Registration Statement under Schedule B

1. Please expand upon your disclosure to discuss any material impact that a prolonged or worsened sovereign debt crisis is expected to have on Poland's economic and financial outlook. In this regard, discuss the expected material effects of further bailouts of EU countries or companies, further European economic or political integration, short-term economic instability in the EU if a country were to abruptly leave the monetary union, strains upon Poland's social security and unemployment compensation services due to net positive migration and the effects of another credit crisis on Poland's and Polish companies' ability to maintain adequate liquidity.

Debt Management, page 42

2. The section states that Poland has purchased various derivative instruments. Please discuss whether you have purchased derivative instruments for hedging or speculative purposes, quantify the risk exposures and identify the categories of risk against which you intend to hedge. Please include any other material information necessary to understand Poland's risk exposures.

Index to Tables and Supplementary Information, page T-2

3. For the interest rate columns in the debt tables, please additionally include a range of values instead of indicating that the interest rate is floating.
