PART I

ITEM 1. DESCRIPTION OF BUSINESS

General.

As used herein the terms "Company" and "Nexia" refer to Nexia Holdings, Inc., a Nevada corporation and its subsidiaries and predecessors. Nexia was incorporated under the laws of the State of Colorado on April 20, 1987. Nexia has undergone several name changes since its organization. The Company moved its domicile to the State of Nevada on October 5, 2000, by merging with a Nevada corporation established for the purpose of facilitating the change of domicile. Nexia has been involved in several previous business activities, all of which were discontinued in February of 1998. On August 29, 2000, the Company became a holding company by purchasing a majority interest in Wichita Development Corporation ("Wichita"), whose primary business function became real estate operations. The shares held in Wichita were subsequently spun-off to Company shareholders in January of 2001 on a pro rata basis.

On February 15, 2002 the Company entered into a Stock Purchase Agreement ("Agreement") with Axia Group, Inc., a related party at the time ("Axia"), pursuant to which the Company issued to Axia 255,100,000 restricted shares of the Company's common stock in exchange for essentially all of the assets and liabilities of Axia including a portfolio of securities, real estate holdings and publicly reporting shell-companies. The shares issued to Axia equaled approximately 82% of the issued and outstanding shares of the Company after the close of the transaction. Axia on December 10, 2002 spun-off those 255,100,000 shares of the Company's common stock to Axia's shareholders on a pro rata basis. For more information on this transaction, see the Company's Form 8-K filed February 27, 2002 and as amended on May 1, 2002.

On June 30, 2003, Nexia sold its interest in Wichita Development Corporation (Wichita) and its subsidiaries Salt Lake Development Corporation and Wichita Properties to Diversified Financial Resources Corporation ("DFRC"). The agreement provides that Nexia transfer to DFRC 100% of all shares that Nexia held in Wichita (86,795,794) in exchange for among other things, a promissory note in the sum of \$150,000 and 1,148,251 restricted shares of the common stock of DFRC with a guaranteed resale value of \$1.00 per share, whereby, within 36 months of the sale, DFRC is bound to issue sufficient additional shares such that the total value at liquidation will equal \$1,000,000. The Wichita common shares transferred to DFRC were approximately 83% of the issued and outstanding shares of Wichita. Control of Wichita included the ownership of Salt Lake Development Corporation, a subsidiary corporation of Wichita.

Forward Looking Business Plan

The Company acquired essentially all of its current assets and liabilities including a portfolio of securities, real estate holdings and publicly reporting shell-companies in February, 2002. The following discussion represents the Company's plans to operate the business acquired and currently controlled by Nexia. Property descriptions, legal discussions and similar areas are a

reflection of those acquisitions from Axia which constitute the majority of the Company's assets and operations at the present.

Business of Issuer

Nexia operates subsidiaries primarily as a holding company for its various properties. The majority of these assets are holding real estate investments as set forth in more detail with regard to each corporation controlled by Nexia Holdings, Inc., these subsidiaries include Hudson Consulting Group, Inc., a consulting company and four corporations that are holders of real estate as of December 31, 2004.

Real Estate Investments

The combined statements of operations, stockholders equity and cash flows for the year ended December 31, 2004 include only the real estate operations of Diversified Holdings - I, Inc., Downtown Development Corporation, Wasatch Capital Corporation, Kearns Development Corporation, West Jordan Real Estate Holdings, Inc. and Canton Industrial Corporation of Salt Lake City, Inc., (collectively referred to as the "entities"). Pursuant to the recapitalization of the Company on February 15, 2002, these entities have been treated as the acquiring entities for accounting purposes. The Company is the surviving entity for legal purposes. Because the recapitalization involved entities under common control, Interpretation 39 requires that there be no adjustment to the carrying values of the assets or liabilities at the date of the recapitalization.

Nexia's real estate operations primarily involve the acquisition, management, lease and sale of real estate holdings. Nexia owns a variety of commercial and residential properties in Utah and undeveloped land in the State of Kansas. The Company seeks to locate and acquire undervalued real estate (which is primarily commercial) with little or no cash down. Once acquired, the Company's real estate holdings are leased. Though the Company seeks to generate and maximize rental income through the management and lease of the property, our primary goal is to acquire real estate which will substantially appreciate in value and for which we can realize a substantial gain upon disposition.

Financial Consulting

The Company, through its subsidiary, Hudson Consulting Group, Inc., formerly provided a variety of financial consulting services to a wide range of clients. The Company has elected to suspend future activity in those services by Hudson and concentrate its efforts on its real estate investments.

The majority of operations of Hudson Consulting Group, Inc. have been concluded during the year ended December 31, 2004. There are continuing efforts to collect unpaid billings and obligations owed to Hudson but new work and new clients are not being sought at this time. Hudson during its active operations period sought to provide an expanded scope of financial, business and investment oriented consulting services to select start-up companies and existing public companies. Specifically, the Company helped client companies by creating a series of infrastructure-based partnerships that take advantage of the Company's expertise in: uncovering

private placement funding sources; strategic business planning; SEC registration documentation; "edgarization" of SEC forms and filings; transactional document preparation; clerical and record keeping assistance to clients; restructuring capital formation; identifying merger and acquisition opportunities.

Hudson charged clients monthly or predetermined fees which varied in both amount and form. Acceptable payments included cash, securities of the client corporation, other assets, or some combination of the three. This payment arrangement allowed many organizations, especially start-up ventures and those experiencing financial difficulties, to obtain Hudson's services without draining necessary cash resources.

Entities from many different industries employed Hudson's consulting services. The decision to accept a prospective client depended on the client's financial stability, the type of services needed, and the compensation format.

Governmental Regulation

The Company and its facilities are subject to normal government regulation at the federal, state and local level. The Company must comply with government regulations regarding employment, wages, access for handicapped and disabled persons and other laws, rules, regulations and ordinances. Although the Company does not foresee any change in existing local, state, or federal regulations, if changes should occur, the Company believes that it can adapt to such new regulations and that those changes would not have any significant effect on revenues or current operations of the Company. However, no assurance can be made that compliance or failure to comply with future regulation will not have a materially adverse effect on the business, operating results or financial condition of the Company.

Competition

The Company expects to be involved in intense competition with other business entities, many of which will have a competitive edge over the Company by virtue of their stronger financial resources and prior experience in business. There are numerous entities in the same real estate markets in which the Company currently owns property and in the areas where it seeks to obtain additional properties, though there are no dominant operations which the Company can identify as a continuing direct competitor to the Company's operations. There is no assurance that the Company will be successful in operating any business which it may acquire in the future.

Employees

The Company's subsidiaries have a total of 7 full time employees as of December 31, 2004. Management of the Company expects to use consultants, attorneys and accountants as necessary, and anticipates a need to engage additional employees.

As of the quarter ending September 30, 2003, Nexia's subsidiary, Hudson Consulting Group, Inc., temporarily discontinued regular cash payments to its employees. Consequently, Nexia has relied upon the issuance of S-8 shares to pay certain employees and consultants.

Risk Factors

You should carefully consider the following risks before making an investment in our Company. In addition, you should keep in mind that the risks described below are not the only risks that Nexia faces. The risks described below are all the risks that Nexia currently believes are material to our business. However, additional risks not presently known to us, or risks that we currently believe are not material, may also impair our business operations. You should also refer to the other information set forth in this Annual Report on Form 10-KSB, including the discussions set forth in "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Business," as well as our financial statements and the related notes.

Nexia's business, financial condition, or results of operations could be adversely affected by any of the following risks. If we are adversely affected by such risks, then the trading of our common stock could decline, and you could lose all or part of your investment.

The issuance of additional shares under S-8 may impair the value of the Company's stock because of significant dilution.

A significant risk relating to the Company's current operations is the dilution of the Company's common stock, as the Company at this time is relying heavily on the issuance of S-8 shares of its common stock to pay its advisors, contractors and employees for their services.

Loss of Richard Surber's services as president of the company would adversely affect the operations of the Company.

The Company does not have a plan in place for succession of management in the event that Richard Surber, president and director, should become for any reason unable to serve as president, chief executive and chief financial officer of the Company. Mr. Surber also has a control block of votes at the present time as the 8,000,000 shares of Preferred B stock equals 4,000,000,000 votes of the common stock. The Company also does not have insurance on Mr. Surber in the event of an accident or other event causing his inability to continue in the named executive offices. The Company does not currently believe that it would be able to continue its operations without the services of Mr. Surber for any substantial length of time.

Nexia's auditor's report on our financial statements includes an explanatory paragraph with respect to substantial doubt existing about its ability to continue as a going concern.

As of December 31, 2004, Nexia had incurred a loss from operations and had an accumulated deficit of \$13,228,622 resulting from losses in prior years. As a result, its financial statements include a note stating that these conditions raise substantial doubt about its ability to continue as a going concern, but the financial statements do not include any adjustments that might result from this uncertainty.

Nexia may face significant competition.

There are numerous businesses, corporations, individuals and firms that are engaged in the type of business activities that Nexia is presently engaged in. Many of those entities are more experienced and possess significantly greater financial and personnel resources than Nexia currently has. While Nexia intends to be competitive with those entities, there can be no assurance that such will be the case.

Limited ability to market services and properties.

Due to the limited resources available to Nexia, the sales and marketing of our services and properties have been limited. Nexia's future success is dependent upon our ability to market and sell our services and properties with those limited resources.

Nexia is subject to compliance with securities law, which exposes it to potential liabilities, including potential rescission rights.

Nexia has periodically offered and sold our common stock to investors pursuant to certain exemptions from the registration requirements of the Securities Act of 1933, as well as those of various state securities laws. The basis for relying on such exemptions is factual; that is, the applicability of such exemptions depends upon Nexia's conduct and that of those persons contacting prospective investors and making the offering. Nexia has not received a legal opinion to the effect that any of our prior offerings were exempt from registration under any federal or state law. Instead, it has relied upon the operative facts as the basis for such exemptions, including information provided by investors themselves.

If any prior offering did not qualify for such exemption, an investor would have the right to rescind its purchase of the securities if it so desired. It is possible that if an investor should seek rescission, such investor would succeed. A similar situation prevails under state law in those states where the securities may be offered without registration in reliance on the partial exemption from the registration or qualification provisions of such state statutes under the National Securities Markets Improvement Act of 1996. If investors were successful in seeking rescission, we would face severe financial demands that could adversely affect our business and operations. Additionally, if we did not in fact qualify for the exemptions upon which we have relied, we may become subject to significant fines and penalties imposed by the SEC and state securities agencies.

Additional Capital is Necessary to Implement Nexia's Business Plan.

Nexia does not believe that it has sufficient cash, cash equivalents and operating income to maintain its business at its existing level in 2005. Nexia will require significant new capital in order to execute its strategic plan and believes that this capital will only be available through an offering of shares of its common stock. Nexia's success in raising this capital will depend upon its ability to access equity capital markets and we may not be able to do so or to do so on acceptable terms. If it fails to obtain funds on acceptable terms, it will not be able to execute its strategic plan and would have to delay or abandon some or all of its plans for growth. If it is able to obtain funds, it believes that the terms of such arrangement will result in an offering that is

highly dilutive to existing holders of shares of our common stock because of the price at which it would have to issue those shares and the large number of shares it would have to issue at those prices.

Need for Additional Specialized Personnel.

Although Nexia's management is committed to the business and continued development and growth of the business, the addition of specialized key personnel and persons to assist management in the expansion of Nexia's operations will be necessary. There can be no assurance that Nexia will be able to locate and hire such specialized personnel on acceptable terms.

There is no established, stable market for Nexia's common stock.

Nexia's common stock is quoted on the Over-the-Counter Electronic Bulletin Board ("OTCBB") and traded sporadically. A large number of shares of outstanding common stock are restricted and are not freely-tradeable. An established public trading market for our common stock may never develop or, if developed, it may not be able to be sustained. The OTCBB is an unorganized, inter-dealer, over-the-counter market that provides significantly less liquidity than other markets. Purchasers of Nexia's common stock may therefore have difficulty selling their shares should they desire to do so.

Volatility of Stock Price.

The trading price of Nexia's Common Stock has in the past and may in the future be subject to significant fluctuations. In addition, the stock market in general has experienced extreme price and volume fluctuations that have affected the market price for many companies in industries similar to or related to that of Nexia and which have been unrelated to the operating performance of these companies. These market fluctuations may adversely affect the market price of Nexia's Common Stock.

Penny stock regulations may impair Nexia's shareholders' ability to sell their stock.

Nexia's shares of common stock are deemed as a "penny stock." Penny stocks generally are equity securities with a price of less than \$5.00 per share, other than securities registered on certain national securities exchanges. Penny stocks are subject to rules and regulations that impose additional sales practice requirements on broker-dealers who sell the securities to persons other than established customers and accredited investors and these additional requirements may restrict the ability of broker-dealers to sell a penny stock.

Any acquisitions that Nexia undertakes could be difficult to integrate, disrupt its business, dilute shareholder value and significantly harm its operating results.

Nexia expects to review opportunities to buy other business or technologies that would complement its current business, expand the breadth of its markets, or that may otherwise offer growth opportunities. If we make any future acquisitions, we could issue stock that would dilute

existing stockholders' percentage ownership, incur substantial debt or assume contingent liabilities. Potential acquisitions also involve numerous risks, including:

- * problems assimilating the purchased operations, technologies or products;
- * unanticipated costs associated with the acquisition;
- * diversion of management's attention from our core business;
- * adverse effects on existing business relationships with suppliers and customers;
- * risks associated with entering markets in which we have no or limited prior experience; and
- * potential loss of the purchased organization's or our own key employees.

Nexia cannot assure that it would be successful in overcoming problems encountered in connection with such acquisitions and its inability to do so could significantly harm its business.

Nexia is subject to various risks connected to the ownership of real property.

Nexia's investments are subject to varying degrees of risk generally incident to the ownership of real property. Real estate values and income from Nexia's current properties may be adversely affected by changes in national or local economic conditions and neighborhood characteristics, changes in interest rates and in the availability, cost and terms of mortgage funds, occupancy rates in Nexia's properties, the impact of present or future environmental legislation and compliance with environmental laws, the ongoing need for capital improvements, changes in governmental rules and fiscal policies, civil unrest, acts of God, including earthquakes and other natural disasters which may result in uninsured losses, acts of war, adverse changes in zoning laws and other factors which are beyond the control of Nexia.

In addition, real estate investments are relatively illiquid. The ability of Nexia to vary its ownership of real estate property in response to changes in economic and other conditions is limited. If Nexia must sell an investment, there can be no assurance that Nexia will be able to dispose of it in the time period it desires or that the sales price of any investment will recoup the amount of Nexia's investment.

Nexia's real property is also subject to real property taxes. The real property taxes on the real property may increase or decrease as property tax rates change and as the property is assessed or reassessed by taxing authorities. If property taxes increase, Nexia's operations could be adversely affected.

Reports to Security Holders

The Company is not required to deliver an annual report to security holders and will not voluntarily deliver a copy of the annual report to the security holders. Should the Company choose to create an annual report, it will contain audited financial statements. The Company will file all of its required information with the Securities and Exchange Commission ("SEC").

The public may read and copy any materials that are filed by the Company with the SEC at the SEC's Public Reference Room at 450 Fifth Street, N.W., Washington, D.C. 20549. The public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The statements and forms filed by the Company with the SEC have been filed electronically and are available for viewing or copy on the SEC maintained Internet site that contains reports, proxy and information statements and other information regarding issuers that file electronically with the SEC. The Internet address for this site can be found at: www.sec.gov. Information is also available on the Nexia website located at: www.nexiaholdings.com.

ITEM 2. DESCRIPTION OF PROPERTY

Location and Description

Nexia acquired in 2002, through the purchase of former Axia subsidiaries, the ownership or leasehold rights to industrial, commercial, warehouse, office and undeveloped commercial and residential real estate. The acquisition of properties was not limited to any specific geographic area. Regardless of the type of property, future acquisitions will not be limited to any specific geographic area. As of the end of 2004, Nexia owned, leased, or had interests in properties in Utah.

Investment Policies

Nexia's policy is to actively pursue the acquisition of real estate for investment income and appreciation in property value. During 2004, Nexia continued to emphasize acquiring property which management feels is undervalued. Rather than limiting itself to specific types of real estate, Nexia's policy has been to focus primarily on terms of financing and potential return on capital. Nexia generally looks for properties that can be purchased by assuming the existing financing or by paying the balance of the purchase price with a nominal cash expenditure and/or the issuance of shares of Nexia's common stock.

Nexia has no present intention to invest in first or second mortgages, interests in Real Estate Investment Trusts, or Real Estate Limited Partnerships. However, Nexia's board of directors is not precluded in the future from considering or participating in such investments.

Nexia currently has no limitations on the percentage of assets which may be invested in any one investment or the type of securities and investments in which it may invest. However, the board of directors in its discretion may set policies without a vote of Nexia's securities holders regarding the percentage of assets which may be invested in any one investment or type of investment. Nexia's current policy is to evaluate each investment based upon its potential capital return to Nexia on a relatively short term basis. Furthermore, Nexia does not plan to enter into the business of originating, servicing or warehousing mortgages or deeds of trust except as may be incidental to its primary purpose of acquiring real estate.

There is a risk that Nexia may lose control of its properties through foreclosure if enough funds are not derived from the rental income for both the financing and operation of its properties. Currently, due to expanded acquisition activity and deficiencies in rental income from the

properties currently controlled by it, Nexia does not have sufficient rental revenues to cover the debt service and operating costs of all properties. Nexia during the year ended December 31, 2004 had to use capital from other sources to fund this deficit and expects that this need will continue during 2005. Although management hopes to increase the occupancy rates and thus increase the rental income so that such income will cover both operations and debt service, no such assurances can be made.

Description of Real Estate and Operating Data

Below is a list of the properties owned by Nexia and/or its consolidated subsidiaries as of December 31, 2004. Also included are any changes in the ownership status of such properties which have occurred between the end of 2004 and the filing of this Form 10-KSB. All references to current principal balances of encumbrances against the properties are as of December 31, 2004, only.

Commercial Properties

Nexia's subsidiaries own interests in the four commercial properties described below.

Wasatch Capital Corporation ("Wasatch")

Wasatch, a 98% owned subsidiary of Nexia, owns the Wallace-Bennett Building, located at 55-65 West 100 South, Salt Lake City, Utah. The building is a 36,797 square foot, turn-of-the-century multi-story office building. At the beginning of the year 2004 only the ground level was suitable for rent as retail space. The ground level comprises 7,816 square feet or 21% of the Building. A portion of this space is currently leased to Richard Warrick, the owner of the Oxford Shoe Shop, a retail outlet for men's shoes, for a monthly rental of \$1,095 for 960 square feet. A lounge has signed a lease for 1,900 square feet of the ground floor retail space at a monthly rental of \$ 2,533.34 for the first year of a five year term ending February 28, 2010. A restaurant and an art gallery occupy the balance of the ground floor space. The average annual effective rental for the rentable ground level space is \$15.00 per square foot.

In late 2004, the Company occupied a portion of the second floor as its main offices for which remodeling work was mostly completed during the year ended 2004. The Company occupies a total of 3,600 square feet and has space that includes a conference room and office space for the legal, accounting and executive employees of the Company. The estimated cost for the renovations being conducted on the second floor as of December 31, 2004 was \$200,000.

A portion of the second floor has been leased to Black Chandelier, Inc. for a five year term that began on July 1, 2004 and ends July 31, 2009, for use as studio and production space. Renovations to this space have begun but are not completed. The lease covers a total of 4,704 square feet and calls for monthly rental of \$4,704.00 and 3% annual increases during the five year term of the lease.

In early 2003, Wasatch refinanced the main loan on the Wallace-Bennett Building. The terms of this loan package provided for a loan in the total amount of \$850,000, an interest rate on the loan

of 7.5%, with monthly payments of \$8,800. The loan has a term of three years, resulting in a due date of May 10, 2006. Of the loan proceeds \$202,920 has been set aside for construction or capital improvements to the buildings securing the loan, all of which have been utilized during the second floor renovation and other upgrades to the building. Wasatch intends to improve the remaining upper floor space as office space, studio locations and production space for low impact business. The balance due on the existing note on December 31, 2004 was \$797,439.

Subsequent to the end of the year, the obligation was refinanced to help pay for improvements to the building and the amount of the debt was increased to \$856,437 and monthly loan payments were raised to \$8,875.

Downtown Development, Corp. ("DDC")

DDC, a 99.08% owned subsidiary of Nexia, owns a one story retail building located at 1374 South State Street, Salt Lake City, Utah, which it purchased on December 1, 1999 for \$535,000. An all-inclusive trust deed in the amount of \$400,000 was placed on the property requiring monthly payments of \$4,231.38 with interest at 9.725% per annum. The balance owing at December 31, 2004 was \$376,151. In December of 2002, DDC obtained permanent financing with Community First National Bank, the loan bears interest at the rate of 7.16% per annum, with monthly payments of \$3,061. The building is 7,000 square feet, one story tall and constructed in the late 1960's. A bakery currently occupies 2,500 square feet of retail space under a lease in the building. DDC expended \$34,100 through March 31, 2004 in renovations to the space occupied by the bakery in the property. This figure does not include substantial improvements made by the tenant to the same portion of the property. The balance of the space in the building is currently not occupied and the search for a tenant is ongoing. DDC believes the property is adequately insured. The retail space in the building competes for tenants with other retail space on State Street which is a commercial zone for over one mile in each direction from the property. On December 23, 2004 a Second Deed of Trust was granted against this property in favor of Joseph Corso, Jr. as security for a debenture granted to Mr. Corso in the sum of \$200,000.

Kearns Development Corporation. ("Kearns")

Kearns, a 90.7% owned subsidiary of Nexia, owns one office building located on West Sams Boulevard in Kearns, Utah (a suburb of the Greater Salt Lake area). The building contains approximately 11,709 square feet of total floor space in a single story. The building was purchased on November 29, 2000 for a total price of \$750,000. The purchase was financed with a \$625,000 first mortgage from Brighton Bank with an initial variable rate of 10.97% amortized over 25 years and monthly payments of \$5,632. The loan was personally guaranteed by Richard D. Surber, Nexia's President and C.E.O. This property was refinanced on January 10, 2003, a new mortgage in the sum of \$660,000 was obtained from Community First Bank, an interest rate of 7.16% applies to the loan, monthly payments are \$5,223 based upon a 20 year amortization with a balloon payment of the remaining balance due on January 10, 2013. The balance owing on this loan as of December 31, 2004 was \$629,985.

The building is leased to three major tenants occupying 100% of the office space and generating monthly rentals of \$11,173 at an average rate of \$11.45 per square foot. Kearns has no present plans to renovate or improve the building. Management believes that the building is adequately insured. The building competes for tenants with other office space in the Kearns area.

West Jordan Real Estate Holdings, Inc. ("West Jordan")

West Jordan, a 88.28% owned subsidiary of Nexia, operates the Glendale Plaza, a retail shopping plaza located at 1199 South Glendale Drive, Salt Lake City, Utah. West Jordan exercised an option to purchase the shopping plaza on June 22, 2001. The loan on the property was refinanced on June 30, 2002 for a total loan amount of \$1,072,500 at the current interest rate of 8%, the loan is due on demand or monthly payments of \$12,417 are due each month, as of December 31, 2004 the outstanding balance owed was \$958,416.

The property contains 72,256 square feet of retail space and approximately 60% is leased to tenants. A national chain retail store occupies 10,080 square feet of the building. They are the only tenant of the Glendale Plaza which occupies more than ten percent of the premises. The Glendale Plaza generates approximately \$243,000 in annual rental income as of December, 2004, or approximately \$3.36 per square foot on an annualized basis. Property taxes and assessments have been paid in full on the property. West Jordan is of the opinion that this property is adequately insured.

West Jordan has expended approximately \$349,049 through December 31, 2004, in capital improvements to the Glendale property since its purchase. Substantial additional improvements are needed to improve rental rates which are currently significantly below area market rates. West Jordan is in the process of initiating such improvements. The Company has hired a contractor to begin work on certain renovations. The contractor has agreed to accept a combination of shares and options to purchase shares of the Company's common stock under its 2004 Benefit Plan. The material costs will be financed or covered by operating income.

In March of 2005, West Jordan signed a Real Estate Purchase Agreement for the sale of the Glendale Plaza, purchase price provided for in this contract was \$1,860,000. The buyer has been conducting due diligence on the property which was scheduled to be completed by April 27, 2005. On April 20, 2005, the closing for this sale took place. Cash proceeds received by the Company total approximately \$785,000.

Residential Properties

One of Nexia's subsidiaries owns an interest in the residential properties described below.

Hudson Consulting Group, Inc. ("Hudson")

Hudson, a 99.08% owned subsidiary of Nexia, owns a condominium unit located in close proximity to Brian Head Ski Resort and the surrounding resort town in southern Utah. Hudson acquired the condominium unit for investment purposes and has contracted with a management

firm who rents the unit on a short-term basis. The unit is subject to a note with a current principal balance at December 31, 2004 of \$27,964 and bearing an interest rate of 8.25% per annum. Monthly payments on the unit are \$301. Hudson maintains a listing for the sale of this unit with a real estate agent within the marketing area for Brian Head, Utah.

Industrial Property

One of Nexia's subsidiaries owned an interest in the industrial property described below.

Canton Tire Recycling West Virginia, Inc. ("CTR")

CTR, a 99.08% owned subsidiary of Nexia, owns the Parkersburg Terminal, located at 516 Camden Street, Parkersburg, West Virginia. The terminal is a former fuel transfer station. The property consists of 4.5 acres on a tributary of the Ohio River and includes a former oil storage facility and a warehouse with office space. There are no encumbrances on the property. The property has been vacant and unused since its acquisition. CTR is subject to competition in finding tenants or buyers for the property, and there is a substantial likelihood that the property will remain vacant for some time. CTR is of the opinion that this property is adequately covered by insurance. CTR has no present plans to renovate or improve the property and recognized impairment expense of \$29,554 and \$258,788 during the years ended December 31, 2003 and 2002 respectively.

The West Virginia Division of Environmental Protection filed suit against CTR and Axia Group, Inc. the former parent corporation of CTR, seeking the completion of environmental clean up procedures at the site. CTR believes it has completed all cleanup measures which will be required by the State of West Virginia, however there can be no assurance that the State of West Virginia will not require additional cleanup on the property. For more information on the suit filed against CTR and Axia and for more information on Parkersburg properties, see "Item 3, Legal Proceedings."

CTR invested approximately \$150,000 in environmental cleanup of the site over the course of its ownership of the property. All appropriate reports regarding the cleanup have been filed with regulatory agencies. CTR has not received any additional requests or responses for over eighteen months regarding the property.

On April 9, 2004, the property was sold for \$1,816.70 in unpaid property taxes due on the property as a result of a clerical oversight. CTR made an attempt to reacquire the property for the cost of the back taxes and legal fees associated with the sale and any legal costs necessitated by that effort. This effort was not successful and ownership of the property has been lost as a result. The Company recognized a loss from disposition of \$29,559 during the year ended December 31, 2003. On December 31, 2004 the Company sold this subsidiary.

Undeveloped Land

Nexia, through its subsidiaries, owns approximately six (6) small parcels of undeveloped raw land in Utah and Kansas. There are currently no plans to develop these properties. If valid offers

are received on these parcels, they may be sold. During 2003, the Company recognized an impairment expense of \$173,966 on these parcels based on their assessed market value.

Insurance

Nexia is of the opinion that each of these properties described above is adequately insured.

ITEM 3. LEGAL PROCEEDINGS

State of West Virginia vs. Canton Tire Recycling West Virginia, Inc., Canton Industrial Corporation and CyberAmerica Corporation - Suit was filed on August 14, 1998, in the Circuit Court of Wood County, Parkersburg, West Virginia as file no. 98 C 354 seeking the completion of clean up procedures for property owned by Canton Tire Recycling West Virginia, located in the city of Parkersburg. The state requested that certain waste material present on the site and any remaining material in the onsite storage tanks be removed and that an oil/water separator located on the property be cleaned out. The Company and the State of West Virginia entered into a Consent Decree by which the Company agreed to submit and complete a Remediation and Sampling Work Plan and the payment of \$88,000 in fines and penalties (\$8,000 has been paid, \$20,000 was paid prior to May 31, 2000, similar payments were due each May 31 through 2003.) The work required by the Remediation and Sampling Work Plan has been completed and submitted to the State. This information included test results indicating that soil contamination testing required by the Plan reported contamination exceeding state guidelines. The nature and cost of further testing or clean-up as a result of that report cannot be determined at this time. No further request for additional work or testing has been received from the State of West Virginia. The Company made a final payment of this matter with a \$5,000 cash payment in February 2004, which the State of West Virginia has accepted as final settlement of the court order.

Hudson Consulting Group, Inc. v. Ohana Enterprises, Inc., Isaac P. Simmons, Kathryn A. Christmann, Gerard Nolan, David Cronshaw, Interactive Ideas, Jonathan Thomas and Phillip Crawford. Suit was filed on March 17, 2003 in the Third Judicial District Court in and for Salt Lake County, State of Utah, Case No. 030905949. Suit was filed by Hudson to seek payment under an August 27, 2002 Stock Purchase Agreement, wherein the named defendants purchased a controlling interest in a Delaware corporation known as Torchmail Communications, Inc. which changed its name subsequent to the transfer to Ohana Enterprises, Inc. The total sales price was \$300,000 of which only the first \$100,000 had been paid. The defendants have claimed that Hudson misrepresented the status of Ohana prior to the transfer and denied any further obligation to make payments. Suit was filed and attempts were made to resolve the dispute through either the return of control of the corporation or through payment of the outstanding obligation. Hudson denies any misrepresentation with regard to the corporation and its status and believes that the claims of the defendants are an attempt to alter the terms of the written agreement. In February of 2004, Hudson agreed to settle the litigation and all related claims in exchange for a cash payment of \$117,000 which settled all claims except that with the defendant Gerard Nolan. In exchange for the delivery of Three Million Seven Hundred Fifty Three Thousand Five Hundred Thirty One (3,753,531) shares of the common stock of Ohana Enterprises, Inc., on or about September 25, 2004 by Gerard Nolan, all claims as to Mr. Nolan

were released. A Stipulation and Motion for Dismissal was filed on Hudson's behalf with the court on January 4, 2005.

Richard D. Surber, Individually and Hudson Consulting Group, Inc., a Nevada Corporation vs. Richard A. Bailey and Florian R. Ternes, Individually, Gateway Distributors, Inc., a Nevada Corporation and Worldwide Holdings Delaware Corp., a Delaware corporation, f/k/a TRSG Corporation. Suit was filed on October 8, 2004 in the Third Judicial District Court of Salt Lake County, State of Utah, Civil Case No. 040921072. The complaint was filed on behalf of Mr. Surber and Hudson Consulting Group, Inc. seeking recovery for unpaid obligations owed to Hudson by the named defendants, some of which are represented by a promissory note in the face amount of \$175,000 and for damages alleged to have been caused by the fraudulent actions of the named defendants which have caused injury to both Hudson and to Mr. Surber personally. Defendants have been served and all but one has filed an appearance with the court in which they have denied liability. Plaintiffs are preparing an amended complaint for filing with the court. Worldwide Holdings Delaware Corp. has failed to make an appearance and a default has been requested from the court against that corporation.

Nexia Holdings, Inc., a Nevada Corporation vs. Richard Bailey, Individually and Creative Marketing Group, Inc., a Nevada Corporation. This action was filed on September 28, 2004, in the Third Judicial District Court of Salt Lake County, State of Utah, Civil Case No. 040920424. Nexia filed this cause of action to recover its damages that resulted from the failure of the named defendants to perform the terms and conditions of a Stock Purchase Agreement and Plan of Reorganization signed on or about November 10, 2003. This agreement provided for Nexia to acquire a controlling interest in the defendant corporation which the Defendants have subsequently failed and refused to perform, despite Nexia having tendered full performance on its part. Both defendants were served with process in the case and failed to make an appearance before the Court; entry of default against each defendant has been signed by the court. Development of information to establish the amount of damages suffered by Nexia is currently being gathered and after presentation to the court is expected to result in a final judgment for Nexia in an amount yet to be determined.

Diversified Holdings I, Inc., a Nevada Corporation vs. West America Securities Corporation, a California Corporation and Robert Kay, an individual resident of California. This action was filed on September 14, 2004, in the Third District Court of the State of Utah, Salt Lake County, Civil Case No. 040919392. By Assignment from Nexia Group, Inc., dated January 23, 2004, Diversified Holdings I, Inc. acquired all rights to an agreement between Axia Group, Inc. and the named defendants providing for a payment to be made to Axia in the sum of \$50,000 on or before December 31, 2003. Defendants have failed to make the provided for payment and Diversified Holdings I, Inc. has filed suit to seek payment of the balance due. Discussions related to resolving the matter have not resulted in a payment to Diversified and further action on the litigation is expected.

Diversified Holdings I, Inc., a Nevada Corporation vs. Ronald M. Hickling, Anthony Turgeon, Allen Barry Witz, Individually and TechnoConcepts, Inc. a California Corporation. This action was filed on December 22, 2004, in the Third Judicial District Court of Salt Lake County, State of Utah, Civil Cause NO. 040927134. Diversified Holdings I, Inc. as the assignee of Axia

Group, Inc. has filed the stated civil action seeking recovery of damages resulting from the fraudulent actions of the named defendants in preventing the acquisition of a controlling interest in TechnoConcepts, Inc. as provided for by contract. Each of the named parties has been served with process in the matter and none of them has yet filed a response to the allegations contained in the complaint. The parties are presently conducting settlement discussions that have produced proposals for a final resolution of the litigation.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matter was submitted to a vote of security holders during the fourth quarter of the fiscal year covered by this report.

Effective November 1, 2004 a majority of the issued and outstanding shares consented to an amendment to the Company's Articles of Incorporation to conduct a reverse stock split of the Company's common stock on a 1 for 1,000 basis. A certificate to carry out this change was filed with the Nevada Secretary of State on October 20, 2004. Additional information can be found by referring to the Schedule 14(c) information statement filed on October 12, 2004.

PART II

ITEM 5. MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

The Company's common stock is quoted on the Electronic Bulletin Board under the symbol, "NEXH.OB". Trading in the common stock in the over-the-counter market has been limited and sporadic and the quotations set forth below are not necessarily indicative of actual market conditions. Further, these prices reflect inter-dealer prices without retail mark-up, mark-down, or commission and may not necessarily reflect actual transactions. The high and low bid prices for the common stock for each quarter of the years ended December 31, 2003 and 2004 are as follows:

YEAR	QUARTER ENDING	HIGH	LOW
2003	March 31, 2003	\$0.008	\$0.006
	June 30, 2003	\$0.008	\$0.0005

Common Stock

Effective as of November 1, 2004, pursuant to shareholder consent, a reverse split of the Company's common stock was carried out on a 1 for 1,000 basis.

Shareholders: As of May 10, 2005, there were approximately 590 shareholders of record.

Dividends: The Company has not declared a cash dividend during the fiscal years ending December 31, 2003 and 2004.

Preferred Stock

As of May 10, 2005, the number of shares of Series A Convertible Preferred Stock issued and outstanding is none. The Series A Convertible Preferred Shares have voting rights which equate to 100 shares of common stock for every 1 Series A Preferred share and may be converted into \$10 worth of common stock. A total of 10,000,000 shares have been designated and authorized as Series A Preferred Shares of a total number of 50,000,000 authorized shares of preferred stock.

On August 25, 2004, the Company filed with the Nevada Secretary of State a Certificate of Designation of the Rights and Preferences of Preferred Stock of Nexia Holdings, Inc. This designation created 10,000,000 shares, par value \$0.001, of Series B Convertible Preferred Stock, out of the 50,000,000 authorized shares of preferred stock of the Company. The Series B Preferred Stock holds voting rights equal to 500 shares of common stock for each share of the Series B Preferred Stock issued, the shares do not have any conversion rights into common stock or any other class of stock of the Company. This filing was reported on an 8-K filing made on August 31, 2004.

On September 28, 2004 the Company authorized the issuance of 8,000,000 shares of Series B Convertible Preferred Stock to the president of the Company, Richard Surber. The shares were issues as compensation for both his service as president of the Company and for acting as a guarantor on real estate mortgages for subsidiaries of the Company. The shares were issued in a private transfer exempt from registration under section 4(2) of the Securities Act of 1933. This issuance was reported on a Form 8-K filing made on September 28, 2004.

On November 8, 2004, the Company filed with the Nevada Secretary of State a Certificate of Designation of the Rights and Preferences of Preferred Stock of Nexia Holdings, Inc. designated

as Series C Preferred Stock. The designation of 5,000,000 shares of the 50,000,000 authorized as Series C Preferred Stock provides that the Series C shares will hold conversion rights into shares of the common stock of the Company equal in value to \$5.00 per share and are subject to redemption by the Company upon a \$5.00 cash payment. The Series C Preferred Shares hold no voting rights. This filing was reported on a Form 8-K filing made on November 10, 2004.

On November 10, 2004 an agreement was entered into with Joseph Corso, Jr. to sell him 100,000 shares of its Series C Preferred Stock in exchange for a cash payment of \$50,000. These shares had not been registered for sale and the exchange was handled as a private sale exempt from registration under section 4(2) of the Securities Act of 1933. This exchange was reported on a Form 8-K filing made on November 12, 2004.

Dividends: The Company has not declared a cash dividend for the Series A Convertible Preferred Stock during the fiscal year ended December 31, 2004. Rights to dividends are granted to the Series A Convertible Preferred Stock equal to those of the Common Stock, when, as and if declared by the Directors of Nexia, to be paid in cash or in common stock equal to market value at the election of the Company.

Conversion Rights: Conversion rights into shares of Common Stock are given to the Series A Convertible Preferred Stock based upon that number of shares of the Company's Common Stock equal in market value to \$10.00 at the time of conversion.

Limited Market for Common Stock.

There is currently a limited trading market for our shares of common stock and there can be no assurance that a more substantial market will ever develop or be maintained. Any market price for shares of common stock of Nexia is likely to be very volatile, and numerous factors beyond our control may have a significant adverse effect. In addition, the stock markets generally have experienced, and continue to experience, extreme price and volume fluctuations which have affected the market price of many small capital companies and which have often been unrelated to the operating performance of these companies. These broad market fluctuations, as well as general economic and political conditions, may also adversely affect the market price of our common stock. Further, there is no correlation between the present limited market price of our common stock and our revenues, book value, assets or other established criteria of value. The present limited quotations of our common stock should not be considered indicative of the actual value of Nexia Holdings, Inc. or our common stock.

Risks of "Penny Stock".

Nexia Holdings Inc.'s common stock (OTC BB: NEXH) is deemed to be "penny stock" as that term is defined in Rule 3a51-1 of the Securities and Exchange Commission. Penny stocks are stocks (i) with a price of less than \$5.00 per share; (ii) that are not traded on a "recognized" national exchange; (iii) whose prices are not quoted on the NASDAQ automated quotation system (NASDAQ-listed stocks must still meet requirement (i) above); or (iv) in issuers with net tangible assets less than \$2,000,000 (if the issuer has been in continuous operation for at least three years) or \$5,000,000 (if in continuous operation for less than three years), or with average

sales of less than \$6,000,000 for the last three years. Until recently, there had been no "established public market" for our common stock during the last five years. While our stock has traded between \$0.035 and \$0.0001 per share over the past two years, there is no assurance that this price level will continue, as there has thus far been low volume. Section 15(g) of the Securities Exchange Act of 1934, as amended, and Rule 15g-2 of the Securities and Exchange Commission require broker/dealers dealing in penny stocks to provide potential investors with a document disclosing the risks of penny stocks and to obtain a manually signed and dated written receipt of the document before effecting any transaction in a penny stock for the investor's account. Potential investors in our common stock are urged to obtain and read such disclosure carefully before purchasing any shares that are deemed to be a "penny stock."

Moreover, Rule 15g-9 of the Securities and Exchange Commission requires broker/dealers in penny stocks to approve the account of any investor for transactions in such stocks before selling any penny stocks to that investor. This procedure requires the broker/dealer to (i) obtain from the investor information concerning his or her financial situation, investment experience and investment objectives; (ii) reasonably determine, based on that information, that transactions in penny stocks are suitable for the investor and that the investor has sufficient knowledge and experience as to be reasonably capable of evaluating the risks of penny stock transactions; (iii) provide the investor with a written statement setting forth the basis on which the broker/dealer made the determination in (ii) above; and (iv) receive a signed and dated copy of such statement from the investor, confirming that it accurately reflects the investor's financial situation, investment experience and investment objectives. Compliance with these requirements may make it more difficult for investors in our common stock to resell their shares to third parties or to otherwise dispose of them.

RECENT SALES OF UNREGISTERED SECURITIES

The Company issued no unregistered securities within the period covered by this report which have not been previously reported on Form 10-QSB or Form 8-K.

Subsequent Events

On January 7, 2005, the Company filed a Form 8-K, in which the Company reported the Unregistered Sale of Equity Securities to EquitiLink, LLC. The Company delivered 100,000,000 shares of its restricted common stock to EquitiLink as compensation for public relations and communication services performed by Equitilink for the benefit of the Company. The shares were issued with a restrictive legend and issued pursuant to Section 4(2) of the Securities Act of 1933 in a private transaction.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

General

The Company currently operates as a holding company for its subsidiaries that own and operate real estate. It intends to identify and acquire favorable real estate opportunities as they are found

and investigated and as funding for such acquisitions becomes available or funding sources are identified. Management of current properties is expected to continue in a similar fashion as they are being currently handled. The Company currently believes it can meet its cash needs for the fiscal year ending December 31, 2005.

Real Estate Operations

Nexia's objective with respect to its real estate operations is to acquire, through its subsidiaries, properties throughout the country, which Nexia's management believes to be undervalued and which a subsidiary is able to acquire through the expenditure of limited amounts of cash. The subsidiaries attempt to acquire such properties by assuming existing favorable financing and paying the balance of the price with nominal cash payments or through the issuance of shares of either Nexia's or the subsidiary's common stock, or some combination of the two. Once such properties are acquired, the subsidiary leases them to primarily commercial tenants. Nexia's real-estate subsidiaries also make limited investments in improvements to the properties with the objective of increasing occupancy and improving cash flows. Nexia believes that with minor improvements and effective management by the subsidiaries, properties can be liquidated at a profit within a relatively short period of time. The Company has incurred losses during the past year from impairment write-downs of property.

Nexia recorded consolidated rental revenues of \$512,456 for 2004 as compared to \$511,020 for 2003. This relatively unchanged level of rental revenue is due to the lack of any significant changes in the rental operations of the Company's subsidiaries during the year ended December 31, 2004 compared to the prior year. During 2004, Nexia continued its efforts to decrease the overall vacancy rate of its consolidated real estate holdings including marketing its holdings to potential tenants through commissioned real estate agents and making cost-effective improvements to the holdings to increase occupancy.

Nexia continues its real estate operations despite the negative cash flow for two reasons. First, Nexia is attempting to eliminate the losses by increasing occupancy and rental income from those properties of the subsidiaries which have a high current vacancy rate. Second, Nexia's subsidiaries purchase real estate primarily for appreciation purposes. Thus, while Nexia seeks to minimize and reverse its real estate cash flow deficit, its goal is to offset such deficit with sufficient cash that will be generated upon property disposition.

Hudson Consulting Group, Inc.

Hudson's consulting services as provided in the past were intended to provide an expanded scope of financial, business and investment oriented consulting services to select start-up companies and existing public companies. Specifically, Hudson would seek to help its client companies by creating a series of infrastructure-based partnerships that take advantage of Hudson's expertise in: advising, uncovering private placement funding sources, strategic business planning, SEC registration documentation, transactional document preparation, restructuring capital information, "edgarizing" documents for filing with the Securities and Exchange Commission, clerical support for clients, and identifying merger and acquisition opportunities. The Company has elected to cease the primary operations of Hudson during the year ended December 31, 2004,

its future actions will consist of seeking to collect fees owed to it for past services and completing prior services for which it has a contracted obligation to continue providing services.

Revenues from Hudson's financial consulting operations for the year ended December 31, 2004 were \$121,633 a \$154,932 decrease from the \$276,565 in revenues reported for the year ended December 31, 2003. This decrease was due to the decision to cease seeking new clients and additional work in the financial consulting area.

Company Operations as a Whole

Revenues

Gross revenues for December 31, 2004 and 2003 were \$634,089 and \$787,585 respectively. The decrease in revenues is due in part to decrease in rental revenues as a result of the sales of Wichita Development Corporation and Salt Lake Development Corporation in July of 2003 and a decrease in financial consulting revenues.

Losses

Nexia recorded an operating loss of \$3,493,029 at December 31, 2004, as compared to an operating loss of \$1,107,042 at December 31, 2003. Nexia recorded a net loss of \$3,004,155 for December 31, 2004, compared to a net loss of \$901,825 for December 31, 2003. Nexia's losses increased as a result of the reduced level of financial consulting operations, losses incurred from the use of stock and stock options as compensation for the majority of its employees.

Nexia feels that it is positioned to take advantage of changing market conditions as a result of changes made in the last year. Nexia anticipates operating at a loss through fiscal 2005. There can be no assurance that Nexia will attain profitability or that its can obtain any revenue growth in the future.

Expenses

General and administrative expenses for December 31, 2004 and 2003 were \$1,808,456 and \$710,304 respectively. The increase in expenses is partially a result of the expenses incurred by the Company from its use of stock and stock options as a form of compensation for its employees, consultants and contractors and increases in the number of employees during the year, which have subsequently been reduced.

Nexia expects expenses as a percent of revenues to remain constant or decrease through 2005 as Nexia steps up its effort to streamline operations and eliminate non-performing assets as well as acquire additional properties and decrease expenses through the elimination of its financial consulting operations.

Capital Resources and Liquidity

At December 31, 2004, Nexia had current assets of \$565,834 and total assets of \$4,006,060. Nexia had a net working capital deficit of \$ 51,335 at December 31, 2004. The main factors creating the working capital deficit are the amount of real estate obligations that are classified as current obligations and the substantial decrease in securities available for sale due to write downs resulting from downturns in the market.

Net stockholders' equity in Nexia was \$441,414 as of December 31, 2004, compared to \$44,705 as of December 31, 2003.

Cash flow used in operations was \$254,778 for the year ended December 31, 2004, compared to cash flow used in operations of \$152,474 for the year ended December 31, 2003. The increase in cash flows used in operating activities for the year ended December 31, 2004, is primarily attributable to the costs of construction, maintenance and repair work on the real property of the corporation.

Net cash used by investing activities was \$317,551 for the year ended December 31, 2004, compared to net cash used by investing activities of \$9,763 for the year ended December 31, 2003. The significant increase in the amount of cash used by investing activities for the year ended December 31, 2004 as, compared with 2003 is primarily a result of issuing debt securities and the costs of real property improvements to investment property made during the year.

Cash flow provided by financing activities was \$710,747 for the year ended December 31, 2004, compared to net cash provided of \$147,489 for the year ended December 31, 2003. Nexia had positive financing cash flow for the year ended December 31, 2004, as a result of issuing long term debt, including convertible debentures, and proceeds from the issuance of stock options.

Due to Nexia's acquisition of debt service on real estate holdings, willingness to acquire properties with negative cash flow shortages, and acceptance of non-cash assets for consulting services, Nexia experiences occasional cash flow shortages. To satisfy its cash requirements, including the debt service on its real estate holdings, Nexia must periodically raise funds from external sources. This often involves Nexia conducting exempt offerings of its equity securities.

During the year ended December 31, 2004, Nexia issued a total of 1,448,672,529 (number adjusted to reflect the 1 for 1,000 reverse effective as of November 1, 2004.) shares for services rendered by employees and consultants.

Debentures

On October 31, 2003 the Company issued two 18% Series A Senior Subordinated Convertible Redeemable Debentures, with a due date of November 1, 2004. Each of the debentures is in the face amount of \$30,000 and was convertible into the common stock of the Company at a discount of 30% from the market price on the date of conversion. The holders of the debentures are Mr. Ronald Friedman and Mr. John E. Fry, Jr., Mr. Fry is a director of the Company. The funds received in exchange for the debentures were forwarded to Creative Marketing Group, Inc. to further a proposed agreement with the Company, that agreement failed to close and the

receivable in the amount of \$60,000 at 18% interest has been acknowledged by CMG. Full payment of the obligations of the Company to each of these debentures holders has been made.

On November 1, 2004 the Company issued a 24% Series A Senior Subordinated Convertible Debenture, with a due date of November 1, 2007 and interest payments to be made commencing November 1, 2004. The debenture has a face amount of \$200,000. After one year. All of the balance, except \$5,000, can be converted into shares of common stock at 70% of the average stock closing bid price for three trading days preceding the date of notice of conversion. The holder the debenture is Mr. Joseph Corso, Jr. a resident of the State of New York and a non-affiliate of the Company. The proceeds from the debenture were deposited into working capital.

Stock and Options

Beginning with the quarter ending September 30, 2003, Nexia's subsidiary, Hudson Consulting Group, Inc., discontinued making regular cash payments to its employees. Consequently, Nexia has relied upon the issuance of S-8 shares and/or option shares to pay certain employees and consultants.

On January 29, 2004, the Company's board of directors approved the delivery to each director of 10,000 (post-reverse) restricted shares of the Company's common stock for services rendered to the Company as Directors. The directors receiving shares included, Richard Surber, Gerald Einhorn, Adrienne Bernstein and John E. Fry, Jr. The shares were issued pursuant to Section 4(2) of the Securities Act of 1933, as compensation for services rendered to the corporation as Directors by the named individuals.

On September 28, 2004 the Company authorized the issuance of 8,000,000 shares of Series B Convertible Preferred Stock to the president of the Company, Richard Surber. The shares were issued as compensation for both his service as president of the Company and for acting as a guarantor on real estate mortgages for subsidiaries of the Company. The shares were issued in a private transfer exempt from registration under Section 4(2) of the Securities Act of 1933. This issuance was reported on a Form 8-K filing made on September 28, 2004.

Stock Options and Grants to Employees and Contractors

During the year ended December 31, 2004 the board of directors of the Company authorized the issuance of 1,448,672,529 shares of common stock, (numbers adjusted to reflect the 1 for 1,000 reverse stock split of the common stock effective as of November 1, 2004) pursuant to the S-8 Registration Statement of the Company for the payment of obligations owed to employees and contractors of the Company. From share authorized as option shares the Company realized cash proceeds of \$441,457 from the purchase of those option shares. As a result of the stock and stock options issued during the year ended December 31, 2004 the Company incurred expenses totaling approximately \$2.6 million, which exceeds by a significant factor the amount of cash that would have been needed to meet those same obligations.

EVENTS SUBSEQUENT TO DECEMBER 31, 2004.

Through April 8, 2005 the board of directors of the Company has authorized the issuance of 1,350,000,000 shares of common stock pursuant to the S-8 Registration Statement of the Company for the payment of obligations owed to employees and contractors of the Company.

On May 11, 2005, West Jordan Real Estate Holdings, Inc. accepted a promissory note from Diversified Financial Resources Corporation and BTA Mineral Servitude Corporation S.A. de C.V. in the sum of \$230,000, the note is due in one year, bears interest at the rate of 8% per annum and provides for monthly payments of \$5,000 due on the 11th of each month. The note is secured by a piece of residential real estate located in Murray, Utah, four condominium units located in Ogden, Utah and a 10% royalty interest in the mining holdings of the two named corporations located in the Sierra Madre Mountains of Mexico. West Jordan provided sufficient cash to satisfy two notes held by the Company with a face value of \$130,000 and provided \$100,000 in additional cash to the makers.

Ability to Continue as a Going Concern

Nexia's ability to continue as a going concern is in doubt as a result of Nexia having incurred a loss from its operations during the fiscal year ended December 31, 2004 and for the fiscal year ended December 31, 2003 and reported losses in prior years as well. Nexia will need to substantially decrease its operating expenses, increase its operating income, and raise significant additional capital, as to which there is no assurance that the objective will be accomplished. In the event that these events do not take place Nexia will in all probability not be able to continue as a going concern in calendar year 2005.

Capital Expenditures

Nexia had capital expenditures of \$364,761 during the year ended 2004.

Income Tax Expense (Benefit)

Nexia has an income tax benefit resulting from net operating losses to offset future operating profit of approximately \$8,585,175. This is not shown on the balance sheet as a deferred tax asset due to past history of loss years in conjunction with profit years during the previous 10 year period as well as specifics in the GAAP regulations regarding surety of future earnings.

Impact of Inflation

Nexia believes that inflation has had a negligible effect on operations over the past three years. Nexia believes that it can offset inflationary increases in the cost of labor by increasing sales and improving operating efficiencies.

Off-balance Sheet Arrangements

Nexia has no off-balance sheet arrangements.

Known Trends, Events, or Uncertainties

General Real Estate Investment Risks

Nexia's investments are subject to varying degrees of risk generally incident to the ownership of real property. Real estate values and income from Nexia's current properties may be adversely affected by changes in national or local economic conditions and neighborhood characteristics, changes in interest rates and in the availability, cost and terms of mortgage funds, occupancy rates of Nexia's properties, the impact of present or future environmental legislation and compliance with environmental laws, the ongoing need for capital improvements, changes in governmental rules and fiscal policies, civil unrest, acts of God, including earthquakes and other natural disasters which may result in uninsured losses, acts of war, adverse changes in zoning laws, and other factors which are beyond the control of Nexia.

Value and Illiquidity of Real Estate

Real estate investments are relatively illiquid. The ability of Nexia to vary its ownership of real estate property in response to changes in economic and other conditions is limited. If Nexia must sell an investment, there can be no assurance that Nexia will be able to dispose of it in the time period it desires or that the sales price of any investment will recoup the amount of Nexia's investment.

Property Taxes

Nexia's real property is subject to real property taxes. The real property taxes on this property may increase or decrease as property tax rates change and as the property is assessed or reassessed by taxing authorities. If property taxes increase, Nexia's operations could be adversely affected.

REPORT OF INDEPENDENT PUBLIC ACCOUNTING FIRM

Board of Directors
Nexia Holdings, Inc. and Subsidiaries
Salt Lake City, Utah

We have audited the accompanying consolidated balance sheet of Nexia Holdings, Inc. and Subsidiaries as of December 31, 2004 and the related consolidated statements of operations and other comprehensive income, stockholders' equity and cash flows for the years ended December 31, 2004 and 2003. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audits provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Nexia Holdings, Inc. and Subsidiaries as of December 31, 2004 and the consolidated results of their operations and other comprehensive income, and their cash flows for the years ended December 31, 2004 and 2003 in conformity with United States generally accepted accounting principles.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the consolidated financial statements, the Company has generated significant losses from operations, has an accumulated deficit of \$13,228,622 and has a working capital deficit of \$51,335 at December 31, 2004, which together raise substantial doubt about the Company's ability to continue as a going concern. Management's plans in regards to these matters are also described in Note 2. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Notes to Consolidated Financial Statements

December 31, 2004 and 2003

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT POLICIES

a. Organization

Nexia Holdings, Inc. (Nexia or The Company) was incorporated under the laws of the State of Colorado on April 20, 1987 as Metropolitan Acquisition Corporation. The name of the Company has changed several times, most recently, to Kelly's Coffee Group, Inc. (Kelly's) on April 22, 1994, and finally to Nexia Holdings, Inc. on March 15, 2002. Nexia became a development stage company on March 1, 1998.

On October 5, 2000, Nexia merged with a Nevada corporation with the same name, effectively changing its state of domicile from Colorado to Nevada and its authorized common stock from 100,000,000 shares with \$.001 par value to 1,000,000,000 shares with \$.001 par value.

On February 15, 2002, the Company entered into a Stock Purchase Agreement (Agreement) with Axia Group, Inc. (Axia), a related party, pursuant to which the Company issued to Axia 255,100,000 restricted shares of the Company's common stock in exchange for essentially all of the assets and liabilities of Axia. Axia's assets included a portfolio of securities, real estate holdings and publicly reporting shell-companies. The shares issued to Axia equaled approximately 82% of the issued and outstanding shares of the Company after the close of the transaction. Immediately prior to the Agreement, the Company had 55,252,760 shares of common stock issued and outstanding.

The acquisition was accounted for as a recapitalization. The subsidiaries consisted of Diversified Holdings I, Inc., Wichita Development Corporation, Golden Opportunity Development Corporation, Downtown Development Corporation, Wasatch Capital Corporation, Hudson Consulting Group, Inc., Oasis International Hotel and Casino, Inc., Canton Industrial Corporation of Salt Lake City Inc., Canton's Wild Horse Ranch II, Inc., West Jordan Real Estate Holdings, Inc., Salt Lake Development, Inc., Kearns Development Corporation and Canton Tire Recycling of West Virginia, Inc. (together "The Accounting Acquirer").

The subsidiaries of Axia which were transferred to the Company have been treated as the acquiring entities for accounting purposes and the Company is the surviving entity for legal purposes. The transaction is deemed to be an exchange of assets between entities under common control. The President of the Company was also the President of Axia.

As noted by Interpretation 39, the transfer of net assets or an exchange of shares between entities under common control is excluded from Opinion 16 and should be accounted for at historical cost. There was no adjustment to the carrying value of the assets or liabilities of the transferred subsidiaries, nor was there any adjustment to the carrying value of the net assets or liabilities of the Company. The combined statements of operations and other comprehensive income and cash flows for the year ended December 31, 2001 include only the activity of the accounting acquirer and through February 5, 2002 (date of agreement) after which the statement of operations reflect the operations of the accounting acquirer and Nexia. The statement of stockholders equity for the year ended December 31, 2001 has been presented to give proportionate effect to the number of shares issued by the Company as applied to the equity transactions of the accounting acquirer.

On June 19, 2003, in an inter-company tax free transaction, Wichita Development Corporation exchanged its shareholdings in Kearns Development Corporation for the Diversified Holdings I,

NEXIA HOLDINGS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

Inc. shareholdings in Salt Lake Development Corporation. At the time of the exchange all parties were subsidiaries of Nexia.

On June 20, 2003, the Company sold its interest in Wichita Development Corporation, and consequently, its interest in Salt Lake Development Corporation and Wichita Properties, Inc., to Diversified Financial Resources Corporation (DFRC) (See Note 12).

NOTE 1 a. ORGANIZATION

On December 31, 2004, Diversified Holdings I, Inc., a subsidiary of the Company, sold the stock of four of its subsidiaries to an unrelated party for \$100. The four entities sold were Oasis International Hotel & Casino, Inc., Golden Opportunity Development Corporation, Canton's Wild Horse Ranch II, Inc. and Canton Tire Recycling of West Virginia.

b. Basis of Consolidation

Diversified Holdings I, Inc. (DHI), a Nevada corporation and 99% owned subsidiary of the Company, was formed on March 22, 1996. DHI is a holding company which has majority ownership of the following subsidiaries:

Hudson Consulting Group, Inc. (Hudson) was incorporated in Nevada on April 16, 1996, as Diversified Holdings XIII, Inc. for the purpose of providing business consulting services. On March 5, 1997, its name was changed to Hudson Consulting Group, Inc. Hudson is 100% owned by DHI.

Canton Industrial Corporation of Salt Lake City (CICSLC), a Utah corporation, was incorporated on September 29, 1993 for the purpose of acquiring, owning and managing a specific property. CICSLC sold the property in December 1998, and currently holds a promissory note from the purchaser, secured by a deed of trust on the property, in the amount of \$255,000, bearing interest at 8%, principal and interest due August 10, 2002. CICSLC is 80% owned by DHI and 10% owned by Nexia.

West Jordan Real Estate Holdings, Inc. (WJREH), was formed on June 7, 1994 in Utah for the purpose of acquiring, owning and managing a specific property. WJREH sold its real estate holdings on April 20, 2005. Its only assets are cash and receivables of \$677,539 at May 1, 2005.

Kearns Development Corporation (Kearns), a Nevada corporation, was incorporated February 16, 1996 as Cyber Studio, Inc. On April 4, 2001, its name was changed to Kearns Development Corporation. During 2000, Kearns purchased a commercially rented building in Kearns, Utah. Prior to October 17, 2001, Kearns was owned 90.7% by DHI and on June 19, 2003 was sold back to DHI by WHDV.

Wasatch Capital Corporation (WCC), a Utah corporation, was incorporated on June 10, 1991. WCC owns a commercially rented building in downtown Salt Lake City. DHI owned 98% and 77% of Wasatch common stock as of December 31, 2004 and 2003 respectively. On September 16, 2004 Wasatch issued one million shares of its common stock to DHI in total satisfaction of its outstanding debt to DHI.

Downtown Development Corporation (Downtown) was incorporated by the Company on November 30, 1999 in Utah as A-Z South State Corporation. On August 22, 2001, its name was

NEXIA HOLDINGS, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2004 and 2003

changed to Downtown Development Corporation. Downtown owns a commercially rented building in Salt Lake City, Utah, and is 99.8% owned by DH1. In addition to DHI, the Company has majority ownership in the following subsidiaries:

At December 31, 2004, the Company had a majority ownership in 14 other companies including CyberCosmetics, Inc., CyberBoy, Inc., CyberEye, Inc., CyberFishing, Inc., CyberLead, Inc., CyberLife, Inc., CyberOil, Inc., CyberSkiing, Inc., CyberSoccer, Inc., CyberTennis, Inc., CyberTyme, Inc., CyberWholesale, Inc., CSI Holdings, Inc. (formerly CyberWrestling, Inc.), CyberWrite, Inc. Each of these companies is inactive with little or no assets, liabilities or operating activities.

NOTE 1 b. BASIS OF CONSOLIDATION, continued

The financial statements of four subsidiaries of Diversified Holdings I, Inc., referred to in Note 1 a. Organization as having been sold on December 31, 2004, are not included in the consolidated financial statements as of December 31, 2004 and for the year then ended.

c. Accounting Method

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America applicable to a going concern, which contemplates the realization of assets and the liquidation of liabilities in the normal course of business.

d. Compensating Cash Balances

The Company's subsidiary, West Jordan Real Estate Holdings, Inc. has signed a note payable. As part of the note, WJREH has agreed to deposit \$3,750 monthly into a bank account to be used for capital improvements, tenant improvements and leasing commissions. The account balance was \$79,631 at December 31, 2004.

e. Provision for Taxes

Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carryforwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

NEXIA HOLDINGS, INC, AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2004 and 2003

Net deferred tax assets consist of the following components as of December 31, 2004 and 2003:

	<u>2004</u>	<u>2003</u>
Deferred tax assets		
NOL Carryover	\$ 2,038,250	\$ 2,594,290

The income tax provision differs from the amount of income tax determined by applying the U.S. federal and state income tax rates of 39% to pretax income from continuing operations for the years ended December 31, 2004 and 2003 due to the following:

	<u>2004</u>	<u>2003</u>

	=====	=====

At December 31, 2004, the Company had net operating loss carryforwards of approximately \$5,200,000 that may be offset against future taxable income from the year 2004 through 2024. No tax benefit has been reported in the December 31, 2004 consolidated financial statements since the potential tax benefit is offset by a valuation allowance of the same amount.

Due to the change in ownership provisions of the Tax Reform Act of 1986, net operating loss carryforwards for Federal income tax reporting purposes are subject to annual limitations. Should a change in ownership occur, net operating loss carryforwards may be limited as to use in future years.

NEXIA HOLDINGS, INC, AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2004 and 2003

f. Depreciation

The Company's property and equipment is depreciated using the straight-line Accounting method over the useful lives shown below for financial reporting purposes.

<u>Asset</u>	<u>Useful Life</u>
Computers	3 years
Equipment and fixtures	5 to 10 years
Buildings and improvements	20 to 39 years

g. Revenue Recognition

The Company recognizes revenue from its two main sources of revenue as follows:

Rental Revenue

Rental revenues are recorded in the period in which they are earned in accordance with rental agreements and lease contracts. Rent payments are typically due by the 1st of each month. Occasionally, the Company will receive rent payments at the end of preceding months for the following months rent. The Company will record these as deferred revenue until such time as the rent has been earned. Unearned rental revenue at the December 31, 2004 was \$23,094.

Consulting Revenue

The Company, through its subsidiaries performs consulting services which consist of financial reporting, business acquisitions, and other public company reporting and support functions. The Company can receive payment for these services in a variety of ways. (1) the Company can be paid in cash; (2) the Company can be paid in restricted securities of the client; (3) the Company can be paid in a combination of cash and restricted securities of the client. The Company follows the revenue recognition provisions of SAB 101 'Revenue Recognition in Financial Statements' and 5 'Recognition and Measurement in Financial Statements of Business Enterprises'.

These statements require that revenue not be recognized unless collectibility is reasonably assured with recognition of revenue acceptable only when realizable or when assets received or held are readily convertible into known amounts of cash or claims to cash.

Accordingly, when the Company is to be paid in cash, the Company will record the revenue on an accrual basis when the services have been performed, the amounts are readily determinable and collection is reasonably assured. In the cases where the Company receives restricted securities from the client as payment, revenue is deferred until such time as the securities are sold, thereby meeting the requirements that the assets received are readily convertible into known amounts of cash. In the cases where the Company receives a combination of cash and restricted securities, the Company will record that cash as revenue as noted previously and will defer the recognition of the revenue from the securities until the securities are sold.

NEXIA HOLDINGS, INC, AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2004 and 2003

The Company records the securities received from consulting services in accordance with SFAS 115 'Accounting for Certain Investments in Debt and Equity Securities'. This standard requires that the Company classify its investments as either trading, available for sale, or held to maturity securities. The Company typically classifies the securities received as payment for the consulting services as available for sale. Any unrealized gains and losses on these securities for which the revenue has been deferred are recorded as adjustments to the deferred revenue account until such time as the security is sold and the Company is able to recognize the revenue from the consulting services. The amount of deferred revenue related to consulting services performed for which the Company received restricted securities at December 31, 2004 was \$358. This represents the fair value of the portion of the available for sale securities for which revenue had been deferred at December 31, 2004.

The Company will discontinue these services in 2005.

h. Marketable Securities

The Company follows the provisions of SFAS 115 regarding marketable securities. The Company's securities investments that are bought and held principally for the purpose of selling them in the near term are classified as trading securities. Trading securities are recorded at fair value on the balance sheet in current assets, with the change in fair value during the period included in earnings.

Securities investments that the Company has the positive intent and ability to hold to maturity are classified as held-to-maturity securities and recorded at amortized cost in investments and other assets. Securities investments not classified as either held-to-maturity or trading securities are classified as available-for-sale securities. Available-for-sale securities are recorded at fair value in investments and other assets on the balance sheet, with the change in fair value during the period excluded from earnings and recorded net of tax as a separate component of equity. All marketable securities held by the Company have been classified as available-for-sale securities.

i. Issuance of Common Stock

The Company frequently issues shares of its common stock to acquire assets, retire debt and pay for services. When stock is issued for assets, debt or services, the value of the stock, related assets, debt or services is determined by the most readily determinable value, i.e. the value of the common stock issued or the value of the assets, debt or services.

j. Environmental Compliance and Remediation

The Company determines potential liability on a site by site basis and records a liability when its existence is probable and reasonably estimable. Expenditures that do not have a future economic benefit are expensed as incurred. Expenditures that extend the life of the related property or mitigate or prevent future environmental contamination are capitalized.

Impairment expense totaled \$0 and \$173,966 for the years ended December 31, 2004 and December 31, 2003, respectively.

n. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

o. Newly Issued Accounting Pronouncements

During the year ended December 31, 2004, the Company adopted the following accounting pronouncements:

SFAS No. 151 – In November 2004 the FASB issued SFAS No. 151 “Inventory Costs—an amendment of ARB No. 43, Chapter 4” which is effective November 2004. This Statement amends the guidance in ARB No. 43, Chapter 4, “Inventory Pricing,” to clarify the accounting for abnormal amounts of idle facility expense, freight, handling costs, and wasted material (spoilage). It requires current-period recognition regardless of whether or not those items meet the criterion of “so abnormal”. Additionally, this Statement requires that allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. The adoption of SFAS No. 151 did not have a material effect on the financial statements of the company.

SFAS No. 152 – In June 2004 the FASB issued SFAS No. 152 “Accounting for Real Estate Time-Sharing Transactions – an amendment of FASB Statements No 66 and 67.” It amends FASB Statement No. 66 and AICPA Statement of Position 04-2 and states that the guidance for (a) incidental operations and (b) costs incurred to sell real estate projects does not apply to real estate time-sharing transactions. The accounting for those operations and costs is subject to the guidance in SOP 04-2. The adoption of SFAS No. 152 did not have a material effect on the financial statements of the company.

SFAS No. 153 – In December 2004 the FASB issued SFAS No. 153 “Exchanges of Non-monetary Assets – an amendment of APB Opinion No. 29” which provides standards for the measurement of non-monetary exchanges. It amends Opinion 29 to eliminate the exception for non-monetary exchanges of similar productive assets and replaces it with a general exception for exchanges of non-monetary assets that do not have commercial substance. A non-monetary exchange has commercial substance if the future cash flows of the entity are expected to change

significantly as a result of the exchange. The adoption of SFAS No. 153 did not have a material effect on the financial statements of the company.

SFAS No. 123 – In December 2004 the FASB issued SFAS No. 123 (revised 2004) “Share-Based Payment” which is effective for public entities that do not file as small business issuers—as of the beginning of the first interim or annual reporting period that begins after June 15, 2005. This Statement establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods or services. It also addresses transactions in which an entity incurs liabilities in exchange for goods or services that are based on the fair value of the entity’s equity instruments or that may be settled by the issuance of those equity instruments. This Statement focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. This Statement does not change the accounting guidance for share-based payment transactions with parties other than employees provided in Statement 123 as originally issued and EITF Issue No. 96-18, “Accounting for Equity Instruments That Are Issued to Other Than Employees for Acquiring, or in Conjunction with Selling, Goods or Services.” This Statement does not address the accounting for employee share ownership plans, which are subject to AICPA Statement of Position 93-6, Employers’ Accounting for Employee Stock Ownership Plans. The implementation of this SFAS will have a material effect on the Company’s financial statements.

FASB Interpretation No. 45 -- “Guarantor’s Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others – an Interpretation of FASB Statements No. 5, 57 and 107”. The initial recognition and initial measurement provisions of this Interpretation are to be applied prospectively to guarantees issued or modified after December 31, 2002. The disclosure requirements in the Interpretation were effective for financial statements of interim or annual periods ending after December 15, 2002. The adoption of FASB Interpretation No. 45 did not have a material effect on the financial statements of the Company.

FASB Interpretation No. 46 -- In January 2003, the FASB issued FASB Interpretation No. 46 “Consolidation of Variable Interest Entities.” FIN 46 provides guidance on the identification of entities for which control is achieved through means other than through voting rights, variable interest entities, and how to determine when and which business enterprises should consolidate variable interest entities. This interpretation applies immediately to variable interest entities created after January 31, 2003. It applies in the first fiscal year or interim period beginning after June 15, 2003, to variable interest entities in which an enterprise holds a variable interest that it acquired before February 1, 2003. The adoption of FIN 46 did not have a material impact on the Company’s financial statements.

During the year ended December 31, 2003, the Company adopted the following Emerging Issues Task Force Consensuses: EITF Issue No. 00-21 “Revenue Arrangements with Multiple Deliverables”, EITF Issue No. 01 –8 “Determining Whether an Arrangement Contains a Lease”, EITF Issue No. 02-3 “Issues Related to Accounting for Contracts Involved in Energy Trading and Risk Management Activities”, EITF Issue No. 02-9 “Accounting by a Reseller for Certain Consideration Received from a Vendor”, EITF Issue No. 02-17, “Recognition of Customer Relationship Intangible Assets Acquired in a Business Combination”, EITF Issue No. 02-18 “Accounting for Subsequent Investments in an Investee after Suspension of Equity Method Loss Recognition”, EITF Issue No. 03-1, “The Meaning of Other Than Temporary and its Application to Certain Instruments”, EITF Issue No. 03-5, “Applicability of AICPA

FASB Interpretation No. 46 (revised) "Consolidation of Variable Interest Entities – an interpretation of ARB No. 51" – In December 2003 FASB issued this revision in which this Interpretation explains how to identify variable interest entities and how an enterprise assesses its interests in a variable interest entity to decide whether to consolidate that entity. FASB believes that the accounting for variable interest entities has become "fragmented and incomplete". Its purpose is not to restrict the use of variable interest entities. Instead it seeks to improve financial reporting by those enterprises that are involved with variable interest entities. The adoption of FIN 46R did not have a material impact on the Company's financial statements.

FASB Interpretation No. 47 "Accounting for Conditional Asset Retirement Obligations – an interpretation of FASB Statement No. 143" – In March 2005 FASB issued this interpretation to clarify timing issues with liability recognition for legal obligations associated with the retirement of a tangible long-lived asset when the timing and (or) method of settlement of the obligation are conditional on a future event. It also clarifies when an entity would have sufficient information to reasonably estimate the fair value of an asset retirement obligation.

p. Stock Based Compensation

As permitted by FASB Statement 148 "Accounting for Stock Based Compensation-Transition and Disclosure" (SFAS No. 148), the Company elected to measure and record compensation cost relative to employee stock option costs in accordance with Accounting Principles Board ("APB") Opinion 25, "Accounting for Stock Issued to Employees", and related interpretations and make pro forma disclosures of net income and earning per share as if the fair value method of valuing stock options had been applied. Under APB opinion 25, compensation cost is recognized for stock options granted to employees when the option price is less than the market price of the underlying common stock on the date of grant.

NOTE 2 - GOING CONCERN

The Company's consolidated financial statements are prepared using accounting principles generally accepted in the United States of America applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has incurred cumulative operating losses through December 31, 2004 of \$13,228,622, and has a working capital deficit of \$51,335 at December 31, 2004 all of which raise substantial doubt about the Company's ability to continue as a going concern.

Primarily, revenues have not been sufficient to cover the Company's operating costs. Management's plans to enable the Company to continue as a going concern include the following:

- Increasing revenues from rental properties by implementing new marketing programs

NEXIA HOLDINGS, INC, AND SUBSIDIARIES

Notes to Consolidated Financial Statements

December 31, 2004 and 2003

- Making certain improvements to certain rental properties in order to make them more marketable
- Reducing expenses through consolidating or disposing of certain subsidiary companies
- Raising additional capital through private placements of the Company's common stock
- Purchasing revenue producing real estate
- Decreasing payroll expenses and options
- Using stock and option-based compensation to cover payroll and other permissible labor costs

There can be no assurance that the Company can or will be successful in implementing any of its plans or that they will be successful in enabling the company to continue as a going concern. The Company's consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 3 - RELATED PARTY TRANSACTIONS

These appointments have been disclosed to the disinterested members of the board and the approval of the board of directors has been granted in each of these cases. Mr. Surber is licensed to practice law in the State of California and occasionally represents corporate clients on various corporate matters. Mr. Surber has disclosed the fact that he, on occasion, does act as counsel to several companies for which he receives fees for the legal services provided.

State of West Virginia vs. Canton Tire Recycling West Virginia, Inc., Canton Industrial Corporation and CyberAmerica Corporation - Suit was filed on August 14, 1998, in the Circuit Court of Wood County, Parkersburg, West Virginia as file no. 98 C 354 seeking the completion of clean up procedures for property owned by Canton Tire Recycling West Virginia, located in the city of Parkersburg. The state requested that certain waste material present on the site and any remaining material in the onsite storage tanks be removed and that an oil/water separator located on the property be cleaned out. The Company and the State of West Virginia entered into a Consent Decree by which the Company agreed to submit and complete a Remediation and Sampling Work Plan and the payment of \$88,000 in fines and penalties (\$8,000 has been paid, \$20,000 was paid prior to May 31, 2000, similar payments were due each May 31 through 2003.) The work required by the Remediation and Sampling Work

Plan has been completed and submitted to the State. This information included test results indicating that soil contamination testing required by the Plan reported contamination exceeding state guidelines. The nature and cost of further testing or clean-up as a result of that report cannot be determined at this time. No further request for additional work or testing has been received from the State of West Virginia. The Company made a final payment of this matter with a \$5,000 cash payment in February 2004, which the State of West Virginia has accepted as final settlement of the court order.

Hudson Consulting Group, Inc. v. Ohana Enterprises, Inc., Isaac P. Simmons, Kathryn A. Christmann, Gerard Nolan, David Cronshaw, Interactive Ideas, Jonathan Thomas and Phillip Crawford. Suit was filed on March 17, 2003 in the Third Judicial District Court in and for Salt Lake County, State of Utah, Case No. 030905949. Suit was filed by Hudson to seek payment under an August 27, 2002 Stock Purchase Agreement, wherein the named defendants purchased a controlling interest in a Delaware corporation known as Torchmail Communications, Inc. which changed its name subsequent to the transfer to Ohana Enterprises, Inc. The total sales price was \$300,000 of which only the first \$100,000 had been paid. The defendants have claimed that Hudson misrepresented the status of Ohana prior to the transfer and denied any further obligation to make payments. Suit was filed and attempts were made to resolve the dispute through either the return of control of the corporation or through payment of the outstanding obligation. Hudson denies any misrepresentation with regard to the corporation and its status and believes that the claims of the defendants are an attempt to alter the terms of the written agreement. In February of 2004, Hudson agreed to settle the litigation and all related claims in exchange for a cash payment of \$117,000 which settled all claims except that with the defendant Gerard Nolan. In exchange for the delivery of Three Million Seven Hundred Fifty Three Thousand Five Hundred Thirty One (3,753,531) shares of the common stock of Ohana Enterprises, Inc., on or about September 25, 2004 by Gerard Nolan, all claims as to Mr. Nolan were released. A Stipulation and Motion for Dismissal was filed on Hudson's behalf with the court on January 4, 2005.

Richard D. Surber, Individually and Hudson Consulting Group, Inc., a Nevada Corporation vs. Richard A. Bailey and Florian R. Ternes, Individually, Gateway Distributors, Inc., a Nevada Corporation and Worldwide Holdings Delaware Corp., a Delaware corporation, f/k/a TRSG Corporation. Suit was filed on October 8, 2004 in the Third Judicial District Court of Salt Lake County, State of Utah, Civil Case No. 040921072. The complaint was filed on behalf of Mr. Surber and Hudson Consulting Group, Inc. seeking recovery for unpaid obligations owed to Hudson by the named defendants, some of which are represented by a promissory note in the face amount of \$175,000 and for damages alleged to have been caused by the fraudulent actions of the named defendants which have caused injury to both Hudson and to Mr. Surber personally. Defendants have been served and all but one has filed an appearance with the court in which they have denied liability. Plaintiffs are preparing an amended complaint for filing with the court. Worldwide Holdings Delaware Corp. has failed

to make an appearance and a default has been requested from the court against that corporation.

Nexia Holdings, Inc., a Nevada Corporation vs. Richard Bailey, Individually and Creative Marketing Group, Inc., a Nevada Corporation. This action was filed on September 28, 2004, in the Third Judicial District Court of Salt Lake County, State of Utah, Civil Case No. 040920424. Nexia filed this cause of action to recover its damages that resulted from the failure of the named defendants to perform the terms and conditions of a Stock Purchase Agreement and Plan of Reorganization signed on or about November 10, 2003. This agreement provided for Nexia to acquire a controlling interest in the defendant corporation which the Defendants have subsequently failed and refused to perform, despite Nexia having tendered full performance on its part. Both defendants were served with process in the case and failed to make an appearance before the Court; entry of default against each defendant has been signed by the court. Development of information to establish the amount of damages suffered by Nexia is currently being gathered and after presentation to the court is expected to result in a final judgment for Nexia in an amount yet to be determined.

Diversified Holdings I, Inc., a Nevada Corporation vs. West America Securities Corporation, a California Corporation and Robert Kay, an individual resident of California. This action was filed on September 14, 2004, in the Third District Court of the State of Utah, Salt Lake County, Civil Case No. 040919392. By Assignment from Nexia Group, Inc., dated January 23, 2004, Diversified Holdings I, Inc. acquired all rights to an agreement between Axia Group, Inc. and the named defendants providing for a payment to be made to Axia in the sum of \$50,000 on or before December 31, 2003. Defendants have failed to make the provided for payment and Diversified Holdings I, Inc. has filed suit to seek payment of the balance due. Discussions related to resolving the matter have not resulted in a payment to Diversified and further action on the litigation is expected.

Diversified Holdings I, Inc., a Nevada Corporation vs. Ronald M. Hickling, Anthony Turgeon, Allen Barry Witz, Individually and TechnoConcepts, Inc. a California Corporation. This action was filed on December 22, 2004, in the Third Judicial District Court of Salt Lake County, State of Utah, Civil Cause NO. 040927134. Diversified Holdings I, Inc. as the assignee of Axia Group, Inc. has filed the stated civil action seeking recovery of damages resulting from the fraudulent actions of the named defendants in preventing the acquisition of a controlling interest in TechnoConcepts, Inc. as provided for by contract. Each of the named parties has been served with process in the matter and none of them has yet filed a response to the allegations contained in the complaint. The parties are presently conducting settlement discussions that have produced proposals for a final resolution of the litigation.

Disposition of Subsidiary

On August 27, 2002, the Company's subsidiary, Hudson, entered into a Stock Purchase Agreement (Agreement) for the sale of its' 79.77% ownership in Torchmail Communications, Inc. (Torchmail) to seven unrelated parties. The terms of the sale were that Hudson would transfer its' 79.77% ownership in Torchmail for \$300,000. The purchase price was to be paid \$100,000 at closing, \$100,000 120 days following closing and \$100,000 180 days following closing. Payment of the \$200,000 due following closing was to be secured by 1,874,601 shares of common stock which was two-thirds of the 79.77% owned by Hudson and by 9,384,543 shares of Torchmail to be issued and sold in a separate transaction. The sale of Torchmail resulted in a gain of \$343,102. Since execution of the Agreement, the Company has received \$100,000 paid at closing and a second \$100,000 payment in February 2004. The remaining amounts owed were settled for a cash payment of \$117,000 and 3,753,531 shares of the common stock of Ohana Enterprises, Inc.

During June 2003, the Company's subsidiary, Hudson, sold two condominiums in Brian Head, Utah, one to a related party (See Note 3) for a loss of \$10,660. The other condominium was sold to a third party for \$48,000. The net book value of \$43,500, plus sale expenses of \$3,549, resulted in a gain on sale of \$951.

On June 19, 2003, in an inter-company tax free transaction, WHDV, a subsidiary of the Company, exchanged its shareholdings in Kearns for the DHI shareholdings in SLD. DHI, Kearns and SLD were all subsidiaries of Nexia at the time of the restructuring.

On June 30, 2003, the Company sold its interest in WHDV to DFRC. The terms of the agreement are as follows:

- a) WHDV assigns to DH1 a promissory note in the amount of \$14,056;
- b) WHDV waives the \$112,517 receivable owed to it by Kearns;
- c) Nexia waives the \$1,565 receivable owed to it by WHDV, and DH1 waives the \$407,854 receivable owed to it by SLD;
- d) Wichita issues to DH1 a promissory note in the amount of \$150,000;
- e) DFRC transfers to DH1 1,148,251 shares of its restricted common stock with a guaranteed liquidation value of not less than \$1 per share. DFRC shares currently have a market price of approximately \$0.0001/share. The shares have been fully written off as of December 31, 2004.

Subsequently, it was determined that the receivable from WHDV was impaired, with the full allowance applied against the gain on sale. The Company recognized a net gain on sale of \$129,268.

In May 2004, Hudson Consulting, a subsidiary of the Company, sold its stock investment in Caye Chapel for \$90,573. There was a net gain on the sale of \$36,918 after payments of Caye Chapel creditors from the sale proceeds, as agreed to in the contract of sale.

In September 2004 the Company's subsidiary, Diversified Holdings I, Inc., recorded rental expense of \$105,000 for rent on the 400 South office building for 2004 until the date of move in November 2004, in accordance with an agreement with Diversified

The four subsidiaries were Golden Opportunity development Corporation, Canton Tire Recycling of West Virginia, Inc., Canton's Wild Horse Ranch-II and Oasis International Hotel and Casino, Inc.

On the basis of a written agreement, the inter-company accounts balances of the retained Nexia companies with the four companies sold were forgiven. This resulted in a net forgiveness of debt income to the retained Nexia companies of \$1,470,541. The sale of the four subsidiaries resulted in a net gain on sale of subsidiaries of \$242,352.
