Dear Mr. Kurz:

We have limited our review of your filing to the issues we have addressed in our comments. In our comments, we ask you to provide us with more information so we may better understand your disclosure. After reviewing this information, we may raise additional comments.

Please understand that the purpose of our review process is to assist you in your compliance with the applicable disclosure requirements and to enhance the overall disclosure in your filings. We look forward to working with you in these respects. We welcome any questions you may have about our comments or any other aspect of our review. Form 10-K for the year ended December 31, 2005

Management's Discussion and Analysis of Financial Condition and Results of Operations

Contractual Obligations, page 31

1. In footnote (1) to your contractual obligations table you indicate that you exclude policyholder liabilities, mostly related to deferred annuity contracts. Although we acknowledge that these obligations are contractually surrenderable at any time and that approximately 67% of these obligations have surrender penalties, we do not understand why reasonable estimates of the timing of payments cannot be made. Please provide to us in a disclosure-type format a contractual obligation table that includes the estimated timing of payment of all your future policy benefits and policyholders' account balances. Otherwise please explain to us why you cannot reasonably estimate the timing of these payments and how this

inability to reasonably estimate the timing of payments affects your estimate of the liabilities recorded and the asset/liability management process.

Critical Accounting Estimates, page 32

2. Although you identify your critical accounting estimates and provide qualitative disclosure about their nature, you do not quantify the variability in operating results that you expect to be reasonably likely to occur. Please provide to us in a disclosure-type format, a discussion that quantifies:
 - the effect that changes in estimates have had on the financial statements for each period presented; and
 - the effect that reasonably likely changes in the key assumptions underlying these estimates as of the latest balance sheet may have on the financial statements.

Notes to Consolidated Financial Statements

Note 6: Income Taxes, page 23

3. In both your 2005 rate reconciliation and your disclosure of the components of your 2005 deferred federal income tax expense, your “other” category is significant. Please provide to us in a disclosure-type format, revised disclosure that explains the nature of the other reconciling items and other deferred taxes.

Notes to Unaudited Condensed Consolidated Financial Statements

Note 2: Share-based Compensation, page 10

4. We believe your disclosure of pro forma net income and per share information excluding share-based compensation under SFAS 123R is a non-GAAP performance measure. Please provide to us in a disclosure-type format revised disclosure that removes this measure and provides the pro forma information for fiscal 2005 that includes the stock-based compensation under SFAS 123 as required by paragraph 84 of SFAS 123R. Please see SAB Topic 14:G added by SAB 107. Otherwise, please provide to us in a disclosure-type format revised disclosure that justifies how your non-GAAP measure complies with Item 10(e)
