## Securities Description

These Accelerated Market Participation Securities ("AMPs") provide 3 times leveraged upside participation in gains on the Reference Asset, up to a Maximum Cap. If the Reference Asset's performance is negative, then the AMPs will lose 1% for each 1% loss in the Reference Asset. You may lose up to 100% of the principal amount of your investment.

These AMPs are alternatives to long positions in the Reference Asset that provide a return profile that may be favorable for those with moderately bullish views. The upside participation rate will amplify modest gains in the Reference Asset up to the Maximum Cap and may result in the AMPs outperforming the returns on the Reference Asset.

## Highlights

- 300% upside participation in the Reference Asset up to the Maximum Cap.
- You will lose 1% of your principal amount for every 1% that the Reference Return is below zero.

## Example Payoff Diagram:

The following diagram illustrates some hypothetical payoff possibilities for the AMPs based upon the 300% Upside Participation Rate and assuming a Maximum Cap of 39.00% (The midpoint of the expected Maximum Cap range of 37.00% to 41.00%). Please note the actual Maximum Cap will be determined on the Pricing Date.

Reference Return	Participation in Reference Return	AMPs Return
25%	3x Upside to Max	39%
13%		39%
5%	3x Upside	15%
1%		3%
-10%	1x on Losses	-10%
-25%		-25%

Our affiliate HSBC Securities (USA) Inc. will purchase the securities from us for distribution to other registered broker dealers or will offer the securities directly to investors. See "Supplemental Plan of Distribution (Conflicts of Interest) in the accompanying Free Writing Prospectus.

## INVESTOR SUITABILITY

---

### The securities may be suitable for you if:

- You seek an investment with an enhanced return linked to the potential positive performance of the Reference Asset and you believe the level of the Reference Asset will increase over the term of the securities.
- You are willing to invest in the securities based on the Maximum Cap indicated herein, which may limit your return at maturity. The actual Maximum Cap will be determined on the Pricing Date.
- You are willing to make an investment that is exposed to the negative Reference Return on a 1-to-1 basis for each percentage point that the Reference Return is less than zero.
- You are willing to forego dividends or other distributions paid to holders of stocks comprising the Reference Asset.
- You do not seek current income from your investment.
- You do not seek an investment for which there is an active secondary market.
- You are willing to hold the securities to maturity.
- You are comfortable with the creditworthiness of HSBC, as issuer of the securities.

### The securities may not be suitable for you if:

- You believe the Reference Return will be negative on the Final Valuation Date or that the Reference Return will not be sufficiently positive to provide you with your desired return.
- You are unwilling to invest in the securities based on the Maximum Cap indicated herein, which may limit your return at maturity. The actual Maximum Cap will be determined on the Pricing Date.
- You are unwilling to make an investment that is exposed to the negative Reference Return on a 1-to-1 basis for each percentage point that the Reference Return is below zero.
- You seek an investment that is 100% principal protected.
- You prefer the lower risk, and therefore accept the potentially lower returns, of fixed income investments with comparable maturities issued by HSBC or another issuer with a similar credit rating.
- You prefer to receive the dividends or other distributions paid on any stocks comprising the Reference Asset.
- You seek current income from your investment.
- You seek an investment for which there will be an active secondary market.
- You are unable or unwilling to hold the securities to maturity.
- You are not willing or are unable to assume the credit risk associated with HSBC, as issuer of the securities.

## CERTAIN RISKS AND CONSIDERATIONS

---

Purchasing the securities involves a number of risks. It is suggested that prospective investors reach a purchase decision only after careful consideration with their financial, legal, accounting, tax and other advisors regarding the suitability of the securities in light of their particular circumstances. See "Risk Factors" in the accompanying Free Writing Prospectus, Product Supplement and Prospectus Supplement for a discussion of risks, which include:

- The securities are not fully principal protected and you may lose up to 100% of your initial investment.
- The appreciation on the securities, if any, is limited by the Maximum Cap.
- Payment, if any, is subject to the ability of HSBC to pay its obligations as they become due and market value of the securities may be affected by HSBC's actual and perceived creditworthiness.
- Certain built-in costs are likely to adversely affect the value of the securities prior to maturity and the securities should be viewed as long term instruments.
- The return on the securities is linked to the performance of an equity index and may be positive or negative.
- The return on the securities does not necessarily reflect the full performance of the reference asset.
- Your yield may be less than that of a standard debt security of comparable maturity.
- You will not receive any periodic interest payments on the securities.
- There may be little or no secondary market for the securities—the securities will not be listed or displayed on any securities exchange or quotation system.
- There is a potential conflict of interest in that we or our affiliates play a variety of roles, including acting as calculation agent and hedging our obligations under the securities, during which the economic interests of the calculation agent or other affiliates of ours are potentially adverse to your interests as an investor in the securities.
- The securities are subject to significant risks not associated with conventional fixed rate or floating rate debt securities.
- These securities are not bank deposits and are not insured by the FDIC or any other U.S. federal or state government agency.

This Free Writing Prospectus relates to one note offering linked to the reference asset identified on the cover page. We reserve the right to withdraw, cancel or modify any offering and to reject orders in whole or in part. Although the note offering relates only to the reference asset identified on the cover page, you should not construe that fact as a recommendation of the merits of acquiring an investment linked to the reference asset or as to the suitability of an investment in the securities.

You should read this document together with the Prospectus dated April 2, 2009, the Prospectus Supplement dated April 9, 2009, the Product Supplement dated April 9, 2009 and the Free Writing Prospectus dated January 8, 2010. If the terms of the securities offered in this Free Writing Prospectus are inconsistent with those described in the accompanying Product Supplement, Prospectus Supplement or Prospectus, the terms described in this Free Writing Prospectus will control. If the terms of the securities offered in this Free Writing Prospectus are inconsistent with those described in the accompanying Free Writing Prospectus, the terms described in the other Free Writing Prospectus will control. You should carefully consider, among other things, the matters set forth in "Risk Factors" beginning on page S-3 of the Prospectus Supplement, as the securities involve risks not associated with conventional debt securities. We urge you to consult your investment, legal, tax, accounting and other advisers before you invest in the securities. As used herein, references to "HSBC", "we", "us" and "our" are to HSBC USA Inc. All references to "Enhanced Market Participation Notes" in the accompanying product supplement shall refer to these Accelerated Market Participation Securities.
