SEC are available free of charge through our Internet site (www.catfinancial.com) as soon as reasonably practicable after filing with the SEC. Copies may also be obtained free of charge by writing to: Legal Dept., Caterpillar Financial Services Corporation, 2120 West End Ave., Nashville, Tennessee 37203-0001. In addition, the public may obtain more detailed information about our parent company, Caterpillar Inc. (together with its subsidiaries, "Caterpillar" or "Cat") by visiting its Internet site (www.cat.com). None of the information contained at any time on either our Internet site or Caterpillar's Internet site is incorporated by reference into this document.

Notes to Consolidated Financial Statements

(Unaudited)

A. Basis of presentation

In the opinion of management, the accompanying financial statements include all adjustments, consisting only of normal recurring adjustments, necessary for a fair statement of (a) the consolidated profit for the three months and six months ended June 30, 2007 and 2006, (b) the consolidated financial position as of June 30, 2007 and December 31, 2006, (c) the consolidated changes in stockholder's equity for the six months ended June 30, 2007 and 2006, and (d) the consolidated cash flows for the six months ended June 30, 2007 and 2006. The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America and pursuant to the rules and regulations of the SEC, requires management to make estimates and assumptions that affect the reported amounts. The most significant estimates are the allowance for credit losses and residual values for leased assets. Actual results may differ from these estimates. Certain amounts for prior periods have been reclassified to conform to the current period presentation.

Interim results are not necessarily indicative of results for a full year. The information included in this Form 10-Q should be read in conjunction with Management's Discussion and Analysis and the audited financial statements and notes thereto included in our annual report on Form 10-K for the year ended December 31, 2006.

The December 31, 2006 financial position data included herein was derived from the audited consolidated financial statements included in our annual report on Form 10-K for the year ended December 31, 2006, but does not include all disclosures required by accounting principles generally accepted in the United States of America.

B. New Accounting Pronouncements

SFAS 155 – In February 2006, the FASB issued Statement of Financial Accounting Standards No. 155 (SFAS 155), "Accounting for Certain Hybrid Financial Instruments – an amendment of FASB Statements No. 133 and 140." SFAS 155 allows financial instruments that have embedded derivatives to be accounted for as a whole, eliminating the need to separate the derivative from its host, if the holder elects to account for the whole instrument on a fair value basis. This new accounting standard was effective January 1, 2007. The adoption of SFAS 155 did not have a material impact on our financial statements.

SFAS 156 – In March 2006, the FASB issued Statement of Financial Accounting Standards No. 156 (SFAS 156), "Accounting for Servicing of Financial Assets - an amendment of FASB Statement No. 140." SFAS 156 requires that all separately recognized servicing rights be initially measured at fair value, if practicable. In addition, this Statement permits an entity to choose between two measurement methods (amortization method or fair value measurement method) for each class of separately recognized servicing assets and liabilities. This new accounting standard was effective January 1, 2007. The adoption of SFAS 156 did not have a material impact on our financial statements.

FIN 48 – In July 2006, the FASB issued FIN 48, "Accounting For Uncertainty In Income Taxes - an Interpretation of FASB Statement No. 109", to create a single model to address accounting for uncertainty in tax positions. FIN 48 clarifies that a tax position must be more likely than not of being sustained before being recognized in the financial statements. As required, we adopted the provisions of FIN 48 as of January 1, 2007. The following table summarizes the effect of the initial adoption of FIN 48. See Note H for additional information.

UNAUDITED

Initial adoption of FIN 48	January 1, 2007 Prior to FIN 48 Adjustment	FIN 48 Adjustment	January 1, 2007 Post FIN 48 Adjustment
(Millions of dollars)			
Income taxes payable.....	\$ 98	\$ 15	\$ 113
Deferred income taxes and other liabilities.....	379	(12)	367
Retained earnings.....	2,177	(3)	2,174

SFAS 157 – In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157 (SFAS 157), "Fair Value Measurements." SFAS 157 provides a common definition of fair value and a framework for measuring assets and liabilities at fair values when a particular standard prescribes it. In addition, the Statement prescribes a more enhanced disclosure of fair value measures, and requires a more expanded disclosure when non-market data is used to assess fair values. As required by SFAS 157, we will adopt this new accounting standard effective January 1, 2008. We are currently reviewing the impact of SFAS 157 on our financial statements. We expect to complete this evaluation in 2007.

SFAS 158 – In September 2006, the FASB issued Statement of Financial Accounting Standards No. 158 (SFAS 158), "Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans," which amends SFAS 87 and SFAS 106 to require recognition of the overfunded or underfunded status of pension and other postretirement benefit plans on the balance sheet. Under SFAS 158, gains and losses, prior service costs and credits and any remaining transition amounts under SFAS 87 and SFAS 106 that have not yet been recognized through net periodic benefit cost will be recognized in accumulated other comprehensive income, net of tax effects, until they are amortized as a component of net periodic cost. Also, the measurement date – the date at which the benefit obligation and plan assets are measured – is required to be the company's fiscal year end. As required by SFAS 158, we adopted the balance sheet recognition provisions at December 31, 2006 and the year-end measurement date in 2008 using the prospective method. The adoption of SFAS 158 is currently expected not to have a material impact to our Statement of Financial Position since Cat Financial is considered a participant in the Caterpillar retirement plan for which we are charged a share of plan expenses but are not required to record assets or liabilities of the plan.

SFAS 159 – In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159 (SFAS 159), "The Fair Value Option for Financial Assets and Financial Liabilities - Including an Amendment of SFAS No. 115." SFAS 159 will create a fair value option under which an entity may irrevocably elect fair value as the initial and subsequent measurement attribute for certain financial assets and liabilities on a contract by contract basis, with changes in fair values recognized in earnings as these changes occur. SFAS 159 will become effective for fiscal years beginning after November 15, 2007. We are currently reviewing the impact of SFAS 159 on our financial statements and expect to complete this evaluation in 2007. We will adopt this new accounting standard on January 1, 2008.

C. Segment information

Our segment data is based on disclosure requirements of Statement of Financial Accounting Standards No. 131, which requires that financial information be reported on the basis that is used internally for measuring segment performance. Internally, we report information for operating segments based on management responsibility. Our five operating segments offer primarily the same types of services within each of the respective segments. The five operating segments are as follows:

- North America: We have offices in the United States and Canada that serve local dealers and customers.
- Europe: We have offices in Europe to serve European dealers and customers. This segment also includes

UNAUDITED

our office in Russia, which serves dealers and customers in the Commonwealth of Independent States.

- **Diversified Services:** Included is our Global Accounts Division, which primarily provides cross-border financing to customers in countries in which we have no local presence; Marine Services Division, which primarily finances marine vessels with Caterpillar engines for all countries; and our offices in Latin America that serve local dealers and customers.
- **Asia-Pacific:** We have offices in Australia, New Zealand, China, Japan and Southeast Asia that serve local dealers and customers. This segment also provides project financing in various countries.
- **Cat Power Finance:** This segment primarily provides debt financing for Caterpillar electrical power generation, gas compression and co-generation systems (including the related non-Caterpillar equipment and components included in these systems), as well as non-Caterpillar equipment that is powered by said systems, for all countries.

On January 1, 2007, \$1,772 million of assets, primarily Other Assets, were reclassified to the North America segment as follows: from the Diversified Services segment in the amount of \$1,381 million, from the Power Finance segment in the amount of \$387 million, from the Europe segment in the amount of \$3 million and from the Asia-Pacific segment in the amount of \$1 million. In addition, assets in the amount of \$189 million were transferred to the Asia-Pacific segment from the North America segment. These reclassifications were made in order to maintain alignment with management responsibility. Prior year data has been reclassified to conform to the new structure.

Debt and other expenses for the Global Accounts and Marine Services Divisions within the Diversified Services segment and the Cat Power Finance segment are allocated to their respective segments from the North America, Europe and/or Asia-Pacific segments based on their respective portfolios. The provision for credit losses included in each segment's profit is based on each segment's share of the Company's allowance for credit losses. The related interest expense is calculated based on the amount of allocated debt and the rates associated with that debt. Inter-segment revenues result from lending activities between segments, and are based on the amount of the respective inter-segment loans and the rates associated with those loans.

As noted above, the segment information is presented on a management reporting basis. Unlike financial reporting, there is no authoritative guidance for management reporting equivalent to generally accepted accounting principles.

D. Derivative Instruments and Hedging Activities

Our earnings and cash flows are subject to fluctuations due to changes in foreign currency exchange rates and interest rates. Our Risk Management Policy ("Policy") allows for the use of derivative financial instruments to prudently manage foreign currency exchange rate and interest rate exposure. Our Policy specifies that derivatives are not to be used for speculative purposes. Derivatives that we use are primarily foreign currency forward contracts and interest rate swaps. Our derivative activities are subject to the management, direction and control of our senior financial officers. Risk management practices, including the use of financial derivative instruments, are presented to the Audit Committee of the Caterpillar Inc. Board of Directors at least annually.

Foreign Currency Exchange Rate Risk

In managing foreign currency risk, our objective is to minimize earnings volatility resulting from conversion and the remeasurement of net foreign currency balance sheet positions. Our Policy allows the use of foreign currency forward contracts to offset the risk of currency mismatch between our receivables and debt. Due to the long-term nature of our net investments in foreign subsidiaries, all such foreign currency forward contracts are undesignated. Accordingly, changes in the fair value of undesignated derivative instruments are reported in current earnings as a part of Other revenues.

Other revenues included losses of \$4 million and losses of \$7 million on the undesignated contracts for the three months ended (losses of \$10 million and losses of \$2 million for the six months ended) June 30, 2007 and 2006, respectively. The losses on undesignated contracts, excluding forward points, substantially offset the balance sheet remeasurement gains.

Interest Rate Risk

Interest rate movements create a degree of risk to our operations by affecting the amount of our interest payments and the value of our fixed rate debt. Our practice is to use interest rate swap agreements to manage our exposure to interest rate changes and, in some cases, to lower the cost of borrowed funds.

We have a match-funding policy that addresses interest rate risk by aligning the interest rate profile (fixed or floating rate) of our debt portfolio with the interest rate profile of our receivables portfolio within predetermined ranges on an ongoing basis. In connection with that policy, we use interest rate derivative instruments to modify the debt

UNAUDITED

structure to match assets within the receivables portfolio. This match-funding reduces the volatility of margins between interest-bearing assets and interest-bearing liabilities, regardless of which direction interest rates move. Our Policy allows us to use fixed-to-floating (fair value hedges), floating-to-fixed and floating-to-floating interest rate swaps (cash flow hedges) to meet our match-funding objective. To support hedge accounting, we designate fixed-to-floating interest rate swaps as fair value hedges of the fair value of our fixed rate debt at the inception of the swap contract. We designate most floating-to-fixed interest rate swaps as cash flow hedges of the variability of future cash flows at the inception of the swap contract.

Fair value hedges

We liquidated fixed-to-floating interest rate swaps during 2006 which resulted in deferred net gains that are being amortized to earnings ratably over the remaining life of the hedged debt. The unamortized balance of \$6 million as of June 30, 2007 will be amortized into Interest expense over the next seven years.

Gains/(losses) on fixed-to-floating interest swaps included in current earnings were as follows:

(Millions of dollars)	Three Months Ended June 30,		Six Months Ended June 30,	
	<u>2007</u>	<u>2006</u>	<u>2007</u>	<u>2006</u>
Loss on designated interest rate derivatives – included in Other revenues	\$(43)	\$(37)	\$(31)	\$(87)
Gain on hedged debt – included in Other revenues	\$ 43	\$ 37	\$ 31	\$ 87
Amortization of the net gain on liquidated swaps – included in Interest expense	1	2	1	4

Cash flow hedges

As of June 30, 2007, \$16 million, net of tax, of deferred net gains included in equity (Accumulated other comprehensive income), related to our floating-to-fixed interest rate swaps, is expected to be reclassified to Interest expense over the next twelve months.

We liquidated floating-to-fixed interest rate swaps during 2007 that resulted in deferred net gains that are being amortized to earnings ratably over the remaining life of the hedged debt. The unamortized balance of \$2 million as of June 30, 2007 will be amortized into Interest expense over the next twelve months.

E. Guarantees

We have guaranteed to repurchase loans of certain Caterpillar dealers from third party lenders in the event of default. These guarantees arose in conjunction with our relationship with third party dealers who sell Caterpillar equipment. These guarantees generally have one-year terms and are secured, primarily by dealer assets.

We provide loan guarantees to third party lenders for financing associated with machinery purchased by customers. These guarantees have varying terms and are secured by the machinery.

We have also provided a limited indemnity to a third party bank, which was \$32 million at June 30, 2007, resulting from the assignment of certain leases to that bank. The indemnity is for the remote chance that the insurers of these leases would become insolvent. The indemnity expires December 15, 2012, and is unsecured.

No loss has been experienced or is anticipated under any of these guarantees or the limited indemnity. The recorded liability for these guarantees and the limited indemnity was \$7 million at June 30, 2007 and \$9 million at December 31, 2006. The maximum potential amount of future payments (undiscounted and without reduction for any

UNAUDITED

amount that may possibly be recovered under recourse or collateralized provisions) we could be required to make under the guarantees and the limited indemnity are as follows:

(Millions of dollars)	June 30, 2007	December 31, 2006
Guarantees with Caterpillar dealers	\$279	\$362
Guarantees with Customers	48	37
Limited Indemnity	32	35
Guarantees – other	<u>3</u>	<u>3</u>
Total guarantees	<u>\$362</u>	<u>\$437</u>

F. Contingencies

We are party to various litigation matters and claims, and while the results cannot be predicted with certainty, management believes the final outcome of such matters and claims will not have a material adverse effect on our consolidated financial position, profit or liquidity.

G. Sales and Servicing of Finance Receivables

Cat Financial securitizes retail installment sales contracts and finance leases into public asset-backed securitization facilities. In addition, Cat Financial has sold interests in wholesale receivables to third-party commercial paper conduits. These transactions provide a source of liquidity and allow for better management of our balance sheet capacity. In addition, we sell individual loans and leases to third parties to mitigate the concentration of credit risk related to certain customers. None of the receivables that are directly or indirectly sold to third parties in any of the foregoing transactions are available to pay our creditors.

Securitized Retail Installment Sales Contracts and Finance Leases

We securitize retail installment sales contracts and finance leases through public asset-backed securitization facilities that are qualifying special-purpose entities (QSPEs) and thus, in accordance with Statement of Financial Accounting Standards No. 140 (SFAS 140) "Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities," are not consolidated. These finance receivables, which are being held in securitization trusts, are secured by new and used equipment. We retain ownership interests and servicing responsibilities related to these securitizations. Our retained interests are generally subordinate to the investors' interests and are included in Other assets in our Consolidated Statements of Financial Position. We receive a fee of approximately one percent of the remaining value of the receivables for our servicing responsibilities. We generally do not record a servicing asset or liability since the servicing fee is considered fair market compensation.

During the second quarter of 2006, we securitized retail installment sale contracts and finance leases into a public asset-backed securitization facility. Net proceeds received were \$964 million, which included both cash proceeds and retained interests. A net gain of \$7 million was recognized on this transaction. Our retained interests in the securitized receivables included subordinated certificates with an initial fair value of \$4 million, an interest in future cash flows (excess) with an initial fair value of \$3 million, and a reserve account with an initial fair value of \$10 million. We determine the fair value based on discounted cash flow models that incorporate assumptions including credit losses, prepayment rates, and discount rates. These assumptions are based on our historical experience, market trends, and anticipated performance relative to the particular assets securitized. Significant assumptions used to estimate the fair value of the retained interests include an 11.2 percent discount rate, a weighted-average prepayment rate of 14 percent and expected credit losses of 1 percent.

The fair value of the subordinated retained interests in all public securitizations outstanding totaled \$40 million at June 30, 2007 and \$68 million at December 31, 2006.

Sale of Interests in Wholesale Receivables

We purchase North American Caterpillar Dealer trade receivables (the "NACD Receivables") at a discount. The discount is an estimate of the amount of financing revenue that would be earned at a market rate on the NACD Receivables over their expected life. Cat Financial has sold interests in the NACD Receivables to third-party commercial paper conduits. In accordance with SFAS 140, the transfers to the conduits are accounted for as sales. The gain, included in Other revenue, is principally the difference between the unearned discount on the NACD Receivables sold to the third-party commercial paper conduits less related costs incurred over their remaining term. Expected credit losses are assumed to be zero because dealer receivables have historically had no losses and none are expected in the future. We receive an annual servicing fee of approximately 0.5 percent of the average outstanding principal balance of the interests in the NACD Receivables sold to the third-party commercial paper conduits. We generally do not record a servicing asset or liability since the servicing fee is considered fair market compensation.

As of June 30, 2007 and December 31, 2006, the outstanding principal balance of the interests in the NACD Receivables sold was \$240 million.

The remaining interests in the NACD Receivables as of June 30, 2007 and December 31, 2006 of \$1.790 billion and \$2.718 billion, respectively, are included in Wholesale notes receivable in our Consolidated Statements of Financial Position. The discount on the remaining interests in the NACD Receivables, which are not sold to the third-party commercial paper conduits, is amortized on an effective yield basis over the life of the NACD Receivables and recognized as Wholesale finance revenue. Because the receivables are short-term in nature, the carrying amount approximates the fair value.

The cash collections from the NACD Receivables held by Cat Financial (including those attributable to the receivables sold to the conduits) are first applied to satisfy any obligations of Cat Financial to the third-party commercial paper conduits. The third-party commercial paper conduits have no recourse to our assets, other than the remaining interests in the NACD Receivables held by Cat Financial.

In addition to the NACD Receivables, we purchase other trade receivables from Caterpillar entities at a discount. The discount is an estimate of the amount of financing revenue that would be earned at a market rate on these trade receivables over their expected life. The discount is amortized into revenue on an effective yield basis over the life of the receivables and recognized as wholesale finance revenue. Amortized discounts for the NACD and other trade receivables were \$84 million and \$94 million for the three months ended (\$170 million and \$173 million for the six months ended) June 30, 2007 and 2006, respectively. In the Consolidated Statements of Cash Flows, collection of the discount is included in investing activities as the receivables are collected.

Other Managed Assets

In addition to the sales and servicing of finance receivables, we also sell individual leases and finance receivables to third parties with limited or no recourse to us in order to reduce our concentration of credit risk related to certain customers. We maintain servicing for these third-party assets, which totaled \$418 million and \$362 million, as of June 30, 2007 and December 31, 2006, respectively. Since we do not receive a servicing fee for these assets, a servicing liability is recorded. As of June 30, 2007, this liability is not significant.

H. Income Taxes

The Company adopted FIN 48, "Accounting for Uncertainty in Income Taxes," as of January 1, 2007. As of adoption, the Company's total amount of gross unrecognized tax benefits for uncertain tax positions, including positions impacting only the timing of tax benefits, was \$30 million. The amount of unrecognized tax benefits that, if recognized, would impact the effective tax rate was \$5 million.

It is expected that the amount of unrecognized tax benefits will change in the next twelve months. However, we do not expect the change to have a significant impact on our results of operations or financial position.

UNAUDITED

We classify interest and penalties on tax uncertainties as a component of the provision for income taxes. The total amount of interest and penalties accrued as of adoption was \$3 million.

The tax years subject to examination in the U.S. begin in 1995. In our major non-U.S. jurisdictions, tax years are typically subject to examination for four to six years.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW: SECOND QUARTER 2007 VS. SECOND QUARTER 2006

The Company reported record revenues of \$747 million, an increase of \$71 million or 11 percent compared with the same quarter in 2006. On a pre-tax basis, profit was up \$32 million or 21 percent compared with the second quarter of 2006. Profit after tax was a record of \$123 million, a \$17 million or 16 percent increase over the second quarter of 2006.

- Of the increase in revenues, \$48 million resulted from the impact of higher interest rates on new and existing finance receivables and \$6 million resulted from the impact of continued growth of finance receivables and operating leases (earning assets). In addition, other revenues increased \$17 million primarily due to the absence of a \$16 million write-off of a repossessed marine vessel that occurred in the second quarter of 2006.
- The increase in pre-tax profit was principally due to an increase of \$28 million in margin (wholesale, retail finance, operating lease, and associated fee revenues less interest expense and depreciation on assets leased to others), and a \$17 million increase in other revenue items offset by a \$13 million increase in operating expenses. Of the increase in margin, \$26 million was due to an improvement in net yield on average earning assets and \$2 million resulted from the growth in average earning assets over 2006 of \$252 million.
- New retail financing was a record \$3.65 billion, an increase of \$452 million or 14 percent from the second quarter of 2006. The increase was the result of increased new retail financing primarily in our Diversified Services, Europe, and Asia-Pacific operating segments.
- Wholesale finance receivables were \$4.47 billion, a decrease of \$1.892 billion, or 30 percent, from the second quarter of 2006. The decrease, primarily relating to North American dealer receivable purchases from Caterpillar, is the result of a Caterpillar initiative to reduce receivables and inventory.
- Past dues over 30 days at June 30, 2007, were 2.09 percent compared to 1.70 percent at June 30, 2006, due primarily to the softening of the U.S. housing industry. Write-offs, net of recoveries, were \$12 million for both second quarters of 2007 and 2006. Although past dues reflect an increasing trend over the prior year, it is in line with management's expectations through second quarter 2007.

REVIEW OF CONSOLIDATED STATEMENTS OF PROFIT

THREE MONTHS ENDED JUNE 30, 2007 VS. THREE MONTHS ENDED JUNE 30, 2006

REVENUES

Finance revenue (wholesale, retail and notes receivable from Caterpillar) for the second quarter of 2007 was \$492 million, an increase of \$42 million from the same period last year. The increase was principally due to a 1 percent increase in the average portfolio balance outstanding and a 61 basis point increase in the yield on average finance receivables. Yield was also positively impacted from an increase in earned discounts on certain non-NACD purchased

UNAUDITED

receivables due primarily to increased prepayments on current receivables and collections on past due receivables. Second quarter 2007 prepayment and past due collection activities contributed \$7 million, or 11 basis points to yield, to wholesale revenues. The annualized average yield on total average portfolio assets was 8.22 percent for the second quarter of 2007 compared to 7.61 percent for the second quarter of 2006.

Operating lease revenue for the second quarter of 2007 was \$212 million, or \$10 million higher than the same period of 2006 due to modest portfolio growth.

Other revenue for the second quarter of 2007 was \$43 million, an increase of \$19 million from the same period in 2006. The increase is primarily due to the absence of a \$16 million write-down of a marine vessel in 2006.

Other revenue items were as follows:

(Millions of dollars)	Three Months Ended	
	June 30,	
	2007	2006
Finance receivable and operating lease fees (including late charges)	\$18	\$15
Net gain/(loss) on returned or repossessed equipment	10	(10)
Currency exchange gain	9	9
Gain on sales of receivables and securities	3	7
Income related to retained interests in securitized retail receivables	3	4
Service fee income on sold receivables	3	3
Miscellaneous other revenue, net	2	3
Partnership/dividend income	1	1
Net (loss)/gain on undesignated foreign exchange contracts (including forward points)	(4)	(7)
Net loss from interest rate derivatives	<u>(2)</u>	<u>(1)</u>
Total other revenue	<u>\$43</u>	<u>\$24</u>

EXPENSES

Interest expense for the second quarter of 2007 was \$279 million, an increase of \$21 million from the same period last year. This increase was primarily due to the increase in the average cost of borrowing of 30 basis points to 4.83 percent for the second quarter of 2007 from 4.53 percent for the second quarter of 2006.

Depreciation expense on equipment leased to others was \$164 million, up \$5 million over the second quarter of 2006 due to modest portfolio growth.

General, operating and administrative expenses were \$93 million for the second quarter of 2007 compared to \$81 million for the same period in 2006. The increase resulted primarily from an increase in labor costs. There were 1,537 full-time employees as of June 30, 2007, compared to 1,465 as of June 30, 2006.

The provision for credit losses was \$20 million for the second quarter of 2007, down \$1 million from the second quarter of 2006. The allowance for credit losses at June 30, 2007 was 1.39 percent of finance receivables (excluding Notes receivable from Caterpillar), net of unearned income, compared to 1.33 percent at June 30, 2006. The increase in the allowance as a percentage of finance receivables is primarily due to the decrease in wholesale receivables (which historically experience very low credit losses) relative to the overall portfolio. This decrease is primarily due to a Caterpillar initiative to reduce receivables and inventory.

The effective tax rate for the second quarter of 2007 of 34 percent increased from 32 percent for the second quarter of 2006. The increase from 2006 is primarily attributable to the absence of a state income tax refund received in 2006 and the change in the geographic mix of profits.

UNAUDITED

PROFIT

As a result of the performance discussed above, Cat Financial had profit of \$123 million for the second quarter of 2007, up \$17 million or 16 percent from the second quarter of 2006.

SIX MONTHS ENDED JUNE 30, 2007 VS. SIX MONTHS ENDED JUNE 30, 2006

REVENUES

Finance revenue (wholesale, retail and notes receivable from Caterpillar) for the first six months of 2007 was \$958 million, an increase of \$97 million from the same period last year. The increase was principally due to a 3 percent increase in the average portfolio balance outstanding and a 60 basis point increase in the yield on average finance receivables. Yield was also positively impacted from an increase in earned discounts on certain non-NACD purchased wholesale receivables due primarily to increased prepayments on current receivables and collections on past due receivables. Prepayment and past due collection activities for the first six months of 2007 contributed \$13 million, or 11 basis points, to wholesale revenues. The annualized average yield on total average portfolio assets was 8.07 percent for the first six months of 2007 compared to 7.47 percent for the first six months of 2006.

Operating lease revenue for the first six months of 2007 was \$414 million, or \$13 million higher than the same period of 2006 due to modest portfolio growth.

Other revenue for the first six months of 2007 was \$88 million, an increase of \$17 million from the same period in 2006. The increase is primarily due to the absence of a \$16 million write-down of a marine vessel in 2006 partially offset by a decrease in gain on sale of receivables due to the absence of a securitization through the second quarter of 2007.

Other revenue items were as follows:

(Millions of dollars)	<u>Six Months Ended</u>	
	<u>June 30,</u>	
	<u>2007</u>	<u>2006</u>
Finance receivable and operating lease fees (including late charges)	\$33	\$30
Net gain on returned or repossessed equipment	15	1
Currency exchange gain	22	8
Miscellaneous other revenue, net	7	5
Income related to retained interests in securitized retail receivables	6	8
Service fee income on sold receivables	6	6
Gain on sales of receivables and securities	5	14
Net gain on undesignated foreign exchange contracts (including forward points)	(10)	(2)
Partnership/dividend income	3	2
Net gain/(loss) from interest rate derivatives	<u>1</u>	<u>(1)</u>
Total other revenue	<u>\$88</u>	<u>\$71</u>

EXPENSES

Interest expense for the first six months of 2007 was \$549 million, an increase of \$58 million from the same period last year. This increase was primarily due to the increase in the average cost of borrowing of 42 basis points to 4.87 percent for the first six months of 2007 from 4.45 percent for the first six months of 2006 and the impact of a 1 percent increase in average borrowings to fund growth in finance receivables and operating leases.

Depreciation expense on equipment leased to others was \$321 million, up \$4 million over the first six months of 2006 due to modest portfolio growth.

UNAUDITED

General, operating and administrative expenses were \$178 million for the first six months of 2007 compared to \$161 million for the same period in 2006. The increase resulted primarily from an increase in labor costs.

The provision for credit losses was \$38 million for the first six months of 2007, up \$5 million from the first six months of 2006 due to increased net write-offs of \$7 million primarily as a result of the softening of the U.S. housing industry. The allowance for credit losses at June 30, 2007 was 1.39 percent of finance receivables (excluding Notes receivable from Caterpillar), net of unearned income, compared to 1.33 percent at June 30, 2006. The increase in the allowance as a percentage of finance receivables is primarily due to the decrease in wholesale receivables (which historically experience very low credit losses) relative to the overall portfolio. This decrease is primarily due to a Caterpillar initiative to reduce receivables and inventory.

The effective tax rate for the first six months of 2007 of 33 percent increased from 32 percent for the first six months of 2006. The increase from 2006 is primarily attributable to the absence of a state income tax refund received in 2006.

PROFIT

As a result of the performance discussed above, Cat Financial had profit of \$248 million for the first six months of 2007, up \$24 million or 11 percent from the first six months of 2006.

REVIEW OF CONSOLIDATED STATEMENTS OF FINANCIAL POSITION

ASSETS

Total assets were \$27.6 billion as of June 30, 2007, an increase of \$280 million over December 31, 2006, principally due to an increase in the retail finance receivables portfolio. During the first six months ended June 30, 2007, we financed new retail business of \$6.4 billion, an increase of \$571 million or 10 percent over the same period in 2006, primarily related to increased financing in the Diversified Services, Europe and Asia-Pacific operating segments.

TOTAL OFF-BALANCE SHEET MANAGED ASSETS

We manage and service receivables and leases that have been transferred through securitization or sale. These receivables and leases are not available to pay our creditors. In addition, we sell finance receivables and leases to third parties in an on-going effort to manage our concentration of credit risk with certain customers.

Off-balance sheet managed assets were as follows:

(Millions of dollars)	June 30, 2007	December 31, 2006
Installment sale contracts securitized	\$ 807	\$1,174
Finance leases securitized	37	53
Less: retained interests (included in Other assets)	(40)	(68)
Off-balance sheet securitized retail receivables	804	1,159
Wholesale receivables sold	240	240
Other managed receivables/leases*	418	362
Total off-balance sheet managed assets	<u>\$1,462</u>	<u>\$1,761</u>

UNAUDITED

*Other off-balance sheet managed receivables/leases were as follows:

(Millions of dollars)	June 30, 2007	December 31, 2006
Finance leases	\$152	\$107
Installment sale contracts	113	111
Operating leases	129	119
Retail notes receivable	24	25
Total other managed receivables/leases	<u>\$418</u>	<u>\$362</u>

ALLOWANCE FOR CREDIT LOSSES

The following table shows activity related to the Allowance for credit losses:

(Millions of dollars)	<u>Three Months Ended</u>		<u>Six Months Ended</u>	
	June 30,		June 30,	
	2007	2006	2007	2006
Balance at beginning of the period	\$323	\$309	\$319	\$302
Provision for credit losses	20	21	38	33
Receivables written off	(20)	(16)	(39)	(28)
Recoveries on receivables previously written off	8	4	12	8
Adjustment due to securitization of receivables	-	(12)	-	(12)
Foreign currency translation adjustment	<u>4</u>	<u>4</u>	<u>5</u>	<u>7</u>
Balance at end of the period	<u>\$335</u>	<u>\$310</u>	<u>\$335</u>	<u>\$310</u>

Bad debt write-offs, net of recoveries, were \$12 million for both the second quarter of 2007 and 2006. Bad debt write-offs, net of recoveries, were \$27 million for the six months ended 2007 compared with \$20 million for the six months ended 2006. See Critical Accounting Policies – Allowance for Credit Losses for more information on the allowance for credit losses.

TOTAL PAST DUE FINANCE AND RENTS RECEIVABLES

Finance receivables (excluding Notes receivable from Caterpillar) plus rents receivable for operating leases (included in Other assets) that were past due over 30 days were 2.09 percent of the aggregate total of these receivables as of June 30, 2007, compared to 1.70 percent as of June 30, 2006. The increase is primarily due to the softening of the U.S. housing industry. Although this reflects an increasing trend over the prior year, it is in line with management's expectations through second quarter 2007.

CAPITAL RESOURCES AND LIQUIDITY

Capital resources and liquidity provide Cat Financial with the ability to meet its financial obligations on a timely basis. Maintaining and managing adequate capital and liquidity resources includes management of funding sources and their utilization based on current, future and contingent needs. We do not generate material funding through structured finance transactions.

BORROWINGS

Cat Financial's borrowings consist primarily of medium-term notes, commercial paper, variable denomination floating rate demand notes, and bank borrowings, the combination of which is used to manage interest rate risk and funding requirements. We also utilize additional funding sources including securitizations of retail installment contracts and finance leases, and wholesale receivable commercial paper conduits.

Total borrowings outstanding as of June 30, 2007 were \$22.975 billion, a decrease of \$69 million over December 31, 2006, due to lower funding requirements. Outstanding borrowings were as follows:

(Millions of dollars)	June 30, 2007	December 31, 2006
Medium-term notes, net of unamortized discount	\$16,842	\$16,894
Commercial paper, net of unamortized discount	4,243	4,557
Variable denomination floating rate demand notes	634	590
Long-term bank borrowings	497	425
Short-term bank borrowings	464	251
Deposit obligation	232	232
Notes payable to Caterpillar	55	87
Loans from a company-owned partnership	8	8
Total outstanding borrowings	<u>\$22,975</u>	<u>\$23,044</u>

Medium-term notes

We regularly issue medium-term unsecured notes through securities dealers or underwriters in the U.S., Canada, Europe and Australia to both retail and institutional investors. These notes are offered in several currencies and with a variety of maturities. These notes are senior obligations of the Company.

Commercial paper

We issue unsecured commercial paper in the U. S., Europe and other international capital markets. These short-term promissory notes are issued on a discounted basis and are payable at maturity. Of the \$4.2 billion of commercial paper outstanding as of June 30, 2007, \$57 million has a built-in feature to extend the maturity a maximum of 390 days from the initial issue date.

Revolving credit facilities

We participate in three global credit facilities with a syndicate of banks totaling \$6.45 billion available in the aggregate to both Caterpillar Inc. and Cat Financial (along with specified subsidiaries of Cat Financial in connection with certain sub-facilities). These credit facilities are used to support commercial paper programs. Based on an allocation decision by Caterpillar Inc. and Cat Financial, which can be revised at any time, the aggregate portion of the credit facilities available to Cat Financial at June 30, 2007, was \$4.95 billion. A five-year facility of \$1.625 billion expires in September 2010, and a five-year facility of \$2.975 billion expires in September 2011. A 364-day facility of \$1.85 billion expires in September 2007, and contains a provision that allows Caterpillar Inc. or Cat Financial to obtain

UNAUDITED

a one-year loan for up to the full amount of that facility in September 2007, that would mature in September 2008. Each of the facilities includes one or more sub-facilities that allow one or more specified subsidiaries of Cat Financial to borrow in certain non-U.S. dollar currencies.

Our Australian subsidiary has a A\$50 million (USD equivalent \$42 million) credit facility with one bank to support its commercial paper program.

At June 30, 2007 and December 31, 2006, there were no borrowings under the foregoing credit facilities, and we were in compliance with all debt covenants.

Variable denomination floating rate demand notes

We also obtain funding from the sale of variable denomination floating rate demand notes, which may be redeemed at any time at the option of the holder without any material restriction. We do not hold reserves to fund the payment of the demand notes. The notes are offered on a continuous basis by prospectus only.

Bank borrowings

Total bank borrowings as of June 30, 2007, were \$961 million. Credit lines with banks total \$1.766 billion and will be eligible for renewal at various future dates or have no specified expiration date. They are used by our subsidiaries for local funding requirements and are generally guaranteed by Cat Financial. As of June 30, 2007, we had \$955 million outstanding against these credit lines compared to \$673 million as of December 31, 2006.

Deposit obligation

A deposit obligation of \$232 million has a corresponding security deposit, which is included in Other assets in the Consolidated Statements of Financial Position as of June 30, 2007, and December 31, 2006. This deposit obligation and corresponding security deposit relates to a financing arrangement, which provides us a return. This arrangement requires that we commit to a certain long-term obligation and provide a security deposit, which will fulfill this obligation when it becomes due.

Variable amount lending agreements with Caterpillar

Under these agreements, we may borrow up to \$1.9 billion from Caterpillar, and Caterpillar may borrow up to \$1.2 billion from us. The agreements are in effect for indefinite periods of time and may be changed or terminated by either party with 30 days notice. We had notes payable of \$55 million and notes receivable of \$100 million outstanding as of June 30, 2007, compared to notes payable of \$87 million and notes receivable of \$75 million as of December 31, 2006.

OFF-BALANCE SHEET ARRANGEMENTS

We lease all of our facilities. In addition, we currently have guarantees with third parties. Please refer to Note E of Notes to Consolidated Financial Statements for information on our guarantee contingent liabilities.

UPDATE ON CONTRACTUAL OBLIGATIONS

We adopted FIN 48, "Accounting for Uncertainty in Income Taxes" as of January 1, 2007. As of adoption, the total amount of gross unrecognized tax benefits for uncertain tax positions, including positions impacting only the timing of tax benefits, was \$30 million. However, the net obligation to taxing authorities under FIN 48 was \$22 million. The difference relates primarily to outstanding refund claims. The timing of payments will depend on the progress of examinations with tax authorities. We do not expect a significant tax payment related to these obligations within the next year. The liability at June 30, 2007 was not materially different from the liability at the date of adoption.

CASH FLOWS

Operating cash flow was \$348 million for the first six months ended June 30, 2007, compared with \$389 million for the same period in 2006. Net cash used in investing activities decreased \$1 billion for the first six months ended June 30, 2007 as compared to the same period in 2006, primarily as a result of less net cash used for finance receivables due to slower growth in the portfolio, offset by the absence of a securitization. Net cash provided by financing activities

decreased \$1 billion for the first six months ended June 30, 2007 as compared to the same period in 2006 due to lower funding requirements.

CRITICAL ACCOUNTING POLICIES

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect reported amounts. The most significant estimates include those related to the residual values for leased assets and for our allowance for credit losses. Actual results may differ from these estimates.

Residual Value

The residual value, which is the estimated future wholesale market value of leased equipment at the time of the expiration of the lease term, represents a careful analysis of historical wholesale market sales prices, projected forward on a level trend line without consideration for inflation or possible future pricing action. At the inception of the lease, the residual value is derived from consideration of the following critical factors: market size and demand, any known significant market/product trends, total expected hours of usage, machine configuration, application, location, model changes, quantities and past remarketing experience. Many of these factors are gathered in an application survey that is completed prior to quotation. The lease agreement also clearly defines applicable return conditions and remedies for non-compliance, to ensure that the leased equipment will be in good operating condition upon return. Model changes and updates, as well as market strength and product acceptance, are monitored and residual adjustments are made to residual values in accordance with the significance of any such changes. Remarketing sales staff works closely with customers and dealers to manage the sale of lease returns and the recovery of residual exposure. During the term of the leases, residual amounts are monitored. If estimated market values reflect a non-temporary impairment due to economic factors, obsolescence or other adverse circumstances, the residuals are adjusted to the lower estimated values by a charge to earnings. For equipment on operating leases, the charge is recognized through depreciation expense. For finance leases, it is recognized through a reduction of finance revenue.

Allowance for Credit Losses

Management's ongoing evaluation of the adequacy of the allowance for credit losses considers both impaired and unimpaired finance receivables and takes into consideration past loss experience, known and inherent risks in the portfolio, adverse situations that may affect the borrower's ability to repay, estimated value of underlying collateral and current economic conditions. In estimating probable losses, we review accounts that are past due, non-performing, in bankruptcy or otherwise identified as at-risk for potential credit loss. Accounts are identified as at risk for potential credit loss using information available about the customer, such as financial statements, news reports and published credit ratings as well as general information regarding industry trends and the general economic environment.

The allowance for credit losses attributable to specific accounts is based on the most probable source of repayment, which is normally the liquidation of collateral. In determining collateral value, we estimate the current fair market value of the collateral and factor in credit enhancements such as additional collateral and third party guarantees. The allowance for credit losses attributable to the remaining accounts is a general allowance based upon the risk in the portfolio primarily using probabilities of default and an estimate of associated losses. In addition, qualitative factors not able to be fully captured in previous analysis including industry trends, macroeconomic factors and model imprecision are considered in the evaluation of the adequacy of the allowance for credit losses. These qualitative factors are subjective and require a degree of management judgment.

While management believes it has exercised prudent judgment and applied reasonable assumptions, which have resulted in an allowance presented in accordance with generally accepted accounting principles, there can be no assurance that in the future, changes in economic conditions or other factors might cause changes in the financial health of our customers, which could change the timing and level of payments received, and thus result in losses greater than the estimated losses or necessitate a change to our estimated losses.

SAFE HARBOR STATEMENT UNDER THE SECURITIES LITIGATION REFORM ACT OF 1995

Certain statements contained in this Quarterly Report on Form 10-Q are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 and involve risks and uncertainties that could significantly impact results. The words "believes," "expects," "estimates," "anticipates," "will be," "should" and similar words or expressions identify forward-looking statements made on behalf of Cat Financial. Although we believe that the expectations reflected in such forward-looking statements are based on reasonable assumptions, there are risks and uncertainties that may cause actual results to differ materially from expectations. We are under no obligation to (and expressly disclaim any obligation to) update or alter said forward-looking statements whether as a result of such changes, new information, future events or otherwise. These risks and uncertainties include factors that affect international businesses generally, as well as matters specific to Cat Financial and the markets it serves. For a further discussion of the risks and uncertainties that may affect our business, please see Part I. Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2006 and information contained in other reports that we file from time to time with the SEC.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures

An evaluation was performed under the supervision and with the participation of our management, including our Chief Executive Officer (CEO) and our Chief Financial Officer (CFO), of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this quarterly report. Based on this evaluation, our management, including the CEO and CFO, concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Securities and Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting during the six months ended June 30, 2007 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION**ITEM 1. LEGAL PROCEEDINGS**

We are involved in unresolved legal actions that arise in the normal course of business. The majority of these unresolved actions involve claims to recover collateral, claims pursuant to customer bankruptcies and the pursuit of deficiency amounts. Although it is not possible to predict with certainty the outcome of our unresolved legal actions or the range of probable loss, we believe that these unresolved legal actions neither individually nor in the aggregate have a material adverse effect on our consolidated financial position, liquidity or results of operations.

ITEM 1A. RISK FACTORS

See Part I. Item 1A. Risk Factors in our annual Report on Form 10-K for the year ended December 31, 2006 for a discussion of the risks and uncertainties that may affect our business. There has been no material change in this information.

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS

- 3.1 Certificate of Incorporation of the Company, as amended (incorporated by reference from Exhibit 3.1 to the Company's Form 10 for the year ended December 31, 1984, Commission File No. 0-13295).

⁽²⁾ Those portions of rent expense that are representative of interest cost.

SECTION 302 CERTIFICATIONS

I, Kent M. Adams, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Caterpillar Financial Services Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the periods covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and we have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
