Charleston, South Carolina

A. Thomas Hood

President and CEO

August 2006

Forward-looking Statements

Certain matters in the presentation today constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements relate to, among others, expectations of the business environment in which the Company operates, projections of future performance, including operating efficiencies, perceived opportunities in the market, potential future credit experience, and statements regarding the Company's mission and vision. These forward-looking statements are based upon current management expectations, and may, therefore, involve risks and uncertainties. Management's ability to predict results or the effect of future plans or strategies is inherently uncertain. The Company's actual results, performance or achievements may differ materially from those suggested, expressed or implied by forward-looking statements due to a wide range of factors including, but not limited to, the general business environment, general economic conditions nationally and in the State of South Carolina, interest rates, the South Carolina real estate market, the demand for mortgage loans, competitive conditions between banks and non-bank financial services providers, regulatory changes and other risks detailed in the Company's reports filed with the Securities and Exchange Commission, including the Annual Report on Form 10-K for the fiscal year ended September 30, 2005. Accordingly, these factors should be considered in evaluating the forward-looking statements, and undue reliance should not be placed on these statements.
