## **The Aristotle Corporation Announces 2008 Second Quarter and Six Month Results**

Stamford, CT, August 11, 2008 - The Aristotle Corporation (NASDAQ: ARTL; ARTLP) announced today its results of operations for the second quarter and six months ended June 30, 2008.

For the second quarter ended June 30, 2008, net earnings applicable to common stockholders were \$4.5 million, or \$.25 per diluted common share, versus \$3.9 million, or \$.23 per diluted common share, in the second quarter of 2007. Net earnings applicable to common stockholders for the first six months of 2008 were \$7.3 million, or \$.41 per diluted common share, compared to \$6.3 million, or \$.36 per diluted common share, for the comparable six months of 2007.

Second quarter net sales in 2008 increased 1.1% to \$56.8 million from \$56.2 million in the second quarter of 2007. Earnings from operations improved by 9.2% in the second quarter of 2008 to \$10.5 million (including a \$.7 million insurance recovery), equating to 18.6% of net sales. In the same quarter of 2007, earnings from operations totaled \$9.7 million, or 17.2% of net sales.

For the six months ended June 30, 2008, net sales increased 2.7% to \$107.2 million from \$104.4 million for the six months ended June 30, 2007. Earnings from operations increased 9.6% to \$18.6 million (including the insurance recovery) in the first six months of 2008, or 17.4% of net sales. In comparison, earnings from operations for the first six months of 2007 were \$17.0 million, or 16.3% of net sales.

Steven B. Lapin, Aristotle's President and Chief Operating Officer, stated, "Your Company is pleased to report net sales increases for the 2008 second quarter and year-to-date versus the comparable 2007 periods despite this year's general economic slowdown throughout the U.S., and that, as a result of management's diligent attention to cost controls, the growth in operating income has continued to exceed the growth in net sales."

Dean T. Johnson, Aristotle's Chief Financial Officer, added, "Gross margins for the three and six month periods ended June 30, 2008 were 39.3% and 39.4%, respectively, compared to 38.4% and 38.8% in the same periods of 2007. The improvement in 2008 is primarily due to management's purchasing strategies implemented in the fourth quarter of 2007 and first quarter of 2008 which have been designed to maximize returns on inventory investments and to limit effects of petroleum-related cost increases."

Aristotle cautions investors that there can be no assurance that actual results or business conditions will not differ materially from those projected or suggested in such forward-looking statements as a result of various factors, including, but not limited to, the following: (i) the ability of Aristotle to obtain financing and additional capital to fund its business strategy on acceptable terms, if at all; (ii) the ability of Aristotle on a timely basis to find, prudently negotiate and consummate additional acquisitions; (iii) the ability of Aristotle to manage any to-be acquired businesses; (iv) there is not an active trading market for the Company's securities and the stock prices thereof are highly volatile, due in part to the relatively small percentage of the Company's securities which is not held by the Company's majority stockholder and members of the Company's Board of Directors and management; (v) the ability of Aristotle to retain its Federal net operating tax loss carryforward position and other deferred tax positions; and (vi) other factors identified in Item 1A, Risk Factors, contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2007.
