GATEWAY TAX CREDIT FUND, LTD.
(A Florida Limited Partnership)

NOTES TO COMBINED FINANCIAL STATEMENTS
SEPTEMBER 30, 2004

NOTE 1 - ORGANIZATION:

Gateway Tax Credit Fund, Ltd. ("Gateway"), a Florida Limited Partnership, was formed October 27, 1987 under the laws of Florida. Operations commenced on June 30, 1988. Gateway invests, as a limited partner, in other limited partnerships ("Project Partnerships"), each of which owns and operates apartment complexes expected to qualify for Low-Income Housing Tax Credits. Gateway will terminate on December 31, 2040 or sooner, in accordance with the terms of the Limited Partnership Agreement. Gateway closed the offering on March 1, 1990 after receiving Limited and General Partner capital contributions of \$25,566,000 and \$1,000 respectively. The fiscal year of Gateway for reporting purposes ends on March 31.

Raymond James Partners, Inc. and Raymond James Tax Credit Funds, Inc., wholly-owned subsidiaries of Raymond James Financial, Inc., are the General Partner and Managing General Partner, respectively. The Managing General Partner manages and controls the business of Gateway.

Operating profits and losses, cash distributions from operations and tax credits are allocated 99% to the Limited Partners and 1% to the General Partners. Profit or loss and cash distributions from sales of properties will be allocated as formulated in the Limited Partnership Agreement.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES:

Combined Statements

The accompanying statements include, on a combined basis, the accounts of Gateway, Village Apartments of Sparta Limited Partnership and Village Apartments of Divernon Limited Partnership ("Combined Entities"), two Project Partnerships in which Gateway has invested. As of October 1, 1996 and October 1, 1997, respectively, an affiliate of Gateway's Managing General Partner, Value Partners, Inc. became the general partner of the Combined Entities. Since the general partner of the Combined Entities is now an affiliate of Gateway, these combined financial statements include the financial activity of the Combined Entities for the six months ended September 30, 2004. All significant intercompany balances and transactions have been eliminated. Gateway has elected to report the results of operations of the Combined Entities on a 3-month lag basis, consistent with the presentation of financial information of all Project Partnerships.

Basis of Accounting

Gateway utilizes the accrual basis of accounting whereby revenues are recognized when earned and expenses are recognized when obligations are incurred.

Gateway accounts for its investments as the sole limited partner in Project Partnerships ("Investments in Project Partnerships"), with the exception of the Combined Entities, using the equity method of accounting, because management believes that Gateway does not have a majority control of the major operating and financial policies of the Project Partnerships in which it invests, and reports the equity in losses of the Project Partnerships on a 3-month lag in the Statements of Operations. Under the equity method, the Investments in Project Partnerships initially include:

- 1) Gateway's capital contribution,
- 2) Acquisition fees paid to the General Partner for services rendered in selecting properties for acquisition, and
- 3) Acquisition expenses including legal fees, travel and other miscellaneous costs relating to acquiring properties.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued):

Quarterly the Investments in Project Partnerships are increased or decreased as follows:

- 1) Increased for equity in income or decreased for equity in losses of the Project Partnerships,
- 2) Decreased for cash distributions received from the Project Partnerships,
- 3) Decreased for the amortization of the acquisition fees and expenses, and
- 4) Decreased for sales of Project Partnership Assets.

Amortization is calculated on a straight-line basis over 35 years, as this is the average estimated useful life of the underlying assets. The amortization is shown as amortization expense on the Statements of Operations.

Pursuant to the limited partnership agreements for the Project Partnerships, cash losses generated by the Project Partnerships are allocated to the general partners of those partnerships. In subsequent years, cash profits, if any, are first allocated to the general partners to the extent of the allocation of prior years' cash losses.

Since Gateway invests as a limited partner, and therefore is not obligated to fund losses or make additional capital contributions, it does not recognize losses from individual Project Partnerships to the extent that these losses would reduce the investment in those Project Partnerships below zero. The suspended losses will be used to offset future income from the individual Project Partnerships.

Gateway reviews its investment in the Project Partnerships to determine if there has been any permanent impairment whenever events or changes in circumstances indicate that the carrying amount of the investment may not be recoverable. If the sum of the expected future cash flows is less than the carrying amount of the investment, Gateway recognizes an impairment loss. No impairment loss has been recognized in the accompanying financial statements.

Gateway, as a limited partner in the Project Partnerships, is subject to risks inherent in the ownership of property which are beyond its control, such as fluctuations in occupancy rates and operating expenses, variations in rental schedules, proper maintenance and continued eligibility of tax credits. If the cost of operating a property exceeds the rental income earned thereon, Gateway may deem it in its best interest to voluntarily provide funds in order to protect its investment. However, Gateway does not guarantee any of the mortgages or other debt of the Project Partnerships.

Cash and Cash Equivalents

It is Gateway's policy to include short-term investments with an original maturity of three months or less in Cash and Cash Equivalents. Short-term investments are comprised of money market mutual funds.

Accounts Receivable

Accounts receivable consist primarily of amounts due from project partnerships for voluntary operating advances made by the Partnership and tenant receivables. The operating advances are non-interest bearing and are due on demand. Tenant receivables are recorded when billed. An allowance for doubtful accounts has not been considered necessary based on historical loss experience. An account is considered past due when payment has not been rendered within thirty days of its due date. Uncollectible receivables are charged to rental revenue when project management has determined that collection efforts will not be successful.

Capitalization and Depreciation

Land, buildings and improvements are recorded at cost and provides for depreciation using the modified accelerated cost recovery system method for financial and tax reporting purposes in amounts adequate to amortize costs over the lives of the applicable assets as follows:

Buildings	27-1/2 years
Equipment	7 years

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued):

Expenditures for maintenance and repairs are charged to expense as incurred. Upon disposal of depreciable property, the appropriate property accounts are reduced by the related costs and accumulated depreciation. The resulting gains and losses are reflected in the statement of income.

Rental Income

Rental income, principally from short-term leases on the Combined Entity's apartment units, is recognized as income under the accrual method as the rents become due.

Concentrations of Credit Risk

Financial instruments which potentially subject Gateway to concentrations of credit risk consist of cash investments in a money market mutual fund that is a wholly-owned subsidiary of Raymond James Financial, Inc.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates that affect certain reported amounts and disclosures. These estimates are based on management's knowledge and experience. Accordingly, actual results could differ from these estimates.

Investment in Securities

Effective April 1, 1995, Gateway adopted Statement of Financial Accounting Standards No. 115, Accounting for Certain Investments in Debt and Equity Securities ("FAS 115"). Under FAS 115, Gateway is required to categorize its debt securities as held-to-maturity, available-for-sale or trading securities, dependent upon Gateway's intent in holding the securities. Gateway's intent is to hold all of its debt securities (U. S. Treasury Security Strips) until maturity and to use these reserves to fund Gateway's ongoing operations. Interest income is recognized ratably on the U.S. Treasury Strips using the effective yield to maturity.

Offering and Commission Costs

Offering and commission costs were charged against Limited Partners' Equity upon the admission of Limited Partners.

Income Taxes

No provision for income taxes has been made in these financial statements, as income taxes are a liability of the partners rather than of Gateway.

Reclassifications

For comparability, the 2003 and 2002 figures have been reclassified, where appropriate, to conform with the financial statement presentation used in 2004.

Basis of Preparation

The unaudited financial statements presented herein have been prepared in accordance with the instructions to Form 10-Q and do not include all of the information and note disclosures required by generally accepted accounting principles. These statements should be read in conjunction with the financial statements and notes thereto included with the Partnership's Form 10-K for the year ended March 31, 2004. In the opinion of management these financial statements include adjustments, consisting only of normal recurring adjustments, necessary to fairly summarize the Partnership's financial position and results of operations. The results of operations for the periods may not be indicative of the results to be expected for the year.

Recent Accounting Pronouncements

In August 2001, the Financial Accounting Standards Board issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets". SFAS No. 144 provides accounting guidance for financial accounting and reporting for the

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued):

impairment or disposal of long-lived assets. SFAS No. 144 supersedes SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of". SFAS No. 144 is effective for fiscal years beginning after December 15, 2001. The Partnership adopted SFAS No. 144 effective January 1, 2002. The adoption did not have an effect on the financial position or results of operations of the Partnership.

In January 2003, the FASB issued FASB Interpretation No. 46 ("FIN46"), "Consolidation of Variable Interest Entities, an Interpretation of ARB No. 51." FIN46 requires certain variable interest entities to be consolidated by the primary beneficiary of the entity if the equity investors in the entity do not have the characteristics of a controlling financial interest or do not have sufficient equity at risk for the entity to finance its activities without additional subordinated financial support from other parties. FIN46 is effective for all new variable interest entities created or acquired after January 31, 2003. For variable interest entities created or acquired prior to February 1, 2003, the provisions of FIN46 must be applied for the first interim or annual period ending after December 15, 2004. The Partnership does not feel that there will be any effects on its results of operations as a result of the adoption of FIN46. Prior to the effective date of FIN46, Gateway is required to disclose its maximum exposure to economic and financial statement losses as a result of its involvement with variable interest entities. Gateway's exposure to these losses is limited to its investment in the Project Partnerships which is \$1,174,494 at September 30, 2004.

NOTE 3 - INVESTMENT IN SECURITIES:

The Investment in Securities consisting of U. S. Treasury Strips matured on August 15, 2004 and were redeemed for their mature value of \$142,000. The mature value included accrued interest of \$82,860.

NOTE 4 - RELATED PARTY TRANSACTIONS:

The Payable to General Partners primarily represents the asset management fees owed to the General Partners at the end of the period. It is unsecured, due on demand and, in accordance with the limited partnership agreement, non-interest bearing. Within the next 12 months, the Managing General Partner does not intend to demand payment on the portion of Asset Management Fees payable classified as long-term on the Balance Sheet.

The General Partners and affiliates are entitled to compensation and reimbursement for costs and expenses as follows:

Item 4. Controls and Procedures:

Within 90 days prior to the filing of this report, under the supervision and with the participation of the Partnership's management, including the Partnership's chief executive and chief financial officers, an evaluation of the effectiveness of the Partnership's disclosure controls and procedures (as defined in Rule 13a-14(c) under the Securities Exchange Act of 1934) was performed. Based on this evaluation, such officers have concluded that the Partnership's disclosure controls and procedures were effective as of the date of that evaluation in alerting them in a timely manner to material information relating to the Partnership required to be included in this report and the Partnership's other reports that it files or submits under the Securities Exchange Act of 1934. There were no significant changes in the Partnership's internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations:

Results of Operations

As disclosed on the Statements of Operations, interest income decreased from \$12,729 and \$27,388 for the three and six months ended September 30, 2003 to \$2,333 and \$6,032 for the three and six months ended September 30, 2004 due to a decrease of approximately \$371,000 in Investment in Securities. Total expenses were comparable for the six and three months ended September 30, 2004 and 2003.

Gateway's share of Equity in Losses of Project Partnerships prior to suspended losses increased for the six months ended September 30, 2004 when compared to the six months ended September 30, 2003. This is primarily due to a decrease in rental revenue and an increase in maintenance expense. In general, it is common in the real estate industry to experience losses for financial and tax reporting purposes because of the non-cash expenses of depreciation and amortization. As a result, management expects Gateway will continue to report its equity in Project Partnerships as a loss for tax and financial reporting purposes.

In total, the Partnership had a net loss of \$468,105 for the six months ended September 30, 2004. However, after adjusting for amortization, accreted interest income, the changes in operating assets and liabilities, and the equity in losses of Project Partnerships, net cash used in operating activities was \$38,193. The net cash provided by investing activities was \$140,169 consisting primarily of \$59,140 in cash distributions received from Project Partnerships and \$81,029 from matured Zero Coupons.

Liquidity and Capital Resources

Gateway's capital resources are used to pay General and Administrative operating costs including personnel, supplies, data processing, travel, and legal and accounting associated with the administration and monitoring of Gateway and the Project Partnerships. The capital resources are also used to pay the Asset Management Fee due the Managing General Partner, but only to the extent that Gateway's remaining resources are sufficient to fund Gateway's ongoing needs. (Payment of any Asset Management Fee due but unpaid at the time Gateway sells its interests in the Project Partnerships is subordinated to the investors return of their original capital contribution.)

The sources of funds to pay the operating costs are short term investments and interest earned thereon, the maturity of U.S. Treasury Security Strips ("Zero Coupon Treasuries") which were purchased with funds set aside for this purpose, and cash distributed to Gateway from the operations of the Project Partnerships. At September 30, 2004, Gateway had \$1,194,648 of short-term investments (Cash and Cash Equivalents). Management believes these sources of funds are sufficient to meet Gateway's current and ongoing operating costs for the foreseeable future, and to pay part of the Asset Management Fee.

Exit Strategy

The IRS compliance period for low-income housing tax credit properties is generally 15 years from occupancy following construction or rehabilitation completion. Now these very first programs are completing their compliance period.

With that in mind, the Partnership is continuing to review the Partnership's holdings, with special emphasis on the more mature properties such as any that have satisfied the IRS compliance requirements. The Partnership's review will consider many factors including extended use requirements on the property (such as those due to mortgage restrictions or state compliance agreements), the condition of the property, and the tax consequences to the investors from the sale of the property.

Upon identifying those properties with the highest potential for a successful sale, refinancing or syndication, the Partnership expects to proceed with efforts to liquidate those properties. The Partnership's objective is to maximize the Investors' return wherever possible and, ultimately to wind down those funds that no longer provide tax benefits to investors. As of September 30, 2005, two project partnerships, Clayfed Apartments and Westside Apartments have been sold.
