FIRST FINANCIAL HOLDINGS, INC. ANNOUNCES FIRST QUARTER FISCAL 2010 RESULTS

Charleston, South Carolina (January 27, 2010) – First Financial Holdings, Inc. (“First Financial” or the “Company”) (NASDAQ GSM: FFCH), the holding company for First Federal Savings and Loan Association of Charleston (“First Federal” or the “Association”), today reported results for the first quarter of its fiscal year ending September 30, 2010. The net loss for the quarter ended December 31, 2009 was \$4.5 million compared to a \$6.5 million loss from the comparative quarter ended December 31, 2008. Basic and diluted loss per share was \$0.28 for the current quarter, compared to \$0.56 per basic and diluted loss per share for the quarter ended December 31, 2008. Including the preferred stock dividend and related accretion, the net loss to common shareholders was \$5.5 million, or \$0.33 per diluted share, for the first quarter, compared to a net loss of \$6.8 million, or \$0.58 per diluted share, for the first quarter one year ago.

President and Chief Executive Officer A. Thomas Hood commented, “Our core operating results remain strong. We have added several very talented bankers to our team. As we navigate through this difficult environment, they will make important contributions. We are devoting significant resources to the monitoring and early recognition of potential problems in our loan portfolio and to the development of new customer relationships.”

The Company recognized a provision for loan losses of \$25.3 million for the quarter ended December 31, 2009 compared to \$21.3 million for the quarter ended September 30, 2009, and \$20.5 million for the quarter ended December 31, 2008. As President and CEO Hood explained in our January 8, 2010 press release, “This higher than historical provision results from asset quality downgrades to land loans and acquisition and development loans. This deterioration is the result of weakness in the economy and further decline in real estate values.” The Company increased its allowance for loan losses as a percent of total loans from 257 basis points during the quarter ended September 30, 2009 to 278 basis points during the quarter ended December 31, 2009. Problem assets, which include non-accrual loans, accruing loans 90 days or more past due and real estate owned, as a percentage of total assets were 3.73% at December 31, 2009 compared with 2.92% at September 30, 2009 and 1.33% at December 31, 2008. The Company’s loan loss reserve coverage of non-performing loans, defined as total reserves for loan losses divided by non-accrual loans and accruing loans 90 days or more past due was 67.6% at December 31, 2009 compared to 85.0% at September 30, 2009 and 118.0% at December 31, 2008. Hood continued, “Our Loss Mitigation Team remains very committed to working with borrowers searching for alternatives to mortgage foreclosure. In fact, our latest Foreclosure Prevention Clinic was held this past Saturday, January 23, 2010.”

Compared with the quarter ended September 30, 2009, the net interest margin decreased by five basis points from a net interest margin of 3.99% to 3.94% for the quarter ended December 31, 2009. Net interest income for the quarter ended December 31, 2009 was \$32.9 million, decreasing from \$34.1 million or 3.4% for the linked quarter ended September 30, 2009. Hood commented, “Our net interest margin decreased due to a slightly more competitive deposit rate market and due to increased balances in non-accruing loans. We

remain very focused on increasing our core deposits and developing long-term customer relationships across our entire footprint.”

Mortgage banking income was \$2.4 million for the first quarter of fiscal 2010, a decrease of \$261 thousand or 9.8% for the linked quarter ended September 30, 2009 and an increase of \$651 thousand or 37.0% for the comparative quarter ended December 31, 2008. The Company continues its strategy of having certain economic hedging strategies in place to protect the value of our capitalized mortgage servicing asset from interest rate risk.

During the quarter ended December 31, 2009, there was further deterioration in our bank trust preferred collateralized debt obligations (“CDOs”) portfolio. As a result, the Company recognized a credit-related other than temporary impairment (OTTI) charge totaling \$235 thousand on six CDOs comprised of bank trust preferred securities and \$259 thousand on one private label collateralized mortgage obligation (“CMO”). Total CDOs, comprised of bank trust preferred securities, was \$4.9 million or less than 1.0% of our total investment portfolio at December 31, 2009.

On December 10, 2009, First Federal announced the donation of our building, located on Coit Street in Florence, South Carolina, to the Greater Florence Chamber of Commerce. Hood commented “The Chamber needs a new space to better accommodate its staff while maintaining a downtown presence. At the same time, First Federal intends to occupy a smaller, more efficient space and no longer needs the amount of square footage this office contains.” The accounting treatment of this donation increased both our gains on disposition of assets and other expenses. The net tax benefit of this donation for fiscal 2010 is \$636 thousand.

Total other income was \$15.1 million for the first quarter of fiscal 2010 compared to \$15.4 million for the fourth quarter of fiscal 2009 and \$11.3 million for the quarter ended December 31, 2008. Total revenues, defined as net interest income plus total other income, excluding gains on sales of investments and gains on disposition of assets, increased to \$46.7 million for the quarter ended December 31, 2009, an increase of \$10.4 million, or 28.5%, from \$36.3 million during the comparable quarter ended December 31, 2008.

Total other expense increased by \$4.0 million, or 14.9%, to \$30.6 million for the quarter ended December 31, 2009 compared to \$26.6 million for the quarter ended December 31, 2008. Salary and employee benefits costs and occupancy costs increased year over year as a result of additional staff due to the acquisition of the operations of Cape Fear Bank and American Pensions, Inc.

Hood continued, “While current economic conditions continue to present varied challenges for our markets and for all financial institutions, our Board of Directors, officers and employees remain committed to finding the best financial solutions for our customers and the best results for our shareholders.”

As of December 31, 2009, First Financial’s total assets were \$3.5 billion, loans receivable totaled \$2.6 billion and deposits were \$2.3 billion. Stockholders’ equity was \$354.5 million and book value per common share totaled \$17.52 at December 31, 2009. First Federal’s capital ratio (i.e., equity divided by assets) was 7.9% at December 31, 2009, compared to 7.9% and 5.9% at September 30, 2009 and December 31, 2008, respectively. Tangible equity to assets was 7.7% at December 31, 2009, compared to 7.7% and 6.9% at September 30, 2009 and December 31, 2008, respectively. As of December 31, 2009, First Federal remained categorized “well capitalized” under regulatory standards.

As a participant in the Treasury’s Capital Purchase Program, the Company continues to use this capital to help borrowers avoid foreclosures in our markets, and to expand our loan and investment portfolios. The Company paid a dividend of \$813 thousand to the U.S. Treasury for its investment during the first quarter of fiscal 2010.

On September 29, 2009, the Company raised \$65.0 million through a public offering by issuing 4,193,550 shares of common stock at a price of \$15.50 per share. Subsequently, on October 9, 2009 the Company announced that the underwriters fully exercised their over-allotment option, resulting in the issuance of an additional 629,032 shares. Including the over-allotment option, the net proceeds to the Company after deducting underwriting discounts, commissions and estimated offering expenses were approximately \$69.8 million.

First Financial is the holding company for First Federal Savings and Loan Association of Charleston, which operates 65 offices located in the Charleston metropolitan area, Horry, Georgetown, Florence and Beaufort counties in South Carolina and Brunswick, New Hanover and Pender counties in coastal North Carolina offering banking, trust and pension administration services. The Company also provides insurance and brokerage services through First Southeast Insurance Services, The Kimbrell Insurance Group and First Southeast Investor Services.

NOTE: A. Thomas Hood, President and CEO of the Company, and R. Wayne Hall, Executive Vice President and CFO, will discuss these results in a conference call at 2:00 PM (EDT), January 27, 2010. The call can be accessed via a webcast available on First Financial's website at www.firstfinancialholdings.com.

Forward Looking Statements

Certain matters in this news release constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements relate to, among others, expectations of the business environment in which the Company operates, projections of future performance, including operating efficiencies, perceived opportunities in the market, potential future credit experience, and statements regarding the Company's mission and vision. These forward-looking statements are based upon current management expectations, and may, therefore, involve risks and uncertainties. Management's ability to predict results or the effect of future plans or strategies is inherently uncertain. The Company's actual results, performance or achievements may differ materially from those suggested, expressed or implied by forward-looking statements as a result of a wide range of factors including, but not limited to, the general business environment, general economic conditions nationally and in the States of North and South Carolina, interest rates, the North and South Carolina real estate markets, the demand for mortgage loans, the credit risk of lending activities, including changes in the level of and trend of loan delinquencies and charge-offs, results of examinations by our banking regulators, our ability to successfully integrate any assets, liabilities, customers, systems, and management personnel we have acquired or may in the future acquire into our operations and our ability to realize related revenue synergies and cost savings within expected time frames and any goodwill charges related thereto, competitive conditions between banks and non-bank financial services providers, regulatory changes and other risks detailed in the Company's reports filed with the Securities and Exchange Commission ("SEC"), including the Annual Report on Form 10-K for the fiscal year ended September 30, 2009. Accordingly, these factors should be considered in evaluating the forward-looking statements, and undue reliance should not be placed on these statements.

Such forward-looking statements may include projections. Such projections were not prepared in accordance with published guidelines of the American Institute of Certified Public Accountants or the SEC regarding projections and forecasts nor have such projections been audited, examined or otherwise reviewed by independent auditors of the Company. In addition, such projections are based upon many estimates and inherently subject to significant economic and competitive uncertainties and contingencies, many of which are beyond the control of management of the Company. Accordingly, actual results may be materially higher or lower than those projected. The inclusion of such projections herein should not be regarded as a representation by the Company that the projections will prove to be correct. The Company does not undertake to update any forward-looking statement that may be made on behalf of the Company.
