The Aristotle Corporation Announces 2008 Third Quarter and Nine Month Results

Stamford, CT, November 14, 2008 - The Aristotle Corporation (NASDAQ: ARTL; ARTLP) announced today its results of operations for the third quarter and nine months ended September 30, 2008.

For the third quarter ended September 30, 2008, net earnings applicable to common stockholders were \$4.7 million, or \$.26 per diluted common share, versus \$5.5 million, or \$.31 per diluted common share, for the third quarter of 2007. Net earnings applicable to common stockholders for the first nine months of 2008 were \$12.0 million, or \$.67 per diluted common share, compared to \$11.8 million, or \$.67 per diluted common share, for the comparable nine months of 2007.

Third quarter net sales in 2008 increased 2.3% to \$65.0 million from \$63.5 million in the third quarter of 2007. Earnings from operations, equating to 18.0% of net sales, declined 5.6% to \$11.7 million from \$12.4 million in the same quarter of 2007 (including an insurance recovery of \$.4 million), or 19.5% of net sales.

For the nine months ended September 30, 2008, net sales increased 2.5% to \$172.2 million from \$168.0 million for the nine months ended September 30, 2007. Earnings from operations increased 3.2% to \$30.3 million (including a \$.7 million insurance recovery) in the first nine months of 2008, or 17.6% of net sales, compared to \$29.4 million (including the \$.4 million insurance recovery) in the 2007 period, or 17.5% of net sales.

Steven B. Lapin, Aristotle's President and Chief Operating Officer, stated, "Aristotle's balance sheet is exceptionally strong, with stockholders' equity having increased by 13.3% to \$127.0 million at September 30, 2008 from \$112.1 million at September 30, 2007, and current outstanding bank debt of a modest \$5.0 million on its \$45.0 million revolving line of credit. Although volatility in the equity markets did have a negative impact on diluted earnings per common share in the three and nine month periods ended September 30, 2008 of approximately \$.02 and \$.01, respectively, the change in value of Aristotle's short-term investments is not material to your Company's available working capital or financial condition. While I am pleased to report your Company's sales growth and significant profitability in the third quarter and first nine months of 2008, optimism must be tempered in view of unprecedented challenges now facing local, state, federal and global economies."

About Aristotle

To the extent that any of the statements contained in this release are forward-looking, such statements are based on current expectations that involve a number of uncertainties and risks that could cause actual results to differ materially from those projected or suggested in such forward-looking statements. Aristotle cautions investors that there can be no assurance that actual results or business conditions will not differ materially from those projected or suggested in such forward-looking statements as a result of various factors, including, but not limited to, the following: (i) the ability of Aristotle to obtain financing and additional capital to fund its business strategy on acceptable terms, if at all; (ii) the ability of Aristotle on a timely basis to find, prudently negotiate and consummate additional acquisitions; (iii) the ability of Aristotle to manage any to-be acquired businesses; (iv) there is not an active trading market for the Company's securities and the stock prices thereof are highly volatile, due in part to the relatively small percentage of the Company's securities which is not held by the Company's majority stockholder and members of the Company's Board of Directors and management; (v) the ability of Aristotle to retain its Federal net operating tax loss carryforward position and other deferred tax positions; and (vi) other factors identified in Item 1A, Risk Factors, contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2007. As a result, Aristotle's future development efforts involve a high degree of risk. For further information, please see Aristotle's filings with the Securities and Exchange Commission, including its Forms 10-K, 10-K/A, 10-Q and 8-K.
