REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Member
of ACS Execution Services, LLC

Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of ACS Execution Services, LLC (the Company) as of December 31, 2021, and the related notes and supplemental schedules (collectively referred to as the financial statement). In our opinion, the financial statement presents fairly, in all material respects, the financial position of ACS Execution Services, LLC as of December 31, 2021 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

This financial statement is the responsibility of ACS Execution Services, LLC's management. Our responsibility is to express an opinion on the Company's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to ACS Execution Services, LLC in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. We have served as the Company's auditor since 2015.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

Auditor's Report on Supplemental Information

The Supplemental Schedules (the "supplemental information") has been subjected to audit procedures performed in conjunction with the audit of ACS Execution Services, LLC's financial statement. The supplemental information is the responsibility of ACS Execution Services, LLC's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statement or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with 17 C.F.R. §240.17a-5. In our opinion, the Supplemental Schedules are fairly stated, in all material respects, in relation to the financial statement as a whole.

ACS EXECUTION SERVICES, LLC

Notes to Financial Statements

December 31, 2021

1. Organization and Business

ACS Execution Services, LLC (the "Company"), a Delaware limited liability company, was organized as a Florida partnership on August 1, 1976 as Soloway & Co. On November 10, 2015, the Company was sold to and is wholly owned by ACS Global Holdings, LLC (the "Holding Company"). Subsequently, the Company changed its name to ACS Execution Services, LLC. The Company is a broker-dealer registered with the Securities and Exchange Commission and is a member of FINRA. The Company engages primarily in the execution services of exchange-traded equity securities. The Company has one class of membership interest.

2. Summary of Significant Accounting Policies

Trading revenue recognition and securities valuation

The Company records all securities transactions on a trade date basis. Dividends are recorded on the ex-dividend date and interest is recognized on the accrual basis. Investments in securities and securities sold short are recorded in the statement of financial condition at fair value in accordance with Accounting Standards Codification Topic 820 ("ASC 820") - Fair Value Measurement and Disclosures (see Note 8).

Revenue from contracts with customers

The Company recognizes revenue in accordance with ASC Topic 606 Revenue from Contracts with Customers which requires recognition and the measurement of revenue to be based on the assessment of individual contract terms. Significant judgement is required to determine whether performance obligations are satisfied at a point in time or over time.

The Company recognizes revenue from the execution of client orders. Each time a client submits an order to buy or sell securities, the Company executes an order and charges commissions and fees on the trade date (the date the Company fills the order by executing with a counterparty and confirms with the client). The Company believes that the performance obligation is satisfied on the trade date because that is when the underlying financial instrument or purchaser is identified, the pricing is agreed upon and the risks and rewards of ownership have been transferred between the parties.

Use of Estimates

The preparation of financial statements in conformity with United States Generally Accepted Accounting Principles ("U.S. GAAP") requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Management determines that the estimates utilized in preparing its financial statements are reasonable and prudent. Actual results could differ from these estimates.

Income Taxes

No provision has been made for federal income taxes as the taxable income or loss of the Company is included in the respective income tax returns of the Holding Company. In accordance with U.S. GAAP, the Company is required to determine whether its tax positions are more likely than not to be sustained upon examination by the applicable taxing authority, based on the technical merits of the position.

2. Summary of Significant Accounting Policies, continued

Income Taxes, continued

Generally, the Company is no longer subject to income tax examinations by major taxing authorities for the years before 2018. Based on its analysis, there were no tax positions identified by management which did not meet the “more likely than not” standard as of and for the year ended December 31, 2021.

3. Financial Instruments – Credit Losses

In June 2016, the FASB issued ASU 2016-13, Financial Instruments – Credit Losses (topic 326) (“ASU 2016-13”). This ASU amends several aspects of the measurement of credit losses on financial instruments, including replacing the existing incurred credit loss model and other models with Current Expected Credit Losses model (“CECL”). Under CECL, the allowance for losses reflects management’s estimate of credit losses over the remaining expected life of the financial assets and expected credit losses for newly recognized financial assets, as well as changes to expected credit losses during the period, would be recognized in earnings. Expected credit losses will be measured based on historical experience, current conditions, and forecasts that affect the collectability of the reported amount, and will be generally recognized earlier than under current standards. The standard was effective for the Company for fiscal years beginning after December 15, 2019. The adoption of this standard on January 1, 2020 did not have a material impact on the Company’s financial statements.

4. Clearing and Joint Venture Agreements

The Company has entered into a clearing agreement with Industrial and Commercial Bank of China (“ICBC”). The Company does not have any joint venture agreements.

5. Credit Concentration

At December 31, 2021, a significant credit concentration consisted of approximately \$1,071,000 with ICBC, representing the market value of the Company’s trading accounts. Additionally, the Company’s bank balance was in excess of the FDIC limits by approximately \$2,820,000. Management does not consider any credit risk associated with either of these balances to be significant.

6. Financial Instruments

Accounting Standards Codification Topic 815 ("ASC 815"), Derivatives and Hedging, requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit risk related contingent features in derivative agreements. The disclosure requirements of ASC 815 distinguish between derivatives, which are accounted for as "hedges" and those that do not qualify for such accounting. The Company reflects derivatives at fair value and recognizes changes in fair value through the statement of operations, and as such do not qualify for ASC 815 hedge accounting treatment. The Company does not trade derivative financial instruments.

Securities sold short represent obligations of the Company to deliver the security or underlying instrument and, thereby, create a liability to repurchase the security or underlying instrument in the market at prevailing prices. Accordingly, these transactions result in risk as the Company's satisfaction of the obligations may exceed the amount recognized in the statement of financial condition.

The Company is engaged in various trading activities in which counterparties solely include broker-dealers. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

7. Guarantees

Accounting Standards Codification Topic 460 ("ASC 460"), Guarantees, requires the Company to disclose information about its obligations under certain guarantee arrangements. ASC 460 defines guarantees as contracts and indemnification agreements that contingently require a guarantor to make payments to the guaranteed party based on changes in an underlying (such as an interest or foreign exchange rate, security or commodity price, an index or the occurrence or nonoccurrence of a specified event) related to an asset, liability or equity security of a guaranteed party.

This guidance also defines guarantees as contracts that contingently require the guarantor to make payments to the guaranteed party based on another entity's failure to perform under an agreement, as well as indirect guarantees of the indebtedness of others. The Company does not trade derivative financial instruments that would fall under the accounting definition of a guarantee.

8. Fair Value Measurement and Disclosures

ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.
- Level 2 Inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 are unobservable inputs for the asset or liability and rely on management's own assumptions that market participants would use in pricing the asset or liability. The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.

At December 31, 2021, the Company held no Level 1, Level 2 or Level 3 investments.

9. Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15(c)3-1). Under this rule, the Company is required to maintain "net capital" equal to the greater of \$100,000 or 6 and $\frac{2}{3}$ % of "aggregate indebtedness", as defined.

At December 31, 2021, the Company had net capital and net capital requirements of \$3,962,389 and \$100,000, respectively.

ACS EXECUTION SERVICES, LLC

10. Related Party Transactions

The Company conducts transactions and has agreements with two affiliated entities through common ownership. The Company provides execution services and passes through make/take credits and fees to Comhar Capital Markets, LLC ("CCM"), a broker dealer registered with the Securities Exchange Commission and FINRA. During 2021, the Company generated commission revenue from CCM, and passed through net credits to CCM. At December 31, 2021, the Company had a payable to CCM totaling \$927. The Company has an agreement with Global Liquidity Partners, LLC ("GLP") for technology related services and rent. During 2021 the Company paid GLP for technology fees and rent. At December 31, 2021 the Company's payable to GLP totaled \$67,335.

11. Employee Benefit Plan

The Company has established a 401(k) plan for qualified employees. The Company may elect to match employees' contributions and make further discretionary contributions to the plan, subject to certain limitations as set forth in the plan agreement. During the year ended December 31, 2021, employee contributions totaled \$100,516.

12. Client Concentration

For the year ending December 31, 2021, a significant concentration of Company's commission revenue was earned from CCM, a related broker dealer (see note 10), and two other clients, each exceeding 10% of the total commission revenue. Transactions with the three clients represent approximately 84% of the Company's total commission revenue. Management does not consider any credit risk associated with these concentrations to be significant.

13. Contingencies

In the normal course of business, the Company is subject to various regulatory inquiries that may result in claims of potential violations of exchange rules, and that may possibly involve sanctions and/or fines. These matters are rigorously defended as they arise.

14. Subsequent Events

The Company's management has evaluated events and transactions through February 18, 2022, the date the financial statements were available to be issued, noting no material events requiring disclosure in the Company's financial statements.
