Notes to Condensed Financial Statements
August 31, 2007

Summary of Significant Accounting Policies

Nature of Business

TrackPower's present business strategy and direction is primarily to acquire interests in horseracing tracks and also to evaluate other horseracing industry opportunities.

Basis of Presentation

The accompanying unaudited financial statements of TrackPower, Inc. have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB and item 310 (b) of Regulation S-B. Accordingly they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six months ended August 31, 2007 are not necessarily indicative of the results that may be expected for the fiscal year ending February 28, 2008. For further information, refer to the financial statements and footnotes thereto included in the Company's annual report on Form 10-KSB for the fiscal year ended February 28, 2007.

Going Concern

The accompanying financial statements have been prepared assuming the Company will continue on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has suffered recurring losses from operations during its operating history. The ability of the Company to continue as a going concern is dependent upon obtaining future financing and profitable operations. Management is in the process of evaluating future business opportunities, which would generate revenue to sustain the operations of the Company. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates include the recoverability of assets and the fair value of common stock and other equity securities issued. Actual results could differ from those estimates.

Reclassification of 2007 Cash Flow Statement

Preferred dividends previously classified as expenditures in net cash used in operations have been reclassified as expenditures in financing activities.

Due to/from Related Parties

Periodically, the Company advances funds and pays expenses on behalf of related parties and funds are advanced and expenses are paid by related parties on behalf of the Company. These transactions result in non-interest bearing payables or receivables to related parties.

Amounts due from related parties were:

	<u>August 31, 2007</u>
Entity with common shareholders	\$ 44,367

Amounts due to related parties were:

	<u>August 31, 2007</u>
Officers and directors	\$ 62,438
Entities with certain common directors and/or officers	90,463
Former officers and directors	228,955
Total	<u>\$ 381,856</u>

Amounts due to or from related parties are non-interest bearing, unsecured and do not have any specific repayment terms.

Investment

American Racing and Entertainment, LLC.

The Company holds an approximately 5.4% membership interest in American Racing and Entertainment, LLC, which is a private New York limited liability company. American Racing operates two horseracing and video lottery terminal facilities in New York State, known as Tioga Downs and Vernon Downs. The Company records the investment at cost. The current carrying value of this investment is \$700,000.

	<u>August 31, 2007</u>
SIG Communications Partnership 10% unsecured promissory note	\$ 21,000
Southern Tier Acquisition II, LLC and Oneida Entertainment Holdings Inc., 15% 5 year secured promissory note	700,000
Total	\$ 721,000
Less: current portion	21,000
Long term portion	<u>\$ 700,000</u>

SIG Communications Partnership Promissory Note

10% promissory note due to SIG Communications Partnership in the amount of \$20,000 (excluding an interest accrual of \$1,000). The SIG Communications Partnership note and related accrued interest was due May 16, 2000. During fiscal 2002, accrued interest of \$4,500 was added to the note principal. The Company agreed to repay the outstanding balance in monthly payments of \$3,500. At August 31, 2007, \$3,500 has been repaid. The Company is in default of its agreement.

Southern Tier and Oneida Entertainment Promissory Notes

On October 20, 2006, the Company issued a \$400,000 15% secured promissory note to Southern Tier Acquisition II LLC and Oneida Entertainment Holdings Inc. and increased the amounts of the promissory notes to \$700,000 on January 17, 2007. The financing consisted of a \$350,000 loan from each of Southern Tier and Oneida. Interest is paid monthly beginning December 1, 2006 and the promissory note matures on November 1, 2011. The Company entered into a pledge and security agreement to secure the promissory note providing as collateral all of the Company's remaining membership interest in American Racing.

Loss per Share

Loss per common share is based on the weighted average number of shares outstanding during each period presented. Warrants to purchase stock are included as common stock equivalents only when dilutive.

Related Party Transactions

During the six month period ended August 31, 2007, the Company paid \$127,500 in compensation to officers and directors as management fees for their services. The Company also issued 10,000,000 common shares to a former officer and director as a termination settlement.

Recent Accounting Pronouncements

In September 2006, the FASB issued statement No. 157, "Fair Value Measurements", (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value in accordance with accounting principles generally accepted in the United States, and expands disclosures about fair value measurements. SFAS 157 is effective for fiscal years beginning after November 15, 2007, with earlier application encouraged. Any amounts recognized upon adoption as a cumulative effect adjustment will be recorded to the opening balance of retained earnings in the year of adoption. The Company has not yet determined the impact of this Statement on its financial condition and results of operations.

In February 2007, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standard ("SFAS") No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities, including an amendment of FASB Statement No. 115". SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value at specified election dates. SFAS 159 is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. As such, the Company is required to adopt these provisions at the beginning of the fiscal year ended February 28, 2009. The Company is currently evaluating the impact of SFAS 159 on its financial statements.

Item 2. Management's Discussion and Analysis or Plan of Operation.

Forward Looking Statements

Certain matters discussed in this Quarterly Report may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and as such may involve risks and uncertainties. These forward-looking statements relate to, among other things, expectations of the business environment in which the Company operates, projections of future performance, perceived opportunities in the market and statements regarding the Company's goals. The Company's actual results, performance, or achievements expressed or implied in such forward-looking statements may differ. We are under no duty to update, and do not undertake to update, any of the forward-looking statements contained in this quarterly report to conform them to actual results or to changes in our expectations.

Plan of Operations

The Company holds a 5.4% membership interest in American Racing and Entertainment, LLC, a New York Limited Liability company, that is developing a horseracing and gaming facility in Nichols, New York known as Tioga Downs and is renovating another New York facility known as Vernon Downs. The Tioga Downs facility began to operate in June 2006 and the Company is in the process of reopening the Vernon Downs facility. Under the terms of the operating agreement with American Racing, the Company, TrackPower, and its partners are obligated to advance further amounts to the venture.

The Company will need to raise additional cash to continue to pay its operating expenses in the next twelve months until the distribution from the new ventures exceed the day to day operating costs. The Company also plans to seek other racing and gaming opportunities in the United States.

The Company plans to raise additional funds, in the next twelve months, through the issuance of its common stock or through a combination of equity and debt security instruments. It is anticipated that the debt security instruments will have conversion features that would cause further dilution to existing shareholders.

Results of Operations

For the three month period ended August 31, 2007

Costs and expenses totaled \$125,901 during the three-month period ended August 31, 2007 approximately \$1,134,000 lower than during the three month period ended August 31, 2006. The Company experienced very little activity during the first half of the current year as management groups and directors transitioned in and out of their respective positions.

Wages and consulting fees were \$66,238 during the three month period ended August 31, 2006 and zero in the current year. The Company did not incur any wages during the three month period ended August 31, 2007 due to the termination of Company's CEO in the fourth quarter of fiscal 2007. The Company's current CEO is compensated through related party management fees described elsewhere in this report. Wages and consulting costs during the three month period ended August 31, 2006 consisted of employment costs of \$39,419 (including an accrual of \$6,619 representing future common stock based compensation pursuant to an employment letter memorandum) paid to the Company's former CEO, financial accounting consulting costs totaling \$10,910 and various consulting fees totaling \$15,909.

Management and consulting fees paid to related parties were \$67,500 during the quarter ended August 31, 2007 and \$66,702 in the comparative period in the prior year. Critical Accounting Policies and Estimates

The discussion and analysis of results of operations and financial condition are based upon the financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The preparation of these financial statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. Management evaluates the estimates on an on-going basis, including those related to bad debts, investments, customer accounts, intangible assets, income taxes, and contingencies and litigation. Management bases its estimates on historical experience and on various other assumptions that they believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. Note 2 of the "Notes to Financial Statements" of the Company's Annual Audited Financial Statements includes a summary of the significant accounting policies and methods used in the preparation of the financial statements. The following is a brief description of the more significant accounting policies and methods the Company uses.

Fair Value of Financial Instruments:

Cash, accounts payable, accrued expenses, note payable and loans receivable are carried in the financial statements at amounts which approximate fair value.

Investments:

The Company's investments consist of a membership interest in a private New York Limited Liability Company. The membership interest is recorded at cost. Any unrealized losses which are considered "other than temporary" are classified as realized losses through operations.

Financial Condition

During the six month period ended August 31, 2007, total assets decreased from \$824,877 to \$774,931. The decrease is primarily the result of the disposal of the Company's investment in Baymount securities. The Company carried its investment in Baymount at \$42,796 at the beginning of the year.

The most significant asset the Company is its American Racing investment, which it carries at \$700,000 (unchanged since last fiscal year end).

The Company's liabilities increased from \$1,551,925 at the beginning of the year to \$1,800,296 at August 31, 2007. The increase is primarily a result of additional preferred dividends payable and additional amounts due to related parties.

Accounts payable decreased from \$252,474 at the beginning of the year to \$228,489 at August 31, 2007. Due to related parties increased from \$264,795 at February 28, 2007 to \$381,856 at August 31, 2007. Amounts owed to related parties primarily represents unpaid amounts for services rendered to the Company by related parties.

The stockholders' deficiency increased from \$727,048 at February 28, 2007 to \$1,025,365 at August 31, 2007. The increase is substantially attributable to an increase in the accumulated deficit arising from the \$350,571 loss for the six month period ended August 31, 2007.

Liquidity and Capital Resources

Operations were financed through the disposal of marketable securities and common stock share subscriptions. During the six month period ended August 31, 2007, the Company used \$102,426 in cash from operating activities primarily as a result of operating losses and adjustments to working capital accounts. Cash provided by investing activities totaled \$37,100 and represented proceeds received from the disposal of its remaining investment in Baymount securities. Cash provided by financing activities totaled \$65,500 and represented common stock share subscriptions at \$0.001 per share.

The revenues of the Company during the six month period ended August 31, 2007 were zero therefore did not play a significant role in financing operations. Management expects to begin receiving distributions from the American Racing investment at some point in the future.

The Company in the past has financed operations through the issuance of restricted equity securities and has occasionally relied heavily on that practice. There can be no assurance that the Company's ability to raise capital through private placements will continue.

Management is hopeful that the future business direction of the Company will substantially decrease the history of operating losses and provide the ability to improve the Company's liquidity. The Company will require additional capital over the next year in order to satisfy existing liabilities and to provide further capital contributions to its investments. Failure to obtain such capital could adversely impact the Company's operations and prospects.

Off-balance sheet arrangements.

The Company does not have any off balance sheet arrangements.

Item 3. Controls and Procedures.

As of the end of the period covered by this report, an evaluation was carried out under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures, as defined in Rule 13a-15(e) promulgated under the Securities and Exchange Act of 1934 (the "Exchange Act"). Based on their evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms.

There have been no changes in the Company's internal controls over financial reporting during the Company's most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II. Other Information

Item 2.Unregistered Sales of Equity Securities.

The Company issued the following unregistered securities during the three month period ended August 31, 2007.
