Item 2.03 Creation of a Direct Financial Obligation or an Obligation Under an Off-Balance Sheet Arrangement of a Registrant

On August 30, 2006, as part of a proposed overall debt and equity raise, PowerCold Corporation (the “Company”) issued seven individual Senior Subordinated Bridge Notes (“Bridge Notes”) for a total of \$390,000. Payment terms of the Bridge Note included:

The Holder shall receive, at the Maturity Date, interest equal to 6.0% of the principal amount of the Note, calculated as if the Note had been outstanding for a full calendar year comprised of a 360-day year and twelve 30-day months. Such interest may be payable, at the option of the Company, in cash or unregistered common stock. To the extent the Company elects to pay such interest in common stock, the number of shares shall be determined based on the average of the closing price for PowerCold Corporation common stock for the five preceding trading days prior to the Maturity Date.

Principal on the Bridge Note shall be due and payable on the Maturity Date, with no principal amortization required prior thereto. All or any part of the principal or any obligation due herein, may be pre-paid, at any time, without penalty. The Company shall have the option to prepay the Bridge Note, in full or in part, at any time prior to the Maturity Date. At the option of the Holder, the Bridge Note may be converted at maturity into securities having the same terms, conditions and valuation as those issued in connection with a “Qualified Refinancing” of the Bridge Note.

Effective December 1, 2006, the Company extended the Bridge Notes for three months to February 28, 2007.

Item 8.01 Other Events

Liquidity

The Company reported in its Form 10-K filings for the years ended December 31, 2004, and December 31, 2005, which have since had their audit opinions withdrawn, that its consolidated financial statements were prepared on the basis of “going concern” qualification. At December 31, 2005, the Company reported an accumulated deficit of \$27,302,257 and recurring losses from operations for each year presented of an estimated \$1,140,853 and \$2,367,405 respectively. As of December 31, 2006, the cash position of the Company was \$51,758.

The Company has been unable to meet certain obligations as they have become due. The Company has convertible notes due to Laurus of approximately \$3,500,000 and a group of seven additional investors totaling approximately \$390,000 plus accrued and unpaid interest. Since the inception of the Laurus note in July 2004 the Company has reduced the principal by \$1,500,000 but has been unable to meet the principal payment terms of the obligation on a consistent basis. The other convertible notes totaling \$390,000 became due on November 30, 2006 and the Company extended the notes because it was unable to meet the terms.

The Company has accounts payable in excess of \$600,000 and much of this is at least 120 days old. The Company has identified vendors that are critical to their day-to-day operations. For those we have attempted to pay for their services within ninety days. If we are unable to maintain this payment schedule, we risk losing valuable services that could limit our ability to service new and existing customers. This could severely restrict revenue growth and prevent the Company from reaching profitability.

In order to fund operations and meet obligations the Company has relied on the sale of Company unregistered common stock and the issuance of debt. During 2006 the Company raised \$1,744,000 by issuing common stock and \$390,000 in short term loans. Given the current financial condition of the Company it will be difficult to obtain the funds necessary to continue development and sales of our products, although the Company plans to continue to try and raise funds to support operations. The Company anticipates orders for its new Fluid Cooler units made of fiberglass and polymer coils beginning in the late first quarter 2007.

Related Party Transactions

During 2006 the Company entered into Common Stock Purchase Agreements with Henry Sanborn, the Company’s largest individual shareholder on three occasions. In May 2006 the Company entered into a Common Stock Purchase Agreement with Sanborn for the purchase of 1,200,000 shares of common stock at a price of \$0.35 per share. In June 2006, the Company entered into a Common Stock Purchase Agreement with Sanborn for the purchase of 300,000 shares of common stock at a price of \$0.35 per share. In October 2006, the Company entered into a Common Stock Purchase Agreement with Sanborn for the purchase in two transactions of a total of 1,200,000 shares of common stock at a price of \$0.25 per share. No registration rights have been granted as part of this transaction. During the year Sanborn purchased 2,700,000 shares of common stock for cash consideration of \$825,000.

During 2006 the Company issued 185,000 shares of common stock with a fair market value of \$120,000 to Simco, a company controlled by the Company's Chief Executive Officer to compensate the CEO for out of pocket expenses. Subsequently, 125,000 shares were transferred to others. Simco retained 60,000 shares of the original 185,000 shares.

During 2006, the CEO did not take a salary; however, the Company paid Simco, a company controlled by the CEO \$120,000 for services rendered. The Company also reduced approximately \$26,000 of the outstanding principal amount owed on the loan from Simco to the Company.

Significant Events

During the year ended December 31, 2005, the Company elected to fully dispose of PowerCold ComfortAir Solutions, Inc. ("PCAS"). As reported in the Company's December 31, 2005 Form 10K we received a note receivable from the new ownership group of PowerCold Comfort Air Solutions, Inc. for \$355,155 and experienced debt relief from the transfer of liabilities in excess of assets of \$236,971. The Company therefore had a gain from disposal of discontinued operations of \$592,106 which was offset against 2005 operating losses of discontinued operations of \$5,593,036 resulting in a net loss from discontinued operations of \$5,000,930.

The resulting company, Comfort Air Solutions, Inc. ("CAS") filed in Federal Court for bankruptcy protection on December 11, 2006. PowerCold was to begin receiving payments on our note receivable on July 1, 2006, but to date no payments have been made. The Company has determined that extensive efforts to collect the debt would not be worthwhile, that the debt is uncollectible and intends to write-off the note receivable of \$355,155.

Products

The Company recently expanded its product line offering by introducing its new proprietary evaporative Fluid Coolers that employs an evaporative heat exchanger constructed from DuPont™ Caltrel® polymer micro tubing which is encased in all fiberglass housing. This product serves the high volume 25 to 300 ton commercial water source heat pump market, 5 to 25 ton geothermal heat pump market and numerous process and industrial cooling applications. These markets are currently served primarily by galvanized steel constructed units utilizing evaporative coils constructed from either galvanized steel or copper. These products have the following limitations:

- Corrosion (galvanized steel rusts and corrodes from aggressive water)
- Scale buildup on heat transfer coils (requires expensive chemical treatment to minimize mineral concentrations)
- Inefficient water usage (requires water usage on cool summer nights, spring and fall)
- Heavy weight (steel and copper coils are heavy and require significant structural support)
- Escalating raw material costs (steel and copper prices have increased over the past few years and are expected to continue at higher levels due to increasing demand)

PowerCold has focused its product development and marketing efforts to address these limitations. The Company's current product offerings include complete systems and sub-assemblies for commercial applications that utilize several advantages:

- Non-Corrosive materials
- Reduced operating costs
- Reduced water consumption
- Reduced refrigerant charge

The new line of fluid coolers has the following features:

- Non corrosive fiberglass and DuPont™ Caltrel® polymer tubing construction to resist corrosion
- Scale does not build on DuPont™ Caltrel® polymer tubing allowing for higher cycles of water concentration thereby significantly reducing chemical usage
- DuPont™ Caltrel® requires 3 to 5 times the heat transfer surface area of galvanized and copper coils, thereby allowing for complete dry operation at much higher ambient temperatures. Dry operation can be an operating strategy to significantly reduce water and chemical usage
- Fluid Cooler units made from fiberglass and DuPont™ Caltrel® polymer tubing materials are much lighter than units made from metal
- Plastic material prices have been relatively more stable than metals

Item 9.01 Financial Statements and Exhibits

We were unable to file a timely Form 10-Q for the period ending September 30, 2006 because we have not completed our financial statements. We have determined that our previously filed audited and interim financial statements for the periods from January 2004 through the second quarter of 2006 should no longer be relied upon because those financial statements were prepared applying accounting practices that did not comply with generally accepted accounting principles ("GAAP"). The misstatements were directly related to the former subsidiary PCAS and led to the sale of PCAS. Accordingly, we are conducting a restatement of our historical financial statements for the years ended December 31, 2004 and 2005, and for the interim periods ended March 31, 2004, June 30, 2004, September 30, 2004, March 31, 2005, June 30, 2005, September 30, 2005, March 31, 2006 and June 30, 2006.

We are undertaking a comprehensive review of our accounting policies and practices. We have not completed our analysis and we have not determined the extent the accounting issues we have identified pursuant to our review will result in an error requiring restatement, nor do we believe that we have identified all errors or issues that may require restatement. Our conclusions remain subject to further analysis and we do not expect to be able to quantify the final financial statement impact of the accounting errors until we complete our restatement and file our 2004 and 2005 Annual Reports on Form 10-K.

We are working to complete the restatement of our financial statements for the years ended December 31, 2005 and 2004. We also are reviewing our accounting routines and controls, and our financial reporting processes.

Restating our 2004 and 2005 financial statements and preparing our 2006 financial statements has required, and continues to require, a substantial amount of time and resources because the restatement entails significant complexities, including:

- a thorough and comprehensive review of our accounting policies and practices, and, with the completion of this review, the appropriate application and implementation of our revised accounting policies and practices;
- restating our financial statements for multiple periods under the standards relevant at various points in time; and
- the existence of deficiencies in our accounting controls during the restatement period that will necessitate substantive audit testing procedures by our independent registered public accounting firm.

Based on our current assessment, and subject to obtaining sufficient funds to devote to the project we plan to complete our restatement and file our Annual Reports on Form 10-K for the years ended December 31, 2005 and 2004 by mid year 2007. Prior to the filing of our Annual and Interim Reports on Form 10-K and 10-Q, we plan to publish a press release providing the date of the filing.

SENIOR SUBORDINATED BRIDGE NOTE

FOR VALUE RECEIVED, POWERCOLD CORPORATION, a Nevada corporation (the "Borrower"), hereby promises to pay to _____ (the "Holder") or its registered assigns or successors in interest, on order, the sum of _____ Dollars, together with any accrued and unpaid interest hereon, on November 30, 2006 (the "Maturity Date"), if not sooner paid.

The following terms shall apply to this Senior Subordinated Bridge Note (the "Note"):

1. **Interest.** The Holder shall receive, at the Maturity Date, interest equal to 6.0% of the principal amount of the Note, calculated as if the Note had been outstanding for a full calendar year comprised of a 360-day year and twelve 30-day months. Such interest may be payable, at the option of the Borrower, in cash or unregistered common stock of the Borrower (the "Common Stock"). To the extent the Borrower elects to pay such interest in Common Stock, the number of shares shall be determined based on the average of the closing price for the Borrower's Common Stock for the five preceding trading days prior to the Maturity Date.

2. **Repayment.** Principal on the Note shall be due and payable on the Maturity Date, with no principal amortization required prior thereto. All or any part of the principal or any obligation due herein, may be pre-paid, at any time, without penalty. The Borrower shall have the option to prepay the Note, in full or in part, at any time prior to the Maturity Date, at 100% of the principal amount of the Note then outstanding plus accrued but unpaid interest.

3. **Optional Conversion.** At the option of the Holder, the Note may be converted at maturity into securities having the same terms, conditions and valuation as those issued in connection with a Qualifying Refinancing of this Note (the "Refinancing"). For purposes of this Note, a Qualifying Refinancing is defined as a closing of a private placement or public offering to institutional or other accredited investors, which raises a minimum of \$8,500,000 of capital for the Borrower.

4. Ranking. The Note shall be subordinated to the Borrower's outstanding Convertible Debt and any other Senior Debt Obligations.

5. Collateral. The Note shall be collateralized by unregistered shares of the Borrower's Common Stock (the "Collateral Shares") in an amount equal to 120% of the Note (the "Collateral Margin") and held in an account maintained by or on behalf of the Borrower's legal counsel. The per share price of the Collateral Shares shall equal the initial principal amount of the Note divided by the average closing price of the Borrower's Common Stock for the 15 trading days prior to closing of this transaction. The Collateral Margin shall be recalculated on each 30-day anniversary that the Note is outstanding, based on the above formula. To the extent the value of the Collateral Shares in such calculation at that time falls below the Collateral Margin, the Borrower shall issue additional shares of Common Stock so as to maintain the Collateral Margin.

6. Warrants. Upon maturity of the Note, the Borrower shall issue the Holder warrants to purchase Common Stock of the Borrower (the "Warrants") in an amount equal to 10% of the original principal amount of the Note. The Warrants shall expire five years from the date of issuance. The exercise price of the Warrants shall be determined at issuance of the Warrants and shall equal the lower of \$0.65 per share or 150% of the average closing price of the Borrower's Common Stock for the 15 trading days prior to maturity of the Note.

7. Amendment Provision. The term "Note" and all reference thereto, as used throughout this instrument, shall mean this instrument as originally executed, or if later amended or supplemented, then as so amended or supplemented, and any successor instrument issued pursuant to the terms of this Note, as it may be amended or supplemented.

8. Assignability. Subject to applicable securities laws, this Note shall be binding upon the Borrower and its successors and assigns, and shall inure to the benefit of the Holder and its successors and assigns. This Note shall not be assigned by the Holder without the consent of the Borrower. This Note may not be sold, transferred, assigned or hypothecated unless an exemption from the registration requirements of the United States Securities Act of 1933, as amended (the "Securities Act"), is available. Any such assignment shall be made by surrender of this Note to the Borrower or at the office of its stock transfer agent, together with a written opinion of counsel to the effect that the proposed assignment will not violate applicable securities laws; whereupon the Borrower shall, without charge, execute and deliver a new Note in the name of the assignee named in such instrument or assignment and this Note shall promptly be cancelled.

9. Governing Law. This Note shall be governed by and construed in accordance with the laws of the State of Texas without regard to principles of conflicts of laws. Any controversy arising out of, connected to, or relating to any matters herein of the transactions between Holder and Borrower shall be settled by arbitration in accordance with the rules of the American Arbitration Association; and in accordance with this paragraph and judgment on the arbitrator's award may be entered in any court having jurisdiction thereof in accordance with the provisions of Texas Law. In the event of such a dispute, each party to the conflict shall select an arbitrator, both of whom shall then select a third arbitrator, which shall constitute the three person arbitration board. The decision of a majority of the board of arbitrators, who shall render

their decision within thirty (30) days of appointment of the final arbitrator, shall be binding upon the parties. The prevailing party on any action to enforce rights hereunder shall be entitled, in addition to any court awarded damages, their costs and reasonable attorney's fees, whether at trial, or on appeal. Venue for any proceeding herein shall lie in Austin, Texas.

The prevailing party shall be entitled to recover from the other party its reasonable attorney's fees and costs. Any such provision which may prove invalid or unenforceable under any law shall not affect the validity or unenforceability of any other provision of this Note.

10. Maximum Payments. Nothing contained herein shall be deemed to establish or require the payment of a rate of interest or other charges in excess of the maximum permitted by applicable law. In the event that the rate of interest required to be paid or other charges hereunder exceed the maximum permitted by such law, any payments in excess of such maximum shall be credited against amounts owed by the Borrower to the Holder and thus refunded to the Borrower. Holder acknowledge that the amounts due under this Note are primarily for commercial, investment or business purposes, and are not for personal, family or household purposes of any kind. This investment is intended for working capital, capital investments, repayment of short term and intermediate term debt, and other business expansion purposes.

11. Compliance with the Securities Act.

The Company is under no obligation to register this Note, the Warrant, or any Common Stock Issuable thereon.
- (c) The rights of this Note and/or Warrant may only be exercised by or on behalf of a Holder who, at the time of exercise, either:

- (i) Provides written confirmation that the undersigned was the original Purchaser (the “Initial Purchaser”) under which the Note and Warrant were issued; or

- (d) Holder confirms that it is an “accredited investor” within the meaning of SEC Regulation “D,” or the undersigned alone, or together with its purchaser representative(s), has such knowledge and experience in financial and business matters that Holder, or the undersigned and such representative(s) together, are capable of evaluating the merits and risks of this Note and the Warrant, and of making an informed decision regarding this Pledge and the Note.
