1. Organization and Nature of Business

Prudential Investment Management Services LLC ("PIMS" or the "Company") is a wholly-owned subsidiary of PIFM Holdco LLC, ("PHI"), which is an indirect wholly-owned subsidiary of Prudential Financial, Inc. ("Prudential"). The Company is a registered broker-dealer subject to the rules and regulations of the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority, Inc. ("FINRA").

The Company's primary business is the distribution of mutual funds to retail investors through third party financial intermediary firms. The Company also sells various other investment products to institutional investors including private placements and variable life contracts, and distributes participant-directed group variable annuities and mutual funds to retirement plans.

The Company is also engaged in limited retail selling activities through the offering of various investment products sponsored by third parties and affiliates for rollover distributions from benefit plans of clients of Prudential. The Company offers general brokerage services to retail investors. Investment products offered to customers include, but are not limited to, stocks, bonds, mutual funds and options. With respect to custody and clearing of these customer securities transactions, except for mutual fund transactions in the Smart Solutions IRA product, the Company introduces these transactions to National Financial Services LLC, who clears them on a fully disclosed basis.

The Company is the distributor of the Prudential Investments domestic family of mutual funds shares ("Pru Funds"), which have adopted Plans of Distribution pursuant to Rule 12b-1 under the Investment Company Act of 1940.

The Company has also entered into selling agreements with unaffiliated mutual fund families whereby the Company receives distribution and service fees and commissions for sales of mutual fund products to defined contribution retirement plan clients of Prudential ("DC Plans"). The Company acts as the clearing broker for all mutual fund trades for both proprietary and non-proprietary mutual fund families with respect to the DC Plans business.

As more fully described in Note 5 the Company has various agreements with Prudential affiliates relating to the services of officers and the use of telecommunications, office space, systems, and equipment. As a result, the agreement terms may not be the same as those that would result from agreements with unrelated parties.

2. Summary of Significant Accounting Policies

The audited Statement of Financial Condition has been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

The preparation of this Statement of Financial Condition in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Statement of Financial Condition. Actual results could differ from those estimates.

The Company defines cash and cash equivalents as amounts due from banks and from money market mutual funds. Cash and cash equivalents of \$52,006 includes \$18,978, which represents an investment in a Prudential sponsored money market mutual fund for which the Company is the exclusive distributor. The remaining \$33,028 represents amounts on deposit in corporate accounts at commercial banks. At times, cash on deposit in the commercial banks may be in excess of available Federal insurance coverage. Cash of \$20,156 has been segregated in a special reserve bank account for the exclusive benefit of customers under SEC Rule 15c3-3 and is classified as Cash segregated under federal regulations.

The Company has an agreement with its parent, PHI, to finance its expected future monthly cash receipts from distribution and CDSC fees in exchange for cash. Financing under this agreement is on a sole recourse basis, with the Company required to repay PHI if the Company receives the distribution and CDSC fees. At December 31, 2015, the Company recorded expected future cash receipts and the related financing provided of \$15,073.

The Company is a branch of its parent PHI and is included in certain unitary state and local income tax returns.

Deferred income taxes are recognized, based on enacted rates, when assets and liabilities have different values for financial statement and tax reporting purposes.

The application of U.S. GAAP requires the Company to evaluate the recoverability of the Company's deferred tax assets and establish a valuation allowance, if necessary, to reduce the Company's deferred tax assets to an amount that is more-likely-than-not to be realized. Considerable judgment is required in determining whether a valuation allowance is necessary, and if so, the amount of such valuation allowance. Although realization is not assured, management believes it is more-likely-than-not that the deferred tax assets, net of valuation allowances, will be realized.

ASC 740 requires the Company to account for unrecognized tax benefits, interest and penalties which relate to tax years still subject to review by the Internal Revenue Service ("IRS") or other taxing jurisdictions. Audit periods remain open for review until the statute of limitations has passed. Generally, for tax years which produce net operating losses, capital losses or tax credit carryforwards ("tax attributes"), the statute of limitations does not close, to the extent of these tax attributes, until the expiration of the statute of limitations for the tax year in which they are fully utilized. The completion of review or the expiration of the statute of limitations for a given audit period could result in an adjustment to the liability for income taxes.

See Note 4 for additional information regarding income taxes.

3. Fair Value Assets and Liabilities

Fair Value Measurement—Fair value represents the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The authoritative fair value guidance establishes a framework for measuring fair value that includes a hierarchy used to classify the inputs used in measuring fair value. The level in the fair value hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement. The levels of the fair value hierarchy are as follows:

Level 1—Fair value is based on unadjusted quoted prices in active markets that are accessible to the Company for identical assets or liabilities. The Company's Level 1 assets represent an investment in a Prudential sponsored money market mutual fund for which the Company is the exclusive distributor.

Level 2—Fair value is based on significant inputs, other than quoted prices included in Level 1, that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability through corroboration with observable market data. Level 2 inputs include quoted market prices in active markets for similar assets and liabilities, quoted market prices in markets that are not active for identical or similar assets and liabilities, and other market observable inputs.

Level 3—Fair value is based on at least one or more significant unobservable inputs for the asset or liability. The assets and liabilities in this category may require significant judgment or estimation in determining the fair value. The Company does not have any level 3 assets or liabilities.

The table below presents the balances of assets measured at fair value on a recurring basis. There were no liabilities carried at fair value.

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
