**Re: Samex Mining Corp.**  
**Form 20-F for Fiscal Year Ended December 31, 2007**  
**Filed June 30, 2008**  
**File No. 0-13391**

Dear Mr. McLean:

We have reviewed your filing and have the following comments. We have limited our review to only your financial statements and related disclosures and do not intend to expand our review to other portions of your documents. Where indicated, we think you should revise your document in response to these comments. If you disagree, we will consider your explanation as to why our comment is inapplicable or a revision is unnecessary. Please be as detailed as necessary in your explanation. In some of our comments, we may ask you to provide us with information so we may better understand your disclosure. After reviewing this information, we may raise additional comments.

Please understand that the purpose of our review process is to assist you in your compliance with the applicable disclosure requirements and to enhance the overall disclosure in your filing. We look forward to working with you in these respects. We welcome any questions you may have about our comments or any other aspect of our review. Feel free to call us at the telephone numbers listed at the end of this letter.

Form 20-F for the Fiscal Year Ended December 31, 2007

Engineering Comments

General

1. We note your web site contains disclosure about adjacent or other properties on which your company has no right to explore or mine, it would be helpful for you to include the following cautionary language along with such information:

“This web site contains information about adjacent properties on which we have no right to explore or mine. We advise U.S. investors that the SEC’s mining guidelines strictly prohibit information of this type in documents filed with the SEC. U.S. investors are cautioned that mineral deposits on adjacent properties are not indicative of mineral deposits on our properties.”

Please indicate the location of this disclaimer on your website in your response.

Inca Project, page 24

2. Please disclose the following information for each of your properties:
  - The nature your company’s ownership or interest in the property.
  - A description of all interests in your properties, including the terms of all underlying agreements.
  - The basis and duration of your mineral rights, surface rights, claims or concessions.
  - An indication of the type of claim or concession such as placer or lode, exploration or exploitation, whether the mining claims are State or Federal mining claims, mining leases, or mining concessions.
  - Please include certain identifying information, such as the property names, claim numbers, grant numbers, mining concession name/number, and dates of recording and expiration that is sufficient to enable the claims to be distinguished from other claims that may exist in the area. Numerous claim lists may be tabulated and/or included as a separate referenced exhibit.

- The conditions that must be met to retain your claims or leases, including quantification and timing of all necessary payments.
- The number and area of the claims or mining concessions, either in hectares or in acres.

Please ensure that you fully discuss the material terms of the land or mineral rights securing agreements, as required under paragraph (b)(2) of Industry Guide 7. For each of your exploration projects or mines, clarify who owns the mineral concession or provisional permits and, where appropriate, if you own the surface rights. If you do not own the concession or provisional permit, disclose your obligations for use of concessions or permits for your material exploration areas.

3. Please disclose the information required under paragraph (b) of Industry Guide 7 for all your material properties listed under this heading. For any properties identified, which are not material, include a statement to that effect, clarifying your intentions. For each material property, include the following information:
  - The location and means of access to your property, including the modes of transportation utilized to and from the property.
  - Any conditions that must be met in order to obtain or retain title to the property, whether you have surface and/or mineral rights.
  - A description of any work completed on the property and its present condition.
  - A description of equipment, infrastructure, and other facilities, with details concerning modernization and physical condition of the plant and equipment, including subsurface improvements and equipment.
  - The current state of exploration of the property.
  - The total costs incurred to date and all planned future costs.
  - The source of power and water that can be utilized at the property.
  - If applicable, provide a clear statement that the property is without known reserves and the proposed program is exploratory in nature.

You may refer to Industry Guide 7, paragraphs (b) (1) through (5), for specific guidance pertaining to the foregoing, available on our website at the following address:

[www.sec.gov/about/forms/industryguides.pdf](http://www.sec.gov/about/forms/industryguides.pdf)

4. Please insert a small-scale map showing the location and access to each material property, as required by Instruction 1(a) to Item 4.D of Form 20-F. Please note the EDGAR program now accepts Adobe PDF files and digital maps, so please include these maps in any amendments that are uploaded to EDGAR. It is relatively easy to include automatic links at the appropriate locations within the document to GIF or JPEG files, which will allow figures and diagrams to appear in the right location when the document is viewed on the Internet. For more information, please consult the EDGAR manual, and if additional assistance is required, please call Filer Support at (202) 551-3600 for Post-Acceptance Filing Issues or (202) 551-8900 for Pre-Acceptance Filing Issues. We believe the guidance in Instruction 1(a) to Item 4.D of Form 20-F would generally require maps and drawings to comply with the following features:
  - A legend or explanation showing, by means of pattern or symbol, every pattern or symbol used on the map or drawing.
  - A graphical bar scale should be included. Additional representations of scale such as "one inch equals one mile" may be utilized provided the original scale of the map has not been altered.
  - A north arrow.
  - An index map showing where the property is situated in relationship to the state or province, etc., in which it was located.
  - A title of the map or drawing, and the date on which it was drawn.
  - In the event interpretive data is submitted in conjunction with any map, the identity of the geologist or engineer that prepared such data.

Any drawing should be simple enough or of sufficiently large scale to clearly show all features on the drawing.

Exploration Area I, page 31

5. Detailed sampling provides the basis for the quality estimate or grade of your mineral discovery. Please provide a brief description of the sample collection,

sample preparation, and the analytical procedures used to develop your analytical results. In addition, please disclose any Quality Assurance/Quality Control (QA/QC) protocols you have developed for your exploration program. These procedures would serve to inform potential investors regarding your sample collection and preparation, assay controls, sample custody, assay precision and accuracy procedures and protocols.

#### Closing Comments

As appropriate, please amend your filing and respond to these comments within 10 business days or tell us when you will provide us with a response. You may wish to provide us with marked copies of the amendment to expedite our review. Please furnish a cover letter with your amendment that keys your responses to our comments and provides any requested information. Detailed cover letters greatly facilitate our review. Please understand that we may have additional comments after reviewing your amendment and responses to our comments.

We urge all persons who are responsible for the accuracy and adequacy of the disclosure in the filing to be certain that the filing includes all information required under the Securities Exchange Act of 1934 and that they have provided all information investors require for an informed investment decision. Since the company and its management are in possession of all facts relating to a company's disclosure, they are responsible for the accuracy and adequacy of the disclosures they have made.

In connection with responding to our comments, please provide, in writing, a statement from the company acknowledging that:

- the company is responsible for the adequacy and accuracy of the disclosure in the filing;
- staff comments or changes to disclosure in response to staff comments do not foreclose the Commission from taking any action with respect to the filing; and
- the company may not assert staff comments as a defense in any proceeding initiated by the Commission or any person under the federal securities laws of the United States.

In addition, please be advised that the Division of Enforcement has access to all information you provide to the staff of the Division of Corporation Finance in our review of your filing or in response to our comments on your filing.”]

You may contact Gary Newberry at (202) 551- 3761, or Sandra Eisen, at (202) 551- 3864 if you have questions regarding comments on the financial statements and
