This report is submitted for the general information of the shareholders of Waddell & Reed Advisors Municipal High Income Fund, Inc. It is not authorized for distribution to prospective investors in the Fund unless preceded or accompanied by a current Waddell & Reed Advisors Municipal High Income Fund, Inc. prospectus and current Fund performance information.

President's Letter

March 31, 2008

DEAR SHAREHOLDER:

A recent study by Standard & Poor's found that the U.S. stock market experienced more daily price volatility at the start of calendar year 2008 than at any point since the 1930s, when Waddell & Reed began operating. From our perspective, these do appear to be very challenging times for parts of the U.S. economy. At the same time, however, we are still seeing strong long-term global growth, benefiting many American companies, and your investments.

Enclosed is our report on Waddell & Reed Advisors Funds' operations for the six months ended March 31, 2008. For the period, the S&P 500 Index fell 12.47 percent while the Lehman Brothers Aggregate Bond Index rose 5.24 percent, led by U.S. Treasuries. Despite an uncertain environment for stocks, we grew as an organization.

We are very grateful for your support and your confidence in our ability to manage your assets. This, indeed, is a challenging time. Many economic negatives are on America's front porch: a level of price weakness and foreclosure activity in U.S. housing markets not seen since the Dust Bowl; a global credit crunch driven by an implosion of the subprime mortgage market; a U.S. dollar that is worth much less than just a few years ago; record-setting commodity prices, and the high probability of a recession in the coming months.

The positives are more subtle: exports are booming; the overall job market in the U.S. is still relatively healthy; farmers are enjoying great prices for corn, wheat and soybeans. Alternative energy and related technologies are booming and tourists are flocking to our shores to take advantage of our cheap currency to shop.

Financial conditions such as we have seen so far in 2008 are unusual, but they are not unprecedented. In fact, after the Panic of 1907 involving a Wall Street bank that speculated on copper, Congress created the Federal Reserve. We have the Fed's monetary policy system to thank for the substantial reductions in U.S. interest rates we have seen since September 2007. The Fed's moves have been designed to help offset a huge contraction of financial credit.

Still, even with lower rates, for many people it is more difficult to buy a home or expand a consumer-focused business than it was just a year ago. As shown in the Economic Snapshot table on page four, the U.S. economy at March 31, 2008 is not in as good a shape as it was six months earlier. Inflation, oil prices and the unemployment rate are higher. Economic growth is weak.

Economic Snapshot

	3-31-2008	9-30-2007
U.S. unemployment rate	5.10 %	4.70 %
Inflation (U.S. Consumer Price Index)	4.00%	2.80%
U.S. GDP	0.60%	3.90%
30-year fixed mortgage rate	5.63%	6.28%
Oil price per barrel	\$101.58	\$81.66

All government statistics shown are subject to periodic revision.

Sources: Bloomberg, U.S. Department of Labor

The U.S. Consumer Price Index is the government's measure of the change in the retail cost of goods and services. Gross domestic product measures year-over-year changes in the output of goods and services. Mortgage rates shown reflect the average rate on a conventional loan with a 60-day lender commitment. Oil prices reflect the market price of West Texas intermediate grade crude.

Respectfully,

Henry J. Herrmann, CFA
President

The opinions expressed in this letter are those of the President of the Fund and are current only through the end of the period of the report, as stated on the cover. The President's views are subject to change at any time, based on market and other conditions, and no forecasts can be guaranteed.

As we look ahead, we recommend some caution, as we believe that the range of financial outcomes this year for investors is wide. Whoever holds the reins of power in Congress and the White House after the November general election will have many long-term structural issues to address that are likely to have important economic, investment and tax implications. As always, we believe that maintaining a well-rounded portfolio is an essential element for securing your long-term financial future.

Our commitment

As investment managers, we are always mindful that we are managing other people's money. In this uncertain environment, we believe a very strong effort to manage risk takes precedence over the desire to maximize capital appreciation. With that approach in mind, we will strive to earn your continued confidence for many years to come.

Illustration of Fund Expenses

MUNICIPAL HIGH INCOME FUND

As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchase payments, redemption fees and exchange fees; and (2) ongoing costs, including management fees, distribution and service fees, and other Fund expenses. The following table is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The example is based on an investment of \$1,000 invested at the beginning of the period and held for the six-month period ended March 31, 2008.

Actual Expenses

The first line for each share class in the following table provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, a \$7,500 account value divided by \$1,000 = 7.5), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During Period" to estimate the expenses you paid on your account during this period. There may be additional fees charged to holders of certain accounts that are not included in the expenses shown in the table. These fees apply to Individual Retirement Accounts (IRAs), IRA Rollovers, Roth IRAs, Conversion Roth IRAs, Simplified Employee Pension (SEP), Simple IRAs, Tax-Sheltered Accounts (TSAs), Keogh Plans, Owner Only 401(k) (Exclusive K) Plans and Final Pay Plans. As of the close of the six months covered by the table, a customer is charged an annual fee of \$15 within each plan type. This fee is waived for IRA Rollovers and Conversion Roth IRAs if the customer owns another type of IRA. Coverdell Education Savings Account plans are charged an annual fee of \$10 per customer. You should consider the additional fees that were charged to your Fund account over the six-month period when you estimate the total ongoing expenses paid over the period and the impact of these fees on your ending account value as such additional expenses are not reflected in the information provided in the expense table. Additional fees have the effect of reducing investment returns.

Hypothetical Example for Comparison Purposes

The second line for each share class in the following table provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads), redemption fees or exchange fees. Therefore, the second line of each share class in the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

Fund Expenses

For the Six Months Ended March 31, 2008	Beginning Account Value 9-30-07	Ending Account Value 3-31-08	Annualized Expense Ratio Based on the Six-Month Period	Expenses Paid During Period*
Based on Actual Fund Return⁽¹⁾				
Class A.	\$1,000	\$ 967.30	0.98%	\$4.82
Class B.	1,000	963.10	1.84	9.03
Class C.	1,000	962.90	1.89	9.23
Class Y**	1,000	968.10	0.81	3.94
Based on 5% Return⁽²⁾				
Class A.	\$1,000	\$1,020.11	0.98%	\$4.95
Class B.	1,000	1,015.81	1.84	9.27
Class C.	1,000	1,015.56	1.89	9.47
Class Y**	1,000	1,020.96	0.81	4.04

*Fund expenses for each share class are equal to the Fund's annualized expense ratio for each share class (provided in the table), multiplied by the average account value over the period, multiplied by 183 days in the six-month period ended March 31, 2008, and divided by 366.

**Class closed to investment.

(1) This section uses the Fund's actual total return and actual Fund expenses. It is a guide to the actual expenses paid by the Fund in the period. The "Ending Account Value" shown is computed using the Fund's actual return and the "Expenses Paid During Period" column shows the dollar amount that would have been paid by an investor who started with \$1,000 in the Fund. A shareholder may use the information here, together with the dollar amount invested, to estimate the expenses that were paid over the period. For every thousand dollars a shareholder has invested, the expenses are listed in the last column.

(2) This section uses a hypothetical 5% annual return and actual Fund expenses. It helps to compare the Fund's ongoing costs with other mutual funds. A shareholder can compare the Fund's ongoing costs by comparing this hypothetical example with the hypothetical examples that appear in shareholder reports of other funds.

The above illustration is based on ongoing costs only and does not include any transactional costs, such as sales loads, redemption fees or exchange fees.

SHAREHOLDER SUMMARY OF MUNICIPAL HIGH INCOME FUND

Portfolio Highlights

On March 31, 2008, Waddell & Reed Advisors Municipal High Income Fund, Inc. had net assets totaling \$491,296,080 invested in a diversified portfolio.

As a shareholder of the Fund, for every \$100 you had invested on March 31, 2008, your Fund owned:

Sector Weightings

(1)Includes \$1.04 Education Revenue Bonds, \$0.24 Lease/COP Bonds, \$0.61 Port/Marine Revenue Bonds, \$1.41 Public Power Revenue Bonds, \$1.67 Resource Recovery Bonds, \$1.29 Sales Revenue Bonds, \$0.10 School General Obligation Bonds, \$1.12 Utility Revenue Bonds and \$1.24 Water and Sewer Revenue Bonds.

Quality Weightings

On March 31, 2008, the breakdown of bonds (by ratings) held by the Fund was as follows:

Ratings reflected in the wheel are taken from the following sources in order of preference: Standard & Poor's, Moody's or management's internal ratings, where no other ratings are available.

Notes to Financial Statements

March 31, 2008

(Unaudited)

NOTE 1 – Significant Accounting Policies

Waddell & Reed Advisors Municipal High Income Fund, Inc. (the Fund) is registered under the Investment Company Act of 1940 as a diversified, open-end management investment company. Its investment objective is to provide a high level of income that is not subject to Federal income tax. The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America.

- A. Security valuation** – Municipal bonds and the taxable obligations in the Fund's investment portfolio are not listed or traded on any securities exchange. Therefore, municipal bonds are valued using a pricing system provided by a pricing service or dealer in bonds. Securities for which quotations are not readily available or are deemed not to be reliable because of significant events or circumstances identified between the closing of their principal markets and the closing of the New York Stock Exchange are valued at fair value as determined in good faith under procedures established by and under the general supervision of the Fund's Board of Directors. Management's valuation committee makes fair value determinations for the Fund, subject to the supervision of the Board of Directors. Short-term debt securities, whether taxable or nontaxable, purchased with less than 60 days to maturity, are valued at amortized cost, which approximates market value.
- B. Security transactions and related investment income** – Security transactions are accounted for on the trade date (date the order to buy or sell is executed). Securities gains and losses are calculated on the identified cost basis. Original issue discount (as defined in the Internal Revenue Code) and premiums on the purchase of bonds are amortized for both financial and tax reporting purposes over the remaining lives of the bonds. Interest income is recorded on the accrual basis. See Note 3 – Investment Security Transactions.
- C. Federal income taxes** – The Fund intends to distribute all of its net investment income and capital gains to its shareholders and otherwise qualify as a regulated investment company under Subchapter M of the Internal Revenue Code. The Fund intends to pay distributions as required to avoid imposition of excise tax. Accordingly, provision has not been made for Federal income taxes. In addition, the Fund intends to meet requirements of the Internal Revenue Code which will permit it to pay dividends from net investment income, substantially all of which will be exempt from Federal income tax. See Note 4 – Federal Income Tax Matters.
- D. Dividends and distributions** – All of the Fund's net investment income is declared and recorded by the Fund as dividends payable on each day to shareholders of record as of the close of the preceding business day. Net investment income dividends and capital gains distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America. These differences are due to differing treatments for items such as deferral of wash sales and post-October losses, net operating losses and expiring capital loss carryovers.

E. New Accounting Pronouncements – During the year ending September 30, 2008, the Fund instituted Financial Accounting Standards Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement No. 109 (FIN 48) with the impact of such adoption being recognized on March 31, 2008 in accordance with guidance provided by the Securities and Exchange Commission. FIN 48 did not have a material effect on the net asset value, financial condition or results of operations of the Fund as there was no liability required for the recognition of unrecognized tax benefits during the year, nor were there any such liabilities to be recorded to the beginning net asset value of the Fund. The Fund is subject to examination by U.S. federal, state and foreign tax authorities for returns filed for years after 2003.

In September 2006, FASB issued Statement on Financial Accounting Standards (SFAS) No. 157, “Fair Value Measurements.” SFAS No. 157 defines fair value for purposes of financial statement presentation, establishes a hierarchy for measuring fair value in accordance with generally accepted accounting principles and expands financial statement disclosures about fair value measurements that are relevant to mutual funds. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. The Fund will institute SFAS No. 157 during 2008 and its potential impact, if any, on its financial statements is currently being assessed by management.

In March 2008, FASB issued Statement of Financial Accounting Standards No. 161, “Disclosures about Derivative Instruments and Hedging Activities – an amendment of FASB Statement No. 133” (SFAS 161). SFAS 161 amends and expands disclosures about derivative instruments and hedging activities. SFAS 161 requires qualitative disclosures about the objectives and strategies of derivative instruments, quantitative disclosures about the fair value amounts of and gains and losses on derivative instruments, and disclosures of credit-risk-related contingent features in hedging activities. SFAS 161 is effective for fiscal years beginning after November 15, 2008. The Fund will institute SFAS 161 during 2009 and its potential impact, if any, on its financial statements is currently being assessed by management.

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

NOTE 2 – Investment Management and Payments to Affiliated Persons

Waddell & Reed Investment Management Company (WRIMCO), a wholly owned subsidiary of Waddell & Reed, Inc. (W&R), serves as the Fund's investment manager. The Fund pays a fee for investment management services. The fee is computed and paid daily based on the net asset value at the close of business. Until September 30, 2006, the fee was payable by the Fund at the annual rates of: 0.525% of net assets up to \$500 million, 0.50% of net assets over \$500 million and up to \$1 billion, 0.45% of net assets over \$1 billion and up to \$1.5 billion, and 0.40% of net assets over \$1.5 billion. Effective October 1, 2006, under terms of a settlement agreement reached in July 2006 (see Note 7), the fee is payable as follows: 0.485% of net assets up to \$500 million, 0.50% of net assets over \$500 million and up to \$1 billion, 0.45% of net assets over \$1 billion and up to \$1.5 billion, and 0.40% of net assets over \$1.5 billion. During the six-month period ended March 31, 2008, the amount waived (in thousands) was \$100.

The Fund has an Accounting Services Agreement with Waddell & Reed Services Company (WRSCO), a wholly owned subsidiary of W&R. Under the agreement, WRSCO acts as the agent in providing accounting services and assistance to the Fund and pricing daily the value of shares of the Fund. For these services, the Fund pays WRSCO a monthly fee of one-twelfth of the annual fee shown in the following table:

Accounting Services Fee

Average Net Asset Level (in millions)	Annual Fee Rate for Each Level
From \$ 0 to \$ 10	\$ 0
From \$ 10 to \$ 25	\$ 11,500
From \$ 25 to \$ 50	\$ 23,100
From \$ 50 to \$ 100	\$ 35,500
From \$100 to \$ 200	\$ 48,400
From \$200 to \$ 350	\$ 63,200
From \$350 to \$ 550	\$ 82,500
From \$550 to \$ 750	\$ 96,300
From \$750 to \$1,000	\$121,600
\$1,000 and Over	\$148,500

In addition, for each class of shares in excess of one, the Fund pays WRSCO a monthly per-class fee equal to 2.5% of the monthly accounting services base fee.

The Fund also pays monthly a fee at the annual rate of 0.01% or one basis point for the first \$1 billion of net assets with no fee charged for net assets in excess of \$1 billion.

For Class A, Class B and Class C shares, the Fund pays WRSCO a monthly per account charge for shareholder servicing of \$1.6958 for each shareholder account which is non-networked and which was in existence at any time during the prior month; however, WRSCO has agreed to reduce that fee if the number of total shareholder accounts within the Complex (Waddell & Reed Advisors Funds, Waddell & Reed InvestEd Portfolios, Inc., Ivy Funds and Ivy Funds, Inc.) reaches certain levels. For certain networked accounts (that is, those shareholder accounts whose Fund shares are purchased through certain financial intermediaries), WRSCO has agreed to reduce its per account fees charged to the Fund to \$0.50 per month per shareholder account. Additional fees may be paid by the Fund to those intermediaries. For Class Y shares, the Fund pays WRSCO a monthly fee equal to one-twelfth of 0.15 of 1% of the average daily net assets of Class Y of the Fund for the preceding month. The Fund also reimburses W&R and WRSCO for certain out-of-pocket costs for all classes.

As principal underwriter for the Fund's shares, W&R received gross sales commissions for Class A shares (which are not an expense of the Fund) of \$299,827. A contingent deferred sales charge (CDSC) may be assessed against a shareholder's redemption amount of Class A, Class B and Class C shares and paid to W&R. During the six-month period ended March 31, 2008, W&R received \$234, \$5,758 and \$3,802 in CDSC for Class A, Class B and Class C shares, respectively. With respect to Class A, Class B and Class C shares, W&R paid sales commissions of \$233,344 and all expenses in connection with the sale of Fund shares, except for registration fees and related expenses.

Under a Distribution and Service Plan for Class A shares adopted by the Fund pursuant to Rule 12b-1 under the Investment Company Act of 1940, the Fund may pay monthly a distribution and/or service fee to W&R in an amount not to exceed 0.25% of the Fund's Class A average annual net assets. The fee is to be paid to reimburse W&R for amounts it expends in connection with the distribution of the Class A shares and/or provision of personal services to Fund shareholders and/or maintenance of shareholder accounts.

Under the Distribution and Service Plan adopted by the Fund for Class B and Class C shares, respectively, the Fund may pay W&R a service fee of up to 0.25%, on an annual basis, of the average daily net assets of the class to compensate W&R for providing services to shareholders of

that class and/or maintaining shareholder accounts for that class and a distribution fee of up to 0.75%, on an annual basis, of the average daily net assets of the class to compensate W&R for distributing the shares of that class.

During the six-month period ended March 31, 2008, the Fund paid Directors' regular compensation of \$19,259, which is included in other expenses.

W&R is a subsidiary of Waddell & Reed Financial, Inc., a public holding company, and a direct subsidiary of Waddell & Reed Financial Services, Inc., a holding company.

NOTE 3 – Investment Security Transactions

Purchases of investment securities, other than U.S. government obligations and short-term securities, aggregated \$64,723,187, while proceeds from maturities and sales aggregated \$65,538,599. Purchases of short-term securities aggregated \$463,929,340, while proceeds from maturities and sales aggregated \$466,379,828. No U.S. government obligations were purchased or sold during the six-month period ended March 31, 2008.

For Federal income tax purposes, cost of investments owned at March 31, 2008 was \$509,760,797, resulting in net unrealized depreciation of \$26,935,696, of which \$7,629,233 related to appreciated securities and \$34,564,929 related to depreciated securities.

NOTE 4 – Federal Income Tax Matters

For Federal income tax purposes, the Fund's distributed and undistributed earnings and profit for the fiscal year ended September 30, 2007 and the related net capital losses and post-October activity were as follows:

Net ordinary income	\$23,412,410
Distributed ordinary income	23,375,087
Undistributed ordinary income*	510,729
Realized long-term capital gains	—
Distributed long-term capital gains	—
Undistributed long-term capital gains	—
Net capital losses	419,822
Post-October losses deferred	—

*This entire amount was distributed prior to March 31, 2008.

Internal Revenue Code regulations permit the Fund to defer into its next fiscal year net capital losses or net long-term capital losses incurred between each November 1 and the end of its fiscal year (post-October losses).

Capital loss carryovers are available to offset future realized capital gain net income incurred in the 8 taxable years succeeding the loss year for Federal income tax purposes. The following shows the totals by year in which the capital loss carryovers will expire if not utilized.

September 30, 2009	\$ 4,281,239
September 30, 2010	11,473,462
September 30, 2011	3,929,709
September 30, 2012	4,152,198
September 30, 2013	5,048,012
September 30, 2015	419,822
Total carryover	<u>\$29,304,442</u>

NOTE 5 – Multiclass Operations

The Fund currently offers three classes of shares, Class A, Class B and Class C, each of which have equal rights as to assets and voting privileges. Class Y shares, which are not subject to a sales charge on purchases, are not subject to a Rule 12b–1 Distribution and Service Plan and are subject to a separate shareholder servicing fee structure, were closed to new and additional investments. A comprehensive discussion of the terms under which shares of each class are offered is contained in the Prospectus and the Statement of Additional Information for the Fund.

Income, non-class specific expenses, and realized and unrealized gains and losses are allocated daily to each class of shares based on the value of their relative net assets as of the beginning of each day adjusted for the prior day's capital share activity. Transactions in capital stock are summarized below. Amounts are in thousands.

	For the six months ended March 31, 2008	For the fiscal year ended September 30, 2007
Shares issued from sale of shares:		
Class A	8,227	19,555
Class B	35	161
Class C	394	1,105
Class Y	—*	8
Shares issued from reinvestment of dividends and/or capital gains distribution:		
Class A	1,983	3,609
Class B	19	40
Class C	50	94
Class Y	1	1
Shares redeemed:		
Class A	(9,460)	(15,428)
Class B	(160)	(272)
Class C	(428)	(998)
Class Y	(—)*	(—)*
Increase in outstanding capital shares	661	7,875

*Not shown due to rounding.

	For the six months ended March 31, 2008	For the fiscal year ended September 30, 2007
(Continued)		
Value issued from sale of shares:		
Class A	\$40,125	\$99,401
Class B	173	819
Class C	1,912	5,621
Class Y	—*	43
Value issued from reinvestment of dividends and/or capital gains distribution:		
Class A	9,664	18,288
Class B	93	205
Class C	245	475
Class Y	4	6
Value redeemed:		
Class A	(46,179)	(78,247)
Class B	(784)	(1,384)
Class C	(2,089)	(5,063)
Class Y	(—)*	(—)*
Increase in outstanding capital	<u>\$ 3,164</u>	<u>\$40,164</u>

*Not shown due to rounding.

NOTE 6 – Inverse Floating Rate Obligations Issued by the Trust

The Fund may invest in inverse floating rate obligations. In this situation, a fixed-rate tax-exempt municipal bond owned by the Fund is transferred to a trust. The trust typically issues two classes of beneficial interests: short-term floating rate trust certificates (trust certificates), which are sold to third party investors, and residual interest certificates, which are generally issued to the Fund which made the transfer.

The transfer of the fixed-rate tax-exempt municipal bond to the trust does not qualify for sale treatment under Statement of Financial Accounting Standards No. 140 “Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities”. Therefore, this security is presented in the Fund’s schedule of investments. Interest income on this underlying security is recorded by the Fund on an accrual basis. The trust certificates are reflected as a Fund liability. Interest expense incurred on the secured borrowing and other expenses related to remarketing, administration and trustee services to the trust are reported as expenses of the Fund. The trust certificates have interest rates that generally reset weekly and their holders have the option to tender certificates to the trust for redemption at par at each reset date.

NOTE 7 – Regulatory and Litigation Matters

On July 24, 2006, WRIMCO, W&R and WRSCO (collectively, Waddell & Reed) reached a settlement with each of the SEC, the New York Attorney General (NYAG) and the Securities Commissioner of the State of Kansas to resolve proceedings brought by each regulator in connection with its investigation of frequent trading and market timing in certain Waddell & Reed Advisors Funds.

Under the terms of the SEC’s cease-and desist order (SEC Order), pursuant to which Waddell & Reed neither admitted nor denied any of the findings contained therein, among other provisions Waddell & Reed has agreed to: pay \$40 million in disgorgement and \$10 million in civil money

penalties; cease and desist from violations of the antifraud provisions and certain other provisions of the federal securities laws; maintain certain compliance and ethics oversight structures; retain an independent consultant to periodically review Waddell & Reed's supervisory, compliance, control and other policies and procedures; and retain an independent distribution consultant (described below). According to the SEC Order, the SEC found that some market timers made profits in some of the Waddell & Reed Advisors Funds, and that this may have caused some dilution in those Funds. Also, the SEC found that Waddell & Reed failed to make certain disclosures to the Waddell & Reed Advisors Funds' Boards of Directors and shareholders regarding the market timing activity and Waddell & Reed's acceptance of service fees from some market timers.

The Assurance of Discontinuance with the NYAG (NYAG Settlement), pursuant to which Waddell & Reed neither admitted nor denied any of the findings contained therein, among its conditions requires that Waddell & Reed: reduce the aggregate investment management fees paid by certain of the Waddell & Reed Advisors Funds and by certain of the W&R Target Funds, Inc. (the Funds) by \$5 million per year for five years, for a projected total of \$25 million in investment management fee reductions; bear the costs of an independent fee consultant to be retained by the Funds to review and consult regarding the Funds' investment management fee arrangements; and make additional investment management fee-related disclosures to Fund shareholders. The NYAG Settlement also effectively requires that the Funds implement certain governance measures designed to maintain the independence of the Funds' Boards of Directors and appoint an independent compliance consultant responsible for monitoring the Funds' and WRIMCO's compliance with applicable laws.

The consent order issued by the Securities Commissioner of the State of Kansas (Kansas Order), pursuant to which Waddell & Reed neither admitted nor denied any of the findings contained therein, requires Waddell & Reed to pay a fine of \$2 million to the Office of the Commissioner.

The SEC Order further requires that the \$50 million in settlement amounts described above will be distributed in accordance with a distribution plan developed by an independent distribution consultant, in consultation with Waddell & Reed, and that is agreed to by the SEC staff and the Funds' Disinterested Directors. The SEC Order requires that the independent distribution consultant develop a methodology and distribution plan pursuant to which Fund shareholders shall receive their proportionate share of losses, if any, suffered by the Funds due to market timing. Therefore, it is not currently possible to specify which particular Fund shareholders or groups of Fund shareholders will receive distributions of those settlement monies or in what proportion and amounts.

The foregoing is only a summary of the SEC Order, NYAG Settlement and Kansas Order. A copy of the SEC Order is available on the SEC's website at www.sec.gov. A copy of the SEC Order, NYAG Settlement and Kansas Order is available as part of the Waddell & Reed Financial, Inc. Form 8-K as filed on July 24, 2006.

In addition, pursuant to the terms of agreement in the dismissal of separate litigation, Waddell & Reed has also agreed to extend the reduction in the aggregate investment management fees paid by the Funds, as described above, for an additional five years.

Proxy Voting Information

Proxy Voting Guidelines

A description of the policies and procedures Waddell & Reed Advisors Group of Mutual Funds uses to determine how to vote proxies relating to portfolio securities is available (i) without charge, upon request, by calling 1.888.WADDELL and (ii) on the Securities and Exchange Commission's (SEC) website at www.sec.gov.

Proxy Voting Records

Information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available on Form N-PX through Waddell & Reed's website at www.waddell.com and on the SEC's website at www.sec.gov.

Quarterly Portfolio Schedule Information

A complete schedule of portfolio holdings for the first and third quarters of each fiscal year will be filed with the Securities and Exchange Commission (SEC) on the Fund's Form N-Q. This form may be obtained in the following ways:

- On the SEC's website at www.sec.gov.
- For review and copy at the SEC's Public Reference Room in Washington, DC. Information on the operations of the Public Reference Room may be obtained by calling 1.800.SEC.0330.
- On Waddell & Reed's website at www.waddell.com.
