NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2006

(Unaudited)

1. Organization

The Aristotle Corporation (“Aristotle”) and its subsidiaries (together with Aristotle, the “Company”), founded in 1986, and headquartered in Stamford, CT, is a leading manufacturer and global distributor of educational, health, medical technology and agricultural products. A selection of over 80,000 items is offered, primarily through more than 45 separate catalogs carrying the brand of Nasco (founded in 1941), as well as those bearing the brands of Life/Form®, Whirl-Pak®, Simulaids, Triarco, Spectrum Educational Supplies, Hubbard Scientific, Scott Resources, Haan Crafts, To-Sew, CPR Prompt®, Ginsberg Scientific and Summit Learning. Products include educational materials and supplies for substantially all K-12 curricula, molded plastics, biological materials, health care products and items for the agricultural, senior care and food industries. In addition, the Company offers medical simulators and manikins used for training in cardiopulmonary resuscitation and the fire and emergency rescue and patient care fields. The Company also markets proprietary product lines that provide exclusive distribution rights throughout all of its catalogs. The proprietary product lines are developed internally through the Company’s research and development efforts and acquired externally by licensing rights from third parties.

Geneve Corporation (“Geneve”), a privately-held diversified financial holding company, and an affiliated entity held approximately 90% of Aristotle’s voting power at June 30, 2006 and 2005. On May 22, 2006, the Company received a proposal from Geneve (“Geneve Proposal”) to acquire in a merger transaction (i) the balance of the outstanding shares of Aristotle’s Common Stock for a cash purchase price of \$8.06 per share and (ii) all of the outstanding shares of Aristotle’s Series I Preferred Stock for a cash price of \$8.25 per share plus accrued and unpaid dividends to the closing date. All shares of Common Stock and Series I Preferred Stock issuable under outstanding employee stock options would also be acquired on the same basis, less the option exercise price. At the request of Geneve, the Board of Directors of Aristotle has established a special committee currently composed of Aristotle’s independent directors to consider the Geneve Proposal. There is no assurance that a transaction based upon the Geneve Proposal will be consummated.

2. Financial Statement Presentation

The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) for interim financial information and the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, the Condensed Consolidated Financial Statements do not include all of the information and notes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of financial position as of June 30, 2006 and 2005, results of operations for the three and six months ended June 30, 2006 and 2005 and cash flows for the six months ended June 30, 2006 and 2005, as applicable, have been made. Operating results for the three and six months ended June 30, 2006 are not necessarily indicative of results that may be expected for any other interim period or for the year ending December 31, 2006. For further information, refer to the consolidated financial statements and notes included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2005.

3. Principles of Consolidation

All significant intercompany balances and transactions have been eliminated in consolidation.

4. Recently Issued Accounting Pronouncements

In June 2006, the Financial Accounting Standards Board (the "FASB") issued Interpretation No. 48, *Accounting for Uncertainty in Income Taxes—An Interpretation of FASB Statement No. 109* ("Interpretation 48"), which prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Interpretation 48 is effective for fiscal years beginning after December 15, 2006. The adoption of Interpretation 48 is not expected to have a material impact on the Company's financial statements.

In December 2004, the FASB issued a revised Statement of Financial Accounting Standards ("SFAS") No. 123, *Share-Based Payment* ("SFAS 123R"), which establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods or services. SFAS 123R requires a company to measure the cost of employee services received in exchange for an award of equity instruments, such as stock options, based on the grant-date fair value of the award and to recognize these awards as an expense in the statement of earnings over the requisite service period. The grant-date fair value of employee stock options and similar instruments will be estimated using option-pricing models adjusted for unique characteristics of those instruments unless observable market prices for the same or similar instruments are available. SFAS 123R replaces SFAS No. 123, *Accounting for Stock-Based Compensation* ("SFAS 123"), which was issued in October 1995. SFAS 123R is effective for all awards granted, modified, repurchased, or cancelled after the beginning of the first annual reporting period beginning after June 15, 2005. SFAS 123R provides transitional guidance for awards existing at the adoption date. Effective January 1, 2006, the Company adopted SFAS 123R using the modified prospective method. The adoption did not have a material impact on the Company's financial statements at June 30, 2006 and for the three and six months then ended since the Company had been expensing share based awards granted after January 1, 2002 under the fair value provisions of SFAS 123.

In November 2004, the FASB issued SFAS No. 151, *Inventory Costs: an amendment of ARB No. 43* ("SFAS 151"), which clarifies that abnormal costs of idle facility expense, freight, handling costs and wasted material should be recognized as current period expenses. SFAS 151 also requires that allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. SFAS 151 is effective for inventory costs incurred during fiscal years beginning after June 15, 2005. The adoption of SFAS 151 did not have a material impact on the Company's financial statements at June 30, 2006 and for the three and six months then ended.

5. Earnings per Common Share

Basic earnings per common share is calculated by dividing net earnings applicable to common stockholders by the weighted average number of common shares outstanding for the period. Diluted earnings per common share is calculated by dividing net earnings applicable to common stockholders by the weighted average number of common shares outstanding during the period and including each share that would have been outstanding assuming the issuance of common shares for all dilutive potential common shares outstanding during the period.

Shares of Common Stock available for issue upon conversion of the 1,100,122 and 1,096,622 shares of Series I Preferred Stock outstanding at June 30, 2006 and 2005, respectively, were not dilutive and, therefore, have not been included in the computations of diluted earnings per common share amounts for the periods then ended.

6. Investments

The Company has invested in a limited partnership, the general partner of which is an affiliate of the Company. The assets of this limited partnership are managed exclusively by a non-affiliate of the Company. The purpose of the limited partnership is to manage a diversified investment portfolio. No additional amounts were invested during the three and six months ended June 30, 2006. The Company invested \$1.7 million during the three and six months ended June 30, 2005. The Company's investment is accounted for under the equity method of accounting, which equates the carrying value of the investment to the Company's equity in the partnership's underlying book value. The Company's equity earnings or loss is credited or charged, as appropriate, to other income within the Condensed Consolidated Statements of Earnings. For the three months ended June 30, 2006 and 2005, equity earnings amounted to \$.4 million and \$.1 million, respectively. For the six months ended June 30, 2006 and 2005, equity earnings amounted to \$.8 million and \$.2 million, respectively.

7. Inventories

The classification of inventories is as follows (in thousands):

Comprehensive earnings	\$ 5,947	4,648	9,886	7,798

9. Stock Options

The Company established the 1997 Employee and Director Stock Plan in 1997 ("1997 Plan"). The 1997 Plan provides for granting up to 150,000 options to employees and directors of the Company to purchase shares of Common Stock. The exercise term of the options and vesting requirements shall be for such period as the Board of Directors (or a committee thereof, appointed to administer the 1997 Plan, if any) designates. Following the merger with Nasco International, Inc. on June 17, 2002 (the "Merger"), each option to purchase one share of the Company's Common Stock granted under the 1997 Plan became an option to purchase one share of Common Stock and one share of Series I Preferred Stock of the Company. The Company does not currently intend to grant any additional options under the 1997 Plan.

The Company established the 2002 Employee, Director and Consultant Stock Plan in 2002 ("2002 Plan") under which employees, directors and consultants of the Company are eligible to receive nonincentive and incentive options and stock grants of up to 1,500,000 shares of Common Stock. Options granted under the 2002 Plan generally vest over a three year period and have an exercise term of no longer than five years.

The fair value of each option granted is estimated on the date of grant using the Black-Scholes option pricing model. The risk-free interest rate is based on United States Treasury yields in effect at the date of grant consistent with the estimated life of the options. The estimated life of options granted represents the period of time that the options are expected to be outstanding (excluding any effects of the Geneve Proposal). The expected volatility is based on an analysis of historical prices of the Company's stock over a period of time consistent with the estimated life of the options.

Stock option compensation recognized within the Condensed Consolidated Statements of Earnings amounted to less than \$.1 million and \$.2 million for the three months ended June 30, 2006 and 2005, respectively. For the six months ended June 30, 2006 and 2005, stock option compensation amounted to \$.1 million and \$.3 million, respectively.

10. Defined Benefit Pension Plan

On December 31, 2005, the Company froze the benefits under its pension plan for all hourly employees and certain salaried employees.

No contributions were made to the pension plan for the three months ended June 30, 2006. The Company contributed \$.2 million to the pension plan for the three months ended June 30, 2005. The Company contributed \$.2 million to the pension plan for each of the six months ended June 30, 2006 and 2005. The Company expects to contribute a total of approximately \$.3 million to the pension plan in 2006.

The following table presents the components of net periodic benefit cost for the three and six months ended June 30 (in thousands):

	Three Months Ended		Six Months Ended

Net periodic benefit cost	<u>\$ 178</u>	<u>215</u>	<u>356</u>	<u>428</u>

11. Segment Reporting

The Company's business activities are organized into two business segments, educational and commercial. The educational segment relates to instructional teaching aids and materials, which are distributed to educational institutions principally in North America, for kindergarten through grade 12 classes, and for nursing school and emergency medical instructors. Products in the educational segment are marketed primarily through catalogs. The growth potential of the educational segment is directly related to school enrollments and the strength of government funding of education. The commercial segment relates to agricultural products, sterile sampling containers and systems, materials for nursing home activities and novelty and gift products. Products in the commercial segment are marketed through catalogs nationwide and through a worldwide dealer network covering more than 60 countries. Market growth in the commercial segment is principally impacted by the general economic conditions of world agriculture, the increasing size of the aged population, as well as increasing global awareness of food and water quality standards. The Company evaluates the performance of these segments based on segment net sales and gross profit.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

GENERAL

This discussion and analysis of financial condition and results of operations reviews the results of operations of the Company, on a consolidated basis, for the three and six months ended June 30, 2006, as compared to the three and six months ended June 30, 2005. This discussion and analysis of financial condition and results of operations has been derived from, and should be read in conjunction with, the unaudited Condensed Consolidated Financial Statements and Notes to Condensed Consolidated Financial Statements contained herein.

The Company is a leading manufacturer and global distributor of educational, health, medical technology and agricultural products, primarily offered through more than 45 separate catalogs.

The following is a summary of key events for the three and six months ended June 30, 2006:

- increase in net sales of 6.6% and 8.4% in the three and six months ended June 30, 2006, respectively, as compared to the same periods in 2005;
- increase in gross profit of 6.0% and 7.6% in the three and six months ended June 30, 2006, respectively, as compared to the same periods in 2005;
- 14.7% and 18.5% increase in earnings before income taxes in the three and six months ended June 30, 2006, respectively, as compared to the same periods in 2005;
- 14.7% increase in net earnings, resulting in a 26.7% increase in diluted earnings per common share to \$.19 in the second quarter of 2006, as compared to the same period in 2005; as a percentage of net sales, net earnings amounted to 10.4% in the second quarter of 2006, compared to 9.6% in the same period in 2005; 18.5% increase in net earnings, resulting in a 38.1% increase in diluted earnings per common share to \$.29 in the six months ended June 30, 2006, as compared to the same period in 2005; as a percentage of net sales, net earnings amounted to 9.4% in the six months ended June 30, 2006, compared to 8.7% in the same period in 2005;
- increase in cash retained in the Company to \$2.4 million and \$4.2 million in the three and six months ended June 30, 2006, respectively, from \$2.2 million and \$3.8 million in the three and six months ended June 30, 2005, respectively, primarily as a result of the increased current utilization of Federal net operating tax loss carryforwards;
- EBITDA₍₁₎ increase of 11.0% to \$9.5 million in the second quarter of 2006, as compared to the same period in 2005; EBITDA increase of 14.1% to \$16.4 million in the six months ended June 30, 2006, as compared to the same period in 2005;
- increase in short term investments to \$13.7 million at June 30, 2006, as compared to \$5.9 million at June 30, 2005;
- net cash provided by operating activities increased 28.6% to \$7.7 million in the six months ended June 30, 2006, from \$6.0 million in the comparable period in 2005;
- semi-annual dividend payments on March 31, 2006 totaling \$4.3 million on the Company's Series I Preferred Stock and Series J Preferred Stock; and
- in the first quarter of 2006, the Company moved its Simulaid's operations to a new 80,000 square foot office and manufacturing facility.

A key strength of the Company's business is its ability to generate cash consistently. The Board of Directors and management use cash generated as a measure of the Company's performance. The Company uses the cash generated from operations to strengthen the balance sheet, including making investments and reducing liabilities such as pension and debt obligations, paying dividends on its preferred stocks and completing prudent acquisition opportunities. The Company's management believes that examining the ability to generate cash provides investors with additional insight into the Company's performance.

The following table sets forth selected financial data (i) as a percentage of net sales for the three and six months ended June 30, 2006 and 2005 and (ii) the percentage change in those reported items from the comparable period in 2005:

(1) "EBITDA," which is considered a non-GAAP financial measure, is defined as earnings before income taxes, interest expense, other income and expense, depreciation and amortization. A non-GAAP financial measure is a numerical measure of a company's historical or future financial performance, financial position or cash flows that either excludes or includes amounts that are normally included or excluded in a comparable measure calculated and presented under GAAP. EBITDA is not presented as an alternative measure of operating results (such as earnings from operations or net earnings) or cash flow from operations, as determined in accordance with GAAP, but is presented because the Company's management believes it is a widely accepted indicator of the Company's current financial performance and ability to incur and service debt. EBITDA does not give effect to cash used for debt service requirements or capital expenditures and thus does not reflect funds available for dividends, reinvestment or other discretionary uses. In addition, EBITDA as presented herein may not be comparable to similarly titled measures reported by other companies. The following table provides a reconciliation of net earnings to EBITDA for the three and six months ended June 30 (in thousands):

FLUCTUATIONS IN QUARTERLY RESULTS OF OPERATIONS

The Company is subject to seasonal influences with peak levels occurring in the second and third quarters of the fiscal year primarily due to increased educational shipments coinciding with the start of new school years in the Fall. As a result, the Company typically recognizes approximately 75% of its annual net earnings in the second and third quarters of its fiscal year. Inventory levels increase in March through June in anticipation of the peak shipping season. The majority of shipments are made between June and August and the majority of cash receipts are collected from August through October.

Quarterly results may also be materially affected by the timing of acquisitions, the timing and magnitude of costs related to such acquisitions, variations in costs of products sold, the mix of products sold and general economic conditions. Results for any quarter are not indicative of the results for any subsequent fiscal quarter or for a full fiscal year.

RESULTS OF OPERATIONS - THREE MONTHS ENDED JUNE 30, 2006 AS COMPARED TO THREE MONTHS ENDED JUNE 30, 2005

Net Sales

Net sales for the second quarter of 2006 increased 6.6% to \$53.4 million from \$50.2 million for the comparable period in 2005. The growth in net sales for the second quarter of 2006 is equally attributable to organic growth in each of the U.S. and international markets.

Net sales in the educational segment, totaling \$44.8 million, increased 7.4% in the second quarter of 2006 from \$41.8 million in the comparable period in 2005. The commercial segment recorded net sales of \$8.6 million in the second quarter of 2006, increasing 2.5% from \$8.4 million in the second quarter of 2005.

Gross Profit

Gross profit for the second quarter of 2006 increased 6.0% to \$20.4 million from \$19.2 million for the comparable period in 2005. The increase in gross profit for the second quarter of 2006 is primarily attributable to the 6.6% increase in net sales. The gross profit margin decreased to 38.1% in the second quarter of 2006 from 38.4% in the comparable period in 2005. The decrease in consolidated gross margin is attributed to the increase in freight costs included in other costs of sales.

The educational segment gross profit for the second quarter of 2006 increased 8.4% to \$18.3 million from \$16.8 million for the comparable period in 2005. The educational segment gross profit margin increased to 40.7% in the second quarter of 2006 from 40.3% in the second quarter of 2005. The commercial segment gross profit for the second quarter of 2006 increased 3.5% to \$3.2 million from \$3.1 million for the comparable period in 2005. The commercial segment yielded a gross profit margin of 37.4% in the second quarter of 2006, as compared to 37.0% in the second quarter of 2005.

Selling and Administrative Expenses

Selling and administrative expenses for the second quarter of 2006 increased 1.8% to \$11.4 million from \$11.2 million in the comparable period in 2005. As a percent of net sales, selling and administrative expenses amounted to 21.2% for the second quarter of 2006, as compared to 22.2% in the second quarter of 2005. Selling and administrative expenses include advertising and catalog costs, warehouse and shipping activities, customer service and general administrative functions. Selling and administrative expenses for the second quarter of 2006 were primarily impacted by the following: (i) an increase in salaries and wages of \$.4 million, or 6.5%, as a result of increases in annual employee compensation, employee performance incentives and the number of employees; and (ii) a decrease in group health care costs by 9.2%, or \$.1 million.

The Company recorded less than \$.1 million and \$.2 million in compensation expense for the second quarters of 2006 and 2005, respectively, related to grants of stock options to certain employees and directors.

The Company incurred expenses of \$.2 million to Geneve for certain administrative services for each of the second quarters of 2006 and 2005.

Interest Expense

Interest expense for the second quarter of 2006 increased 38.4% to \$.5 million from \$.4 million for the second quarter of 2005. The increase in interest expense is principally due to the increase in the weighted average interest rate to 6.6% during the second quarter of 2006, compared to 4.6% in the second quarter of 2005.

The Company's credit agreements assessed interest at a weighted average rate of 6.8%, 5.8% and 4.8% at June 30, 2006, December 31, 2005 and June 30, 2005, respectively.

Income Tax Provision

Aristotle and its qualifying domestic subsidiaries are included in the Federal income tax return and certain state income tax returns of Geneve. The provision for income taxes for the Company is determined on a separate return basis in accordance with the terms of a tax sharing agreement with Geneve, and payments for current Federal and certain state income taxes are made to Geneve.

The income tax provision for the second quarter of 2006 was \$3.5 million versus \$3.0 million for the comparable period in 2005. These tax provisions reflect effective tax rates of 38.6% for each of the second quarters of 2006 and 2005. For each of the second quarters of 2006 and 2005, the difference between the Federal statutory income tax rate of 35% and the effective income tax rate results principally from foreign and state income taxes. Although the reported earnings for the second quarters of 2006 and 2005 are shown after-tax, approximately \$2.4 million and \$2.2 million, respectively, of cash from operations was retained in the Company primarily as a result of the current utilization of Federal net operating tax loss carryforwards. Except for Federal alternative minimum tax obligations arising from limitations on the utilization of Federal net operating tax loss carryforwards in 2006, the Company anticipates that the utilization of the available Federal net operating tax loss carryforwards to offset future Federal taxable income will result in the Company not having to use its cash resources to pay Federal income taxes through 2006.

At June 30, 2006, the Condensed Consolidated Balance Sheet contains a net deferred tax asset of \$9.8 million, net of a valuation allowance of \$6.5 million. Substantially all of the net deferred tax asset relates to Federal net operating tax loss carryforwards, which were recognized in applying purchase accounting to the Merger. The valuation allowance has been established primarily to reflect the estimate of Federal net operating tax loss carryforwards that are expected to expire unutilized. There were no changes to the valuation allowance during each of the second quarters of 2006 and 2005.

RESULTS OF OPERATIONS - SIX MONTHS ENDED JUNE 30, 2006 AS COMPARED TO SIX MONTHS ENDED JUNE 30, 2005

Net Sales

Net sales for the six months ended June 30, 2006 increased 8.4% to \$99.6 million from \$91.9 million for the comparable period in 2005. The growth in net sales for the six months ended June 30, 2006 is equally attributable to organic growth in each of the U.S. and international markets.

Net sales in the educational segment, totaling \$82.4 million, increased 8.9% in the six months ended June 30, 2006 from \$75.7 million in the comparable period in 2005. The commercial segment recorded net sales of \$17.2 million in the six months ended June 30, 2006, increasing 6.1% from \$16.2 million in the comparable period in 2005.

Gross Profit

Gross profit for the six months ended June 30, 2006 increased 7.6% to \$38.0 million from \$35.3 million for the comparable period in 2005. The increase in gross profit for the six months ended June 30, 2006 is primarily attributable to the 8.4% increase in net sales. The gross profit margin decreased to 38.1% in the six months ended June 30, 2006 from 38.4% in the comparable period in 2005.

The educational segment gross profit for the six months ended June 30, 2006 increased 8.2% to \$33.5 million from \$30.9 million for the comparable period in 2005. The educational segment gross profit margin decreased to 40.6% in the six months ended June 30, 2006 from 40.9% in the six months ended June 30, 2005. The commercial segment gross profit for the six months ended June 30, 2006 increased 9.3% to \$6.6 million from \$6.0 million for the comparable period in 2005. The commercial segment gross profit margin increased to 38.3% in the six months ended June 30, 2006, as compared to 37.1% in the six months ended June 30, 2005. The increase in the commercial segment gross profit margin is primarily attributable to an increase in the sales mix of certain proprietary commercial products.

Selling and Administrative Expenses

Selling and administrative expenses for the six months ended June 30, 2006 increased 3.0% to \$22.5 million from \$21.8 million in the comparable period in 2005. As a percent of net sales, selling and administrative expenses amounted to 22.5% for the six months ended June 30, 2006, as compared to 23.7% in the comparable period in 2005. Selling and administrative expenses include advertising and catalog costs, warehouse and shipping activities, customer service and general administrative functions. Selling and administrative expenses for the six months ended June 30, 2006 were primarily impacted by the following: (i) an increase in salaries and wages of \$1.0 million, or 8.2%, as a result of increases in annual employee compensation, employee performance incentives and the number of employees; and (ii) an increase in group health care costs by 4.6%, or \$1 million.

The Company recorded \$.1 million and \$.3 million in compensation expense for the six months ended June 30, 2006 and 2005, respectively, related to grants of stock options to certain employees and directors.

The Company incurred expenses of \$.4 million to Geneve for certain administrative services for each of the six months ended June 30, 2006 and 2005.

Interest Expense

Interest expense for the six months ended June 30, 2006 increased 45.2% to \$.9 million from \$.7 million for the comparable period in 2005. The increase in interest expense is principally due to the increase in the weighted average interest rate to 6.4% during the six months ended June 30, 2006, compared to 4.4% for the comparable period in 2005.

The Company's credit agreements assessed interest at a weighted average rate of 6.8%, 5.8% and 4.8% at June 30, 2006, December 31, 2005 and June 30, 2005, respectively.

Income Tax Provision

Aristotle and its qualifying domestic subsidiaries are included in the Federal income tax return and certain state income tax returns of Geneve. The provision for income taxes for the Company is determined on a separate return basis in accordance with the terms of a tax sharing agreement with Geneve, and payments for current Federal and certain state income taxes are made to Geneve.

The income tax provision for the six months ended June 30, 2006 was \$6.0 million versus \$5.0 million for the comparable period in 2005. These tax provisions reflect effective tax rates of 38.7% for each of the six months ended June 30, 2006 and 2005. For each of the six months ended June 30, 2006 and 2005, the difference between the Federal statutory income tax rate of 35% and the effective income tax rate results principally from foreign and state income taxes. Although the reported earnings for the six months ended June 30, 2006 and 2005 are shown after-tax, approximately \$4.2 million and \$3.8 million, respectively, of cash from operations was retained in the Company primarily as a result of the current utilization of Federal net operating tax loss carryforwards. Except for Federal alternative minimum tax obligations arising from limitations on the utilization of Federal net operating tax loss carryforwards in 2006, the Company anticipates that the utilization of the available Federal net operating tax loss carryforwards to offset future Federal taxable income will result in the Company not having to use its cash resources to pay Federal income taxes through 2006.

At June 30, 2006, the Condensed Consolidated Balance Sheet contains a net deferred tax asset of \$9.8 million, net of a valuation allowance of \$6.5 million. Substantially all of the net deferred tax asset relates to Federal net operating tax loss carryforwards, which were recognized in applying purchase accounting to the Merger. The valuation allowance has been established primarily to reflect the estimate of Federal net operating tax loss carryforwards that are expected to expire unutilized. There were no changes to the valuation allowance during each of the six months ended June 30, 2006 and 2005.

LIQUIDITY AND CAPITAL RESOURCES

At June 30, 2006, the Company had working capital of \$70.2 million, increasing from \$65.5 million at December 31, 2005. At June 30, 2005, the Company had working capital of \$62.1 million. Cash and cash equivalents increased \$1.9 million in the six months ended June 30, 2006, ending the period at \$3.7 million. Cash and cash equivalents increased slightly in the six months ended June 30, 2005, ending the period at \$2.2 million. The increase in the generation of cash and cash equivalents during the six months ended June 30, 2006 as compared to the same period in 2005 is primarily due to the following:

- The Company generated cash of \$7.7 million from operations during the six months ended June 30, 2006 compared to \$6.0 million for the comparable period of 2005. The increase in cash generated from operations in the six months ended June 30, 2006 compared to the same period in 2005 was principally the result of a \$1.5 million increase in net earnings, combined with working capital changes.

The changes in current assets and liabilities are typical for the first six months of the fiscal year as the Company is preparing for its peak business cycle, which occurs during the second and third quarters of the fiscal year. For more information on the seasonality of the Company's business, please refer to the "Fluctuations in Quarterly Results of Operations" section above.

- The Company used cash of \$1.5 million for investing activities in the six months ended June 30, 2006, compared to \$3.6 million for the comparable period in 2005. In the six months ended June 30, 2006, the Company used cash of approximately \$.6 million to fund a portion of the construction of an approximately 80,000 square foot office and manufacturing facility for the Company's Simulaid operations. The Company began operations at the new facility in the first quarter of 2006. The final construction costs of the new facility will be approximately \$5.0 million. The Company is funding the construction costs through a one year, \$4.3 million construction loan, with interest payable monthly at the mortgage lender's prime rate. Subsequent to the completion of the facility, the construction loan will convert to a 10-year mortgage on the new facility, with interest payable at the one month LIBOR rate plus a margin of 175 basis points. The Company intends to sell the old Simulaid facilities. In the six months ended June 30, 2005, the Company used cash of \$1.2 million to purchase land and fund a portion of the construction of this facility.

In the six months ended June 30, 2006, the Company used cash of approximately \$.1 million for architectural costs related to the construction of an approximately 60,000 square foot manufacturing facility on its existing land in Fort Atkinson, WI for Nasco's plastics operations. The Company began construction in the third quarter of 2006. It is estimated that the construction cost of the facility will be approximately \$3.7 million. The Company anticipates completing construction by the fourth quarter of 2006. The Company intends to fund these capital expenditures through available cash and its Revolving Credit Facility. The new manufacturing facility will replace 45,000 square feet of manufacturing space currently under lease through the end of the third quarter of 2006.

Capital expenditures to replace and upgrade existing capital equipment and install new equipment and fixtures to provide additional operating efficiencies totaled \$.8 million and \$.7 million in the six months ended June 30, 2006 and 2005, respectively.

During the six months ended June 30, 2005, the Company invested \$1.7 million in an investment limited partnership, the general partner of which is an affiliate of the Company. The assets of the limited partnership are managed exclusively by a non-affiliate of the Company (see Note 6 of the Notes to Condensed Consolidated Financial Statements included in Item 1 of this Form 10-Q). No such investments were made during the six months ended June 30, 2006. The Company had investments of \$13.7 million at June 30, 2006, as compared to \$12.9 million and \$5.9 million at December 31, 2005 and June 30, 2005, respectively.

- Financing activities used cash of \$4.3 million in the six months ended June 30, 2006, compared to \$2.4 million for the comparable period in 2005. In the six months ended June 30, 2006, there were no material changes in the Company's debt outstanding. In the six months ended June 30, 2005, the net principal proceeds from debt of \$1.9 million were primarily due to the increase in the amounts outstanding on the Company's primary credit facility due to seasonal working capital requirements and the \$1.2 million of capital expenditures in connection with the new Simulaid facility.

The Company paid dividends of \$4.3 million in each of the six months ended June 30, 2006 and 2005 on its Series I Preferred Stock and Series J Preferred Stock.

On October 15, 2003, the Company entered into a five-year, non-amortizing, \$45.0 million Revolving Credit Facility. The Revolving Credit Facility provides the Company with seasonal working capital, letters of credit and funds for appropriate acquisitions of businesses similar in nature to the Company's current business segments. This debt carries a variable rate of interest that is based on Prime or LIBOR rates plus applicable margins. At June 30, 2006, the weighted average interest rate on this debt was 6.5%. The Revolving Credit Facility currently has a committed weighted average rate of interest (including applicable margins) of approximately 6.7%. Such rate commitments expire on various dates through August 10, 2006. The Company's Revolving Credit Facility is collateralized by certain accounts receivable, inventories and property, plant and equipment, and shares of a certain subsidiary's outstanding capital stock and ownership interests of certain of the Company's limited liability subsidiaries. The Revolving Credit Facility contains various financial and operating covenants, including, among other things, requirements to maintain certain financial ratios and restrictions on additional indebtedness, common stock dividend payments, capital disposals and intercompany management fees. The Company was in compliance with all financial covenants as of June 30, 2006.

In 2006, capital expenditures to replace and upgrade existing equipment and install new equipment and fixtures to provide additional operating efficiencies are expected to approximate \$1.5 million.

Capital resources in the future are expected to be used for the development of catalogs and product lines, to acquire additional businesses and for other investing activities. The Company anticipates that there will be sufficient financial resources to meet projected working capital and other cash requirements for at least the next twelve months. Management of the Company believes it has sufficient capacity to maintain current operations and support a sustained level of future growth.

INFLATION

Inflation has had and is expected to have only a minor effect on the Company's operating results and its sources of liquidity. Inflation, including as it related to the increased cost of fuel and plastic materials, did not significantly impact the Company's operating results and its sources of liquidity in each of the three and six months ended June 30, 2006 and 2005.

SIGNIFICANT ACCOUNTING POLICIES

The preparation of the Condensed Consolidated Financial Statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the Condensed Consolidated Financial Statements and notes thereto. Actual results could differ from those estimates. The Company believes the following accounting policies affect the more significant judgments and estimates used in the preparation of the Condensed Consolidated Financial Statements:

Prepaid Catalog Costs and Amortization - The Company accumulates all direct costs, less applicable vendor rebates, incurred in the development, production and circulation of catalogs on the Condensed Consolidated Balance Sheets until the related catalog is mailed, at which time such catalog costs are amortized into selling and administrative expense over the estimated sales realization cycle of one year, using the straight-line method.

Deferred Income Taxes - At June 30, 2006, the Condensed Consolidated Balance Sheet contains a net deferred tax asset of approximately \$9.8 million, net of a valuation allowance of approximately \$6.5 million, related primarily to Federal net operating tax loss carryforwards. The realizability of this asset is dependent upon the Company's generation of sufficient levels of future taxable income and the ability to retain its Federal net operating tax loss carryforward position. Events may limit the use of all or a portion of these Federal net operating tax loss carryforwards, thus potentially resulting in a higher tax liability for the Company in the future. The net deferred tax asset, including the valuation allowance, at June 30, 2006 is subject to future adjustment based upon changes in management's evaluation of the realizability of the deferred tax asset.

Goodwill - The Company evaluates goodwill for impairment at least annually, or more frequently if events or circumstances indicate that the assets may be impaired, by applying a fair value based test and, if impairment occurs, the amount of impaired goodwill is written off immediately. The Company evaluates goodwill for impairment based on the expected future cash flows or earnings projections. Goodwill is deemed impaired if the estimated discounted cash flows or earnings projections do not substantiate the carrying value. The estimation of such amounts requires significant management judgment with respect to revenue and expense growth rates, changes in working capital and selection of an appropriate discount rate, as applicable. The use of different assumptions would increase or decrease discounted future operating cash flows or earnings projections and could, therefore, change the impairment determination. The Company evaluated its goodwill at December 31, 2005, and determined that there was no impairment of goodwill.

Defined Benefit Plans - The Company accounts for the benefits under its defined benefit pension plan using actuarial models required by SFAS No. 87, *"Employers' Accounting for Pensions."* These models use an attribution approach that generally spreads individual events over the service lives of the employees in the plan. Examples of "events" are plan amendments and changes in actuarial assumptions such as discount rate, expected return on plan assets and rate of compensation increases. The principle underlying the required attribution approach is that employees render service over their service lives on a relatively consistent basis and, therefore, the statement of earnings effects of pension benefits are earned in, and should be expensed in, the same pattern.

In calculating net periodic benefit cost and the related benefit obligation, the Company is required to select certain actuarial assumptions. These assumptions include discount rate, expected return on plan assets and rate of compensation increase. The discount rate assumptions reflect the prevailing market rates for long-term, high-quality, fixed-income debt instruments that, if the obligation was settled at the measurement date, would provide the necessary future cash flows to pay the benefit obligation when due. The Company uses long-term historical actual return experience with consideration of the expected investment mix of the plan's assets, as well as future estimates of long-term investment returns, to develop its assumptions of the expected return on plan assets. The rate of compensation increase is based on historical experience and the Company's long-term plans for such increases.

Revenues - Customarily applying FOB-shipping point terms, the Company recognizes revenue upon shipment of products to its customers, which corresponds to the time when risk of ownership transfers. The point of shipment is typically from one of the Company's distribution centers or, on occasion, a vendor's location as a drop shipment. All drop shipment sales are recorded at gross selling price.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company's financial instruments include cash and cash equivalents, investments, accounts receivable, accounts payable, accrued liabilities and debt. As described below, credit risk, market risk and interest rate risk are the primary sources of risk in the Company's accounts receivable, investments and debt.

QUALITATIVE

Credit Risk: The Company provides credit in the normal course of business to its customers, which are primarily educational institutions or distributors. No single customer accounted for more than 10% of the Company's sales in each of the three and six months ended June 30, 2006 and 2005. The Company performs ongoing credit evaluations of its customers, maintains allowances for potential credit losses and generally does not require collateral to support its accounts receivable balances.

Market Risk: The Company's exposure to market risk relates to the quality of holdings of its limited partnership investment. The fair market value of the limited partnership's investments is subject to increases or decreases in value resulting from the performance of the securities issuers, from upgrades or downgrades in the credit worthiness of the securities issuers and from changes in general market conditions. The Company seeks to manage its exposure to market risk by investing in accordance with standards established by the Investment Committee of the Board of Directors. The standards of the Investment Committee are: (i) preservation of capital; (ii) provision of adequate liquidity to meet projected cash requirements; (iii) minimization of risk of principal loss through diversified short and medium term investments; and (iv) maximization of yields in relationship to the guidelines, risk, market conditions and tax considerations.

Interest Rate Risk: Changes in interest rates can potentially impact the Company's profitability and its ability to realize assets and satisfy liabilities. Interest rate risk is resident primarily in debt, which typically has variable interest rates based on Prime or LIBOR rates. Assuming no other change in financial structure, an increase of 1% in the Company's variable interest rate for debt would decrease pre-tax earnings for 2006 by approximately \$.3 million. This amount is determined by considering the impact of a 1% increase in interest rates on the average debt estimated to be outstanding in 2006.

QUANTITATIVE

The Company's debt as of June 30, 2006 is as follows (in millions, except percentage data):

	MATURITY LESS THAN ONE YEAR	MATURITY GREATER THAN ONE YEAR
Amount	\$.6	\$ 24.3
Weighted average interest rate	7.3%	6.7%
Fair market value	\$.6	\$ 24.3

The fair market value of debt equals the face amount of debt outstanding because the underlying rate of interest on substantially all of the Company's debt is variable based upon Prime or LIBOR rates.

ITEM 4. CONTROLS AND PROCEDURES

The President and the Chief Financial Officer of the Company (its principal executive officer and principal financial officer, respectively) have concluded, based on their evaluation as of the end of the period covered by this Quarterly Report on Form 10-Q, that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in the reports filed or submitted by it under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission ("SEC") rules and forms, and include controls and procedures designed to ensure that information required to be disclosed by the Company in such reports is accumulated and communicated to the Company's management, including the President and the Chief Financial Officer, as appropriate, and allow timely decisions regarding required disclosure.

There have not been any changes in the Company's internal control over financial reporting during the fiscal quarter ended June 30, 2006 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II

ITEM 1. LEGAL PROCEEDINGS

The Company is not a party to any material legal proceedings.

ITEM 1A. RISK FACTORS

FORWARD-LOOKING STATEMENTS

The Company believes that this Quarterly Report on Form 10-Q may contain forward-looking statements within the meaning of the “safe-harbor” provisions of the Private Securities Litigation Reform Act of 1995. Forward looking statements include statements concerning plans, objectives, goals, strategies, future events or performance, expectations, predictions, and assumptions and other statements which are other than statements of historical facts. These forward-looking statements are based on management’s current expectations and are subject to, and are qualified by, a number of risks and uncertainties that could cause actual results or business conditions to differ materially from those projected or suggested in such forward-looking statements. The Company cautions investors that there can be no assurance that actual results or business conditions will not differ materially from those projected or suggested in such forward-looking statements as a result of various factors including, but not limited to, the following: (i) the ability of the Company to obtain financing and additional capital to fund its business strategy on acceptable terms, if at all; (ii) the ability of the Company on a timely basis to find, prudently negotiate and consummate additional acquisitions; (iii) the ability of the Company to manage any to-be acquired businesses; (iv) there is not an active trading market for the Company’s securities and the stock prices thereof are highly volatile, due in part to the relatively small percentage of the Company’s securities which is not held by the Company’s majority stockholder and members of the Company’s Board of Directors and/or management; (v) the ability of the Company to retain and utilize its Federal net operating tax loss carryforward position; (vi) there can be no assurance that the transaction proposed by Geneve will be approved or completed; and (vii) other factors identified below or in Item 1A of the Company’s Annual Report on Form 10-K for the year ended December 31, 2005. As a result, the Company’s future development efforts involve a high degree of risk. For further information, please see the Company’s filings with the SEC, including its Forms 10-K, 10-Q and 8-K.

There have been no material changes from the risk factors previously disclosed in Item 1A of the Company’s Annual Report on Form 10-K for the year ended December 31, 2005.
