Opportunities in U.S. Equities

\$3,009,900 PLUS Based on the Price of the Financial Select Sector SPDR® Fund due December 3, 2021

Performance Leveraged Upside SecuritiesSM

Principal at Risk Securities

The PLUS offered are senior unsecured debt securities of HSBC USA Inc. ("HSBC"), will not pay interest, do not guarantee any return of principal at maturity and have the terms described in the accompanying ETF Underlying Supplement, prospectus supplement and prospectus, as supplemented or modified by this pricing supplement. All references to "Reference Asset" in the prospectus supplement and the ETF Underlying Supplement shall refer to the "underlying shares" herein. At maturity, if the price of the underlying shares has appreciated from the initial share price, investors will receive the stated principal amount of their investment plus a payment reflecting the leveraged upside performance of the underlying shares, subject to the maximum payment at maturity. However, at maturity, if the price of the underlying shares has depreciated, the investor will lose 1% for every 1% decline in the underlying shares from the pricing date to the valuation date. The PLUS are for investors who seek an equity fund-based return and who are willing to risk their principal and forgo current income and upside above the maximum payment at maturity in exchange for the leverage feature, which applies to a limited range of positive performance of the underlying shares. **Investors may lose up to 100% of the stated principal amount of the PLUS. All payments on the PLUS are subject to the credit risk of HSBC.**

FINAL TERMS			
Issuer:	HSBC USA Inc. ("HSBC")		
Maturity date:	December 3, 2021, subject to adjustment as described under "Additional Terms of the Notes—Coupon Payment Dates, Call Payment Dates and Maturity Date" in the accompanying ETF Underlying Supplement		
Underlying shares:	Shares of the Financial Select Sector SPDR® Fund (the "index fund") (Bloomberg symbol: "XLF")		
Aggregate principal amount:	\$3,009,900		
Payment at maturity:	<p>For each \$10 stated principal amount security you hold at maturity:</p> <ul style="list-style-type: none"> If the final share price is greater than the initial share price: \$10 + the leveraged upside payment, subject to the maximum payment at maturity If the final share price is less than or equal to the initial share price: \$10 x the share performance factor <p>Under these circumstances, the payment at maturity will be less than the stated principal amount of \$10 and will result in a loss of up to 100% of your investment. All payments on the PLUS are subject to the credit risk of HSBC.</p>		
Leveraged upside payment:	\$10 x leverage factor x share percent increase		
Leverage factor:	300%		
Share percent increase:	(final share price – initial share price) / initial share price		
Initial share price:	\$25.18, which was the official closing price of the underlying shares on the pricing date		
Final share price:	The official closing price of the underlying shares on the valuation date.		
Valuation date:	November 30, 2021, subject to adjustment as described in "Additional Terms of the Notes—Valuation Dates" in the accompanying ETF Underlying Supplement		
Share performance factor:	final share price / initial share price		
Maximum payment at maturity:	\$12.10 per PLUS (121.00% of the stated principal amount)		
Stated principal amount:	\$10 per PLUS		
Issue price:	\$10 per PLUS		
Pricing date:	August 14, 2020		
Original issue date:	August 19, 2020		
Estimated initial value:	The estimated initial value of the PLUS is less than the price you pay to purchase the PLUS. The estimated initial value does not represent a minimum price at which we or any of our affiliates would be willing to purchase your PLUS in the secondary market, if any, at any time. See "Risk Factors — The estimated initial value of the PLUS, which was determined by us on the pricing date, is less than the price to public and may differ from the market value of the PLUS in the secondary market, if any."		
CUSIP:	40438J288		
ISIN:	US40438J2886		
Listing:	The PLUS will not be listed on any securities exchange.		
Agent:	HSBC Securities (USA) Inc., an affiliate of HSBC. See "Supplemental plan of distribution (conflicts of interest)".		
Commissions and issue price:	Price to public	Fees and commissions	Proceeds to issuer
Per PLUS	\$10.00	\$0.175 ⁽¹⁾ \$0.050 ⁽²⁾	\$9.775
Total	\$3,009,900.00	\$52,673.25 \$15,049.50	\$2,942,177.25

- (1) HSBC Securities (USA) Inc., acting as agent for HSBC, will receive a fee of \$0.225 per \$10 stated principal amount and will pay Morgan Stanley Wealth Management a fixed sales commission of \$0.175 for each PLUS they sell. See "Supplemental plan of distribution (conflicts of interest)."
- (2) Of the amount per \$10 stated principal amount received by HSBC Securities (USA) Inc., acting as agent for HSBC, HSBC Securities (USA) Inc. will pay Morgan Stanley Wealth Management a structuring fee of \$0.05 for each PLUS.

The estimated initial value of the PLUS on the pricing date is \$9.688 per PLUS, which is less than the price to public. The market value of the PLUS at any time will reflect many factors and cannot be predicted with accuracy. See "Estimated initial value" above and "Risk Factors" beginning on page 5 of this document for additional information.

An investment in the PLUS involves certain risks. See "Risk Factors" beginning on page 5 of this pricing supplement, and page S-1 of both the accompanying ETF Underlying Supplement and the prospectus supplement.

Neither the U.S. Securities and Exchange Commission (the "SEC") nor any state securities commission has approved or disapproved the PLUS, or determined that this pricing supplement or the accompanying ETF Underlying Supplement, prospectus supplement or prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

HSBC has filed a registration statement (including a prospectus, a prospectus supplement and ETF Underlying Supplement) with the SEC for the offering to which this pricing supplement relates. Before you invest, you should read the prospectus, prospectus supplement, and ETF Underlying Supplement in that registration statement and other documents HSBC has filed with the SEC for more complete information about HSBC and this offering. You may get these documents for free by visiting EDGAR on the SEC's web site at www.sec.gov. Alternatively, HSBC Securities (USA) Inc. or any dealer participating in this offering will arrange to send you the prospectus, prospectus supplement and ETF Underlying Supplement if you request them by calling toll-free 1-866-811-8049.

You should read this document together with the related ETF Underlying Supplement, prospectus supplement and prospectus, each of which can be accessed via the hyperlinks below.

The PLUS are not deposit liabilities or other obligations of a bank and are not insured or guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency of the United States or any other jurisdiction, and involve investment risks including possible loss of the stated principal amount invested due to the credit risk of HSBC.

Investment Summary

Performance Leveraged Upside Securities

Principal at Risk Securities

The PLUS Based on the Price of the Financial Select Sector SPDR® Fund due December 3, 2021 (the "PLUS") can be used:

- As an alternative to direct exposure to the underlying shares that enhances returns for a certain range of positive performance of the underlying shares, subject to the maximum payment at maturity
- To enhance positive returns and potentially outperform the underlying shares in a moderately bullish scenario
- To achieve similar levels of upside exposure to the underlying shares as a direct investment, subject to the maximum payment at maturity, while using fewer dollars by taking advantage of the leverage factor

Maturity:	Approximately 15 months
Leverage factor:	300%
Maximum payment at maturity:	\$12.10 per PLUS (121.00% of the stated principal amount)
Minimum payment at maturity:	None; you may lose your entire initial investment in the PLUS
Coupon:	None

Key Investment Rationale

The PLUS offer 300% leveraged upside on the positive performance of the underlying shares, subject to the maximum payment at maturity of \$12.10 per PLUS (121.00% of the stated principal amount). However, if the price of the underlying shares has decreased from the initial share price as of the valuation date, investors will lose 1% for every 1% that the price has decreased. **Investors may lose up to 100% of the stated principal amount of the PLUS.**

All payments on the PLUS are subject to the credit risk of HSBC.

Leveraged Upside Performance	The PLUS offer investors an opportunity to capture enhanced returns for a certain range of positive performance relative to a direct investment in the underlying shares.
Upside Scenario	The price of the underlying shares increases from the initial share price and, at maturity for each PLUS, we will pay the stated principal amount of \$10 plus 300% of the share percent increase, subject to the maximum payment at maturity of \$12.10 per PLUS (121.00% of the stated principal amount).
Par Scenario	The price of the underlying shares does not change, and at maturity for each PLUS, we will pay the stated principal amount of \$10.
Downside Scenario	The price of the underlying shares declines and, at maturity for each PLUS, we will pay less than the stated principal amount by an amount that is proportionate to the decline.

How the PLUS Work

Payoff Diagram

The payoff diagram below illustrates the payment at maturity on the PLUS are based on the following terms:

Stated principal amount:	\$10 per PLUS
Leverage factor:	300%
Maximum payment at maturity:	\$12.10 per PLUS (121.00% of the stated principal amount)

PLUS Payoff Diagram

How it works

- Upside Scenario: If the final share price is greater than the initial share price, investors would receive the \$10 stated principal amount plus 300% of the appreciation of the underlying shares over the term of the PLUS, subject to a maximum payment at maturity of \$12.10 per PLUS. Under the terms of the PLUS, an investor would realize the maximum payment at maturity at a final share price of 107.00% of the initial share price.
 - For example, if the price of the underlying shares appreciates 3%, investors would receive a 9% return, or \$10.90 per PLUS.
 - For example, if the price of the underlying shares appreciates 30%, investors would receive only the maximum payment at maturity of \$12.10 per PLUS, or 121.00% of the stated principal amount.
- Par Scenario: If the final share price is equal to the initial share price, investors would receive the stated principal amount of \$10 per PLUS.
- Downside Scenario: If the final share price is less than the initial share price, investors would receive an amount that is less than the stated principal amount of \$10 per PLUS, based on a 1% loss of principal for each 1% decline in the price of the underlying shares.
 - For example, if the price of the underlying shares depreciates 30%, investors would lose 30% of their principal and receive only \$7 per PLUS at maturity, or 70% of the stated principal amount.

Investor Suitability

The PLUS may be suitable for you if:

- You seek an investment with an enhanced return linked to the potential positive performance of the underlying shares and you believe the price of the underlying shares will increase over the term of the PLUS.
- You are willing to invest in the PLUS based on the maximum payment at maturity of 121.00% of the stated principal amount, which may limit your return at maturity.
- You are willing to make an investment that is exposed to the potential loss of 1% of the principal amount for each percentage point that the underlying shares decrease over the term of the PLUS.
- You are willing to forgo dividends or other distributions paid to holders of the underlying shares or to holders of any of the stocks held by the index fund.
- You are willing to accept the risk and return profile of the PLUS versus a conventional debt security with a comparable maturity issued by HSBC or another issuer with a similar credit rating.
- You do not seek current income from your investment.
- You do not seek an investment for which there is an active secondary market.
- You are willing to hold the PLUS to maturity.
- You are comfortable with the creditworthiness of HSBC, as Issuer of the PLUS.

The PLUS may not be suitable for you if:

- You believe the price of the underlying shares will decrease, or that it will not increase sufficiently to provide you with your desired return.
- You are unwilling to invest in the PLUS based on the maximum payment at maturity of 121.00% of the stated principal amount, which may limit your return at maturity.
- You are unwilling to make an investment that is exposed to the potential loss of 1% of the principal amount for each percentage point that the underlying shares decrease over the term of the PLUS.
- You prefer the lower risk, and therefore accept the potentially lower returns, of conventional debt securities with comparable maturities issued by HSBC or another issuer with a similar credit rating.
- You prefer to receive the dividends or other distributions paid on the underlying shares or to holders of any of the stocks held by the index fund.
- You seek current income from your investment.
- You seek an investment for which there will be an active secondary market.
- You are unable or unwilling to hold the PLUS to maturity.
- You are not willing or are unable to assume the credit risk associated with HSBC, as Issuer of the PLUS.

Risk Factors

We urge you to read the section “Risk Factors” on page S-1 of both the accompanying ETF Underlying Supplement and the prospectus supplement. Investing in the PLUS is not equivalent to investing directly in the underlying shares or in any of the stocks held by the index fund. You should understand the risks of investing in the PLUS and should reach an investment decision only after careful consideration, with your advisors, of the suitability of the PLUS in light of your particular financial circumstances and the information set forth in this pricing supplement and the accompanying ETF Underlying Supplement, prospectus supplement and prospectus.

In addition to the risks discussed below, you should review “Risk Factors” in the accompanying prospectus supplement and ETF Underlying Supplement, including the explanation of risks relating to the PLUS described in the following sections:

- Risks relating to all note issuances” in the prospectus supplement; and
- General risks related to index funds” in the ETF Underlying Supplement;

You will be subject to significant risks not associated with conventional fixed-rate or floating-rate debt securities.

- **PLUS do not pay interest and may result in a loss.** The terms of the PLUS differ from those of ordinary debt securities in that the PLUS do not pay interest or guarantee payment of the principal amount at maturity. If the final share price is less than the initial share price, you will receive for each PLUS that you hold a payment at maturity that is less than the stated principal amount by an amount proportionate to the decline in the price of the underlying shares, subject to the credit risk of HSBC. **You may lose up to 100% of the stated principal amount of the PLUS.**
- **The appreciation potential of the PLUS is limited by the maximum payment at maturity.** The appreciation potential of the PLUS is limited by the maximum payment at maturity of \$12.10 per PLUS (121.00% of the stated principal amount). Although the leverage factor provides 300% exposure to any amount by which the final share price is greater than the initial share price, because the payment at maturity will be limited to 121.00% of the stated principal amount for the PLUS, any increase in the final share price over the initial share price by more than 7.00% of the initial share price will not further increase the return on the PLUS.
- **Credit risk of HSBC USA Inc.** The PLUS are senior unsecured debt obligations of the issuer, HSBC, and are not, either directly or indirectly, an obligation of any third party. As further described in the accompanying prospectus supplement and prospectus, the PLUS will rank on par with all of the other unsecured and unsubordinated debt obligations of HSBC, except such obligations as may be preferred by operation of law. Any payment to be made on the PLUS depends on the ability of HSBC to satisfy its obligations as they come due. As a result, the actual and perceived creditworthiness of HSBC may affect the market value of the PLUS and, in the event HSBC were to default on its obligations, you may not receive the amounts owed to you under the terms of the PLUS.
- **The market price will be influenced by many unpredictable factors.** Several factors will influence the value of the PLUS in the secondary market and the price at which HSBC Securities (USA) Inc. may be willing to purchase or sell the PLUS in the secondary market, including: the trading price, volatility and dividend yield, as applicable, of the underlying shares and the securities held by the index fund, interest and yield rates, time remaining to maturity, geopolitical conditions and economic, financial, political and regulatory or judicial events and any actual or anticipated changes in our credit ratings or credit spreads. The price of the underlying shares may be, and has recently been, volatile, and we can give you no assurance that the volatility will lessen. See “Information About the Underlying Shares” below. You may receive less, and possibly significantly less, than the stated principal amount per PLUS if you try to sell your PLUS prior to maturity.
- **Investing in the PLUS is not equivalent to investing in the underlying shares.** Investing in the PLUS is not equivalent to investing in the underlying shares. Investors in the PLUS will not have voting rights or rights to receive dividends or other distributions or any other rights with respect to the underlying shares.
- **The performance and market value of the underlying shares during periods of market volatility may not correlate with the performance of the underlying index as well as the net asset value per share of the underlying shares.** During periods of market volatility, securities underlying the index fund may be unavailable in the secondary market, market participants may be unable to calculate accurately the net asset value per share of the underlying shares and the liquidity of the underlying shares may be adversely affected. This kind of market volatility may also disrupt the ability of market participants to create and redeem shares of the underlying shares. Further, market volatility may adversely affect, sometimes materially, the prices at which market participants are willing to buy and sell the underlying shares. As a result, under these circumstances, the market value of the underlying shares may vary substantially from the net asset value per share of the underlying shares. For all of the foregoing reasons, the performance of the underlying shares may not correlate with the performance of the

underlying index as well as the net asset value per share of the underlying shares, which could materially and adversely affect the value of the PLUS in the secondary market and/or reduce your payment at maturity.

- **The estimated initial value of the PLUS, which was determined by us on the pricing date, is less than the price to public and may differ from the market value of the PLUS in the secondary market, if any.** The estimated initial value of the PLUS was calculated by us on the pricing date and is less than the price to public. The estimated initial value reflects our internal funding rate, which is the borrowing rate we pay to issue market-linked securities, as well as the mid-market value of the embedded derivatives in the PLUS. This internal funding rate is typically lower than the rate we would use when we issue conventional fixed or floating rate debt securities. As a result of the difference between our internal funding rate and the rate we would use when we issue conventional fixed or floating rate debt securities, the estimated initial value of the PLUS may be lower if it were based on the prices at which our fixed or floating rate debt securities trade in the secondary market. In addition, if we were to use the rate we use for our conventional fixed or floating rate debt issuances, we would expect the economic terms of the PLUS to be more favorable to you. We determined the value of the embedded derivatives in the PLUS by reference to our or our affiliates' internal pricing models. These pricing models consider certain assumptions and variables, which can include volatility and interest rates. Different pricing models and assumptions could provide valuations for the PLUS that are different from our estimated initial value. These pricing models rely in part on certain forecasts about future events, which may prove to be incorrect. The estimated initial value does not represent a minimum price at which we or any of our affiliates would be willing to purchase your PLUS in the secondary market (if any exists) at any time.
- **The price of your PLUS in the secondary market, if any, immediately after the pricing date is expected to be less than the price to public.** The price to public takes into account certain costs. These costs include our affiliates' projected hedging profits (which may or may not be realized) for assuming risks inherent in hedging our obligations under the PLUS, the underwriting discount and the costs associated with structuring and hedging our obligations under the PLUS. These costs, except for the underwriting discount, will be used or retained by us or one of our affiliates. If you were to sell your PLUS in the secondary market, if any, the price you would receive for your PLUS may be less than the price you paid for them because secondary market prices will not take into account these costs. The price of your PLUS in the secondary market, if any, at any time after issuance will vary based on many factors, including the price of the underlying shares and changes in market conditions, and cannot be predicted with accuracy. The PLUS are not designed to be short-term trading instruments, and you should, therefore, be able and willing to hold the PLUS to maturity. Any sale of the PLUS prior to maturity could result in a loss to you.
- **If HSBC Securities (USA) Inc. were to repurchase your PLUS immediately after the original issue date, the price you receive may be higher than the estimated initial value of the PLUS.** Assuming that all relevant factors remain constant after the original issue date, the price at which HSBC Securities (USA) Inc. may initially buy or sell the PLUS in the secondary market, if any, and the value that we may initially use for customer account statements, if we provide any customer account statements at all, may exceed the estimated initial value on the pricing date for a temporary period expected to be approximately 3 months after the original issue date. This temporary price difference may exist because, in our discretion, we may elect to effectively reimburse to investors a portion of the estimated cost of hedging our obligations under the PLUS and other costs in connection with the PLUS that we will no longer expect to incur over the term of the PLUS. We will make such discretionary election and determine this temporary reimbursement period on the basis of a number of factors, including the tenor of the PLUS and any agreement we may have with the distributors of the PLUS. The amount of our estimated costs which we effectively reimburse to investors in this way may not be allocated ratably throughout the reimbursement period, and we may discontinue such reimbursement at any time or revise the duration of the reimbursement period after the original issue date of the PLUS based on changes in market conditions and other factors that cannot be predicted.
- **The amount payable on the PLUS is not linked to the price of the underlying shares at any time other than the valuation date.** The final share price will be based on the official closing price of the underlying shares on the valuation date, subject to postponement for non-trading days and certain market disruption events. Even if the price of the underlying shares appreciates prior to the valuation date but then decreases by the valuation date, the payment at maturity may be less, and may be significantly less, than it would have been had the payment at maturity been linked to the price of the underlying shares prior to that decrease. Although the actual price of the underlying shares on the stated maturity date or at other times during the term of the PLUS may be higher than the final share price, the payment at maturity will be based solely on the official closing price of the underlying shares on the valuation date.
- **The PLUS will not be listed on any securities exchange and secondary trading may be limited.** The PLUS will not be listed on any securities exchange. Therefore, there may be little or no secondary market for the PLUS. HSBC Securities (USA) Inc. may, but is not obligated to, make a market in the PLUS. Even if there is a secondary market, it may not provide enough liquidity to allow you to trade or sell the PLUS easily. Because we do not expect that other

broker-dealers will participate significantly in the secondary market for the PLUS, the price at which you may be able to trade your PLUS is likely to depend on the price, if any, at which HSBC Securities (USA) Inc. is willing to transact. If, at any time, HSBC Securities (USA) Inc. were to cease making a market in the PLUS, it is likely that there would be no secondary market for the PLUS. Accordingly, you should be willing to hold your PLUS to maturity.

- **The calculation agent, which is HSBC or one of its affiliates, will make determinations with respect to the PLUS.** As calculation agent, HSBC or one of its affiliates determined the initial share price and will determine the final share price, and will calculate the amount of cash, if any, that you will receive at maturity. Moreover, certain determinations made by HSBC or one of its affiliates in its capacity as calculation agent, may require it to exercise discretion and make subjective judgments, such as with respect to the occurrence or non-occurrence of market disruption events and the anti-dilution and reorganization adjustments to the underlying shares. These determinations, which may be subjective, may adversely affect the payout to you at maturity. Although the calculation agent has made and will make all determinations and will take all action in relation to the PLUS in good faith, it should be noted that such discretion could have an impact (positive or negative) on the value of your PLUS. The calculation agent is under no obligation to consider your interests as a holder of the PLUS in taking any actions, including the determination of the initial share price, that might affect the value of your PLUS.
- **Hedging and trading activity by our affiliates could potentially adversely affect the value of the PLUS.** One or more of our affiliates and/or third-party dealers have carried out and will continue to carry out hedging activities related to the PLUS (and possibly to other instruments linked to the index fund or its component stocks), including trading in the underlying shares or stocks held by the index fund as well as in other instruments related to the underlying shares. As a result, these entities may be unwinding or adjusting hedge positions during the term of the PLUS, and the hedging strategy may involve greater and more frequent dynamic adjustments to the hedge as the valuation date approaches. Some of our affiliates also trade the underlying shares or stocks held by the index fund and other financial instruments related to the underlying shares on a regular basis as part of their general broker-dealer and other businesses. Any of these hedging or trading activities on or prior to the pricing date could have increased the initial share price and, therefore, could have increased the price at which the underlying shares must close so that an investor does not suffer a loss on the investor's initial investment in the PLUS. Additionally, hedging or trading activities during the term of the PLUS, including on the valuation date, could adversely affect the price of the underlying shares on the valuation date and, accordingly, the amount of cash, if any, an investor will receive at maturity.
- **The PLUS are not insured or guaranteed by any governmental agency of the United States or any other jurisdiction.** The PLUS are not deposit liabilities or other obligations of a bank and are not insured or guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency or program of the United States or any other jurisdiction. An investment in the PLUS is subject to the credit risk of HSBC, and in the event that HSBC is unable to pay its obligations as they become due, you may not receive the full payment at maturity of the PLUS.
- **The U.S. federal income tax consequences of an investment in the PLUS are uncertain.** For a discussion of certain of the U.S. federal income tax consequences of your investment in a PLUS, please see the discussion under "Tax considerations" herein, and the discussion under "U.S. Federal Income Tax Considerations" in the accompanying prospectus supplement.

Information About the Underlying Shares

The XLF seeks to provide investment results that correspond generally to the price and yield performance, before fees and expenses, of the Financial Select Sector Index. The Financial Select Sector Index measures the performance of the financial sector of the U.S. equity market. The Financial Select Sector Index is composed of companies whose primary line of business is directly associated with the financial sector.

For more information about the XLF, see “Financial Select Sector SPDR® Fund” beginning on page S-12 of the accompanying ETF Underlying Supplement.

Information as of market close on August 14, 2020:

Bloomberg Ticker Symbol:	XLF		
Current Share Closing Price:	\$25.18	52 Week High (on 02/14/2020):	\$31.17
52 Weeks Ago:	\$25.98	52 Week Low (on 03/23/2020):	\$17.66

Historical Information

The following graph sets forth the historical performance of the underlying shares based on the daily historical closing prices from August 14, 2010 through August 14, 2020. We obtained the closing prices below from the Bloomberg Professional® service. We have not independently verified the accuracy or completeness of the information obtained from the Bloomberg Professional® service. The historical prices of the underlying shares should not be taken as an indication of future performance, and no assurance can be given as to the price of the underlying shares on the valuation date.

Additional Information About the PLUS

Please read this information in conjunction with the final terms on the front cover of this document.

General Information	
Listing:	The PLUS will not be listed on any securities exchange.
CUSIP:	40438J288
ISIN:	US40438J2886
Minimum ticketing size:	\$1,000 / 100 PLUS
Denominations:	\$10 per PLUS and integral multiples thereof
Interest:	None
Tax considerations:	<p>There is no direct legal authority as to the proper tax treatment of each PLUS, and therefore significant aspects of the tax treatment of each PLUS are uncertain as to both the timing and character of any inclusion in income in respect of each PLUS. Under one approach, each PLUS could be treated as a pre-paid executory contract with respect to the underlying shares. We intend to treat each PLUS consistent with this approach. Pursuant to the terms of each PLUS, you agree to treat each PLUS under this approach for all U.S. federal income tax purposes. Subject to the limitations described therein, and based on certain factual representations received from us, in the opinion of our special U.S. tax counsel, Mayer Brown LLP, it is reasonable to treat each PLUS as a pre-paid executory contract with respect to the underlying shares. Pursuant to this approach and subject to the discussion below regarding “constructive ownership transactions,” we do not intend to report any income or gain with respect to each PLUS prior to maturity or an earlier sale or exchange, and we intend to treat any gain or loss upon maturity or an earlier sale or exchange as long-term capital gain or loss, provided that you have held the PLUS for more than one year at such time for U.S. federal income tax purposes.</p> <p>Despite the foregoing, U.S. holders (as defined under “U.S. Federal Income Tax Considerations” in the accompanying prospectus supplement) should be aware that the Internal Revenue Code of 1986, as amended (the “Code”), contains a provision, Section 1260 of the Code, which sets forth rules which are applicable to what it refers to as “constructive ownership transactions.” Due to the manner in which it is drafted, the precise applicability of Section 1260 of the Code to any particular transaction is often uncertain. In general, a “constructive ownership transaction” includes a contract under which an investor will receive payment equal to or credit for the future value of any equity interest in a regulated investment company (such as the underlying shares). Under the “constructive ownership” rules, if an investment in the PLUS is treated as a “constructive ownership transaction,” any long-term capital gain recognized by a U.S. holder in respect of a PLUS will be recharacterized as ordinary income to the extent such gain exceeds the amount of “net underlying long-term capital gain” (as defined in Section 1260 of the Code) (the “Excess Gain”). In addition, an interest charge will also apply to any deemed underpayment of tax in respect of any Excess Gain to the extent such gain would have resulted in gross income inclusion for the U.S. holder in taxable years prior to the taxable year of the sale, exchange or maturity of the PLUS (assuming such income accrued at a constant rate equal to the applicable federal rate as of the date of sale, exchange or maturity of the PLUS). Furthermore, unless otherwise established by clear and convincing evidence, the “net underlying long-term capital gain” is treated as zero.</p> <p>Although the matter is not clear, there exists a risk that an investment in the PLUS will be treated as a “constructive ownership transaction.” If such treatment applies, it is not entirely clear to what extent any long-term capital gain recognized by a U.S. holder in respect of a PLUS will be recharacterized as ordinary income. It is possible, for example, that the amount of the Excess Gain (if any) that would be recharacterized as ordinary income in respect of the PLUS will equal the excess of (i) any long-term capital gain recognized by the U.S. holder in respect of the PLUS over (ii) the “net underlying long-term capital gain” such U.S. holder would have had if such U.S. holder had acquired a number of the underlying shares at fair market value on the original issue date of the PLUS for an amount equal to the “issue price” of the PLUS and, upon the date of sale, exchange or maturity of the PLUS, sold such underlying shares at fair market value (which would reflect the percentage increase in the value of the underlying shares over the term of the PLUS). Accordingly, it is possible that all or a portion of any gain on the sale or settlement of the PLUS after one year could be treated as “Excess Gain” from a “constructive ownership transaction,” which gain would be recharacterized as ordinary income, and subject to an interest charge. U.S. holders should consult their tax advisors regarding the potential application of the “constructive ownership” rules.</p> <p>In Notice 2008-2, the Internal Revenue Service (“IRS”) and the Treasury Department requested comments as to whether the purchaser of certain securities (which may include the PLUS) should be required to accrue income during its term under a mark-to-market, accrual or other methodology, whether income and gain on such a security or contract should be ordinary or capital and whether foreign holders should be subject to withholding tax on any deemed income accrual. Accordingly, it is possible that regulations or other guidance could provide that a U.S. holder of a PLUS is required to accrue income in respect of the PLUS prior to the receipt of payments under the PLUS or its earlier sale or exchange. Moreover, it is possible that any such regulations or other guidance could treat all income and gain of a U.S. holder in</p>

Performance Leveraged Upside SecuritiesSM

Principal at Risk Securities

respect of a PLUS as ordinary income (including gain on a sale or exchange). Finally, it is possible that a non-U.S. holder (as defined under "U.S. Federal Income Tax Considerations" in the accompanying prospectus supplement) of the PLUS could be subject to U.S. withholding tax in respect of a PLUS. It is unclear whether any regulations or other guidance would apply to the PLUS (possibly on a retroactive basis). Prospective investors are urged to consult with their tax advisors regarding Notice 2008-2 and the possible effect to them of the issuance of regulations or other guidance that affects the U.S. federal income tax treatment of the PLUS.

A "dividend equivalent" payment is treated as a dividend from sources within the United States and such payments generally would be subject to a 30% U.S. withholding tax if paid to a non-U.S. holder. Under U.S. Treasury Department regulations, payments (including deemed payments) with respect to equity-linked instruments ("ELIs") that are "specified ELIs" may be treated as dividend equivalents if such specified ELIs reference an interest in an "underlying security," which is generally any interest in an entity taxable as a corporation for U.S. federal income tax purposes if a payment with respect to such interest could give rise to a U.S. source dividend. However, IRS guidance provides that withholding on dividend equivalent payments will not apply to specified ELIs that are not delta-one instruments and that are issued before January 1, 2023. Based on the Issuer's determination that the PLUS are not "delta-one" instruments, non-U.S. holders should not be subject to withholding on dividend equivalent payments, if any, under a PLUS. However, it is possible that the PLUS could be treated as deemed reissued for U.S. federal income tax purposes upon the occurrence of certain events affecting the underlying shares or the PLUS, and following such occurrence the PLUS could be treated as subject to withholding on dividend equivalent payments. Non-U.S. holders that enter, or have entered, into other transactions in respect of the underlying shares or the PLUS should consult their tax advisors as to the application of the dividend equivalent withholding tax in the context of the PLUS and their other transactions. If any payments are treated as dividend equivalents subject to withholding, we (or the applicable paying agent) would be entitled to withhold taxes without being required to pay any additional amounts with respect to amounts so withheld.

We will not attempt to ascertain whether the index fund or any of the entities whose stock is owned by the index fund would be treated as a passive foreign investment company (a "PFIC") or United States real property holding corporation (a "USRPHC"), both as defined for U.S. federal income tax purposes. If the index fund or one or more of the entities whose stock is owned by the index fund were so treated, certain adverse U.S. federal income tax consequences might apply to a U.S. holder in the case of a PFIC and to a non-U.S. holder in the case of a USRPHC. You should refer to information filed with the SEC and other authorities by the index fund and the entities whose stock is owned by the index fund and consult your tax advisor regarding the possible consequences to you if the index fund or one or more of the entities whose stock is held by the index fund is or becomes a PFIC or a USRPHC.

Under current law, while the matter is not entirely clear, individual non-U.S. holders, and entities whose property is potentially includible in those individuals' gross estates for U.S. federal estate tax purposes (for example, a trust funded by such an individual and with respect to which the individual has retained certain interests or powers), should note that, absent an applicable treaty benefit, the PLUS is likely to be treated as U.S. situs property, subject to U.S. federal estate tax. These individuals and entities should consult their tax advisors regarding the U.S. federal estate tax consequences of investing in the PLUS.

For a further discussion of U.S. federal income tax consequences related to each PLUS, see the section "U.S. Federal Income Tax Considerations" in the accompanying prospectus supplement.

Calculation agent:

HSBC USA Inc., or one of its affiliates.

Supplemental plan of distribution (conflicts of interest):

Pursuant to the terms of a distribution agreement, HSBC Securities (USA) Inc., an affiliate of HSBC, will purchase the PLUS from HSBC for distribution to Morgan Stanley Wealth Management. HSBC Securities (USA) Inc. will act as agent for the PLUS and will receive a fee of \$0.225 per \$10 stated principal amount and will pay to Morgan Stanley Wealth Management a fixed sales commission of \$0.175 for each PLUS they sell. Of the amount per \$10 stated principal amount received by HSBC Securities (USA) Inc., acting as agent for HSBC, HSBC Securities (USA) Inc. will pay Morgan Stanley Wealth Management a structuring fee of \$0.05 for each PLUS.

In addition, HSBC Securities (USA) Inc. or another of its affiliates or agents may use this pricing supplement in market-making transactions after the initial sale of the PLUS, but is under no obligation to make a market in the PLUS and may discontinue any market-making activities at any time without notice.

Delivery of the PLUS will be made against payment for the PLUS on the original issue date set forth on the cover page of this document, which is more than two business days following the Trade Date. Under Rule 15c6-1 under the Securities Exchange Act of 1934, trades in the secondary market generally are required to settle in two business days, unless the parties to that trade expressly agree otherwise. Accordingly, purchasers who wish to trade the PLUS more than two business days prior to the original issue date will be required to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement, and should consult their own advisors.

See "Supplemental Plan of Distribution (Conflicts of Interest)" on page S-61 in the prospectus supplement.

Events of default and acceleration:

If the PLUS have become immediately due and payable following an event of default (as defined in the accompanying prospectus) with respect to the PLUS, the calculation agent will determine the accelerated

payment at maturity due and payable in the same general manner as described in “payment at maturity” in this pricing supplement. In such a case, the third scheduled trading day for the underlying shares immediately preceding the date of acceleration will be used as the valuation date for purposes of determining the accelerated final share price. If a market disruption event exists on that scheduled trading day, then the accelerated valuation date will be postponed for up to five scheduled trading days (in the same general manner used for postponing the originally scheduled valuation date). The accelerated maturity date will be the third business day following such accelerated postponed valuation date.

For more information, see “Description of Debt Securities — Senior Debt Securities — Events of Default” in the accompanying prospectus.

Where you can find more information:

This pricing supplement relates to an offering of the PLUS linked to the underlying shares. The purchaser of a PLUS will acquire a senior unsecured debt security of HSBC USA Inc. Although the offering of PLUS relates to the underlying shares, you should not construe that fact as a recommendation as to the merits of acquiring an investment linked to the underlying shares or any security held by the index fund or as to the suitability of an investment in the PLUS.

HSBC has filed a registration statement (including a prospectus, a prospectus supplement and ETF Underlying Supplement) with the SEC for the offering to which this pricing supplement relates. Before you invest, you should read the prospectus, prospectus supplement and ETF Underlying Supplement in that registration statement and other documents HSBC has filed with the SEC for more complete information about HSBC and this offering. You may get these documents for free by visiting EDGAR on the SEC’s web site at www.sec.gov. Alternatively, HSBC Securities (USA) Inc. or any dealer participating in this offering will arrange to send you the prospectus, prospectus supplement and ETF Underlying Supplement if you request them by calling toll-free 1-866-811-8049.

You should read this document together with the prospectus dated February 26, 2018, the prospectus supplement dated February 26, 2018 and ETF Underlying Supplement dated February 26, 2018. If the terms of the PLUS offered hereby are inconsistent with those described in the accompanying prospectus supplement, prospectus, or ETF Underlying Supplement, the terms described in this pricing supplement shall control. You should carefully consider, among other things, the matters set forth in “Risk Factors” herein, on page S-1 of both the accompanying ETF Underlying Supplement and the prospectus supplement, as the PLUS involve risks not associated with conventional debt securities. We urge you to consult your investment, legal, tax, accounting and other advisors before you invest in the PLUS. As used herein, references to the “Issuer”, “HSBC”, “we”, “us” and “our” are to HSBC USA Inc.

You may access these documents on the SEC web site at www.sec.gov as follows:

Validity of the PLUS:

In the opinion of Mayer Brown LLP, as counsel to the Issuer, when this pricing supplement has been attached to, and duly notated on, the master note that represents the PLUS pursuant to the Senior Indenture referred to in the prospectus supplement dated February 26, 2018, and issued and paid for as contemplated herein, the PLUS offered by this pricing supplement will be valid, binding and enforceable obligations of the Issuer, entitled to the benefits of the Senior Indenture, subject to applicable bankruptcy, insolvency and similar laws affecting creditors’ rights generally, concepts of reasonableness and equitable principles of general applicability (including, without limitation, concepts of good faith, fair dealing and the lack of bad faith). This opinion is given as of the date hereof and is limited to the laws of the State of New York, the Maryland General Corporation Law (including the statutory provisions, all applicable provisions of the Maryland Constitution and the reported judicial decisions interpreting the foregoing) and the federal laws of the United States of America. This opinion is subject to customary assumptions about the trustee’s authorization, execution and delivery of the Senior Indenture and the genuineness of signatures and to such counsel’s reliance on the Issuer and other sources as to certain factual matters, all as stated in the legal opinion dated March 1, 2018, which has been filed as Exhibit 5.4 to the Issuer’s registration statement on Form S-3 dated February 26, 2018.

This document provides a summary of the terms and conditions of the PLUS. We encourage you to read the accompanying ETF Underlying Supplement, prospectus supplement and prospectus for this offering, which can be accessed via the hyperlinks on the front page of this document.
