

ING USA Annuity and Life Insurance Company
and its
Separate Account B

ING Rollover Choice Variable Annuity
ING Focus Variable Annuity

Supplement dated April 28, 2006

This supplement updates certain information contained in your current variable annuity Contract Prospectus and Statement of Additional Information (SAI). Please read it carefully and keep it with your variable annuity Contract Prospectus and SAI.

NOTICE OF FUND SUBSTITUTION

ING USA Annuity and Life Insurance Company (the “Company”) and Separate Account B (the “Separate Account”) have filed an application with the Securities and Exchange Commission to permit certain funds in which the subaccounts of the Separate Account invest (the “Replaced Funds”) to be replaced with certain other funds (the “Substitute Funds”).

Reasons for the Substitution. The principal purposes of the substitutions are as follows:

- **Implement Business Plan.** The substitutions are part of an overall business plan to provide a more streamlined, standardized, simplified and consolidated current array of funds available through the Company’s products.
- **Reduced Costs and Greater Influence.** Including too many different funds with different investment advisers within the Company’s products makes those products more costly to administer. The Company believes that making available affiliated funds managed by expert third party asset managers will lead to increased efficiencies, greater influence over the administrative aspects of the funds and reduced costs.
- **Due Diligence.** The substitutions will allow the Company to respond to concerns that it has identified in its due diligence review of the funds available through the products, including concerns related to changes in fund managers, performance and well-publicized investigations, claims and regulatory actions and the corresponding negative publicity.

The following funds are involved in the substitutions:

Replaced Funds	Substitute Funds
Fidelity® VIP Equity-Income Portfolio (Service Class 2)	ING FMR SM Equity Income Portfolio (Class S)

Important Information about the Proposed Substitution.

- Prior to the effective date of the substitution you will receive another supplement which will indicate the effective date of the substitution, provide you with further details about the Substitute Fund and reiterate your rights related to the substitution. You will also receive a prospectus for the Substitute Fund.
- Prior to the effective date of the substitution and for thirty days thereafter you may transfer amounts allocated to a subaccount which invests in the Replaced Fund to any other subaccount or any available fixed account free of charge and any such transfer will not count as a transfer when imposing any applicable restriction or limit on transfers.
- On the effective date of the substitution, all amounts you have allocated to a subaccount which invests in the Replaced Fund will automatically be reallocated to the corresponding Substitute Fund. Thereafter, all future allocations directed to a subaccount which invested in the Replaced Fund will be automatically allocated to the corresponding Substitute Fund.
- You will not incur any fees or charges or any tax liability because of the substitution, and your account value immediately before the substitution will equal your account value immediately after the substitution.
- The total expenses of the Substitute Fund are less than or equal to the total expenses of the corresponding Replaced Fund.
- The investment objective and policies of the Substitute Fund are substantially the same as, similar to or consistent with the investment objective and policies of the corresponding Replaced Fund.

Deferred Combination Variable and Fixed Annuity Prospectus

RETIREMENT SOLUTIONS - ING ROLLOVER CHOICESM
VARIABLE ANNUITY

April 28, 2006

The Contract. The contract described in this prospectus is a group and individual deferred variable annuity contract (the “contract”) offered by ING USA Annuity and Life Insurance Company (the “Company,” “we” or “our”). The contract is currently available in connection with certain retirement plans that qualify for special federal income tax treatment (“qualified contracts”) as well as those that do not qualify for such treatment (“non-qualified contracts”). The contract may be purchased with funds from external sources or by a transfer or rollover from an existing contract (the “prior contract”) issued by us or one of our affiliates (“internal transfer”). A qualified contract may be issued as a traditional Individual Retirement Annuity (“IRA”) under section 408(b) of the Internal Revenue Code of 1986 as amended (the “Code”), a Roth IRA under section 408A of the Code, or a tax-sheltered annuity under section 403(b) of the Code. The contract is not currently available as a Simplified Employer Pension (SEP) plan under 408(k) or as a Simple IRA under section 408(p). Prior to April 29, 2005, the contract was not available as a non-qualified contract and could not be purchased with funds from external sources.

The contract provides a means for you to invest your premium payments in one or more of the available mutual fund investment portfolios. You may also allocate premium payments to our Fixed Account with guaranteed interest periods. Your contract value will vary daily to reflect the investment performance of the investment portfolio(s) you select and any interest credited to your allocations in the Fixed Account. Some guaranteed interest periods or subaccounts may not be available in all states. The investment portfolios available under your contract are listed on the back of this cover.

You have a right to return a contract within 10 days after you receive it for a refund of the adjusted contract value (which may be more or less than the premium payments you paid). For IRAs, or if otherwise required by your state, we will refund the original amount of your premium payment. Longer free look periods apply in some states and in certain situations.

Replacing an existing annuity with the contract may not be beneficial to you. Your existing annuity may be subject to fees or penalties on surrender, and the contract may have new charges.

Compensation. We pay compensation to broker-dealers whose registered representatives sell the contracts. See “Contract Distribution” for further information about the amount of compensation we pay.

This prospectus provides information that you should know before investing and should be kept for future reference. A Statement of Additional Information (“SAI”) dated April 28, 2006 has been filed with the Securities and Exchange Commission (“SEC”), as well as a registration statement for the Fixed Account II, also dated April 28, 2006. They are available without charge upon request. To obtain a copy of these documents, write to our Customer Service Center at P.O. Box 9271, Des Moines, Iowa 50306-9271 or call 1-800-366-0066, or access the SEC’s website (<http://www.sec.gov>). When looking for information regarding the contracts offered through this prospectus, you may find it useful to use the number assigned to the registration statement under the Securities Act of 1933. This number is 333-70600. The number assigned to the registration statement for the Fixed Account II is 333-133156. The table of contents of the SAI is on the last page of this prospectus and the SAI is made part of this prospectus by reference.

The Securities and Exchange Commission has not approved or disapproved these securities or passed upon the adequacy of this prospectus. Any representation to the contrary is a criminal offense.

An investment in any subaccount through the Trusts or Funds is not a bank deposit and is not insured or guaranteed by any bank or by the Federal Deposit Insurance Corporation or any other government agency.

The investment portfolios available under your contract are:

Fidelity® VIP Contrafund® Portfolio (Service Class 2)	ING Solution 2045 Portfolio (Service Class) ⁽⁶⁾

(1) As of April 29, 2005, Initial Class shares of these funds were closed for further investment.

(2) This fund has changed its name to the name listed above. See Appendix B – The Investment Portfolios for a complete list of former and current fund names.

(3) These portfolios are “Master-Feeder” funds. See “Fees – Fund Fees and Expenses” for additional information.

(4) The ING GET U.S. Core Portfolio is not currently available for investment.

(5) Goldman Sachs® is a registered service mark of Goldman, Sachs & Co., and it is used by agreement with Goldman, Sachs & Co.

(6) These portfolios are structured as fund of funds that invest directly in shares of underlying funds. See “Fees - Fund Fees and Expenses” for additional information.

The above mutual fund investment portfolios are purchased and held by corresponding divisions of our Separate Account B. We refer to the divisions as “subaccounts” and the money you place in the Fixed Account’s guaranteed interest periods as “Fixed Interest Allocations” in this prospectus.

INDEX OF SPECIAL TERMS

The following special terms are used throughout this prospectus. Refer to the page(s) listed for an explanation of each term:

Special Term	Page
Accumulation Unit	5
Annual Ratchet	38
Annuitant	15
Income Phase Start Date	15
Cash Surrender Value	19
Claim Date	29
Contract Date	15
Contract Owner	15
Contract Value	19
Contract Year	15
Covered Fund	9
Excluded Fund	9
Free Withdrawal Amount	10
Net Investment Factor	5
Net Rate of Return	5
Restricted Fund	8
5% Roll-up	38
Special Funds	9
Standard Death Benefit	15

The following terms as used in this prospectus have the same or substituted meanings as the corresponding terms currently used in the contract:

Term Used in This Prospectus	Corresponding Term Used in the Contract
Accumulation Unit Value	Index of Investment Experience
Income Phase Start Date	Annuity Commencement Date
Contract Owner	Owner or Certificate Owner
Contract Value	Accumulation Value
Transfer Charge	Excess Allocation Charge
Fixed Interest Allocation	Fixed Allocation
Free Look Period	Right to Examine Period
Guaranteed Interest Period	Guarantee Period
Subaccount(s)	Division(s)
Net Investment Factor	Experience Factor
Regular Withdrawals	Conventional Partial Withdrawals
Withdrawals	Partial Withdrawals
ING LifePay Base	MGWB Base

FEES AND EXPENSES

The following tables describe the fees and expenses that you will pay when buying, owning, and surrendering the contract. The first table describes the fees and expenses that you will pay at the time that you buy the contract, surrender the contract, or transfer contract value between investment options. State premium taxes which currently range from 0% to 4% of premium payments may also be deducted.

Contract Owner Transaction Expenses¹

Surrender Charge

Complete Years Elapsed Since Premium Payment*	0	1	2	3	4	5	6	7+
Surrender Charge	6%	6%	5%	4%	3%	2%	1%	0%

* For amounts transferred or rolled over into this contract as an internal transfer, see "Charges Deducted From Contract Value - Surrender Charge."

Transfer Charge² \$25
(per transfer, if you make more than 12 transfers in a contract year)

¹ If you are invested in a Fixed Interest Allocation, a Market Value Adjustment may apply to certain transactions. This may increase or decrease your contract value and/or your transfer or surrender amount.

² We currently do not impose this charge, but may do so in the future.

The next table describes the fees and expenses that you will pay periodically during the time that you own the contract, not including Trust or Fund fees and expenses.

Annual Contract Administrative Charge³

Administrative Charge \$30

(We waive this charge if the total of your premium payment is \$50,000 or more or if your contract value at the end of a contract year is \$50,000 or more.)

³ We deduct this charge on each contract anniversary and on surrender.

Separate Account Annual Charges⁴

The following charges apply to contracts established prior to August 7, 2003:

	Option Package I	Option Package II	Option Package III
Mortality & Expense Risk Charge	0.60%	0.80%	0.95%
Asset-Based Administrative Charge	0.15%	0.15%	0.15%
Total	0.75%	0.95%	1.10%
GET Fund Guarantee Charge ⁵	0.50%	0.50%	0.50%
Total With GET Fund Guarantee Charge	1.25%	1.45%	1.60%

The following charges apply to contracts established on or after August 7, 2003 (or upon state approval, if later):

	Option Package I	Option Package II	Option Package III
Mortality & Expense Risk Charge	0.85%	1.05%	1.20%
Asset-Based Administrative Charge	0.15%	0.15%	0.15%
Total	1.00%	1.20%	1.35%
GET Fund Guarantee Charge ⁵	0.50%	0.50%	0.50%
Total With GET Fund Guarantee Charge	1.50%	1.70%	1.85%

Optional Rider Charge⁶

Minimum Guaranteed Income Benefit Rider:

As an Annual Charge	As a Quarterly Charge
0.60% of the MGIB Benefit Base ⁷	0.15% of the MGIB Benefit Base ⁷

ING LifePay Minimum Guaranteed Withdrawal Benefit Rider:

As an Annual Charge	As a Quarterly Charge	Maximum Annual Charge if Reset Option Elected ⁸
0.40% of Contract Value	0.10% of Contract Value	1.20% of Contract Value

⁴ As a percentage of average daily assets in each subaccount. The Separate Account Annual Charges are deducted daily.

⁵ The ING GET U.S. Core Portfolio Guarantee Charge is deducted daily during the guarantee period from amounts allocated to the ING GET U.S. Core Portfolio investment option. Please see “The Trusts and Funds - ING GET U.S. Core Portfolio” for a description of the ING GET U.S. Core Portfolio guarantee. The ING GET U.S. Core Portfolio is not currently available for investment under the contract.

⁶ We deduct optional rider charges from the subaccounts in which you are invested on each quarterly contract anniversary, in arrears, and pro-rata on termination of the contract. If the value in the subaccounts is insufficient, the optional rider charges will be deducted from the Fixed Interest Allocation(s) nearest maturity, and the amount deducted may be subject to a Market Value Adjustment. You may add only one option rider to your contract and therefore cannot purchase both the Minimum Guarantee Income Benefit Rider and the ING LifePay Minimum Guaranteed Withdrawal Benefit Rider.

⁷ Please see “Charges and Fees - Optional Rider Charges” and “Optional Riders.”

⁸ If you elect the Reset Option on or after the fifth rider anniversary, we reserve the right to increase the charge for the ING LifePay rider to a maximum annual charge of 1.20% of contract value. Please see “ING LifePay Minimum Guarantee Withdrawal Benefit – ING LifePay Reset Option.”

Table of Separate Account Charges

This table shows the total charges that you could pay if you elect the ING LifePay Minimum Guaranteed Withdrawal Benefit Rider based on current charges (for contracts issued on or after August 7, 2003):

	Option Package I	Option Package II	Option Package III
Mortality & Expense Risk Charge	0.85%	1.05%	1.20%
Asset-Based Administrative Charge	0.15%	0.15%	0.15%
ING LifePay Minimum Guaranteed Withdrawal Benefit Rider	0.40%	0.40%	0.40%
Total	1.40%	1.60%	1.75%

This table shows the total charges that you could pay if you elect the Minimum Guaranteed Income Benefit rider based on current charges (for contracts issued on or after August 7, 2003):

	Option Package I	Option Package II	Option Package III
Mortality & Expense Risk Charge	0.85%	1.05%	1.20%
Asset-Based Administrative Charge	0.15%	0.15%	0.15%
ING Minimum Guaranteed Income Benefit Rider	<u>0.60%</u>	<u>0.60%</u>	<u>0.60%</u>
Total	1.60%	1.80%	1.95%

The next item shows the minimum and maximum total operating expenses charged by a Trust or Fund that you may pay periodically during the time that you own the contract. More detail concerning each Trust or Fund's fees and expenses is contained in the prospectus for each Trust or Fund.

Total Annual Trust or Fund Operating Expenses	Minimum	Maximum
(expenses that are deducted from Trust or Fund assets, including management fees, distribution and/or service (12b-1) fees, and other expenses):	0.54%	1.78%

Examples:

These Examples are intended to help you compare the cost of investing in the contract with the cost of investing in other variable annuity contracts. These costs include contract owner transaction expenses, contract fees, separate account annual expenses, and Trust or Fund fees and expenses.

Premium taxes (which currently range from 0% to 4% of premium payments) may apply, but are not reflected in the examples below.

A. The example assumes that you invest \$10,000 in the contract for the time periods indicated. The example also assumes that your investment has a 5% return each year and assumes the maximum fees and expenses of any of the Trusts or Funds. Specifically, the example assumes election of Option Package III for contracts established on or after August 7, 2003. The example reflects the deduction of a mortality and expense risk charge, an asset-based administrative charge, and the annual contract administrative charge as an annual charge of 0.005% of assets. The Example also assumes you elected the Minimum Guaranteed Income Benefit rider with an assumed charge of 0.74% annually, where the rider base is equal to the initial premium and increases by 5% annually, and the rider charge is assessed each quarter on a base equal to the hypothetical \$10,000 premium increasing at 5% per year. The assumed annual rider charge of 0.74% results from the assumption of a 5% annual increase in the rider base and a 5% earnings increase in the contract value before expenses. Thus, 0.74% represents an annual charge over the 10-year period which is equivalent to a charge of 0.15% of the rider base per quarter over the same period. If you elect different options, your expenses may be lower. Note that if some or all of the amounts held under the contract are transfer amounts or otherwise not subject to surrender charge, the actual surrender charge will be lower than that represented in the example. Surrender charges may apply if you choose to annuitize your contract within the first contract year and, under certain circumstances, within the first 7 contract years.

Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

1) If you surrender your contract at the end of the applicable time period:			
1 year	3 years	5 years	10 years
\$989	\$1,747	\$2,521	\$5,255
2) If you annuitize at the end of the applicable time period:			
1 year	3 years	5 years	10 years
\$989	\$1,747	\$2,521	\$5,255
3) If you do <i>not</i> surrender your contract:			
1 year	3 years	5 years	10 years
\$389	\$1,247	\$2,221	\$5,255

B. This example assumes that you invest \$10,000 in the contract for the time periods indicated. The example also assumes that your investment has a 5% return each year and assumes the maximum fees and expenses of any of the Trusts or Funds. Specifically, the example assumes election of Option Package III for contracts established on or after August 7, 2003. The example reflects the deduction of a mortality and expense risk charge, an asset-based administrative charge, and the annual contract administrative charge as an annual charge of 0.05% of assets. The example also assumes the election of the ING LifePay rider, and reflects an ING LifePay rider charge of 0.40% for the first five years and the maximum ING LifePay rider charge of 1.20% for years six through ten. If you elect different options, your expenses may be lower. Note that if some or all of the amounts held under the contract are transfer amounts or otherwise not subject to surrender charge, the actual surrender charge will be lower than that represented in the example. Surrender charges may apply if you choose to annuitize your contract within the first contract year and, under certain circumstances, within the first 7 contract years.

Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

1) If you surrender your Contract at the end of the applicable time period:			
1 year	3 years	5 years	10 years
\$967	\$1,673	\$2,381	\$5,328
2) If you annuitize at the end of the applicable time period:			
1 year	3 years	5 years	10 years
\$967	\$1,673	\$2,381	\$5,328
3) If you do <i>not</i> surrender your Contract:			
1 year	3 years	5 years	10 years
\$367	\$1,173	\$2,081	\$5,328

Compensation is paid for the sale of the contracts. For information about this compensation, see “Selling the Contract” in the Contract Prospectus.

Fees Deducted by the Funds

Using This Information. The fund prospectuses show the investment advisory fees, 12b-1 fees and other expenses including service fees (if applicable) charged annually by each fund. See the “Fees” section of this prospectus, and the fund prospectuses, for further information. Fund fees are one factor that impacts the value of a fund share. To learn about additional factors, refer to the fund prospectuses.

The Company may receive compensation from each of the funds or the funds’ affiliates based on an annual percentage of the average net assets held in that fund by the Company. The percentage paid may vary from one fund company to another. For certain funds, some of this compensation may be paid out of 12b-1 fees or service fees that are deducted from fund assets. Any such fees deducted from fund assets are disclosed in the fund prospectuses. The Company may also receive additional compensation from certain funds for administrative, recordkeeping or other services provided by the Company to the funds or the funds’ affiliates. These additional payments may also be used by the Company to finance distribution. These additional payments are made by the funds or the funds’ affiliates to the Company and do not increase, directly or indirectly, the fund fees and expenses. See “Charges and Fees – Trust and Fund Expenses” for additional information.

In the case of fund companies affiliated with the Company, where an affiliated investment adviser employs subadvisers to manage the funds, no direct payments are made to the Company or the affiliated investment adviser by the subadvisers. Subadvisers may provide reimbursement for employees of the Company or its affiliates to attend business meetings or training conferences. Investment management fees are apportioned between the affiliated investment adviser and subadviser. This apportionment varies by subadviser, resulting in varying amounts of revenue retained by the affiliated investment adviser. This apportionment of the investment advisory fee does not increase, directly or indirectly, fund fees and expenses. See “Charges and Fees – Trust and Fund Expenses” for additional information.

How Fees are Deducted. Fees are deducted from the value of the fund shares on a daily basis, which in turn affects the value of each subaccount that purchases fund shares.

CONDENSED FINANCIAL INFORMATION

Understanding Condensed Financial Information. In Appendix A, we provide condensed financial information about Separate Account B subaccounts available under the contracts. The tables show the value of the subaccounts over the past 10 years. For subaccounts that were not available 10 years ago, we give a history from the date of first availability.

Financial Statements. The statements of assets and liabilities, the statements of operations, the statements of changes in net assets and the related notes to financial statements for Separate Account B and the consolidated financial statements and the related notes to financial statements for ING USA Annuity and Life Insurance Company are located in the Statement of Additional Information.

Accumulation Unit

We use accumulation units to calculate the value of a contract. Each subaccount of Separate Account B has its own accumulation unit value. The accumulation units are valued each business day that the New York Stock Exchange is open for trading. Their values may increase or decrease from day to day according to a Net Investment Factor, which is primarily based on the investment performance of the applicable investment portfolio. Shares in the investment portfolios are valued at their net asset value.

Tables containing (i) the accumulation unit value history of each subaccount of Separate Account B offered in this prospectus and (ii) the total investment value history of each such subaccount are presented in Appendix A - Condensed Financial Information. The numbers show the year-end unit values of each subaccount from the time purchase payments were first received in the subaccounts under the contract.

The Net Investment Factor

The Net Investment Factor is an index number which reflects certain charges under the contract and the investment performance of the subaccount. The Net Investment Factor is calculated for each subaccount as follows:

- 1) We take the net asset value of the subaccount at the end of each business day.
- 2) We add to 1) the amount of any dividend or capital gains distribution declared for the subaccount and reinvested in such subaccount. We subtract from that amount a charge for our taxes, if any.
- 3) We divide 2) by the net asset value of the subaccount at the end of the preceding business day.
- 4) We then subtract the applicable daily mortality and expense risk charge, the daily asset-based administrative charge, and any optional rider charges from the subaccount and, for the GET Fund subaccount only, the daily GET Fund guarantee charge.

Calculations for the subaccounts are made on a per share basis.

The Net Rate of Return equals the Net Investment Factor minus one.

Performance Information

From time to time, we may advertise or include in reports to contract owners performance information for the subaccounts of Separate Account B, including the average annual total return performance, yields and other nonstandard measures of performance. Such performance data will be computed, or accompanied by performance data computed, in accordance with standards defined by the SEC.

Standard total average annual return performance will include average annual rates of total return for 1, 5 and 10 year periods, or lesser periods depending on how long Separate Account B has been investing in the portfolio. We may show other total returns for periods of less than one year. Total return figures will be based on the actual historic performance of the subaccounts of Separate Account B, assuming an investment at the beginning of the period when the separate account first invested in the portfolio (or when the portfolio was first made available through the Separate Account) and withdrawal of the investment at the end of the period, adjusted to reflect the deduction of all applicable portfolio and current contract charges. We may also show rates of total return on amounts invested at the beginning of the period with no withdrawal at the end of the period. Total return figures which assume no withdrawals at the end of the period will reflect all recurring charges, but will not reflect the surrender charge. In addition, we may present historic performance data for the investment portfolios since their inception reduced by some or all of the fees and charges under the contract. Such adjusted historic performance includes data that precedes the inception dates of the subaccounts of Separate Account B. This data is designed to show the performance that would have resulted if the contract had been in existence before the separate account began investing in the portfolios.

Performance information reflects only the performance of a hypothetical contract and should be considered in light of other factors, including the investment objective of the investment portfolio and market conditions. Please keep in mind that past performance is not a guarantee of future results.

ING USA ANNUITY AND LIFE INSURANCE COMPANY

ING USA Annuity and Life Insurance Company (“the Company”) is an Iowa stock life insurance company, which was originally incorporated in Minnesota on January 2, 1973. The Company is a wholly owned subsidiary of Lion Connecticut Holdings Inc. (“Lion Connecticut”), which in turn is a wholly owned subsidiary of ING Groep N.V., a global financial services holding company based in The Netherlands. The Company is authorized to sell insurance and annuities in all states, except New York, and the District of Columbia. The Company’s financial statements appear in the Statement of Additional Information.

Lion Connecticut is the holding company for Directed Services, Inc., the investment manager of the ING Investors Trust and the distributor of the contracts, and other interests. ING Investments, LLC and ING Investment Management, Co., portfolio managers of the ING Investors Trust, and the investment managers of the ING Variable Insurance Trust, ING Variable Products Trust, and ING Variable Product Portfolios, respectively, are affiliates of the Company. ING Life Insurance and Annuity Company, the investment adviser of ING Partners, Inc., is also an affiliate of the Company.

Our principal office is located at 1475 Dunwoody Drive, West Chester, Pennsylvania 19380.

Regulatory Developments – the Company and the Industry. As with many financial services companies, the Company and its affiliates have received informal and formal requests for information from various state and federal governmental agencies and self-regulatory organizations in connection with inquiries and investigations of the products and practices of the financial services industry. In each case, the Company and its affiliates have been and are providing full cooperation.

Investment Product Regulatory Issues. Since 2002, there has been increased governmental and regulatory activity relating to mutual funds and variable insurance products. This activity has primarily focused on inappropriate trading of fund shares; revenue sharing and directed brokerage; compensation; sales practices, suitability, and supervision; arrangements with service providers; pricing; compliance and controls; adequacy of disclosure; and document retention.

In addition to responding to governmental and regulatory requests on fund trading issues, ING management, on its own initiative, conducted, through special counsel and a national accounting firm, an extensive internal review of mutual fund trading in ING insurance, retirement, and mutual fund products. The goal of this review was to identify any instances of inappropriate trading in those products by third parties or by ING investment professionals and other ING personnel.

The internal review identified several isolated arrangements allowing third parties to engage in frequent trading of mutual funds within the variable insurance and mutual fund products of ING, and identified other circumstances where frequent trading occurred despite measures taken by ING intended to combat market timing. Each of the arrangements has been terminated and disclosed to regulators, to the independent trustees of ING Funds (U.S.) and in reports previously filed by affiliates of the Company with the Securities and Exchange Commission (“SEC”) pursuant to the Securities Exchange Act of 1934, as amended.

In September 2005, an affiliate of the Company, ING Fund Distributors, LLC (“IFD”) and one of its registered persons settled an administrative proceeding with the National Association of Securities Dealers, Inc. (“NASD”) in connection with frequent trading arrangements. IFD neither admitted nor denied the allegations or findings and consented to certain monetary and non-monetary sanctions. IFD’s settlement of this administrative proceeding is not material to the Company.

Other regulators, including the SEC and the New York Attorney General, are also likely to take some action with respect to the Company or certain affiliates before concluding their investigations relating to fund trading. The potential outcome of such action is difficult to predict but could subject the Company or certain affiliates to adverse consequences, including, but not limited to, settlement payments, penalties, and other financial liability. It is not currently anticipated, however, that the actual outcome of any such action will have a material adverse effect on ING or ING’s U.S.-based operations, including the Company.

ING has agreed to indemnify and hold harmless the ING Funds from all damages resulting from wrongful conduct by ING or its employees or from ING’s internal investigation, any investigations conducted by any governmental or self-regulatory

agencies, litigation or other formal proceedings, including any proceedings by the SEC. Management reported to the ING Funds Board that ING management believes that the total amount of any indemnification obligations will not be material to ING or ING's U.S.-based operations, including the Company.

Insurance and Other Regulatory Matters. The New York Attorney General and other federal and state regulators are also conducting broad inquiries and investigations involving the insurance industry. These initiatives currently focus on, among other things, compensation and other sales incentives; potential conflicts of interest; potential anti-competitive activity; reinsurance; marketing practices; specific product types (including group annuities and indexed annuities); and disclosure. It is likely that the scope of these industry investigations will further broaden before they conclude. The Company and certain of its U.S. affiliates have received formal and informal requests in connection with such investigations, and are cooperating fully with each request for information.

ING USA SEPARATE ACCOUNT B

ING USA Separate Account B ("Separate Account B") was established as a separate account of the Company on July 14, 1988. It is registered with the SEC as a unit investment trust under the Investment Company Act of 1940 as amended (the "1940 Act"). Separate Account B is a separate investment account used for our variable annuity contracts. We own all the assets in Separate Account B but such assets are kept separate from our other accounts.

Separate Account B is divided into subaccounts. Each subaccount invests exclusively in shares of one investment portfolio of a Trust or Fund. Each investment portfolio has its own distinct investment objectives and policies. Income, gains and losses, realized or unrealized, of a portfolio are credited to or charged against the corresponding subaccount of Separate Account B without regard to any other income, gains or losses of the Company. Assets equal to the reserves and other contract liabilities with respect to each are not chargeable with liabilities arising out of any other business of the Company. They may, however, be subject to liabilities arising from subaccounts whose assets we attribute to other variable annuity contracts supported by Separate Account B. If the assets in Separate Account B exceed the required reserves and other liabilities, we may transfer the excess to our general account. We are obligated to pay all benefits and make all payments provided under the contracts.

Note: We currently offer other variable annuity contracts that invest in Separate Account B but are not discussed in this prospectus. Separate Account B may also invest in other investment portfolios which are not available under your contract. Under certain circumstances, we may make certain changes to the subaccounts. For more information, see "The Annuity Contract - Addition, Deletion, or Substitution of Subaccounts and Other Changes."

THE TRUSTS AND FUNDS

You will find information about the Trusts and Funds currently available under your contract in Appendix B - The Investment Portfolios. A prospectus containing more complete information on each Trust or Fund may be obtained by calling our Customer Service Center at 1-800-366-0066. You should read the prospectus carefully before investing.

If, due to differences in tax treatment or other considerations, the interests of the contract owners of various contracts participating in the Trusts or Funds conflict, we, the Board of Trustees or Directors of the Trusts or Funds, and any other insurance companies participating in the Trusts or Funds will monitor events to identify and resolve any material conflicts that may arise.

ING GET U.S. Core Portfolio

An ING GET U.S. Core Portfolio ("GET Fund") series may be available during the accumulation phase of the contract. We make a guarantee, as described below, when you allocate money into a GET Fund series. Each GET Fund series has an offering period of three months or longer, which precedes the guarantee period. The GET Fund investment option may not be available under your contract or in your state.

Various series of the GET Fund may be offered from time to time, and additional charges will apply if you elect to invest in one of these series. We are not currently offering any series of the ING GET Fund for investment. The Company makes a guarantee when you direct money into a GET Fund series. We guarantee that the value of an accumulation unit of the GET Fund subaccount for that series under the contract on the maturity date will not be less than its value as determined after the close of business on the last day of the offering period for that GET Fund series. If the value on the maturity date is lower than

it was on the last day of the offering period, we will add funds to the GET Fund subaccount for that series to make up the difference. This means that if you remain invested in the GET Fund series until the maturity date, at the maturity date, you will receive no less than the value of your separate account investment directed to the GET Fund series as of the last day of the offering period, less charges not reflected in the accumulation unit value, and any amounts you transfer or withdraw from the GET Fund subaccount for that series. The value of dividends and distributions made by the GET Fund series throughout the guarantee period is taken into account in determining whether, for purposes of the guarantee, the value of your GET Fund investment on the maturity date is no less than its value as of the last day of the offering period. If you withdraw or transfer funds from a GET Fund series prior to the maturity date, we will process the transactions at the actual unit value next determined after we receive your request. The GET Fund subaccount is not available for dollar cost averaging or automatic rebalancing.

Before the maturity date, we will send a notice to each contract owner who has allocated amounts to the GET Fund series. This notice will remind you that the maturity date is approaching and that you must choose other investment options for your GET Fund series amounts. If you do not make a choice, on the maturity date we will transfer your GET Fund series amounts to another available series of the GET Fund that is then accepting deposits. If no GET Fund series is then available, we will transfer your GET Fund series amounts to the fund or funds that we designate.

Please see the ING GET U.S. Core Portfolio prospectus for a complete description of the GET Fund investment option, including charges and expenses.

Restricted Funds

We may designate any investment option as a Restricted Fund and limit the amount you may allocate or transfer to a Restricted Fund. We may establish any such limitation, at our discretion, as a percentage of premium or contract value or as a specified dollar amount and change the limitation at any time. Currently, we have not designated any investment option as a Restricted Fund. We may, with 30 days notice to you, designate any investment portfolio as a Restricted Fund or change the limitations on existing contracts with respect to new premiums added to such investment portfolio and also with respect to new transfers to such investment portfolio. If a change is made with regard to designation as a Restricted Fund or applicable limitations, such change will apply only to transactions effected after such change.

We limit your investment in the Restricted Funds on both an aggregate basis for all Restricted Funds and for each individual Restricted Fund. The aggregate limits for investment in all Restricted Funds are expressed as a percentage of contract value, percentage of premium and maximum dollar amount. Currently, your investment in two or more Restricted Funds would be subject to each of the following three limitations: no more than 30 percent of contract value, up to 100 percent of each premium and no more than \$999,999,999. We may change these limits, at our discretion, for new contracts, premiums, transfers or withdrawals.

We also limit your investment in each individual Restricted Fund. The limits for investment in each Restricted Fund are expressed as a percentage of contract value, percentage of premium and maximum dollar amount. Currently, the limits for investment in an individual Restricted Fund are the same as the aggregate limits set forth above. We may change these limits, in our discretion, for new contracts, premiums, transfers or withdrawals.

We monitor the aggregate and individual limits on investments in Restricted Funds for each transaction (e.g. premium payments, reallocations, withdrawals, dollar cost averaging). If the contract value in the Restricted Fund has increased beyond the applicable limit due to market growth, we will not require the reallocation or withdrawal of contract value from the Restricted Fund. However, if an aggregate limit has been exceeded, withdrawals must be taken either from the Restricted Funds or taken pro-rata from all investment options in which contract value is allocated, so that the percentage of contract value in the Restricted Funds following the withdrawal is less than or equal to the percentage of contract value in the Restricted Funds prior to the withdrawal.

We will not permit a transfer to the Restricted Funds to the extent that it would increase the contract value in the Restricted Fund or in all Restricted Funds to more than the applicable limits set forth above. We will not limit transfers from Restricted Funds. If the result of multiple reallocations is to lower the percentage of total contract value in Restricted Funds, the reallocation will be permitted even if the percentage of contract value in a Restricted Fund is greater than its limit.

Please see “Withdrawals” and “Transfers Among Your Investments” in this prospectus for more information on the effect of Restricted Funds.

COVERED FUNDS, SPECIAL FUNDS AND EXCLUDED FUNDS

For purposes of determining death benefits, we assign the investment options to one of three categories of funds. The categories are:

- 1) Covered Funds;
- 2) Special Funds; and
- 3) Excluded Funds.

Allocations to Covered Funds participate fully in all guaranteed benefits. Allocations to Special Funds could affect the death benefit guarantee that may otherwise be provided. Allocations to Excluded Funds do not participate in any guaranteed benefits due to their potential for volatility.

Designation of investment options under these categories may vary by benefit. For example, we may designate an investment option a Special Fund for purposes of calculating one death benefit and not another. We may, with 30 days notice to you, designate any investment option as a Special or Excluded Fund with respect to new premiums added to such investment option, with respect to new transfers to such investment option and with respect to the death benefits to which such designation applies. Selecting a Special or Excluded Fund may limit or reduce the death benefit. (See “Death Benefit Choices” in this prospectus for more information.)

CHARGES AND FEES

We deduct the contract charges described below to compensate us for our cost and expenses, services provided and risks assumed under the contracts. We incur certain costs and expenses for distributing and administering the contracts, including compensation and expenses paid in connection with sales of the contracts, for paying the benefits payable under the contracts and for bearing various risks associated with the contracts. Some of the charges are for optional riders, so they are only deducted if you elect to purchase the rider. The amount of a contract charge will not always correspond to the actual costs associated with the charge. For example, the surrender charge collected may not fully cover all of the distribution expenses incurred by us with the service or benefits provided. In the event there are any profits from fees and charges deducted under the contract, including the mortality and expense risk charge and rider and benefit charges, we may use such profits to finance the distribution of contracts.

Charge Deduction Subaccount

You may elect to have all charges, except daily charges, against your contract value deducted directly from a single subaccount designated by the Company. Currently we use the ING Liquid Assets Portfolio subaccount for this purpose. If you do not elect this option, or if the amount of the charges is greater than the amount in the designated subaccount, the charges will be deducted as discussed below. You may cancel this option at any time by sending notice to our Customer Service Center in a form satisfactory to us.

Charges Deducted from the Contract Value

We deduct the following charges from your contract value:

Surrender Charge. Internal transfers when the prior contract or arrangement either imposed a front end load or had no applicable surrender charge: There is no surrender charge under this contract on amounts transferred or rolled over from a prior contract as an internal transfer when the prior contract imposed a front end load, there was no applicable surrender charge under the prior contract, or if the prior contract would not have assessed a surrender charge if the money had been transferred to a contract issued by a non-affiliated company.

Transfers from external sources, internal transfers when the prior contract had an applicable surrender charge and/or additional premium payments not part of an internal transfer: We deduct a surrender charge if you surrender your contract or withdraw an amount exceeding the free withdrawal amount. The free withdrawal amount for a contract year is the greater of: 1) 10% of contract value, based on the contract value on the date of withdrawal, less any prior withdrawals in that contract year; or 2) your required minimum distribution (“RMD”) attributable to amounts held under your contract. Under Option Package III, any unused free withdrawal amount may carry forward to successive contract years, but in no event would the free withdrawal amount at any time exceed 30% of contract value.

The following table shows the schedule of the surrender charge that will apply. The surrender charge is a percent of each premium payment withdrawn. The surrender charge is based on the total amount withdrawn including the amount deducted for the surrender charge. It is deducted from the contract value remaining after you have received the amount requested for withdrawal. The surrender charge is not based on or deducted from the amount you requested as a withdrawal. For internal transfers, the amount subject to surrender charge is the lesser of premium payments paid under the prior contract or the initial contract value.

Complete Years Elapsed Since Premium Payment*	0	1	2	3	4	5	6	7+
Surrender Charge	6%	6%	5%	4%	3%	2%	1%	0%

* For amounts transferred or rolled over into this contract as an internal transfer, the "Complete Years Elapsed" are calculated from the date of the first premium payment made under the prior contract or, if earlier, the effective date of the prior contract.

Waiver of Surrender Charge for Extended Medical Care. We will waive the surrender charge in most states in the following events: (i) you begin receiving qualified extended medical care on or after the first contract anniversary for at least 45 days during a 60-day period and your request for the surrender or withdrawal, together with all required documentation is received at our Customer Service Center during the term of your care or within 90 days after the last day of your care; or (ii) you are first diagnosed by a qualifying medical professional, on or after the first contract anniversary, as having a qualifying terminal illness. We have the right to require an examination by a physician of our choice. If we require such an examination, we will pay for it. You are required to send us satisfactory written proof of illness. See your contract for more information. The waiver of surrender charge may not be available in all states.

Free Withdrawal Amount. The Free Withdrawal Amount in any contract year is the greater of: 1) 10% of contract value, based on the contract value on the date of the withdrawal; and 2) your RMD attributable to amounts held under the contract. The Free Withdrawal Amount does not include your RMD for the tax year containing the contract date of this contract. Under Option Package III, any unused percentage of the 10% Free Withdrawal Amount from a contract year will carry forward into successive contract years, based on the percentage remaining at the time of the last withdrawal in that contract year. In no event will the free withdrawal amount at any time exceed 30% of contract value.

Surrender Charge for Excess Withdrawals. We will deduct a surrender charge for excess withdrawals, which may include a withdrawal you make to satisfy required minimum distributions under the Internal Revenue Code of 1986, as amended (the "Code"). We consider a withdrawal to be an "excess withdrawal" when the amount you withdraw in any contract year exceeds the Free Withdrawal Amount. Where you are receiving systematic withdrawals, any combination of regular withdrawals taken and any systematic withdrawals expected to be received in a contract year will be included in determining the amount of the excess withdrawal. Such a withdrawal will be considered a partial surrender of the contract and we will impose a surrender charge and any associated premium tax. We will deduct such charges from the contract value in proportion to the contract value in each subaccount or Fixed Interest Allocation from which the excess withdrawal was taken. In instances where the excess withdrawal equals the entire contract value in such subaccounts or Fixed Interest Allocations, we will deduct charges proportionately from all other subaccounts and Fixed Interest Allocations in which you are invested. **Any withdrawal from a Fixed Interest Allocation more than 30 days before its maturity date will trigger a Market Value Adjustment.**

For the purpose of calculating the surrender charge for an excess withdrawal: a) we treat premiums as being withdrawn on a first-in, first-out basis; and b) amounts withdrawn which are not considered an excess withdrawal are not considered a withdrawal of any premium payments. We have included an example of how this works in Appendix E. Although we treat premium payments as being withdrawn before earnings for purposes of calculating the surrender charge for excess withdrawals, the federal tax law treats earnings as withdrawn first.

Surrender Charges and the ING LifePay Rider. If you elect the ING LifePay Rider, withdrawals will be subject to surrender charges if they exceed the Free Withdrawal Amount. However, once your contract value is zero, the periodic payments under the ING LifePay Rider are not subject to surrender charges.

Premium Taxes. We may make a charge for state and local premium taxes depending on your state of residence. The tax can range from 0% to 4% of the premium payment. We have the right to change this amount to conform with changes in the law or if you change your state of residence.

We deduct the premium tax from your contract value on the income phase start date. However, some jurisdictions impose a premium tax at the time that initial and additional premiums are paid, regardless of when the annuity payments begin. In those states we may defer collection of the premium taxes from your contract value and deduct it when you surrender the contract, when you take an excess withdrawal, or on the income phase start date.

Administrative Charge. We deduct an annual administrative charge on each contract anniversary, or if you surrender your contract prior to a contract anniversary, at the time we determine the cash surrender value payable to you. The amount deducted is \$30 per contract unless waived under conditions we established. We deduct the charge proportionately from all subaccounts in which you are invested. If there is no contract value in those subaccounts, we will deduct the charge from your Fixed Interest Allocations starting with the guaranteed interest periods nearest their maturity dates until the charge has been paid.

Transfer Charge. We currently do not deduct any charges for transfers made during a contract year. We have the right, however, to assess up to \$25 for each transfer after the twelfth transfer in a contract year. If such a charge is assessed, we would deduct the charge from the subaccounts and the Fixed Interest Allocations from which each such transfer is made in proportion to the amount being transferred from each such subaccount and Fixed Interest Allocation unless you have chosen to have all charges deducted from a single subaccount. The charge will not apply to any transfers due to the election of dollar cost averaging, automatic rebalancing and transfers we make to and from any subaccount specially designated by the Company for such purpose.

Redemption Fees. Certain funds may deduct redemption fees as a result of withdrawals, transfers, or other fund transactions you initiate. If applicable, we may deduct the amount of any redemption fees imposed by the underlying mutual funds as a result of withdrawals, transfers or other fund transactions you initiate. Redemption fees, if any, are separate and distinct from any transaction charges or other charges deducted from your contract value. For a more complete description of the funds' fees and expenses, review each fund's prospectus.

Charges Deducted from the Subaccounts

Mortality and Expense Risk Charge. The amount of the mortality and expense risk charge depends on the option package you have elected. The charge is deducted on each business day based on the assets you have in each subaccount. In the event there are any profits from the mortality and expense risk charge, we may use such profits to finance the distribution of contracts.

Option Packages

The following option packages apply to contracts established prior to August 7, 2003:

Option Package I		Option Package II		Option Package III	
Annual Charge	Annual Charge Expressed as Daily Rate	Annual Charge	Annual Charge Expressed as Daily Rate	Annual Charge	Annual Charge Expressed as Daily Rate
0.60%	0.001649%	0.80%	0.002201%	0.95%	0.002615%

The following option packages apply to contracts established on or after August 7, 2003 (or upon state approval, if later):

Option Package I		Option Package II		Option Package III	
Annual Charge	Annual Charge Expressed as Daily Rate	Annual Charge	Annual Charge Expressed as Daily Rate	Annual Charge	Annual Charge Expressed as Daily Rate
0.85%	0.0024%	1.05%	0.0029%	1.20%	0.0033%

Asset-Based Administrative Charge. The amount of the asset-based administrative charge, on an annual basis, is equal to 0.15% of the assets you have in each subaccount. The charge is deducted on each business day at the rate of .000411% from your assets in each subaccount. This charge is deducted daily from your assets in each subaccount.

ING GET U.S. Core Portfolio Guarantee Charge. The GET U.S. Core Portfolio guarantee charge is deducted each business day during the guarantee period if you elect to invest in the GET U.S. Core Portfolio. The amount of the GET U.S. Core Portfolio guarantee charge is 0.50% and is deducted from amounts allocated to the GET U.S. Core Portfolio investment option. This charge compensates us for the cost of providing a guarantee of accumulation unit values of the GET U.S. Core Portfolio subaccount. See “The Trust and Funds - ING GET U.S. Core Portfolio.”

Rider Charges. Subject to state availability, you may purchase one of two optional benefit riders. So long as a rider is in effect, we will deduct a separate quarterly charge for the optional benefit rider through a pro-rata reduction of the contract value of the subaccounts in which you are invested. If there is insufficient contract value in the subaccount, we will deduct the charge from your Fixed Interest Allocations nearest their maturity date. We deduct each rider charge on the quarterly contract anniversary in arrears, meaning we deduct the first charge on the first quarterly anniversary following the rider date. If the rider is added to an existing contract, the first quarter’s charge will be reduced proportionally for the portion of the quarter that the rider was not in effect. For a description of riders and the defined terms used in connection with the riders, see “Optional Riders.”

A “quarterly anniversary date” is the date three months from the contract date that falls on the same date in the month as the contract date. For example, if the contract date is February 12, the quarterly anniversary date is May 12. If there is no corresponding date in the month, the quarterly anniversary date will be the last date of such month. If the quarterly anniversary date falls on a weekend or holiday, we will use the value as of the subsequent business day.

Minimum Guaranteed Income Benefit (MGIB). The charge for the MGIB Rider is as follows:

As an Annual Charge	As a Quarterly Charge
0.60% of the MGIB Benefit Base	0.15% of the MGIB Benefit Base

Please see “Optional Riders – Minimum Guaranteed Income Benefit” for a description of the MGIB Benefit Rule at the MGIB Rate.

ING LifePay Minimum Guaranteed Withdrawal Benefit (ING LifePay). The annual charge for the ING LifePay rider is 0.40% (0.10% quarterly) of the contract value. The charge is deducted from the contract value in the subaccounts on each quarterly contract anniversary date, in arrears. If the rider is added after contract issue, the charges will still be assessed on quarterly contract anniversaries, but the first charge will be assessed pro-rata based upon when the rider is added during the contract quarter. We will deduct charges during the period starting on the rider date and up to the date your rider enters Lifetime Automatic Periodic Benefit Status. Lifetime Automatic Periodic Benefit Status will occur if your contract value is reduced to zero and other conditions are met. Please see “ING LifePay Minimum Guaranteed Withdrawal Benefit Rider - Lifetime Automatic Periodic Benefit Status,” later in this prospectus. If you surrender or annuitize your contract, we will deduct a pro-rata portion of the charge for the current quarter based on the current quarterly charge rate immediately prior to the surrender or annuitization.

Trust and Fund Expenses

As shown in the fund prospectuses, each fund deducts management fees from the amounts allocated to the fund. In addition, each fund deducts other expenses which may include service fees that may be used to compensate service providers, including the Company and its affiliates, for administrative and contract owner services provided on behalf of the fund. Furthermore, certain funds deduct a distribution or 12b-1 fee, which is used to finance any activity that is primarily intended to result in the sale of fund shares. **For a more complete description of the funds’ fees and expenses, review each fund’s prospectus.**

The Company or its U.S. affiliates receive varying levels of revenue from each of the funds available through the contract. In terms of total dollar amounts received, the greatest amount of revenue generally comes from assets allocated to funds managed by Company affiliates (including but not limited to ING Investments, LLC, ING Life Insurance and Annuity Company, and Directed Services, Inc.), which funds may or may not also be subadvised by a Company affiliate. Assets allocated to funds managed by a Company affiliate but subadvised by unaffiliated third parties generally generate the next greatest amount of revenue. Finally, assets allocated to unaffiliated funds generate the least amount of revenue.

In addition to the types of revenue received from affiliated and unaffiliated funds described below, affiliated and unaffiliated funds and their investment advisers, subadvisers or affiliates may participate at their own expense in Company sales conferences or educational and training meetings. In relation to such participation, a fund’s investment adviser, subadviser or

affiliate may help offset the cost of the meetings or sponsor events associated with the meetings. In exchange for these expense offset or sponsorship arrangements, the investment adviser, subadviser or affiliate may receive certain benefits and access opportunities to company sales representatives and wholesalers rather than monetary benefits. These benefits and opportunities include, but are not limited to co-branded marketing materials; targeted marketing sales opportunities; training opportunities at meetings; training modules for sales personnel; and opportunity to host due diligence meetings for representatives and wholesalers.

Types of Revenue Received from Affiliated Funds

Affiliated funds are (a) funds managed by ING Investments, LLC, ING Life Insurance and Annuity Company, Directed Services, Inc. or other Company affiliates, which may or may not also be subadvised by another Company affiliate; and (b) funds managed by a Company affiliate but that are subadvised by unaffiliated third parties.

Revenues received by the Company from affiliated funds include:

- Service fees that are deducted from fund assets, which are disclosed in each fund prospectus; and
- For certain share classes, the Company or its affiliates may also receive compensation paid out of 12b-1 fees that are deducted from fund assets and disclosed in each fund prospectus.

Additionally, the Company receives other revenues from affiliated funds which may be based either on an annual percentage of average net assets held in the fund by the Company or a percentage of the fund's management fees. These revenues may be received as cash payments or according to a variety of financial accounting techniques which are used to allocate revenue and profits across the organization. In the case of affiliated funds subadvised by unaffiliated third parties, any sharing of the management fee between the Company and the affiliated investment adviser is based on the amount of such fee remaining after the subadvisory fee has been paid to the unaffiliated subadviser. Because subadvisory fees vary by subadviser, varying amounts of revenue are retained by the affiliated investment adviser and ultimately shared with the Company.

Types of Revenue Received from Unaffiliated Funds

Revenue received from each of the unaffiliated funds or their affiliates is based on an annual percentage of the average net assets held in that fund by the Company. Some unaffiliated funds or their affiliates pay us more than others and some of the amounts we receive may be significant.

Revenues received by the Company or its affiliates from unaffiliated funds include:

- For certain funds, compensation paid from 12b-1 fees or service fees that are deducted from fund assets. Any such fees deducted from fund assets are disclosed in the applicable fund prospectus; and
- Additional payments for administrative, recordkeeping or other services which we provide to the funds or their affiliates or as an incentive for us to make the funds available through the contract. These additional payments do not increase directly or indirectly the fees and expenses shown in each fund prospectus. These additional payments may be used by us to finance distribution of the contract.

The following table shows the 5 unaffiliated fund families and/or investment management groups which have funds currently offered through the contract, ranked according to the total amount they paid to the Company or its affiliates in 2005, in connection with the registered variable annuity contracts issued by the Company:

- 1) Fidelity® Variable Insurance Products
- 2) Franklin Templeton Variable Insurance Products Trust
- 3) Oppenheimer Variable Account Funds
- 4) PIMCO VIT
- 5) Pioneer Variable Contracts Trust

Some of the fund families listed above may not have paid any amounts to the Company or its affiliates during 2005 in connection with the registered variable annuity contracts issued by the Company. If the revenues received from affiliated funds were included in the table above, payments from ING Investments, LLC and other Company affiliates would be at the top of the list.

Please note certain management personnel and other employees of the Company or its affiliates may receive a portion of their total employment compensation based on the amount of net assets allocated to affiliated funds.

Certain funds may be structured as “fund of funds” (including the ING Solution portfolios) or “Master-Feeder” funds (including the ING American Funds portfolios). These funds may have higher fees and expenses than a fund that invests directly in debt and equity securities. The fund prospectuses disclose the aggregate annual operating expenses of each portfolio and its corresponding underlying fund or funds. These funds are identified in the investment option list on the front of this prospectus.

THE ANNUITY CONTRACT

The contract described in this prospectus is a deferred combination variable and fixed annuity contract. The contract provides a means for you to invest in one or more of the available mutual fund portfolios of the Trusts and Funds through Separate Account B. It also provides a means for you to invest in a Fixed Interest Allocation through the Fixed Account. See Appendix C and the Fixed Account II prospectus for more information on the Fixed Interest Allocation and Fixed Account.

When considering whether to purchase or participate in the contract, you should consult with your financial representative about your financial goals, investment time horizon and risk tolerance.

Contract Date and Contract Year

The date the contract became effective is the contract date. Each 12-month period following the contract date is a contract year.

Contract Owner

You are the contract owner. You are also the annuitant unless another annuitant is named in the application. You have the rights and options described in the contract.

The death benefit becomes payable when you die. In the case of a sole contract owner who dies before the income phase begins, we will pay the beneficiary the death benefit then due. The sole contract owner’s estate will be the beneficiary if no beneficiary has been designated or the beneficiary has predeceased the contract owner. If the contract owner is a trust and a beneficial owner of the trust has been designated, the beneficial owner will be treated as the contract owner for determining the death benefit. If a beneficial owner is changed or added after the contract date, this will be treated as a change of contract owner for determining the death benefit (likely a taxable event). If no beneficial owner of the trust has been designated, the availability of Option II or Option III will be based on the age of the annuitant at the time you purchase the contract. In the event a selected death benefit is not available, the Standard Death Benefit will apply.

Income Phase Start Date

The income phase start date is the date you start receiving income phase payments under your contract. The contract, like all deferred variable annuity contracts, has two phases: the accumulation phase and the income phase. The accumulation phase is the period between the contract date and the income phase start date. The income phase begins when you start receiving regular income phase payments from your contract on the income phase start date.

Annuitant

The annuitant is the person designated by you to be the measuring life in determining income phase payments. The annuitant’s age determines when the income phase must begin and the amount of the income phase payments to be paid. You are the annuitant unless you choose to name another person. The annuitant may not be changed after the contract is in effect.

The contract owner will receive the income phase benefits of the contract if the annuitant is living on the income phase start date. If the annuitant dies before the income phase start date and a contingent annuitant has been named, the contingent annuitant becomes the annuitant (unless the contract owner is not an individual, in which case the death benefit becomes payable).

When the annuitant dies before the income phase start date, the contract owner will become the annuitant. The contract owner may designate a new annuitant within 60 days of the death of the annuitant.

When the annuitant dies before the income phase start date and the contract owner is not an individual, we will pay the designated beneficiary the death benefit then due. If a beneficiary has not been designated, or if there is no designated beneficiary living, the contract owner will be the beneficiary. If the annuitant was the sole contract owner and there is no beneficiary designation, the annuitant’s estate will be the beneficiary.

Regardless of whether a death benefit is payable, if the annuitant dies and any contract owner is not an individual, distribution rules under federal tax law will apply. You should consult your tax advisor for more information if the contract owner is not an individual.

Beneficiary

The beneficiary is named by you in a written request. The beneficiary is the person who receives any death benefit proceeds. The beneficiary may become the successor contract owner if the contract owner who is a spouse (or the annuitant if the contract owner is other than an individual) dies before the income phase start date. We pay death benefits to the primary beneficiary.

If the beneficiary dies before the annuitant or the contract owner, the death benefit proceeds are paid to the contingent beneficiary, if any. If there is no surviving beneficiary, we pay the death benefit proceeds to the contract owner's estate.

One or more persons may be a beneficiary or contingent beneficiary. In the case of more than one beneficiary, we will assume any death benefit proceeds are to be paid in equal shares to the surviving beneficiaries.

All requests for change of beneficiary must be in writing and submitted to our Customer Service Center in good order. The change will be effective as of the day you sign the request. The change will not affect any payment made or action taken by us before recording the change.

Change of Contract Owner or Beneficiary. During the annuitant's lifetime, you may transfer ownership of a non-qualified contract. A change in ownership may affect the amount of the death benefit, the guaranteed minimum death benefit and/or the death benefit option applied to the contract. The new owner's death will determine when a death benefit is payable.

A change of owner likely has tax consequences. See "Federal Tax Considerations" in this prospectus.

You have the right to change beneficiaries during the annuitant's lifetime unless you have designated an irrevocable beneficiary. If you have designated an irrevocable beneficiary, you and the irrevocable beneficiary may have to act together to exercise some of the rights and options under the contract. You may also restrict a beneficiary's right to elect an annuity option or receive a lump sum payment. If so, such rights or options will not be available to the beneficiary.

All requests for changes must be in writing and submitted to our Customer Service Center. Please date your request. The change will be effective as of the day we receive the request. The change will not affect any payment made or action taken by us before recording the change.

Purchase and Availability of the Contract

The minimum initial payment to purchase the contract is \$5,000. Currently, this payment may be made either by funds from qualified or non-qualified external sources ("external sources") or by a transfer or rollover from an existing qualified or non-qualified contract or arrangement (the "prior contract") issued by us or one of our affiliates ("internal transfer"). Prior to April 29, 2005, the initial payment was required to be made as an internal transfer and the contract was not available as a non-qualified contract.

There are three option packages available under the contract. You select an option package at the time of application. Each option package is unique. The maximum age at which you may purchase the contract is 85 for Option Package I and 80 for Option Packages II and III.

You may make additional premium payments up to the contract anniversary after your 86th birthday. The minimum additional premium payment we will accept is \$50 regardless of the option package you select. Under certain circumstances, we may waive the minimum premium payment requirement. We may also change the minimum initial or additional premium requirements for certain group or sponsored arrangements. Any initial or additional premium payment that would cause the contract value of all annuities that you maintain with us to exceed \$1,000,000 requires our prior approval.

The contract may currently be purchased by individuals as a non-qualified contract, as a traditional Individual Retirement Annuity ("IRA") under Section 408(b) of the Code, as a Roth IRA under Section 408A of the Code, or a tax-sheltered annuity under Section 403(b) of the Code. The contract is not currently available as a Simplified Employer Pension (SEP) Plan under 408(k) or as a Simple IRA under Section 408(P).

Factors to Consider in the Purchase Decision

The contract is designed for people seeking long-term tax-deferred accumulation of assets, generally for retirement or other long-term purposes. The tax-deferred feature is more attractive to people in high federal and state tax brackets. **You should not buy this contract: (1) if you are looking for a short-term investment; (2) if you cannot risk getting back less money than you put in; or (3) if your assets are in a plan which provides for tax-deferral and you see no other reason to purchase this contract.** The decision to purchase or participate in the contracts should be discussed with your financial representative. Make sure that you understand the investment options it provides, its other features, the risks and potential benefits you will face, and the fees and expenses you will incur when, together with your financial representative, you consider an investment in the contract. You should pay attention to the following issues, among others:

- 1) Long-Term Investment - This contract is a long-term investment, and is typically most useful as part of a personal retirement plan. Early withdrawals may be restricted by the Tax Code or your plan or may expose you to early withdrawal charges or tax penalties. The value of deferred taxation on earnings grows with the amount of time funds are left in the contract. You should not participate in this contract if you are looking for a short-term investment or expect to need to make withdrawals before you are 59½.
- 2) Investment Risk - The value of investment options available under this contract may fluctuate with the markets and interest rates. You should not participate in this contract in order to invest in these options if you cannot risk getting back less money than you put in.
- 3) Features and Fees - The fees for this contract reflect costs associated with the features and benefits it provides. As you consider this contract, you should determine the value that these various benefits and features have for you, given your particular circumstances, and consider the charges for those features.
- 4) Exchanges - Replacing an existing insurance contract with this contract may not be beneficial to you. If this contract will be a replacement for another annuity contract or mutual fund option under the plan, you should compare the two options carefully, compare the costs associated with each, and identify additional benefits available under this contract. You should consider whether these additional benefits justify incurring a new schedule of early withdrawal charges or any increased charges that might apply under this contract. Also, be sure to talk to your financial professional or tax adviser to make sure that the exchange will be handled so that it is tax-free.

IRAs and other qualified plans already have the tax-deferral feature found in this contract. For an additional cost, the contract provides other features and benefits including death benefits and the ability to receive a lifetime income. You should not purchase a qualified contract unless you want these other features and benefits, taking into account their cost. See “Fees and Expenses” in this prospectus. **If you are considering Option II or Option III and your contract will be an IRA, see “Federal Tax Considerations - Individual Retirement Annuities” and “Tax Consequences of Living Benefits and Death Benefits” in this prospectus.**

Other Products

We and our affiliates offer various other products with different features and terms than these contracts, which may offer some or all of the same investment portfolios. These products have different benefits, fees and charges, and may or may not better match your needs. Please note that some of the Company’s management personnel and certain other employees may receive a portion of their employment compensation based on the amount of contract values allocated to investment portfolios of Trusts or Funds affiliated with ING. You should be aware that there are alternative options available, and, if you are interested in learning more about these other products, contact our Customer Service Center or your registered representative.

Crediting of Premium Payments

We will process your initial premium in the form of an internal transfer within 2 business days after receipt, if the application and all information necessary for processing the contract are complete. Subsequent premium payments will be processed within 1 business day if we receive all information necessary. In certain states we also accept additional premium payments by wire order. Wire transmittals must be accompanied by sufficient electronically transmitted data. We may retain your initial premium payment for up to 5 business days while attempting to complete an incomplete application. If the application cannot be completed within this period, we will inform you of the reasons for the delay. We will also return the premium payment immediately unless you direct us to hold the premium payment until the application is completed.

We will allocate your initial payment according to the instructions you specified. If a subaccount is not available or requested in error, we will make inquiry about a replacement subaccount. If we are unable to reach you or your representative within 5 days, we will consider the application incomplete. For initial premium payments designated for a subaccount of Separate Account B, the payment will be credited at the accumulation unit value next determined after we receive your premium payment and the

completed application. Once the completed application is received, we will allocate the payment to the subaccounts and/or Fixed Interest Allocation of Separate Account B specified by you within 2 business days.

If your premium payment was transmitted by wire order from your broker-dealer, we will follow one of the following two procedures after we receive and accept the wire order and investment instructions. The procedure we follow depends on state availability and the procedures of your broker-dealer.

- 1) If either your state or broker-dealer do not permit us to issue a contract without an application, we reserve the right to rescind the contract if we do not receive and accept a properly completed application or enrollment form within 5 days of the premium payment. If we do not receive the application or form within 5 days of the premium payment, we will refund the contract value plus any charges we deducted, and the contract will be voided. Some states require that we return the premium paid.
- 2) If your state and broker-dealer allow us to issue a contract without an application, we will issue and mail the contract to you or your representative, together with a Contract Acknowledgement and Delivery Statement for your execution. Until our Customer Service Center receives the executed Contract Acknowledgement and Delivery Statement, neither you nor the broker-dealer may execute any financial transactions on your contract unless they are requested in writing by you. We may require additional information before complying with your request (e.g., signature guarantee).

We will make inquiry to discover any missing information related to subsequent payments. We will allocate the subsequent payment(s) pro-rata according to the current variable subaccount allocation unless you specify otherwise. Any fixed allocation(s) will not be considered in the pro-rata calculations. If a subaccount is no longer available or requested in error, we will inquire about a replacement subaccount. If we are unable to reach you or your designated representative within 5 days, we will refund the subsequent payment. For any subsequent premium payments, the payment designated for a subaccount of Separate Account B will be credited at the accumulation unit value next determined after receipt of your premium payment and instructions.

Once we allocate your premium payment if applicable, to the subaccounts selected by you, we convert the premium payment into accumulation units. We divide the amount of the premium payment allocated to a particular subaccount by the value of an accumulation unit for the subaccount to determine the number of accumulation units of the subaccount to be held in Separate Account B with respect to your contract. The net investment results of each subaccount vary with its investment performance.

In some states, we may require that an initial premium designated for a subaccount of Separate Account B or the Fixed Account be allocated to a subaccount specially designated by the Company (currently, the ING Liquid Assets Portfolio subaccount) during the free look period. After the free look period, we will convert your contract value (your initial premium plus any earnings less any expenses) into accumulation units of the subaccounts you previously selected. The accumulation units will be allocated based on the accumulation unit value next computed for each subaccount. Initial premiums designated for Fixed Interest Allocations will be allocated to a Fixed Interest Allocation with the guaranteed interest period you have chosen; however, in the future we may allocate the premiums to the specially designated subaccount during the free look period.

We may also refuse to accept certain forms of premium payments or loan repayments, if applicable, (traveler's checks, for example) or restrict the amount of certain forms of premium payments or loan repayments. In addition, we may require information as to why a particular form of payment was used (third party checks, for example) and the source of the funds of such payment in order to determine whether or not we will accept it. Use of an unacceptable form of payment may result in us returning your premium payment and not issuing the contract.

Administrative Procedures

We may accept a request for contract service in writing, by telephone, or other approved electronic means, subject to our administrative procedures, which vary depending on the type of service requested and may include proper completion of certain forms, providing appropriate identifying information, and/or other administrative requirements. We will process your request at the contract value next determined only after you have met all administrative requirements. Please be advised that with regard to withdrawal requests, the risk of a fraudulent transaction is increased by the use of a facsimile withdrawal request form, even if appropriate identifying information is provided.

Sending Forms and Written Requests in Good Order

If you are writing to change your beneficiary, request a withdrawal, or for any other purpose, contact your local representative or the Customer Service Center to learn what information is required in order for the request to be in “good order.” By contacting us, we can provide you with the appropriate administrative form for your requested transaction.

Contract Value

We determine your contract value on a daily basis beginning on the contract date. Your contract value is the sum of (a) the contract value in the Fixed Interest Allocations, and (b) the contract value in each subaccount in which you are invested.

Contract Value in the Subaccounts. On the contract date, the contract value in the subaccount in which you are invested is equal to the initial premium paid that was designated to be allocated to the subaccount. On the contract date, we allocate your contract value to each subaccount and/or a Fixed Interest Allocation specified by you, unless the contract is issued in a state that requires the return of premium payments during the free look period, in which case, the portion of your initial premium not allocated to a Fixed Interest Allocation may be allocated to a subaccount specially designated by the Company during the free look period for this purpose (currently, the ING Liquid Assets Portfolio subaccount).

On each business day after the contract date, we calculate the amount of contract value in each subaccount as follows:

- (1) We take the contract value in the subaccount at the end of the preceding business day.
- (2) We multiply (1) by the subaccount’s Net Rate of Return since the preceding business day.
- (3) We add (1) and (2).
- (4) We add to (3) any additional premium payments and then add or subtract any transfers to or from that subaccount.
- (5) We subtract from (4) any withdrawals and any related charges, and then subtract any contract fees (including any optional rider charges) and premium taxes.

Cash Surrender Value

The cash surrender value is the amount you receive when you surrender the contract. The cash surrender value will fluctuate daily based on the investment results of the subaccounts in which you are invested and interest credited to Fixed Interest Allocations and any Market Value Adjustment. See the Fixed Account II prospectus for a description of the calculation of values under any Fixed Interest Allocation. We do not guarantee any minimum cash surrender value. On any date during the accumulation phase, we calculate the cash surrender value as follows: we start with your contract value, then we adjust for any Market Value Adjustment, then we deduct any surrender charge, any charge for premium taxes, the annual contract administrative fee, and any other charges incurred but not yet deducted.

Surrendering to Receive the Cash Surrender Value

You may surrender the contract at any time while the annuitant is living and before the income phase start date. A surrender will be effective on the date your written request and the contract are received at our Customer Service Center. We will determine and pay the cash surrender value at the price next determined after receipt of all paperwork required in order for us to process your surrender. Once paid, all benefits under the contract will be terminated. For administrative purposes, we will transfer your money to a specially designated subaccount (currently the ING Liquid Assets Portfolio subaccount) prior to processing the surrender. This transfer will have no effect on your cash surrender value. You may receive the cash surrender value in a single sum payment or apply it under one or more annuity options. We will usually pay the cash surrender value within 7 days.

Consult your tax advisor regarding the tax consequences associated with surrendering your contract. A surrender made before you reach age 59½ may result in a 10% tax penalty. See “Federal Tax Considerations” for more details.

The Subaccounts

Each of the subaccounts of Separate Account B offered under this prospectus invests in an investment portfolio with its own distinct investment objectives and policies. Each subaccount of Separate Account B invests in a corresponding portfolio of a Trust or Fund.

Addition, Deletion or Substitution of Subaccounts and Other Changes

We may make additional subaccounts available to you under the contract. These subaccounts will invest in investment portfolios we find suitable for your contract. We may also withdraw or substitute investment portfolios, subject to the conditions in your contract and compliance with regulatory requirements.

We may amend the contract to conform to applicable laws or governmental regulations. If we feel that investment in any of the investment portfolios has become inappropriate to the purposes of the contract, we may, with approval of the SEC (and any other regulatory agency, if required) combine two or more subaccounts or substitute another portfolio for existing and future investments. If you have elected the dollar cost averaging, systematic withdrawals, or automatic rebalancing programs or if you have other outstanding instructions, and we substitute or otherwise eliminate a portfolio which is subject to those instructions, we will execute your instructions using the substitute or proposed replacement portfolio unless you request otherwise. The substitute or proposed replacement portfolio may have higher fees and charges than any portfolio it replaces.

We also reserve the right to: (i) deregister Separate Account B under the 1940 Act; (ii) operate Separate Account B as a management company under the 1940 Act if it is operating as a unit investment trust; (iii) operate Separate Account B as a unit investment trust under the 1940 Act if it is operating as a managed separate account; (iv) restrict or eliminate any voting rights as to Separate Account B; and (v) combine Separate Account B with other accounts.

We will, of course, provide you with written notice before any of these changes are effected.

The Fixed Account

The Fixed Account is a segregated asset account which contains the assets that support a contract owner's Fixed Interest Allocations. See Appendix C and the Fixed Account II prospectus for more information. To obtain a copy of the Fixed Account II prospectus, write to our Customer Service Center at P.O. Box 9271, Des Moines, Iowa 50306-9271 or call 1-800-366-0066, or access the SEC's website (<http://www.sec.gov>).

Other Contracts

We offer other variable annuity contracts that also invest in the same investment portfolios of the Trusts. These contracts have different charges that could affect their performance, and may offer different benefits more suitable to your needs. To obtain more information about these other contracts, contact our Customer Service Center or your registered representative.

OPTIONAL RIDERS

Subject to state availability and the conditions noted below, you may elect one of the two optional benefit riders discussed below. **You may add only one of these two riders to your contract. Each rider has a separate charge.** Once elected, the riders generally may not be cancelled. You may not remove the rider and charges will be assessed regardless of the performance of your contract. Please see "Charges and Fees - Optional Rider Charges" for information on rider charges.

The optional riders may not be available for all investors. You should analyze each rider thoroughly and understand it completely before you elect to purchase one. The optional riders do not guarantee any return of principal or premium payments and do not guarantee performance of any specific investment portfolio under the contract. The ING LifePay rider may also impact the death benefit amount under the contract (see "ING LifePay Minimum Guaranteed Withdrawal Benefit ("ING LifePay") Rider," below). You should consult a qualified financial adviser in evaluating the riders.

The optional riders may not be approved in all states. Check with our Customer Service Center for availability in your state. The telephone number is 1-800-366-0066.

Rider Date. The rider date is the date the optional benefit rider becomes effective. The rider date is also the contract date if you purchase the rider when the contract is issued.

No Cancellation. Once you purchase a rider, you may not cancel it unless you a) cancel the contract during the contract's free look period, b) surrender, c) begin income phase payments, or d) otherwise terminate the contract pursuant to its terms. These events automatically cancel any rider. Once the contract continues beyond the free look period, you may not cancel the rider. The Company may, at its discretion, cancel and/or replace a rider at your request in order to renew or reset a rider.

Termination. The optional riders are “living benefits,” which means the guaranteed benefits offered by the riders are intended to be available to you while you are living and while your contract is in the accumulation phase. The optional riders automatically terminate if you:

- begin income phase payments, surrender or otherwise terminate your contract during the accumulation phase; or
- die during the accumulation phase (first contract owner to die if there are multiple contract owners, or death of annuitant if the contract owner is not a natural person), unless your spouse beneficiary elects to continue the contract.

The optional riders will also terminate if there is a change in contract ownership (other than a spousal beneficiary continuation on your death). In addition to spousal continuation, the following transactions are not considered a change of ownership for purposes of termination of the MGIB rider:

- 1) Transfers from custodian to custodian;
- 2) Transfers from a custodian for the benefit of an individual to that same individual;
- 3) Transfers from an individual to a custodian for the benefit of the same individual;
- 4) Collateral assignments;
- 5) Transfers from trust to trust where the contract owner and the grantor of the trust is the same individual;
- 6) Transfers from an individual to a trust where the contract owner and the grantor of the trust is the same individual; or
- 7) Transfers from a trust to an individual where the contract owner and the grantor of the trust is the same individual.

Other circumstances that may cause a rider to terminate automatically are discussed below with each rider.

Minimum Guaranteed Income Benefit Rider (MGIB). The MGIB rider is an optional benefit which guarantees a minimum amount of income phase income will be available to you if you initiate income phase payments on the MGIB Date, regardless of fluctuating market conditions. The amount of the Minimum Guaranteed Income Benefit will depend on the amount of premiums you pay during the first rider year, the amount of contract value you allocate or transfer to Special Funds or Excluded Funds, and any withdrawals you take while the rider is in effect. Thus, investing in Special Funds or Excluded Funds may limit the MGIB benefit.

Purchase. To purchase the MGIB rider, you must be age 70 or younger on the rider date and the ten-year waiting period must end at or prior to the latest income phase start date. Some broker dealers may limit availability of the rider to younger ages. Generally, the MGIB rider must be purchased (i) on the contract date, or (ii) within thirty days after the contract date. We may allow election at other times at our discretion. **There is a ten-year waiting period before you can elect income phase payments under the MGIB rider.**

The MGIB Date. If you purchased the MGIB rider on the contract date or added the MGIB rider within 30 days following the contract date, the MGIB Date is the contract anniversary on or after the tenth contract anniversary when you decide to exercise your right to begin income phase payments under the MGIB rider. If you added the MGIB rider at any other time, your MGIB Date is the contract anniversary at least 10 years after the rider date when you decide to exercise your right to begin income phase payments under the MGIB rider.

Special Funds. The following investment options are designated as Special Funds for purposes of calculating the MGIB Benefit Base: the ING Liquid Assets Portfolio, the ING PIMCO Core Bond Portfolio, the ING PIMCO Total Return Portfolio, the ING VP Intermediate Bond Portfolio, the ING Oppenheimer Strategic Income Portfolio, the ING Solution Income Portfolio, the PIMCO VIT Real Return Portfolio, the Fixed Account, and the Fixed Interest Division. Please see “Covered Funds, Special Funds, and Excluded Funds.” No investment options are currently designated as Excluded Funds.

Charges. The charge we deduct under the MGIB Rider is 0.60% annually of the MGIB Benefit Base. The calculation of the MGIB Benefit Base is described in “Determining the MGIB Annuity Income,” below.

How the MGIB Rider Works. Ordinarily, the amount of income that will be available to you on the income phase start date is based on your contract value, the income phase option you selected and the guaranteed income factors in effect on the date

you start receiving income phase payments. If you purchase the MGIB rider, the amount of income that will be available to you upon starting income phase payments on the MGIB Date is the greatest of:

- 1) your income phase income based on your contract value on the MGIB Date adjusted for any Market Value Adjustment (see Appendix C and the Fixed Account II prospectus) applied to the guaranteed income factors specified in your contract for the income phase option you selected;
- 2) your income phase income based on your contract value on the MGIB Date adjusted for any Market Value Adjustment (see Appendix C and the Fixed Account II prospectus) applied to the then-current income factors in effect for the income phase option you selected; or
- 3) the MGIB annuity income based on your MGIB Benefit Base on the MGIB Date applied to the MGIB income factors specified in your rider for the MGIB annuity option you selected. Prior to applying the MGIB income factors, we will adjust the MGIB Benefit Base for any surrender charge, premium tax recovery and Market Value Adjustment (see Appendix C and the Fixed Account II prospectus) that would otherwise apply when starting the income phase.

The guaranteed factors contained in the MGIB rider generally provide lower payout per \$1,000 of value applied than the guaranteed factors found in your contract. Although the minimum income provided under the rider can be determined in advance, the contract value in the future is unknown, so the income provided under a contract with the MGIB rider attached may be greater or less than the income that would be provided under the contract without the rider. Generally, the income calculated under the rider will be greater than the income provided under the contract whenever the MGIB Benefit Base (greater of the Rollup and Ratchet Bases) is sufficiently in excess of the contract value to offset the additional conservatism reflected in the rider's income factors compared to those in the contract. The income factors in the MGIB rider generally reflect a lower interest rate and more conservative mortality than the income factors in the contract. The degree of relative excess that the income factors require to produce more income will vary for each individual circumstance. If the contract value exceeds the MGIB Benefit Base at the time the income phase starts, the contract will generally produce greater income than the rider. Please see Appendix H - Examples of Minimum Guaranteed Income Benefit Calculation.

The MGIB Benefit Base is only a calculation used to determine the MGIB annuity income. The MGIB Benefit Base does not represent a contract value, nor does it guarantee performance of the subaccounts in which you are invested. It is also not used in determining the amount of your cash surrender value and death benefits. The MGIB Benefit Base is tracked separately for Covered, Special and Excluded Funds, based on initial allocation of eligible premium (or contract value, if applicable) and subsequently allocated eligible premiums, withdrawals and transfers. contract value, rather than eligible premium is used as the initial value if the rider is added after the contract date.

Prior to your latest income phase start date, you may choose to exercise your right to receive payments under the MGIB rider. Payments under the rider begin on the MGIB Date. **We require a 10-year waiting period before you can elect to receive payments under the MGIB rider benefit.** The MGIB must be exercised in the 30-day period prior to the end of the waiting period or any subsequent contract anniversary. At your request, the Company may in its discretion extend the latest contract income phase start date without extending the MGIB Date.

Determining the MGIB Annuity Income. On the MGIB Date, we calculate your MGIB annuity income as follows:

- 1) **We first determine your MGIB Benefit Base:** The MGIB Benefit Base is equal to the greater of the MGIB Rollup Base and the MGIB Ratchet Base, which may be reduced by an amount equal to the ratio of any outstanding loan balance (where applicable) to the contract value multiplied by the MGIB Base.

a) Calculation of MGIB Rollup Base

The MGIB Rollup Base is equal to the lesser of the Maximum MGIB Base and the sum of (a), (b), and (c) where:

- (a) is the MGIB Rollup Base for Covered Funds;
- (b) is the MGIB Rollup Base for Special Funds; and
- (c) is the contract value of Excluded Funds.

The Maximum MGIB Base applicable to the MGIB Rollup Base is 300% of eligible premiums adjusted pro-rata for withdrawals. This means that the Maximum MGIB Base is reduced for withdrawals by the same proportion that the withdrawal reduces the contract value. The Maximum MGIB Base is not allocated by fund category.

The MGIB Rollup Base allocated to Covered Funds equals the eligible premiums allocated to Covered Funds, adjusted for subsequent withdrawals and transfers taken or made while the MGIB rider is in effect, accumulated at the MGIB Rate to the earlier of the oldest owner reaching age 80 and the MGIB Rollup Base reaching the Maximum MGIB Base. The MGIB Rollup Base accumulates at 0% thereafter. The MGIB Rate is currently 5%. The MGIB Rate is an annual effective rate. We may, at our discretion, discontinue offering this rate. The MGIB Rate will not change for those contracts that have already purchased the MGIB rider.

The MGIB Rollup Base allocated to Special Funds equals the eligible premiums allocated to Special Funds, adjusted for subsequent withdrawals and transfers taken or made while the MGIB rider is in effect. The MGIB Rate does not apply to the MGIB Rollup Base allocated to Special Funds, so the MGIB Rollup Base allocated to Special Funds does not accumulate.

The MGIB Rollup Base allocated to Excluded Funds equals the eligible premiums allocated to Excluded Funds, adjusted for subsequent withdrawals and transfers taken or made while the MGIB rider is in effect, accumulated at the MGIB rate to the earlier of the oldest owner reaching age 80 and the MGIB Rollup Base reaching the Maximum MGIB Base, and at 0% thereafter. **The MGIB Rollup Base allocated to Excluded Funds is used only for transfer adjustments and rider charges. It is not included in the MGIB Rollup Base used to determine benefits.**

Eligible premiums are those premiums paid within one year of purchasing the MGIB rider. Premiums paid after that date are excluded from the MGIB Rollup Base.

Withdrawals reduce the MGIB Rollup Base on a pro-rata basis. The percentage reduction in the MGIB Rollup Base for each fund category (i.e. Covered, Special or Excluded) equals the percentage reduction in contract value in that fund category resulting from the withdrawal. This means that the MGIB Rollup Base for Covered Funds, Special Funds or Excluded Funds is reduced for withdrawals by the same proportion that the withdrawal reduces the contract value allocated to Covered Funds, Special Funds or Excluded Funds. For example, if the contract value in Covered Funds is reduced by 25% as the result of a withdrawal, the MGIB Rollup Base allocated to Covered Funds is also reduced by 25% (rather than by the amount of the withdrawal).

Because the MGIB Rollup Base is tracked separately for Covered, Special and Excluded Funds, when you make transfers between Covered, Special Funds and Excluded Funds, there is an impact on the MGIB Rollup Base. Net transfers between Covered Funds and Special Funds will reduce the MGIB Rollup Base allocated to Covered Funds or Special Funds, as applicable, on a pro-rata basis. This means that the MGIB Rollup Base allocated to Covered Funds or Special Funds will be reduced by the same percentage as the transfer bears to the contract value allocated to Covered Funds or Special Funds. For example, if the contract value in Covered Funds is reduced by 25% as the result of the transfer, the MGIB Rollup Base allocated to Covered Funds is also reduced by 25% (rather than by the amount of the transfer). The resulting increase in the MGIB Rollup Base allocated to Special or Excluded Funds, as applicable, will equal the reduction in the MGIB Rollup Base allocated to Covered Funds. Transfers from Special Funds to Covered Funds are treated in the same way.

Net transfers from Excluded Funds will reduce the MGIB Rollup Base allocated to Excluded Funds on a pro-rata basis. The resulting increase in the MGIB Rollup Base allocated to Covered or Special Funds, as applicable, will equal the lesser of the contract value transferred and the reduction in the MGIB Rollup Base allocated to Excluded Funds.

b) Calculation of MGIB Ratchet Benefit Base

The MGIB Ratchet Benefit Base is equal to the sum of (a) and (b) where:

- (a) is the MGIB Ratchet Base for Covered Funds and Special Funds; and
- (b) is the contract value for Excluded Funds.

The MGIB Ratchet Base for Covered Funds, Special Funds and Excluded Funds equals:

- On the rider date, eligible premiums or the contract value (if the rider is added after the contract date) allocated to Covered Funds, Special Funds and Excluded Funds;
- On each contract anniversary date prior to attainment of age 90, the MGIB Ratchet Base for Covered Funds, Special Funds and Excluded Funds is set equal to the greater of:
 - 1) the current contract value allocated to Covered Funds, Special Funds and Excluded Funds (after any deductions occurring on that date); and
 - 2) the MGIB Ratchet Base for Covered Funds, Special Funds and Excluded Funds from the prior contract anniversary date, adjusted for any new eligible premiums and withdrawals attributable to Covered Funds, Special Funds or Excluded Funds and transfers.
- At other times, the MGIB Ratchet Base for Covered Funds, Special Funds and Excluded Funds is the MGIB Ratchet Base from the prior contract anniversary date, adjusted for subsequent eligible premiums and withdrawals attributable to Covered Funds, Special Funds or Excluded Funds and transfers.

The MGIB Ratchet Base allocated to Excluded Funds is used only for transfer adjustments and rider charges. It is not included in the MGIB Ratchet Benefit Base used to determine benefits.

- 2) **Then we determine the MGIB income phase income by multiplying your MGIB Benefit Base (adjusted for any Market Value Adjustment (see Appendix C and the Fixed Account II prospectus), surrender charge and premium taxes) by the income factor, and then divide by \$1,000.**

MGIB Income Options

The following are the MGIB Income Options available under the MGIB Rider:

- (i) Income for Life (Single Life or Joint with 100% Survivor) and 10-20 years certain;
- (ii) Income for 20-30 years certain; and
- (iii) Any other income plan offered by the Company in conjunction with the MGIB rider on the MGIB Date.

Once during the life of the contract, you have the option to elect to apply up to 50% of the MGIB Benefit Base to one of the MGIB Income Options available under the rider. This option may only be exercised on a contract anniversary at or after the end of the waiting period. The portion of the MGIB Benefit Base so applied will be used to determine the MGIB income, as is otherwise described in the prospectus. The contract value will be reduced on a pro-rata basis. Any subsequent exercise of your right to receive payments under the MGIB rider must be for 100% of the remaining value. The election of partial payments under the MGIB Benefit Base does not affect your right to initiate the income phase under the contract without regard to the rider. The amount applied to these partial payments will be treated as a withdrawal for purposes of adjusting contract and rider values.

Please note that if you elect partial payments, they will be tax reported as withdrawals. Please consult your tax adviser before making this election, as the taxation of this election is uncertain.

Early MGIB. Prior to the MGIB Date, you may elect to receive Early MGIB benefits by providing a written request to our Customer Service Center within 30 days prior to an Early MGIB Exercise Date, which is a contract anniversary prior to the MGIB Date. Your election to receive Early MGIB benefits will become effective as of the Early MGIB Exercise Date

following receipt of this request in good order. **The first Early MGIB Exercise Date is specified in your rider and is currently the first contract anniversary which is at least 5 years after the rider date.**

If you elect to receive Early MGIB benefits, the MGIB annuity income will be determined as noted above in “Determining the MGIB Annuity Income,” but will be adjusted by using an Age Setback formula. Under this formula, the MGIB annuity income will equal the MGIB Benefit Base multiplied by the adjusted MGIB income factors, which are equal to the MGIB income factors defined in “Determining the MGIB Annuity Income” above, adjusted using age setbacks to compensate for the early entry into the income phase. The adjusted MGIB income factors are determined by adjusting the contract owner’s age for each whole or partial rider year between the Early MGIB Exercise Date and the 10th contract anniversary after the rider date.

For example, if a 65 year-old contract owner is in the 6th year of the MGIB rider and elects to receive Early MGIB benefits, the MGIB income factors used to determine the MGIB annuity income would be adjusted by using the MGIB income factors for a 61 year-old contract owner, because the contract owner’s age (65) is adjusted by subtracting the four years remaining until the 10th contract anniversary occurring after the rider date.

No Change of Annuitant. Once you purchase the MGIB rider, the annuitant may not be changed except for the following exception. If an annuitant who is not a contract owner dies prior to entry into the income phase, a new annuitant may be named in accordance with the provisions of your contract. The MGIB Benefit Base is unaffected and continues to accumulate.

Notification. On or about 30 days prior to the MGIB Date, we will provide you with notification which will include an estimate of the amount of MGIB annuity income available if you choose to exercise it. We will determine the actual amount of the MGIB annuity income as of the MGIB Date.

The MGIB rider does not restrict or limit your right to enter the income phase at any time permitted under the contract. The MGIB rider does not restrict your right to enter the income phase using contract values that may be higher than the MGIB annuity benefit.

The benefits associated with the MGIB rider are available only if you enter the income phase under the rider and in accordance with the provisions set forth above. Election of Early MGIB Benefits may result in a lesser stream of income payments than waiting the entire 10 year waiting period. Initiating the income phase using the MGIB rider may result in a more favorable stream of income payments, and different tax consequences, under your contract. Because the MGIB rider is based on conservative actuarial factors, the level of lifetime income that it guarantees may be less than the level that might be provided by the application of your contract value to the contract’s applicable income phase factors. You should consider all of your options at the time you begin the income phase of your contract.

ING LifePay Minimum Guaranteed Withdrawal Benefit (“ING LifePay”) Rider. The ING LifePay rider is an optional benefit which guarantees that if your contract value is reduced to zero by a withdrawal equal to or less than the Maximum Annual Withdrawal, we will pay an amount equal to the Maximum Annual Withdrawal annually until the death of the annuitant.

Purchase. In order to elect the ING LifePay rider, the annuitant must be the owner or one of the owners, unless the owner is a non-natural person. Joint annuitants are not allowed. The minimum issue age is 50 and the maximum issue age is 80. The issue age is the age of the owner (or the annuitant if there are joint owners or the owner is non-natural) on the contract anniversary on which the rider is effective. Some broker dealers may limit availability of the rider to younger ages. The ING LifePay rider will not be issued if the initial allocation to investment options is not in accordance with the investment option restrictions described in “Investment Option Restrictions,” below. The Company in its discretion may allow the rider to be elected during the 30-day period preceding a contract anniversary. Such election must be received in good order, including compliance with the investment option restrictions described below. The rider will be effective as of that contract anniversary.

Lifetime Guaranteed Withdrawal Status. This status begins on the rider date and continues until the earliest of:

- 1) the income phase start date;
- 2) reduction of the contract value to zero by a withdrawal in excess of the Maximum Annual Withdrawal (see “Lifetime Automatic Periodic Benefit Status” below);

- 3) reduction of the contract value to zero by a withdrawal less than or equal to the Maximum Annual Withdrawal;
- 4) the surrender of the contract or entry into the income phase;
- 5) the death of the contract owner, or in the case of joint owners, the first contract owner, unless your spouse beneficiary elects to continue the contract.

As described below, certain features of the ING LifePay rider may differ depending upon whether you are in Lifetime Guaranteed Withdrawal Status.

How the ING LifePay Rider Works. The ING LifePay Withdrawal Benefit rider has two phases. The first phase, called the Growth Phase, begins on the rider date and ends as of the business day before the first withdrawal is taken (or when the income phase start date is reached). The second phase is called the Withdrawal Phase. This phase begins as of the date of the first withdrawal or the income phase start date, whichever occurs first.

Benefits paid under the ING LifePay rider require the calculation of the Maximum Annual Withdrawal. The ING LifePay Base (referred to as the “MGWB Base” in the contract) is used to determine the Maximum Annual Withdrawal as follows.

- 1) If you purchased the ING LifePay rider on the contract date, the initial ING LifePay Base is equal to the initial premium.
- 2) If you purchased the ING LifePay rider after the contract date, the initial ING LifePay Base is equal to the contract value on the rider date.

The ING LifePay Base is increased dollar-for-dollar by premiums received during the Growth Phase (“eligible premiums”). The ING LifePay Base is also increased to equal the contract value if the contract value is greater than the current ING LifePay Base on each quarterly contract anniversary after the effective date of the rider, during the Growth Phase. The ING LifePay Base has no additional impact on the calculation of income phase payments or withdrawal benefits.

Currently, any additional premiums paid during the Withdrawal Phase are not eligible premiums for purposes of determining the ING LifePay Base or the Maximum Annual Withdrawal. However, we reserve the right to treat such premiums as eligible premiums at our discretion, in a nondiscriminatory manner. Premiums received during the Withdrawal Phase do increase the contract value used to determine the reset Maximum Annual Withdrawal if you choose to reset the ING LifePay rider (see “ING LifePay Reset Option,” below). We reserve the right to discontinue allowing premium payments during the Withdrawal Phase.

Determination of the Maximum Annual Withdrawal. The Maximum Annual Withdrawal is determined on the date the Withdrawal Phase begins. It equals 5% of the greater of 1) the contract value and 2) the ING LifePay Base as of the last day of the Growth Phase. The first withdrawal after the rider date (which causes the end of the Growth Phase) is treated as occurring on the first day of the Withdrawal Phase, after calculation of the Maximum Annual Withdrawal.

If the rider is in Lifetime Guaranteed Withdrawal Status, and the income phase commencement date is reached, the rider will enter the Withdrawal Phase and the income phase will begin. If a lifetime-only income phase option is elected, we will pay the greater of the income phase payout under the contract and annual payments equal to the Maximum Annual Withdrawal.

If withdrawals in any contract year exceed the Maximum Annual Withdrawal, the Maximum Annual Withdrawal will be reduced on a pro-rata basis. This means that the Maximum Annual Withdrawal will be reduced by the same proportion that the withdrawal in excess of the Maximum Annual Withdrawal (the “excess withdrawal”) is of the contract value determined:

- 1) before the withdrawal, for the excess withdrawal; and
- 2) after the withdrawal for the amount withdrawn up to the Maximum Annual Withdrawal (without regard to the excess withdrawal).

When a withdrawal is made, the total withdrawals taken in a contract year are compared with the current Maximum Annual Withdrawal. To the extent the withdrawal taken causes the total withdrawals in that year to exceed the current Maximum Annual Withdrawal, that withdrawal is considered excess. For purposes of determining whether the Maximum Annual Withdrawal has been exceeded, any applicable Market Value Adjustment or surrender charges will not be applied to the withdrawal. However, for purposes of determining the Maximum Annual Withdrawal reduction after an excess withdrawal, any surrender charges and/or Market Value Adjustment are considered to be part of the withdrawal. See Appendix I, Illustration 1 and 2 for an example of this concept.

Required Minimum Distributions. Withdrawals taken from this contract to satisfy the Required Minimum Distribution rules of the Internal Revenue Code of 1986, as amended, that exceed the Maximum Annual Withdrawal for a specific contract year, will not be deemed excess withdrawals in that contract year, subject to the following rules:

- 1) If your Required Minimum Distribution for a calendar year (determined on a date on or before January 31 of that year), applicable to this contract, is greater than the Maximum Annual Withdrawal on that date, an Additional Withdrawal Amount will be set equal to that portion of the Required Minimum Distribution that exceeds the Maximum Annual Withdrawal.
- 2) You may withdraw the Additional Withdrawal Amount from this contract without it being deemed an excess withdrawal.
- 3) Any withdrawals taken in a contract year will count first against the Maximum Annual Withdrawal for that contract year.
- 4) Once the Maximum Annual Withdrawal for the then current contract year has been taken, additional amounts withdrawn in excess of the Maximum Annual Withdrawal, other than Required Minimum Distributions will count against and reduce any Additional Withdrawal Amount.
- 5) Withdrawals that exceed the Additional Withdrawal Amount are excess withdrawals and will reduce the Maximum Annual Withdrawal on a pro-rata basis, as described above.
- 6) The Additional Withdrawal Amount is reset to zero at the end of each calendar year, and remains at zero until it is reset on January 31 of the following calendar year.
- 7) If the contract is still in the Growth Phase on January 31, but enters the Withdrawal Phase later during that calendar year, the Additional Withdrawal Amount will be set equal to the excess, if any, of the Required Minimum Distribution for that year over the Maximum Annual Withdrawal on the date the Maximum Annual Withdrawal is established.

See Appendix I, Illustration 3.

Investment Advisory Fees. Withdrawals taken pursuant to a program established by the owner for the payment of investment advisory fees to a named third party investment adviser for advice on management of this contract's values will not cause the Withdrawal Phase to begin. During the Growth Phase, such withdrawals reduce the ING LifePay Base on a pro-rata basis, and during the Withdrawal Phase, these withdrawals are treated as any other withdrawal.

Lifetime Automatic Periodic Benefit Status. If the contract value is reduced to zero by a withdrawal in excess of the Maximum Annual Withdrawal, the contract and the rider will terminate due to the pro-rata reduction described in "Determination of the Maximum Annual Withdrawal," above.

If the contract value is reduced to zero for a reason other than a withdrawal in excess of the Maximum Annual Withdrawal while the rider is in Lifetime Guaranteed Withdrawal Status, the rider will enter Lifetime Automatic Periodic Benefit Status and you are entitled to receive periodic payments in an annual amount equal to the Maximum Annual Withdrawal.

When the rider enters Lifetime Automatic Periodic Benefit Status,

- 1) the contract will provide no further benefits other than as provided in the ING LifePay rider;
- 2) no further premium payments will be accepted; and
- 3) any other riders attached to the contract will terminate, unless otherwise specified in the rider.

During Lifetime Automatic Periodic Benefit Status, we will pay you periodic payments equal to the Maximum Annual Withdrawal. These payments will cease upon the death of the annuitant at which time both the rider and the contract will terminate. The rider will remain in Lifetime Automatic Periodic Benefit Status until it terminates without value upon the annuitant's death.

The periodic payments will begin on the last day of the first full contract year following the date the rider enters Lifetime Automatic Periodic Benefit Status and will continue to be paid annually thereafter. If, at the time the rider enters Lifetime Automatic Periodic Benefit Status, you are receiving systematic withdrawals under the contract more frequently than annually, the periodic payments will be made at the same frequency in equal amounts such that the sum of the payments in each contract year will equal the annual Maximum Annual Withdrawal. Such payments will be made on the same payment dates as previously set up, if the payments were being made monthly or quarterly. If the payments were being made semi-annually or annually, the payments will be made at the end of the half-contract year or contract year, as applicable.

ING LifePay Reset Option. Beginning one year after the Withdrawal Phase begins, you may choose to reset the Maximum Annual Withdrawal, if 5% of the contract value would be greater than your current Maximum Annual Withdrawal. You must elect to reset by a request in a form satisfactory to us. On the date the request is received (the “Reset Effective Date”), the Maximum Annual Withdrawal will increase to be equal to 5% of the contract value on the Reset Effective Date. The reset option is only available when the rider is in Lifetime Guaranteed Withdrawal Status.

After exercising the reset option, you must wait one year before electing to reset again. We will not accept a request to reset if the new Maximum Annual Withdrawal on the date the request is received would be less than your current Maximum Annual Withdrawal.

If the reset option is exercised, the charge for the ING LifePay rider will be equal to the charge then in effect for a newly purchased rider but will not exceed the maximum annual charge of 1.20%. However, we guarantee that the rider charge will not increase for resets exercised within the first five contract years. See Appendix I, Illustration 4.

Investment Option Restrictions. While the ING LifePay rider is in effect, there are limits on the portfolios to which your contract value may be allocated. Contract value allocated to portfolios other than Accepted Funds will be rebalanced so as to maintain at least 20% of such contract value in the Fixed Allocation Fund. See “Fixed Allocation Fund Automatic Rebalancing (‘Fixed Allocation Fund Automatic Rebalancing’)” below.

The ING GET U.S. Core Portfolio is not available as an investment option if you have chosen the ING LifePay rider.

Accepted Funds. Currently the Accepted Funds are the ING Solution 2015 Portfolio, ING Solution 2025 Portfolio, ING Solution 2035 Portfolio, ING Solution Income Portfolio, ING Liquid Assets Portfolio, Fixed Account II, and the Fixed Interest Division. We may change these designations at any time upon 30 days notice to you. If a change is made, the change will apply to contract value allocated to such portfolios after the date of the change.

Fixed Allocation Funds. The ING VP Intermediate Bond Fund is the Fixed Allocation Fund. If the rider is not continued under the spousal continuation right when available, the Fixed Allocation Fund will be reclassified as a Special Fund as of the contract continuation date if it would otherwise be designated as a Special Fund for the purposes of the contract’s death benefits.

For purposes of calculating any applicable death benefit guaranteed under the contract, any allocation of contract value to a Fixed Allocation Fund will be considered a Covered Fund allocation while the rider is in effect.

Other Funds. All portfolios available under the contract other than Accepted Funds and the Fixed Allocation Fund are considered Other Funds.

Fixed Allocation Fund Automatic Rebalancing. If the contract value in the Fixed Allocation Fund is less than 20% of the contract value allocated to the Fixed Allocation Fund and Other Funds on any ING LifePay Rebalancing Date, we will automatically rebalance the contract value allocated to Fixed Allocation Funds and Other Funds so that 20% of this amount is allocated to the Fixed Allocation Fund. Accepted Funds are excluded from Fixed Allocation Fund Automatic Rebalancing. Any rebalancing is done on a pro-rata basis among the Fixed Allocation Fund and Other Funds and will be the last transaction processed on that date. The ING LifePay Rebalancing Dates occur on each contract anniversary and after the following transactions:

- 1) receipt of additional premiums;
- 2) transfer or reallocation among Fixed Allocation Funds or Other Funds, whether automatic or specifically directed by you; and
- 3) withdrawals from a Fixed Allocation Fund or Other Fund.

Fixed Allocation Fund Automatic Rebalancing is separate from any other automatic rebalancing under the contract. However, if the other automatic rebalancing under the contract causes the allocations to be out of compliance with the investment option restrictions noted above, Fixed Allocation Fund Automatic Rebalancing will occur immediately after the automatic rebalancing to restore the required allocations. See Appendix J - Examples of Fixed Allocation Fund Automatic Rebalancing.”

In certain circumstances, Fixed Allocation Fund Automatic Rebalancing may result in a reallocation into the Fixed Allocation Fund even if you have not previously been invested in it. See “Appendix J – Examples of Fixed Allocation Fund Automatic Rebalancing, Example I.” **By electing to purchase the ING LifePay rider, you are providing the Company with direction and authorization to process these transactions, including reallocations into the Fixed Allocation Fund. You should not purchase the ING LifePay rider if you do not wish to have your contract value reallocated in this manner.**

Death of Owner or Annuitant. The ING LifePay rider and charges terminate on the earlier of:

- 1) if the rider is in Lifetime Guaranteed Withdrawal status, the date of receipt of due proof of death (“claim date”) of the contract owner (or in the case of joint contract owners, the death of the first owner) or the annuitant if there is a non-natural owner; or
- 2) the date the rider enters Lifetime Automatic Periodic Benefit status.

Under 1), above, the rider terminates on the death of the first owner, even if the owner is not the annuitant. **Thus, you should not purchase this rider with multiple owners, unless the owners are spouses.** Under 2), above, we will continue to pay the periodic payments that the owner was receiving under the ING LifePay rider to the annuitant. No other death benefit is payable in this situation.

Continuation After Death - Spouse. If the surviving spouse of the deceased owner continues the contract (see, “Death Benefit Choices - Continuation After Death - Spouse”), this rider will also continue, provided the following conditions are met:

- 1) The spouse is at least 50 years old on the date the contract is continued; and
- 2) The spouse becomes the annuitant and sole contract owner.

If the rider is in the Growth Phase at the time of spousal continuation:

- 1) The rider will continue in the Growth Phase;
- 2) On the date the rider is continued, the ING LifePay Base will be reset to equal the then current contract value; and
- 3) The ING LifePay charges will restart and be the same as were in effect prior to the claim date.

If the rider is in the Withdrawal Phase at the time of spousal continuation:

- 1) The rider will continue in the Withdrawal Phase;
- 2) On the contract anniversary following the date the rider is continued,
 - (a) If the surviving spouse had not been the annuitant before the owner’s death, the Maximum Annual Withdrawal is recalculated by multiplying the contract value on that contract anniversary by 5%, and the Maximum Annual Withdrawal is considered to be zero from the claim date to that contract anniversary. Withdrawals are permitted pursuant to the other provisions of the contract. Withdrawals causing the contract value to fall to zero will terminate the contract and rider.
 - (b) If the surviving spouse was the annuitant before the owner’s death, the Maximum Annual Withdrawal is recalculated as the greater of the Maximum Annual Withdrawal on the claim date (adjusted for excess withdrawals thereafter) and the Maximum Annual Withdrawal resulting from multiplying the contract value on that contract anniversary by 5%. The Maximum Annual Withdrawal does not go to zero on the claim date, and withdrawals may continue under the rider provisions.
- 3) The rider charges will restart on the contract anniversary following the date the rider is continued and will be the same as were in effect prior to the claim date;

Change of Owner or Annuitant. Other than as provided above under “Continuation After Death – Spouse,” you may not change the annuitant. The rider and rider charges will terminate upon change of owner, including adding an additional owner, except for the following ownership changes:

- 1) spousal continuation as described above;
- 2) change of owner from one custodian to another custodian;
- 3) change of owner from a custodian for the benefit of an individual to the same individual;
- 4) change of owner from an individual to a custodian for the benefit of the same individual;
- 5) collateral assignments;
- 6) change in trust as owner where the individual owner and the grantor of the trust are the same individual;
- 7) change of owner from an individual to a trust where the individual owner and the grantor of the trust are the same individual; and
- 8) change of owner from a trust to an individual where the individual owner and the grantor of the trust are the same individual.

Surrender Charges. If you elect the ING LifePay rider, your withdrawals will be subject to surrender charges if they exceed the free withdrawal amount. However, once your Contract value is zero, the periodic payments under the ING LifePay rider are not subject to surrender charges.

Loans. The portion of any Contract value used to pay off an outstanding loan balance will reduce the ING LifePay Base or Maximum Annual Withdrawal as applicable. We do not recommend the ING LifePay rider if loans are contemplated.

Effect of ING LifePay Rider on Death Benefit. If you die before Lifetime Automatic Periodic Benefit Status begins under the ING LifePay rider, the death benefit is payable, but the rider terminates. However, if the beneficiary is the contract owner’s spouse, and the spouse elects to continue the contract, the death benefit is not payable until the spouse’s death. See “ING LifePay Minimum Guaranteed Withdrawal Benefit Rider - Death of Owner or Annuitant” for further information.

If you die during the Lifetime Automatic Periodic Benefit Status, payments will stop. No other death benefit is payable. See “ING LifePay Minimum Guaranteed Withdrawal Benefit Rider.”

Taxation. For more information about the tax treatment of amounts paid to you under the ING LifePay rider, see “Federal Tax Considerations - Tax Consequences of Living Benefits and Death Benefits.”

WITHDRAWALS

Any time during the accumulation phase and before the death of the contract owner, except under certain qualified contracts, you may withdraw all or part of your money. Keep in mind that if you request a withdrawal for more than 90% of the cash surrender value, and the remaining cash surrender value after the withdrawal is less than \$100, we may treat it as a request to surrender the contract. If any single withdrawal or the sum of withdrawals exceeds the Free Withdrawal Amount, you may incur a surrender charge. There is no surrender charge if, during each contract year, the amount withdrawn is equal to or less than the greater of: 1) 10% or less of your contract value on the date of the withdrawal, less prior withdrawals during that contract year; or 2) your RMD attributable to amounts held under the contract. The Free Withdrawal Amount does not include your RMD for the tax year containing the contract date of this contract. Under Option Package III, any unused percentage of the 10% Free Withdrawal Amount from a contract year will carry forward into successive contract years, based on the percentage remaining at the time of the last withdrawal in that contract year. In no event will the Free Withdrawal Amount at any time exceed 30% of contract value.

You need to submit to us a written request specifying the Fixed Interest Allocations or subaccounts from which amounts are to be withdrawn, otherwise the withdrawal will be made on a pro-rata basis from all of the subaccounts in which you are invested. If there is not enough contract value in the subaccounts, we will deduct the balance of the withdrawal from your Fixed Interest Allocations starting with the guaranteed interest periods nearest their maturity dates until we have honored your request. We will determine the contract value as of the close of business on the day we receive your withdrawal request at our Customer Service Center. The contract value may be more or less than the premium payments made.

If you have elected the ING LifePay Rider, your withdrawals will be subject to surrender charges if they exceed the free withdrawal amount. However, once your contract value is zero, the periodic payments paid under the ING LifePay rider are not subject to surrender charges.

We will apply a Market Value Adjustment to any withdrawal from your Fixed Interest Allocation taken more than 30 days before its maturity date. Definitive guidance on the proper federal tax treatment of the Market Value Adjustment has not been issued. You may want to discuss the potential tax consequences of a Market Value Adjustment with your tax adviser. If the aggregate percentage cap on allocations to the Restricted Funds has been exceeded, any subsequent withdrawals must be taken so that the percentage of contract value in the Restricted Funds following the withdrawal would not be greater than the percentage of contract value in the Restricted Funds prior to the withdrawal. If a requested withdrawal would cause the percentage cap to be exceeded, the amount of the withdrawal in excess of the cap would be taken pro-rata from all variable subaccounts.

For administrative purposes, we will transfer your money to a specially designated subaccount (currently, the ING Liquid Assets Portfolio subaccount) prior to processing the withdrawal. This transfer will not affect the withdrawal amount you receive.

We offer the following three withdrawal options. Other than surrender charges and market value adjustment, if applicable, there is no additional charge for these features.

Regular Withdrawals

After the free look period, you may make regular withdrawals. Each withdrawal must be a minimum of \$100. We will apply a Market Value Adjustment to any regular withdrawal from a Fixed Interest Allocation that is taken more than 30 days before its maturity date. See Appendix C and the Fixed Account II prospectus for more information on the application of Market Value adjustment.

Systematic Withdrawals

You may choose to receive automatic systematic withdrawal payments (1) from the contract value in the subaccounts in which you are invested, or (2) from the interest earned in your Fixed Interest Allocations. Systematic withdrawals may be taken monthly, quarterly or annually. If you have contract value allocated to one or more Restricted Funds and you elect to receive systematic withdrawals from the subaccounts in which you are invested, the systematic withdrawals must be taken pro-rata from all subaccounts in which contract value is invested. If you do not have contract value allocated to a Restricted Fund and choose systematic withdrawals on a non pro-rata basis, we will monitor the withdrawals annually. If you subsequently allocate contract value to one or more Restricted Funds, we will require you to take your systematic withdrawals on a pro-rata basis from all subaccounts in which contract value is invested.

You decide when you would like systematic payments to start as long as it starts at least 28 days after your contract date. You also select the date on which the systematic withdrawals will be made, but this date cannot be later than the 28th day of the month. If you have elected to receive systematic withdrawals but have not chosen a date, we will make the withdrawals on the same calendar day of each month as your contract date. If your contract date is after the 28th day of the month, your systematic withdrawal will be made on the 28th day of each month.

Each systematic withdrawal amount must be a minimum of \$100. The amount of your systematic withdrawal can either be (1) a

fixed dollar amount, or (2) an amount based on a percentage of the contract value. Both forms of systematic withdrawals are subject to the following maximum, which is calculated on each withdrawal date:

Frequency	Maximum Percentage of Contract Value
Monthly	0.83%
Quarterly	2.50%
Annually	10.00%

If your systematic withdrawal is a fixed dollar amount and the amount to be withdrawn would exceed the applicable maximum percentage of your contract value on any withdrawal date, we will automatically reduce the amount withdrawn so that it equals such percentage. Thus, your fixed dollar systematic withdrawals will never exceed the maximum percentage. If you want fixed dollar systematic withdrawals to exceed the maximum percentage and are willing to incur associated surrender charges, consider the Fixed Dollar Systematic Withdrawal Feature which you may add to your regular systematic withdrawal program.

If your systematic withdrawal is based on a percentage of contract value and the amount to be withdrawn based on that percentage would be less than \$100, we will automatically increase the amount to \$100 as long as it does not exceed the maximum percentage. If the systematic withdrawal would exceed the maximum percentage, we will send the amount, and then automatically cancel your systematic withdrawal option.

Systematic withdrawals from Fixed Interest Allocations are limited to interest earnings during the prior month, quarter, or year, depending on the frequency you chose. Systematic withdrawals are not subject to a Market Value Adjustment, unless you have added the Fixed Dollar Systematic Withdrawal Feature discussed below and the payments exceed interest earnings. Systematic withdrawals from Fixed Interest Allocations under the Fixed Dollar Systematic Withdrawal Feature are available only in connection with Section 72(t) distributions. A Fixed Interest Allocation may not participate in both the systematic withdrawal option and the dollar cost averaging program at the same time.

You may change the amount or percentage of your systematic withdrawal once each contract year or cancel this option at any time by sending satisfactory notice to our Customer Service Center at least 7 days before the next scheduled withdrawal date. If you submit a subsequent premium payment after you have applied for systematic withdrawals, we will not adjust future withdrawals under the systematic withdrawal program unless you specifically request that we do so.

The systematic withdrawal option may commence in a contract year where a regular withdrawal has been taken but you may not change the amount or percentage of your withdrawals in any contract year during which you have previously taken a regular withdrawal. You may not elect the systematic withdrawal option if you are taking IRA withdrawals.

Subject to availability, a spousal or non-spousal beneficiary may elect to receive death benefits as payments over the beneficiary's lifetime ("stretch"). "Stretch" payments will be subject to the same limitations as systematic withdrawals, and non-qualified "stretch" payments will be reported on the same basis as other systematic withdrawals.

Fixed Dollar Systematic Withdrawal Feature. You may add the Fixed Dollar Systematic Withdrawal Feature to your regular fixed dollar systematic withdrawal program. This feature allows you to receive a systematic withdrawal in a fixed dollar amount regardless of any surrender charges or Market Value Adjustments. Systematic withdrawals from Fixed Interest Allocations under the Fixed Dollar Systematic Withdrawal Feature are available only in connection with Section 72(t) distributions. You choose the amount of the fixed systematic withdrawals, which may total up to an annual maximum of 10% of your contract value as determined on the day we receive your election of this feature. The maximum limit will not be recalculated when you make additional premium payments, unless you instruct us to do so. We will assess a surrender charge on the withdrawal date if the withdrawal exceeds the maximum limit as calculated on the withdrawal date. We will assess a Market Value Adjustment on the withdrawal date if the withdrawal from a Fixed Interest Allocation exceeds your interest earnings on the withdrawal date. We will apply the surrender charge and any Market Value Adjustment directly to your contract value (rather than to the systematic withdrawal) so that the amount of each systematic withdrawal remains fixed.

Flat dollar systematic withdrawals which are intended to satisfy the requirements of Section 72(t) of the Code may exceed the maximum. Such withdrawals are subject to surrender charges and Market Value Adjustment when they exceed the applicable maximum percentage.

IRA Withdrawals

If you have a traditional IRA contract and will be at least age 70½ during the current calendar year, you may elect to have distributions made to you to satisfy requirements imposed by federal tax law. IRA withdrawals provide payout of amounts required to be distributed by the Internal Revenue Service (“IRS”) rules governing mandatory distributions under qualified plans. We will send you a notice before your distributions commence. You may elect to take IRA withdrawals at that time, or at a later date. You may not elect IRA withdrawals and participate in systematic withdrawals at the same time. If you do not elect to take IRA withdrawals, and distributions are required by federal tax law, distributions adequate to satisfy the requirements imposed by federal tax law may be made. Thus, if you are participating in systematic withdrawals, distributions under that option must be adequate to satisfy the mandatory distribution rules imposed by federal tax law.

You may choose to receive IRA withdrawals on a monthly, quarterly or annual basis. Under this option, you may elect payments to start as early as 28 days after the contract date. You select the day of the month when the withdrawals will be made, but it cannot be later than the 28th day of the month. If no date is selected, we will make the withdrawals on the same calendar day of the month as the contract date. If your contract date is after the 28th day of the month, your IRA withdrawal will be made on the 28th day of the month.

You may request that we calculate for you the amount that is required to be withdrawn from your contract each year based on the information you give us and various choices you make. For information regarding the calculation and choices you have to make, see the SAI. Or, we will accept your written instructions regarding the calculated amount required to be withdrawn from your contract each year. The minimum dollar amount you can withdraw is \$100. When we determine the required IRA withdrawal amount for a taxable year based on the frequency you select, if that amount is less than \$100, we will pay \$100. At any time where the IRA withdrawal amount is greater than the contract value, we will cancel the contract and send you the amount of the cash surrender value.

You may change the payment frequency of your IRA withdrawals once each contract year or cancel this option at any time by sending satisfactory notice to our Customer Service Center at least 7 days before the next scheduled withdrawal date.

An IRA withdrawal from a Fixed Interest Allocation in excess of the amount allowed under systematic withdrawals will be subject to a Market Value Adjustment.

Consult your tax adviser regarding the tax consequences associated with taking withdrawals. You are responsible for determining that withdrawals comply with applicable law. A withdrawal made before the taxpayer reaches age 59½ may result in a 10% penalty tax. See “Federal Tax Considerations” for more details.

TRANSFERS AMONG YOUR INVESTMENTS

You may transfer your contract value among the subaccounts in which you are invested and your Fixed Interest Allocations at the end of the free look period until the income phase start date. Transfers to a GET Fund series may only be made during the offering period for that GET Fund series. We currently do not charge you for transfers made during a contract year, but reserve the right to charge \$25 for each transfer after the twelfth transfer in a contract year. **We also reserve the right to limit the number of transfers you may make and may otherwise modify or terminate transfer privileges if required by our business judgment or in accordance with applicable law.** We will apply a Market Value Adjustment to transfers from a Fixed Interest Allocation taken more than 30 days before its maturity date, unless the transfer is made under the dollar cost averaging program. Keep in mind that transfers between Special or Excluded Funds and other investment portfolios may negatively impact your death benefit.

If you allocate contract value to an investment option that has been designated as a Restricted Fund, your ability to transfer contract value to the Restricted Fund may be limited. A transfer to the Restricted Funds will not be permitted to the extent that it would increase the contract value in the Restricted Fund to more than the applicable limits following the transfer. We do not limit transfers from Restricted Funds. If the result of multiple reallocations is to lower the percentage of total contract value in the Restricted Fund, the reallocation will be permitted even if the percentage of contract value in the Restricted Fund is greater than the limit.

Transfers will be based on values at the end of the business day in which the transfer request is received at our Customer Service Center.

The minimum amount that you may transfer is \$100 or, if less, your entire contract value held in a subaccount or a Fixed Interest Allocation. To make a transfer, you must notify our Customer Service Center and all other administrative requirements must be met. Any transfer request received after 4:00 p.m. eastern time or the close of regular trading of the New York Stock Exchange will be effected on the next business day.

Separate Account B and the Company will not be liable for following instructions communicated by telephone or other approved electronic means that we reasonably believe to be genuine. We may require personal identifying information to process a request for transfer made over the telephone, over the Internet or other approved electronic means.

Limits Imposed by Underlying Funds. Most underlying funds have their own excessive trading policies, and orders for the purchase of fund shares are subject to acceptance or rejection by the underlying fund. We reserve the right to reject, without prior notice, any allocation or transfer to a subaccount if the corresponding fund will not accept the allocation or transfer for any reason.

Limits on Frequent or Disruptive Transfers. The contract is not designed to serve as a vehicle for frequent transfers. Frequent transfer activity can disrupt management of a fund and raise its expenses through:

- Increased trading and transaction costs;
- Forced and unplanned portfolio turnover;
- Lost opportunity costs; and
- Large asset swings that decrease the fund's ability to provide maximum investment return to all contract owners.

This in turn can have an adverse effect on fund performance. **Accordingly, individuals or organizations that use market-timing investment strategies or make frequent transfers should not purchase the contract.**

We have an excessive trading policy and monitor transfer activity. You will violate our excessive trading policy if your transfer activity:

- Exceeds our current definition of excessive trading, as defined below;
- Is identified as problematic by an underlying fund (even if the activity does not exceed our monitoring standard for excessive trading);
- Is determined, in our sole discretion, to be disruptive due to the excessive dollar amounts involved; or
- Is determined, in our sole discretion, to be not in the best interests of other contract owners.

If we determine that you have violated our excessive trading policy we will take the following actions. Upon the first violation, we will send to you a one time warning letter. After a second violation we will suspend your transfer privileges via facsimile, telephone, email and the internet, and your transfer privileges will be limited to submission by regular U.S. mail for a period of six months. Our suspension of your electronic transfer privileges will relate to all transfers, not just those fund(s) involved in the excessive transfer activity, and will extend to other Company variable annuity contracts that you own. It may also be extended to other variable contracts and variable life insurance policies that are issued to you by our affiliates. At the end of the six month suspension period, your electronic transfer privileges will be reinstated. If, however, you violate our excessive trading policy again, after your electronic transfer privileges have been reinstated, we will suspend your electronic transfer privileges permanently. We will notify you in writing if we take any of these actions.

Additionally, if we determine that our excessive trading policy has been violated by a market-timing organization or an individual or other party that is authorized to give transfer instructions on your behalf, whether such violation relates to your contract or to another contract owner's variable contract or policy, we will also take the following actions, without prior notice:

- Not accept transfer instructions from that organization individual or other party; and
- Not accept preauthorized transfer forms from market timing organizations individuals or other parties acting on behalf of more than one contract owner at a time.

Our current definition of excessive trading is more than one purchase and sale of the same underlying fund within a 30-day period. We do not count transfers associated with scheduled dollar cost averaging or automatic rebalancing programs and transfers involving certain de minimis amounts when determining whether transfer activity is excessive.

The Company does not allow exceptions to our excessive trading policy. We reserve the right to modify our excessive trading policy, or the policy as it relates to a particular fund, at any time without prior notice, depending on, among other factors, the needs of the underlying fund(s), the best interests of contract owners and fund investors and/or state or federal regulatory requirements. If we modify our policy, it will be applied uniformly to all contract owners or, as applicable, to all contract owners investing in the underlying fund.

Our excessive trading policy may not be completely successful in preventing market timing or excessive trading activity. If it is not completely successful, fund performance and management may be adversely affected, as noted above.

Dollar Cost Averaging

You may elect to participate in our dollar cost averaging program if you have at least \$1,200 of contract value in the (i) ING Liquid Assets Portfolio subaccount, or (ii) a Fixed Interest Allocation with either a 6-month or a 1-year guaranteed interest period. This subaccount or Fixed Interest Allocations serve as the source accounts from which we will, on a monthly basis, automatically transfer a set dollar amount of money to other subaccounts selected by you. We also may offer DCA Fixed Interest Allocations, which are 6-month and 1-year Fixed Interest Allocations available exclusively for use with the dollar cost averaging program. The DCA Fixed Interest Allocations require a minimum premium payment of \$1,200 directed into a DCA Fixed Interest Allocation. Transfers made pursuant to a dollar cost averaging program do not count toward the 12 transfer limit on free transfers.

The dollar cost averaging program is designed to lessen the impact of market fluctuation on your investment. Since we transfer the same dollar amount to other subaccounts each month, more units of a subaccount are purchased if the value of its unit is low and fewer units are purchased if the value of its unit is high. Therefore, a lower than average value per unit may be achieved over the long term. However, we cannot guarantee this. When you elect the dollar cost averaging program, you are continuously investing in securities regardless of fluctuating price levels. You should consider your tolerance for investing through periods of fluctuating price levels.

Unless you have a DCA Fixed Interest Allocation, you elect the dollar amount you want transferred under this program. Each monthly transfer must be at least \$100. If your source account is the ING Liquid Assets Portfolio subaccount or a 1-year Fixed Interest Allocation, the maximum amount that can be transferred each month is your contract value in such source account divided by 12. If your source account is a 6-month Fixed Interest Allocation, the maximum amount that can be transferred each month is your contract value in such source account divided by 6. You may change the transfer amount once each contract year. If you have a DCA Fixed Interest Allocation, there is no minimum or maximum transfer amount; we will transfer all your money allocated to that source account into the subaccount(s) in equal payments over the selected 6-month or 1-year period. The last payment will include earnings accrued over the course of the selected period. If you make an additional premium payment into a Fixed Interest Allocation subject to dollar cost averaging, the amount of your transfers under the dollar cost averaging program remains the same, unless you instruct us to increase the transfer amount.

Transfers from a Fixed Interest Allocation or a DCA Fixed Interest Allocation under the dollar cost averaging program are not subject to a Market Value Adjustment. However, if you terminate the dollar cost averaging program for a DCA Fixed Interest Allocation and there is money remaining in the DCA Fixed Interest Allocation, we will transfer the remaining money to the ING Liquid Assets Portfolio subaccount. Such transfer will trigger a Market Value Adjustment if the transfer is made more than 30 days before the maturity date of the DCA Fixed Interest Allocation.

If you do not specify the subaccounts to which the dollar amount of the source account is to be transferred, we will transfer the money to the subaccounts in which you are invested on a proportional basis. The transfer date is the same day each month as your contract date. If, on any transfer date, your contract value in a source account is equal to or less than the amount you have elected to have transferred, the entire amount will be transferred and the program will end. You may terminate the dollar cost averaging program at any time by sending satisfactory notice to our Customer Service Center at least 7 days before the next transfer date. A Fixed Interest Allocation or DCA Fixed Interest Allocation may not participate in the dollar cost averaging program and in systematic withdrawals at the same time.

You are permitted to transfer contract value to a Restricted Fund, subject to the limitations described above in this section and in "Appendix B – The Investment Portfolios." Compliance with the individual and aggregate Restricted Fund limits will be reviewed when the dollar cost averaging program is established. Transfers under the dollar cost averaging program must be within those limits. We will not review again your dollar cost averaging election for compliance with the individual and aggregate limits for investment in the Restricted Funds except in the case of the transactions described below.

- Amount added to source account: If you add amounts to the source account which would increase the amount to be transferred under the dollar cost averaging program, we will review the amounts to be transferred to ensure that the individual and aggregate limits are not being exceeded. If such limits would be exceeded, we will require that the dollar cost averaging transfer amounts be changed to ensure that the transfers are within the limits based on the then current allocation of contract value to the Restricted Fund(s) and the then current value of the amount designated to be transferred to that Restricted Fund(s).
- Additional premium paid: Up to the individual Restricted Fund percentage limit may be allocated to a Restricted Fund. If more than the individual limit has been requested to be allocated to a Restricted Fund, we will look at the aggregate limit, subtract the current allocation to Restricted Funds, and subtract the current value of amounts to be transferred under the dollar cost averaging program to Restricted Funds. The excess, if any, is the maximum that may be allocated pro-rata to Restricted Funds.
- Reallocation request is made while the dollar cost averaging program is active: If the reallocation would increase the amount allocated to Restricted Funds, the maximum that may be so allocated is the individual Restricted Fund percentage limit, less the current allocation to Restricted Funds and less the current value of any remaining amounts to be transferred under the dollar cost averaging program to the Restricted Funds.

We may in the future offer additional subaccounts or withdraw any subaccount or Fixed Interest Allocation to or from the dollar cost averaging program, stop offering DCA Fixed Interest Allocations or otherwise modify, suspend or terminate this program. Of course, such changes will not affect any dollar cost averaging programs in operation at the time.

Automatic Rebalancing

If you have at least \$10,000 of contract value invested in the subaccounts of Separate Account B, you may elect to have your investments in the subaccounts automatically rebalanced. Transfers made pursuant to automatic rebalancing do not count toward the 12 transfer limit on free transfers. Automatic rebalancing is not available if you participate in dollar cost averaging. Automatic rebalancing will not take place during the free look period.

You are permitted to reallocate between Restricted and non-Restricted Funds, subject to the limitations described above in this section and in “Appendix B - The Investment Portfolios.” If the reallocation would increase the amount allocated to the Restricted Funds, the maximum that may be so allocated is the individual Restricted Fund percentage limit, less the current allocation to all Restricted Funds.

We will transfer funds under your contract on a quarterly, semi-annual, or annual calendar basis among the subaccounts to maintain the investment blend of your selected subaccounts. The minimum size of any allocation must be in full percentage points. Rebalancing does not affect any amounts that you have allocated to the Fixed Account. The program may be used in conjunction with the systematic withdrawal option only if withdrawals are taken pro-rata.

To participate in automatic rebalancing, send satisfactory notice to our Customer Service Center. We will begin the program on the last business day of the period in which we receive the notice. You may cancel the program at any time. The program will automatically terminate if you choose to reallocate your contract value among the subaccounts or if you make an additional premium payment or partial withdrawal on other than a pro-rata basis. Additional premium payments and partial withdrawals effected on a pro-rata basis will not cause the automatic rebalancing program to terminate.

DEATH BENEFIT CHOICES

Death Benefit during the Accumulation Phase

During the accumulation phase, a death benefit is payable when either the contract owner or the annuitant (when a contract owner is not an individual) dies. Assuming you are the contract owner, your beneficiary will receive a death benefit unless the beneficiary is your surviving spouse and elects to continue the contract. The death benefit paid depends on the option package you have chosen. The death benefit value is calculated as of the claim date (the close of the business day on which we receive written notice and due proof of death, as well as any required paperwork, at our Customer Service Center). If your beneficiary elects to delay receipt of the death benefit until a date after the time of death, the amount of the benefit payable in the future may be affected. The proceeds may be received in a single sum or applied to any of the income phase payment options, or, if available, paid over the beneficiary’s lifetime. (See “Systematic Withdrawals” above). A beneficiary’s right to elect an income phase payment option or receive a lump-sum payment may have been restricted by the contract owner. If so, such rights or options will not be available to the beneficiary.

If we do not receive a request to apply the death benefit proceeds to an annuity option, we will make a single sum distribution. Unless you elect otherwise, the distribution will be made into an interest bearing account, backed by our general account that is accessed by the beneficiary through a checkbook feature. The beneficiary may access death benefit proceeds at any time without penalty. Interest paid on this account may be less than interest paid on other settlement options. We will generally distribute death benefit proceeds within 7 calendar days after our Customer Service Center has received sufficient information to make the payment. For information on required distributions under federal income tax laws, you should see “Required Distributions upon Death.”

You may select one of the option packages described below which will determine the death benefit payable. Option Package I is available only if the Contract owner and the annuitant are not more than 85 years old at the time of purchase. Option Packages II and III are available only if the Contract owner and annuitant are not more than 80 years old at the time of purchase. A change in ownership of the contract may affect the amount of the death benefit payable.

The death benefit may be subject to certain mandatory distribution rules required by federal tax law.

The death benefit depends upon the option package in effect on the date the contract owner dies.

The differences are summarized as follows:

	Option Package I	Option Package II	Option Package III
Death Benefit on Death of the Owner:	The greater of: (1) the Standard Death Benefit; and (2) the contract value.	The greatest of: (1) the Standard Death Benefit; and (2) the contract value; and (3) the Annual Ratchet death benefit.	The greatest of: (1) the Standard Death Benefit; and (2) the contract value; and (3) the Annual Ratchet death benefit; and (4) the 5% Roll-Up death benefit.

For purposes of calculating the 5% Rollup Death Benefit, the following investment options are designated as “Special Funds”:

- Fixed Account
- Fixed Interest Division
- ING Liquid Assets Portfolio
- ING Oppenheimer Strategic Income Portfolio
- ING PIMCO Core Bond Portfolio
- ING PIMCO Total Return Portfolio
- ING Solution Income Portfolio
- ING VP Intermediate Bond Portfolio
- PIMCO VIT Real Return Portfolio

No investment options are currently designated as Excluded Funds. The death benefit for Excluded Funds is the contract value allocated to Excluded Funds and is tracked for transfer purposes only.

We may, with 30 days notice to you, designate any investment portfolio as a Special or Excluded Fund on existing contracts with respect to new premiums added to such investment portfolio, with respect to new transfers to such investment portfolio and with respect to the death benefits to which such designation applies. Selecting a Special or Excluded Fund may limit or reduce the death benefit.

For the period during which a portion of the contract value is allocated to a Special or Excluded Fund, we may at our discretion reduce the mortality and expense risk charge attributable to that portion of the contract value. The reduced mortality and expense risk charge will be applicable only during that period.

We use the Base Death Benefit to help determine the minimum death benefit payable under each of the death benefits described below. You do not elect the Base Death Benefit. The Base Death Benefit is equal to the greater of:

- 1) the contract value; or
- 2) the cash surrender value.

The **Standard Death Benefit** equals the **greater** of the Base Death Benefit or the **sum** of 1) and 2),:

- 1) the contract value allocated to Excluded Funds; and
- 2) the Standard Minimum Guaranteed Death Benefit for amounts allocated to Covered or Special Funds.

The Standard Minimum Guaranteed Death Benefit equals:

- 1) premium payments allocated to Covered, Special and Excluded Funds, respectively;
- 2) reduced by a pro-rata adjustment for any withdrawal or transfer taken from Covered, Special and Excluded Funds, respectively.

In the event of transfers from Excluded to Covered or Special Funds, the increase in the Minimum Guaranteed Death Benefit for Covered Funds and/or Special Funds will equal the lesser of the reduction in the Minimum Guaranteed Death Benefit for Excluded Funds and the contract value transferred. In the event of transfers from Covered or Special Funds to Excluded Funds, the increase in the Minimum Guaranteed Death Benefit for Excluded Funds will equal the reduction in the Minimum Guaranteed Death Benefit for Covered or Special Funds.

Currently, no investment options are designated as Special Funds for purposes of calculating the Standard Death Benefit.

The **5% Roll-Up Death Benefit**, equals the **greater** of:

- 1) the Standard Death Benefit; or
- 2) the sum of the contract value allocated to Excluded Funds and the 5% Roll-Up Minimum Guaranteed Death Benefit for Covered Funds and Special Funds.

The 5% Roll-Up Minimum Guaranteed Death Benefit for Covered Funds, Special Funds and Excluded Funds equals the lesser of:

- 1) premiums, adjusted for withdrawals and transfers, accumulated at 5% on a daily basis for Covered Funds or Excluded Funds and 0% for Special Funds until the earlier of attainment of age 90 or reaching the cap (equal to 3 times all premium payments, as reduced by adjustments for withdrawals) and thereafter at 0%, or
- 2) the cap.

A pro-rata adjustment to the 5% Roll-Up Minimum Guaranteed Death Benefit is made for any withdrawals. The amount of the pro-rata adjustment for withdrawals will equal (a) divided by (b) times (c): where (a) is the contract value of the withdrawal; (b) is the contract value immediately prior to the withdrawal; and (c) is the 5% Roll-Up Minimum Guaranteed Death Benefit for Covered, Special and Excluded Funds, respectively, immediately prior to the withdrawal.

Transfers from Excluded to Covered or Special Funds will reduce the 5% Roll-Up Minimum Guaranteed Death Benefit for Excluded Funds on a pro-rata basis. The resulting increase in the 5% Roll-Up Minimum Guaranteed Death Benefit for Covered or Special Funds will equal the lesser of the reduction in the 5% Roll-Up Minimum Guaranteed Death Benefit for Excluded Funds and the contract value transferred. Transfers from Covered or Special Funds to Excluded Funds will reduce the 5% Roll-Up Minimum Guaranteed Death Benefit for Covered or Special Funds on a pro-rata basis. The resulting increase in the 5% Roll-Up Minimum Guaranteed Death Benefit for Excluded Funds will equal the reduction in the 5% Roll-Up Minimum Guaranteed Death Benefit for Covered or Special Funds, respectively.

Transfers from Special to Covered Funds will reduce the 5% Roll-Up Minimum Guaranteed Death Benefit for Special Funds on a pro-rata basis. The resulting increase in the 5% Roll-Up Minimum Guaranteed Death Benefit for Covered Funds will equal the reduction in the 5% Roll-Up Minimum Guaranteed Death Benefit for Special Funds.

Transfers from Covered to Special Funds will reduce the 5% Roll-Up Minimum Guaranteed Death Benefit for Covered Funds on a pro-rata basis. The resulting increase in the 5% Roll-Up Minimum Guaranteed Death Benefit for Special Funds will equal the reduction in the 5% Roll-Up Minimum Guaranteed Death Benefit for Covered Funds.

The calculation of the cap is not affected by allocation to Covered, Special or Excluded Funds.

The **Annual Ratchet Enhanced Death Benefit** equals the **greater** of:

- 1) the Standard Death Benefit; or
- 2) the sum of the contract value allocated to Excluded Funds and the Annual Ratchet Minimum Guaranteed Death Benefit allocated to Covered or Special Funds.

The Annual Ratchet Minimum Guaranteed Death Benefit equals:

- 1) the initial premium allocated at issue to Covered, Special or Excluded Funds, respectively;
- 2) increased dollar for dollar by any premium allocated after issue to Covered, Special or Excluded Funds, respectively;
- 3) adjusted on each anniversary that occurs on or prior to attainment of age 90 to the greater of the Annual Ratchet Minimum Guaranteed Death Benefit for Covered, Special or Excluded Funds from the prior anniversary (adjusted for new premiums, partial withdrawals and transfers between Covered, Special and Excluded Funds) and the current contract value. A pro-rata adjustment to the Annual Ratchet Minimum Guaranteed Death Benefit is made for any withdrawals. The amount of the pro-rata adjustment for withdrawals will equal (a) divided by (b) times (c): where (a) is the contract value of the withdrawal; (b) is the contract value immediately prior to the withdrawal; and (c) is the Annual Ratchet Minimum Guaranteed Death Benefit for Covered, Special and Excluded Funds, respectively, immediately prior to the withdrawal. Please see Appendix E for examples of the pro-rata withdrawal adjustment for withdrawals.

Transfers from Excluded to Covered or Special Funds will reduce the Annual Ratchet Minimum Guaranteed Death Benefit for Excluded Funds on a pro-rata basis. The resulting increase in the Annual Ratchet Minimum Guaranteed Death Benefit for Covered or Special Funds will equal the lesser of the reduction in the Annual Ratchet Minimum Guaranteed Death Benefit for Excluded Funds and the contract value transferred.

Transfers from Covered or Special Funds to Excluded Funds will reduce the Annual Ratchet Minimum Guaranteed Death Benefit for Covered or Special Funds on a pro-rata basis. The resulting increase in the Annual Ratchet Minimum Guaranteed Death Benefit for Excluded Funds will equal the reduction in the Annual Ratchet Minimum Guaranteed Death Benefit for Covered or Special Funds, respectively.

Currently, no investment options are designated as Special Funds for purposes of calculating the Annual Ratchet Death Benefit.

Examples of how the designation of certain funds as Special Funds affects the calculation of the 5% Roll-up Death Benefit is included in Appendix G to this prospectus.

Transfers Between Option Packages. You may transfer from one option package to another on each contract anniversary. A written request for such transfer must be received at our Customer Service Center within 60 days prior to the contract anniversary. No transfers between option packages are permitted after you attain age 80.

If you transfer from Option I to Option II or Option III, the minimum guaranteed death benefit for Special and Non-Special Funds will equal the contract value for Special and Non-Special Funds, respectively, on the effective date of the transfer. On a transfer to Option Package III, the then current roll-up cap will be allocated to Special and Non-Special Funds in the same percentage as the allocation of contract value on the effective date of the transfer. A change of owner may cause an option package transfer on other than a contract anniversary.

Death Benefit During the Income Phase

If any contract owner or the annuitant dies after the income phase start date, we will pay the beneficiary any certain benefit remaining under the annuity in effect at the time.

Continuation after Death – Spouse

If at the contract owner's death, the surviving spouse of the deceased contract owner is the beneficiary and such surviving spouse elects to continue the contract as his or her own the following will apply:

If the guaranteed death benefit as of the date we receive due proof of death, minus the contract value also on that date, is greater than zero, we will add such difference to the contract value. We will allocate such addition to the variable subaccounts in proportion to the contract value in the subaccounts, unless you direct otherwise. If there is no contract value in any subaccount, the addition will be allocated to the ING Liquid Assets Portfolio subaccount, or its successor. Such addition to contract value will not affect the guaranteed death benefit. If the guaranteed death benefit is less than or equal to the contract value, the contract value will not change.

The death benefits under each of the available options will continue based on the surviving spouse's age on the date that ownership changes. At subsequent surrender, any surrender charge applicable to premiums paid prior to the date we receive due proof of death of the contract owner will be waived. Any premiums paid later will be subject to any applicable surrender charge.

Any addition to contract value, as described above, is available only to the spouse of the owner as of the date of death of the owner if such spouse under the provisions of the contract elects to continue the contract as his or her own.

Continuation after Death - Non Spouse

If the beneficiary is not the spouse of the owner, the contract may continue in force subject to the required distribution rules of the Code.

If the guaranteed death benefit as of the date we receive due proof of death, minus the contract value also on that date, is greater than zero, we will add such difference to the contract value. We will allocate such addition to the variable subaccounts in proportion to the contract value in the subaccounts, unless you direct otherwise. If there is no contract value in any subaccount, the addition will be allocated to the ING Liquid Assets Portfolio subaccount, or its successor.

The death benefit will then terminate. At subsequent surrender, any surrender charge applicable to premiums paid prior to the date we receive due proof of death of the contract owner will be waived. No additional premium payments may be made.

Required Distributions Upon Contract Owner's Death

We will not allow any payment of benefits provided under a non-qualified contract which do not satisfy the requirements of Section 72(s) of the Code.

If any contract owner of a non-qualified contract dies before the income phase payment start date, the death benefit payable to the beneficiary (calculated as described under "Death Benefit Choices" in this prospectus) will be distributed as follows: (a) the death benefit must be completely distributed within 5 years of the contract owner's date of death; or (b) the beneficiary may elect, within the 1-year period after the contract owner's date of death, to receive the death benefit in the form of an annuity from us, provided that (i) such annuity is distributed in substantially equal installments over the life of such beneficiary or over a period not extending beyond the life expectancy of such beneficiary; and (ii) such distributions begin not later than 1 year after the contract owner's date of death.

Notwithstanding (a) and (b) above, if the sole contract owner's beneficiary is the deceased owner's surviving spouse, then such spouse may elect to continue the contract under the same terms as before the contract owner's death. Upon receipt of such election from the spouse at our Customer Service Center: (1) all rights of the spouse as contract owner's beneficiary under the contract in effect prior to such election will cease; (2) the spouse will become the owner of the contract and will also be treated as the contingent annuitant, if none has been named and only if the deceased owner was the annuitant; and (3) all rights and privileges granted by the contract or allowed by the Company will belong to the spouse as contract owner of the contract. This election will be deemed to have been made by the spouse if such spouse makes a premium payment to the contract or fails to make a timely election as described in this paragraph. If the owner's beneficiary is a non-spouse, the distribution provisions described in subparagraphs (a) and (b) above, will apply even if the annuitant and/or contingent annuitant are alive at the time of the contract owner's death.

Subject to availability, and our then current rules, a spousal or non-spousal beneficiary may elect to receive death benefits as payments over the life expectancy of the beneficiary ("stretch"). "Stretch" payments will be subject to the same limitations as

systematic withdrawals, and non-qualified “stretch” payments will be reported on the same basis as other systematic withdrawals.

If we do not receive an election from a non-spouse owner’s beneficiary within the 1-year period after the contract owner’s date of death, then we will pay the death benefit to the owner’s beneficiary in a cash payment within five years from date of death. We will determine the death benefit as of the date we receive proof of death. We will make payment of the proceeds on or before the end of the 5-year period starting on the owner’s date of death. Such cash payment will be in full settlement of all our liability under the contract.

If a contract owner dies after the income phase payment start date, we will continue to distribute any benefit payable at least as rapidly as under the annuity option then in effect. All of the contract owner’s rights granted under the contract or allowed by us will pass to the contract owner’s beneficiary.

If a contract has joint owners we will consider the date of death of the first joint owner as the death of the contract owner and the surviving joint owner will become the beneficiary of the contract. If any contract owner is not an individual, the death of an annuitant shall be treated as the death of the owner.

THE INCOME PHASE

During the income phase, you stop contributing dollars to your contract and start receiving payments from your accumulated contract value.

Initiating Payments. At least 30 days prior to the date you want to start receiving payments, you must notify us in writing of all of the following:

- Payment start date;
- Income phase payment option (see the income phase payment options table in this section);
- Payment frequency (i.e., monthly, quarterly, semi-annually or annually);
- Choice of fixed, and, if available at the time an income phase payment option is selected, variable or a combination of both fixed and variable payments; and
- Selection of an assumed net investment rate (only if variable payments are elected).

Your contract will continue in the accumulation phase until you properly start income phase payments. Once an income phase payment option is selected, it may not be changed. Our current annuity options provide only for fixed payments.

What Affects Payment Amounts? Some of the factors that may affect the amount of your income phase payments include: your age; gender; contract value; the income phase payment option selected; the number of guaranteed payments (if any) selected; whether you select fixed, variable or a combination of both fixed and variable payments; and, for variable payments, the assumed net investment rate selected. Variable payments are not currently available.

Fixed Payments. Amounts funding fixed income phase payments will be held in the Company’s general account. The amount of fixed payments does not vary with investment performance over time.

Variable Payments. Amounts funding your variable income phase payments will be held in the subaccount(s) you select. Not all subaccounts available during the accumulation phase may be available during the income phase. Payment amounts will vary depending upon the performance of the subaccounts you select. For variable income phase payments, you must select an assumed net investment rate. Variable payments are not currently available.

Assumed Net Investment Rate. If you select variable income phase payments, you must also select an assumed net investment rate of either 6%, 5% or 3.5%. If you select a 6% rate, for example, your first income phase payment will be higher, but subsequent payments will increase only if the investment performance of the subaccounts you selected is greater than 6% annually, after deduction of fees. Payment amounts will decline if the investment performance is less than 6%, after deduction of fees.

If you select a 3.5% rate, for example, your first income phase payment will be lower and subsequent payments will increase more rapidly or decline more slowly depending upon changes to the net investment rate of the subaccounts you selected. For more information about selecting an assumed net investment rate, call us for a copy of the SAI.

Minimum Payment Amounts. The income phase payment option you select must result in:

- A first income phase payment of at least \$50; and
- Total yearly income phase payments of at least \$250.

If your contract value is too low to meet these minimum payment amounts, you will receive one lump-sum payment. Unless prohibited by law, we reserve the right to increase the minimum payment amount based on increases reflected in the Consumer Price Index-Urban (CPI-U) since July 1, 1993.

Restrictions on Start Dates and the Duration of Payments. Income phase payments may not begin during the first contract year, or, unless we consent, later than the later of:

- The first day of the month following the annuitant's 90th birthday; or
- The tenth anniversary of the last premium payment made to your contract.

Income phase payments will not begin until you have selected an income phase payment option. Surrender charges may apply if income phase payments begin within the first five contract years. Failure to select an income phase payment option by the later of the annuitant's 90th birthday or the tenth anniversary of your last premium payment may have adverse tax consequences. You should consult with a qualified tax adviser if you are considering delaying the selection of an income phase payment option before the later of these dates.

Income phase payments may not extend beyond:

- a) The life of the annuitant;
- b) The joint lives of the annuitant and beneficiary;
- c) A guaranteed period greater than the annuitant's life expectancy; or
- d) A guaranteed period greater than the joint life expectancies of the annuitant and beneficiary.

When income phase payments start, the age of the annuitant plus the number of years for which payments are guaranteed may not exceed 100.

If income phase payments start when the annuitant is at an advanced age, such as over 85, it is possible that the contract will not be considered an annuity for federal tax purposes.

See "**Federal Tax Considerations**" for further discussion of rules relating to income phase payments.

Charges Deducted

- If variable income phase payments are selected, we make a daily deduction for mortality and expense risks from amounts held in the subaccounts. Therefore, if you choose variable income phase payments and a nonlifetime income phase payment option, we still make this deduction from the subaccounts you select, even though we no longer assume any mortality risks. The amount of this charge, on an annual basis, is equal to 1.50% of amounts invested in the subaccounts. See "Fees and Expenses."
- There is currently no administrative expense charge during the income phase. We reserve the right, however, to charge an administrative expense charge of up to 0.15% during the income phase. If imposed, we deduct this charge daily from the subaccounts corresponding to the funds you select. If we are imposing this charge when you enter the income phase, the charge will apply to you during the entire income phase. See "Fees and Expenses."

Death Benefit during the Income Phase. The death benefits that may be available to a beneficiary are outlined in the income phase payment options table below. If we do not receive a request to apply the death benefit proceeds to an annuity option, we will make a single sum distribution. Unless you elect otherwise, the distribution will be made into an interest bearing account, backed by our general account, that is accessed by the beneficiary through a checkbook feature. The beneficiary may access death benefit proceeds at any time without penalty. Interest paid on this account may be less than interest paid on other settlement options. We will generally distribute death benefit proceeds within 7 days after our Customer Service Center has received sufficient information to make the payment.

If continuing income phase payments are elected, the beneficiary may not elect to receive a lump sum at a future date unless the income phase payment option specifically allows a withdrawal right. We will calculate the value of any death benefit at the next valuation after we receive proof of death and a request for payment. Such value will be reduced by any payments made after the date of death.

Beneficiary Rights. A beneficiary's right to elect an income phase payment option or receive a lump-sum payment may have been restricted by the contract owner. If so, such rights or options will not be available to the beneficiary.

Partial Entry into the Income Phase. You may elect an income phase payment option for a portion of your contract value, while leaving the remaining portion invested in the accumulation phase. Whether the Code considers such payments taxable as income phase payments or as withdrawals is currently unclear; therefore, you should consult with a qualified tax adviser before electing this option. The same or different income phase payment option may be selected for the portion left invested in the accumulation phase.

Taxation. To avoid certain tax penalties, you or your beneficiary must meet the distribution rules imposed by the Code. Additionally, when selecting an income phase payment option, the Code requires that your expected payments will not exceed certain durations. See "Federal Tax Considerations".

Payment Options

The following table lists the income phase payment options and accompanying death benefits available during the income phase. We may offer additional income phase payment options under the contract from time to time. Once income phase payments begin, the income phase payment option selected may not be changed.

Terms to understand:

Annuitant(s): The person(s) on whose life expectancy(ies) the income phase payments are based.

Beneficiary(ies): The person(s) or entity(ies) entitled to receive a death benefit, if any, under the income phase payment option selected.

Lifetime Income Phase Payment Options	
Life Income	<p>Length of Payments: For as long as the annuitant lives. It is possible that only one payment will be made if the annuitant dies prior to the second payment's due date.</p> <p>Death Benefit-None: All payments end upon the annuitant's death.</p>
Life Income-Guaranteed Payments*	<p>Length of Payments: For as long as the annuitant lives, with payments guaranteed for your choice of 5 to 30 years or as otherwise specified in the contract.</p> <p>Death Benefit-Payment to the Beneficiary: If the annuitant dies before we have made all the guaranteed payments, we will continue to pay the beneficiary the remaining payments.</p>
Life Income-Two Lives	<p>Length of Payments: For as long as either annuitant lives. It is possible that only one payment will be made if both annuitants die before the second payment's due date.</p> <p>Continuing Payments: When you select this option you choose for:</p> <p>a) 100%, 66 2/3% or 50% of the payment to continue to the surviving annuitant after the first death; or</p> <p>b) 100% of the payment to continue to the annuitant on the second annuitant's death, and 50% of the payment to continue to the second annuitant on the annuitant's death.</p> <p>Death Benefit-None: All payments end upon the death of both annuitants.</p>
Life Income-Two Lives Guaranteed Payments*	<p>Length of Payments: For as long as either annuitant lives, with payments guaranteed from 5 to 30 years or as otherwise specified in the contract.</p> <p>Continuing Payments: 100% of the payment to continue to the surviving annuitant after the first death.</p> <p>Death Benefit-Payment to the Beneficiary: If both annuitants die before we have made all the guaranteed payments, we will continue to pay the beneficiary the remaining payments.</p>

Lifetime Income Phase Payment Options	
Life Income- Cash Refund Option (limited availability-fixed payments only)	Length of Payments: For as long as the annuitant lives. Death Benefit-Payment to the Beneficiary: Following the annuitant's death, we will pay a lump sum payment equal to the amount originally applied to the income phase payment option (less any applicable premium tax) and less the total amount of income payments paid.
Life Income-Two Lives-Cash Refund Option (limited availability-fixed payments only)	Length of Payments: For as long as either annuitant lives. Continuing Payments: 100% of the payment to continue after the first death. Death Benefit-Payment to the Beneficiary: When both annuitants die we will pay a lump-sum payment equal to the amount applied to the income phase payment option (less any applicable premium tax) and less the total amount of income payments paid.
Nonlifetime Income Phase Payment Option	
Nonlifetime-Guaranteed Payments*	Length of Payments: You may select payments for 5 to 30 years. In certain cases a lump-sum payment may be requested at any time (see below). Death Benefit-Payment to the Beneficiary: If the annuitant dies before we make all the guaranteed payments, we will continue to pay the beneficiary the remaining payments.
Lump-Sum Payment: If the "Nonlifetime-Guaranteed Payments" option is elected with variable payments, you may request at any time that all or a portion of the present value of the remaining payments be paid in one lump sum. Any such lump-sum payments will be treated as a withdrawal during the accumulation phase and we will charge any applicable surrender charge. Lump-sum payments will be sent within seven calendar days after we receive the request for payment in good order at our Customer Service Center.	
*Guaranteed period payments may not extend beyond the shorter of your life expectancy or until your age 95.	

OTHER CONTRACT PROVISIONS

Reports to Contract Owners

We will send you a quarterly report within 31 days after the end of each calendar quarter. The report will show the contract value, cash surrender value, and the death benefit as of the end of the calendar quarter. The report will also show the allocation of your contract value and reflects the amounts deducted from or added to the contract value since the last report. You have 30 days to notify our Customer Service Center of any errors or discrepancies contained in the report or in any confirmation notices. We will also send you copies of any shareholder reports of the investment portfolios in which Separate Account B invests, as well as any other reports, notices or documents we are required by law to furnish to you.

Suspension of Payments

The Company reserves the right to suspend or postpone the date of any payment or determination of values on any business day; (1) when the New York Stock Exchange is closed; (2) when trading on the New York Stock Exchange is restricted; (3) when an emergency exists as determined by the SEC so that the sale of securities held in Separate Account B may not reasonably occur or so that the Company may not reasonably determine the value of Separate Account B's net assets; or (4) during any other period when the SEC so permits for the protection of security holders. We have the right to delay payment of amounts from a Fixed Interest Allocation for up to 6 months.

In Case of Errors in Your Application

If an age or gender given in the application or enrollment form is misstated, the amounts payable or benefits provided by the contract shall be those that the premium payment would have bought at the correct age or sex.

Contract Changes - Applicable Tax Law

We have the right to make changes in the contract to continue to qualify the contract as an annuity under applicable federal tax law. You will be given advance notice of such changes.

Free Look

If you cancel your contract within 7 days after you receive it, we will return your premium payment. You may cancel your contract within your 10-day free look period. We deem the free look period to expire 15 days after we mail the contract to you. Some states may require a longer free look period. To cancel, you need to send your contract to our Customer Service Center or to the agent from whom you purchased it. We will refund the contract value. For purposes of the refund during the free look

period, (i) we adjust your contract value for any Market Value Adjustment (if you have invested in the Fixed Account), and (ii) then we include a refund of any charges deducted from your contract value. Because of the market risks associated with investing in the portfolios and the potential positive or negative effect of the market value adjustment, the contract value returned may be greater or less than the premium payment you paid. In the case of IRA's cancelled within 7 days of receipt of the contract and in some states, we are required to return to you the amount of the paid premium (rather than the contract value) in which case you will not be subject to investment risk during the free look period. In these circumstances, your premiums designated for investment in the subaccounts may be allocated during the free look period to a subaccount specially designated by the Company for this purpose (currently, the ING Liquid Assets Portfolio subaccount). We may, in our discretion, require that premiums designated for investment in the subaccounts from all other states as well as premiums designated for a Fixed Interest Allocation be allocated to the specially designated subaccount during the free look period. Your free look rights depend on the laws of the state in which you purchase your contract. Your contract is void as of the day we receive your contract and cancellation request. We determine your contract value at the close of business on the day we receive your written request. If you keep your contract after the free look period and the investment is allocated to a subaccount specially designated by the Company, we will put your money in the subaccount(s) chosen by you, based on the accumulation unit value next computed for each subaccount, and/or in the Fixed Interest Allocation chosen by you.

Special Arrangements

We may reduce or waive any contract, rider, or benefit fees or charges for certain group or sponsored arrangements, under special programs, and for certain employees, agents, and related persons of our parent corporation and its affiliates. We reduce or waive these items based on expected economies, and the variations are based on differences in costs or services.

CONTRACT DISTRIBUTION

Selling the Contract

Our affiliate, Directed Services, Inc. ("DSI"), 1475 Dunwoody Drive, West Chester, PA 19380 is the principal underwriter and distributor of the contract as well as for other Company contracts. DSI, a New York corporation, is registered with the SEC as a broker-dealer under the Securities Exchange Act of 1934, and is a member of the National Association of Securities Dealers, Inc. ("NASD").

DSI does not retain any commissions or compensation paid to it by the Company for contract sales. DSI enters into selling agreements with affiliated and unaffiliated broker-dealers to sell the contracts through their registered representatives who are licensed to sell securities and variable insurance products ("selling firms"). Selling firms are also registered with the SEC and are NASD member firms.

DSI pays selling firms compensation for the promotion and sale of the contracts. Registered representatives of the selling firms who solicit sales of the contracts typically receive a portion of the compensation paid by DSI to the selling firm in the form of commissions or other compensation, depending on the agreement between the selling firm and the registered representative. This compensation, as well as other incentives or payments, is not paid directly by contract owners or the Separate Account. We intend to recoup this compensation and other sales expenses paid to selling firms through fees and charges imposed under the contracts.

DSI pays selling firms for contract sales according to one or more schedules. This compensation is generally based on a percentage of premium payments. Selling firms may receive commissions of up to 7.0% of premium payments. In addition, selling firms may receive ongoing annual compensation of up to 0.55% of all, or a portion, of values of contracts sold through the firm. Individual representatives may receive all or a portion of compensation paid to their selling firm, depending on the firm's practices. Commissions and annual compensation, when combined, could exceed 7.0% of total premium payments. To the extent permitted by SEC and NASD rules and other applicable laws and regulations, DSI may pay or allow other promotional incentives or payments in the form of cash or other compensation to selling firms.

Some sales personnel may receive various types of non-cash compensation as special sales incentives, including trips, and we may also pay for some sales personnel to attend educational and/or business seminars. Any such compensation will be paid in accordance with SEC and NASD rules. Management personnel of the Company, and of its affiliated broker-dealers, may receive additional compensation if the overall amount of investments in funds advised by the Company or its affiliates meets certain target levels or increases over time. Compensation for certain management personnel, including sales management personnel, may be enhanced if the overall amount of investments in the contracts and other products issued or advised by the Company or its affiliates increases over time. Certain sales management personnel may also receive compensation that is a specific percentage of the commissions paid to distributors or of purchase payments received under the contracts.

DSI has special compensation arrangements with certain selling firms based on those firms' aggregate or anticipated sales of the contracts or other criteria. These special compensation arrangements will not be offered to all selling firms, and the terms of such arrangements may differ among selling firms based on various factors. Any such compensation payable to a selling firm will not result in any additional direct charge to you by us.

In addition to the direct cash compensation for sales of contracts described above, DSI may also pay selling firms additional compensation or reimbursement for their efforts in selling contracts to you and other customers, including for, among other things, training of sales personnel, marketing or other sales-related services they provide to us or our affiliates. This compensation or reimbursement may take the form of:

- Marketing allowances;
- Education and training allowances to facilitate our attendance at certain educational and training meetings to provide information and training about our products, including holding training programs at our expense;
- Payment or reimbursement of attendance by registered representatives at training or education meetings sponsored by the selling firm or by us, as permitted by NASD Rules; and
- Contribution to the cost of meetings held by affiliated or unaffiliated selling firms, as permitted by NASD Rules.

The following is a list of the top 25 selling firms that, during 2005, received the largest dollar amounts, in the aggregate, from DSI in connection with the sale of annuity contracts, ranked by total dollars received:

- | | |
|--|--|
| 1) Morgan Stanley DW Inc. | 14) Investors Capital Corp. |
| 2) UBS Financial Services, Inc. | 15) PrimeVest Financial Services, Inc. |
| 3) Linsco/Private Ledger Corp. | 16) Centaurus Financial, Inc. |
| 4) Citigroup Global Markets, Inc. | 17) McDonald Investments Inc. |
| 5) Wachovia Securities LLC | 18) RBC Dain Rauscher Inc. |
| 6) Wells Fargo Investments, LLC | 19) Commonwealth Financial Network |
| 7) Planning Corporation of America | 20) Mutual Service Corporation |
| 8) National Planning Corporation | 21) Lincoln Financial Advisors Corporation |
| 9) Merrill Lynch, Pierce, Fenner, & Smith Incorporated | 22) NFP Securities, Inc. |
| 10) ING Financial Partners | 23) Compass Brokerage, Inc. |
| 11) A. G. Edwards & Sons, Inc. | 24) Citicorp Investment Services |
| 12) Financial Network Investment Corporation | 25) Securities America, Inc. |
| 13) ING Financial Advisors, LLC | |

DSI may also compensate wholesalers/distributors, and their sales management personnel, for contract sales within the wholesale/distribution channel. This compensation may be based on a percentage of premium payments and/or a percentage of contract values. DSI may, at its discretion, pay additional cash compensation to wholesalers/distributors for sales by certain broker-dealers or "focus firms."

Affiliated selling firms may include Bancnorth Investment Group, Inc. Financial Network Investment Corporation, Guaranty Brokerage Services, Inc., ING America Equities, Inc., ING Direct Funds Limited, ING DIRECT Securities, Inc., ING Financial Advisers, LLC, ING Financial Markets, LLC, ING Financial Partners, Inc., ING Funds Distributor, LLC, ING Investment Management Services, LLC, Multi-Financial Securities Corporation, PrimeVest Financial Services, Inc. and Systematized Benefits Administrators, Inc.

We do not pay any additional compensation on the sale or exercise of any of the contract's optional benefit riders offered in this prospectus.

This is a general discussion of the types and levels of compensation paid by us for sales of annuity contracts. Although some firms receive more compensation from us than others because of their volume of sales, you pay the same amount to purchase contracts regardless of which selling firm or registered representative sells you the contract. Nevertheless, it is important for you to know that the payment of volume-based compensation to a selling firm or registered representative may provide that registered representative a financial incentive to promote our contracts over those of another company.

OTHER INFORMATION

Loans. We do not currently permit loans under Section 403(b) contracts that are subject to the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). Loans may be available if you purchased your contract in connection with a non-ERISA 403(b) plan. If your contract was issued in connection with a 403(b) plan and the terms of your plan permit, you may take a loan from us, using your surrender value as collateral for the loan. Loans are subject to the terms of the contract, your 403(b) plan, the Code and other federal and state regulations. The amount and number of loans outstanding at any one time under your tax-sheltered annuity are limited, whether under our contracts or those of other carriers. Tax-sheltered annuity loans are not available for contracts issued in the Commonwealth of Massachusetts. We may modify the terms of a loan to comply with changes in applicable law. Various mandatory repayment requirements apply to loans, and failure to repay generally will result in income to you and the potential application of tax penalties. We urge you to consult with a qualified tax advisor prior to effecting a loan transaction under your contract. We may apply additional restrictions or limitations on loans, and you must make loan requests in accordance with our administrative practices and loan request procedures in effect at the time you submit your request. Read the terms of the loan agreement before submitting any request. We reserve the right not to grant a loan request if the participant has an outstanding loan in default.

Any outstanding loan balance impacts the following:

- **Withdrawal and Charges:** We determine amounts available for maximum withdrawal amounts, free partial withdrawals, systematic withdrawals and waiver of administrative charges by reducing the otherwise applicable amounts by the amount of any outstanding loan balance.
- **Death Benefits, Annuitization and Surrenders:** We deduct the outstanding loan balance from any amounts otherwise payable and in determining the amount available for annuitization.

The portion of any contract value used to pay off an outstanding loan balance will reduce the ING LifePay Base or Maximum Annual Withdrawal as applicable. We do not recommend the ING LifePay rider if loans are contemplated.

Voting Rights

We will vote the shares of a Trust owned by Separate Account B according to your instructions. However, if the 1940 Act or any related regulations should change, or if interpretations of it or related regulations should change, and we decide that we are permitted to vote the shares of a Trust in our own right, we may decide to do so.

We determine the number of shares that you have in a subaccount by dividing the contract’s contract value in that subaccount by the net asset value of one share of the portfolio in which a subaccount invests. We count fractional votes. We will determine the number of shares you can instruct us to vote 180 days or less before a Trust shareholder meeting. We will ask you for voting instructions by mail at least 10 days before the meeting. If we do not receive your instructions in time, we will vote the shares in the same proportion as the instructions received from all contracts in that subaccount. We will also vote shares we hold in Separate Account B which are not attributable to contract owners in the same proportion.

State Regulation

We are regulated by the Insurance Department of the State of Iowa. We are also subject to the insurance laws and regulations of all jurisdictions where we do business. The variable contract offered by this prospectus has been approved where required by those jurisdictions. We are required to submit annual statements of our operations, including financial statements, to the Insurance Departments of the various jurisdictions in which we do business to determine solvency and compliance with state insurance laws and regulations.

Legal Proceedings

We are not aware of any pending legal proceedings which involve Separate Account B as a party.

The Company is involved in threatened or pending lawsuits/arbitrations arising from the normal conduct of business. Due to the climate in insurance and business litigation/arbitrations, suits against the Company sometimes include claims for substantial compensatory, consequential, or punitive damages and other types of relief. Moreover, certain claims are asserted as class actions, purporting to represent a group of similarly situated individuals. While it is not possible to forecast the outcome of such lawsuits/arbitrations, in light of existing insurance, reinsurance, and established reserves, it is the opinion of management that the disposition of such lawsuits/arbitrations will not have a materially adverse effect on the Company’s operations or financial position.

Directed Services, Inc., the principal underwriter and distributor of the contract, (the “distributor”), is a party to threatened or pending lawsuits/arbitration that generally arise from the normal conduct of business. Some of these suits may seek class action status and sometimes include claims for substantial compensatory, consequential or punitive damages and other types of relief. Directed Services, Inc. is not involved in any legal proceeding which, in the opinion of management, is likely to have a material adverse effect on its ability to distribute the contract.

FEDERAL TAX CONSIDERATIONS

Introduction

This section discusses our understanding of current federal income tax laws affecting the contracts. You should keep the following in mind when reading it:

- Your tax position (or the tax position of the designated beneficiary, as applicable) determines federal taxation of amounts held or paid out under the contracts;
- Tax laws change. It is possible that a change in the future could affect contracts issued in the past;
- This section addresses federal income tax rules and does not discuss federal estate and gift tax implications, state and local taxes or any other tax provisions; and
- We do not make any guarantee about the tax treatment of the contract or any transaction involving the contracts.

We do not intend this information to be tax advice. For advice about the effect of federal income taxes or any other taxes on amounts held or paid out under the contracts, consult a tax adviser. No attempt is made to provide more than general information about the use of the contracts with tax qualified retirement arrangements. For more comprehensive information contact the Internal Revenue Service (IRS).

Types of Contracts: Non-qualified or Qualified

The contracts may be purchased on a non-tax-qualified basis (non-qualified contracts) or on a tax-qualified basis (qualified contracts). Non-qualified contracts are purchased with after-tax contributions and are not related to retirement plans or programs that receive special income tax treatment under the Tax Code.

Qualified contracts are designed for use by individuals whose premium payments are comprised solely of proceeds from and/or contributions under retirement plans or programs intended to qualify for special income tax treatment under Tax Code section 403(b), 408 or 408A of the Tax Code.

Taxation of Non-qualified Contracts

Taxation of Gains Prior to Distribution

Tax Code section 72 governs taxation of annuities in general. We believe that if you are a natural person you will generally not be taxed on increases in the value of a non-qualified contract until a distribution occurs or until income phase payments begin. This assumes that the contracts will qualify as annuity contracts for federal income tax purposes. In order to receive deferral of taxation, the requirements listed below must be satisfied.

Investor Control. Although earnings under the contracts are generally not taxed until withdrawn, the IRS has stated in published rulings that a variable contract owner will be considered the owner of separate account assets if the contract owner possesses incidents of investment control over the assets. In these circumstances income and gains from the separate account assets would be currently includible in the variable contract owner’s gross income. Future guidance regarding the extent to which contract owners can direct their investments among subaccounts without being treated as owners of the underlying assets of the separate account may adversely affect the tax treatment of existing contracts. The Company therefore reserves the right to modify the contracts as necessary to attempt to prevent the contract owner from being considered the federal tax owner of a pro rata share of the assets of the separate account.

Required Distributions. In order to be treated as an annuity contract for federal income tax purposes, the Tax Code requires any non-qualified contract to contain certain provisions specifying how your interest in the contract will be distributed in the event of your death. The non-qualified contracts contain provisions that are intended to comply with these Tax Code requirements although no regulations interpreting these requirements have yet been issued. We intend to review such

distribution provisions and modify them if necessary to assure that they comply with the applicable requirements when such requirements are clarified by regulation or otherwise.

Non-Natural Holders of a Non-qualified Contract. If you are not a natural person, a non-qualified contract generally is not treated as an annuity for income tax purposes and the income on the contract for the taxable year is currently taxable as ordinary income. Income on the contract is any increase over the year in the withdrawal value, adjusted for purchase payments made during the year, amounts previously distributed and amounts previously included in income. There are some exceptions to this rule and a non-natural person should consult with its tax adviser prior to purchasing the contract. A non-natural person exempt from federal income taxes should consult with its tax adviser regarding treatment of income on the contract for purposes of the unrelated business income tax. When the contract owner is not a natural person, a change in annuitant is treated as the death of the contract owner.

Delayed Income Phase Start Date. If the contract's income phase start date occurs (or is scheduled to occur) at a time when the annuitant has reached an advanced age (e.g. age 85), it is possible that the contract would not be treated as an annuity for federal income tax purposes. In that event, the income and gains under the contract could be currently includible in your income.

Diversification. Internal Revenue Code Section 817(h) requires investments within a separate account to be adequately diversified. The Treasury has issued regulations which set the standards for measuring the adequacy of any diversification, and the Internal Revenue Service has published various revenue rulings and private letter rulings addressing diversification issues. To be adequately diversified, each subaccount and its corresponding fund must meet certain tests. If these tests are not met, you would then be subject to federal income tax on income under your contract as you earn it. Each subaccount's corresponding fund has represented that it will meet the diversification standards that apply to your contract. Accordingly, we believe it is reasonable to conclude that the diversification requirements have been satisfied. If it is determined, however, that your contract does not satisfy the applicable diversification regulations and rulings because a subaccount's corresponding fund fails to be adequately diversified for whatever reason, we will take appropriate and reasonable steps to bring your contract into compliance with such regulations and rulings, and we reserve the right to modify your contract as necessary in order to do so.

Taxation of Distributions

General. When a withdrawal from a non-qualified contract occurs, the amount received will be treated as ordinary income subject to tax up to an amount equal to the excess (if any) of the contract value (unreduced by the amount of any early withdrawal charge) immediately before the distribution over the contract owner's investment in the contract at that time. Investment in the contract is generally equal to the amount of all contributions to the contract, plus amounts previously included in your gross income as the result of certain loans, assignments or gifts, less the aggregate amount of non-taxable distributions previously made.

In the case of a full withdrawal from a non-qualified contract, the amount received generally will be taxable only to the extent it exceeds the contract owner's cost basis in the contract.

10% Penalty. A 10% penalty tax applies to the taxable portion of a distribution from a non-qualified deferred annuity contract unless certain exceptions apply, including one or more of the following:

- a) You have attained age 59½;
- b) You have become disabled as defined in the Tax Code;
- c) You (or the annuitant if the contract owner is a non-natural person) have died;
- d) The distribution is made in substantially equal periodic payments (at least annually) over your life or life expectancy or the joint lives or joint life expectancies of you and your designated beneficiary; or
- e) The distribution is allocable to investment in the contract before August 14, 1982.

The 10% penalty does not apply to distributions from an immediate annuity as defined in the Tax Code. Other exceptions may be applicable under certain circumstances and special rules may be applicable in connection with the exceptions enumerated above. A tax adviser should be consulted with regard to exceptions from the penalty tax.

Tax-Free Exchanges. Section 1035 of the Tax Code permits the exchange of a life insurance, endowment or annuity contract for an annuity contract on a tax-free basis. In such instance, the "investment in the contract" in the old contract will carry over to the new contract. You should consult with your tax advisor regarding procedures for making 1035 exchanges.

If your contract is purchased through a tax-free exchange of a life insurance, endowment or annuity contract that was purchased prior to August 14, 1982, any distributions other than income phase payments will be treated, for tax purposes, as coming:

- First, from any remaining “investment in the contract” made prior to August 14, 1982 and exchange into the contract;
- Next, from any “income on the contract” attributable to the investment made prior to August 14, 1982;
- Then, from any remaining “income on the contract”; and
- Lastly, from any remaining “investment in the contract.”

The IRS has concluded that in certain instances, the partial exchange of a portion of one annuity contract for another contract will be tax-free. However, the IRS has reserved the right to treat transactions it considers abusive as ineligible for favorable partial 1035 tax-free exchange treatment. It is not certain whether the IRS would treat an immediate withdrawal or annuitization after a partial exchange as abusive. In addition, it is unclear how the IRS will treat a partial exchange from a life insurance, endowment, or annuity contract directly into an immediate annuity. Currently, we will accept a partial 1035 exchange from a non-qualified annuity into a deferred annuity or an immediate annuity as a tax-free transaction unless we believe that we would be expected to treat the transaction as abusive. We are not responsible for the manner in which any other insurance company, for tax-reporting purposes, or the IRS, with respect to the ultimate tax treatment, recognizes or reports a partial exchange. We strongly advise you to discuss any proposed 1035 exchange with your tax advisor prior to proceeding with the transaction.

Taxation of Income Phase Payments. Although tax consequences may vary depending on the payment option elected under an annuity contract, a portion of each income phase payment is generally not taxed and the remainder is taxed as ordinary income. The non-taxable portion of an income phase payment is generally determined in a manner that is designed to allow you to recover your investment in the contract ratably on a tax-free basis over the expected stream of income phase payments, as determined when income phase payments start. Once your investment in the contract has been fully recovered, however, the full amount of each income phase payment is subject to tax as ordinary income. The tax treatment of partial annuitizations is unclear. We currently treat any partial annuitizations as withdrawals rather than as income phase payments. Please consult your tax adviser before electing partial annuitization.

Death Benefits. Amounts may be distributed from the contract because of your death or the death of the annuitant. Generally, such amounts are includible in the income of the recipient as follows: (i) if distributed in a lump sum, such amounts are taxed in the same manner as a full withdrawal of the contract, or (ii) if distributed under a payment option, such amounts are taxed in the same way as income phase payments. Special rules may apply to amounts distributed after a beneficiary has elected to maintain contract value and receive payments.

Different distribution requirements apply if your death occurs:

- After you begin receiving income phase payments under the contract; or
- Before you begin receiving such distributions.

If your death occurs after you begin receiving income phase payments, distributions must be made at least as rapidly as under the method in effect at the time of your death.

If your death occurs before you begin receiving income phase payments, your entire balance must be distributed within five years after the date of your death. For example, if you died on September 1, 2006, your entire balance must be distributed by August 31, 2011. However, if distributions begin within one year of your death, then payments may be made over one of the following timeframes:

- Over the life of the designated beneficiary; or
- Over a period not extending beyond the life expectancy of the designated beneficiary.

If the designated beneficiary is your spouse, the contract may be continued with the surviving spouse as the new contract owner. If the contract owner is a non-natural person and the primary annuitant dies, the same rules apply on the death of the primary annuitant as outlined above for death of a contract owner.

The contract offers a death benefit that may exceed the greater of the premium payments and the contract value. Certain charges are imposed with respect to the death benefit. It is possible that these charges (or some portion thereof) could be treated for federal tax purposes as a distribution from the contract.

Assignment and Other Transfers. A transfer, pledge, or assignment of ownership of a non-qualified contract, the selection of certain annuity dates, or the designation of an annuitant or payee other than an owner may result in certain tax consequences to you that are not discussed herein. The assignment, pledge or agreement to assign or pledge any portion of the contract value generally will be treated as a distribution. Anyone contemplating any such designation, transfer, assignment, selection or exchange should contact a tax adviser regarding the potential tax effects of such a transaction.

Immediate Annuities. Under Section 72 of the Tax Code, an immediate annuity means an annuity (i) that is purchased with a single premium, (ii) with income phase payments starting within one year of the date of purchase, and (iii) that provides a series of substantially equal periodic payments made annually or more frequently. While this contract is not designed as an immediate annuity, treatment as an immediate annuity would have significance with respect to exceptions from the 10% early withdrawal penalty, to contracts owned by non-natural persons, and for certain exchanges.

Multiple Contracts. Tax laws require that all deferred non-qualified annuity contracts that are issued by a company or its affiliates to the same contract owner during any calendar year be treated as one annuity contract for purposes of determining the amount includible in gross income under Tax Code section 72(e). In addition, the Treasury Department has specific authority to issue regulations that prevent the avoidance of Tax Code section 72(e) through the serial purchase of annuity contracts or otherwise.

Withholding. We will withhold and remit to the IRS a part of the taxable portion of each distribution made under a contract unless the distributee notifies us at or before the time of the distribution that he or she elects not to have any amounts withheld. Withholding is mandatory, however, if the distributee fails to provide a valid taxpayer identification number or if we are notified by the IRS that the taxpayer identification number we have on file is incorrect. The withholding rates applicable to the taxable portion of income phase payments are the same as the withholding rates generally applicable to payments of wages. In addition, a 10% withholding rate applies to the taxable portion of non-periodic payments. Regardless of whether you elect not to have federal income tax withheld, you are still liable for payment of federal income tax on the taxable portion of the payment.

If you or your designated beneficiary is a non-resident alien, then any withholding is governed by Tax Code section 1441 based on the individual's citizenship, the country of domicile and treaty status.

Taxation of Qualified Contracts

General

The contracts are primarily designed for use with Tax Code section 403(b) plans, and as IRAs under Tax Code sections 408 and 408A. (We refer to all of these as "qualified plans"). The tax rules applicable to contract holders in these qualified plans vary according to the type of plan and the terms and conditions of the plan itself. The ultimate effect of federal income taxes on the amounts held under a contract, or on income phase payments, depends on the type of retirement plan or program, the tax and employment status of the individual concerned, and on your tax status. Special favorable tax treatment may be available for certain types of contributions and distributions. In addition, certain requirements must be satisfied in purchasing a qualified contract with proceeds from tax-qualified plan or program in order to continue receiving favorable tax treatment.

Adverse tax consequences may result from: contributions in excess of specified limits, distributions before age 59½ (subject to certain exceptions), distributions that do not conform to specified commencement and minimum distribution rules, and in other specified circumstances. Some qualified plans are subject to additional distribution or other requirements that are not incorporated into our contract. No attempt is made to provide more than general information about the use of the contracts with qualified plans. Contract owners, annuitants, and beneficiaries are cautioned that the rights of any person to any benefit under these qualified plans may be subject to the terms and conditions of the plan themselves, regardless of the terms and conditions of the contract. The Company is not bound by the terms and conditions of such plans to the extent such terms contradict the contract, unless we consent.

Contract owners and beneficiaries are responsible for determining that contributions, distributions and other transactions with respect to the contract comply with applicable law. Therefore, you should seek competent legal and tax advice regarding the suitability of a contract for your particular situation. The following discussion assumes that qualified contracts are purchased with proceeds from and/or contributions under retirement plans or programs that qualify for the intended special federal tax treatment.

Tax Deferral

Under the federal tax laws, earnings on amounts held in annuity contracts are generally not taxed until they are withdrawn. However, in the case of a qualified plan, including 403(b) plans and IRAs, an annuity contract is not necessary to obtain this favorable tax treatment and does not provide any tax benefits beyond the deferral already available to the qualified plan itself. Annuities do provide other features and benefits (such as guaranteed living and/or death benefits or the option of lifetime income phase options at established rates) that may be valuable to you. You should discuss your alternatives with your financial representative taking into account the additional fees and expenses you may incur in an annuity.

Section 403(b) Tax-Deferred Annuities. The contracts are available as Tax Code section 403(b) tax-deferred annuities. Section 403(b) of the Tax Code allows employees of certain Tax Code section 501(c)(3) organizations and public schools to exclude from their gross income the premium payments made, within certain limits, to a contract that will provide an annuity for the employee's retirement.

In November, 2004 the Treasury Department proposed regulations which, if finalized, are not scheduled to take effect until after 2006. These proposed regulations may not be relied upon until they become final. We reserve the right to modify the contracts to comply with these regulations where allowed, or where required by law. The proposed regulations include: (a) the ability to terminate a 403(b) plan, which would entitle a contract owner to a distribution; (b) a revocation of IRS Revenue Ruling 90-24, which would increase restrictions on a contract owner's right to transfer his or her 403(b) accounts; and (c) the imposition of withdrawal restrictions on non-salary reduction contribution amounts, as well as other changes.

Individual Retirement Annuities. Section 408 of the Tax Code permits eligible individuals to contribute to an individual retirement program known as an Individual Retirement Annuity ("IRA"). IRAs are subject to limits on the amounts that can be contributed, the deductible amount of the contribution, the persons who may be eligible, and the time when distributions commence. Also, distributions from IRAs, individual retirement accounts, and other types of retirement plans may be "rolled over" on a tax-deferred basis into an IRA. Employers may establish Simplified Employee Pension (SEP) or Savings Incentive Match Plan for Employees (SIMPLE) plans to provide IRA contributions on behalf of their employees. If you make a tax-free rollover of a distribution from an IRA you may not make another tax-free rollover from the IRA within a 1-year period. Sales of the contract for use with IRAs may be subject to special requirements of the IRS.

The IRS has not reviewed the contracts described in this prospectus for qualification as IRAs and has not addressed, in a ruling of general applicability, whether the contract's death benefit provisions comply with IRS qualification requirements.

Roth IRAs. Section 408A of the Tax Code permits certain eligible individuals to contribute to a Roth IRA. Contributions to a Roth IRA are subject to limits on the amount of contributions and the persons who may be eligible to contribute, are not deductible, and must be made in cash or as a rollover or transfer from another Roth IRA or other IRA. Certain qualifying individuals may convert an IRA, SEP, or a SIMPLE to a Roth IRA. Such rollovers and conversions are subject to tax, and other special rules may apply. If you make a tax-free rollover of a distribution from a Roth IRA to another Roth IRA, you may not make another tax-free rollover from the Roth IRA from which the rollover was made within a 1-year period. A 10% penalty may apply to amounts attributable to a conversion to a Roth IRA if the amounts are distributed during the five taxable years beginning with the year in which the conversion was made.

Sales of a contract for use with a Roth IRA may be subject to special requirements of the IRS. The IRS has not reviewed the contracts described in this prospectus for qualification as IRAs and has not addressed, in a ruling of general applicability, whether the contract's death benefit provisions comply with IRS qualification requirements.

Contributions

In order to be excludable from gross income for federal income tax purposes, total annual contributions to certain qualified plans are limited by the Tax Code. We provide general information on these requirements for certain plans below. You should consult with your tax adviser in connection with contributions to a qualified contract.

403(b) Plans. Total annual contributions by you and your employer cannot exceed, generally, the lesser of 100% of your compensation or \$44,000. Compensation means your compensation for the year from the employer sponsoring the plan and, for years beginning after December 31, 1997, includes any elective deferrals under Tax Code section 402(g) and any amounts not includible in gross income under Tax Code sections 125 or 457.

This limit applies to your contributions as well as to any contributions made by your employer on your behalf. An additional requirement limits your salary reduction contributions to a 403(b) plan to generally no more than \$15,000. Contribution limits are subject to annual adjustments for cost-of-living increases. Your own limit may be higher or lower, depending upon certain conditions.

Purchase payments to your contract will be excluded from your gross income only if the plan meets certain nondiscrimination requirements, as applicable.

Catch-up Contributions. Notwithstanding the contribution limits noted above, a participant in 403(b) plan who is at least age 50 by the end of the plan year may contribute an additional amount not to exceed the lesser of:

- (a) \$5,000; or
- (b) The participant's compensation for the year reduced by any other elective deferrals of the participant for the year.

Additional catch-up provisions may be available. For advice on using a catch-up provision, please consult with your tax adviser.

Distributions - General

Certain tax rules apply to distributions from the contracts. A distribution is any amount taken from a contract including withdrawals, income phase payments, rollovers, exchanges and death benefit proceeds. We report the taxable portion of all distributions to the IRS.

403(b) Plans. All distributions from these plans are taxed as received unless one of the following is true:

- The distribution is an eligible rollover distribution and is rolled over to another plan eligible to receive rollovers or to a traditional IRA in accordance with the Tax Code; or
- You made after-tax contributions to the plan. In this case, depending upon the type of distribution, the amount will be taxed according to the rules detailed in the Tax Code.

A payment is an eligible rollover distribution unless it is:

- Part of a series of substantially equal periodic payments (at least one per year) made over the life expectancy of the participant or the joint life expectancy of the participant and his designated beneficiary or for a specified period of 10 years or more;
- A required minimum distribution under Tax Code section 401(a)(9);
- A hardship withdrawal;
- Otherwise excludable from income; or
- Not recognized under applicable regulations as eligible for rollover.

The Tax Code imposes a 10% penalty tax on the taxable portion of any distribution from a contract used with a 403(b) plan unless certain exceptions, including one or more of the following, have occurred:

- (a) You have attained age 59½;
- (b) You have become disabled, as defined in the Tax Code;
- (c) You have died and the distribution is to your beneficiary;
- (d) You have separated from service with the sponsor at or after age 55;
- (e) The distribution amount is rolled over into another eligible retirement plan or to an IRA in accordance with the terms of the Tax Code;
- (f) You have separated from service with the plan sponsor and the distribution amount is made in substantially equal periodic payments (at least annually) over your life or the life expectancy or the joint lives or joint life expectancies of you and your designated beneficiary;
- (g) The distribution is made due to an IRS levy upon your plan; or
- (h) The withdrawal amount is paid to an alternate payee under a Qualified Domestic Relations Order (QDRO).

In addition, the 10% penalty tax does not apply to the amount of a distribution equal to unreimbursed medical expenses incurred by you during the taxable year that qualify for deduction as specified in the Tax Code. The Tax Code may impose other exceptions or penalty taxes in other circumstances.

Distribution of amounts restricted under Tax Code section 403(b)(11) may only occur upon your death, attainment of age 59½, severance from employment, disability or financial hardship. Such distributions remain subject to other applicable restrictions under the Tax Code.

If, pursuant to Revenue Ruling 90-24, the Company agrees to accept amounts transferred from a Tax Code section 403(b)(7) custodial account, such amounts will be subject to the withdrawal restrictions set forth in Tax Code section 403(b)(7)(A)(ii).

Individual Retirement Annuities. All distributions from an IRA are taxed as received unless either one of the following is true:

- The distribution is rolled over to another IRA or to a plan eligible to receive rollovers as permitted under the Code; or
- You made after-tax contributions to the plan. In this case the distribution will be taxed according to rules detailed in the Tax Code.

The Tax Code imposes a 10% penalty tax on the taxable portion of any distribution from an IRA unless an exception applies. In general, except for the exception for separation from service, the exceptions for 403(b) plans listed above also apply to distributions from an IRA. The 10% penalty tax does not apply to a distribution made from an IRA to pay for health insurance premiums for certain unemployed individuals, a qualified first-time home purchase, or for higher education expenses.

Roth IRAs. A qualified distribution from a Roth IRA is not taxed when it is received. A qualified distribution is a distribution:

- Made after the five taxable year period beginning with the first taxable year for which a contribution was made to a Roth IRA of the owner; and
- Made after you attain age 59½, die, become disabled as defined in the Tax Code, or for a qualified first time home purchase.

If a distribution is not qualified, it will be taxable to the extent of the accumulated earnings. A partial distribution will first be treated as a return of contributions which is not taxable and then as taxable accumulated earnings.

The Tax Code imposes a 10% penalty tax on the taxable portion of any distribution from a Roth IRA that is not a qualified distribution unless certain exceptions have occurred. In general, except for the exception for separation from service, the exceptions for 403(b) plans listed above also apply to a distribution from a Roth IRA that is not a qualified distribution or a rollover to a Roth IRA that is not a qualified rollover contribution. The 10% penalty tax is also waived on a distribution made from a Roth IRA to pay for health insurance premiums for certain unemployed individuals, used for a qualified first-time home purchase, or for higher education expenses.

Special Hurricane-Related Relief. The Katrina Emergency Tax Relief Act and the Gulf Opportunity Zone Act provide tax relief to victims of Hurricanes Katrina, Rita and Wilma. The relief includes a waiver of the 10% penalty tax on qualified hurricane distributions from eligible retirement plans including 403(b) Plans and IRAs). In addition, the 20% mandatory withholding rules do not apply to these distributions and the tax may be spread out ratably over a three-year period. A recipient of qualified hurricane distribution may also elect to re-contribute all or a portion of the distribution to an eligible retirement plan within three (3) years of receipt without tax consequences. Other relief may also apply. You should consult a competent tax adviser for further information.

Lifetime Required Minimum Distributions (Section 403(b) Plans and IRAs only)

To avoid certain tax penalties, you and any designated beneficiary must meet the required minimum distribution requirements imposed by the Tax Code. These rules dictate the following:

- Start date for distributions;
- The time period in which all amounts in your contract(s) must be distributed; and
- Distribution amounts.

Start Date. Generally, you must begin receiving distributions by April 1 of the calendar year following the calendar year in which you attain age 70½ or retire, whichever occurs later, unless under 403(b) plans, the Company maintains separate records of amounts held as of December 31, 1986. In this case distribution of these amounts generally must begin by the end of the

calendar year in which you attain age 75 or retire, if later. However, if you take any distributions in excess of the minimum required amount, then special rules require that the excess be distributed from the December 31, 1986 balance.

Time Period. We must pay out distributions from the contract over a period not extending beyond one of the following time periods:

- Over your life or the joint lives of you and your designated beneficiary; or
- Over a period not greater than your life expectancy or the joint life expectancies of you and your designated beneficiary.

Distribution Amounts. The amount of each required minimum distribution must be calculated in accordance with Tax Code Section 401(a)(9). The entire interest in the account includes the amount of any outstanding rollover, transfer, recharacterization, if applicable, and the actuarial present value of any other benefits provided under the account, such as guaranteed death benefits.

50% Excise Tax. If you fail to receive the required minimum distribution for any tax year, a 50% excise tax may be imposed on the required amount that was not distributed.

Lifetime Required Minimum Distributions are not applicable to Roth IRAs. Further information regarding required minimum distributions may be found in your contract or certificate.

Required Distributions Upon Death (Section 403(b) Plans, IRAs, and Roth IRAs)

Different distribution requirements apply after your death, depending upon if you have begun receiving required minimum distributions. Further information regarding required distributions upon death may be found in your contract or certificate.

If your death occurs on or after you begin receiving minimum distributions under the contract, distributions generally must be made at least as rapidly as under the method in effect at the time of your death. Tax Code section 401(a)(9) provides specific rules for calculating the minimum required distributions at your death.

If your death occurs before you begin receiving minimum distributions under the contract, your entire balance must be distributed by December 31 of the calendar year containing the fifth anniversary of the date of your death. For example, if you died on September 1, 2006, your entire balance must be distributed to the designated beneficiary by December 31, 2011. However, if distributions begin by December 31 of the calendar year following the calendar year of your death, then payments may be made within one of the following timeframes:

- Over the life of the designated beneficiary; or
- Over a period not extending beyond the life expectancy of the designated beneficiary.

Start Dates for Spousal Beneficiaries. If the designated beneficiary is your spouse, distributions must begin on or before the later of the following:

- December 31 of the calendar year following the calendar year of your death; or
- December 31 of the calendar year in which you would have attained age 70½.

No designated beneficiary. If there is no designated beneficiary, the entire interest generally must be distributed by the end of the calendar year containing the fifth anniversary of the contract owner's death.

Special Rule for IRA Spousal Beneficiaries (IRAs and Roth IRAs Only). In lieu of taking a distribution under these rules, if the sole designated beneficiary is the contract owner's surviving spouse, the spousal beneficiary may elect to treat the contract as his or her own IRA and defer taking a distribution until his or her own start date. The surviving spouse is deemed to have made such an election if the surviving spouse makes a rollover to or from the contract or fails to take a distribution within the required time period.

Withholding

Any taxable distributions under the contract are generally subject to withholding. Federal income tax liability rates vary according to the type of distribution and the recipient's tax status.

403(b) Plans. Generally, distributions from these plans are subject to a mandatory 20% federal income tax withholding. However, mandatory withholding will not be required if you elect a direct rollover of the distributions to an eligible retirement plan or in the case of certain distributions described in the Tax Code.

IRAs and Roth IRAs. Generally, you or a designated beneficiary may elect not to have tax withheld from distributions.

Non-resident Aliens. If you or your designated beneficiary is a non-resident alien, then any withholding is governed by Tax Code section 1441 based on the individual's citizenship, the country of domicile and treaty status.

Assignment and Other Transfers

403(b) Plans. Adverse tax consequences to the plan and/or to you may result if your beneficial interest in the contract is assigned or transferred to persons other than:

- A plan participant as a means to provide benefit payments;
- An alternate payee under a qualified domestic relations order in accordance with Tax Code section 414(p); or
- The Company as collateral for a loan.

IRAs and Roth IRAs. The Tax Code does not allow a transfer or assignment of your rights under the contracts except in limited circumstances. Adverse tax consequences may result if you assign or transfer your interest in the contract to persons other than your spouse incident to a divorce. Anyone contemplating such an assignment or transfer should contact a qualified tax adviser regarding the potential tax effects of such a transaction.

Tax Consequences of Living Benefits and Death Benefits

Living Benefits. Except as otherwise noted below, when a withdrawal from a non-qualified contract occurs under the ING LifePay rider during Guaranteed Withdrawal Status, the amount received will be treated as ordinary income subject to tax up to an amount equal to the excess (if any) of the contract value (unreduced by the amount of any deferred sales charge) immediately before the distribution over the contract owner's investment in the contract at that time.

Investment in the contract is generally equal to the amount of all contributions to the contract, plus amounts previously included in your gross income as the result of certain loans, assignments, or gifts, less the aggregate amount of non-taxable distributions previously made. For non-qualified contracts, the income on the contract for purposes of calculating the taxable amount of a distribution may be unclear. For example, the living benefits provided under the ING LifePay rider or the MGIB rider, as well as the Market Value Adjustment, could increase the contract value that applies. Thus, the income on the contract could be higher than the amount of income that would be determined without regard to such a benefit. As a result, you could have higher amounts of income than will be reported to you. We currently treat any amounts paid to you under the ING LifePay Rider while in Lifetime Automatic Periodic Benefit status as annuity payments rather than withdrawals. See "Taxation of Income Phase Payments," above.

The tax treatment of partial annuitizations is unclear. We currently treat any partial annuitization, such as those available under the MGIB rider, as withdrawals rather than annuity payments. Please consult your tax adviser before electing a partial annuitization.

Enhanced Death Benefits. The contract offers a death benefit that may exceed the greater of premium payments and the contract value. It is possible that the IRS could characterize such a death benefit as an incidental death benefit. There are limitations on the amount of incidental benefits that may be provided under pension and profit sharing plans. In addition, the provision of such benefits may result in currently taxable income to contract holders, and the presence of the death benefit could affect the amount of required minimum distributions. Finally, certain charges are imposed with respect to some of the available death benefits. It is possible these charges (or some portion thereof) could be treated for federal tax purposes as a distribution from the contract.

Possible Changes in Taxation

Although the likelihood of legislative change and tax reform is uncertain, there is always the possibility that the tax treatment of the contracts could change by legislation or other means. It is also possible that any change could be retroactive (that is, effective before the date of the change). In addition, legislative changes implemented under the Economic Growth and Tax

Relief Reconciliation Act of 2001 are scheduled to sunset or expire after December 31, 2010 unless further extended by future legislation. You should consult a tax adviser with respect to legislative developments and their effect on the contract.

Taxation of the Company

We are taxed as a life insurance company under the Tax Code. Separate Account B is not a separate entity from us. Therefore, it is not taxed separately as a “regulated investment company” but is taxed as part of the Company.

We automatically apply investment income and capital gains attributable to the separate account to increase reserves under the contracts. Because of this, under existing federal tax law we believe that any such income and gains will not be taxed to the extent that such income and gains are applied to increase reserves under the contracts. In addition, any foreign tax credits attributable to the separate account will be first used to reduce any income taxes imposed on the separate account before being used by the Company.

In summary, we do not expect that we will incur any federal income tax liability attributable to the separate account and we do not intend to make any provision for such taxes. However, changes in federal tax laws and/or their interpretation may result in our being taxed on income or gains attributable to the separate account. In this case we may impose a charge against the separate account (with respect to some or all of the contracts) to set aside provisions to pay such taxes. We may deduct this amount from the separate account, including from your contract value invested in the subaccounts.

ING JPMorgan International Portfolio	ING JPMorgan Fleming International Portfolio
ING Legg Mason Partners Aggressive Growth Portfolio	ING Salomon Brothers Aggressive Growth Portfolio
ING VP Strategic Allocation Conservative Portfolio	ING VP Strategic Allocation Income Portfolio
ING VP Strategic Allocation Moderate Portfolio	ING VP Strategic Allocation Balanced Portfolio

The investment results of the mutual funds (funds) are likely to differ significantly and there is no assurance that any of the funds will achieve their respective investment objectives. You should consider the investment objectives, risks and charges, and expenses of the funds carefully before investing. Please refer to the fund prospectuses for additional information. Shares of the funds will rise and fall in value and you could lose money by investing in the funds. Shares of the funds are not bank deposits and are not guaranteed, endorsed or insured by any financial institution, the Federal Deposit Insurance Corporation or any other government agency. Except as noted, all funds are diversified, as defined under the Investment Company Act of 1940. Fund prospectuses may be obtained free of charge at the address and telephone number listed in “Contract Overview - Questions,” by accessing the SEC’s website or by contacting the SEC Public Reference Branch.

Certain funds offered under the contracts have investment objectives and policies similar to other funds managed by the fund’s investment adviser. The investment results of a fund may be higher or lower than those of other funds managed by the same adviser. There is no assurance and no representation is made that the investment results of any fund will be comparable to those of another fund managed by the same investment adviser.

Pioneer Equity Income VCT Portfolio	Pioneer Investment Management, Inc.	Current income and long-term growth of capital from a portfolio consisting primarily of income producing equity securities of U.S. corporations.

Fixed Account II

Fixed Account II (“Fixed Account”) is an optional fixed interest allocation offered during the accumulation phase of your variable annuity contract between you and ING USA Annuity and Life Insurance Company (“ING USA,” the “Company,” “we” or “our”). The Fixed Account, which is a segregated asset account of ING USA, provides a means for you to invest on a tax-deferred basis and earn a guaranteed interest for guaranteed interest periods (Fixed Interest Allocation(s)). We will credit your Fixed Interest Allocation(s) with a fixed rate of interest. We currently offer Fixed Interest Allocations with guaranteed interest periods of 5, 7 and 10 years. In addition, we may offer DCA Fixed Interest Allocations, which are 6-month and 1-year Fixed Interest Allocations available exclusively in connection with our dollar cost averaging program. We may offer additional guaranteed interest periods in some or all states, may not offer all guaranteed interest periods on all contracts or in all states and the rates for a given guaranteed interest period may vary among contracts. We set the interest rates periodically. We may credit a different interest rate for each interest period. The interest you earn in the Fixed Account as well as your principal is guaranteed by ING USA, as long as you do not take your money out before the maturity date for the applicable interest period. If you take your money out from a Fixed Interest Allocation more than 30 days before the applicable maturity date, we will apply a market value adjustment (“Market Value Adjustment”). A Market Value Adjustment could increase or decrease your contract value and/or the amount you take out. A surrender charge may also apply to withdrawals from your contract. You bear the risk that you may receive less than your principal because of the Market Value Adjustment.

For contracts sold in some states, not all Fixed Interest Allocations are available. You have a right to return a contract for a refund as described in the prospectus. To obtain a copy of the Fixed Account II prospectus, please write or call us at the address and phone number listed on the front page of the prospectus.

The Fixed Account

You may allocate premium payments and transfer your contract value to the guaranteed interest periods of the Fixed Account during the accumulation period as described in the prospectus. Every time you allocate money to the Fixed Account, we set up a Fixed Interest Allocation for the guaranteed interest period you select. We will credit your Fixed Interest Allocation with a guaranteed interest rate for the interest period you select, so long as you do not withdraw money from that Fixed Interest Allocation before the end of the guaranteed interest period. Each guaranteed interest period ends on its maturity date which is the last day of the month in which the interest period is scheduled to expire.

Your contract value in the Fixed Account is the sum of your Fixed Interest Allocations and the interest credited as adjusted for any withdrawals, transfers or other charges we may impose, including any Market Value Adjustment. Your Fixed Interest Allocation will be credited with the guaranteed interest rate in effect for the guaranteed interest period you selected when we receive and accept your premium or reallocation of contract value. We will credit interest daily at a rate that yields the quoted guaranteed interest rate.

If you surrender, withdraw, transfer or annuitize your investment in a Fixed Interest Allocation more than 30 days before the end of the guaranteed interest period, we will apply a Market Value Adjustment to the transaction. A Market Value Adjustment could increase or decrease the amount you surrender, withdraw, transfer or annuitize, depending on current interest rates at the time of the transaction. You bear the risk that you may receive less than your principal because of the Market Value Adjustment.

Guaranteed Interest Rates

Each Fixed Interest Allocation will have an interest rate that is guaranteed as long as you do not take your money out until its maturity date. We do not have a specific formula for establishing the guaranteed interest rates for the different guaranteed interest periods. We determine guaranteed interest rates at our sole discretion. We cannot predict the level of future interest rates. For more information see the prospectus for the Fixed Account.

Transfers from a Fixed Interest Allocation

You may transfer your contract value in a Fixed Interest Allocation to one or more new Fixed Interest Allocations with new guaranteed interest periods, or to any of the subaccounts of ING USA’s Separate Account B as described in the

prospectus on the maturity date of a guaranteed interest period. The minimum amount that you can transfer to or from any Fixed Interest Allocation is \$100. Transfers from a Fixed Interest Allocation may be subject to a Market Value Adjustment. If you have a special Fixed Interest Allocation that was offered exclusively with our dollar cost averaging program, canceling dollar cost averaging will cause a transfer of the entire contract value in such Fixed Interest Allocation to the ING Liquid Assets Portfolio subaccount, and such a transfer will be subject to a Market Value Adjustment.

Withdrawals from a Fixed Interest Allocation

During the accumulation phase, you may withdraw a portion of your contract value in any Fixed Interest Allocation. You may make systematic withdrawals of only the interest earned during the prior month, quarter or year, depending on the frequency chosen, from a Fixed Interest Allocation under our systematic withdrawal option. A withdrawal from a Fixed Interest Allocation may be subject to a Market Value Adjustment and a contract surrender charge. Be aware that withdrawals may have federal income tax consequences, including a 10% penalty tax, as well as state income tax consequences.

Market Value Adjustment

A Market Value Adjustment may decrease, increase or have no effect on your contract value. We will apply a Market Value Adjustment (i) whenever you withdraw or transfer money from a Fixed Interest Allocation (unless made within 30 days before the maturity date of the applicable guaranteed interest period, or under the systematic withdrawal or dollar cost averaging program) and (ii) if on the income phase payment start date a guaranteed interest period for any Fixed Interest Allocation does not end on or within 30 days of the income phase payment start date.

A Market Value Adjustment may be positive, negative or result in no change. In general, if interest rates are rising, you bear the risk that any Market Value Adjustment will likely be negative and reduce your contract value. On the other hand, if interest rates are falling, it is more likely that you will receive a positive Market Value Adjustment that increases your contract value. In the event of a full surrender, transfer or annuitization from a Fixed Interest Allocation, we will add or subtract any Market Value Adjustment from the amount surrendered, transferred or annuitized. In the event of a partial withdrawal, transfer or annuitization, we will add or subtract any Market Value Adjustment from the total amount withdrawn, transferred or annuitized in order to provide the amount requested. If a negative Market Value Adjustment exceeds your contract value in the Fixed Interest Allocation, we will consider your request to be a full surrender, transfer or annuitization of the Fixed Interest Allocation.

Contract Value in the Fixed Interest Allocations

On the contract date, the contract value in any Fixed Interest Allocation in which you are invested is equal to the portion of the initial premium paid and designated for allocation to the Fixed Interest Allocation. On each business day after the contract date, we calculate the amount of contract value in each Fixed Interest Allocation as follows:

- 1) We take the contract value in the Fixed Interest Allocation at the end of the preceding business day;
- 2) We credit a daily rate of interest on 1) at the guaranteed rate since the preceding business day;
- 3) We add 1) and 2);
- 4) We subtract from 3) any transfers from that Fixed Interest Allocation; and
- 5) We subtract from 4) any withdrawals, and then subtract any contract fees (including any rider charges) and premium taxes.

Additional premium payments and transfers allocated to the Fixed Account will be placed in a new Fixed Interest Allocation. The contract value on the date of allocation will be the amount allocated. Several examples which illustrate how the Market Value Adjustment works are included in the prospectus for the Fixed Account.

Cash Surrender Value

The cash surrender value is the amount you receive when you surrender the contract. The cash surrender value of amounts allocated to the Fixed Account will fluctuate daily based on the interest credited to Fixed Interest Allocations, any Market Value Adjustment, and any surrender charge. We do not guarantee any minimum cash surrender value. On any date during the accumulation phase, we calculate the cash surrender value as follows: we start with your contract value, then we adjust for any Market Value Adjustment, and then we deduct any surrender charge, any charge for premium taxes, the annual contract administrative fee (unless waived), and any optional benefit rider charge, and any other charges incurred but not yet deducted.

Dollar Cost Averaging from Fixed Interest Allocations

You may elect to participate in our dollar cost averaging program if you have at least \$1,200 of contract value in Fixed Account Interest Allocations with a guaranteed interest period of 1 year or less. The Fixed Interest Allocations serve as the source accounts from which we will, on a monthly basis, automatically transfer a set dollar amount of money to other Fixed Interest Allocations or contract investment portfolio subaccounts selected by you.

The dollar cost averaging program is designed to lessen the impact of market fluctuation on your investment. Since we transfer the same dollar amount to subaccounts each month, more units of a subaccount are purchased if the value of its unit is low and fewer units are purchased if the value of its unit is high. Therefore, a lower than average value per unit may be achieved over the long term. However, we cannot guarantee this. When you elect the dollar cost averaging program, you are continuously investing in securities regardless of fluctuating price levels. You should consider your tolerance for investing through periods of fluctuating price levels. You elect the dollar amount you want transferred under this program. Each monthly transfer must be at least \$100. You may change the transfer amount once each contract year.

Transfers from a Fixed Interest Allocation under the dollar cost averaging program are not subject to a Market Value Adjustment.

We may in the future offer additional subaccounts or withdraw any subaccount or Fixed Interest Allocation to or from the dollar cost averaging program or otherwise modify, suspend or terminate this program. Of course, such changes will not affect any dollar cost averaging programs in operation at the time.

Suspension of Payments

We have the right to delay payment of amounts from a Fixed Interest Allocation for up to 6 months.

More Information

See the prospectus for Fixed Account II.

Fixed Interest Division

A Fixed Interest Division option is available through the group and individual deferred variable annuity contracts offered by ING USA Annuity and Life Insurance Company. The Fixed Interest Division is part of the ING USA General Account. Interests in the Fixed Interest Division have not been registered under the Securities Act of 1933, and neither the Fixed Interest Division nor the General Account are registered under the Investment Company Act of 1940.

Interests in the Fixed Interest Division are offered in certain states through an Offering Brochure, dated April 28, 2006. The Fixed Interest Division is different from the Fixed Account which is described in the prospectus but which is not available in your state. If you are unsure whether the Fixed Account is available in your state, please contact our Customer Service Center at 1-800-366-0066. When reading through the Prospectus, the Fixed Interest Division should be counted among the various investment options available for the allocation of your premiums, in lieu of the Fixed Account. The Fixed Interest Division may not be available in some states. Some restrictions may apply.

You will find more complete information relating to the Fixed Interest Division in the Offering Brochure. Please read the Offering Brochure carefully before you invest in the Fixed Interest Division.

Surrender Charge for Excess Withdrawals Example

The following assumes you made an initial premium payment of \$25,000 and additional premium payments of \$25,000 in each of the second and third contract years, for total premium payments under the contract of \$75,000. It also assumes a withdrawal at the beginning of the fifth contract year of 30% of the contract value of \$90,000.

In this example, \$9,000 (10% of \$90,000) is maximum free withdrawal amount that you may withdraw during the contract year without a surrender charge. The total amount withdrawn from the contract would be \$27,000 ($\$90,000 \times .30$). Therefore, \$18,000 ($\$27,000 - \$9,000$) is considered an excess withdrawal and would be subject to a 3% surrender charge of \$540 ($\$18,000 \times .03$). This example does not take into account any Market Value Adjustment or deduction of any premium taxes.

Pro-Rata Withdrawal Adjustment for 5% Roll-Up Death Benefit Examples**Example #1: The Contract Value (AV) is Lower than the Death Benefit**

Assume a premium payment of \$100,000, AV at the time of withdrawal of \$80,000 and a 5% Roll-Up minimum guarantee death benefit ("MGDB") at the time of withdrawal of \$120,000. A total withdrawal of \$20,000 is made.

Calculate the Effect of the Withdrawal

Pro-rata Withdrawal Adjustment to MGDB = \$30,000 ($\$120,000 * (\$20,000 / \$80,000)$)

MGDB after Pro-rata Withdrawal = \$90,000 ($\$120,000 - \$30,000$)

AV after Withdrawal = \$60,000 ($\$80,000 - \$20,000$)

Example #2: The Contract Value (AV) is Greater than the Death Benefit

Assume a premium payment of \$100,000, AV at the time of withdrawal of \$160,000 and a 5% Roll-Up minimum guarantee death benefit ("MGDB") at the time of withdrawal of \$120,000. A total withdrawal of \$20,000 is made.

Calculate the Effect of the Withdrawal

Pro-rata Withdrawal Adjustment to MGDB = \$15,000 ($\$120,000 * (\$20,000 / \$160,000)$)

MGDB after Pro-rata Withdrawal = \$105,000 ($\$120,000 - \$15,000$)

AV after Withdrawal = \$140,000 ($\$160,000 - \$20,000$)

Example #3: The Contract Value (AV) is Equal to the Death Benefit

Assume a premium payment of \$100,000, AV at the time of withdrawal of \$120,000 and a 5% Roll-Up minimum guarantee death benefit ("MGDB") at the time of withdrawal of \$120,000. A total withdrawal of \$20,000 is made.

Calculate the Effect of the Withdrawal

Pro-rata Withdrawal Adjustment to MGDB = \$20,000 ($\$120,000 * (\$20,000 / \$120,000)$)

MGDB after Pro-rata Withdrawal = \$100,000 ($\$120,000 - \$20,000$)

AV after Pro-rata Withdrawal = \$100,000 ($\$120,000 - \$20,000$)

	Income	\$1,016.85	\$959.93
The Accumulation Rates shown are hypothetical and intended to illustrate various market conditions. These rates are assumed to be net of all fees and charges. Fees and charges are not assessed against the MGIB Rollup Rate.			

ING LifePay Partial Withdrawal Amount Examples

The following are examples of adjustments to the Maximum Annual Withdrawal amount for withdrawals in excess of the Maximum Annual Withdrawal:

Illustration 1: Adjustment to the Maximum Annual Withdrawal amount for a withdrawal in excess of the Maximum Annual Withdrawal, including surrender and/or MVA charges.

Assume the Maximum Annual Withdrawal is \$5,000.

The first withdrawal taken during the Contract year is \$3,000 net, with \$500 of surrender and/or MVA charges. The Maximum Annual Withdrawal is not exceeded.

The next withdrawal taken during the Contract year is \$1,500 net, with \$300 of surrender and/or MVA charges. The Maximum Annual Withdrawal is not exceeded because total net withdrawals, \$4,500, do not exceed the Maximum Annual Withdrawal, \$5,000.

The next withdrawal taken during the Contract year is \$1,500 net, with \$200 of surrender and/or MVA charges. Because total net withdrawals taken, \$6,000, exceed the Maximum Annual Withdrawal, \$5,000, then there is an adjustment to the Maximum Annual Withdrawal.

Total gross withdrawals during the Contract year are \$7,000 (\$3,000 + \$500 + \$1,500 + \$300 + \$1,500 + \$200). The adjustment is the lesser of the amount by which the total gross withdrawals for the year exceed the Maximum Annual Withdrawal (\$7,000 - \$5,000 = \$2,000), and the amount of the current gross withdrawal (\$1,500 + \$200 = \$1,700).

If the Account Value before this withdrawal is \$50,000, then the Maximum Annual Withdrawal is reduced by 3.40% ($\$1,700 / \$50,000$) to \$4,830 ($((1 - 3.40\%) * \$5,000)$)

Illustration 2: Adjustment to the Maximum Annual Withdrawal amount for a withdrawal in excess of the Maximum Annual Withdrawal.

Assume the Maximum Annual Withdrawal is \$5,000.

The first withdrawal taken during the Contract year is \$3,000 net, with \$0 of surrender and/or MVA charges. The Maximum Annual Withdrawal is not exceeded.

The next withdrawal taken during the Contract year is \$1,500 net, with \$0 of surrender and/or MVA charges. The Maximum Annual Withdrawal is not exceeded because total net withdrawals, \$4,500, do not exceed the Maximum Annual Withdrawal, \$5,000.

The next withdrawal taken during the Contract year is \$1,500 net, with \$0 of surrender and/or MVA charges. Because total net withdrawals taken, \$6,000, exceed the Maximum Annual Withdrawal, \$5,000, there is an adjustment to the Maximum Annual Withdrawal.

Total gross withdrawals during the Contract year are \$6,000 (\$3,000 + \$1,500 + \$1,500). The adjustment is the lesser of the amount by which the total gross withdrawals for the year exceed the Maximum Annual Withdrawal, \$1,000, and the amount of the current gross withdrawal, \$1,500.

If the Account Value after the part of the gross withdrawal that was within the Maximum Annual Withdrawal, \$500, is \$49,500, then the Maximum Annual Withdrawal is reduced by 2.02% ($\$1,000 / \$49,500$) to \$4,899 ($((1 - 2.02\%) * \$5,000)$)

Illustration 3: A withdrawal exceeds the Maximum Annual Withdrawal amount but does not exceed the Additional Withdrawal Amount.

Assume the Maximum Annual Withdrawal is \$5,000. On January 31, the Required Minimum Distribution for the current calendar year applicable to this Contract is determined to be \$6,000. The Additional Withdrawal Amount is set equal to the excess of this amount above the Maximum Annual Withdrawal, \$1,000 (\$6,000 - \$5,000).

The first withdrawal taken during the Contract year is \$3,000 net, with \$0 of surrender and/or MVA charges. The Maximum Annual Withdrawal is not exceeded.

The next withdrawal taken during the Contract year is \$1,500 net, with \$0 of surrender and/or MVA charges. The Maximum Annual Withdrawal is not exceeded because total net withdrawals, \$4,500, do not exceed the Maximum Annual Withdrawal, \$5,000.

The next withdrawal taken during the Contract year is \$1,500 net, with \$0 of surrender and/or MVA charges. Total net withdrawals taken, \$6,000, exceed the Maximum Annual Withdrawal, \$5,000, however, the Maximum Annual Withdrawal is not adjusted until the Additional Withdrawal Amount is exhausted. The amount by which total net withdrawals taken exceed the Maximum Annual Withdrawal, \$1,000 (\$6,000 - \$5,000), is the same as the Additional Withdrawal Amount, so no adjustment to the Maximum Annual Withdrawal is made. If total net withdrawals taken had exceeded the sum of the Maximum Annual Withdrawal and the Additional Withdrawal Amount, then an adjustment would be made to the Maximum Annual Withdrawal.

Illustration 4: The Reset Option is utilized.

Assume the Maximum Annual Withdrawal is \$5,000.

One year after the first withdrawal is taken, the Contract value has increased to \$120,000, and the Reset Option is utilized. The Maximum Annual Withdrawal is now \$6,000 (\$120,000 * 5%).

One year after the Reset Option was first utilized, the Contract value has increased further to \$130,000. The Reset Option is utilized again, and the Maximum Annual Withdrawal is now \$6,500 (\$130,000 * 5%).

Examples of Fixed Allocation Fund Automatic Rebalancing

The following examples are designed to assist you in understanding how Fixed Allocation Fund Automatic Rebalancing works. The examples assume that there are no investment earnings or losses.

I. Subsequent Payments

A. Assume that on Day 1, an owner deposits an initial payment of \$100,000, which is allocated 100% to Accepted Funds. No Fixed Allocation Fund Automatic Rebalancing would occur, because this allocation meets the required investment option allocation.

B. Assume that on Day 2, the owner deposits an additional payment of \$500,000, bringing the total contract value to \$600,000, and allocates this deposit 100% to Other Funds. Because the percentage allocated to the Fixed Allocations Fund (0%) is less than 20% of the total amount allocated to the Fixed Allocation Fund and the Other Funds, we will automatically reallocate \$100,000 from the amount allocated to the Other Funds (20% of the \$500,000 allocated to the Other Funds) to the Fixed Allocation Fund. Your ending allocations will be \$100,000 to Accepted Funds, \$100,000 to the Fixed Allocation Fund, and \$400,000 to Other Funds.

II. Partial Withdrawals

A. Assume that on Day 1, an owner deposits an initial payment of \$100,000, which is allocated 75% to Accepted Funds (\$70,000), 20% to the Fixed Allocation Fund (\$20,000), and 5% to Other Funds (\$5,000). No Fixed Allocation Fund Automatic Rebalancing would occur, because this allocation meets the required investment option allocation.

B. Assume that on Day 2, the owner requests a partial withdrawal of \$19,000 from the Fixed Allocation Fund. Because the remaining amount allocated to the Fixed Allocation Fund (\$1,000) is less than 20% of the total amount allocated to the Fixed Allocation Fund and the Other Funds, we will automatically reallocate \$200 from the Other Funds to the Fixed Allocation Fund, so that the amount allocated to the Fixed Allocation Fund (\$1,200) is 20% of the total amount allocated to the Fixed Allocation Fund and Other Funds (\$6,000).

ING USA Annuity and Life Insurance Company

ING USA Annuity and Life Insurance Company is a stock company domiciled in Iowa.

Introduction

This Statement of Additional Information provides background information regarding Separate Account B.

Description of ING USA Annuity and Life Insurance Company

ING USA Annuity and Life Insurance Company (“ING USA”) is an Iowa stock life insurance company, which was originally incorporated in Minnesota on January 2, 1973. ING USA is a wholly owned subsidiary of Lion Connecticut Holdings Inc. (“Lion Connecticut”), which in turn is a wholly owned subsidiary of ING Groep N.V. (“ING”), a global financial services holding company based in The Netherlands. ING USA is authorized to sell insurance and annuities in all states, except New York, and the District of Columbia. ING USA’s consolidated financial statements appear in the Statement of Additional Information. The financial statements of Golden American presented have not been restated for the effects of Golden’s merger in 2005 with United Life and Annuity Insurance Company, USG Annuity and Life Insurance Company and Equitable of Iowa Life Insurance Company.

As of December 31, 2005, ING USA had approximately \$2,949.0 million in stockholder’s equity and approximately \$59.4 billion in total assets, including approximately \$30.3 billion of separate account assets. ING USA is authorized to do business in all jurisdictions except New York. ING USA offers variable insurance products. ReliaStar Life Insurance Company of New York (“RLNY”), an affiliate of ING USA, is licensed to do variable annuity business in the state of New York.

Separate Account B

Separate Account B is a separate account established by the Company for the purpose of funding variable annuity contracts issued by the Company. The separate account is registered with the Securities and Exchange Commission (“SEC”) as a unit investment trust under the Investment Company act of 1940, as amended. Purchase payments to accounts under the contract may be allocated to one or more of the subaccounts. Each subaccount invests in the shares of only one of the funds offered under the contracts. We may make additions to, deletions from or substitutions of available investment options as permitted by law and subject to the conditions of the contract. The availability of the funds is subject to applicable regulatory authorization. Not all funds are available in all jurisdictions or under all contracts.

Safekeeping of Assets

ING USA acts as its own custodian for Separate Account B.

The Administrator

Effective January 1, 1997, Equitable Life Insurance Company of Iowa (“Equitable Life”) and ING USA became parties to a service agreement pursuant to which Equitable Life agreed to provide certain accounting, actuarial, tax, underwriting, sales, management and other services to ING USA. Expenses incurred by Equitable Life in relation to this service agreement were reimbursed by ING USA on an allocated cost basis.

Independent Registered Public Accounting Firm

Ernst & Young LLP, 600 Peachtree Street, Suite 2800, Atlanta, GA 30308 is the independent registered public accounting firm for the separate account and for the Company. The services provided to the separate account include primarily the audit of the separate account’s financial statements.

Distribution of Contracts

The offering of contracts under the prospectus associated with this Statement of Additional Information is continuous. Directed Services, Inc. (“DSI”), an affiliate of ING USA, acts as the principal underwriter (as defined in the Securities Act of 1933 and the Investment Company Act of 1940, as amended) of the variable insurance products (the “variable insurance products”) issued by ING USA. The contracts are distributed through registered

representatives of other broker-dealers who have entered into selling agreements with DSI. For the years ended 2005, 2004 and 2003 commissions paid by ING USA, including amounts paid by its affiliated Company, RLNY, to DSI aggregated \$378,135,000, \$374,955,000 and \$270,633,000, respectively. All commissions received by the distributor were passed through to the broker-dealers who sold the contracts. DSI is located at 1475 Dunwoody Drive, West Chester, Pennsylvania 19380-1478.

Under a management services agreement, last amended in 1995, ING USA provides to DSI certain of its personnel to perform management, administrative and clerical services and the use of certain facilities. ING USA charges DSI for such expenses and all other general and administrative costs, first on the basis of direct charges when identifiable, and the remainder allocated based on the estimated amount of time spent by ING USA's employees on behalf of DSI. In the opinion of management, this method of cost allocation is reasonable. This fee, calculated as a percentage of average assets in the variable separate accounts, was \$42,969,000, \$36,570,000 and \$27,898,000 for the years ended 2005, 2004 and 2003, respectively.

Published Ratings

From time to time, the rating of ING USA as an insurance company by A.M. Best may be referred to in advertisements or in reports to contract owners. Each year the A.M. Best Company reviews the financial status of thousands of insurers, culminating in the assignment of Best's Ratings. These ratings reflect their current opinion of the relative financial strength and operating performance of an insurance company in comparison to the norms of the life/health insurance industry. Best's ratings range from A++ to F. An A++ and A+ ratings mean, in the opinion of A.M. Best, that the insurer has demonstrated the strongest ability to meet its respective policyholder and other contractual obligations.

Accumulation Unit Value

The calculation of the Accumulation Unit Value ("AUV") is discussed in the prospectus for the Contracts under Condensed Financial Information. Note that in your Contract, accumulation unit value is referred to as the Index of Investment Experience. The following illustrations show a calculation of a new AUV and the purchase of Units (using hypothetical examples). Note that the examples below are calculated for a Contract issued with the death benefit option with the highest mortality and expense risk charge. The mortality and expense risk charge associated with other death benefit options are lower than that used in the examples and would result in higher AUV's or contract values.

Illustration of Calculation of AUV

Example 1.

1. AUV, beginning of period	\$10.00
2. Value of securities, beginning of period	\$10.00
3. Change in value of securities	\$0.10
4. Gross investment return (3) divided by (2)	0.01
5. Less daily mortality and expense charge	0.00004280
6. Less asset based administrative charge	0.00000411
7. Net investment return (4) minus (5) minus (6)	0.009953092
8. Net investment factor (1.000000) plus (7)	1.009953092
9. AUV, end of period (1) multiplied by (8)	\$10.09953092

Illustration of Purchase of Units (Assuming no state premium tax)

Example 2.

1. Initial premium payment	\$ 1,000
2. AUV on effective date of purchase (see Example 1)	\$ 10.00
3. Number of units purchased (1) divided by (2)	100
4. AUV for valuation date following purchase (see Example 1)	\$10.09953092
5. Contract Value in account for valuation date following purchase (3) multiplied by (4)	\$1,009.95

IRA Partial Withdrawal Option

If the contract owner has an IRA contract and will attain age 70½ in the current calendar year, distributions will be made in accordance with the requirements of Federal tax law. This option is available to assure that the required minimum distributions from qualified plans under the Internal Revenue Code (the “Code”) are made. Under the Code, distributions must begin no later than April 1st of the calendar year following the calendar year in which the contract owner attains age 70½. If the required minimum distribution is not withdrawn, there may be a penalty tax in an amount equal to 50% of the difference between the amount required to be withdrawn and the amount actually withdrawn. Even if the IRA Partial Withdrawal Option is not elected, distributions must nonetheless be made in accordance with the requirements of Federal tax law.

ING USA notifies the contract owner of these regulations with a letter mailed in the calendar year in which the contract owner reaches age 70½ which explains the IRA Partial Withdrawal Option and supplies an election form. If electing this option, the owner specifies whether the withdrawal amount will be based on a life expectancy calculated on a single life basis (contract owner’s life only) or, if the contract owner is married, on a joint life basis (contract owner’s and spouse’s lives combined). The contract owner selects the payment mode on a monthly, quarterly or annual basis. If the payment mode selected on the election form is more frequent than annually, the payments in the first calendar year in which the option is in effect will be based on the amount of payment modes remaining when ING USA receives the completed election form. ING USA calculates the IRA Partial Withdrawal amount each year based on the minimum distribution rules. We do this by dividing the contract value by the life expectancy. In the first year withdrawals begin; we use the contract value as of the date of the first payment. Thereafter, we use the contract value on December 31st of each year. The life expectancy is recalculated each year. Certain minimum distribution rules govern payouts if the designated beneficiary is other than the contract owner’s spouse and the beneficiary is more than ten years younger than the contract owner.

Other Information

Registration statements have been filed with the SEC under the Securities Act of 1933, as amended, with respect to the Contracts discussed in this Statement of Additional Information. Not all of the information set forth in the registration statements, amendments and exhibits thereto has been included in this Statement of Additional Information. Statements contained in this Statement of Additional Information concerning the content of the Contracts and other legal instruments are intended to be summaries. For a complete statement of the terms of these documents, reference should be made to the instruments filed with the SEC.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Account's internal control over financial reporting. Our audits include consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Account's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2005, by correspondence with the transfer agents. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of each of the respective Divisions constituting Separate Account B of ING USA Annuity and Life Insurance Company at December 31, 2005, the results of their operations and changes in their net assets for the periods disclosed in the financial statements, in conformity with U.S. generally accepted accounting principles.

**Separate Account B of
ING USA Annuity and Life Insurance Company**
Notes to Financial Statements

1. Organization

Separate Account B of ING USA Annuity and Life Insurance Company (the “Account”) was established by ING USA Annuity and Life Insurance Company (“ING USA” or the “Company”) to support the operations of variable annuity contracts (“Contracts”). The Company is an indirect, wholly owned subsidiary of ING America Insurance Holdings, Inc. (“ING AIH”) an insurance holding company domiciled in the State of Delaware. ING AIH is an indirect wholly owned subsidiary of ING Groep, N.V. (“ING”), a global financial services holding company based in The Netherlands.

On January 1, 2004 (the “merger date”), Equitable Life Insurance Company of Iowa, USG Annuity & Life Company, and United Life & Annuity Insurance Company (the “Merger Companies”), merged with and into Golden American Life Insurance Company (“Golden American”). Also on January 1, 2004, immediately after the merger, Golden American changed its name to ING USA Annuity and Life Insurance Company. As of the merger date, the Merger Companies ceased to exist and were succeeded by ING USA. In conjunction with the Golden American name change, the Account changed its name to Separate Account B of ING USA Annuity and Life Insurance Company.

The Account is registered as a unit investment trust with the Securities and Exchange Commission under the Investment Company Act of 1940, as amended. ING USA provides for variable accumulation and benefits under the Contracts by crediting annuity considerations to one or more divisions within the Account or the ING USA guaranteed interest division, the ING USA fixed interest division, and the fixed separate account, which are not part of the Account, as directed by the contractowners. The portion of the Account’s assets applicable to Contracts will not be charged with liabilities arising out of any other business ING USA may conduct, but obligations of the Account, including the promise to make benefit payments, are obligations of ING USA. The assets and liabilities of the Account are clearly identified and distinguished from the other assets and liabilities of ING USA.

During 2005, the Account had ING GoldenSelect Contracts, ING SmartDesign Contracts, ING Rollover Choice Contracts, ING Focus Contracts, and ING Wells Fargo Contracts. ING GoldenSelect Contracts sold by ING USA during 2005 included Access, Premium Plus, ESII, Landmark, Legends, Generations, and Opportunities Contracts. ING SmartDesign Contracts included Variable Annuity, Advantage, Simplicity, and Signature Contracts. ING Wells Fargo Contracts included ING Wells Fargo Opportunities and ING Wells Fargo Landmark Contracts.

The Account discontinued offering DVA 80 Contracts in May 1991 and discontinued registering DVA Series 100, Granite PrimeElite and Value Contracts for sale to the public as of May 1, 2003.

Separate Account B of ING USA Annuity and Life Insurance Company

Notes to Financial Statements

The Account also includes The Fund For Life Division, which is not included in the accompanying financial statements, and which ceased to accept new Contracts effective December 31, 1994.

At December 31, 2005, the Account had 192 investment divisions (the “Divisions”), 33 of which invest in independently managed mutual funds and 159 of which invest in mutual funds managed by affiliates, either Direct Services, Inc., ING Investments, LLC, or ING Life Insurance and Annuity Company. The assets in each Division are invested in shares of a designated series (“Series,” which may also be referred to as “Portfolio” or “Fund”) of various investment trusts (the “Trusts”). Investment Divisions at December 31, 2005 and related Trusts are as follows:

2. Significant Accounting Policies

The following is a summary of the significant accounting policies of the Account:

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investments

Investments are made in shares of a Series or Portfolio of the Trusts and are recorded at fair value, determined by the net asset value per share of the respective Series or Portfolio of the Trusts. Investment transactions in each Series or Portfolio of the Trusts are recorded on the trade date. Distributions of net investment income and capital gains from each Series or Portfolio of the Trusts are recognized on the ex-distribution date. Realized gains and losses on redemptions of the shares of the Series or Portfolio of the Trusts are determined on the specific identification basis. The difference between cost and current market value of investments owned on the day of measurement is recorded as unrealized appreciation or depreciation of investments.

Federal Income Taxes

Operations of the Account form a part of, and are taxed with, the total operations of ING USA, which is taxed as a life insurance company under the Internal Revenue Code. Earnings and realized capital gains of the Account attributable to the contractowners are excluded in the determination of the federal income tax liability of ING USA.

**Separate Account B of
ING USA Annuity and Life Insurance Company**
Notes to Financial Statements

Contractowner Reserves

Contractowner reserves of the Company are represented by net assets on the Statement of Assets and Liabilities and are equal to the aggregate account values of the contractowners invested in the Account Divisions. To the extent that benefits to be paid to the contractowners exceed their account values, ING USA will contribute additional funds to the benefit proceeds. Conversely, if amounts allocated exceed amounts required, transfers may be made to ING USA.

Transfers

Transfers between the Account and ING USA relate to gains and losses resulting from actual mortality experience, the full responsibility for which is assumed by ING USA, contractowner transfers between the general account and the Divisions, and other contractowner activity, including Contract deposits and withdrawals. Unsettled transactions as of the reporting date, on a net basis, are included in the line Payable to related parties on the Statements of Assets and Liabilities.

Reclassifications

Certain reclassifications have been made to prior year financial information to conform to the current year classifications.

3. Charges and Fees

Prior to February 1, 2000, DVA Plus, Access, and Premium Plus Contracts each had three different death benefit options referred to as Standard, Annual Ratchet, and 7% Solution; however, in the state of Washington, the 5.5% Solution is offered instead of the 7% Solution. After February 1, 2000, DVA Plus, Access and Premium Plus each had four different death benefit options referred to as Standard, Annual Ratchet, 7% Solution and Max 7. In the state of Washington, the 5.5% Solution is offered instead of the 7% Solution and Max 5.5 is offered instead of Max 7 after February 1, 2000. ES II, Generations, Landmark and Opportunities contracts each have four different death benefit options referred to as Standard, Annual Ratchet, 7% Solution and Max 7. In the state of Washington, the 5.5% Solution is offered instead of the 7% Solution and Max 5.5 is offered instead of Max 7. Granite PrimElite has two death benefit options referred to as Standard and Annual Ratchet.

Under the terms of all Contracts, certain charges are allocated to the Contracts to cover ING USA's expenses in connection with the issuance and administration of the Contracts. Following is a summary of these charges:

**Separate Account B of
ING USA Annuity and Life Insurance Company**
Notes to Financial Statements

Mortality and Expense Risk Charges

ING USA assumes mortality and expense risks related to the operations of the Account and, in accordance with the terms of the Contracts, deducts a daily charge from the assets of the Account.

Daily charges deducted at annual rates to cover these risks follows:

Series	Annual Rates
DVA 80	0.80 %

Asset Based Administrative Charges

A daily charge at an annual rate of 0.10% is deducted from assets attributable to DVA and DVA Series 100 Contracts. A daily charge at an annual rate of 0.15% is deducted from the assets attributable to the DVA Plus, Access, Premium Plus, ESII, Value, Access One, Granite PrimElite, Generations, Landmark, VA, Advantage, Rollover Choice, Focus VA, Signature, Legends and Opportunities Contracts.

**Separate Account B of
ING USA Annuity and Life Insurance Company**
Notes to Financial Statements

Administrative Charges

An administrative charge is deducted from the accumulation value of deferred annuity contracts to cover ongoing administrative expenses. The charge is \$30 per Contract year for Generations, Opportunities, Landmark, Focus VA, Signature, Legends, Simplicity, ES II, Value, VA, Advantage, and Rollover Choice Contracts. For DVA Series 100 and Access One Contracts there is no charge. For all other Contracts, the charge is \$40. The charge is incurred at the beginning of the Contract processing period and deducted at the end of the Contract processing period. This charge had been waived for certain offerings of the Contracts.

For certain Contracts, a minimum death benefit guarantee charge of up to \$1.20 per \$1,000 of guaranteed death benefit per Contract year is deducted from the accumulation value of each Contract on its anniversary date.

Contingent Deferred Sales Charges

Under DVA 80, DVA, DVA Plus, Premium Plus, ES II, Value, Granite PrimElite, Generations, Opportunities, Premium Plus, Focus VA, Signature, Legends, Simplicity, Landmark, VA, Advantage, and Rollover Choice Contracts, a contingent deferred sales charge ("Surrender Charge") is imposed as a percentage of each premium payment if the Contract is surrendered or an excess partial withdrawal is taken. The following table reflects the Surrender Charge that is assessed based upon the date a premium payment is received.

Complete Years Elapsed Since Premium Payment	DVA 80 & DVA	Granite PrimElite & DVA Plus	Premium Plus	Opportunities, ES II & Generations	Value
0	6 %	7 %	8 %	8 %	6 %

Withdrawal and Distribution Charges

Under DVA 80, DVA, and DVA Series 100 Contracts, a charge is deducted from the accumulation value for contractowners taking more than one conventional partial withdrawal during a Contract year. For DVA 80 and DVA Contracts, annual distribution fees are deducted from the Contracts' accumulation values.

Deferred Sales Load

Under Contracts offered prior to October 1995, a sales load of up to 7.5% was assessed against each premium payment for sales-related expenses, as specified in the Contracts. For DVA Series 100, the sales load is deducted in equal annual installments over the period the Contract is in force, not to exceed 10 years. For DVA 80 and DVA Contracts, although the sales load is chargeable to each premium when ING USA receives it, the amount of such charge is initially advanced by ING USA to contractowners and included in the accumulation value, and then deducted in equal installments on each Contract anniversary date over a period of six years. Upon surrender of the Contract, the unamortized deferred sales load is deducted from the accumulation value. In addition, when partial withdrawal limits are exceeded, a portion of the unamortized deferred sales load is deducted.

Premium Taxes

For certain Contracts, premium taxes are deducted, where applicable, from the accumulation value of each Contract. The amount and timing of the deduction depends on the contractowner's state of residence and currently ranges up to 3.5% of premiums.

**Separate Account B of
ING USA Annuity and Life Insurance Company**
Notes to Financial Statements

Other Contract Charges

For certain Contracts, an additional annual charge of 0.50% is deducted daily from the accumulation value for amounts invested in the ING GET U.S. Core Portfolio Funds.

Fees Waived by ING USA

Certain charges and fees for various types of Contracts are currently waived by ING USA. ING USA reserves the right to discontinue these waivers at its discretion or to conform with changes in the law.

4. Related Party Transactions

During the year ended December 31, 2005, management and service fees were paid indirectly to Directed Services, Inc., an affiliate of the Company, in its capacity as investment manager to the ING Investors Trust. The Trust's advisory agreement provided for a fee at annual rates ranging from 0.14% to 1.25% of the average net assets of each respective Series.

In addition, management and service fees were paid to ING Investments, LLC, an affiliate of the Company, in its capacity as investment adviser to the ING GET Fund, the ING Variable Insurance Trust, ING VP Intermediate Bond Portfolio, ING Variable Portfolios, Inc., ING Variable Funds, ING VP Balanced Portfolio, Inc., ING Strategic Allocation Portfolio, Inc., and the ING Variable Products Trust. The Trusts' advisory agreement provided for fees at annual rates ranging from 0.35% to 1.00% of the average net assets of each respective Portfolio.

Management and service fees were also paid to ING Life Insurance and Annuity Company, an affiliate of the Company, in its capacity as investment adviser to ING Partners, Inc. The Trust's advisory agreement provided for a fee at annual rates ranging from 0.10% to 1.00% of the average net assets of each respective Portfolio.

6. Changes in Units

The changes in units outstanding for the years ended December 31, 2005 and 2004 are shown in the following table. The activity includes contractowners electing to update a DVA 100 or DVA Series 100 Contract to a DVA Contract. Updates to DVA Contracts resulted in both a redemption (surrender of the old Contract) and an issue (acquisition of the new Contract).

	Year ended December 31

(a) As investment Division was not available until 2001, this data is not meaningful and is therefore not presented.

(b) As investment Division was not available until 2002, this data is not meaningful and is therefore not presented.

(c) As investment Division was not available until 2003, this data is not meaningful and is therefore not presented.

(d) As investment Division was not available until 2004, this data is not meaningful and is therefore not presented.

(e) As investment Division was not available until 2005, this data is not meaningful and is therefore not presented.

A The Investment Income Ratio represents dividends received by the Division, excluding capital gains distributions, divided by the average net assets. The recognition of investment income is determined by the timing of the declaration of dividends by the underlying fund in which the Division invests.

B The Expense Ratio considers only the expenses borne directly by the Account and is equal to the mortality and expense charge, plus annual administrative charges and other contract charges, as defined in Note 3. Certain items in this table are presented as a range of minimum and maximum values; however, such information is calculated independently for each column in the table.

C Total Return is calculated as the change in unit value for each Contract presented in the Statements of Assets and Liabilities. Certain items in this table are presented as a range of minimum and maximum values; however, such information is calculated independently for each column in the table.

Report of Independent Registered Public Accounting Firm

The Board of Directors
ING USA Annuity and Life Insurance Company

We have audited the accompanying balance sheets of ING USA Annuity and Life Insurance Company as of December 31, 2005 and 2004, and the related statements of operations, changes in shareholder's equity, and cash flows for each of the three years in the period ended December 31, 2005. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits include consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of ING USA Annuity and Life Insurance Company as of December 31, 2005 and 2004, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2005, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 1 to the financial statements, the Company changed the accounting principle for certain non-traditional long duration contracts and for separate accounts effective January 1, 2004. As discussed in Note 15 to the financial statements, the Company restated certain amounts presented in the statements of cash flows related to realized gains and losses, investment contracts, and short-term loans for the years ended December 31, 2004 and 2003.

1. Organization and Significant Accounting Policies

Basis of Presentation

ING USA Annuity and Life Insurance Company (“ING USA” or the “Company,” as appropriate) is a stock life insurance company domiciled in the State of Iowa and provides financial products and services in the United States. ING USA is authorized to conduct its insurance business in the District of Columbia and all states except New York.

ING USA is a direct, wholly-owned subsidiary of Lion Connecticut Holdings Inc. (“Lion” or “Parent”), which is an indirect, wholly-owned subsidiary of ING Groep N.V. (“ING”). ING is a global financial services holding company based in The Netherlands, with American Depository Shares listed on the New York Stock Exchange under the symbol “ING”.

On January 1, 2004, the Company simultaneously redomesticated from Delaware to Iowa, changed its name from Golden American Life Insurance Company to ING USA Annuity and Life Insurance Company, and merged the following affiliates into the Company: Equitable Life Insurance Company of Iowa (“Equitable Life”), USG Annuity & Life Company, and United Life & Annuity Insurance Company (collectively, the “Merger Companies”). Prior to the merger date, ING USA was a wholly-owned subsidiary of Equitable Life.

Description of Business

The Company offers various insurance products including immediate and deferred variable and fixed annuities. The Company’s annuity products are distributed by national wirehouses, regional securities firms, independent National Association of Securities Dealers, Inc. (“NASD”) firms with licensed registered representatives, banks, life insurance companies with captive agency sales forces, independent insurance agents, independent marketing organizations and the ING broker-dealer network. The Company’s primary annuity customers are retail consumers.

The Company also offers guaranteed investment contracts and funding agreements, collectively referred to as “GICs”, primarily to institutional investors and corporate benefit plans. These products are marketed by home office personnel or through specialty insurance brokers.

The Company previously provided interest-sensitive, traditional, and variable life insurance, and health insurance. The Company no longer issues these products. The life insurance business is in run-off and the Company has ceded to other insurers all health insurance.

The Company has one operating segment, ING U.S. Financial Services.

Recently Adopted Accounting Standards

The Meaning of Other-Than-Temporary Impairment and its Application to Certain Investments

In March 2004, the Emerging Issues Task Force (“EITF”) reached a final consensus on EITF Issue No. 03-1, “The Meaning of Other-Than-Temporary Impairment and its Application to Certain Investments” (“EITF 03-1”), adopting a three-step impairment model for securities within its scope. The three-step model is applied on a security-by-security basis as follows:

- Step 1: Determine whether an investment is impaired. An investment is impaired if the fair value of the investment is less than its cost basis.
- Step 2: Evaluate whether an impairment is other-than-temporary.
- Step 3: If the impairment is other-than-temporary, recognize an impairment loss equal to the difference between the investment’s cost and its fair value.

On September 30, 2004, the Financial Accounting Standards Board (“FASB”) issued FASB Staff Position (“FSP”) No. EITF Issue 03-1-1 “Effective Date of Paragraphs 10-20 of EITF Issue No. 03-1, ‘The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments’” (“FSP EITF 03-1-1”), which delayed the EITF 03-1 original effective date of July 1, 2004 for steps two and three of the impairment model introduced.

On November 3, 2005, the FASB issued FSP Statement of Financial Accounting Standard (“FAS”) No. 115-1, “The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments” (“FSP FAS No. 115-1”). FSP FAS No. 115-1 replaces the impairment evaluation guidance of EITF 03-1.

FSP FAS No. 115-1 addresses the determination of when an investment is considered impaired, whether that impairment is other-than-temporary, and the measurement of an impairment loss. In addition, it includes considerations for accounting subsequent to the recognition of an other-than-temporary impairment and requires certain disclosures about unrealized losses that have not been recognized as other-than-temporarily impaired. FSP FAS No. 115-1 further clarifies that an impairment loss should be recognized no later than when the impairment is deemed other-than-temporary, even if a decision to sell an impaired security has not been made. FSP FAS No. 115-1 references existing guidance on other-than-temporary impairments.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

FSP FAS No. 115-1 is effective for reporting periods beginning after December 15, 2005, and was implemented by the Company during the fourth quarter of 2005. As a result of adopting FSP FAS No. 115-1, the Company recognized impairment losses of \$3.1 for the year ended December 31, 2005, related to investments that the Company does not have the intent and ability to retain for a period of time sufficient to allow for recovery in fair value. The required disclosures are included in the Investments footnote.

Investor's Accounting for an Investment in a Limited Partnership When the Investor is the Sole General Partner and the Limited Partners Have Certain Rights

In June 2005, the EITF reached a consensus on EITF Issue 04-5, "Investor's Accounting for an Investment in a Limited Partnership When the Investor is the Sole General Partner and the Limited Partner Have Certain Rights" ("EITF 04-5"), which states that the general partner in a limited partnership should presume that it controls and, thus, should consolidate the limited partnership, unless the limited partners have either (a) substantive ability to dissolve the limited partnership or otherwise remove the general partner without cause or (b) substantive participating rights. EITF 04-5 applies to limited partnerships that are not variable interest entities under FASB Interpretation No. 46R: "Consolidation of Variable Interest Entities" ("FIN 46R"). EITF 04-5 was effective immediately for all new limited partnership formed and for existing limited partnerships for which partnership agreements are modified after June 29, 2005, and is effective for all other limited partnerships at the commencement of the first reporting period beginning after December 15, 2005.

The Company's limited partnership investment totaling \$19.7 in Powers Ferry Properties Ltd Partnership ("PFP"), an affiliate acquired on May 12, 2005, is accounted for using the equity method, as ING USA does not have substantive kick-out or participating rights and, therefore, cannot overcome the presumption of control by the general partner of PFP. As of December 31, 2005, the Company's remaining investments in limited partnerships are generally considered variable interest entities under FIN 46R, and are accounted for using the cost or equity methods of accounting since the Company is not the primary beneficiary. Investments in limited partnerships are included in Other investments on the Balance Sheets.

(Dollar amounts in millions, unless otherwise stated)

Share-Based Payment

In December 2004, the FASB issued Statement of Financial Accounting Standards ("FAS") No. 123 (revised 2004), "Share-Based Payment" ("FAS No. 123R"), which requires all share-based payments to employees be recognized in the financial statements based upon the fair value. FAS No. 123R was effective at the beginning of the first interim or annual period beginning after June 15, 2005. FAS No. 123R provides two transition methods, modified-prospective and modified-retrospective.

The modified-prospective method recognizes the grant-date fair value of compensation for new awards granted after the effective date and unvested awards beginning in the fiscal period in which the recognition provision are first applied. Prior periods are not restated. The modified-retrospective method permits entities to restate prior periods by recognizing the compensation cost based on amounts previously reported in the pro forma footnote disclosure as required under FAS No. 123, "Accounting for Stock-Based Compensation" ("FAS No. 123").

The Company early adopted the provisions of FAS No. 123R on January 1, 2005, using the modified-prospective method. Under the modified-prospective method, compensation cost recognized in 2005 includes: (a) compensation cost for all share-based payments granted prior to, but not yet vested as of January 1, 2005, based on the grant date fair value estimated in accordance with the original provision of FAS No. 123, and (b) compensation cost for all share-based payments granted subsequent to January 1, 2005, based on the grant date fair value in accordance with the provisions of FAS No. 123R. Results for prior periods are not restated. Prior to January 1, 2005, the Company applied the intrinsic value-based provisions set forth in Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB No. 25"), and related Interpretations, as permitted by FAS No. 123. No stock based employee compensation cost was recognized in the Statement of Operations during 2004 and 2003, as all options granted during the year had an exercise price equal to the market value of the underlying common stock on the date of grant. All shares granted during 2005 and 2004 were those of ING, the Company's ultimate parent. As a result of adopting FAS No. 123R, the Company's net income for the year ended December 31, 2005, was \$1.3 lower than if it had continued to account for share-based payments under APB No. 25. The fair value of shares granted during 2005 was \$1.9 as of December 31, 2005, and will be expensed over a vesting period of 3 years. Prior to the adoption of FAS No. 123R, no modifications were made to outstanding options, and there were no significant changes to valuation methodologies as a result of the adoption of FAS No. 123R.

Accounting and Reporting by Insurance Enterprises for Certain Nontraditional Long-Duration Contracts and for Separate Accounts

The Company adopted Statement of Position (“SOP”) 03-1, “Accounting and Reporting by Insurance Enterprises for Certain Nontraditional Long-Duration Contracts and for Separate Accounts” (“SOP 03-1”), on January 1, 2004. SOP 03-1 establishes several new accounting and disclosure requirements for certain nontraditional long-duration contracts and for separate accounts including, among other things, a requirement that assets and liabilities of separate account arrangements that do not meet certain criteria be accounted for as general account assets and liabilities, and that the revenue and expenses related to such arrangements be consolidated with the respective line items in the Statements of Operations. In addition, SOP 03-1 requires additional liabilities be established for certain guaranteed death benefits and for products with certain patterns of cost of insurance charges. Sales inducements provided to contractowners must be recognized on the balance sheet separately from deferred policy acquisition costs and amortized as a component of benefits expense using methodologies and assumptions consistent with those used for amortization of deferred policy acquisition costs.

The Company evaluated all requirements of SOP 03-1 and determined that it is affected by the SOP’s requirements to establish additional liabilities for certain guaranteed benefits and products with patterns of cost of insurance charges resulting in losses in later policy durations from the insurance benefit function and to defer, amortize, and recognize separately, sales inducements to contractowners. Upon adoption of SOP 03-1 on January 1, 2004, the Company recognized a cumulative effect of a change in accounting principle of \$(3.6), before tax, or \$(2.3) net of \$1.3 of income taxes. In addition, requirements for certain separate account arrangements that do not meet the established criteria for separate asset and liability recognition are applicable to the Company, however, the Company’s policies on separate account assets and liabilities have historically been, and continue to be, in conformity with the requirements newly established.

In the fourth quarter of 2004, the cumulative effect of a change in accounting principle was revised due to the Company’s implementation of Technical Practice Aid 6300.05–6300.08 “Q&As Related to the Implementation of SOP 03-1, ‘Accounting and Reporting by Insurance Enterprises for Certain Nontraditional Long-Duration Contracts and for Separate Accounts’” (the “TPA”).

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The TPA, which was approved in September 2004, provided additional guidance regarding certain implicit assessments that may be used in the testing of the base mortality function on contracts, which is performed to determine whether additional liabilities are required in conjunction with SOP 03-1. In addition, the TPA provided additional guidance surrounding the allowed level of aggregation of additional liabilities determined under SOP 03-1. While the TPA was implemented during the fourth quarter of 2004, the TPA is retroactive to the original implementation date of SOP 03-1, January 1, 2004 and is reported as an adjustment to SOP 03-1's cumulative effect of a change in accounting principle. The adoption of the TPA reduced the Company's cumulative effect of a change in accounting principle by \$2.0, before tax and decreased quarterly 2004 net income approximately \$0.6 in each quarter, for a total decrease of \$2.3.

The implementation of SOP 03-1 also raised questions regarding the interpretation of the requirements of FAS No. 97 "Accounting and Reporting by Insurance Enterprises for Certain Long-Duration Contracts and for Realized Gains and Losses from the Sale of Investments" ("FAS No. 97"), concerning when it is appropriate to record an unearned revenue liability related to the insurance benefit function. To clarify its position, the "FASB issued FASB Staff Position No. FAS 97-1, "Situations in Which Paragraphs 17(b) and 20 of FASB Statement No. 97, 'Accounting and Reporting by Insurance Enterprises for Certain Long-Duration Contracts and for Realized Gains and Losses from the Sale of Investments,' Permit or Require Accrual of an Unearned Revenue Liability" ("FSP FAS 97-1"), effective for fiscal periods beginning subsequent to the date the guidance was issued, June 18, 2004. The Company adopted FSP FAS 97-1 on July 1, 2004. The adoption of FSP FAS 97-1 did not have an impact on the Company's financial position, results of operations, or cash flows.

Variable Interest Entities

In January 2003, the FASB issued FASB Interpretation 46, "Consolidation of Variable Interest Entities, an Interpretation of ARB No. 51" ("FIN 46"). In December 2003, the FASB issued FIN 46R to make certain technical revisions and address certain implementation issues that had arisen. FIN 46R provides a new framework for identifying variable interest entities ("VIEs") and determining when a company should include the assets, liabilities, noncontrolling interests, and results of activities of a VIE in its consolidated financial statements.

In general, a VIE is a corporation, partnership, limited-liability corporation, trust, or any other legal structure used to conduct activities or hold assets that either (1) has an insufficient amount of equity to carry out its principal activities without additional subordinated financial support, (2) has a group of equity owners that are unable to make significant decisions about its activities, or (3) has a group of equity owners that do not have the obligation to absorb losses or the right to receive returns generated by its operations.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

FIN 46R requires a VIE to be consolidated if a party with an ownership, contractual, or other financial interest in the VIE (a variable interest holder) is obligated to absorb a majority of the risk of loss from the VIE's activities, is entitled to receive a majority of the VIE's residual returns (if no party absorbs a majority of the VIE's losses), or both. A variable interest holder that consolidates the VIE is called the primary beneficiary. Upon consolidation, the primary beneficiary generally must initially record all of the VIE's assets, liabilities, and noncontrolling interests at fair value and subsequently account for the VIE as if it were consolidated based on majority voting interest. FIN 46R also requires disclosures about VIEs that the variable interest holder is not required to consolidate but in which it has a significant variable interest.

The adoption of FIN 46R had no impact on the Company's financial statements. The Company held investments in VIEs in the form of private placement securities, structured securities, securitization transactions, and limited partnerships with an aggregate fair values of \$8.5 billion and \$7.0 billion as of December 31, 2005 and 2004, respectively. These VIEs are held by the Company for investment purposes. Consolidation of these investments in the Company's financial statements is not required as the Company is not the primary beneficiary for any of these VIEs. Book values as of December 31, 2005 and 2004 of \$8.5 billion and \$6.9 billion, respectively, represent the maximum exposure to loss on the investment of VIEs. In addition, the Company may be exposed to the loss of asset management fees it receives for some of this structures.

New Accounting Pronouncements

Accounting for Certain Hybrid Financial Instruments

In February 2006, the FASB issued FAS No. 155, "Accounting for Certain Hybrid Financial Instruments – an amendment of FASB Statements No. 133 and 140" ("FAS No. 155"), which permits the application of fair value accounting to certain hybrid financial instruments in their entirety if they contain embedded derivatives that would otherwise require bifurcation under FAS No. 133, "Accounting for Derivative Instruments and Hedging Activities" ("FAS No. 133"). Under this approach, changes in fair value would be recognized currently in earnings. In addition, FAS No. 155 does the following:

- Clarifies which interest-only strips and principal-only strips are not subject to derivative accounting under FAS No. 133;
- Requires that interests in securitized financial assets be analyzed to identify interests that are freestanding derivatives or that are hybrid instruments that contain embedded derivatives requiring bifurcation;
- Clarifies that concentrations of credit risk in the form of subordination are not embedded derivatives; and
- Allows a qualifying special-purpose entity to hold derivative financial instruments that pertain to beneficial interests, other than another derivative financial instrument.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

FAS No. 155 is effective for all instruments acquired, issued, or subject to a remeasurement event, occurring after the beginning of the first fiscal year that commences after September 15, 2006. The Company is in the process of determining the impact of FAS No. 155.

Accounting by Insurance Enterprises for Deferred Acquisition Costs in Connection with Modifications or Exchanges of Insurance Contracts

In September 2005, the American Institute of Certified Public Accountants issued Statement of Position 05-1, "Accounting by Insurance Enterprises for Deferred Acquisition Costs in Connection With Modifications or Exchanges of Insurance Contracts" ("SOP 05-1"), which states that when an internal replacement transaction results in a substantially changed contract, the unamortized deferred acquisition costs, unearned revenue liabilities, and deferred sales inducement assets, related to the replaced contract should not be deferred in connection with the new contract. Contract modifications that meet various conditions defined by SOP 05-1 and result in a new contract that is substantially unchanged from the replaced contract, however, should be accounted for as a continuation of the replaced contract.

SOP 05-1 defines an internal replacement as a modification in product benefits, features, rights, or coverage, that occur by the exchange of a contract for a new contract, by amendment, endorsement, or rider, to a contract, or by the election of a feature or coverage within a contract. SOP 05-1 applies to internal replacements made primarily to contracts defined by FAS No. 60, "Accounting and Reporting by Insurance Enterprises" ("FAS No. 60"), as short-duration and long-duration insurance contracts, and by FAS No. 97, as investment contracts.

SOP 05-1 is effective for internal replacements occurring in fiscal years beginning after December 15, 2006, with earlier adoption encouraged. The Company is in the process of determining the impact of adoption of SOP 05-1.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from reported results using those estimates.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Reclassifications

Certain reclassifications have been made to prior year financial information to conform to the current year classifications (see Reclassification and Changes to Prior Year Presentation footnote).

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, money market instruments, and other debt issues with a maturity of 90 days or less when purchased.

Investments

All of the Company's fixed maturity and equity securities are currently designated as available-for-sale. Available-for-sale securities are reported at fair value and unrealized gains and losses on these securities are included directly in Shareholder's equity, after adjustment for related changes in deferred policy acquisition costs ("DAC"), value of business acquired ("VOBA"), and deferred income taxes.

Other-Than-Temporary-Impairments

The Company analyzes the general account investments to determine whether there has been an other-than-temporary decline in fair value below the amortized cost basis. Management considers the length of the time and the extent to which the fair value has been less than amortized cost, the issuer's financial condition and near-term prospects, future economic conditions and market forecasts, and the Company's intent and ability to retain the investment for a period of time sufficient to allow for recovery in fair value. If it is probable that all amounts due according to the contractual terms of a debt security will not be collected, an other-than-temporary impairment is considered to have occurred.

In addition, the Company invests in structured securities that meet the criteria of EITF Issue No. 99-20, "Recognition of Interest Income and Impairment on Purchased and Retained Beneficial Interests in Securitized Financial Assets" ("EITF 99-20"). Under EITF 99-20, a further determination of the required impairment is based on credit risk and the possibility of significant prepayment risk that restricts the Company's ability to recover the investment. An impairment is recognized if the fair value of the security is less than amortized cost and there has been an adverse change in cash flow since the remeasurement date.

When a decline in fair value is determined to be other-than-temporary, the individual security is written down to fair value, and the loss is recorded in Net realized capital gains (losses).

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Purchases and Sales

Purchases and sales of fixed maturities and equity securities, excluding private placements, are recorded on the trade date. Purchases and sales of private placements and mortgage loans are recorded on the closing date.

Valuation

Fair values for fixed maturities are obtained from independent pricing services or broker-dealer quotations. Fair values for privately placed bonds are determined using a matrix-based model. The matrix-based model considers the level of risk-free interest rates, current corporate spreads, the credit quality of the issuer, and cash flow characteristics of the security. The fair values for actively traded equity securities are based on quoted market prices. For equity securities not actively traded, estimated fair values are based upon values of issues of comparable yield and quality or conversion value, where applicable.

Mortgage loans on real estate are reported at amortized cost, less impairment write-downs. If the value of any mortgage loan is determined to be impaired (i.e., when it is probable that the Company will be unable to collect all amounts due according to the contractual terms of the loan agreement), the carrying value of the mortgage loan is reduced to either the present value of expected cash flows from the loan, discounted at the loan's effective interest rate, or fair value of the collateral. If the loan is in foreclosure, the carrying value is reduced to the fair value of the underlying collateral, net of estimated costs to obtain and sell. The carrying value of the impaired loans is reduced by establishing a permanent write-down recorded in Net realized capital gains (losses). At December 31, 2005 and 2004, the Company had no allowance for mortgage loan credit losses.

Policy loans are carried at unpaid principal balances.

Short-term investments, consisting primarily of money market instruments and other fixed maturity issues purchased with an original maturity of 91 days to one year, are considered available-for-sale and are carried at fair value, which approximates amortized cost.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Derivative instruments are reported at fair value using the Company's derivative accounting system. The system uses key financial data, such as yield curves, exchange rates, Standard & Poor's ("S&P") 500 Index prices, and London Inter Bank Offered Rates, which are obtained from third party sources and uploaded into the system. Embedded derivative instruments are reported at fair value based upon internally established valuations that are consistent with external valuation models or market quotations. Guaranteed minimum withdrawals benefits ("GMWBs") without life contingency and guaranteed minimum accumulation benefits ("GMABs") represent an embedded derivative liability in the variable annuity contract that is required to be reported separately from the host variable annuity contract. The option component of an equity indexed annuity ("EIA") also represents an embedded derivative. These embedded derivatives are carried at fair value based on actuarial assumptions related to projected cash flows, including benefits and related contract charges, over the lives of the contracts, incorporating expectations concerning contractowner behavior.

Repurchase Agreements

The Company engages in dollar repurchase agreements ("dollar rolls") and repurchase agreements to increase the return on investments and improve liquidity. These transactions involve a sale of securities and an agreement to repurchase substantially the same securities as those sold. Company policies require a minimum of 95% of the fair value of securities pledged under dollar rolls and repurchase agreement transactions to be maintained as collateral. Cash collateral received is invested in fixed maturities, and the carrying value of the securities pledged in dollar rolls and repurchase agreement transactions is included in Securities pledged on the Balance Sheets. The repurchase obligation related to dollar rolls and repurchase agreements is included in Borrowed money on the Balance Sheets.

The Company also enters into reverse repurchase agreements. These transactions involve a purchase of securities and an agreement to sell substantially the same securities as those purchased. Company policies require a minimum of 102% of the fair value of securities pledged under reverse repurchase agreements to be pledged as collateral. Reverse repurchase agreements are included in Cash equivalents on the Balance Sheets.

Securities Lending

The Company engages in securities lending whereby certain securities from its portfolio are loaned to other institutions for short periods of time. Initial collateral, primarily cash, is required at a rate of 102% of the market value of the loaned domestic securities. The collateral is deposited by the borrower with a lending agent, and retained and invested by the lending agent according to the Company's guidelines to generate additional income. The market value of the loaned securities is monitored on a daily basis with additional collateral obtained or refunded as the market value of the loaned securities fluctuates.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Derivatives

The Company's use of derivatives is limited mainly to hedging purposes to reduce the Company's exposure to cash flow variability of assets and liabilities, interest rate risk, credit risk, and market risk. Generally, derivatives are not accounted for using hedge accounting treatment under FAS No. 133, as the Company has not historically sought hedge accounting treatment.

The Company enters into interest rate, equity market, credit default, total return, and currency contracts, including swaps, caps, floors, and options, to reduce and manage risks associated with changes in value, yield, price, cash flow, or exchange rates of assets or liabilities held or intended to be held, or to assume or reduce credit exposure associated with a referenced asset, index, or pool. The Company also purchases options and futures on equity indexes to reduce and manage risks associated with its annuity products. Open derivative contracts with asset balances and liability balances are included in Other investments or Other liabilities, as appropriate, on the Balance Sheets. Changes in the fair value of such derivatives are recorded in Net realized capital gains (losses) in the Statements of Operations.

During the fourth quarter of 2005, the Company revised the financial statement presentation of derivatives. Previously, asset balances and liability balances on open derivative contracts were netted and recorded in Other investments on the Balance Sheet. The Company now reports derivatives with asset balances in Other investments and derivatives with liability balances in Other liabilities. In addition, changes in the fair value of certain derivative were previously recorded in Net investment income in the Statement of Operations. The total change in fair value of these derivatives is now reported in net realized capital gains (losses). These revisions resulted in an increase in Other investments and Other liabilities of \$44.2 and \$133.6 at December 31, 2004 and 2003, respectively, as well as a reclassification of \$(114.3) and \$(146.6) from Net investment income to Net realized capital gains and losses at December 31, 2004 and 2003, respectively.

The Company also had investments in certain fixed maturity instruments, and has issued certain retail annuity products, that contain embedded derivatives whose market value is at least partially determined by, among other things, levels of or changes in domestic and/or foreign interest rates (short- or long-term), exchange rates, prepayment rates, equity markets, or credit ratings/spreads.

Embedded derivatives within fixed maturity instruments are included in Fixed maturities on the Balance Sheets, and changes in fair value are recorded in Net realized capital gains (losses) in the Statements of Operations.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Embedded derivatives within retail annuity products are included in Future policy benefits and claims reserves on the Balance Sheets, and changes in the fair value are recorded in Interest credited and other benefits to contractowners in the Statements of Operations.

Deferred Policy Acquisition Costs and Value of Business Acquired

DAC represents policy acquisition costs that have been capitalized and are subject to amortization. Such costs consist principally of certain commissions, underwriting, contract issuance, and agency expenses, related to the production of new and renewal business.

VOBA represents the outstanding value of in force business capitalized in purchase accounting when the Company was acquired and is subject to amortization. The value is based on the present value of estimated profits embedded in the Company's contracts.

FAS No. 97 applies to universal life and investment-type products, such as fixed and variable deferred annuities. Under FAS No. 97, DAC and VOBA are amortized, with interest, over the life of the related contracts in relation to the present value of estimated future gross profits from investment, mortality, and expense margins, plus surrender charges. DAC related to GICs, however, is amortized on a straight-line basis over the life of the contract.

For FAS No. 97 products, changes in assumptions can have a significant impact on DAC and VOBA balances and amortization rates. Several assumptions are considered significant in the estimation of future gross profits associated with variable universal life and variable deferred annuity products. One of the most significant assumptions involved in the estimation of future gross profits is the assumed return associated with the variable account performance. To reflect the volatility in the equity markets, this assumption involves a combination of near-term expectations and long-term assumptions regarding market performance. The overall return on the variable account is dependent on multiple factors, including the relative mix of the underlying sub-accounts among bond funds and equity funds, as well as equity sector weightings. Other significant assumptions include surrender and lapse rates, estimated interest spread, and estimated mortality.

Due to the relative size and sensitivity to minor changes in underlying assumptions of DAC and VOBA balances, the Company performs quarterly and annual analyses of DAC and VOBA for the annuity and life businesses, respectively. The DAC and VOBA balances are evaluated for recoverability.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

At each evaluation date, actual historical gross profits are reflected and estimated future gross profits and related assumptions are evaluated for continued reasonableness. Any adjustment in estimated profit requires that the amortization rate be revised (“unlocking”), retroactively to the date of the policy or contract issuance. The cumulative unlocking adjustment is recognized as a component of current period amortization. In general, increases in investment, mortality, and expense margins, and thus estimated future profits, lower the rate of amortization. However, decreases in investment, mortality, and expense margins, and thus estimated future profits, increase the rate of amortization.

Reserves

Future policy benefits and claims reserves include reserves for deferred annuities and immediate annuities with and without life contingent payouts, universal life insurance contracts, and GICs. Generally, reserves are calculated using mortality and withdrawal rate assumptions based on relevant Company experience and are periodically reviewed against both industry standards and experience.

Reserves for deferred annuity investment contracts and immediate annuities without life contingent payouts are equal to cumulative deposits, less charges and withdrawals, plus credited interest thereon. Reserve interest rates varied by product up to 8.0% for 2005, 2004, and 2003.

Reserves for individual immediate annuities with life contingent payout benefits are computed on the basis of assumed interest discount rate, mortality, and expenses, including a margin for adverse deviations. Such assumptions generally vary by annuity plan type, year of issue, and policy duration. For 2005, 2004, and 2003, reserve interest discount rates varied up to 8.0%.

Reserves for EIAs are computed in accordance with FAS No. 97 and FAS No. 133. Accordingly, the aggregate initial liability is equal to the deposit received plus a bonus, if applicable, and is split into a host component and an embedded derivative component. Thereafter, the host liability accumulates at a set interest rate, and the embedded derivative liability is recognized at fair value, with the change in fair value recorded in the Statements of Operations.

Reserves for universal life products are equal to cumulative deposits, less withdrawals and charges, plus credited interest thereon. Reserves for traditional life insurance contracts represent the present value of future benefits to be paid to or on behalf of contractowners and related expenses less the present value of future net premiums.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Under SOP 03-1, the Company calculates additional liabilities for certain guaranteed benefits and for universal life products with certain patterns of cost of insurance charges and certain other fees. The SOP 03-1 reserve recognized for such products is in addition to the liability previously held and recognizes the portion of contract assessments received in early years used to compensate the insurer for services provided in later years.

The Company calculates a benefit ratio for each block of business subject to SOP 03-1, and calculates an SOP 03-1 reserve by accumulating amounts equal to the benefit ratio multiplied by the assessments for each period, reduced by excess death benefits during the period. The SOP 03-1 reserve is accumulated at interest rates using the contract-credited rate for the period. The calculated reserve includes a provision for universal life contracts with patterns of cost of insurance charges that produce expected gains from the insurance benefit function followed by losses from that function in later years.

The SOP 03-1 reserve for annuities with guaranteed minimum death benefits (“GMDBs”) is determined each period by estimating the expected value of death benefits in excess of the projected account balance and recognizing the excess ratably over the accumulation period based on total expected assessments. The Company regularly evaluates estimates used to adjust the additional liability balance, with a related charge or credit to benefit expense, if actual experience or other evidence suggests that earlier assumptions should be revised.

The SOP 03-1 reserve for GMWBs with life contingency and guaranteed minimum income benefits (“GMIBs”) is determined each period by estimating the expected value of the annuitization benefits in excess of the projected account balance at the date of annuitization and recognizing the excess ratably over the accumulation period based on total expected assessments. The Company regularly evaluates estimates used and adjusts the additional liability balance, with a related charge or credit to benefit expense, if the actual experience or other evidence suggests that earlier assumptions should be revised.

GMABs and GMWBs without life contingency are considered to be derivatives under FAS No. 133. The additional reserves for these guarantees are recognized at fair value through the Statements of Operations.

Reserves for GICs are calculated using the amount deposited with the Company, less withdrawals, plus interest accrued to the ending valuation date. Interest on these contracts is accrued by a predetermined index plus a spread or a fixed rate, established at the issue date of the contract.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Sales Inducements

Sales inducements represent benefits paid to contractowners for a specified period that are incremental to the amounts the Company credits on similar contracts and are higher than the contract's expected ongoing crediting rates for periods after the inducement. As of January 1, 2004, such amounts are reported separately on the Balance Sheets in accordance with SOP 03-1. Beginning in 2004, sales inducements are amortized as a component of Interest credited and other benefits to contractowners using methodologies and assumptions consistent with those used for amortization of DAC.

Revenue Recognition

For universal life and most annuity contracts, charges assessed against contractowner funds for the cost of insurance, surrender, expenses, and other fees are recorded as revenue as charges are assessed. Other amounts received for these contracts are reflected as deposits and are not recorded as premium or revenue. Related policy benefits are recorded in relation to the associated premiums or gross profit so that profits are recognized over the expected lives of the contracts. When annuity payments with life contingencies begin under contracts that were initially investment contracts, the accumulated balance in the account is treated as a single premium for the purchase of an annuity and reflected as an offsetting amount in both Premiums and Interest credited and other benefits to contractowners in the Statements of Operations.

Premiums on the Statements of Operations primarily represent amounts received under traditional life insurance policies.

For GICs, deposits made to the Company are not recorded as revenue in the Statements of Operations, but are recorded directly to Future policy benefits and claims reserves on the Balance Sheets.

Separate Accounts

Separate account assets and liabilities generally represent funds maintained to meet specific investment objectives of contractowners who bear the investment risk, subject, in limited cases, to certain minimum guarantees. Investment income and investment gains and losses generally accrue directly to such contractowners. The assets of each account are legally segregated and are not subject to claims that arise out of any other business of the Company.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Separate account assets supporting variable options under variable annuity contracts are invested, as designated by the contractowner or participant under a contract, in shares of mutual funds which are managed by the Company or its affiliates, or in other selected mutual funds not managed by the Company or its affiliates.

Separate account assets and liabilities are carried at fair value and shown as separate captions in the Balance Sheets. Deposits, investment income, and net realized and unrealized capital gains and losses of the separate accounts, however, are not reflected in the Statements of Operations (with the exception of realized and unrealized capital gains and losses on the assets supporting the guaranteed interest option). The Statements of Cash Flows do not reflect investment activity of the separate accounts.

Assets and liabilities of separate account arrangements that do not meet the criteria in SOP 03-1 for separate presentation in the Balance Sheets (primarily guaranteed interest options), and revenue and expenses related to such arrangements, are consolidated in the financial statements with the general account. At December 31, 2005 and 2004, unrealized gains of \$21.9 and \$100.5, respectively, after taxes, on assets supporting a guaranteed interest option are reflected in Shareholder's equity.

Reinsurance

The Company utilizes indemnity reinsurance agreements to reduce its exposure to large losses from its life and annuity insurance business. Reinsurance permits recovery of a portion of losses from reinsurers, although it does not discharge the Company's primary liability as the direct insurer of the risks. The Company evaluates the financial strength of potential reinsurers and continually monitors the financial strength and credit ratings of its reinsurers. Only those reinsurance recoverable balances deemed probable of recovery are reflected as assets on the Company's Balance Sheets.

Participating Insurance

Participating business approximates 10.4% of the Company's ordinary life insurance in force and 26.1% of life insurance premium income. The amount of dividends to be paid is determined annually by the Board of Directors. Amounts allocable to participating contractowners are based on published dividend projections or expected dividend scales. Dividends to participating policyholders of \$15.8, \$16.2, and \$17.2, were incurred during the years ended December 31, 2005, 2004, and 2003, respectively.

Income Taxes

The Company is taxed at regular corporate rates after adjusting income reported for financial statement purposes for certain items. Deferred income tax expenses/benefits result from changes during the year in cumulative temporary differences between the tax basis and book basis of assets and liabilities.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

2. Investments

Fixed Maturities and Equity Securities

Fixed maturities and equity securities, available-for-sale, as of December 31, 2005, were as follows:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Fixed maturities:				
U.S. government and government agencies and authorities	\$ 476.5	\$ 1.1	\$ 4.2	\$ 473.4
State, municipalities, and political subdivisions	20.1	-	0.7	19.4
U.S. corporate securities:				
Public utilities	1,579.2	39.7	19.4	1,599.5
Other corporate securities	5,077.9	86.4	63.5	5,100.8
Total U.S. corporate securities	<u>6,657.1</u>	<u>126.1</u>	<u>82.9</u>	<u>6,700.3</u>
Foreign securities:				
Government	464.7	13.8	4.1	474.4
Other	<u>2,447.6</u>	<u>33.3</u>	<u>38.5</u>	<u>2,442.4</u>

At December 31, 2005 and 2004, net unrealized (depreciation) appreciation was \$(5.3) and \$451.9, respectively, on total fixed maturities, including fixed maturities pledged to creditors, and equity securities.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Unrealized losses in fixed maturities at December 31, 2005 and 2004, were related to interest rate movement or spread widening and to mortgage and other asset-backed securities. Mortgage and other asset-backed securities include U.S. government backed securities, principal protected securities, and structured securities, which did not have an adverse change in cash flows. The following table summarizes the unrealized losses by duration and reason, along with the fair value of fixed maturities, including fixed maturities pledged to creditors, in unrealized loss position at December 31, 2005 and 2004.

	Less than Six Months	More than Six Months and less than Twelve Months	More than Twelve Months	Total
2005				
Interest rate or spread widening	\$ 49.1	\$ 32.6	\$ 48.7	\$ 130.4
Mortgage and other asset-backed securities	47.7	29.7	32.3	109.7
Total unrealized loss	<u>\$ 96.8</u>	<u>\$ 62.3</u>	<u>\$ 81.0</u>	<u>\$ 240.1</u>
Carrying amount	<u>\$ 5,757.0</u>	<u>\$ 2,266.6</u>	<u>\$ 2,243.0</u>	<u>\$ 10,266.6</u>
2004				
Interest rate or spread widening	\$ 12.3	\$ 16.9	\$ 18.0	\$ 47.2
Mortgage and other asset-backed securities	14.9	13.0	12.2	40.1
Total unrealized loss	<u>\$ 27.2</u>	<u>\$ 29.9</u>	<u>\$ 30.2</u>	<u>\$ 87.3</u>
Carrying amount	<u>\$ 3,199.9</u>	<u>\$ 1,710.7</u>	<u>\$ 709.1</u>	<u>\$ 5,619.7</u>

Of the unrealized losses aged more than twelve months, the average market value of the related fixed maturities is 97% of the average book value. In addition, this category includes over 400 securities, which have an average quality rating of A+. No other-than-temporary impairment loss was considered necessary for these fixed maturities as of December 31, 2005.

Overall, there has been an increase in unrealized losses from December 31, 2004 to December 31, 2005. This increase is largely caused by an increase in interest rates, which tends to have a negative market value impact on fixed maturity securities. In accordance with FSP FAS No. 115-1, the Company considers the negative market impact of the interest rate changes, in addition to credit related items, when performing other-than-temporary impairment testing. As a part of this testing, the Company determines whether or not it has the ability and intent to retain the investments for a period of time sufficient to allow for recovery in fair value.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The amortized cost and fair value of fixed maturities as of December 31, 2005, are shown below by contractual maturity. Actual maturities may differ from contractual maturities because securities may be restructured, called, or prepaid.

	Amortized Cost	Fair Value
Due to mature:		
One year or less	\$ 558.9	\$ 558.8
After one year through five years	3,263.1	3,255.9
After five years through ten years	4,743.8	4,762.3
After ten years	1,500.2	1,532.9
Mortgage-backed securities	5,247.9	5,210.3
Other asset-backed securities	1,723.8	1,711.1
Less: fixed maturities pledged	952.1	938.9
Fixed maturities, excluding fixed maturities pledged	<u>\$ 16,085.6</u>	<u>\$ 16,092.4</u>

The Company did not have any investments in a single issuer, other than obligations of the U.S. government, with a carrying value in excess of 10% of the Company's Shareholder's equity at December 31, 2005.

At December 31, 2005 and 2004, fixed maturities with fair values of \$11.7 and \$11.9, respectively, were on deposit as required by regulatory authorities.

The Company is a member of the Federal Home Loan Bank of Des Moines ("FHLB") and is required to maintain a collateral deposit that backs funding agreements issued to the FHLB. At December 31, 2005 and 2004, respectively, the Company had \$126.1 and \$376.3 in non-putable funding agreements issued to the FHLB. At December 31, 2005 and 2004, respectively, assets with a carrying value of approximately \$159.4 and \$422.0 collateralized the funding agreements to the FHLB. Collateralized assets are included in Fixed maturities in the Balance Sheets.

Repurchase Agreements

The Company engages in dollar rolls and repurchase agreements. At December 31, 2005 and 2004, the carrying value of the securities pledged in dollar rolls and repurchase agreement transactions was \$808.0 and \$715.9, respectively. The repurchase obligation related to dollar rolls and repurchase agreements totaled \$806.3 and \$713.4 at December 31, 2005 and 2004, respectively.

The Company also enters into reverse repurchase agreements. At December 31, 2005, the carrying value of the securities in reverse repurchase agreements was \$15.3. The Company had no reverse repurchase agreement at December 31, 2004.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The primary risk associated with short-term collateralized borrowings is that the counterparty will be unable to perform under the terms of the contract. The Company's exposure is limited to the excess of the net replacement cost of the securities over the value of the short-term investments, an amount that was not material at December 31, 2005 and 2004. The Company believes the counterparties to the dollar rolls, repurchase, and reverse repurchase agreements are financially responsible and that the counterparty risk is immaterial.

Other-Than-Temporary Impairments

The following table identifies the Company's other-than-temporary impairments by type for the years ended December 31, 2005, 2004, and 2003:

	2005		2004		2003	
	Impairment	No. of Securities	Impairment	No. of Securities	Impairment	No. of Securities
U.S. Corporate	\$ 3.0	12	\$ -	-	\$ 23.7	16
Residential mortgage-backed	16.4	86	9.1	88	81.3	173
Foreign ⁽¹⁾	0.1	1	8.5	4	11.5	2
Commercial mortgage	1.2	1	-	-	-	-
Limited partnerships	0.5	1	2.2	1	-	-
Other asset-backed	0.5	2	11.5	6	5.8	7
U.S. Treasury/Agencies	0.1	1	-	-	-	-
Total	<u>\$ 21.8</u>	<u>104</u>	<u>\$ 31.3</u>	<u>99</u>	<u>\$ 122.3</u>	<u>198</u>

⁽¹⁾ Primarily U.S. dollar denominated.

The above schedule includes \$3.1 in anticipated disposition write-downs related to investments that the Company does not have the intent and ability to retain for a period of time sufficient to allow for recovery in fair value, based upon the implementation of FSP FAS No. 115-1. The following table summarizes these write-downs by type for the year ended December 31, 2005:

	2005	
	Impairment	No. of Securities
U.S. Corporate	\$ 2.6	11
Residential mortgaged-backed	0.4	1
U.S. Treasury/Agencies	0.1	1
Total	<u>\$ 3.1</u>	<u>13</u>

The remaining fair value of fixed maturities with other-than-temporary impairments at December 31, 2005 and 2004 was \$255.3 and \$168.7, respectively.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The Company may sell securities during the period in which fair value has declined below amortized cost for fixed maturity securities or cost for equity securities. In certain situations new factors such as negative developments and subsequent credit deterioration can subsequently change the Company's previous intent to continue holding a security.

Because of rising interest rates, continued asset-liability management strategies and on-going comprehensive reviews of the Company's portfolios, changes were made in the fourth quarter of 2005 to the Company's strategy asset allocations. In addition, the Company also pursued yield enhancement strategies. These changes primarily resulted in anticipated disposition write-downs totaling \$3.1 of certain securities with unrealized loss positions due to a change in intent as to whether to hold these securities until recovery.

Net Investment Income

Sources of Net investment income were as follows for the years ended December 31, 2005, 2004, and 2003:

	2005	2004	2003
Fixed maturities, available-for-sale	\$ 936.4	\$ 953.1	\$ 948.1
Equity securities, available-for-sale	1.2	1.7	5.6
Mortgage loans on real estate	238.4	221.8	208.5
Real estate	1.3	0.2	0.6
Policy loans	9.1	9.8	8.8
Short-term investments and cash equivalents	4.1	1.4	17.2
Other	9.2	14.8	(8.1)
Gross investment income	1,199.7	1,202.8	1,180.7
Less: investment expenses	97.5	81.3	71.8
Net investment income	<u>\$ 1,102.2</u>	<u>\$ 1,121.5</u>	<u>\$ 1,108.9</u>

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Net Realized Capital Gains and Losses

Net realized capital gains (losses) are comprised of the difference between the carrying value of investments and proceeds from sale, maturity, and redemption, as well as losses incurred due to the other-than-temporary impairment of investments and changes in fair value of derivatives. Net realized capital gains (losses) on investments for the years ended December 31, 2005, 2004, and 2003 were as follows.

	2005	2004	2003
Fixed maturities, available-for-sale	\$ 47.9	\$ 51.0	\$ 113.3
Equity securities, available-for-sale	0.2	6.4	0.2
Derivatives	(50.8)	(104.9)	(144.9)
Real estate	1.2	0.1	(3.4)
Other	(1.4)	(2.1)	(0.3)
Pretax net realized capital losses	<u>\$ (2.9)</u>	<u>\$ (49.5)</u>	<u>\$ (35.1)</u>
After-tax net realized capital losses	<u>\$ (1.9)</u>	<u>\$ (32.2)</u>	<u>\$ (22.8)</u>

Proceeds from the sale of fixed maturities and equity securities, available-for-sale, and the related gross gains and losses were as follows for the years ended December 31, 2005, 2004, and 2003.

	2005	2004	2003
Proceeds on sales	\$ 9,317.1	\$ 9,916.3	\$ 13,664.8
Gross gains	97.2	145.5	297.6
Gross losses	75.2	59.3	60.4

3. Financial Instruments

Estimated Fair Value

The following disclosures are made in accordance with the requirements of FAS No. 107, "Disclosures about Fair Value of Financial Instruments" ("FAS No. 107"). FAS No. 107 requires disclosure of fair value information about financial instruments, whether or not recognized in the balance sheet, for which it is practicable to estimate that value. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. In that regard, the derived fair value estimates, in many cases, could not be realized in immediate settlement of the instrument.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

FAS No. 107 excludes certain financial instruments, including insurance contracts, and all nonfinancial instruments from its disclosure requirements. Accordingly, the aggregate fair value amounts presented do not represent the underlying value of the Company.

The following valuation methods and assumptions were used by the Company in estimating the fair value of the following financial instruments:

Fixed maturities, available-for-sale: The fair values for the actively traded marketable bonds are determined based upon the quoted market prices or dealer quotes. The fair values for marketable bonds without an active market are obtained through several commercial pricing services which provide the estimated fair values. Fair values of privately placed bonds are determined using a matrix-based pricing model. The model considers the current level of risk-free interest rates, current corporate spreads, the credit quality of the issuer, and cash flow characteristics of the security. Also considered are factors such as the net worth of the borrower, the value of collateral, the capital structure of the borrower, the presence of guarantees, and the Company's evaluation of the borrower's ability to compete in their relevant market. Using this data, the model generates estimated market values which the Company considers reflective of the fair value of each privately placed bond.

Equity securities, available-for-sale: Fair values of these securities are based upon quoted market price. For equity securities not actively traded, estimated fair values are based upon values of issues of comparable yield and quality or conversion price, where applicable.

Mortgage loans on real estate: The fair values for mortgage loans on real estate are estimated using discounted cash flow analyses and rates currently being offered in the marketplace for similar loans to borrowers with similar credit ratings. Loans with similar characteristics are aggregated for purposes of the calculations.

Cash and cash equivalents, Short-term investments under securities loan agreement, and Policy loans: The carrying amounts for these assets approximate the assets' fair values.

Assets held in separate accounts: Assets held in separate accounts are reported at the quoted fair values of the individual securities in the separate accounts.

Other financial instruments reported as assets: The carrying amounts for these financial instruments (primarily derivatives) approximate the fair value of the assets. Derivatives are carried at fair value on the Balance Sheets.

Notes to affiliates: Estimated fair value of the Company's notes to affiliates is based upon discounted future cash flows using a discount rate approximating the current market value.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Investment contract liabilities (included in Future policy benefits and claims reserves):

With a fixed maturity: Fair value is estimated by discounting cash flows at interest rates currently being offered by, or available to, the Company for similar contracts.

Without a fixed maturity: Fair value is estimated as the amount payable to the contractowner upon demand. However, the Company has the right under such contracts to delay payment of withdrawals, which may ultimately result in paying an amount different than that determined to be payable on demand.

Liabilities related to separate accounts: Liabilities related to separate accounts are reported at full account value in the Company's Balance Sheets. Estimated fair values of separate account liabilities are equal to their carrying amount.

The carrying values and estimated fair values of certain of the Company's financial instruments at December 31, 2005 and 2004, were as follows:

	2005		2004	
	Carrying	Fair	Carrying	Fair
	Value	Value	Value	Value
Assets:				
Fixed maturities, available-for-sale, including securities pledged	\$ 17,031.3	\$ 17,031.3	\$ 18,597.8	\$ 18,597.8
Equity securities, available-for-sale	29.7	29.7	35.3	35.3
Mortgage loans on real estate	3,766.8	3,774.8	3,851.8	3,969.4
Policy loans	166.1	166.1	169.0	169.0
Cash, cash equivalents, and Short-term investments under securities loan agreement	355.4	355.4	611.8	611.8
Other investments	460.7	465.6	277.2	277.4
Assets held in separate accounts	30,262.8	30,262.8	24,746.7	24,746.7
Liabilities:				
Notes to affiliates	435.0	390.4	435.0	508.5

Guaranteed investment contracts and funding agreements	3,362.2	3,352.9	3,060.1	3,063.0
Supplementary contracts and immediate annuities	893.3	893.3	864.9	864.9
Liabilities related to separate accounts	30,262.8	30,262.8	24,746.7	24,746.7

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Fair value estimates are made at a specific point in time, based on available market information and judgments about various financial instruments, such as estimates of timing and amounts of future cash flows. Such estimates do not reflect any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument, nor do they consider the tax impact of the realization of unrealized gains or losses. In many cases, the fair value estimates cannot be substantiated by comparison to independent markets, nor can the disclosed value be realized in immediate settlement of the instruments. In evaluating the Company's management of interest rate, price, and liquidity risks, the fair values of all assets and liabilities should be taken into consideration, not only those presented above.

Derivative Financial Instruments

	Notional Amount		Fair Value	
	2005	2004	2005	2004
<i>Interest Rate Caps</i>				
Interest rate caps are used to manage the interest rate risk in the Company's fixed maturity portfolio.				
Interest rate caps are purchased contracts that provide the Company with an annuity in an increasing interest rate environment.	\$ 91.2	\$ 236.2	\$ -	\$ -
<i>Interest Rate Swaps</i>				
Interest rate swaps are used to manage the interest rate risk in the Company's fixed maturity portfolio, as well as the Company's liabilities. Interest rate swaps represent contracts that require the exchange of cash flows at regular interim periods, typically monthly or quarterly.	3,535.5	2,832.8	58.2	34.0
<i>Foreign Exchange Swaps</i>				
Foreign exchange swaps are used to reduce the risk of a change in the value, yield, or cash flow with respect to invested assets. Foreign exchange swaps represent contracts that require the exchange of foreign currency cash flows for U.S. dollar cash flows at regular interim periods, typically quarterly or semi-annually.	206.2	146.7	(24.0)	(34.5)

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

	<u>Notional Amount</u>		<u>Fair Value</u>	
	<u>2005</u>	<u>2004</u>	<u>2005</u>	<u>2004</u>
<i>Credit Default Swaps</i>				
Credit default swaps are used to reduce the credit loss exposure with respect to certain assets that the Company owns, or to assume credit exposure to certain assets that the Company does not own. Payments are made to or received from the counterparty at specified intervals and amounts for the purchase or sale of credit protection. In the event of a default on the underlying credit exposure, the Company will either receive an additional payment (purchased credit protection) or will be required to make an additional payment (sold credit protection) equal to the notional value of the swap contract.	\$ 112.0	\$ -	\$ (0.3)	\$ -
<i>Swaptions</i>				
Swaptions are used to manage interest rate risk in the Company's CMOB portfolio. Swaptions are contracts that give the Company the option to enter into an interest rate swap at a specific future date.	150.0	-	-	-
<i>Futures</i>				
Futures contracts are used to hedge against a decrease in certain equity indexes. Such decrease may result in a decrease in variable annuity account values, which would increase the possibility of the company incurring an expense for guaranteed benefits in excess of account values. The futures income would serve to offset this increased expense. The underlying reserve liabilities are valued under either SOP 03-01, or FAS No. 133 (see discussion under "Reserves" section) and the change in reserve liability is recorded in Interest credited and other benefits to contractowners. The gain or loss on futures is recorded in Net realized capital gains (losses).	1,530.9	1,177.9	7.2	(0.2)

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

	Notional Amount		Fair Value	
	2005	2004	2005	2004
<i>Options</i>				
S&P Options are used to hedge against an increase in the S&P Index. Such increase may result in increased payments to contract holders of equity indexed annuity contracts, and the options offset this increased expense. Both the options and the embedded derivative reserve are carried at fair value. The change in value of the options are recorded in Net realized capital gains (losses); the change in value of the embedded derivative is recorded in Interest credited and other benefits to contractowners.	\$ 4,183.7	\$ 2,335.4	\$ 215.8	\$ 166.0
<i>Embedded Derivatives</i>				
The Company also has investments in certain fixed maturity instruments, and has issued certain retail annuity products, that contain embedded derivatives whose market value is at least partially determined by, among other things, levels of or changes in domestic and/or foreign interest rates (short- or long-term), exchange rates, prepayment rates, equity rates, or credit ratings/spreads.				
Within securities	N/A*	N/A*	(0.3)	(4.6)
Within retail annuity products	N/A*	N/A*	389.2	294.1

*N/A - not applicable.

Interest Rate Swaps

Interest rate swaps include two agreements with Security Life of Denver Insurance Company ("Security Life"), an affiliate, with notional amounts of \$100.0 and fair values of \$(0.3) and \$(0.2) at December 31, 2005 (see Related Party Transactions footnote for further information).

Credit Default Swaps

As of December 31, 2005, the maximum potential future exposure to the Company on the sale of credit protection under credit default swaps was \$85.0.

Balance at December 31, 2003		111.5
Amortization:		
Amortization		(13.3)
Interest accrued at 4% - 5%		6.8
Net amortization included in the Statements of Operations		(6.5)
Change in unrealized gains and losses on available-for-sale securities		(0.5)
Implementation of SOP and TPA		7.7
Balance at December 31, 2004		112.2
Amortization:		
Amortization		(30.8)
Interest accrued at 4% - 5%		6.6
Net amortization included in the Statements of Operations		(24.2)
Change in unrealized gains and losses on available-for-sale securities		34.1
Balance at December 31, 2005	\$	122.1

The estimated amount of VOBA to be amortized, net of interest, is \$12.7, \$12.1, \$9.5, \$10.4, and \$9.5, for the years 2006, 2007, 2008, 2009, and 2010, respectively. Actual amortization incurred during these years may vary as assumptions are modified to incorporate actual results.

Analysis of DAC and VOBA - Annuity Products

The increase in Amortization of DAC and VOBA in 2005 compared to 2004 is largely associated with an increase in the scale of DAC, resulting from sales of new business. In addition, the Company had higher fixed margin income in 2005, resulting in an increase in gross profits against which DAC and VOBA were amortized.

The variance in amortization expense in 2004 versus 2003 was impacted by SOP 03-1. In prior years, amortization of inducements was included in amortization of DAC and VOBA. Beginning in 2004, sales inducements were included as a component of benefit expense in accordance with SOP 03-1. Therefore, the decrease in amortization of DAC and VOBA is partially related to 2004 sales inducement amortization being included in interest credited instead of amortization of DAC and VOBA. Also contributing to the decrease is the improved market performance during 2003, which lowered the amortization rate for 2004.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The Company revised and unlocked certain assumptions for its fixed and variable annuity products during 2005, 2004, and 2003. Unlocking adjustments and their acceleration (deceleration) impact on Amortization of DAC and VOBA for the years ended December 31, 2005, 2004, and 2003, were as follow:

	<u>2005</u>	<u>2004</u>	<u>2003</u>
Impact of separate account growth and contractowner withdrawal behavior favorable to assumptions	\$ (13.3)	\$ (6.6)	\$ (41.3)
Unlock of contractowner withdrawal behavior assumptions for variable and fixed annuities	-	(4.2)	-
Unlock of contractowner withdrawal behavior assumptions for certain fixed deferred annuities	17.7	-	-
Unlock of future lapse rate assumptions for fixed annuities	-	-	6.0
Unlock of future rate of spread income assumptions on some fixed annuity liabilities	2.3	5.0	8.1
Unlock on long-term separate account growth assumption	4.8	-	-
Unlock of mortality and persistency assumptions	(4.2)	-	-
Total unlocking effect on Amortization of DAC and VOBA	<u>\$ 7.3</u>	<u>\$ (5.8)</u>	<u>\$ (27.2)</u>

Analysis DAC and VOBA - Life Products

As part of the regular analysis of DAC and VOBA for the life insurance block, at the end of each of the years ended December 31, 2005, 2004, and 2003, the Company unlocked due to assumption changes that, with respect to any one or more of the years ended December 31, 2005, 2004 and 2003, may relate primarily to mortality, lapse, expense, and interest amounts. There was no impact of unlocking on amortization of DAC/VOBA in 2005. The impact of unlocking on the amortization of DAC/VOBA was a decrease of \$1.2 in 2004, and an increase of \$6.0 in 2003.

5. Dividend Restrictions and Shareholder's Equity

The Company's ability to pay dividends to its parent is subject to the prior approval of the Iowa Division of Insurance for payment of any dividend, which, when combined with other dividends paid within the preceding twelve months, exceeds the greater of (1) ten percent (10%) of the Company's statutory surplus at the prior year end or (2) the Company's prior year statutory net gain from operations.

The Company did not pay any dividends on its common stock during 2005 or 2004. During 2003, the Company paid \$12.4 in dividends on its common stock to its then parent, Equitable Life.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The Insurance Division of the State of Iowa (the "Division"), effective January 1, 2004, recognizes as net income and capital and surplus those amounts determined in conformity with statutory accounting practices prescribed or permitted by the Division, which differ in certain respects from accounting principles generally accepted in the United States. Statutory net income (loss) was \$6.9, \$96.1, and \$(85.1), for the years ended December 31, 2005, 2004, and 2003, respectively. Statutory capital and surplus was \$1,846.6 and \$1,668.3 as of December 31, 2005 and 2004, respectively.

As of December 31, 2005, the Company did not utilize any statutory accounting practices that are not prescribed by state regulatory authorities that, individually or in the aggregate, materially affected statutory capital and surplus.

6. Additional Insurance Benefits and Minimum Guarantees

Under SOP 03-1, the Company calculates additional liabilities ("SOP 03-1 reserve") for certain guaranteed benefits and for universal life products with certain patterns of cost of insurance charges and certain other fees.

The following assumptions and methodology were used to determine the GMDB SOP 03-1 reserve at December 31, 2005:

Area	Assumptions/Basis for Assumptions
Data used	Based on 100 investment performance scenarios stratified based on 10,000 random generated scenarios
Mean investment performance	8.125%
Volatility	18.0%
Mortality	1999 and prior issues – 80.0%, 80.0%, 90.0%, 90.0%, grading to 100% from age 80 to 120, of the 90-95 ultimate mortality table for standard, ratchet, rollup, and combination rollup and ratchet, respectively. 2000 and later issues – 60.0%, 60.0%, 75.0%, 75.0%, grading to 100% from age 80 to 120, of the 90-95 ultimate mortality table for standard, ratchet, rollup, and combination rollup and ratchet, respectively.
Lapse rates	Vary by contract type and duration; range between 1.0% and 40.0%
Discount rates	6.5%, based on the portfolio earned rate of the general account

The assumptions used for calculating the additional GMIB liability at December 31, 2005, are consistent with those used for the calculating the additional GMDB liability. In addition, the calculation of the GMIB liability assumes dynamic surrenders and dynamic annuitization reflecting the extent to which the benefit, at the time of payment, has a positive value.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The separate account liabilities subject to SOP 03-1 for minimum guaranteed benefits, and the additional liabilities recognized related to minimum guarantees, by type, as of December 31, 2005 and 2004, and the paid and incurred amounts by type for the years ended December 31, 2005 and 2004 were as follows:

	Guaranteed Minimum Death Benefit (GMDB)	Guaranteed Minimum Accumulation/ Withdrawal Benefit (GMAB/GMWB)	Guaranteed Minimum Income Benefit (GMIB)
Separate account liability at December 31, 2005	<u>\$ 30,213.6</u>	<u>\$ 2,536.1</u>	<u>\$ 13,409.0</u>
Separate account liability at December 31, 2004	<u>\$ 25,843.4</u>	<u>\$ 1,826.7</u>	<u>\$ 9,079.6</u>
Additional liability balance:			
Balance at January 1, 2004	\$ 56.5	\$ 14.5	\$ 13.6
Incurred guaranteed benefits	39.0	(4.9)	17.1
Paid guaranteed benefits	<u>(28.6)</u>	<u>-</u>	<u>-</u>
Balance at December 31, 2004	<u>66.9</u>	<u>9.6</u>	<u>30.7</u>
Incurred guaranteed benefits	64.9	(0.2)	30.2
Paid guaranteed benefits	<u>(19.0)</u>	<u>-</u>	<u>-</u>
Balance at December 31, 2005	<u>\$ 112.8</u>	<u>\$ 9.4</u>	<u>\$ 60.9</u>

The net amount at risk, net of reinsurance, and the weighted average attained age of contractowners by type of minimum guaranteed benefit, were as follows as of December 31, 2005 and 2004:

	Guaranteed Minimum Death Benefit (GMDB)	Guaranteed Minimum Accumulation/ Withdrawal Benefit (GMAB/GMWB)	Guaranteed Minimum Income Benefit (GMIB)
2005			
Net amount at risk, net of reinsurance	\$ 1,428.7	\$ 42.1	\$ 246.3
Weighted average attained age	62	63	57
2004			
Net amount at risk, net of reinsurance	\$ 1,365.7	\$ 65.4	\$ 204.3
Weighted average attained age	63	61	61

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The aggregate fair value of equity securities, including mutual funds, supporting separate accounts with additional insurance benefits and minimum investment return guarantees as of December 31, 2005 and 2004 was \$30,262.8 and \$24,746.7, respectively.

7. Sales Inducements

During the year ended December 31, 2005, the Company capitalized and amortized \$101.3 and \$68.8, respectively, of sales inducements. During the year ended December 31, 2004, the Company capitalized and amortized \$100.9 and \$65.5, respectively, of sales inducements. The unamortized balance of capitalized sales inducements, net of unrealized gains (losses), was \$556.3 and \$514.6 as of December 31, 2005 and 2004, respectively.

8. Income Taxes

Effective January 1, 2005, the Company files a consolidated federal income tax return with ING America Insurance Holdings ("ING AIH") and certain other subsidiaries of ING AIH that are eligible corporations qualified to file consolidated federal income tax returns as part of the ING AIH affiliated group. Effective January 1, 2005, the Company is a party to a federal tax allocation agreement with ING AIH and its subsidiaries that are part of the group whereby ING AIH charges its subsidiaries for federal taxes each subsidiary would have incurred were it not a member of the consolidated group and credits each subsidiary for losses at the statutory federal tax rate. For calendar year 2004, the Company filed a stand-alone federal income tax return. Prior to that date, the Company, and each of the Merger Companies, filed federal income tax returns with their respective filing groups.

Income taxes consist of the following:

	2005	2004	2003
Current tax (benefit) expense:			
Federal	\$ (156.7)	\$ 4.7	\$ 1.2
Total current tax (benefit) expense	<u>(156.7)</u>	<u>4.7</u>	<u>1.2</u>
Deferred tax expense (benefit):			
Operations and capital loss carryforwards	43.6	31.5	53.3
Other federal deferred tax	147.3	44.5	(55.3)
Total deferred tax expense (benefit)	<u>190.9</u>	<u>76.0</u>	<u>(2.0)</u>
Total income tax expense (benefit)	<u>\$ 34.2</u>	<u>\$ 80.7</u>	<u>\$ (0.8)</u>

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Income taxes were different from the amount computed by applying the federal income tax rate to income before income taxes and cumulative effect of change in accounting principle for the following reasons:

	2005	2004	2003
Income before income taxes and cumulative effect of change in accounting principle	\$ 224.1	\$ 173.6	\$ 56.5
Tax rate	35%	35%	35%
Income tax at federal statutory rate	78.4	60.8	19.8
Tax effect of:			
Meals and entertainment	0.4	0.5	0.4
Dividend received deduction	(20.4)	1.3	(11.5)
Product reserves	-	3.0	-
Investments	-	15.0	-
IRS audit settlements	(24.4)	-	-
Refinement of deferred tax balances	-	-	(9.5)
Other	0.2	0.1	-
Income tax expense (benefit)	<u>\$ 34.2</u>	<u>\$ 80.7</u>	<u>\$ (0.8)</u>

The tax effects of temporary differences that give rise to Deferred tax assets and Deferred tax liabilities at December 31, 2005 and 2004 are presented below.

	2005	2004
Deferred tax assets:		
Operations and capital loss carryforwards	\$ 97.4	\$ 133.5
Future policy benefits	606.5	619.9
Goodwill	7.9	9.3
Investments	33.8	42.4
Employee compensation and benefits	17.8	19.9
Other	19.0	19.5
Total gross assets	<u>782.4</u>	<u>844.5</u>
Deferred tax liabilities:		
Unrealized gains on investments	(12.9)	(157.1)
Deferred policy acquisition cost	(864.6)	(663.1)
Value of purchased insurance in force	(38.4)	(33.4)
Other	(2.2)	(3.4)
Total gross liabilities	<u>(918.1)</u>	<u>(857.0)</u>
Net deferred income liability	<u>\$ (135.7)</u>	<u>\$ (12.5)</u>

Valuation allowances are provided when it is considered unlikely that deferred tax assets will be realized. No valuation allowance has been established at this time as management believes the above conditions presently do not exist.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

At December 31, 2005, the Company has operating loss carryforwards of approximately \$306.7 for federal income tax purposes, which are available to offset future taxable income. If not used, these carryforwards will expire between 2015 and 2019.

Net unrealized capital gains and losses are presented in Shareholder's equity, net of deferred taxes.

Under prior law, life insurance companies were allowed to defer from taxation a portion of income. The deferred income was accumulated in the contractowners' surplus account. This deferred income only becomes taxable under certain conditions, which management believes to be remote. Furthermore, the American Jobs Creation Act of 2004 allows certain tax-free distributions from the contractowners' surplus account during 2005 and 2006. Therefore, based on currently available information, no federal income taxes have been provided on the contractowner' surplus account accumulated balance of \$14.4.

The Company establishes reserves for possible proposed adjustments by various taxing authorities. Management believes there are sufficient reserves provided for, or adequate defenses against, any such adjustments.

The Internal Revenue Service ("IRS") has completed its examination of the Company's returns through tax year 2001. The current and prior period provisions reflect non-recurring favorable adjustments resulting from a reduction in the tax liability that no longer needs to be provided based on the results of the current IRS examination, monitoring the activities of the IRS with respect to certain issues with other taxpayers, and the merits of the positions. The IRS has commenced examination of the Company's returns for tax years 2002 and 2003. There are also various state audits in progress.

9. Benefit Plans

Defined Benefit Plan

ING North America Insurance Corporation ("ING North America") sponsors the ING Americas Retirement Plan (the "Retirement Plan"), effective as of December 31, 2001. Substantially all employees of ING North America and its subsidiaries and affiliates (excluding certain employees) are eligible to participate, including the Company's employees.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The Retirement Plan is a tax-qualified defined benefit plan, the benefits of which are guaranteed (within certain specified legal limits) by the Pension Benefit Guaranty Corporation ("PBGC"). As of January 1, 2002, each participant in the Retirement Plan (except for certain specified employees) earns a benefit under a final average compensation formula. Subsequent to December 31, 2001, ING North America is responsible for all Retirement Plan liabilities. The costs allocated to the Company for its employees' participation in the Retirement Plan were \$15.9, \$11.4, and \$9.3, for the years ended 2005, 2004, and 2003, respectively, and are included in Operating expenses in the Statements of Operations.

Defined Contribution Plans

ING North America sponsors the ING Americas Savings Plan and ESOP (the "Savings Plan"). Substantially all employees of ING North America and its subsidiaries and affiliates (excluding certain employees) are eligible to participate, including the Company's employees other than Company agents. The Savings Plan is a tax-qualified profit sharing and stock bonus plan, which includes an employee stock ownership plan ("ESOP") component. Savings Plan benefits are not guaranteed by the PBGC. The Savings Plan allows eligible participants to defer into the Savings Plan a specified percentage of eligible compensation on a pre-tax basis. ING North America matches such pre-tax contributions, up to a maximum of 6% of eligible compensation. All matching contributions are subject to a 4-year graded vesting schedule, although certain specified participants are subject to a 5-year graded vesting schedule. All contributions made to the Savings Plan are subject to certain limits imposed by applicable law. Pre-tax charges to operations of the Company for the Savings Plan were \$4.2, \$3.5, and \$2.8, for the years ended December 31, 2005, 2004, and 2003, respectively, and are included in Operating expenses in the Statements of Operations.

Other Benefit Plans

In addition to providing retirement plan benefits, the Company, in conjunction with ING North America, provides certain supplemental retirement benefits to eligible employees and health care and life insurance benefits to retired employees and other eligible dependents. The supplemental retirement plan includes a non-qualified defined benefit pension plan and a non-qualified defined contribution plan, which means all benefits are payable from the general assets of the Company. The post-retirement health care plan is contributory, with retiree contribution levels adjusted annually. The life insurance plan provides a flat amount of noncontributory coverage and optional contributory coverage. The benefits charges allocated to the Company related to all of these plans for the years ended December 31, 2005, 2004, and 2003, were not significant.

10. Related Party Transactions

Operating Agreements

The Company has certain agreements whereby it generates revenues and incurs expenses with affiliated entities. The agreements are as follows:

- Underwriting and distribution agreement with Directed Services, Inc. (“DSI”), an affiliated broker-dealer, for the variable insurance products issued by the Company. DSI is authorized to enter into agreements with broker-dealers to distribute the Company’s variable products and appoint representatives of the broker-dealers as agents. For the years ended December 31, 2005, 2004, and 2003, commission expenses were incurred in the amounts of \$371.5, \$371.4, and \$269.3, respectively.
- Asset management agreement with ING Investment Management LLC (“IIM”), an affiliate, in which IIM provides asset management, administration, and accounting services for ING USA’s general account. The Company records a fee, which is paid quarterly, based on the value of the assets under management. For the years ended December 31, 2005, 2004, and 2003, expenses were incurred in the amounts of \$71.8, \$69.8, and \$62.4, respectively.
- Service agreement with DSI, in which the Company provides managerial and supervisory services to DSI and earns a fee that is calculated as a percentage of average assets in the variable separate accounts. For the years ended December 31, 2005, 2004, and 2003, revenue for these services was \$43.0, \$36.4, and \$27.8, respectively.
- Services agreements with ING North America, dated September 1, 2000 and January 1, 2001, respectively, for administrative, management, financial, information technology, and finance and treasury services. For the years ended December 31, 2005, 2004, and 2003, expenses were incurred in the amounts of \$82.5, \$65.0, and \$67.5, respectively.
- Services agreements between the Company and its U.S. insurance company affiliates dated September 1, 2000 and January 1, 2001, amended effective January 1, 2002. For the years ended December 31, 2005, 2004, and 2003, net expenses related to the agreement were incurred in the amount of \$5.7, \$5.1, and \$16.2, respectively.
- ING Advisors Network, a group of broker-dealers affiliated with the Company, distributes the Company’s annuity products. For the years ended December 31, 2005, 2004, and 2003, ING Advisors Network sold new contracts of \$1,082.0, \$1,121.8, and \$765.8, respectively.

Management and service contracts and all cost sharing arrangements with other affiliated companies are allocated in accordance with the Company’s expense and cost allocation methods.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Reinsurance Agreements

Effective May 1, 2005, ING USA entered into a coinsurance agreement with its affiliate, Security Life. Under the terms of the agreement, Security Life assumed and accepted the responsibility for paying, when due, 100% of the liabilities arising under the multi-year guaranteed fixed annuity contracts issued by ING USA between January 1, 2001 and December 31, 2003. ING USA remains directly obligated to the contractowners of the contracts.

The account balances ceded by ING USA to Security Life under the terms of the coinsurance agreement were \$2.5 billion. The assets backing the reserves for the liabilities assumed by Security Life, as well as a ceding commission, were transferred by ING USA to Security Life. Total assets transferred at fair value were \$2.7 billion resulting in a Net realized capital gain (loss) of \$47.9. As additional consideration for Security Life assuming the liabilities under the agreement, ING USA has assigned to Security Life any and all future premiums received by ING USA that are attributable to the contract liabilities assumed under the coinsurance agreement.

The coinsurance agreement is accounted for using the deposit method. As such, \$2.7 billion of Deposit receivable from affiliate was established on the Balance Sheet. The receivable will be adjusted over the life of the agreement based on cash settlements and the experience of the contracts, as well as for amortization of the ceding commission.

The Company incurred amortization expense of the negative ceding commission of \$14.2 for the year ended December 31, 2005, which is included in Other expenses in the Statements of Operations.

ING USA entered into a reinsurance agreement with Security Life of Denver International, Limited (“SLDI”), an affiliate, covering variable annuity minimum guaranteed death benefits and minimum guaranteed living benefits of variable annuities issued after January 1, 2000. In March 2003, the Company amended its reinsurance agreement with SLDI. Under this amendment, the Company terminated the reinsurance agreement for all in force and new business and recaptured all in force business reinsured under the reinsurance agreement between the Company and SLDI retroactive to January 1, 2003 and the Company reduced its reinsurance recoverable related to these liabilities by \$150.1. On March 28, 2003, SLDI transferred assets to the Company in the amount of \$185.6. The difference in amounts transferred on March 28, 2003 and the reduction of the reinsurance recoverables as of January 1, 2003, reflects adjustments on the investment of the reinsurance recoverable as of January 1, 2003. It also reflects adjustments on the investment income on the assets and letter of credit costs between January 1, 2003 and the date of the asset transfer. It also encompasses the net effect of a recapture fee paid in the amount of \$5.0, offset by the receipt of a \$24.1 negative ceding commission, the net impact of which was deferred in policy acquisition costs and is being amortized over the period of estimated future profits.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

In addition, the Company entered into a 100% coinsurance agreement with Security Life dated January 1, 2000, covering certain universal life policies which had been issued and in force as of, as well as any such policies issued after the effective date of the agreement. As of December 31, 2005 and 2004, the value of reserves ceded by the Company under this agreement was \$21.0 and \$20.2, respectively.

The Company is a party to a Facultative Reinsurance Agreement with Security Life dated August 20, 1999. Under the terms of the Agreement, the Company facultatively cedes certain GICs and funding agreements to Security Life on a 100% coinsurance basis. As of December 31, 2005 and 2004, respectively, the value of GIC reserves ceded by the Company under this agreement was \$1.2 billion and \$1.3 billion.

Financing Agreements

On January 1, 2004, the Company entered into a reciprocal loan agreement with ING AIH to facilitate the handling of unanticipated short term cash requirements that arise in the ordinary course of business. Under this agreement, which became effective in January 2004 and expires on January 14, 2014, either party can borrow from the other up to 3% of the Company's statutory admitted assets as of the preceding December 31. This agreement supersedes previous reciprocal loan agreements between each of the Merger Companies and ING AIH, which contained various terms and maximum borrowing lending limits. Under the previous and current reciprocal loan agreements, interest on any ING USA borrowing is charged at the rate of ING AIH's cost of funds for the interest period plus 0.15%. Interest on any ING AIH borrowing is charged at a rate based on the prevailing interest rate of U.S. commercial paper available for purchase with a similar duration. Under this agreement, the Company incurred interest expense of \$0.9, \$0.2 and \$0.3, for the years ended December 31, 2005, 2004 and 2003, respectively. The Company earned interest income of \$4.3, \$2.5 and \$1.0 for the years ended December 31, 2005, 2004, and 2003, respectively. At December 31, 2005 and 2004, respectively, the Company had \$45.0, and \$184.2 receivable from ING AIH under this agreement.

Notes with Affiliates

The Company's promissory note in the amount of \$50.0 payable to Lion was repaid on May 17, 2004. The note was issued on April 15, 1997. Interest was charged at an annual rate of 8.75% and the face amount was due on demand. The Company incurred interest expense of \$1.7 and \$4.4, for the years ended December 31, 2004 and 2003, respectively.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The Company issued a 30-year surplus note in the principal amount of \$35.0 on December 8, 1999, to its affiliate, Security Life (successor-in-interest to First Columbine Life Insurance Company), which matures on December 7, 2029. Interest is charged at an annual rate of 7.98%. Payment of the note and related accrued interest is subordinate to payments due to contractowners and claimant and beneficiary claims, as well as debts owed to all other classes of debtors, other than surplus note holders, of ING USA. Any payment of principal and/or interest made is subject to the prior approval of the Iowa Insurance Commissioner. Interest expense was \$2.8 for each of the years ended December 31, 2005, 2004, and 2003, respectively.

On December 29, 2004, the Company issued surplus notes in the aggregate principal amount of \$400.0 (the "Notes"), scheduled to mature on December 29, 2034, to its affiliates, ING Life Insurance and Annuity Company, ReliaStar Life Insurance Company, and SLDI, in an offering that was exempt from the registration requirements of the Securities Act of 1933. The Notes bear interest at a rate of 6.26% per year. Any payment of principle and/or interest is subject to the prior approval of the Iowa Insurance Commissioner. Interest is scheduled to be paid semi-annually in arrears on June 29 and December 29 of each year, commencing on June 29, 2005. Interest expense was \$25.4 and \$0.2, for the years ended December 31, 2005 and 2004, respectively.

Tax Sharing Agreement

The Company has entered into a state tax sharing agreement with ING AIH and each of the specific subsidiaries that are parties to the agreement. The state tax agreement applies to situations in which ING AIH and all or some of the subsidiaries join in the filing of a state or local franchise, income tax, or other tax return on a consolidated, combined, or unitary basis.

Effective January 1, 2005, the Company is a party to a federal tax allocation agreement with ING AIH and its subsidiaries that are part of the ING AIH consolidated group. Under the federal tax allocation agreement, ING AIH charges its subsidiaries for federal taxes each subsidiary would have incurred were it not a member of the consolidated group and credits each subsidiary for losses at the statutory federal tax rate.

Capital Transactions

The Company did not pay any dividends on its common stock during 2005 or 2004. During 2003, the Company paid \$12.4 in dividends on its common stock to its then parent, Equitable Life.

Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

During 2005, 2004, and 2003, ING USA received capital contributions of \$100.0, \$230.0, and \$88.7, respectively, from Lion to support sales activities and strengthen reserves associated with its annuity products.

Interest Rate Swaps

On December 28, 2005, the Company entered into two interest rate swaps with Security Life to reduce the Company's exposure to cash flow variability of assets and liabilities. Under the terms of the agreement, the Company pays the quarterly quoted 3-month Libor rate and receives a fixed rate of 4.8% and 4.9% for swaps that mature on December 30, 2010 and 2015, respectively. The notional amount of each swap is \$100.0 at December 31, 2005. The fair values are \$(0.3) and \$(0.2) for the December 30, 2010 and 2015 swaps, respectively, at December 31, 2005.

Purchase of Investments

In conjunction with the May 19, 2005 sale of Life Insurance Company of Georgia ("LOG"), an affiliate, the Company purchased assets at fair value from LOG on May 12, 2005. In addition to purchasing \$192.6 of investments, ING USA paid \$19.7 for a 70% equity interest in PFP, and \$7.1 for land located at 5780 Powers Ferry Road, Atlanta, Georgia. The limited partnership investment in PFP is accounted for at fair value as an equity method investment and is included in Other investments on the Balance Sheet.

11. Financing Agreements

The Company maintains a \$100.0 uncommitted, perpetual revolving note facility with the Bank of New York ("BONY"). Interest on any of the Company borrowing accrues at an annual rate equal to a rate quoted by BONY to the Company for the borrowing. Under this agreement, the Company incurred minimal interest expense for the years ended December 31, 2005, 2004, and 2003. At December 31, 2005 and 2004, the Company had no amounts outstanding under the revolving note facility.

The Company also maintains a \$75.0 uncommitted line-of-credit agreement with PNC Bank ("PNC"), effective December 19, 2005. Borrowings are guaranteed by ING AIH, with maximum aggregate borrowings outstanding at anytime to ING AIH and its affiliates of \$75.0. Interest on any of the Company borrowing accrues at an annual rate equal to the rate quoted by PNC to the Company for the borrowing. Under this agreement, the Company incurred no interest expense for the year ended December 31, 2005. As of December 31, 2005, the Company had no amounts outstanding under the line-of-credit agreement.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Prior to September 30, 2005, the Company maintained a \$125.0 uncommitted revolving note facility with SunTrust Bank, Atlanta. Under the agreement, the Company incurred minimal interest expense for the years ended December 31, 2005, 2004, and 2003. At December 31, 2004, the Company had no outstanding balances under this facility.

Also see Financing Agreements in the Related Party Transactions footnote.

12. Reinsurance

At December 31, 2005, the Company had reinsurance treaties with 16 unaffiliated reinsurers and 1 affiliated reinsurer covering a portion of the mortality risks and guaranteed death and living benefits under its variable contracts. The Company remains liable to the extent its reinsurers do not meet their obligations under the reinsurance agreements.

Reinsurance ceded in force for life mortality risks were \$822.2 and \$906.0 at December 31, 2005 and 2004, respectively. At December 31, 2005 and 2004, net receivables were comprised of the following:

	2005	2004
Claims recoverable from reinsurers	\$ 5.4	\$ 13.4
Payable for reinsurance premiums	(1.6)	(3.2)
Reinsured amounts due to an unaffiliated reinsurer	(2.4)	(3.2)
Reserve credits	13.6	17.6
Reinsurance ceded	1,352.6	1,359.9
Deposits	2,697.2	-
Other	3.3	3.6
Total	<u>\$ 4,068.1</u>	<u>\$ 1,388.1</u>

Included in the accompanying financial statements are net policy benefit recoveries of \$46.5, \$48.4, and \$48.4, for the years ended December 31, 2005, 2004, and 2003, respectively.

Premiums and Interest credited and other benefits to contractowners included the following premiums ceded and reinsurance recoveries for the years ended December 31, 2005, 2004, and 2003.

	2005	2004	2003
Premiums and deposits ceded under reinsurance	\$ 7.0	\$ 3.5	\$ 7.4
Reinsurance recoveries	30.3	13.0	6.4

13. Commitments and Contingent Liabilities

Leases

The Company leases its office space and certain other equipment under operating leases, the longest term of which expires in 2017.

For the years ended December 31, 2005, 2004, and 2003, rent expense for leases was \$8.0, \$7.6, and \$7.4, respectively. The future net minimum payments under noncancelable leases for the years ended December 31, 2006 through 2010 are estimated to be \$7.9, \$7.7, \$7.6, \$7.6, and \$6.1, respectively, and \$33.9, thereafter. The Company pays substantially all expenses associated with its leased and subleased office properties. Expenses not paid directly by the Company are paid for by an affiliate and allocated back to the Company.

Commitments

Through the normal course of investment operations, the Company commits to either purchase or sell securities, commercial mortgage loans, or money market instruments at a specified future date and at a specified price or yield. The inability of counterparties to honor these commitments may result in either a higher or lower replacement cost. Also, there is likely to be a change in the value of the securities underlying the commitments. At December 31, 2005, the Company had off-balance sheet commitments to purchase investments equal to their fair value of \$456.1, \$77.2 of which was with related parties. At December 31, 2004, the Company had off-balance sheet commitments to purchase investments equal to their fair value of \$175.3, none of which was with related parties. During 2005, \$32.8 was funded to related parties under off-balance sheet commitments. In addition, in March 2006, an additional \$16.0 was funded to related parties under off-balance sheet commitments.

Financial Guarantees

In the third quarter of 2005, the Company purchased a 3-year credit-linked note arrangement whereby the Company agreed to reimburse the guaranteed party upon payment default of the referenced obligation. Upon such default, the Company reimburses the guaranteed party for the loss under the reference obligation, and the Company receives that reference obligation in settlement. The Company can then recover any losses under the agreement by sale or collection of the received reference obligation. As of December 31, 2005, the maximum potential future exposure to the Company under the guarantee was \$12.0.

Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Litigation

The Company is involved in threatened or pending lawsuits/arbitrations arising from the normal conduct of business. Due to the climate in insurance and business litigation/arbitrations, suits against the Company sometimes include claims for substantial compensatory, consequential, or punitive damages and other types of relief. Moreover, certain claims are asserted as class actions, purporting to represent a group of similarly situated individuals. While it is not possible to forecast the outcome of such lawsuits/arbitrations, in light of existing insurance, reinsurance, and established reserves, it is the opinion of management that the disposition of such lawsuits/arbitrations will not have a materially adverse effect on the Company's operations or financial position.

Other Regulatory Matters

Regulatory Matters

As with many financial services companies, the Company and its affiliates have received informal and formal requests for information from various state and federal governmental agencies and self-regulatory organizations in connection with inquiries and investigations of the products and practices of the financial services industry. In each case, the Company and its affiliates have been and are providing full cooperation.

Investment Product Regulatory Issues

Since 2002, there has been increased governmental and regulatory activity relating to mutual funds and variable insurance products. This activity has primarily focused on inappropriate trading of fund shares; revenue sharing and directed brokerage; compensation; sales practices, suitability, and supervision; arrangements with service providers; pricing; compliance and controls; adequacy of disclosure; and document retention.

In addition to responding to governmental and regulatory requests on fund trading issues, ING management, on its own initiative, conducted, through special counsel and a national accounting firm, an extensive internal review of mutual fund trading in ING insurance, retirement, and mutual fund products. The goal of this review was to identify any instances of inappropriate trading in those products by third parties or by ING investment professionals and other ING personnel.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The internal review identified several isolated arrangements allowing third parties to engage in frequent trading of mutual funds within the variable insurance and mutual fund products of ING, and identified other circumstances where frequent trading occurred despite measures taken by ING intended to combat market timing. Each of the arrangements has been terminated and disclosed to regulators, to the independent trustees of ING Funds (U.S.) and in Company reports previously filed with the Securities and Exchange Commission (“SEC”) pursuant to the Securities Exchange Act of 1934, as amended.

In September 2005, an affiliate of the Company, ING Fund Distributors, LLC (“IFD”) and one of its registered persons settled an administrative proceeding with the National Association of Securities Dealers (“NASD”) in connection with frequent trading arrangements. IFD neither admitted nor denied the allegations or findings and consented to certain monetary and non-monetary sanctions. IFD’s settlement of this administrative proceeding is not material to the Company.

Other regulators, including the SEC and the New York Attorney General, are also likely to take some action with respect to the Company or certain affiliates before concluding their investigations relating to fund trading. The potential outcome of such action is difficult to predict but could subject the Company or certain affiliates to adverse consequences, including, but not limited to, settlement payments, penalties, and other financial liability. It is not currently anticipated, however, that the actual outcome of any such action will have a material adverse effect on ING or ING’s U.S.-based operations, including the Company.

ING has agreed to indemnify and hold harmless the ING Funds from all damages resulting from wrongful conduct by ING or its employees or from ING’s internal investigation, any investigations conducted by any governmental or self-regulatory agencies, litigation or other formal proceedings, including any proceedings by the SEC. Management reported to the ING Funds Board that ING management believes that the total amount of any indemnification obligations will not be material to ING or ING’s U.S.-based operations, including the Company.

Insurance and Other Regulatory Matters

The New York Attorney General and other federal and state regulators are also conducting broad inquiries and investigations involving the insurance industry. These initiatives currently focus on, among other things, compensation and other sales incentives; potential conflicts of interest; potential anti-competitive activity; reinsurance; marketing practices; specific product types (including group annuities and indexed annuities); and disclosure. It is likely that the scope of these industry investigations will further broaden before they conclude. The Company and certain of its U.S. affiliates have received formal and informal requests in connection with such investigations, and are cooperating fully with each request for information.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

These initiatives may result in new legislation and regulation that could significantly affect the financial services industry, including businesses in which the Company is engaged.

In light of these and other developments, U.S. affiliates of ING, including the Company, periodically review whether modifications to their business practices are appropriate.

14. Accumulated Other Comprehensive Income (Loss)

Shareholder's equity included the following components of Accumulated other comprehensive income (loss) as of December 31, 2005, 2004, and 2003:

	<u>2005</u>	<u>2004</u>	<u>2003</u>
Net unrealized capital gains (losses):			
Fixed maturities, available-for-sale	\$ (6.4)	\$ 451.4	\$ 517.4
Equity securities, available-for-sale	1.1	0.5	5.1
DAC/VOBA adjustment on available-for-sale securities	7.5	(258.6)	(210.7)
Sales inducements adjustment on available-for-sale securities	2.5	(6.7)	-
Other investments	(5.8)	(2.6)	(13.8)
Subtotal	(1.1)	184.0	298.0
Deferred income taxes	0.3	(66.4)	(109.9)
Net unrealized capital (losses) gains	(0.8)	117.6	188.1
Minimum pension liability, net of tax	(3.9)	(4.9)	-
Accumulated other comprehensive (loss) income	<u>\$ (4.7)</u>	<u>\$ 112.7</u>	<u>\$ 188.1</u>

Changes in Accumulated other comprehensive income (loss) related to changes in net unrealized capital gains and losses on securities, including securities pledged, were as follows for the years ended December 31, 2005, 2004, and 2003.

	<u>2005</u>	<u>2004</u>	<u>2003</u>
Fixed maturities, available-for-sale	\$ (457.8)	\$ (66.0)	\$ (90.4)
Equity securities, available-for-sale	0.6	(4.6)	8.6
DAC/VOBA adjustment on available-for-sale securities	266.1	(47.9)	151.2
Sales inducements adjustment on available-for-sale securities	9.2	(6.7)	-
Other investments	(3.2)	11.2	13.4
Subtotal	(185.1)	(114.0)	82.8
Deferred income taxes	66.7	43.5	(27.9)
Net unrealized capital (losses) gains	<u>\$ (118.4)</u>	<u>\$ (70.5)</u>	<u>\$ 54.9</u>

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Changes in Accumulated other comprehensive income (loss), net of DAC/VOBA and tax, related to changes in net unrealized gains and losses on securities, including securities pledged, were as follows for the years ended December 31, 2005, 2004, and 2003:

	<u>2005</u>	<u>2004</u>	<u>2003</u>
Net unrealized holding (losses) gains			
arising during the year ⁽¹⁾	\$ (69.2)	\$ (26.8)	\$ 125.9
Less: reclassification adjustment for gains			
and other items included in			
net income ⁽²⁾	49.2	43.7	71.0
Net unrealized (losses) gains on securities	<u>\$ (118.4)</u>	<u>\$ (70.5)</u>	<u>\$ 54.9</u>

- (1) Pretax unrealized holding (losses) gains arising during the year were \$(108.2), \$(41.2), and \$193.7, for the years ended December 31, 2005, 2004, and 2003, respectively.
- (2) Pretax reclassification adjustments for realized gains and other items included in net income were \$76.9, \$67.2, and \$109.2, for the years ended December 31, 2005, 2004, and 2003, respectively.

15. Reclassification and Changes to Prior Year Presentation

Statements of Cash Flows

During 2005, certain changes were made to the Statements of Cash Flows for the years ended December 31, 2004 and 2003 to reflect the correct balances, primarily related to realized gains and losses on derivatives, investment contracts, and short-term loans. The Company has labeled the Statements of Cash Flows for the years ended December 31, 2004 and 2003 as restated. The following table summarizes the adjustments:

	<u>Previously</u>		
<u>2004</u>	<u>Reported</u>	<u>Adjustment</u>	<u>Revised</u>
Net cash provided by operating activities	\$ 656.9	195.6	\$ 852.5
Net cash used in investing activities	(3,179.8)	(120.6)	(3,300.4)
Net cash provided by financing activities	2,666.8	(75.0)	2,591.8
 <u>2003</u>			
Net cash provided by operating activities	\$ 1,228.0	(126.3)	\$ 1,101.7
Net cash used in investing activities	(1,607.8)	(149.6)	(1,757.4)
Net cash provided by financing activities	245.8	275.9	521.7
