Total Fee				\$1,062.73

[1] Estimated solely for the purpose of calculating the registration fee pursuant to Rule 457(c) based upon the average of the high and low prices of the Company's Common Stock on the OTC Electronic Bulletin Board (Symbol: PWCL) on April 23, 2004

[2] The registration fee is based on the total amount of funds to be received upon exercise of the common stock purchase warrants (issued in various private placements undertaken by the Registrant) into shares of our common stock, which warrants have various exercise prices.

[3] Price is calculated as the average based upon the total funds that would be received if all warrants were exercised.

Pursuant to Rule 416, this Registration Statement also registers such indeterminate number of shares as may be issuable in connection with stock splits, stock dividends or similar transactions. It is not known how many of such shares of common stock will be purchased under this Registration Statement or at what price such shares will be purchased.

The Registrant hereby amends this Registration Statement on such date or dates as may be necessary to delay its effective date until the Registrant shall file a further amendment which specifically states that this Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933 or until the Registration Statement shall become effective on such date as the Securities and Exchange Commission, acting pursuant to said Section 8(a), may determine.

**SUBJECT TO COMPLETION, DATED APRIL 29, 2004**

PROSPECTUS  
POWERCOLD CORPORATION

4,844,864 Shares of Common Stock  
(0.001 par value per share)

This prospectus relates to the resale of 3,436,884 shares of common stock issued to the selling shareholder in private offerings, and 1,407,980 shares of common stock issuable upon the exercise of warrants issued to certain of those shareholders. We are filing the registration statement of which this prospectus is a part at this time primarily to fulfill a contractual obligation to do so, which we undertook at the time of the original issuance of these shares of common stock.

The selling stockholders may, from time to time, sell any or all of their shares of common stock on the Electronic Over-the-Counter Bulletin Board or in private transactions using any of the methods described in the section of this prospectus entitled "Plan of Distribution."

We will not receive any of the proceeds from the sale of shares by the selling stockholders, other than payment of the exercise price of the warrants. We will pay all expenses in connection with this offering, other than commissions and discounts of underwriters, dealers or agents. We issued these shares of our common stock to the selling stockholder in various placement transactions during February 2002 through November 2003.

Our Common Stock is traded on the OTC Electronic Bulletin Board (Symbol: PWCL). On April 23, 2004, the last closing price of the common stock was \$1.95 per share.

**Investing in our common stock involves a high degree of risk. See "Risk Factors," beginning on page 3.**

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

This Prospectus does not constitute an offer to sell securities in any state to any person to whom it is unlawful to make such offer in such state.

The date of the Prospectus is April 29, 2004.

**We have not authorized any person to give any information or to make any representation not contained in this prospectus in connection with any offering of these shares of common stock. This prospectus is not an offer to sell any security other than these shares of common stock and it is not soliciting an offer to buy any security other than these shares of common stock. This prospectus is not an offer to sell these shares of common stock to any person and it is not soliciting an offer from any person to buy these shares of common stock in any jurisdiction where the offer or sale to that person is not permitted. You should not assume that the information contained in this prospectus is correct on any date after the date of this prospectus, even though this prospectus is delivered or these shares of common stock are offered or sold on a later date.**

## ABOUT US

We were formed on October 7, 1987 in the State of Nevada. We design, engineer, manufacture, market and support energy efficient industrial refrigeration and freezing systems. Our products are used in large food processors as well as in small commercial air-conditioning units. We believe our products are the most advanced, cost-effective and environmentally safe "quick-freeze" systems available. We believe they are the most energy-efficient because they utilize natural gas powered rotary engines. Our products are environmentally-friendly because they use no chemicals that attack the ozone layer. Our products are sold around the world.

We have four wholly owned subsidiaries:

\*\* PowerCold Products, Inc. supports our product development, engineering and manufacturing.

\*\*PowerCold ComfortAir Solutions, Inc., supports our sales and marketing offering turnkey high efficiency HVAC solutions for commercial buildings.

\*\*PowerCold International, Ltd., markets all our products and system applications worldwide through various alliances and marketing agencies.

\*\*PowerCold Technology, LLC holds title to all of our patents.

We have also established alliances with various companies in the industry to market and manufacture related heating, cooling, and energy products.

The Company's executive offices are located at 115 Canfield Road, LaVernia, TX 78121. Our telephone number is (830)-779-5213 and our facsimile number is (830)-253-8181. Unless otherwise indicated, references in this Prospectus to "PowerCold," "we," "us" and "our" are to PowerCold Corporation.

## WHY WE ARE MAKING THIS OFFERING

During the period February 2002 through November, 2003, we completed various private placements during which 3,436,884 shares of our common stock together with warrants to purchase 1,407,980 shares of common stock, were sold at various prices to accredited investors.

We agreed to register the common stock, the warrants, and stock underlying the warrants, for the selling stockholders. The registration rights agreement provides that if we decide to file a registration statement, we must register for resale of all of the shares of our common stock sold by us in the private placements. This prospectus is part of the registration statement filed to meet our obligations under the registration rights.

## FORWARD LOOKING STATEMENTS

Some of the information in this prospectus contains forward-looking statements that involve substantial risks and uncertainties. You can identify these statements by forward-looking words such as "may," "will," "expect," "anticipate," "believe," "intend," "estimate" and "continue" or similar words. You should read statements that contain these words carefully for the following reasons:

- the statements discuss our future expectations;
- the statements contain projections of our future earnings or of our financial condition; and
- the statements state other "forward-looking" information.

We believe it is important to communicate our expectations to our investors. There may be events in the future, however, that we are not accurately able to predict or over which we have no control. The risk factors listed above, as well as any cautionary language in or incorporated by reference into this prospectus, provide examples of risks, uncertainties and events that may cause our actual results to differ materially from the expectations we describe in our forward-looking statements. The SEC allows us to "incorporate by reference" the information we file with them, which means we can disclose important information to you by referring you to those documents. Before you invest in our common stock, you should be aware that the occurrence of any of the events described in the above risk factors, elsewhere in or incorporated by reference into this prospectus and other events that we have not predicted or assessed could have a material adverse effect on our earnings, financial condition and business. If the events described above or other unpredicted events occur, then the trading price of our common stock could decline and you may lose all or part of your investment.

## RISK FACTORS

You should carefully consider the risks described below before making an investment decision. The risks and uncertainties described below are not the only ones facing us. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business operations. If any of the following risks actually occur, our business, financial condition or results of operations could be materially and adversely affected. In such case, the trading price of our common stock could decline, and you may lose all or part of your investment.

### Specific Risks Related to Our Business

**We are subject to government regulations that may impose additional technology requirements to our products, which may increase our manufacturing costs, thus reducing our profitability**

Our business is subject to extensive, frequently changing, federal, state and local regulation regarding the following:

- health safety and environmental regulations;
- changing technology requirements.

Some of these laws may restrict or limit our business. Much of this regulation, particularly technology requirements, is complex and open to differing interpretations. If any of our operations are found to violate these laws, we may be subject to severe sanctions or be required to alter or discontinue our operations. If we are required to alter our practices, we may not be able to do so successfully. The occurrence of any of these events could cause our revenue and earnings to decline.

**We have a history of net losses. We expect to continue to incur net losses, and we may not achieve or maintain profitability.**

We have incurred net losses each year since our inception in 1987 including net losses of approximately \$2,437,571 for the year ended December 31, 2003, \$4,095,905 in 2002 and \$2,328,402 in 2001. As of December 31, 2003, we had an accumulated deficit of approximately \$15,862,955. Net losses may continue for at least the next several years as we proceed with the commercialization and additional development of our technologies. The presence and size of these potential net losses will depend, in part, on the rate of growth, if any, in our revenues and on the level of our expenses. Our research and development expenditures and general and

administrative costs have exceeded our revenues to date. Research and development expenses may increase due to spending for ongoing technology development and implementation, as well as new applications. We will need to generate significant additional revenues to achieve profitability. Even if we do increase our revenues and achieve profitability, we may not be able to sustain profitability.

Our ability to generate revenues and achieve profitability depends on many factors, including:

- our ability to continue existing customer relationships and enter into additional corporate collaborations and agreements;
- our ability to expand the scope of our products and services into new areas of energy efficient heating and cooling research;
- our customers' and strategic alliances' abilities to develop heating and cooling and other commercial products from the application of our technologies; and
- the successful testing, regulatory approval and commercialization of such products by our customers and strategic alliances.

The time required to reach profitability is highly uncertain. We may not achieve profitability on a sustained basis, if at all.

**We will need additional funds in the future, which may not be available to us. If we do not secure additional financing, we may be unable to develop or enhance our services, take advantage of future opportunities or respond to competitive pressures.**

We require substantial working capital to fund our business. We have had significant operating losses and negative cash flow from operations. Additional financing may not be available when needed on favorable terms or at all. If adequate funds are not available or are not available on acceptable terms, we may be unable to develop or enhance our services, take advantage of future opportunities or respond to competitive pressures, which could materially adversely affect our business. Our capital requirements depend on several factors, including the rate of market acceptance of our products, the ability to expand our customer base, the growth of sales and marketing and other factors. If capital requirements vary materially from those currently planned, we may require additional financing sooner than anticipated.

**We manufacture our products to comply with U.S. Environmental Laws, failure to do so will affect the profitability of our business**

Environmental laws affect our U.S. operations. There are many Federal, state and local laws and regulations governing the environment. We believe we meet existing environmental laws and regulations. If we violate relevant laws, our income could be seriously impacted.

We are most affected by environmental laws that control types of chemicals. Some chemicals used in air conditioning and refrigeration equipment products may affect the ozone layer.

None of our products uses the banned chemicals. However as we learn more about the environment and the ozone layer, federal and states may impose new regulations. Those laws could then have material adverse effect on our operations.

**The loss of Francis L. Simola or the inability to attract and retain additional personnel could impair the growth of our business.**

We do not carry any key-man or other life insurance on our key senior management officer, Francis L. Simola. If he dies or becomes disabled, we would have to divert time and money to locate an experienced replacement. We would be competing against large companies seeking similar candidates. A loss of Mr. Simola would hurt our operations and financial condition.

**Our Stock Value has fluctuated in an abrupt and volatile manner in the past and may do so in the future**

Our stock is traded on the Electronic Over the Counter Bulletin Board. Stocks that trade on the OTC Bulletin Board tend to experience dramatic price increases or decreases. The trading price of our common stock has been subject to significant fluctuations to date and could be subject to wide fluctuations in the future, in response to many factors, including the following:

- Actual or anticipated variations in quarterly operating results,
- Expiration or termination of licenses, research contracts or other strategic alliance agreements;
- New government requirements,
- General conditions or trends in the markets for our products or the heating and cooling Industry,
- Announcements of technological innovations by us or our competitors;
- Introductions or announcements of new products by us or our competitors;
- Additions or departures of key personnel,
- Announcements by us of significant acquisitions, strategic partnerships, joint ventures or capital commitments;
- General financial market conditions, or
- Other events or factors.

In this regard, we do not endorse or accept responsibility for the estimates or recommendations that may be issued by stock research analysts from time to time. The volatility of public stock markets, and media stocks specifically, have frequently been unrelated to the operating performance of the specific companies. These market fluctuations may adversely affect the market price of our common stock.

**If we fail to adequately protect our proprietary technologies, third parties may be able to use our technologies, which could prevent us from competing in the market.**

Our success is dependent upon our proprietary information and technology. We rely on a combination of patent, contract, trademark and trade secret laws and other measures to protect our proprietary information and technology. As part of our confidentiality procedures, we generally enter into nondisclosure agreements with our employees, distributors and customers, and limit access to and distribution of our proprietary information. Although we believe that our patent rights and trademark protection should prevent another party from manufacturing and selling competing products, there can be no assurance that the steps we have taken to protect our technology will be successful. The patents issued to us may not be adequate to protect our proprietary rights, to deter misappropriation or to prevent an unauthorized third party from copying our technology, designing around the patents we own or otherwise obtaining and using our products, designs or other information. In addition, patents may not issue under future patent applications, and the patents issued under such patent applications could be invalidated, circumvented or challenged. It may also be particularly difficult to protect our products and intellectual property under the laws of certain countries in which our products are or may be manufactured or sold.

Although we believe our products and technology do not infringe on any proprietary rights of others, as the number of competing products available in the market increases and the functions of those products further overlap, infringement claims may increase. Any such claims, with or without merit, could result in costly litigation or might require us to enter into royalty or licensing agreements. Such royalty or licensing agreements, if required, may not be available on terms acceptable to us or at all. Any successful infringement claim could have a material adverse effect upon our business, results of operations and financial condition.

**We operate in an intensely competitive industry with rapidly evolving technologies, and our competitors may develop products and technologies that make ours obsolete.**

We are in an extremely competitive market. We compete because of our service, price, quality, reliability and efficiency of our products. Several of our competitors have more money. The kind of Companies we compete with are RECold, BAC, and Evapco, York, and Carrier.

**Our stock price is likely to be below \$5.00 per share and treated as a "Penny Stock" which will place restrictions on broker-dealers recommending the stock for purchase.**

Our common stock is defined as "penny stock" under the Securities Exchange Act of 1934, and its rules. The SEC has adopted regulations that define "*penny stock*" to include common stock that has a market price of less than \$5.00 per share, subject to certain exceptions. These rules include the following requirements:

- broker-dealers must deliver, prior to the transaction, a disclosure schedule prepared by the SEC relating to the penny stock market;
- broker-dealers must disclose the commissions payable to the broker-dealer and its registered representative;
- broker-dealers must disclose current quotations for the securities;
- if a broker-dealer is the sole market-maker, the broker-dealer must disclose this fact and the broker-dealers presumed control over the market; and
- a broker-dealer must furnish its customers with monthly statements disclosing recent price information for all penny stocks held in the customers account and information on the limited market in penny stocks.

Additional sales practice requirements are imposed on broker-dealers who sell penny stocks to persons other than established customers and accredited investors. For these types of transactions, the broker-dealer must make a special suitability determination for the purchaser and must have received the purchasers written consent to the transaction prior to sale. If our common stock becomes subject to these penny stock rules these disclosure requirements may have the effect of reducing the level of trading activity in the secondary market for our common stock, if such trading market should occur. As a result, fewer broker-dealers are willing to make a market in our stock. You would then be unable to resell our shares.

### **Anti-Takeover Provisions In Our Charter Documents And Nevada Law Could Make A Third-Party Acquisition Of Us Difficult. This Could Limit The Price Investors Might Be Willing To Pay In The Future For Our Common Stock.**

Provisions in our amended and restated certificate of incorporation and bylaws could have the effect of making it more difficult for a third party to acquire, or of discouraging a third party from attempting to acquire, or control us. These provisions could limit the price that certain investors might be willing to pay in the future for shares of our common stock. Our amended and restated certificate of incorporation allows us to issue preferred stock with rights senior to those of the common stock without any further vote or action by the stockholders and our amended and restated bylaws eliminate the right of stockholders to call a special meeting of stockholders, which could make it more difficult for stockholders to effect certain corporate actions. These provisions could also have the effect of delaying or preventing a change in control. The issuance of preferred stock could decrease the amount of earnings and assets available for distribution to the holders of our common stock or could adversely affect the rights and powers, including voting rights, of such holders. In certain circumstances, such issuance could have the effect of decreasing the market price of our common stock.

### **USE OF PROCEEDS**

We will not receive any of the proceeds from the sale of the shares of our common stock by the Selling Shareholder.

Upon exercise of all of warrants, the Company would receive proceeds of \$1,651,480.

The proceeds from the exercise of the warrants will be used to produce and manufacture additional inventory of our new fluid cooler products and heat exchangers.

We estimate we will spend approximately \$25,000 in registering the offered shares.

## Ownership Table

Set forth below is a list of all stockholders who may sell shares pursuant to this prospectus. The number of shares column represents the number of shares owned by the selling stockholder prior to the offering. The "Common Shares Beneficially Owned Following the Offering" column assumes all shares registered hereby are resold by the Selling Stockholders. The Selling Stockholders identified in the following table are offering for sale 3,436,884 shares of common stock and 1,407,980 share of common stock upon exercise of the warrants. None of these shares are being offered by directors, officers or principal stockholders.

We will not receive any proceeds from the sale of the shares by the Selling Stockholders.

As of March 1, 2004, the number of shares of Common Stock that can be sold by officers, directors, principal shareholders, and others pursuant to Rule 144 is 9,207,828.

Shares purchased in this offering, which will be immediately resalable, and sales of all of our other shares after applicable restrictions expire, could have a depressive effect on the market price, if any, of our common stock.

As of March 1, 2004, we had 21,576,750 shares of our common stock outstanding, which shares were held by approximately 1,250 shareholders of record.

### **Blue Sky**

Thirty-five states have what is commonly referred to as a "manual exemption" for secondary trading of securities such as those to be resold by selling stockholders under this registration statement. In these states, so long as we obtain and maintain a listing in Standard and Poor's Corporate Manual, secondary trading can occur without any filing, review or approval by state regulatory authorities in these states. These states are: Alaska, Arizona, Arkansas, Colorado, Connecticut, Maryland, District of Columbia, Maryland, Hawaii, Idaho, Indiana, Iowa, Kansas, Maine, Maryland, Massachusetts, Michigan, Mississippi, Missouri, Nebraska, Nevada, New Jersey, New Mexico, North Carolina, North Dakota, Ohio, Oklahoma, Oregon, Rhode Island, South Carolina, Texas, Utah, Washington, West Virginia, and Wyoming.

### **DILUTION**

We are not offering any shares in this registration statement. All shares are being registered on behalf of our Selling Shareholders.

### **PLAN OF DISTRIBUTION**

We are registering on behalf of the selling stockholders 3,436,884 shares of our common stock which they own as well as and 1,407,980 share of common stock upon exercise of the warrants. The selling stockholders may, from time to time, sell all or a portion of the shares of common stock in privately negotiated transactions or otherwise. Such sales will be offered at prevailing market prices or privately negotiated prices.

The shares of common stock may be sold by the selling stockholders by one or more of the following methods, without limitation:

- on the over-the-counter market;
- to purchasers directly;
- in ordinary brokerage transactions in which the broker solicits purchasers;
- through underwriters, dealers and agents who may receive compensation in the form of underwriting discounts, concessions or commissions from a seller and/or the purchasers of the shares for whom they may act as agent;
- through the pledge of shares as security for any loan or obligation, including pledges to brokers or dealers who may from time to time effect distributions of the shares or other interests in the shares;
- through purchases by a broker or dealer as principal and resale by such broker or dealer for its own account pursuant to this prospectus;
- through block trades in which the broker or dealer so engaged will attempt to sell the shares as agent or as riskless principal but may position and resell a portion of the block as principal to facilitate the transaction;
- in any combination of one or more of these methods; or
- in any other lawful manner.

None of our officers, directors or principal stockholders are selling any stock pursuant to this prospectus. Brokers or dealers may receive commissions or discounts from the selling stockholders or, if any of the broker-dealers act as an agent for the purchaser of said shares, from the purchaser in amounts to be negotiated which are not expected to exceed those customary in the types of transactions involved. Broker-dealers may agree with the selling stockholders to sell a specified number of the shares of common stock at a stipulated price per share. In connection with such resales, the broker-dealer may pay to or receive from the purchasers of the shares, commissions as described above. The selling stockholders may also sell the shares of common stock in accordance with Rule 144 under the Securities Act, rather than pursuant to this prospectus.

The selling stockholders and any broker-dealers or agents that participate with the selling stockholders in the sale of the shares of common stock may be deemed to be "underwriters" within the meaning of the Securities Act in connection with these sales. In that event, any commissions received by the broker-dealers or agents and any profit on the resale of the shares of common stock purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. Furthermore, selling stockholders are subject to Regulation M of the Exchange Act. Regulation M prohibits any activities that could artificially influence the market for our common stock during the period when shares are being sold pursuant to this prospectus. Consequently, selling stockholders, particularly those who are also our officers and directors, must refrain from directly or indirectly attempting to induce any person to bid for or purchase the common stock being offered with any information not contained in this prospectus. Regulation M also prohibits any bids or purchases made in order to stabilize the price of our common stock in connection with the stock offered pursuant to this prospectus.

A selling stockholder may enter into hedging transactions with broker-dealers and the broker-dealers may engage in short sales of our common stock in the course of hedging the positions they assume with such selling stockholder, including, without limitation, in connection with the distribution of our common stock by such broker-dealers or pursuant to exemption from such registration. A selling stockholder may also enter into option or other transactions with broker-dealers that involve the delivery of the common stock to the broker-dealers, who may then resell or otherwise transfer such common stock. A selling stockholder may also loan or pledge the common stock to a broker-dealer and the broker-dealer may sell the common stock so loaned or upon default may sell or otherwise transfer the pledged common stock.

We have not registered or qualified offers and sales of shares of the common stock under the laws of any country, other than the United States. To comply with certain states' securities laws, if applicable, the selling shareholders will offer and sell their shares of common stock in such jurisdictions only through registered or licensed brokers or dealers. In addition, in certain states the selling shareholders may not offer or sell shares of common stock unless we have registered or qualified such shares for sale in such states or we have complied with an available exemption from registration or qualification.

All expenses of the registration statement estimated to be \$25,000 including but not limited to, legal, accounting, printing and mailing fees are and will be paid by us. We have agreed to pay costs of registering the selling stockholders' shares in this prospectus. However, any selling costs or brokerage commissions incurred by each selling stockholder relating to the sale of his/her shares will be paid by the selling stockholder.

Any broker or dealer participating in any distribution of the shares may be required to deliver a copy of this prospectus, including any prospectus supplement, to any individual who purchases any shares from or through such a broker-dealer.

## **OUR STOCK**

### **Common Stock**

We can issue up to 200,000,000 shares of Common Stock, \$0.001 par value per share. Our stockholders are entitled to one vote per share on each matter submitted to a vote at any meeting of shareholders. A majority of our outstanding Common Stock can elect the entire Board of Directors of the Company. Our bylaws say that a majority of the outstanding shares is a quorum for shareholders' meetings, except if the bylaws or a law say otherwise.

Our Shareholders have no preemptive rights to acquire additional shares of Common Stock or other securities. Our Common Stock is subject to redemption and will carry no subscription or conversion rights. If we liquidate, our Common Stock will be entitled to share equally in corporate assets after satisfaction of our bills. The shares of Common Stock, once issued, is fully paid and non-assessable.

Our stockholders can receive dividends if the Board of Directors decides to do so and if we have the funds legally available. We intends to expand our business through reinvesting our profits, if we have any, and don't expect to pay dividends.

Our Directors have the authority to issue shares without action by the shareholders.

### **Preferred Stock**

We also can issue preferred stock. We did issue 1,250,000 shares of a Series convertible, preferred stock, \$.001 par value. Those shares were subsequently converted to common stock. Currently no Preferred Stock is outstanding

## **INDEMNIFICATION**

Our Articles of Incorporation, as amended, limit, to the maximum extent permitted by law, the personal liability of our directors and officers for monetary damages for breach of their fiduciary duties as directors and officers, except in certain circumstances involving certain wrongful acts, such as a breach of the director's duty of loyalty or acts of omission which involve intentional misconduct or a knowing violation of law.

Nevada law provides that Nevada corporations may include within their articles of incorporation provisions eliminating or limiting the personal liability of their directors and officers in shareholder actions brought to obtain damages for alleged breaches of fiduciary duties, as long as the alleged acts or omissions did not involve intentional misconduct, fraud, a knowing violation of law or payment of dividends in violation of the Nevada statutes. Nevada law also allows Nevada corporations to include in their articles of incorporation or bylaws provisions to the effect that expenses of officers and directors incurred in defending a civil or criminal action must be paid by the corporation as they are incurred, subject to an undertaking on behalf of the officer or director that he or she will repay such expenses if it is ultimately determined by a court of competent jurisdiction that such officer or director is not entitled to be indemnified by the corporation because such officer or director did not act in good faith and in a manner reasonably believed to be in or not opposed to the best interests of the corporation.

Nevada law provides that Nevada corporations may eliminate or limit the personal liability of its directors and officers. This means that the articles of incorporation could state a dollar maximum for which directors would be liable, either individually or collectively, rather than eliminating total liability to the full extent permitted by the law.

Our Charter provides that a director or officer is not be personally liable to us or our shareholders for damages for any breach of fiduciary duty as a director or officer, except for liability for (i) acts or omissions which involve intentional misconduct, fraud or a knowing violation of law, or (ii) the payment of distribution in violation of Nevada Revised Statutes, 78.300. In addition, Nevada Revised Statutes, 78.751 and Article XI of our Bylaws, under certain circumstances, provided for the indemnification of the officers and directors of the Company against liabilities which they may incur in such capacities.

The Bylaws also provide that we can purchase and maintain insurance or other financial arrangements on behalf of any person who otherwise qualifies as an Indemnitee under the foregoing provisions. Other financial arrangements to assist the Indemnitee are also permitted, such as the creation of a trust fund, the establishment of a program of self-insurance, the securing of our obligation of indemnification by granting a security interest or other lien on any of our assets (including cash) and the establishment of a letter of credit, guaranty or surety.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling us pursuant to the foregoing provisions, we have been informed that in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable

## **LEGAL MATTERS**

## ITEM 17. UNDERTAKINGS.

(a) The Registrant hereby undertakes

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Act;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement;

and

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

Provided, however, that Paragraphs (a)(1)(i) and (a)(1)(ii) above do not apply if the information required to be included in a post-effective amendment by those Paragraphs is contained in periodic reports filed by the registrant pursuant to Section 13 or Section 15(d) of the Securities and Exchange Act of 1934, as amended (the "Exchange Act"), that are incorporated by reference in the registration statement.

(2) That, for the purpose of determining any liability under the Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(b) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Act, each filing of the Registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Exchange Act (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Exchange Act) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Insofar as indemnification for liabilities arising under the Act may be permitted to directors, officers and controlling persons of the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

## SIGNATURES

Pursuant to the requirements of the Securities Act of 1933, the Registrant certifies that it has reasonable grounds to believe that it meets all of the requirements for filing of Form S-3 and has duly caused this Amendment Number 2 to the Registration Statement to be signed on its behalf by the undersigned, thereunto duly authorized, on the 16th day of July, 2001.
