# The Fund

## INTRODUCTION

---

As a money market fund, the fund is subject to maturity, quality and diversification requirements designed to help it maintain a stable share price.

The fund invests in a broad range of high quality money market instruments.

An investment in a fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although each fund seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in a fund.

## Concepts to understand

---

**Money market fund:** a specific type of fund that seeks to maintain a \$1.00 price per share. Money market funds are subject to strict federal requirements and must:

- maintain an average dollar-weighted portfolio maturity of 90 days or less
- buy individual securities that have remaining maturities of 13 months or less
- invest only in high quality, dollar-denominated obligations

**Repurchase agreement:** a commercial bank or securities dealer sells securities to a fund and agrees to repurchase them at an agreed-upon date and price. These agreements offer a fund a means of investing money for a short period of time.

## Dreyfus Cash Management Plus, Inc.

### GOAL/APPROACH

---

The fund seeks as high a level of current income as is consistent with the preservation of capital and the maintenance of liquidity. To pursue its goal, the fund invests in a diversified portfolio of high quality, short-term debt securities, including:

- securities issued or guaranteed by the U.S. government or its agencies or instrumentalities
- certificates of deposit, time deposits, bankers' acceptances and other short-term securities issued by domestic banks or foreign banks (or thrifts) or their subsidiaries or branches
- repurchase agreements, including tri-party repurchase agreements
- asset-backed securities
- domestic and dollar-denominated foreign commercial paper, and other short-term corporate obligations, including those with floating or variable rates of interest
- dollar-denominated obligations issued or guaranteed by one or more foreign governments or any of their political subdivisions or agencies

Normally, the fund invests at least 25% of its net assets in bank obligations.

## MAIN RISKS

---

The fund's yield will fluctuate as the short-term securities in its portfolio mature and the proceeds are reinvested in securities with different interest rates.

While the fund has maintained a constant share price since inception, and will continue to try to do so, the following factors could reduce the fund's income level and/or share price:

- interest rates could rise sharply, causing the value of the fund's investments and its share price to drop
- interest rates could drop, thereby reducing the fund's yield
- any of the fund's holdings could have its credit rating downgraded or could default
- the risks generally associated with concentrating investments in the banking industry, such as interest rate risk, credit risk and regulatory developments relating to the banking industry
- the risks generally associated with dollar-denominated foreign investments, such as economic and political developments, seizure or nationalization of deposits, imposition of taxes or other restrictions on the payment of principal and interest
- the risk that a counterparty in a repurchase agreement could fail to honor the terms of its agreement

Not all obligations of the U.S. government or its agencies and instrumentalities are backed by the full faith and credit of the U.S. Treasury. Some obligations, such as those issued by the Student Loan Marketing Association and the Federal Home Loan Banks, are backed only by the credit of the issuing agency or instrumentality, and in some cases there may be some risk of default by the issuer. Any guarantee by the U.S. government or its agencies or instrumentalities of a security held by the fund does not apply to the market value of such security or to shares of the fund itself. In addition, because many types of U.S. government securities trade actively outside the U.S., their prices may rise and fall as changes in global economic conditions affect the demand for these securities.

## Concept to understand

---

**Credit rating:** a measure of the issuer's expected ability to make all required interest and principal payments in a timely manner. An issuer with the highest credit rating has a very strong degree of certainty (or safety) with respect to making all payments. An issuer with the second-highest credit rating has a strong capacity to make all payments, but the degree of safety is somewhat less.

Generally, the fund is required to invest at least 95% of its assets in securities of issuers with the highest credit rating, with the remainder invested in securities with the second-highest credit rating, or the unrated equivalent as determined by Dreyfus. The fund's policy, however, is to invest all of its assets in securities with the highest credit rating, or the unrated equivalent.

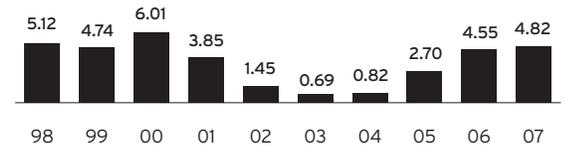

## PAST PERFORMANCE

The bar chart and table below illustrate the risks of investing in the fund. The bar chart shows the changes in the performance of the fund's Select shares from year to year. The table shows the average annual total returns of fund's Select shares over time. The historical performance of the fund's Participant shares, which are not offered in this prospectus, is used to calculate the performance shown in the bar chart and table for the fund's Select shares for periods prior to June 29, 2007 (the date Select shares were initially offered). All of the fund's share classes invest in the same portfolio of securities. Performance for each share class will vary from the performance of the fund's other share classes due to differences in expenses. The performance figures shown for periods prior to June 29, 2007 have not been adjusted to reflect differences in distribution and servicing fees; if these fees had been reflected, the performance shown for Select shares would have been lower. All returns assume reinvestment of dividends and distributions. Of course, past performance (before and after taxes) is no guarantee of future results.

### Year-by-year total returns as of 12/31 each year (%)

#### Select shares\*

**Best Quarter: Q3 '00 +1.58%**

**Worst Quarter: Q4 '03 +0.13%**

*The year-to-date total return of the fund's Select shares as of 3/31/08 was 0.78%.*

### Average annual total returns as of 12/31/07

#### Select shares\*

| 1 Year       | 5 Years      | 10 Years     |
|--------------|--------------|--------------|
| <b>4.82%</b> | <b>2.70%</b> | <b>3.46%</b> |

*\* Based on the performance of the fund's Participant shares for periods prior to June 29, 2007.*

Clients may call First Regional Bank at **310-229-1776** for the current yield for Select shares. Individuals or entities for whom institutions may purchase or redeem shares should call the institution directly.

### What this fund is – and isn't

This fund is a mutual fund: a pooled investment that is professionally managed and gives you the opportunity to participate in financial markets. It strives to reach its stated goal, although as with all mutual funds, it cannot offer guaranteed results.

An investment in this fund is not a bank deposit. It is not insured or guaranteed by the FDIC or any other government agency. It is not a complete investment program. You could lose money in this fund, but you also have the potential to make money.

## EXPENSES

As an investor, you pay certain fees and expenses in connection with the fund, which are described for Select shares in the table below. Annual fund operating expenses are paid out of fund assets, so their effect is reflected in the amount of income available for distribution to shareholders.

### Fee table

#### Annual fund operating expenses

*% of average daily net assets*

|                 |              |
|-----------------|--------------|
| Management fees | 0.20%        |
| Rule 12b-1 fee  | 0.80%        |
| Other expenses  | none         |
| <b>Total</b>    | <b>1.00%</b> |

### Expense example

| 1 Year       | 3 Years      | 5 Years      | 10 Years       |
|--------------|--------------|--------------|----------------|
| <b>\$102</b> | <b>\$318</b> | <b>\$552</b> | <b>\$1,225</b> |

This example shows what you could pay in expenses over time. It uses the same hypothetical conditions other funds use in their prospectuses: \$10,000 initial investment, 5% total return each year and no changes in expenses. The figures shown would be the same whether you sold your shares at the end of a period or kept them. Because actual returns and expenses will be different, the example is for comparison only.

## Concepts to understand

**Management fee:** the fee paid to Dreyfus for managing the fund's portfolio and assisting in all aspects of the fund's operations.

From time to time, Dreyfus may limit expenses to the extent it deems appropriate to enhance the yield of the fund, or a particular class of the fund, during periods when fixed expenses have a significant impact on the yield of the fund, or a particular class of the fund, as applicable, because of low interest rates. This expense limitation policy is voluntary and temporary and may be revised or terminated by Dreyfus at any time without notice.

**Rule 12b-1 fee:** the fee paid to the fund's distributor for distributing Select shares, for advertising and marketing related to Select shares, and for providing account service and maintenance. Because this fee is paid on an ongoing basis out of fund assets attributable to Select shares, over time it will increase the cost of your investment in Select shares and could cost you more than paying other types of sales charges.

**Other expenses:** under an agreement with Dreyfus, in effect since the fund commenced offering Select shares, the fund only pays the management fee and the Rule 12b-1 fee. Dreyfus pays all other fund expenses directly. Dreyfus may terminate this agreement at any time upon at least 90 days' prior notice to investors, but has committed not to do so at least through May 31, 2009.

## MANAGEMENT

---

### Investment adviser

The investment adviser for the fund is The Dreyfus Corporation (Dreyfus), 200 Park Avenue, New York, New York 10166. Founded in 1947, Dreyfus manages approximately \$295 billion in approximately 180 mutual fund portfolios. For the past fiscal year, the fund paid Dreyfus a management fee at the annual rate of 0.20% of the fund's average daily net assets. A discussion regarding the basis for the board's approving the fund's management agreement with Dreyfus is available in the fund's semiannual report for the six months ended July 31, 2007. Dreyfus is the primary mutual fund business of The Bank of New York Mellon Corporation (BNY Mellon), a global financial services company focused on helping clients move and manage their financial assets, operating in 34 countries and serving more than 100 markets. BNY Mellon is a leading provider of financial services for institutions, corporations and high-net-worth individuals, providing asset and wealth management, asset servicing, issuer services, and treasury services through a worldwide client-focused team. BNY Mellon has more than \$23 trillion in assets under custody and administration and \$1.1 trillion in assets under management, and it services more than \$11 trillion in outstanding debt. Additional information is available at [www.bnymellon.com](http://www.bnymellon.com).

The Dreyfus asset management philosophy is based on the belief that discipline and consistency are important to investment success. For the fund, Dreyfus seeks to establish clear guidelines for portfolio management and to be systematic in making decisions. This approach is designed to provide the fund with a distinct, stable identity.

## Distributor

The fund's distributor is MBSC Securities Corporation (MBSC), a wholly-owned subsidiary of Dreyfus. Dreyfus or MBSC may provide cash payments out of its own resources to financial intermediaries that sell shares of the fund or provide other services. Such payments are separate from any 12b-1 fees paid by the fund to those intermediaries. Because those payments are not made by shareholders or the fund, a fund's total expense ratio will not be affected by any such payments. These additional payments may be made to intermediaries, including affiliates, that provide shareholder servicing, sub-administration, recordkeeping and/or sub-transfer agency services, marketing support and/or access to sales meetings, sales representatives and management representatives of the financial intermediary. Cash compensation also may be paid from Dreyfus' or MBSC's own resources to intermediaries for inclusion of the fund on a sales list, including a preferred or select sales list or in other sales programs. These payments sometimes are referred to as "revenue sharing." From time to time, Dreyfus or MBSC also may provide cash or non-cash compensation to financial intermediaries or their representatives in the form of occasional gifts; occasional meals, tickets or other entertainment; support for due diligence trips; educational conference sponsorship; support for recognition programs; and other forms of cash or non-cash compensation permissible under broker-dealer regulations. In some cases, these payments or compensation may create an incentive for a financial intermediary or its employees to recommend or sell shares of a fund to you. Please contact your financial representative for details about any payments they or their firm may receive in connection with the sale of fund shares or the provision of services to the fund.

## Code of ethics

The fund, Dreyfus and MBSC have each adopted a code of ethics that permits its personnel, subject to such code, to invest in securities, including securities that may be purchased or held by the fund. The Dreyfus code of ethics restricts the personal securities transactions of its employees, and requires portfolio managers and other investment personnel to comply with the code's preclearance and disclosure procedures. The primary purpose of the code is to ensure that personal trading by Dreyfus employees does not disadvantage any Dreyfus-managed fund.

## FINANCIAL HIGHLIGHTS

The following tables describe the performance of the fund's Select shares for the period from June 29, 2007 (commencement of initial offering) to January 31, 2008. "Total return" shows how much your investment in the fund would have increased (or decreased) during the period, assuming you had

reinvested all dividends and distributions. These figures have been audited by Ernst & Young LLP, an independent registered public accounting firm, whose report, along with the fund's financial statements, is included in the annual report, which is available upon request.

# Account Information

## ACCOUNT POLICIES

---

The fund is designed for institutional investors, particularly banks, acting for themselves or in a fiduciary, advisory, agency, custodial or similar capacity. Generally, each investor will be required to open a single master account with the fund for all purposes. In certain cases, the fund may request investors to maintain separate master accounts for shares held by the investor (i) for its own account, for the account of other institutions and for accounts for which the institution acts as a fiduciary, and (ii) for accounts for which the investor acts in some other capacity. An institution may arrange with the fund's transfer agent for sub-accounting services and will be charged directly for the cost of such services. Institutions purchasing Select shares for the benefit of their clients may impose policies, limitations and fees which are different from those described in this prospectus.

## Buying shares

The price for fund shares is the fund's net asset value per share (NAV), which is generally calculated at 12:00 noon, 5:00 p.m. and 8:00 p.m. for the fund, on days the New York Stock Exchange, or the transfer agent (as on Good Friday) is open for regular business. An order will be priced at the next NAV calculated after the order is received in proper form by the fund's transfer agent or other authorized entity. The fund's investments are valued based on amortized cost. As a result, portfolio securities are valued at their acquisition cost, adjusted for discounts or premiums reflected in their purchase price. This method of valuation is designed to enable the fund to price its shares at \$1.00 per share.

Orders in proper form placed prior to 12:00 noon or 5:00 p.m., and payments for which are received in or converted into Federal Funds by the fund's custodian by 6:00 p.m., will become effective at the price determined at 12:00 noon or 5:00 p.m., respectively, on that day. In either case, shares purchased will receive the dividend declared on that day.

Orders effected through compatible computer facilities after 5:00 p.m., but prior to 8:00 p.m., will become effective at the price determined at 8:00 p.m. on that day, if Federal Funds are received by the fund's custodian by 11:00 a.m. on the following business day. In this case, shares purchased will start earning dividends on the business day following the date the order became effective. Orders effected between 5:00 p.m. and 8:00 p.m., by a means other than a compatible computer facility (and otherwise in proper form), will become effective on the following business day.

All times are Eastern time.

---

#### Minimum investments

|                      | Initial              | Additional  |
|----------------------|----------------------|-------------|
| <b>Select shares</b> | <b>\$10,000,000*</b> | <b>none</b> |

\*The minimum initial investment in Select shares is \$10,000,000, unless: (a) the investor has invested at least \$10,000,000 in the aggregate among any Dreyfus Cash Management fund, Dreyfus Institutional Cash Advantage Fund and Dreyfus Institutional Cash Advantage Plus Fund (including in any class of a fund); or (b) the investor has, in the opinion of Dreyfus Investments Division, adequate intent and availability of assets to reach a future level of investment of \$10,000,000 among the funds named above.

#### Concepts to understand

**Net asset value (NAV):** a mutual fund's share price on a given day. A fund's NAV is calculated by dividing the value of its net assets by the number of its existing shares outstanding.

When calculating its NAV, a fund compares the NAV using amortized cost to its NAV using available market quotations or market equivalents which generally are provided by an independent pricing service approved by the fund's board. The pricing service's procedures are reviewed under the general supervision of the board.

**Amortized cost:** the value of a fund's portfolio securities, which does not take into account unrealized gains or losses. As a result, portfolio securities are valued at their acquisition cost, adjusted over time based on the discounts or premiums reflected in their purchase price. The fund uses this valuation method pursuant to Rule 2a-7 under the 1940 Act in order to be able to price its shares at \$1.00 per share. In accordance with Rule 2a-7, each fund is subject to certain maturity, quality, and diversification requirements to help it maintain the \$1.00 share price.

## Selling shares

Investors may sell (redeem) shares at any time by wire, telephone, or compatible computer facility. Shares will be sold at the next determined NAV.

If a redemption request is received in proper form by the fund's transfer agent or other authorized entity by 5:00 p.m., the proceeds of the redemption, if transfer by wire is requested, ordinarily will be transmitted in Federal Funds on the same day, and the shares will not receive the dividend declared on that day. If a request for redemption is received in proper form by the fund's transfer agent or other authorized entity after 5:00 p.m., but by 8:00 p.m., the proceeds of the redemption ordinarily will be transmitted in Federal Funds on the next business day, and the shares will receive the dividend declared on that day.

All times are Eastern time.

The processing of redemptions and the delivery of the proceeds may be delayed beyond the same or next business day, depending on the circumstance, for any period (i) during which the New York Stock Exchange is closed (other than on holidays or weekends), or during which trading on the New York Stock Exchange is restricted; (ii) when an emergency exists that makes difficult the disposal of securities owned by a fund or the determination of the fair value of the fund's net assets; or (iii) as permitted by order of the Securities and Exchange Commission for the protection of fund shareholders. For these purposes, the Securities and Exchange Commission determines the conditions under which trading shall be deemed to be restricted and an emergency shall be deemed to exist. Any certificates representing fund shares being sold must be returned with the redemption request.

**Before selling recently purchased shares**, please note that if the fund has not yet collected payment for the shares being sold, it may delay sending the proceeds for up to eight business days or until it has collected payment.

### General policies

Unless the investor declines telephone privileges on the application, the investor may be responsible for any fraudulent telephone order as long as Dreyfus takes reasonable measures to verify the order.

**Money market funds generally** are used by investors for short-term investments, often in place of bank checking or savings accounts, or for cash management purposes. Investors value the ability to add and withdraw their funds quickly, without restriction. For this reason, although Dreyfus discourages excessive trading and other abusive trading practices, the fund has not adopted policies and procedures, or imposed redemption fees or other restrictions such as minimum holding periods, to deter frequent purchases and redemptions of fund shares. Dreyfus also believes that money market funds, such as the fund, are not targets of abusive trading practices, because money market funds seek to maintain a \$1.00 per share price and typically do not fluctuate in value based on market prices. However, frequent purchases and redemptions of a fund's shares could increase the fund's transaction costs, such as market spreads and custodial fees, and may interfere with the efficient management of the fund's portfolio, which could detract from the fund's performance. Accordingly, the fund reserves the right to refuse any purchase or exchange request. Funds in the Dreyfus Family of Funds that are not money market mutual funds have approved policies and procedures that are intended to discourage and prevent abusive trading practices in those mutual funds, which may apply to exchanges from or into a fund. If you plan to exchange your fund shares for shares of another Dreyfus fund, please read the prospectus of that other Dreyfus fund for more information.

The fund reserves the right to:

- refuse any purchase or exchange request that could adversely affect the fund or its operations
- change or discontinue its exchange privilege, or temporarily suspend this privilege during unusual market conditions
- change its minimum investment amounts

The fund also reserves the right to make a "redemption in kind" — payment in portfolio securities rather than cash — if the amount being redeemed is deemed by the manager to be large enough to affect fund operations. Investors are urged to call First Regional Bank at 310-229-1776 before effecting any large transaction.

The fund may also process purchase and sale orders and calculate its NAV on days that the fund's primary trading markets are open and the fund's management determines to do so.

## DISTRIBUTIONS AND TAXES

---

The fund earns dividends, interest and other income from its investments, and distributes this income (less expenses) to shareholders as dividends. The fund also realizes capital gains from its investments, and distributes these gains (less any losses) to shareholders as capital gain distributions. The fund normally pays dividends once a month and capital gain distributions annually. Fund dividends and capital gain distributions will be reinvested in the fund unless the investor instructs the fund otherwise. There are no fees or sales charges on reinvestments.

**Distributions paid by the fund** are subject to federal income tax, and may also be subject to state or local taxes (unless the investor is investing through a tax-advantaged retirement account). For federal tax purposes, in general, certain fund distributions, including distributions of short-term capital gains, are taxable to investors as ordinary income.

The tax status of any distribution generally is the same regardless of how long an investor has been in the fund and whether distributions are reinvested or taken in cash.

An investor's sale of shares, including exchanges into other funds, may result in a capital gain or loss for tax purposes. A capital gain or loss on an investment in the fund generally is the difference between the cost of the investor's shares and the amount received when the investor sells them.

The tax status of an investor's distributions will be detailed in the investor's annual tax statement from the fund. Because everyone's tax situation is unique, please consult a tax advisor before investing.

## SERVICES FOR FUND INVESTORS

---

### Account statements

Every fund investor automatically receives regular account statements. Each investor also will be sent a yearly statement detailing the tax characteristics of any dividends and distributions the investor has received.

# For More Information

## **Dreyfus Cash Management Plus, Inc.**

SEC file number: 811-5295

More information on the fund is available free upon request, including the following:

### **Annual/Semiannual Report**

Describes the fund's performance, lists its portfolio holdings and contains a letter from the fund's manager discussing recent market conditions, economic trends and fund strategies that significantly affected the fund's performance during the last fiscal year. The fund's most recent annual and semiannual reports are available at [www.dreyfus.com](http://www.dreyfus.com).

### **Statement of Additional Information (SAI)**

Provides more details about the fund and its policies. A current SAI is available at [www.dreyfus.com](http://www.dreyfus.com) and is on file with the Securities and Exchange Commission (SEC). The SAI is incorporated by reference (is legally considered part of this prospectus).

### **Portfolio Holdings**

The fund will disclose its complete schedule of portfolio holdings daily as of the end of the previous business day at [www.dreyfus.com](http://www.dreyfus.com), under Mutual Fund Center — Dreyfus Mutual Funds — Mutual Fund Total Holdings. The information will remain accessible until the fund files a report on Form N-Q or Form N-CSR for the period that includes the date of the posted holdings.

A complete description of the fund's policies and procedures with respect to the disclosure of the fund's portfolio securities is available in the fund's SAI.

**On the Internet** Text-only versions of certain fund documents can be viewed online or downloaded from:
