-

EOG RESOURCES, INC.

Item 7.01 Regulation FD Disclosure.

I. Price Risk Management

(a) With the objective of enhancing the certainty of future revenues, from time to time EOG Resources, Inc. (EOG) enters into New York Mercantile Exchange related financial commodity collar and price swap contracts. EOG accounts for these financial commodity derivative contracts using the mark-to-market accounting method. In addition to financial transactions, EOG is a party to various physical commodity contracts for the sale of hydrocarbons that cover varying periods of time and have varying pricing provisions. The financial impact of these physical commodity contracts is included in revenues at the time of settlement, which in turn affects average realized hydrocarbon prices.

(b) For the first quarter of 2008, EOG anticipates a loss of \$469.8 million from its natural gas and crude oil financial price swap contracts. During the first quarter of 2008, net cash inflow related to settled natural gas and crude oil financial price swap contracts was \$23.2 million.

II. Natural Gas Financial Price Swap Contracts

(a) For the first quarter of 2008, EOG anticipates a loss of \$442.5 million from its natural gas financial price swap contracts. During the first quarter of 2008, net cash inflow related to settled natural gas financial price swap contracts was \$25.7 million.

(b) EOG has not entered into any additional natural gas financial price swap contracts since EOG filed its Annual Report on Form 10-K on February 28, 2008, which provided an update of all such financial contracts as of that date. Presented below is a comprehensive summary of EOG's natural gas financial price swap contracts as of April 8, 2008, with notional volumes expressed in million British thermal units per day (MMBtud) and prices in dollars per million British thermal units (\$/MMBtu). The average price of EOG's natural gas financial price swap contracts outstanding for 2008 is \$8.43 per million British thermal units (MMBtu) and for 2009 is \$8.63 per MMBtu.

Natural Gas Financial Price Swap Contracts		
	Volume (MMBtud)	Weighted Average Price (\$/MMBtu)
<u>2008</u>		
April (closed)	455,000	\$ 8.11
May	455,000	8.10
June	455,000	8.18
July	455,000	8.26
August	455,000	8.33
September	455,000	8.36
October	455,000	8.44
November	455,000	8.83
December	455,000	9.23
<u>2009</u>		
January	350,000	\$ 9.36
February	350,000	9.36
March	350,000	9.13
April	350,000	8.22
May	350,000	8.19
June	350,000	8.25
July	350,000	8.32
August	350,000	8.37
September	350,000	8.38
October	350,000	8.44
November	350,000	8.67
December	350,000	8.95

III. Crude Oil Financial Price Swap Contracts

(a) For the first quarter of 2008, EOG anticipates a loss of \$27.3 million from its crude oil financial price swap contracts. During the first quarter of 2008, cash outflow related to settled crude oil financial price swap contracts was \$2.5 million.

(b) EOG has not entered into any additional crude oil financial price swap contracts since EOG filed its Annual Report on Form 10-K on February 28, 2008, which provided an update of all such financial contracts as of that date. Presented below is a comprehensive summary of EOG's crude oil financial price swap contracts as of April 8, 2008, with notional volumes expressed in barrels per day (Bbld) and prices in dollars per barrel (\$/Bbl). The average price of EOG's crude oil financial price swap contracts outstanding is \$92.20 per barrel.

Crude Oil Financial Price Swap Contracts		
	Volume (Bbld)	Weighted Average Price (\$/Bbl)
<u>2008</u>		
April	14,000	\$92.20
May	14,000	92.20
June	14,000	92.20
July	14,000	92.20
August	14,000	92.20
September	14,000	92.20
October	14,000	92.20
November	14,000	92.20
December	4,000	91.96

IV. *Forward-Looking Statements*

This document includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements other than statements of historical facts, including, among others, statements regarding EOG's future financial position, business strategy, budgets, reserve information, projected levels of production, projected costs and plans and objectives of management for future operations, are forward-looking statements. EOG typically uses words such as "expect," "anticipate," "estimate," "strategy," "intend," "plan," "target" and "believe" or the negative of those terms or other variations or comparable terminology to identify its forward-looking statements. In particular, statements, express or implied, concerning future operating results, the ability to replace or increase reserves or to increase production, or the ability to generate income or cash flows are forward-looking statements. Forward-looking statements are not guarantees of performance. Although EOG believes the expectations reflected in its forward-looking statements are based on reasonable assumptions, no assurance can be given that these expectations will be achieved. Important factors that could cause actual results to differ materially from the expectations reflected in EOG's forward-looking statements include, among others:

- the timing and extent of changes in commodity prices for crude oil, natural gas and related products, foreign currency exchange rates, interest rates and financial market conditions;
- the extent and effect of any hedging activities engaged in by EOG;
- the timing and impact of liquefied natural gas imports;
- changes in demand or prices for ammonia or methanol;
- the extent of EOG's success in discovering, developing, marketing and producing reserves and in acquiring oil and gas properties;
- the accuracy of reserve estimates, which by their nature involve the exercise of professional judgment and may therefore be imprecise;
- the ability to achieve production levels from existing and future oil and gas development projects due to operating hazards, drilling risks and the inherent uncertainties in predicting oil and gas reservoir performance;

- the availability and cost of drilling rigs, experienced drilling crews, tubular steel and other materials, equipment and services used in drilling and well completions;
- the availability, terms and timing of mineral licenses and leases and governmental and other permits and rights of way;
- access to surface locations for drilling and production facilities;
- the availability and capacity of gathering, processing and pipeline transportation facilities;
- the availability of compression uplift capacity;
- the extent to which EOG can economically develop its Barnett Shale acreage outside of Johnson County, Texas;
- whether EOG is successful in its efforts to more densely develop its acreage in the Barnett Shale and other production areas;
- political developments around the world and the enactment of new government policies, legislation and regulations, including environmental regulations;
- acts of war and terrorism and responses to these acts; and
- weather, including weather-related delays in the installation of gathering and production facilities.

In light of these risks, uncertainties and assumptions, the events anticipated by EOG's forward-looking statements may not occur. EOG's forward-looking statements speak only as of the date made and EOG undertakes no obligation to update or revise its forward-looking statements, whether as a result of new information, future events or otherwise.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
