## Report of Independent Registered Public Accounting Firm

To the Partners and Management of BGC Financial, L.P.

### Opinion on the Financial Statements

We have audited the accompanying consolidated statement of financial condition of BGC Financial, L.P. (the "Partnership") as of December 31, 2019, the related consolidated statements of operations, cash flows, and changes in partners' capital for the year then ended, and the related notes (collectively referred to as the "consolidated financial statements"). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Partnership at December 31, 2019, and the results of its operations and its cash flows for the year then ended in conformity with U.S. generally accepted accounting principles.

### Basis for Opinion

These financial statements are the responsibility of the Partnership's management. Our responsibility is to express an opinion on the Partnership's financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Partnership in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

### Supplemental Information

The accompanying information contained in the Supplemental Schedules has been subjected to audit procedures performed in conjunction with the audit of the Partnership's financial statements. Such information is the responsibility of the Partnership's management. Our audit procedures included determining whether the information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information. In forming our opinion on the information, we evaluated whether such information, including its form and content, is presented in conformity with Rule 17a-5 under the Securities Exchange Act of 1934 and Regulation 1.10 under the Commodity Exchange Act. In our opinion, the information is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

*Ernst & Young LLP*

We have served as the Partnership's auditor since 2008.

## Report of Independent Registered Public Accounting Firm

To the Partners and Management of BGC Financial, L.P.

### Opinion on the Financial Statement

We have audited the accompanying consolidated statement of financial condition of BGC Financial, L.P. (the "Partnership") as of December 31, 2019 and the related notes (the "consolidated financial statement"). In our opinion, the consolidated financial statement presents fairly, in all material respects, the financial position of the Partnership at December 31, 2019, in conformity with U.S. generally accepted accounting principles.

### Basis for Opinion

This financial statement is the responsibility of the Partnership's management. Our responsibility is to express an opinion on the Partnership's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Partnership in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

*Ernst & Young LLP*

We have served as the Partnership's auditor since 2008.

Notes to Consolidated Financial Statements (*continued*)

December 31, 2019

(In Thousands)

**1. General and Summary of Significant Accounting Policies**

**Description of Business** – BGC Financial, L.P. (“BGCF”) is a U.S. registered broker-dealer with the Securities Exchange Commission (“SEC”) and an Independent Introducing Broker (“IB”) registered with The National Futures Association (“NFA”) and the Commodity Futures Trading Commission (“CFTC”), with operations in New York and is organized under the laws of the state of New York. BGC Shoken Kaisha, Ltd. (“Shoken”) is a wholly owned subsidiary of BGCF, a registered broker dealer with operations in Tokyo, and is organized under the laws of the state of Delaware. Effective December 18, 2019, BGCF’s Futures Commission Merchant (“FCM”) license was withdrawn. The consolidated financial statements include BGCF and its wholly owned subsidiary Shoken (collectively the “Partnership”). All significant intercompany balances and transactions have been eliminated. The Partnership is owned by BGC Brokers US, L.P. (99%), the Limited Partner and BGCF Holdings LLC (1%), the General Partner, both of which are indirectly owned subsidiaries of BGC Partners, Inc. (collectively with their subsidiaries “BGC”), which is a subsidiary of Cantor Fitzgerald, L.P. (collectively with its affiliates “Cantor”). The Partnership is engaged in the inter-dealer brokering of various fixed income securities, repurchase agreements, credit derivatives, mortgage backed securities, equities and asset backed swaps.

**Basis of Presentation** – The consolidated financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

**Use of Estimates** – Management makes estimates and assumptions that affect the reported amounts of the assets and liabilities, revenues and expenses, and the disclosure of contingent assets and liabilities. Management believes that the estimates utilized in preparing the consolidated financial statements are reasonable. Estimates, by their nature, are based on judgment and available information. As such, actual results could differ materially from the estimates included in these consolidated financial statements.

**Revenue Recognition** – The Partnership derives its revenues primarily through commissions from brokerage services and the spread between the buy and sell price on matched principal transactions.

*Principal Transactions, net* – Principal transactions revenue is primarily derived from matched principal transactions, whereby the Partnership simultaneously agrees to buy securities from one customer and sell them to another customer. Revenue earned from principal transactions represents the spread between the buy and sell price of the brokered security. Principal transactions revenue and related expenses are recognized on a trade date basis. Principal transactions revenue is presented net of related transaction costs.

Notes to Consolidated Financial Statements (*continued*)

December 31, 2019

(In Thousands)

**1. General and Summary of Significant Accounting Policies (*continued*)**

*Commissions* – Commissions revenue is derived from securities and commodities, whereby the Partnership connects buyers and sellers in the OTC and exchange markets and assists in the negotiation of the price and other material terms. These transactions result from the provision of service related to executing, settling and clearing transactions for clients. Trade execution and clearing services, when provided together, represent a single performance obligation as the services are not separately identifiable in the context of the contract. Commissions revenue is recognized at a point in time on the trade-date, when the customer obtains control of the asset and can direct the use of, and obtain substantially all of the remaining benefits from the asset. The Partnership records a receivable between the trade-date and settlement date, when payment is received.

*Fees from related parties* – Fees from related parties consist of charges mainly for clearing services provided to affiliates. As described above, clearing services are recognized at a point in time on the trade-date. Net cash settlements between affiliates are generally performed on a monthly basis.

**Cash and Cash Equivalents** – The Partnership considers all highly liquid investments with maturity dates of 90 days or less at the date of acquisition that are not segregated under regulatory requirements to be cash equivalents.

**Cash Segregated Under Federal and Other Regulations** – Cash segregated under federal and other regulations are segregated for the protection of customers and for the proprietary accounts of brokers and dealers under the Commodity Exchange Act and Securities Exchange Act of 1934.

**Receivables from and Payables to Broker-Dealers, Clearing Organizations, Customers and Related Broker-Dealers** – Receivables from and Payables to broker-dealers, clearing organizations, customers and related broker-dealers represent principal transactions which have not yet settled. Also included in Receivables from and Payables to broker-dealers, clearing organizations, customers and related broker-dealers is cash deposited with various clearing organizations to conduct ongoing clearance activities. Also included is cash due to clearing brokers and cash receivables from clearing brokers.

**Accrued Commissions Receivable** – Accrued commissions receivable represent amounts due from brokers, dealers, banks and other financial and non-financial institutions for the execution of securities, foreign exchange and derivative agency transactions. Accrued commissions receivable is presented net of allowance for doubtful accounts. The allowance is based on management's estimate and is reviewed periodically based on the facts and circumstances of each outstanding receivable. There was no allowance for doubtful accounts as of December 31, 2019.

Notes to Consolidated Financial Statements (*continued*)

December 31, 2019

(In Thousands)

**1. General and Summary of Significant Accounting Policies (*continued*)**

**Fixed Assets, net** – Fixed assets are recorded at historical cost and depreciated over their estimated economic useful lives, generally three to five years, using the straight-line method. Leasehold improvements are amortized over their estimated economic useful lives or the remaining lease term, whichever is shorter. In accordance with U.S. GAAP guidance, the Partnership capitalizes qualifying computer software costs incurred during the application development stage and amortizes them over an estimated useful life of three years on a straight-line basis.

The Partnership has asset retirement obligations related to certain of its leasehold improvements, which it accounts for using the guidance from U.S. GAAP Accounting Standard Codification (“ASC”) Topic 410, *Accounting for Asset Retirement Obligations*, which requires that the fair value of a liability for an asset retirement obligation be recognized in the period in which it is incurred if a reasonable estimate of fair value can be made. The associated asset retirement cost is capitalized as part of the carrying amount of the long-lived asset. The liability is discounted and accretion expense is recognized using the credit-adjusted risk-free interest rate in effect when the liability was initially recognized. The liability of the Partnership’s asset retirement obligation is \$366 at December 31, 2019, which approximates fair value and is included in Accounts payable and accrued liabilities in the Partnership’s consolidated statement of financial condition.

**Goodwill** – Goodwill is the excess of the purchase price over the fair value of identifiable net assets acquired in a business combination. According to ASC Topic 350, *Goodwill and Other Intangible Assets*, goodwill is not amortized, but instead is periodically tested for impairment. The Partnership reviews goodwill for impairment on an annual basis during the fourth quarter of each fiscal year or whenever an event occurs or circumstances change that could reduce the fair value of a reporting unit below its carrying amount. When reviewing goodwill for impairment, the Partnership first assesses qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount, including goodwill. The partnership performed impairment evaluation for the year ended December 31, 2019 and concluded that there was no impairment of its goodwill during the period.

**Leases** – The Partnership enters into leasing arrangements in the ordinary course of business as a lessee of office space, data centers and office equipment. The accounting policies described below were updated pursuant to the adoption of the new U.S. GAAP standard on *Leases* and related amendments on January 1, 2019. These policy updates have been applied prospectively in the Partnership’s consolidated financial statements from January 1, 2019 onward.

The Partnership determines whether an arrangement is a lease at inception. ROU lease assets represent the Partnership’s right to use an underlying asset for the lease term, and lease liabilities

Notes to Consolidated Financial Statements (*continued*)

December 31, 2019

*(In Thousands)***1. General and Summary of Significant Accounting Policies (*continued*)**

represent the Partnership's obligation to make lease payments arising from the lease. Other than for leases with an initial term of twelve months or less, operating lease ROU assets and liabilities are recognized at commencement date based on the present value of lease payments over the lease term. As most leases do not provide an implicit rate, the Partnership uses an incremental borrowing rate based on the information available at commencement date in determining the present value of lease payments. The operating lease ROU asset also includes any lease payments made and excludes lease incentives. Lease terms may include options to extend or terminate the lease when it is reasonably certain that the Partnership will exercise that option. Lease expense pertaining to operating leases is recognized on a straight-line basis over the lease term.

**Income Taxes** – Income taxes are accounted for under ASC Topic 740, *Income Taxes*, using the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the consolidated financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. To the extent that it is more likely than not that deferred tax assets will not be recognized, a valuation allowance would be established to offset their benefit.

ASC Topic 740, *Income Taxes*, clarifies the accounting for income taxes by prescribing a “more likely than not” recognition threshold that a tax position is required to meet before being recognized in the Partnership's consolidated financial statements. In addition, the guidance clarifies the measurement of uncertain tax positions, classification of interest and penalties, and requires additional disclosures on tax reserves.

**Recently Adopted Accounting Pronouncements**

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)*. This standard requires lessees to recognize a right-of-use (“ROU”) asset and lease liability for all leases with terms of more than twelve months. Recognition, measurement and presentation of expenses will depend on classification as a finance or operating lease. The amendments also require certain quantitative and qualitative disclosures. Accounting guidance for lessors is mostly unchanged. In July 2018, the FASB issued ASU 2018-10, *Codification Improvements to Topic 842, Leases*, to clarify how to apply certain aspects of the new leases standard. The amendments address the rate implicit in the lease, impairment of the net investment in the lease, lessee reassessment of lease classification, lessor reassessment of lease term and purchase options, variable payments that depend on an index or rate and certain transition adjustments, among other issues. In addition, in July 2018, the FASB issued

Notes to Consolidated Financial Statements (*continued*)

December 31, 2019

*(In Thousands)***1. General and Summary of Significant Accounting Policies (*continued*)**

ASU 2018-11, *Leases (Topic 842), Targeted Improvements*, which provided an additional (and optional) transition method to adopt the new leases standard. Under the new transition method, a reporting entity would initially apply the new lease requirements at the effective date and recognize a cumulative-effect adjustment to the opening balance of retained earnings in the period of adoption; continue to report comparative periods presented in the financial statements in the period of adoption in accordance with legacy U.S. GAAP (i.e., ASC 840, *Leases*); and provide the required disclosures under ASC 840 for all periods presented under legacy U.S. GAAP. Further, ASU 2018-11 contains a practical expedient that allows lessors to avoid separating lease and associated non-lease components within a contract if certain criteria are met. In December 2018, the FASB issued ASU 2018-20, *Leases (Topic 842), Narrow-Scope Improvements for Lessors*, to clarify guidance for lessors on sales taxes and other similar taxes collected from lessees, certain lessor costs and recognition of variable payments for contracts with lease and non-lease components. In March 2019, the FASB issued ASU 2019-01, *Leases (Topic 842), Codification Improvements*, to clarify certain application and transitional disclosure aspects of the new leases standard. The amendments address determination of the fair value of the underlying asset by lessors that are not manufacturers or dealers and clarify interim period transition disclosure requirements, among other issues. The guidance in ASUs 2016-02, 2018-10, 2018-11 and 2018-20 became effective beginning January 1, 2019, with early adoption permitted; whereas the guidance in ASU 2019-01 became effective beginning January 1, 2020, with early adoption permitted. The Partnership adopted the above mentioned standards on January 1, 2019 using the effective date as the date of initial application.

The guidance provides a number of optional practical expedients to be utilized by lessees upon transition. Accordingly, the Partnership elected the ‘package of practical expedients, which permitted the Partnership not to reassess under the new standard its prior conclusions about lease identification, lease classification and initial direct costs. The Partnership did not elect the use-of-hindsight or the practical expedient pertaining to land easements, with the latter not being applicable to the Partnership. The standard also provides practical expedients for an entity’s ongoing accounting as a lessee. The Partnership elected the short-term lease recognition exemption for all leases that qualify. This means, for those leases that qualify, the Partnership will not recognize ROU assets and lease liabilities, and this includes not recognizing ROU assets and lease liabilities for existing short-term leases of those assets upon transition. The Partnership also elected the practical expedient to not separate lease and non-lease components for all of leases other than leases of real estate. As a result upon adoption, acting primarily as a lessee, the Partnership recognized approximately \$1,136 ROU asset and approximately \$1,176 lease liability on its consolidated statement of financial condition for its real estate and equipment operating leases. The adoption of the new guidance did not have an impact on the Partnership’s consolidated statement of operations, consolidated statement of changes in equity and consolidated statement of cash flows. See Note 11—Leases for additional information on the Partnership’s leasing arrangements.

Notes to Consolidated Financial Statements (*continued*)

December 31, 2019

*(In Thousands)***1. General and Summary of Significant Accounting Policies (*continued*)****New Accounting Pronouncements**

In June 2016, the FASB issued ASU No. 2016-13, Financial Instruments—Credit Losses (Topic 326)—Measurement of Credit Losses on Financial Instruments, which requires financial assets that are measured at amortized cost to be presented, net of an allowance for credit losses, at the amount expected to be collected over their estimated life. Expected credit losses for newly recognized financial assets, as well as changes to credit losses during the period, are recognized in earnings. For certain purchased financial assets with deterioration in credit quality since origination (“PCD assets”), the initial allowance for expected credit losses will be recorded as an increase to the purchase price. Expected credit losses, including losses on off-balance-sheet exposures such as lending commitments, will be measured based on historical experience, current conditions and reasonable and supportable forecasts that affect the collectability of the reported amount. The new standard became effective for the Partnership beginning January 1, 2020, under a modified retrospective approach, and early adoption is permitted. In November 2018, the FASB issued ASU 2018-19, Codification Improvements to Topic 326, Financial Instruments—Credit Losses, to clarify that operating lease receivables accounted for under ASC 842, Leases, are not in the scope of the new credit losses guidance, and, instead, impairment of receivables arising from operating leases should be accounted for in accordance with ASC 842, Leases. In April 2019, the FASB issued ASU No. 2019-04, Codification Improvements to Topic 326, Financial Instruments—Credit Losses, Topic 815, Derivatives and Hedging, and Topic 825, Financial Instruments. The ASU makes changes to the guidance introduced or amended by ASU No. 2016-13, Financial Instruments—Credit Losses (Topic 326)—Measurement of Credit Losses on Financial Instruments. See below for the description of the amendments stipulated in ASU No. 2019-04. In addition, in May 2019, the FASB issued ASU No. 2019-05, Financial Instruments—Credit Losses (Topic 326): Targeted Transition Relief. The amendments in this ASU allow entities, upon adoption of ASU No. 2016-13, to irrevocably elect the fair value option for financial instruments that were previously carried at amortized cost and are eligible for the fair value option under ASC 825-10, Financial Instruments: Overall. In November 2019, the FASB issued ASU No. 2019-11, Codification Improvements to Topic 326, Financial Instruments—Credit Losses. The amendments in this ASU require entities to include certain expected recoveries of the amortized cost basis previously written off, or expected to be written off, in the allowance for credit losses for PCD assets; provide transition relief related to troubled debt restructurings; allow entities to exclude accrued interest amounts from certain required disclosures; and clarify the requirements for applying the collateral maintenance practical expedient. The amendments in ASUs No. 2018-19, 2019-04, 2019-05 and 2019-11 are required to be adopted concurrently with the guidance in ASU No. 2016-13. The Partnership adopted the standards on their required effective date beginning January 1, 2020. The adoption of this guidance did not have a material impact on the Partnership’s financial statements.

Notes to Consolidated Financial Statements (*continued*)

December 31, 2019

*(In Thousands)***1. General and Summary of Significant Accounting Policies (*continued*)**

In January 2017, the FASB issued ASU No. 2017-04, *Intangibles—Goodwill and Other (Topic 350)—Simplifying the Test for Goodwill Impairment*, which eliminates the requirement to determine the fair value of individual assets and liabilities of a reporting unit to measure goodwill impairment. Under the amendments in the new ASU, goodwill impairment testing will be performed by comparing the fair value of the reporting unit with its carrying amount and recognizing an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value. The new standard became effective for the Partnership beginning January 1, 2020 and will be applied on a prospective basis. The adoption of this guidance did not have a material impact on the Partnership's consolidated financial statements.

In April 2019, the FASB issued ASU No. 2019-04, *Codification Improvements to Topic 326, Financial Instruments—Credit Losses, Topic 815, Derivatives and Hedging, and Topic 825, Financial Instruments*. The ASU amends guidance introduced or amended by ASU No. 2016-13, *Financial Instruments—Credit Losses (Topic 326)—Measurement of Credit Losses on Financial Instruments*, ASU No. 2017-12, *Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities*, and ASU No. 2016-01, *Financial Instruments—Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities*. In November 2019, the FASB issued ASU No. 2019-11, *Codification Improvements to Topic 326, Financial Instruments—Credit Losses*. The amendments in this ASU require entities to include certain expected recoveries of the amortized cost basis previously written off, or expected to be written off, in the allowance for credit losses for PCD assets; provide transition relief related to troubled debt restructurings; allow entities to exclude accrued interest amounts from certain required disclosures; and clarify the requirements for applying the collateral maintenance practical expedient. The amendments to ASU No. 2016-13 clarify the scope of the credit losses standard and address guidance related to accrued interest receivable balances, recoveries, variable interest rates and prepayments, among other issues. With respect to amendments to ASU No. 2017-12, the guidance addresses partial-term fair value hedges, fair value hedge basis adjustments, and certain transition requirements, along with other issues. The clarifying guidance pertaining to ASU No. 2016-01 requires an entity to remeasure an equity security without a readily determinable fair value accounted for under the measurement alternative at fair value in accordance with guidance in ASC 820, *Fair Value Measurement*; specifies that equity securities without a readily determinable fair value denominated in nonfunctional currency must be remeasured at historical exchange rates; and provides fair value measurement disclosure guidance. The codification improvements related to credit losses were required to be adopted concurrently with ASU No. 2016-13 as of January 1, 2020. See above for the impact of adoption of the amendments stipulated in ASU No. 2019-04. The hedge accounting standard amendments became effective for the Partnership as of

Notes to Consolidated Financial Statements (*continued*)

December 31, 2019

(In Thousands)

**1. General and Summary of Significant Accounting Policies (*continued*)**

January 1, 2020, with early adoption permitted, and may be applied either retrospectively or prospectively, with certain exceptions. The amendments related to the recognition and measurement guidance became effective for the Partnership as of January 1, 2020, with early adoption permitted, and should be applied prospectively for equity securities without readily determinable fair value with the remaining amendments to be applied on a modified retrospective transition basis by means of a cumulative-effect adjustment to the opening retained earnings balance as of the date an entity adopted all of the amendments in ASU No. 2016-01. The adoption of this guidance did not have a impact on the Partnership's consolidated financial statements.

In December 2019, the FASB issued ASU No. 2019-12, *Income Taxes (Topic 740): Simplifying the Accounting for Income Taxes*. The ASU is part of the FASB's simplification initiative; and it is expected to reduce cost and complexity related to accounting for income taxes by eliminating certain exceptions to the guidance in ASC 740, *Income Taxes* related to the approach for intraperiod tax allocation, the methodology for calculating income taxes in an interim period, the allocation of consolidated income tax expense to separate financial statements of entities not subject to tax and the recognition of deferred tax liabilities for outside basis differences. The new guidance also simplifies aspects of the accounting for franchise taxes and enacted changes in tax laws or rates and clarifies the accounting for transactions that result in a step-up in the tax basis of goodwill. The new standard will become effective for the Partnership beginning January 1, 2021 and, with certain exceptions, will be applied prospectively. Early adoption is permitted. Management is currently evaluating the impact of the new guidance on the Partnership's consolidated financial statements.

*(In Thousands)***2. Receivables from and Payables to Broker-Dealers, Clearing Organizations, Customers and Related Broker-Dealers**

At December 31, 2019, Receivables from and Payables to broker-dealers, clearing organizations, customers and related broker-dealers include:

	<u>Receivables</u>	<u>Payables</u>
Contract values of fails to deliver/receive	\$ 45,743	\$ 31,641
Customers	34,930	46,043
Clearing brokers and clearing organizations	24,423	2,071
Pending trades, net	630	—
Other receivables/payables from broker-dealers and related broker-dealers	2,988	6,663
<b>Total</b>	<u>\$ 108,714</u>	<u>\$ 86,418</u>

Receivables from and Payables to customers primarily represent open fails to deliver and fails to receive transactions, respectively. Substantially all open fails to deliver and fails to receive transactions as of December 31, 2019 have subsequently settled at the contracted amounts.

**3. Fixed Assets, net**

Fixed assets, net consisted of the following:

	<u>December 31, 2019</u>
Leasehold improvements and other fixed assets	\$ 4,057
Computer and communications equipment	2,550
Software, including software development costs	1,024
	7,631
Less: accumulated depreciation and amortization	6,178
<b>Fixed assets, net</b>	<u>\$ 1,453</u>

Depreciation and amortization expense, excluding software development costs, was \$189 for the year ended December 31, 2019, and is included in Occupancy and equipment in the Partnership's consolidated statement of operations. Impairment charges of \$24 for the year ended December 31, 2019. Impairment charges are included in Occupancy and equipment in the Partnership's consolidated statement of operations. The net book value of capitalized computer software amounted to \$232 at December 31, 2019. Amortization expense of software development costs totaled \$271 for the year ended December 31, 2019 and is included as part of Occupancy and equipment in the Partnership's consolidated statement of operations.

Notes to Consolidated Financial Statements (*continued*)

December 31, 2019

(In Thousands)

**4. Goodwill**

The Partnership completed its annual goodwill impairment testing during the fourth quarter of 2019, which did not result in any goodwill impairment or indicators of impairment. See Note 1 — General and Summary of Significant Accounting Policies, to the Partnership's consolidated financial statements for additional information regarding its goodwill accounting policies.

**5. Commitments, Contingencies and Guarantees**

**Guarantees** – The Partnership is a member of various securities clearinghouses. Under the standard membership agreement, members are required to guarantee the performance of other members and, accordingly, if another member becomes unable to satisfy its obligations to the clearinghouse or exchange, all other members would be required to meet the shortfall. The Partnership's liability under these arrangements is not quantifiable and could exceed the cash and securities it has posted as collateral. However, the potential for the Partnership to be required to make payments under these arrangements is remote. Accordingly, no liability was required to be recorded in the Partnership's consolidated statement of financial condition.

**Legal Matters** – In the ordinary course of business, various legal actions are brought and may be pending against the Partnership. The Partnership is also involved, from time to time, in other reviews, investigations and proceedings by governmental and self-regulatory agencies (both formal and informal) regarding the Partnership's business. Any such actions may result in judgments, settlements, fines, penalties, injunctions or other relief.

In September 2019, the Partnership settled investigations conducted jointly by the CFTC and the NYAG. The CFTC and NYAG alleged that, in 2014 and 2015, certain emerging markets foreign exchange options (EFX options) brokers in the U.S. misrepresented that certain prices posted to their electronic platform were immediately executable when in fact they were not and that such brokers had communicated that transactions had been matched when they had not.

The Partnership has agreed to pay an aggregate of \$15.0 million in connection with the settlements and agreed to a monitor for two years to assess regulatory compliance. The NYAG settlements include a non-prosecution agreement, and there was no criminal penalty from either agency. The Partnership included the \$15.0 million in Other expenses in the Partnership's consolidated statement of operations.

From time to time, the Partnership and its affiliates are involved in litigation, claims and arbitrations, relating to various employment matters, including with respect to termination of employment, hiring of employees currently or previously employed by competitors, terms and conditions of employment and other matters. In light of the competitive nature of the brokerage industry, litigation, claims and arbitration between competitors regarding employee hiring are not uncommon.

Notes to Consolidated Financial Statements (*continued*)

December 31, 2019

(In Thousands)

**5. Commitments, Contingencies and Guarantees (*continued*)**

Legal reserves are established in accordance with FASB guidance on *Accounting for Contingencies*, when a material legal liability is both probable and reasonably estimable. The Partnership has established reserves for employee related litigation matters. Once established, reserves are adjusted when there is more information available or when an event occurs requiring a change. The outcome of such items cannot be determined with certainty.

The Partnership is unable to estimate a possible loss or range of loss in connection with specific matters beyond its current accrual and any other amounts disclosed. Management believes that, based on currently available information, the final outcome of these current pending matters will not have a material adverse effect on the Partnership taken as a whole.

**6. Related Party Transactions**

Cantor and other affiliates provide the Partnership with administrative services and other support for which they charge the Partnership based on the cost of providing such services. Such support includes allocations for utilization of fixed assets, accounting, treasury, operations, human resources, legal and technology services. For the year ended December 31, 2019, the Partnership was charged \$77,888 by Cantor and other affiliates for such services, which is included in Fees to related parties in the Partnership's consolidated statement of operations and the unpaid balances are included in Payables to related parties in the Partnership's consolidated statement of financial condition. In addition, for the year ended December 31, 2019, the Partnership was charged \$4,124 for allocated rent, maintenance, and other occupancy related costs, which are reported in Occupancy and equipment in the Partnership's consolidated statement of operations and the unpaid balances are included in Payables to related parties in the Partnership's consolidated statement of financial condition.

The Partnership performed clearance and settlement services for affiliates. For the year ended December 31, 2019, the Partnership recorded \$1,239 of fees which are included in Fees from related parties in the Partnership's consolidated statement of operations and the uncollected balances are included in Receivables from related parties in the Partnership's consolidated statement of financial condition.

For the year ended December 31, 2019, the Partnership was allocated costs related to compensation awards to employees of the Partnership in the amount of \$49,915 which has been included in Compensation and employee benefits in the Partnership's consolidated statement of operations and the unpaid balances are included in Payables to related parties in the Partnership's consolidated statement of financial condition.

An affiliate of the Partnership enters into various agreements with certain of its employees whereby these employees received loans which are either forgiven over a specified period of time

Notes to Consolidated Financial Statements (*continued*)

December 31, 2019

(In Thousands)

**6. Related Party Transactions (*continued*)**

or are to be repaid with distributions the employee earns on partnership units in BGC Holdings, L.P. (“BGCH”). The forgivable loans are recorded at historical value and are amortized over the term of the service period, which is generally three to four years.

The Partnership is charged for the amortization, forgiveness or other compensation related expenses associated with such loans. For the year ended December 31, 2019, the Partnership was allocated costs related to amortization of such awards of approximately \$667 which is included in Compensation and employee benefits in the Partnership’s consolidated statement of operations and the unpaid balances are included in Payables to related parties in the Partnership’s consolidated statement of financial condition.

The Partnership has a loan receivable from BGC in the amount of \$57,667 which is included in Receivables from related parties in the Partnership’s consolidated statement of financial condition. Interest is calculated daily at a rate of 300 basis points over LIBOR.

For the year ended December 31, 2019, the Partnership earned interest from this receivable of \$2,901 which is included in Interest income in the Partnership’s consolidated statement of operations and the uncollected balances are included in Receivables from related parties in the Partnership’s consolidated statement of financial condition.

During 2019, \$25,466 due to BGC was settled by a deemed contribution to the Partnership through BGC’s ownership interest in the Limited Partner and General Partner.

**7. Compensation**

**Equity-Based and Other Compensation** – BGC provides compensation awards to certain employees of the Partnership in the form of partnership awards in BGC. These awards entitle the employees to participate in quarterly distributions of BGC’s income, and certain awards receive post-termination payments. The Partnership records an expense for distributions and for the change in the fair value of the post-termination liability. In addition, the Partnership grants rights to certain employees to exchange partnership awards into shares of BGC and Newmark Group, Inc. (“Newmark”) Class A common stock.

For the year ended December 31, 2019, the Partnership recorded \$183 of expenses related to partnership awards, which are included in Compensation and employee benefits expense in the Partnership’s consolidated statement of operations and Payables to related parties in the Partnership’s consolidated statement of financial condition.

Notes to Consolidated Financial Statements (*continued*)

December 31, 2019

*(In Thousands)***8. Income Taxes**

The components of the income tax expense for the year ended December 31, 2019 are summarized below:

	<u>Current</u>	<u>Deferred</u>	<u>Total</u>
Federal	\$ 348	\$ (395)	\$ (47)
State and local	(187)	(100)	(289)
<b>Total</b>	<u>\$ 161</u>	<u>\$ (495)</u>	<u>\$ (334)</u>

The Partnership had pre-tax income from foreign operations of \$1,819 for the year ended December 31, 2019.

As of December 31, 2019, the Partnership had an effective tax rate of 0.9%. The difference between the effective tax rate and the U.S. federal statutory rate is due primarily to BGCF not being subject to federal income tax.

As of December 31, 2019, the Partnership recorded a deferred tax asset of approximately \$4,350 before a valuation allowance of approximately \$3,640, which increased by \$184 in the current year. The deferred tax asset consists primarily of net operating losses and book-tax differences related to exchangeability of partnership units, depreciation and accrued expenses.

The Partnership had net operating losses in Japan of \$10,062. These losses will begin to expire in 2022.

The Tax Cut and Jobs Act (the “Tax Act”) was enacted on December 22, 2017. The Tax Act made significant changes to the US corporate income tax system, including (1) reduction of the US federal corporate income tax rate from 35% to 21%, (2) transitioning to a territorial tax system and requiring companies to pay a one-time transition tax on earnings of certain foreign subsidiaries that were previously tax deferred (3) implementation of a base erosion and anti-abuse tax (“BEAT”), (4) further limitation on deductibility of interest on financing arrangements, (5) and introduction of a new provision designed to tax a foreign subsidiaries’ global intangible low-taxed income (“GILTI”).

The Partnership has analyzed its tax positions with respect to applicable income tax issues for open tax years (in each respective jurisdiction) and determined that there were no material tax liabilities as of December 31, 2019. The Partnership recognizes interest and penalties, if any, related to unrecognized tax benefits in “Provision for income taxes” in the consolidated statement of operations. For the year ended December 31, 2019, the Partnership did not accrue any interest or

Notes to Consolidated Financial Statements (*continued*)

December 31, 2019  
(In Thousands)

**8. Income Taxes (*continued*)**

penalties related to uncertain tax positions. The Partnership has been included in BGCP's U.S. federal, state and local tax returns. BGCP is presently under UBT examination for the 2008 through 2011 years. BGCP's U.S. federal, state and non-UBT local tax returns are no longer subject to examination by tax authorities for the years prior to 2016 and 2013, respectively. BGCF's non-U.S. tax returns are no longer subject to examination for years prior to 2013.

BGCF is treated as a disregarded entity for U.S. tax purposes, as it is ultimately controlled by BGC Partners, L.P. ("BGCP"), which is owned indirectly by BGC. BGCP is taxed as a U.S. partnership, files federal, state and local partnership returns and is subject to the Unincorporated Business Tax ("UBT") in New York City for which it records an income tax provision. Pursuant to a tax-sharing policy, BGCP arranges for the payment of New York City UBT on behalf of its wholly owned and controlled entities. The Partnership reimburses payment or receives a credit for future earnings from BGCP based upon its proportionate share of BGCP's UBT liabilities. Shoken is responsible for federal and state taxes, along with other local Japanese taxes.

**9. Regulatory Requirements**

As a registered broker-dealer, BGCF is subject to the SEC's Uniform Net Capital Rule ("Rule 15c3-1"). BGCF has elected to compute its net capital using the alternative method, which requires the maintenance of minimum net capital equal to the greater of \$250 or 2% of aggregate debit balances included in SEC Customer Protection Rule ("Rule 15c3-3") arising from customer transactions, as defined.

At December 31, 2019, BGCF had net capital of \$27,929 which was \$27,125 in excess of its required net capital. In addition, BGCF's membership in the Fixed Income Clearing Corporation ("FICC") requires it to maintain minimum excess regulatory net capital of \$10,000 and partners' capital of at least \$25,000.

BGCF is required to perform a computation of the customer reserve requirements pursuant to Rule 15c3-3. As of December 31, 2019, BGCF segregated cash of \$9,800 in a special reserve account for the exclusive benefit of customers, which is included in Cash segregated under federal and other regulations in the Partnership's statement of financial condition

BGCF is also required to perform a computation of reserve requirements for Proprietary Accounts of Broker-Dealers ("PAB") pursuant to Rule 15c3-3. As of December 31, 2019, BGCF segregated cash of \$366 into a special reserve account for the exclusive benefit of PAB customers.

Notes to Consolidated Financial Statements (*continued*)

December 31, 2019

(In Thousands)

**9. Regulatory Requirements (*continued*)**

BGCF is also required in accordance with SEC Rule 17a-5(d)(2)(i) and CFTC 1.10(d)(2)(ii) to disclose any changes in liabilities subordinated to claims of general creditors. BGCF did not have any subordinated borrowings during the year ended December 31, 2019.

**10. Financial Instruments and Off-Balance Sheet Risk**

**Risk and Uncertainties**

The Partnership generates revenue by providing securities trading and brokerage services to institutional customers and by executing transactions for institutional counterparties. Revenue for these services are transaction based. As a result, the Partnership's revenue could vary based on the transaction volume of global financial markets. Additionally, the Partnership's financing is sensitive to interest rate fluctuations which could have an impact on the Partnership's overall profitability.

**Credit Risk**

Credit risk arises from potential non-performance by counterparties. The Partnership has established policies and procedures to manage the exposure to credit risk. The Partnership maintains a thorough credit approval process to limit exposure to counterparty risk and employ stringent monitoring to control the counterparty risk for the matched principal businesses. The Partnership's account opening and counterparty approval process includes verification of key customer identification, anti-money laundering verification checks and a credit review of financial and operating data. The credit review process includes establishing an internal rating and any other information deemed necessary to make an informed credit decision, which may include financials, correspondence, due diligence calls and a visit to the entity's premises, as necessary.

**Principal Transaction Risk**

The Partnership executes matched principal transactions in which it acts as a "middleman" by serving as counterparty to both a buyer and a seller in matching back-to-back trades. These transactions are then settled through a recognized settlement system or third-party clearing organization. Settlement typically occurs within one to three business days after the trade date. Cash settlement of the transaction occurs upon receipt or delivery of the underlying instrument that was traded. The Partnership generally avoids settlement of principal transactions on a free-of-payment basis or by physical delivery of the underlying instrument. However, free-of-payment transactions may occur on a very limited basis.

Notes to Consolidated Financial Statements (*continued*)

December 31, 2019  
(In Thousands)

**10. Financial Instruments and Off-Balance Sheet Risk (*continued*)**

**Market Risk**

Market risk refers to the risk that a change in the level of one or more market prices, rates, indices or other factors will result in losses for a specified position. The Partnership may allow certain of its desks to enter into unmatched principal transactions in the ordinary course of business and hold long and short inventory positions. These transactions are primarily for the purpose of facilitating clients' execution needs, adding liquidity to a market or attracting additional order flow. As a result, the Partnership may have market risk exposure on these transactions. The Partnership's exposure varies based on the size of its overall positions, the risk characteristics of the instruments held and the amount of time the positions are held before they are disposed of. All positions held longer than intra-day are marked-to-market.

The Partnership attempts to mitigate its market risk on these positions by strict risk limits, extremely limited holding periods and hedging. However, there is no assurance that these procedures and limits will be effective at limiting unanticipated losses in the future. Adverse movements in the securities positions or a downturn or disruption in the markets for these positions could result in a substantial loss. In addition, principal gains and losses resulting from these positions could on occasion have a disproportionate effect, positive or negative, on the Partnership's consolidated financial condition and results of operations for any particular reporting period.

**Operational Risk**

In providing a comprehensive array of products and services, the Partnership may be exposed to operational risk. Operational risk may result from, but is not limited to, errors related to transaction processing, breaches of internal control systems and compliance requirements, fraud by employees or persons outside the Partnership or business interruption due to systems failures or other events.

Operational risk may also include breaches of the Partnership's technology and information systems resulting from unauthorized access to confidential information or from internal or external threats, such as cyber attacks. Operational risk also includes potential legal or regulatory actions that could arise as a result of noncompliance with applicable laws and/or regulatory requirements. In the case of an operational event, the Partnership could suffer a financial loss as well as reputational damage.

Notes to Consolidated Financial Statements (*continued*)

December 31, 2019

*(In Thousands)***10. Financial Instruments and Off-Balance Sheet Risk (*continued*)****Foreign Currency Risk**

The Partnership is exposed to risks associated with changes in foreign exchange rates. Changes in foreign exchange rates create volatility in the U.S. Dollar equivalent of the Partnership's revenues and expenses. In addition, changes in the remeasurement of the Partnership's foreign currency denominated financial assets and liabilities are recorded as part of its results of operations and fluctuate with changes in foreign currency rates. BGC monitors the net exposure in foreign currencies on a daily basis and hedges its exposure as deemed appropriate with highly rated major financial institutions.

**11. Revenue from Contracts with Customers**

The following table presents the Partnership's total revenues separated between revenue from contracts with customers and other sources of revenue:

	<b><u>Year Ended</u></b> <b><u>December 31, 2019</u></b>
Revenue from contracts with customers:	
Commissions	\$ 159,114
Fees from related parties	<u>1,239</u>
<b>Total revenue from contracts with customers</b>	<b>160,353</b>
Other sources of revenue:	
Principal transactions, net	67,725
Interest income	3,467
Other revenue	<u>333</u>
<b>Total revenues</b>	<b><u>\$ 231,878</u></b>

See Note 1 — General and Summary of Significant Accounting Policies for detailed information on the recognition of the Partnership's revenue from contracts with customers.

**Contract Balances** – The timing of the Partnership's revenue recognition may differ from the timing of payment by its customers. The Partnership records a receivable when revenue is recognized prior to payment and the Partnership has an unconditional right to payment. Alternatively, when payment precedes the provision of the related services, the Partnership records deferred revenue until the performance obligations are satisfied.

Notes to Consolidated Financial Statements (*continued*)

December 31, 2019

(In Thousands)

**11. Revenue from Contracts with Customers (*continued*)**

The Partnership had receivables related to revenue from contracts with customers of \$41,242 at December 31, 2019. The Partnership had no impairments related to these receivables and did not have any deferred revenue at December 31, 2019.

**Contract Costs** – The Partnership capitalizes costs to fulfill contracts associated with different lines of its business where the revenue is recognized at a point in time and the costs are determined to be recoverable. Capitalized costs to fulfill a contract are recognized at the point in time that the related revenue is recognized. The Partnership did not have any capitalized costs to fulfill a contract as of December 31, 2019.

**12. Leases**

BGC, acting as a lessee, has operating leases primarily relating to office space and office equipment. The leases have remaining lease terms of 0.5 years to 2.8 years, some of which include options to extend the leases in 1 to 5 year increments for up to 6 years. Renewal periods are included in the lease term only when renewal is reasonably certain, which is a high threshold and requires management to apply judgment to determine the appropriate lease term. Certain leases also include periods covered by an option to terminate the lease if the Partnership is reasonably certain not to exercise the termination option. Payments for leases in place before the date of adoption of ASC 842, *Leases* were determined based on previous leases guidance. The Partnership recognizes lease expense for its operating leases on a straight-line basis over the lease term and variable lease expense not included in the lease payment measurement is recognized as incurred. All leases were classified as operating leases as of December 31, 2019.

Pursuant to the accounting policy election, leases with an initial term of twelve months or less are not recognized on the balance sheet.

ASC 842, *Leases* requires BGC to make certain assumptions and judgements in applying the guidance, including determining whether an arrangement includes a lease, determining the term of a lease when the contract has renewal or cancellation provisions, and determining the discount rate. The Partnership determines whether an arrangement is or includes a lease at contract inception by evaluating whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. If BGC has the right to obtain substantially all of the economic benefits from, and can direct the use of, the identified asset for a period of time, the Partnership accounts for the identified asset as a lease.

The Partnership has elected the practical expedient to not separate lease and non-lease components for all leases other than real estate leases. The primary non-lease component that is combined with a lease component is operating expenses such as utilities, maintenance or management fees.

Notes to Consolidated Financial Statements (*continued*)

December 31, 2019

*(In Thousands)***12. Leases (*continued*)**

As the rate implicit in the lease is not usually available, the Partnership used an incremental borrowing rate based on the information available at the adoption date of the new leases standard in determining the present value of lease payments for existing leases. BGC will use information available at the lease commencement date to determine the discount rate for any new leases.

The Partnership subleases certain real estate to third-parties. The value of these commitments is not material to the Partnership's consolidated financial statements.

As of December 31, 2019, the Partnership does not have any leases that have not yet commenced but that create significant rights and obligations.

Supplemental information related to the Partnership's operating leases is as follows:

	Classification in Consolidated Statement of Financial Condition	Amounts	As of December 31, 2019
<b><u>Assets</u></b>			
Operating lease right-of-use-assets	Other assets	\$	3,144
<b><u>Liabilities</u></b>			
Operating lease liabilities	Other long-term liabilities	\$	3,161
			<b><u>Year Ended December 31, 2019</u></b>
<b>Weighted-average remaining lease term</b>			
Operating leases (years)			2.4
<b>Weighted-average discount rate</b>			
Operating leases			3.1 %

The components of lease expense are as follows:

	Classification in Consolidated Statement of Operations	Year Ended December 31, 2019
Operating lease cost	Occupancy and equipment	\$ 1,515

BGC Financial, L.P.

**12. Leases (*continued*)**

The following table shows the Partnership's maturity analysis of its operating lease liabilities:

	<u>Operating Leases</u>
<b>Years Ending December 31,</b>	
2020	\$ 1,469
2021	1,425
2022	610
2023	83
2024	84
Thereafter	<u>11</u>
Total	\$ 3,682
Interest	<u>(513)</u>
Total	<u><u>\$ 3,169</u></u>

The following table shows cash flow information, including supplemental noncash information, related to lease liabilities and lease transactions:

	<u>Year Ended December 31, 2019</u>
Cash paid for obligations included in the measurement of lease liabilities	\$ 1,537

**13. Subsequent Events**

The Partnership has evaluated subsequent events through the date the consolidated financial statements were issued. There have been no material subsequent events that would require recognition in these consolidated financial statements or disclosure in the notes to the consolidated financial statements.

## **Supplementary Report of Independent Registered Public Accounting Firm on Internal Control Required by CFTC Regulation 1.16**

To the Partners and Management of BGC Financial, L.P.,

In planning and performing our audit of the consolidated financial statements of BGC Financial, L.P. (the "Partnership") as of and for the year ended December 31, 2019 in accordance with the standards of the Public Company Accounting Oversight Board (United States), we considered its internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Partnership's internal control. Accordingly, we do not express an opinion on the effectiveness of the Partnership's internal control.

Also, as required by Regulation 1.16 of the Commodity Futures Trading Commission (CFTC), we have made a study of the practices and procedures followed by the Partnership, including consideration of control activities for safeguarding customer and firm assets. This study included tests of such practices and procedures that we considered relevant to the objectives stated in Regulation 1.16 in making the following:

1. The periodic computations of minimum financial requirements pursuant to Regulation 1.17
2. The daily computations of the segregation requirements of Section 4d(a)(2) of the Commodity Exchange Act and the regulations thereunder, and the segregation of funds based on such computations
3. The daily computations of the foreign futures and foreign options secured amount requirements pursuant to Regulation 30.7 of the CFTC

The management of the Partnership is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the CFTC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Partnership has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Regulation 1.16(d)(2) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those responsible for oversight of the Partnership's financial reporting.

A material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Partnership's annual or interim financial statements will not be prevented or detected on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and was not designed to identify all deficiencies in internal control that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding customer and firm assets that we consider to be material weaknesses, as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the CFTC to be adequate for their purposes in accordance with the Commodity Exchange Act and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Partnership's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 2019 to meet the CFTC's objectives.

This report is intended solely for the information and use of the Partners, management, the CFTC, the Financial Industry Regulatory Authority, other regulatory agencies that rely on Regulation 1.16 of the CFTC in their regulation of registered futures commission merchants, and is not intended to be and should not be used by anyone other than these specified parties.
