Re: RadNet, Inc.
Form 10-K filed March 1, 2023
File No. 1-33307

Dear Mark Stolper:

We have reviewed your filing and have the following comments. Please respond to this letter within ten business days by providing the requested information or advise us as soon as possible when you will respond. If you do not believe a comment applies to your facts and circumstances, please tell us why in your response. After reviewing your response to this letter, we may have additional comments.

Form 10-K filed March 1, 2023

Results of Operations, page 38

1. Please expand your disclosure to identify the specific factors that caused the 2022 "Net income attributable to noncontrolling interests" to increase by 17% whereas both your operating income and pre-tax income decreased significantly. Similarly, it is not clear why the corresponding 2023 variances are similarly disproportionate. The expanded disclosure should identify the specific causal factors relevant to the period presented and not merely reference speculative factors that could impact the account balance. See Item 303(b) of Regulation S-K.

Interest Expense, page 42

2. The \$39.6 million 2022 gain from interest rate swaps comprised 92% of your pre-tax income. However, it is not clear from the existing MD&A disclosure what specific events and circumstances occurred in 2022 to precipitate this gain. Further, it is not clear how this gain impacted your provision for income taxes. Additionally, it is not clear what the liquidity impact of these derivatives has been in the periods presented and what your maximum loss exposure is on these investments. For example, if you received cash payments from these investments due to increased market interest rates in 2022 and the impact was to offset the higher interest payments required on your variable rate debt then

please provide a quantified disclosure that illustrates this outcome. Please expand your disclosures to clarify these issues in light of the significant financial statement impact. See Item 303(b)(1) of Regulation S-K.

Non-GAAP Financial Measures, page 43

3. Your disclosures here and in your Form 10-Q's indicate that Adjusted EBITDA is used as both a performance measure and as a liquidity measure. In this regard, we note that you use it to measure your cash generated from operations. Please expand your disclosures to include a reconciliation between Adjusted EBITDA and GAAP operating cash flows. Also, please do not adjust out any cash settled expenses or liabilities. See Item 10(e) of Regulation S-K.

We remind you that the company and its management are responsible for the accuracy and adequacy of their disclosures, notwithstanding any review, comments, action or absence of action by the staff. Please contact Al Pavot at 202-551-3738 or Terence O'Brien at 202-551-3355 if you have questions regarding comments on the financial statements and related matters.

Sincerely,

Division of Corporation Finance
