What Distinguishes Goldman Sachs' Fixed Income Investing Process?

At Goldman Sachs Asset Management (GSAM), the goal of our fixed income investment process is to provide consistent, strong performance by actively managing our portfolios within a research-intensive, risk-managed framework.

A key element of our fixed income investment philosophy is to evaluate the broadest global opportunity set to capture relative value across sectors and instruments. Our globally integrated investment process involves managing dynamically along the risk/return spectrum, as we continue to develop value-added strategies through:

1 RIGOROUS SECURITY SELECTION

- Assess relative value among securities and sectors
- Leverage the vast resources of Goldman Sachs in selecting securities for each portfolio

2 PRECISE PORTFOLIO CONSTRUCTION

- Team approach to decision making
- Manage risk by avoiding significant sector and interest rate bets
- Careful management of yield curve strategies — while closely managing portfolio duration

RESULT

Fixed Income portfolios that:

- Include domestic and global investment options, tax-free income opportunities, and access to areas of specialization such as high yield
- Capitalize on GSAM's industry renowned credit research capabilities
- Use a risk-managed framework to seek total return, recognizing the importance of investors' capital accumulation goals as well as their need for income

Global Income Fund

Dear Shareholder,

This report provides an overview on the performance of the Goldman Sachs Global Income Fund during the six-month reporting period that ended April 30, 2004.

Performance Review

Over the six-month period that ended April 30, 2004, the Fund's Class A, B, C, Institutional, and Service Shares generated cumulative total returns, without sales charges, of 1.81%, 1.56%, 1.57%, 2.14%, and 1.89%, respectively. These returns compare to the 1.66% cumulative total return of the Fund's benchmark, the J.P. Morgan Global Government Bond Index (hedged), over the same time period.*

The outperformance of the Fund's Class A, Institutional and Service Shares versus its benchmark was primarily due to the portfolio's currency and corporate bond strategies. Relative value trades between UK and European markets also enhanced results. Class B and C Shares benefited from the same strategies, however, did not outperform the benchmark due to higher expenses.

Investment Objective

The Fund seeks a high total return, emphasizing current income, and, to a lesser extent, providing opportunities for capital appreciation.

Portfolio Positioning

Prior to April 2004, U.S. Treasury yields drifted lower, reflecting concerns over the strength of the economic recovery given the absence of any significant job growth. However, this quickly changed in April following the release of March 2004 non-farm payroll figures that indicated the creation of 308,000 jobs versus an expectation of 120,000. In addition, there were significant upward revisions to January's and February's new job estimates. Adding further weight to the Treasury sell-off was Federal Reserve Board Chairman Alan Greenspan's testimony to the Senate in late April highlighting diminished risks of deflation. All told, 10-year Treasury yields reached eight-month highs. In other regions, European bonds outperformed other major markets over the last reporting period due to sluggish growth and Japanese bonds underperformed as a result of higher-than-expected economic data.

The Fund's duration strategy had a slightly positive impact on performance over the period. Gains were made through a short Japan duration position held over the entire period, in addition to a short U.S. duration position held throughout most of April. Offsetting these trades were intermittent short U.S. duration positions initiated in February and March 2004 which were negatively affected by the fall in yields over that period. A 5-10 year U.S. curve flattening trade held for the entire period was a positive contributor to performance given the flattening of the U.S. curve from historically steep levels.

* Unlike the Fund's total return, the Index's performance does not reflect any deduction for fees or expenses.

In terms of relative country positions, short UK/long Europe trades in securities with 10-year and 30-year maturities added substantially to performance, especially during the first quarter 2004. This was due to better-than-expected economic activity and rate hikes in the UK versus underperformance in the Euroland economies, which resulted in a widening of spreads between these regions.

An overweight allocation to corporate bonds contributed positively to performance, with a large portion of the gains made in the fourth quarter 2003. For much of the reporting period, spreads continued to move tighter on the back of improving corporate and economic fundamentals with higher risk bonds outperforming. The Fund's bias towards issues lower down the quality spectrum resulted in additional gains. Following the corporate credit market's stellar performance in 2003, we tactically trimmed the portfolio's exposure over the first quarter. This strategy immunized the portfolio in April from a widening in credit spreads brought about by heightened risk aversion.

The Fund's currency strategy was the largest contributor to performance over the period. The portfolio gained significantly in the first half of the period as a result of a short U.S. dollar, long Japanese yen and long Great Britain pound positions. We also held a long Australian dollar position which benefited from gains in commodities and market flows towards higher yielding currencies. Despite trimming our short U.S. dollar position later in the period, our currency strategy detracted from performance in April given the falls in yen and Australian dollar versus the U.S. dollar.

We thank you for your investment and look forward to your continued confidence.

PERFORMANCE REVIEW

November 1, 2003– April 30, 2004	Fund Total Return (based on NAV) ¹	30-Day Standardized Yield ²	JPM Global Govt. Bond Index ³
Class A	1.81%	1.94%	1.66%
Class B	1.56	1.53	1.66
Class C	1.57	1.53	1.66
Institutional	2.14	2.69	1.66
Service	1.89	2.20	1.66

¹ The net asset value (NAV) represents the net assets of the class of the Fund (ex-dividend) divided by the total number of shares of the class outstanding. The Fund's performance assumes the reinvestment of dividends and other distributions. The Fund's performance does not reflect the deduction of any applicable sales charges.

² The 30-Day Standardized Yield of the Fund is calculated by dividing the net investment income per share (as defined by securities industry regulations) earned by the Fund over a 30-day period (ending on the stated month-end date) by the maximum public offering price per share of the Fund on the last day of the period. This number is then annualized. This yield does not necessarily reflect income actually earned and distributed by the Fund and, therefore, may not be correlated with the dividends or other distributions paid to shareholders.

³ The J.P.Morgan Global Government Bond Index (hedged), an unmanaged index, does not reflect any deduction for fees, expenses or taxes.

STANDARDIZED TOTAL RETURNS⁴

For the period ended 3/31/04	Class A	Class B	Class C	Institutional	Service
One Year	0.23%	-0.68%	3.44%	5.75%	5.21%
Five Years	3.67	3.71	4.13	5.33	4.79
Ten Years	6.33	N/A	N/A	N/A	6.92 ⁵
Since Inception	6.46 (8/2/91)	5.93 (5/1/96)	5.25 (8/15/97)	7.59 (8/1/95)	6.93 ⁵ (8/2/91)

⁴ The Standardized Total Returns are average annual total returns as of the most recent calendar quarter-end. They assume reinvestment of all distributions at net asset value. These returns reflect a maximum initial sales charge of 4.5% for Class A Shares, the assumed contingent deferred sales charge for Class B Shares (5% maximum declining to 0% after six years), and the assumed contingent deferred sales charge for Class C Shares (1% if redeemed within 12 months of purchase). Because Institutional and Service Shares do not involve a sales charge, such a charge is not applied to their Standardized Total Returns.

⁵ Performance data for Service Shares prior to 3/12/97 (commencement of operations) is that of Class A Shares (excluding the impact of front-end sales charges applicable to Class A Shares since Service Shares are not subject to any sales charges). Performance of Class A Shares in the Fund reflects the expenses applicable to the Fund's Class A Shares. The fees applicable to Service Shares are different from those applicable to Class A Shares which impact performance ratings and rankings for a class of shares.

Total return figures in the above charts represent past performance and do not indicate future results, which will vary. The investment return and principal value of an investment will fluctuate and, therefore, an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the total return figures in the above charts. Please visit www.gs.com to obtain the most recent month-end returns. Performance reflects expense limitations in effect. In their absence, performance would be reduced. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the redemption of Fund shares.

TOP CURRENCY POSITIONS AS OF 4/30/04⁶

Currency Exposure (%)

Canadian Dollar	2.1		

⁶ Figures represent a percentage of net assets and, due to rounding, may not sum to 100%. The Fund is actively managed and, as such, its composition may differ over time.

High Yield Fund

Dear Shareholder:

This report provides an overview on the performance of the Goldman Sachs High Yield Fund during the six-month reporting period that ended April 30, 2004.

Performance Review

Over the six-month period that ended April 30, 2004, the Fund's Class A, B, C, Institutional, and Service Shares generated cumulative total returns, without sales charges, of 6.05%, 5.65%, 5.65%, 6.25%, and 5.99%, respectively. These returns compare to the 5.52% cumulative total return of the Fund's benchmark, the Lehman Brothers U.S. Corporate High Yield Bond Index, over the same time period.*

The Fund outperformed its benchmark during the reporting period. This was largely the result of an underweight to the Treasury-sensitive BB rated segment of the market and a continued focus on B rated securities. The Fund also benefited from an overweight position in Cyclical, supported by the economic recovery, and an underweight to Telecommunications and Utilities. The Fund was negatively impacted in December 2003 by its exposure to Parmalat. As news unfolded surrounding the company's prolonged fraudulent accounting practices it quickly filed for bankruptcy protection.

Investment Objective

The Fund seeks a high level of current income and may also consider the potential for capital appreciation.

High Yield Market

In the first half of this reporting period, the high yield market continued its rally of 2003 supported by positive technical factors and strength in the riskier segments of the market. This trend reversed course sharply in February 2004 and Treasury volatility has been the main driver in the market over the past three months. The refinancing cycle has been driving supply in the new issue market. New companies have been well received in contrast to the large repeat issuers.

Overall, the fundamentals for high yield continue to be strong with positive earnings results and refinancing trends supporting favorable corporate events within the market. Cyclical industries in particular have outperformed as price improvements have led to rising margins. The support for corporate valuations in cyclical is triggering mergers and acquisitions. In contrast, the Wireline Telecommunications sector performed poorly as investors acknowledged the sector's weak long-term fundamental outlook.

* Unlike the Fund's total return, the Index's performance does not reflect any deduction for fees or expenses.

Portfolio Composition

Our portfolio construction strategy continued to be driven by credit fundamentals. The Fund outperformed its benchmark due to an underweight in the interest rate sensitive BB rated segment. We believe that crossover buyers had bid up that segment to what we view as unattractive pricing levels. The Fund continues to be very selective with the new issue calendar and, in particular, with the large repeat issuers such as Calpine. The Fund established a few new positions, primarily in Europe in companies such as Telenet, a Belgian cable operator and Seat, an Italian yellow pages publisher.

Portfolio Highlights

- **Telenet** — Telenet is the leading cable television operator in Belgium. The B rated company has come to the end of its network upgrade and has a low level of leverage relative to its U.S. counterparts. In addition, it generates free cash flow.
- **Ainsworth** — Ainsworth Lumber is a leading Canadian Oriented Strand Board (OSB) producer, which is similar to plywood. The company benefited from the strength of the cyclical recovery which has driven OSB prices to near peak levels. In conjunction with a recent acquisition the company has refinanced its high coupon debt at substantially lower rates. As such, the Fund's holding in Ainsworth was tendered (repaid) at a premium to its face value.
- **Dex Media** — Dex Media is a leading U.S. yellow pages publisher that was acquired in two stages by Qwest. The company has highly visible and stable revenues and, with very low capital needs, generates substantial free cash flow for deleveraging.

We thank you for your investment and look forward to your continued confidence.

Emerging Markets Debt Fund

Dear Shareholder:

This report provides an overview on the performance of the Goldman Sachs Emerging Markets Debt Fund during the six-month period that ended April 30, 2004.

Performance Review

Over the six-month period that ended April 30, 2004, the Fund's Class A and Institutional Shares generated cumulative total returns, without sales charges, of 3.08% and 3.29%, respectively. These returns compare to the 2.39% cumulative total return of the Fund's benchmark, the JP Morgan EMBI Global Diversified Index, over the same time period.*

The Fund outperformed its benchmark over the reporting period primarily due to positive country selection.

Investment Objective

The Fund seeks a high level of total return consisting of income and capital appreciation.

Portfolio Composition

In recent months, we have reduced the volatility of the Fund relative to the market by reducing the size of overweight exposures in countries that we view positively. We also decreased absolute exposures in countries whose fundamentals we do not view favorably. At the end of the reporting period, Russia and Brazil represented the largest position in the Fund, both on an absolute and relative basis. South Korea and Mexico were the most significant underweight exposures in the Fund versus the benchmark.

Portfolio Highlights

We seek to outperform the benchmark through country selection and by identifying individual securities that we feel offer relative value. The Fund's exposure to Argentina, Russia, Ecuador and Venezuela enhanced portfolio returns over the period. Conversely, exposure to Brazil and the Dominican Republic detracted from results.

We thank you for your investment and look forward to your continued confidence.

DKK = Danish Krone

DEM = German Mark

EUR = Euro Currency

GBP = Great Britain Pound

JPY = Japanese Yen

SEK = Swedish Krona

THB = Thailand Baht

USD = United States Dollar

† Securities are exempt from registration under Rule 144A of the Securities Act of 1933. Under procedures approved by the Board of Trustees, such securities have been determined to be liquid by the Investment Adviser and may be resold, normally to qualified institutional buyers, in transactions exempt from registration. Total market value of Rule 144A securities amounted to \$4,966,042, which represents approximately 1.5% of net assets as of April 30, 2004.

Variable rate security. Interest rate disclosed is that which is in effect at April 30, 2004.

@ Represents security with notional or nominal principal amount. The actual effective yield of this security is different than the stated interest rate due to the amortization of related premiums or accretion of discounts.

± Perpetual Maturity. Maturity date presented represents the next call date.

• Security issued with a zero coupon. Income is recognized through the accretion of discount.

The percentage shown for each investment category reflects the value of investments in that category as a percentage of net assets.

Investment Abbreviations:

REIT—Real Estate Investment Trust

† Securities are exempt from registration under Rule 144A of the Securities Act of 1933. Under procedures approved by the Board of Trustees, such securities have been determined to be liquid by the Investment Adviser and may be resold, normally to qualified institutional buyers in transactions exempt from registration. Total market value of Rule 144A securities amounted to \$312,789,779, which represents approximately 13.4% of net assets as of April 30, 2004.

@ Security is issued with a zero coupon. Income is recognized through the accretion of discount.

§ These securities are issued with a zero coupon or dividend rate which increases to the stated rate at a set date in the future.

• The principal amount of each security is stated in the currency in which the bond is denominated. See below.

Currency Description	As a % of net assets
CHF = Swiss Franc	0.0%
DEM = German Mark	0.4
EUR = Euro Currency	16.3
GBP = Great Britain Pound	3.3
USD = United States Dollar	76.3

Variable rate security. Interest rate disclosed is that which is in effect at April 30, 2004.

‡ Pay-in-kind securities.

* Non-income producing securities.

^ Joint repurchase agreement was entered into on April 30, 2004.

△ Securities with “Put” features with resetting interest rates. Maturity dates disclosed are the next interest or dividend reset dates.

Ø Security in default.

± Security priced as a unit.

The percent shown for each investment category reflects the value of investments in that category as a percentage of net assets.

Security ratings disclosed are issued by Standard & Poor's/Moody's Investors Service and are unaudited. A description of the ratings is available in the Fund's Statement of Additional Information.

Notes to Financial Statements

April 30, 2004 (Unaudited)

1. ORGANIZATION

Goldman Sachs Trust (the “Trust”) is a Delaware statutory trust registered under the Investment Company Act of 1940, (as amended), (the “Act”) as an open-end management investment company. The Trust includes the Goldman Sachs Global Income Fund (Global Income), Goldman Sachs High Yield Fund (High Yield) and Goldman Sachs Emerging Markets Debt Fund (Emerging Markets Debt), (collectively, the “Funds” or individually a “Fund”). High Yield and Emerging Markets Debt are diversified portfolios of the Trust whereas Global Income is a non-diversified portfolio. Global Income and High Yield offer five classes of shares — Class A, Class B, Class C, Institutional and Service. Emerging Markets Debt offers two classes of shares — Class A and Institutional.

The High Yield Fund invests primarily in non-investment grade fixed-income securities which are considered predominantly speculative by traditional investment standards. Non-investment grade fixed-income securities and unrated securities of comparable credit quality (commonly known as “junk bonds”) are subject to the increased risk of an issuer’s inability to meet principal and interest obligations. These securities, also referred to as high yield securities, may be subject to greater price volatility due to such factors as specific corporate developments, interest rate sensitivity, generally negative perceptions of the junk bond markets and less secondary market liquidity.

The Emerging Markets Debt and Global Income Funds invest in securities of foreign companies and foreign governments which involves special risks which include the possibility of future political and economic developments which could adversely affect the value of such securities. Moreover, securities of many foreign companies and foreign governments and their markets may be less liquid and their prices more volatile than those of comparable U.S. companies and the United States government. In addition, the Emerging Markets Debt Fund invests in the Sovereign Debt Obligations of countries that are considered emerging markets countries at the time of purchase. Therefore, the Fund is susceptible to governmental factors and economic developments adversely affecting the economies of these emerging markets countries. In addition, these debt obligations may be less liquid and subject to greater volatility than debt obligations of more developed countries.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Funds. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that may affect the reported amounts. Actual results could differ from those estimates.

A. Investment Valuation — Portfolio securities for which accurate market quotations are readily available are valued on the basis of quotations furnished by a pricing service or provided by dealers in such securities. Short-term debt obligations maturing in sixty days or less are valued at amortized cost, which approximates market value. Portfolio securities for which accurate market quotations are not readily available or are deemed inaccurate by the Funds’ respective investment adviser are valued based on yield equivalents, pricing matrices or other sources, under valuation procedures established by the Trust’s Board of Trustees. Investments in securities traded on a U.S. or foreign securities exchange (or the Nasdaq system) are valued daily at their last price or official closing price on the principal exchange or system on which they are traded. If no sale occurs, securities are valued at the last bid price.

B. Security Transactions and Investment Income — Security transactions are recorded as of the trade date. Realized gains and losses on sales of portfolio securities are calculated using the identified cost basis. Interest income is recorded on the basis of interest accrued (net of foreign withholding taxes which are reduced by any amounts reclaimable by the Funds, where applicable), premium amortized and discount accreted. Net investment income (other than class specific expenses) and unrealized and realized gains or losses are allocated daily to each class of shares of the Funds based upon the relative proportion of net assets of each class.

Certain mortgage security paydown gains and losses are taxable as ordinary income (loss). Such paydown gains and losses increase or decrease taxable ordinary income available for distribution and are classified as interest income in the accompanying Statements of Operations. Original issue discounts (OID) on debt securities are amortized to interest income over the life of the security with a corresponding increase in the cost basis of that security. Market discounts and market

Notes to Financial Statements (continued)

April 30, 2004 (Unaudited)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

premiums on debt securities are amortized to interest income over the expected life of the security with a corresponding adjustment in the cost basis of that security.

C. Federal Taxes — It is each Fund's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute each year substantially all of its investment company taxable income and capital gains to its shareholders. Accordingly, no federal tax provisions are required. Dividends and distributions to shareholders are recorded on ex-dividend date. Income distributions for the High Yield and Emerging Markets Debt Funds are declared daily and paid monthly. Income distributions for the Global Income Fund are declared and paid monthly. Capital gain distributions, if any, are declared and paid annually.

The characterization of distributions to shareholders for financial reporting purposes is determined in accordance with Federal income tax rules. Therefore, the source of a Fund's distributions may be shown in the accompanying financial statements as either from net investment income or net realized gain, or from paid-in capital, depending on the type of book/tax differences that may exist.

D. Expenses — Expenses incurred by the Trust that do not specifically relate to an individual Fund of the Trust are allocated to the Funds on a straight-line or pro rata basis depending upon the nature of the expense.

Class A, Class B and Class C shareholders of the Global Income and High Yield Funds and Class A shareholders of the Emerging Markets Debt Fund bear all expenses and fees relating to their respective Distribution and Service Plans. Service Shares of the Global Income and High Yield Funds bear all expenses and fees relating to their Service and Shareholder Administration Plans. Each class of shares of the Funds separately bears its respective class-specific transfer agency fees.

E. Foreign Currency Translations — The books and records of the Funds are maintained in U.S. dollars. Amounts denominated in foreign currencies are translated into U.S. dollars on the following basis: (i) investment valuations, foreign currency and other assets and liabilities initially expressed in foreign currencies are converted each business day into U.S. dollars based upon current exchange rates; and (ii) purchases and sales of foreign investments, income and expenses are converted into U.S. dollars based upon currency exchange rates prevailing on the respective dates of such transactions.

Net realized and unrealized gain (loss) on foreign currency transactions will represent: (i) foreign exchange gains and losses from the sale and holdings of foreign currencies and the sale of foreign denominated debt obligations; (ii) currency gains and losses between trade date and settlement date on investment securities transactions and forward exchange contracts; and (iii) gains and losses from the difference between amounts of dividends, interest and foreign withholding taxes recorded and the amounts actually received. The effect of changes in foreign currency exchange rates on securities and derivative instruments are segregated in the Statement of Operations from the effects of changes in market prices of those securities and derivative instruments and are included as increases and decreases in unrealized appreciation/depreciation on foreign currency related transactions. Net unrealized foreign exchange gains and losses arising from changes in the value of other assets and liabilities as a result of changes in foreign exchange rates are included as increases and decreases in unrealized appreciation/depreciation on foreign currency related transactions.

F. Mortgage Dollar Rolls — The Global Income Fund may enter into mortgage "dollar rolls" in which the Fund sells securities in the current month for delivery and simultaneously contracts with the same counterparty to repurchase similar (same type, coupon and maturity) but not identical securities on a specified future date. For financial reporting and tax reporting purposes, the Fund treats mortgage dollar rolls as two separate transactions; one involving the purchase of a security and a separate transaction involving a sale.

G. Segregation Transactions — As set forth in the prospectus, the Funds may enter into derivative transactions to seek to increase total return. Forward foreign currency exchange contracts, futures contracts, written options, swap contracts, mortgage dollar rolls, when-issued securities and forward commitments represent examples of such transactions. As a result of entering into those transactions, the Funds are required to segregate liquid assets on the accounting records equal to or greater than the market value of the corresponding transactions.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

I. Repurchase Agreements — Repurchase agreements involve the purchase of securities subject to the seller's agreement to repurchase them at a mutually agreed upon date and price. During the term of a repurchase agreement, the value of the underlying securities held as collateral on behalf of the Funds, including accrued interest, is required to equal or exceed the value of the repurchase agreement, including accrued interest. The underlying securities for all repurchase agreements are held in safekeeping at the Funds' custodian or designated subcustodians under triparty repurchase agreements.

3. AGREEMENTS

Goldman Sachs Asset Management, L.P. ("GSAM"), an affiliate of Goldman, Sachs & Co. ("Goldman Sachs") serves as investment adviser pursuant to an Investment Management Agreement with the Trust on behalf of the High Yield and Emerging Markets Debt Funds, and Goldman Sachs Asset Management International ("GSAMI"), an affiliate of GSAM and Goldman Sachs, serves as investment adviser pursuant to an Investment Management Agreement with the Trust on behalf of the Global Income Fund (the Investment Management Agreements with GSAM and GSAMI are collectively referred to herein as the "Agreements"). Under the Agreements, the respective adviser manages the Funds, subject to the general supervision of the Trust's Board of Trustees.

As compensation for the services rendered pursuant to the Agreements, the assumption of the expenses related thereto and administering the Funds' business affairs, including providing facilities, the advisers are entitled to a fee, ("Management fee") computed daily and payable monthly, equal to an annual percentage rate of each Fund's average daily net assets.

For the six months ended April 30, 2004, GSAMI has voluntarily agreed to waive a portion of its Management fee for the Global Income Fund equal to an annual percentage rate of the Global Income Fund's average daily net assets, as set forth below. The adviser may discontinue or modify this waiver in the future at its discretion.

Additionally, each adviser has voluntarily agreed to limit certain "Other Expenses" of the Funds (excluding Management fees, Distribution and Service fees, Transfer Agent fees and expenses, taxes, Service Share fees, interest and brokerage fees and litigation, indemnification, shareholder meeting and other extraordinary expenses) to the extent that such expenses exceed, on an annual basis, a percentage rate of the average daily net assets of each Fund. Such expense reimbursements, if any, are computed daily and paid monthly. In addition, the Funds are not obligated to reimburse their respective adviser for prior fiscal year expense reimbursements, if any.

For the six months ended April 30, 2004, the Funds' Management Fees, Management Fee waivers and Other Expense limitations as an annual percentage rate of the respective Funds' average daily net assets is as follows:

Fund	Management Fee		Other Expense Limit
	Contractual Annual Rate	Waiver Annual Rate	
Global Income	0.90%	0.25%	0.004%
High Yield	0.70	—	0.024
Emerging Markets Debt	0.80	—	0.044

The Trust, on behalf of each Fund, has adopted Distribution and Service Plans (the "Plans"). Under the Plans, Goldman Sachs and/or Authorized Dealers are entitled to a monthly fee for distribution services equal, on an annual basis, to 0.25% of the average daily net assets attributable to Emerging Markets Debt Class A Shares and 0.25%, 0.75% and 0.75% of the average daily net assets attributable to Class A, Class B and Class C Shares, respectively of the High Yield and Global Income Funds. Additionally, Goldman Sachs and/or Authorized Dealers are entitled to receive, under the Plans, a separate fee for personal and account maintenance services equal to, on an annual basis, 0.25% of the Funds average daily net assets attributable to Class A (Global Income and Emerging Markets Debt only), Class B and Class C Shares (Global Income and High Yield only). For the six months ended April 30, 2004, Goldman Sachs has voluntarily agreed to waive a portion of the Distribution and Service fees equal to, on an annual basis, 0.25% of the average daily net assets attributed to Class A Shares of Emerging Markets Debt. Effective June 1, 2004, Goldman Sachs and/or Authorized Dealers are no longer entitled to

Notes to Financial Statements (continued)

April 30, 2004 (Unaudited)

3. AGREEMENTS (continued)

receive, under the Plans, a separate fee for personal and account maintenance services equal to, on an annual basis, 0.25% of the average daily net assets attributable to Class A Shares of Global Income and Emerging Markets Debt.

Goldman Sachs serves as Distributor of the shares of the Funds pursuant to a Distribution Agreement. Goldman Sachs may receive a portion of the Class A sales load and Class B and Class C contingent deferred sales charges. During the six months ended April 30, 2004, Goldman Sachs advised the Funds that it retained approximately the following amounts:

Fund	Sales Load Class A	Contingent Deferred Sales Charge	
		Class B	Class C
Global Income	\$ 8,800	\$100	\$ —
High Yield	204,000	—	400
Emerging Markets Debt	—	N/A	N/A

Goldman Sachs also serves as transfer agent of the Funds for a fee. Fees charged for such transfer agency services are calculated daily and payable monthly at an annual rate as follows: 0.19% of the average daily net assets for Class A, Class B, and Class C Shares and 0.04% of the average daily net assets for Institutional and Services Shares.

The Trust, on behalf of Global Income and High Yield Funds, has adopted a Service Plan and Shareholder Administration Plan for Service Shares. These Plans allow for Service Shares to compensate service organizations for providing varying levels of personal and account administration and shareholder administration services to their customers who are beneficial owners of such shares. The Service Plan and Shareholder Administration Plan provide for compensation to the service organizations in an amount up to, on an annual basis, 0.25% and 0.25%, respectively, of the average daily net asset value of the Service Shares.

For the six months ended April 30, 2004, the advisers and distributor have voluntarily agreed to waive certain fees and reimburse other expenses. In addition, the Funds have entered into certain offset arrangements with the custodian resulting in a reduction of the Funds' expenses. For the six months ended April 30, 2004, expense reductions were as follows (in thousands):

Fund	Waivers				Total Expense Reductions
	Management Fees	Class A Distribution and Service Fees	Other Expense Reimbursement	Custody Credit	
Global Income	\$434	N/A	\$295	\$1	\$730
High Yield	—	N/A	222	6	228
Emerging Markets Debt	—	\$ 4	122	1	127

As of April 30, 2004, the amounts owed to affiliates were as follows (in thousands):

Fund	Management Fees	Distribution and Service Fees	Transfer Agent Fees	Total
Global Income	\$ 178	\$116	\$ 40	\$ 334
High Yield	1,389	385	254	2,028
Emerging Markets Debt	12	1	1	14

4. PORTFOLIO SECURITIES TRANSACTIONS

The cost of purchases and proceeds of sales and maturities of securities (excluding short-term investments and futures transactions) for the six months ended April 30, 2004, were as follows:

Fund	Purchases of U.S. Government and agency obligations	Purchases (excluding U.S. Government and agency obligations)	Sales and maturities of U.S. Government and agency obligations	Sales and maturities (excluding U.S. Government and agency obligations)
Global Income	\$20,442,595	\$139,212,000	\$18,747,995	\$ 176,633,522
High Yield	20,556,550	657,366,370	14,177,428	1,471,164,069
Emerging Markets Debt	—	28,678,827	—	23,949,983

Option Accounting Principles — When Global Income writes call or put options, an amount equal to the premium received is recorded as an asset and as an equivalent liability. The amount of the liability is subsequently marked-to-market to reflect the current market value of the option written. When a written option expires on its stipulated expiration date or the Fund enters into a closing purchase transaction, the Fund realizes a gain or loss without regard to any unrealized gain or loss on the underlying security, and the liability related to such option is extinguished. When a written call option is exercised, the Fund realizes a gain or loss from the sale of the underlying security, and the proceeds of the sale are increased by the premium originally received. When a written put option is exercised, the amount of the premium originally received will reduce the cost of the security which the Fund purchases upon exercise. There is a risk of loss from a change in value of such options which may exceed the related premiums received.

Upon the purchase of a call option or a protective put option by the Fund, the premium paid is recorded as an investment and subsequently marked-to-market to reflect the current market value of the option. If an option which the Fund has purchased expires on the stipulated expiration date, the Fund will realize a loss in the amount of the cost of the option. If the Fund enters into a closing sale transaction, the Fund will realize a gain or loss, depending on whether the sale proceeds for the closing sale transaction are greater or less than the cost of the option. If the Fund exercises a purchased put option, the Fund will realize a gain or loss from the sale of the underlying security, and the proceeds from such sale will be decreased by the premium originally paid. If the Fund exercises a purchased call option, the cost of the security which the Fund purchases upon exercise will be increased by the premium originally paid.

For the six months ended April 30, 2004, Global Income had the following written options activity:

	Number of Contracts	Value
Contracts Outstanding October 31, 2003	—	\$ —
Contracts written	2,204	11,719
Contracts expired	(2,204)	(11,719)
Contracts outstanding April 30, 2004	—	\$ —

Futures Contracts — The Funds may enter into futures transactions to hedge against changes in interest rates, securities prices, currency exchange rates or to seek to increase total return. Futures contracts are valued at the last settlement price at the end of each day on the board of trade or exchange upon which they are traded. Upon entering into a futures contract, the Funds are required to deposit with a broker an amount of cash or securities equal to the minimum “initial margin” requirement of the associated futures exchange. Subsequent payments for futures contracts (“variation margin”) are paid or received by the Funds daily, dependent on the daily fluctuations in the value of the contracts, and are recorded for financial reporting purposes as unrealized gains or losses. When contracts are closed, the Funds realize a gain or loss which is reported in the Statements of Operations.

Notes to Financial Statements (continued)

April 30, 2004 (Unaudited)

4. PORTFOLIO SECURITIES TRANSACTIONS (continued)

The use of futures contracts involve, to varying degrees, elements of market and counterparty risk which may exceed the amounts recognized in the Statements of Assets and Liabilities. Changes in the value of the futures contract may not directly correlate with changes in the value of the underlying securities. This risk may decrease the effectiveness of the Funds' strategies and potentially result in a loss.

At April 30, 2004, the following futures contracts were open as follows:

Fund	Type	Number of Contracts Long (Short)	Settlement Month	Market Value	Unrealized Gain (Loss)
Global Income Fund	U.S. Treasury Long Bonds CBT	7	June 2004	\$ 749,656	\$ (32,758)
	10 Year U.S. Treasury Notes	316	June 2004	34,918,000	(1,076,578)
	5 Year U.S. Treasury Notes CBT	(868)	June 2004	(95,425,750)	1,582,813
	10 Year Japanese Bonds	(23)	June 2004	(28,623,658)	177,864
	10 Year Australian Bonds	66	June 2004	33,784,235	(35,163)

	5 Year Euro-Bobl	(12)	June 2004	(1,602,025)	18,827
				\$(72,640,469)	\$ 865,361

Forward Foreign Currency Exchange Contracts — The Funds may enter into forward foreign currency exchange contracts for the purchase or sale of a specific foreign currency at a fixed price on a future date as a hedge or cross-hedge against either specific transactions or portfolio positions. The Funds may also purchase and sell forward contracts to seek to increase total return. All commitments are "marked-to-market" daily at the applicable translation rates and any resulting unrealized gains or losses are recorded in the Funds' financial statements. The Funds record realized gains or losses at the time a forward contract is offset by entry into a closing transaction or extinguished by delivery of the currency. Risks may arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar.

At April 30, 2004, Global Income had outstanding forward foreign currency exchange contracts, both to purchase and sell foreign currencies as follows:

Open Forward Foreign Currency Purchase Contracts	Value on Settlement Date	Current Value	Unrealized

TOTAL OPEN FORWARD FOREIGN CURRENCY SALE CONTRACTS	\$750,708,894	\$717,729,634	\$33,044,283	\$ 65,023

At April 30, 2004, Emerging Markets Debt had outstanding forward foreign currency exchange contracts to purchase foreign currencies as follows:

Open Forward Foreign Currency Purchase Contracts	Value on Settlement Date	Current Value	Unrealized	
			Gain	Loss
Korean Won				
expiring 8/18/2004	\$ 729,000	\$ 716,683	\$ —	\$ 12,317

The contractual amounts of forward foreign currency exchange contracts do not necessarily represent the amounts potentially subject to risk. The measurement of the risks associated with these instruments is meaningful only when all related and offsetting transactions are considered. At April 30, 2004, the Funds had sufficient cash and/or securities to cover any commitments under these contracts.

5. LINE OF CREDIT FACILITY

The Funds participate in a \$350,000,000 committed, unsecured revolving line of credit facility. Under the most restrictive arrangement, each Fund must own securities having a market value in excess of 400% of the total bank borrowings. This facility is to be used solely for temporary or emergency purposes. The interest rate on borrowings is based on the federal funds rate. The committed facility also requires a fee to be paid by the Funds based on the amount of the commitment that has not been utilized. During the six months ended April 30, 2004, the Funds did not have any borrowings under this facility.

6. JOINT REPURCHASE AGREEMENT ACCOUNT

Pursuant to the exemptive relief granted by the SEC, and terms and conditions contained therein, the Funds, together with other registered investment companies having management agreements with GSAMI and GSAM or their affiliates, transfer uninvested cash into joint accounts, the daily aggregate balance of which is invested in one or more repurchase agreements.

Notes to Financial Statements (continued)

April 30, 2004 (Unaudited)

6. JOINT REPURCHASE AGREEMENT ACCOUNT (continued)

At April 30, 2004, High Yield and Emerging Markets Debt had undivided interests in the following Joint Repurchase Agreement Account II which equaled \$23,000,000 and \$800,000, respectively, in principal amount. At April 30, 2004, the following repurchase agreements held in this joint account were fully collateralized by Federal Agency obligations.

Repurchase Agreements	Principal Amount	Interest Rate	Maturity Date	Maturity Value
ABN AMRO, Inc.	\$ 500,000,000	1.04%	05/03/2004	\$ 500,043,333
Banc of America Securities LLC	1,200,000,000	1.04	05/03/2004	1,200,104,000

Morgan Stanley & Co.	600,000,000	1.04	05/03/2004	600,052,000
UBS LLC	875,000,000	1.05	05/03/2004	875,076,563
Westdeutsche Landesbank AG	600,000,000	1.04	05/03/2004	600,052,000
Total Joint Repurchase Agreement Account II	\$7,105,500,000			\$7,106,119,315

7. ADDITIONAL TAX INFORMATION

As of the most recent fiscal year ended October 31, 2003, the Funds' capital loss carryforwards and certain timing differences on a tax basis were as follows:

	Global Income	High Yield	Emerging Markets Debt
Timing differences (dividends payable, straddles, income distribution payable and taxable interest on defaulted securities)	\$ (1,777,571)	\$ (11,313,272)	\$ —
Capital loss carryforward:			
Expiring 2007	—	(2,694,303)	—
Expiring 2008	—	—	—
Expiring 2009	—	(34,173,218)	—
Expiring 2010	(30,750,749)	(53,319,790)	—
Expiring 2011	(28,737,452)	(93,047,695)	—
Total capital loss carryforward	\$ (59,488,201)	\$(183,235,006)	\$ —

7. ADDITIONAL TAX INFORMATION (continued)

At April 30, 2004, the Funds' aggregate security unrealized gains and losses based on cost for U.S. federal income tax purposes was as follows:

	Global Income	High Yield	Emerging Markets Debt
Tax Cost	\$317,132,489	\$2,184,768,473	\$17,267,264
Gross unrealized gain	12,823,443	218,538,524	27,633
Gross unrealized loss	(5,059,920)	(122,200,735)	(707,044)
Net unrealized security gain (loss)	\$ 7,763,523	\$ 96,337,789	\$ (679,411)

The difference between book-basis and tax-basis unrealized gains (losses) is attributable primarily to wash sales and net mark-to-market gains on futures and foreign currency contracts recognized for tax purposes.

8. OTHER MATTERS

As of April 30, 2004, the Goldman Sachs Growth and Income Strategy Portfolio was the beneficial owner of approximately 5.0% of the Global Income Fund.

As of April 30, 2004, the Goldman Sachs Growth and Income Strategy Portfolio and the Goldman Sachs Growth Strategy Portfolio were beneficial owners of approximately 39.2% and 29.0% of the Emerging Markets Debt Fund, respectively.

Legal Proceedings — Purported class and derivative action lawsuits were filed in April and May in the United States District Court for the Southern District of New York against GSAM and certain related parties, including certain Goldman Sachs Funds and the Trustees and Officers of the Trust. The actions allege violations of the Act, the Investment Advisers Act of 1940 and common law breach of fiduciary duty. The complaints allege, among other things, that between April 2, 1999 and January 9, 2004 (the "Class Period"), GSAM charged the Goldman Sachs Funds improper Rule 12b-1 fees; made improper brokerage commission and other payments to brokers that sold shares of the Goldman Sachs Funds; and made untrue statements of material fact in registration statements and reports filed pursuant to the Act. Based on currently available information, GSAM believes that the likelihood that the purported class action lawsuits will have a material adverse financial impact on the Funds is remote, and the pending actions are not likely to materially affect its ability to provide investment management services to its clients, including the Goldman Sachs Funds.

Notes to Financial Statements (continued)

(a) Assumes investment at the net asset value at the beginning of the period, reinvestment of all dividends and distributions, a complete redemption of the investment at the net asset value at the end of the period and no sales or redemption charges. Total return would be reduced if a sales or redemption charge were taken into account. Total returns for periods less than one full year are not annualized. Returns do not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of Fund shares.

(b) Annualized.

(c) Calculated based on the average shares outstanding methodology.

(d) As required, effective November 1, 2001, the Fund has adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began amortizing all premiums and discounts on debt securities. The effect of this change for the year ended October 31, 2002 was to decrease net investment income per share by \$0.06, increase net realized and unrealized gains and losses per share by \$0.06, and decrease the ratio of net investment income to average net assets with and without expense reductions by 0.43%. Per share ratios and supplemental data for periods prior to November 1, 2001 have not been restated to reflect this change in presentation.

DKK = Danish Krone

DEM = German Mark

EUR = Euro Currency

GBP = Great Britain Pound

JPY = Japanese Yen

SEK = Swedish Krona

THB = Thailand Baht

USD = United States Dollar

† Securities are exempt from registration under Rule 144A of the Securities Act of 1933. Under procedures approved by the Board of Trustees, such securities have been determined to be liquid by the Investment Adviser and may be resold, normally to qualified institutional buyers, in transactions exempt from registration. Total market value of Rule 144A securities amounted to \$4,966,042, which represents approximately 1.5% of net assets as of April 30, 2004.

Variable rate security. Interest rate disclosed is that which is in effect at April 30, 2004.

@ Represents security with notional or nominal principal amount. The actual effective yield of this security is different than the stated interest rate due to the amortization of related premiums or accretion of discounts.

± Perpetual Maturity. Maturity date presented represents the next call date.

• Security issued with a zero coupon. Income is recognized through the accretion of discount.

The percentage shown for each investment category reflects the value of investments in that category as a percentage of net assets.

Investment Abbreviations:

REIT—Real Estate Investment Trust

† Securities are exempt from registration under Rule 144A of the Securities Act of 1933. Under procedures approved by the Board of Trustees, such securities have been determined to be liquid by the Investment Adviser and may be resold, normally to qualified institutional buyers in transactions exempt from registration. Total market value of Rule 144A securities amounted to \$312,789,779, which represents approximately 13.4% of net assets as of April 30, 2004.

@ Security is issued with a zero coupon. Income is recognized through the accretion of discount.

§ These securities are issued with a zero coupon or dividend rate which increases to the stated rate at a set date in the future.

• The principal amount of each security is stated in the currency in which the bond is denominated. See below.

Currency Description	As a % of net assets
CHF = Swiss Franc	0.0%
DEM = German Mark	0.4
EUR = Euro Currency	16.3
GBP = Great Britain Pound	3.3
USD = United States Dollar	76.3

Variable rate security. Interest rate disclosed is that which is in effect at April 30, 2004.

‡ Pay-in-kind securities.

* Non-income producing securities.

^ Joint repurchase agreement was entered into on April 30, 2004.

△ Securities with “Put” features with resetting interest rates. Maturity dates disclosed are the next interest or dividend reset dates.

Ø Security in default.

± Security priced as a unit.

The percent shown for each investment category reflects the value of investments in that category as a percentage of net assets.

Security ratings disclosed are issued by Standard & Poor's/Moody's Investors Service and are unaudited. A description of the ratings is available in the Fund's Statement of Additional Information.

Notes to Financial Statements

April 30, 2004 (Unaudited)

1. ORGANIZATION

Goldman Sachs Trust (the “Trust”) is a Delaware statutory trust registered under the Investment Company Act of 1940, (as amended), (the “Act”) as an open-end management investment company. The Trust includes the Goldman Sachs Global Income Fund (Global Income), Goldman Sachs High Yield Fund (High Yield) and Goldman Sachs Emerging Markets Debt Fund (Emerging Markets Debt), (collectively, the “Funds” or individually a “Fund”). High Yield and Emerging Markets Debt are diversified portfolios of the Trust whereas Global Income is a non-diversified portfolio. Global Income and High Yield offer five classes of shares — Class A, Class B, Class C, Institutional and Service. Emerging Markets Debt offers two classes of shares — Class A and Institutional.

The High Yield Fund invests primarily in non-investment grade fixed-income securities which are considered predominantly speculative by traditional investment standards. Non-investment grade fixed-income securities and unrated securities of comparable credit quality (commonly known as “junk bonds”) are subject to the increased risk of an issuer’s inability to meet principal and interest obligations. These securities, also referred to as high yield securities, may be subject to greater price volatility due to such factors as specific corporate developments, interest rate sensitivity, generally negative perceptions of the junk bond markets and less secondary market liquidity.

The Emerging Markets Debt and Global Income Funds invest in securities of foreign companies and foreign governments which involves special risks which include the possibility of future political and economic developments which could adversely affect the value of such securities. Moreover, securities of many foreign companies and foreign governments and their markets may be less liquid and their prices more volatile than those of comparable U.S. companies and the United States government. In addition, the Emerging Markets Debt Fund invests in the Sovereign Debt Obligations of countries that are considered emerging markets countries at the time of purchase. Therefore, the Fund is susceptible to governmental factors and economic developments adversely affecting the economies of these emerging markets countries. In addition, these debt obligations may be less liquid and subject to greater volatility than debt obligations of more developed countries.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Funds. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that may affect the reported amounts. Actual results could differ from those estimates.

A. Investment Valuation — Portfolio securities for which accurate market quotations are readily available are valued on the basis of quotations furnished by a pricing service or provided by dealers in such securities. Short-term debt obligations maturing in sixty days or less are valued at amortized cost, which approximates market value. Portfolio securities for which accurate market quotations are not readily available or are deemed inaccurate by the Funds’ respective investment adviser are valued based on yield equivalents, pricing matrices or other sources, under valuation procedures established by the Trust’s Board of Trustees. Investments in securities traded on a U.S. or foreign securities exchange (or the Nasdaq system) are valued daily at their last price or official closing price on the principal exchange or system on which they are traded. If no sale occurs, securities are valued at the last bid price.

B. Security Transactions and Investment Income — Security transactions are recorded as of the trade date. Realized gains and losses on sales of portfolio securities are calculated using the identified cost basis. Interest income is recorded on the basis of interest accrued (net of foreign withholding taxes which are reduced by any amounts reclaimable by the Funds, where applicable), premium amortized and discount accreted. Net investment income (other than class specific expenses) and unrealized and realized gains or losses are allocated daily to each class of shares of the Funds based upon the relative proportion of net assets of each class.

Certain mortgage security paydown gains and losses are taxable as ordinary income (loss). Such paydown gains and losses increase or decrease taxable ordinary income available for distribution and are classified as interest income in the accompanying Statements of Operations. Original issue discounts (OID) on debt securities are amortized to interest income over the life of the security with a corresponding increase in the cost basis of that security. Market discounts and market

Notes to Financial Statements (continued)

April 30, 2004 (Unaudited)

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

premiums on debt securities are amortized to interest income over the expected life of the security with a corresponding adjustment in the cost basis of that security.

C. Federal Taxes — It is each Fund's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute each year substantially all of its investment company taxable income and capital gains to its shareholders. Accordingly, no federal tax provisions are required. Dividends and distributions to shareholders are recorded on ex-dividend date. Income distributions for the High Yield and Emerging Markets Debt Funds are declared daily and paid monthly. Income distributions for the Global Income Fund are declared and paid monthly. Capital gain distributions, if any, are declared and paid annually.

The characterization of distributions to shareholders for financial reporting purposes is determined in accordance with Federal income tax rules. Therefore, the source of a Fund's distributions may be shown in the accompanying financial statements as either from net investment income or net realized gain, or from paid-in capital, depending on the type of book/tax differences that may exist.

D. Expenses — Expenses incurred by the Trust that do not specifically relate to an individual Fund of the Trust are allocated to the Funds on a straight-line or pro rata basis depending upon the nature of the expense.

Class A, Class B and Class C shareholders of the Global Income and High Yield Funds and Class A shareholders of the Emerging Markets Debt Fund bear all expenses and fees relating to their respective Distribution and Service Plans. Service Shares of the Global Income and High Yield Funds bear all expenses and fees relating to their Service and Shareholder Administration Plans. Each class of shares of the Funds separately bears its respective class-specific transfer agency fees.

E. Foreign Currency Translations — The books and records of the Funds are maintained in U.S. dollars. Amounts denominated in foreign currencies are translated into U.S. dollars on the following basis: (i) investment valuations, foreign currency and other assets and liabilities initially expressed in foreign currencies are converted each business day into U.S. dollars based upon current exchange rates; and (ii) purchases and sales of foreign investments, income and expenses are converted into U.S. dollars based upon currency exchange rates prevailing on the respective dates of such transactions.

Net realized and unrealized gain (loss) on foreign currency transactions will represent: (i) foreign exchange gains and losses from the sale and holdings of foreign currencies and the sale of foreign denominated debt obligations; (ii) currency gains and losses between trade date and settlement date on investment securities transactions and forward exchange contracts; and (iii) gains and losses from the difference between amounts of dividends, interest and foreign withholding taxes recorded and the amounts actually received. The effect of changes in foreign currency exchange rates on securities and derivative instruments are segregated in the Statement of Operations from the effects of changes in market prices of those securities and derivative instruments and are included as increases and decreases in unrealized appreciation/depreciation on foreign currency related transactions. Net unrealized foreign exchange gains and losses arising from changes in the value of other assets and liabilities as a result of changes in foreign exchange rates are included as increases and decreases in unrealized appreciation/depreciation on foreign currency related transactions.

F. Mortgage Dollar Rolls — The Global Income Fund may enter into mortgage "dollar rolls" in which the Fund sells securities in the current month for delivery and simultaneously contracts with the same counterparty to repurchase similar (same type, coupon and maturity) but not identical securities on a specified future date. For financial reporting and tax reporting purposes, the Fund treats mortgage dollar rolls as two separate transactions; one involving the purchase of a security and a separate transaction involving a sale.

G. Segregation Transactions — As set forth in the prospectus, the Funds may enter into derivative transactions to seek to increase total return. Forward foreign currency exchange contracts, futures contracts, written options, swap contracts, mortgage dollar rolls, when-issued securities and forward commitments represent examples of such transactions. As a result of entering into those transactions, the Funds are required to segregate liquid assets on the accounting records equal to or greater than the market value of the corresponding transactions.

2. SIGNIFICANT ACCOUNTING POLICIES (continued)

1. Repurchase Agreements — Repurchase agreements involve the purchase of securities subject to the seller's agreement to repurchase them at a mutually agreed upon date and price. During the term of a repurchase agreement, the value of the underlying securities held as collateral on behalf of the Funds, including accrued interest, is required to equal or exceed the value of the repurchase agreement, including accrued interest. The underlying securities for all repurchase agreements are held in safekeeping at the Funds' custodian or designated subcustodians under triparty repurchase agreements.

3. AGREEMENTS

Goldman Sachs Asset Management, L.P. ("GSAM"), an affiliate of Goldman, Sachs & Co. ("Goldman Sachs") serves as investment adviser pursuant to an Investment Management Agreement with the Trust on behalf of the High Yield and Emerging Markets Debt Funds, and Goldman Sachs Asset Management International ("GSAMI"), an affiliate of GSAM and Goldman Sachs, serves as investment adviser pursuant to an Investment Management Agreement with the Trust on behalf of the Global Income Fund (the Investment Management Agreements with GSAM and GSAMI are collectively referred to herein as the "Agreements"). Under the Agreements, the respective adviser manages the Funds, subject to the general supervision of the Trust's Board of Trustees.

As compensation for the services rendered pursuant to the Agreements, the assumption of the expenses related thereto and administering the Funds' business affairs, including providing facilities, the advisers are entitled to a fee, ("Management fee") computed daily and payable monthly, equal to an annual percentage rate of each Fund's average daily net assets.

For the six months ended April 30, 2004, GSAMI has voluntarily agreed to waive a portion of its Management fee for the Global Income Fund equal to an annual percentage rate of the Global Income Fund's average daily net assets, as set forth below. The adviser may discontinue or modify this waiver in the future at its discretion.

Additionally, each adviser has voluntarily agreed to limit certain "Other Expenses" of the Funds (excluding Management fees, Distribution and Service fees, Transfer Agent fees and expenses, taxes, Service Share fees, interest and brokerage fees and litigation, indemnification, shareholder meeting and other extraordinary expenses) to the extent that such expenses exceed, on an annual basis, a percentage rate of the average daily net assets of each Fund. Such expense reimbursements, if any, are computed daily and paid monthly. In addition, the Funds are not obligated to reimburse their respective adviser for prior fiscal year expense reimbursements, if any.

For the six months ended April 30, 2004, the Funds' Management Fees, Management Fee waivers and Other Expense limitations as an annual percentage rate of the respective Funds' average daily net assets is as follows:

Fund	Management Fee		Other Expense Limit
	Contractual Annual Rate	Waiver Annual Rate	
Global Income	0.90%	0.25%	0.004%
High Yield	0.70	—	0.024
Emerging Markets Debt	0.80	—	0.044

The Trust, on behalf of each Fund, has adopted Distribution and Service Plans (the "Plans"). Under the Plans, Goldman Sachs and/or Authorized Dealers are entitled to a monthly fee for distribution services equal, on an annual basis, to 0.25% of the average daily net assets attributable to Emerging Markets Debt Class A Shares and 0.25%, 0.75% and 0.75% of the average daily net assets attributable to Class A, Class B and Class C Shares, respectively of the High Yield and Global Income Funds. Additionally, Goldman Sachs and/or Authorized Dealers are entitled to receive, under the Plans, a separate fee for personal and account maintenance services equal to, on an annual basis, 0.25% of the Funds average daily net assets attributable to Class A (Global Income and Emerging Markets Debt only), Class B and Class C Shares (Global Income and High Yield only). For the six months ended April 30, 2004, Goldman Sachs has voluntarily agreed to waive a portion of the Distribution and Service fees equal to, on an annual basis, 0.25% of the average daily net assets attributed to Class A Shares of Emerging Markets Debt. Effective June 1, 2004, Goldman Sachs and/or Authorized Dealers are no longer entitled to

Notes to Financial Statements (continued)

April 30, 2004 (Unaudited)

3. AGREEMENTS (continued)

receive, under the Plans, a separate fee for personal and account maintenance services equal to, on an annual basis, 0.25% of the average daily net assets attributable to Class A Shares of Global Income and Emerging Markets Debt.

Goldman Sachs serves as Distributor of the shares of the Funds pursuant to a Distribution Agreement. Goldman Sachs may receive a portion of the Class A sales load and Class B and Class C contingent deferred sales charges. During the six months ended April 30, 2004, Goldman Sachs advised the Funds that it retained approximately the following amounts:

Fund	Sales Load Class A	Contingent Deferred Sales Charge	
		Class B	Class C
Global Income	\$ 8,800	\$100	\$ —
High Yield	204,000	—	400
Emerging Markets Debt	—	N/A	N/A

Goldman Sachs also serves as transfer agent of the Funds for a fee. Fees charged for such transfer agency services are calculated daily and payable monthly at an annual rate as follows: 0.19% of the average daily net assets for Class A, Class B, and Class C Shares and 0.04% of the average daily net assets for Institutional and Services Shares.

The Trust, on behalf of Global Income and High Yield Funds, has adopted a Service Plan and Shareholder Administration Plan for Service Shares. These Plans allow for Service Shares to compensate service organizations for providing varying levels of personal and account administration and shareholder administration services to their customers who are beneficial owners of such shares. The Service Plan and Shareholder Administration Plan provide for compensation to the service organizations in an amount up to, on an annual basis, 0.25% and 0.25%, respectively, of the average daily net asset value of the Service Shares.

For the six months ended April 30, 2004, the advisers and distributor have voluntarily agreed to waive certain fees and reimburse other expenses. In addition, the Funds have entered into certain offset arrangements with the custodian resulting in a reduction of the Funds' expenses. For the six months ended April 30, 2004, expense reductions were as follows (in thousands):

Fund	Waivers				
	Management Fees	Class A Distribution and Service Fees	Other Expense Reimbursement	Custody Credit	Total Expense Reductions
Global Income	\$434	N/A	\$295	\$1	\$730
High Yield	—	N/A	222	6	228
Emerging Markets Debt	—	\$ 4	122	1	127

As of April 30, 2004, the amounts owed to affiliates were as follows (in thousands):

Fund	Management Fees	Distribution and Service Fees	Transfer Agent Fees	Total
Global Income	\$ 178	\$116	\$ 40	\$ 334
High Yield	1,389	385	254	2,028
Emerging Markets Debt	12	1	1	14

4. PORTFOLIO SECURITIES TRANSACTIONS

The cost of purchases and proceeds of sales and maturities of securities (excluding short-term investments and futures transactions) for the six months ended April 30, 2004, were as follows:

Fund	Purchases of U.S. Government and agency obligations	Purchases (excluding U.S. Government and agency obligations)	Sales and maturities of U.S. Government and agency obligations	Sales and maturities (excluding U.S. Government and agency obligations)
Global Income	\$20,442,595	\$139,212,000	\$18,747,995	\$ 176,633,522
High Yield	20,556,550	657,366,370	14,177,428	1,471,164,069
Emerging Markets Debt	—	28,678,827	—	23,949,983

Option Accounting Principles — When Global Income writes call or put options, an amount equal to the premium received is recorded as an asset and as an equivalent liability. The amount of the liability is subsequently marked-to-market to reflect the current market value of the option written. When a written option expires on its stipulated expiration date or the Fund enters into a closing purchase transaction, the Fund realizes a gain or loss without regard to any unrealized gain or loss on the underlying security, and the liability related to such option is extinguished. When a written call option is exercised, the Fund realizes a gain or loss from the sale of the underlying security, and the proceeds of the sale are increased by the premium originally received. When a written put option is exercised, the amount of the premium originally received will reduce the cost of the security which the Fund purchases upon exercise. There is a risk of loss from a change in value of such options which may exceed the related premiums received.

Upon the purchase of a call option or a protective put option by the Fund, the premium paid is recorded as an investment and subsequently marked-to-market to reflect the current market value of the option. If an option which the Fund has purchased expires on the stipulated expiration date, the Fund will realize a loss in the amount of the cost of the option. If the Fund enters into a closing sale transaction, the Fund will realize a gain or loss, depending on whether the sale proceeds for the closing sale transaction are greater or less than the cost of the option. If the Fund exercises a purchased put option, the Fund will realize a gain or loss from the sale of the underlying security, and the proceeds from such sale will be decreased by the premium originally paid. If the Fund exercises a purchased call option, the cost of the security which the Fund purchases upon exercise will be increased by the premium originally paid.

For the six months ended April 30, 2004, Global Income had the following written options activity:

	Number of Contracts	Value
Contracts Outstanding October 31, 2003	—	\$ —
Contracts written	2,204	11,719
Contracts expired	(2,204)	(11,719)
Contracts outstanding April 30, 2004	—	\$ —

Futures Contracts — The Funds may enter into futures transactions to hedge against changes in interest rates, securities prices, currency exchange rates or to seek to increase total return. Futures contracts are valued at the last settlement price at the end of each day on the board of trade or exchange upon which they are traded. Upon entering into a futures contract, the Funds are required to deposit with a broker an amount of cash or securities equal to the minimum “initial margin” requirement of the associated futures exchange. Subsequent payments for futures contracts (“variation margin”) are paid or received by the Funds daily, dependent on the daily fluctuations in the value of the contracts, and are recorded for financial reporting purposes as unrealized gains or losses. When contracts are closed, the Funds realize a gain or loss which is reported in the Statements of Operations.

Notes to Financial Statements (continued)

April 30, 2004 (Unaudited)

4. PORTFOLIO SECURITIES TRANSACTIONS (continued)

The use of futures contracts involve, to varying degrees, elements of market and counterparty risk which may exceed the amounts recognized in the Statements of Assets and Liabilities. Changes in the value of the futures contract may not directly correlate with changes in the value of the underlying securities. This risk may decrease the effectiveness of the Funds' strategies and potentially result in a loss.

At April 30, 2004, the following futures contracts were open as follows:

Fund	Type	Number of Contracts Long (Short)	Settlement Month	Market Value	Unrealized Gain (Loss)
Global Income Fund	U.S. Treasury Long Bonds CBT	7	June 2004	\$ 749,656	\$ (32,758)
	10 Year U.S. Treasury Notes	316	June 2004	34,918,000	(1,076,578)
	5 Year U.S. Treasury Notes CBT	(868)	June 2004	(95,425,750)	1,582,813
	10 Year Japanese Bonds	(23)	June 2004	(28,623,658)	177,864
	10 Year Australian Bonds	66	June 2004	33,784,235	(35,163)

	3 Month Euro Euribor	229	June 2004	67,149,624	(105,812)
	3 Month Euro Euribor	(229)	June 2005	(66,676,522)	166,503
	10 Year Euro-Bund	22	June 2004	3,006,079	(66,925)
	5 Year Euro-Bobl	(12)	June 2004	(1,602,025)	18,827
				\$(72,640,469)	\$ 865,361

Forward Foreign Currency Exchange Contracts — The Funds may enter into forward foreign currency exchange contracts for the purchase or sale of a specific foreign currency at a fixed price on a future date as a hedge or cross-hedge against either specific transactions or portfolio positions. The Funds may also purchase and sell forward contracts to seek to increase total return. All commitments are "marked-to-market" daily at the applicable translation rates and any resulting unrealized gains or losses are recorded in the Funds' financial statements. The Funds record realized gains or losses at the time a forward contract is offset by entry into a closing transaction or extinguished by delivery of the currency. Risks may arise upon entering into these contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of a foreign currency relative to the U.S. dollar.

At April 30, 2004, Global Income had outstanding forward foreign currency exchange contracts, both to purchase and sell foreign currencies as follows:

Open Forward Foreign Currency Purchase Contracts	Value on Settlement Date	Current Value	Unrealized

TOTAL OPEN FORWARD FOREIGN CURRENCY SALE CONTRACTS	\$750,708,894	\$717,729,634	\$33,044,283	\$ 65,023

At April 30, 2004, Emerging Markets Debt had outstanding forward foreign currency exchange contracts to purchase foreign currencies as follows:

Open Forward Foreign Currency Purchase Contracts	Value on Settlement Date	Current Value	Unrealized	
			Gain	Loss
Korean Won				
expiring 8/18/2004	\$ 729,000	\$ 716,683	\$ —	\$ 12,317

The contractual amounts of forward foreign currency exchange contracts do not necessarily represent the amounts potentially subject to risk. The measurement of the risks associated with these instruments is meaningful only when all related and offsetting transactions are considered. At April 30, 2004, the Funds had sufficient cash and/or securities to cover any commitments under these contracts.

5. LINE OF CREDIT FACILITY

The Funds participate in a \$350,000,000 committed, unsecured revolving line of credit facility. Under the most restrictive arrangement, each Fund must own securities having a market value in excess of 400% of the total bank borrowings. This facility is to be used solely for temporary or emergency purposes. The interest rate on borrowings is based on the federal funds rate. The committed facility also requires a fee to be paid by the Funds based on the amount of the commitment that has not been utilized. During the six months ended April 30, 2004, the Funds did not have any borrowings under this facility.

6. JOINT REPURCHASE AGREEMENT ACCOUNT

Pursuant to the exemptive relief granted by the SEC, and terms and conditions contained therein, the Funds, together with other registered investment companies having management agreements with GSAMI and GSAM or their affiliates, transfer uninvested cash into joint accounts, the daily aggregate balance of which is invested in one or more repurchase agreements.

Notes to Financial Statements (continued)

April 30, 2004 (Unaudited)

6. JOINT REPURCHASE AGREEMENT ACCOUNT (continued)

At April 30, 2004, High Yield and Emerging Markets Debt had undivided interests in the following Joint Repurchase Agreement Account II which equaled \$23,000,000 and \$800,000, respectively, in principal amount. At April 30, 2004, the following repurchase agreements held in this joint account were fully collateralized by Federal Agency obligations.

Repurchase Agreements	Principal Amount	Interest Rate	Maturity Date	Maturity Value
ABN AMRO, Inc.	\$ 500,000,000	1.04%	05/03/2004	\$ 500,043,333
Banc of America Securities LLC	1,200,000,000	1.04	05/03/2004	1,200,104,000

Morgan Stanley & Co.	600,000,000	1.04	05/03/2004	600,052,000
UBS LLC	875,000,000	1.05	05/03/2004	875,076,563
Westdeutsche Landesbank AG	600,000,000	1.04	05/03/2004	600,052,000
Total Joint Repurchase Agreement Account II	\$7,105,500,000			\$7,106,119,315

7. ADDITIONAL TAX INFORMATION

As of the most recent fiscal year ended October 31, 2003, the Funds' capital loss carryforwards and certain timing differences on a tax basis were as follows:

	Global Income	High Yield	Emerging Markets Debt
Timing differences (dividends payable, straddles, income distribution payable and taxable interest on defaulted securities)	\$ (1,777,571)	\$ (11,313,272)	\$ —
Capital loss carryforward:			
Expiring 2007	—	(2,694,303)	—
Expiring 2008	—	—	—
Expiring 2009	—	(34,173,218)	—
Expiring 2010	(30,750,749)	(53,319,790)	—
Expiring 2011	(28,737,452)	(93,047,695)	—
Total capital loss carryforward	\$ (59,488,201)	\$(183,235,006)	\$ —

7. ADDITIONAL TAX INFORMATION (continued)

At April 30, 2004, the Funds' aggregate security unrealized gains and losses based on cost for U.S. federal income tax purposes was as follows:

	Global Income	High Yield	Emerging Markets Debt
Tax Cost	\$317,132,489	\$2,184,768,473	\$17,267,264
Gross unrealized gain	12,823,443	218,538,524	27,633
Gross unrealized loss	(5,059,920)	(122,200,735)	(707,044)
Net unrealized security gain (loss)	\$ 7,763,523	\$ 96,337,789	\$ (679,411)

The difference between book-basis and tax-basis unrealized gains (losses) is attributable primarily to wash sales and net mark-to-market gains on futures and foreign currency contracts recognized for tax purposes.

8. OTHER MATTERS

As of April 30, 2004, the Goldman Sachs Growth and Income Strategy Portfolio was the beneficial owner of approximately 5.0% of the Global Income Fund.

As of April 30, 2004, the Goldman Sachs Growth and Income Strategy Portfolio and the Goldman Sachs Growth Strategy Portfolio were beneficial owners of approximately 39.2% and 29.0% of the Emerging Markets Debt Fund, respectively.

Legal Proceedings — Purported class and derivative action lawsuits were filed in April and May in the United States District Court for the Southern District of New York against GSAM and certain related parties, including certain Goldman Sachs Funds and the Trustees and Officers of the Trust. The actions allege violations of the Act, the Investment Advisers Act of 1940 and common law breach of fiduciary duty. The complaints allege, among other things, that between April 2, 1999 and January 9, 2004 (the "Class Period"), GSAM charged the Goldman Sachs Funds improper Rule 12b-1 fees; made improper brokerage commission and other payments to brokers that sold shares of the Goldman Sachs Funds; and made untrue statements of material fact in registration statements and reports filed pursuant to the Act. Based on currently available information, GSAM believes that the likelihood that the purported class action lawsuits will have a material adverse financial impact on the Funds is remote, and the pending actions are not likely to materially affect its ability to provide investment management services to its clients, including the Goldman Sachs Funds.

Notes to Financial Statements (continued)

(a) Assumes investment at the net asset value at the beginning of the period, reinvestment of all dividends and distributions, a complete redemption of the investment at the net asset value at the end of the period and no sales or redemption charges. Total return would be reduced if a sales or redemption charge were taken into account. Total returns for periods less than one full year are not annualized. Returns do not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of Fund shares.

(b) Annualized.

(c) Calculated based on the average shares outstanding methodology.

(d) As required, effective November 1, 2001, the Fund has adopted the provisions of the AICPA Audit and Accounting Guide for Investment Companies and began amortizing all premiums and discounts on debt securities. The effect of this change for the year ended October 31, 2002 was to decrease net investment income per share by \$0.06, increase net realized and unrealized gains and losses per share by \$0.06, and decrease the ratio of net investment income to average net assets with and without expense reductions by 0.43%. Per share ratios and supplemental data for periods prior to November 1, 2001 have not been restated to reflect this change in presentation.

Goldman Sachs Funds

Goldman Sachs is a premier financial services firm, known since 1869 for creating thoughtful and customized investment solutions in complex global markets.

Today, **Goldman Sachs Asset Management, L.P.** and other units of the **Investment Management Division** of Goldman Sachs serve a diverse set of clients worldwide, including private institutions, public entities and individuals. With portfolio management teams located around the world — and \$400.1 billion in assets under management as of March 31, 2004 — our investment professionals bring firsthand knowledge of local markets to every investment decision, making us one of the few truly global asset managers.

THE GOLDMAN SACHS ADVANTAGE

Our goal is to deliver:

Strong, Consistent Investment Results

- Global Resources and Global Research
- Team Approach
- Disciplined Processes

Innovative, Value-Added Investment Products

- Thoughtful Solutions
- Risk Management

Outstanding Client Service

- Dedicated Service Teams
- Excellence and Integrity

GOLDMAN SACHS FUNDS

In building a globally diversified portfolio, you can select from more than 50 Goldman Sachs Funds and gain access to investment opportunities across borders, investment styles, asset classes and security capitalizations.

¹ An investment in a money market fund is neither insured nor guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the Fund.

The Goldman Sachs Research Select FundSM, Internet Tollkeeper FundSM and CORESM are service marks of Goldman, Sachs & Co.

The reports concerning the Fund included in this shareholder report may contain certain forward-looking statements about the factors that may affect the performance of the Fund in the future. These statements are based on Fund management's predictions and expectations concerning certain future events and their expected impact on the Fund, such as performance of the economy as a whole and of specific industry sectors, changes in the levels of interest rates, the impact of developing world events, and other factors that may influence the future performance of the Fund. Management believes these forward-looking statements to be reasonable, although they are inherently uncertain and difficult to predict. Actual events may cause adjustments in portfolio management strategies from those currently expected to be employed.

A description of the policies and procedures that the Funds use to determine how to vote proxies relating to portfolio securities is available (i) without charge, upon request by calling 1-800-526-7384 (for Retail Shareholders) or 1-800-621-2550 (for Institutional Shareholders); and (ii) on the Securities and Exchange Commission Web site at <http://www.sec.gov>.

This material is not authorized for distribution to prospective investors unless preceded or accompanied by a current Prospectus. Please consider a fund's objectives, risks, and charges and expenses, and read the Prospectus carefully before investing.

The Goldman Sachs High Yield Fund invests primarily in high yield, lower rated securities which involve greater price volatility and present greater risks than higher rated fixed income securities. At times, the Fund may be unable to sell certain of its portfolio securities without a substantial drop in price, if at all.

The Goldman Sachs Global Income, Emerging Markets Debt and High Yield Funds' foreign investments may be more volatile than an investment in U.S. securities and are subject to the risks of currency fluctuations and political developments.

The Funds will be subject to yield and total return fluctuations based on rising and falling interest rates. Longer-term bonds will normally have more price volatility.

The fixed income securities of emerging countries are less liquid and are subject to greater price volatility. The securities markets of emerging countries have less governmental regulation and are subject to less extensive accounting and financial reporting requirements than the markets of more developed countries.

Goldman, Sachs & Co. is the distributor of the Goldman Sachs Fund.

ITEM 2. CODE OF ETHICS.

Not applicable to the semi-annual report for the period ending April 30, 2004.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

Not applicable to the semi-annual report for the period ending April 30, 2004.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Not applicable to the semi-annual report for the period ended April 30, 2004.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

Not applicable.

ITEM 6. SCHEDULE OF INVESTMENTS

Not applicable to the semi-annual report for the period ended April 30, 2004.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Not applicable.

ITEM 8. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS

Not applicable.

ITEM 9. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

There have been no material changes to the procedures by which shareholders may recommend nominees to the registrant's board of trustees.

ITEM 10. CONTROLS AND PROCEDURES.

- (a) The registrant's principal executive and principal financial officers or persons performing similar functions have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act")) are effective as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on the evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act and 15d-15(b) under the Securities Exchange Act of 1934, as amended.
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act) that occurred during the registrant's last fiscal half-year (the registrant's second fiscal half-year in the case of an annual report) that has materially affected, or is reasonably likely to materially affect the registrant's internal control over financial reporting.

ITEM 11. EXHIBITS.
