CALTON & ASSOCIATES, INC.
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2018 AND 2017

NOTE 1: ORGANIZATION AND NATURE OF BUSINESS

Calton & Associates, Inc. (the "Company") is a fully disclosed registered securities broker-dealer, a member of the Financial Industry Regulatory Authority (FINRA) and a Registered Investment Advisory firm with the Securities Exchange Commission. The company is incorporated in the State of Florida as a "C" Corporation and is primarily engaged in the marketing of general securities, mutual funds, insurance products and investment advisory services through a national network of independent financial advisors.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

In accordance with generally accepted accounting principles, the Company maintain its books on the accrual basis of accounting.

Cash and Cash Equivalents

The Company defines cash and cash equivalents as highly liquid investments, including checking and money market accounts, with original maturities of less than ninety days. This definition does not include investments held for sale in the ordinary course of business.

Securities Commissions and Investment Advisory Fees

Securities transactions and the related revenue and expense are generally recorded on a trade date basis, with the exception of securities commissions received from National Financial Services LLC which are recorded on a settlement date basis unless the difference between trade date basis and settlement date basis is deemed material. Investment advisory fees are earned on a pro rata basis over the term of the contract with the customer.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statement and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates and those differences could be material.

Income Taxes

The amount of current and deferred taxes or refundable is recognized as of the date of the financial statements, utilizing currently enacted tax laws and rates. Deferred tax expenses or benefits are recognized in the financial statements for the changes in the deferred tax liabilities or assets between years. Management assesses the likelihood that tax positions will be sustained upon examination based on the facts, circumstances and information available at the end of each period. The measurement of unrecognized tax benefits is adjusted when new information is available, or when an event occurs that requires a change.

See accompanying accountant's report

NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2018 AND 2017

NOTE 3: RESTRICTED CASH AND INVESTMENTS

At September 30, 2018, there was restricted cash of \$1,214,649 held in an account at Hilltop Securities, Inc., a clearing agent. The account collateralizes securities trading and inventory accounts.

NOTE 4: FAIR VALUE MEASUREMENTS

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a hierarchy of fair value inputs. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure the fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date.

Level 2 – Inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly or indirectly.

Level 3 – Unobservable inputs for the asset or liability.

The following table presents the Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of September 30:

	2018			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

Total Investments, trading	-	-	-	20,170
Totals	<u>\$ 83,425</u>	<u>\$ 20,170</u>	<u>\$ -</u>	<u>\$ 103,595</u>

In the event a customer fails to satisfy its obligations, the Company may be required to purchase or sell financial instruments at prevailing market prices in order to fulfill the customer's obligations.
