## A LETTER FROM THE CEO

---

Dear Shareholder:

We are pleased to present this annual report for Dreyfus New Jersey Municipal Money Market Fund, Inc., covering the 12-month period from December 1, 2005, through November 30, 2006.

Although reports of declining housing prices have raised some economic concerns, we believe that neither a domestic recession nor a major shortfall in global growth is likely. A stubbornly low unemployment rate suggests that labor market conditions remain strong, and stimulative monetary policies over the last several years have left a legacy of ample financial liquidity worldwide. These and other factors should continue to support further economic expansion, but at a slower rate than we saw earlier this year.

The U.S. bond market also appears to be expecting a slower economy, as evidenced by an “inverted yield curve” at the end of November, in which yields of two-year U.S. Treasury securities were lower than the overnight federal funds rate. This anomaly may indicate that short-term interest rates have peaked, while the Federal Reserve Board remains “on hold” as it assesses new releases of economic data. As always, we encourage you to discuss the implications of these and other matters with your financial advisor.

Thank you for your continued confidence and support.

Sincerely,

Thomas F. Eggers  
Chief Executive Officer  
The Dreyfus Corporation  
December 15, 2006

## DISCUSSION OF FUND PERFORMANCE

---

Joseph Irace, Portfolio Manager

### **How did Dreyfus New Jersey Municipal Money Market Fund perform during the period?**

For the 12-month period ended November 30, 2006, the fund produced a yield of 2.73%. Taking into account the effects of compounding, the fund produced an effective yield of 2.76%.<sup>1</sup>

Yields of tax-exempt money market securities rose along with short-term interest rates early in the reporting period before stabilizing when the Federal Reserve Board (the “Fed”) refrained from further rate hikes in the summer and fall of 2006.

### **What is the fund’s investment approach?**

The fund’s objective is to seek as high a level of current income exempt from federal and New Jersey state income taxes as is consistent with the preservation of capital and the maintenance of liquidity. The fund also seeks to maintain a stable \$1.00 share price. To pursue its goal, the fund normally invests substantially all of its assets in short-term, high-quality municipal obligations that provide income exempt from federal and New Jersey state income taxes.

When pursuing the fund’s objective, we employ two primary strategies. First, we attempt to add value by constructing a portfolio of high-quality, tax-exempt money market municipal obligations that provide income exempt from federal and New Jersey state income taxes. Second, we actively manage the fund’s average maturity in anticipation of interest-rate trends and supply-and-demand changes in New Jersey’s short-term municipal marketplace.

For example, if we expect an increase in short-term supply, we may reduce the weighted average maturity of the fund, which should better position the fund to purchase new securities with higher yields, if higher yields materialize. Yields tend to rise when there is an increase in new-issue supply competing for investor interest. New securities generally are

issued with maturities in the one-year range and tend to lengthen the fund's weighted average maturity if purchased. If we anticipate limited new-issue supply, we may extend the fund's average maturity to maintain then-current yields for as long as we think practical. At other times, we try to maintain an average maturity that reflects our view of short-term interest-rate trends and future supply-and-demand considerations.

### **What other factors influenced the fund's performance?**

As it had since June 2004, the Fed continued to raise short-term interest rates at the start of the reporting period. Nonetheless, the U.S. economy gained momentum in the opening months of 2006 as labor markets strengthened and GDP growth accelerated. In May, resurgent energy prices and hawkish comments from Fed members caused inflation concerns to intensify, and investors concluded that the Fed might raise interest rates more than previously expected. In fact, the Fed raised short-term interest rates through the end of June, driving the overnight federal funds rate to 5.25%.

Inflation concerns waned during the summer, however, when U.S. housing markets softened and employment gains moderated. As a result, investors looked forward to a possible end to the Fed's tightening campaign. The Fed obliged at its August, September and October meetings by holding the federal funds rate steady, its first pauses in more than two years. Energy prices fell significantly in the late summer and fall, and GDP growth moderated to a 2.2% annualized rate in the third quarter, down from 2.6% in the second quarter.

Like many other states, the growing U.S. economy benefited New Jersey's fiscal condition as tax receipts came in higher than the same period one year earlier. Although the state's debt burden has increased, other states had less need to borrow, causing the national supply of newly issued municipal money market securities to decline compared to the same period one year earlier. Yet, investor demand remained robust, putting downward pressure on yields.

As inflation-related concerns ebbed, yields of longer-term municipal securities declined while those of shorter-dated municipal money market securities remained stable. This left little difference in the yields of tax-exempt securities with maturities between six months and four years. Investors therefore focused mainly on instruments maturing in six months or less, which suppressed yields at the short end of the maturity range.

In this environment, we generally maintained the fund's weighted average maturity in a range we considered to be in line with industry averages. With yields relatively low at the long and short ends of the fund's maturity spectrum, we increased our focus on tax-exempt commercial paper with maturities in the three- to five-month range. We also found opportunities in municipal notes and bonds from smaller New Jersey school districts.

### **What is the fund's current strategy?**

Recent Fed comments and evidence of slower economic growth suggest to us that the Fed is unlikely either to raise or lower short-term interest rates over the foreseeable future. While we have maintained the fund's market-neutral position, we may lengthen its weighted average maturity to take advantage of seasonal opportunities for higher yields that typically arise near year-end. Of course, we are prepared to adjust our strategies as market conditions continue to evolve.

December 15, 2006

*An investment in the fund is not insured or guaranteed by the FDIC or any other government agency. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the fund.*

- <sup>1</sup> *Effective yield is based upon dividends declared daily and reinvested monthly. Past performance is no guarantee of future results. Yields fluctuate. Some income may be subject to the federal alternative minimum tax (AMT) for certain investors.*

# UNDERSTANDING YOUR FUND'S EXPENSES (Unaudited)

*As a mutual fund investor, you pay ongoing expenses, such as management fees and other expenses. Using the information below, you can estimate how these expenses affect your investment and compare them with the expenses of other funds. You also may pay one-time transaction expenses, including sales charges (loads) and redemption fees, which are not shown in this section and would have resulted in higher total expenses. For more information, see your fund's prospectus or talk to your financial adviser.*

## Review your fund's expenses

The table below shows the expenses you would have paid on a \$1,000 investment in Dreyfus New Jersey Municipal Money Market Fund, Inc. from June 1, 2006 to November 30, 2006. It also shows how much a \$1,000 investment would be worth at the close of the period, assuming actual returns and expenses.

Expenses and Value of a \$1,000 Investment	
assuming actual returns for the six months ended November 30, 2006	
Expenses paid per \$1,000†	\$ 3.18
Ending value (after expenses)	\$1,014.80

## COMPARING YOUR FUND'S EXPENSES WITH THOSE OF OTHER FUNDS (Unaudited)

### Using the SEC's method to compare expenses

The Securities and Exchange Commission (SEC) has established guidelines to help investors assess fund expenses. Per these guidelines, the table below shows your fund's expenses based on a \$1,000 investment, assuming a hypothetical 5% annualized return. You can use this information to compare the ongoing expenses (but not transaction expenses or total cost) of investing in the fund with those of other funds. All mutual fund shareholder reports will provide this information to help you make this comparison. Please note that you cannot use this information to estimate your actual ending account balance and expenses paid during the period.

Expenses and Value of a \$1,000 Investment	
assuming a hypothetical 5% annualized return for the six months ended November 30, 2006	
Expenses paid per \$1,000†	\$ 3.19
Ending value (after expenses)	\$1,021.91

† Expenses are equal to the fund's annualized expense ratio of .63%, multiplied by the average account value over the period, multiplied by 183/365 (to reflect the one-half year period).

### **NOTE 1—Significant Accounting Policies:**

Dreyfus New Jersey Municipal Money Market Fund, Inc. (the “fund”) is registered under the Investment Company Act of 1940, as amended (the “Act”), as a non-diversified open-end management investment company. The fund’s investment objective is to provide investors with as high a level of current income exempt from federal and New Jersey state income taxes as is consistent with the preservation of capital and the maintenance of liquidity. The Dreyfus Corporation (the “Manager” or “Dreyfus”) serves as the fund’s investment adviser. The Manager is a wholly-owned subsidiary of Mellon Financial Corporation (“Mellon Financial”). Dreyfus Service Corporation (the “Distributor”), a wholly-owned subsidiary of the Manager, is the distributor of the fund’s shares, which are sold to the public without a sales charge.

On December 4, 2006, Mellon Financial and The Bank of New York Company, Inc. announced that they had entered into a definitive agreement to merge. The new company will be called The Bank of New York Mellon Corporation. As part of this transaction, Dreyfus would become a wholly-owned subsidiary of The Bank of New York Mellon Corporation. The transaction is subject to certain regulatory approvals and the approval of The Bank of New York Company, Inc.’s and Mellon Financial’s shareholders, as well as other customary conditions to closing. Subject to such approvals and the satisfaction of the other conditions, Mellon Financial and The Bank of New York Company, Inc. expect the transaction to be completed in the third quarter of 2007.

On August 2, 2005, the Board of Directors approved a change in the fund’s fiscal year end from January 31 to November 30.

It is the fund’s policy to maintain a continuous net asset value per share of \$1.00; the fund has adopted certain investment, portfolio valuation and dividend and distribution policies to enable it to do so. There is no assurance, however, that the fund will be able to maintain a stable net asset value per share of \$1.00.

The fund’s financial statements are prepared in accordance with U.S. generally accepted accounting principles, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

The fund enters into contracts that contain a variety of indemnifications. The fund's maximum exposure under these arrangements is unknown. The fund does not anticipate recognizing any loss related to these arrangements.

**(a) Portfolio valuation:** Investments in securities are valued at amortized cost in accordance with Rule 2a-7 of the Act, which has been determined by the Board of Directors to represent the fair value of the fund's investments.

On September 20, 2006, the Financial Accounting Standards Board (FASB) released Statement of Financial Accounting Standards No. 157 "Fair Value Measurements" ("FAS 157"). FAS 157 establishes an authoritative definition of fair value, sets out a framework for measuring fair value, and requires additional disclosures about fair-value measurements. The application of FAS 157 is required for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. Management does not believe that the application of this standard will have a material impact on the financial statements of the fund.

**(b) Securities transactions and investment income:** Securities transactions are recorded on a trade date basis. Interest income, adjusted for accretion of discount and amortization of premium on investments, is earned from settlement date and recognized on the accrual basis. Realized gain and loss from securities transactions are recorded on the identified cost basis. Cost of investments represents amortized cost.

The fund has an arrangement with the custodian bank whereby the fund receives earnings credits from the custodian when positive cash balances are maintained, which are used to offset custody fees. For financial reporting purposes, the fund includes net earnings credits, if any, as an expense offset in the Statement of Operations.

The fund follows an investment policy of investing primarily in municipal obligations of one state. Economic changes affecting the state and certain of its public bodies and municipalities may affect the ability of issuers within the state to pay interest on, or repay principal of, municipal obligations held by the fund.

**(c) Dividends to shareholders:** It is the policy of the fund to declare dividends daily from investment income-net. Such dividends are paid monthly. Dividends from net realized capital gain, if any, are normally declared and paid annually, but the fund may make distributions on a more frequent basis to comply with the distribution requirements of the Internal Revenue Code of 1986, as amended (the “Code”). To the extent that net realized capital gain can be offset by capital loss carryovers, if any, it is the policy of the fund not to distribute such gain.

**(d) Federal income taxes:** It is the policy of the fund to continue to qualify as a regulated investment company, which can distribute tax exempt dividends, by complying with the applicable provisions of the Code, and to make distributions of income and net realized capital gain sufficient to relieve it from substantially all federal income and excise taxes.

On July 13, 2006, the FASB released FASB Interpretation No. 48 “Accounting for Uncertainty in Income Taxes” (FIN 48). FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. FIN 48 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the fund’s tax returns to determine whether the tax positions are “more-likely-than-not” of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. Adoption of FIN 48 is required for fiscal years beginning after December 15, 2006 and is to be applied to all open tax years as of the effective date. Management does not believe that the application of this standard will have a material impact on the financial statements of the fund.

At November 30, 2006, the components of accumulated earnings on a tax basis were substantially the same as for financial reporting purposes.

The tax character of distributions paid to shareholders during the fiscal periods ended November 30, 2006, November 30, 2005 and January 31, 2005 were all tax exempt income.

At November 30, 2006, the cost of investments for federal income tax purposes was substantially the same as the cost for financial reporting purposes (see the Statement of Investments).

**NOTE 2—Management Fee and Other Transactions with Affiliates:**

(a) Pursuant to a management agreement with the Manager, the management fee is computed at the annual rate of .50% of the value of the fund's average daily net assets and is payable monthly.

(b) Under the Shareholder Services Plan, the fund reimburses the Distributor, an amount not to exceed an annual rate of .25% of the value of the fund's average daily net assets for certain allocated expenses of providing personal services and/or maintaining shareholder accounts. The services provided may include personal services relating to shareholder accounts, such as answering shareholder inquiries regarding the fund and providing reports and other information, and services related to the maintenance of shareholder accounts. During the period ended November 30, 2006, the fund was charged \$189,670 pursuant to the Shareholder Services Plan.

The fund compensates Dreyfus Transfer, Inc., a wholly-owned subsidiary of the Manager, under a transfer agency agreement, for providing personnel and facilities to perform transfer agency services for the fund. During the period ended November 30, 2006, the fund was charged \$91,056 pursuant to the transfer agency agreement.

During the period ended November 30, 2006, the fund was charged \$4,184 for services performed by the Chief Compliance Officer.

The components of Due to The Dreyfus Corporation and affiliates in the Statement of Assets and Liabilities consist of: management fees \$155,008, chief compliance officer fees \$1,704 and transfer agency per account fees \$14,946.

(c) Each Board member also serves as a Board member of other funds within the Dreyfus complex. Annual retainer fees and attendance fees are allocated to each fund based on net assets.

# REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

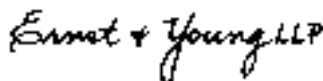

## **Shareholders and Board of Directors**

### **Dreyfus New Jersey Municipal Money Market Fund, Inc.**

We have audited the accompanying statement of assets and liabilities of Dreyfus New Jersey Municipal Money Market Fund, Inc., including the statement of investments, as of November 30, 2006, and the related statements of operations and changes in net assets and financial highlights for each of the periods indicated therein. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Fund's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of November 30, 2006 by correspondence with the custodian. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Dreyfus New Jersey Municipal Money Market Fund, Inc. at November 30, 2006, and the results of its operations, the changes in its net assets and the financial highlights for each of the indicated periods, in conformity with U.S. generally accepted accounting principles.

The signature of Ernst & Young LLP is written in a cursive, handwritten style in black ink.

New York, New York  
January 4, 2007

IMPORTANT TAX INFORMATION (Unaudited)

In accordance with federal tax law, the fund hereby designates all the dividends paid from investment income-net during the fiscal period ended November 30, 2006 as “exempt-interest dividends” (not subject to regular federal and, for individuals who are New Jersey residents, New Jersey personal income taxes).

As required by federal tax law rules, shareholders will receive notification of their portion of the fund’s exempt-interest dividends paid for the 2006 calendar year on Form 1099-INT, which will be mailed by January 31, 2007.

PROXY RESULTS (Unaudited)

The fund held a special meeting of shareholders on September 20, 2006. The proposal considered at the meeting, and the results, are as follows:

	Shares	
	Votes For	Authority Withheld
To elect additional Board Members:		
Hodding Carter III †	145,103,830	4,531,324
Ehud Houminer †	145,950,479	3,684,675
Richard C. Leone †	145,403,629	4,231,524
Hans C. Mautner †	145,451,650	4,183,504
Robin A. Melvin †	145,863,108	3,772,045
John E. Zuccotti †	145,295,056	4,340,098

† Each new Board member’s term commenced on January 1, 2007.  
In addition Joseph S. DiMartino, David W. Burke, Gordon J. Davis, Joni Evans, Arnold S. Hiatt and Burton N. Wallack continue as Board members of the fund.
