The Funds

Dreyfus 100% U.S. Treasury Money Market Fund

Ticker Symbol: **DUSXX**

Dreyfus U.S. Treasury Intermediate Term Fund

Ticker Symbol: **DRGIX**

Dreyfus U.S. Treasury Long Term Fund

Ticker Symbol: **DRGBX**

INTRODUCTION

This combined prospectus has been prepared for your convenience so that you can consider three investment choices in one document. Each fund is a separate entity with a separate investment portfolio. The operations and results of a fund are unrelated to those of each other fund. The funds differ in their average portfolio maturity and effective duration, which affects their level of income and degree of share price fluctuation.

Each of the Intermediate Term Fund and the Long Term Fund seeks to maximize total return, consisting of capital appreciation and current income. The Money Market Fund seeks as high a level of current income as is consistent with the preservation of capital and the maintenance of liquidity. To pursue its goal, each fund invests primarily, and in the case of the Money Market Fund, solely, in U.S. Treasury securities.

What these funds are – and aren't

These funds are mutual funds: pooled investments that are professionally managed and give you the opportunity to participate in financial markets. They strive to reach their stated goals, although as with all mutual funds, they cannot offer guaranteed results.

An investment in these funds is not a bank deposit. It is not insured or guaranteed by the FDIC or any other government agency. It is not a complete investment program. You could lose money in these funds, but you also have the potential to make money.

Dreyfus U.S. Treasury Funds

GOAL/APPROACH

Dreyfus 100% U.S. Treasury Money Market Fund

The **Money Market Fund** seeks to maintain a stable share price of \$1.00. It invests only in U.S. Treasury securities. As a money market fund, it is subject to strict federal requirements and must maintain a dollar-weighted average portfolio maturity of 90 days or less and buy individual securities that have remaining maturities of 13 months or less.

Dreyfus U.S. Treasury Intermediate Term Fund

The **Intermediate Term Fund** seeks to maximize total return, consisting of capital appreciation and current income, by investing at least 80% of its assets in U.S. Treasury securities. The fund also may invest in other securities issued or guaranteed by the U.S. government or its agencies or instrumentalities (including inflation-indexed bonds), and may enter into repurchase agreements and options and futures transactions. Under normal market conditions, the fund maintains an effective duration between 2.5 and 6 years, and a dollar-weighted average portfolio maturity between 3 and 10 years.

Dreyfus U.S. Treasury Long Term Fund

The **Long Term Fund** seeks to maximize total return, consisting of capital appreciation and current income, by investing at least 80% of its assets in U.S. Treasury securities. The fund also may invest in other securities issued or guaranteed by the U.S. government or its agencies or instrumentalities (including inflation-indexed bonds), and may enter into repurchase agreements and options and futures transactions. Under normal market conditions, the fund maintains an effective duration of 7.5 years or more, and a dollar-weighted average portfolio maturity of 10 years or more.

The Intermediate Term and Long Term funds may, but are not required to, use derivatives, such as options, futures and options on futures, as a substitute for taking a position in an underlying asset, to manage interest rate risk, to increase returns, or as part of a hedging strategy.

Concepts to understand

U.S. Treasury securities: negotiable debt obligations of the U.S. government, the principal and interest of which are secured by the full faith and credit of the United States. Neither the market value of U.S. Treasury securities, nor a fund's share price, is guaranteed. The income from U.S. Treasury securities is exempt from state and local, but not federal, taxes.

Duration: an indication of an investment's "interest rate risk," or how sensitive a bond or mutual fund portfolio may be to changes in interest rates. Generally, the longer a fund's duration, the more it will react to interest rate fluctuations.

Dollar-weighted average maturity: the length of time, in days or years, until the securities held by a fund, on average, will mature or be redeemed by its issuer. The average maturity is weighted according to the dollar amounts invested in the various securities held by a fund.

Inflation-indexed securities: fixed-income securities designed to protect investors from a loss of value due to inflation by periodically adjusting their principal and/or coupon according to the rate of inflation.

Repurchase agreement: a U.S. commercial bank or securities dealer sells securities, typically U.S. government securities, to a fund and agrees to repurchase them at an agreed-upon date (usually the next day) and price. These agreements offer the Intermediate Term and Long Term funds a means of investing money for a short period of time.

MAIN RISKS

Each fund's principal risks are discussed below. The value of your investment in a fund may fluctuate, which means you could lose money.

- *Interest rate risk.* Prices of bonds tend to move inversely with changes in interest rates. Typically, a rise in rates will adversely affect bond prices and, accordingly, a fund's share price. The longer a fund's maturity and effective duration, the more its share price is likely to react to interest rates. While the Money Market Fund has maintained a constant share price of \$1.00 since inception, and will continue to try to do so, a sharp rise in interest rates could reduce the income level and/or share price of this fund, as well as the other funds.
- *Credit risk.* Failure of an issuer to make timely interest or principal payments, or a decline or perception of a decline in the credit quality of a bond, can cause a bond's price to fall, potentially lowering a fund's share price. Securities issued by the U.S. Treasury and other government agencies generally present minimal credit risk. However, repurchase agreements, in which the Intermediate Term and Long Term funds may enter, involve the risk of a default or insolvency of the other party to the agreement, including possible delays or restrictions upon a fund's ability to dispose of the underlying securities.
- *Market risk.* A security backed by the U.S. Treasury or the full faith and credit of the United States is guaranteed only as to timely payment of interest and principal when held to maturity. Neither the market value of such securities nor a fund's share price is guaranteed.
- *Derivatives risk.* Both the Intermediate Term and Long Term funds may invest in derivative instruments, such as options, futures and options on futures (including those relating to interest rates). A small investment in derivatives could have a potentially large impact on the performance of the Intermediate Term or Long Term fund. The use of derivatives involves risks different from, or possibly greater than, the risks associated with investing directly in the underlying assets. Derivatives can be highly volatile, illiquid and difficult to value, and there is the risk that changes in the value of a derivative held by the Intermediate Term or Long Term fund will not correlate with such fund's other investments.
- *Inflation-indexed bond risk.* Interest payments on inflation-indexed bonds can be unpredictable and will vary as the principal and/or interest is periodically adjusted based on the rate of inflation. If the index measuring inflation falls, the interest payable on these securities will be reduced. The U.S. Treasury has guaranteed that in the event of a drop in prices, it would repay the par amount of its inflation-indexed bonds. Any increase in the principal amount of an inflation-indexed bond will be considered taxable ordinary income, even though investors do not receive their principal until maturity. As a result, the Intermediate Term Fund or Long Term Fund may be required to make annual distributions to shareholders that exceed the cash the fund received, which may cause the fund to liquidate certain investments when it is not advantageous to do so. Also, if the principal value of an inflation-indexed bond is adjusted downward due to deflation, amounts previously distributed may be characterized in some circumstances as a return of capital.

- *Government securities risk.* Not all obligations of the U.S. government, its agencies and instrumentalities are backed by the full faith and credit of the U.S. Treasury. Some obligations, such as those issued by the Federal National Mortgage Association and the Federal Home Loan Mortgage Corporation, are backed only by the credit of the issuing agency or instrumentality, and in some cases there may be some risk of default by the issuer. Any guarantee by the U.S. government or its agencies or instrumentalities of a security held by the Intermediate Term Fund or Long Term Fund does not apply to the market value of such security or to shares of the fund itself. In addition, because many types of U.S. government securities trade actively outside the U.S., their prices may rise and fall as changes in global economic conditions affect the demand for these securities.
- *Leveraging risk.* The Intermediate Term or Long Term fund's use of leverage, such as engaging in reverse repurchase agreements, lending portfolio securities and engaging in forward commitment transactions, will magnify the gains or losses.

Other potential risks

Each fund may lend its portfolio securities to brokers, dealers and other financial institutions. In connection with such loans, the fund will receive collateral from the borrower equal to at least 100% of the value of the loaned securities. Should the borrower of the securities fail financially, the fund may experience delays in recovering the loaned securities or exercising its rights in the collateral.

The Intermediate Term and Long Term funds may engage in short-term trading, which could produce higher transaction costs and taxable distributions, and lower the fund's after-tax performance.

PAST PERFORMANCE

Dreyfus 100% U.S. Treasury Money Market Fund

The bar chart and table shown illustrate the risks of investing in the fund. The bar chart shows the changes in the fund's performance from year to year. The table shows the fund's average annual total returns over time. All returns assume reinvestment of dividends and distributions. Of course, past performance is no guarantee of future results.

Year-by-year total returns *as of 12/31 each year (%)*

Average annual total returns *as of 12/31/03*

The fund's year-to-date total return as of 3/31/04 was 0.07%.

Dreyfus U.S. Treasury
Intermediate Term Fund

The bar chart and table shown illustrate the risks of investing in the fund. The bar chart shows the changes in the fund's performance from year to year. The table shows the fund's average annual total returns compared to those of the Merrill Lynch Governments, U.S. Treasury, Intermediate Term Index, an unmanaged index tracking the performance of Treasury securities with maturities of 1-10 years. All returns assume reinvestment of dividends and distributions. Of course, past performance is no guarantee of future results.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates, and do not reflect the impact of state and local taxes. Actual after-tax returns depend on the investor's tax situation and may differ from those shown, and the after-tax returns shown are not relevant to investors who hold their shares through tax-deferred arrangements such as 401(k) plans or individual retirement accounts.

Average annual total returns as of 12/31/03			
	1 Year	5 Years	10 Years
Fund			
returns before taxes	3.17%	5.65%	5.74%
Fund			
returns after taxes on distributions	1.91%	3.55%	3.28%
Fund			
returns after taxes on distributions and sale of fund shares	2.06%	3.49%	3.31%
Merrill Lynch Governments, U.S. Treasury, Intermediate Term Index			
reflects no deduction for fees, expenses or taxes	2.13%	5.93%	6.21%

The fund's year-to-date total return as of 3/31/04 was -0.22%.

Dreyfus U.S. Treasury Long Term Fund

The bar chart and table shown illustrate the risks of investing in the fund. The bar chart shows the changes in the fund's performance from year to year. The table shows the fund's average annual total returns compared to those of the Merrill Lynch Governments, U.S. Treasury, Long-Term Index, an unmanaged index tracking the performance of Treasury securities with maturities of 10 years and over. All returns assume reinvestment of dividends and distributions. Of course, past performance is no guarantee of future results.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates, and do not reflect the impact of state and local taxes. Actual after-tax returns depend on the investor's tax situation and may differ from those shown, and the after-tax returns shown are not relevant to investors who hold their shares through tax-deferred arrangements such as 401(k) plans or individual retirement accounts.

Average annual total returns as of 12/31/03			
	1 Year	5 Years	10 Years
Fund <i>returns before taxes</i>	4.47%	5.24%	6.21%
Fund <i>returns after taxes on distributions</i>	3.02%	3.25%	3.88%
Fund <i>returns after taxes on distributions and sale of fund shares</i>	2.90%	3.21%	3.81%
Merrill Lynch Governments, U.S. Treasury, Long-Term Index <i>reflects no deduction for fees, expenses or taxes</i>	2.48%	6.50%	7.91%

The fund's year-to-date total return as of 3/31/04 was -0.01%.

EXPENSES

Dreyfus 100% U.S. Treasury Money Market Fund

As an investor, you pay certain fees and expenses in connection with the fund, which are described in the following table. Annual fund operating expenses are paid out of fund assets, so their effect is included in the share price. The fund has no sales charge (load) or Rule 12b-1 distribution fees.

Fee table	
Annual fund operating expenses	
<i>% of average daily net assets</i>	
Management fees	0.50%
Shareholder services fee	0.08%
Other expenses	0.09%
Total	0.67%

Expense example			
1 Year	3 Years	5 Years	10 Years
\$68	\$214	\$373	\$835

This example shows what you could pay in expenses over time. It uses the same hypothetical conditions other funds use in their prospectuses: \$10,000 initial investment, 5% total return each year and no changes in expenses. The figures shown would be the same whether you sold your shares at the end of a period or kept them. Because actual returns and expenses will be different, the example is for comparison only.

Concepts to understand

Management fee: the fee paid to Dreyfus for managing the fund's portfolio and assisting in all aspects of the fund's operations.

From time to time, Dreyfus may limit expenses to the extent it deems appropriate to enhance the yield of the fund during periods when fixed expenses have a significant impact on the fund's yield because of low interest rates. This expense limitation policy is voluntary and temporary and may be revised or terminated by Dreyfus at any time without notice.

Shareholder services fee: a fee of up to 0.25% used to reimburse the fund's distributor for shareholder account service and maintenance.

Other expenses: fees paid by the fund for miscellaneous items such as transfer agency, custody, professional and registration fees.

Dreyfus U.S. Treasury Intermediate Term Fund

As an investor, you pay certain fees and expenses in connection with the fund, which are described in the following table. Annual fund operating expenses are paid out of fund assets, so their effect is included in the share price. The fund has no sales charge (load) or Rule 12b-1 distribution fees.

Fee table	
Annual fund operating expenses	
<i>% of average daily net assets</i>	
Management fees	0.60%
Shareholder services fee	0.11%
Other expenses	0.21%
Total	0.92%

Expense example			
1 Year	3 Years	5 Years	10 Years
\$94	\$293	\$509	\$1,131
<p>This example shows what you could pay in expenses over time. It uses the same hypothetical conditions other funds use in their prospectuses: \$10,000 initial investment, 5% total return each year and no changes in expenses. The figures shown would be the same whether you sold your shares at the end of a period or kept them. Because actual returns and expenses will be different, the example is for comparison only.</p>			

Concepts to understand

Management fee: the fee paid to Dreyfus for managing the fund's portfolio and assisting in all aspects of the fund's operations.

For the fiscal year ended December 31, 2003, Dreyfus waived a portion of its fee so that the effective management fee paid by the fund was 0.48%, reducing total expenses from 0.92% to 0.80%. This waiver was voluntary.

Shareholder services fee: a fee of up to 0.25% used to reimburse the fund's distributor for shareholder account service and maintenance.

Other expenses: fees paid by the fund for miscellaneous items such as transfer agency, custody, professional and registration fees.

Dreyfus U.S. Treasury
Long Term Fund

As an investor, you pay certain fees and expenses in connection with the fund, which are described in the following table. Annual fund operating expenses are paid out of fund assets, so their effect is included in the share price. The fund has no sales charge (load) or Rule 12b-1 distribution fees.

Fee table

Other expenses	0.24%
Total	0.94%

Expense example			
1 Year	3 Years	5 Years	10 Years
\$96	\$300	\$520	\$1,155
This example shows what you could pay in expenses over time. It uses the same hypothetical conditions other funds use in their prospectuses: \$10,000 initial investment, 5% total return each year and no changes in expenses. The figures shown would be the same whether you sold your shares at the end of a period or kept them. Because actual returns and expenses will be different, the example is for comparison only.			

Concepts to understand

Management fee: the fee paid to Dreyfus for managing the fund's portfolio and assisting in all aspects of the fund's operations.

For the fiscal year ended December 31, 2003, Dreyfus waived a portion of its fee so that the effective management fee paid by the fund was 0.46%, reducing total expenses from 0.94% to 0.80%. This waiver was voluntary.

Shareholder services fee: a fee of up to 0.25% used to reimburse the fund's distributor for shareholder account service and maintenance.

Other expenses: fees paid by the fund for miscellaneous items such as transfer agency, custody, professional and registration fees.

MANAGEMENT

The investment adviser for each fund is The Dreyfus Corporation (Dreyfus), 200 Park Avenue, New York, New York 10166. Founded in 1947, Dreyfus manages approximately \$165 billion in approximately 200 mutual fund portfolios. For the past fiscal year, the Money Market Fund, Intermediate Term Fund and Long Term Fund paid Dreyfus a monthly management fee at the effective annual rate of 0.50%, 0.48% and 0.46%, respectively, of the fund's average daily net assets. Dreyfus is the primary mutual fund business of Mellon Financial Corporation (Mellon Financial), a global financial services company with approximately \$3.6 trillion of assets under management, administration or custody, including approximately \$679 billion under management. Mellon Financial provides financial services for institutions, corporations and individuals, offering institutional asset management, mutual funds, private wealth management, asset servicing, human resources services and treasury services. Mellon Financial is headquartered in Pittsburgh, Pennsylvania.

On March 30, 2004, Mellon Bank, N.A., a wholly owned subsidiary of Mellon and the then-current parent company of Dreyfus, transferred its entire interest in Dreyfus, including Dreyfus Service Corporation (each fund's distributor) and all of Dreyfus' other direct and indirect subsidiaries, to Mellon Financial. The reorganization did not result in a change in the control or management of Dreyfus under the Investment Advisers Act of 1940, as amended, or the Investment Company Act of 1940, as amended (the 1940 Act); Dreyfus merely became a direct, rather than indirect, wholly owned subsidiary of Mellon Financial. The reorganization was part of a larger reorganization of Mellon Financial that is expected to increase organizational synergies and create a more efficient capital structure throughout the organization.

The Dreyfus asset management philosophy is based on the belief that discipline and consistency are important to investment success. For each fund, Dreyfus seeks to establish clear guidelines for portfolio management and to be systematic in making decisions. This approach is designed to provide each fund with a distinct, stable identity.

Gerald Thunelius has been the primary portfolio manager of the Intermediate Term Fund and Long Term Fund since 1994 and has been employed by Dreyfus since May 1989.

Each fund, Dreyfus and Dreyfus Service Corporation have each adopted a code of ethics that permits its personnel, subject to such code, to invest in securities, including securities that may be purchased or held by the fund. The Dreyfus code of ethics restricts the personal securities transactions of its employees, and requires portfolio managers and other investment personnel to comply with the code's preclearance and disclosure procedures. The primary purpose of the code is to ensure that personal trading by Dreyfus employees does not disadvantage any Dreyfus-managed fund.

Two class actions have been filed against Mellon Financial and Mellon Bank, N.A., and Dreyfus and Founders Asset Management LLC (the Investment Advisers), and the directors of all or substantially all of the Dreyfus funds, alleging that the Investment Advisers improperly used assets of the Dreyfus funds, in the form of directed brokerage commissions and 12b-1 fees, to pay brokers to promote sales of Dreyfus funds, and that the use of fund assets to make these payments was not properly disclosed to investors. The complaints further allege that the directors breached their fiduciary duties to fund shareholders under the 1940 Act and at common law. The complaints seek unspecified compensatory and punitive damages, rescission of the funds' contracts with the Investment Advisers, an accounting of all fees paid, and an award of attorneys' fees and litigation expenses. Dreyfus and the Dreyfus funds believe the allegations to be totally without merit and will defend the actions vigorously.

Additional lawsuits arising out of these circumstances and presenting similar allegations and requests for relief may be filed against the defendants in the future. Neither Dreyfus nor the Dreyfus funds believe that any of the pending actions will have a material adverse effect on the Dreyfus funds or Dreyfus' ability to perform its contract with the Dreyfus funds.

FINANCIAL HIGHLIGHTS

The following tables describe each fund's performance for the fiscal periods indicated. "Total return" shows how much your investment in the fund would have increased (or decreased) during each period, assuming you had reinvested all divi-

dends and distributions. These figures have been independently audited by Ernst & Young LLP, whose report, along with the fund's financial statements, is included in the annual report, which is available upon request.

Per-share data and ratios/supplemental data for periods prior to January 1, 2001 have not been restated to reflect this change in presentation.

² Based on average shares outstanding at each month end.

Your Investment

ACCOUNT POLICIES

Buying shares

You pay **no sales charges** to invest in these funds. Your price for fund shares is the net asset value per share (NAV), which is generally calculated as of the close of trading on the New York Stock Exchange (usually 4:00 p.m. Eastern time) on days the exchange is open for regular business. Your order will be priced at the next NAV calculated after your order is accepted by the fund's transfer agent or other authorized entity. The Money Market Fund's investments are valued based on amortized cost. The Intermediate Term and Long Term funds' investments are valued generally by using available market quotations or at fair value which may be determined by an independent pricing service approved by the respective fund's board.

Third-party investments

If you invest through a third party (rather than directly with Dreyfus), the policies and fees may be different than those described herein. Banks, brokers, 401(k) plans, financial advisers and financial supermarkets may charge transaction fees and may set different minimum investments or limitations on buying or selling shares.

In addition, such third parties may receive payments from Dreyfus in connection with their offering of fund shares to their customers, or for marketing, distribution or other services. The receipt of such payments could create an incentive for the third party to offer the funds instead of other mutual funds where such payments are not received. Consult a representative of your plan or financial institution for further information.

Minimum investments

	Initial	Additional
Regular accounts	\$2,500	\$100
Traditional IRAs	\$750	no minimum
Spousal IRAs	\$750	no minimum
Roth IRAs	\$750	no minimum
Education Savings Accounts	\$500	no minimum <i>after first year</i>
Dreyfus automatic investment plans	\$100	\$100

All investments must be in U.S. dollars. Third-party checks cannot be accepted. You may be charged a fee for any check that does not clear.

Concepts to understand

Net asset value (NAV): a mutual fund's share price on a given day. A fund's NAV is calculated by dividing the value of its net assets by the number of existing shares.

Amortized cost: a method of valuing a money market fund's portfolio securities, which does not take into account unrealized gains or losses. As a result, portfolio securities are valued at their acquisition cost, adjusted over time based on the discounts or premiums reflected in their purchase price. This method of valuation is designed to permit a money market fund to maintain a stable net asset value of \$1.00 per share.

Selling shares

You may sell (redeem) shares at any time. Your shares will be sold at the next NAV calculated after your order is accepted by the fund's transfer agent or other authorized entity. Any certificates representing fund shares being sold must be returned with your redemption request. Your order will be processed promptly and you will generally receive the proceeds within a week.

Before selling or writing a check against shares recently purchased by check, Dreyfus TeleTransfer or Automatic Asset Builder, please note that:

- if you send a written request to sell such shares, the fund may delay sending the proceeds (or selling the shares in the case of the Money Market fund) for up to eight business days following the purchase of those shares
- the fund will not honor redemption checks, or process wire, telephone, online or Dreyfus TeleTransfer redemption requests, for up to eight business days following the purchase of those shares

Limitations on selling shares by phone or online through Dreyfus.com

Proceeds sent by	Minimum phone/online	Maximum phone/online
Check*	no minimum	\$250,000 per day
Wire	\$1,000	\$500,000 for joint accounts every 30 days/ \$20,000 per day
Dreyfus TeleTransfer	\$500	\$500,000 for joint accounts every 30 days/ \$20,000 per day

* Not available online on accounts whose address has been changed within the last 30 days.

Written sell orders

Some circumstances require written sell orders along with signature guarantees. These include:

- amounts of \$10,000 or more on accounts whose address has been changed within the last 30 days
- requests to send the proceeds to a different payee or address

Written sell orders of \$100,000 or more must also be signature guaranteed.

A signature guarantee helps protect against fraud. You can obtain one from most banks or securities dealers, but not from a notary public. For joint accounts, each signature must be guaranteed. Please call us to ensure that your signature guarantee will be processed correctly.

General policies

Unless you decline teleservice privileges on your application, the funds' transfer agent is authorized to act on telephone or online instructions from any person representing himself or herself to be you and reasonably believed by the transfer agent to be genuine. You may be responsible for any fraudulent telephone or online order as long as the funds' transfer agent takes reasonable measures to confirm that instructions are genuine.

Excessive trading, short-term market timing or other abusive trading practices may disrupt portfolio management strategies and harm fund performance. Accordingly, each fund reserves the right to refuse any purchase or exchange request that could adversely affect the fund or its operations, including those from any individual or group who, in the fund's view, is likely to engage in excessive trading, short-term market timing or other abusive trading practices. Multiple accounts under common ownership or control may be considered as one account for purposes of determining a pattern of excessive trading, short-term market timing or other abusive trading practices. Transactions placed by suspected excessive traders may not be deemed accepted by the fund and may be cancelled or revoked by the fund on the next business day following receipt by the fund or its transfer agent. While each fund will take reasonable steps to prevent trading practices deemed to be harmful to the fund, it may not be able to identify such trading conducted through certain financial intermediaries or omnibus accounts.

Each fund also reserves the right to:

- refuse any purchase or exchange request
- change or discontinue its exchange privilege or temporarily suspend the privilege during unusual market conditions
- change its minimum investment amounts
- delay sending out redemption proceeds for up to seven days (generally applies only in cases of very large redemptions, excessive trading or during unusual market conditions)
- "redeem in kind," or make payments in securities rather than cash, if the amount you are redeeming is large enough to affect fund operations (for example, if it exceeds 1% of the fund's assets)

The Money Market Fund also may process purchase and sell orders and calculate its NAV on days that the fund's primary trading markets are open and the fund's management determines to do so.

Small account policies

To offset the relatively higher costs of servicing smaller accounts, each fund charges regular accounts with balances below \$2,000 an annual fee of \$12. The fee will be imposed during the fourth quarter of each calendar year.

The fee will be waived for: any investor whose aggregate Dreyfus mutual fund investments total at least \$25,000; IRA accounts; Education Savings Accounts; accounts participating in automatic investment programs; and accounts opened through a financial institution.

If your account falls below \$500, your fund may ask you to increase your balance. If it is still below \$500 after 30 days, the fund may close your account and send you the proceeds.

DISTRIBUTIONS AND TAXES

Each fund earns dividends, interest and other income from its investments, and distributes this income (less expenses) to shareholders as dividends. Each fund also realizes capital gains from its investments, and distributes these gains (less any losses) to shareholders as capital gain distributions. Each fund normally pays dividends monthly and capital gain distributions annually. Fund dividends and capital gain distributions will be reinvested in the fund unless you instruct the fund otherwise. There are no fees or sales charges on reinvestments.

Distributions paid by the fund are subject to federal income tax, and may be subject to state or local taxes (unless you are investing through a tax-advantaged retirement account). For federal tax purposes, in general, certain fund distributions, including distributions of short-term capital gains, are taxable to you as ordinary income. Other fund distributions, including dividends from U.S. companies and certain foreign companies and distributions of long-term capital gains, are taxable to you as qualified dividends and capital gains.

High portfolio turnover and more volatile markets can result in significant taxable distributions to shareholders, regardless of whether their shares have increased in value. The tax status of any distribution generally is the same regardless of how long you have been in the fund and whether you reinvest your distributions or take them in cash.

If you buy shares of a fund when the fund has realized but not yet distributed income or capital gains, you will be “buying a dividend” by paying the full price for the shares and then receiving a portion back in the form of a taxable distribution.

Your sale of shares, including exchanges into other funds, may result in a capital gain or loss for tax purposes. A capital gain or loss on your investment in the fund generally is the difference between the cost of your shares and the amount you receive when you sell them.

The tax status of your distributions will be detailed in your annual tax statement from the fund. Because everyone’s tax situation is unique, please consult your tax advisor before investing.

SERVICES FOR FUND INVESTORS

Automatic services

Buying or selling shares automatically is easy with the services described below. With each service, you select a schedule and amount, subject to certain restrictions. You can set up most of these services with your application or by calling 1-800-645-6561.

For investing

Dreyfus Automatic Asset Builder® For making automatic investments from a designated bank account.

Dreyfus Payroll Savings Plan For making automatic investments through a payroll deduction.

Dreyfus Government Direct Deposit Privilege For making automatic investments from your federal employment, Social Security or other regular federal government check.

Dreyfus Dividend Sweep For automatically reinvesting the dividends and distributions from one Dreyfus fund into another (not available for IRAs).

For exchanging shares

Dreyfus Auto-Exchange Privilege For making regular exchanges from one Dreyfus fund into another.

For selling shares

Dreyfus Automatic Withdrawal Plan For making regular withdrawals from most Dreyfus funds.

Dreyfus Financial Centers

Through a nationwide network of Dreyfus Financial Centers, Dreyfus offers a full array of investment services and products. This includes information on mutual funds, brokerage services, tax-advantaged products and retirement planning.

Experienced financial consultants can help you make informed choices and provide you with personalized attention in handling account transactions. The Financial Centers also offer informative seminars and events. To find the Financial Center nearest you, call **1-800-499-3327**.

Checkwriting privilege

You may write redemption checks against your account in amounts of \$500 or more. These checks are free; however, a fee will be charged if you request a stop payment or if the transfer agent cannot honor a redemption check due to insufficient funds or another valid reason. Please do not post-date your checks or use them to close your account.

Exchange privilege

You can exchange shares worth \$500 or more (no minimum for retirement accounts) from one Dreyfus fund into another. You can request your exchange in writing, by phone or online. Be sure to read the current prospectus for any fund into which you are exchanging before investing. Any new account established through an exchange will have the same privileges as your original account (as long as they are available). There is currently no fee for exchanges, although you may be charged a sales load when exchanging into any fund that has one.

Dreyfus TeleTransfer privilege

To move money between your bank account and your Dreyfus fund account with a phone call or online, use the Dreyfus TeleTransfer privilege. You can set up Dreyfus TeleTransfer on your account by providing bank account information and following the instructions on your application.

Dreyfus Express®

voice-activated account access

You can easily manage your Dreyfus accounts, check your account balances, purchase fund shares, transfer money between your Dreyfus funds, get price and yield information and much more — when it's convenient for you — by calling **1-800-645-6561**. Certain requests may require the services of a representative.

Retirement plans

Dreyfus offers a variety of retirement plans, including traditional and Roth IRAs, and Education Savings Accounts. Here's where you call for information:

- for traditional, rollover and Roth IRAs, and Education Savings Accounts, call **1-800-645-6561**
- for SEP-IRAs, Keogh accounts, 401(k) and 403(b) accounts, call **1-800-358-0910**

INSTRUCTIONS FOR REGULAR ACCOUNTS

TO OPEN AN ACCOUNT

In Writing

Complete the application.
Mail your application and a check to:
The Dreyfus Family of Funds
P.O. Box 55299, Boston, MA 02205-8553

TO ADD TO AN ACCOUNT

Fill out an investment slip, and write your account number on your check.
Mail the slip and the check to:
The Dreyfus Family of Funds
P.O. Box 105, Newark, NJ 07101-0105

TO SELL SHARES

Write a redemption check **or** letter of instruction that includes:

- your name(s) and signature(s)
- your account number
- the fund name
- the dollar amount you want to sell
- how and where to send the proceeds

Obtain a signature guarantee or other documentation, if required (see "Account Policies – Selling Shares").

Mail your request to:
The Dreyfus Family of Funds
P.O. Box 55263, Boston, MA 02205-8501

By Telephone

Wire Call us to request an account application and an account number. Have your bank send your investment to The Bank of New York, with these instructions:

DESCRIPTION OF THE FUNDS

The Money Market Fund, Intermediate Term Fund and Long Term Fund are each Massachusetts business trusts that originally commenced operations on March 27, 1987 as limited partnerships. On December 31, 1993, all of the assets and liabilities of each partnership were transferred to the corresponding Fund in exchange for shares of beneficial interest of the Fund. Each Fund is an open-end management investment company, known as a mutual fund. Each Fund is a diversified fund, which means that, with respect to 80% of its total assets, the Fund will not invest more than 5% of its assets in the securities of any single issuer nor hold more than 10% of the outstanding voting securities of any single issuer (other than, in each case, securities of other investment companies, and securities issued or guaranteed by the U.S. Government, its agencies or instrumentalities).

The Dreyfus Corporation (the "Manager") serves as each Fund's investment adviser.

Dreyfus Service Corporation (the "Distributor") is the distributor of each Fund's shares.

Certain Portfolio Securities

The following information supplements (except as noted) and should be read in conjunction with the Funds' Prospectus.

U.S. Treasury Securities. (All Funds) Each Term Fund normally invests at least 80% of its assets (plus any borrowings for investment purposes) and the Money Market Fund normally invests solely in U.S. Treasury securities. These securities include Treasury Bills, Treasury Notes and Treasury Bonds that differ in their interest rates, maturities and times of issuance. Treasury Bills have initial maturities of one year or less; Treasury Notes have initial maturities of one to ten years; and Treasury Bonds generally have initial maturities of greater than ten years.

The Term Funds may invest in U.S. Treasury securities that include Treasury Inflation-Protection Securities ("TIPS"), which are issued by the U.S. Treasury and are designed to provide investors a long term investment vehicle that is not vulnerable to inflation. The interest rate paid by TIPS is fixed, while the principal value rises or falls semi-annually based on changes in a published Consumer Price Index. Thus, if inflation occurs, the principal and interest payments on the TIPS are adjusted accordingly to protect investors from inflationary loss. During a deflationary period, the principal and interest payments decrease, although the TIPS' principal will not drop below its face amount at maturity.

In exchange for the inflation protection, TIPS generally pay lower interest rates than typical Treasury securities. Only if inflation occurs will TIPS offer a higher real yield than a conventional Treasury bond of the same maturity. Principal appreciation and interest payments on TIPS will be taxed annually as ordinary interest income for Federal income tax calculations. As a result, any appreciation in principal must be counted as interest income in the year the increase occurs, even though the investor will not receive such amounts until the TIPS are sold or mature. Principal appreciation and interest payments will be exempt from state and local income taxes.

U.S. Government Securities. (Term Funds only) Each Term Fund, in addition to U.S. Treasury securities, may invest in securities issued or guaranteed by U.S. Government agencies or instrumentalities. Some obligations issued or guaranteed by U.S. Government agencies and instrumentalities are supported by the full faith and credit of the Treasury; others by the right of the issuer to borrow from the Treasury; others by discretionary authority of the U.S. Government to purchase certain obligations of the agency or instrumentality; and others only by the credit of the agency or instrumentality. These securities bear fixed, floating or variable rates of interest. Interest may fluctuate based on generally recognized reference rates or the relationship of rates. While the U.S. Government currently provides financial support to such U.S. Government-sponsored agencies or instrumentalities, no assurance can be given that it will always do so, since it is not so obligated by law.

Repurchase Agreements. (Term Funds only) Each Term Fund may enter into repurchase agreements. In a repurchase agreement, the Term Fund buys, and the seller agrees to repurchase, a security at a mutually agreed upon time and price (usually within seven days). The repurchase agreement thereby determines the yield during the purchaser's holding period, while the seller's obligation to repurchase is secured by the value of the underlying security. A Term Fund's custodian or sub-custodian will have custody of, and will hold in a segregated account, securities acquired by the Term Fund under a repurchase agreement. Repurchase agreements are considered by the staff of the Securities and Exchange Commission to be loans by the Term Fund that enters into them. Repurchase agreements could involve risks in the event of a default or insolvency of the other party to the agreement, including possible delays or restrictions upon the Term Fund's ability to dispose of the underlying securities. In an attempt to reduce the risk of incurring a loss on a repurchase agreement, each Term Fund will enter into repurchase agreements only with domestic banks with total assets in excess of \$1 billion, or primary government securities dealers reporting to the Federal Reserve Bank of New York, with respect to securities of the type in which the Term Fund may invest, and will require that additional securities be deposited with it if the value of the securities purchased should decrease below resale price.

Zero Coupon, Pay-In-Kind and Step-up Securities. (Term Funds only) Each Term Fund may invest in zero coupon U.S. Treasury securities, which are Treasury Notes and Bonds that have been stripped of their unmatured interest coupons, the coupons themselves and receipts or certificates representing interests in such stripped debt obligations and coupons. A Term Fund also may invest in zero coupon securities issued by corporations and financial institutions which constitute a proportionate ownership of the issuer's pool of underlying U.S. Treasury securities. A zero coupon security pays no interest to its holder during its life and is sold at a discount to its face value at maturity. The amount of the discount fluctuates with the market price of the security. A Term Fund may invest in pay-in-kind bonds which are bonds which generally pay interest through the issuance of additional bonds. A Term Fund also may purchase step-up coupon bonds which are debt securities which typically do not pay interest for a specified period of time and then pay interest at a series of different rates. The market prices of these securities generally are more volatile and are likely to respond to a greater degree to changes in interest rates than the market prices of securities that pay cash interest periodically having similar maturities and credit qualities. In addition, unlike bonds that pay interest throughout the period to maturity, a Term Fund will realize no cash until the cash payment date unless a portion of such securities are sold and, if the issuer defaults, a Term Fund may obtain no return at all on its

investment. Federal income tax law requires the holder of a zero coupon security or of certain pay-in-kind or step-up bonds to accrue income with respect to these securities prior to the receipt of cash payments. To maintain its qualification as a regulated investment company and avoid liability for Federal income taxes, a Term Fund may be required to distribute such income accrued with respect to these securities and may have to dispose of portfolio securities under disadvantageous circumstances in order to generate cash to satisfy these distribution requirements.

Investment Companies. (Term Funds only) Each Term Fund may invest in securities issued by other investment companies. Under the Investment Company Act of 1940, as amended (the "1940 Act"), each Term Fund's investment in such securities, subject to certain exceptions, currently is limited to (i) 3% of the total voting stock of any one investment company, (ii) 5% of the Fund's total assets with respect to any one investment company and (iii) 10% of the Fund's total assets in the aggregate. As a shareholder of another investment company, the Fund would bear, along with other shareholders, its pro rata portion of the other investment company's expenses, including advisory fees. These expenses would be in addition to the advisory fees and other expenses that the Fund bears directly in connection with its own operations. Each Term Fund also may invest its uninvested cash reserves, or cash it receives as collateral from borrowers of its portfolio securities in connection with the Fund's securities lending program, in shares of one or more money market funds advised by the Manager. Such investments will not be subject to the limitations described above, except that a Term Fund's aggregate investment of uninvested cash reserves in such money market funds may not exceed 25% of its total assets. See "Lending Portfolio Securities."

Investment Techniques

The following information supplements (except as noted) and should be read in conjunction with the Funds' Prospectus.

Duration. (Term Funds only) As a measure of a fixed-income security's cash flow, duration is an alternative to the concept of "term to maturity" in assessing the price volatility associated with changes in interest rates. Generally, the longer the duration, the more volatility an investor should expect. For example, the market price of a bond with a duration of three years would be expected to decline 3% if interest rates rose 1%. Conversely, the market price of the same bond would be expected to increase 3% if interest rates fell 1%. The market price of a bond with a duration of six years would be expected to increase or decline twice as much as the market price of a bond with a three-year duration. Duration is a way of measuring a security's maturity in terms of the average time required to receive the present value of all interest and principal payments as opposed to its term to maturity. The maturity of a security measures only the time until final payment is due; it does not take account of the pattern of a security's cash flows over time, which would include how cash flow is affected by prepayments and by changes in interest rates. Incorporating a security's yield, coupon interest payments, final maturity and option features into one measure, duration is computed by determining the weighted average maturity of a bond's cash flows, where the present values of the cash flows serve as weights. In computing the duration of a Term Fund, the Manager will estimate the duration of obligations that are subject to features such as prepayment or redemption by the issuer, put options retained

by the investor or other imbedded options, taking into account the influence of interest rates on prepayments and coupon flows.

Borrowing Money. (All Funds) Each Term Fund is permitted to borrow to the extent permitted under the 1940 Act, which permits an investment company to borrow in an amount up to 33-1/3% of the value of its total assets. Each Term Fund currently intends to, and the Money Market Fund may, borrow money only for temporary or emergency (not leveraging) purposes, in an amount up to 15% of the value of its total assets (including the amount borrowed) valued at the lesser of cost or market, less liabilities (not including the amount borrowed) at the time the borrowing is made. While such borrowings exceed 5% of the value of a Fund's total assets, the Fund will not make any additional investments. In addition, the Term Funds may borrow for investment purposes on a secured basis through entering into reverse repurchase agreements, as described below.

Reverse Repurchase Agreements. (Term Funds only) Each Fund may enter into reverse repurchase agreements with banks, brokers, dealers or other financial institutions. This form of borrowing involves the transfer by the Fund of an underlying debt instrument in return for cash proceeds based on a percentage of the value of the security. The Fund retains the right to receive interest and principal payments on the security. At an agreed upon future date, the Fund repurchases the security at principal plus accrued interest. To the extent a Term Fund enters into a reverse repurchase agreement, the Fund will segregate permissible liquid assets at least equal to the aggregate amount of its reverse repurchase obligations, plus accrued interest, in certain cases, in accordance with releases promulgated by the Securities and Exchange Commission. The Securities and Exchange Commission views reverse repurchase transactions as collateralized borrowings by the Fund that enters into the transaction. Reverse repurchase agreements may be preferable to a regular sale and later repurchase of securities because it avoids certain market risks and transaction costs. Such transactions, however, may increase the risk of potential fluctuations in the market value of the Fund's assets. In addition, interest costs on the cash received may exceed the return on the securities purchased.

Lending Portfolio Securities. (Term Funds only) Each Term Fund may lend securities from its portfolio to brokers, dealers and other financial institutions needing to borrow securities to complete certain transactions. In connection with such loans, the Fund remains the owner of the loaned securities and continues to be entitled to payments in amounts equal to the interest, dividends or other distributions payable on the loaned securities. The Fund also has the right to terminate a loan at any time. The Fund may call the loan to vote proxies if a material issue affecting the Fund's investment is to be voted upon. Loans of portfolio securities may not exceed 33-1/3% of the value of the Term Fund's total assets (including the value of all assets received as collateral for the loan). The Fund will receive collateral consisting of cash, U.S. Government securities or irrevocable letters of credit which will be maintained at all times in an amount equal to at least 100% of the current market value of the loaned securities. If the collateral consists of a letter of credit or securities, the borrower will pay the Term Fund a loan premium fee. If the collateral consists of cash, the Fund will reinvest the cash and pay the borrower a pre-negotiated fee or "rebate" from any return earned on the investment. Each Term Fund may participate in a securities lending program operated by Mellon Bank, N.A., as lending agent (the "Lending Agent"). The Lending Agent will receive a percentage of the total earnings of the Term Fund derived from lending its portfolio securities. Should the borrower of

the securities fail financially, the Fund may experience delays in recovering the loaned securities or exercising its rights in the collateral. Loans are made only to borrowers that are deemed by the Manager to be of good financial standing. In a loan transaction, the Fund will also bear the risk of any decline in value of securities acquired with cash collateral. Each Fund will minimize this risk by limiting the investment of cash collateral to money market funds advised by the Manager, repurchase agreements or other high quality instruments with short maturities.

Derivatives. (Term Funds only) Each Term Fund may invest in, or enter into, derivatives for a variety of reasons, including to hedge certain market or interest rate risks, to provide a substitute for purchasing or selling particular securities, to manage the effective maturity or duration of the Fund, to maintain liquidity while simulating full investment by the Fund, or to increase potential income gain. Generally, derivatives are financial contracts whose value depends upon, or is derived from, the value of an underlying asset, reference rate or index, and may relate to stocks, bonds, interest rates, currencies or currency exchange rates, commodities, and related indexes. Derivatives may provide a cheaper, quicker or more specifically focused way for the Fund to invest than "traditional" securities would. Examples of derivative instruments include options contracts, futures contracts, and options on futures contracts. A portfolio manager may decide not to employ any of these strategies and there is no assurance that any derivatives strategy used by a Term Fund will succeed. Each Term Fund may invest some or all of its assets in derivative instruments.

Derivatives can be volatile and involve various types and degrees of risk, depending upon the characteristics of the particular derivative and the portfolio as a whole. Derivatives permit a Fund to increase or decrease the level of risk, or change the character of the risk, to which its portfolio is exposed in much the same way as the Fund can increase or decrease the level of risk, or change the character of the risk, of its portfolio by making investments in specific securities. However, derivatives may entail investment exposures that are greater than their cost would suggest, meaning that a small investment in derivatives could have a large potential impact on a Fund's performance.

If a Term Fund invests in derivatives at inopportune times or judges market conditions incorrectly, such investments may lower the Fund's return or result in a loss. The Fund also could experience losses if its derivatives were poorly correlated with its other investments, or if the Fund were unable to liquidate its position because of an illiquid secondary market. The market for many derivatives is, or suddenly can become, illiquid. Changes in liquidity may result in significant, rapid and unpredictable changes in the prices for derivatives.

Derivatives may be purchased on established exchanges or through privately negotiated transactions referred to as over-the-counter derivatives. Exchange-traded derivatives generally are guaranteed by the clearing agency which is the issuer or counterparty to such derivatives. This guarantee usually is supported by a daily variation margin system operated by the clearing agency in order to reduce overall credit risk. As a result, unless the clearing agency defaults, there is relatively little counterparty credit risk associated with derivatives purchased on an exchange. By contrast, no clearing agency guarantees over-the-counter derivatives. Therefore, each party to an over-the-counter derivative bears the risk that the counterparty will default. Accordingly, the Manager will consider the creditworthiness of counterparties to over-the-

counter derivatives in the same manner as it would review the credit quality of a security to be purchased by the Fund. Over-the-counter derivatives are less liquid than exchange-traded derivatives since the other party to the transaction may be the only investor with sufficient understanding of the derivative to be interested in bidding for it.

Neither Term Fund will be a commodity pool. In addition, as a registered investment company, each Term Fund has filed notice with the Commodity Futures Trading Commission and National Futures Association of its eligibility for an exclusion from the definition of commodity pool operator and, therefore, neither Term Fund is subject to registration or regulation as a pool operator under the Commodity Exchange Act.

Futures Transactions. Each Term Fund may purchase and sell interest rate futures contracts. An interest rate future obligates the Fund to purchase or sell an amount of a specific debt security at a future date at a specific price. Engaging in these transactions involves risk of loss to the Fund which could adversely affect the value of the Fund's net assets. Although each Term Fund intends to purchase or sell futures contracts only if there is an active market for such contracts, no assurance can be given that a liquid market will exist for any particular contract at any particular time. Many futures exchanges and boards of trade limit the amount of fluctuation permitted in futures contract prices during a single trading day. Once the daily limit has been reached in a particular contract, no trades may be made that day at a price beyond that limit or trading may be suspended for specified periods during the trading day. Futures contract prices could move to the limit for several consecutive trading days with little or no trading, thereby preventing prompt liquidation of futures positions and potentially subjecting the Fund to substantial losses.

Successful use of futures by the Fund also is subject to the Manager's ability to predict correctly movements in the direction of the relevant market, and, to the extent the transaction is entered into for hedging purposes, to ascertain the appropriate correlation between the transaction being hedged and the price movements of the futures contract. For example, if the Fund uses futures to hedge against the possibility of a decline in the market value of securities held in its portfolio and the prices of such securities instead increase, the Fund will lose part or all of the benefit of the increased value of securities which it has hedged because it will have offsetting losses in its futures positions. Furthermore, if in such circumstances the Fund has insufficient cash, it may have to sell securities to meet daily variation margin requirements. The Fund may have to sell such securities at a time when it may be disadvantageous to do so.

Pursuant to regulations and/or published positions of the Securities and Exchange Commission, a Term Fund may be required to segregate permissible liquid assets to cover its obligations relating to its transactions in derivatives. To maintain this required cover, a Term Fund may have to sell portfolio securities at disadvantageous prices or times since it may not be possible to liquidate a derivative position at a reasonable price. In addition, the segregation of such assets will have the effect of limiting the Term Fund's ability otherwise to invest those assets.

Options. Each Term Fund may invest up to 5% of its assets, represented by the premium paid, in the purchase of call and put options. A Term Fund may write (i.e., sell) covered call and put option contracts to the extent of 20% of the value of its net assets at the time such option contracts are written. A call option gives the purchaser of the option the right to buy, and

obligates the writer to sell, the underlying security or securities at the exercise price at any time during the option period, or at a specific date. Conversely, a put option gives the purchaser of the option the right to sell, and obligates the writer to buy, the underlying security or securities at the exercise price at any time during the option period, or at a specific date.

A covered call option written by the Fund is a call option with respect to which the Fund owns the underlying security or otherwise covers the transaction by segregating permissible liquid assets. A put option written by the Fund is covered when, among other things, the Fund segregates permissible liquid assets having a value equal to or greater than the exercise price of the option to fulfill the obligation undertaken. The principal reason for writing covered call and put options is to realize, through the receipt of premiums, a greater return than would be realized on the underlying securities alone. The Fund receives a premium from writing covered call or put options which it retains whether or not the option is exercised.

There is no assurance that sufficient trading interest to create a liquid secondary market on a securities exchange will exist for any particular option or at any particular time, and for some options no such secondary market may exist. A liquid secondary market in an option may cease to exist for a variety of reasons. In the past, for example, higher than anticipated trading activity or order flow, or other unforeseen events, at times have rendered certain of the clearing facilities inadequate and resulted in the institution of special procedures, such as trading rotations, restrictions on certain types of orders or trading halts or suspensions in one or more options. There can be no assurance that similar events, or events that may otherwise interfere with the timely execution of customers' orders, will not recur. In such event, it might not be possible to effect closing transactions in particular options. If, as a covered call option writer, the Fund is unable to effect a closing purchase transaction in a secondary market, it will not be able to sell the underlying security until the option expires or it delivers the underlying security upon exercise or it otherwise covers its position.

Each Term Fund may purchase cash-settled options on interest rate swaps in pursuit of its investment objective. Interest rate swaps involve the exchange by the Fund with another party of their respective commitments to pay or receive interest (for example, an exchange of floating-rate payments for fixed-rate payments). A cash-settled option on a swap gives the purchaser the right, but not the obligation, in return for the premium paid, to receive an amount of cash equal to the value of the underlying swap as of the exercise date. These options typically are purchased in privately negotiated transactions from financial institutions, including securities brokerage firms.

Successful use by a Term Fund of options will be subject to the Manager's ability to predict correctly movements in interest rates and the prices of securities underlying options. To the extent the Manager's predictions are incorrect, the Fund may incur losses.

Future Developments. (Term Funds only) Each Term Fund may take advantage of opportunities in options and futures contracts and options on futures contracts and any other derivatives which are not presently contemplated for use by the Fund or which are not currently available but which may be developed, to the extent such opportunities are both consistent with the Fund's investment objective and legally permissible for the Fund. Before entering into such transactions or making any such investment, the Fund will provide appropriate disclosure in its Prospectus or Statement of Additional Information.

Forward Commitments. The Funds may purchase or sell securities on a when-issued or delayed delivery basis, which means delivery and payment take place a number of days after the date of the commitment to purchase or sell the securities at a predetermined price and/or yield. Typically, no interest accrues to the purchaser until the security is delivered. When purchasing a security on a when-issued or delayed delivery basis, a Fund assumes the rights and risks of ownership of the security, including the risk of price and yield fluctuations, and takes such fluctuations into account when determining its net asset value. Because a Fund is not required to pay for these securities until the delivery date, these risks are in addition to the risks associated with the Fund's other investments. If a Fund is fully or almost fully invested when when-issued or delayed delivery purchases are outstanding, such purchases may result in a form of leverage. The Funds intend to engage in when-issued and delayed delivery transactions to increase its portfolio's financial exposure to the types of securities in which it invests. Leveraging the portfolio in this manner will increase a Fund's exposure to changes in interest rates and will increase the volatility of its returns. A Fund will segregate permissible liquid assets at least equal at all times to the amount of the Fund's purchase commitments. At no time will a Fund have more than 33-1/3% of its assets committed to purchase securities on a when-issued or delayed delivery basis.

Securities purchased on a when-issued or delayed delivery basis are subject to changes in value (both generally changing in the same way, i.e., appreciating when interest rates decline and depreciating when interest rates rise) based upon changes, real or anticipated, in the level of interest rates. Securities purchased on a when-issued or delayed delivery basis may expose a Fund to risk because they may experience such fluctuations prior to their actual delivery. Purchasing securities on a when-issued or delayed delivery basis can involve the additional risk that the yield available in the market when the delivery takes place actually may be higher than that obtained in the transaction itself. Each Fund will segregate permissible liquid assets at least equal at all times to the amount of the when-issued or delayed delivery commitments. Purchasing securities on a when-issued or delayed delivery basis when a Fund is fully or almost fully invested may result in greater potential fluctuation in the value of such Fund's net assets and its net asset value per share.

Investment Restrictions

Under normal circumstances, the Money Market Fund invests all of its net assets and each of the Intermediate Term Fund and Long Term Fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in U.S. Treasury securities (or other investments with similar economic characteristics). Each Fund has adopted a policy to provide its shareholders with at least 60 days' prior notice of any change in its policy to so invest its assets.

Each Fund's investment objective is a fundamental policy, which cannot be changed without approval by the holders of a majority (as defined in the 1940 Act) of the Fund's outstanding voting shares. In addition, the Funds have adopted certain investment restrictions as fundamental policies and certain other investment restrictions as non-fundamental policies, as described below.

Money Market Fund only. The Money Market Fund has adopted investment restrictions numbered 1 through 6 as fundamental policies. Investment restrictions numbered 7 and 8 are not fundamental policies and may be changed by vote of a majority of the Fund's Board members at any time. The Money Market Fund may not:

1. Sell securities short or purchase securities on margin or write or purchase put or call options or combinations thereof.
2. Underwrite the securities of other issuers or purchase securities subject to restrictions on disposition under the Securities Act of 1933 (so called "restricted securities").
3. Make loans to others, except through the purchase of debt obligations referred to in the Prospectus.
4. Issue any senior security (as such term is defined in Section 18(f) of the 1940 Act), except to the extent permitted under the 1940 Act.
5. Purchase or sell real estate, real estate investment trust securities, commodities, or oil and gas interests.
6. Borrow money, except from banks for temporary or emergency (not leveraging) purposes in an amount up to 15% of the value of the Fund's total assets (including the amount borrowed) valued at the lesser of cost or market, less liabilities (not including the amount borrowed) at the time the borrowing is made. While borrowings exceed 5% of the value of the Fund's total assets, the Fund will not make any additional investments.
7. Purchase securities other than those believed at the time of purchase to provide the holder thereof with interest income exempt from state and local income taxes.
8. Invest in securities of other investment companies, except as they may be acquired as part of a merger, consolidation or acquisition of assets.

* * *

Intermediate Term Fund and Long Term Fund. Each of the Intermediate Term Fund and Long Term Fund has adopted investment restrictions numbered 1 through 6 as fundamental policies. Investment restrictions numbered 7 and 8 are not fundamental policies and may be changed by vote of a majority of the Fund's Board members at any time. Neither Term Fund may:

1. Purchase securities on margin, but the Fund may make margin deposits in connection with transactions in options, forward contracts, futures contracts, including those related to indexes, and options on futures contracts or indexes.
2. Underwrite the securities of other issuers, except to the extent the Fund may be deemed an underwriter under the Securities Act of 1933, as amended, by virtue of disposing of

portfolio securities, or purchase securities subject to restrictions on disposition under the Securities Act of 1933, as amended (so called "restricted securities").

3. Make loans to others, except through the purchase of debt obligations referred to in the Prospectus or the entry into repurchase agreements. However, the Fund may lend its portfolio securities to the extent permitted under the 1940 Act (which currently permits lending portfolio securities in an amount not to exceed 33-1/3% of the value of the Fund's total assets). Any loans of portfolio securities will be made according to guidelines established by the Securities and Exchange Commission and the Fund's Board.

4. Issue any senior security (as such term is defined in Section 18(f) of the 1940 Act), except to the extent that the activities permitted in Investment Restriction Nos. 5, 6 and 7 may be deemed to give rise to a senior security.

5. Purchase or sell real estate, real estate investment trust securities, commodities, or oil and gas interests, provided that the Fund may purchase and sell securities that are secured by real estate or issued by companies that invest or deal in real estate or acquire real estate as a result of ownership of such securities or instruments, and provided further that the Fund may purchase and sell options, forward contracts, futures contracts, including those relating to indexes, and options on futures contracts or indexes.

6. Borrow money, except to the extent permitted under the 1940 Act (which currently limits borrowing to no more than 33-1/3% of the value of the Fund's assets). For purposes of this Investment Restriction, the entry into options, forward contracts, futures contracts, including those relating to indexes, and options on futures contracts or indexes shall not constitute borrowing.

7. Pledge, hypothecate, mortgage or otherwise encumber its assets, except to the extent necessary to secure permitted borrowings and to the extent related to the deposit of assets in escrow in connection with the purchase of securities on a when-issued or delayed-delivery basis and collateral and initial or variation margin arrangements with respect to options, forward contracts, futures contracts, including those related to indexes, and options on futures contracts or indexes.

8. Sell securities short.

* * *

If a percentage restriction is adhered to at the time of investment, a later change in percentage resulting from a change in values or assets will not constitute a violation of that restriction. With respect to Investment Restriction No. 6 for the Term Funds, however, if borrowings exceed 33-1/3% of the value of the Fund's total assets as a result of a change in values or assets, the Term Fund must take steps to reduce such borrowings at least to the extent of such excess.

Each Term Fund and the Manager have received an exemptive order from the Securities and Exchange Commission which, among other things, permits each Term Fund to use cash

collateral received in connection with lending the Term Fund's securities, and other uninvested cash, to purchase shares of one or more registered money market funds advised by the Manager in excess of the limitations imposed by the 1940 Act.

MANAGEMENT OF THE FUNDS

Each Fund's Board is responsible for the management and supervision of their respective Fund and approves all significant agreements with those companies that furnish services to the Fund. These companies are as follows:

The Dreyfus Corporation	Investment Adviser
Dreyfus Service Corporation.....	Distributor
Dreyfus Transfer, Inc.	Transfer Agent
The Bank of New York.....	Custodian for the Money Market Fund
Mellon Bank, N.A.	Custodian for each Term Fund

Board Members of each Fund¹

Board members of the Funds, together with information as to their positions with the Funds, principal occupations and other board memberships and affiliations, are shown below.

<u>Name (Age)</u> <u>Position with the Fund (Since)</u>	<u>Principal Occupation</u> <u>During Past 5 Years</u>	<u>Other Board Memberships and Affiliations</u>
Joseph S. DiMartino (60) Chairman of the Board (1995)	Corporate Director and Trustee	The Muscular Dystrophy Association, <i>Director</i> Levcor International, Inc., an apparel fabric processor, <i>Director</i> Century Business Services, Inc., a provider of outsourcing functions for small and medium size companies, <i>Director</i> The Newark Group, a provider of a national market of paper recovery facilities, paperboard mills and paperboard converting plants, <i>Director</i>
Gordon J. Davis (62) Board Member (1993)	Partner of the law firm of LeBoeuf, Lamb, Greene & MacRae, LLP President, Lincoln Center for the Performing Arts, Inc. (2001)	Consolidated Edison, Inc., a utility company, <i>Director</i> Phoenix Companies, Inc., a life insurance company, <i>Director</i> Board Member/Trustee for several not- for-profit groups
David P. Feldman (64) Board Member (1991)	Corporate Director and Trustee	BBH Mutual Funds Group (11 funds), <i>Director</i> The Jeffrey Company, a private investment company, <i>Director</i> QMED, a medical device company, <i>Director</i>

¹ None of the Board members are “interested persons” of the Funds, as defined in the 1940 Act.

<u>Name (Age)</u> <u>Position with the Fund (Since)</u>	<u>Principal Occupation</u> <u>During Past 5 Years</u>	<u>Other Board Memberships and Affiliations</u>
Lynn Martin (64) Board Member (1994)	Advisor to the international accounting firm of Deloitte & Touche LLP and Chair to its Council for the Advancement of Women	SBC Communications, Inc., <i>Director</i> Ryder System, Inc., a supply chain and transportation management company, <i>Director</i> The Proctor & Gamble Co., a consumer products company, <i>Director</i> Constellation Energy Group, <i>Director</i> Member of the Council of Foreign Relations
Daniel Rose (74) Board Member (1992)	Chairman and Chief Executive Officer of Rose Associates, Inc., a New York based real estate development and management firm	Baltic-American Enterprise Fund, <i>Vice Chairman and Director</i> Harlem Educational Activities Fund, Inc., <i>Chairman</i> Housing Committee of the Real Estate Board of New York, Inc., <i>Director</i>
Sander Vanocur (76) Board Member (1992)	President of Old Owl Communications	None
Philip L. Toia (70), Board Member (1997)	Retired	None
Anne Wexler (74) Board Member (1994)	Chairman of the Wexler Group, consultants specializing in government relations and public affairs	Wilshire Mutual Funds (5 funds), <i>Director</i> Methanex Corporation, a methanol producing company, <i>Director</i> Member of the Council of Foreign Relations Member of the National Park Foundation

Board members are elected to serve for an indefinite term. Each Fund has standing audit, nominating and compensation committees, each comprised of its Board members who are not "interested persons" of the Fund, as defined in the 1940 Act. The function of the audit committee is to oversee the Fund's financial and reporting policies and certain internal control matters; the function of the nominating committee is to select and nominate all candidates who are not "interested persons" of the Fund for election to the Fund's Board; and the function of the compensation committee is to establish the appropriate compensation for serving on the Board. The nominating committee does not normally consider nominees recommended by shareholders. Each Fund also has a standing pricing committee comprised of any one Board member. The function of the pricing committee is to assist in valuing the Fund's investments. Each Fund's audit committee met four times and its pricing, nominating and compensation committees did not meet during the year ended December 31, 2003.

The table below indicates the dollar range of each Board member's ownership of Fund shares and shares of other funds in the Dreyfus Family of Funds for which he or she is a Board member, in each case as of December 31, 2003.

<u>Name of Board Member</u>	<u>Money Market Fund</u>	<u>Intermediate Term Fund</u>	<u>Long Term Fund</u>	<u>Aggregate Holding of Funds in the Dreyfus Family of Funds for which Responsible as a Board Member</u>
Joseph S. DiMartino	None	None	None	Over \$100,000
Gordon J. Davis	None	None	None	None
David P. Feldman	None	None	None	Over \$100,000
Lynn Martin	None	None	None	None
Daniel Rose	None	None	None	None
Sander Vanocur	None	None	None	None
Philip L. Toia	None	None	None	\$1 – \$10,000
Anne Wexler	None	None	None	None

As of December 31, 2003, none of the Board members or their immediate family members owned securities of the Manager, the Distributor or any person (other than a registered investment company) directly or indirectly controlling, controlled by or under common control with the Manager or the Distributor.

Typically, each Fund pays its Board members its allocated portion of an annual retainer of \$30,000 and a per meeting fee of \$4,000 (with a minimum \$500 per meeting and per telephone meeting) attended for the Fund and eight other funds (comprised of eleven portfolios) in the Dreyfus Family of Funds, and reimburses them for their expenses. The Chairman of the Board receives an additional 25% of such compensation. Emeritus Board members are entitled to receive an annual retainer and a per meeting fee of one-half the amount paid to them as Board members. The aggregate amount of compensation paid to each Board member by each Fund and by all funds in the Dreyfus Family of Funds for which such person was a Board member (the number of portfolios of such funds is set forth in parenthesis next to each Board member's total compensation) during the year ended December 31, 2003, was as follows:

<u>Name of Board Member</u>	<u>Money Market Fund*</u>	<u>Intermediate Term Fund*</u>	<u>Long Term Fund*</u>	<u>Total Compensation from the Funds and Fund Complex Paid to Board Member(**)</u>
Gordon J. Davis	\$17,350	\$2,865	\$1,996	\$ 98,750 (26)
Joseph S. DiMartino	\$21,596	\$3,581	\$2,494	\$800,306 (191)
David P. Feldman	\$17,350	\$2,865	\$1,996	\$166,000 (56)

<u>Name of Board Member</u>	<u>Money Market Fund*</u>	<u>Intermediate Term Fund*</u>	<u>Long Term Fund*</u>	<u>Total Compensation from the Funds and Fund Complex Paid to Board Member(**)</u>
Lynn Martin	\$17,350	\$2,865	\$1,996	\$ 50,000 (11)
Eugene McCarthy***	\$2,250	\$1,250	\$1,250	\$ 9,500 (11)
Daniel Rose	\$15,970	\$2,639	\$1,828	\$ 92,000 (23)
Philip L. Toia	\$17,350	\$2,865	\$1,996	\$ 50,000 (11)
Sander Vanocur	\$17,350	\$2,865	\$1,996	\$ 96,000 (23)
Anne Wexler	\$17,350	\$2,865	\$1,996	\$ 95,000 (32)

* Amount does not include reimbursed expenses for attending Board meetings, which amounted to \$2,550, \$3,684 and \$4,304 for the Money Market Fund, Intermediate Term Fund and Long Term Fund, respectively, for all Board members as a group.

** Represents the number of separate portfolios comprising the investment companies in the Fund Complex, including the Funds, for which the Board member serves.

*** Emeritus Board member since March 29, 1996.

Officers of the Funds

STEPHEN E. CANTER, President since March 2000. Chairman of the Board, Chief Executive Officer, and Chief Operating Officer of the Manager and an officer of 95 investment companies (comprised of 185 portfolios) managed by the Manager. Mr. Canter also is a Board member and, where applicable, an Executive Committee Member of the other investment management subsidiaries of Mellon Financial Corporation, each of which is an affiliate of the Manager. He is 58 years old and has been an employee of the Manager since May 1995.

STEPHEN R. BYERS, Executive Vice President since November 2002. Chief Investment Officer, Vice Chairman and a director of the Manager and an officer of 95 investment companies (comprised of 185 portfolios) managed by the Manager. Mr. Byers also is an officer, director or an Executive Committee Member of certain other investment management subsidiaries of Mellon Financial Corporation, each of which is an affiliate of the Manager. He is 50 years old and has been an employee of the Manager since January 2000. Prior to joining the Manager, he served as an Executive Vice President – Capital Markets, Chief Financial Officer and Treasurer at Gruntal & Co., L.L.C.

J. CHARLES CARDONA, Executive Vice President since March 2000¹. Vice Chairman and a director of the Manager, Executive Vice President of the Distributor, President of Dreyfus Institutional Services Division, and an officer of 12 other investment companies

(comprised of 16 portfolios) managed by the Manager. He is 48 years old and has been an employee of the Manager since February 1981.

MARK N. JACOBS, Vice President since March 2000. Executive Vice President, Secretary and General Counsel of the Manager, and an officer of 96 investment companies (comprised of 201 portfolios) managed by the Manager. He is 57 years old and has been an employee of the Manager since June 1977.

JAMES WINDELS, Treasurer since November 2001. Director-Mutual Fund Accounting of the Manager and an officer of 96 investment companies (comprised of 201 portfolios) managed by the Manager. He is 45 years old and has been an employee of the Manager since April 1985.

MICHAEL A. ROSENBERG, Secretary since March 2000. Associate General Counsel of the Manager, and an officer of 93 investment companies (comprised of 194 portfolios) managed by the Manager. He is 43 years old and has been an employee of the Manager since October 1991.

STEVEN F. NEWMAN, Assistant Secretary since March 2000. Associate General Counsel and Assistant Secretary of the Manager and an officer of 96 investment companies (comprised of 201 portfolios) managed by the Manager. He is 54 years old and has been an employee of the Manager since July 1980.

MICHAEL CONDON, Assistant Treasurer since March 2000². Senior Treasury Manager of the Manager and an officer of 37 investment companies (comprised of 78 portfolios) managed by the Manager. He is 42 years old and has been an employee of the Manager since August 1984.

ERIK D. NAVILOFF, Assistant Treasurer since December 2002³. Senior Accounting Manager – Taxable Fixed Income Funds of the Manager and an officer of 19 investment companies (comprised of 74 portfolios) managed by the Manager. He is 35 years old and has been an employee of the Manager since November 1992.

KENNETH J. SANDGREN, Assistant Treasurer since November 2001. Mutual Funds Tax Director of the Manager and an officer of 96 investment companies (comprised of 201 portfolios) managed by the Manager. He is 48 years old and has been an employee of the Manager since June 1993.

WILLIAM GERMENIS, Anti-Money Laundering Compliance Officer since October 2002. Vice President and Anti-Money Laundering Compliance Officer of the Distributor, and the Anti-Money Laundering Compliance Officer of 91 investment companies (comprised of 197 portfolios) managed by the Manager. He is 33 years old and has been an employee of the Distributor since October 1998.

(1) Dreyfus U.S. Treasury Intermediate Term Fund only.

(2) Dreyfus 100% U.S. Treasury Money Market Fund only.

(3) Term Funds only.

The address of each Board member and officer of the Funds is 200 Park Avenue, New York, New York 10166.

Each Fund's Board members and the officers, as a group, owned less than 1% of the Fund's shares outstanding on March 15, 2004.

The following shareholders owned of record 5% or more of the indicated Fund's shares outstanding on March 15, 2004:

<u>Name and Address</u>	<u>Percent of Total Shares Outstanding</u>
<u>Intermediate Term Fund</u>	
National Financial Services 82 Devonshire Street Boston, MA 02109-3605	25.3756%
USAA Investment Management Company 9800 Fredericksburg Road San Antonio, TX 78288-0001	6.7780%
<u>Long Term Fund</u>	
National Financial Services 82 Devonshire Street Boston, MA 02109-3605	6.7056%
Smith Barney Corporate Trust Company Two Tower Center P.O. Box 1063 East Brunswick, NJ 08816-1063	6.6305%

MANAGEMENT ARRANGEMENTS

Investment Adviser. The Manager is a wholly-owned subsidiary of Mellon Financial Corporation ("Mellon"). Mellon is a global financial holding company incorporated under Pennsylvania law in 1971 and registered under the Federal Bank Holding Company Act of 1956, as amended. Mellon provides a comprehensive range of financial products and services in domestic and selected international markets.

The Manager provides management services pursuant to separate Management Agreements (respectively, the "Agreement") between the Fund and the Manager. As to each Fund, the Agreement is subject to annual approval by (i) the Fund's Board or (ii) vote of a majority (as defined in the 1940 Act) of the Fund's outstanding voting securities, provided that in either event the continuance also is approved by a majority of the Fund's Board members who are not "interested persons" (as defined in the 1940 Act) of the Fund or the Manager, by vote cast

in person at a meeting called for the purpose of voting on such approval. As to each Fund, the Agreement is terminable without penalty, on 60 days' notice, by the Fund's Board or by vote of the holders of a majority of the Fund's shares or, upon not less than 90 days' notice, by the Manager. Each Agreement will terminate automatically, as to the relevant Fund, in the event of its assignment (as defined in the 1940 Act).

In approving the current Management Agreement with respect to each Fund, the Board considered a number of factors, including the nature and quality of the services provided by the Manager; the investment philosophy and investment approach as applied to the Fund by the Manager, the investment management expertise of the Manager in respect of the Fund's investment strategies; the personnel, resources and experience of the Manager; the Fund's performance history and the management fees paid to the Manager relative to those of mutual funds with similar investment objectives, strategies and restrictions; the Manager's costs of providing services under the Agreement; and ancillary benefits the Manager may receive from its relationship with the Fund.

The following persons are officers and/or directors of the Manager: Stephen E. Canter, Chairman of the Board, Chief Executive Officer and Chief Operating Officer; Michael G. Millard, President and a director; Stephen R. Byers, Chief Investment Officer, Vice Chairman and a director; J. Charles Cardona, Vice Chairman and a director; J. David Officer, Vice Chairman and a director; Ronald P. O'Hanley III, Vice Chairman and a director; Mark N. Jacobs, Executive Vice President, General Counsel and Secretary; Diane P. Durnin, Executive Vice President; Patrice M. Kozlowski, Senior Vice President-Corporate Communications; Mary Beth Leibig, Vice President-Human Resources; Theodore A. Schachar, Vice President-Tax; Angela E. Price, Vice President; Wendy H. Strutt, Vice President; Ray Van Cott, Vice President-Information Systems; William H. Maresca, Controller; James Bitetto, Assistant Secretary; Steven F. Newman, Assistant Secretary; and Steven G. Elliot, David F. Lamere, Martin G. McGuinn and Richard W. Sabo, directors.

The Manager's Code of Ethics subjects its employees' personal securities transactions to various restrictions to ensure that such trading does not disadvantage any fund advised by the Manager. In that regard, portfolio managers and other investment personnel of the Manager must preclear and report their personal securities transactions and holdings, which are reviewed for compliance with the Code of Ethics, and are also subject to the oversight of Mellon's Investment Ethics Committee. Portfolio managers and other investment personnel of the Manager who comply with the preclearance and disclosure procedures of the Code of Ethics and the requirements of the Committee, may be permitted to purchase, sell or hold securities which also may be or are held in fund(s) they manage or for which they otherwise provide investment advice.

The Manager manages each Fund's portfolio of investments in accordance with the stated policies of such Fund, subject to the approval of the Fund's Board. The Manager is responsible for investment decisions, and provides each Fund with portfolio managers who are authorized by the Fund's Board to execute purchases and sales of securities. The Term Funds' portfolio managers are Gerald E. Thunelius, William Howarth, Michael Hoeh and Ronald Deonarain. The Money Market Fund's portfolio managers are Bernard W. Kiernan, Jr., Patricia A. Larkin and

Thomas S. Riordan. The Manager also maintains a research department with a professional staff of portfolio managers and securities analysts who provide research services for each Fund and for other funds advised by the Manager.

The Manager maintains office facilities on behalf of each Fund, and furnishes statistical and research data, clerical help, accounting, data processing, bookkeeping and internal auditing and certain other required services to each Fund. The Manager may pay the Distributor for shareholder services from the Manager's own assets, including past profits but not including the management fee paid by the Funds. The Distributor may use part or all of such payments to pay securities dealers, banks or other financial institutions in respect of these services. The Manager also may make such advertising and promotional expenditures, using its own resources, as it from time to time deems appropriate.

All expenses incurred in the operation of a Fund are borne by such Fund, except to the extent specifically assumed by the Manager. The expenses borne by each Fund include: taxes, interest, brokerage fees and commissions, if any, fees of Board members who are not officers, directors, employees or holders of 5% or more of the outstanding voting securities of the Manager, Securities and Exchange Commission fees, state Blue Sky qualification fees, advisory fees, charges of custodians, transfer and dividend disbursing agents' fees, certain insurance premiums, industry association fees, outside auditing and legal expenses, costs of independent pricing services, costs of maintaining such Fund's existence, costs attributable to investor services (including, without limitation, telephone and personnel expenses), costs of shareholders' reports and meetings, costs of preparing and printing prospectuses and statements of additional information for regulatory purposes and for distribution to existing shareholders, and any extraordinary expenses.

As compensation for the Manager's services, the Money Market Fund has agreed to pay the Manager a monthly management fee at the annual rate of 0.50% of the value of the Fund's average daily net assets and each Term Fund has agreed to pay the Manager a monthly management fee at the annual rate of 0.60% of the value of the Fund's average daily net assets. The net management fees paid by each Fund for the fiscal years ended December 31, 2001, 2002 and 2003 were as follows:

	Money Market Fund		
	<u>2001</u>	<u>2002</u>	<u>2003</u>
Management fee paid	\$5,104,129	\$4,753,881	\$4,467,849

	Intermediate Term Fund		
	<u>2001</u>	<u>2002</u>	<u>2003</u>
Management fee payable	\$815,827	\$849,452	\$882,288
Reduction due to undertakings	\$ 56,762	\$126,963	\$177,552
Net management fee paid	\$759,065	\$722,489	\$704,736

	Long Term Fund		
	<u>2001</u>	<u>2002</u>	<u>2003</u>
Management fee payable	\$690,430	\$626,161	\$611,802
Reduction due to undertakings	\$ 48,364	\$140,212	\$145,931
Net management fee paid	\$642,066	\$485,949	\$465,871

The Manager has agreed that if, in any fiscal year, the aggregate expenses of a Fund, exclusive of taxes, brokerage fees, interest on borrowings and (with the prior written consent of the necessary state securities commissions) extraordinary expenses, but including the management fee, exceed the expense limitation of any state having jurisdiction over the Fund, such Fund may deduct from the payment to be made to the Manager under the Agreement, or the Manager will bear, such excess expense to the extent required by state law. Such deduction or payment, if any, will be estimated daily, and reconciled and effected or paid, as the case may be, on a monthly basis.

The aggregate of the fees payable to the Manager is not subject to reduction as the value of a Fund's respective net assets increases.

Distributor. The Distributor, a wholly-owned subsidiary of the Manager located at 200 Park Avenue, New York, New York 10166, serves as each Fund's distributor on a best efforts basis pursuant to separate agreements with the Funds each of which is renewable annually.

The Distributor may pay certain financial institutions (which may include banks), securities dealers and other industry professionals, such as investment advisers, accountants and estate planning firms (collectively, "Service Agents") that have entered into agreements with the Distributor a fee based on the amount invested through such Service Agents in Fund shares by employees participating in a qualified or non-qualified employee benefit plans, including pension, profit-sharing and other deferred compensation plans, whether established by corporations, partnerships, non-profit entities or state and local governments ("Retirement Plans"), or other programs. The term "Retirement Plans" does not include IRAs, IRA "Rollover Accounts" or IRAs set up under a Simplified Employee Pension Plan ("SEP-IRAs"). Generally, the Distributor may pay such Service Agents a fee of up to 1% of the amount invested through the Service Agents. The Distributor, however, may pay Service Agents a higher fee and reserves the right to cease paying these fees at any time. The Distributor will pay such fees from its own funds, other than amounts received from the Fund, including past profits or any other source available to it. Sponsors of such Retirement Plans or the participants therein should consult their Service Agent for more information regarding any such fee payable to the Service Agent.

Transfer and Dividend Disbursing Agent and Custodian. Dreyfus Transfer, Inc. (the "Transfer Agent"), a wholly-owned subsidiary of the Manager, 200 Park Avenue, New York, New York 10166, is each Fund's transfer and dividend disbursing agent. Under a transfer agency agreement with each Fund, the Transfer Agent arranges for the maintenance of shareholder account records for each Fund, the handling of certain communications between shareholders and

each Fund and the payment of dividends and distributions payable by each Fund. For these services, the Transfer Agent receives a monthly fee computed on the basis of the number of shareholder accounts it maintains for the Fund during the month, and is reimbursed for certain out-of-pocket expenses.

The Bank of New York, 100 Church Street, New York, New York 10286, is the Money Market Fund's custodian. The Bank of New York has no part in determining the investment policies of the Money Market Fund or which securities are to be purchased or sold by the Fund.

Mellon Bank, N.A., an affiliate of the Manager, One Mellon Bank Center, Pittsburgh, Pennsylvania 15258, acts as custodian of the Term Fund's investments. Under a custody agreement with each Term Fund, Mellon holds the Term Fund's securities and keeps all necessary accounts and records. For its custody services, Mellon Bank, N.A. receives a monthly fee based on the market value of each Term Fund's assets held in custody and receives certain securities transactions charges.

HOW TO BUY SHARES

General. Fund shares are sold without a sales charge. You may be charged a nominal fee if you effect transactions in shares of a Fund through Service Agents. Service Agents and other third parties may receive payments from the Manager in connection with their offering of Fund shares to their customers, or for marketing, distribution or other services. The receipt of such payments could create an incentive for the third party to offer the Fund instead of other mutual funds where such payments are not received. Please consult your Service Agent for further information. Share certificates are issued only upon your written request. No certificates are issued for fractional shares. Each Fund reserves the right to reject any purchase order.

The minimum initial investment for each Fund is \$2,500, or \$1,000 if you are a client of a Service Agent which has made an aggregate minimum initial purchase for its customers of \$2,500. Subsequent investments must be at least \$100. However, the minimum initial investment is \$750 for Dreyfus-sponsored Keogh Plans, IRAs (including regular IRAs, spousal IRAs for a non-working spouse, Roth IRAs, SEP-IRAs and Rollover IRAs) and 403(b)(7) Plans with only one participant and \$500 for Dreyfus-sponsored Education Savings Accounts, with no minimum for subsequent purchases. The initial investment must be accompanied by the Account Application. For full-time or part-time employees of the Manager or any of its affiliates or subsidiaries, directors of the Manager, Board members of a fund advised by the Manager, including members of each Fund's Board, or the spouse or minor child of any of the foregoing, the minimum initial investment is \$1,000. For full-time or part-time employees of the Manager or any of its affiliates or subsidiaries who elect to have a portion of their pay directly invested into their Fund account, the minimum initial investment is \$50. Fund shares are offered without regard to the minimum initial investment requirements to Board members of a fund advised by the Manager, including members of each Fund's Board, who elect to have all or a portion of their compensation for serving in that capacity automatically invested in a Fund. Each Fund reserves the right to offer Fund shares without regard to minimum purchase requirements to employees participating in certain qualified or non-qualified employee benefit plans or other programs where contributions or account information can be transmitted in a manner and form acceptable

to such Fund. Each Fund reserves the right to vary further the initial and subsequent investment minimum requirements at any time.

Fund shares also are offered without regard to the minimum initial investment requirements through Dreyfus-Automatic Asset Builder®, Dreyfus Government Direct Deposit Privilege or Dreyfus Payroll Savings Plan pursuant to the Dreyfus Step Program described under "Shareholder Services." These services enable you to make regularly scheduled investments and may provide you with a convenient way to invest for long-term financial goals. You should be aware, however, that periodic investment plans do not guarantee a profit and will not protect an investor against loss in a declining market.

Shares are sold on a continuous basis at the net asset value per share next determined after an order in proper form is received by the Transfer Agent or other entity authorized to receive orders on behalf of the Fund. Net asset value per share is determined as of the close of trading on the floor of the New York Stock Exchange (usually 4:00 p.m., Eastern time), on each day the New York Stock Exchange is open for regular business. For purposes of determining net asset value, certain options and futures contracts held by a Term Fund may be valued 15 minutes after the close of trading on the floor of the New York Stock Exchange. Net asset value per share is computed by dividing the value of the Fund's net assets (i.e., the value of its assets less liabilities) by the total number of shares outstanding. For information regarding the methods employed in valuing the Funds' investment, see "Determination of Net Asset Value."

For certain institutions that have entered into agreements with the Distributor, payment for the purchase of Term Fund shares may be transmitted, and must be received by the Transfer Agent, within three business days after the order is placed. If such payment is not received within three business days after the order is placed, the order may be canceled and the institution could be held liable for resulting fees and/or losses.

Dreyfus TeleTransfer Privilege. You may purchase shares by telephone or online if you have checked the appropriate box and supplied the necessary information on the Account Application or have filed a Shareholder Services Form with the Transfer Agent. The proceeds will be transferred between the bank account designated in one of these documents and your fund account, which will subject the purchase order to a processing delay. Only a bank account maintained in a domestic financial institution which is an Automated Clearing House ("ACH") member may be so designated.

Dreyfus TeleTransfer purchase orders may be made at any time. If purchase orders are received by 4:00 p.m., Eastern time, on days that the Transfer Agent and the New York Stock Exchange are open for regular business, Fund shares will be purchased at the share price determined on the next bank business day following such purchase order. If purchase orders are made after 4:00 p.m., Eastern time, on any day the Transfer Agent and the New York Stock Exchange are open for regular business, or made on Saturday, Sunday or any Fund holiday (e.g., when the New York Stock Exchange is not open for business), Fund shares will be purchased at the share price determined on the second bank business day following such purchase order. To qualify to use the Dreyfus TeleTransfer Privilege, the initial payment for purchase of Fund shares must be drawn on, and redemption proceeds paid to, the same bank and account as are designated on the Account Application or Shareholder Services Form on file. If the proceeds of a particular

redemption are to be sent to an account at any other bank, the request must be in writing and signature guaranteed. See "How to Redeem Shares--TeleTransfer Privilege."

SHAREHOLDER SERVICES PLAN

Each Fund has adopted a Shareholder Services Plan (the "Plan") pursuant to which the Fund reimburses the Distributor an amount not to exceed the annual rate of 0.25% of the value of the Fund's average daily net assets for certain allocated expenses of providing personal services and/or maintaining shareholder accounts. The services provided may include personal services relating to shareholder accounts, such as answering shareholder inquiries regarding the Fund and providing reports and other information, and services related to the maintenance of shareholder accounts.

A quarterly report of the amounts expended under the Plan, and the purposes for which such expenditures were incurred, must be made to the relevant Fund's Board for its review. In addition, the Plan provides that material amendments of the Plan must be approved by the relevant Fund's Board, and by the Board members who are not "interested persons" (as defined in the 1940 Act) of such Fund or the Manager and have no direct or indirect financial interest in the operation of the Plan, by vote cast in person at a meeting called for the purpose of considering such amendments. The Plan is subject to annual approval by such vote of the Board members cast in person at a meeting called for the purpose of voting on the Plan. The Plan is terminable at any time by vote of a majority of the Board members who are not "interested persons" and have no direct or indirect financial interest in the operation of the Plan.

For the fiscal year ended December 31, 2003, the fees paid pursuant to the Plan by the Money Market Fund, Intermediate Term Fund and Long Term Fund amounted to \$734,742, \$157,681 and \$103,869, respectively.

HOW TO REDEEM SHARES

General. Each Fund ordinarily will make payment for all shares redeemed within seven days after receipt by the Transfer Agent of a redemption request in proper form, except as provided by the rules of the Securities and Exchange Commission. However, if you have purchased Fund shares by check, by Dreyfus TeleTransfer Privilege or through Dreyfus-Automatic Asset Builder® and subsequently submit a written redemption request to the Transfer Agent, the Fund may delay sending the redemption proceeds (or redeeming such shares in the case of the Money Market Fund) for up to eight business days after the purchase of such shares. In addition, the Fund will not honor redemption checks under the Checkwriting Privilege, and will reject requests to redeem shares by wire or telephone, online or pursuant to the Dreyfus TeleTransfer Privilege, for a period of up to eight business days after receipt by the Transfer Agent of the purchase check, the Dreyfus TeleTransfer purchase or the Dreyfus-Automatic Asset Builder order against which such redemption is requested. These procedures will not apply if your shares were purchased by wire payment, or if you otherwise have a sufficient collected balance in your account to cover the redemption request. Prior to the time any redemption of shares of the Money Market Fund is effective, dividends on such shares will accrue and be payable, and you will be entitled to exercise all other rights of beneficial ownership. Fund shares may not be redeemed until the Transfer Agent has received your Account Application.

Checkwriting Privilege. Each Fund provides redemption checks ("Checks") to you automatically upon opening an account unless you specifically refuse the Checkwriting Privilege by checking the applicable "No" box on the Account Application. Checks will be sent only to the registered owner(s) of the account and only to the address of record. The Checkwriting Privilege may be established for an existing account by a separate signed Shareholder Services Form. The Account Application or Shareholder Services Form must be manually signed by the registered owner(s). Checks are drawn on your Fund account and may be made payable to the order of any person in the amount of \$500 or more. Dividends are earned until the Check clears. After clearance, a copy of the Check will be returned to you. You generally will be subject to the same rules and regulations that apply to checking accounts, although election of this Privilege creates only a shareholder-transfer agent relationship with the Transfer Agent.

Checks are free, but the Transfer Agent will impose a fee for stopping payment of a Check upon your request or if the Transfer Agent cannot honor a Check due to insufficient funds or other valid reason. If the amount of the Check is greater than the value of the shares in your account, the Check will be returned marked insufficient funds. Checks should not be used to close an account.

You should date your Checks with the current date when you write them. Please do not postdate your Checks. If you do, the Transfer Agent will honor, upon presentment, even if presented before the date of the check, all postdated Checks which are dated within six months of presentment of payment, if they are otherwise in good order. For the Term Funds only, the Checkwriting Privilege will be terminated immediately, without notice, with respect to any account which is, or becomes, subject to backup withholding on redemptions. Any Check written on an account which has become subject to backup withholding on redemptions will not be honored by the Transfer Agent.

Wire Redemption Privilege. By using this Privilege, you authorize the Transfer Agent to act on telephone, letter or online redemption instructions from any person representing himself or herself to be you and reasonably believed by the Transfer Agent to be genuine. Ordinarily, the Fund will initiate payment for shares redeemed pursuant to this Privilege on the next business day after receipt by the Transfer Agent of a redemption request in proper form. Redemption proceeds (\$1,000 minimum) will be transferred by Federal Reserve wire only to the commercial bank account specified by you on the Account Application or Shareholder Services Form, or to a correspondent bank if your bank is not a member of the Federal Reserve Board. Fees ordinarily are imposed by such bank and borne by the investor. Immediate notification by the correspondent bank to your bank is necessary to avoid a delay in crediting the funds to your bank account.

To change the commercial bank or account designated to receive wire redemption proceeds, a written request must be sent to the Transfer Agent. This request must be signed by each investor, with each signature guaranteed as described below under "Share Certificates; Signatures."

Dreyfus TeleTransfer Privilege. You may request by telephone or online that redemption proceeds be transferred between your Fund account and your bank account. Only a bank account

maintained in a domestic financial institution which is an ACH member may be designated. You should be aware that if you have selected the Dreyfus TeleTransfer Privilege, any request for a Dreyfus TeleTransfer transaction will be effected through the ACH system unless more prompt transmittal specifically is requested. Redemption proceeds will be on deposit in your account at an ACH member bank ordinarily two business days after receipt of the redemption request. See "How to Buy Shares--Dreyfus TeleTransfer Privilege."

Share Certificates; Signatures. Any certificates representing Fund shares to be redeemed must be submitted with the redemption request. Written redemption requests must be signed by each investor, including each owner of a joint account, and each signature must be guaranteed. Signatures on endorsed certificates submitted for redemption also must be guaranteed. The Transfer Agent has adopted standards and procedures pursuant to which signature guarantees in proper form generally will be accepted from domestic banks, brokers, dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations, as well as from participants in the New York Stock Exchange Medallion Signature program, the Securities Transfer Agents Medallion Program ("STAMP"), and the Stock Exchanges Medallion Program. Guarantees must be signed by an authorized signatory of the guarantor and "Signature-Guaranteed" must appear with the signature. The Transfer Agent may request additional documentation from corporations, executors, administrators, trustees or guardians, and may accept other suitable verification arrangements from foreign investors, such as consular verification. For more information with respect to signature-guarantees, please call one of the telephone numbers listed on the cover.

Redemption Commitment. The Funds have committed to pay in cash all redemption requests by any investor of record, limited in amount during any 90-day period to the lesser of \$250,000 or 1% of the value of each respective Fund's net assets at the beginning of such period. Such commitment is irrevocable without the prior approval of the Securities and Exchange Commission. In the case of requests for redemption in excess of such amount, the Fund's Board reserves the right to make payments in whole or in part in securities or other assets of such Fund in case of an emergency or any time a cash distribution would impair the liquidity of such Fund to the detriment of the existing investors. In such event, the securities would be valued in the same manner as such Fund's portfolio is valued. If the recipient sold such securities, brokerage charges might be incurred.

Suspension of Redemption. As to each Fund, the right of redemption may be suspended or the date of payment postponed (a) during any period when the New York Stock Exchange is closed (other than customary weekend and holiday closings), (b) when trading in the markets such Fund ordinarily utilizes is restricted, or when an emergency exists as determined by the Securities and Exchange Commission so that disposal of such Fund's investments or determination of its net asset value is not reasonably practicable, or (c) for such other periods as the Securities and Exchange Commission by order may permit to protect such Fund's investors.

DETERMINATION OF NET ASSET VALUE

Amortized Cost Pricing. **The information contained in this section is applicable only to the Money Market Fund.** The valuation of the Money Market Fund's portfolio securities is based upon their amortized cost, which does not take into account unrealized capital gains or

losses. This involves valuing an instrument at its cost, and thereafter assuming a constant amortization to maturity of any discount or premium, regardless of the impact of fluctuating interest rates on the market value of the instrument. While this method provides certainty in valuation, it may result in periods during which value, as determined by amortized cost, is higher or lower than the price the Fund would receive if it sold the instrument.

The Board has established, as a particular responsibility within the overall duty of care owed to the Money Market Fund's investors, procedures reasonably designed to stabilize the Fund's price per share as computed for the purpose of purchases and redemptions at \$1.00. Such procedures include review of the Fund's portfolio holdings by the Board members, at such intervals as they deem appropriate, to determine whether the Fund's net asset value calculated by using available market quotations or market equivalents deviates from \$1.00 per share based on amortized cost. In such review, investments for which market quotations are readily available will be valued at the most recent bid price or yield equivalent for such securities or for securities of comparable maturity, quality and type, as obtained from one or more of the major market makers for the securities to be valued. Other investments and assets will be valued at fair value as determined by the Board members.

The extent of any deviation between the Money Market Fund's net asset value based upon available market quotations or market equivalents and \$1.00 per share based on amortized cost will be examined by the Board. If such deviation exceeds 1/2%, the Board members will consider promptly what action, if any, will be initiated. In the event the Board determines that a deviation exists which may result in material dilution or other unfair results to investors or existing investors, they have agreed to take such corrective action as they regard as necessary and appropriate including: selling portfolio instruments prior to maturity to realize capital gains or losses or to shorten average portfolio maturity; paying distributions from capital or capital gains; redeeming shares in kind; or establishing a net asset value per share by using available market quotations or market equivalents.

Valuation of Term Fund Portfolio Securities. Each Term Fund's investments are valued each business day using available market quotations or at fair value as determined by one or more independent pricing services (collectively, the "Service") approved by the Fund's Board. The Service may use available market quotations, employ electronic data processing techniques and/or a matrix system to determine valuations. The Service's procedures are reviewed by the Fund's officers under the general supervision of the Board. These procedures need not be used to determine the value of securities held by the Fund if, in the opinion of a committee appointed by the Fund's Board, some other method would more accurately reflect the fair value of such securities. Expenses and fees, including the management fee (reduced by the expense limitation, if any), are accrued daily and are taken into account for the purpose of determining the net asset value of Fund shares.

New York Stock Exchange Closings. The holidays (as observed) on which the New York Stock Exchange is closed currently are: New Year's Day, Martin Luther King Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving and Christmas.

SHAREHOLDER SERVICES

Fund Exchanges. You may purchase, in exchange for shares of a Fund, shares of certain other funds managed or administered by the Manager or shares of certain funds advised by Founders Asset Management LLC ("Founders"), an indirect subsidiary of the Manager, the extent such shares are offered for sale in your state of residence. Shares of other funds purchased by exchange will be purchased on the basis of relative net asset value per share as follows:

- A. Exchanges for shares of funds offered without a sales load will be made without a sales load.
- B. Shares of funds purchased without a sales load may be exchanged for shares of other funds sold with a sales load, and the applicable sales load will be deducted.
- C. Shares of funds purchased with a sales load may be exchanged without a sales load for shares of other funds sold without a sales load.
- D. Shares of funds purchased with a sales load, shares of funds acquired by a previous exchange from shares purchased with a sales load, and additional shares acquired through reinvestment of dividends or distributions of any such funds (collectively referred to herein as "Purchased Shares") may be exchanged for shares of other funds sold with a sales load (referred to herein as "Offered Shares"), but if the sales load applicable to the Offered Shares exceeds the maximum sales load that could have been imposed in connection with the Purchased Shares (at the time the Purchased Shares were acquired), without giving effect to any reduced loads, the difference may be deducted.

To accomplish an exchange under item D above, you must notify the Transfer Agent of your prior ownership of fund shares and their account number.

To request an exchange, you must give exchange instructions to the Transfer Agent in writing, by telephone or online. The ability to issue exchange instructions by telephone or online is given to all Fund shareholders automatically, unless you check the applicable "No" box on the Account Application, indicating that you specifically refuse this privilege. By using this privilege, you authorize the Transfer Agent to act on telephonic and online instructions (including over the Dreyfus Express® voice response telephone system) from any person representing himself or herself to be you and reasonably believed by the Transfer Agent to be genuine. Exchanges may be subject to limitations as to the amount involved or the number of exchanges permitted. Shares issued in certificate form are not eligible for telephone or online exchange. No fees currently are charged shareholders directly in connection with exchanges, although each Fund reserves the right, upon not less than 60 days' written notice, to charge shareholders a nominal administrative fee in accordance with rules promulgated by the Securities and Exchange Commission.

To establish a personal retirement plan by exchange, shares of the fund being exchanged must have a value of at least the minimum initial investment required for the fund into which the exchange is being made.

During times of drastic economic or market conditions, a Term Fund may suspend Fund Exchanges temporarily without notice and treat exchange requests based on their separate components--redemption orders with a simultaneous request to purchase the other fund's shares. In such a case, the redemption request would be processed at the Fund's next determined net asset value but the purchase order would be effective only at the net asset value next determined after the fund being purchased receives the proceeds of the redemption, which may result in the purchase being delayed.

Dreyfus Auto Exchange Privilege. Dreyfus Auto-Exchange permits you to purchase (on a semi-monthly, monthly, quarterly or annual basis), in exchange for shares of a Fund, shares of another fund in the Dreyfus Family of Funds or shares of certain funds advised by Founders of which you are a shareholder. This Privilege is available only for existing accounts. Shares will be exchanged on the basis of relative net asset value as described above under "Fund Exchanges." Enrollment in or modification or cancellation of this Privilege is effective three business days following notification by you. You will be notified if your account falls below the amount designated to be exchanged under this Privilege. In this case, your account will fall to zero unless additional investments are made in excess of the designated amount prior to the next Auto-Exchange transaction. Shares held under IRA and other retirement plans are eligible for this Privilege. Exchanges of IRA shares may be made between IRA accounts and from regular accounts to IRA accounts, but not from IRA accounts to regular accounts. With respect to all other retirement accounts, exchanges may be made only among those accounts.

Shareholder Services Forms and prospectuses of the other funds may be obtained by calling 1-800-645-6561, or visiting the Dreyfus.com website. Shares may be exchanged only between accounts having certain identical identifying designations. The Fund reserves the right to reject any exchange request in whole or in part. The Fund Exchanges service or the Dreyfus Auto-Exchange Privilege may be modified or terminated at any time upon notice to shareholders.

Dreyfus-Automatic Asset Builder®. Dreyfus-Automatic Asset Builder permits you to purchase Fund shares (minimum of \$100 and maximum of \$150,000 per transaction) at regular intervals selected by you. Fund shares are purchased by transferring funds from the bank account designated by you.

Dreyfus Government Direct Deposit Privilege. Dreyfus Government Direct Deposit Privilege enables you to purchase Fund shares (minimum of \$100 and maximum of \$50,000 per transaction) by having Federal salary, Social Security, or certain veterans', military or other payments from the U.S. Government automatically deposited into your Fund account. You may deposit as much of such payments as you elect.

Dreyfus Payroll Savings Plan. Dreyfus Payroll Savings Plan permits you to purchase Fund shares (minimum of \$100 per transaction) automatically on a regular basis. Depending upon your employer's direct deposit program, you may have part or all of your paycheck transferred to your existing Dreyfus account electronically through the ACH system at each pay

period. To establish a Dreyfus Payroll Savings Plan account, you must file an authorization form with your employer's payroll department. It is the sole responsibility of your employer to arrange for transactions under the Dreyfus Payroll Savings Plan.

Dreyfus Step Program. Dreyfus Step Program enables you to purchase Fund shares without regard to the Fund's minimum initial investment requirements through Dreyfus-Automatic Asset Builder®, Dreyfus Government Direct Deposit Privilege or Dreyfus Payroll Savings Plan. To establish a Dreyfus Step Program account, you must supply the necessary information on the Account Application and file the required authorization form(s) with the Transfer Agent. For more information concerning this Program, or to request the necessary authorization form(s), please call toll free 1-800-645-6561. You may terminate your participation in this Program at any time by discontinuing your participation in Dreyfus-Automatic Asset Builder, Dreyfus Government Direct Deposit Privilege or Dreyfus Payroll Savings Plan, as the case may be, as provided under the terms of such Privilege(s). Each Fund may modify or terminate this Program at any time. Investors who wish to purchase Fund shares through the Dreyfus Step Program in conjunction with a Dreyfus-sponsored retirement plan may do so only for IRAs, IRAs set up under a Simplified Employee Pension Plan ("SEP-IRAs") and rollover IRAs.

Dreyfus Dividend Options. Dreyfus Dividend Sweep allows you to invest automatically your dividends or dividends and capital gain distributions, if any, paid by a Fund in shares of another fund in the Dreyfus Family of Funds or shares of certain funds advised by Founders of which you are a shareholder. Shares of other funds purchased pursuant to this privilege will be purchased on the basis of relative net asset value per share as follows:

- A. Dividends and distributions paid by a fund may be invested without a sales load in shares of other funds offered without a sales load.
- B. Dividends and distributions paid by a fund that does not charge a sales load may be invested in shares of other funds sold with a sales load, and the applicable load will be deducted.
- C. Dividends and distributions paid by a fund that charges a sales load may be invested in shares of other funds sold with a sales load (referred to herein as "Offered Shares"), but if the sales load applicable to the Offered Shares exceeds the maximum sales load charged by the fund from which dividends or distributions are being swept (without giving effect to any reduced loads), the difference may be deducted.
- D. Dividends and distributions paid by a fund may be invested in shares of other funds that impose a contingent deferred sales charge ("CDSC") and the applicable CDSC, if any, will be imposed upon redemption of such shares.

Dreyfus Dividend ACH permits you to transfer electronically dividends or dividends and capital gain distributions, if any, from the Fund to a designated bank account. Only an account

maintained at a domestic financial institution which is an ACH member may be so designated. Banks may charge a fee for this service.

Automatic Withdrawal Plan. The Automatic Withdrawal Plan permits you to request withdrawal of a specified dollar amount (minimum of \$50) on either a monthly or quarterly basis if you have a \$5,000 minimum account. Withdrawal payments are the proceeds from sales of Fund shares, not the yield on the shares. If withdrawal payments exceed reinvested distributions, the investor's shares will be reduced and eventually may be depleted. Automatic Withdrawal may be terminated at any time by you, the Fund or the Transfer Agent. Shares for which certificates have been issued may not be redeemed through the Automatic Withdrawal Plan.

Corporate Pension/Profit-Sharing and Personal Retirement Plans. Each Fund makes available to corporations a variety of prototype pension and profit-sharing plans, including a 401(k) Salary Reduction Plan. In addition, each Fund makes available Keogh Plans, IRAs (including regular IRAs, spousal IRAs for a non-working spouse, Roth IRAs, SEP-IRAs and Rollover IRAs), Education Savings Accounts and 403(b)(7) Plans. Plan support services also are available.

If you wish to purchase Fund shares in conjunction with an Education Savings Account, a Keogh Plan, a 403(b)(7) Plan or an IRA, including a SEP-IRA, you may request from the Distributor forms for adoption of such plans.

The entity acting as custodian for Keogh Plans, 403(b)(7) Plans or IRAs may charge a fee, payment of which could require the liquidation of shares. All fees charged are described in the appropriate form.

Shares may be purchased in connection with these plans only by direct remittance to the entity acting as custodian. Purchases for these plans may not be made in advance of receipt of funds.

The minimum initial investment for corporate plans, Salary Reduction Plans, 403(b)(7) Plans and SEP-IRAs with more than one participant, is \$1,000 with no minimum for subsequent purchases. The minimum initial investment is \$750 for Dreyfus-sponsored Keogh Plans, IRAs (including regular IRAs, spousal IRAs for a non-working spouse, Roth IRAs, SEP-IRAs, and rollover IRAs) and 403(b)(7) Plans with only one participant and \$500 for Dreyfus-sponsored Education Savings Accounts, with no minimum for subsequent purchases.

You should read the prototype retirement plan and the appropriate form of custodial agreement for further details on eligibility, service fees and tax implications, and should consult a tax adviser.

PORTFOLIO TRANSACTIONS

Portfolio securities ordinarily are purchased from government securities dealers or market makers for the securities. Usually no brokerage commissions are paid by the Funds for such purchases and, to date, no brokerage commissions have been paid by any Fund.

Transactions are allocated to various dealers by each Fund's portfolio managers in their best judgment. The primary consideration is prompt and effective execution of orders at the most favorable price. Subject to that primary consideration, dealers may be selected for research, statistical or other services to enable the Manager to supplement its own research and analysis with the views and information of other securities firms and may be selected based upon their sales of shares of the Fund or other funds advised by the Manager or its affiliates.

Research services furnished by brokers through which a Fund effects securities transactions may be used by the Manager in advising other funds it advises and, conversely, research services furnished to the Manager by brokers in connection with other funds the Manager advises may be used by the Manager in advising a Fund. Although it is not possible to place a dollar value on these services, it is the opinion of the Manager that the receipt and study of such services from brokers should not reduce the overall expenses of its research department.

DIVIDENDS, DISTRIBUTIONS AND TAXES

Management of each Fund believes that each Fund has qualified for treatment as a "regulated investment company" under the Internal Revenue Code of 1986, as amended (the "Code"), for the fiscal year ended December 31, 2003. Each Fund intends to continue to so qualify if such qualification is in the best interests of its shareholders. As a regulated investment company, the Fund pays no Federal income tax on net investment income and net realized capital gains to the extent that such income and gains are distributed to shareholders. To qualify as a regulated investment company, a Fund must distribute at least 90% of its net income (consisting of net investment income and net short-term capital gain) to its shareholders and meet certain asset diversification and other requirements. If a Fund does not qualify as a regulated investment company, it will be treated for tax purposes as an ordinary corporation subject to Federal income tax. The term "regulated investment company" does not imply the supervision of management or investment practices or policies by any government agency.

Each Fund ordinarily declares dividends from its net investment income on each day the New York Stock Exchange is open for business. Each Fund's earnings for Saturdays, Sundays and holidays are declared as dividends on the following business day. Dividends usually are paid on the last business day of each month and automatically are reinvested in additional Fund shares at net asset value or, at your option, paid in cash. If you redeem all shares in your account at any time during the month, all dividends to which you are entitled will be paid to you along with the proceeds of the redemption. If you are an omnibus accountholder and indicate in a partial redemption request that a portion of any accrued dividends to which such account is entitled belongs to an underlying accountholder who has redeemed all shares in his or her account, such portion of the accrued dividends will be paid to you along with the proceeds of the redemption.

The Code provides that if a shareholder holds shares of a Fund for six months or less and has received a capital gain dividend with respect to such shares, any loss incurred on the sale of such shares will be treated as long-term capital loss to the extent of the capital gain dividend received. In addition, any dividend or distribution paid shortly after an investor's purchase may have the effect of reducing the aggregate net asset value of shares below the cost of the investment. Such a distribution would be a return on investment in an economic sense although taxable as stated in the Fund's Prospectus.

Ordinarily, gains and losses realized from portfolio transactions will be treated as capital gains and losses. However, a portion of the gain or loss realized from the disposition of foreign currencies (including foreign currency denominated bank deposits) and non-U.S. dollar denominated securities (including debt instruments, and certain financial futures or forward contracts and options) may be treated as ordinary income or loss. In addition, all or a portion of any gain realized from the sale or other disposition of certain market discount bonds will be treated as ordinary income. Finally, all or a portion of the gain realized from engaging in "conversion transactions" (generally including certain transactions designed to convert ordinary income into capital gain) may be treated as ordinary income.

Gain or loss, if any, realized by a Term Fund from certain financial futures and options transactions ("Section 1256 contracts") will be treated as 60% long-term capital gain or loss and 40% short-term capital gain or loss. Gain or loss will arise upon the exercise or lapse of Section 1256 contracts and options as well as from closing transactions. In addition, any Section 1256 contracts remaining unexercised at the end of a Term Fund's taxable year will be treated as sold for their then fair market value, resulting in additional gain or loss to a Term Fund characterized in the manner described above.

Offsetting positions held by a Term Fund involving certain futures or forward contracts or options transactions with respect to actively traded personal property may be considered, for tax purposes, to constitute "straddles." To the extent the straddle rules apply to positions established by a Term Fund, losses realized by a Term Fund may be deferred to the extent of unrealized gain in the offsetting position. In addition, short-term capital loss on straddle positions may be recharacterized as long-term capital loss, and long-term capital gains on straddle positions may be treated as short-term capital gains or ordinary income. Certain of the straddle positions held by a Term Fund may constitute "mixed straddles." A Term Fund may make one or more elections with respect to the treatment of "mixed straddles," resulting in different tax consequences. In certain circumstances, the provisions governing the tax treatment of straddles override or modify certain of the provisions discussed above.

If a Term Fund either (1) holds an appreciated financial position with respect to stock, certain debt obligations, or partnership interests ("appreciated financial position") and then enters into a short sale, futures or forward contract or offsetting notional principal contract (collectively, a "Contract") with respect to the same or substantially identical property or (2) holds an appreciated financial position that is a Contract and then acquires property that is the same as, or substantially identical to, the underlying property, the Fund generally will be taxed as if the appreciated financial position were sold at its fair market value on the date the Fund enters into the financial position or acquires the property, respectively.

Investment by a Term Fund in securities issued or acquired at a discount, or providing for deferred interest or for payment of interest in the form of additional obligations could under special tax rules, affect the amount, timing and character of distributions to shareholders by causing the Fund to recognize income prior to the receipt of cash payments. For example, the Term Fund could be required to accrue a portion of the discount (or deemed discount) at which the securities were issued each year and to distribute such income in order to maintain its qualification as a regulated investment company. In such case, the Term Fund may have to

dispose of securities which it might otherwise have continued to hold in order to generate cash to satisfy these distribution requirements.

INFORMATION ABOUT THE FUNDS

Each Fund share has one vote and, when issued and paid for in accordance with the terms of the offering, is fully paid and non-assessable. Fund shares are of one class and have equal rights as to dividends and in liquidation. Fund shares have no preemptive, subscription or conversion rights and are freely transferable.

Unless otherwise required by the 1940 Act, ordinarily it will not be necessary for each Fund to hold annual meetings of shareholders. As a result, shareholders may not consider each year the election of Board members or the appointment of auditors. However, the holders of at least 10% of the shares outstanding and entitled to vote may require the Fund to hold a special meeting of shareholders for purposes of removing a Board member from office. Shareholders may remove a Board member by the affirmative vote of two-thirds of the Fund's outstanding voting shares. In addition, the Board will call a meeting of shareholders for the purpose of electing Board members if, at any time, less than a majority of the Board members then holding office have been elected by shareholders.

Under Massachusetts law, shareholders could, under certain circumstances, be held personally liable for the obligations of the Fund of which they are shareholders. However, each Fund's Agreement and Declaration of Trust ("Trust Agreement") disclaims shareholder liability for acts or obligations of the relevant Fund and requires that notice of such disclaimer be given in each agreement, obligation or instrument entered into or executed by the Fund or a Board member. Each Trust Agreement provides for indemnification from the respective Fund's property for all losses and expenses of any shareholder held personally liable for the obligations of the Fund. Thus, the risk of a shareholder incurring financial loss on account of shareholder liability is limited to circumstances in which the Fund itself would be unable to meet its obligations, a possibility which management believes is remote. Upon payment of any liability incurred by a Fund, the shareholder paying such liability will be entitled to reimbursement from the general assets of such Fund. Each Fund intends to conduct its operations in such a way so as to avoid, as far as possible, ultimate liability of the shareholders for liabilities of the Fund.

Each Term Fund is intended to be a long-term investment vehicle and is not designed to provide investors with a means of speculating on short-term market movements. A pattern of frequent purchases and exchanges can be disruptive to efficient portfolio management and, consequently, can be detrimental to a Term Fund's performance and their shareholders. If a Term Fund's management determines that an investor is following an abusive investment strategy, it may reject any purchase request, or terminate the investor's exchange privilege, with or without prior notice. Such investors also may be barred from purchasing other funds in the Dreyfus Family of Funds. Accounts under common ownership or control may be considered as one account for purposes of determining a pattern or excessive or abusive trading. In addition, each Term Fund may refuse or restrict purchase or exchange requests for Fund shares by any person or group if, in the judgment of the Term Fund's management, the Term Fund would be unable to invest the money effectively in accordance with its investment objective and policies or could otherwise be adversely affected or if the Term Fund receives or anticipates receiving

simultaneous orders that may significantly affect the Term Fund. If an exchange request is refused, the Term Fund will take no other action with respect to Fund shares until it receives further instructions from the investor. While each Term Fund will take reasonable steps to prevent excessive short term trading deemed to be harmful to the Term Fund, it may not be able to identify excessive trading conducted through certain financial intermediaries or omnibus accounts.

To offset the relatively higher costs of servicing smaller accounts, each Fund will charge regular accounts with balances below \$2,000 an annual fee of \$12. The valuation of accounts and the deductions are expected to take place during the last four months of each year. The fee will be waived for any investor whose aggregate Dreyfus mutual fund investments total at least \$25,000, and will not apply to IRA accounts or to accounts participating in automatic investment programs or opened through a securities dealer, bank or other financial institution, or to other fiduciary accounts.

Each Fund sends annual semi-annual financial statements to all its shareholders.

Effective January 20, 2003, each Term Fund changed its investment objective from seeking as high a level of current income as is consistent with the preservation of capital to its current objective. Prior to October 24, 1991, each Term Fund's investment objective was to provide investors with as high a level of current income as is consistent with the preservation of capital by investing in obligations of the U.S. Government and its agencies and instrumentalities that provide interest income exempt from state and local income taxes. Effective May 15, 1998, each Term Fund changed its management policies from investing solely in U.S. Treasury securities to its present management policies.

COUNSEL AND INDEPENDENT AUDITORS

Stroock & Stroock & Lavan LLP, 180 Maiden Lane, New York, New York 10038-4982, as counsel for each Fund, has rendered its opinion as to certain legal matters regarding the due authorization and valid issuance of the shares being sold pursuant to the Funds' combined Prospectus.

Ernst & Young LLP, independent auditors, 5 Times Square, New York, New York 10036, has been selected as independent auditors of each Fund.
