CALA CORPORATION
(A Development Stage Company)
NOTES TO CONDENSED FINANCIAL STATEMENTS
June 30, 2008
(Unaudited)

NOTE 1 - DESCRIPTION OF BUSINESS

Cala Corporation, (formerly Magnolia Foods, Inc.), (the "Company") was incorporated on June 13, 1985 under the laws of the State of Oklahoma. The Company's sole industry segment was the business of owning, operating, licensing and joint venturing restaurants. The Company discontinued this line of business on December 31, 2006. The Company is in the development stage of building an underwater resort and casino. The Company became a Development Stage Company as of January 1, 2007.

NOTE 2 - GOING CONCERN

The Company's financial statements are prepared using generally accepted accounting principles applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The aggregate accumulated deficit and accumulated deficit during the development stage of the Company is \$12,806,422 (\$11,886,789 and \$919,633, respectively). The Company has not established revenues sufficient to cover its operating costs. This uncertainty raises substantial doubt about the Company's ability to continue as a going concern. The ability of the Company to continue as a going concern is dependent on additional sources of capital and the success of the Company's plan. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

NOTE 3 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation – The accompanying condensed financial statements included herein have been prepared by the Company, without audit, pursuant to the rules and regulations under Article 10 of Regulation S-X of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to such rules and regulations, although we believe that the disclosures are adequate to make the information presented not misleading. In the opinion of management, all adjustments (which include normal recurring adjustments) necessary for a fair presentation of the results for the interim periods have been made. The results for the three and six months ended June 30, 2008 are not necessarily indicative of results to be expected for the full fiscal year. These financial statements should be read in conjunction with the financial statements and notes thereto included in our Annual Report on Form 10-KSB/A for the year ended December 31, 2007.

B. Cash and cash equivalents - The Company considers all short-term, highly liquid investments that are readily convertible within three months to known amounts as cash equivalents. Currently, it has no cash equivalents.

C. Loss per share - Net loss per share is provided in accordance with Statement of Financial Accounting Standards ("SFAS") No. 128 "Earnings Per Share". Basic loss per share reflects the amount of losses for the period available to each share of common stock outstanding during the reporting period, while giving effect to all dilutive potential common shares that were outstanding during the period, such as stock options and convertible securities. As of June 30, 2008, the Company had no issuable shares qualified as dilutive. Had there been dilutive securities they would be excluded from the loss per share calculation because their inclusion would be antidilutive.

D. Estimates - The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

E. Policy in Regards to Issuance of Common Stock in a Non-Cash Transaction - The Company's accounting policy for issuing shares in a non-cash transaction is to issue the equivalent amount of stock equal to the fair market value of the assets or services received.

F. Shares Returned to Treasury – During 2005, 23,200 shares were repurchased to Treasury for \$116. During 2006, 33,333 shares were repurchased to treasury for \$1,000.

G. Revenue Recognition - The income received by the Company is rental income from the tenants leasing space in the building owned by the Company which is outside the normal operations of the Company. Revenue is recognized when it is due and payable by the tenants and in accordance with the basic principle of Financial Accounting Concept No. 5 (SFAC No.5) and SAB-104.

H. Property and Equipment - Property and equipment consisting of improvements, equipment and furniture and fixtures are recorded at cost and are depreciated using the straight-line method over the useful estimated life. Expenditures for maintenance and repairs are charged to earnings as incurred; additions, renewals, and betterments are capitalized. When property and equipment are retired or otherwise disposed of, the related cost and accumulated depreciation are removed from the respective accounts, and any gain or loss is included in operations. A summary of estimated useful lives is as follows:

Description	Useful Life
Vehicles	5 Years
Building	10-40 years

I. The SEC has issued Financial Reporting Release No. 60, “Cautionary Advice Regarding Disclosure About Critical Accounting Policies” (“FRR 60”); suggesting companies provide additional disclosure and commentary on their most critical accounting policies. In FRR 60, the Commission has defined the most critical accounting policies as the ones that are most important to the portrayal of a company’s financial condition and operating results, and require management to make its most difficult and subjective judgments, often as a result of the need to make estimates of matters that are inherently uncertain. Based on this definition, the Company’s most critical accounting policies include the use of estimates in the preparation of financial statements. The methods, estimates and judgments the Company uses in applying these most critical accounting policies have a significant impact on the results the Company reports in its financial statements.

The preparation of these financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates these estimates, including those related to revenue recognition and concentration of credit risk. The Company bases its estimates on historical experience and on various other assumptions believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

J. The Company accounts for the underwater sea resort and ship development costs in accordance with SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets". The Company reviews its long-lived assets for impairment on an annual basis or whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amounts of the assets exceed the fair value of the asset. Assets to be disposed of are reported at the lower of the carrying amount or fair market value less costs to sell.

K. The accompanying consolidated financial statements have been prepared in accordance with the Statement of Financial Accounting Standards No. 7 "Accounting and Reporting by Development-Stage Enterprises". A development-stage enterprise is one in which planned principal operations have not commenced or if its operations have commenced, there has been no significant revenue therefrom. Development stage companies report cumulative costs from the enterprise's inception.

NOTE 4 - RECENT ACCOUNTING PRONOUNCEMENTS

In September 2006, the FASB issued SFAS No. 157 "Fair Value Measurements". SFAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosure about fair values. This statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. Management believes that the adoption of SFAS No. 157 did not have a material impact on the consolidated financial results of the Company.

In February 2007, the FASB issued Statement No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities, including an amendment of FASB Statement No. 115" (FAS 159). FAS 159 permits companies to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value and establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. The provisions of FAS 159 become effective as of the beginning of our 2009 fiscal year. We are currently evaluating the impact that FAS 159 will have on our financial statements.

In December 2007, the FASB issued SFAS 160, "Noncontrolling Interests in Consolidated Financial Statements, an amendment of ARB No. 51" which applies to all entities that prepare consolidated financial statements, except not-for-profit organizations, but will affect only those entities that have an outstanding noncontrolling interest in one or more subsidiaries or that deconsolidate a subsidiary. The statement is effective for annual periods beginning after December 15, 2008.

In March 2008, the FASB issued SFAS No. 161, "Disclosures about Derivative Instruments and Hedging Activities – an amendment of FASB Statement No. 133," (SFAS "161") as amended and interpreted, which requires enhanced disclosures about an entity's derivative and hedging activities and thereby improves the transparency of financial reporting. Disclosing the fair values of derivative instruments and their gains and losses in a tabular format provides a more complete picture of the location in an entity's financial statements of both the derivative positions existing at period end and the effect of using derivatives during the reporting period. Entities are required to provide enhanced disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under Statement 133 and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. Early adoption is permitted.

At December 31, 2007, the Company did not have any derivative instruments or hedging activities. Management is aware of the requirements of SFAS 161 and will disclose when appropriate.

In May 2008, the Financial Accounting Standards Board ("FASB") issued SFAS No. 163, "Accounting for Financial Guarantee Insurance Contracts – An interpretation of FASB Statement No. 60". SFAS 163 requires that an insurance enterprise recognize a claim liability prior to an event of default when there is evidence that credit deterioration has occurred in an insured financial obligation. It also clarifies how Statement 60 applies to financial guarantee insurance contracts, including the recognition and measurement to be used to account for premium revenue and claim liabilities, and requires expanded disclosures about financial guarantee insurance contracts. It is effective for financial statements issued for fiscal years beginning after December 15, 2008, except for some disclosures about the insurance enterprise's risk-management activities. SFAS 163 requires that disclosures about the risk-management activities of the insurance enterprise be effective for the first period beginning after issuance. Except for those disclosures, earlier application is not permitted. The adoption of this statement is not expected to have a material effect on the Company's future reported financial position or results of operations.

NOTE 5 - RELATED PARTY TRANSACTIONS

On February 2, 2007, an officer of the Company was issued 15,000,000 shares of restricted common stock valued at \$300,000 in lieu of salary for the year ended 2007.

The shares issued were recorded using the fair market value of the services provided. The officer is also reimbursed for expenses paid on behalf of the Company as needed.

During the year ended 2007, the Company issued a director of the Company 10,600,000 shares of common stock valued at \$268,000 for consulting fees included in Development Costs (See Note 7; Development Costs).

During the six months period ending June 30, 2008 the Company accrued \$ 95,000 for salary payable to an officer of the Company.

NOTE 6 - FIXED ASSETS

Fixed Assets at June 30, 2008 and December 31, 2007 consist of the following:

	6/30/08	12/31/07
Building	\$600,000	--
Land	150,000	--
Vehicles	<u>45,308</u>	<u>--</u>
	795,308	--
Less Accumulated Depreciation and amortization	<u>(74,245)</u>	<u>--</u>
	<u>\$721,063</u>	<u>\$ --</u>

Depreciation expense for the three months ended June 30, 2008 and 2007 was \$6,111 and \$6,111, and for the six months in the same periods were \$ 12,223 and \$6,111, respectively.

For the six months ended June 30, 2007, the Company incurred an impairment loss on a vehicle. The loss was treated as follows:

Original value	\$ 8,000
Less accumulated depreciation	(1,554)
Less insurance payment on loss	<u>(4,834)</u>
Impairment loss	<u>\$ 1,612</u>

NOTE 7 - DEVELOPMENT COSTS

The Company is developing an under sea resort and ship for the recreational use by consumers. The concept is in development stage or as better defined as the “preacquisition phase”. The Company had expensed the development costs through the fiscal year ending December 2005 while in preliminary phase; however, elected to capitalize the costs moving forward in accordance with the preacquisition guidance under statement of Financial Accounting Standard No. 67, “Accounting for Costs and Initial Rental Operations of Real Estate Projects.”

All common costs are allocated to each residential unit benefited and is based on the relative fair value before construction. Construction costs will be allocated to each residential unit on the basis of relative sales value of the unit. The preacquisition phase was completed during the fiscal year ended December 31, 2007. The Company is in the process of finding a buyer and funding the initial construction of a vessel. Once the construction phase has been completed and the residential units are available for sale, the Company will allocate all capitalized costs to each residential unit and expense them upon the sale of the residential units.

The Company has incurred the following development costs to date:

Design payments to ship yards	\$ 660,205
Engineering of glass design	25,000
Consulting fees to administrator	<u>25,000</u>
Total Development Costs	<u>\$710,205</u>

NOTE 8- NOTE PAYABLE

In January 2007, the Company issued a note for \$60,000 bearing interest at 10% on the principal and accrued interest compounding monthly. As of June 30, 2008 and December 31, 2007, the outstanding principle balance of the note was \$60,000 and \$60,000 and had accrued interest of \$3,390 and \$6,283, respectively.

NOTE 9- LONG TERM DEBT

On July 16, 2006, the Company signed a Mortgage Modification Agreement with the lender on the building. Under the terms of the agreement, the mortgage was modified to extend the maturity date to July 15, 2036, the interest rate was reduced to 5.25% per annum and the \$50,000 prepayment penalty was removed. If the note was paid in full by February 16, 2007, the note would be reduced by \$100,000. The payment was not made by the required date, therefore, the note reduction did not take effect. In addition, a late fee penalty of 5% was added on all payments made later than 10 days from the initial due date.

The Company is in default on the mortgage and is the defendant in a lawsuit brought by the mortgage holder of the property. The Company was ordered to commence monthly payments of \$3,272 to the plaintiff beginning on April 16, 2008 and on the same date each month thereafter. The Company has met the requirements of the Agreement as of June 30, 2008, however is still 3 months in arrears on the mortgage payments per the mortgage payment schedule.

Long term debt is payable as follows:

Design payments to ship yards \$ 660,205 Engineering of glass design 25,000 Consulting fees to administrator 25,000 Total Development Costs \$710,205

<u>Fiscal Year</u>	
2009	9,482
2010	9,995
2011	10,531
2012	11,100
2013	10,531
Thereafter	<u>518,851</u>
	<u>\$ 579,186</u>

NOTE 10 – STOCKHOLDERS’ EQUITY

During the six months ending June 30, 2008, the Company issued 7,630,953 shares of common stock for cash with a value of \$76,309.

NOTE 11 - COMMITMENTS & CONTINGENCIES

On January 9, 2006, the Company entered into a lease at 3160 Danville Blvd. Suite A, Alamo, CA consisting of 4,500 square feet for a restaurant. The duration of the lease is 10 years with a renewable option for 5 more years. The monthly rent on the space is \$8,500 plus taxes and common area charges. Monthly rental may be adjusted on an annual basis. On August 1, 2006, the Company assigned the lease to a non-affiliated third party; however, the Company is liable for the lease through January 8, 2016.

On April 10, 2006, the Company entered into a lease consisting of approximately 2,450 square feet for a restaurant in Roman, CA. The duration of the lease is 10 years. On August 1, 2006, the Company discontinued its operations in the restaurant business. As a result, the Company assigned the lease to a non-affiliated third party on a sub-lease basis. The Company is still fully obligated to the terms of this lease. However, the non-affiliated party will assume all payments. Under the terms of the agreement, the sub-lessee pays the monthly lease of \$5,400 per month for the duration of the lease plus an additional 60 equal monthly installments of \$1,500 to the Company.

Following is a schedule by year of the future minimum rental payments required under operating leases that have non-cancelable lease terms in excess of one year as of June 30, 2008:

<u>Fiscal Year</u>	
2009	172,296
2010	174,396
2011	176,574
2012	178,812
2013	181,098
<u>Thereafter</u>	<u>392,201</u>
Total	<u>\$ 1,362,251</u>

On February 15, 2008, the Company signed a contract with the Odys Shipyard for building Undersea vessels. Under the terms of the contract, the contract becomes effective when the Company has placed a 50% deposit on the first vessel to be built. The Company has 100 days from the date of the contract to make the initial deposit or Odys Shipyard may unilaterally cancel the contract. The Company has no financial obligations until the initial payment has been completed. No payments have been made to the shipyard under the contract and the Company has not received any notice of cancellation from the shipyard.

NOTE 12 - LEGAL MATTERS

The Company is the defendant in a lawsuit filed on February 21, 2008 in Brevard County, Florida Case No: 05-2008-CA-019105 which was brought by the mortgage holder of the property owned by the Company at 13 Main Street Titusville, FL. The matter was heard on March 14, 2008 and the Company was ordered to commence monthly payments of \$3,272.32 to the plaintiff beginning on April 16, 2008 and on the same date each month thereafter. The Company has met the requirements of the Agreement as of June 30, 2008. (See Note 13 – Subsequent Events)

The Company is in receipt of a letter from the Securities and Exchange Commission dated August 10, 2007. The letter pointed to certain deficiencies in the 10-KSB that was filed for the year ending December 31, 2006. The Company responded to the letter and has filed an amended copy of the 10-KSB/A for the year end December 31, 2006. The Company received an additional response letter from the SEC dated April 4, 2008. The Company has incorporated certain recommendations by the SEC into the 10-KSB/A for the year ended December 31, 2007 which was filed on July 29, 2008.

NOTE 13 – SUBSEQUENT EVENT

On September 30, 2008, the Company entered into a stipulated settlement agreement with the owner and mortgage holder of the building. An order adopting the stipulation was issued by the Eighth Circuit Court of Brevard County, Florida on October 3, 2008. Under the terms of the agreement the Company was to vacate the building on October 12, 2008 and dismiss any counter claims it has against the mortgage holder of the property. The mortgage holder of the building waived all deficiency against the Company and will assume title of the building.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion and analysis of the Company's financial condition and results of operations is based upon, and should be read in conjunction with, its unaudited financial statements and related notes included elsewhere in this Form 10-Q, which have been prepared in accordance with accounting principles generally accepted in the United States.

Overview.

The Company is in the planning and development stage of building the first UnderSea Resort & Casino, the first Undersea Residence, and the first Residence Fractional Ownership. The development will be the residence and the fractional ownership, and the project will be financed from pre-selling individual units. The Company estimates that the resort and casino will include a 50,000 square foot world class Spa by Pevonia and a 200,000 square foot convention center. The development should generate approximately \$600 million of revenue from the sale of the units while the total development cost should be approximately \$460 million. The Company is in discussions with leaders in the hospitality, gambling, spa and convention industry to explore the possibility of a partnership or contractual arrangement with the Company. The undersea resort ships have the ocean available without the limitations of land. In addition, several locations are going to be three miles offshore the Florida coast because it's considered international water and thus tax free.

The Company also intends to take advantage of any reasonable business proposal presented which management believes will provide the Company and its stockholders with a viable business opportunity and fits within the objectives of the Company and its business development. The board of directors will make the final approval in determining whether to complete any acquisition, and unless required by applicable law, the articles of incorporation or bylaws or by contract, stockholders' approval will not be sought.

Along with the development of the Undersea Resort and Casino, the investigation of specific business opportunities and the negotiation, drafting, and execution of relevant agreements, disclosure documents, and other instruments will require substantial management time and attention and will require the Company to incur costs for payment of accountants, attorneys, and others. If a decision is made not to participate in or complete the acquisition of a specific business opportunity, the costs incurred in a related investigation will not be recoverable. Further, even if an agreement is reached for the participation in a specific business opportunity by way of investment or otherwise, the failure to consummate the particular transaction may result in the loss to the Company of all related costs incurred.

If and when the Company locates a business opportunity, management of the Company will give consideration to the dollar amount of that entity's profitable operations and the adequacy of its working capital in determining the terms and conditions under which the Company would consummate such an acquisition. Potential business opportunities, no matter which form they may take, will most likely result in substantial dilution for the Company's shareholders due to the issuance of stock to acquire such an opportunity.

Results of Operations.

(a) Revenues.

The Company reported no revenues for the three months and six months ended June 30, 2008 and no revenue for the same periods ended June 30, 2007. The Company does receive rental income from the building it owns and this revenue is classified as Other Income. The Company received other income of \$10,450 for the three months and \$21,592 for the six months ended June 30, 2008 and \$13,551 and \$24,061 for the respective periods ending June 30, 2007.

(b) General and Administrative Expenses.

The Company incurred total selling, general and administrative expenses of \$146,594 for the three months and \$174,341 for the six months ended June 30, 2008 as compared to \$131,426 for the three months and \$262,170 for the six months ended June 30, 2007. The increase in this expense category was due primarily accrued salary due officer for services representing \$100,000 for the six months period.

(c) Depreciation and amortization.

Depreciation and amortization for the three months and six months ended June 30, 2008 was \$7,235 and \$13,346. For the same periods ending June 30, 2007 depreciation and amortization recorded was \$6,111 and \$12,222. The depreciation is attributable to the building and vehicles owned by the Company.

(d) Interest Expense.

The Company incurred interest charges of \$9,310 and \$18,592 during the three months and six months ended June 30, 2008. During the same periods ending June 30 2007, the Company incurred interest charges of \$11,809 and \$21,047, respectively.

(e) Net Loss.

The Company reported a net loss of \$163,665 for the three months and \$198,229 for the six months ended June 30, 2008 as compared to a net loss of \$135,795 and \$272,990 for the same period ended June 30, 2007. The loss was attributable to increased general and administrative costs during the period ending June 30, 2008.

Factors That May Affect Operating Results.

The operating results of the Company can vary significantly depending upon a number of factors, many of which are outside its control. General factors that may affect the Company's operating results include:

- Market acceptance of and changes in demand for products and services;
- A small number of customers account for, and may in future periods account for, substantial portions of the Company's revenue, and revenue could decline because of delays in customer orders or the failure to retain customers;
- gain or loss of clients or strategic relationships;
- Announcement or introduction of new services and products by the Company or by its competitors;
- Price competition;
- The ability to upgrade and develop systems and infrastructure to accommodate growth;
- The ability to introduce and market products and services in accordance with market demand;
- Changes in governmental regulation; and
- Reduction in or delay of capital spending by clients due to the effects of terrorism, war and political instability.

Key Personnel.

The Company's success is largely dependent on the personal efforts and abilities of its senior management. The loss of certain members of the Company's senior management, including the Company's chief executive officer, chief financial officer and chief technical officer, could have a material adverse effect on the Company's business and prospects.

Operating Activities.

The net cash used in operating activities was \$20,236 for the six months ended June 30, 2008 compared to net cash used of \$59,581 for the six months ended June 30, 2007. This decrease is due primarily to the increase in accrued liabilities for the period ended June 30, 2008 compared to the same period in 2007.

Investing Activities.

Net cash used in investing activities was zero for the six months period ending June 30, 2007 and zero for the same period ending June 30, 2008.

Financing Activities.

Net cash provided by financing activities was \$37,089 for the six month period ending June 30, 2008 and \$146,482 for the same period ending June 30, 2007. Financing activities for the period ending June 30, 2007 were higher due to a combination of stock sales and note issued totaling

\$131,000 in the period ended June 30, 2007 verses stock sales of \$76,310 and a reduction of credit lines by \$37,015 in the period ended June 30, 2008.

Liquidity and Capital Resources.

As of June 30, 2008, the Company had total current assets of zero and total current liabilities of \$323,488, resulting in net working capital deficit of \$323,488. During the six months ended June 30, 2008 and 2007, the Company incurred losses of \$198,229 and \$272,990, respectively. The aggregate accumulated deficit and accumulated deficit during the development stage of the Company is \$12,806,422 (\$11,886,789 and \$919,633, respectively). These factors raise substantial doubt as to the Company's ability to continue as a going concern. In fact, the Company's independent accountants' audit report included in the Form 10-KSB/A for the year ended December 31, 2007 includes a substantial doubt paragraph regarding the Company's ability to continue as a going concern.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. However, the ability of the Company to continue as a going concern on a longer-term basis will be dependent upon its ability to generate sufficient cash flow from operations to meet its obligations on a timely basis, to retain its current financing, to obtain additional financing, and ultimately attain profitability.

Our current cash flow will not be sufficient to maintain our capital requirements for the next twelve months. Accordingly, the Company will need to continue raising capital through either debt or equity instruments. The Company believes it will need to raise additional capital to continue executing the business plan. Whereas the Company has been successful in the past in raising capital, no assurance can be given that these sources of financing will continue to be available to us and/or that demand for our equity/debt instruments will be sufficient to meet our capital needs, or that financing will be available on terms favorable to the Company. The financial statements do not include any adjustments relating to the recoverability and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

If funding is insufficient at any time in the future, the Company may not be able to take advantage of business opportunities or respond to competitive pressures, or may be required to reduce the scope of our planned product development and marketing efforts, any of which could have a negative impact on its business and operating results. In addition, insufficient funding may have a material adverse effect on our financial condition, which could require us to:

- curtail operations significantly;
- sell significant assets;
- seek arrangements with strategic partners or other parties that may require the Company to relinquish significant rights to products, technologies or markets; or
- explore other strategic alternatives including a merger or sale of the Company.

To the extent that the Company raises additional capital through the sale of equity or convertible debt securities, the issuance of such securities may result in dilution to existing stockholders. If additional funds are raised through the issuance of debt securities, these securities may have rights, preferences and privileges senior to holders of common stock and the terms of such debt could impose restrictions on our operations. Regardless of whether our cash assets prove to be inadequate to meet our operational needs, we may seek to compensate providers of services by issuance of stock in lieu of cash, which may also result in dilution to existing shareholders.

Off Balance Sheet Arrangements.

The Company does not engage in any off balance sheet arrangements that are reasonably likely to have a current or future effect on our financial condition, revenues, and results of operations, liquidity or capital expenditures.

Inflation.

The impact of inflation on our costs and the ability to pass on cost increases to customers over time is dependent upon market conditions. We are not aware of any inflationary pressures that have had any significant impact on our operations over the past quarter, and the Company does not anticipate inflationary factors will have a significant impact on future operations.

Critical Accounting Policies.

The Securities and Exchange Commission (“SEC”) has issued Financial Reporting Release No. 60, “Cautionary Advice Regarding Disclosure About Critical Accounting Policies” (“FRR 60”), suggesting companies provide additional disclosure and commentary on their most critical accounting policies. In FRR 60, the SEC has defined the most critical accounting policies as the ones that are most important to the portrayal of a company’s financial condition and operating results, and require management to make its most difficult and subjective judgments, often as a result of the need to make estimates of matters that are inherently uncertain. Based on this definition, the Company’s most critical accounting policies include: (a) use of estimates in the preparation of financial statements; (b) stock-based compensation arrangements; and (c) revenue recognition. The methods, estimates and judgments the Company uses in applying these most critical accounting policies have a significant impact on the results the Company reports in its financial statements.

(a) Use of Estimates in the Preparation of Financial Statements.

The preparation of these financial statements requires the Company to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates these estimates, including those related to revenue recognition and concentration of credit risk. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

(b) Stock-Based Compensation Arrangements.

The Company may issue shares of common stock to various individuals and entities for management, legal, consulting and marketing services. These issuances will be valued at the fair market value of the services provided and the number of shares issued is determined, based upon the open market closing price of common stock as of the date of each respective transaction. These transactions will be reflected as a component of selling, general and administrative expenses in the Company's statement of operations.

(c) Revenue Recognition.

Sales are recognized when the product or service is delivered to the customer.

Forward Looking Statements.

Information in this Form 10-Q contains "forward looking statements" within the meaning of Rule 175 of the Securities Act of 1933, as amended, and Rule 3b-6 of the Securities Act of 1934, as amended. When used in this Form 10-Q, the words "expects," "anticipates," "believes," "plans," "will" and similar expressions are intended to identify forward-looking statements. These are statements that relate to future periods and include, but are not limited to, statements regarding our adequacy of cash, expectations regarding net losses and cash flow, our need for future financing, our dependence on personnel, and our operating expenses.

Forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those projected. These risks and uncertainties include, but are not limited to, those discussed above as well as risks set forth above under "Factors That May Affect Our Results." These forward-looking statements speak only as of the date hereof. The Company expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in its expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

As a "smaller reporting company" as defined by Item 10 of Regulation S-K, the Company is not required to provide information required under this Item.

ITEM 4T. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures.

The Company maintains disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Securities Exchange Act of 1934, as amended) that are designed to ensure that information required to be disclosed in our periodic reports filed under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer, to allow timely decisions regarding required disclosure.

Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, will be or have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, and/or by management override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, and/or the degree of compliance with the policies and procedures may deteriorate. Because of the inherent limitations in a cost-effective internal control system, misstatements due to error or fraud may occur and not be detected.

Within the 90 days prior to the end of the period covered by this report, the Company carried out an evaluation of the effectiveness of the design and operation of its disclosure controls and procedures pursuant to Rule 13a-15 under the Securities Exchange Act of 1934, as amended ("Exchange Act"). This evaluation was done under the supervision and with the participation of the Company's president. Based upon that evaluation, he concluded that the Company's disclosure controls and procedures are not effective in gathering, analyzing and disclosing information needed to satisfy the Company's disclosure obligations under the Exchange Act.

Changes in Disclosure Controls and Procedures.

There were no significant changes in the Company's disclosure controls and procedures, or in factors that could significantly affect those controls and procedures, since their most recent evaluation.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

Other than as set forth below, the Company is not a party to any material pending legal proceedings and, to the best of its knowledge, no such action by or against the Company has been threatened.

The Company is the defendant in a lawsuit filed on February 12, 2008 in Brevard County, Florida Case No: 05-2008-CA-019105 which was brought by the mortgage holder of the property owned by the Company at 13 Main Street Titusville, FL. The matter was heard on March 14, 2008 and the Company was ordered to commence monthly payments of \$3,272.32 to the plaintiff beginning on April 16, 2008 and on the same date each month thereafter. The Company has met the requirements of the Agreement as of June 30, 2008.

ITEM 1A. RISK FACTORS.

There have been no material changes to the Company's risk factors as previously disclosed in our most recent 10-KSB/A filing for the year ending December 31, 2007.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

The Company made the following sales of unregistered (restricted) securities during the six months ending June 30, 2008:

(a) On January 9, 2008, the Company sold a total of 1,000,000 shares of common stock to an individual for cash. These shares were valued at a total of \$10,000 (\$0.01 per share).

(b) On March 27, 2008, the Company issued a total of 4,980,953 shares of common stock to an individual for cash for a total value of \$49,809 (\$0.01 per share).

(c) On May 16, 2008, the Company issued a total of 350,000 shares of common stock to an individual for cash for a total value of \$3,500 (\$0.01 per share).

(d) On May 28, 2008, the Company issued a total of 1,300,000 shares of common stock to five individuals for cash with a total value of \$13,000 (\$0.01 per share).

No commissions were paid in connection with any of these sales. These sales were undertaken under Rule 506 of Regulation D under the Securities Act of 1933. Each of the transactions did not involve a public offering and each of the investors represented that he/she was a “sophisticated” or “accredited” investor as defined in Rule 502 of Regulation D.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

The Company is in default on the mortgage on the building it owns at 13 Main Street Titusville, FL. The Company is the defendant in a lawsuit brought by the mortgage holder of the property. and was ordered to commence monthly payments of \$3,272.32 to the plaintiff beginning on April 16, 2008 and on the same date each month thereafter. The Company has met the requirements of the Agreement as of June 30, 2008.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

None

ITEM 5. OTHER INFORMATION.

On March 10, 2008, the Company filed an 8-K announcing a contract between the Company and Odys Shipyard for building the Undersea vessels. Under the terms of the contract, the contract becomes effective when the Company has placed a 50% deposit on the first vessel to be built. The Company has 100 days from the date of the contract to make the initial deposit or Odys Shipyard may unilaterally cancel the contract. The Company has no financial obligations until the initial payment has been completed. No payments have been made under the contract and the Company has not received any form of cancellation.

The Company has held discussions and received affirmative agreement with the New York Harbor Department to dock resort ships in the Hudson River. As of this date no written contract has been completed.

ITEM 6. EXHIBITS.

31 Rule 13a-14(a)/15d-14(a) Certification of Joseph Cala.

32 Section 1350 Certification of Joseph Cala.

SIGNATURE

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the Company has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

Cala Corporation

Dated: July 27th, 2009

By: /s/ Joseph Cala

Joseph Cala, President

Principal Executive Officer and Chief Financial
Officer

RULE 13a-14(a)/15d-14(a) CERTIFICATION

I, Joseph Cala, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Cala Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the small business issuer as of, and for, the periods presented in this report;
4. I am responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) [omitted pursuant to extended compliance period] for the small business issuer and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under my supervision, to ensure that material information relating to the small business issuer, including its consolidated subsidiaries, is made known to me by others within those entities, particularly during the period in which this report is being prepared;
 - (b) [omitted pursuant to extended compliance period]
 - (c) Evaluated the effectiveness of the small business issuer's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) (Disclosed in this report any change in the small business issuer's internal control over financial reporting that occurred during the small business issuer's most recent fiscal quarter (the small business issuer's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the small business issuer's internal control over financial reporting; and
5. I have disclosed, based on my most recent evaluation of internal control over financial reporting, to the small business issuer's auditors and the audit committee of the small business issuer's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the small business issuer's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the small business issuer's internal control over financial reporting.

Dated: July 27th, 2009

By: /s/ Joseph Cala

Joseph Cala, Principal Executive Officer and
Principal Financial Officer

SECTION 1350 CERTIFICATION

In connection with the quarterly report of Cala Corporation... (“Company”) on Form 10-Q for the quarter ended June 30, 2008 as filed with the Securities and Exchange Commission (“Report”), the undersigned, in the capacity and on the date indicated below, hereby certifies pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 (18 U.S.C. Section 1350), that to his knowledge:

1. The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
2. The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

Date: July 27th, 2009

By: /s/ Joseph Cala
