

## HSBC USA Inc. Barrier Accelerated Market Participation Securities™

- ▶ **Barrier Accelerated Market Participation Securities™ linked to the common stock of Intel Corporation (the "Reference Stock")**
- ▶ **Maturity of approximately 3 years**
- ▶ **1.75x exposure to any positive return of the Reference Stock, subject to a maximum return of at least 60.00% (to be determined on the Pricing Date)**
- ▶ **Contingent repayment of principal if the Reference Return is greater than or equal to the Barrier Price of -25%.**
- ▶ **Full exposure to declines in the Reference Stock if the Reference Return is less than the Barrier Price**
- ▶ **All payments on the securities are subject to the credit risk of HSBC USA Inc.**

The Barrier Accelerated Market Participation Securities™ (each a "security" and collectively the "securities") offered hereunder will not be listed on any U.S. securities exchange or automated quotation system. The securities will not bear interest.

Neither the U.S. Securities and Exchange Commission (the "SEC") nor any state securities commission has approved or disapproved of the securities or passed upon the accuracy or the adequacy of this document, the accompanying prospectus, prospectus supplement or Stock-Linked Underlying Supplement. Any representation to the contrary is a criminal offense. We have appointed HSBC Securities (USA) Inc., an affiliate of ours, as the agent for the sale of the securities. HSBC Securities (USA) Inc. will purchase the securities from us for distribution to other registered broker-dealers or will offer the securities directly to investors. In addition, HSBC Securities (USA) Inc. or another of its affiliates or agents may use the pricing supplement to which this free writing prospectus relates in market-making transactions in any securities after their initial sale. Unless we or our agent informs you otherwise in the confirmation of sale, the pricing supplement to which this free writing prospectus relates is being used in a market-making transaction. See "Supplemental Plan of Distribution (Conflicts of Interest)" on page FWP-13 of this free writing prospectus.

**Investment in the securities involves certain risks. You should refer to "Risk Factors" beginning on page FWP-9 of this document, page S-1 of the accompanying prospectus supplement and page S-1 of the accompanying Stock-Linked Underlying Supplement.**

The Estimated Initial Value of the securities on the Pricing Date is expected to be between \$940.00 and \$970.00 per security, which will be less than the price to public. The market value of the securities at any time will reflect many factors and cannot be predicted with accuracy. See "Estimated Initial Value" on page FWP-4 and "Risk Factors" beginning on page FWP-7 of this document for additional information.

	Price to Public	Underwriting Discount <sup>1</sup>	Proceeds to Issuer
Per security	\$1,000.00		
Total			

<sup>1</sup> HSBC USA Inc. or one of our affiliates may pay varying underwriting discounts of up to 2.85% per \$1,000 Principal Amount in connection with the distribution of the securities to other registered broker-dealers. See "Supplemental Plan of Distribution (Conflicts of Interest)" on page FWP-13 of this free writing prospectus.

Are Not FDIC Insured	Are Not Bank Guaranteed	May Lose Value
----------------------	-------------------------	----------------

# Barrier Accelerated Market Participation Securities™ Linked to the Common Stock of Intel Corporation

## Indicative Terms<sup>(1)</sup>

Principal Amount	\$1,000 per security
Term	Approximately 3 years
Reference Stock	The common stock of Intel Corporation (Ticker: INTC)
Upside Participation Rate	175% (1.75x) exposure to any positive Reference Return, subject to the Maximum Cap
Barrier Price	-25%
Reference Return	$\frac{\text{Final Price} - \text{Initial Price}}{\text{Initial Price}}$
Payment at Maturity per Security	<p><b>If the Reference Return is greater than zero</b>, you will receive the lesser of:</p> <p>a) \$1,000 + (\$1,000 × Reference Return × Upside Participation Rate); and</p> <p>b) \$1,000 + (\$1,000 × Maximum Cap*).</p> <p><b>If the Reference Return is less than or equal to zero but greater than or equal to the Barrier Price:</b></p> <p>\$1,000 (zero return).</p> <p><b>If the Reference Return is less than the Barrier Price:</b></p> <p>\$1,000 + (\$1,000 × Reference Return).</p> <p>If the Reference Return is less than the Barrier Price, you will lose some or all of your investment. For example, if the Reference Return is -50%, you will suffer a 50% loss and receive 50% of the Principal Amount, subject to the credit risk of HSBC USA Inc.</p>
Maximum Cap	At least 60.00% (to be determined on the Pricing Date)
Initial Price	The Official Closing Price of the Reference Stock on the Pricing Date.
Final Price	The Official Closing Price of the Reference Stock on the Final Valuation Date.
Pricing Date	October 28, 2016
Trade Date	October 28, 2016
Original Issue Date	November 2, 2016
Final Valuation Date <sup>(2)</sup>	October 30, 2019
Maturity Date <sup>(2)</sup>	November 4, 2019
CUSIP/ISIN	40433UYG5/US40433UYG56

<sup>(1)</sup>As more fully described on page FWP-4.

<sup>(2)</sup>Subject to adjustment as described under "Additional Terms of the Notes" in the accompanying Stock-Linked Underlying Supplement.

\*To be determined on the Pricing Date and will not be less than 60%.

## The Securities

The securities are designed for investors who believe the Reference Stock will appreciate over the term of the securities. If the Reference Return is below the Barrier Price, then the securities are subject to a 1:1 exposure to any potential decline of the Reference Stock.

If the Reference Stock appreciates over the term of the securities, you will realize 175% (1.75x) of the Reference Stock appreciation, subject to the Maximum Cap of at least 60.00% (to be determined on the Pricing Date). If the Reference Return is less than zero but greater than or equal to the Barrier Price, you will receive \$1,000 per \$1,000 principal amount. If the Reference Stock declines by more than -25%, you will lose 1% of your investment for every 1% decline in the Reference Stock from the Initial Price.

The offering period for the securities is through **October 28, 2016**

## Payoff Example

The table at right shows the hypothetical payout profile of an investment in the securities reflecting the 175% (1.75x) Upside Participation Rate of 175%, reflecting the Barrier Price of -25%, and assuming a Maximum Cap of at least 60.00% (to be determined on the Pricing Date).

Reference Return	Participation in Reference Return	Securities Return
50.00% 34.29%	1.75x upside exposure, subject to Maximum Cap	60.00% 60.00%
32.00% 2.00%	1.75x upside exposure	56.00% 3.50%
-5.00% -25.00%	Barrier Percentage of 25%	0.00% 0.00%
-30.00% -50.00%	1x loss from Initial Price if below Barrier Price.	-30.00% -50.00%

## Information About the Reference Stock

### Intel Corporation

Intel Corporation designs, manufactures, and sells computer components and related products. The Company major products include microprocessors, chipsets, embedded processors and microcontrollers, flash memory, graphic, network and communication, systems management software, conferencing, and digital imaging products.

The common stock of Intel Corporation trades on the Nasdaq Global Select Market under the symbol "INTC."

The graph above illustrates the performance of the Reference Stock from January 1, 2008 through October 27, 2016. The closing prices in the graph above were obtained from the Bloomberg Professional<sup>®</sup> Service. Past performance is not necessarily an indication of future results. For further information on the Reference Stock please see "Description of the Reference Stock" on page FWP-12 of this free writing prospectus. We have derived all disclosure regarding the Reference Stock from publicly available information. Neither HSBC USA Inc. nor any of its affiliates have undertaken any independent review of, or made any due diligence inquiry with respect to, the publicly available information about the Reference Stock.

# HSBC USA Inc. Barrier Accelerated Market Participation Securities™

## Linked to the Common Stock of Intel Corporation

This free writing prospectus relates to a single offering of Barrier Accelerated Market Participation Securities™. The securities will have the terms described in this free writing prospectus and the accompanying prospectus, prospectus supplement and Stock-Linked Underlying Supplement. If the terms of the securities offered hereby are inconsistent with those described in the accompanying prospectus, prospectus supplement or Stock-Linked Underlying Supplement, the terms described in this free writing prospectus shall control. **You should be willing to forgo interest and dividend payments during the term of the securities and, if the Reference Return is less than the Barrier Price, lose some or all of your principal.**

This free writing prospectus relates to an offering of securities linked to the performance of the common stock of Intel Corporation (the "Reference Stock"). The purchaser of a security will acquire a senior unsecured debt security of HSBC USA Inc. linked to the Reference Stock as described below. The following key terms relate to the offering of securities:

Issuer:	HSBC USA Inc.
Principal Amount:	\$1,000 per security
Reference Stock:	The common stock of Intel Corporation, which trades on the Nasdaq Global Select Market under the symbol "INTC."
Trade Date:	October 28, 2016
Pricing Date:	October 28, 2016
Original Issue Date:	November 2, 2016
Final Valuation Date:	October 30, 2019, subject to adjustment as described under "Additional Terms of the Notes—Valuation Dates" in the accompanying Stock-Linked Underlying Supplement.
Maturity Date:	3 business days after the Final Valuation Date, which is expected to be November 4, 2019. The Maturity Date is subject to adjustment as described under "Additional Terms of the Notes—Coupon Payment Dates, Call Payment Dates and Maturity Date" in the accompanying Stock-Linked Underlying Supplement.
Upside Participation Rate:	175% (1.75x)
Payment at Maturity:	On the Maturity Date, for each security, we will pay you the Final Settlement Value.
Reference Return:	The quotient, expressed as a percentage, calculated as follows:

$$\frac{\text{Final Price} - \text{Initial Price}}{\text{Initial Price}}$$

Final Settlement Value:	<b>If the Reference Return is greater than zero</b> , you will receive a cash payment on the Maturity Date, per \$1,000 Principal Amount, equal to the lesser of: (a) \$1,000 + (\$1,000 × Reference Return × Upside Participation Rate); and (b) \$1,000 + (\$1,000 × Maximum Cap*).
-------------------------	---

\*To be determined on the Pricing Date and will not be less than 60%..

**If the Reference Return is less than or equal to zero but greater than or equal to the Barrier Price**, you will receive \$1,000 per \$1,000 Principal Amount (zero return).

**If the Reference Return is less than the Barrier Price**, you will receive a cash payment on the Maturity Date, per \$1,000 Principal Amount, calculated as follows:  
\$1,000 + (\$1,000 × Reference Return).

Under these circumstances, you will lose 1% of the Principal Amount of your securities for every 1% decline in the Reference Stock. For example, if the Reference Return is -50%, you will suffer a 50% loss and receive 50% of the Principal Amount, subject to the credit risk of HSBC. **If the Reference Return is less than the Barrier Price, you will lose some or all of your investment.**

Barrier Price:	-25%
Maximum Cap:	At least 60.00% (to be determined on the Pricing Date).
Initial Price:	The Official Closing Price of the Reference Stock on the Pricing Date.
Final Price:	The Official Closing Price of the Reference Stock on the Final Valuation Date.
Official Closing Price:	The closing price of the Reference Stock on any scheduled trading day as determined by the Calculation Agent based upon the price displayed on the Bloomberg Professional® service page "INTC<EQUITY>", or on any successor page on the Bloomberg Professional® service or any successor service, adjusted by the Calculation Agent as described under "Additional Terms of the Notes — Antidilution and Reorganization Adjustments" in the accompanying Stock-Linked Underlying Supplement.
Form of Securities:	Book-Entry
Listing:	The securities will not be listed on any U.S. securities exchange or quotation system.
Estimated Initial Value:	The Estimated Initial Value of the securities will be less than the price you pay to purchase the securities. The Estimated Initial Value does not represent a minimum price at which we or any of our affiliates would be willing to purchase your securities in the secondary market, if any, at any time. The Estimated Initial Value will be calculated on the Pricing Date. See "Risk Factors — The Estimated Initial Value of the securities, which will be determined by us on the Pricing Date, will be less than the price to public and may differ from the market value of the securities in the secondary market, if any."
CUSIP/ISIN:	40433UYG5/US40433UYG56

The Trade Date, the Pricing Date and the other dates set forth above are subject to change, and will be set forth in the final pricing supplement relating to the securities.

## GENERAL

This free writing prospectus relates to an offering of securities linked to the Reference Stock. The purchaser of a security will acquire a senior unsecured debt security of HSBC USA Inc. We reserve the right to withdraw, cancel or modify this offering and to reject orders in whole or in part. Although the offering of securities relates to the Reference Stock, you should not construe that fact as a recommendation as to the merits of acquiring an investment linked to the Reference Stock or as to the suitability of an investment in the securities.

You should read this document together with the prospectus dated March 5, 2015, the prospectus supplement dated March 5, 2015 and the Stock-Linked Underlying Supplement dated March 5, 2015. If the terms of the securities offered hereby are inconsistent with those described in the accompanying prospectus, prospectus supplement or Stock-Linked Underlying Supplement, the terms described in this free writing prospectus shall control. You should carefully consider, among other things, the matters set forth in "Risk Factors" beginning on page FWP-7 of this free writing prospectus, page S-1 of the prospectus supplement and page S-2 of the Stock-Linked Underlying Supplement, as the securities involve risks not associated with conventional debt securities. We urge you to consult your investment, legal, tax, accounting and other advisors before you invest in the securities. As used herein, references to the "Issuer", "HSBC", "we", "us" and "our" are to HSBC USA Inc.

HSBC has filed a registration statement (including a prospectus, prospectus supplement and Stock-Linked Underlying Supplement) with the SEC for the offering to which this free writing prospectus relates. Before you invest, you should read the prospectus, prospectus supplement and Stock-Linked Underlying Supplement in that registration statement and other documents HSBC has filed with the SEC for more complete information about HSBC and this offering. You may get these documents for free by visiting EDGAR on the SEC's web site at [www.sec.gov](http://www.sec.gov). Alternatively, HSBC Securities (USA) Inc. or any dealer participating in this offering will arrange to send you the prospectus, prospectus supplement and Stock-Linked Underlying Supplement if you request them by calling toll-free 1-866-811-8049.

You may also obtain:

- ▶ The Stock-Linked Underlying Supplement at: [http://www.sec.gov/Archives/edgar/data/83246/000114420415014323/v403651\\_424b2.htm](http://www.sec.gov/Archives/edgar/data/83246/000114420415014323/v403651_424b2.htm)
- ▶ The prospectus supplement at: [http://www.sec.gov/Archives/edgar/data/83246/000114420415014311/v403645\\_424b2.htm](http://www.sec.gov/Archives/edgar/data/83246/000114420415014311/v403645_424b2.htm)
- ▶ The prospectus at: <http://www.sec.gov/Archives/edgar/data/83246/000119312515078931/d884345d424b3.htm>

We are using this free writing prospectus to solicit from you an offer to purchase the securities. You may revoke your offer to purchase the securities at any time prior to the time at which we accept your offer by notifying HSBC Securities (USA) Inc. We reserve the right to change the terms of, or reject any offer to purchase, the securities prior to their issuance. In the event of any material changes to the terms of the securities, we will notify you.

## PAYMENT AT MATURITY

On the Maturity Date, for each security you hold, we will pay you the Final Settlement Value, which is an amount in cash, as described below:

**If the Reference Return is greater than zero**, you will receive a cash payment on the Maturity Date, per \$1,000 Principal Amount, equal to the lesser of:

- (a)  $\$1,000 + (\$1,000 \times \text{Reference Return} \times \text{Upside Participation Rate})$ ; and
- (b)  $\$1,000 + (\$1,000 \times \text{Maximum Cap}^*)$ .

\*To be determined on the Pricing Date and will not be less than 60.00%.

**If the Reference Return is less than or equal to zero but greater than or equal to the Barrier Price**, you will receive \$1,000 per \$1,000 Principal Amount (zero return).

**If the Reference Return is less than the Barrier Price**, you will receive a cash payment on the Maturity Date, per \$1,000 Principal Amount, calculated as follows:

$$\$1,000 + (\$1,000 \times \text{Reference Return}).$$

Under these circumstances, you will lose 1% of the Principal Amount of your securities for every 1% decline in the Reference Stock. For example, if the Reference Return is -50%, you will suffer a 50% loss and receive 50% of the Principal Amount, subject to the credit risk of HSBC. **If the Reference Return is less than the Barrier Price, you will lose some or all of your investment.**

## Interest

The securities will not pay interest.

## Calculation Agent

We or one of our affiliates will act as calculation agent with respect to the securities.

## INVESTOR SUITABILITY

### The securities may be suitable for you if:

- ▶ You seek an investment with an enhanced return linked to the potential positive performance of the Reference Stock and you believe the Price of the Reference Stock will increase over the term of the securities.
- ▶ You are willing to invest in the securities based on the Maximum Cap of at least 60.00% (to be determined on the Pricing Date), which may limit your return at maturity.
- ▶ You are willing to make an investment that is exposed to the negative Reference Return on a 1-to-1 basis if the Reference Return is less than -25%.
- ▶ You are willing to forgo dividends or other distributions paid to holders of the the Reference Stock.
- ▶ You are willing to accept the risk and return profile of the securities versus a conventional debt security with a comparable maturity issued by HSBC or another issuer with a similar credit rating.
- ▶ You do not seek current income from your investment.
- ▶ You do not seek an investment for which there is an active secondary market.
- ▶ You are willing to hold the securities to maturity.
- ▶ You are comfortable with the creditworthiness of HSBC, as Issuer of the securities.

### The securities may not be suitable for you if:

- ▶ You believe the Reference Return will be negative or that the Reference Return will not be sufficiently positive to provide you with your desired return.
- ▶ You are unwilling to invest in the securities based on the Maximum Cap of at least 60.00% (to be determined on the Pricing Date), which may limit your return at maturity.
- ▶ You are unwilling to make an investment that is exposed to the negative Reference Return on a 1-to-1 basis if the Reference Return is less than -25%.
- ▶ You seek an investment that provides full return of principal.
- ▶ You prefer the lower risk, and therefore accept the potentially lower returns, of conventional debt securities with comparable maturities issued by HSBC or another issuer with a similar credit rating.
- ▶ You prefer to receive the dividends or other distributions paid on the the Reference Stock.
- ▶ You seek current income from your investment.
- ▶ You seek an investment for which there will be an active secondary market.
- ▶ You are unable or unwilling to hold the securities to maturity.
- ▶ You are not willing or are unable to assume the credit risk associated with HSBC, as Issuer of the securities.

## RISK FACTORS

We urge you to read the section “Risk Factors” beginning on page S-1 of the accompanying prospectus supplement and page S-1 of the accompanying Stock-Linked Underlying Supplement. Investing in the securities is not equivalent to investing directly in the Reference Stock. You should understand the risks of investing in the securities and should reach an investment decision only after careful consideration, with your advisors, of the suitability of the securities in light of your particular financial circumstances and the information set forth in this free writing prospectus and the accompanying, prospectus, prospectus supplement and Stock-Linked Underlying Supplement.

In addition to the risks discussed below, you should review “Risk Factors” in the accompanying prospectus supplement and Stock-Linked Underlying Supplement including the explanation of risks relating to the securities described in the following sections:

- ▶ “— Risks Relating to All Note Issuances” in the prospectus supplement; and
- ▶ “— General Risks Related to Reference Stocks” in the Stock-Linked Underlying Supplement.

You will be subject to significant risks not associated with conventional fixed-rate or floating-rate debt securities.

### **Your investment in the securities may result in a loss.**

You will be fully exposed to the decline in the Final Price from the Initial Price if the Reference Return is beyond the Barrier Price of -25%. Accordingly, if the Reference Return is less than -25%, your Payment at Maturity will be less than the Principal Amount of your securities. You will lose up to 100% of your investment at maturity if the Reference Return is less than the Barrier Price. **There is no minimum payment on the securities and, accordingly, you could lose your entire investment.**

### **The appreciation on the securities is limited by the Maximum Cap.**

You will not participate in any appreciation in the Price of the Reference Stock beyond the Maximum Cap of at least 60.00% (to be determined on the Pricing Date). You will not receive a return on the securities greater than the Maximum Cap.

### **The amount payable on the securities is not linked to the price of the Reference Stock at any time other than on the Final Valuation Date.**

The Final Price will be based on the Official Closing Price of the Reference Stock on the Final Valuation Date, subject to postponement for non-trading days and certain market disruption events. Even if the price of the Reference Stock appreciates during the term of the securities other than on the Final Valuation Date but then decreases on the Final Valuation Date to a price that is less than the Initial Price, the Payment at Maturity may be less, and may be significantly less, than it would have been had the Payment at Maturity been linked to the price of the Reference Stock prior to such decrease. Although the actual price of the Reference Stock on the Maturity Date or at other times during the term of the securities may be higher than the Final Price, the Payment at Maturity will be based solely on the Official Closing Price of the Reference Stock on the Final Valuation Date.

### **Credit risk of HSBC USA Inc.**

The securities are senior unsecured debt obligations of the Issuer, HSBC, and are not, either directly or indirectly, an obligation of any third party. As further described in the accompanying prospectus supplement and prospectus, the securities will rank on par with all of the other unsecured and unsubordinated debt obligations of HSBC, except such obligations as may be preferred by operation of law. Any payment to be made on the securities, including any return of principal at maturity, depends on the ability of HSBC to satisfy its obligations as they come due. As a result, the actual and perceived creditworthiness of HSBC may affect the market value of the securities and, in the event HSBC were to default on its obligations, you may not receive the amounts owed to you under the terms of the securities.

### **The securities will not bear interest.**

As a holder of the securities, you will not receive interest payments.

### **Owning the securities is not the same as owning the Reference Stock.**

The return on your securities may not reflect the return you would realize if you actually owned the Reference Stock. As a holder of the securities, you will not have voting rights or rights to receive dividends or other distributions or other rights as would holders of the Reference Stock.

**The securities are not insured or guaranteed by any governmental agency of the United States or any other jurisdiction.**

The securities are not deposit liabilities or other obligations of a bank and are not insured or guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency or program of the United States or any other jurisdiction. An investment in the securities is subject to the credit risk of HSBC, and in the event that HSBC is unable to pay its obligations as they become due, you may not receive the full Payment at Maturity of the securities.

**The Estimated Initial Value of the securities, which will be determined by us on the Pricing Date, will be less than the price to public and may differ from the market value of the securities in the secondary market, if any.**

The Estimated Initial Value of the securities will be calculated by us on the Pricing Date and will be less than the price to public. The Estimated Initial Value will reflect our internal funding rate, which is the borrowing rate we pay to issue market-linked securities, as well as the mid-market value of the embedded derivatives in the securities. This internal funding rate is typically lower than the rate we would use when we issue conventional fixed or floating rate debt securities. As a result of the difference between our internal funding rate and the rate we would use when we issue conventional fixed or floating rate debt securities, the Estimated Initial Value of the securities may be lower if it were based on the prices at which our fixed or floating rate debt securities trade in the secondary market. In addition, if we were to use the rate we use for our conventional fixed or floating rate debt issuances, we would expect the economic terms of the securities to be more favorable to you. We will determine the value of the embedded derivatives in the securities by reference to our or our affiliates' internal pricing models. These pricing models consider certain assumptions and variables, which can include volatility and interest rates. Different pricing models and assumptions could provide valuations for the securities that are different from our Estimated Initial Value. These pricing models rely in part on certain forecasts about future events, which may prove to be incorrect. The Estimated Initial Value does not represent a minimum price at which we or any of our affiliates would be willing to purchase your securities in the secondary market (if any exists) at any time.

**The price of your securities in the secondary market, if any, immediately after the Pricing Date will be less than the price to public.**

The price to public takes into account certain costs. These costs, which will be used or retained by us or one of our affiliates, include the underwriting discount, our affiliates' projected hedging profits (which may or may not be realized) for assuming risks inherent in hedging our obligations under the securities and the costs associated with structuring and hedging our obligations under the securities. If you were to sell your securities in the secondary market, if any, the price you would receive for your securities may be less than the price you paid for them because secondary market prices will not take into account these costs. The price of your securities in the secondary market, if any, at any time after issuance will vary based on many factors, including the price of the Reference Stock and changes in market conditions, and cannot be predicted with accuracy. The securities are not designed to be short-term trading instruments, and you should, therefore, be able and willing to hold the securities to maturity. Any sale of the securities prior to maturity could result in a loss to you.

**If we were to repurchase your securities immediately after the Original Issue Date, the price you receive may be higher than the Estimated Initial Value of the securities.**

Assuming that all relevant factors remain constant after the Original Issue Date, the price at which HSBC Securities (USA) Inc. may initially buy or sell the securities in the secondary market, if any, and the value that we may initially use for customer account statements, if we provide any customer account statements at all, may exceed the Estimated Initial Value on the Pricing Date for a temporary period expected to be approximately 7 months after the Original Issue Date. This temporary price difference may exist because, in our discretion, we may elect to effectively reimburse to investors a portion of the estimated cost of hedging our obligations under the securities and other costs in connection with the securities that we will no longer expect to incur over the term of the securities. We will make such discretionary election and determine this temporary reimbursement period on the basis of a number of factors, including the tenor of the securities and any agreement we may have with the distributors of the securities. The amount of our estimated costs which we effectively reimburse to investors in this way may not be allocated ratably throughout the reimbursement period, and we may discontinue such reimbursement at any time or revise the duration of the reimbursement period after the Original Issue Date of the securities based on changes in market conditions and other factors that cannot be predicted.

**The securities lack liquidity.**

The securities will not be listed on any securities exchange. HSBC Securities (USA) Inc. is not required to offer to purchase the securities in the secondary market, if any exists. Even if there is a secondary market, it may not provide enough liquidity to allow you to trade or sell the securities easily. Because other dealers are not likely to make a secondary market for the securities, the price at which you may be able to trade your securities is likely to depend on the price, if any, at which HSBC Securities (USA) Inc. is willing to buy the securities.

**Potential conflicts of interest may exist.**

HSBC and its affiliates play a variety of roles in connection with the issuance of the securities, including acting as calculation agent and hedging our obligations under the securities. In performing these duties, the economic interests of the calculation agent and other affiliates of ours are potentially adverse to your interests as an investor in the securities. We will not have any obligation to consider your interests as a holder of the securities in taking any action that might affect the value of your securities.

**Uncertain tax treatment.**

For a discussion of the U.S. federal income tax consequences of your investment in a security, please see the discussion under "U.S. Federal Income Tax Considerations" herein and the discussion under "U.S. Federal Income Tax Considerations" in the accompanying prospectus supplement.

## ILLUSTRATIVE EXAMPLES

The following table and examples are provided for illustrative purposes only and are hypothetical. They do not purport to be representative of every possible scenario concerning increases or decreases in the price of the Reference Stock relative to its Initial Price. We cannot predict the Final Price. The assumptions we have made in connection with the illustrations set forth below may not reflect actual events, and the hypothetical Initial Price used in the table and examples below is not expected to be the actual Initial Price of the Reference Stock. You should not take this illustration or these examples as an indication or assurance of the expected performance of the Reference Stock or the return on your securities. The Final Settlement Value may be less than the amount that you would have received from a conventional debt security with the same stated maturity, including such a security issued by HSBC. The numbers appearing in the table below and following examples have been rounded for ease of analysis.

The table below illustrates the Payment at Maturity on a \$1,000 investment in the securities for a hypothetical range of Reference Returns from -100% to +100%. The following results are based solely on the assumptions outlined below. The "Hypothetical Return on the Securities" as used below is the number, expressed as a percentage, that results from comparing the Final Settlement Value per \$1,000 Principal Amount to \$1,000. The potential returns described here assume that your securities are held to maturity. You should consider carefully whether the securities are suitable to your investment goals. The following table and examples assume the following:

- ▶ Principal Amount: \$1,000
- ▶ Hypothetical Initial Price: 35.00
- ▶ Upside Participation Rate: 175%
- ▶ Hypothetical Maximum Cap\* 60.00%
- ▶ Barrier Price: -25%

The actual Initial Price will be determined on the Pricing Date.

\*To be determined on the Pricing Date and will not be less than 60%.

Hypothetical Final Price	Hypothetical Reference Return	Hypothetical Final Settlement Value	Hypothetical Return on the Securities
70.00	100.00%	\$1,600.00	60.00%
63.00	80.00%	\$1,600.00	60.00%
56.00	60.00%	\$1,600.00	60.00%
49.00	40.00%	\$1,600.00	60.00%
47.00	34.29%	\$1,600.00	60.00%
42.00	20.00%	\$1,350.00	35.00%
40.25	15.00%	\$1,262.50	26.25%
38.50	10.00%	\$1,175.00	17.50%
36.75	5.00%	\$1,087.50	8.75%
35.70	2.00%	\$1,035.00	3.50%
35.35	1.00%	\$1,017.50	1.75%
<b>35.00</b>	<b>0.00%</b>	<b>\$1,000.00</b>	<b>0.00%</b>
34.65	-1.00%	\$1,000.00	0.00%
34.30	-2.00%	\$1,000.00	0.00%
33.25	-5.00%	\$1,000.00	0.00%
29.75	-15.00%	\$1,000.00	0.00%
26.25	-25.00%	\$1,000.00	0.00%
24.50	-30.00%	\$700.00	-30.00%
21.00	-40.00%	\$600.00	-40.00%
17.50	-50.00%	\$500.00	-50.00%
14.00	-60.00%	\$400.00	-60.00%
7.00	-80.00%	\$200.00	-80.00%
0.00	-100.00%	\$0.00	-100.00%

The following examples indicate how the Final Settlement Value would be calculated with respect to a hypothetical \$1,000 investment in the securities.

**Example 1: The price of the Reference Stock increases from the Initial Price of \$35.00 to a Final Price of \$38.50.**

Reference Return:	10.00%
<b>Final Settlement Value:</b>	<b>\$1,175.00</b>

Because the Reference Return is positive, and the Reference Return multiplied by the Upside Participation Rate is less than the hypothetical Maximum Cap, the Final Settlement Value would be \$1,175.00 per \$1,000 Principal Amount, calculated as follows:

$$\begin{aligned}
 & \$1,000 + (\$1,000 \times \text{Reference Return} \times \text{Upside Participation Rate}) \\
 &= \$1,000 + (\$1,000 \times 10.00\% \times 175\%) \\
 &= \$1,175.00
 \end{aligned}$$

Example 1 shows that you will receive the return of your principal investment plus a return equal to the Reference Return multiplied by the Upside Participation Rate when the Reference Return is positive and such Reference Return multiplied by the Upside Participation Rate does not exceed the hypothetical Maximum Cap.

**Example 2: The price of the Reference Stock increases from the Initial Price of \$35.00 to a Final Price of \$49.00.**

Reference Return:	40.00%
<b>Final Settlement Value:</b>	<b>\$1,600.00</b>

Because the Reference Return is positive, and the Reference Return multiplied by the Upside Participation Rate is greater than the hypothetical Maximum Cap, the Final Settlement Value would be \$1,600.00 per \$1,000 Principal Amount, calculated as follows:

$$\begin{aligned}
 & \$1,000 + (\$1,000 \times \text{Maximum Cap}) \\
 &= \$1,000 + (\$1,000 \times 60.00\%) \\
 &= \$1,600.00
 \end{aligned}$$

Example 2 shows that you will receive the return of your principal investment plus a return equal to the hypothetical Maximum Cap when the Reference Return is positive and such Reference Return multiplied by the Upside Participation Rate exceeds the hypothetical Maximum Cap.

**Example 3: The price of the Reference Stock decreases from the Initial Price of \$35.00 to a Final Price of \$33.25.**

Reference Return:	-5.00%
<b>Final Settlement Value:</b>	<b>\$1,000</b>

Because the Reference Return is less than zero but greater than the Barrier Price of -25%, the Final Settlement Value would be \$1,000 per \$1,000 Principal Amount (a zero return).

**Example 4: The price of the Reference Stock decreases from the Initial Price of \$35.00 to a Final Price of \$17.50**

Reference Return:	-50.00%
<b>Final Settlement Value:</b>	<b>\$500.00</b>

Because the Reference Return is less than the Barrier Price of -25%, the Final Settlement Value would be \$500.00 per \$1,000 Principal Amount, calculated as follows:

$$\begin{aligned}
 & \$1,000 + (\$1,000 \times \text{Reference Return}) \\
 &= \$1,000 + (\$1,000 \times -50.00\%) \\
 &= \$500.00
 \end{aligned}$$

Example 4 shows that you are exposed on a 1-to-1 basis to declines in the price of the Reference Stock if the Reference Return is less than the Barrier Price of -25%. YOU MAY LOSE UP TO 100% OF THE PRINCIPAL AMOUNT OF YOUR SECURITIES.

## DESCRIPTION OF THE REFERENCE STOCK

### Intel Corporation

Intel Corporation designs, manufactures, and sells computer components and related products. The Company major products include microprocessors, chipsets, embedded processors and microcontrollers, flash memory, graphic, network and communication, systems management software, conferencing, and digital imaging products.

The common stock of Intel Corporation trades on the Nasdaq Global Select Market under the symbol "INTC."

### Historical Performance of the Reference Stock

The following graph that sets forth the historical performance of the Reference Stock is based on the daily historical closing prices from January 1, 2008 through October 27, 2016. We obtained the closing prices below from the Bloomberg Professional® service. We have not undertaken any independent review of, or made any due diligence inquiry with respect to, the information obtained from the Bloomberg Professional® service.

The historical prices of the Reference Stock should not be taken as an indication of future performance, and no assurance can be given as to the Official Closing Price of the Reference Stock on the Final Valuation Date.

### Historical Performance of the Reference Stock

The following table sets forth the quarterly high and low, as well as end-of-quarter closing prices, on the relevant exchange, of the Reference Stock for each quarter in the period from January 2, 2008 through October 27, 2016. We obtained the data in these tables from the Bloomberg Professional® service, without independent verification by us. All historical prices are denominated in US dollars and rounded to the nearest penny. **Historical prices of the Reference Stock should not be taken as an indication of future performance of the Reference Stock.**

<u>Quarter Begin</u>	<u>Quarter End</u>	<u>Quarterly High (\$)</u>	<u>Quarterly Low (\$)</u>	<u>Quarterly Close (\$)</u>

\*\* This pricing supplement includes, for the fourth calendar quarter of 2016, data for the period from October 1, 2016 through October 27, 2016. Accordingly, the "Quarterly High," "Quarterly Low" and "Quarterly Close" data indicated are for this shortened period only and do not reflect complete data for the fourth calendar quarter of 2016.

## **EVENTS OF DEFAULT AND ACCELERATION**

If the securities have become immediately due and payable following an Event of Default (as defined in the accompanying prospectus) with respect to the securities, the calculation agent will determine the accelerated payment due and payable at maturity in the same general manner as described in “Payment at Maturity” in this free writing prospectus. In that case, the scheduled trading day immediately preceding the date of acceleration will be used as the Final Valuation Date for purposes of determining the Reference Return, and the accelerated maturity date will be three business days after the accelerated Final Valuation Date. If a Market Disruption Event exists with respect to the Reference Stock on that scheduled trading day, then the accelerated Final Valuation Date for the Reference Stock will be postponed for up to five scheduled trading days (in the same manner used for postponing the originally scheduled Final Valuation Date). The accelerated maturity date will also be postponed by an equal number of business days.

If the securities have become immediately due and payable following an Event of Default, you will not be entitled to any additional payments with respect to the securities. For more information, see “Description of Debt Securities — Senior Debt Securities — Events of Default” in the accompanying prospectus.

## **SUPPLEMENTAL PLAN OF DISTRIBUTION (CONFLICTS OF INTEREST)**

We have appointed HSBC Securities (USA) Inc., an affiliate of HSBC, as the agent for the sale of the securities. Pursuant to the terms of a distribution agreement, HSBC Securities (USA) Inc. will purchase the securities from HSBC at the price to public less the underwriting discount set forth on the cover page of the pricing supplement to which this free writing prospectus relates, for distribution to other registered broker-dealers, or will offer the securities directly to investors. HSBC Securities (USA) Inc. proposes to offer the securities at the price to public set forth on the cover page of this free writing prospectus. HSBC USA Inc. or one of our affiliates may pay varying underwriting discounts of up to 2.85% per \$1,000 Principal Amount in connection with the distribution of the securities to other registered broker-dealers.

An affiliate of HSBC has paid or may pay in the future an amount to broker-dealers in connection with the costs of the continuing implementation of systems to support the securities.

In addition, HSBC Securities (USA) Inc. or another of its affiliates or agents may use the pricing supplement to which this free writing prospectus relates in market-making transactions after the initial sale of the securities, but is under no obligation to make a market in the securities and may discontinue any market-making activities at any time without notice.

See “Supplemental Plan of Distribution (Conflicts of Interest)” on page S-59 in the prospectus supplement.

## U.S. FEDERAL INCOME TAX CONSIDERATIONS

There is no direct legal authority as to the proper tax treatment of the securities, and therefore significant aspects of the tax treatment of the securities are uncertain as to both the timing and character of any inclusion in income in respect of the securities. Under one approach, a security should be treated as a pre-paid executory contract with respect to the Reference Stock. We intend to treat the securities consistent with this approach. Pursuant to the terms of the securities, you agree to treat the securities under this approach for all U.S. federal income tax purposes. Subject to the limitations described therein, and based on certain factual representations received from us, in the opinion of our special U.S. tax counsel, Morrison & Foerster LLP, it is reasonable to treat a security as a pre-paid executory contract with respect to the Reference Stock. Pursuant to this approach, we do not intend to report any income or gain with respect to the securities prior to their maturity or an earlier sale or exchange and we intend to treat any gain or loss upon maturity or an earlier sale or exchange as long-term capital gain or loss, provided that you have held the security for more than one year at such time for U.S. federal income tax purposes.

We will not attempt to ascertain whether the issuer of the Reference Stock would be treated as a passive foreign investment company ("PFIC") or United States real property holding corporation ("USRPHC"), both as defined for U.S. federal income tax purposes. If the issuer of the Reference Stock were so treated, certain adverse U.S. federal income tax consequences might apply. You should refer to information filed with the SEC and other authorities by the issuer of the Reference Stock and consult your tax advisor regarding the possible consequences to you if the issuer of the Reference Stock is or becomes a PFIC or a USRPHC.

Under current law, while the matter is not entirely clear, individual non-U.S. holders, and entities whose property is potentially includible in those individuals' gross estates for U.S. federal estate tax purposes (for example, a trust funded by such an individual and with respect to which the individual has retained certain interests or powers), should note that, absent an applicable treaty benefit, the securities are likely to be treated as U.S. situs property, subject to U.S. federal estate tax. These individuals and entities should consult their own tax advisors regarding the U.S. federal estate tax consequences of investing in the securities.

Recently finalized Treasury Regulations provide that withholding on "dividend equivalent" payments (as discussed in the accompanying prospectus supplement), if any, will not apply to securities issued before January 1, 2017. Additionally, the IRS has announced that withholding under the Foreign Account Tax Compliance Act (as discussed in the accompanying prospectus supplement) on payments of gross proceeds from a sale, exchange, redemption or other disposition of the securities will only apply to dispositions after December 31, 2018.

For a discussion of the U.S. federal income tax consequences of your investment in a security, please see the discussion under "U.S. Federal Income Tax Considerations" in the accompanying prospectus supplement
