**Re: Icahn Enterprises L.P.
Icahn Enterprises Holdings L.P.
Form 10-K for the Fiscal Year Ended December 31, 2013
Filed March 3, 2014
File No. 1-09516**

Dear Mr. Cozza:

We have reviewed your filing and have the following comments. In some of our comments, we may ask you to provide us with information so we may better understand your disclosure.

Please respond to this letter within ten business days by amending your filing, by providing the requested information, or by advising us when you will provide the requested response. If you do not believe our comments apply to your facts and circumstances or do not believe an amendment is appropriate, please tell us why in your response.

After reviewing any amendment to your filing and the information you provide in response to these comments, we may have additional comments.

General

1. News reports indicate that your subsidiary Federal-Mogul Corporation has a 50% interest in a joint venture with Kamaz. The Kamaz website provides contact information for a dealer in Cuba and agent in Sudan. Additionally, on page 20 of the 10-K, you indicate that your majority-owned subsidiary Viskase Companies Inc. has responsibility for distributing products through distributors in Africa and the Middle East, regions that include Sudan and Syria.

Cuba, Sudan and Syria are designated by the Department of State as state sponsors of terrorism, and are subject to U.S. economic sanctions and export controls. Please describe to us the nature and extent of your past, current, and anticipated contacts with Cuba, Sudan and Syria, if any, whether through subsidiaries, affiliates, distributors, partners, customers, joint ventures or other direct or indirect arrangements. Your response should describe any services, products, information or technology you have provided to Cuba, Sudan or Syria, directly or indirectly, and any agreements, commercial arrangements, or other contacts you have had with the governments of those countries or entities controlled by their governments.

2. Please discuss the materiality of any contacts with Cuba, Sudan and Syria described in response to the foregoing comment, and whether those contacts constitute a material investment risk for your security holders. You should address materiality in quantitative terms, including the approximate dollar amounts of any associated revenues, assets, and liabilities for the last three fiscal years and the subsequent interim period. Also, address materiality in terms of qualitative factors that a reasonable investor would deem important in making an investment decision, including the potential impact of corporate activities upon a company's reputation and share value. Various state and municipal governments, universities, and other investors have proposed or adopted divestment or similar initiatives regarding investment in companies that do business with U.S.-designated state sponsors of terrorism. Your materiality analysis should address the potential impact of the investor sentiment evidenced by such actions directed toward companies that have operations associated with Cuba, Sudan and Syria.

3. We note your disclosure that the Investment Funds' net notional exposure was 13% as of December 31, 2013. Please include clarifying disclosure to indicate how you calculate the percentages associated with the net, long, and short exposures and specify how changes in such measures impact your liquidity. In doing so, please provide to us the calculations in support of your quantitative disclosure.

4. Please tell us why you have filed a separate audit report that opines on the financial statements of Federal-Mogul Corporation for the year ended December 31, 2011 as your

auditor does not make reference in its current report to the audit performed by this auditor.

7. You disclose in your summary compensation table that Mr. Ninivaggi's base salary increased approximately 200 percent from \$742,500 in 2012 to \$2,205,345 in 2013. You also disclose that "[b]ase salaries for executive officers are determined based on job performance, job responsibilities and teamwork.
