

ING USA Annuity and Life Insurance Company
Separate Account B of ING USA Annuity and Life Insurance Company
Deferred Combination Variable and Fixed Annuity Prospectus

RETIREMENT SOLUTIONS – ING ROLLOVER CHOICESM
VARIABLE ANNUITY

April 29, 2011

The Contract. The contract described in this prospectus is a group and individual deferred variable annuity contract (the “contract”) offered by ING USA Annuity and Life Insurance Company (the “Company,” “we” or “our”) through our Separate Account B (the “separate account”). The contract is currently available in connection with certain retirement plans that qualify for special federal income tax treatment (“qualified contracts”) as well as those that do not qualify for such treatment (“nonqualified contracts”). The contract may be purchased with funds from external sources or by a transfer or rollover from an existing contract (the “prior contract”) issued by us or one of our affiliates (“internal transfer”). A qualified contract may be issued as a traditional Individual Retirement Annuity (“IRA”) under section 408(b) of the Internal Revenue Code of 1986 as amended (the “Tax Code”) or a Roth IRA under section 408A of the Tax Code. The contract is not currently available as a Simplified Employer Pension (“SEP”) plan under Tax Code section 408(k) or as a Simple IRA under Tax Code section 408(p). Prior to April 29, 2005, the contract was not available as a nonqualified contract and could not be purchased with funds from external sources. Prior to September 17, 2007, the contract was available as a tax deferred annuity under Tax Code section 403(b). **As of March 15, 2010, we are no longer offering this contract for sale to new purchasers.**

The contract provides a means for you to allocate your premium payments in one or more subaccounts, each of which invests in one of the mutual funds (“funds”) listed on the next page. You may also allocate premium payments to our Fixed Account with guaranteed interest periods. Your contract value will vary daily to reflect the investment performance of the subaccount(s) you select and any interest credited to your allocations in the Fixed Account. Some guaranteed interest periods or subaccounts may not be available in all states. The funds available under the contract are listed on the back of this cover.

You have a right to return a contract within 10 days after you receive it for a refund of the adjusted contract value (which may be more or less than the premium payments you paid). For IRAs, or if otherwise required by your state, we will refund the original amount of your premium payment. Longer free look periods apply in some states and in certain situations.

Replacing an existing annuity with the contract may not be beneficial to you. Your existing annuity may be subject to fees or penalties on surrender, and the contract may have new charges.

Compensation. We pay compensation to broker-dealers whose registered representatives sell the contracts. See “Contract Distribution” for further information about the amount of compensation we pay.

If you received a summary prospectus for any of the funds available through your contract, you may obtain a full prospectus and other information free of charge by either accessing the internet address, calling the telephone number or sending an email request to the email address shown on the front of the fund’s summary prospectus. This prospectus provides information that you should know before investing and should be kept for future reference. A Statement of Additional Information (“SAI”) dated April 29, 2011 has been filed with the Securities and Exchange Commission (“SEC”), as well as a registration statement for the Fixed Account II, also dated April 29, 2011. They are available without charge upon request. To obtain a copy of these documents, write to our Customer Service Center at P.O. Box 9271, Des Moines, Iowa 50306-9271 or call 1-800-366-0066, or access the SEC’s website (www.sec.gov). When looking for information regarding the contracts offered through this prospectus, you may find it useful to use the number assigned to the registration statement under the Securities Act of 1933. This number is 333-70600. The number assigned to the registration statement for the Fixed Account II is 333-133156. The table of contents of the SAI is on the last page of this prospectus and the SAI is made part of this prospectus by reference.

The funds available under your contract are*:

---	---

* The ING Diversified International Fund was closed to new investments on April 26, 2007. The ING PIMCO Total Return Portfolio and ING Van Kampen Capital Growth Portfolio were closed to new investments on May 1, 2009. There is no further information about these funds in this prospectus.

- (1) These portfolios are “Master-Feeder” funds. See “The Funds” for additional information.
- (2) Class I shares of this fund are available only to those investors who were invested in the Initial Class shares of the ING American Century Select Portfolio as of April 29, 2005. On April 27, 2007, the ING American Century Select Portfolio merged into the ING BlackRock Large Cap Growth Portfolio.
- (3) These portfolios are structured as fund of funds that invest directly in shares of underlying funds. See “The Funds” for additional information.
- (4) The ING GET U.S. Core Portfolio is not currently available for investment.
- (5) This fund has changed its name to the name listed above. See Appendix B—The Funds for a complete list of former and current fund names since your last prospectus supplement.
- (6) As of April 29, 2005, Initial Class shares of this fund were closed for further investment.
- (7) The ING Small Company Portfolio is only available to plans offering the fund prior to April 29, 2011.
- (8) WisdomTreeSM is a service mark of WisdomTree Investments.

The above funds are purchased and held by corresponding divisions of our separate account. We refer to the divisions as “subaccounts” and the money you place in the Fixed Account’s guaranteed interest periods as “Fixed Interest Allocations” in this prospectus.

Additional Disclosure Information. Neither the SEC, nor any state securities commission, has approved or disapproved the securities offered through this prospectus or passed on the accuracy or adequacy of this prospectus. Any representation to the contrary is a criminal offense. We do not intend for this prospectus to be an offer to sell or a solicitation of an offer to buy these securities in any state that does not permit their sale. We have not authorized anyone to provide you with information that is different than that contained in this prospectus.

Allocations to a subaccount investing in a fund are not bank deposits and are not insured or guaranteed by any bank or by the Federal Deposit Insurance Corporation or any other government agency.

INDEX OF SPECIAL TERMS

The following special terms are used throughout this prospectus. Refer to the page(s) listed for an explanation of each term:

Special Term	Page
Accumulation Unit	5
Annual Ratchet	29
Annual Ratchet Enhanced Death Benefit	54
Annuitant	16
Cash Surrender Value	21
Contract Date	16
Contract Owner	16
Contract Value	20
Contract Year	16
Covered Fund	9
Excluded Fund	9
Free Withdrawal Amount	10
Income Phase Start Date	16
Net Investment Factor	5
Net Rate of Return	5
Quarterly Ratchet	K-3
Restricted Funds	8
Rider Date	23
5% Roll-up	53
Special Funds	9
Standard Death Benefit	53

The following terms as used in this prospectus have the same or substituted meanings as the corresponding terms currently used in the contract:

Term Used in This Prospectus	Corresponding Term Used in the Contract
Accumulation Unit Value	Index of Investment Experience
Income Phase Start Date	Annuity Commencement Date
Contract Owner	Owner or Certificate Owner
Contract Value	Accumulation Value
Transfer Charge	Excess Allocation Charge
Fixed Interest Allocation	Fixed Allocation
Free Look Period	Right to Examine Period
Guaranteed Interest Period	Guarantee Period
Subaccount(s)	Division(s)
Net Investment Factor	Experience Factor
Regular Withdrawals	Conventional Partial Withdrawals
Withdrawals	Partial Withdrawals

FEES AND EXPENSES

The following tables describe the fees and expenses that you will pay when buying, owning, and surrendering account value from your contract. The first table describes the fees and expenses that you may pay at the time that you buy the contract, surrender account value from the contract, or transfer contract value between investment options. State premium taxes which currently range from 0% to 4% of premium payments may also be deducted. Any premium tax is deducted from the contract value.

Contract Owner Transaction Expenses¹

Surrender Charge

Complete Years Elapsed Since Premium Payment*	0	1	2	3	4	5	6	7+
Surrender Charge (as a percentage of premium payment withdrawn)	6%	6%	5%	4%	3%	2%	1%	0%

* For amounts transferred or rolled over into this contract as an internal transfer, see “Charges Deducted From Contract Value–Surrender Charge.”

Transfer Charge²..... \$25
(per transfer, if you make more than 12 transfers in a contract year)

¹ If you are invested in a Fixed Interest Allocation, a Market Value Adjustment may apply to certain transactions. This may increase or decrease your contract value and/or your transfer or surrender amount.

² We currently do not impose this charge, but may do so in the future.

The next table describes the fees and expenses that you will pay periodically during the time that you own the contract, not including fund fees and expenses.

Annual Contract Administrative Charge³

Administrative Charge..... \$30
(We waive this charge if the total of your premium payment is \$50,000 or more or if your contract value at the end of a contract year is \$50,000 or more.)

³ We deduct this charge on each contract anniversary and on surrender.

Separate Account Annual Charges⁴

The following charges apply to contracts established prior to August 7, 2003, and contracts issued in Oregon:

	Option Package I	Option Package II	Option Package III
Mortality & Expense Risk Charge	0.60%	0.80%	0.95%
Asset-Based Administrative Charge	0.15%	0.15%	0.15%
Total	<u>0.75%</u>	<u>0.95%</u>	<u>1.10%</u>
ING GET Fund Guarantee Charge ⁵	0.50%	0.50%	0.50%
Total With the ING GET Fund Guarantee Charge	1.25%	1.45%	1.60%

⁴ As a percentage of average daily assets in each subaccount. The Separate Account Annual Charges are deducted daily.

⁵ The ING GET U.S. Core Portfolio (“ING GET Fund”) Guarantee Charge is deducted daily during the guarantee period from amounts allocated to the ING GET U.S. Core Portfolio investment option. Please see “The Funds–ING GET U.S. Core Portfolio” for a description of the ING GET U.S. Core Portfolio guarantee. The ING GET U.S. Core Portfolio is not currently available for investment under the contract.

The following charges apply to contracts established on or after August 7, 2003 (or upon state approval, if later):

	Option Package I	Option Package II	Option Package III
Mortality & Expense Risk Charge	0.85%	1.05%	1.20%
Asset-Based Administrative Charge	<u>0.15%</u>	<u>0.15%</u>	<u>0.15%</u>
Total	1.00%	1.20%	1.35%
ING GET Fund Guarantee Charge ⁶	0.50%	0.50%	0.50%
Total With the ING GET Fund Guarantee Charge	1.50%	1.70%	1.85%

⁶ The ING GET U.S. Core Portfolio Guarantee Charge is deducted daily during the guarantee period from amounts allocated to the ING GET U.S. Core Portfolio investment option. Please see “The Funds–ING GET U.S. Core Portfolio” for a description of the ING GET U.S. Core Portfolio guarantee. The ING GET U.S. Core Portfolio is not currently available for investment under the contract.

Optional Rider Charges¹

Minimum Guaranteed Income Benefit rider:

As an Annual Charge (Charge Deducted Quarterly)
0.60% of the MGIB Benefit Base ²

ING LifePay Plus Minimum Guaranteed Withdrawal Benefit rider³:

As an Annual Charge–Currently (Charge Deducted Quarterly)	Maximum Annual Charge
0.80% of the ING LifePay Plus Base	1.50% of the ING LifePay Plus Base

ING Joint LifePay Plus Minimum Guaranteed Withdrawal Benefit rider⁴:

As an Annual Charge–Currently (Charge Deducted Quarterly)	Maximum Annual Charge
1.05% of the ING Joint LifePay Plus Base	1.70% of the ING Joint LifePay Plus Base

¹ Optional rider charges are expressed as a percentage, rounded to the nearest hundredth of one percent. The basis for an optional rider charge is sometimes a benefit base or contract value, as applicable. Optional rider charges are deducted from the contract value in your subaccount allocations (and/or your Fixed Interest Allocations if there is insufficient contract value in the subaccounts). These tables contain the charges for the current versions of these riders. For information about previous versions of these riders, including charges, see Appendix K and Appendix L.

² For more information about how the MGIB Benefit Base is determined, please see “Optional Living Benefit Riders–Minimum Guaranteed Income Benefit (MGIB) Rider–Determining the MGIB Annuity Income.”

³ The ING LifePay Plus Base is calculated based on premium if this rider is elected at contract issue. The ING LifePay Plus Base is calculated based on contract value if this rider is added after contract issue. The charge for this rider can increase upon an Annual Ratchet once the Lifetime Withdrawal Phase begins, subject to the maximum charge. We promise not to increase the charge for your first five rider years. For more information about the ING LifePay Plus Base and Annual Ratchet, please see “Charges and Fees–Optional Rider Charges–ING LifePay Plus Minimum Guaranteed Withdrawal Benefit (ING LifePay Plus) Rider Charge” and “Optional Living Benefit Riders–ING LifePay Plus Minimum Guaranteed Withdrawal Benefit (“ING LifePay Plus”) Rider–Annual Ratchet.”

⁴ The ING Joint LifePay Plus Base is calculated based on premium if this rider is elected at contract issue. The ING Joint LifePay Plus Base is calculated based on contract value if this rider is added after contract issue. The charge for this rider can increase upon an Annual Ratchet once the Lifetime Withdrawal Phase begins, subject to the maximum charge. We promise not to increase the charge for your first five rider years. For more information about the ING Joint LifePay Plus Base and Annual Ratchet, please see “Charges and Fees–Optional Rider Charges–ING Joint LifePay Plus Minimum Guaranteed Withdrawal Benefit (ING Joint LifePay Plus) Rider Charge” and “Optional Living Benefit Riders–ING Joint LifePay Plus Minimum Guaranteed Withdrawal Benefit (“ING Joint LifePay Plus”) Rider–Annual Ratchet.”

The next item shows the minimum and maximum total operating expenses charged by a fund that you may pay periodically during the time that you own the contract. More detail concerning each fund's fees and expenses is contained in the prospectus for each fund.

Total Annual Fund Operating Expenses	Minimum	Maximum
(expenses that are deducted from fund assets, including management fees, distribution and/or service (12b-1) fees, and other expenses):	0.52%	1.51%

Examples:

These Examples are intended to help you compare the cost of investing in the contract with the cost of investing in other variable annuity contracts. These costs include contract owner transaction expenses, contract fees, separate account annual expenses, and fund fees and expenses.

Premium taxes (which currently range from 0% to 4% of premium payments) may apply, but are not reflected in the examples below.

A. This example assumes that you invest \$10,000 in the contract for the time periods indicated. The example also assumes that your investment has a 5% return each year and assumes the **maximum** fees and expenses of any of the funds. Specifically, the example assumes election of Option Package III for contracts established on or after August 7, 2003. The example reflects the deduction of a mortality and expense risk charge, an asset-based administrative charge, and the annual contract administrative charge as an annual charge of 0.0068% of assets. The example also assumes you elected the Minimum Guaranteed Income Benefit rider with an assumed annual charge of 0.60% of the MGIB Benefit Base, and the rider charge is assessed each quarter on a base equal to the hypothetical \$10,000 premium increasing at 5% per year. If you elect different options, your expenses may be lower. If some or all of the amounts held under the contract are transfer amounts or otherwise not subject to surrender charge, the actual surrender charge will be lower than that represented in the example. Surrender charges may apply if you choose to begin receiving income phase payments within the first contract year and, under certain circumstances, within the first 7 contract years.

Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

1) If you surrender your contract at the end of the applicable time period:				
1 year	3 years	5 years	10 years	
\$946	\$1,562	\$2,112	\$3,847	
2) If you annuitize at the end of the applicable time period:				
1 year	3 years	5 years	10 years	
\$946	\$1,562	\$2,112	\$3,847	
3) If you do <i>not</i> surrender your contract:				
1 year	3 years	5 years	10 years	
\$346	\$1,062	\$1,812	\$3,847	

B. This example assumes that you invest \$10,000 in the contract for the time periods indicated. The example also assumes that your investment has a 5% return each year and assumes the **maximum** fees and expenses of any of the funds. Specifically, the example assumes election of Option Package III for contracts established on or after August 7, 2003. The example reflects the deduction of a mortality and expense risk charge, an asset-based administrative charge, and the annual contract administrative charge as an annual charge of 0.0068% of assets. The example also assumes the election of the ING LifePay Plus rider, and reflects the maximum ING LifePay Plus rider charge of 1.50% of the ING LifePay Plus Base. If you elect different options, your expenses may be lower. If some or all of the amounts held under the contract are transfer amounts or otherwise not subject to surrender charge, the actual surrender charge will be lower than that represented in the example. Surrender charges may apply if you choose to begin receiving income phase payments within the first contract year and, under certain circumstances, within the first 7 contract years.

Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

1) If you surrender your contract at the end of the applicable time period:			
1 year	3 years	5 years	10 years
\$1,037	\$1,842	\$2,589	\$4,826
2) If you annuitize at the end of the applicable time period:			
1 year	3 years	5 years	10 years
\$1,037	\$1,842	\$2,589	\$4,826
3) If you do <i>not</i> surrender your contract:			
1 year	3 years	5 years	10 years
\$437	\$1,342	\$2,289	\$4,826

C. This example assumes that you invest \$10,000 in the contract for the time periods indicated. The example also assumes that your investment has a 5% return each year and assumes the **maximum** fees and expenses of any of the funds. Specifically, the example assumes election of Option Package III for contracts established on or after August 7, 2003. The example reflects the deduction of a mortality and expense risk charge, an asset-based administrative charge, and the annual contract administrative charge as an annual charge of 0.0068% of assets. The example also assumes the election of the ING Joint LifePay Plus rider, and reflects the maximum ING Joint LifePay Plus rider charge of 1.70% of the ING Joint LifePay Plus Base. If you elect different options, your expenses may be lower. If some or all of the amounts held under the contract are transfer amounts or otherwise not subject to surrender charge, the actual surrender charge will be lower than that represented in the example. Surrender charges may apply if you choose to begin receiving income phase payments within the first contract year and, under certain circumstances, within the first 7 contract years.

Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

1) If you surrender your contract at the end of the applicable time period:			
1 year	3 years	5 years	10 years
\$1,057	\$1,904	\$2,695	\$5,049
2) If you annuitize at the end of the applicable time period:			
1 year	3 years	5 years	10 years
\$1,057	\$1,904	\$2,695	\$5,049
3) If you do <i>not</i> surrender your contract:			
1 year	3 years	5 years	10 years
\$457	\$1,404	\$2,395	\$5,049

Compensation is paid for the sale of the contracts. For information about this compensation, see “Contract Distribution–Selling the Contract.”

Fees Deducted by the Funds

Using This Information. The fund prospectuses show the investment advisory fees, 12b-1 fees and other expenses including service fees (if applicable) charged annually by each fund. See the “Charges and Fees” section of this prospectus, and the fund prospectuses, for further information. Fund fees are one factor that impacts the value of a fund share. To learn about additional factors, refer to the fund prospectuses.

The Company may receive compensation from each of the funds or the funds’ affiliates based on an annual percentage of the average net assets held in that fund by the Company. The percentage paid may vary from one fund company to another. For certain funds, some of this compensation may be paid out of 12b-1 fees or service fees that are deducted from fund assets. Any such fees deducted from fund assets are disclosed in the fund prospectuses. The Company may also receive additional compensation from certain funds for administrative, recordkeeping or other services provided by the Company to the funds or the funds’ affiliates. These additional payments may also be used by the Company to finance distribution. These additional payments are made by the funds or the funds’ affiliates to the Company and do not increase, directly or indirectly, the fund fees and expenses. See “Charges and Fees–Fund Expenses” for additional information.

In the case of fund companies affiliated with the Company, where an affiliated investment adviser employs subadvisers to manage the funds, no direct payments are made to the Company or the affiliated investment adviser by the subadvisers. Subadvisers may provide reimbursement for employees of the Company or its affiliates to attend business meetings or training conferences. Investment management fees are apportioned between the affiliated investment adviser and subadviser. This apportionment varies by subadviser, resulting in varying amounts of revenue retained by the affiliated investment adviser. This apportionment of the investment advisory fee does not increase, directly or indirectly, fund fees and expenses. See “Charges and Fees—Fund Expenses” for additional information.

How Fees are Deducted. Fees are deducted from the value of the fund shares on a daily basis, which in turn affects the value of each subaccount that purchases fund shares.

CONDENSED FINANCIAL INFORMATION

Understanding Condensed Financial Information. In Appendix A, we provide condensed financial information about the separate account subaccounts available under the contracts. The tables show the value of the subaccounts over the past 10 years. For subaccounts that were not available 10 years ago, we give a history from the date of first availability or the date purchase payments were first received in the subaccount under the contract.

Financial Statements. The statements of assets and liabilities, the statements of operations, the statements of changes in net assets and the related notes to financial statements for Separate Account B and the financial statements and the related notes to financial statements for ING USA Annuity and Life Insurance Company are included in the Statement of Additional Information.

Accumulation Unit

We use accumulation units to calculate the value of a contract. Each subaccount of the separate account has its own accumulation unit value. The accumulation units are valued each business day that the New York Stock Exchange (“NYSE”) is open for trading. Their values may increase or decrease from day to day according to a Net Investment Factor, which is primarily based on the investment performance of the applicable fund. Shares in the funds are valued at their net asset value.

The Net Investment Factor

The Net Investment Factor is an index number which reflects certain charges under the contract and the investment performance of the subaccount. The Net Investment Factor is calculated for each subaccount as follows:

1. We take the net asset value of the subaccount at the end of each business day.
2. We add to 1) the amount of any dividend or capital gains distribution declared for the subaccount and reinvested in such subaccount. We subtract from that amount a charge for our taxes, if any.
3. We divide 2) by the net asset value of the subaccount at the end of the preceding business day.
4. We then subtract the applicable daily mortality and expense risk charge, the daily asset-based administrative charge, and any optional rider charges that may be deducted daily from the subaccount and, for the ING GET Fund subaccount only, the daily ING GET Fund guarantee charge.

Calculations for the subaccounts are made on a per share basis.

The Net Rate of Return equals the Net Investment Factor minus one.

Performance Information

From time to time, we may advertise or include in reports to contract owners performance information for the subaccounts of the separate account, including the average annual total return performance, yields and other nonstandard measures of performance. Such performance data will be computed, or accompanied by performance data computed, in accordance with standards defined by the SEC.

Standard total average annual return performance will include average annual rates of total return for 1, 5 and 10 year periods, or lesser periods depending on how long the separate account has been investing in the fund. We may show other total returns for periods of less than one year. Total return figures will be based on the actual historic performance of the subaccounts of the separate account, assuming an investment at the beginning of the period when the separate account first invested in the fund (or when the fund was first made available through the Separate Account) and withdrawal of the investment at the end of the period, adjusted to reflect the deduction of all applicable fund and current contract charges. We may also show rates of total return on amounts invested at the beginning of the period with no withdrawal at the end of the period. Total return figures which assume no withdrawals at the end of the period will reflect all recurring charges, but will not reflect the surrender charge. In addition, we may present historic performance data for the funds since their inception reduced by some or all of the fees and charges under the contract. Such adjusted historic performance includes data that precedes the inception dates of the subaccounts of the separate account. This data is designed to show the performance that would have resulted if the contract had been in existence before the separate account began investing in the funds.

Performance information reflects only the performance of a hypothetical contract and should be considered in light of other factors, including the investment objective of the fund and market conditions. Please keep in mind that past performance is not a guarantee of future results.

ING USA ANNUITY AND LIFE INSURANCE COMPANY

ING USA Annuity and Life Insurance Company (“the Company”) is an Iowa stock life insurance company, which was originally incorporated in Minnesota on January 2, 1973. The Company is a wholly owned subsidiary of Lion Connecticut Holdings Inc. (“Lion Connecticut”), which in turn is a wholly owned subsidiary of ING Groep N.V. (“ING”), a global financial services holding company based in The Netherlands. All guarantees and benefits provided under the contracts are subject to the claims paying ability of the Company and our general account. The Company is authorized to sell insurance and annuities in all states, except the state of New York, and the District of Columbia. The Company’s financial statements appear in the Statement of Additional Information.

Directed Services LLC, the distributor of the Contracts and the investment manager of ING Investors Trust, is also a wholly owned indirect subsidiary of ING. ING also indirectly owns ING Investments, LLC and ING Investment Management Co., portfolio managers of the ING Investors Trust and the investment managers of the ING Variable Insurance Trust, ING Variable Products Trust and ING Variable Product Portfolios, respectively.

As part of a restructuring plan approved by the European Commission, ING has agreed to separate its banking and insurance businesses by 2013. ING intends to achieve this separation by divestment of its insurance and investment management operations, including the Company. ING has announced that it will explore all options for implementing the separation including initial public offerings, sales or a combination thereof.

Our principal office is located at 1475 Dunwoody Drive, West Chester, Pennsylvania 19380.

Regulatory Matters. As with many financial services companies, the Company and its affiliates periodically receive informal and formal requests for information from various state and federal governmental agencies and self-regulatory organizations in connection with inquiries and investigations of the products and practices of the Company or the financial services industry. Some of these investigations and inquiries could result in regulatory action against the Company. The potential outcome of such action is difficult to predict but could subject the Company or its affiliates to adverse consequences, including, but not limited to, settlement payments, penalties, fines, and other financial liability. It is not currently anticipated that the outcome of any such action will have a material adverse effect on ING or ING’s U.S.-based operations, including the Company. It is the practice of the Company and its affiliates to cooperate fully in these matters.

Product Regulation. Our products are subject to a complex and extensive array of state and federal tax, securities and insurance laws, and regulations, which are administered and enforced by a number of governmental and self-regulatory authorities, including state insurance regulators, state securities administrators, the SEC, the Financial Industry Regulatory Authority (“FINRA”), the Department of Labor and the Internal Revenue Service (“IRS”). For example, U.S. federal income tax law imposes requirements relating to product design, administration, and investments that are conditions for beneficial tax treatment of such products under the Tax Code. **See “Federal Tax Considerations” for further discussion of some of these requirements.** Failure to administer certain product features could affect such beneficial tax treatment. In addition, state and federal securities and insurance laws impose requirements relating to insurance product design, offering and distribution, and administration. Failure to meet any of these complex tax, securities, or insurance requirements could subject the Company to administrative penalties imposed by a particular governmental or self regulatory authority and unanticipated claims and costs associated with remedying such failure. Additionally, such failure could harm the Company’s reputation, interrupt the Company’s operations or adversely impact profitability.

ING USA SEPARATE ACCOUNT B

The separate account was established as a separate account of the Company on July 14, 1988. It is registered with the SEC as a unit investment trust under the Investment Company Act of 1940 as amended (the “1940 Act”). The separate account is a separate investment account used for our variable annuity contracts. We own all the assets in the separate account but such assets are kept separate from our other accounts.

The separate account is divided into subaccounts. Each subaccount invests exclusively in shares of one fund of a fund. Each fund has its own distinct investment objectives and policies. Income, gains and losses, realized or unrealized, of a portfolio are credited to or charged against the corresponding subaccount of the separate account without regard to any other income, gains or losses of the Company. Assets equal to the reserves and other contract liabilities with respect to each are not chargeable with liabilities arising out of any other business of the Company. They may, however, be subject to liabilities arising from subaccounts whose assets we attribute to other variable annuity contracts supported by the separate account. If the assets in the separate account exceed the required reserves and other liabilities, we may transfer the excess to our general account. We are obligated to pay all benefits and make all payments provided under the contracts. All guarantees and benefits provided under the contracts are subject to the claims paying ability of the Company and our general account.

Note: Other variable annuity contracts invest in Separate Account B but are not discussed in this prospectus. The separate account may also invest in other funds which are not available under your contract. Under certain circumstances, we may make certain changes to the subaccounts. For more information, see “The Annuity Contract—Addition, Deletion, or Substitution of Subaccounts and Other Changes.”

THE FUNDS

You will find information about the funds currently available under your contract in Appendix B—The Funds. A prospectus containing more complete information on each fund may be obtained by calling our Customer Service Center at 1-800-366-0066. You should read the prospectus carefully before investing.

Certain funds may be structured as “fund of funds” or “Master-Feeder” funds. The funds may have higher fees and expenses than a fund that invests directly in debt and equity securities because they also incur the fees and expenses of the underlying funds in which they invest. These funds are affiliated funds, and the underlying funds in which they invest may be affiliated as well. The fund prospectuses disclose the aggregate annual operating expenses of each fund and its corresponding underlying fund or funds. These funds are identified in the fund list in the front of this prospectus.

If, due to differences in tax treatment or other considerations, the interests of the contract owners of various contracts participating in the funds conflict, we, the Board of Trustees or Directors of the funds, and any other insurance companies participating in the funds will monitor events to identify and resolve any material conflicts that may arise.

ING GET U.S. Core Portfolio

An ING GET U.S. Core Portfolio (“ING GET Fund”) series may be available during the accumulation phase of the contract. We make a guarantee, as described below, when you allocate money into an ING GET Fund series. Each ING GET Fund series has an offering period of three months or longer, which precedes the guarantee period. The ING GET Fund series investment option may not be available under your contract or in your state.

Various series of the ING GET Fund may be offered from time to time, and additional charges will apply if you elect to invest in one of these series. We are not currently offering any series of the ING GET Fund for investment. The Company makes a guarantee when you direct money into an ING GET Fund series. We guarantee that the value of an accumulation unit of the ING GET Fund subaccount for that series under the contract on the maturity date will not be less than its value as determined after the close of business on the last day of the offering period for that ING GET Fund series. If the value on the maturity date is lower than it was on the last day of the offering period, we will add funds to the ING GET Fund subaccount for that series to make up the difference. This means that if you remain invested in the ING GET Fund until the maturity date, at the maturity date, you will receive no less than the value of your separate account investment directed to the ING GET Fund series as of the last day of the offering period, less charges not reflected in the accumulation unit value, and any amounts you transfer or withdraw from the ING GET Fund subaccount for that series.

The value of dividends and distributions made by the ING GET Fund series throughout the guarantee period is taken into account in determining whether, for purposes of the guarantee, the value of your ING GET Fund investment on the maturity date is no less than its value as of the last day of the offering period. If you withdraw or transfer funds from an ING GET Fund series prior to the maturity date, we will process the transactions at the actual unit value next determined after we receive your request. The ING GET Fund subaccount is not available for dollar cost averaging or automatic rebalancing.

Before the maturity date, we will send a notice to each contract owner who has allocated amounts to the ING GET Fund series. This notice will remind you that the maturity date is approaching and that you must choose other investment options for your ING GET Fund series amounts. If you do not make a choice, on the maturity date we will transfer your ING GET Fund series amounts to another available series of the ING GET Fund that is then accepting deposits. If no ING GET Fund is then available, we will transfer your ING GET Fund series amounts to the fund or funds that we designate.

Please see the ING GET U.S. Core Portfolio prospectus for a complete description of the ING GET Fund investment option, including charges and expenses.

Restricted Funds

We may designate any investment option as a Restricted Fund and limit the amount you may allocate or transfer to a Restricted Fund. We may establish any such limitation, at our discretion, as a percentage of premium or contract value or as a specified dollar amount and change the limitation at any time. Currently, we have not designated any investment option as a Restricted Fund. We may, with 30 days notice to you, designate any fund as a Restricted Fund or change the limitations on existing contracts with respect to new premiums added to such fund and also with respect to new transfers to such fund. If a change is made with regard to designation as a Restricted Fund or applicable limitations, such change will apply only to transactions effected after such change.

We limit your investment in the Restricted Funds on both an aggregate basis for all Restricted Funds and for each individual Restricted Fund. The aggregate limits for investment in all Restricted Funds are expressed as a percentage of contract value, percentage of premium and maximum dollar amount. Currently, your investment in two or more Restricted Funds would be subject to each of the following three limitations: no more than 30% of contract value, up to 100% of each premium and no more than \$9,999,999. We may change these limits, at our discretion, for new contracts, premiums, transfers or withdrawals.

We also limit your investment in each individual Restricted Fund. The limits for investment in each Restricted Fund are expressed as a percentage of contract value, percentage of premium and maximum dollar amount. Currently, the limits for investment in an individual Restricted Fund are the same as the aggregate limits set forth above. We may change these limits, in our discretion, for new contracts, premiums, transfers or withdrawals.

We monitor the aggregate and individual limits on investments in Restricted Funds for each transaction (e.g. premium payments, reallocations, withdrawals, dollar cost averaging). If the contract value in the Restricted Fund has increased beyond the applicable limit due to market growth, we will not require the reallocation or withdrawal of contract value from the Restricted Fund. However, if an aggregate limit has been exceeded, withdrawals must be taken either from the Restricted Funds or taken pro-rata from all investment options in which contract value is allocated, so that the percentage of contract value in the Restricted Funds following the withdrawal is less than or equal to the percentage of contract value in the Restricted Funds prior to the withdrawal.

We will allocate pro-rata the portion of any premium payment that exceeds the limits with a Restricted Fund to your other investment option choices not designated as Restricted Funds, or to a specially designated subaccount if there are none (currently, the ING Liquid Assets Portfolio), unless you instruct us otherwise.

We will not permit a transfer to the Restricted Funds to the extent that it would increase the contract value in the Restricted Fund or in all Restricted Funds to more than the applicable limits set forth above. We will not limit transfers from Restricted Funds. If the result of multiple reallocations is to lower the percentage of total contract value in Restricted Funds, the reallocation will be permitted even if the percentage of contract value in a Restricted Fund is greater than its limit.

Please see “Withdrawals” and “Transfers Among Your Investments” in this prospectus for more information on the effect of Restricted Funds.

COVERED FUNDS, SPECIAL FUNDS AND EXCLUDED FUNDS

For purposes of determining death benefits, we assign the investment options to one of three categories of funds. The categories are:

- Covered Funds;
- Special Funds; and
- Excluded Funds.

Allocations to Covered Funds participate fully in all guaranteed benefits. Allocations to Special Funds could affect the death benefit guarantee that may otherwise be provided. Allocations to Excluded Funds do not participate in any guaranteed benefits due to their potential for volatility.

Designation of investment options under these categories may vary by benefit. For example, we may designate an investment option a Special Fund for purposes of calculating one death benefit and not another. We may, with 30 days notice to you, designate any investment option as a Special or Excluded Fund with respect to new premiums added to such investment option, with respect to new transfers to such investment option and with respect to the death benefits to which such designation applies. Selecting a Special or Excluded Fund may limit or reduce the death benefit. (See “Death Benefit Choices” in this prospectus for more information.)

CHARGES AND FEES

We deduct the contract charges described below to compensate us for our cost and expenses, services provided and risks assumed under the contracts. We incur certain costs and expenses for distributing and administering the contracts, including compensation and expenses paid in connection with sales of the contracts, for paying the benefits payable under the contracts, and for bearing various risks associated with the contracts. Some of the charges are for optional riders, so they are only deducted if you elect to purchase the rider. The amount of a contract charge will not always correspond to the actual costs associated with the charge. For example, the surrender charge collected may not fully cover all of the distribution expenses incurred by us with the service or benefits provided. In the event there are any profits from fees and charges deducted under the contract, including the mortality and expense risk charge and rider and benefit charges, we may use such profits to finance the distribution of contracts.

Charge Deduction Subaccount

You may elect to have all charges against your contract value (except daily charges) deducted directly from a single subaccount designated by the Company. Currently, we use the ING Liquid Assets Portfolio subaccount for this purpose. If you do not elect this option, or if the amount of the charges is greater than the amount in the designated subaccount, the charges will be deducted as discussed below. You may cancel this option at any time by sending notice to our Customer Service Center in a form satisfactory to us.

Charges Deducted from the Contract Value

We deduct the following charges from your contract value:

Internal transfers when the prior contract or arrangement either imposed a front end load or had no applicable surrender charge: There is no surrender charge under this contract on amounts transferred or rolled over from a prior contract as an internal transfer when the prior contract imposed a front end load, there was no applicable surrender charge under the prior contract, or if the prior contract would not have assessed a surrender charge if the money had been transferred to a contract issued by a non-affiliated company.

Transfers from external sources, internal transfers when the prior contract had an applicable surrender charge and/or additional premium payments not part of an internal transfer: We deduct a surrender charge if you surrender your contract or withdraw an amount exceeding the free withdrawal amount. The free withdrawal amount for a contract year is the greater of: 1) 10% of contract value, based on the contract value on the date of withdrawal, less any prior withdrawals in that contract year; or 2) your required minimum distribution (“RMD”) attributable to amounts held under your contract. Under Option Package III, any unused free withdrawal amount may carry forward to successive contract years, but in no event would the free withdrawal amount at any time exceed 30% of contract value.

The following table shows the schedule of the surrender charge that will apply, based on the total premium withdrawn. The surrender charge is deducted from the amount requested for withdrawal. The surrender charge is a percent of each premium payment withdrawn. For internal transfers, the amount subject to surrender charge is the lesser of premium payments paid under the prior contract or the initial contract value.

Complete Years Elapsed Since Premium Payment*	0	1	2	3	4	5	6	7+
Surrender Charge	6%	6%	5%	4%	3%	2%	1%	0%

* For amounts transferred or rolled over into this contract as an internal transfer, the “Complete Years Elapsed” are calculated from the date of the first premium payment made under the prior contract or, if earlier, the effective date of the prior contract.

Waiver of Surrender Charge for Extended Medical Care. We will waive the surrender charge in most states in the following events: (i) you begin receiving qualified extended medical care on or after the first contract anniversary for at least 45 days during a 60-day period and your request for the surrender or withdrawal, together with all required documentation is received at our Customer Service Center during the term of your care or within 90 days after the last day of your care; or (ii) you are first diagnosed by a qualifying medical professional, on or after the first contract anniversary, as having a qualifying terminal illness. We have the right to require an examination by a physician of our choice. If we require such an examination, we will pay for it. You are required to send us satisfactory written proof of illness. See your contract for more information. The waiver of surrender charge may not be available in all states.

Free Withdrawal Amount. The Free Withdrawal Amount in any contract year is the greater of: 1) 10% of contract value, based on the contract value on the date of the withdrawal; and 2) your RMD attributable to amounts held under the contract. The Free Withdrawal Amount does not include your RMD for the tax year containing the contract date of this contract. Under Option Package III, any unused percentage of the 10% Free Withdrawal Amount from a contract year will carry forward into successive contract years, based on the percentage remaining at the time of the last withdrawal in that contract year. In no event will the free withdrawal amount at any time exceed 30% of contract value.

Surrender Charge for Excess Withdrawals. We will deduct a surrender charge for excess withdrawals, which may include a withdrawal you make to satisfy required minimum distributions under the Tax Code. We consider a withdrawal to be an “excess withdrawal” when the amount you withdraw in any contract year exceeds the Free Withdrawal Amount. Where you are receiving systematic withdrawals, any combination of regular withdrawals taken and any systematic withdrawals expected to be received in a contract year will be included in determining the amount of the excess withdrawal. Such a withdrawal will be considered a partial surrender of the contract and we will impose a surrender charge and any associated premium tax. We will deduct such charges from the contract value in proportion to the contract value in each subaccount or Fixed Interest Allocation from which the excess withdrawal was taken. In instances where the excess withdrawal equals the entire contract value in such subaccounts or Fixed Interest Allocations, we will deduct charges proportionately from all other subaccounts and Fixed Interest Allocations in which you are invested. **Any withdrawal from a Fixed Interest Allocation more than 30 days before its maturity date will trigger a Market Value Adjustment.** See Appendix C and the Fixed Account II prospectus for more information.

For the purpose of calculating the surrender charge for an excess withdrawal: a) we treat premiums as being withdrawn on a first-in, first-out basis; and b) amounts withdrawn that are not considered an excess withdrawal are not considered a withdrawal of any premium payments. We have included an example of how this works in Appendix E. Although we treat premium payments as being withdrawn before earnings for purposes of calculating the surrender charge for excess withdrawals, the federal tax law treats earnings as withdrawn first.

Surrender Charges and the ING LifePay Plus and ING Joint LifePay Plus Riders. If you elect the ING LifePay Plus or ING Joint LifePay Plus rider, withdrawals up to the Maximum Annual Withdrawal taken during the Lifetime Withdrawal Phase will not incur surrender charges. See “Optional Living Benefit Riders–ING LifePay Plus Minimum Contract Withdrawal Benefit (“ING LifePay Plus”) Rider–Surrender Charges” and “Optional Living Benefit Riders–ING Joint LifePay Plus Minimum Guaranteed Withdrawal Benefit (“ING Joint LifePay Plus”) Rider–Surrender Charges.”

Premium Taxes. We may make a charge for state and local premium taxes depending on your state of residence. The tax can range from 0% to 4% of the premium payment. We have the right to change this amount to conform with changes in the law or if you change your state of residence.

We deduct the premium tax from your contract value (or from the MGIB Benefit Base, if exercised) on the income phase payment start date. However, some jurisdictions impose a premium tax at the time that initial and additional premiums are paid, regardless of when the income phase payments begin. In those states we may defer collection of the premium taxes from your contract value and deduct it when you surrender the contract, when you take an excess withdrawal, or on the income phase start date.

Administrative Charge. We deduct an annual administrative charge on each contract anniversary, or if you surrender your contract prior to a contract anniversary, at the time we determine the cash surrender value payable to you. The amount deducted is \$30 per contract unless waived under conditions we establish. We deduct the charge proportionately from all subaccounts in which you are invested. If there is no contract value in those subaccounts, we will deduct the charge from your Fixed Interest Allocations starting with the guaranteed interest periods nearest their maturity dates until the charge has been paid.

Transfer Charge. We currently do not deduct any charges for transfers made during a contract year. We have the right, however, to assess up to \$25 for each transfer after the twelfth transfer in a contract year. If such a charge is assessed, we would deduct the charge from the subaccounts and the Fixed Interest Allocations from which each such transfer is made in proportion to the amount being transferred from each such subaccount and Fixed Interest Allocation unless you have chosen to have all charges deducted from a single subaccount. The charge will not apply to any transfers due to the election of dollar cost averaging, automatic rebalancing and transfers we make to and from any subaccount specially designated by the Company for such purpose.

Redemption Fees. Certain funds may deduct redemption fees as a result of withdrawals, transfers, or other fund transactions you initiate. If applicable, we may deduct the amount of any redemption fees imposed by the underlying mutual funds as a result of withdrawals, transfers or other fund transactions you initiate. Redemption fees, if any, are separate and distinct from any transaction charges or other charges deducted from your contract value. **For a more complete description of the funds’ fees and expenses, review each fund’s prospectus.**

Charges Deducted from the Subaccounts

Mortality and Expense Risk Charge. The amount of the mortality and expense risk charge depends on the option package you have elected. The charge is deducted on each business day based on the assets you have in each subaccount. In the event there is any profit from the mortality and expense risk charge, we may use such profit to finance the distribution of contracts.

Option Packages

The following option packages apply to contracts established prior to August 7, 2003, and contracts issued in Oregon:

Option Package I	Option Package II	Option Package III
Annual Charge 0.60%	Annual Charge 0.80%	Annual Charge 0.95%

The following option packages apply to contracts established on or after August 7, 2003 (or upon state approval, if later):

Option Package I	Option Package II	Option Package III
Annual Charge 0.85%	Annual Charge 1.05%	Annual Charge 1.20%

Asset-Based Administrative Charge. The amount of the asset-based administrative charge, on an annual basis, is equal to 0.15% of the assets you have in each subaccount. This charge is deducted daily from your assets in each subaccount.

ING GET U.S. Core Portfolio Guarantee Charge. The ING GET U.S. Core Portfolio guarantee charge is deducted each business day during the guarantee period if you elect to invest in the ING GET U.S. Core Portfolio. The amount of the ING GET U.S. Core Portfolio guarantee charge is 0.50% and is deducted from amounts allocated to the ING GET U.S. Core Portfolio investment option. This charge compensates us for the cost of providing a guarantee of accumulation unit values of the ING GET U.S. Core Portfolio subaccount. See “The Funds—ING GET U.S. Core Portfolio.”

Optional Rider Charges. Subject to state availability, you may purchase one of three optional benefit riders for an additional charge. Please check your contract application to determine which riders may be available to you. Once elected, a rider cannot be canceled independently of the contract. So long as a rider is in effect, we will deduct a separate quarterly charge for the optional benefit rider through a pro-rata reduction of the contract value of the subaccounts in which you are invested. If there is insufficient contract value in the subaccounts, we will deduct the charge from your Fixed Interest Allocations nearest their maturity date. We deduct each rider charge on the quarterly contract anniversary in arrears, meaning we deduct the first charge on the first quarterly anniversary following the rider date. If the rider is added to an existing contract, the first quarter’s charge will be reduced proportionally for the portion of the quarter that the rider was not in effect. For a description of riders and the defined terms used in connection with the riders, see “Optional Living Benefit Riders.”

A “quarterly anniversary date” is the date three months from the contract date that falls on the same date in the month as the contract date. For example, if the contract date is February 12, the quarterly anniversary date is May 12. If there is no corresponding date in the month, the quarterly anniversary date will be the last date of such month. If the quarterly anniversary date falls on a weekend or holiday, we will use the value as of the subsequent business day.

Minimum Guaranteed Income Benefit (MGIB). The charge for the MGIB Rider, a living benefit, is deducted quarterly as follows:

As an Annual Charge
0.60% of the MGIB Benefit Base

Please see “Optional Living Benefit Riders–Minimum Guaranteed Income Benefit (MGIB) Rider” for a description of the MGIB Benefit Base and the MGIB Rate.

ING LifePay Plus Minimum Guaranteed Withdrawal Benefit (ING LifePay Plus) Rider Charge. The charge for the ING LifePay Plus rider, a living benefit, is deducted quarterly from your contract value:

Maximum Annual Charge	Current Annual Charge
1.50%	0.80%

This quarterly charge is a percentage of the ING LifePay Plus Base. We deduct the charge in arrears based on the contract date (contract year versus calendar year). In arrears means the first charge is deducted at the end of the first quarter from the contract date. If the rider is elected at contract issue, the rider effective date is the same as the contract date. If the rider is added after contract issue, the rider and charges will begin on the next following quarterly contract anniversary. A quarterly contract anniversary occurs each quarter of a contract year from the contract date. The charge will be pro-rated when the rider is terminated. Charges will no longer be deducted once your rider enters Lifetime Automatic Periodic Benefit Status. Lifetime Automatic Periodic Benefit Status occurs if your contract value is reduced to zero and other conditions are met. We reserve the right to increase the charge for the ING LifePay Plus rider upon an Annual Ratchet once the Lifetime Withdrawal Phase begins. You will never pay more than new issues of this rider, subject to the maximum annual charge. We will not increase the charge for your first five years after the effective date of the rider. For more information about how this rider works, including when Lifetime Automatic Periodic Benefit Status begins, please see “Optional Living Benefit Riders–ING LifePay Plus Minimum Guaranteed Withdrawal Benefit (“ING LifePay Plus”) Rider.”

If the contract value in the subaccounts is insufficient for the charge, then we deduct it from any Fixed Interest Allocations, in which case a Market Value Adjustment may apply. Currently, a Market Value Adjustment would not apply when this charge is deducted from a Fixed Interest Allocation. With Fixed Interest Allocations, we deduct the charge from the Fixed Interest Allocation having the nearest maturity. For more information about the Fixed Interest Allocation, including the Market Value Adjustment, please see Appendix C. We reserve the right to change the charge for this rider, subject to the maximum annual charge. If changed, the new charge will only apply to riders issued after the change.

Please Note: *The above information pertains to the form of ING LifePay Plus rider which was available for sale from May 1, 2009 until March 15, 2010. If you purchased a prior version of the ING LifePay Plus rider, please see Appendix K for more information. If you purchased the ING LifePay rider, please see Appendix L for more information.*

ING Joint LifePay Plus Minimum Guaranteed Withdrawal Benefit (ING Joint LifePay Plus) Rider Charge. The charge for the ING Joint LifePay Plus rider, a living benefit, is deducted quarterly from your contract value:

Maximum Annual Charge	Current Annual Charge
1.70%	1.05%

This quarterly charge is a percentage of the ING Joint LifePay Plus Base. We deduct the charge in arrears based on the contract date (contract year versus calendar year). In arrears means the first charge is deducted at the end of the first quarter from the contract date. If the rider is elected at contract issue, the rider effective date is the same as the contract date. If the rider is added after contract issue, the rider and charges will begin on the next following quarterly contract anniversary. A quarterly contract anniversary occurs each quarter of a contract year from the contract date. The charge will be pro-rated when the rider is terminated. Charges will no longer be deducted once your rider enters Lifetime Automatic Periodic Benefit Status. Lifetime Automatic Periodic Benefit Status occurs if your contract value is reduced to zero and other conditions are met. We reserve the right to increase the charge for the ING LifePay Plus rider upon an Annual Ratchet once the Lifetime Withdrawal Phase begins. You will never pay more than new issues of this rider, subject to the maximum annual charge. We will not increase the charge for the first five years after the effective date of the rider. You will never pay more than new issues of this rider, subject to the maximum annual charge. For more information about how this rider works, including when Lifetime Automatic Periodic Benefit Status begins, please see “Optional Living Benefit Riders–ING Joint LifePay Plus Minimum Guaranteed Withdrawal Benefit (“ING Joint LifePay Plus”) Rider.”

If the contract value in the subaccounts is insufficient for the charge, then we deduct it from any Fixed Interest Allocations, in which case a Market Value Adjustment may apply. Currently, a Market Value Adjustment would not apply when this charge is deducted from a Fixed Interest Allocation. With Fixed Interest Allocations, we deduct the charge from the Fixed Interest Allocation having the nearest maturity. For more information about the Fixed Interest Allocation, including the Market Value Adjustment, please see Appendix C. We reserve the right to change the charge for this rider, subject to the maximum annual charge. If changed, the new charge will only apply to riders issued after the change.

Please Note: *The above information pertains to the form of ING Joint LifePay Plus rider which was available for sale from May 1, 2009 until March 15, 2010. If you purchased a prior version of the ING Joint LifePay Plus rider, please see Appendix K for more information. If you purchased the ING Joint LifePay rider, please see Appendix L for more information.*

Fund Expenses

As shown in the fund prospectuses, each fund deducts management fees from the amounts allocated to the fund. In addition, each fund deducts other expenses, which may include service fees that may be used to compensate service providers, including the Company and its affiliates, for administrative and contract owner services provided on behalf of the fund. Furthermore, certain funds deduct a distribution or 12b-1 fee, which is used to finance any activity that is primarily intended to result in the sale of fund shares. **For a more complete description of the funds’ fees and expenses, review each fund’s prospectus.**

Less expensive share classes of the funds offered through this contract may be available for investment outside of this contract. You should evaluate the expenses associated with the funds available through this contract before making a decision to invest.

The Company may receive substantial revenue from each of the funds or from the funds’ affiliates, although the amount and types of revenue vary with respect to each of the funds offered through the contract. This revenue is one of several factors we consider when determining contract fees and charges and whether to offer a fund through our contracts. **Fund revenue is important to the Company’s profitability, and it is generally more profitable for us to offer affiliated funds than to offer unaffiliated funds.**

Assets allocated to affiliated fund, meaning funds managed by Directed Services LLC, ING Investments, LLC or another Company affiliate, generate the largest dollar amount of revenue for the Company. Affiliated funds may also be subadvised by a Company affiliate or by an unaffiliated third party. Assets allocated to unaffiliated funds, meaning funds managed by an unaffiliated third party, generate lesser, but still substantial dollar amounts of revenue for the Company. The Company expects to earn a profit from this revenue to the extent it exceeds the Company's expenses, including the payment of sales compensation to our distributors.

Revenue Received from Affiliated Funds

The revenue received by the Company from affiliated funds may be deducted from fund assets and may include:

- A share of the management fee;
- Service fees;
- For certain share classes, compensation paid from 12b-1 fees; and
- Other revenues that may be based either on an annual percentage of average net assets held in the fund by the Company or a percentage of the fund's management fees.

In the case of affiliated funds subadvised by unaffiliated third parties, any sharing of the management fee between the Company and the affiliated investment adviser is based on the amount of such fee remaining after the subadvisory fee has been paid to the unaffiliated subadviser. Because subadvisory fees vary by subadviser, varying amounts of revenue are retained by the affiliated investment adviser and ultimately shared with the Company. The Company may also receive additional compensation in the form of intercompany payments from an affiliated fund's investment advisor or the investment advisor's parent in order to allocate revenue and profits across the organization. The intercompany payments and other revenue received from affiliated funds provide the Company with a financial incentive to offer affiliated funds through the contract rather than unaffiliated funds.

Revenue Received from Unaffiliated Funds

Revenue received from each of the unaffiliated funds or their affiliates is based on an annual percentage of the average net assets held in that fund by the Company. Some unaffiliated funds or their affiliates pay us more than others and some of the amounts we receive may be significant.

The revenue received by the Company or its affiliates from unaffiliated funds may be deducted from fund assets and may include:

- Service fees;
- For certain share classes, compensation paid from 12b-1 fees; and
- Additional payments for administrative, recordkeeping or other services that we provide to the funds or their affiliates, such as processing purchase and redemption requests, and mailing fund prospectuses, periodic reports and proxy materials. These additional payments do not increase directly or indirectly the fees and expenses shown in each fund's prospectus. These additional payments may be used by us to finance distribution of the contract.

If the unaffiliated fund families currently offered through the contract that made payments to us were individually ranked according to the total amount they paid to the Company or its affiliates in 2010, in connection with the registered variable annuity contracts issued by the Company, that ranking would be as follows:

If the revenues received from the affiliated funds were taken into account when ranking the funds according to the total dollar amount they paid to the Company or its affiliates in 2010, the affiliated funds would be first on the list.

In addition to the types of revenue received from affiliated and unaffiliated funds described above, affiliated and unaffiliated funds and their investment advisers, subadvisers or affiliates may participate at their own expense in Company sales conferences or educational and training meetings. In relation to such participation, a fund's investment adviser, subadviser or affiliate may help offset the cost of the meetings or sponsor events associated with the meetings. In exchange for these expense offset or sponsorship arrangements, the investment adviser, subadviser or affiliate may receive certain benefits and access opportunities to Company sales representatives and wholesalers rather than monetary benefits. These benefits and opportunities include, but are not limited to co-branded marketing materials, targeted marketing sales opportunities, training opportunities at meetings, training modules for sales personnel, and opportunities to host due diligence meetings for representatives and wholesalers.

Please note certain management personnel and other employees of the Company or its affiliates may receive a portion of their total employment compensation based on the amount of net assets allocated to affiliated funds. (See also “Contract Distribution–Selling the Contract.”)

THE ANNUITY CONTRACT

The contract described in this prospectus is a deferred combination variable and fixed annuity contract. The contract provides a means for you to invest in one or more of the available funds through the separate account. It also provides a means for you to invest in a Fixed Interest Allocation through the Fixed Account. See Appendix C and the Fixed Account II prospectus for more information on the Fixed Interest Allocation and Fixed Account.

When considering whether to purchase or participate in the contract, you should consult with your financial representative about your financial goals, investment time horizon and risk tolerance.

Contract Date and Contract Year

The date the contract became effective is the contract date. Each 12-month period following the contract date is a contract year.

Contract Owner

You are the contract owner. You are also the annuitant unless another annuitant is named in the application. You have the rights and options described in the contract.

The death benefit becomes payable when you die. In the case of a sole contract owner who dies before the income phase begins, we will pay the beneficiary the death benefit then due. The sole contract owner’s estate will be the beneficiary if no beneficiary has been designated or the beneficiary has predeceased the contract owner. If the contract owner is a trust and a beneficial owner of the trust has been designated, the beneficial owner will be treated as the contract owner for determining the death benefit. If a beneficial owner is changed or added after the contract date, this will be treated as a change of contract owner for determining the death benefit (likely a taxable event). If no beneficial owner of the trust has been designated, the availability of Option II or Option III will be based on the age of the annuitant at the time you purchase the contract. In the event a selected death benefit is not available, the Standard Death Benefit will apply.

Income Phase Start Date

The income phase start date is the date you start receiving income phase payments under your contract. The contract, like all deferred variable annuity contracts, has two phases: the accumulation phase and the income phase. The accumulation phase is the period between the contract date and the income phase start date. The income phase begins when you start receiving regular income phase payments from your contract on the income phase start date.

Annuitant

The annuitant is the person designated by you to be the measuring life in determining income phase payments. The annuitant’s age determines when the income phase must begin and the amount of the income phase payments to be paid. You are the annuitant unless you choose to name another person. The annuitant may not be changed after the contract is in effect.

The contract owner will receive the income phase benefits of the contract if the annuitant is living on the income phase start date. If the annuitant dies before the income phase start date and a contingent annuitant has been named, the contingent annuitant becomes the annuitant (unless the contract owner is not an individual, in which case the death benefit becomes payable).

When the annuitant dies before the income phase start date, the contract owner will become the annuitant. The contract owner may designate a new annuitant within 60 days of the death of the annuitant.

When the annuitant dies before the income phase start date and the contract owner is not an individual, we will pay the designated beneficiary the death benefit then due. If a beneficiary has not been designated, or if there is no designated beneficiary living, the contract owner will be the beneficiary. If the annuitant was the sole contract owner and there is no beneficiary designation, the annuitant’s estate will be the beneficiary.

Regardless of whether a death benefit is payable, if the annuitant dies and any contract owner is not an individual, distribution rules under federal tax law will apply. You should consult your tax adviser for more information if the contract owner is not an individual.

Beneficiary

The beneficiary is named by you in a written request. The beneficiary is the person who receives any death benefit proceeds. The beneficiary may become the successor contract owner if the contract owner who is a spouse (or the annuitant if the contract owner is other than an individual) dies before the income phase start date. We pay death benefits to the primary beneficiary.

If the beneficiary dies before the annuitant or the contract owner, the death benefit proceeds are paid to the contingent beneficiary, if any. If there is no surviving beneficiary, we pay the death benefit proceeds to the contract owner's estate.

One or more persons may be a beneficiary or contingent beneficiary. In the case of more than one beneficiary, we will assume any death benefit proceeds are to be paid in equal shares to the surviving beneficiaries.

All requests for changes must be in writing and submitted to our Customer Service Center in good order. The change will be effective as of the day you sign the request. The change will not affect any payment made or action taken by us before recording the change.

Change of Contract Owner or Beneficiary. During the annuitant's lifetime, you may transfer ownership of a nonqualified contract. A change in ownership may affect the amount of the death benefit, the guaranteed minimum death benefit and/or the death benefit option applied to the contract. The new owner's age, as of the date of the change, will be used as the basis for determining the applicable benefits and charges. See "Purchase and Availability of the Contract." The new owner's death will determine when a death benefit is payable. A change in owner or beneficiary may also impact any optional riders that have been elected.

A change of owner likely has tax consequences. See "Federal Tax Considerations" in this prospectus.

You have the right to change beneficiaries during the annuitant's lifetime unless you have designated an irrevocable beneficiary. If you have designated an irrevocable beneficiary, you and the irrevocable beneficiary may have to act together to exercise some of the rights and options under the contract. In the event of a death claim, we will honor the form of payment of the death benefit specified by the beneficiary to the extent permitted under Section 72(s) of the Tax Code. You may also restrict a beneficiary's right to elect an annuity option or receive a lump-sum payment. If so, such rights or options will not be available to the beneficiary.

All requests for changes must be in writing and submitted to our Customer Service Center. Please date your request. The change will be effective as of the day we receive the request. The change will not affect any payment made or action taken by us before recording the change.

Purchase and Availability of the Contract

We are no longer offering the contract for sale to new purchasers.

The minimum initial payment to purchase the contract is \$5,000. Currently, this payment may be made either by funds from qualified or nonqualified external sources ("external sources") or by a transfer or rollover from an existing qualified or nonqualified contract or arrangement (the "prior contract") issued by us or one of our affiliates ("internal transfer"). Prior to April 29, 2005, the initial payment was required to be made as an internal transfer and the contract was not available as a nonqualified contract.

There are three option packages available under the contract. You select an option package at time of application. Each option package is unique. The maximum age at which you may purchase the contract is age 80, unless you elect to purchase Option Package III, in which case the maximum issue age is age 69. For Option Package I, we may allow you to purchase the contract up to age 85, provided you are purchasing the contract as an internal transfer where you will receive credit for the surrender charge period accrued under the prior contract, or where there will be no surrender charge under this contract because your prior contract has no surrender charge. See "Charges and Fees—Charges Deducted from the Contract Value." We reserve the right to modify these issue age limitations in a nondiscriminatory manner.

Option Package III is not available for purchase with any living benefit rider. Prior to May 1, 2009, the living benefit riders were available with Option Package III, and the maximum issue age for Option Package III was age 80.

You may make additional premium payments up to the contract anniversary after your 86th birthday. The minimum additional premium payment we will accept is \$50 regardless of the option package you select. Under certain circumstances, we may waive the minimum premium payment requirement. We may also change the minimum initial or additional premium requirements for certain group or sponsored arrangements. Any initial or additional premium payment that would cause the contract value of all annuities that you maintain with us to exceed \$1,000,000 requires our prior approval.

The contract may currently be purchased by individuals as a nonqualified contract, as a traditional Individual Retirement Annuity (“IRA”) under Section 408(b) of the Tax Code or as a Roth IRA under Section 408A of the Tax Code. The contract is not currently available as a Simplified Employer Pension (SEP) Plan under 408(k), a Simple IRA under Section 408(P), or a tax deferred annuity under Section 403(b) of the Tax Code.

Factors to Consider in the Purchase Decision

The contract is designed for people seeking long-term tax-deferred accumulation of assets, generally for retirement or other long-term purposes. The tax-deferred feature is more attractive to people in high federal and state tax brackets. **You should not buy this contract: (1) if you are looking for a short-term investment; (2) if you cannot risk getting back less money than you put in; or (3) if your assets are in a plan which provides for tax-deferral and you see no other reason to purchase this contract.** The decision to purchase or participate in a contract should be discussed with your financial representative. Make sure that you understand the investment options it provides, its other features, the risks and potential benefits you will face, and the fees and expenses you will incur when, together with your financial representative, you consider an investment in the contract. You should pay attention to the following issues, among others:

- 1) **Long-Term Investment** – This contract is a long-term investment, and is typically most useful as part of a personal retirement plan. Early withdrawals may be restricted by the Tax Code or your plan or may expose you to early withdrawal charges or tax penalties. The value of deferred taxation on earnings grows with the amount of time funds are left in the contract. You should not participate in this contract if you are looking for a short-term investment or expect to need to make withdrawals before you are 59½.
- 2) **Investment Risk** – The value of investment options available under this contract may fluctuate with the markets and interest rates. You should not participate in this contract in order to invest in these options if you cannot risk getting back less money than you put in.
- 3) **Features and Fees** – The fees for this contract reflect costs associated with the features and benefits it provides. As you consider this contract, you should determine the value that these various benefits and features have for you, given your particular circumstances, and consider the charges for those features.
- 4) **Exchanges** – Replacing an existing insurance contract with this contract may not be beneficial to you. If this contract will be a replacement for another annuity contract or mutual fund option under the plan, you should compare the two options carefully, compare the costs associated with each, and identify additional benefits available under this contract. You should consider whether these additional benefits justify incurring a new schedule of early withdrawal charges or any increased charges that might apply under this contract. Also, be sure to talk to your financial professional or tax adviser to make sure that the exchange will be handled so that it is tax-free.

IRAs and other qualified plans already have the tax-deferral feature found in this contract. For an additional cost, the contract provides other features and benefits including death benefits and the ability to receive a lifetime income. You should not purchase a qualified contract unless you want these other features and benefits, taking into account their cost. See “Fees and Expenses” in this prospectus. **If you are considering Option II or Option III and your contract will be an IRA, see “Federal Tax Considerations–Taxation of Qualified Contracts–Individual Retirement Annuities” and “Federal Tax Considerations–Tax Consequences of Living Benefits and Death Benefits” in this prospectus.**

Crediting of Premium Payments

We will process your initial premium within 2 business days after receipt and allocate the payment according to the instructions you specify at the accumulation unit value next determined, if the application and all information necessary for processing the contract are complete. Subsequent premium payments will be processed within 1 business day if we receive all information necessary. In certain states we also accept additional premium payments by wire order. Wire transmittals must be accompanied by sufficient electronically transmitted data. We may retain your initial premium payment for up to 5 business days while attempting to complete an incomplete application. If the application cannot be completed within this period, we will inform you of the reasons for the delay. We will also return the premium payment immediately unless you direct us to hold the premium payment until the application is completed. If you choose to have us hold the premium payment, it will be held in a non-interest bearing account.

If a subaccount is not available or requested in error, we will make inquiry about a replacement subaccount. If we are unable to reach you or your representative within 5 days, we will consider the application incomplete. Once the completed application is received, we will allocate the payment to the subaccounts and/or Fixed Interest Allocation of the separate account specified by you within 2 business days.

If your premium payment was transmitted by wire order from your broker-dealer, we will follow one of the following two procedures after we receive and accept the wire order and investment instructions. The procedure we follow depends on state availability and the procedures of your broker-dealer.

- 1) If either your state or broker-dealer do not permit us to issue a contract without an application, we reserve the right to rescind the contract if we do not receive and accept a properly completed application or enrollment form within 5 days of the premium payment. If we do not receive the application or form within 5 days of the premium payment, we will refund the contract value plus any charges we deducted, and the contract will be voided. Some states require that we return the premium paid.
- 2) If your state and broker-dealer allow us to issue a contract without an application, we will issue and mail the contract to you or your representative, together with a Contract Acknowledgement and Delivery Statement for your execution. Until our Customer Service Center receives the executed Contract Acknowledgement and Delivery Statement, neither you nor the broker-dealer may execute any financial transactions on your contract unless they are requested in writing by you. We may require additional information before complying with your request (e.g., signature guarantee).

We will ask about any missing information related to subsequent payments. We will allocate the subsequent payment(s) pro-rata according to the current variable subaccount allocation unless you specify otherwise. Any fixed allocation(s) will not be considered in the pro-rata calculations. If a subaccount is no longer available (including due to a fund purchase restriction) or requested in error, we will allocate the subsequent payments proportionally among the other subaccounts in your contract allocations. For any subsequent premium payments, the payment designated for a subaccount of the separate account will be credited at the accumulation unit value next determined after receipt of your premium payment and instructions.

Once we allocate your premium payment if applicable, to the subaccounts selected by you, we convert the premium payment into accumulation units. We divide the amount of the premium payment allocated to a particular subaccount by the value of an accumulation unit for the subaccount to determine the number of accumulation units of the subaccount to be held in the separate account with respect to your contract. The net investment results of each subaccount vary with its investment performance.

In some states, we may require that an initial premium designated for a subaccount of the separate account or the Fixed Account be allocated to a subaccount specially designated by the Company (currently, the ING Liquid Assets Portfolio subaccount) during the free look period. After the free look period, we will convert your contract value (your initial premium plus any earnings less any expenses) into accumulation units of the subaccounts you previously selected. The accumulation units will be allocated based on the accumulation unit value next computed for each subaccount. Initial premiums designated for Fixed Interest Allocations will be allocated to a Fixed Interest Allocation with the guaranteed interest period you have chosen; however, in the future we may allocate the premiums to the specially designated subaccount during the free look period.

Anti-Money Laundering

In order to protect against the possible misuse of our products in money laundering or terrorist financing, we have adopted an anti-money laundering program satisfying the requirements of the USA PATRIOT Act and other current anti-money laundering laws. Among other things, this program requires us, our agents and customers to comply with certain procedures and standards that serve to assure that our customers' identities are properly verified and that premiums and loan repayments are not derived from improper sources.

Under our anti-money laundering program, we may require policy owners, insured persons and/or beneficiaries to provide sufficient evidence of identification, and we reserve the right to verify any information provided to us by accessing information databases maintained internally or by outside firms.

We may also refuse to accept certain forms of premium payments or loan repayments (traveler's cheques, cashier's checks, bank drafts, bank checks and treasurer's checks, for example) or restrict the amount of certain forms of premium payments or loan repayments (money orders totaling more than \$5,000.00, for example). In addition, we may require information as to why a particular form of payment was used (third party checks, for example) and the source of the funds of such payment in order to determine whether or not we will accept it. Use of an unacceptable form of payment may result in us returning the payment and not issuing the Contract.

Applicable laws designed to prevent terrorist financing and money laundering might, in certain circumstances, require us to block certain transactions until authorization is received from the appropriate regulator. We may also be required to provide additional information about you and your policy to government regulators.

Our anti-money laundering program is subject to change without notice to take account of changes in applicable laws or regulations and our ongoing assessment of our exposure to illegal activity.

Administrative Procedures

We may accept a request for contract service in writing, by telephone, or other approved electronic means, subject to our administrative procedures, which vary depending on the type of service requested and may include proper completion of certain forms, providing appropriate identifying information, and/or other administrative requirements. We will process your request at the contract value next determined only after you have met all administrative requirements. Please be advised that the risk of a fraudulent transaction is increased with telephonic or electronic instructions (for example, a facsimile withdrawal request form), even if appropriate identifying information is provided.

Sending Forms and Written Requests in Good Order

If you are writing to change your beneficiary, request a withdrawal, or for any other purpose, contact your local representative or the Customer Service Center to learn what information is required in order for the request to be in "good order." By contacting us, we can provide you with the appropriate administrative form for your requested transaction.

Contract Value

We determine your contract value on a daily basis beginning on the contract date. Your contract value is the sum of (a) the contract value in the Fixed Interest Allocations, and (b) the contract value in each subaccount in which you are invested.

Contract Value in the Subaccounts. On the contract date, the contract value in the subaccount in which you are invested is equal to the initial premium paid that was designated to be allocated to the subaccount. On the contract date, we allocate your contract value to each subaccount and/or a Fixed Interest Allocation specified by you, unless the contract is issued in a state that requires the return of premium payments during the free look period, in which case, the portion of your initial premium not allocated to a Fixed Interest Allocation may be allocated to a subaccount specially designated by the Company during the free look period for this purpose (currently, the ING Liquid Assets Portfolio subaccount).

On each business day after the contract date, we calculate the amount of contract value in each subaccount as follows:

- (1) We take the contract value in the subaccount at the end of the preceding business day.
- (2) We multiply (1) by the subaccount's Net Rate of Return since the preceding business day.
- (3) We add (1) and (2).
- (4) We add to (3) any additional premium payments and then add or subtract any transfers to or from that subaccount.
- (5) We subtract from (4) any withdrawals and any related charges, and then subtract any contract fees (including any optional rider charges) and premium taxes.

Cash Surrender Value

The cash surrender value is the amount you receive when you surrender the contract. The cash surrender value will fluctuate daily based on the investment results of the subaccounts in which you are invested and interest credited to Fixed Interest Allocations and any Market Value Adjustment. See the Fixed Account II prospectus for a description of the calculation of values under any Fixed Interest Allocation. We do not guarantee any minimum cash surrender value. On any date during the accumulation phase, we calculate the cash surrender value as follows: we start with your contract value, then we adjust for any Market Value Adjustment, then we deduct any surrender charge, any charge for premium taxes, the annual contract administrative fee, and any other charges incurred but not yet deducted.

Surrendering to Receive the Cash Surrender Value

You may surrender the contract at any time while the annuitant is living and before the income phase start date. A surrender will be effective on the date your written request and the contract are received at our Customer Service Center. We will determine and pay the cash surrender value at the price next determined after receipt of all paperwork required in order for us to process your surrender. Once paid, all benefits under the contract will be terminated. For administrative purposes, we will transfer your money to a specially designated subaccount (currently, the ING Liquid Assets Portfolio subaccount) prior to processing the surrender. This transfer will have no effect on your cash surrender value. You may receive the cash surrender value in a single sum payment or apply it under one or more annuity options. We will usually pay the cash surrender value within 7 days.

Consult your tax adviser regarding the tax consequences associated with surrendering your contract. A surrender made before you reach age 59½ may result in a 10% tax penalty. See "Federal Tax Considerations" for more details.

The Subaccounts

Each of the subaccounts of the separate account offered under this prospectus invests in a fund with its own distinct investment objectives and policies.

Addition, Deletion or Substitution of Subaccounts and Other Changes

We may make additional subaccounts available to you under the contract. These subaccounts will invest in funds we find suitable for your contract. We may also withdraw or substitute funds, subject to the conditions in your contract and compliance with regulatory requirements.

We may amend the contract to conform to applicable laws or governmental regulations. If we feel that investment in any of the funds has become inappropriate to the purposes of the contract, we may, with approval of the SEC (and any other regulatory agency, if required) combine two or more subaccounts or substitute another portfolio for existing and future investments. If you have elected the dollar cost averaging, systematic withdrawals, or automatic rebalancing programs or if you have other outstanding instructions, and we substitute or otherwise eliminate a portfolio which is subject to those instructions, we will execute your instructions using the substitute or proposed replacement portfolio unless you request otherwise. The substitute or proposed replacement portfolio may have higher fees and charges than any portfolio it replaces.

We also reserve the right to: (i) deregister the separate account under the 1940 Act; (ii) operate the separate account as a management company under the 1940 Act if it is operating as a unit investment trust; (iii) operate the separate account as a unit investment trust under the 1940 Act if it is operating as a managed separate account; (iv) restrict or eliminate any voting rights as to the separate account; and (v) combine the separate account with other accounts.

We will, of course, provide you with written notice before any of these changes are effected.

The Fixed Account

The Fixed Account is a segregated asset account which contains the assets that support a contract owner's Fixed Interest Allocations. See Appendix C and the Fixed Account II prospectus for more information. To obtain a copy of the Fixed Account II prospectus, write to our Customer Service Center at P.O. Box 9271, Des Moines, Iowa 50306-9271 or call 1-800-366-0066, or access the SEC's website (<http://www.sec.gov>).

State Variations

Contracts issued in your state may provide different features and benefits from, and impose different costs than, those described in this prospectus. This prospectus provides a general description of the contract. Your actual contract, any endorsements and riders are the controlling documents.

Other Products

We and our affiliates offer various other products with different features and terms than the contracts, and that may offer some or all of the same funds. These products have different benefits, fees and charges, and may or may not better match your needs. Please note that some of the Company's management personnel and certain other employees may receive a portion of their employment compensation based on the amount of contract values allocated to funds affiliated with ING. You should be aware that there are alternative options available, and, if you are interested in learning more about these other products, contact our Customer Service Center or your registered representative. Also, broker-dealers selling the contract may limit its availability or the availability of an optional feature (for example, by imposing restrictions on eligibility), or decline to make an optional feature available. Please talk to your registered representative for further details.

OPTIONAL LIVING BENEFIT RIDERS

Some features and benefits of the contract, if available, were available by rider for an additional charge. Once elected, the riders generally may not be cancelled. You may not remove a rider and charges will be assessed regardless of the performance of your contract. Please see "Charges and Fees—Optional Rider Charges" for more information on rider charges. **No optional living benefit riders are currently available for purchase.**

Subject to state availability and the conditions noted below, the contract has three living benefit riders offering protection against the investment risks with your contract:

- The Minimum Guaranteed Income Benefit rider, which you may wish to purchase if you are concerned about having a minimum amount of income during the income phase of your contract;
- The ING LifePay Plus Minimum Guaranteed Withdrawal Benefit rider, which you may wish to purchase if you are concerned that you may outlive your income; and
- The ING Joint LifePay Plus Minimum Guaranteed Withdrawal Benefit rider, which you may wish to purchase if you are married and concerned that you and your spouse may outlive your income.

These living benefit riders are described further below. **You may add only one of these three riders to your contract. Each rider has a separate charge.** We do, however, reserve the right to allow the purchase of more than one optional living benefit rider in the future, as well as the right to allow contract owners to replace the ING LifePay Plus rider with the ING Joint LifePay Plus rider. Once elected, the riders generally may not be cancelled. You may not remove the rider and charges will be assessed regardless of the performance of your contract. Please see "Charges and Fees—Optional Rider Charges" for information on rider charges.

The optional riders may not be available for all investors. Please check your contract application to determine if any are available to you. You should analyze each rider thoroughly and understand it completely before you elect to purchase one. The optional riders do not guarantee any return of principal or premium payments and do not guarantee performance of any specific fund under the contract. You should not purchase the ING LifePay Plus rider with multiple owners, unless the owners are spouses. You should consult a qualified financial adviser in evaluating the riders. Our Customer Service Center may be able to answer your questions. The telephone number is 1-800-366-0066.

No Cancellation. Once you purchase a rider, you may not cancel it unless you a) cancel the contract during the contract's free look period; b) surrender; c) begin income phase payments; or d) otherwise terminate the contract pursuant to its terms. These events automatically cancel any rider. Once the contract continues beyond the free look period, you may not cancel the rider. The Company may, at its discretion, cancel and/or replace a rider at your request in order to renew or reset a rider.

Termination. The optional riders are "living benefits," which means the guaranteed benefits offered by the riders are intended to be available to you while you are living and while your contract is in the accumulation phase. Generally, the optional riders automatically terminate if you:

- 1) Terminate your contract pursuant to its terms during the accumulation phase, surrender, or begin receiving income phase payments in lieu of payments under the rider;
- 2) Die during the accumulation phase (first owner to die in the case of joint owners, or death of annuitant if the contract is a custodial IRA), unless your spouse elects to continue the contract or if you have selected the ING Joint LifePay Plus rider; or
- 3) Change the owner of the contract.

Other circumstances that may cause a rider to terminate automatically are discussed below with each rider.

Rider Date. The rider date is the date the rider becomes effective. If you purchase a rider when the contract is issued, the rider date is also the contract date. Under some riders, we may also refer to this as the rider effective date.

Minimum Guaranteed Income Benefit (MGIB) Rider. The MGIB rider is an optional benefit which guarantees a minimum amount of income phase income will be available to you if you initiate income phase payments on the MGIB Date (defined below), regardless of fluctuating market conditions. The minimum guaranteed amount of income phase income will depend on the amount of premiums you pay during the first rider year, the amount of contract value you allocate or transfer to Special Funds or Excluded Funds, and any withdrawals you take while the rider is in effect. Thus, investing in Special Funds or Excluded Funds may limit the MGIB benefit.

Purchase. To purchase the MGIB rider, you must be age 70 or younger on the rider date and the ten-year waiting period must end at or prior to the latest income phase start date. Some broker-dealers may limit availability of the rider to younger ages. The MGIB rider must be purchased on the contract date. The Company in its discretion may allow the purchase of this rider after the contract date. The MGIB rider is not available for purchase with Option Package III. **There is a ten-year waiting period before you can elect income phase payments under the MGIB rider.** Please note that the MGIB rider was closed for purchase by new contract holders on or after July 20, 2009. Effective March 15, 2010, the MGIB was closed for purchase by owners of existing contracts, to the extent this rider was otherwise available for purchase under these contracts.

The MGIB Date. If you purchased the MGIB rider on the contract date or added the MGIB rider within 30 days following the contract date, the MGIB Date is the contract anniversary on or after the tenth contract anniversary when you decide to exercise your right to begin income phase payments under the MGIB rider. If you added the MGIB rider at any other time, your MGIB Date is the contract anniversary at least 10 years after the rider date when you decide to exercise your right to begin income phase payments under the MGIB rider.

Special Funds. The following investment options are designated as Special Funds for purposes of calculating the MGIB Benefit Base:

Fixed Account
Fixed Interest Division
ING Global Bond Portfolio
ING Liquid Assets Portfolio
ING PIMCO Total Return Bond Portfolio
ING PIMCO Total Return Portfolio.

Please note that the ING PIMCO Total Return Portfolio is also a Special Fund, but closed to new allocations, effective May 1, 2009.

Please see "Covered Funds, Special Funds, and Excluded Funds." No investment options are currently designated as Excluded Funds.

For contracts issued **before September 8, 2008**, the following funds are also designated as Special Funds for purposes of calculating the MGIB Benefit Base:

ING Intermediate Bond Portfolio
ING Solution Income Portfolio
PIMCO VIT Real Return Portfolio

All amounts invested in these funds through contracts issued before September 8, 2008 are treated as Special Funds. Amounts invested in these funds through contracts issued on or after September 8, 2008 will be treated as Covered Funds.

Charges. The charge we deduct under the MGIB Rider is 0.60% annually of the MGIB Benefit Base. The calculation of the MGIB Benefit Base is described in “Determining the MGIB Annuity Income,” below.

How the MGIB Rider Works. Ordinarily, the amount of income that will be available to you on the income phase start date is based on your contract value, the income phase option you selected and the guaranteed income factors in effect on the date you start receiving income phase payments. If you purchase the MGIB rider, the amount of income that will be available to you upon starting income phase payments on the MGIB Date is the greatest of:

- 1) Your income phase income based on your contract value on the MGIB Date adjusted for any Market Value Adjustment (see Appendix C and the Fixed Account II prospectus) applied to the guaranteed income factors specified in your contract for the income phase option you selected;
- 2) Your income phase income based on your contract value on the MGIB Date adjusted for any Market Value Adjustment (see Appendix C and the Fixed Account II prospectus) applied to the then-current income factors in effect for the income phase option you selected; or
- 3) The MGIB annuity income based on your MGIB Benefit Base on the MGIB Date applied to the MGIB income factors specified in your rider for the MGIB annuity option you selected. Prior to applying the MGIB income factors, we will adjust the MGIB Benefit Base for any surrender charge, premium tax recovery and Market Value Adjustment (see Appendix C and the Fixed Account II prospectus) that would otherwise apply when starting the income phase.

The guaranteed factors contained in the MGIB rider generally provide lower payout per \$1,000 of value applied than the guaranteed factors found in your contract. Appendix H provides examples of minimum income calculations. The contract value in the future is unknown, so the income provided under a contract with the MGIB rider attached may be greater or less than the income that would be provided under the contract without the rider. Generally, the income calculated under the rider will be greater than the income provided under the contract whenever the MGIB Benefit Base (greater of the Rollup and Ratchet Bases) is sufficiently in excess of the contract value to offset the additional conservatism reflected in the rider’s income factors compared to those in the contract. The income factors in the MGIB rider generally reflect a lower interest rate and more conservative mortality than the income factors in the contract. The degree of relative excess that the income factors require to produce more income will vary for each individual circumstance. If the contract value exceeds the MGIB Benefit Base at the time the income phase starts, the contract will generally produce greater income than the rider. Please see Appendix H—Examples of Minimum Guaranteed Income Benefit Calculation.

The MGIB Benefit Base is only a calculation used to determine the MGIB annuity income. The MGIB Benefit Base does not represent a contract value, nor does it guarantee performance of the subaccounts in which you are invested. It is also not used in determining the amount of your cash surrender value and death benefits. The MGIB Benefit Base is tracked separately for Covered, Special and Excluded Funds, based on initial allocation of eligible premium (or contract value, if applicable) and subsequently allocated eligible premiums, withdrawals and transfers. Contract value, rather than eligible premium is used as the initial value if the rider is added after the contract date.

Prior to your latest income phase start date, you may choose to exercise your right to receive payments under the MGIB rider. Payments under the rider begin on the MGIB Date. **We require a 10-year waiting period before you can elect to receive payments under the MGIB rider benefit.** The MGIB must be exercised in the 30-day period prior to the end of the waiting period or any subsequent contract anniversary. At your request, the Company may in its discretion extend the latest contract income phase start date without extending the MGIB Date.

Determining the MGIB Annuity Income. On the MGIB Date, we calculate your MGIB annuity income as follows:

- 1) **We first determine your MGIB Benefit Base:** The MGIB Benefit Base is equal to the greater of the MGIB Rollup Base and the MGIB Ratchet Base, which may be reduced by an amount equal to the ratio of any outstanding loan balance (where applicable) to the contract value multiplied by the MGIB Base.

a) Calculation of MGIB Rollup Base

The MGIB Rollup Base is equal to the lesser of the Maximum MGIB Base and the sum of (a), (b), and (c) where:

- (a) is the MGIB Rollup Base for Covered Funds;
- (b) is the MGIB Rollup Base for Special Funds; and
- (c) is the contract value of Excluded Funds.

The Maximum MGIB Base applicable to the MGIB Rollup Base is 300% of eligible premiums adjusted pro-rata for withdrawals. This means that the Maximum MGIB Base is reduced for withdrawals by the same proportion that the withdrawal reduces the contract value. The Maximum MGIB Base is not allocated by fund category.

The MGIB Rollup Base allocated to Covered Funds equals the eligible premiums allocated to Covered Funds, adjusted for subsequent withdrawals and transfers taken or made while the MGIB rider is in effect, accumulated at the MGIB Rate to the earlier of the oldest owner reaching age 80 and the MGIB Rollup Base reaching the Maximum MGIB Base. The MGIB Rollup Base accumulates at 0% thereafter. The MGIB Rate is currently 5%. The MGIB Rate is an annual effective rate. We may, at our discretion, discontinue offering this rate. The MGIB Rate will not change for those contracts that have already purchased the MGIB rider.

The MGIB Rollup Base allocated to Special Funds equals the eligible premiums allocated to Special Funds, adjusted for subsequent withdrawals and transfers taken or made while the MGIB rider is in effect. The MGIB Rate does not apply to the MGIB Rollup Base allocated to Special Funds, so the MGIB Rollup Base allocated to Special Funds does not accumulate.

The MGIB Rollup Base allocated to Excluded Funds equals the eligible premiums allocated to Excluded Funds, adjusted for subsequent withdrawals and transfers taken or made while the MGIB rider is in effect, accumulated at the MGIB rate to the earlier of the oldest owner reaching age 80 and the MGIB Rollup Base reaching the Maximum MGIB Base, and at 0% thereafter. **The MGIB Rollup Base allocated to Excluded Funds is used only for transfer adjustments and rider charges. It is not included in the MGIB Rollup Base used to determine benefits.**

Eligible premiums are those premiums paid within one year of purchasing the MGIB rider. Premiums paid after that date are excluded from the MGIB Rollup Base.

Withdrawals reduce the MGIB Rollup Base on a pro-rata basis. The percentage reduction in the MGIB Rollup Base for each fund category (i.e. Covered, Special or Excluded) equals the percentage reduction in contract value in that fund category resulting from the withdrawal. This means that the MGIB Rollup Base for Covered Funds, Special Funds or Excluded Funds is reduced for withdrawals by the same proportion that the withdrawal reduces the contract value allocated to Covered Funds, Special Funds or Excluded Funds. For example, if the contract value in Covered Funds is reduced by 25% as the result of a withdrawal, the MGIB Rollup Base allocated to Covered Funds is also reduced by 25% (rather than by the amount of the withdrawal).

Because the MGIB Rollup Base is tracked separately for Covered, Special and Excluded Funds, when you make transfers between Covered, Special Funds and Excluded Funds, there is an impact on the MGIB Rollup Base. Net transfers between Covered Funds and Special Funds will reduce the MGIB Rollup Base allocated to Covered Funds or Special Funds, as applicable, on a pro-rata basis. This means that the MGIB Rollup Base allocated to Covered Funds or Special Funds will be reduced by the same percentage as the transfer bears to the contract value allocated to Covered Funds or Special Funds. For example, if the contract value in Covered Funds is reduced by 25% as the result of the transfer, the MGIB Rollup Base allocated to Covered Funds is also reduced by 25% (rather than by the amount of the transfer). The resulting increase in the MGIB Rollup Base allocated to Special or Excluded Funds, as applicable, will equal the reduction in the MGIB Rollup Base allocated to Covered Funds. Transfers from Special Funds to Covered Funds are treated in the same way.

Net transfers from Excluded Funds will reduce the MGIB Rollup Base allocated to Excluded Funds on a pro-rata basis. The resulting increase in the MGIB Rollup Base allocated to Covered or Special Funds, as applicable, will equal the lesser of the contract value transferred and the reduction in the MGIB Rollup Base allocated to Excluded Funds.

b) Calculation of MGIB Ratchet Benefit Base

The MGIB Ratchet Benefit Base is equal to the sum of (a) and (b) where:

- (a) is the MGIB Ratchet Base for Covered Funds and Special Funds; and
- (b) is the contract value for Excluded Funds.

The MGIB Ratchet Base for Covered Funds, Special Funds and Excluded Funds equals:

- On the rider date, eligible premiums or the contract value (if the rider is added after the contract date) allocated to Covered Funds, Special Funds and Excluded Funds;
- On each contract anniversary date prior to attainment of age 90, the MGIB Ratchet Base for Covered Funds, Special Funds and Excluded Funds is set equal to the greater of:
 - 1) the current contract value allocated to Covered Funds, Special Funds and Excluded Funds (after any deductions occurring on that date); and
 - 2) the MGIB Ratchet Base for Covered Funds, Special Funds and Excluded Funds from the prior contract anniversary date, adjusted for any new eligible premiums and withdrawals attributable to Covered Funds, Special Funds or Excluded Funds and transfers.
- At other times, the MGIB Ratchet Base for Covered Funds, Special Funds and Excluded Funds is the MGIB Ratchet Base from the prior contract anniversary date, adjusted for subsequent eligible premiums and withdrawals attributable to Covered Funds, Special Funds or Excluded Funds and transfers.

The MGIB Ratchet Base allocated to Excluded Funds is used only for transfer adjustments and rider charges. It is not included in the MGIB Ratchet Benefit Base used to determine benefits.

- 2) **Then we determine the MGIB income phase income by multiplying your MGIB Benefit Base (adjusted for any Market Value Adjustment (see Appendix C and the Fixed Account II prospectus), surrender charge and premium taxes) by the income factor, and then divide by \$1,000.**

MGIB Income Options

The following are the MGIB Income Options available under the MGIB Rider:

- (i) Income for Life (Single Life or Joint with 100% Survivor) and 10-20 years certain;
- (ii) Income for 20-30 years certain; and
- (iii) Any other income option offered by the Company in conjunction with the MGIB rider on the MGIB Date.

Once during the life of the contract, you have the option to elect to apply up to 50% of the MGIB Benefit Base to one of the MGIB Income Options available under the rider. This option may only be exercised on a contract anniversary at or after the end of the waiting period. The portion of the MGIB Benefit Base so applied will be used to determine the MGIB income, as is otherwise described in the prospectus. The contract value will be reduced on a pro-rata basis. Any subsequent exercise of your right to receive payments under the MGIB rider must be for 100% of the remaining value. The election of partial payments under the MGIB Benefit Base does not affect your right to initiate the income phase under the contract without regard to the rider. The amount applied to these partial payments will be treated as a withdrawal for purposes of adjusting contract and rider values.

Please note that if you elect partial income payments, they will be tax reported as withdrawals. Please consult your tax adviser before making this election, as the taxation of this election is uncertain.

Early MGIB. Prior to the MGIB Date, you may elect to receive Early MGIB benefits by providing a written request to our Customer Service Center within 30 days prior to an Early MGIB Exercise Date, which is a contract anniversary prior to the MGIB Date. Your election to receive Early MGIB benefits will become effective as of the Early MGIB Exercise Date following receipt of this request in good order. **The first Early MGIB Exercise Date is specified in your rider and is currently the first contract anniversary which is at least 5 years after the rider date.**

If you elect to receive Early MGIB benefits, the MGIB annuity income will be determined as noted above in “Determining the MGIB Annuity Income,” but will be adjusted by using an Age Setback formula. Under this formula, the MGIB annuity income will equal the MGIB Benefit Base multiplied by the adjusted MGIB income factors, which are equal to the MGIB income factors defined in “Determining the MGIB Annuity Income” above, adjusted using age setbacks to compensate for the early entry into the income phase. The adjusted MGIB income factors are determined by adjusting the contract owner’s age for each whole or partial rider year between the Early MGIB Exercise Date and the 10th contract anniversary after the rider date.

For example, if a 65 year-old contract owner is in the 6th year of the MGIB rider and elects to receive Early MGIB benefits, the MGIB income factors used to determine the MGIB annuity income would be adjusted by using the MGIB income factors for a 61 year-old contract owner, because the contract owner’s age (65) is adjusted by subtracting the four years remaining until the 10th contract anniversary occurring after the rider date.

No Change of Annuitant. Once you purchase the MGIB rider, the annuitant may not be changed except for the following exception. If an annuitant who is not a contract owner dies prior to entry into the income phase, a new annuitant may be named in accordance with the provisions of your contract. The MGIB Benefit Base is unaffected and continues to accumulate.

Notification. On or about 30 days prior to the MGIB Date, we will provide you with notification which will include an estimate of the amount of MGIB annuity income available if you choose to exercise it. We will determine the actual amount of the MGIB annuity income as of the MGIB Date.

The MGIB rider does not restrict or limit your right to enter the income phase at any time permitted under the contract. The MGIB rider does not restrict your right to enter the income phase using contract values that may be higher than the MGIB annuity benefit.

The benefits associated with the MGIB rider are available only if you enter the income phase under the rider and in accordance with the provisions set forth above. Election of Early MGIB Benefits may result in a lesser stream of income payments than waiting the entire 10 year waiting period. Initiating the income phase using the MGIB rider may result in a more favorable stream of income payments, and different tax consequences, under your contract. Because the MGIB rider is based on conservative actuarial factors, the level of lifetime income that it guarantees may be less than the level that might be provided by the application of your contract value to the contract’s applicable income phase factors. You should consider all of your options at the time you begin the income phase of your contract.

ING LifePay Plus Minimum Guaranteed Withdrawal Benefit (“ING LifePay Plus”) Rider. The ING LifePay Plus rider generally provides, subject to the restrictions and limitations below, that we will guarantee a minimum level of annual withdrawals from the contract for the lifetime of the annuitant, even if these withdrawals deplete your contract value to zero. You may wish to purchase this rider if you are concerned that you may outlive your income.

Important Note: *We introduced the ING LifePay Plus rider on August 20, 2007, and launched changes to it on April 28, 2008 and January 12, 2009, subject to state approval where applicable. The form of ING LifePay Plus rider available to you depends on state availability.*

The information below pertains to the form of ING LifePay Plus rider, which was available for sale beginning from May 1, 2009 through March 15, 2010. If you purchased a prior version of the ING LifePay Plus rider, please see Appendix K. If you purchased the ING LifePay rider, please see Appendix L for more information.

Purchase. In order to elect the ING LifePay Plus rider, the annuitant must be the owner or one of the owners, unless the owner is a non-natural owner. Joint annuitants are not allowed. The maximum issue age is 80 (owner and annuitant must age qualify). The issue age is the age of the owner (or the annuitant if there are joint owners or the owner is non-natural) on the rider effective date. The ING LifePay Plus rider is not available for purchase with Option Package III. The ING LifePay Plus rider is subject to broker-dealer availability. **The ING LifePay Plus rider will not be issued until your contract value is allocated in accordance with the investment option restrictions described in “Investment Option Restrictions,” below.**

The ING LifePay Plus rider is no longer available for purchase, including purchase by owners of existing contracts. Previously, contracts issued **on and after** January 1, 2007 were eligible for the ING LifePay Plus rider, subject to the conditions, requirements and limitations of the prior paragraph, provided a living benefit rider has not been issued under such contracts. There is an election form for this purpose. Please contact the Customer Service Center for more information.

Rider Effective Date. The rider effective date is the date coverage under the ING LifePay Plus rider begins. If you purchase the ING LifePay Plus rider when the contract is issued, the rider effective date is also the contract date. If you purchase the ING LifePay Plus rider after contract issue, the rider effective date will be the date of the contract’s next following quarterly contract anniversary. A quarterly contract anniversary occurs each quarter of a contract year from the contract date.

Highlights. *This paragraph introduces the terminology used with the ING LifePay Plus rider and how its components generally work together. Benefits and guarantees are subject to the terms, conditions and limitations of the ING LifePay Plus rider. More detailed information follows below, with capitalized words that are underlined indicating headings for ease of reference.* The ING LifePay Plus rider guarantees an amount available for withdrawal from the contract in any contract year once the Lifetime Withdrawal Phase begins -- we use the ING LifePay Plus Base as part of the calculation of the Maximum Annual Withdrawal. The Maximum Annual Withdrawal is available for withdrawals at your discretion or systematic withdrawals pursuant to the terms of the contract. Also, the ING LifePay Plus rider offers the Income Optimizer, which provides the option to elect to receive systematic installments of the Maximum Annual Withdrawal over the annuitant’s life. The guarantee continues when the ING LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status, at which time we will pay you periodic payments in an annual amount equal to the Maximum Annual Withdrawal (since contract value would be zero) until the annuitant’s death. The ING LifePay Plus Base is eligible for Annual Ratchets and Step-ups, subject to adjustment for any Excess Withdrawals. The ING LifePay Plus rider has an allowance for withdrawals from a contract subject to the Required Minimum Distribution rules of the Tax Code that would otherwise be Excess Withdrawals. The ING LifePay Plus rider has a death benefit that is payable upon the contract owner’s death only when the ING LifePay Plus Death Benefit Base is greater than the contract’s death benefit. The ING LifePay Plus rider allows for spousal continuation.

ING LifePay Plus Base. The ING LifePay Plus Base is first calculated when you purchase the ING LifePay Plus rider: (a) On the contract date, it is equal to the initial premium; and (b) After the contract date, it is equal to the contract value on the effective date of the rider.

The ING LifePay Plus Base is increased, dollar for dollar, by any subsequent premiums. We refer to the ING LifePay Plus Base as the MGWB Base in the ING LifePay Plus rider.

Withdrawals and Excess Withdrawals. Once the Lifetime Withdrawal Phase begins, withdrawals within a contract year up to the Maximum Annual Withdrawal, including for payment of third-party investment advisory fees, have no impact on the ING LifePay Plus Base. These withdrawals will not incur surrender charges or a negative Market Value Adjustment associated with any Fixed Account allocations. For example, assume the current contract value is \$90,000 on a contract with the ING LifePay Plus rider in the Lifetime Withdrawal Phase. The ING LifePay Plus Base is \$100,000, and the Maximum Annual Withdrawal is \$5,000. Even though a withdrawal of \$5,000 would reduce the contract value to \$85,000, the ING LifePay Plus Base would remain at its current level (as would the Maximum Annual Withdrawal as well) since the withdrawal did not exceed the Maximum Annual Withdrawal. See below for more information about the Maximum Annual Withdrawal.

An Excess Withdrawal is either a) a withdrawal before the Lifetime Withdrawal Phase begins (except for payment of third-party investment advisory fees); or b) once the Lifetime Withdrawal Phase begins, any portion of a withdrawal during a contract year that exceeds the Maximum Annual Withdrawal. An Excess Withdrawal is also a withdrawal after continuation of the contract but before the ING LifePay Plus rider's guarantees resume, which occurs on the next quarterly contract anniversary following spousal continuation. An Excess Withdrawal will cause a pro-rata reduction of the ING LifePay Plus Base -- in the same proportion as contract value is reduced by the portion of the withdrawal that is considered excess, inclusive of surrender charges or Market Value Adjustment associated with any Fixed Account allocations (rather than the total amount of the withdrawal). An Excess Withdrawal will also cause the Maximum Annual Withdrawal to be recalculated. See Appendix I, Illustration 1, 2, and 6 for examples of the consequences of an excess withdrawal.

Please note that any withdrawals before the rider effective date in the same contract year when the ING LifePay Plus rider is added after contract issue are counted in calculating your withdrawals in that contract year to determine whether the Maximum Annual Withdrawal has been exceeded.

Annual Ratchet. The ING LifePay Plus Base is recalculated on each contract anniversary to equal the greater of: a) the current ING LifePay Plus Base; or b) the current contract value. We call this recalculation an Annual Ratchet.

Once the Lifetime Withdrawal Phase begins, we reserve the right to increase the charge for the ING LifePay Plus rider upon an Annual Ratchet. You will never pay more than new issues of the ING LifePay Plus rider, subject to the maximum annual charge, and we will not increase this charge for your first five years after the rider effective date. We will notify you in writing not less than 30 days before a charge increase. You may avoid the charge increase by canceling the forthcoming Annual Ratchet. Our written notices will outline the procedure you will need to follow to do so. Please note, however, that from then on the ING LifePay Plus Base would no longer be eligible for any Annual Ratchets, so the Maximum Annual Withdrawal percentage would not be eligible to increase. More information about the Maximum Annual Withdrawal Percentage is below under "Maximum Annual Withdrawal." Our written notice will also remind you of the consequences of canceling the forthcoming Annual Ratchet.

Step-up. The ING LifePay Plus Base is recalculated on each of the first ten contract anniversaries after the rider effective date SO LONG AS no withdrawals were taken during the preceding contract year. The recalculated ING LifePay Plus Base will equal the greatest of: a) the current ING LifePay Plus Base; b) the current contract value; and c) the ING LifePay Plus Base on the previous contract anniversary, increased by the Step-up.

The amount of the Step-up is the product of the Step-up Tracker on the previous contract anniversary times the Step-up percent, currently 6%. The Step-up Tracker is only used to calculate the amount of the Step-up. Initially, it equals the ING LifePay Plus Base. Any premiums received during a contract year are added to the Step-up Tracker and eligible for a partial Step-up. Any withdrawals for payment of third-party investment advisory fees are subtracted from the Step-up. Like the ING LifePay Plus Base, the Step-up Tracker is eligible for Annual Ratchets and subject to a pro-rata adjustment for any withdrawals prior to the Lifetime Withdrawal Phase and any Excess Withdrawals while in the Lifetime Withdrawal Phase.

Please note no Step-ups are available in the first year after you purchase this rider, post-issue of the contract. Your first opportunity for a Step-up will not be until the first contract anniversary after a full contract year has elapsed since the rider effective date.

For example, assume a contract owner decides to add the ING LifePay Plus rider on March 15, 2009 to a contract that was purchased on January 1, 2009. The rider effective date is April 1, 2009, which is the date of the contract's next following quarterly contract anniversary. Because on January 1, 2010 a full contract year will not have elapsed since the rider effective date, the ING LifePay Plus Base will not be eligible for a Step-up. Rather, the first opportunity for a Step-up with this contract will be on January 1, 2011.

Lifetime Withdrawal Phase. The Lifetime Withdrawal Phase begins on the date of your first withdrawal (except those for payment of third-party investment advisory fees), SO LONG AS the annuitant is age 59½. On this date, the ING LifePay Plus Base is recalculated to equal the greater of the current ING LifePay Plus Base or the contract value on the previous business day. The Lifetime Withdrawal Phase will continue until the earliest of:

- 1) The date income phase payments begin (see "The Income Phase");
- 2) Reduction of the contract value to zero by an Excess Withdrawal;
- 3) Reduction of the contract value to zero by a withdrawal less than or equal to the Maximum Annual Withdrawal;
- 4) The surrender of the contract; or
- 5) The death of the owner (first owner, in the case of joint owners; annuitant, in the case of a non-natural person owner), unless your spouse beneficiary elects to continue the contract.

The ING LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status in the event contract value is reduced to zero other than by an Excess Withdrawal. Please see "Lifetime Automatic Periodic Benefit Status" below for more information.

Maximum Annual Withdrawal. The Maximum Annual Withdrawal is the amount that the ING LifePay Plus rider guarantees to be available for withdrawal from the contract in any contract year. The Maximum Annual Withdrawal is first calculated when the Lifetime Withdrawal Phase begins and equals the Maximum Annual Withdrawal Percentage, based on the annuitant's age, multiplied by the ING LifePay Plus Base.

The Maximum Annual Withdrawal Percentages are:

<u>Maximum Annual Withdrawal Percentage</u>	<u>Annuitant's Age</u>
4%	59½ – 64
5%	65+

The Maximum Annual Withdrawal is thereafter recalculated whenever the ING LifePay Plus Base is recalculated (for example, upon an Annual Ratchet or Step-up). In addition, the Maximum Annual Withdrawal Percentage can increase with the Annual Ratchet as the annuitant grows older.

In the event that on the date the Lifetime Withdrawal Phase begins the contract value on the previous business day was greater than the ING LifePay Plus Base, then before the Maximum Annual Withdrawal is first calculated, the ING LifePay Plus Base will be set equal to that contract value. The greater the ING LifePay Plus Base, the greater the amount will be available to you for withdrawal under the ING LifePay Plus rider in calculating the Maximum Annual Withdrawal for the first time.

Income Optimizer. The ING LifePay Plus rider offers the option to elect to receive the Maximum Annual Withdrawal in systematic installments over the annuitant's life. We call this option the Income Optimizer. You may elect the Income Optimizer during the Lifetime Withdrawal Phase. This election is in lieu of the contract's other income phase options, and these payments will be subject to the same tax treatment as an income phase payment. Please see "Federal Tax Considerations" for more information. The Income Optimizer is only available on nonqualified contracts.

The frequency of payments under the Income Optimizer may be annual, quarterly or monthly. While you are receiving payments under the Income Optimizer, the ING LifePay Plus Base remains eligible for Annual Ratchets. Your contract may still have a contract value and death benefit. Spousal continuation of payments under the Income Optimizer is permitted. Any withdrawals in excess of the Maximum Annual Withdrawal are Excess Withdrawals that would cause a pro-rata reduction of the ING LifePay Plus Base, as well as a reduction of the Maximum Annual Withdrawal.

Your election is subject to restrictions – you may not: (a) revoke your election; (b) add on premiums; (c) exchange the contract; (d) initiate income phase payments under the contract; or (e) change ownership (except as permitted under “Change of Owner or Annuitant” below). Once you choose the frequency of payments, you may not change it. Also, the specified percentage of your contract value required to be allocated to Fixed Allocation Funds is higher, and the investment options available for this purpose are limited. Please see “Investment Option Restrictions” below for the details. You may surrender your contract at any time.

Payments under the Income Optimizer will continue until the Terminal Date, at which time you waive any remaining contract value and death benefit and the ING LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status. The Terminal Date is the contract anniversary following the annuitant’s 95th birthday. Alternatively, you may wish to extend the Terminal Date to the contract anniversary following the annuitant’s 115th birthday in order to liquidate your contract value that may remain before the ING LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status. Regardless, your payments of the Maximum Annual Withdrawal will continue during the Lifetime Automatic Periodic Benefit Status until the death of the annuitant. We will notify you in writing in advance of the Terminal Date to remind you of this alternative and how to extend the Terminal Date.

Lifetime Income Annuity Option. In the event the contract’s income phase commencement date is reached while the ING LifePay Plus rider is in the Lifetime Withdrawal Phase, you may elect a life only income phase option, in lieu of the contract’s other income phase options. Payments under this option are based on the minimum annual payment factors for each \$1,000 reflected in the rider data table and will never be less than the same frequency of payments of the Maximum Annual Withdrawal at that time. For more information about the contract’s income phase options, see “The Income Phase.”

Required Minimum Distributions. The ING LifePay Plus rider allows for withdrawals from a contract subject to the Required Minimum Distribution rules of the Tax Code that exceed the Maximum Annual Withdrawal without causing a pro-rata reduction of the ING LifePay Plus Base and recalculation of the Maximum Annual Withdrawal. If your Required Minimum Distribution for a calendar year (determined on a date on or before January 31 of that year), applicable to this contract, is greater than the Maximum Annual Withdrawal on that date, then an Additional Withdrawal Amount will be set equal to that portion of the Required Minimum Distribution that exceeds the Maximum Annual Withdrawal. Once you have taken the Maximum Annual Withdrawal for the then current contract year, the dollar amount of any additional withdrawals will count first against and reduce any unused Additional Withdrawal Amount for the previous calendar year followed by any Additional Withdrawal Amount for the current calendar year -- without constituting an Excess Withdrawal.

See Appendix I, Illustration 3.

Withdrawals that exceed the Maximum Annual Withdrawal and all available Additional Withdrawal Amounts are Excess Withdrawals that will cause a pro-rata reduction of the ING LifePay Plus Base and the Maximum Annual Withdrawal to be recalculated. See Appendix I, Illustration 5 for an example of the consequences of an Excess Withdrawal with an Additional Withdrawal Amount. The Additional Withdrawal Amount is available on a calendar year basis and recalculated every January, reset to equal that portion of the Required Minimum Distribution for that calendar year that exceeds the Maximum Annual Withdrawal on that date. Any unused amount of the Additional Withdrawal Amount carries over into the next calendar year and is available through the end of that year, at which time any amount remaining will expire. See Appendix I, Illustration 4 for an example of the Additional Withdrawal Amount being carried over. **Please note that there is no adjustment to the Additional Withdrawal Amount for Annual Ratchets or upon spousal continuation of the ING LifePay Plus Rider.**

Lifetime Automatic Periodic Benefit Status. The ING LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status when your contract value is reduced to zero other than by an Excess Withdrawal (a withdrawal in excess of the Maximum Annual Withdrawal that causes your contract value to be reduced to zero will terminate the ING LifePay Plus rider). You will no longer be entitled to make withdrawals, but instead will begin to receive periodic payments in an annual amount equal to the Maximum Annual Withdrawal. When the rider enters Lifetime Automatic Periodic Benefit Status:

- 1) The contract will provide no further benefits (including death benefits) other than as provided under the ING LifePay Plus rider;
- 2) No further premium payments will be accepted; and
- 3) Any other riders issued with the contract will terminate, unless otherwise specified in that rider.

During Lifetime Automatic Periodic Benefit Status, we will pay you periodic payments in an annual amount that is equal to the Maximum Annual Withdrawal. These payments will cease upon the death of the annuitant at which time both the rider and the contract will terminate. The rider will remain in Lifetime Automatic Periodic Benefit Status until it terminates without value upon the annuitant's death.

If, when the ING LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status, your net withdrawals to date are less than the Maximum Annual Withdrawal for that contract year, then we will pay you the difference immediately. The periodic payments will begin on the first contract anniversary following the date the rider enters Lifetime Automatic Periodic Benefit Status and will continue to be paid annually thereafter.

In the event contract value is reduced to zero before the Lifetime Withdrawal Phase begins, Lifetime Automatic Periodic Benefit Status is deferred until the contract anniversary on or after the annuitant is age 59½. During this time, the ING LifePay Plus rider's death benefit remains payable upon the annuitant's death, and the ING LifePay Plus rider remains eligible for Step-ups. Once the ING LifePay Plus rider enters the Lifetime Automatic Periodic Benefit Status, periodic payments will begin in an annual amount equal to the Maximum Annual Withdrawal Percentage multiplied by the ING LifePay Plus Base.

You may elect to receive systematic withdrawals pursuant to the terms of the contract. Under a systematic withdrawal, either a fixed amount or an amount based upon a percentage of the contract value will be withdrawn from your contract and paid to you on a scheduled basis, either monthly, quarterly, or annually. If, at the time the rider enters Lifetime Automatic Periodic Benefit Status, you are receiving systematic withdrawals under the contract more frequently than annually, the periodic payments will be made at the same frequency in equal amounts such that the sum of the payments in each contract year will equal the annual Maximum Annual Withdrawal. Such payments will be made on the same payment dates as previously set up, if the payments were being made monthly or quarterly. If the payments were being made annually, then the payments will be made on each following contract anniversary.

Investment Option Restrictions. While the ING LifePay Plus rider is in effect, there are limits on the portfolios to which your contract value may be allocated. Contract value allocated to portfolios other than Accepted Funds will be rebalanced so as to maintain at least the required specified percentage of such contract value in the Fixed Allocation Funds. Currently, this required specified percentage is 30%, and is 40% if you have elected the Income Optimizer. See "Fixed Allocation Funds Automatic Rebalancing," below. We impose these investment option restrictions in order to lessen the likelihood we would have to make payments under this rider. We require these allocations regardless of your investment instructions under the contract. The ING LifePay Plus rider will not be issued until your contract value is allocated in accordance with these investment option restrictions. The timing of when and how we apply these investment option restrictions is discussed further below.

Accepted Funds. Currently, the Accepted Funds are:

- Fixed Account II
- Fixed Interest Division
- ING Liquid Assets Portfolio
- ING Solution Income Portfolio
- ING Solution 2015 Portfolio
- ING Solution 2025 Portfolio
- ING Solution 2035 Portfolio
- ING T. Rowe Price Capital Appreciation Portfolio.

No rebalancing is necessary if the contract value is allocated entirely to Accepted Funds. We may change these designations at any time upon 30 days notice to you. If a change is made, the change will apply to contract value allocated to such portfolios after the date of the change.

If you have selected the Income Optimizer, the Accepted Funds are:

- Fixed Account II
- Fixed Interest Division
- ING Liquid Assets Portfolio
- ING Solution Income Portfolio
- ING Solution 2015 Portfolio.

Fixed Allocation Funds. Currently, the Fixed Allocation Funds are:

- ING American Funds Bond Portfolio
- ING BlackRock Inflation Protected Bond Portfolio
- ING Intermediate Bond Portfolio
- ING U.S. Bond Index Portfolio.

You may allocate your contract value to one or more Fixed Allocated Funds. We consider the ING Intermediate Bond Portfolio to be the default Fixed Allocation Fund in connection with Fixed Allocation Funds Automatic Rebalancing.

If the rider is not continued under the spousal continuation right when available, a Fixed Allocation Fund may be reclassified as a Special Fund as of the contract continuation date if it would otherwise be designated as a Special Fund for purposes of the contract's death benefits. For purposes of calculating any applicable death benefit guaranteed under the contract, any allocation of contract value to the Fixed Allocation Funds will be considered a Covered Fund allocation while the rider is in effect.

Other Funds. All portfolios available under the contract other than Accepted Funds or the Fixed Allocation Funds are considered Other Funds.

Fixed Allocation Funds Automatic Rebalancing. If the contract value in the Fixed Allocation Funds is less than the required specified percentage of the total contract value allocated to the Fixed Allocation Funds and Other Funds on any ING LifePay Plus Rebalancing Date, we will automatically rebalance the contract value allocated to the Fixed Allocation Funds and Other Funds so that 20% of this amount is allocated to the Fixed Allocation Funds. The current specified percentage is 30%, and is 40% if you have selected the Income Optimizer. Accepted Funds are excluded from Fixed Allocation Funds Automatic Rebalancing. Any rebalancing is done on a pro-rata basis among the Other Funds and will be the last transaction processed on that date. The ING LifePay Plus Rebalancing Dates occur on the rider effective date, on each quarterly contract anniversary, and after the following transactions:

- 1) Receipt of additional premiums;
- 2) Transfer or reallocation among the Fixed Allocation Funds or Other Funds, whether automatic or specifically directed by you;
- 3) Withdrawals from the Fixed Allocation Funds or Other Funds.

Fixed Allocation Funds Automatic Rebalancing is separate from any other automatic rebalancing under the contract. However, if the other automatic rebalancing under the contract causes the allocations to be out of compliance with the investment option restrictions noted above, Fixed Allocation Funds Automatic Rebalancing will occur immediately after the automatic rebalancing to restore the required allocations. See "Appendix J—Examples of Fixed Allocation Funds Automatic Rebalancing." You will be notified that Fixed Allocation Funds Automatic Rebalancing has occurred, along with your new allocations, by a confirmation statement that will be mailed to you after Fixed Allocation Funds Automatic Rebalancing has occurred.

In certain circumstances, Fixed Allocation Funds Automatic Rebalancing may result in a reallocation into a Fixed Allocation Fund even if you have not previously been invested in it. See "Appendix J—Examples of Fixed Allocation Funds Automatic Rebalancing, Example I." **By electing to purchase the ING LifePay Plus rider, you are providing the Company with direction and authorization to process these transactions, including reallocations into the Fixed Allocation Funds. You should not purchase the ING LifePay Plus rider if you do not wish to have your contract value reallocated in this manner.**

Death of Owner or Annuitant. The ING LifePay Plus rider terminates (with the rider's charges pro-rated) on the date of death of the owner (or in the case of joint owners, the first owner), or the annuitant if there is a non-natural owner. Also, an ING LifePay Plus rider that is in Lifetime Automatic Periodic Benefit Status terminates on the date of the annuitant's death.

ING LifePay Plus Death Benefit Base. The ING LifePay Plus rider has a death benefit that is payable upon the owner's death only when the ING LifePay Plus Death Benefit Base is greater than the contract's death benefit. The ING LifePay Plus Death Benefit Base is first calculated when you purchase the ING LifePay Plus rider. If the ING LifePay Plus rider is purchased on the contract date, the initial ING LifePay Plus Death Benefit Base is equal to the initial premium. If the ING LifePay Plus rider is purchased after the contract date, the initial ING LifePay Plus Death Benefit Base is equal to the contract value on the rider effective date.

The ING LifePay Plus Death Benefit Base is increased by the dollar amount of any subsequent premiums and subject to any withdrawal adjustments. The ING LifePay Plus Death Benefit Base is reduced by the dollar amount of any withdrawals for the payment of third-party investment advisory fees before the Lifetime Withdrawal Phase begins, and for any withdrawals once the Lifetime Withdrawal Phase begins that are not Excess Withdrawals, including withdrawals for payment of third-party investment advisory fees. The ING LifePay Plus Death Benefit Base is subject to a pro-rata reduction for an Excess Withdrawal. Please see "Withdrawals and Excess Withdrawals" for more information.

There is no additional charge for the death benefit associated with the ING LifePay Plus rider. Please note that the ING LifePay Plus Death Benefit Base is not eligible to participate in Annual Ratchets or Step-ups.

In the event the ING LifePay Plus Death Benefit Base is greater than zero when the ING LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status, each periodic payment reduces the ING LifePay Plus Death Benefit Base dollar for dollar until the earlier of the ING LifePay Plus Death Benefit Base being reduced to zero or the annuitant's death. Upon the annuitant's death, any remaining ING LifePay Plus death benefit is payable to the beneficiary in a lump-sum.

Spousal Continuation. If the surviving spouse of the deceased owner continues the contract (see "Death Benefit Choices--Continuation After Death--Spouse"), the rider will also continue, provided the spouse becomes the annuitant and sole owner. At the time the contract is continued, the ING LifePay Plus Base is recalculated to equal the contract value, inclusive of the guaranteed death benefit -- UNLESS the continuing spouse is a joint owner and the original annuitant, OR the Lifetime Withdrawal Phase has not yet begun. In these cases, the ING LifePay Plus Base is recalculated to equal the greater of a) the contract value, inclusive of the guaranteed death benefit; and b) the last-calculated ING LifePay Plus Base, subject to pro-rata adjustment for any withdrawals before spousal continuation. Regardless, the ING LifePay Plus rider's guarantees resume on the next quarterly contract anniversary following spousal continuation. Any withdrawals after spousal continuation of the contract but before the ING LifePay Plus rider's guarantees resume are Excess Withdrawals. The ING LifePay Plus rider remains eligible for the Annual Ratchet upon recalculation of the ING LifePay Plus Base.

The Maximum Annual Withdrawal is also recalculated at the same time as the ING LifePay Plus Base; however, there is no Maximum Annual Withdrawal upon spousal continuation until the Lifetime Withdrawal Phase begins on the date of the first withdrawal after spousal continuation, SO LONG AS the annuitant is age 59½. The Maximum Annual Withdrawal is recalculated to equal the Maximum Annual Withdrawal Percentage multiplied by the ING LifePay Plus Base. There is no adjustment to the Additional Withdrawal Amount upon spousal continuation of the ING LifePay Plus rider for a contract subject to the Required Minimum Distribution rules of the Tax Code. Any withdrawals before the contract owner's death and spousal continuation are counted in calculating your withdrawals in that contract year to determine whether the Maximum Annual Withdrawal has been exceeded.

Please note, if the contract value on the previous business day is greater than the ING LifePay Plus Base on the date the Lifetime Withdrawal Phase begins, then the ING LifePay Plus Base will be set equal to that contract value before the Maximum Annual Withdrawal is first calculated. The rider will be eligible for any Step-ups that may remain, and the Step-up Tracker will be recalculated at the same time as the ING LifePay Plus Base. Also, upon spousal continuation, the ING LifePay Plus Death Benefit Base equals the ING LifePay Plus Death Benefit Base before the contract owner's death, subject to any pro-rata adjustment for withdrawals before spousal continuation of the rider.

If you have selected the Income Optimizer, systematic installments of the Maximum Annual Withdrawal will continue, SO LONG AS the surviving spouse as annuitant is age 59½. The amount of these continuing payments may change since both the ING LifePay Plus Base and the Maximum Annual Withdrawal are recalculated based on the new annuitant's age. Once the Income Optimizer has been selected, the rider will remain subject to the higher required specified percentage for allocations to the Fixed Allocation Funds, even if upon spousal continuation the Lifetime Withdrawal Phase has not yet begun, and there is no Maximum Annual Withdrawal, because the annuitant is not yet age 59½.

Contrary to the ING Joint LifePay Plus rider, spousal continuation of the ING LifePay Plus rider would likely NOT take effect at the same time as the contract is continued. As noted above, the ING LifePay Plus rider provides for spousal continuation only on a quarterly contract anniversary (subject to the spouse becoming the annuitant and sole owner). If you are concerned about the availability of benefits being interrupted with spousal continuation of the ING LifePay Plus rider, you might instead want to purchase the ING Joint LifePay Plus rider.

Change of Owner or Annuitant. The ING LifePay Plus rider terminates (with the rider's charge pro-rated) upon an ownership change or change of annuitant, except for:

- 1) spousal continuation as described above;
- 2) change of owner from one custodian to another custodian;
- 3) change of owner from a custodian for the benefit of an individual to the same individual;
- 4) change of owner from an individual to a custodian for the benefit of the same individual;
- 5) collateral assignments;
- 6) change in trust as owner where the individual owner and the grantor of the trust are the same individual;
- 7) change of owner from an individual to a trust where the individual owner and the grantor of the trust are the same individual;
- 8) change of owner from a trust to an individual where the individual owner and the grantor of the trust are the same individual;
- 9) change of owner pursuant to a court order; and
- 10) change of qualified plan ownership to the beneficial owner.

Surrender Charges. Once the Lifetime Withdrawal Phase begins, your withdrawals within a contract year up to the Maximum Annual Withdrawal (and any applicable Additional Withdrawal Amount) are not subject to surrender charges. We waive any surrender charges otherwise applicable to your withdrawal in a contract year that are less than or equal to the Maximum Annual Withdrawal. Excess Withdrawals are subject to surrender charges, whether or not the Lifetime Withdrawal Phase has begun. Once your contract value is reduced to zero, any periodic payments under the ING LifePay Plus rider are not subject to surrender charges. Moreover, with no contract value, none of your contract level recurring charges (e.g., the Mortality and Expense Risk Charge) would be deducted.

Loans. No loans are permitted on contracts with the ING LifePay Plus rider.

Taxation. For more information about the tax treatment of amounts paid to you under the ING LifePay Plus Rider, see "Federal Tax Considerations—Tax Consequences of Living Benefits and Death Benefit."

ING Joint LifePay Plus Minimum Guaranteed Withdrawal Benefit ("ING Joint LifePay Plus") Rider. The ING Joint LifePay Plus rider generally provides, subject to the restrictions and limitations below, that we will guarantee a minimum level of annual withdrawals from the contract for the lifetime of both you and your spouse, even if these withdrawals deplete your contract value to zero. You may wish to purchase this rider if you are married and are concerned that you and your spouse may outlive your income.

Important Note: *We introduced the ING Joint LifePay Plus rider on August 20, 2007 and launched changes to it on April 28, 2008 and January 12, 2009, subject to state approval where applicable. Some versions of the ING Joint LifePay Plus rider were not available in New Jersey or Oregon. The form of the ING Joint LifePay Plus rider available to you depends on state availability.*

The information below pertains to the form of ING Joint LifePay Plus rider which was available for sale from May 1, 2009 through March 15, 2010. If you purchased a previous version of the ING Joint LifePay Plus rider, please see Appendix K. If you purchased the ING Joint LifePay rider, please see Appendix L for more information.

Purchase. The ING Joint LifePay Plus rider is only available for purchase by individuals who are married at the time of purchase (spouses) and eligible to elect spousal continuation (as defined by the Tax Code) of the contract when the death benefit becomes payable, subject to the owner, annuitant, and beneficiary requirements below. The maximum issue age is 80. Both spouses must meet these issue age requirements. The issue age is the age of the owners on the rider effective date. The ING Joint LifePay Plus rider is not available for purchase with Option Package III. The ING Joint LifePay Plus rider is subject to broker-dealer availability. **Please note that the ING Joint LifePay Plus rider will not be issued unless the required owner, annuitant, and beneficiary designations are met, and until your contract value is allocated in accordance with the investment option restrictions described in “Investment Option Restrictions,” below.**

The ING Joint LifePay Plus rider is no longer available for purchase, including purchase by owners of existing contracts. Previously, contracts issued **on or after August 20, 2007** were eligible for the ING Joint LifePay Plus rider, subject to the conditions, requirements, and limitations of the prior paragraph, provided a living benefit rider has not been issued under such contracts. There is an election form for this purpose. Please contact the Customer Service Center for more information. Such election must be received in good order, including owner, annuitant, and beneficiary designations and compliance with the investment restrictions described below.

Ownership, Annuitant, and Beneficiary Designation Requirements. Certain ownership, annuitant, and beneficiary designations are required in order to purchase the ING Joint LifePay Plus rider. These designations depend upon whether the contract is issued as a nonqualified contract, an IRA or a custodial IRA. In all cases, the ownership, annuitant, and beneficiary designations must allow for the surviving spouse to continue the contract when the death benefit becomes payable, as provided by the Tax Code. Non-natural, custodial owners are only allowed with IRAs (“custodial IRAs”). The necessary ownership, annuitant, and/or beneficiary designations are described below. Applications that do not meet the requirements below will be rejected. We reserve the right to verify the date of birth and social security number of both spouses.

Nonqualified Contracts. For a jointly owned contract, the owners must be spouses, and the annuitant must be one of the owners. For a contract with only one owner, the owner’s spouse must be the sole primary beneficiary, and the annuitant must be one of the spouses.

IRAs. There may only be one owner, who must also be the annuitant. The owner’s spouse must be the sole primary beneficiary.

Custodial IRAs. While we do not maintain individual owner and beneficiary designations for IRAs held by an outside custodian, the ownership and beneficiary designations with the custodian must comply with the requirements listed in “IRAs,” above. The annuitant must be the beneficial owner of the custodial IRA. We require the custodian to provide us the name and date of birth of both the owner and the owner’s spouse.

Rider Effective Date. The rider effective date is the date coverage under the ING Joint LifePay Plus rider begins. If you purchase the ING Joint LifePay Plus rider when the contract is issued, the ING Joint LifePay Plus rider effective date is also the contract date. If the ING Joint LifePay Plus rider is added after contract issue, the rider effective date is the date of the contract’s next following quarterly contract anniversary. A quarterly contract anniversary occurs each quarter of a contract year from the contract date.

Active Spouse. An Active Spouse is the person (people) upon whose life and age the guarantees are calculated under the ING Joint LifePay Plus rider. There must be two Active Spouses when you purchase the ING Joint LifePay Plus rider, who are married to each other and are joint owners. For a contract with only one owner, the spouse must be the sole primary beneficiary. You cannot add an Active Spouse after the rider effective date. In general, changes to the ownership of the contract, or changes to the annuitant and/or beneficiary designations, will result in one spouse being deactivated (the spouse is thereafter “inactive”). An inactive spouse is **not** eligible to exercise any rights or receive any benefits under the ING Joint LifePay Plus rider, including continuing the ING Joint LifePay Plus rider upon spousal continuation of the contract. Once an Active Spouse is deactivated, the spouse may not become an Active Spouse again. Specific situations that will result in an Active Spouse being deactivated include:

- 1) For nonqualified contracts where the spouses are joint owners, the removal of a joint owner (if that spouse does not automatically become sole primary beneficiary pursuant to the terms of the contract), or the change of one joint owner to a person other than an Active Spouse;
- 2) For nonqualified contracts where one spouse is the owner and the other spouse is the sole primary beneficiary, as well as for IRA contracts (including custodial IRAs), the addition of a joint owner who is not also an Active Spouse or any change of beneficiary (including the addition of primary beneficiaries); and
- 3) A spouse’s death.

An owner may also request that one spouse be treated as inactive. Both contract owners must agree to such a request when there are joint owners. **However, all charges for the ING Joint LifePay Plus rider will continue to apply, even after a spouse is deactivated, regardless of the reason. You should make sure you understand the impact of beneficiary and owner changes on the ING Joint LifePay Plus rider prior to requesting any such changes.**

Please note that a divorce will terminate the ability of an ex-spouse to continue the contract. See “Divorce,” below.

Highlights. *This paragraph introduces the terminology used with the ING Joint LifePay Plus rider and how its components generally work together. Benefits and guarantees are subject to the terms, conditions and limitations of the ING Joint LifePay Plus rider. More detailed information follows below, with capitalized words that are underlined indicating headings for ease of reference.* The ING Joint LifePay Plus rider guarantees an amount available for withdrawal from the contract in any contract year once the Lifetime Withdrawal Phase begins -- we use the ING Joint LifePay Plus Base as part of the calculation of the Maximum Annual Withdrawal. The Maximum Annual Withdrawal is available for withdrawals at your discretion or systematic withdrawals pursuant to the terms of the contract. The ING Joint LifePay Plus rider also offers the Income Optimizer, which is the option to elect to receive systematic installments of the Maximum Annual Withdrawal over the lives of both Active Spouses. The guarantee continues when the ING Joint LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status, at which time we will pay you periodic payments in an annual amount equal to the Maximum Annual Withdrawal (since contract value would be zero) until the last Active Spouse’s death. The ING Joint LifePay Plus Base is eligible for Annual Ratchets and Step-ups, and subject to adjustment for any Excess Withdrawals. The ING Joint LifePay Plus rider has an allowance for withdrawals from a contract subject to the Required Minimum Distribution rules of the Tax Code that would otherwise be Excess Withdrawals. The ING Joint LifePay Plus rider has a death benefit that is payable upon the contract owner’s death only when the ING Joint LifePay Plus Death Benefit Base is greater than the contract’s death benefit. The ING Joint LifePay Plus rider allows for spousal continuation.

ING Joint LifePay Plus Base. The ING Joint LifePay Plus Base is first calculated when you purchase the ING Joint LifePay Plus rider: (a) On the contract date, it is equal to the initial premium; and (b) After the contract date, it is equal to the contract value on the effective date of the rider.

The ING Joint LifePay Plus Base is increased, dollar for dollar, by any subsequent premiums. We refer to the ING Joint LifePay Plus Base as the MGWB Base in the ING Joint LifePay Plus rider.

Withdrawals and Excess Withdrawals. Once the Lifetime Withdrawal Phase begins, withdrawals within a contract year up to the Maximum Annual Withdrawal, including for payment of third-party investment advisory fees, have no impact on the ING Joint LifePay Plus Base. These withdrawals will not incur surrender charges or a negative Market Value Adjustment associated with any Fixed Account allocations. For example, assume the current contract value is \$90,000 on a contract with the ING Joint LifePay Plus rider in the Lifetime Withdrawal Phase. The ING Joint LifePay Plus Base is \$100,000, and the Maximum Annual Withdrawal is \$5,000. Even though a withdrawal of \$5,000 would reduce the contract value to \$85,000, the ING Joint LifePay Plus Base would remain at its current level (as would the Maximum Annual Withdrawal as well) since the withdrawal did not exceed the Maximum Annual Withdrawal. See below for more information about the Maximum Annual Withdrawal.

An Excess Withdrawal is a withdrawal either before the Lifetime Withdrawal Phase begins (except for payment of third-party investment advisory fees), or once the Lifetime Withdrawal Phase begins, any portion of a withdrawal during a contract year that exceeds the Maximum Annual Withdrawal. An Excess Withdrawal will cause a pro-rate reduction of the ING Joint LifePay Plus Base -- in the same proportion as contract value is reduced by the portion of the withdrawal that is considered excess, inclusive of surrender charges, or Market Value Adjustment associated with any Fixed Account allocations (rather than the total amount of the withdrawal). An Excess Withdrawal will also cause the Maximum Annual Withdrawal to be recalculated. See Appendix I, Illustration 1, 2, and 6 for examples of the consequences of an Excess Withdrawal.

Please note that any withdrawals before the rider effective date in the same contract year when the ING Joint LifePay Plus rider is added after contract issue are counted in calculating your withdrawals in that contract year to determine whether the Maximum Annual Withdrawal has been exceeded.

Annual Ratchet. The ING Joint LifePay Plus Base is recalculated on each contract anniversary to equal the greater of: a) the current ING Joint LifePay Plus Base; or b) the current contract value. We call this recalculation an Annual Ratchet.

Once the Lifetime Withdrawal Phase begins, we reserve the right to increase the charge for the ING Joint LifePay Plus rider upon an Annual Ratchet. You will never pay more than new issues of the ING Joint LifePay Plus rider, subject to the maximum annual charge, and we will not increase this charge for your first five years after the rider effective date. We will notify you in writing not less than 30 days before a charge increase. Our written notice will outline the procedure you will need to follow to do so. You may avoid the charge increase by canceling the forthcoming Annual Ratchet. Please note, however, that from then on the ING Joint LifePay Plus Base would no longer be eligible for any Annual Ratchets, so the Maximum Annual Withdrawal percentage would not be eligible to increase. More information about the Maximum Annual Percentage is below under "Maximum Annual Withdrawal." Our written notice will also remind you of the consequences of canceling the forthcoming Annual Ratchet.

Step-up. The ING Joint LifePay Plus Base is recalculated on each of the first ten contract anniversaries after the rider effective date, SO LONG AS no withdrawals were taken during the preceding contract year. The recalculated ING Joint LifePay Plus Base will equal the greatest of a) The current ING Joint LifePay Plus Base; b) The current contract value; and c) The ING Joint LifePay Plus Base on the previous contract anniversary, increased by the Step-up.

The amount of the Step-up is the product of the Step-up Tracker on the previous contract anniversary times the Step-up percent, currently 6%. The Step-up Tracker is only used to calculate the amount of the Step-up. Initially, it equals the ING Joint LifePay Plus Base. Any premiums received during a contract year are added to the Step-up Tracker and eligible for a partial Step-up. Any withdrawals for payment of third-party investment advisory fees are subtracted from the Step-up. Like the ING Joint LifePay Plus Base, the Step-up Tracker is eligible for Annual Ratchets and subject to a pro-rata adjustment for any Excess Withdrawals.

Please note that no partial Step-up is available in the first year after you purchase this rider post issue of the contract. Your first opportunity for a Step-up will not be until the first contract anniversary after a full contract year has elapsed since the rider effective date. Say for example that with a contract purchased on January 1, 2009, the contract owner decided to add the ING Joint LifePay Plus rider on March 15, 2009. The rider effective date is April 1, 2009, which is the date the contract's next following quarterly contract anniversary. Because on January 1, 2010 a full contract year will not have elapsed since the rider effective date, the ING Joint LifePay Plus Base will not be eligible for a step-up. Rather, the first opportunity for a step-up with this contract is on January 1, 2011.

Lifetime Withdrawal Phase. The Lifetime Withdrawal Phase begins on the date of your first withdrawal (except those for payment of third-party investment advisory fees), SO LONG AS the youngest Active Spouse is age 65. On this date, the ING Joint LifePay Plus Base is recalculated to equal the greater of the current ING Joint LifePay Plus Base or the contract value on the previous business day. The Lifetime Withdrawal Phase will continue until the earliest of:

- 1) The date income phase payments begin (see “The Income Phase);
- 2) Reduction of the contract value to zero by an Excess Withdrawal;
- 3) Reduction of the contract value to zero by a withdrawal less than or equal to the Maximum Annual Withdrawal;
- 4) The surrender of the contract; or
- 5) The death of the owner (first owner, in the case of joint owners; annuitant, in the case of a non-natural person owner), unless your spouse beneficiary is an Active Spouse who elects to continue the contract; or
- 6) The last Active Spouse dies.

The ING Joint LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status in the event contract value is reduced to zero other than by an Excess Withdrawal. Please see “Lifetime Automatic Periodic Benefit Status” below for more information.

Maximum Annual Withdrawal. The Maximum Annual Withdrawal is the amount that the ING Joint LifePay Plus rider guarantees to be available for withdrawal from the contract in any contract year. The Maximum Annual Withdrawal is first calculated when the Lifetime Withdrawal Phase begins and equals the Maximum Annual Withdrawal percentage of 5% multiplied by the ING Joint LifePay Plus Base. The Maximum Annual Withdrawal is thereafter recalculated whenever the ING Joint LifePay Plus Base is recalculated (for example, upon an Annual Ratchet or Step-up).

In the event on the date the Lifetime Withdrawal Phase begins the contract value on the previous business day is greater than the ING Joint LifePay Plus Base, then before the Maximum Annual Withdrawal is first calculated, the ING Joint LifePay Plus Base will be set equal to that contract value. The greater the ING Joint LifePay Plus Base, the greater the amount will be available to you for withdrawal under the ING Joint LifePay Plus rider in calculating the Maximum Annual Withdrawal for the first time.

Income Optimizer. The ING Joint LifePay Plus rider offers the option to elect to receive the Maximum Annual Withdrawal in systematic installments over the lives of both Active Spouses. We call this option the Income Optimizer. You may elect the Income Optimizer during the Lifetime Withdrawal Phase. This election is in lieu of the contract’s other annuity options, and these payments will be subject to the same tax treatment as an annuity payment. The Income Optimizer is only available on nonqualified contracts.

The frequency of payments under the Income Optimizer may be annual, quarterly or monthly. While you are receiving payments under the Income Optimizer, the ING Joint LifePay Plus Base remains eligible for Annual Ratchets. Your contract may still have a contract value and death benefit. Spousal continuation of payments under the Income Optimizer is permitted. Any withdrawals in excess of the Maximum Annual Withdrawal are Excess Withdrawals that would cause a pro-rata reduction of the ING Joint LifePay Plus Base, as well as a reduction of the Maximum Annual Withdrawal.

Your election is subject to restrictions – you may not: a) revoke your election; b) add on premiums; c) exchange the contract; d) annuitize the contract; or e) change ownership (except as permitted under “Change of Owner or Annuitant” below). Once you choose the frequency of payments, you may not change it. Also, the specified percentage of your contract value required to be allocated to Fixed Allocation Funds is higher, and the investment options available for this purpose are limited. Please see “Investment Option Restrictions” below for the details. You may surrender your contract at any time.

Payments under the Income Optimizer will continue until the Terminal Date, at which time you waive any remaining contract value and death benefit and the ING Joint LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status. The Terminal Date is the contract anniversary following the youngest Active Spouse’s 95th birthday. Alternatively, you may wish to extend the Terminal Date to the contract anniversary following the youngest Active Spouse’s 115th birthday in order to liquidate your contract value that may remain before the ING Joint LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status. Regardless, your payments of the Maximum Annual Withdrawal will continue during the Lifetime Automatic Periodic Benefit Status until the death of the last Active Spouse. We will notify you in writing in advance of the Terminal Date to remind you of this alternative and how to extend the Terminal Date.

Lifetime Income Annuity Option. In the event the contract's income phase commencement date is reached while the ING Joint LifePay Plus rider is in the Lifetime Withdrawal Phase, you may elect a life only income phase option, in lieu of the contract's other income phase options. Payments under this option will be joint life if both Active Spouses are living, or for the life of the only Active Spouse, and are based on the minimum annual payment factors for purchase \$1,000 reflected in the rider data table. These payments will never be less than the frequency of payments of the Maximum Annual Withdrawal at that time. For more information about the contract's income phase options, see "The Income Phase."

Required Minimum Distributions. The ING Joint LifePay Plus rider allows for withdrawals from a contract subject to the Required Minimum Distribution rules of the Tax Code that exceed the Maximum Annual Withdrawal without causing a pro-rata reduction of the ING Joint LifePay Plus Base and recalculation of the Maximum Annual Withdrawal. If your Required Minimum Distribution for a calendar year (determined on a date on or before January 31 of that year), applicable to this contract, is greater than the Maximum Annual Withdrawal on that date, then an Additional Withdrawal Amount will be set equal to that portion of the Required Minimum Distribution that exceeds the Maximum Annual Withdrawal. Once you have taken the Maximum Annual Withdrawal for the then current contract year, the dollar amount of any additional withdrawals will count first against and reduce any unused Additional Withdrawal Amount for the previous calendar year followed by any Additional Withdrawal Amount for the current calendar year -- without constituting an Excess Withdrawal.

See Appendix I, Illustration 3 for an example.

Withdrawals that exceed the Maximum Annual Withdrawal and all available Additional Withdrawal Amounts are Excess Withdrawals that will cause a pro-rata reduction of the ING Joint LifePay Plus Base and the Maximum Annual Withdrawal to be recalculated. See Appendix I, Illustration 5 for an example of the consequences of an Excess Withdrawal with an Additional Withdrawal Amount. The Additional Withdrawal Amount is available on a calendar year basis and recalculated every January, reset to equal that portion of the Required Minimum Distribution for that calendar year that exceeds the Maximum Annual Withdrawal on that date. Any unused amount of the Additional Withdrawal Amount carries over into the next calendar year and is available through the end of that year, at which time any amount remaining will expire. See Appendix I, Illustration 4 for an example of the Additional Withdrawal Amount being carried over. **Please note that there is no adjustment to the Additional Withdrawal Amount for Annual Ratchets or upon spousal continuation of the ING Joint LifePay Plus Rider.**

Lifetime Automatic Periodic Benefit Status. The ING Joint LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status when your contract value is reduced to zero other than by an Excess Withdrawal (a withdrawal in excess of the Maximum Annual Withdrawal that causes your contract value to be reduced to zero will terminate the ING Joint LifePay Plus rider). You will no longer be entitled to make withdrawals, but instead will begin to receive periodic payments in an annual amount equal to the Maximum Annual Withdrawal. When the rider enters Lifetime Automatic Periodic Benefit Status:

- 1) The contract will provide no further benefits (including death benefits) other than as provided under the ING Joint LifePay Plus rider;
- 2) No further premium payments will be accepted; and
- 3) Any other riders issued with the contract will terminate, unless otherwise specified in that rider.

During Lifetime Automatic Periodic Benefit Status, we will pay you periodic payments in an annual amount that is equal to the Maximum Annual Withdrawal. These payments will cease upon the death of the annuitant at which time both the rider and the contract will terminate. The rider will remain in Lifetime Automatic Periodic Benefit Status until it terminates without value upon the last Active Spouse's death.

If, when the ING Joint LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status, your net withdrawals to date are less than the Maximum Annual Withdrawal for that contract year, then we will pay you the difference immediately. The periodic payments will begin on the first contract anniversary following the date the rider enters Lifetime Automatic Periodic Benefit Status and will continue to be paid annually thereafter.

In the event contract value is reduced to zero before the Lifetime Withdrawal Phase begins, Lifetime Automatic Periodic Benefit Status is deferred until the contract anniversary on or after the youngest Active Spouse is age 65. During this time, the ING Joint LifePay Plus rider's death benefit remains payable upon the last Active Spouse's death, and the ING Joint LifePay Plus rider remains eligible for Step-ups. Once the ING Joint LifePay Plus rider enters the Lifetime Automatic Periodic Benefit Status, periodic payments will begin in an annual amount equal to 5% (the Maximum Annual Withdrawal percentage) multiplied by the ING Joint LifePay Plus Base.

You may elect to receive systematic withdrawals pursuant to the terms of the contract. Under a systematic withdrawal, either a fixed amount or an amount based upon a percentage of the contract value will be withdrawn from your contract and paid to you on a scheduled basis, either monthly, quarterly, or annually. If, at the time the rider enters Lifetime Automatic Periodic Benefit Status, you are receiving systematic withdrawals under the contract more frequently than annually, the periodic payments will be made at the same frequency in equal amounts such that the sum of the payments in each contract year will equal the annual Maximum Annual Withdrawal. Such payments will be made on the same payment dates as previously set up, if the payments were being made monthly or quarterly. If the payments were being made annually, then the payments will be made on each following contract anniversary.

Investment Option Restrictions. While the ING Joint LifePay Plus rider is in effect, there are limits on the portfolios to which your contract value may be allocated. Contract value allocated to portfolios other than Accepted Funds will be rebalanced so as to maintain at least the required specified percentage of such contract value in the Fixed Allocation Funds. Currently, the required specified percentage is 30%, and is 40% if you have selected the Income Optimizer. See “Fixed Allocation Funds Automatic Rebalancing,” below. We impose these investment option restrictions in order to lessen the likelihood we would have to make payments under this rider. We require these allocations regardless of your investment instructions to the contract. The ING Joint LifePay Plus rider will not be issued until your contract value is allocated in accordance with these investment options restrictions. The timing of when and how we apply these restrictions is discussed further below.

Accepted Funds. Currently, the Accepted Funds are:

- Fixed Account II
- Fixed Interest Division
- ING Liquid Assets Portfolio
- ING Solution Income Portfolio
- ING Solution 2015 Portfolio
- ING Solution 2025 Portfolio
- ING Solution 2035 Portfolio
- ING T. Rowe Price Capital Appreciation Portfolio.

No rebalancing is necessary if the contract value is allocated entirely to Accepted Funds. We may change these designations at any time upon 30 days notice to you. If a change is made, the change will apply to contract value allocated to such portfolios after the date of the change.

If you have selected the Income Optimizer, the Accepted Funds are:

- Fixed Account II
- Fixed Interest Division
- ING Liquid Assets Portfolio
- ING Solution Income Portfolio
- ING Solution 2015 Portfolio.

Fixed Allocation Funds. Currently, the Fixed Allocation Funds are:

- ING American Funds Bond Portfolio
- ING BlackRock Inflation Protected Bond Portfolio
- ING Intermediate Bond Portfolio
- ING U.S. Bond Index Portfolio.

You may allocate your contract value to one or more Fixed Allocation Funds. We consider the ING Intermediate Bond Portfolio to be the default Fixed Allocation Fund in connection with Fixed Allocation Funds Automatic Rebalancing.

Other Funds. All portfolios available under the contract other than Accepted Funds or the Fixed Allocation Funds are considered Other Funds.

Fixed Allocation Funds Automatic Rebalancing. If the contract value in the Fixed Allocation Funds is less than the required specified percentage of the total contract value allocated to the Fixed Allocation Funds and Other Funds on any ING Joint LifePay Plus Rebalancing Date, we will automatically rebalance the contract value allocated to the Fixed Allocation Funds and Other Funds so that the required specified percentage of this amount is allocated to the Fixed Allocation Funds. The current specified percentage is 30%, and 40% if you have selected the Income Optimizer. Accepted Funds are excluded from Fixed Allocation Funds Automatic Rebalancing. Any rebalancing is done on a pro-rata basis among the Other Funds and will be the last transaction processed on that date. The ING Joint LifePay Plus Rebalancing Dates occur on the rider effective date, each quarterly contract anniversary, and after the following transactions:

- 1) Receipt of additional premiums;
- 2) Transfer or reallocation among the Fixed Allocation Funds or Other Funds, whether automatic or specifically directed by you; and
- 3) Withdrawals from the Fixed Allocation Funds or Other Funds.

Fixed Allocation Funds Automatic Rebalancing is separate from any other automatic rebalancing under the contract. However, if the other automatic rebalancing under the contract causes the allocations to be out of compliance with the investment option restrictions noted above, Fixed Allocation Funds Automatic Rebalancing will occur immediately after the automatic rebalancing to restore the required allocations. See “Appendix J—Examples of Fixed Allocation Funds Automatic Rebalancing.” You will be notified that Fixed Allocation Funds Automatic Rebalancing has occurred, along with your new allocations, by a confirmation statement that will be mailed to you after Fixed Allocation Funds Automatic Rebalancing has occurred.

In certain circumstances, Fixed Allocation Funds Automatic Rebalancing may result in a reallocation into a Fixed Allocation Fund even if you have not previously been invested in it. See “Appendix J—Examples of Fixed Allocation Funds Automatic Rebalancing, Example I.” **By electing to purchase the ING Joint LifePay Plus rider, you are providing the Company with direction and authorization to process these transactions, including reallocations into the Fixed Allocation Funds. You should not purchase the ING Joint LifePay Plus rider if you do not wish to have your contract value reallocated in this manner.**

Divorce. Generally, in the event of a divorce, the spouse who retains ownership of the contract will continue to be entitled to all rights and benefits of the ING Joint LifePay Plus rider, while the ex-spouse will no longer have any such rights or be entitled to any such benefits. In the event of a divorce during the Lifetime Withdrawal Phase, the ING Joint LifePay Plus rider will continue until the owner’s death (first owner in the case of joint owners, or the annuitant in the case of a custodial IRA). Although spousal continuation may be available under the Tax Code for a subsequent spouse, the ING Joint LifePay Plus rider cannot be continued by the new spouse. As the result of the divorce, we may be required to withdraw assets for the benefit of an ex-spouse. Any such withdrawal will be considered a withdrawal for purposes of the ING Joint LifePay Plus Base. See “Withdrawals” and “Excess Withdrawal,” above. In the event of a divorce during Lifetime Automatic Periodic Benefit Status, there will be no change in the amount of your periodic payments. Payments will continue until both spouses are deceased.

Death of Owner or Annuitant. The ING Joint LifePay Plus rider terminates (with the rider’s charges prorated) on the earlier of the date of death of the last Active Spouse, or when the surviving spouse decides not to continue the contract.

ING Joint LifePay Plus Death Benefit Base. The ING Joint LifePay Plus rider has a death benefit that is payable upon the owner’s death only when the ING Joint LifePay Plus Death Benefit Base is greater than the contract’s death benefit. The ING Joint LifePay Plus Death Benefit Base is first calculated when you purchase the ING Joint LifePay Plus rider. If the ING Joint LifePay Plus rider is purchased on the contract date, the initial ING Joint LifePay Plus Death Benefit Base is equal to the initial premium. If the ING Joint LifePay Plus rider is purchased after the contract date, the initial ING Joint LifePay Plus Death Benefit Base is equal to the contract value on the rider effective date.

The ING Joint LifePay Plus Death Benefit Base is increased by the dollar amount of any subsequent premiums and subject to any withdrawal adjustments. The ING Joint LifePay Plus Death Benefit Base is reduced by the dollar amount of any withdrawals for the payment of third-party investment advisory fees before the Lifetime Withdrawal Phase begins, and for any withdrawals once the Lifetime Withdrawal Phase begins that are not Excess Withdrawals, including withdrawals for payment of third-party investment advisory fees. The ING Joint LifePay Plus Death Benefit Base is subject to a pro-rata reduction for an Excess Withdrawal. Please see “Withdrawals and Excess Withdrawals” for more information.

There is no additional charge for the death benefit associated with the ING Joint LifePay Plus rider. Please note that the ING Joint LifePay Plus Death Benefit Base is not eligible to participate in Annual Ratchets or Step-ups.

In the event the ING Joint LifePay Plus Death Benefit Base is greater than zero when the ING Joint LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status, each periodic payment reduces the ING Joint LifePay Plus Death Benefit Base dollar for dollar until the earlier of the ING Joint LifePay Plus Death Benefit Base being reduced to zero or the last Active Spouse’s death. Upon the last Active Spouse’s death, any remaining ING Joint LifePay Plus death benefit is payable to the beneficiary in a lump-sum.

Spousal Continuation. If the surviving spouse of the deceased owner continues the contract (see “Death Benefit Choices—Continuation After Death—Spouse”), the rider will continue, SO LONG AS the surviving spouse is an Active Spouse. At that time, the ING Joint LifePay Plus Base is recalculated to equal the greater of a) the contract value, inclusive of the guaranteed death benefit; and b) the last-calculated ING Joint LifePay Plus Base, subject to pro-rata adjustment for any withdrawals before spousal continuation.

The Maximum Annual Withdrawal is also recalculated; however, there is no Maximum Annual Withdrawal upon spousal continuation until the Lifetime Withdrawal Phase begins on the date of the first withdrawal after spousal continuation, SO LONG AS the last Active Spouse is age 65. The Maximum Annual Withdrawal is recalculated to equal 5% (the Maximum Annual Withdrawal percentage) multiplied by the ING Joint LifePay Plus Base. There is no adjustment to the Additional Withdrawal Amount upon spousal continuation of the ING Joint LifePay Plus rider for a contract subject to the Required Minimum Distribution rules of the Tax Code. Any withdrawals before the contract owner’s death and spousal continuation are counted in calculating you withdrawals in that contract year to determine whether the Maximum Annual Withdrawal has been exceeded.

Please note, if the contract value on the previous business day is greater than the ING Joint LifePay Plus Base on the date the Lifetime Withdrawal Phase begins, then the ING Joint LifePay Plus Base will be set equal to the contract value before the Maximum Annual Withdrawal is first calculated. The rider will be eligible for any Step-ups that may remain, and the Step-up Tracker will be recalculated at the same time as the ING Joint LifePay Plus Base. Also, upon spousal continuation, the ING Joint LifePay Plus Death Benefit Base equals the ING Joint LifePay Plus Death Benefit Base before the contract owner’s death, subject to any pro-rata adjustment for withdrawals before spousal continuation of the rider.

Change of Owner or Annuitant. The ING Joint LifePay Plus rider terminates (with the rider’s charge prorated) upon an ownership change or change of annuitant, except for:

- 1) spousal continuation by an Active Spouse, as described above;
- 2) change of owner from one custodian to another custodian;
- 3) change of owner from a custodian for the benefit of an individual to the same individual (the owner’s spouse must be named sole beneficiary under the contract to remain an Active Spouse);
- 4) change of owner from an individual to a custodian for the benefit of the same individual;
- 5) collateral assignments;
- 6) for nonqualified contracts only, the addition of a joint owner, provided that the additional joint owner is the original owner’s spouse and is an Active Spouse when added as joint owner;
- 7) for nonqualified contracts only, the removal of a joint owner, provided the removed joint owner is an Active Spouse and becomes the sole primary beneficiary; and
- 8) change of owner where the owner becomes the sole primary beneficiary and the sole primary beneficiary becomes the owner, provided both spouses are Active Spouses at the time of the change.

Surrender Charges. Once the Lifetime Withdrawal Phase begins, your withdrawals within a contract year up to the Maximum Annual Withdrawal (and any applicable Additional Withdrawal Amount) are not subject to surrender charges. We waive any surrender charges otherwise applicable to your withdrawal in a contract year that are less than or equal to the Maximum Annual Withdrawal. Excess Withdrawals are subject to surrender charges, whether or not the Lifetime Withdrawal Phase has begun. Once your contract value is reduced to zero, any periodic payments under the ING Joint LifePay Plus rider are not subject to surrender charges. Moreover, with no contract value, none of your contract level recurring charges (e.g., the Mortality and Expense Risk Charge) would be deducted.

Federal Tax Considerations. For more information about the tax treatment of amounts paid to you under the ING Joint LifePay Plus rider, see “Federal Tax Considerations—Tax Consequences of Living Benefits and Death Benefits.”

WITHDRAWALS

You may withdraw all or part of your money at any time during the accumulation phase and before the death of the contract owner, except under certain qualified contracts. If you request a withdrawal for more than 90% of the cash surrender value, and the remaining cash surrender value after the withdrawal is less than \$100, we may treat it as a request to surrender the contract. If any single withdrawal or the sum of withdrawals exceeds the Free Withdrawal Amount, you may incur a surrender charge. There is no surrender charge if, during each contract year, the amount withdrawn is equal to or less than the greater of: 1) 10% or less of your contract value on the date of the withdrawal, less prior withdrawals during that contract year; or 2) your RMD attributable to amounts held under the contract. The Free Withdrawal Amount does not include your RMD for the tax year containing the contract date of this contract. Under Option Package III, any unused percentage of the 10% Free Withdrawal Amount from a contract year will carry forward into successive contract years, based on the percentage remaining at the time of the last withdrawal in that contract year. In no event will the Free Withdrawal Amount at any time exceed 30% of contract value, subject to state approval.

You must submit a written request to us specifying the Fixed Interest Allocations or subaccounts from which amounts are to be withdrawn, otherwise the withdrawal will be made on a pro-rata basis from all of the subaccounts in which you are invested. If there is not enough contract value in the subaccounts, we will deduct the balance of the withdrawal from your Fixed Interest Allocations starting with the guaranteed interest periods nearest their maturity dates until we have honored your request. We will determine the contract value as of the close of business on the day we receive your withdrawal request at our Customer Service Center. The contract value may be more or less than the premium payments made.

We will apply a Market Value Adjustment to any withdrawal from your Fixed Interest Allocation taken more than 30 days before its maturity date. Definitive guidance on the proper federal tax treatment of the Market Value Adjustment has not been issued. You may want to discuss the potential tax consequences of a Market Value Adjustment with your tax adviser. If any limitation on allocations to the Restricted Funds has been exceeded, subsequent withdrawals must be taken so that the percentage of contract value in the Restricted Funds following the withdrawal would not be greater than the percentage of contract value in the Restricted Funds prior to the withdrawal. In this event, the subsequent withdrawals must be taken from the Restricted Funds or taken pro-rata from all variable subaccounts.

Please be aware that benefit we pay under certain optional benefit riders may be reduced by any withdrawals you take while the optional benefit rider is in effect. See “Optional Living Benefit Riders.” Withdrawals may be subject to taxation and tax penalties.

Other than surrender charges and market value adjustment, if applicable, there is no additional charge for these features.

We offer the following three withdrawal options:

Regular Withdrawals

After the free look period, you may make regular withdrawals. Each withdrawal must be a minimum of \$100. We will apply a Market Value Adjustment to any regular withdrawal from a Fixed Interest Allocation that is taken more than 30 days before its maturity date. See Appendix C and the Fixed Account II prospectus for more information on the application of Market Value adjustment.

Systematic Withdrawals

You may choose to receive automatic systematic withdrawal payments (1) from the contract value in the subaccounts in which you are invested, or (2) from the interest earned in your Fixed Interest Allocations. Systematic withdrawals may be taken monthly, quarterly or annually. If you have contract value allocated to one or more Restricted Funds and you elect to receive systematic withdrawals from the subaccounts in which you are invested, the systematic withdrawals must be taken pro-rata from all subaccounts in which contract value is invested. If you do not have contract value allocated to a Restricted Fund and choose systematic withdrawals on a non pro-rata basis, we will monitor the withdrawals annually. If you subsequently allocate contract value to one or more Restricted Funds, we will require you to take your systematic withdrawals on a pro-rata basis from all subaccounts in which contract value is invested.

You decide the date on which you would like your systematic withdrawals to start. This date must be at least 30 days after the contract date and no later than the 28th day of the month. Subject to these rules, if you have not indicated the date, your systematic withdrawals will occur on the next business day after your contract date (or the monthly or quarterly anniversary thereof) for your desired frequency.

Each systematic withdrawal amount must be a minimum of \$100. The amount of your systematic withdrawal can either be (1) a fixed dollar amount, or (2) an amount based on a percentage of the contract value. Both forms of systematic withdrawals are subject to the following maximum percentage, which is calculated on each withdrawal date:

Frequency	Maximum Percentage of Contract Value
Monthly	0.83%
Quarterly	2.50%
Annually	10.00%

A fixed dollar systematic withdrawal of less than \$100 on any withdrawal date will terminate your systematic withdrawal. If the amount to be withdrawn would exceed the applicable maximum percentage of your contract value on any withdrawal date, we will automatically reduce the amount withdrawn so that it equals such percentage. Thus, your fixed dollar systematic withdrawals will never exceed the maximum percentage. If you want fixed dollar systematic withdrawals to exceed the maximum percentage and are willing to incur associated surrender charges, consider the Fixed Dollar Systematic Withdrawal Feature which you may add to your regular systematic withdrawal program.

If your systematic withdrawal is based on a percentage of contract value and the amount to be withdrawn based on that percentage would be less than \$100, we will automatically increase the amount to \$100 as long as it does not exceed the maximum percentage. If the systematic withdrawal would exceed the maximum percentage, we will send the amount, and then automatically cancel your systematic withdrawal option.

Systematic withdrawals from Fixed Interest Allocations are limited to interest earnings during the prior month, quarter, or year, depending on the frequency you chose. Systematic withdrawals are not subject to a Market Value Adjustment, unless you have added the Fixed Dollar Systematic Withdrawal Feature discussed below and the payments exceed interest earnings. Systematic withdrawals from Fixed Interest Allocations under the Fixed Dollar Systematic Withdrawal Feature are available only in connection with Section 72(t) or Section 72(q) distributions. A Fixed Interest Allocation may not participate in both the systematic withdrawal option and the dollar cost averaging program at the same time.

You may change the amount or percentage of your systematic withdrawals once each contract year or cancel this option at any time by sending satisfactory notice to our Customer Service Center at least 7 days before the next scheduled withdrawal date. If you submit a subsequent premium payment after you have applied for systematic withdrawals, we will not adjust future withdrawals under the systematic withdrawal program unless you specifically request we do so.

The systematic withdrawal option may commence in a contract year where a regular withdrawal has been taken but you may not change the amount or percentage of your withdrawals in any contract year during which you have previously taken a regular withdrawal. You may not elect the systematic withdrawal option if you are taking IRA withdrawals.

Subject to availability, a spousal or non-spousal beneficiary may elect to receive death benefits as payments over the beneficiary's lifetime ("stretch"). "Stretch" payments will be subject to the same limitations as systematic withdrawals, and nonqualified "stretch" payments will be reported on the same basis as other systematic withdrawals.

Fixed Dollar Systematic Withdrawal Feature. You may add the Fixed Dollar Systematic Withdrawal Feature to your regular fixed dollar systematic withdrawal program. This feature allows you to receive a systematic withdrawal in a fixed dollar amount regardless of any surrender charges or Market Value Adjustments. Systematic withdrawals from Fixed Interest Allocations under the Fixed Dollar Systematic Withdrawal Feature are available only in connection with Section 72(t) or Section 72(q) distributions. You choose the amount of the fixed systematic withdrawals, which may total up to an annual maximum of 10% of your contract value as determined on the day we receive your election of this feature. The maximum limit will not be recalculated when you make additional premium payments, unless you instruct us to do so. We will assess a surrender charge on the withdrawal date if the withdrawal exceeds the maximum limit as calculated on the withdrawal date. We will assess a Market Value Adjustment on the withdrawal date if the withdrawal from a Fixed Interest Allocation exceeds your interest earnings on the withdrawal date. We will apply the surrender charge and any Market Value Adjustment directly to your contract value (rather than to the systematic withdrawal) so that the amount of each systematic withdrawal remains fixed.

Flat dollar systematic withdrawals which are intended to satisfy the requirements of Section 72(t) of the Tax Code may exceed the maximum. Such withdrawals are subject to surrender charges and Market Value Adjustment when they exceed the applicable maximum percentage.

IRA Withdrawals

If you have a traditional IRA contract and will be at least age 70½ during the current calendar year, you may elect to have distributions made to you to satisfy requirements imposed by federal tax law. IRA withdrawals provide payout of amounts required to be distributed by the IRS rules governing mandatory distributions under qualified plans. We will send you a notice before your distributions commence. You may elect to take IRA withdrawals at that time, or at a later date. You may not elect IRA withdrawals and participate in systematic withdrawals at the same time. If you do not elect to take IRA withdrawals, and distributions are required by federal tax law, distributions adequate to satisfy the requirements imposed by federal tax law may be made. Thus, if you are participating in systematic withdrawals, distributions under that option must be adequate to satisfy the mandatory distribution rules imposed by federal tax law.

You choose the frequency of your IRA withdrawals (monthly, quarterly or annually) and the start date. This date must be at least 30 days after the contract date and no later than the 28th day of the month. Subject to these rules, if you have not indicated the date, your IRA withdrawals will occur on the next business day after your contract date for your desired frequency.

You may request that we calculate for you the amount that is required to be withdrawn from your contract each year based on the information you give us and various choices you make. For information regarding the calculation and choices you have to make, see the SAI. We will also accept your written instructions regarding the calculated amount required to be withdrawn from your contract each year. The minimum dollar amount you can withdraw is \$100. When we determine the required IRA withdrawal amount for a taxable year based on the frequency you select, if that amount is less than \$100, we will pay \$100. At any time where the IRA withdrawal amount is greater than the contract value, we will cancel the contract and send you the amount of the cash surrender value.

You may change the payment frequency of your IRA withdrawals once each contract year or cancel this option at any time by sending satisfactory notice to our Customer Service Center at least 7 days before the next scheduled withdrawal date.

An IRA withdrawal from a Fixed Interest Allocation in excess of the amount allowed under systematic withdrawals will be subject to a Market Value Adjustment.

Consult your tax adviser regarding the tax consequences associated with taking withdrawals. You are responsible for determining that withdrawals comply with applicable law. A withdrawal made before the taxpayer reaches age 59½ may result in a 10% penalty tax. See "Federal Tax Considerations" for more details.

TRANSFERS AMONG YOUR INVESTMENTS

Between the end of the free look period and the income phase start date, you may transfer your contract value among the subaccounts in which you are invested and your Fixed Interest Allocations. Transfers to an ING GET Fund series may only be made during the offering period for that ING GET Fund series. We currently do not charge you for transfers made during a contract year, but reserve the right to charge \$25 for each transfer after the twelfth transfer in a contract year. **We also reserve the right to limit the number of transfers you may make and may otherwise modify or terminate transfer privileges if required by our business judgment or in accordance with applicable law.** We will apply a Market Value Adjustment to transfers from a Fixed Interest Allocation taken more than 30 days before its maturity date, unless the transfer is made under the dollar cost averaging program. Keep in mind that transfers between Special or Excluded Funds and other funds may negatively impact your death benefit or optional rider benefits.

If you allocate contract value to an investment option that has been designated as a Restricted Fund, your ability to transfer contract value to the Restricted Fund may be limited. A transfer to the Restricted Funds will not be permitted to the extent that it would increase the contract value in the Restricted Fund to more than the applicable limits following the transfer. We do not limit transfers from Restricted Funds. If the result of multiple reallocations is to lower the percentage of total contract value in the Restricted Fund, the reallocation will be permitted even if the percentage of contract value in the Restricted Fund is greater than the limit.

Please be aware that the benefits we pay under an optional benefit rider may be affected by certain transfers you may make while the rider is in effect. Transfers, including those involving Special Funds or Excluded Funds, may also affect your optional rider base. See “Optional Living Benefit Riders.”

The minimum amount that you may transfer is \$100 or, if less, your entire contract value held in a subaccount or a Fixed Interest Allocation. To make a transfer, you must notify our Customer Service Center and all other administrative requirements must be met. Transfers will be based on values at the end of the business day in which the transfer request is received at our Customer Service Center. Any transfer request received after 4:00 p.m. eastern time or the close of regular trading of the NYSE will be effected on the next business day.

The separate account and the Company will not be liable for following instructions communicated by telephone or other approved electronic means that we reasonably believe to be genuine. We may require personal identifying information to process a request for transfer made over the telephone, over the Internet or other approved electronic means. Please be advised that the risk of a fraudulent transaction is increased with telephonic or electronic instructions, even if appropriate identifying information is provided.

Limits on Frequent or Disruptive Transfers

The contract is not designed to serve as a vehicle for frequent transfers. Frequent transfer activity can disrupt management of a fund and raise its expenses through:

- Increased trading and transaction costs;
- Forced and unplanned portfolio turnover;
- Lost opportunity costs; and
- Large asset swings that decrease the fund’s ability to provide maximum investment return to all contract owners.

This in turn can have an adverse effect on fund performance. **Accordingly, individuals or organizations that use market-timing investment strategies or make frequent transfers should not purchase the contract.**

Excessive Trading Policy. We and the other members of the ING family of companies that provide multi-fund variable insurance and retirement products have adopted a common Excessive Trading Policy to respond to the demands of the various fund families that make their funds available through our products to restrict excessive fund trading activity and to ensure compliance with Rule 22c-2 of the 1940 Act.

We actively monitor fund transfer and reallocation activity within our variable insurance products to identify violations of our Excessive Trading Policy. Our Excessive Trading Policy is violated if fund transfer and reallocation activity:

- Meets or exceeds our current definition of Excessive Trading, as defined below; or
- Is determined, in our sole discretion, to be disruptive or not in the best interests of other owners of our variable insurance and retirement products.

We currently define “Excessive Trading” as:

- More than one purchase and sale of the same fund (including money market funds) within a 60 calendar day period (hereinafter, a purchase and sale of the same fund is referred to as a “round-trip”). This means two or more round-trips involving the same fund within a 60 calendar day period would meet our definition of Excessive Trading; or
- Six round-trips involving the same fund within a rolling twelve month period.

The following transactions are excluded when determining whether trading activity is excessive:

- Purchases or sales of shares related to non-fund transfers (for example, new purchase payments, withdrawals and loans);
- Transfers associated with scheduled dollar cost averaging, scheduled rebalancing, or scheduled asset allocation programs;
- Purchases and sales of fund shares in the amount of \$5,000 or less;
- Purchases and sales of funds that affirmatively permit short-term trading in their fund shares, and movement between such funds and a money market fund; and
- Transactions initiated by us, another member of the ING family of companies, or a fund.

If we determine that an individual or entity has made a purchase of a fund within 60 days of a prior round-trip involving the same fund, we will send them a letter (once per year) warning that another sale of that same fund within 60 days of the beginning of the prior round-trip will be deemed to be Excessive Trading and result in a six month suspension of their ability to initiate fund transfers or reallocations through the Internet, facsimile, Voice Response Unit (VRU), telephone calls to the ING Customer Service Center, or other electronic trading medium that we may make available from time to time (“Electronic Trading Privileges”). Likewise, if we determine that an individual or entity has made five round-trips involving the same fund within a rolling twelve month period, we will send them a letter warning that another purchase and sale of that same fund within twelve months of the initial purchase in the first round-trip will be deemed to be Excessive Trading and result in a suspension of their Electronic Trading Privileges. According to the needs of the various business units, a copy of any warning letters may also be sent, as applicable, to the person(s) or entity authorized to initiate fund transfers or reallocations, the agent/registered representative, or the investment adviser for that individual or entity. A copy of the warning letters and details of the individual’s or entity’s trading activity may also be sent to the fund whose shares were involved in the trading activity.

If we determine that an individual or entity has violated our Excessive Trading Policy, we will send them a letter stating that their Electronic Trading Privileges have been suspended for a period of six months. Consequently, all fund transfers or reallocations, not just those that involve the fund whose shares were involved in the activity that violated our Excessive Trading Policy, will then have to be initiated by providing written instructions to us via regular U.S. mail. Suspension of Electronic Trading Privileges may also extend to products other than the product through which the Excessive Trading activity occurred. During the six month suspension period, electronic “inquiry only” privileges will be permitted where and when possible. A copy of the letter restricting future transfer and reallocation activity to regular U.S. mail and details of the individual’s or entity’s trading activity may also be sent, as applicable, to the person(s) or entity authorized to initiate fund transfers or reallocations, the agent/registered representative or investment adviser for that individual or entity, and the fund whose shares were involved in the activity that violated our Excessive Trading Policy.

Following the six month suspension period during which no additional violations of our Excessive Trading Policy are identified, Electronic Trading Privileges may again be restored. We will continue to monitor the fund transfer and reallocation activity, and any future violations of our Excessive Trading Policy will result in an indefinite suspension of Electronic Trading Privileges. A violation of our Excessive Trading Policy during the six month suspension period will also result in an indefinite suspension of Electronic Trading Privileges.

We reserve the right to suspend Electronic Trading Privileges with respect to any individual or entity, with or without prior notice, if we determine, in our sole discretion, that the individual's or entity's trading activity is disruptive or not in the best interests of other owners of our variable insurance and retirement products, regardless of whether the individual's or entity's trading activity falls within the definition of Excessive Trading set forth above.

Our failure to send or an individual's or entity's failure to receive any warning letter or other notice contemplated under our Excessive Trading Policy will not prevent us from suspending that individual's or entity's Electronic Trading Privileges or taking any other action provided for in our Excessive Trading Policy.

The Company does not allow exceptions to our Excessive Trading Policy. We reserve the right to modify our Excessive Trading Policy, or the policy as it relates to a particular fund, at any time without prior notice, depending on, among other factors, the needs of the underlying fund(s), the best interests of contract owners and fund investors, and/or state or federal regulatory requirements. If we modify our policy, it will be applied uniformly to all contract owners or, as applicable, to all contract owners investing in the underlying fund.

Our Excessive Trading Policy may not be completely successful in preventing market-timing or excessive trading activity. If it is not completely successful, fund performance and management may be adversely affected, as noted above.

Limits Imposed by the Funds. Each underlying fund available through the variable insurance and retirement products offered by us and/or the other members of the ING family of companies, either by prospectus or stated policy, has adopted or may adopt its own excessive/frequent trading policy, and orders for the purchase of fund shares are subject to acceptance or rejection by the underlying fund. We reserve the right, without prior notice, to implement fund purchase restrictions and/or limitations on an individual or entity that the fund has identified as violating its excessive/frequent trading policy and to reject any allocation or transfer request to a subaccount if the corresponding fund will not accept the allocation or transfer for any reason. All such restrictions and/or limitations (which may include, but are not limited to, suspension of Electronic Trading Privileges and/or blocking of future purchases of a fund or all funds within a fund family) will be done in accordance with the directions we receive from the fund.

Agreements to Share Information with Fund Companies. As required by Rule 22c-2 under the 1940 Act, we have entered into information sharing agreements with each of the fund companies whose funds are offered through the contract. Contract owner trading information is shared under these agreements as necessary for the fund companies to monitor fund trading and our implementation of our Excessive Trading Policy. Under these agreements, the Company is required to share information regarding contract owner transactions, including but not limited to information regarding fund transfers initiated by you. In addition to information about contract owner transactions, this information may include personal contract owner information, including names and social security numbers or other tax identification numbers.

As a result of this information sharing, a fund company may direct us to restrict a contract owner's transactions if the fund determines that the contract owner has violated the fund's excessive/frequent trading policy. This could include the fund directing us to reject any allocations of purchase payments or contract value to the fund or all funds within the fund family.

Dollar Cost Averaging

You may elect to participate in our dollar cost averaging ("DCA") program through either the ING Liquid Assets Portfolio subaccount, or a Fixed Interest Allocation, subject to availability, starting 30 days after the contract date. These investment options serve as the source accounts from which we will, on a monthly basis, automatically transfer a set dollar amount of money to the subaccounts you specify. There is no additional charge for dollar cost averaging. Dollar cost averaging is not available with automatic rebalancing and may be subject to limited availability with systematic withdrawals.

We may also offer DCA Fixed Interest Allocations for durations of 6 months and 1 year, subject to state availability, exclusively for use with the dollar cost averaging program.

The dollar cost averaging program is designed to lessen the impact of market fluctuation on your investment. Since we transfer the same dollar amount to other subaccounts each month, more units of a subaccount are purchased if the value of its unit is low and fewer units are purchased if the value of its unit is high. Therefore, a lower than average value per unit may be achieved over the long term. However, we cannot guarantee this. When you elect the dollar cost averaging program, you are continuously investing in securities regardless of fluctuating price levels. You should consider your tolerance for investing through periods of fluctuating price levels.

Dollar cost averaging requires a minimum monthly transfer amount of \$100. We will transfer all your money allocated to that source account into the subaccount(s) you specify in equal payments over the relevant duration. The last payment will include earnings accrued over the duration. If you make an additional premium payment into a Fixed Interest Allocation subject to dollar cost averaging, the amount of your transfers under the dollar cost averaging program remains the same, unless you instruct us to increase the transfer amount.

Transfers under the dollar cost averaging program are not subject to a Market Value Adjustment. However, if you terminate the dollar cost averaging program for a DCA Fixed Interest Allocation and there is money remaining in the DCA Fixed Interest Allocation, we will transfer the remaining money to the ING Liquid Assets Portfolio subaccount. Such transfer will trigger a Market Value Adjustment if the transfer is made more than 30 days before the maturity date of the DCA Fixed Interest Allocation.

If you do not specify the subaccounts to which the dollar amount of the source account is to be transferred, we will transfer the money to the subaccounts in which you are invested on a proportional basis. The transfer date is the same day each month as your contract date. If, on any transfer date, your contract value in a source account is equal to or less than the amount you have elected to have transferred, the entire amount will be transferred and the program will end. You may terminate the dollar cost averaging program at any time by sending satisfactory notice to our Customer Service Center at least 7 days before the next transfer date. A Fixed Interest Allocation or DCA Fixed Interest Allocation may not participate in the dollar cost averaging program and in systematic withdrawals at the same time.

You are permitted to transfer contract value to a Restricted Fund, subject to the limitations described above in this section and in "Appendix B—The Funds." Compliance with the individual and aggregate Restricted Fund limits will be reviewed when the dollar cost averaging program is established. Transfers under the dollar cost averaging program must be within those limits. We will not review again your dollar cost averaging election for compliance with the individual and aggregate limits for investment in the Restricted Funds except in the case of the transactions described below.

- Amount added to source account: If you add amounts to the source account which would increase the amount to be transferred under the dollar cost averaging program, we will review the amounts to be transferred to ensure that the individual and aggregate limits are not being exceeded. If such limits would be exceeded, we will require that the dollar cost averaging transfer amounts be changed to ensure that the transfers are within the limits based on the then current allocation of contract value to the Restricted Fund(s) and the then current value of the amount designated to be transferred to that Restricted Fund(s).
- Additional premium paid: Up to the individual Restricted Fund percentage limit may be allocated to a Restricted Fund. If more than the individual limit has been requested to be allocated to a Restricted Fund, we will look at the aggregate limit, subtract the current allocation to Restricted Funds, and subtract the current value of amounts to be transferred under the dollar cost averaging program to Restricted Funds. The excess, if any, is the maximum that may be allocated pro-rata to Restricted Funds.
- Reallocation request is made while the dollar cost averaging program is active: If the reallocation would increase the amount allocated to Restricted Funds, the maximum that may be so allocated is the individual Restricted Fund percentage limit, less the current allocation to Restricted Funds and less the current value of any remaining amounts to be transferred under the dollar cost averaging program to the Restricted Funds.

We may in the future offer additional subaccounts or withdraw any subaccount or Fixed Interest Allocation to or from the dollar cost averaging program, stop offering DCA Fixed Interest Allocations or otherwise modify, suspend or terminate this program. Of course, such changes will not affect any dollar cost averaging programs in operation at the time.

Automatic Rebalancing

If you have at least \$10,000 of contract value invested in the subaccounts of the separate account, you may elect to have your investments in the subaccounts automatically rebalanced. Transfers made pursuant to automatic rebalancing do not count toward the 12 transfer limit on free transfers. Automatic rebalancing is not available if you participate in dollar cost averaging. Automatic rebalancing will not take place during the free look period.

You are permitted to reallocate between Restricted and non-Restricted Funds, subject to the limitations described above in this section and in “Appendix B–The Funds.” If the reallocation would increase the amount allocated to the Restricted Funds, the maximum that may be so allocated is the individual Restricted Fund percentage limit, less the current allocation to all Restricted Funds.

We will transfer funds under your contract on a quarterly, semi-annual, or annual calendar basis among the subaccounts to maintain the investment blend of your selected subaccounts. The minimum size of any allocation must be in full percentage points. Rebalancing does not affect any amounts that you have allocated to the Fixed Account. The program may be used in conjunction with the systematic withdrawal option only if withdrawals are taken pro-rata.

To participate in automatic rebalancing, send satisfactory notice to our Customer Service Center. We will begin the program on the last business day of the period in which we receive the notice. You may cancel the program at any time. The program will automatically terminate if you choose to reallocate your contract value among the subaccounts or if you make an additional premium payment or partial withdrawal on other than a pro-rata basis. Additional premium payments and partial withdrawals made on a pro-rata basis will not cause the automatic rebalancing program to terminate.

DEATH BENEFIT CHOICES**Death Benefit during the Accumulation Phase**

During the accumulation phase, a death benefit is payable when either the contract owner or the annuitant (when a contract owner is not an individual) dies before the income phase start date. Assuming you are the contract owner, your beneficiary will receive a death benefit unless the beneficiary is your surviving spouse and elects to continue the contract. If there are joint owners and any owner dies, we will pay the surviving owner(s) the death benefit. Upon receipt of due proof of the owner’s death in writing (i.e. a certified copy of the death certificate), we will calculate the guaranteed death benefit based on the Benefit Option Package elected and in effect on the date of death. If the guaranteed death benefit as of the date we receive due proof of death, minus the contract value, also as of that date, is greater than zero, we will add such difference to the contract value. Such addition will be allocated to the funds then available in the same proportion as the contract value in each available fund bears to the contract value in all such funds. If there is no contract value in any fund then available, the addition will be allocated to the ING Liquid Assets Portfolio subaccount, or its successor. Such addition will fulfill our obligations under the Benefit Option Package, and all amounts will remain invested in the contract until we receive a request for payment of the death benefit in good order.

We will pay the death benefit upon receipt at our Customer Service Center of due proof of the owner’s death and any other information required by us to pay the death benefit or otherwise administer the claim, including election of the manner in which the death benefit is to be paid.

If we do not receive a request to apply the death benefit proceeds to an income phase option, we will make a single sum distribution. Unless your beneficiary elects otherwise, the distribution will generally be made into an interest bearing account backed by our general account. This account is not FDIC insured and can be accessed by the beneficiary through a draftbook feature. The beneficiary may access death benefit proceeds at any time without penalty. Interest paid on this account may be less than interest paid on other settlement options, and the Company seeks to earn a profit on these accounts. We will generally distribute death benefit proceeds within 7 calendar days after our Customer Service Center has received sufficient information to make the payment. For information on required distributions under federal income tax laws, you should see “Required Distributions upon Death.” At the time of death benefit election, the beneficiary may elect to receive the death benefit proceeds directly by check rather than through the draftbook feature of the interest bearing account by notifying the Customer Service Center.

You may select one of the option packages described below, which will determine the death benefit payable. Option Packages I and II are available only if the contract owner and the annuitant are not more than 80 years old at the time of purchase. Option Package III is only available if the contract owner and the annuitant are not more than 69 years old at the time of purchase. Option Package III is not available if you have selected a living benefit rider. Prior to May 1, 2009, Option Package III was available if the contract owner and annuitant were not more than 80 years old, and was available even if a living benefit rider had been selected. A change in ownership of the contract may affect the amount of the death benefit payable. Option Package II and III are not available with joint owners.

The death benefit may be subject to certain mandatory distribution rules required by federal tax law.

The death benefit depends upon the option package in effect on the date the contract owner dies.

The differences are summarized as follows:

	Option Package I	Option Package II	Option Package III
Death Benefit on Death of the Owner:	The greater of: (1) the Standard Death Benefit; and (2) the contract value.	The greatest of: (1) the Standard Death Benefit; and (2) the contract value; and (3) the Annual Ratchet death benefit.	The greatest of: (1) the Standard Death Benefit; and (2) the contract value; and (3) the Annual Ratchet death benefit; and (4) the 5% Roll-Up death benefit.

For purposes of calculating the 5% Rollup Death Benefit, the following investment options are designated as “Special Funds”:

- Fixed Account
- Fixed Interest Division
- ING Global Bond Portfolio
- ING Liquid Assets Portfolio
- ING PIMCO Total Return Bond Portfolio
- ING PIMCO Total Return Portfolio

Please note that the ING PIMCO Total Return Portfolio is also a Special Fund, but closed to new allocations, effective May 1, 2009.

For contracts issued **before September 8, 2008**, the following funds are also designated as Special Funds for purposes of calculating the 5% Rollup Death Benefit:

ING Intermediate Bond Portfolio
ING Solution Income Portfolio
PIMCO VIT Real Return Portfolio

However, the ING Intermediate Bond Portfolio is not designated as a Special Fund for purposes of calculating the 5% Rollup Death Benefit if the ING LifePay Plus or ING Joint LifePay Plus rider has been selected. All amounts invested in these funds through contracts issued before September 8, 2008 will be treated as Special Funds. All amounts invested in these funds through contracts issued on or after September 8, 2008 will be treated as Covered Funds.

No investment options are currently designated as Excluded Funds. The death benefit for Excluded Funds is the contract value allocated to Excluded Funds and is tracked for transfer purposes only.

We may, with 30 days notice to you, designate any fund as a Special or Excluded Fund on existing contracts with respect to new premiums added to such fund, with respect to new transfers to such fund and with respect to the death benefits to which such designation applies. Selecting a Special or Excluded Fund may limit or reduce the death benefit.

For the period during which a portion of the contract value is allocated to a Special or Excluded Fund, we may at our discretion reduce the mortality and expense risk charge attributable to that portion of the contract value. The reduced mortality and expense risk charge will be applicable only during that period.

We use the Base Death Benefit to help determine the minimum death benefit payable under each of the death benefits described below. You do not elect the Base Death Benefit. The Base Death Benefit is equal to the greater of:

- 1) the contract value; or
- 2) the cash surrender value.

The **Standard Death Benefit** equals the **greater** of the Base Death Benefit or the **sum** of 1) and 2):

- 1) the contract value allocated to Excluded Funds; and
- 2) the Standard Minimum Guaranteed Death Benefit for amounts allocated to Covered or Special Funds.

The Standard Minimum Guaranteed Death Benefit equals:

- 1) premium payments allocated to Covered, Special and Excluded Funds, respectively;
- 2) reduced by a pro-rata adjustment for any withdrawal or transfer taken from Covered, Special and Excluded Funds, respectively.

In the event of transfers from Excluded to Covered or Special Funds, the increase in the Minimum Guaranteed Death Benefit for Covered Funds and/or Special Funds will equal the lesser of the reduction in the Minimum Guaranteed Death Benefit for Excluded Funds and the contract value transferred. In the event of transfers from Covered or Special Funds to Excluded Funds, the increase in the Minimum Guaranteed Death Benefit for Excluded Funds will equal the reduction in the Minimum Guaranteed Death Benefit for Covered or Special Funds.

Currently, no investment options are designated as Special Funds for purposes of calculating the Standard Death Benefit.

The **5% Roll-Up Death Benefit**, equals the **greater** of:

- 1) the Standard Death Benefit; or
- 2) the sum of the contract value allocated to Excluded Funds and the 5% Roll-Up Minimum Guaranteed Death Benefit for Covered Funds and Special Funds.

The 5% Roll-Up Minimum Guaranteed Death Benefit for Covered Funds, Special Funds and Excluded Funds equals the lesser of:

- 1) premiums, adjusted for withdrawals and transfers, accumulated at 5% on a daily basis for Covered Funds or Excluded Funds and 0% for Special Funds until the earlier of attainment of age 90 or reaching the cap (equal to 3 times all premium payments, as reduced by adjustments for withdrawals) and thereafter at 0%, or
- 2) the cap.

A pro-rata adjustment to the 5% Roll-Up Minimum Guaranteed Death Benefit is made for any withdrawals. The amount of the pro-rata adjustment for withdrawals will equal (a) divided by (b) times (c): where (a) is the contract value of the withdrawal; (b) is the contract value immediately prior to the withdrawal; and (c) is the 5% Roll-Up Minimum Guaranteed Death Benefit for Covered, Special and Excluded Funds, respectively, immediately prior to the withdrawal.

Transfers from Excluded to Covered or Special Funds will reduce the 5% Roll-Up Minimum Guaranteed Death Benefit for Excluded Funds on a pro-rata basis. The resulting increase in the 5% Roll-Up Minimum Guaranteed Death Benefit for Covered or Special Funds will equal the lesser of the reduction in the 5% Roll-Up Minimum Guaranteed Death Benefit for Excluded Funds and the contract value transferred. Transfers from Covered or Special Funds to Excluded Funds will reduce the 5% Roll-Up Minimum Guaranteed Death Benefit for Covered or Special Funds on a pro-rata basis. The resulting increase in the 5% Roll-Up Minimum Guaranteed Death Benefit for Excluded Funds will equal the reduction in the 5% Roll-Up Minimum Guaranteed Death Benefit for Covered or Special Funds, respectively.

Transfers from Special to Covered Funds will reduce the 5% Roll-Up Minimum Guaranteed Death Benefit for Special Funds on a pro-rata basis. The resulting increase in the 5% Roll-Up Minimum Guaranteed Death Benefit for Covered Funds will equal the reduction in the 5% Roll-Up Minimum Guaranteed Death Benefit for Special Funds.

Transfers from Covered to Special Funds will reduce the 5% Roll-Up Minimum Guaranteed Death Benefit for Covered Funds on a pro-rata basis. The resulting increase in the 5% Roll-Up Minimum Guaranteed Death Benefit for Special Funds will equal the reduction in the 5% Roll-Up Minimum Guaranteed Death Benefit for Covered Funds.

The calculation of the cap is not affected by allocation to Covered, Special or Excluded Funds.

The **Annual Ratchet Enhanced Death Benefit** equals the **greater** of:

- 1) the Standard Death Benefit; or
- 2) the sum of the contract value allocated to Excluded Funds and the Annual Ratchet Minimum Guaranteed Death Benefit allocated to Covered or Special Funds.

The Annual Ratchet Minimum Guaranteed Death Benefit equals:

- 1) the initial premium allocated at issue to Covered, Special or Excluded Funds, respectively;
- 2) increased dollar for dollar by any premium allocated after issue to Covered, Special or Excluded Funds, respectively;
- 3) adjusted on each anniversary that occurs on or prior to attainment of age 90 to the greater of the Annual Ratchet Minimum Guaranteed Death Benefit for Covered, Special or Excluded Funds from the prior anniversary (adjusted for new premiums, partial withdrawals and transfers between Covered, Special and Excluded Funds) and the current contract value. A pro-rata adjustment to the Annual Ratchet Minimum Guaranteed Death Benefit is made for any withdrawals. The amount of the pro-rata adjustment for withdrawals will equal (a) divided by (b) times (c): where (a) is the contract value of the withdrawal; (b) is the contract value immediately prior to the withdrawal; and (c) is the Annual Ratchet Minimum Guaranteed Death Benefit for Covered, Special and Excluded Funds, respectively, immediately prior to the withdrawal. Please see Appendix F for examples of the pro-rata withdrawal adjustment for withdrawals.

Transfers from Excluded to Covered or Special Funds will reduce the Annual Ratchet Minimum Guaranteed Death Benefit for Excluded Funds on a pro-rata basis. The resulting increase in the Annual Ratchet Minimum Guaranteed Death Benefit for Covered or Special Funds will equal the lesser of the reduction in the Annual Ratchet Minimum Guaranteed Death Benefit for Excluded Funds and the contract value transferred.

Transfers from Covered or Special Funds to Excluded Funds will reduce the Annual Ratchet Minimum Guaranteed Death Benefit for Covered or Special Funds on a pro-rata basis. The resulting increase in the Annual Ratchet Minimum Guaranteed Death Benefit for Excluded Funds will equal the reduction in the Annual Ratchet Minimum Guaranteed Death Benefit for Covered or Special Funds, respectively.

Currently, no investment options are designated as Special Funds for purposes of calculating the Annual Ratchet Death Benefit.

Examples of how the designation of certain funds as Special Funds affects the calculation of the 5% Roll-up Death Benefit is included in Appendix G to this prospectus.

Transfers Between Option Packages. You may transfer from one option package to another on each contract anniversary. A written request for such transfer must be received at our Customer Service Center within 60 days prior to the contract anniversary. Transfers to Option Packages I and II are not permitted after you attain age 80. Transfers to Option Package III are not permitted if the contract owner or annuitant have attained age 69, or if an optional living benefit rider has been purchased.

If you transfer from Option I to Option II or Option III, the minimum guaranteed death benefit for Special and Non-Special Funds will equal the contract value for Special and Non-Special Funds, respectively, on the effective date of the transfer. On a transfer to Option Package III, the then current roll-up cap will be allocated to Special and Non-Special Funds in the same percentage as the allocation of contract value on the effective date of the transfer. A change of owner may cause an option package transfer on other than a contract anniversary.

Death Benefit During the Income Phase

If any contract owner or the annuitant dies after the income phase start date, we will pay the beneficiary any certain benefit remaining under the annuity in effect at the time.

Continuation After Death—Spouse

If at the contract owner's death, the surviving spouse of the deceased contract owner is the beneficiary and such surviving spouse elects to continue the contract as his or her own the following will apply:

If the guaranteed death benefit as of the date we receive due proof of death, minus the contract value also on that date, is greater than zero, we will add such difference to the contract value. We will allocate such addition to the variable subaccounts in proportion to the contract value in the subaccounts, unless you direct otherwise. If there is no contract value in any subaccount, the addition will be allocated to the ING Liquid Assets Portfolio subaccount, or its successor. Such addition to the contract value will not affect the guaranteed death benefit. If the guaranteed death benefit is less than or equal to the contract value, the contract value will not change.

The death benefits under each of the available options will continue based on the surviving spouse's age on the date that ownership changes. At subsequent surrender, any surrender charge applicable to premiums paid prior to the date we receive due proof of death of the contract owner will be waived. Any premiums paid later will be subject to any applicable surrender charge.

Any addition to contract value, as described above, is available only to the spouse of the owner as of the date of death of the owner if such spouse under the provisions of the contract elects to continue the contract as his or her own.

Continuation After Death—Non Spouse

If the beneficiary is not the spouse of the owner, the contract may continue in force subject to the required distribution rules of the Tax Code.

If the guaranteed death benefit as of the date we receive due proof of death, minus the contract value also on that date, is greater than zero, we will add such difference to the contract value. We will allocate such addition to the variable subaccounts in proportion to the contract value in the subaccounts, unless you direct otherwise. If there is no contract value in any subaccount, the addition will be allocated to the ING Liquid Assets Portfolio subaccount, or its successor.

The death benefit will then terminate. At subsequent surrender, any surrender charge applicable to premiums paid prior to the date we receive due proof of death of the contract owner will be waived. No additional premium payments may be made.

Required Distributions Upon Contract Owner's Death

We will not allow any payment of benefits provided under a nonqualified contract which do not satisfy the requirements of Section 72(s) of the Tax Code.

If any contract owner of a nonqualified contract dies before the income phase payment start date, the death benefit payable to the beneficiary (calculated as described under "Death Benefit Choices" in this prospectus) will be distributed as follows: (a) the death benefit must be completely distributed within 5 years of the contract owner's date of death; or (b) the beneficiary may elect, within the 1-year period after the contract owner's date of death, to receive the death benefit in the form of an annuity from us, provided that (i) such annuity is distributed in substantially equal installments over the life of such beneficiary or over a period not extending beyond the life expectancy of such beneficiary; and (ii) such distributions begin not later than 1 year after the contract owner's date of death.

Notwithstanding (a) and (b) above, if the sole contract owner's beneficiary is the deceased owner's surviving spouse, then such spouse may elect to continue the contract under the same terms as before the contract owner's death. Upon receipt of such election from the spouse at our Customer Service Center: (1) all rights of the spouse as contract owner's beneficiary under the contract in effect prior to such election will cease; (2) the spouse will become the owner of the contract and will also be treated as the contingent annuitant, if none has been named and only if the deceased owner was the annuitant; and (3) all rights and privileges granted by the contract or allowed by the Company will belong to the spouse as contract owner of the contract. This election will be deemed to have been made by the spouse if such spouse makes a premium payment to the contract or fails to make a timely election as described in this paragraph. If the owner's beneficiary is a non-spouse, the distribution provisions described in subparagraphs (a) and (b) above, will apply even if the annuitant and/or contingent annuitant are alive at the time of the contract owner's death.

Subject to availability, and our then current rules, a spousal or non-spousal beneficiary may elect to receive death benefits as payments over the life expectancy of the beneficiary ("stretch"). "Stretch" payments will be subject to the same limitations as systematic withdrawals, and nonqualified "stretch" payments will be reported on the same basis as other systematic withdrawals.

If we do not receive an election from a non-spouse owner's beneficiary within the 1-year period after the contract owner's date of death, then we will pay the death benefit to the owner's beneficiary in a cash payment within five years from date of death. We will determine the death benefit as of the date we receive proof of death. We will make payment of the proceeds on or before the end of the 5-year period starting on the owner's date of death. Such cash payment will be in full settlement of all our liability under the contract.

If a contract owner dies after the income phase payment start date, we will continue to distribute any benefit payable at least as rapidly as under the annuity option then in effect. All of the contract owner's rights granted under the contract or allowed by us will pass to the contract owner's beneficiary.

If a contract has joint owners we will consider the date of death of the first joint owner as the death of the contract owner and the surviving joint owner will become the beneficiary of the contract. If any contract owner is not an individual, the death of an annuitant shall be treated as the death of the owner.

Effect of ING LifePay Plus and ING Joint LifePay Plus Riders on Death Benefit. Please see "ING LifePay Plus Minimum Guaranteed Withdrawal Benefit Rider–Death of Owner or Annuitant," "ING Joint LifePay Plus Minimum Guaranteed Withdrawal Benefit Rider–Death of Owner or Annuitant," "ING LifePay Plus Minimum Guaranteed Withdrawal Benefit Rider–Effect of ING LifePay Plus Rider on Death Benefit" and "ING Joint LifePay Plus Minimum Guaranteed Withdrawal Benefit Rider–Effect of ING Joint LifePay Plus Rider on Death Benefit" for information about the effect of the ING LifePay Plus or the ING Joint LifePay Plus rider on the death benefit under your contract and a description of the impact of the owner's or annuitant's death on the ING LifePay Plus or the ING Joint LifePay Plus rider.

THE INCOME PHASE

During the income phase, you stop contributing dollars to your contract and start receiving payments from your accumulated contract value. Living benefit riders automatically terminate when the income phase of your contract begins.

Initiating Payments. At least 30 days prior to the date you want to start receiving payments, you must notify us in writing of all of the following:

- Payment start date;
- Income phase payment option (see the income phase payment options table in this section);
- Payment frequency (i.e., monthly, quarterly, semi-annually or annually);
- Choice of fixed, and, if available at the time an income phase payment option is selected, variable or a combination of both fixed and variable payments; and
- Selection of an assumed net investment rate (only if variable payments are elected).

Your contract will continue in the accumulation phase until you properly start income phase payments. Once an income phase payment option is selected, it may not be changed. **Our current income phase payment options provide only for fixed payments.**

What Affects Payment Amounts? Some of the factors that may affect the amount of your income phase payments include: your age; gender; contract value; the income phase payment option selected; the number of guaranteed payments (if any) selected; whether you select fixed, variable or a combination of both fixed and variable payments; and, for variable payments, the assumed net investment rate selected. Variable payments are not currently available.

Fixed Payments. Amounts funding fixed income phase payments will be held in the Company's general account. The amount of fixed payments does not vary with investment performance over time.

Variable Payments. Amounts funding your variable income phase payments will be held in the subaccount(s) you select. Not all subaccounts available during the accumulation phase may be available during the income phase. Payment amounts will vary depending upon the performance of the subaccounts you select. For variable income phase payments, you must select an assumed net investment rate. Variable payments are not currently available.

Assumed Net Investment Rate. If you select variable income phase payments, you must also select an assumed net investment rate of either 6%, 5% or 3.5%. If you select a 6% rate, for example, your first income phase payment will be higher, but subsequent payments will increase only if the investment performance of the subaccounts you selected is greater than 6% annually, after deduction of fees. Payment amounts will decline if the investment performance is less than 6%, after deduction of fees.

If you select a 3.5% rate, for example, your first income phase payment will be lower and subsequent payments will increase more rapidly or decline more slowly depending upon changes to the net investment rate of the subaccounts you selected. For more information about selecting an assumed net investment rate, call us for a copy of the SAI.

Minimum Payment Amounts. The income phase payment option you select must result in:

- A first income phase payment of at least \$50; and
- Total yearly income phase payments of at least \$250.

If your contract value is too low to meet these minimum payment amounts, you will receive one lump-sum payment. Unless prohibited by law, we reserve the right to increase the minimum payment amount based on increases reflected in the Consumer Price Index-Urban (CPI-U) since July 1, 1993.

Restrictions on Start Dates and the Duration of Payments. Income phase payments may not begin during the first contract year, or, unless we consent, later than the first day of the month following the annuitant's 90th birthday.

Income phase payments will not begin until you have selected an income phase payment option. Surrender charges may apply if income phase payments begin within the first five contract years. Failure to select an income phase payment option by the annuitant's 90th birthday may have adverse tax consequences. You should consult with a qualified tax adviser if you are considering delaying the selection of an income phase payment option before the later of these dates.

Income phase payments may not extend beyond:

- a) The life of the annuitant;
- b) The joint lives of the annuitant and beneficiary;
- c) A guaranteed period greater than the annuitant's life expectancy; or
- d) A guaranteed period greater than the joint life expectancies of the annuitant and beneficiary.

When income phase payments start, the age of the annuitant plus the number of years for which payments are guaranteed may not exceed 100.

If income phase payments start when the annuitant is at an advanced age, such as over 90, it is possible that the contract will not be considered an annuity for federal tax purposes.

See "**Federal Tax Considerations**" for further discussion of rules relating to income phase payments.

Charges Deducted

- If variable income phase payments are selected, we make a daily deduction for mortality and expense risks from amounts held in the subaccounts. Therefore, if you choose variable income phase payments and a nonlifetime income phase payment option, we still make this deduction from the subaccounts you select, even though we no longer assume any mortality risks. The amount of this charge, on an annual basis, is equal to 1.50% of amounts invested in the subaccounts. See “Fees and Expenses.”
- There is currently no administrative expense charge during the income phase. We reserve the right, however, to charge an administrative expense charge of up to 0.15% during the income phase. If imposed, we deduct this charge daily from the subaccounts corresponding to the funds you select. If we are imposing this charge when you enter the income phase, the charge will apply to you during the entire income phase. See “Fees and Expenses.”

Death Benefit during the Income Phase. The death benefits that may be available to a beneficiary are outlined in the income phase payment options table below. If we do not receive a request to apply the death benefit proceeds to an annuity option, we will make a single sum distribution. Unless you elect otherwise, the distribution will generally be made into an interest bearing account, backed by our general account. This account is not FDIC insured and can be accessed by the beneficiary through a draftbook feature. The beneficiary may access death benefit proceeds at any time without penalty. We will generally distribute death benefit proceeds within 7 days after our Customer Service Center has received sufficient information to make the payment. At the time of death benefit election, the beneficiary may elect to receive the death benefit proceeds directly by check rather than through the draftbook feature of the interest bearing account by notifying the Customer Service Center.

If continuing income phase payments are elected, the beneficiary may not elect to receive a lump-sum at a future date unless the income phase payment option specifically allows a withdrawal right. We will calculate the value of any death benefit at the next valuation after we receive proof of death and a request for payment. Such value will be reduced by any payments made after the date of death.

Beneficiary Rights. A beneficiary’s right to elect an income phase payment option or receive a lump-sum payment may have been restricted by the contract owner. If so, such rights or options will not be available to the beneficiary.

Partial Entry into the Income Phase. You may elect an income phase payment option for a portion of your contract value, while leaving the remaining portion invested in the accumulation phase. Whether the Tax Code considers such payments taxable as income phase payments or as withdrawals is currently unclear; therefore, you should consult with a qualified tax adviser before electing this option. The same or different income phase payment option may be selected for the portion left invested in the accumulation phase.

Taxation. To avoid certain tax penalties, you or your beneficiary must meet the distribution rules imposed by the Tax Code. Additionally, when selecting an income phase payment option, the Tax Code requires that your expected payments will not exceed certain durations. See “Federal Tax Considerations”.

Payment Options

The following table lists the income phase payment options and accompanying death benefits available during the income phase. We may offer additional income phase payment options under the contract from time to time. Once income phase payments begin, the income phase payment option selected may not be changed.

Terms to understand:

Annuitant(s): The person(s) on whose life expectancy(ies) the income phase payments are based.

Beneficiary(ies): The person(s) or entity(ies) entitled to receive a death benefit, if any, under the income phase payment option selected.

Lifetime Income Phase Payment Options	
Life Income	<p>Length of Payments: For as long as the annuitant lives. It is possible that only one payment will be made if the annuitant dies prior to the second payment's due date.</p> <p>Death Benefit-None: All payments end upon the annuitant's death.</p>
Life Income-Guaranteed Payments*	<p>Length of Payments: For as long as the annuitant lives, with payments guaranteed for your choice of 5 to 30 years or as otherwise specified in the contract.</p> <p>Death Benefit-Payment to the Beneficiary: If the annuitant dies before we have made all the guaranteed payments, we will continue to pay the beneficiary the remaining payments.</p>
Life Income-Two Lives	<p>Length of Payments: For as long as either annuitant lives. It is possible that only one payment will be made if both annuitants die before the second payment's due date.</p> <p>Continuing Payments: When you select this option you choose for:</p> <p>a) 100%, 66⅔% or 50% of the payment to continue to the surviving annuitant after the first death; or</p> <p>b) 100% of the payment to continue to the annuitant on the second annuitant's death, and 50% of the payment to continue to the second annuitant on the annuitant's death.</p> <p>Death Benefit-None: All payments end upon the death of both annuitants.</p>
Life Income-Two Lives Guaranteed Payments*	<p>Length of Payments: For as long as either annuitant lives, with payments guaranteed from 5 to 30 years or as otherwise specified in the contract.</p> <p>Continuing Payments: 100% of the payment to continue to the surviving annuitant after the first death.</p> <p>Death Benefit-Payment to the Beneficiary: If both annuitants die before we have made all the guaranteed payments, we will continue to pay the beneficiary the remaining payments.</p>
Life Income- Cash Refund Option (limited availability-fixed payments only)	<p>Length of Payments: For as long as the annuitant lives.</p> <p>Death Benefit-Payment to the Beneficiary: Following the annuitant's death, we will pay a lump-sum payment equal to the amount originally applied to the income phase payment option (less any applicable premium tax) and less the total amount of income payments paid.</p>
Life Income-Two Lives-Cash Refund Option (limited availability-fixed payments only)	<p>Length of Payments: For as long as either annuitant lives.</p> <p>Continuing Payments: 100% of the payment to continue after the first death.</p> <p>Death Benefit-Payment to the Beneficiary: When both annuitants die we will pay a lump-sum payment equal to the amount applied to the income phase payment option (less any applicable premium tax) and less the total amount of income payments paid.</p>
Nonlifetime Income Phase Payment Option	
Nonlifetime-Guaranteed Payments*	<p>Length of Payments: You may select payments for 5 to 30 years. In certain cases a lump-sum payment may be requested at any time (see below).</p> <p>Death Benefit-Payment to the Beneficiary: If the annuitant dies before we make all the guaranteed payments, we will continue to pay the beneficiary the remaining payments.</p>
<p>Lump-Sum Payment: If the "Nonlifetime-Guaranteed Payments" option is elected with variable payments, you may request at any time that all or a portion of the present value of the remaining payments be paid in one lump-sum. A lump-sum elected before three or five years of income phase payments have been completed (as specified by the contract) will be treated as a withdrawal during the accumulation phase and if the election is made during an early withdrawal charge period, we will charge the applicable early withdrawal charge. Lump-sum payments will be sent within seven calendar days after we receive the request for payment in good order at our Customer Service Center. We do not currently offer variable payouts.</p>	

*Guaranteed period payments may not extend beyond the shorter of your life expectancy or until your age 95.

OTHER CONTRACT PROVISIONS

Reports to Contract Owners

We confirm purchase, transfer and withdrawal transactions usually within 5 business days of processing. We may also send you a quarterly report within 31 days after the end of each calendar quarter. The report will show the contract value, cash surrender value, and the death benefit as of the end of the calendar quarter. The report will also show the allocation of your contract value and reflects the amounts deducted from or added to the contract value. You have 30 days to notify our Customer Service Center of any errors or discrepancies. We will notify you when shareholder reports of the investment portfolios in which the separate account invests are available. We will also send any other reports, notices or documents we are required by law to furnish to you.

Suspension of Payments

The Company reserves the right to suspend or postpone the date of any payment or determination of values, beyond the 7 permitted days, on any business day; (1) when the NYSE is closed; (2) when trading on the NYSE is restricted; (3) when an emergency exists as determined by the SEC so that the sale of securities held in the separate account may not reasonably occur or so that the Company may not reasonably determine the value of the separate account's net assets; or (4) during any other period when the SEC so permits for the protection of security holders. We have the right to delay payment of amounts from a Fixed Interest Allocation for up to 6 months.

In Case of Errors in Your Application

If an age or gender given in the application or enrollment form is misstated, the amounts payable or benefits provided by the contract shall be those that the premium payment would have bought at the correct age or sex.

Assigning the Contract as Collateral

You may assign a non-qualified contract as collateral security for a loan but you should understand that your rights and any beneficiary's rights may be subject to the terms of the assignment. An assignment likely has federal tax consequences. You should consult a tax adviser for tax advice. You must give us satisfactory written notice at our Customer Service Center in order to make or release an assignment. We are not responsible for the validity of any assignment.

Contract Changes—Applicable Tax Law

We have the right to make changes in the contract to continue to qualify the contract as an annuity under applicable federal tax law. You will be given advance notice of such changes.

Free Look

You may cancel your contract within your 10-day free look period. We deem the free look period to expire 15 days after we mail the contract to you. Some states may require a longer free look period. To cancel, you need to send your contract to our Customer Service Center or to the agent from whom you purchased it. We will refund the contract value. For purposes of the refund during the free look period, (i) we adjust your contract value for any Market Value Adjustment (if you have invested in the Fixed Account), and (ii) then we include a refund of any charges deducted from your contract value. Because of the market risks associated with investing in the funds and the potential positive or negative effect of the market value adjustment, the contract value returned may be greater or less than the premium payment you paid. In the case of IRA's cancelled within 7 days of receipt of the contract and in some states, we are required to return to you the amount of the paid premium (rather than the contract value) in which case you will not be subject to investment risk during the free look period. In these circumstances, your premiums designated for investment in the subaccounts may be allocated during the free look period to a subaccount specially designated by the Company for this purpose (currently, the ING Liquid Assets Portfolio subaccount). We may, in our discretion, require that premiums designated for investment in the subaccounts from all other states as well as premiums designated for a Fixed Interest Allocation be allocated to the specially designated subaccount during the free look period. Your free look rights depend on the laws of the state in which you purchase your contract. Your contract is void as of the day we receive your contract and cancellation request. We determine your contract value at the close of business on the day we receive your written request. If you keep your contract after the free look period and the investment is allocated to a subaccount specially designated by the Company, we will put your money in the subaccount(s) chosen by you, based on the accumulation unit value next computed for each subaccount, and/or in the Fixed Interest Allocation chosen by you.

Special Arrangements

We may reduce or waive any contract, rider, or benefit fees or charges for certain group or sponsored arrangements, under special programs, and for certain employees, agents, and related persons of our parent corporation and its affiliates. We reduce or waive these items based on expected economies, and the variations are based on differences in costs or services.

CONTRACT DISTRIBUTION

Selling the Contract

Our affiliate, Directed Services LLC, 1475 Dunwoody Drive, West Chester, PA 19380 is the principal underwriter and distributor of the contract as well as for other Company contracts. Directed Services LLC, a Delaware limited liability company, is registered with the SEC as a broker-dealer under the Securities Exchange Act of 1934, and is a member of the Financial Industry Regulatory Authority ("FINRA").

Directed Services LLC does not retain any commissions or compensation paid to it by the Company for contract sales. Directed Services LLC enters into selling agreements with affiliated and unaffiliated broker-dealers to sell the contracts through their registered representatives who are licensed to sell securities and variable insurance products ("selling firms"). Selling firms are also registered with the SEC and are FINRA member firms.

The following selling firms are affiliated with the Company and have entered into selling agreements with Directed Services LLC for the sale of our variable annuity contracts:

- ING Financial Advisers, LLC
- ING Financial Partners, Inc.

Directed Services LLC pays selling firms compensation for the promotion and sale of the contracts. Registered representatives of the selling firms who solicit sales of the contracts typically receive a portion of the compensation paid by Directed Services LLC to the selling firm in the form of commissions or other compensation, depending on the agreement between the selling firm and the registered representative. This compensation, as well as other incentives or payments, is not paid directly by contract owners or the Separate Account. We intend to recoup this compensation and other sales expenses paid to selling firms through fees and charges imposed under the contracts.

Directed Services LLC pays selling firms for contract sales according to one or more schedules. This compensation is generally based on a percentage of premium payments. Selling firms may receive commissions of up to 7.0% of premium payments. In addition, selling firms may receive ongoing annual compensation of up to 0.75% of all, or a portion, of values of contracts sold through the firm. Individual representatives may receive all or a portion of compensation paid to their selling firm, depending on the firm's practices. Commissions and annual compensation, when combined, could exceed 7.0% of total premium payments. These other promotional incentives or payments may not be offered to all distributors, and may be limited only to ING Financial Advisers, LLC and other distributors affiliated with the Company.

Directed Services LLC has special compensation arrangements with certain selling firms based on those firms' aggregate or anticipated sales of the contracts or other criteria. These arrangements may include commission specials, in which additional commissions may be paid in connection with premium payments received for a limited time period, within the maximum 7.0% commission rate noted above. These special compensation arrangements will not be offered to all selling firms, and the terms of such arrangements may differ among selling firms based on various factors. These special compensation arrangements may be limited only to ING Financial Advisers, LLC and other distributors affiliated with the Company. Any such compensation payable to a selling firm will not result in any additional direct charge to you by us.

In addition to the direct cash compensation for sales of contracts described above, Directed Services LLC may also pay selling firms additional compensation or reimbursement of expenses for their efforts in selling the contracts to you and other customers. These amounts may include:

- Marketing/distribution allowances which may be based on the percentages of premium received, the aggregate commissions paid and/or the aggregate assets held in relation to certain types of designated insurance products issued by the Company and/or its affiliates during the year;
- Loans or advances of commissions in anticipation of future receipt of premiums (a form of lending to agents/registered representatives). These loans may have advantageous terms such as reduction or elimination of the interest charged on the loan and/or forgiveness of the principal amount of the loan, which terms may be conditioned on sales;
- Education and training allowances to facilitate our attendance at certain educational and training meetings to provide information and training about our products. We also hold training programs from time to time at our expense;
- Sponsorship payments or reimbursements for broker-dealers to use in sales contests and/or meetings for their agents/registered representatives who sell our products. We do not hold contests based solely on the sales of this product;
- Certain overrides and other benefits that may include cash compensation based on the amount of earned commissions, agent/representative recruiting or other activities that promote the sale of policies; and
- Additional cash or noncash compensation and reimbursements permissible under existing law. This may include, but is not limited to, cash incentives, merchandise, trips, occasional entertainment, meals and tickets to sporting events, client appreciation events, business and educational enhancement items, payment for travel expenses (including meals and lodging) to pre-approved training and education seminars, and payment for advertising and sales campaigns.

We may pay commissions, dealer concessions, wholesaling fees, overrides, bonuses, other allowances and benefits and the costs of all other incentives or training programs from our resources, which include the fees and charges imposed under the Contract.

The following is a list of the top 25 selling firms that, during 2010, received the most compensation, in the aggregate, from us in connection with the sale of registered annuity contracts issued by us, ranked by total dollars received:

- | | |
|--|---|
| 1. Morgan Stanley Smith Barney LLC | 14. ING Financial Partners, Inc. CAREER |
| 2. LPL Financial Corporation | 15. Wells Fargo Investments LLC |
| 3. Merrill Lynch, Pierce, Fenner & Smith, Inc. | 16. Woodbury Financial Services Inc. |
| 4. ING Financial Partners Inc. | 17. Morgan Keegan and Company Inc. |
| 5. Wells Fargo Advisors, LLC | 18. Wells Fargo SEC, LLC |
| 6. UBS Financial Services Inc. | 19. First Allied Securities Inc. |
| 7. ING Financial Advisers, LLC | 20. Chase Investment SVCS Corp. |
| 8. Raymond James Financial Services Inc. | 21. Royal Alliance Associates Inc. |
| 9. Multi-Financial Securities Corporation | 22. SII Investments Inc. |
| 10. Wells Fargo Advisors, LLC (Bank Channel) | 23. Wells Fargo Advisors Financial Network, LLC |
| 11. National Planning Corporation | 24. Centaurus Financial Inc. |
| 12. Securities America Inc. | 25. PrimeVest Financial Services Inc. |
| 13. Financial Network Investment Corporation | |

Directed Services LLC may also compensate wholesalers/distributors, and their sales management personnel, for contract sales within the wholesale/distribution channel. This compensation may be based on a percentage of premium payments and/or a percentage of contract values. Directed Services LLC may, at its discretion, pay additional cash compensation to wholesalers/distributors for sales by certain broker-dealers or “focus firms.”

We do not pay any additional compensation on the sale or exercise of any of the contract’s optional benefit riders offered in this prospectus.

This is a general discussion of the types and levels of compensation paid by us for sales of our variable annuity contracts. It is important for you to know that the payment of volume- or sales-based compensation to a selling firm or registered representative may provide that registered representative a financial incentive to promote our contracts over those of another company, and may also provide a financial incentive to promote one of our contracts over another.

OTHER INFORMATION

Loans. We do not currently permit loans under Section 403(b) contracts that are subject to the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). Loans may be available if you purchased your contract in connection with a non-ERISA 403(b) plan. If your contract was issued in connection with a 403(b) plan and the terms of your plan permit, you may take a loan, using your surrender value as collateral for the loan. Loans are subject to the terms of the contract, your 403(b) plan, the Tax Code and other federal and state regulations. The amount and number of loans outstanding at any one time under your tax-deferred annuity are limited, whether under our contracts or those of other carriers. Tax-deferred annuity loans are not available for contracts issued in the Commonwealth of Massachusetts. We may modify the terms of a loan to comply with changes in applicable law. Various mandatory repayment requirements apply to loans, and failure to repay generally will result in income to you and the potential application of tax penalties. We urge you to consult with a qualified tax adviser prior to effecting a loan transaction under your contract. We may apply additional restrictions or limitations on loans, and you must make loan requests in accordance with our administrative practices and loan requests procedures in effect at the time you submit your request. Read the terms of the loan agreement before submitting any request. We reserve the right not to grant a loan request if the participant has an outstanding loan in default.

Any outstanding loan balance impacts the following:

- **Withdrawal and Charges:** We determine amounts available for maximum withdrawal amounts, free partial withdrawals, systematic withdrawals and waiver of administrative charges by reducing the otherwise applicable amounts by the amount of any outstanding loan balance.
- **Death Benefits, Annuitization and Surrenders:** We deduct the outstanding loan balance from any amounts otherwise payable and in determining the amount available for annuitization.

The portion of any contract value used to pay off an outstanding loan balance will reduce the ING LifePay Plus Base, ING Joint LifePay Plus Base or Maximum Annual Withdrawal as applicable. We do not recommend the ING LifePay Plus or ING Joint LifePay Plus rider if loans are contemplated.

Voting Rights

We will vote the shares of a fund owned by the separate account according to your instructions. However, if the 1940 Act or any related regulations should change, or if interpretations of it or related regulations should change, and we decide that we are permitted to vote the shares of a fund in our own right, we may decide to do so.

We determine the number of shares that you have in a subaccount by dividing the contract’s contract value in that subaccount by the net asset value of one share of the fund in which a subaccount invests. We count fractional votes. We will determine the number of shares you can instruct us to vote 180 days or less before a fund shareholder meeting. We will ask you for voting instructions by mail at least 10 days before the meeting. If we do not receive your instructions in time, we will vote the shares in the same proportion as the instructions received from all contracts in that subaccount. We will also vote shares we hold in the separate account which are not attributable to contract owners in the same proportion.

State Regulation

We are regulated by the Insurance Department of the State of Iowa. We are also subject to the insurance laws and regulations of all jurisdictions where we do business. The variable contract offered by this prospectus has been approved where required by those jurisdictions. We are required to submit annual statements of our operations, including financial statements, to the Insurance Departments of the various jurisdictions in which we do business to determine solvency and compliance with state insurance laws and regulations.

Legal Proceedings

We are not aware of any pending legal proceedings that involve the Separate Account as a party.

The company is involved in threatened or pending lawsuits/arbitrations arising from the normal conduct of business. Due to the climate in insurance and business litigation/arbitration, suits against the company sometimes include claims for substantial compensatory, consequential or punitive damages and other types of relief. Moreover, certain claims are asserted as class actions, purporting to represent a group of similarly situated individuals. While it is not possible to forecast the outcome of such lawsuits/arbitrations, in light of existing insurance, reinsurance and established reserves, it is the opinion of management that the disposition of such lawsuits/arbitrations will not have a materially adverse effect on the company's operations or financial position.

Directed Services LLC, the principal underwriter and distributor of the contract, is a party to threatened or pending lawsuits/arbitration that generally arise from the normal conduct of business. Some of these suits may seek class action status and sometimes include claims for substantial compensatory, consequential or punitive damages and other types of relief. Directed Services LLC is not involved in any legal proceeding that, in the opinion of management, is likely to have a material adverse effect on its ability to distribute the contract.

FEDERAL TAX CONSIDERATIONS

Introduction

The contract described in this prospectus is designed to be treated as an annuity for U.S. federal income tax purposes. This section discusses our understanding of current federal income tax laws affecting the contract. The U.S. federal income tax treatment of the contract is complex and sometimes uncertain. You should keep the following in mind when reading it:

- Your tax position (or the tax position of the designated beneficiary, as applicable) may influence the federal taxation of amounts held or paid out under the contract;
- Tax laws change. It is possible that a change in the future could affect contracts issued in the past, including the contract described in this prospectus;
- This section addresses some, but not all, applicable federal income tax rules and does not discuss federal estate and gift tax implications, state and local taxes, or any other tax provisions; and
- No assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of those set forth below.

We do not intend this information to be tax advice. For advice about the effect of federal income tax laws affecting the contract, state tax laws or any other tax laws affecting the contract or any transactions involving the contract, consult a qualified tax adviser. No attempt is made to provide more than general information about the use of the contract with tax-qualified retirement arrangements.

Types of Contracts: Nonqualified or Qualified

The contract described in this prospectus is available for purchase on a non-tax-qualified basis ("nonqualified contracts") or purchased on a tax-qualified basis ("qualified contracts").

Nonqualified contracts are purchased with after tax contributions and are not related to retirement plans or programs that receive special income tax treatment under the Tax Code.

Qualified contracts are designed for use by individuals and/or employers whose premium payments are comprised solely of proceeds from and/or contributions under retirement plans or programs that are intended to qualify as plans or programs entitled to special favorable income tax treatment under Tax Code Sections 403(b), 408, or 408A.

Effective January 1, 2009, except in the case of a rollover contribution as permitted under the Tax Code or as a result of an intra-plan exchange or plan-to-plan transfer described under the Final Regulations, contributions to a section 403(b) tax sheltered annuity contract may only be made by the employer sponsoring the plan under which the assets in your contract are covered subject to the applicable Treasury Regulations and only if the Company, in its sole discretion, agrees to be an approved provider.

Taxation of Nonqualified Contracts

Premiums.

You may not deduct the amount of your premiums to a nonqualified contract.

Taxation of Gains Prior to Distribution. Tax Code section 72 governs the general federal income taxation of annuity contracts. We believe that if the contract owner is a natural person (in other words, an individual), the contract owner will generally not be taxed on increases in the value of his or her nonqualified contract until a distribution occurs or until income phase payments begin. This assumes that the contract will qualify as an annuity contract for federal income tax purposes. An agreement to assign or pledge any portion of the contract's account value generally will be treated as a distribution. In order to be eligible to defer federal income taxation on increases in the account value, each of the following requirements must be satisfied:

Investor Control. Although earnings under nonqualified contracts generally are not taxed until withdrawn, the IRS has stated in published rulings that a variable contract owner will be considered the owner of separate account assets if the contract owner possesses incidents of investment control over such assets. In these circumstances, income and gains from the separate account assets would be currently includible in the variable contract owner's gross income. Future guidance regarding the extent to which contract owners could direct their investments among subaccounts without being treated as owners of the underlying assets of the separate account may adversely affect the tax treatment of existing contracts, such as the contract described in this prospectus. The Company therefore reserves the right to modify the contract as necessary to attempt to prevent the contract holder from being considered the owner of a pro-rata share of the assets of the separate account for federal income tax purposes.

Required Distributions. In order to be treated as an annuity contract for federal income tax purposes, the Tax Code requires any nonqualified contract to contain certain provisions specifying how your interest in the contract will be distributed in the event of your death. The nonqualified contracts contain provisions that are intended to comply with these Tax Code requirements.

There are currently no regulations interpreting these Tax Code requirements. When such requirements are clarified by regulation or otherwise, the Company intends to review such distribution provisions and modify them if necessary to assure that they comply with the applicable requirements.

Non-Natural Holders of a Nonqualified Contract. If the contract owner of a nonqualified contract is not a natural person, the contract generally is not treated as an annuity for federal income tax purposes and any such income on such contract during the applicable taxable year is taxable as ordinary income. Income on the contract during the applicable taxable year is equal to any increase in the account value over the "investment in the contract" (generally, the premiums or other consideration you paid for such contract less any nontaxable withdrawals) during such taxable year. There are certain exceptions to this rule, and a non-natural person considering an investment in the contract should consult with a qualified tax adviser prior to purchasing the contract. If the contract owner is not a natural person and the primary annuitant dies, the same rules apply on the death of the primary annuitant as outlined above for the death of a contract owner. When the contract owner is a non-natural person, a change in the annuitant is treated as the death of the contract owner.

Delayed Income Phase Starting Date. If the contract's income phase start date occurs (or is scheduled to occur) at a time when the annuitant has reached, or will have reached, an advanced age (for example, age 85), it is possible that such contract could be treated as an annuity for federal income tax purposes. In that event, the income and gains under such contract could be currently includible in your taxable income.

Diversification. Tax Code section 817(h) requires that the investments of the funds available through a separate account that supports a variable annuity contract be "adequately diversified" in order for the nonqualified contract to qualify as an annuity contract under federal tax law. The separate account, through its funds, intends to comply with the diversification requirements prescribed by Tax Code section 817(h) and by the Treasury in Reg. Sec. 1.817-5, and any ruling made thereunder, which affect how the funds' assets may be invested. If it is determined, however, that your contract does not satisfy the applicable diversification regulations and rulings because a subaccount's corresponding fund fails to be adequately diversified for whatever reason, we will take appropriate and reasonable steps to bring your contract into compliance with such regulations and rulings. We reserve the right to modify your contract as necessary in order to do so.

Taxation of Distributions

General. When a withdrawal from a nonqualified annuity contract occurs, the amount received will be treated as ordinary income subject to federal income tax up to an amount equal to the excess (if any) of the contract value (unreduced by the amount of any early withdrawal charge) immediately before the distribution over the contract owner's investment in the contract at such time. Investment in the contract is generally equal to the amount of all premiums to the contract, plus amounts previously included in your taxable income as the result of certain pledges, assignments or gifts, less the aggregate amount of non-taxable distributions previously made under such contract.

In the case of a full withdrawal from a nonqualified contract, the amount received generally will be taxable only to the extent it exceeds the contract owner's investment in such contract (for example, the cost basis).

10% Penalty. A 10% federal tax penalty applies to the taxable portion of a distribution from a nonqualified deferred annuity contract unless certain exceptions apply, including one or more of the following:

- (a) You have attained age 59½;
- (b) You (or the annuitant if the contract owner is a non-natural person) have died;
- (c) You have become disabled as defined in the Tax Code;
- (d) The distribution is made in substantially equal periodic payments (at least annually) over your life or life expectancy or the joint lives or joint life expectancies of you and your designated beneficiary; or
- (e) The distribution is allocable to investment in the contract before August 14, 1982.

The 10% penalty does not apply to distributions from an immediate annuity as defined in the Tax Code. Other exceptions may be applicable under certain circumstances and special rules may be applicable in connection with the exceptions enumerated above. A qualified tax adviser should be consulted with regard to exceptions from the penalty tax.

Tax-Free Exchanges. Section 1035 of the Tax Code permits the exchange of a life insurance, endowment or annuity contract for an annuity contract on a tax-free basis. In such an instance the "investment in the contract" in the old contract will carry over to the new contract. You should consult with a qualified tax adviser regarding procedures for making 1035 exchanges.

If your contract is purchased through a tax-free exchange of a life insurance, endowment or annuity contract that was purchased prior to August 14, 1982, any distributions from the contract, other than income phase payments, will be treated, for tax purposes, as coming:

- First, from any remaining "investment in the contract" made prior to August 14, 1982 and exchanged into the contract;
- Next, from any "income on the contract" attributable to the investment made prior to August 14, 1982;
- Then, from any remaining "income on the contract;" and
- Lastly, from any remaining "investment in the contract."

The IRS has concluded that in certain instances the partial exchange of a portion of one annuity contract for another contract will be tax-free. Pursuant to IRS guidance, receipt of withdrawals, surrenders or annuity payments (annuitizations) from either the original contract or the new contract during the 12 month period following the partial exchange may retroactively negate the tax-free treatment of the partial exchange. If the partial exchange is retroactively negated, the partial surrender of the original contract will be treated as a withdrawal, taxable as ordinary income to the extent of gain in the original contract and, if the partial exchange occurred prior to you reaching age 59½, may be subject to an additional 10% penalty tax. A taxable exchange may be avoided if requirements identified as a qualifying event (such as death, disability or attainment of age 59½) are satisfied. We are not responsible for the manner in which any other insurance companies administer, recognize or report, for federal income tax-reporting purposes, Section 1035 exchanges and partial exchanges and what the ultimate tax treatment may be by the IRS. We strongly advise you to discuss with a qualified tax adviser any proposed 1035 exchange or subsequent distribution within 12 months prior to proceeding with the transaction.

Taxation of Income Phase Payments. Although the federal tax consequences may vary depending upon the payment option elected under an annuity contract, a portion of each income phase payment is generally not taxed as ordinary income, while the remainder is taxed as ordinary income. The non-taxable portion of an income phase payment is generally determined in a manner that is designed to allow you to recover your investment in the annuity contract ratably on a tax-free basis over the expected stream of income phase payments when income phase payments begin. Once your investment in the contract has been fully recovered, however, the full amount of each subsequent income phase payment is subject to tax as ordinary income. On September 27, 2010, President Obama signed into law the Small Business Jobs Act of 2010, which included language that permits the partial annuitization of non-qualified annuities, effective for amounts received in taxable years beginning after December 31, 2010. The provision applies an exclusion ratio to any amount received as an annuity under a portion of an annuity provided that the annuity payments are made for a period of 10 years or more or for life. Pending the issuance of clarifying guidance, the application of this law change is unclear. Please consult your tax adviser before electing a partial annuitization.

Death Benefits. Amounts may be distributed from an annuity contract, such as the contract described in this prospectus, because of your death or the death of the annuitant. Generally, such amounts are includible in the income of the recipient as follows: (i) if distributed in a lump-sum, such amounts are taxed in the same manner as a full withdrawal of the contract; or (ii) if distributed under a payment option, such amounts are taxed in the same way as income phase payments. As discussed above, the Tax Code contains special rules that specify how the contract owner's interest in a nonqualified contract will be distributed and taxed in the event of the contract owner's death.

The contract offers a death benefit that may exceed the greater of the premium payments and the contract value. Certain charges are imposed with respect to the death benefit. It is possible that these charges (or some portion thereof) could be treated for federal income tax purposes as a distribution from the contract.

Different distribution requirements apply if your death occurs:

- After you begin receiving income phase payments under the contract; or
- Before you begin receiving such income phase payments.

If your death occurs after you begin receiving income phase payments, distributions must be made at least as rapidly as under the method in effect at the time of your death.

If your death occurs before you begin receiving income phase payments, your entire balance must be distributed within five years after the date of your death. For example, if you died on September 1, 2010, your entire balance must be distributed by August 31, 2015. However, if distributions begin within one year of your death, then payments may be made over one of the following two timeframes:

- Over the life of the designated beneficiary; or
- Over a period not extending beyond the life expectancy of the designated beneficiary.

If the designated beneficiary is your spouse, the contract may be continued with the surviving spouse as the new contract owner. If the contract owner is a non-natural person and the primary annuitant dies, the same rules apply on the death of the primary annuitant as outlined above for death of a contract owner.

The contract offers a death benefit that may exceed the greater of the premium payments and the contract value. Certain charges are imposed with respect to the death benefit. It is possible that these charges (or some portion thereof) could be treated for federal tax purposes as a distribution from the contract.

Assignment and Other Transfers. A transfer, pledge or assignment of ownership of a nonqualified contract, the selection of certain annuity dates or the designation of an annuitant or payee other than a contract owner may result in certain tax consequences to you that are not discussed herein. The assignment, pledge or agreement to assign or pledge any portion of the contract value generally will be treated as a distribution. Anyone contemplating any such designation, transfer, assignment, selection or exchange should contact a qualified tax adviser regarding the potential tax effects of such a transaction.

Immediate Annuities. Under Section 72 of the Tax Code, an immediate annuity means an annuity (i) that is purchased with a single premium; (ii) with income phase payments starting within one year of the date of purchase; and (iii) that provides a series of substantially equal periodic payments made at least annually. This contract is not designed as an immediate annuity. If the contract were treated as an immediate annuity, it could affect the federal income treatment of the contract with respect to: (i) the application of certain exceptions from the 10% early withdrawal penalty tax; ownership, if the contract owner is not a natural person; and (iii) certain exchanges.

Multiple Contracts. Federal income tax laws require that all deferred nonqualified annuity contracts that are issued by a company or its affiliates to the same contract owner during any calendar year be treated as one annuity contract for purposes of determining the amount includible in gross income under Tax Code section 72(e). In addition, the Treasury Department has specific authority to issue regulations that prevent the avoidance of Tax Code section 72(e) through the serial purchase of annuity contracts or otherwise.

Withholding. We will withhold and remit to the IRS a part of the taxable portion of each distribution made under a contract unless the intended recipient of the distribution notifies us at or before the time of such distribution that the recipient elects not to have any amounts withheld. Withholding is mandatory, however, if the intended recipient of such distribution fails to provide a valid taxpayer identification number or if we are notified by the IRS that the taxpayer identification number we have on file is incorrect. The withholding rates applicable to the taxable portion of periodic income phase payments are the same as the withholding rates generally applicable to payments of wages. In addition, a 10% withholding rate applies to the taxable portion of non-periodic payments. Regardless of whether you elect not to have federal income tax withheld, you are still liable for payment of federal income tax on the taxable portion of the payment.

Certain states have indicated that state income tax withholding will also apply to payments from the contracts made to their residents. Generally, an election out of federal withholding will also be considered an election out of state withholding. In some states, the contract owner may elect out of state withholding even if federal withholding applies. For more information concerning a particular state or any required forms, please contact your sales representative or call our Customer Service Center at the number listed on the front of this prospectus.

If you or your designated beneficiary is a non-resident alien, then any withholding is governed by Tax Code section 1441 based on the individual's or the designated beneficiary's citizenship, country of domicile and treaty status, and we may require additional documentation prior to processing any requested distribution.

Same-Sex Marriages. Pursuant to Section 3 of the federal Defense of Marriage Act ("DOMA"), same-sex marriages currently are not recognized for purposes of federal law. Therefore, the favorable income-deferral options afforded by federal tax law to an opposite-sex spouse under Tax Code sections 72(s) and 401(a)(9) are currently NOT available to a same-sex spouse. Same-sex spouses who own or are considering the purchase of annuity products that provide benefits based upon status as a spouse should consult a tax adviser. In some states, to the extent that an annuity contract accords to spouses other rights or benefits that are not affected by DOMA, same-sex spouses remain entitled to such rights or benefits to the same extent as any contract holder's spouse.

Taxation of Qualified Contracts

General. The tax rules applicable to owners of qualified contracts vary according to the type of qualified contract and the specific terms and conditions of the qualified contract. Qualified contracts are designed for use with Tax Code section 403(b) and 457(b) plans and as IRAs under Tax Code sections 408 and 408A ("qualified contracts"). They may also be issued as nonqualified contracts for use with Tax Code section 401(a) or 401(k) plans. (We refer to all of these as "qualified plans"). The tax rules applicable to participants in these qualified plans vary according to the type of plan and the terms and conditions of the plan itself. The ultimate effect of federal income taxes on the amounts held under a qualified contract, or on income phase payments from a qualified contract, depends on the type of qualified contract or program and your tax position. Special favorable tax treatment may be available for certain types of contributions and distributions. In addition, certain requirements must be satisfied in purchasing a qualified contract with proceeds from a tax-qualified plan or program in order to continue receiving favorable tax treatment.

Adverse tax consequences may result from: (i) contributions in excess of specified limits; (ii) distributions before age 59½ (subject to certain exceptions); (iii) distributions that do not conform to specified commencement and minimum distribution rules; and (iv) other specified circumstances. Some qualified plans are subject to additional distribution or other requirements that are not incorporated into the contract described in this prospectus. No attempt is made to provide more than general information about the use of the contract with qualified plans. Contract owners, participants, annuitants and beneficiaries are cautioned that the rights of any person to any benefits under these qualified plans may be subject to the terms and conditions of the plan themselves, regardless of the terms and conditions of the contract. The Company is not bound by the terms and conditions of such plans to the extent such terms contradict the language of the contract, unless we consent to be so bound.

Generally, contract owners, participants and beneficiaries are responsible for determining that contributions, distributions and other transactions with respect to the contract comply with applicable law. Therefore, you should seek qualified legal and tax advice regarding the suitability of a contract for your particular situation. The following discussion assumes that qualified contracts are purchased with proceeds from and/or contributions under retirement plans or programs that qualify for the intended special federal tax treatment.

Tax Deferral. Under federal tax laws, earnings on amounts held in annuity contracts are generally not taxed until they are withdrawn. However, in the case of a qualified plan (as defined in this prospectus), an annuity contract is not necessary to obtain this favorable tax treatment and does not provide any tax benefits beyond the deferral already available to the qualified plan itself. Annuities do provide other features and benefits (such as guaranteed living benefits and/or death benefits or the option of lifetime income phase options at established rates) that may be valuable to you. You should discuss your alternatives with a qualified financial representative taking into account the additional fees and expenses you may incur in an annuity.

Section 403(b) Tax-Deferred Annuities. Prior to September 17, 2007, the contracts were available as Tax Code section 403(b) tax-deferred annuities. Existing contracts issued as Tax Code Section 403(b) tax-deferred annuities will continue to be maintained as such under the applicable rules and regulations. Section 403(b) of the Tax Code allows employees of certain Tax Code section 501(c)(3) organizations and public schools to exclude from their gross income the premium payments made, within certain limits, to a contract that will provide an annuity for the employee's retirement.

In July 2007, the Treasury Department issued final regulations that were generally effective January 1, 2009. The final regulations include: (i) a written plan requirement; (ii) the ability to terminate a 403(b) plan, which would entitle a participant to a distribution; (iii) the replacement of IRS Revenue Ruling 90-24 with new exchange rules effective September 25, 2007, and requiring information sharing between the 403(b) plan sponsor and/or its delegate and the product provider as well as new plan-to-plan transfer rules (under these new exchange and transfer rules, the 403(b) plan sponsor can elect not to permit exchanges or transfers); and (iv) new distribution rules for 403(b)(1) annuities that impose withdrawal restrictions on non-salary reduction contribution amounts in addition to salary reduction contribution amounts, as well as other changes.

Individual Retirement Annuities. Section 408 of the Tax Code permits eligible individuals to contribute to an individual retirement program known as an Individual Retirement Annuity ("IRA"). IRAs are subject to limits on the amounts that can be contributed, the deductible amount of the contribution, the persons who may be eligible and the time when distributions can begin. Contributions to IRAs must be made in cash or as a rollover or a transfer from another eligible plan. Also, distributions from IRAs, individual retirement accounts and other types of retirement plans may be "rolled over" on a tax-deferred basis into an IRA. Employers may establish Simplified Employee Pension ("SEP") or Savings Incentive Match Plan for Employees ("SIMPLE") plans to provide IRA contributions on behalf of their employees. If you make a tax-free rollover of a distribution from an IRA, you may not make another tax-free rollover from the IRA within a one-year period. Sales of the contract for use with IRAs may be subject to special requirements imposed by the IRS.

The IRS has not reviewed the contracts described in this prospectus for qualification as IRAs and has not addressed, in a ruling of general applicability, whether the contract's death benefit provisions comply with IRS qualification requirements. You should consult with a qualified tax adviser in connection with purchasing the contract as an IRA.

Roth IRAs. Section 408A of the Tax Code permits certain eligible individuals to contribute to a Roth IRA. Contributions to a Roth IRA are not deductible, are subject to certain limitations and must be made in cash or as a rollover or transfer from an eligible retirement plan, another Roth IRA or other IRA. Certain qualifying individuals may convert an IRA, SEP, or SIMPLE to a Roth IRA. Such rollovers and conversions are subject to tax, and other special rules may apply. If you make a tax-free rollover of a distribution from a Roth IRA to another Roth IRA, you may not make another tax-free rollover from the Roth IRA from which the rollover was made within a one-year period. A 10% penalty may apply to amounts attributable to a conversion to a Roth IRA if the amounts are distributed during the five taxable years beginning with the year in which the conversion was made. You should consult with a qualified tax adviser in connection with purchasing the contract as a Roth IRA.

Sales of a contract for use with a Roth IRA may be subject to special requirements of the IRS. The IRS has not reviewed the contracts described in this prospectus for qualification as IRAs and has not addressed, in a ruling of general applicability, whether the contract's death benefit provisions comply with IRS qualification requirements.

Contributions. In order to be excludable from gross income for federal income tax purposes, total annual contributions to certain qualified plans are limited by the Tax Code. We provide general information on these requirements for certain plans below. You should consult with a qualified tax adviser in connection with contributions to a qualified contract.

Distributions—General.

Certain tax rules apply to distributions from the contract. A distribution is any amount taken from a contract including withdrawals, income phase payments, rollovers, exchanges and death benefit proceeds. We report the taxable portion of all distributions to the IRS.

403(b) Plans. All distributions from these plans are taxed as received unless one of the following is true:

- The distribution is an eligible rollover distribution and is rolled over to another plan eligible to receive rollovers or to a traditional or Roth IRA in accordance with the Tax Code;
- You made after-tax contributions to the plan. In this case, depending upon the type of distribution, the amount will be taxed according to the rules detailed in the Tax Code; or
- The distribution is a qualified health insurance premium of a retired public safety officer as defined in the Pension Protection Act of 2006.

A payment is an eligible rollover distribution unless it is:

- Part of a series of substantially equal periodic payments (at least one per year) made over the life expectancy of the participant or the joint life expectancy of the participant and his designated beneficiary or for a specified period of 10 years or more;
- A required minimum distribution under Tax Code section 401(a)(9);
- A hardship withdrawal;
- Otherwise excludable from income; or
- Not recognized under applicable regulations as eligible for rollover.

The Tax Code imposes a 10% penalty tax on the taxable portion of any distribution from a contract used with a 403(b) plan, unless certain exceptions, including one or more of the following, have occurred.

- a) You have attained age 59½;
- b) You have become disabled, as defined in the Tax Code;
- c) You have died and the distribution is to your beneficiary;
- d) You have separated from service with the sponsor at or after age 55;
- e) The distribution amount is rolled over into another eligible retirement plan or to a traditional IRA or Roth IRA in accordance with the terms of the Tax Code;
- f) You have separated from service with the plan sponsor and the distribution amount is made in substantially equal periodic payments (at least annually) over your life or the life expectancy or the joint lives or joint life expectancies of you and your designated beneficiary;
- g) The distribution is made due to an IRS levy upon your plan;
- h) The withdrawal amount is paid to an alternate payee under a Qualified Domestic Relations Order (QDRO); or
- i) The distribution is a qualified reservist distribution as defined under the Pension Protection Act of 2006 (403(b) plans only).

In addition, the 10% penalty tax does not apply to the amount of a distribution equal to unreimbursed medical expenses incurred by you during the taxable year that qualify for deduction as specified in the Tax Code. The Tax Code may provide other exceptions or impose other penalty taxes in other circumstances.

Effective January 1, 2009, and for any contracts or participant accounts established on or after that date, 403(b) regulations prohibit the distribution of amounts attributable to employer contributions before the earlier of your severance from employment or prior to the occurrence of some event, such as after a fixed number of years, the attainment of a stated age, or disability.

Distribution of amounts restricted under Tax Code section 403(b)(11) may only occur upon your death, attainment of age 59½, severance from employment, disability or financial hardship, or under other exceptions as provided for by the Tax Code or regulations. Such distributions remain subject to other applicable restrictions under the Tax Code.

If the Company agrees to accept amounts exchanged from a Tax Code section 403(b)(7) custodial account, such amounts will be subject to the withdrawal restrictions set forth in Tax Code section 403(b)(7)(A)(ii).

Individual Retirement Annuities. All distributions from an IRA are taxed as received unless either one of the following is true:

- The distribution is rolled over to another IRA, Roth IRA, or to a plan eligible to receive rollovers as permitted under the Tax Code; or
- You made after-tax contributions to the IRA. In this case, the distribution will be taxed according to rules detailed in the Tax Code.

The Tax Code imposes a 10% penalty tax on the taxable portion of any distribution from an IRA unless an exception applies. In general, except for the exception for separation from service, the exceptions for 403(b) plans listed above also apply to distributions from an IRA including the qualified reservist distribution. The 10% penalty tax does not apply to a distribution made from an IRA to pay for health insurance premiums for certain unemployed individuals, a qualified first-time home purchase or for higher education expenses.

Roth IRAs. A qualified distribution from a Roth IRA is not taxed when it is received. A qualified distribution is a distribution:

- Made after the five-taxable year period beginning with the first taxable year for which a contribution was made to a Roth IRA of the owner; and
- Made after you attain age 59½, die, become disabled as defined in the Tax Code, or for a qualified first-time home purchase.

If a distribution is not qualified, generally it will be taxable to the extent of the accumulated earnings. A partial distribution will first be treated as a return of contributions which is not taxable and then as taxable accumulated earnings.

The Tax Code imposes a 10% penalty tax on the taxable portion of any distribution from a Roth IRA that is not a qualified distribution unless certain exceptions have occurred. In general, the exceptions for an IRA described above also apply to a distribution from a Roth IRA that is not a qualified distribution or a rollover to a Roth IRA that is not a qualified rollover contribution. The 10% penalty tax is also waived on a distribution made from a Roth IRA to pay for health insurance premiums for certain unemployed individuals, used for a qualified first-time home purchase, or for higher education expenses.

Lifetime Required Minimum Distributions (IRA and 403(b) only). To avoid certain tax penalties, you and any designated beneficiary must also meet the minimum distribution requirements imposed by the Tax Code. The requirements do not apply to Roth IRA contracts while the owner is living. These rules may dictate the following:

- Start date for distributions;
- The time period in which all amounts in your contract(s) must be distributed; and
- Distribution amounts.

Start Date and Time Period. Generally, you must begin receiving distributions from a traditional IRA by April 1 of the calendar year following the calendar year in which you attain age 70½. We must pay out distributions from the contract over a period not extending beyond one of the following time periods:

- Over your life or the joint lives of you and your designated beneficiary; or
- Over a period not greater than your life expectancy or the joint life expectancies of you and your designated beneficiary.

Distribution Amounts. The amount of each required distribution must be calculated in accordance with Tax Code section 401(a)(9). The entire interest in the account includes the amount of any outstanding rollover, transfer, recharacterization, if applicable, and the actuarial present value of other benefits provided under the account, such as guaranteed death benefits.

50% Excise Tax. If you fail to receive the minimum required distribution for any tax year, a 50% excise tax may be imposed on the required amount that was not distributed.

Lifetime Required Minimum Distributions are not applicable to Roth IRAs during your lifetime. Further information regarding required minimum distributions may be found in your contract.

Required Distributions Upon Death (Section 403(b), IRAs and Roth IRAs Only). Different distribution requirements apply after your death, depending upon if you have been receiving required minimum distributions. Further information regarding required distributions upon death may be found in your contract.

If your death occurs on or after the date you begin receiving minimum distributions under the contract, distributions generally must be made at least as rapidly as under the method in effect at the time of your death. Tax Code section 401(a)(9) provides specific rules for calculating the required minimum distributions after your death.

If your death occurs before the date you begin receiving minimum distributions under the contract, your entire balance must be distributed by December 31 of the calendar year containing the fifth anniversary of the date of your death. For example, if you died on September 1, 2011, your entire balance must be distributed to the designated beneficiary by December 31, 2016. However, if distributions begin by December 31 of the calendar year following the calendar year of your death, and you have named a designated beneficiary, then payments may be made within one of the following timeframes:

- Over the life of the designated beneficiary; or
- Over a period not extending beyond the life expectancy of the designated beneficiary.

Start Dates for Spousal Beneficiaries. If the designated beneficiary is your spouse, distributions must begin on or before the later of the following:

- December 31 of the calendar year following the calendar year of your death; or
- December 31 of the calendar year in which you would have attained age 70½.

No Designated Beneficiary. If there is no designated beneficiary, the entire interest generally must be distributed by the end of the calendar containing the fifth anniversary of the contract owner's death.

Special Rule for IRA Spousal Beneficiaries (IRAs and Roth IRAs Only). In lieu of taking a distribution under these rules, if the sole designated beneficiary is the contract owner's surviving spouse, the spousal beneficiary may elect to treat the contract as his or her own IRA and defer taking a distribution until his or her own start date. The surviving spouse is deemed to have made such an election if the surviving spouse makes a rollover to or from the contract or fails to take a distribution within the required time period.

Withholding.

Any taxable distributions under the contract are generally subject to withholding. Federal income tax liability rates vary according to the type of distribution and the recipient's tax status.

403(b) Plans. Generally, distributions from these plans are subject to a mandatory 20% federal income tax withholding. However, mandatory withholding will not be required if you elect a direct rollover of the distributions to an eligible retirement plan or in the case of certain distributions described in the Tax Code.

IRAs and Roth IRAs. Generally, you or, if applicable, a designated beneficiary may elect not to have tax withheld from distributions.

Non-resident Aliens. If you or your designated beneficiary is a non-resident alien, any withholding is governed by Tax Code section 1441 based on the individual's citizenship, the country of domicile and treaty status, and we may require additional documentation prior to processing any requested distribution.

Assignment and Other Transfers

Section 403(b) Plans. Adverse tax consequences to the plan and/or to you may result if your beneficial interest in the contract is assigned or transferred to persons other than:

- A plan participant as a means to provide benefit payments;
- An alternate payee under a QDRO in accordance with Tax Code section 414(p); or
- The Company as collateral for a loan.

IRAS and Roth IRAs. The Tax Code does not allow a transfer or assignment of your rights under these contracts except in limited circumstances. Adverse tax consequences may result if you assign or transfer your interest in such contract to persons other than your spouse incident to a divorce. Anyone contemplating such an assignment or transfer should contact a qualified tax adviser regarding the potential tax effects of such a transaction.

Same-Sex Marriages. Pursuant to Section 3 of the federal Defense of Marriage Act ("DOMA"), same-sex marriages currently are not recognized for purposes of federal law. Therefore, the favorable income-deferral options afforded by federal tax law to an opposite-sex spouse under Tax Code sections 72(s) and 401(a)(9) are currently NOT available to a same-sex spouse. Same-sex spouses who own or are considering the purchase of annuity products that provide benefits based upon status as a spouse should consult a tax adviser. In some states, to the extent that an annuity contract accords to spouses other rights or benefits that are not affected by DOMA, same-sex spouses remain entitled to such rights or benefits to the same extent as any contract holder's spouse.

Tax Consequences of Living Benefits and Death Benefits

Living Benefits. Except as otherwise noted below, when a withdrawal from a nonqualified contract occurs under a minimum guaranteed withdrawal benefit rider (including the ING LifePay/ING Joint LifePay riders or the ING LifePay Plus/ING Joint LifePay Plus riders), the amount received will be treated as ordinary income subject to tax up to an amount equal to the excess (if any) of the contract value (unreduced by the amount of any deferred sales charge) immediately before the distribution over the contract owner's investment in the contract at that time.

Investment in the contract is generally equal to the amount of all contributions to the contract, plus amounts previously included in your gross income as the result of certain loans, assignments, or gifts, less the aggregate amount of non-taxable distributions previously made. For nonqualified contracts, the income on the contract for purposes of calculating the taxable amount of a distribution may be unclear. For example, the living benefits provided under a MGWB rider (including the ING LifePay/ING Joint Life Pay riders or the ING LifePay Plus/ING Joint LifePay Plus riders), or the MGIB rider, as well as the market value adjustment, could increase the contract value that applies. Thus, the income on the contract could be higher than the amount of income that would be determined without regard to such a benefit. As a result, you could have higher amounts of income than will be reported to you. In addition, payments under any guaranteed payment phase of such riders after the contract value has been reduced to zero may be subject to the exclusion ratio rules under Tax Code section 72(b) for tax purposes.

Payments of the Maximum Annual Withdrawal pursuant to the Income Optimizer under the ING LifePay Plus or ING Joint LifePay Plus rider are designed to be treated as income phase payments for withholding and tax reporting purposes. A portion of each income phase payment is generally not taxed and the remainder is taxed as ordinary income. The non-taxable portion of an income phase payment is generally determined in a manner that is designated to allow you to recover your investment in the contract ratably on a tax-free basis over the expected stream of income phase payments, as determined when your payments of the Maximum Annual Withdrawal pursuant to the Income Optimizer start. Any withdrawals in addition to the Maximum Annual Withdrawal payments you are receiving pursuant to the Income Optimizer constitute Excess Withdrawals under the ING LifePay Plus or ING Joint LifePay Plus rider, causing a pro-rata reduction of the ING LifePay Plus Base and Maximum Annual Withdrawal. This reduction will result in a proportional reduction of the non-taxable portion of your future Maximum Annual Withdrawal payments. Once your investment in the contract has been fully recovered, the full amount of each of your future Maximum Annual Withdrawal payments would be subject to tax as ordinary income.

Enhanced Death Benefits. The contract offers a death benefit that may exceed the greater of premium payments and the contract value. It is possible that the IRS could characterize such a death benefit as other than an incidental death benefit. There are limitations on the amount of incidental benefits that may be provided under pension and profit sharing plans. In addition, the provision of such benefits may result in currently taxable income to contract holders, and could affect the amount of required minimum distributions. Additionally, because certain charges may be imposed with respect to some of the available death benefits it is possible these charges (or some portion thereof) could be treated for federal tax purposes as a distribution from the contract.

Possible Changes in Taxation

Although the likelihood of changes in tax legislation, regulation, rulings and other interpretation thereof is uncertain, there is always the possibility that the tax treatment of the contracts could change by legislation or other means. It is also possible that any change could be retroactive (that is, effective before the date of the change). You should consult a qualified tax adviser with respect to legislative developments and their effect on the contract.

Taxation of the Company

We are taxed as a life insurance company under the Tax Code. The separate account is not a separate entity from us. Therefore, it is not taxed separately as a “regulated investment company,” but is taxed as part of the Company.

We automatically apply investment income and capital gains attributable to the separate account to increase reserves under the contracts. Because of this, under existing federal tax law we believe that any such income and gains will not be taxed to the extent that such income and gains are applied to increase reserves under the contracts. In addition, any foreign tax credits attributable to the separate account will be first used to reduce any income taxes imposed on the separate account before being used by the Company.

In summary, we do not expect that we will incur any federal income tax liability attributable to the separate account, and we do not intend to make any provision for such taxes. However, changes in federal tax laws and/or their interpretation thereof may result in our being taxed on income or gains attributable to the separate account. In this case, we may impose a charge against the separate account (with respect to some or all of the contracts) to set aside provisions to pay such taxes. We may deduct this amount from the separate account, including from your contract value invested in the subaccounts.

APPENDIX A

CONDENSED FINANCIAL INFORMATION

Except for subaccounts which did not commence operations as of December 31, 2010, the following tables give (1) the accumulation unit value ("AUV") at the beginning of the period, (2) the AUV at the end of the period and (3) the total number of accumulation units outstanding at the end of the period for each subaccount of ING USA Separate Account B available under the Contract for the indicated periods. For those subaccounts that commenced operations during the period ended December 31, 2010, the "Value at beginning of period" shown is the value at first date of investment. Fund name changes after December 31, 2010 are not reflected in the following information.

APPENDIX B

The Funds

During the accumulation phase, you may allocate your premium payments and contract value to any of the funds available under this contract. They are listed in this appendix. You bear the entire investment risk for amounts you allocate to any fund, and you may lose your principal.

List of Fund Name Changes

Former Fund Name	New Fund Name
ING Van Kampen Comstock Portfolio	ING Invesco Van Kampen Comstock Portfolio
ING Van Kampen Equity and Income Portfolio	ING Invesco Van Kampen Equity and Income Portfolio
Oppenheimer Main Street Small Cap Fund® /VA	Oppenheimer Main Street Small- & Mid-Cap Fund® /VA

The investment results of the mutual funds (funds) are likely to differ significantly and there is no assurance that any of the funds will achieve their respective investment objectives. You should consider the investment objectives, risks and charges, and expenses of the funds carefully before investing. Please refer to the fund prospectuses for additional information. Shares of the funds will rise and fall in value and you could lose money by investing in the funds. Shares of the funds are not bank deposits and are not guaranteed, endorsed or insured by any financial institution, the Federal Deposit Insurance Corporation or any other government agency. Except as noted, all funds are diversified, as defined under the Investment Company Act of 1940. Fund prospectuses may be obtained free of charge by contacting our Customer Service Center at the address and telephone number listed on the first page of this contract prospectus, by accessing the SEC's website or by contacting the SEC Public Reference Branch. If you received a summary prospectus for any of the funds available through your contract, you may obtain a full prospectus and other information free of charge by either accessing the internet address, calling the telephone number or sending an email request to the email address shown on the front of the fund's summary prospectus.

Certain funds offered under the contracts have investment objectives and policies similar to other funds managed by the fund's investment adviser. The investment results of a fund may be higher or lower than those of other funds managed by the same adviser. There is no assurance and no representation is made that the investment results of any fund will be comparable to those of another fund managed by the same investment adviser.

For the share class of each fund offered through your contract, please see the cover page.

Fund Name Investment Adviser/Subadviser	Investment Objective(s)
Fidelity® VIP <i>Contrafund</i>® Portfolio Investment Adviser: Fidelity Management & Research Company ("FMR") Subadvisers: FMR Co., Inc and other affiliates of FMR	Seeks long-term capital appreciation.

Pioneer Equity Income VCT Portfolio Investment Adviser: Pioneer Investment Management, Inc.	Seeks current income and long-term growth of capital from a portfolio consisting primarily of income producing equity securities of U.S. corporations.

Fixed Account II

Fixed Account II ("Fixed Account") is an optional fixed interest allocation offered during the accumulation phase of your variable annuity contract between you and ING USA Annuity and Life Insurance Company ("ING USA," the "Company," "we" or "our"). The Fixed Account, which is a segregated asset account of ING USA, provides a means for you to invest on a tax-deferred basis and earn a guaranteed interest for guaranteed interest periods (Fixed Interest Allocation(s)). We will credit your Fixed Interest Allocation(s) with a fixed rate of interest. We currently offer Fixed Interest Allocations with guaranteed interest periods of 5, 7 and 10 years. In addition, we may offer DCA Fixed Interest Allocations, which are 6-month and 1-year Fixed Interest Allocations available exclusively in connection with our dollar cost averaging program. We may offer additional guaranteed interest periods in some or all states, may not offer all guaranteed interest periods on all contracts or in all states and the rates for a given guaranteed interest period may vary among contracts. We set the interest rates periodically. We may credit a different interest rate for each interest period. The interest you earn in the Fixed Account as well as your principal is guaranteed by ING USA, as long as you do not take your money out before the maturity date for the applicable interest period. If you take your money out from a Fixed Interest Allocation more than 30 days before the applicable maturity date, we will apply a market value adjustment ("Market Value Adjustment"). A Market Value Adjustment could increase or decrease your contract value and/or the amount you take out. A surrender charge may also apply to withdrawals from your contract. You bear the risk that you may receive less than your principal because of the Market Value Adjustment.

For contracts sold in some states, not all Fixed Interest Allocations are available. You have a right to return a contract for a refund as described in the prospectus. To obtain a copy of the Fixed Account II prospectus, please write or call us at the address and phone number listed on the front page of the prospectus.

The Fixed Account

You may allocate premium payments and transfer your contract value to the guaranteed interest periods of the Fixed Account during the accumulation period as described in the prospectus. Every time you allocate money to the Fixed Account, we set up a Fixed Interest Allocation for the guaranteed interest period you select. We will credit your Fixed Interest Allocation with a guaranteed interest rate for the interest period you select, so long as you do not withdraw money from that Fixed Interest Allocation before the end of the guaranteed interest period. Each guaranteed interest period ends on its maturity date which is the last day of the month in which the interest period is scheduled to expire.

Your contract value in the Fixed Account is the sum of your Fixed Interest Allocations and the interest credited as adjusted for any withdrawals, transfers or other charges we may impose, including any Market Value Adjustment. Your Fixed Interest Allocation will be credited with the guaranteed interest rate in effect for the guaranteed interest period you selected when we receive and accept your premium or reallocation of contract value. We will credit interest daily at a rate that yields the quoted guaranteed interest rate.

If you surrender, withdraw, transfer or annuitize your investment in a Fixed Interest Allocation more than 30 days before the end of the guaranteed interest period, we will apply a Market Value Adjustment to the transaction. A Market Value Adjustment could increase or decrease the amount you surrender, withdraw, transfer or annuitize, depending on current interest rates at the time of the transaction. You bear the risk that you may receive less than your principal because of the Market Value Adjustment.

Guaranteed Interest Rates

Each Fixed Interest Allocation will have an interest rate that is guaranteed as long as you do not take your money out until its maturity date. We do not have a specific formula for establishing the guaranteed interest rates for the different guaranteed interest periods. We determine guaranteed interest rates at our sole discretion. We cannot predict the level of future interest rates. For more information see the prospectus for the Fixed Account.

Transfers from a Fixed Interest Allocation

You may transfer your contract value in a Fixed Interest Allocation to one or more new Fixed Interest Allocations with new guaranteed interest periods, or to any of the subaccounts of ING USA's separate account as described in the prospectus on the maturity date of a guaranteed interest period. The minimum amount that you can transfer to or from any Fixed Interest Allocation is \$100. Transfers from a Fixed Interest Allocation may be subject to a Market Value Adjustment. If you have a special Fixed Interest Allocation that was offered exclusively with our dollar cost averaging program, canceling dollar cost averaging will cause a transfer of the entire contract value in such Fixed Interest Allocation to the ING Liquid Assets Portfolio subaccount, and such a transfer will be subject to a Market Value Adjustment.

Please be aware that the benefit we pay under certain optional benefit riders will be adjusted by any transfers made to and from the Fixed Interest Allocations during specified periods while the rider is in effect.

Withdrawals from a Fixed Interest Allocation

During the accumulation phase, you may withdraw a portion of your contract value in any Fixed Interest Allocation. You may make systematic withdrawals of only the interest earned during the prior month, quarter or year, depending on the frequency chosen, from a Fixed Interest Allocation under our systematic withdrawal option. A withdrawal from a Fixed Interest Allocation may be subject to a Market Value Adjustment and a contract surrender charge. Be aware that withdrawals may have federal income tax consequences, including a 10% penalty tax, as well as state income tax consequences.

Please be aware that the benefit we pay under certain optional benefit riders will be adjusted by any withdrawals made to and from the Fixed Interest Allocations during specified periods while the rider is in effect.

Market Value Adjustment

A Market Value Adjustment may decrease, increase or have no effect on your contract value. We will apply a Market Value Adjustment (i) whenever you withdraw or transfer money from a Fixed Interest Allocation (unless made within 30 days before the maturity date of the applicable guaranteed interest period, or under the systematic withdrawal or dollar cost averaging program) and (ii) if on the income phase payment start date a guaranteed interest period for any Fixed Interest Allocation does not end on or within 30 days of the income phase payment start date.

A Market Value Adjustment may be positive, negative or result in no change. In general, if interest rates are rising, you bear the risk that any Market Value Adjustment will likely be negative and reduce your contract value. On the other hand, if interest rates are falling, it is more likely that you will receive a positive Market Value Adjustment that increases your contract value. In the event of a full surrender, transfer or annuitization from a Fixed Interest Allocation, we will add or subtract any Market Value Adjustment from the amount surrendered, transferred or annuitized. In the event of a partial withdrawal, transfer or annuitization, we will add or subtract any Market Value Adjustment from the total amount withdrawn, transferred or annuitized in order to provide the amount requested. If a negative Market Value Adjustment exceeds your contract value in the Fixed Interest Allocation, we will consider your request to be a full surrender, transfer or annuitization of the Fixed Interest Allocation.

Contract Value in the Fixed Interest Allocations

On the contract date, the contract value in any Fixed Interest Allocation in which you are invested is equal to the portion of the initial premium paid and designated for allocation to the Fixed Interest Allocation. On each business day after the contract date, we calculate the amount of contract value in each Fixed Interest Allocation as follows:

- 1) We take the contract value in the Fixed Interest Allocation at the end of the preceding business day;
- 2) We credit a daily rate of interest on 1) at the guaranteed rate since the preceding business day;
- 3) We add 1) and 2);
- 4) We subtract from 3) any transfers from that Fixed Interest Allocation; and
- 5) We subtract from 4) any withdrawals, and then subtract any contract fees (including any rider charges) and premium taxes.

Additional premium payments and transfers allocated to the Fixed Account will be placed in a new Fixed Interest Allocation. The contract value on the date of allocation will be the amount allocated. Several examples which illustrate how the Market Value Adjustment works are included in the prospectus for Fixed Account II.

Cash Surrender Value

The cash surrender value is the amount you receive when you surrender the contract. The cash surrender value of amounts allocated to the Fixed Account will fluctuate daily based on the interest credited to Fixed Interest Allocations, any Market Value Adjustment, and any surrender charge. We do not guarantee any minimum cash surrender value. On any date during the accumulation phase, we calculate the cash surrender value as follows: we start with your contract value, then we adjust for any Market Value Adjustment, and then we deduct any surrender charge, any charge for premium taxes, the annual contract administrative fee (unless waived), and any optional benefit rider charge, and any other charges incurred but not yet deducted.

Dollar Cost Averaging from Fixed Interest Allocations

You may elect to participate in our dollar cost averaging program from Fixed Account Interest Allocations with a guaranteed interest period of 1 year or less. The Fixed Interest Allocations serve as the source accounts from which we will, on a monthly basis, automatically transfer a set dollar amount of money to other Fixed Interest Allocations or funds selected by you.

The dollar cost averaging program is designed to lessen the impact of market fluctuation on your investment. Since we transfer the same dollar amount to subaccounts each month, more units of a subaccount are purchased if the value of its unit is low and fewer units are purchased if the value of its unit is high. Therefore, a lower than average value per unit may be achieved over the long term. However, we cannot guarantee this. When you elect the dollar cost averaging program, you are continuously investing in securities regardless of fluctuating price levels. You should consider your tolerance for investing through periods of fluctuating price levels. You elect the dollar amount you want transferred under this program. Each monthly transfer must be at least \$100. You may change the transfer amount once each contract year.

Transfers from a Fixed Interest Allocation under the dollar cost averaging program are not subject to a Market Value Adjustment.

We may in the future offer additional subaccounts or withdraw any subaccount or Fixed Interest Allocation to or from the dollar cost averaging program or otherwise modify, suspend or terminate this program. Of course, such changes will not affect any dollar cost averaging programs in operation at the time.

Suspension of Payments

We have the right to delay payment of amounts from a Fixed Interest Allocation for up to 6 months.

More Information

See the prospectus for Fixed Account II.

APPENDIX D

Fixed Interest Division

A Fixed Interest Division option is available through the group and individual deferred variable annuity contracts offered by ING USA Annuity and Life Insurance Company. The Fixed Interest Division is part of the ING USA General Account. Interests in the Fixed Interest Division have not been registered under the Securities Act of 1933, and neither the Fixed Interest Division nor the General Account are registered under the Investment Company Act of 1940.

Interests in the Fixed Interest Division are offered in certain states through an Offering Brochure, dated April 29, 2011. The Fixed Interest Division is different from the Fixed Account which is described in the prospectus but which is not available in your state. If you are unsure whether the Fixed Account is available in your state, please contact our Customer Service Center at 1-800-366-0066. When reading through the Prospectus, the Fixed Interest Division should be counted among the various investment options available for the allocation of your premiums, in lieu of the Fixed Account. The Fixed Interest Division may not be available in some states. Some restrictions may apply.

You will find more complete information relating to the Fixed Interest Division in the Offering Brochure. Please read the Offering Brochure carefully before you invest in the Fixed Interest Division.

APPENDIX E

Surrender Charge for Excess Withdrawals Example

The following assumes you made an initial premium payment of \$25,000 and additional premium payments of \$25,000 in each of the second and third contract years, for total premium payments under the contract of \$75,000. It also assumes a withdrawal at the beginning of the fifth contract year of 30% of the contract value of \$90,000.

In this example, \$9,000 (10% of \$90,000) is maximum free withdrawal amount that you may withdraw during the contract year without a surrender charge. The total amount withdrawn from the contract would be \$27,000 ($\$90,000 \times .30$). Therefore, \$18,000 ($\$27,000 - \$9,000$) is considered an excess withdrawal and would be subject to a 3% surrender charge of \$540 ($\$18,000 \times .03$). This example does not take into account any Market Value Adjustment or deduction of any premium taxes.

APPENDIX F

Pro-Rata Withdrawal Adjustment for 5% Roll-Up Death Benefit Examples

Example #1: The Contract Value (AV) is Lower than the Death Benefit

Assume a premium payment of \$100,000, AV at the time of withdrawal of \$80,000 and a 5% Roll-Up minimum guarantee death benefit ("MGDB") at the time of withdrawal of \$120,000. A total withdrawal of \$20,000 is made.

Calculate the Effect of the Withdrawal

Pro-rata Withdrawal Adjustment to MGDB = \$30,000 ($\$120,000 * (\$20,000 / \$80,000)$)

MGDB after Pro-rata Withdrawal = \$90,000 ($\$120,000 - \$30,000$)

AV after Withdrawal = \$60,000 ($\$80,000 - \$20,000$)

Example #2: The Contract Value (AV) is Greater than the Death Benefit

Assume a premium payment of \$100,000, AV at the time of withdrawal of \$160,000 and a 5% Roll-Up minimum guarantee death benefit ("MGDB") at the time of withdrawal of \$120,000. A total withdrawal of \$20,000 is made.

Calculate the Effect of the Withdrawal

Pro-rata Withdrawal Adjustment to MGDB = \$15,000 ($\$120,000 * (\$20,000 / \$160,000)$)

MGDB after Pro-rata Withdrawal = \$105,000 ($\$120,000 - \$15,000$)

AV after Withdrawal = \$140,000 ($\$160,000 - \$20,000$)

Example #3: The Contract Value (AV) is Equal to the Death Benefit

Assume a premium payment of \$100,000, AV at the time of withdrawal of \$120,000 and a 5% Roll-Up minimum guarantee death benefit ("MGDB") at the time of withdrawal of \$120,000. A total withdrawal of \$20,000 is made.

Calculate the Effect of the Withdrawal

Pro-rata Withdrawal Adjustment to MGDB = \$20,000 ($\$120,000 * (\$20,000 / \$120,000)$)

MGDB after Pro-rata Withdrawal = \$100,000 ($\$120,000 - \$20,000$)

AV after Pro-rata Withdrawal = \$100,000 ($\$120,000 - \$20,000$)

APPENDIX G

	Accumulation Rate	3.0%	3.0%	3.0%
	Rider Charge	0.0%	0.60%	0.60%
65	Contract Value	\$134,392	\$125,479	\$125,479
	Contract Annuity Factor	4.71	4.71	4.71
	Monthly Income	\$632.98	\$591.01	\$591.01
	MGIB Rollup	n/a	\$162,889	\$162,889
	MGIB Ratchet	n/a	\$125,479	\$125,479
	MGIB Annuity Factor	n/a	4.17	4.43
	MGIB Income	n/a	\$679.25	\$721.60
	Income	\$632.98	\$679.25	\$721.60

Example 3				
<u>Age</u>		<u>Contract without the MGIB Rider</u>	<u>Contract with the MGIB Rider</u>	<u>Contract with the MGIB Rider Before 1/12/2009</u>
55	Initial Value	\$100,000	\$100,000	\$100,000
	Accumulation Rate	8.0%	8.0%	8.0%
	Rider Charge	0.0%	0.60%	0.60%
65	Contract Value	\$215,892	\$203,538	\$203,538
	Contract Annuity Factor	4.71	4.71	4.71
	Monthly Income	\$1,016.85	\$958.66	\$959.93
	MGIB Rollup	n/a	\$162,889	\$162,889
	MGIB Ratchet	n/a	\$203,538	\$203,808
	MGIB Annuity Factor	n/a	4.17	4.17
	MGIB Income	n/a	\$848.75	\$902.87
	Income	\$1,016.85	\$958.66	\$959.93

The Accumulation Rates shown are hypothetical and intended to illustrate various market conditions. These rates are assumed to be net of all fees and charges. Fees and charges are not assessed against the MGIB Rollup Rate.

APPENDIX I

ING LifePay Plus and ING Joint LifePay Plus Partial Withdrawal Amount Examples

(For riders issued on or after April 28, 2008, subject to state approval)

The following examples show the adjustment to the Maximum Annual Withdrawal amount for a withdrawal before the Lifetime Withdrawal Phase has begun.

Illustration 1: Adjustment to the ING LifePay Plus Base for a withdrawal taken prior to the Lifetime Withdrawal Phase.

Assume the Annuitant is age 55 and the first withdrawal taken during the contract year is \$3,000 net, with \$0 of surrender charges. Because the ING LifePay Plus Rider is not yet eligible to enter the Lifetime Withdrawal Phase, there is no Maximum Annual Withdrawal and the entire withdrawal is considered excess.

If the ING LifePay Plus Base and contract value before the withdrawal are \$100,000 and \$90,000, respectively, then the ING LifePay Plus Base will be reduced by 3.33% ($\$3,000 / \$90,000$) to \$96,667 ($(1 - 3.33\%) * \$100,000$).

Any additional withdrawals taken prior to the Annuitant reaching age 59½ will also result in an immediate pro-rata reduction to the ING LifePay Plus Base.

The following are examples of adjustments to the Maximum Annual Withdrawal amount for withdrawals in excess of the Maximum Annual Withdrawal:

Illustration 2: Adjustment to the Maximum Annual Withdrawal amount for a withdrawal in excess of the Maximum Annual Withdrawal.

Assume the Maximum Annual Withdrawal is \$5,000.

The first withdrawal taken during the contract year is \$3,000 net, with no surrender charges. The Maximum Annual Withdrawal is not exceeded.

The next withdrawal taken during the contract year is \$1,500 net, with \$0 of surrender charges. The Maximum Annual Withdrawal is not exceeded because total net withdrawals, \$4,500, do not exceed the Maximum Annual Withdrawal, \$5,000.

The next withdrawal taken during the contract year is \$1,500 net, with \$0 of surrender charges. Because total net withdrawals taken, \$6,000, exceed the Maximum Annual Withdrawal, \$5,000, there is an adjustment to the Maximum Annual Withdrawal. However, because only \$4,500 in gross withdrawals was taken during the contract year prior to this withdrawal, \$500 of the \$1,500 gross withdrawal is not considered excess.

Total gross withdrawals during the contract year are \$6,000 ($\$3,000 + \$1,500 + \$1,500$). The adjustment is the lesser of the amount by which the total gross withdrawals for the year exceed the Maximum Annual Withdrawal, \$1,000, and the amount of the current gross withdrawal, \$1,500.

If the contract value before this withdrawal is \$50,000, and the contract value is \$49,500 after the part of the gross withdrawal that was within the Maximum Annual Withdrawal, \$500, then the Maximum Annual Withdrawal is reduced by 2.02% ($\$1,000 / \$49,500$) to \$4,899 ($(1 - 2.02\%) * \$5,000$).

Illustration 3: A withdrawal exceeds the Maximum Annual Withdrawal amount but does not exceed the Additional Withdrawal Amount.

Assume the Maximum Annual Withdrawal is \$5,000. The Required Minimum Distribution for the current calendar year applicable to this contract is determined to be \$6,000. The Additional Withdrawal Amount is set equal to the excess of this amount above the Maximum Annual Withdrawal, \$1,000 ($\$6,000 - \$5,000$).

The first withdrawal taken during the contract year is \$3,000 net, with \$0 of surrender charges. The Maximum Annual Withdrawal is not exceeded.

The next withdrawal taken during the contract year is \$1,500 net, with \$0 of surrender charges. The Maximum Annual Withdrawal is not exceeded because total net withdrawals, \$4,500, do not exceed the Maximum Annual Withdrawal, \$5,000.

The next withdrawal taken during the contract year is \$1,500 net, with \$0 of surrender charges. Total net withdrawals taken, \$6,000, exceed the Maximum Annual Withdrawal, \$5,000, however, the Maximum Annual Withdrawal is not adjusted until the Additional Withdrawal Amount is exhausted. The amount by which total net withdrawals taken exceed the Maximum Annual Withdrawal, \$1,000 (\$6,000 – \$5,000), is the same as the Additional Withdrawal Amount, so no adjustment to the Maximum Annual Withdrawal is made. If total net withdrawals taken had exceeded the sum of the Maximum Annual Withdrawal and the Additional Withdrawal Amount, then an adjustment would be made to the Maximum Annual Withdrawal.

Illustration 4: The Additional Withdrawal Amount at the end of the calendar year before it is withdrawn.

Assume the most recent contract date was July 1, 2009 and the Maximum Annual Withdrawal is \$5,000. Also assume RMDs, applicable to this contract, are \$6,000 and \$5,000 for 2010 and 2011 calendar years respectively.

Between July 1, 2009 and December 31, 2010, a withdrawal of \$5,000 is taken which exhausts the Maximum Annual Withdrawal.

On January 1, 2010, the Additional Withdrawal Amount is set equal to the excess of the 2010 RMD above the existing Maximum Annual Withdrawal, \$1,000 (\$6,000 – \$5,000). Note that while the Maximum Annual Withdrawal has been exhausted, it is still used to calculate the Additional Withdrawal Amount.

The owner now has until December 31, 2010 to take the newly calculated Additional Withdrawal Amount of \$1,000. The owner decides not to take the Additional Withdrawal Amount of \$1,000 in 2010.

On January 1, 2011, the Additional Withdrawal Amount is set equal to the excess of the 2011 RMD above the existing Maximum Annual Withdrawal, \$0 (\$5,000 – \$5,000). Note that the Additional Withdrawal Amount of \$1,000 from the 2010 calendar year carries over into the 2011 calendar year and is available for withdrawal.

Illustration 5: A withdrawal exceeds the Maximum Annual Withdrawal amount and the Additional Withdrawal Amount.

Assume the Maximum Annual Withdrawal is \$5,000. The Required Minimum Distribution for the current calendar year applicable to this contract is determined to be \$6,000. The Additional Withdrawal Amount is set equal to the excess of this amount above the Maximum Annual Withdrawal, \$1,000 (\$6,000 – \$5,000).

The first withdrawal taken during the contract year is \$3,000 net, with \$0 of surrender charges. The Maximum Annual Withdrawal is not exceeded.

The next withdrawal taken during the contract year is \$1,500 net, with \$0 of surrender charges. The Maximum Annual Withdrawal is not exceeded because total net withdrawals, \$4,500, do not exceed the Maximum Annual Withdrawal, \$5,000.

The next withdrawal taken during the contract year is \$3,500 net, with \$0 of surrender charges. Total net withdrawals taken, \$8,000, exceed the sum of the Maximum Annual Withdrawal and the Additional Withdrawal Amount, \$6,000, and there is an adjustment to the Maximum Annual Withdrawal.

Total gross withdrawals during the contract year are \$8,000 (\$3,000 + \$1,500 + \$3,500). The adjustment is the lesser of the amount by which the total gross withdrawals for the year exceed the sum of the Maximum Annual Withdrawal and the Additional Withdrawal Amount (\$8,000 – \$6,000 = \$2,000), and the amount of the current gross withdrawal (\$3,500).

If the contract value before this withdrawal is \$50,000, then the Maximum Annual Withdrawal is reduced by 4.12% (\$2,000 / \$48,500) to \$4,794 $((1 - 4.12\%) * \$5,000)$.

Illustration 6: Adjustment to the Maximum Annual Withdrawal amount for a withdrawal in excess of the Maximum Annual Withdrawal.

Assume the Maximum Annual Withdrawal is \$5,000.

The first withdrawal taken during the contract year is \$3,000 net, with \$0 of surrender charges. The Maximum Annual Withdrawal is not exceeded.

The next withdrawal taken during the contract year is \$1,500 net, with \$0 of surrender charges. The Maximum Annual Withdrawal is not exceeded because total net withdrawals, \$4,500, do not exceed the Maximum Annual Withdrawal, \$5,000.

The next withdrawal taken during the contract year is \$1,500 net, with \$0 of surrender charges. Because total net withdrawals taken, \$6,000, exceed the Maximum Annual Withdrawal, \$5,000, there is an adjustment to the Maximum Annual Withdrawal. However, because only \$4,500 in gross withdrawals was taken during the contract year prior to this withdrawal, \$500 of the \$1,500 gross withdrawal is not considered excess.

Total gross withdrawals during the contract year are \$6,000 ($\$3,000 + \$1,500 + \$1,500$). The adjustment is the lesser of the amount by which the total gross withdrawals for the year exceed the Maximum Annual Withdrawal, \$1,000, and the amount of the current gross withdrawal, \$1,500.

If the contract value after the part of the gross withdrawal that was within the Maximum Annual Withdrawal, \$500, is \$49,500, then the Maximum Annual Withdrawal is reduced by 2.02% ($\$1,000 / \$49,500$) to \$4,899 ($(1 - 2.02\%) * \$5,000$).

Another withdrawal is taken during that same contract year in the amount of \$400 net, with \$100 of surrender charges. Total gross withdrawals during the contract year are \$6,500 ($\$3,000 + \$1,500 + \$1,500 + \500). The adjustment to the MAW is the lesser of the amount by which the total gross withdrawals for the year exceed the Maximum Annual Withdrawal, \$1,500, and the amount of the current gross withdrawal, \$500.

If the contract value before this withdrawal is \$48,500, then the Maximum Annual Withdrawal is reduced by 1.03% ($\$500 / \$48,500$) to \$4,849 ($(1 - 1.03\%) * \$4,899$).

APPENDIX J

Examples of Fixed Allocation Funds Automatic Rebalancing

The following examples are designed to assist you in understanding how Fixed Allocation Funds Automatic Rebalancing works. The examples assume that there are no investment earnings or losses.

I. Subsequent Payments

A. Assume that on Day 1, an owner deposits an initial payment of \$100,000, which is allocated 100% to Accepted Funds. No Fixed Allocation Funds Automatic Rebalancing would occur, because this allocation meets the required investment option allocation.

B. Assume that on Day 2, the owner deposits an additional payment of \$500,000, bringing the total contract value to \$600,000, and allocates this deposit 100% to Other Funds. Because the percentage allocated to the Fixed Allocation Funds (0%) is less than 30% of the total amount allocated to the Fixed Allocation Funds and the Other Funds, we will automatically reallocate \$150,000 from the amount allocated to the Other Funds (30% of the \$500,000 allocated to the Other Funds) to the Fixed Allocation Funds. Your ending allocations will be \$100,000 to Accepted Funds, \$150,000 to the Fixed Allocation Funds, and \$350,000 to Other Funds.

II. Partial Withdrawals

A. Assume that on Day 1, an owner deposits an initial payment of \$100,000, which is allocated 65% to Accepted Funds (\$65,000), 30% to the Fixed Allocation Funds (\$30,000), and 5% to Other Funds (\$5,000). No Fixed Allocation Funds Automatic Rebalancing would occur, because this allocation meets the required investment option allocation.

B. Assume that on Day 2, the owner requests a partial withdrawal of \$29,000 from the Fixed Allocation Funds. Because the remaining amount allocated to the Fixed Allocation Funds (\$1,000) is less than 30% of the total amount allocated to the Fixed Allocation Funds and the Other Funds, we will automatically reallocate \$800 from the Other Funds to the Fixed Allocation Funds, so that the amount allocated to the Fixed Allocation Funds (\$1,800) is 30% of the total amount allocated to the Fixed Allocation Funds and Other Funds (\$6,000).

Information Regarding Previous Versions of the ING LifePay Plus and ING Joint LifePay Plus Riders

Important Note:

The following information pertains to the form of ING LifePay Plus and ING Joint LifePay Plus riders available for purchase on and after April 28, 2008 through April 30, 2009, in states where approved. If this form of ING LifePay Plus or ING Joint LifePay Plus rider is not yet approved for sale in your state, or if you have purchased a previous version of this rider, please see page K8 for more information. If you purchased the ING LifePay or ING Joint LifePay rider, please see Appendix L for more information.

ING LifePay Plus Minimum Guaranteed Withdrawal Benefit (“ING LifePay Plus”) Rider. The ING LifePay Plus rider generally provides, subject to the restrictions and limitations below, that we will guarantee a minimum level of annual withdrawals from the contract for the lifetime of the annuitant, even if these withdrawals deplete your contract value to zero. You may wish to purchase this rider if you are concerned that you may outlive your income.

Purchase. In order to elect the ING LifePay Plus rider, the annuitant must be the owner or one of the owners, unless the owner is a non-natural owner. Joint annuitants are not allowed. The maximum issue age is 80. The issue age is the age of the owner (or the annuitant if there are joint owners or the owner is non-natural) on the rider effective date. The ING LifePay Plus rider is subject to broker-dealer availability. This version of the ING LifePay Plus rider was available for contracts issued **on and after April 28, 2008 through April 30, 2009** (subject to availability and state approvals) that did not already have a living benefit rider. **The ING LifePay Plus rider will not be issued if the initial allocation to investment options is not in accordance with the investment option restrictions described in “Investment Option Restrictions,” below.** The Company in its discretion may allow the rider to be elected after a contract has been issued without it, subject to certain conditions. Contact the Customer Service Center for more information. Such election must be received in good order, including compliance with the investment restrictions described below. The rider will be effective as of the following quarterly contract anniversary.

Rider Effective Date. The rider effective date is the date coverage under the ING LifePay Plus rider begins. If you purchase the ING LifePay Plus rider when the contract is issued, the rider effective date is also the contract date. If you purchase the ING LifePay Plus rider after contract issue, the rider effective date will be the date of the contract’s next following quarterly contract anniversary. A quarterly contract anniversary occurs each quarter of a contract year from the contract date.

Charge. The charge for the ING LifePay Plus rider, a living benefit, is deducted quarterly from your contract value:

Maximum Annual Charge	Current Annual Charge
1.30%	0.65%

This quarterly charge is a percentage of the ING LifePay Plus Base. **If this rider was purchased before January 12, 2009, the current annual charge is 0.55%.** We deduct the charge in arrears based on the contract date (contract year versus calendar year). In arrears means the first charge is deducted at the end of the first quarter from the contract date. If the rider is added after contract issue, the rider and charges will begin on the next following quarterly contract anniversary. The charge will be pro-rated when the rider is terminated. Charges will no longer be deducted once your rider enters Lifetime Automatic Periodic Benefit Status. Lifetime Automatic Periodic Benefit Status occurs if your contract value is reduced to zero and other conditions are met. We reserve the right to increase the charge for the ING LifePay Plus rider upon an Annual Ratchet once the Lifetime Withdrawal Phase begins. For riders issued before January 12, 2009, we reserve the right to increase the charge for the ING LifePay Plus rider upon a Quarterly Ratchet once the Lifetime Withdrawal Phase begins. You will never pay more than new issues of this rider, subject to the maximum annual charge. We will not increase your charge for your first five years after the effective date of the rider.

If the contract value in the subaccounts is insufficient for the charge, then we deduct it from any Fixed Interest Allocations, in which case a Market Value Adjustment may apply. But currently, a Market Value Adjustment would not apply when this charge is deducted from the Fixed Account. With the Fixed Account, we deduct the charge from the Fixed Interest Allocation having the nearest maturity. For more information about the Fixed Account, including the Market Value Adjustment, please see Appendix C. We reserve the right to change the charge for this rider, subject to the maximum annual charge. If changed, the new charge will only apply to riders issued after the change.

No Cancellation. Once you purchase the ING LifePay Plus rider, you may not cancel it unless you: a) cancel the contract during the contract's free look period; b) surrender; c) begin income phase payments; or d) otherwise terminate the contract pursuant to its terms. These events automatically cancel the ING LifePay Plus rider. The Company may, at its discretion, cancel and/or replace the ING LifePay Plus rider at your request in order to renew or reset the rider.

Termination. The ING LifePay Plus rider is a "living benefit," which means the guaranteed benefits offered are intended to be available to you while you are living and while your contract is in the accumulation phase. The optional rider automatically terminates if you:

- 1) Terminate your contract pursuant to its terms during the accumulation phase, surrender your contract, or begin receiving income phase payments in lieu of payments under the rider; or
- 2) Die during the accumulation phase (first owner to die in the case of joint owners, or death of annuitant if the contract is a custodial IRA), unless your spouse beneficiary elects to continue the contract; or
- 3) Change the owner of the contract (other than a spousal beneficiary continuation on your death).

Other circumstances that may cause the ING LifePay Plus rider to terminate automatically are discussed below.

Highlights. *This paragraph introduces the terminology used with the ING LifePay Plus rider and how its components generally work together. Benefits and guarantees are subject to the terms, conditions and limitations of the ING LifePay Plus rider. More detailed information follows below, with capitalized words that are underlined indicating headings for ease of reference.* The ING LifePay Plus rider guarantees an amount available for withdrawal from the contract in any contract year once the Lifetime Withdrawal Phase begins -- we use the ING LifePay Plus Base as part of the calculation of the Maximum Annual Withdrawal. The guarantee continues when the ING LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status, at which time we will pay you periodic payments in an annual amount equal to the Maximum Annual Withdrawal (since contract value would be zero) until the annuitant's death. The ING LifePay Plus Base is eligible for Annual Ratchets and 6% Compounding Step-Ups (Quarterly Ratchets and 7% Compounding Step-Ups for riders issued before January 12, 2009), and subject to adjustment for any Excess Withdrawals. The ING LifePay Plus rider has an allowance for withdrawals from a contract subject to the Required Minimum Distribution rules of the Tax Code that would otherwise be Excess Withdrawals. The ING LifePay Plus rider has a death benefit that is payable upon the contract owner's death only when the ING LifePay Plus Death Benefit Base is greater than the contract's death benefit. The ING LifePay Plus rider allows for spousal continuation.

ING LifePay Plus Base. The ING LifePay Plus Base is first calculated when you purchase the ING LifePay Plus rider: (a) On the contract date, it is equal to the initial premium; and (b) After the contract date, it is equal to the contract value on the effective date of the rider.

The ING LifePay Plus Base is increased, dollar for dollar, by any subsequent premiums. We refer to the ING LifePay Plus Base as the MGWB Base in the ING LifePay Plus rider.

Withdrawals and Excess Withdrawals. Once the Lifetime Withdrawal Phase begins, withdrawals within a contract year up to the Maximum Annual Withdrawal, including for payment of third-party investment advisory fees, have no impact on the ING LifePay Plus Base. These withdrawals will not incur surrender charges or a negative Market Value Adjustment associated with any Fixed Account allocations. For example, assume the current contract value is \$90,000 on a contract with the ING LifePay Plus rider in the Lifetime Withdrawal Phase. The ING LifePay Plus Base is \$100,000, and the Maximum Annual Withdrawal is \$5,000. Even though a withdrawal of \$5,000 would reduce the contract value to \$85,000, the ING LifePay Plus Base would remain at its current level (as would the Maximum Annual Withdrawal as well) since the withdrawal did not exceed the Maximum Annual Withdrawal. See below for more information about the Maximum Annual Withdrawal.

An Excess Withdrawal is either a) a withdrawal before the Lifetime Withdrawal Phase begins (except for payment of third-party investment advisory fees); or b) once the Lifetime Withdrawal Phase begins, any portion of a withdrawal during a contract year that exceeds the Maximum Annual Withdrawal. An Excess Withdrawal is also a withdrawal after spousal continuation of the contract but before the ING LifePay Plus riders' guarantees resume, which occurs on the next quarterly contract anniversary following spousal continuation. An Excess Withdrawal will cause a pro-rate reduction of the ING LifePay Plus Base -- in the same proportion as contract value is reduced by the portion of the withdrawal that is considered excess, inclusive of surrender charges or Market Value Adjustment associated with any Fixed Account allocations (rather than the total amount of the withdrawal). An Excess Withdrawal will also cause the Maximum Annual Withdrawal to be recalculated. See Illustrations 1, 2, and 6 for examples of the consequences of an excess withdrawal.

Please note that any withdrawals before the rider effective date in the same contract year when the ING LifePay Plus rider is added after contract issue are counted in calculating your withdrawals in that contract year to determine whether the Maximum Annual Withdrawal has been exceeded.

Annual Ratchet. The ING LifePay Plus Base is recalculated on each contract anniversary -- to equal the greater of: a) the current ING LifePay Plus Base; or b) the current contract value. We call this recalculation an Annual Ratchet.

For riders issued before January 12, 2009, the ING LifePay Plus Base is recalculated on each quarterly contract anniversary (once each quarter of a contract year from the contract date). We call this recalculation a Quarterly Ratchet.

Once the Lifetime Withdrawal Phase begins, we reserve the right to increase the charge for the ING LifePay Plus rider upon an Annual Ratchet. You will never pay more than new issues of the ING LifePay Plus rider, subject to the maximum annual charge, and we will not increase this charge for your first five years after the rider effective date. We will notify you in writing not less than 30 days before a charge increase. You may avoid the charge increase by canceling the forthcoming Annual Ratchet. Our written notices will outline the procedure you will need to follow to do so. Please note, however, that from then on the ING LifePay Plus Base would no longer be eligible for any Annual Ratchets, so the Maximum Annual Withdrawal percentage would not be eligible to increase. More information about the Maximum Annual Withdrawal Percentage is below under "Maximum Annual Withdrawal." Our written notice will also remind you of the consequences of canceling the forthcoming Annual Ratchet.

For riders issued before January 12, 2009, we reserve the right to increase the charge for this rider upon a Quarterly Ratchet once the Lifetime Withdrawal Phase begins. You will never pay more than new issues of the rider, subject to the maximum charge, and we promise not to increase the charge for your first five contract years. Canceling a forthcoming Quarterly Ratchet to avoid the charge increase will have the same outcome as noted above.

6% Compounding Step-Up. The ING LifePay Plus Base is recalculated on each of the first ten contract anniversaries after the rider effective date SO LONG AS no withdrawals were taken during the preceding contract year. The recalculated ING LifePay Plus Base will equal the greatest of a) the current ING LifePay Plus Base; b) the current contract value; and c) the ING LifePay Plus Base on the previous contract anniversary, increased by 6%, plus any premiums received and minus any withdrawals for payment of third-party investment advisory fees since the previous contract anniversary. We call this recalculation a 6% Compounding Step-Up.

Please note there are no partial 6% Compounding Step-Ups. The 6% Compounding Step-Up is not pro-rated. For riders added to existing contracts (a post contract issuance election), the first opportunity for a 6% Compounding Step-Up will not be until the first contract anniversary after a full contract year has elapsed since the rider effective date.

For example, assume a contract owner decides to add the ING LifePay Plus rider on March 15, 2009 to a contract that was purchased on January 1, 2009. The rider effective date is April 1, 2009, which is the date of the contract's next following quarterly contract anniversary. Because on January 1, 2010 a full contract year will not have elapsed since the rider effective date, the ING LifePay Plus Base will not be eligible for a step-up. Rather, the first opportunity for a step-up with this contract will be on January 1, 2011.

For riders issued before January 12, 2009, the step-up is 7%, which we call a 7% Compounding Step-Up. The 7% Compounding Step-Up is not pro-rated.

Lifetime Withdrawal Phase. The Lifetime Withdrawal Phase begins on the date of your first withdrawal (except those for payment of third-party investment advisory fees), SO LONG AS the annuitant is age 59½. On this date, the ING LifePay Plus Base is recalculated to equal the greater of the current ING LifePay Plus Base or the current contract value. The Lifetime Withdrawal Phase will continue until the earliest of:

- 1) the date income phase payments begin (see “The Income Phase”);
- 2) reduction of the contract value to zero by an Excess Withdrawal;
- 3) reduction of the contract value to zero by a withdrawal less than or equal to the Maximum Annual Withdrawal;
- 4) the surrender of the contract; or
- 5) the death of the owner (first owner, in the case of joint owners; annuitant, in the case of a non-natural person owner), unless your spouse beneficiary elects to continue the contract.

The ING LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status in the even contract value is reduced to zero other than by an Excess Withdrawal. Please see “Lifetime Automatic Periodic Benefit Status” below for more information.

Maximum Annual Withdrawal. The Maximum Annual Withdrawal is the amount that the ING LifePay Plus rider guarantees to be available for withdrawal from the contract in any contract year. The Maximum Annual Withdrawal is first calculated when the Lifetime Withdrawal Phase begins and equals the Maximum Annual Withdrawal percentage, based on the annuitant’s age, multiplied by the ING LifePay Plus Base.

The Maximum Annual Withdrawal Percentages are:

<u>Maximum Annual Withdrawal Percentage</u>	<u>Age</u>
4%	59½ – 64
5%	65+

If the rider was issued prior to January 12, 2009, the Maximum Annual Withdrawal percentage is 5%.

The Maximum Annual Withdrawal is thereafter recalculated whenever the ING LifePay Plus Base is recalculated, for example, upon an Annual Ratchet or 6% Compounding Step-Up (Quarterly Ratchet or 7% Compounding Step-Up if this rider was purchased before January 12, 2009). In addition, the Maximum Annual Withdrawal Percentage can increase with the Annual Ratchet as the annuitant grows older.

In the event that on the date the Lifetime Withdrawal Phase begins the contract value is greater than the ING LifePay Plus Base, then before the Maximum Annual Withdrawal is first calculated, the ING LifePay Plus Base will be set equal to the contract value. The greater the ING LifePay Plus Base, the greater the amount will be available to you for withdrawal under the ING LifePay Plus rider in calculating the Maximum Annual Withdrawal for the first time. In addition, if the contract’s income phase commencement date is reached while the ING LifePay Plus rider is in the Lifetime Withdrawal Phase, you may elect a life only income phase option, in lieu of the contract’s other income phase options, under which we will pay the greater of the income phase payout under the contract and the equal payments of the Maximum Annual Withdrawal. For more information about the contract’s income phase options, see “The Income Phase” in the prospectus.

Required Minimum Distributions. The ING LifePay Plus rider allows for withdrawals from a contract subject to the Required Minimum Distribution rules of the Tax Code that exceed the Maximum Annual Withdrawal without causing a pro-rata reduction of the ING LifePay Plus Base and recalculation of the Maximum Annual Withdrawal. If your Required Minimum Distribution for a calendar year (determined on a date on or before January 31 of that year), applicable to this contract, is greater than the Maximum Annual Withdrawal on that date, then an Additional Withdrawal Amount will be set equal to that portion of the Required Minimum Distribution that exceeds the Maximum Annual Withdrawal. Once you have taken the Maximum Annual Withdrawal for the then current contract year, the dollar amount of any additional withdrawals will count first against and reduce any unused Additional Withdrawal Amount for the previous calendar year followed by any Additional Withdrawal Amount for the current calendar year -- without constituting an Excess Withdrawal.

See Illustration 3.

Withdrawals that exceed the Maximum Annual Withdrawal and all available Additional Withdrawal Amounts are Excess Withdrawals that will cause a pro-rata reduction of the ING LifePay Plus Base and the Maximum Annual Withdrawal to be recalculated. See Illustration 5 for an example of the consequences of an Excess Withdrawal with an Additional Withdrawal Amount. The Additional Withdrawal Amount is available on a calendar year basis and recalculated every January, reset to equal that portion of the Required Minimum Distribution for that calendar year that exceeds the Maximum Annual Withdrawal on that date. Any unused amount of the Additional Withdrawal Amount carries over into the next calendar year and is available through the end of that year, at which time any amount remaining will expire. See Illustration 4 for an example of the Additional Withdrawal Amount being carried over. **Please note that there is no adjustment to the Additional Withdrawal Amount for Annual Ratchets (Quarterly Ratchets for riders issued before January 12, 2009), or upon spousal continuation of the ING LifePay Plus Rider.**

Lifetime Automatic Periodic Benefit Status. The ING LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status when your contract value is reduced to zero other than by an Excess Withdrawal (a withdrawal in excess of the Maximum Annual Withdrawal that causes your contract value to be reduced to zero will terminate the ING LifePay Plus rider). You will no longer be entitled to make withdrawals, but instead will begin to receive periodic payments in an annual amount equal to the Maximum Annual Withdrawal. When the rider enters Lifetime Automatic Periodic Benefit Status:

- 1) The contract will provide no further benefits (including death benefits) other than as provided under the ING LifePay Plus rider;
- 2) No further premium payments will be accepted; and
- 3) Any other riders issued with the contract will terminate, unless otherwise specified in that rider.

During Lifetime Automatic Periodic Benefit Status, we will pay you periodic payments in an annual amount that is equal to the Maximum Annual Withdrawal. These payments will cease upon the death of the annuitant at which time both the rider and the contract will terminate. The rider will remain in Lifetime Automatic Periodic Benefit Status until it terminates without value upon the annuitant's death.

If, when the ING LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status, your net withdrawals to date are less than the Maximum Annual Withdrawal for that contract year, then we will pay you the difference immediately. The periodic payments will begin on the first contract anniversary following the date the rider enters Lifetime Automatic Periodic Benefit Status and will continue to be paid annually thereafter.

In the event contract value is reduced to zero before the Lifetime Withdrawal Phase begins, Lifetime Automatic Periodic Benefit Status is deferred until the contract anniversary on or after the annuitant is age 59½. During this time, the ING LifePay Plus rider's death benefit remains payable upon the annuitant's death, and the ING LifePay Plus rider remains eligible for the 6% Compounding Step-Ups (7% of Compounding Step-Ups for riders issued before January 12, 2009). Once the ING LifePay Plus rider enters the Lifetime Automatic Periodic Benefit Status, periodic payments will begin in an annual amount equal to the Maximum Annual Withdrawal percentage multiplied by the ING LifePay Plus Base.

You may elect to receive systematic withdrawals pursuant to the terms of the contract. Under a systematic withdrawal, either a fixed amount or an amount based upon a percentage of the contract value will be withdrawn from your contract and paid to you on a scheduled basis, either monthly, quarterly, or annually. If, at the time the rider enters Lifetime Automatic Periodic Benefit Status, you are receiving systematic withdrawals under the contract more frequently than annually, the periodic payments will be made at the same frequency in equal amounts such that the sum of the payments in each contract year will equal the annual Maximum Annual Withdrawal. Such payments will be made on the same payment dates as previously set up, if the payments were being made monthly or quarterly. If the payments were being made annually, then the payments will be made on each following contract anniversary.

Investment Option Restrictions. While the ING LifePay Plus rider is in effect, there are limits on the portfolios to which your contract value may be allocated. Contract value allocated to portfolios other than Accepted Funds will be rebalanced so as to maintain at least a specified percentage of such contract value in the Fixed Allocation Funds, which percentage depends on the rider's purchase date:

Rider Purchase Date	Fixed Allocation Fund Percentage
Currently	30%
Before January 12, 2009	25%
Before October 6, 2008	20%

See "Fixed Allocation Funds Automatic Rebalancing," below. We impose these investment option restrictions in order to lessen the likelihood we would have to make payments under this rider. We require these allocations regardless of your investment instructions under the contract. The ING LifePay Plus rider will not be issued until your contract value is allocated in accordance with these investment option restrictions. The timing of when and how we apply these investment option restrictions is discussed further below.

Accepted Funds. Currently, the Accepted Funds are:

- Fixed Account II
- Fixed Interest Division
- ING Liquid Assets Portfolio
- ING Solution Income Portfolio
- ING Solution 2015 Portfolio
- ING Solution 2025 Portfolio
- ING Solution 2035 Portfolio
- ING T. Rowe Price Capital Appreciation Portfolio.

If this rider was purchased before January 12, 2009, the following are additional Accepted Funds:

- ING Franklin Templeton Founding Strategy Portfolio; and
- ING WisdomTreeSM Global High-Yielding Equity Index Portfolio

No rebalancing is necessary if the contract value is allocated entirely to Accepted Funds. We may change these designations at any time upon 30 days notice to you. If a change is made, the change will apply to contract value allocated to such portfolios after the date of the change.

Fixed Allocation Funds. Currently, the Fixed Allocation Funds are:

- ING American Funds Bond Portfolio
- ING BlackRock Inflation Protected Bond Portfolio
- ING Intermediate Bond Portfolio
- ING U.S. Bond Index Portfolio.

You may allocate your contract value to one or more Fixed Allocated Funds. We consider the ING Intermediate Bond Portfolio to be the default Fixed Allocation Fund in connection with Fixed Allocation Funds Automatic Rebalancing.

If the rider is not continued under the spousal continuation right when available, a Fixed Allocation Fund may be reclassified as a Special Fund as of the contract continuation date if it would otherwise be designated as a Special Fund for purposes of the contract's death benefits. For purposes of calculating any applicable death benefit guaranteed under the contract, any allocation of contract value to the Fixed Allocation Funds will be considered a Covered Fund allocation while the rider is in effect.

Other Funds. All portfolios available under the contract other than Accepted Funds or the Fixed Allocation Funds are considered Other Funds.

Fixed Allocation Funds Automatic Rebalancing. If the contract value in the Fixed Allocation Funds is less than the specified percentage noted above of the total contract value allocated to the Fixed Allocation Funds and Other Funds on any ING LifePay Plus Rebalancing Date, we will automatically rebalance the contract value allocated to the Fixed Allocation Funds and Other Funds so that a specified percentage of this amount is allocated to the Fixed Allocation Funds. The specified percentage depends on the rider's purchase date. Accepted Funds are excluded from Fixed Allocation Funds Automatic Rebalancing. Any rebalancing is done on a pro-rata basis among the Other Funds and will be the last transaction processed on that date. The ING LifePay Plus Rebalancing Dates occur on each contract anniversary and after the following transactions:

- 1) Receipt of additional premiums;
- 2) Transfer or reallocation among the Fixed Allocation Funds or Other Funds, whether automatic or specifically directed by you;
- 3) Withdrawals from the Fixed Allocation Funds or Other Funds.

Fixed Allocation Funds Automatic Rebalancing is separate from any other automatic rebalancing under the contract. However, if the other automatic rebalancing under the contract causes the allocations to be out of compliance with the investment option restrictions noted above, Fixed Allocation Funds Automatic Rebalancing will occur immediately after the automatic rebalancing to restore the required allocations. See "Appendix J—Examples of Fixed Allocation Funds Automatic Rebalancing." You will be notified that Fixed Allocation Funds Automatic Rebalancing has occurred, along with your new allocations, by a confirmation statement that will be mailed to you after Fixed Allocation Funds Automatic Rebalancing has occurred.

In certain circumstances, Fixed Allocation Funds Automatic Rebalancing may result in a reallocation into a Fixed Allocation Fund even if you have not previously been invested in it. See "Appendix J—Examples of Fixed Allocation Funds Automatic Rebalancing, Example I." **By electing to purchase the ING LifePay Plus rider, you are providing the Company with direction and authorization to process these transactions, including reallocations into the Fixed Allocation Funds. You should not purchase the ING LifePay Plus rider if you do not wish to have your contract value reallocated in this manner.**

Death of Owner or Annuitant. The ING LifePay Plus rider terminates (with the rider's charges pro-rated) on the date of death of the owner (or in the case of joint owners, the first owner), or the annuitant if there is a non-natural owner. Also, an ING LifePay Plus rider that is in Lifetime Automatic Periodic Benefit Status terminates on the date of the annuitant's death.

ING LifePay Plus Death Benefit Base. The ING LifePay Plus rider has a death benefit that is payable upon the owner's death only when the ING LifePay Plus Death Benefit Base is greater than the contract's death benefit. The ING LifePay Plus Death Benefit Base is first calculated when you purchase the ING LifePay Plus rider. If the ING LifePay Plus rider is purchased on the contract date, the initial ING LifePay Plus Death Benefit Base is equal to the initial premium. If the ING LifePay Plus rider is purchased after the contract date, the initial ING LifePay Plus Death Benefit Base is equal to the contract value on the rider effective date.

The ING LifePay Plus Death Benefit Base is increased by the dollar amount of any subsequent premiums and subject to any withdrawal adjustments. The ING LifePay Plus Death Benefit Base is reduced by the dollar amount of any withdrawals for the payment of third-party investment advisory fees before the Lifetime Withdrawal Phase begins, and for any withdrawals once the Lifetime Withdrawal Phase begins that are not Excess Withdrawals, including withdrawals for payment of third-party investment advisory fees. The ING LifePay Plus Death Benefit Base is subject to a pro-rata reduction for an Excess Withdrawal. Please see "Withdrawals and Excess Withdrawals" for more information.

There is no additional charge for the death benefit associated with the ING LifePay Plus rider. Please note that the ING LifePay Plus Death Benefit Base is not eligible to participate in Annual Ratchets or 6% Compounding Step-Ups (Quarterly Ratchets and 7% Compounding Step-Ups if the rider was purchased before January 12, 2009).

In the event the ING LifePay Plus Death Benefit Base is greater than zero when the ING LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status, each periodic payment reduces the ING LifePay Plus Death Benefit Base dollar for dollar until the earlier of the ING LifePay Plus Death Benefit Base being reduced to zero or the annuitant's death. Upon the annuitant's death, any remaining ING LifePay Plus death benefit is payable to the beneficiary in a lump-sum.

Spousal Continuation. If the surviving spouse of the deceased owner continues the contract (see “Death Benefit Choices—Continuation After Death—Spouse”), the rider will also continue, provided the spouse becomes the annuitant and sole owner. At the time the contract is continued, the ING LifePay Plus Base is recalculated to equal the contract value, inclusive of the guaranteed death benefit -- UNLESS the continuing spouse is a joint owner and the original annuitant, OR the Lifetime Withdrawal Phase has not yet begun. In these cases, the ING LifePay Plus Base is recalculated to equal the greater of a) the contract value, inclusive of the guaranteed death benefit; and b) the last-calculated ING LifePay Plus Base, subject to pro-rata adjustment for any withdrawals before spousal continuation. Regardless, the ING LifePay Plus rider’s guarantees resume on the next quarterly contract anniversary following spousal continuation. Any withdrawals after spousal continuation of the contract but before the ING LifePay Plus rider’s guarantees resume are Excess Withdrawals. The LifePay Plus rider remains eligible for the Annual Ratchet upon recalculation of the ING LifePay Plus Base (Quarterly Ratchets if this rider was purchased before January 12, 2009).

The Maximum Annual Withdrawal is also recalculated at the same time as the ING LifePay Plus Base; however, there is no Maximum Annual Withdrawal upon spousal continuation until the Lifetime Withdrawal Phase begins on the date of the first withdrawal after spousal continuation, SO LONG AS the annuitant is age 59½. The Maximum Annual Withdrawal is recalculated to equal 5% (the Maximum Annual Withdrawal percentage) multiplied by the ING LifePay Plus Base. There is no adjustment to the Additional Withdrawal Amount upon spousal continuation of the ING LifePay Plus rider for a contract subject to the Required Minimum Distribution rules of the Tax Code. Any withdrawals before the contract owner’s death and spousal continuation are counted in calculating you withdrawals in that contract year to determine whether the Maximum Annual Withdrawal has been exceeded.

Please note, if the contract value is greater than the ING LifePay Plus Base on the date the Lifetime Withdrawal Phase begins, then the ING LifePay Plus Base will be set equal to the contract value before the Maximum Annual Withdrawal is first calculated. Also, upon spousal continuation, the ING LifePay Plus Death Benefit Base equals the ING LifePay Plus Death Benefit Base before the contract owner’s death, subject to any pro-rata adjustment for withdrawals before spousal continuation of the rider.

Contrary to the ING Joint LifePay Plus rider, spousal continuation of the ING LifePay Plus rider would likely NOT take effect at the same time as the contract is continued. As noted above, the ING LifePay Plus rider provides for spousal continuation only on a quarterly contract anniversary (subject to the spouse becoming the annuitant and sole owner). So if you are concerned about the availability of benefits being interrupted with spousal continuation of the ING LifePay Plus rider, you might instead want to purchase the ING Joint LifePay Plus rider.

Change of Owner or Annuitant. The ING LifePay Plus rider terminates (with the rider’s charge pro-rated) upon an ownership change or change of annuitant, except for:

- 1) spousal continuation as described above;
- 2) change of owner from one custodian to another custodian;
- 3) change of owner from a custodian for the benefit of an individual to the same individual;
- 4) change of owner from an individual to a custodian for the benefit of the same individual;
- 5) collateral assignments;
- 6) change in trust as owner where the individual owner and the grantor of the trust are the same individual;
- 7) change of owner from an individual to a trust where the individual owner and the grantor of the trust are the same individual;
- 11) change of owner from a trust to an individual where the individual owner and the grantor of the trust are the same individual; and
- 12) change of owner pursuant to a court order.

Surrender Charges. Once the Lifetime Withdrawal Phase begins, your withdrawals within a contract year up to the Maximum Annual Withdrawal (and any applicable Additional Withdrawal Amount) are not subject to surrender charges. We waive any surrender charges otherwise applicable to your withdrawal in a contract year that are less than or equal to the Maximum Annual Withdrawal. Excess Withdrawals are subject to surrender charges, whether or not the Lifetime Withdrawal Phase has begun. Once your contract value is reduced to zero, any periodic payments under the ING LifePay Plus rider are not subject to surrender charges. Moreover, with no contract value, none of your contract level recurring charges (e.g., the Mortality and Expense Risk Charge) would be deducted.

Loans. No loans are permitted on contracts with the ING LifePay Plus rider.

Taxation. For more information about the tax treatment of amounts paid to you under the ING LifePay Plus Rider, see “Federal Tax Considerations—Tax Consequences of Living Benefits and Death Benefit” in the prospectus.

ING Joint LifePay Plus Minimum Guaranteed Withdrawal Benefit (“ING Joint LifePay Plus”) Rider. The ING Joint LifePay Plus rider generally provides, subject to the restrictions and limitations below, that we will guarantee a minimum level of annual withdrawals from the contract for the lifetime of both you and your spouse, even if these withdrawals deplete your contract value to zero. You may wish to purchase this rider if you are married and are concerned that you and your spouse may outlive your income.

Purchase. The ING Joint LifePay Plus rider is only available for purchase by individuals who are married at the time of purchase (spouses) and eligible to elect spousal continuation (as defined by the Tax Code) of the contract when the death benefit becomes payable, subject to the owner, annuitant, and beneficiary requirement below. The maximum issue age is 80. Both spouses must meet these issue age requirements. The issue age is the age of the owners on the date on the rider effective date. The ING Joint LifePay Plus rider is subject to broker-dealer availability. The ING Joint LifePay Plus rider was available for contracts issued on and after April 28, 2008 through April 30, 2009 (subject to availability and state approvals) that did not already have a living benefit rider. **The ING Joint LifePay Plus rider will not be issued unless the required owner, annuitant, and beneficiary designations are met, and until your contract value is allocated in accordance with the investment option restrictions described in “Investment Option Restrictions,” below.** The Company in its discretion may allow the rider to be elected after a contract has been issued without it, subject to certain conditions. Contact the Customer Service Center for more information. Such election must be received in good order, including compliance with the investment restrictions described below. The rider will be effective as of the following quarterly contract anniversary.

Ownership, Annuitant, and Beneficiary Designation Requirements. Certain ownership, annuitant, and beneficiary designations are required in order to purchase the ING Joint LifePay Plus rider. These designations depend upon whether the contract is issued as a nonqualified contract, an IRA or a custodial IRA. In all cases, the ownership, annuitant, and beneficiary designations must allow for the surviving spouse to continue the contract when the death benefit becomes payable, as provided by the Tax Code. Non-natural, custodial owners are only allowed with IRAs (“custodial IRAs”). Joint annuitants are not allowed. The necessary ownership, annuitant, and/or beneficiary designations are described below. Applications that do not meet the requirements below will be rejected. We reserve the right to verify the date of birth and social security number of both spouses.

Nonqualified Contracts. For a jointly owned contract, the owners must be spouses, and the annuitant must be one of the owners. For a contract with only one owner, the owner’s spouse must be the sole primary beneficiary, and the annuitant must be one of the spouses.

IRAs. There may only be one owner, who must also be the annuitant. The owner’s spouse must be the sole primary beneficiary.

Custodial IRAs. While we do not maintain individual owner and beneficiary designations for IRAs held by an outside custodian, the ownership and beneficiary designations with the custodian must comply with the requirements listed in “IRAs,” above. The annuitant must be the same as the beneficial owner of the custodial IRA. We require the custodian to provide us the name and date of birth of both the owner and the owner’s spouse.

Rider Effective Date. The rider effective date is the date coverage under the ING Joint LifePay Plus rider begins. If you purchase the ING Joint LifePay Plus rider when the contract is issued, the ING Joint LifePay Plus rider effective date is also the contract date. If the ING Joint LifePay Plus rider is added after contract issue, the rider effective date is the date of the contract’s next following quarterly contract anniversary. A quarterly contract anniversary occurs each quarter of a contract year from the contract date.

No Cancellation. Once you purchase the ING Joint LifePay Plus rider, you may not cancel it unless you: a) cancel the contract during the contract’s free look period; b) surrender; c) begin receiving income phase payments in lieu of payments under the rider; or d) otherwise terminate the contract pursuant to its terms. These events automatically cancel the rider. The Company may, at its discretion, cancel and/or replace the ING Joint LifePay Plus rider at your request in order to renew or reset the rider.

Termination. The ING Joint LifePay Plus rider is a “living benefit,” which means the guaranteed benefits offered are intended to be available to you and your spouse while you are living and while your contract is in the accumulation phase. The optional rider automatically terminates if you:

- 1) Terminate your contract pursuant to its terms during the accumulation phase, surrender, or begin receiving income phase payments in lieu of payments under the rider;
- 2) Die during the accumulation phase (first owner to die in the case of joint owners, or death of annuitant if the contract is a custodial IRA), unless your spouse elects to continue the contract (and your spouse is active for purposes of the ING Joint LifePay Plus rider); or
- 3) Change the owner of the contract.

Other circumstances that may cause the ING Joint LifePay Plus rider to terminate automatically are discussed below.

Active Spouse. An Active Spouse is the person (people) upon whose life and age the guarantees are calculated under the ING Joint LifePay Plus rider. There must be two Active Spouses when you purchase the ING Joint LifePay Plus rider, who are married to each other and are joint owners, or, for a contract with only one owner, the spouse must be the sole primary beneficiary. You cannot add an Active Spouse after the rider effective date. In general, changes to the ownership of the contract, or changes to the annuitant and/or beneficiary designations, will result in one spouse being deactivated (the spouse is thereafter “inactive”). An inactive spouse is not eligible to exercise any rights or receive any benefits under the ING Joint LifePay Plus rider, including continuing the ING Joint LifePay Plus rider upon spousal continuation of the contract. Once an Active Spouse is deactivated, the spouse may not become an Active Spouse again. Specific situations that will result in an Active Spouse being deactivated include:

- 1) For nonqualified contracts where the spouses are joint owners, the removal of a joint owner (if that spouse does not automatically become sole primary beneficiary pursuant to the terms of the contract), or the change of one joint owner to a person other than an Active Spouse;
- 2) For nonqualified contracts where one spouse is the owner and the other spouse is the sole primary beneficiary, as well as for IRA contracts (including custodial IRAs), the addition of a joint owner who is not also an Active Spouse or any change of beneficiary (including the addition of primary beneficiaries); and
- 3) A spouse’s death.

An owner may also request that one spouse be treated as inactive (deactivated). Both contract owners must agree to such a request when there are joint owners. **However, all charges for the ING Joint LifePay Plus rider will continue to apply, even after a spouse is deactivated, regardless of the reason. You should make sure you understand the impact of beneficiary and owner changes on the ING Joint LifePay Plus rider prior to requesting any such changes.**

Please note that a divorce will terminate the ability of an ex-spouse to continue the contract. See “Divorce,” below.

Charge. The charge for the ING Joint LifePay Plus rider, a living benefit, is deducted quarterly from your contract value:

Maximum Annual Charge	Current Annual Charge
1.50%	0.90%

This quarterly charge is a percentage of the ING Joint LifePay Plus Base. **If the rider was purchased before January 12, 2009, the current annual charge is 0.80%.** We deduct the charge in arrears based on the contract date (contract year versus calendar year). In arrears means the first charge is deducted at the end of the first quarter from the contract date. If the rider is added after contract issue, the rider and charges will begin on the next following quarterly contract anniversary. The charge will be pro-rated when the rider is terminated. Charges will no longer be deducted once your rider enters Lifetime Automatic Periodic Benefit Status. Lifetime Automatic Periodic Benefit Status occurs if your contract value is reduced to zero and other conditions are met. We reserve the right to increase the charge for the ING LifePay Plus rider upon a Annual Ratchet once the Lifetime Withdrawal Phase begins. For riders issued before January 12, 2009, we reserve the right to increase the charge for the ING LifePay Plus rider upon a Quarterly Ratchet once the Lifetime Withdrawal Phase begins. You will never pay more than new issues of this rider, subject to the maximum annual charge. We will not increase the charge for the first five years after the effective date of the rider. You will never pay more than new issues of this rider, subject to the maximum annual charge. For more information about how this rider works, including when Lifetime Automatic Periodic Benefit Status begins, please see “Optional Living Benefit Riders–ING Joint LifePay Plus Minimum Guaranteed Withdrawal Benefit Rider.”

If the contract value in the subaccounts is insufficient for the charge, then we deduct it from any Fixed Interest Allocations, in which case a Market Value Adjustment may apply. But currently, a Market Value Adjustment would not apply when this charge is deducted from a Fixed Interest Allocation. With Fixed Interest Allocations, we deduct the charge from the Fixed Interest Allocation having the nearest maturity. For more information about the Fixed Interest Allocation, including the Market Value Adjustment, please see Appendix C. We reserve the right to change the charge for this rider, subject to the maximum annual charge. If changed, the new charge will only apply to riders issued after the change.

Highlights. *This paragraph introduces the terminology used with the ING Joint LifePay Plus rider and how its components generally work together. Benefits and guarantees are subject to the terms, conditions and limitations of the ING Joint LifePay Plus rider. More detailed information follows below, with capitalized words that are underlined indicating headings for ease of reference.* The ING Joint LifePay Plus rider guarantees an amount available for withdrawal from the contract in any contract year once the Lifetime Withdrawal Phase begins -- we use the ING Joint LifePay Plus Base as part of the calculation of the Maximum Annual Withdrawal. The guarantee continues when the ING Joint LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status, at which time we will pay you periodic payments in an annual amount equal to the Maximum Annual Withdrawal (since contract value would be zero) until the last Active Spouse's death. The ING Joint LifePay Plus Base is eligible for Annual Ratchets and 6% Compounding Step-Ups (Quarterly Ratchets and 7% Compounding Step-Ups for riders issued before January 12, 2009), and subject to adjustment for any Excess Withdrawals. The ING Joint LifePay Plus rider has an allowance for withdrawals from a contract subject to the Required Minimum Distribution rules of the Tax Code that would otherwise be Excess Withdrawals. The ING Joint LifePay Plus rider has a death benefit that is payable upon the contract owner's death only when the ING Joint LifePay Plus Death Benefit Base is greater than the contract's death benefit. The ING Joint LifePay Plus rider allows for spousal continuation.

ING Joint LifePay Plus Base. The ING Joint LifePay Plus Base is first calculated when you purchase the ING Joint LifePay Plus rider: (a) On the contract date, it is equal to the initial premium; and (b) After the contract date, it is equal to the contract value on the effective date of the rider.

The ING Joint LifePay Plus Base is increased, dollar for dollar, by any subsequent premiums. We refer to the ING Joint LifePay Plus Base as the MGWB Base in the ING Joint LifePay Plus rider.

Withdrawals and Excess Withdrawals. Once the Lifetime Withdrawal Phase begins, withdrawals within a contract year up to the Maximum Annual Withdrawal, including for payment of third-party investment advisory fees, have no impact on the ING Joint LifePay Plus Base. These withdrawals will not incur surrender charges or a negative Market Value Adjustment associated with any Fixed Account allocations. For example, assume the current contract value is \$90,000 on a contract with the ING Joint LifePay Plus rider in the Lifetime Withdrawal Phase. The ING Joint LifePay Plus Base is \$100,000, and the Maximum Annual Withdrawal is \$5,000. Even though a withdrawal of \$5,000 would reduce the contract value to \$85,000, the ING Joint LifePay Plus Base would remain at its current level (as would the Maximum Annual Withdrawal as well) since the withdrawal did not exceed the Maximum Annual Withdrawal. See below for more information about the Maximum Annual Withdrawal.

An Excess Withdrawal is a withdrawal either before the Lifetime Withdrawal Phase begins (except for payment of third-party investment advisory fees), or once the Lifetime Withdrawal Phase begins, any portion of a withdrawal during a contract year that exceeds the Maximum Annual Withdrawal. An Excess Withdrawal will cause a pro-rate reduction of the ING Joint LifePay Plus Base -- in the same proportion as contract value is reduced by the portion of the withdrawal that is considered excess, inclusive of surrender charges, or Market Value Adjustment associated with any Fixed Account allocations (rather than the total amount of the withdrawal). An Excess Withdrawal will also cause the Maximum Annual Withdrawal to be recalculated. See Illustrations 1, 2, and 6 for examples of the consequences of an Excess Withdrawal.

Please note that any withdrawals before the rider effective date in the same contract year when the ING Joint LifePay Plus rider is added after contract issue are counted in calculating your withdrawals in that contract year to determine whether the Maximum Annual Withdrawal has been exceeded.

Annual Ratchet. The ING Joint LifePay Plus Base is recalculated on each contract anniversary -- to equal the greater of: a) the current ING Joint LifePay Plus Base; or b) the current contract value. We call this recalculation an Annual Ratchet.

For riders issued before January 12, 2009, the ING Joint LifePay Plus Base is recalculated on each quarterly contract anniversary (once each quarter of a contract year from the contract date). In this circumstance, we call this recalculation a Quarterly Ratchet.

Once the Lifetime Withdrawal Phase begins, we reserve the right to increase the charge for the ING Joint LifePay Plus rider upon an Annual Ratchet. You will never pay more than new issues of the ING Joint LifePay Plus rider, subject to the maximum annual charge, and we will not increase this charge for your first five years after the rider effective date. We will notify you in writing not less than 30 days before a charge increase. Our written notice will outline the procedure you will need to follow to do so. You may avoid the charge increase by canceling the forthcoming Annual Ratchet. Please note, however, that from then on the ING Joint LifePay Plus Base would no longer be eligible for any Annual Ratchets, so the Maximum Annual Withdrawal percentage would not be eligible to increase. More information about the Maximum Annual Percentage is below under "Maximum Annual Withdrawal." Our written notice will also remind you of the consequences of canceling the forthcoming Annual Ratchet.

For riders issued before January 12, 2009, we reserve the right to increase the charge for this rider upon a Quarterly Ratchet once the Lifetime Withdrawal Phase begins. You will never pay more than new issues of the rider, subject to the maximum charge, and we promise not to increase the charge for your first five contract years. Canceling a forthcoming Quarterly Ratchet to avoid the charge increase will have the same outcome, as noted above.

6% Compounding Step-Up. The ING Joint LifePay Plus Base is recalculated on each of the first ten contract anniversaries after the rider effective date, SO LONG AS no withdrawals were taken during the preceding contract year. The recalculated ING Joint LifePay Plus Base will equal the greatest of a) The current ING Joint LifePay Plus Base; b) The current contract value; and c) The ING Joint LifePay Plus Base on the previous contract anniversary, increased by 6%, plus any premiums received and minus any withdrawals for payment of third-party investment advisory fees since the previous contract anniversary. We call this recalculation a 6% Compounding Step-Up.

Please note there are no partial 6% Compounding Step-Ups. The 6% Compounding Step-Up is not pro-rated. For riders added to existing contracts (a post contract issuance election), the first opportunity for a 6% Compounding Step-Up will not be until the first contract anniversary after a full contract year has elapsed since the rider effective date.

For example, assume a contract owner decides to add the ING Joint LifePay Plus rider on March 15, 2009 to a contract that was purchased on January 1, 2009. The rider effective date is April 1, 2009, which is the date of the contract's next following quarterly contract anniversary. Because on January 1, 2010 a full contract year will not have elapsed since the rider effective date, the ING Joint LifePay Plus Base will not be eligible for a step-up. Rather, the first opportunity for a step-up with this contract will be on January 1, 2011.

For riders issued before January 12, 2009, the step-up is 7%, which we call a 7% Compounding Step-Up. The 7% Compounding Step-Up is not pro-rated.

Lifetime Withdrawal Phase. The Lifetime Withdrawal Phase begins on the date of your first withdrawal (except those for payment of third-party investment advisory fees), SO LONG AS the youngest Active Spouse is age 65. On this date, the ING Joint LifePay Plus Base is recalculated to equal the greater of the current ING Joint LifePay Plus Base or the current contract value. The Lifetime Withdrawal Phase will continue until the earliest of:

- 1) the date income phase payments begin (see "The Income Phase);
- 2) reduction of the contract value to zero by an Excess Withdrawal;
- 3) reduction of the contract value to zero by a withdrawal less than or equal to the Maximum Annual Withdrawal;
- 4) the surrender of the contract; or
- 5) the death of the owner (first owner, in the case of joint owners; annuitant, in the case of a non-natural person owner), unless your spouse beneficiary is an Active Spouse who elects to continue the contract; or
- 6) the last Active Spouse dies.

The ING Joint LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status in the even contract value is reduced to zero other than by an Excess Withdrawal. Please see "Lifetime Automatic Periodic Benefit Status" below for more information.

Maximum Annual Withdrawal. The Maximum Annual Withdrawal is the amount that the ING Joint LifePay Plus rider guarantees to be available for withdrawal from the contract in any contract year. The Maximum Annual Withdrawal is first calculated when the Lifetime Withdrawal Phase begins and equals the Maximum Annual Withdrawal percentage of 5% multiplied by the ING Joint LifePay Plus Base. The Maximum Annual Withdrawal is thereafter recalculated whenever the ING Joint LifePay Plus Base is recalculated (for example, upon a Quarterly Ratchet or 7% Compounding Step-Ups).

In the event on the date the Lifetime Withdrawal Phase begins the contract value is greater than the ING Joint LifePay Plus Base, then before the Maximum Annual Withdrawal is first calculated, the ING Joint LifePay Plus Base will be set equal to the contract value. The greater the ING Joint LifePay Plus Base, the greater the amount will be available to you for withdrawal under the ING Joint LifePay Plus rider in calculating the Maximum Annual Withdrawal for the first time. In addition, if the contract's income phase commencement date is reached while the ING Joint LifePay Plus rider is in the Lifetime Withdrawal Phase, you may elect a life only income phase option, in lieu of the contract's other income phase options, under which we will pay the greater of the income phase payout under the contract and the equal payments of the Maximum Annual Withdrawal. For more information about the contract's income phase options, see "The Income Phase" in the prospectus.

Required Minimum Distributions. The ING Joint LifePay Plus rider allows for withdrawals from a contract subject to the Required Minimum Distribution rules of the Tax Code that exceed the Maximum Annual Withdrawal without causing a pro-rata reduction of the ING Joint LifePay Plus Base and recalculation of the Maximum Annual Withdrawal. If your Required Minimum Distribution for a calendar year (determined on a date on or before January 31 of that year), applicable to this contract, is greater than the Maximum Annual Withdrawal on that date, then an Additional Withdrawal Amount will be set equal to that portion of the Required Minimum Distribution that exceeds the Maximum Annual Withdrawal. Once you have taken the Maximum Annual Withdrawal for the then current contract year, the dollar amount of any additional withdrawals will count first against and reduce any unused Additional Withdrawal Amount for the previous calendar year followed by any Additional Withdrawal Amount for the current calendar year -- without constituting an Excess Withdrawal.

See Illustration 3 below, for an example.

Withdrawals that exceed the Maximum Annual Withdrawal and all available Additional Withdrawal Amounts are Excess Withdrawals that will cause a pro-rata reduction of the ING Joint LifePay Plus Base and the Maximum Annual Withdrawal to be recalculated. See Illustration 5, below for an example of the consequences of an Excess Withdrawal with an Additional Withdrawal Amount. The Additional Withdrawal Amount is available on a calendar year basis and recalculated every January, reset to equal that portion of the Required Minimum Distribution for that calendar year that exceeds the Maximum Annual Withdrawal on that date. Any unused amount of the Additional Withdrawal Amount carries over into the next calendar year and is available through the end of that year, at which time any amount remaining will expire. See Illustration 4 for an example of the Additional Withdrawal Amount being carried over. **Please note that there is no adjustment to the Additional Withdrawal Amount for Annual Ratchets (Quarterly Ratchets for riders issued before January 12, 2009) or upon spousal continuation of the ING Joint LifePay Plus Rider.**

Lifetime Automatic Periodic Benefit Status. The ING Joint LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status when your contract value is reduced to zero other than by an Excess Withdrawal (a withdrawal in excess of the Maximum Annual Withdrawal that causes your contract value to be reduced to zero will terminate the ING Joint LifePay Plus rider). You will no longer be entitled to make withdrawals, but instead will begin to receive periodic payments in an annual amount equal to the Maximum Annual Withdrawal. When the rider enters Lifetime Automatic Periodic Benefit Status:

- 1) The contract will provide no further benefits (including death benefits) other than as provided under the ING Joint LifePay Plus rider;
- 2) No further premium payments will be accepted; and
- 3) Any other riders issued with the contract will terminate, unless otherwise specified in that rider.

During Lifetime Automatic Periodic Benefit Status, we will pay you periodic payments in an annual amount that is equal to the Maximum Annual Withdrawal. These payments will cease upon the death of the annuitant at which time both the rider and the contract will terminate. The rider will remain in Lifetime Automatic Periodic Benefit Status until it terminates without value upon the last Active Spouse's death.

If, when the ING Joint LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status, your net withdrawals to date are less than the Maximum Annual Withdrawal for that contract year, then we will pay you the difference immediately. The periodic payments will begin on the first contract anniversary following the date the rider enters Lifetime Automatic Periodic Benefit Status and will continue to be paid annually thereafter.

In the event contract value is reduced to zero before the Lifetime Withdrawal Phase begins, Lifetime Automatic Periodic Benefit Status is deferred until the contract anniversary on or after the youngest Active Spouse is age 65. During this time, the ING Joint LifePay Plus rider's death benefit remains payable upon the last Active Spouse's death, and the ING Joint LifePay Plus rider remains eligible for the 6% Compounding Step-Ups (7% Compounding Step-Ups for riders issued before January 12, 2009). Once the ING Joint LifePay Plus rider enters the Lifetime Automatic Periodic Benefit Status, periodic payments will begin in an annual amount equal to 5% (the Maximum Annual Withdrawal percentage) multiplied by the ING Joint LifePay Plus Base.

You may elect to receive systematic withdrawals pursuant to the terms of the contract. Under a systematic withdrawal, either a fixed amount or an amount based upon a percentage of the contract value will be withdrawn from your contract and paid to you on a scheduled basis, either monthly, quarterly, or annually. If, at the time the rider enters Lifetime Automatic Periodic Benefit Status, you are receiving systematic withdrawals under the contract more frequently than annually, the periodic payments will be made at the same frequency in equal amounts such that the sum of the payments in each contract year will equal the annual Maximum Annual Withdrawal. Such payments will be made on the same payment dates as previously set up, if the payments were being made monthly or quarterly. If the payments were being made annually, then the payments will be made on each following contract anniversary.

Investment Option Restrictions. While the ING Joint LifePay Plus rider is in effect, there are limits on the portfolios to which your contract value may be allocated. Contract value allocated to portfolios other than Accepted Funds will be rebalanced so as to maintain at least a specified percentage of such contract value in the Fixed Allocation Funds, which percentage depends on the rider's purchase date:

Rider Purchase Date	Fixed Allocation Fund Percentage
Currently	30%
Before January 12, 2009	25%
Before October 6, 2008	20%

See "Fixed Allocation Funds Automatic Rebalancing," below. We impose these investment option restrictions in order to lessen the likelihood we would have to make payments under this rider. We require these allocations regardless of your investment instructions to the contract. The ING Joint LifePay Plus rider will not be issued until your contract value is allocated in accordance with these investment options restrictions. The timing of when and how we apply these restrictions is discussed further below.

Accepted Funds. Currently, the Accepted Funds are:

- Fixed Account II
- Fixed Interest Division
- ING Liquid Assets Portfolio
- ING Solution Income Portfolio
- ING Solution 2015 Portfolio
- ING Solution 2025 Portfolio
- ING Solution 2035 Portfolio
- ING T. Rowe Price Capital Appreciation Portfolio.

If this rider was purchased before January 12, 2009, the following are additional Accepted Funds:

- ING Franklin Templeton Founding Strategy Portfolio; and
- ING WisdomTreeSM Global High-Yielding Equity Index Portfolio

No rebalancing is necessary if the contract value is allocated entirely to Accepted Funds. We may change these designations at any time upon 30 days notice to you. If a change is made, the change will apply to contract value allocated to such portfolios after the date of the change.

Fixed Allocation Fund. Currently, the Fixed Allocation Funds are:

- ING American Funds Bond Portfolio
- ING BlackRock Inflation Protected Bond Portfolio
- ING Intermediate Bond Portfolio
- ING U.S. Bond Index Portfolio.

You may allocate your contract value to one or more Fixed Allocation Funds. We consider the ING Intermediate Bond Portfolio to be the default Fixed Allocation Fund in connection with Fixed Allocation Funds Automatic Rebalancing.

Other Funds. All portfolios available under the contract other than Accepted Funds or the Fixed Allocation Funds are considered Other Funds.

Fixed Allocation Funds Automatic Rebalancing. If the contract value in the Fixed Allocation Funds is less than the specified percentage of the total contract value allocated to the Fixed Allocation Funds and Other Funds on any ING Joint LifePay Plus Rebalancing Date, we will automatically rebalance the contract value allocated to the Fixed Allocation Funds and Other Funds so that the specified percentage is allocated to the Fixed Allocation Funds. The specified percentage depends on the rider's purchase date. Accepted Funds are excluded from Fixed Allocation Funds Automatic Rebalancing. Any rebalancing is done on a pro-rata basis among the Other Funds and will be the last transaction processed on that date. The ING Joint LifePay Plus Rebalancing Dates occur on each contract anniversary and after the following transactions:

- 1) Receipt of additional premiums;
- 2) Transfer or reallocation among the Fixed Allocation Funds or Other Funds, whether automatic or specifically directed by you; and
- 3) Withdrawals from the Fixed Allocation Funds or Other Funds.

Fixed Allocation Funds Automatic Rebalancing is separate from any other automatic rebalancing under the contract. However, if the other automatic rebalancing under the contract causes the allocations to be out of compliance with the investment option restrictions noted above, Fixed Allocation Funds Automatic Rebalancing will occur immediately after the automatic rebalancing to restore the required allocations. See "Appendix J—Examples of Fixed Allocation Funds Automatic Rebalancing." You will be notified that Fixed Allocation Funds Automatic Rebalancing has occurred, along with your new allocations, by a confirmation statement that will be mailed to you after Fixed Allocation Funds Automatic Rebalancing has occurred.

In certain circumstances, Fixed Allocation Funds Automatic Rebalancing may result in a reallocation into a Fixed Allocation Fund even if you have not previously been invested in it. See "Appendix J—Examples of Fixed Allocation Funds Automatic Rebalancing, Example I." **By electing to purchase the ING Joint LifePay Plus rider, you are providing the Company with direction and authorization to process these transactions, including reallocations into the Fixed Allocation Funds. You should not purchase the ING Joint LifePay Plus rider if you do not wish to have your contract value reallocated in this manner.**

Divorce. Generally, in the event of a divorce, the spouse who retains ownership of the contract will continue to be entitled to all rights and benefits of the ING Joint LifePay Plus rider, while the ex-spouse will no longer have any such rights or be entitled to any such benefits. In the event of a divorce during the Lifetime Withdrawal Phase, the ING Joint LifePay Plus rider will continue until the owner's death (first owner in the case of joint owners, or the annuitant in the case of a custodial IRA). Although spousal continuation may be available under the Tax Code for a subsequent spouse, the ING Joint LifePay Plus rider cannot be continued by the new spouse. As the result of the divorce, we may be required to withdraw assets for the benefit of an ex-spouse. Any such withdrawal will be considered a withdrawal for purposes of the ING Joint LifePay Plus Base. See "Withdrawals" and "Excess Withdrawal," above. In the event of a divorce during Lifetime Automatic Periodic Benefit Status, there will be no change in the amount of your periodic payments. Payments will continue until both spouses are deceased.

Death of Owner or Annuitant. The ING Joint LifePay Plus rider terminates (with the rider's charges pro-rated) on the earlier of the date of death of the last Active Spouse, or when the surviving spouse decides not to continue the contract.

ING Joint LifePay Plus Death Benefit Base. The ING Joint LifePay Plus rider has a death benefit that is payable upon the owner's death only when the ING Joint LifePay Plus Death Benefit Base is greater than the contract's death benefit. The ING Joint LifePay Plus Death Benefit Base is first calculated when you purchase the ING Joint LifePay Plus rider. If the ING Joint LifePay Plus rider is purchased on the contract date, the initial ING Joint LifePay Plus Death Benefit Base is equal to the initial premium. If the ING Joint LifePay Plus rider is purchased after the contract date, the initial ING Joint LifePay Plus Death Benefit Base is equal to the contract value on the rider effective date.

The ING Joint LifePay Plus Death Benefit Base is increased by the dollar amount of any subsequent premiums and subject to any withdrawal adjustments. The ING Joint LifePay Plus Death Benefit Base is reduced by the dollar amount of any withdrawals for the payment of third-party investment advisory fees before the Lifetime Withdrawal Phase begins, and for any withdrawals once the Lifetime Withdrawal Phase begins that are not Excess Withdrawals, including withdrawals for payment of third-party investment advisory fees. The ING Joint LifePay Plus Death Benefit Base is subject to a pro-rata reduction for an Excess Withdrawal. Please see "Withdrawals and Excess Withdrawals" for more information.

There is no additional charge for the death benefit associated with the ING Joint LifePay Plus rider. Please note that the ING Joint LifePay Plus Death Benefit Base is not eligible to participate in Annual Ratchets or 6% Compounding Step-Ups (Quarterly Ratchets and 7% Compounding Step-Ups for riders issued prior to January 12, 2009).

In the event the ING Joint LifePay Plus Death Benefit Base is greater than zero when the ING Joint LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status, each periodic payment reduces the ING Joint LifePay Plus Death Benefit Base dollar for dollar until the earlier of the ING Joint LifePay Plus Death Benefit Base being reduced to zero or the last Active Spouse's death. Upon the last Active Spouse's death, any remaining ING Joint LifePay Plus death benefit is payable to the beneficiary in a lump-sum.

Spousal Continuation. If the surviving spouse of the deceased owner continues the contract (see "Death Benefit Choices—Continuation After Death—Spouse"), the rider will continue, SO LONG AS the surviving spouse is an Active Spouse. At that time, the ING Joint LifePay Plus Base is recalculated to equal the greater of a) the contract value, inclusive of the guaranteed death benefit; and b) the last-calculated ING Joint LifePay Plus Base, subject to pro-rata adjustment for any withdrawals before spousal continuation.

The Maximum Annual Withdrawal is also recalculated; however, there is no Maximum Annual Withdrawal upon spousal continuation until the Lifetime Withdrawal Phase begins on the date of the first withdrawal after spousal continuation, SO LONG AS the annuitant is age 65. The Maximum Annual Withdrawal is recalculated to equal 5% (the Maximum Annual Withdrawal percentage) multiplied by the ING Joint LifePay Plus Base. There is no adjustment to the Additional Withdrawal Amount upon spousal continuation of the ING Joint LifePay Plus rider for a contract subject to the Required Minimum Distribution rules of the Tax Code. Any withdrawals before the contract owner's death and spousal continuation are counted in calculating your withdrawals in that contract year to determine whether the Maximum Annual Withdrawal has been exceeded.

Please note, if the contract value is greater than the ING Joint LifePay Plus Base on the date the Lifetime Withdrawal Phase begins, then the ING Joint LifePay Plus Base will be set equal to the contract value before the Maximum Annual Withdrawal is first calculated. Also, upon spousal continuation, the ING Joint LifePay Plus Death Benefit Base equals the ING Joint LifePay Plus Death Benefit Base before the contract owner's death, subject to any pro-rata adjustment for withdrawals before spousal continuation of the rider.

Change of Owner or Annuitant. The ING Joint LifePay Plus rider terminates (with the rider's charge pro-rated) upon an ownership change or change of annuitant, except for:

- 1) spousal continuation by an Active Spouse, as described above;
- 2) change of owner from one custodian to another custodian;
- 3) change of owner from a custodian for the benefit of an individual to the same individual (the owner's spouse must be named sole beneficiary under the contract to remain an Active Spouse);
- 4) change of owner from an individual to a custodian for the benefit of the same individual;
- 5) collateral assignments;
- 6) for nonqualified contracts only, the addition of a joint owner, provided that the additional joint owner is the original owner's spouse and is an Active Spouse when added as joint owner;

- 7) for nonqualified contracts only, the removal of a joint owner, provided the removed joint owner is an Active Spouse and becomes the sole primary beneficiary; and
- 8) change of owner where the owner becomes the sole primary beneficiary and the sole primary beneficiary becomes the owner, provided both spouses are Active Spouses at the time of the change.

Surrender Charges. Once the Lifetime Withdrawal Phase begins, your withdrawals within a contract year up to the Maximum Annual Withdrawal (and any applicable Additional Withdrawal Amount) are not subject to surrender charges. We waive any surrender charges otherwise applicable to your withdrawal in a contract year that are less than or equal to the Maximum Annual Withdrawal. Excess Withdrawals are subject to surrender charges, whether or not the Lifetime Withdrawal Phase has begun. Once your contract value is reduced to zero, any periodic payments under the ING Joint LifePay Plus rider are not subject to surrender charges. Moreover, with no contract value, none of your contract level recurring charges (e.g., the Mortality and Expense Risk Charge) would be deducted.

Federal Tax Considerations. For more information about the tax treatment of amounts paid to you under the ING Joint LifePay Plus rider, see “Federal Tax Considerations–Tax Consequences of Living Benefits and Death Benefit” in the contract prospectus.

Important Note:

The following information pertains to the form of ING LifePay Plus and ING Joint LifePay Plus riders available for purchase on and after April 20, 2007 through April 27, 2008. If you purchased the ING LifePay or ING Joint LifePay rider, please see Appendix L for more information.

ING LifePay Plus Minimum Guaranteed Withdrawal Benefit (“ING LifePay Plus”) Rider. The ING LifePay Plus rider generally provides, subject to the restrictions and limitations below, that we will guarantee a minimum level of annual withdrawals from the contract for the lifetime of the annuitant, even if these withdrawals deplete your contract value to zero. You may wish to purchase this rider if you are concerned that you may outlive your income.

Purchase. In order to elect the ING LifePay Plus rider, the annuitant must be the owner or one of the owners, unless the owner is a non-natural owner. Joint annuitants are not allowed. The maximum issue age is 80. The issue age is the age of the owner (or the annuitant if there are joint owners or the owner is non-natural) on the rider date. Some broker-dealers may limit the availability of the rider to younger ages. The ING LifePay Plus rider was available for contracts issued **on and after August 20, 2007 through April 27, 2008** (subject to availability and state approvals) that did not already have a living benefit rider. The ING LifePay Plus rider will not be issued if the initial allocation to investment options is not in accordance with the investment option restrictions described in “Investment Option Restrictions,” below. The Company in its discretion may allow the rider to be elected after a contract has been issued without it, subject to certain conditions. Contact the Customer Service Center for more information. Such election must be received in good order, including compliance with the investment restrictions described below. The rider will be effective as of the following quarterly contract anniversary.

Rider Date. The rider date is the date the ING LifePay Plus rider becomes effective. If you purchase the ING LifePay Plus rider when the contract is issued, the rider date is also the contract date.

Charge. The charge for the ING LifePay Plus rider, a living benefit, is deducted quarterly from your contract value:

Maximum Annual Charge	Current Annual Charge
2.00%	0.50%

This quarterly charge is a percentage of the ING LifePay Plus Base. We deduct the charge in arrears based on the contract date (contract year versus calendar year). In arrears means the first charge is deducted at the end of the first quarter from the contract date. If the rider is added after contract issue, the rider and charges will begin on the next following quarterly contract anniversary. The charge will be pro-rated when the rider is terminated. Charges are deducted through the date your rider enters either the Automatic Periodic Benefit Status or Lifetime Automatic Periodic Benefit Status. Automatic Periodic Benefit Status or Lifetime Automatic Periodic Benefit Status occurs if your contract value is reduced to zero and other conditions are met. The current charge can change upon a reset after your first five contract years. You will never pay more than the maximum annual charge.

If the contract value in the subaccounts is insufficient for the charge, then we deduct it from any Fixed Interest Allocations, in which case a Market Value Adjustment may apply. But currently, a Market Value Adjustment would not apply when this charge is deducted from the Fixed Account. With the Fixed Account, we deduct the charge from the Fixed Interest Allocation having the nearest maturity. For more information about the Fixed Account, including the Market Value Adjustment, please see Appendix C. We reserve the right to change the charge for this rider, subject to the maximum annual charge. If changed, the new charge will only apply to riders issued after the change.

No Cancellation. Once you purchase the ING LifePay Plus rider, you may not cancel it unless you cancel the contract during the contract's free look period, surrender, begin income phase payments or otherwise terminate the contract. These events automatically cancel the ING LifePay Plus rider. The Company may, at its discretion, cancel and/or replace the ING LifePay Plus rider at your request in order to renew or reset the rider.

Termination. The ING LifePay Plus rider is a "living benefit," which means the guaranteed benefits offered are intended to be available to you while you are living and while your contract is in the accumulation phase. The optional rider automatically terminates if you:

- 1) begin income phase payments, surrender or otherwise terminate your contract during the accumulation phase; or
- 2) die during the accumulation phase (first owner to die if there are multiple contract owners, or death of annuitant if contract owner is not a natural person), unless your spouse beneficiary elects to continue the contract.

The ING LifePay Plus rider will also terminate if there is a change in contract ownership (other than a spousal beneficiary continuation on your death). Other circumstances that may cause the ING LifePay Plus rider to terminate automatically are discussed below.

Guaranteed Withdrawal Status. This status begins on the date of the first withdrawal, ONLY IF the quarterly contract anniversary following the annuitant reaching age 59½ has not yet passed. While the ING LifePay Plus rider is in guaranteed withdrawal status, withdrawals in a contract year up to the Maximum Guaranteed Withdrawal will reduce the ING LifePay Plus Base dollar-for-dollar. This status will then continue until the earliest of:

- 1) quarterly contract anniversary following the annuitant reaching age 59½, provided the contract owner does not decline the change to Lifetime Guaranteed Withdrawal Status;
- 2) reduction of the ING LifePay Plus Base to zero, at which time the rider will terminate;
- 3) the income phase commencement date;
- 4) reduction of the contract value to zero by a withdrawal in excess of the Maximum Annual Withdrawal;
- 5) reduction of the contract value to zero by a withdrawal less than or equal to the Maximum Annual Withdrawal (see "Automatic Periodic Benefit Status," below);
- 6) the surrender of the contract, or the election to begin income phase payments; or
- 7) the death of the owner (first owner, in the case of joint owners; annuitant, in the case of a non-natural person owner), unless your spouse beneficiary elects to continue the contract.

Please note that withdrawals while the ING LifePay Plus rider is in Guaranteed Withdrawal status are not guaranteed for the lifetime of the annuitant.

Lifetime Guaranteed Withdrawal Status. This status begins on the date of your first withdrawal, provided the quarterly contract anniversary following the annuitant's age 59½ has passed. If your first withdrawal is taken before this date, then the Lifetime Guaranteed Withdrawal Status will automatically begin on the quarterly contract anniversary following the annuitant reaching age 59½. This status continues until the earliest of:

- 1) the income phase commencement date;
- 2) reduction of the contract value to zero by a withdrawal in excess of the Maximum Annual Withdrawal;
- 3) reduction of the contract value to zero by a withdrawal less than or equal to the Maximum Annual Withdrawal (see "Lifetime Automatic Periodic Benefit Status," below);
- 4) the surrender of the contract or the election to begin income phase payments; or
- 5) the death of the owner (first owner, in the case of joint owners; annuitant, in the case of a non-natural person owner), unless your spouse beneficiary elects to continue the contract.

You will receive prior notice, of not less than 30 days, if you are in the Guaranteed Withdrawal Status and become eligible for the Lifetime Guaranteed Withdrawal Status. This notice will explain the change, its impact to you and your options. You may decline this change. However, this action will also apply to all future resets (see below) and cannot be reversed. As described below, certain features of the ING LifePay Plus rider may differ depending upon whether you are in Lifetime Guaranteed Withdrawal Status.

How the ING LifePay Plus Rider Works. The ING LifePay Plus Withdrawal Benefit rider has two phases. The first phase, called the Growth Phase, begins on the effective date of the rider and ends as of the business day before the first withdrawal is taken (or when the income phase commencement date is reached). The second phase is called the Withdrawal Phase. This phase begins as of the date of the first withdrawal or the income phase commencement date, whichever occurs first.

Benefits paid under the ING LifePay Plus rider require the calculation of the Maximum Annual Withdrawal. The ING LifePay Plus Base (referred to as the “MGWB Base” in the contract) is used to determine the Maximum Annual Withdrawal and is calculated as follows.

- 1) If you purchased the ING LifePay Plus rider on the contract date, the initial ING LifePay Plus Base is equal to the initial premium.
- 2) If you purchased the ING LifePay Plus rider after the contract date, the initial ING LifePay Plus Base is equal to the contract value on the effective date of the rider.

During the Growth Phase, the initial ING LifePay Plus Base is increased dollar-for-dollar by any premiums received (“eligible premiums”). In addition, on each quarterly contract anniversary, the ING LifePay Plus Base is recalculated as the greater of

- The current ING LifePay Plus Base; or
- The current contract value. This is referred to as a quarterly “ratchet.”

Also, on each of the first ten contract anniversaries, the ING LifePay Plus Base is recalculated as the greatest of

- The current ING LifePay Plus Base; or
- The current contract value; and
- The ING LifePay Plus Base on the previous contract anniversary, increased by 7%, plus any eligible premiums and minus any third-party investment advisory fees paid from your contract during the year. This is referred to as an annual “step-up.”

Please note that if this rider is added after the contract date, then the first opportunity for a step-up will be on the first contract anniversary following a complete contract year after the rider date. You may sometimes see the step-up referred to as the Minimum Annual Deferral Enhancement (or MADE).

The ING LifePay Plus Base has no additional impact on the calculation of income phase payments or withdrawal benefits.

Currently, any additional premiums paid during the Withdrawal Phase are not eligible premiums for purposes of determining the ING LifePay Plus Base or the Maximum Annual Withdrawal; however, we reserve the right to treat such premiums as eligible premiums at our discretion, in a nondiscriminatory manner. Premiums received during the Withdrawal Phase do increase the contract value used to determine the reset Maximum Annual Withdrawal under the benefit reset feature of the ING LifePay Plus rider (see “ING LifePay Plus Reset,” below). We reserve the right to discontinue allowing premium payments during the Withdrawal Phase.

Determination of the Maximum Annual Withdrawal. The Maximum Annual Withdrawal is determined on the date the Withdrawal Phase begins. It equals 5% of the greater of 1) the contract value and 2) the ING LifePay Plus Base as of the last day of the Growth Phase. The first withdrawal after the effective date of the rider (which causes the end of the Growth Phase) is treated as occurring on the first day of the Withdrawal Phase, after calculation of the Maximum Annual Withdrawal.

If the Withdrawal Phase begins before the quarterly contract anniversary on or after the annuitant reaches age 59½, withdrawals in a contract year up to the Maximum Annual Withdrawal will reduce the ING LifePay Plus Base dollar-for-dollar, under what we refer to as the “Standard Withdrawal Benefit.” Then, on the quarterly contract anniversary on or after the annuitant reaches age 59½, the ING LifePay Plus Base will automatically be reset to the current contract value, if greater, and the Maximum Annual Withdrawal will be recalculated.

If the contract’s income phase commencement date is reached while you are in the ING LifePay Plus rider’s Lifetime Guaranteed Withdrawal Status, then you may elect a life only income phase option, in lieu of the contract’s other income phase options, under which we will pay the greater of the income phase payout under the contract and equal annual payments of the Maximum Annual Withdrawal.

If withdrawals in any contract year exceed the Maximum Annual Withdrawal, then the ING LifePay Plus Base and the Maximum Annual Withdrawal will be reduced on a pro-rata basis. This means that both the ING LifePay Plus Base and the Maximum Annual Withdrawal will be reduced by the same proportion as the withdrawal in excess of the Maximum Annual Withdrawal (the “excess withdrawal”) is of the contract value determined:

- 1) before the withdrawal, for the excess withdrawal; and
- 2) after the withdrawal, for the amount withdrawn up to the Maximum Annual Withdrawal (without regard to the excess withdrawal).

When a withdrawal is made, the total withdrawals taken in a contract year are compared with the current Maximum Annual Withdrawal. To the extent that the withdrawal taken causes the total withdrawals in that year to exceed the current Maximum Annual Withdrawal, that withdrawal is considered excess. For purposes of determining whether the Maximum Annual Withdrawal has been exceeded, any applicable Market Value Adjustment or surrender charges will not be applied to the withdrawal. However, for purposes of determining the Maximum Annual Withdrawal reduction after an excess withdrawal, any surrender charges and/or Market Value Adjustment are considered to be part of the withdrawal. See Illustration 1 and 2 below for examples of this concept.

Required Minimum Distributions. Withdrawals taken from the contract to satisfy the Required Minimum Distribution rules of the Tax Code, that exceed the Maximum Annual Withdrawal for a specific contract year, will not be deemed excess withdrawals in that contract year for purposes of the ING LifePay Plus rider, subject to the following rules:

- 1) If your Required Minimum Distribution for a calendar year (determined on a date on or before January 31 of that year), applicable to this contract, is greater than the Maximum Annual Withdrawal on that date, an Additional Withdrawal Amount will be set equal to that portion of the Required Minimum Distribution that exceeds the Maximum Annual Withdrawal.
- 2) You may withdraw the Additional Withdrawal Amount from this contract without it being deemed an excess withdrawal.
- 3) Any withdrawals taken in a contract year will count first against the Maximum Annual Withdrawal for that contract year.
- 4) Once the Maximum Annual Withdrawal for the then current contract year has been taken, additional amounts withdrawn in excess of the Maximum Annual Withdrawal will count first against and reduce any unused Additional Withdrawal Amount for the previous calendar year followed by any Additional Withdrawal Amount for the current calendar year.
- 5) Withdrawals that exceed all available Additional Withdrawal Amounts are excess withdrawals and will reduce the Maximum Annual Withdrawal on a pro-rata basis, as described above.
- 6) The Additional Withdrawal Amount is reset to zero at the end of the second calendar year from which it was originally calculated.
- 7) If the contract is still in the Growth Phase on the date the Additional Withdrawal Amount is determined, but enters the Withdrawal Phase later during that calendar year, the Additional Withdrawal Amount will be equal to the amount in excess of the Maximum Annual Withdrawal necessary to satisfy the Required Minimum Distribution for that year (if any).

See Illustration 3, below.

Investment Advisory Fees. Withdrawals taken pursuant to a program established by the owner for the payment of investment advisory fees to a named third party investment adviser for advice on management of the contract's values will not cause the Withdrawal Phase to begin. During the Growth Phase, such withdrawals reduce the ING LifePay Plus Base on a dollar-for-dollar basis, and during the Withdrawal Phase, these withdrawals are treated as any other withdrawal.

Automatic Periodic Benefit Status. If the contract value is reduced to zero for a reason other than a withdrawal in excess of the Maximum Annual Withdrawal while the rider is in Guaranteed Withdrawal Status, the rider will enter Automatic Periodic Benefit Status and you are entitled to receive periodic payments in an annual amount equal to the Maximum Annual Withdrawal, until the remaining ING LifePay Plus Base is exhausted.

When the rider enters Automatic Periodic Benefit Status:

- 1) the contract will provide no further benefits other than as provided under the ING LifePay Plus rider;
- 2) no further premium payments will be accepted; and
- 3) any other riders attached to the contract will terminate, unless otherwise specified in that rider.

During Automatic Periodic Benefit Status, we will pay you periodic payments in an annual amount that is equal to the Maximum Annual Withdrawal. These payments will continue until the ING LifePay Plus Base is reduced to zero, at which time the rider will terminate without value.

The periodic payments will begin on the last day of the first full contract year following the date the rider enters Automatic Periodic Benefit Status and will continue to be paid annually thereafter. If, at the time the rider enters Automatic Periodic Benefit Status, you are receiving systematic withdrawals under the contract more frequently than annually, the periodic payments will be made at the same frequency in equal amounts such that the sum of the payments in each contract year will equal the annual Maximum Annual Withdrawal. Such payments will be made on the same payment dates as previously set up, if the payments were being made monthly or quarterly. If the payments were being made semi-annually or annually, the payments will be made at the end of the half-contract year or contract year, as applicable.

Lifetime Automatic Periodic Benefit Status. If the contract value is reduced to zero by a withdrawal in excess of the Maximum Annual Withdrawal, the contract and the rider will terminate due to the pro-rata reduction described in "Determination of the Maximum Annual Withdrawal," above.

If the contract value is reduced to zero for a reason other than a withdrawal in excess of the Maximum Annual Withdrawal while the rider is in Lifetime Guaranteed Withdrawal Status, the rider will enter Lifetime Automatic Periodic Benefit Status and you are entitled to receive periodic payments in an annual amount equal to the Maximum Annual Withdrawal.

When the rider enters Lifetime Automatic Periodic Benefit Status:

- 1) the contract will provide no further benefits other than as provided under the ING LifePay Plus rider;
- 2) no further premium payments will be accepted; and
- 3) any other riders attached to the contract will terminate, unless otherwise specified in that rider.

During Lifetime Automatic Periodic Benefit Status, we will pay you periodic payments in an annual amount that is equal to the Maximum Annual Withdrawal. These payments will cease upon the death of the annuitant at which time both the rider and the contract will terminate. The rider will remain in Lifetime Automatic Periodic Benefit Status until it terminates without value upon the annuitant's death.

The periodic payments will begin on the last day of the first full contract year following the date the rider enters Lifetime Automatic Periodic Benefit Status and will continue to be paid annually thereafter. If, at the time the rider enters Lifetime Automatic Periodic Benefit Status, you are receiving systematic withdrawals under the contract more frequently than annually, the periodic payments will be made at the same frequency in equal amounts such that the sum of the payments in each contract year will equal the annual Maximum Annual Withdrawal. Such payments will be made on the same payment dates as previously set up, if the payments were being made monthly or quarterly. If the payments were being made semi-annually or annually, the payments will be made at the end of the half-contract year or contract year, as applicable.

ING LifePay Plus Reset. Once the Lifetime Guaranteed Withdrawal Status begins and the Maximum Annual Withdrawal has been determined, on each quarterly contract anniversary we will increase (or “reset”) the ING LifePay Plus Base to the current contract value, if the contract value is higher. The Maximum Annual Withdrawal will also be recalculated, and the remaining portion of the new Maximum Annual Withdrawal will be available for withdrawal immediately. This reset ONLY occurs when the rider is in Lifetime Guaranteed Withdrawal Status, and is automatic.

We reserve the right to change the charge for this rider with a reset. In this event, you will receive prior notice, of not less than 30 days, which explains the change, its impact to you and your options. You may decline this change (and the reset). However, this action will apply to all future resets and cannot be reversed.

Investment Option Restrictions. While the ING LifePay Plus rider is in effect, there are limits on the portfolios to which your contract value may be allocated. Contract value allocated to portfolios other than Accepted Funds will be rebalanced so as to maintain at least 20% of such contract value in the Fixed Allocation Funds. See “Fixed Allocation Funds Automatic Rebalancing,” below.

Accepted Funds. Currently, the Accepted Funds are:

- Fixed Account II
- Fixed Interest Division
- ING Liquid Assets Portfolio
- ING Solution Income Portfolio
- ING Solution 2015 Portfolio
- ING Solution 2025 Portfolio
- ING Solution 2035 Portfolio
- ING T. Rowe Price Capital Appreciation Portfolio.

If this rider was purchased before January 12, 2009, the following are additional Accepted Funds:

- ING Franklin Templeton Founding Strategy Portfolio; and
- ING WisdomTreeSM Global High-Yielding Equity Index Portfolio

No rebalancing is necessary if the contract value is allocated entirely to Accepted Funds. We may change these designations at any time upon 30 days notice to you. If a change is made, the change will apply to contract value allocated to such portfolios after the date of the change.

Fixed Allocation Funds. Currently, the Fixed Allocation Funds are:

- ING American Funds Bond Portfolio
- ING BlackRock Inflation Protected Bond Portfolio
- ING Intermediate Bond Portfolio
- ING U.S. Bond Index Portfolio.

You may allocate your contract value to one or more Fixed Allocated Funds. We consider the ING Intermediate Bond Portfolio to be the default Fixed Allocation Fund in connection with Fixed Allocation Funds Automatic Rebalancing.

If the rider is not continued under the spousal continuation right when available, a Fixed Allocation Fund may be reclassified as a Special Fund as of the contract continuation date if it would otherwise be designated as a Special Fund for purposes of the contract’s death benefits. For purposes of calculating any applicable death benefit guaranteed under the contract, any allocation of contract value to the Fixed Allocation Fund will be considered a Covered Fund allocation while the rider is in effect.

Other Funds. All portfolios available under the contract other than Accepted Funds or the Fixed Allocation Fund are considered Other Funds.

Fixed Allocation Funds Automatic Rebalancing. If the contract value in the Fixed Allocation Funds is less than 20% of the total contract value allocated to the Fixed Allocation Funds and Other Funds on any ING LifePay Plus Rebalancing Date, we will automatically rebalance the contract value allocated to the Fixed Allocation Funds and Other Funds so that 20% of this amount is allocated to the Fixed Allocation Funds. Accepted Funds are excluded from Fixed Allocation Funds Automatic Rebalancing. Any rebalancing is done on a pro-rata basis among the Other Funds and will be the last transaction processed on that date. The ING LifePay Plus Rebalancing Dates occur on each contract anniversary and after the following transactions:

- 1) receipt of additional premiums;
- 2) transfer or reallocation among the Fixed Allocation Funds or Other Funds, whether automatic or specifically directed by you;
- 3) withdrawals from the Fixed Allocation Funds or Other Funds.

Fixed Allocation Funds Automatic Rebalancing is separate from any other automatic rebalancing under the contract. However, if the other automatic rebalancing under the contract causes the allocations to be out of compliance with the investment option restrictions noted above, Fixed Allocation Funds Automatic Rebalancing will occur immediately after the automatic rebalancing to restore the required allocations. See “Appendix J—Examples of Fixed Allocation Funds Automatic Rebalancing.”

In certain circumstances, Fixed Allocation Funds Automatic Rebalancing may result in a reallocation into the Fixed Allocation Fund even if you have not previously been invested in it. See “Appendix J—Examples of Fixed Allocation Funds Automatic Rebalancing, Example I.” **By electing to purchase the ING LifePay Plus rider, you are providing the Company with direction and authorization to process these transactions, including reallocations into the Fixed Allocation Fund. You should not purchase the ING LifePay Plus rider if you do not wish to have your contract value reallocated in this manner.**

Death of Owner or Annuitant. The ING LifePay Plus rider and charges will terminate on the date of death of the owner (or in the case of joint owners, the first owner), or the annuitant if there is a non-natural owner.

Continuation After Death—Spouse. If the surviving spouse of the deceased owner continues the contract (see “Death Benefit Choices—Continuation After Death—Spouse”), the rider will also continue on the next quarterly contract anniversary, provided the spouse becomes the annuitant and sole owner.

If the rider is in the Growth Phase at the time of spousal continuation:

- 1) The rider will continue in the Growth Phase;
- 2) On the date the rider is continued, the ING LifePay Plus Base will be reset to equal the greater of the ING LifePay Plus Base and the then current contract value;
- 3) The ING LifePay Plus charges will restart and be the same as were in effect prior to the claim date;
- 4) Ratchets, which stop on the claim date, are restarted, effective on the date the rider is continued;
- 5) Any remaining step-ups will be available, and if the rider is continued before an annual contract anniversary when a step-up would have been available, then that step-up will be available; and
- 6) The rider’s Standard Withdrawal Benefit will be available until the quarterly contract anniversary on or after the spouse is age 59½.

If the rider is in the Withdrawal Phase at the time of spousal continuation:

- 1) The rider will continue in the Withdrawal Phase.
- 2) The rider’s charges will restart on the date the rider is continued and be the same as were in effect prior to the claim date.
- 3) On the quarterly contract anniversary that the date the rider is continued:
 - (a) If the surviving spouse was not the annuitant before the owner’s death, then the ING LifePay Plus Base will be reset to the current contract value and the Maximum Annual Withdrawal is recalculated by multiplying the new ING LifePay Plus Base by 5%. Withdrawals are permitted pursuant to the other provisions of the rider. Withdrawals causing the contract value to fall to zero will terminate the contract and the rider.

- (b) If the surviving spouse was the annuitant before the owner's death, then the ING LifePay Plus Base will be reset to the current contract value, only if greater, and the Maximum Annual Withdrawal is recalculated by multiplying the new ING LifePay Plus Base by 5%. Withdrawals are permitted pursuant to the other provisions of the rider.
- 4) The rider charges will restart on the quarter contract anniversary that the rider is continued and will be the same as were in effect prior to the claim date.

Effect of ING LifePay Plus Rider on Death Benefit. If you die before Lifetime Automatic Periodic Benefit Status begins under the ING LifePay Plus rider, the death benefit is payable, but the rider terminates. However, if the beneficiary is the owner's spouse, and the spouse elects to continue the contract, the death benefit is not payable until the spouse's death. **Thus, you should not purchase this rider with multiple owners, unless the owners are spouses.** See "Death of Owner or Annuitant" and "Continuation After Death-Spouse," above for further information.

While in Lifetime Automatic Periodic Benefit Status, if the owner who is not the annuitant dies, we will continue to pay the periodic payments that the owner was receiving under the ING LifePay Plus rider to the beneficiary. While in Lifetime Automatic Periodic Benefit Status, if an owner who is also the annuitant dies, the periodic payments will stop. No other death benefit is payable.

While the rider is in Automatic Periodic Benefit Status, if the owner dies, the remaining ING LifePay Plus Base will be paid to the beneficiary in a lump-sum.

Change of Owner or Annuitant. Other than as provided above under "Continuation After Death- Spouse," you may not change the annuitant. The rider and rider charges will terminate upon change of owner, including adding an additional owner, except for the following ownership changes:

- 1) spousal continuation as described above;
- 2) change of owner from one custodian to another custodian;
- 3) change of owner from a custodian for the benefit of an individual to the same individual;
- 4) change of owner from an individual to a custodian for the benefit of the same individual;
- 5) collateral assignments;
- 6) change in trust as owner where the individual owner and the grantor of the trust are the same individual;
- 7) change of owner from an individual to a trust where the individual owner and the grantor of the trust are the same individual; and
- 8) change of owner from a trust to an individual where the individual owner and the grantor of the trust are the same individual.

Surrender Charges. If you elect the ING LifePay Plus rider, your withdrawals will be subject to surrender charges if they exceed the free withdrawal amount. However, once your contract value is zero, the periodic payments under the ING LifePay Plus rider are not subject to surrender charges.

Loans. No loans are permitted on contracts with the ING LifePay Plus rider.

Taxation. For more information about the tax treatment of amounts paid to you under the ING LifePay Plus Rider, see "Federal Tax Considerations—Tax Consequences of Living Benefits and Death Benefit."

ING Joint LifePay Plus Minimum Guaranteed Withdrawal Benefit ("ING Joint LifePay Plus") Rider. The ING Joint LifePay Plus rider generally provides, subject to the restrictions and limitations below, that we will guarantee a minimum level of annual withdrawals from the contract for the lifetime of both you and your spouse, even if these withdrawals deplete your contract value to zero. You may wish to purchase this rider if you are married and are concerned that you and your spouse may outlive your income.

Purchase. The ING Joint LifePay Plus rider is only available for purchase by individuals who are married at the time of purchase and eligible to elect spousal continuation (as defined by the Tax Code) when the death benefit becomes payable. We refer to these individuals as spouses. Certain ownership, annuitant, and beneficiary designations are required in order to purchase the ING Joint LifePay Plus rider. See “Ownership, Annuitant, and Beneficiary Requirements,” below.

The maximum issue age is 80. Both spouses must meet these issue age requirements on the contract anniversary on which the ING Joint LifePay Plus rider is effective. The issue age is the age of the owners on the date on which the rider is effective. Some broker-dealers may limit the maximum issue age to ages younger than age 80, but in no event lower than age 55. We reserve the right to change the minimum or maximum issue ages on a nondiscriminatory basis. The ING Joint LifePay Plus rider was available for contracts issued on and after August 20, 2007 through April 27, 2008 (subject to availability and state approvals) that did not already have a living benefit rider. The ING Joint LifePay Plus rider will not be issued if the initial allocation to investment options is not in accordance with the investment option restrictions described in “Investment Option Restrictions,” below. The Company in its discretion may allow the ING Joint LifePay Plus rider to be elected after a contract has been issued without it, subject to certain conditions. Please contact our Customer Service Center for more information. Such election must be received in good order, including owner, annuitant, and beneficiary designations and compliance with the investment restrictions described below. The ING Joint LifePay Plus rider will be effective as of the following quarterly contract anniversary.

Ownership, Annuitant, and Beneficiary Designation Requirements. Certain ownership, annuitant, and beneficiary designations are required in order to purchase the ING Joint LifePay Plus rider. These designations depend upon whether the contract is issued as a nonqualified contract, an IRA or a custodial IRA. In all cases, the ownership, annuitant, and beneficiary designations must allow for the surviving spouse to continue the contract when the death benefit becomes payable, as provided by the Tax Code. Non-natural, custodial owners are only allowed with IRAs (“custodial IRAs”). Joint annuitants are not allowed. The necessary ownership, annuitant, and/or beneficiary designations are described below. Applications that do not meet the requirements below will be rejected. We reserve the right to verify the date of birth and social security number of both spouses.

Nonqualified Contracts. For a jointly owned contract, the owners must be spouses, and the annuitant must be one of the owners. For a contract with only one owner, the owner’s spouse must be the sole primary beneficiary, and the annuitant must be one of the spouses.

IRAs. There may only be one owner, who must also be the annuitant. The owner’s spouse must be the sole primary beneficiary.

Custodial IRAs. While we do not maintain individual owner and beneficiary designations for IRAs held by an outside custodian, the ownership and beneficiary designations with the custodian must comply with the requirements listed in “IRAs,” above. The annuitant must be the same as the beneficial owner of the custodial IRA. We require the custodian to provide us the name and date of birth of both the owner and the owner’s spouse.

Rider Date. The ING Joint LifePay Plus rider date is the date the ING Joint LifePay Plus rider becomes effective. If you purchase the ING Joint LifePay Plus rider when the contract is issued, the ING Joint LifePay Plus rider date is also the contract date.

Charge. The charge for the ING Joint LifePay Plus rider, a living benefit, is deducted quarterly from your contract value:

Maximum Annual Charge	Current Annual Charge
2.50%	0.75%

This quarterly charge is a percentage of the ING Joint LifePay Plus Base. We deduct the charge in arrears based on the contract date (contract year versus calendar year). In arrears means the first charge is deducted at the end of the first quarter from the contract date. If the rider is added after contract issue, the rider and charges will begin on the next following quarterly contract anniversary. The charge will be pro-rated when the rider is terminated. Charges are deducted through the date your rider enters either the Automatic Periodic Benefit Status or Lifetime Automatic Periodic Benefit Status. Automatic Periodic Benefit Status or Lifetime Automatic Periodic Benefit Status occurs if your contract value is reduced to zero and other conditions are met. The current charge can be subject to change upon a reset after your first five contract years. You will never pay more than the maximum annual charge.

If the contract value in the subaccounts is insufficient for the charge, then we deduct it from any Fixed Interest Allocations, in which case a Market Value Adjustment may apply. But currently, a Market Value Adjustment would not apply when this charge is deducted from a Fixed Interest Allocation. With Fixed Interest Allocations, we deduct the charge from the Fixed Interest Allocation having the nearest maturity. For more information about the Fixed Interest Allocation, including the Market Value Adjustment, please see Appendix C. We reserve the right to change the charge for this rider, subject to the maximum annual charge. If changed, the new charge will only apply to riders issued after the change.

No Cancellation. Once you purchase the ING Joint LifePay Plus rider, you may not cancel it unless you cancel the contract during the contract's free look period (or otherwise cancel the contract pursuant to its terms), surrender or elect to receive income phase payments in lieu of payments under the ING Joint LifePay Plus rider. These events automatically cancel the ING Joint LifePay Plus rider. The Company may, at its discretion, cancel and/or replace the ING Joint LifePay Plus rider at your request in order to renew or reset the ING Joint LifePay Plus rider.

Termination. The ING Joint LifePay Plus rider is a "living benefit," which means the guaranteed benefits offered are intended to be available to you and your spouse while you are living and while your contract is in the accumulation phase. The optional rider automatically terminates if you:

- 1) terminate your contract pursuant to its terms during the accumulation phase, surrender, or begin receiving income phase payments in lieu of payments under the ING Joint LifePay Plus rider;
- 2) die during the accumulation phase (first owner to die in the case of joint owners, or death of annuitant if the contract is a custodial IRA), unless your spouse elects to continue the contract (and your spouse is active for purposes of the ING Joint LifePay Plus rider); or
- 3) change the owner of the contract (other than a spousal continuation by an active spouse).

See "Change of Owner or Annuitant," below. Other circumstances that may cause the ING Joint LifePay Plus rider to terminate automatically are discussed below.

Active Status. Once the ING Joint LifePay Plus rider has been issued, a spouse must remain in "active" status in order to exercise rights and receive the benefits of the ING Joint LifePay Plus rider after the first spouse's death by electing spousal continuation. In general, changes to the ownership, annuitant, and/or beneficiary designation requirements noted above will result in one spouse being designated as "inactive." Inactive spouses are not eligible to continue the benefits of the ING Joint LifePay Plus rider after the death of the other spouse. Once designated "inactive," a spouse may not regain active status under the ING Joint LifePay Plus rider. Specific situations that will result in a spouse's designation as "inactive" include the following:

- 1) For nonqualified contracts where the spouses are joint owners, the removal of a joint owner (if that spouse does not automatically become sole primary beneficiary pursuant to the terms of the contract), or the change of one joint owner to a person other than an active spouse.
- 2) For nonqualified contracts where one spouse is the owner and the other spouse is the sole primary beneficiary, as well as for IRA contracts (including custodial IRAs), the addition of a joint owner who is not also an active spouse or any change of beneficiary (including the addition of primary beneficiaries).
- 3) In the event of the death of one spouse (in which case the deceased spouse becomes inactive).

An owner may also request that one spouse be treated as inactive. In the case of joint-owned contracts, both contract owners must agree to such a request. An inactive spouse is not eligible to exercise any rights or receive any benefits under the ING Joint LifePay Plus rider. **However, all charges for the ING Joint LifePay Plus rider will continue to apply, even if one spouse becomes inactive, regardless of the reason. You should make sure you understand the impact of beneficiary and owner changes on the ING Joint LifePay Plus rider prior to requesting any such changes.**

A divorce will terminate the ability of an ex-spouse to continue the contract. See "Divorce," below.

Guaranteed Withdrawal Status. This status begins on the date of the first withdrawal, ONLY IF the quarterly contract anniversary following the youngest active spouse's 65th birthday has not yet passed. While the ING Joint LifePay Plus rider is in Guaranteed Withdrawal Status, withdrawals in a contract year up to the Maximum Annual Withdrawal will reduce the ING Joint LifePay Plus Base dollar-for-dollar. This status will then continue until the earliest of:

- 1) quarterly contract anniversary following the youngest active spouse's 65th birthday, provided the contract owner does not decline the change to Lifetime Guaranteed Withdrawal Status;
- 2) reduction of the ING Joint LifePay Plus Base to zero, at which time the rider will terminate;
- 3) the income phase commencement date;
- 4) reduction of the contract value to zero by a withdrawal in excess of the Maximum Annual Withdrawal;
- 5) reduction of the contract value to zero by a withdrawal less than or equal to the Maximum Annual Withdrawal (see "Automatic Periodic Benefit Status," below);
- 6) the surrender of the contract or the election to begin receiving income phase payments; or
- 7) the death of the owner (first owner, in the case of joint owners; annuitant, in the case of a non-natural person owner), unless your spouse beneficiary elects to continue the contract.

Please note that withdrawals while the ING Joint LifePay Plus rider is in Guaranteed Withdrawal Status are not guaranteed for the lifetime of the annuitant.

Lifetime Guaranteed Withdrawal Status. This status begins on the date of the first withdrawal, provided the quarterly contract anniversary following the youngest active spouse's 65th birthday has passed. If the first withdrawal is taken prior to this date, then the Lifetime Guaranteed Withdrawal Status will automatically begin on the quarterly contract anniversary following the youngest active spouse's 65th birthday. This status continues until the earliest of:

- 1) the income phase commencement date;
- 2) reduction of the contract value to zero by a withdrawal in excess of the Maximum Annual Withdrawal;
- 3) reduction of the contract value to zero by a withdrawal less than or equal to the Maximum Annual Withdrawal (see "Lifetime Automatic Periodic Benefit Status," below);
- 4) the surrender of the contract; or
- 5) the death of the owner (first owner, in the case of joint owners, or the annuitant, in the case of a custodial IRA), unless your active spouse beneficiary elects to continue the contract.

You will receive prior notice, of not less than 30 days, if you are in the Guaranteed Withdrawal Status and become eligible for the Lifetime Guaranteed Withdrawal Status. This notice will explain the change, its impact to you and your options. You may decline this change. However, this action will also apply to all future resets (see below) and cannot be reversed. As described below, certain features of the ING Joint LifePay Plus rider may differ depending upon whether you are in Lifetime Guaranteed Withdrawal Status.

How the ING Joint LifePay Plus Rider Works. The ING Joint LifePay Plus rider has two phases. The first phase, called the Growth Phase, begins on the effective date of the ING Joint LifePay Plus rider and ends as of the business day before the first withdrawal is taken (or when the income phase commencement date is reached). The second phase is called the Withdrawal Phase. This phase begins as of the date you take the first withdrawal of any kind under the contract (other than advisory fees, as described below), or the income phase commencement date, whichever occurs first.

Benefits paid under the ING Joint LifePay Plus rider require the calculation of the Maximum Annual Withdrawal. The ING Joint LifePay Plus Base (referred to as the "MGWB Base" in the contract) is used to determine the Maximum Annual Withdrawal and is calculated as follows:

- 1) If you purchased the ING Joint LifePay Plus rider on the contract date, the initial ING Joint LifePay Plus Base is equal to the initial premium.
- 2) If you purchased the ING Joint LifePay Plus rider after the contract date, the initial ING Joint LifePay Plus Base is equal to the contract value on the effective date of the ING Joint LifePay Plus rider.

During the Growth Phase, the initial ING Joint LifePay Plus Base is increased dollar-for-dollar by any premiums received (“eligible premiums”). In addition, on each quarterly contract anniversary, the ING Joint LifePay Plus Base is recalculated as the greater of

- The current ING Joint LifePay Plus Base; or
- The current contract value. This is referred to as a quarterly “ratchet.”

Also, on each of the first ten contract anniversaries, the ING Joint LifePay Plus Base is recalculated as the greatest of

- The current ING Joint LifePay Plus Base; or
- The current contract value; and
- The ING Joint LifePay Plus Base on the previous contract anniversary, increased by 7%, plus any eligible premiums and minus any third-party investment advisory fees paid from your contract during the year. This is referred to as an annual “step-up.”

Please note that if this rider is added after the contract date, then the first opportunity for a step-up will be on the first contract anniversary following a complete contract year after the rider date. You may sometimes see the step-up referred to as the Minimum Annual Deferral Enhancement (or MADE).

The ING Joint LifePay Plus Base has no additional impact on the calculation of income phase payments or withdrawal benefits.

Currently, any additional premiums paid during the Withdrawal Phase are not eligible premiums for purposes of determining the ING Joint LifePay Plus Base or the Maximum Annual Withdrawal; however, we reserve the right to treat such premiums as eligible premiums at our discretion, in a nondiscriminatory manner. Premiums received during the Withdrawal Phase do increase the contract value used to determine the reset Maximum Annual Withdrawal under the benefit reset feature of the ING Joint LifePay Plus rider (see “ING Joint LifePay Plus Reset,” below). We reserve the right to discontinue allowing premium payments during the Withdrawal Phase.

Determination of the Maximum Annual Withdrawal. The Maximum Annual Withdrawal is determined on the date the Withdrawal Phase begins. It equals 5% multiplied by the greater of the contract value and the ING Joint LifePay Plus Base, as of the last day of the Growth Phase. The first withdrawal after the effective date of the ING Joint LifePay Plus rider (which causes the end of the Growth Phase) is treated as occurring on the first day of the Withdrawal Phase, immediately after calculation of the Maximum Annual Withdrawal.

If the Withdrawal Phase begins before the quarterly contract anniversary on or after the younger spouse reaches age 65, withdrawals in a contract year up to the Maximum Annual Withdrawal will reduce the ING Joint LifePay Plus Base dollar-for-dollar, under what we refer to as the “Standard Withdrawal Benefit.” Then, on the quarterly contract anniversary on or after the younger spouse reaches age 65, the ING Joint LifePay Plus Base will automatically be reset to the current contract value, if greater, and the Maximum Annual Withdrawal will be recalculated.

If the contract’s income phase commencement date is reached while you are in the ING Joint LifePay Plus rider’s Lifetime Guaranteed Withdrawal Status, then you may elect a life only income phase option, in lieu of the contract’s other income phase options, under which we will pay the greater of the income phase payout under the contract and equal annual payments of the Maximum Annual Withdrawal, provided that, if both spouses are active, payments under the life only income phase option will be calculated using the joint life expectancy table for both spouses. If only one spouse is active, payments will be calculated using the single life expectancy table for the active spouse.

Withdrawals in a contract year that do not exceed the Maximum Withdrawal Amount do not reduce the Maximum Withdrawal Amount. However, if withdrawals in any contract year exceed the Maximum Annual Withdrawal (an “excess withdrawal”), the ING Joint LifePay Plus Base and the Maximum Annual Withdrawal will be reduced on a pro-rata basis. This means that both the ING Joint LifePay Plus Base and the Maximum Annual Withdrawal will be reduced by the same proportion as the excess withdrawal is of the contract value determined after the deduction the amount withdrawn up to the Maximum Annual Withdrawal but before deduction of the excess withdrawal.

When a withdrawal is made, the total withdrawals taken in a contract year are compared with the current Maximum Annual Withdrawal. To the extent that the withdrawal taken causes the total withdrawals in that year to exceed the current Maximum Annual Withdrawal, that withdrawal is considered excess. For purposes of determining whether the Maximum Annual Withdrawal has been exceeded, any applicable Market Value Adjustment or surrender charges will not be considered. However, for purposes of determining the Maximum Annual Withdrawal reduction after an excess withdrawal, surrender charges and/or Market Value Adjustment are considered to be part of the withdrawal, and will be included in the pro-rata adjustment to the Maximum Annual Withdrawal. See Illustration 1 and 2 below for examples of this concept.

Required Minimum Distributions. Withdrawals taken from the contract to satisfy the Required Minimum Distribution rules of the Tax Code are considered withdrawals for purposes of the ING Joint LifePay Plus rider, and will begin the Withdrawal Phase if the Withdrawal Phase has not already started. Any such withdrawal which exceeds the Maximum Annual Withdrawal for a specific contract year will not be deemed excess withdrawals in that contract year for purposes of the ING Joint LifePay Plus rider, subject to the following:

- 1) If the contract owner's Required Minimum Distribution for a calendar year (determined on a date on or before January 31 of that year), applicable to the contract, is greater than the Maximum Annual Withdrawal on that date, an Additional Withdrawal Amount will be set equal to that portion of the Required Minimum Distribution that exceeds the Maximum Annual Withdrawal.
- 2) You may withdraw the Additional Withdrawal Amount from this contract without it being deemed an excess withdrawal.
- 3) Any withdrawals taken in a contract year will count first against the Maximum Annual Withdrawal for that contract year.
- 4) Once the Maximum Annual Withdrawal for the then current contract year has been taken, additional amounts withdrawn in excess of the Maximum Annual Withdrawal will count first against and reduce any unused Additional Withdrawal Amount for the previous calendar year followed by any Additional Withdrawal Amount for the current contract year.
- 5) Withdrawals that exceed all available Additional Withdrawal Amounts are excess withdrawals and will reduce the Maximum Annual Withdrawal on a pro-rata basis, as described above.
- 6) The Additional Withdrawal Amount is reset to zero at the end of the second calendar year from which it was originally calculated.
- 7) If the contract is still in the Growth Phase on the date the Additional Withdrawal Amount is determined, but enters the Withdrawal Phase later during that calendar year, the Additional Withdrawal Amount will be equal to the amount in excess of the Maximum Annual Withdrawal Amount necessary to satisfy the Required Minimum Distribution for that year (if any).

See Illustration 3, below.

Investment Advisory Fees. Withdrawals taken pursuant to a program established by the owner for the payment of investment advisory fees to a named third party investment adviser for advice on management of the contract's values will not cause the Withdrawal Phase to begin. During the Growth Phase, such withdrawals reduce the ING Joint LifePay Plus Base on a dollar-for-dollar basis, and during the Withdrawal Phase, these withdrawals are treated as any other withdrawal.

Automatic Periodic Benefit Status. If the contract value is reduced to zero for a reason other than a withdrawal in excess of the Maximum Annual Withdrawal while the rider is in Guaranteed Withdrawal Status, the rider will enter Lifetime Automatic Periodic Benefit Status and you are entitled to receive periodic payments in an annual amount equal to the Maximum Annual Withdrawal, until the remaining ING Joint LifePay Plus Base is exhausted.

When the rider enters Automatic Periodic Benefit Status:

- 1) the contract will provide no further benefits other than as provided under the ING Joint LifePay Plus rider;
- 2) no further premium payments will be accepted; and
- 3) any other riders attached to the contract will terminate, unless otherwise specified in that rider.

During Automatic Periodic Benefit Status, we will pay you periodic payments in an annual amount that is equal to the Maximum Annual Withdrawal. These payments will continue until the ING Joint LifePay Plus Base is reduced to zero, at which time the rider will terminate without value.

The periodic payments will begin on the last day of the first full contract year following the date the rider enters Automatic Periodic Benefit Status and will continue to be paid annually thereafter. If, at the time the rider enters Automatic Periodic Benefit Status, you are receiving systematic withdrawals under the contract more frequently than annually, the periodic payments will be made at the same frequency in equal amounts such that the sum of the payments in each contract year will equal the annual Maximum Annual Withdrawal. Such payments will be made on the same payment dates as previously set up, if the payments were being made monthly or quarterly. If the payments were being made semi-annually or annually, the payments will be made at the end of the half-contract year or contract year, as applicable.

Lifetime Automatic Periodic Benefit Status. If the contract value is reduced to zero by a withdrawal in excess of the Maximum Annual Withdrawal, the contract and the ING Joint LifePay Plus rider will terminate due to the pro-rata reduction described in "Determination of the Maximum Annual Withdrawal," above.

If the contract value is reduced to zero for a reason other than a withdrawal in excess of the Maximum Annual Withdrawal while the ING Joint LifePay Plus rider is in Lifetime Guaranteed Withdrawal Status, the ING Joint LifePay Plus rider will enter Lifetime Automatic Periodic Benefit Status and you are no longer entitled to make withdrawals. Instead, under the ING Joint LifePay Plus rider you will begin to receive periodic payments in an annual amount equal to the Maximum Annual Withdrawal.

When the ING Joint LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status:

- 1) the contract will provide no further benefits (including death benefits) other than as provided under the ING Joint LifePay Plus rider;
- 2) no further premium payments will be accepted; and
- 3) any other riders attached to the contract will terminate, unless otherwise specified in that rider.

During Lifetime Automatic Periodic Benefit Status, we will pay you periodic payments in an annual amount that is equal to the Maximum Annual Withdrawal. The time period for which we will make these payments will depend upon whether one or two spouses are active under the ING Joint LifePay Plus rider at the time this status begins. If both spouses are active under the ING Joint LifePay Plus rider, these payments will cease upon the death of the second spouse, at which time both the ING Joint LifePay Plus rider and the contract will terminate without further value. If only one spouse is active under the ING Joint LifePay Plus rider, the payments will cease upon the death of the active spouse, at which time both the ING Joint LifePay Plus rider and the contract will terminate without value.

If the Maximum Annual Withdrawal exceeds the net withdrawals taken the contract year when the ING Joint LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status (including the withdrawal that results in the contract value decreasing to zero), that difference will be paid immediately to the contract owner. The periodic payments will begin on the last day of the first full contract year following the date the ING Joint LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status and will continue to be paid annually thereafter.

You may elect to receive systematic withdrawals pursuant to the terms of the contract. Under a systematic withdrawal, either a fixed amount or an amount based upon a percentage of the contract value will be withdrawn from your contract and paid to you on a scheduled basis, either monthly, quarterly or annually. If, at the time the ING Joint LifePay Plus rider enters Lifetime Automatic Periodic Benefit Status, you are receiving systematic withdrawals under the contract more frequently than annually, the periodic payments will be made at the same frequency in equal amounts such that the sum of the payments in each contract year will equal the annual Maximum Annual Withdrawal. Such payments will be made on the same payment dates as previously set up, if the payments were being made monthly or quarterly. If the payments were being made semi-annually or annually, the payments will be made at the end of the half-contract year or contract year, as applicable.

ING Joint LifePay Plus Reset. Once the Lifetime Guaranteed Withdrawal Status begins and the Maximum Annual Withdrawal has been determined, on each quarterly contract anniversary we will increase (or "reset") the ING Joint LifePay Plus Base to the current contract value, if the contract value is higher. The Maximum Annual Withdrawal will also be recalculated, and the remaining portion of the new Maximum Annual Withdrawal will be available for withdrawal immediately. This reset ONLY occurs when the rider is in Lifetime Guaranteed Withdrawal Status, and is automatic.

We reserve the right to change the charge for this rider with a reset. In this event, you will receive prior notice, of not less than 30 days, which explains the change, its impact to you and your options. You may decline this change (and the reset). However, this action will apply to all future resets and cannot be reversed.

Investment Option Restrictions. In order to mitigate the insurance risk inherent in our guarantee to provide you and your spouse with lifetime payments (subject to the terms and restrictions of the ING Joint LifePay Plus rider), we require that your contract value be allocated in accordance with certain limitations. In general, to the extent that you choose not to invest in the Accepted Funds, we require that 20% of the amount not so invested be invested in the Fixed Allocation Funds. We will require this allocation regardless of your investment instructions to the contract, as described below.

While the ING Joint LifePay Plus rider is in effect, there are limits on the portfolios to which your contract value may be allocated. Contract value allocated to portfolios other than Accepted Funds will be rebalanced so as to maintain at least 20% of such contract value in the Fixed Allocation Fund. See “Fixed Allocation Funds Automatic Rebalancing,” below.

Accepted Funds. Currently, the Accepted Funds are:

- Fixed Account II
- Fixed Interest Division
- ING Liquid Assets Portfolio
- ING Solution Income Portfolio
- ING Solution 2015 Portfolio
- ING Solution 2025 Portfolio
- ING Solution 2035 Portfolio
- ING T. Rowe Price Capital Appreciation Portfolio.

If this rider was purchased before January 12, 2009, the following are additional Accepted Funds:

- ING Franklin Templeton Founding Strategy Portfolio; and
- ING WisdomTreeSM Global High-Yielding Equity Index Portfolio

No rebalancing is necessary if the contract value is allocated entirely to Accepted Funds. We may change these designations at any time upon 30 days notice to you. If a change is made, the change will apply to contract value allocated to such portfolios after the date of the change.

Fixed Allocation Funds. Currently, the Fixed Allocation Funds are:

- ING American Funds Bond Portfolio
- ING BlackRock Inflation Protected Bond Portfolio
- ING Intermediate Bond Portfolio
- ING U.S. Bond Index Portfolio.

You may allocate your contract value to one or more Fixed Allocated Funds. We consider the ING Intermediate Bond Portfolio to be the default Fixed Allocation Fund in connection with Fixed Allocation Funds Automatic Rebalancing.

Other Funds. All portfolios available under the contract other than Accepted Funds or the Fixed Allocation Fund are considered Other Funds.

Fixed Allocation Funds Automatic Rebalancing. If the contract value in the Fixed Allocation Funds is less than 20% of the total contract value allocated to the Fixed Allocation Funds and Other Funds on any ING Joint LifePay Plus Rebalancing Date, we will automatically rebalance the contract value allocated to the Fixed Allocation Funds and Other Funds so that 20% of this amount is allocated to the Fixed Allocation Funds. Accepted Funds are excluded from Fixed Allocation Funds Automatic Rebalancing. Any rebalancing is done on a pro-rata basis among the Other Funds and will be the last transaction processed on that date. The ING Joint LifePay Plus Rebalancing Dates occur on each contract anniversary and after the following transactions:

- 1) receipt of additional premiums;
- 2) transfer or reallocation among the Fixed Allocation Funds or Other Funds, whether automatic or specifically directed by you; and
- 3) withdrawals from the Fixed Allocation Funds or Other Funds.

Fixed Allocation Funds Automatic Rebalancing is separate from any other automatic rebalancing under the contract. However, if the other automatic rebalancing under the contract causes the allocations to be out of compliance with the investment option restrictions noted above, Fixed Allocation Funds Automatic Rebalancing will occur immediately after the automatic rebalancing to restore the required allocations. See “Appendix J—Examples of Fixed Allocation Funds Automatic Rebalancing.”

In certain circumstances, Fixed Allocation Funds Automatic Rebalancing may result in a reallocation into the Fixed Allocation Fund even if you have not previously been invested in it. See “Appendix J—Examples of Fixed Allocation Funds Automatic Rebalancing, Example I.” **By electing to purchase the ING Joint LifePay Plus rider, you are providing the Company with direction and authorization to process these transactions, including reallocations into the Fixed Allocation Fund. You should not purchase the ING Joint LifePay Plus rider if you do not wish to have your contract value reallocated in this manner.**

Divorce. Generally, in the event of a divorce, the spouse who retains ownership of the contract will continue to be entitled to all rights and benefits of the ING Joint LifePay Plus rider, while the ex-spouse will no longer have any such rights or be entitled to any such benefits. In the event of a divorce during Lifetime Guaranteed Withdrawal Status, the ING Joint LifePay Plus rider continues, and terminates upon the death of the owner (first owner in the case of joint owners, or the annuitant in the case of a custodial IRA). Although spousal continuation may be available under the Tax Code for a subsequent spouse, the ING Joint LifePay Plus rider cannot be continued by the new spouse. As the result of the divorce, we may be required to withdraw assets for the benefit of an ex-spouse. Any such withdrawal will be considered a withdrawal for purposes of the Maximum Annual Withdrawal amount. In other words, if a withdrawal incident to a divorce exceeds the Maximum Annual Withdrawal amount, it will be considered an excess withdrawal. See “Determination of the Maximum Annual Withdrawal,” above. As noted, in the event of a divorce there is no change to the Maximum Annual Withdrawal and we will continue to deduct charges for the ING Joint LifePay Plus rider.

In the event of a divorce during Lifetime Automatic Periodic Benefit Status, there will be no change to the periodic payments made. Payments will continue until both spouses are deceased.

Death of Owner. The death of the owner (or in the case of joint owners, the first owner, or for custodial IRAs, the annuitant) may cause the termination of the ING Joint LifePay Plus rider and its charges, depending upon whether one or both spouses are in active status at the time of death, as described below.

- 1) **If both spouses are in active status:** If the surviving spouse elects to continue the contract and becomes the sole owner and annuitant, the ING Joint LifePay Plus rider will remain in effect pursuant to its original terms and ING Joint LifePay Plus coverage and charges will continue. As of the date the contract is continued, the Joint LifePay Plus Base will be reset to the current Contact value, if greater, and the Maximum Annual Withdrawal will be recalculated as 5% percentage multiplied by the new Joint LifePay Plus Base on the date the contract is continued. However, under no circumstances will this recalculation result in a reduction to the Maximum Annual Withdrawal.

If the surviving spouse elects not to continue the contract, ING Joint LifePay Plus rider coverage and charges will cease upon the earlier of payment of the death benefit or notice that an alternative distribution option has been chosen.

- 2) **If the surviving spouse is in inactive status:** The ING Joint LifePay Plus rider terminates and ING Joint LifePay Plus coverage and charges cease upon the date of death of the last Active Spouse.

Change of Owner or Annuitant. Other than as a result of spousal continuation, you may not change the annuitant. The ING Joint LifePay Plus rider and rider charges will terminate upon change of owner, including adding an additional owner, except for the following ownership changes:

- 1) spousal continuation by an active spouse, as described above;
- 2) change of owner from one custodian to another custodian for the benefit of the same individual;
- 3) change of owner from a custodian for the benefit of an individual to the same individual (in order to avoid the owner’s spouse from being designated inactive, the owner’s spouse must be named sole beneficiary under the contract);
- 4) change of owner from an individual to a custodian for the benefit of the same individual;
- 5) collateral assignments;

- 6) for nonqualified contracts only, the addition of a joint owner, provided that the additional joint owner is the original owner's spouse and is active when added as joint owner;
- 7) for nonqualified contracts, removal of a joint owner, provided the removed joint owner is active and becomes the primary contract beneficiary; and
- 8) change of owner where the owner becomes the sole primary beneficiary and the sole primary beneficiary becomes the owner if both were active spouses at the time of the change.

Surrender Charges. If you elect the ING Joint LifePay Plus rider, your withdrawals will be subject to surrender charges if they exceed the free withdrawal amount. However, once your contract value is zero, the periodic payments under the ING Joint LifePay Plus rider are not subject to surrender charges, nor will these amounts be subject to any other charges under the contract.

Federal Tax Considerations. For more information about the tax treatment of amounts paid to you under the ING Joint LifePay Plus rider, see "Federal Tax Considerations—Tax Consequences of Living Benefits and Death Benefit."

ING LifePay Plus and ING Joint LifePay Plus Partial Withdrawal Amount Examples

The following are examples of adjustments to the Maximum Annual Withdrawal amount for withdrawals in excess of the Maximum Annual Withdrawal:

Illustration 1: Adjustment to the Maximum Annual Withdrawal amount for a withdrawal in excess of the Maximum Annual Withdrawal, including surrender and/or MVA charges.

Assume the Maximum Annual Withdrawal is \$5,000.

The first withdrawal taken during the contract year is \$3,000 net, with \$500 of surrender charges, and/or MVA charges. The Maximum Annual Withdrawal is not exceeded.

The next withdrawal taken during the contract year is \$1,500 net, with \$300 of surrender charges, and/or MVA charges. The Maximum Annual Withdrawal is not exceeded because total net withdrawals, \$4,500, do not exceed the Maximum Annual Withdrawal, \$5,000.

The next withdrawal taken during the contract year is \$1,500 net, with \$200 of surrender charges, and/or MVA charges. Because total net withdrawals taken, \$6,000, exceed the Maximum Annual Withdrawal, \$5,000, then there is an adjustment to the Maximum Annual Withdrawal.

Total gross withdrawals during the contract year are \$7,000 (\$3,000 + \$500 + \$1,500 + \$300 + \$1,500 + \$200). The adjustment is the lesser of the amount by which the total gross withdrawals for the year exceed the Maximum Annual Withdrawal (\$7,000 – \$5,000 = \$2,000), and the amount of the current gross withdrawal (\$1,500 + 200 = \$1,700).

If the contract value before this withdrawal is \$50,000, then the Maximum Annual Withdrawal is reduced by 3.40% (\$1,700 / \$50,000) to \$4,830 $((1 - 3.40\%) * \$5,000)$.

Illustration 2: Adjustment to the Maximum Annual Withdrawal amount for a withdrawal in excess of the Maximum Annual Withdrawal.

Assume the Maximum Annual Withdrawal is \$5,000.

The first withdrawal taken during the contract year is \$3,000 net, with \$0 of surrender charges, and/or MVA charges. The Maximum Annual Withdrawal is not exceeded.

The next withdrawal taken during the contract year is \$1,500 net, with \$0 of surrender charges, and/or MVA charges. The Maximum Annual Withdrawal is not exceeded because total net withdrawals, \$4,500, do not exceed the Maximum Annual Withdrawal, \$5,000.

The next withdrawal taken during the contract year is \$1,500 net, with \$0 of surrender charges, and/or MVA charges. Because total net withdrawals taken, \$6,000, exceed the Maximum Annual Withdrawal, \$5,000, there is an adjustment to the Maximum Annual Withdrawal.

Total gross withdrawals during the contract year are \$6,000 ($\$3,000 + \$1,500 + \$1,500$). The adjustment is the lesser of the amount by which the total gross withdrawals for the year exceed the Maximum Annual Withdrawal, \$1,000, and the amount of the current gross withdrawal, \$1,500.

If the contract value after the part of the gross withdrawal that was within the Maximum Annual Withdrawal, \$500, is \$49,500, then the Maximum Annual Withdrawal is reduced by 2.02% ($\$1,000 / \$49,500$) to \$4,899 ($(1 - 2.02\%) * \$5,000$).

Illustration 3: A withdrawal exceeds the Maximum Annual Withdrawal amount but does not exceed the Additional Withdrawal Amount.

Assume the Maximum Annual Withdrawal is \$5,000. The RMD for the current calendar year applicable to this contract is determined to be \$6,000. The Additional Withdrawal Amount is set equal to the excess of this amount above the Maximum Annual Withdrawal, \$1,000 ($\$6,000 - \$5,000$).

The first withdrawal taken during the contract year is \$3,000 net, with \$0 of surrender charges, and/or MVA charges. The Maximum Annual Withdrawal is not exceeded.

The next withdrawal taken during the contract year is \$1,500 net, with \$0 of surrender charges, and/or MVA charges. The Maximum Annual Withdrawal is not exceeded because total net withdrawals, \$4,500, do not exceed the Maximum Annual Withdrawal, \$5,000.

The next withdrawal taken during the contract year is \$1,500 net, with \$0 of surrender charges, and/or MVA charges. Total net withdrawals taken, \$6,000, exceed the Maximum Annual Withdrawal, \$5,000, however, the Maximum Annual Withdrawal is not adjusted until the Additional Withdrawal Amount is exhausted. The amount by which total net withdrawals taken exceed the Maximum Annual Withdrawal, \$1,000 ($\$6,000 - \$5,000$), is the same as the Additional Withdrawal Amount, so no adjustment to the Maximum Annual Withdrawal is made. If total net withdrawals taken had exceeded the sum of the Maximum Annual Withdrawal and the Additional Withdrawal Amount, then an adjustment would be made to the Maximum Annual Withdrawal.

Illustration 4: The Reset Occurs.

Assume the Maximum Annual Withdrawal is \$5,000 and the Maximum Annual Withdrawal percentage is 5%.

One year after the first withdrawal is taken, the contract value has increased to \$120,000, and the Reset occurs. The Maximum Annual Withdrawal is now \$6,000 ($\$120,000 * 5\%$).

One year after the Reset, the contract value has increased further to \$130,000. The Reset occurs again, and the Maximum Annual Withdrawal is now \$6,500 ($\$130,000 * 5\%$).

APPENDIX L

ING LifePay and ING Joint LifePay Riders

(Available for contracts issued through August 20, 2007, subject to state approval)

ING LifePay Minimum Guaranteed Withdrawal Benefit (ING LifePay) Rider. The ING LifePay rider generally provides, subject to the restrictions and limitations below, that we will guarantee a minimum level of annual withdrawals from the contract for the lifetime of the annuitant, even if these withdrawals deplete your contract value to zero. You may wish to purchase this rider if you are concerned that you may outlive your income.

Purchase. In order to elect the ING LifePay rider, the annuitant must be the owner or one of the owners, unless the owner is a non-natural person. Joint annuitants are not allowed. The minimum issue age is 50 and the maximum issue age is 80. The issue age is the age of the owner (or the annuitant if there are joint owners or the owner is non-natural) on the contract anniversary on which the rider is effective. Some broker-dealers may limit availability of the rider to ages younger than 80, but in no event less than 50. The ING LifePay rider will not be issued if the initial allocation to investment options is not in accordance with the investment option restrictions described in "Investment Option Restrictions," below. The Company in its discretion may allow the rider to be elected during the 30-day period preceding a contract anniversary. Such election must be received in good order, including compliance with the investment option restrictions described below. The rider will be effective as of that contract anniversary.

Rider Date. The rider date is the date the ING LifePay rider becomes effective. The rider date is also the contract date if you purchased the ING LifePay rider when the contract was issued.

Charge. The charge for the ING LifePay rider is deducted quarterly from your contract value as follows:

As an Annual Charge (Charge Deducted Quarterly)	As a Quarterly Charge	Maximum Annual Charge if Reset Option Elected
0.40% of contract value	0.10% of contract value	1.20% of contract value

The charge is deducted during the period starting on the rider date and up to your rider's Lifetime Automatic Periodic Benefit status. Lifetime Automatic Periodic Benefit Status will occur if your contract value is reduced to zero and other conditions are met. The charge may be subject to change if you elect the reset option, subject to the maximum annual charge. For more information on this rider, including when Lifetime Automatic Periodic Benefit status begins, please see "ING LifePay Minimum Guaranteed Withdrawal Benefit Rider" below. If you surrender your contract or begin receiving income phase payments, the charge is pro-rated based upon the amount owed at the time. We reserve the right to change the charge for this rider, subject to the maximum annual charge. If changed, the new charge will only apply to riders issued after this change.

If the contract value in the subaccounts is insufficient for the charge, then we deduct it from any Fixed Interest Allocations, in which case a Market Value Adjustment may apply. Currently, a Market Value Adjustment would not apply when this charge is deducted from a Fixed Interest Allocation. With Fixed Interest Allocations, we deduct the charge from the Fixed Interest Allocation having the nearest maturity. For more information about the Fixed Interest Allocation, including the Market Value Adjustment, please see Appendix C. We reserve the right to change the charge for this rider, subject to the maximum annual charge. If changed, the new charge will only apply to riders issued after the change.

No Cancellation. Once you purchase the ING LifePay rider, you may not cancel it unless you a) cancel the contract during the contract's free look period, b) surrender, c) begin income phase payments, or d) otherwise terminate the contract pursuant to its terms. These events automatically cancel the ING LifePay rider. Once the contract continues beyond the free look period, you may not cancel the rider. The Company may, at its discretion, cancel and/or replace a rider at your request in order to renew or reset a rider.

Termination. The ING LifePay rider is a “living benefit,” which means the guaranteed benefits offered by the rider is intended to be available to you while you are living and while your contract is in the accumulation phase. Generally, the optional riders automatically terminate if you:

- 1) Terminate your contract pursuant to its terms during the accumulation phase, surrender, or begin receiving income phase payments in lieu of payments under the rider;
- 2) Die during the accumulation phase (first owner to die in the case of joint owners, or death of annuitant if the contract is a custodial IRA), unless your spouse elects to continue the contract; or
- 3) Change the owner of the contract.

Other circumstances that may cause a rider to terminate automatically are discussed below with each rider.

Lifetime Guaranteed Withdrawal Status. This status begins on the rider date and continues until the earliest of:

- 1) the income phase start date;
- 2) reduction of the contract value to zero by a withdrawal in excess of the Maximum Annual Withdrawal;
- 3) reduction of the contract value to zero by a withdrawal less than or equal to the Maximum Annual Withdrawal;
- 4) the surrender of the contract; or
- 5) the death of the contract owner (or in the case of joint owners, the first contract owner, or the annuitant in the case of a custodial IRA) unless your spouse beneficiary elects to continue the contract.

For more information about the effect of a withdrawal reducing the contract value to zero, please see “Lifetime Automatic Periodic Benefit Status” below.

As described below, certain features of the ING LifePay rider may differ depending upon whether you are in Lifetime Guaranteed Withdrawal Status.

How the ING LifePay Rider Works. The ING LifePay Withdrawal Benefit rider has two phases. The first phase, called the Growth Phase, begins on the rider date and ends as of the business day before the first withdrawal is taken (or when the income phase start date is reached). The second phase is called the Withdrawal Phase. This phase begins as of the date of the first withdrawal (other than investment advisory fees, as described below) or the income phase start date, whichever occurs first.

During the accumulation phase of the contract, the ING LifePay rider may be in either the Growth Phase or the Withdrawal Phase. The ING LifePay rider is initially in Lifetime Guaranteed Withdrawal Status. While in this status you may terminate the ING LifePay rider by electing to enter the income phase and begin receiving income phase payments. However, if you have not elected to begin receiving income phase payments, and the ING LifePay rider enters Lifetime Automatic Periodic Benefit Status because the contract value has been reduced to zero, the ING LifePay rider and contract terminate (other than those provisions regarding the payment of the Maximum Annual Withdrawal, as described below) and you can no longer elect to receive income phase payments.

Benefits paid under the ING LifePay rider require the calculation of the Maximum Annual Withdrawal. The ING LifePay Base (referred to as the “MGWB Base” in the contract) is used to determine the Maximum Annual Withdrawal as follows.

- 1) If you purchased the ING LifePay rider on the contract date, the initial ING LifePay Base is equal to the initial premium.
- 2) If you purchased the ING LifePay rider after the contract date, the initial ING LifePay Base is equal to the contract value on the rider date.
- 3) The initial ING LifePay Base is increased dollar-for-dollar by premiums received during the Growth Phase (“eligible premiums”). The ING LifePay Base is also increased to equal the contract value if the contract value is greater than the current ING LifePay Base on each quarterly contract anniversary after the effective date of the rider, during the Growth Phase. The ING LifePay Base has no additional impact on the calculation of income phase payments or withdrawal benefits.

Currently, any additional premiums paid during the Withdrawal Phase are not eligible premiums for purposes of determining the ING LifePay Base or the Maximum Annual Withdrawal. However, we reserve the right to treat such premiums as eligible premiums at our discretion, in a nondiscriminatory manner. Premiums received during the Withdrawal Phase do increase the contract value used to determine the reset Maximum Annual Withdrawal if you choose to reset the ING LifePay rider (see "ING LifePay Reset Option," below). We reserve the right to discontinue allowing premium payments during the Withdrawal Phase.

Determination of the Maximum Annual Withdrawal. The Maximum Annual Withdrawal is determined on the date the Withdrawal Phase begins. It equals 5% of the greater of 1) the contract value and 2) the ING LifePay Base as of the last day of the Growth Phase. The first withdrawal after the rider date (which causes the end of the Growth Phase) is treated as occurring on the first day of the Withdrawal Phase, after calculation of the Maximum Annual Withdrawal.

If the ING LifePay rider is in the Growth Phase, and the income phase commencement date is reached, the rider will enter the Withdrawal Phase and the income phase will begin. In lieu of the income phase payment options available under the contract, you may elect a life-only income phase payment option under which we will pay the greater of the income phase payout under the contract and annual payments equal to the Maximum Annual Withdrawal.

Withdrawals in a contract year that do not exceed the Maximum Annual Withdrawal do not reduce the Maximum Annual Withdrawal. However, if withdrawals in any contract year exceed the Maximum Annual Withdrawal, the Maximum Annual Withdrawal will be reduced on a pro-rata basis. This means that the Maximum Annual Withdrawal will be reduced by the same proportion that the withdrawal in excess of the Maximum Annual Withdrawal (the "excess withdrawal") is of the contract value determined:

- 1) before the withdrawal, for the excess withdrawal; and
- 2) after the withdrawal for the amount withdrawn up to the Maximum Annual Withdrawal (without regard to the excess withdrawal).

When a withdrawal is made, the total withdrawals taken in a contract year are compared with the current Maximum Annual Withdrawal. To the extent the withdrawal taken causes the total withdrawals in that year to exceed the current Maximum Annual Withdrawal, that withdrawal is considered excess. For purposes of determining whether the Maximum Annual Withdrawal has been exceeded, any applicable Market Value Adjustment or surrender charges will not be applied to the withdrawal. However, for purposes of determining the Maximum Annual Withdrawal reduction after an excess withdrawal, any surrender charges and/or Market Value Adjustment are considered to be part of the withdrawal. See Illustration 1 and 2 below for an example of this concept.

Required Minimum Distributions. Withdrawals taken from this contract to satisfy the Required Minimum Distribution rules of the Tax Code are considered withdrawals for the purposes of the rider, and will begin the Withdrawal Phase if the Withdrawal Phase has not already started. Any such withdrawal that exceeds the Maximum Annual Withdrawal for a specific contract year, will not be deemed excess withdrawals in that contract year for purposes of the ING LifePay rider, subject to the following rules:

- 1) If your Required Minimum Distribution for a calendar year (determined on a date on or before January 31 of that year), applicable to this contract, is greater than the Maximum Annual Withdrawal on that date, an Additional Withdrawal Amount will be set equal to that portion of the Required Minimum Distribution that exceeds the Maximum Annual Withdrawal.
- 2) You may withdraw the Additional Withdrawal Amount from this contract without it being deemed an excess withdrawal.
- 3) Any withdrawals taken in a contract year will count first against the Maximum Annual Withdrawal for that contract year.
- 4) Once the Maximum Annual Withdrawal for the then current contract year has been taken, additional amounts withdrawn in excess of the Maximum Annual Withdrawal, other than Required Minimum Distributions will count against and reduce any Additional Withdrawal Amount.
- 5) Withdrawals that exceed the Additional Withdrawal Amount are excess withdrawals and will reduce the Maximum Annual Withdrawal on a pro-rata basis, as described above.

- 6) The Additional Withdrawal Amount is reset to zero at the end of each calendar year, and remains at zero until it is reset in January of the following calendar year, even if, pursuant to the Tax Code, the contract owner may take a Required Minimum Distribution for that calendar year after the end of the calendar year. The Additional Withdrawal Amount when recalculated, will not include your Required Minimum Distribution for a calendar year, or any portion thereof, that may otherwise be taken after that calendar year's end.
- 7) If the contract is still in the Growth Phase on the date the Additional Withdrawal Amount is determined, but enters the Withdrawal Phase later during that calendar year, the Additional Withdrawal Amount will be set equal to the amount in excess of the Additional Withdrawal Amount necessary to satisfy the Required Minimum Distribution (if any).

See Appendix Illustration 3, below.

Investment Advisory Fees. Withdrawals taken pursuant to a program established by the owner for the payment of investment advisory fees to a named third party investment adviser for advice on management of the contract's values will not cause the Withdrawal Phase to begin. During the Growth Phase, such withdrawals reduce the ING LifePay Base on a pro-rata basis, and during the Withdrawal Phase, these withdrawals are treated as any other withdrawal.

Lifetime Automatic Periodic Benefit Status. If the contract value is reduced to zero by a withdrawal in excess of the Maximum Annual Withdrawal, the contract and the rider will terminate due to the pro-rata reduction described in "Determination of the Maximum Annual Withdrawal," above.

If the contract value is reduced to zero for a reason other than a withdrawal in excess of the Maximum Annual Withdrawal while the rider is in Lifetime Guaranteed Withdrawal Status, the rider will enter Lifetime Automatic Periodic Benefit Status and you are no longer entitled to make withdrawals. Instead, under the rider, you will begin to receive periodic payments in an annual amount equal to the Maximum Annual Withdrawal.

When the rider enters Lifetime Automatic Periodic Benefit Status,

- 1) the contract will provide no further benefits other than as provided in the ING LifePay rider;
- 2) no further premium payments will be accepted; and
- 3) any other riders attached to the contract will terminate, unless otherwise specified in the rider.

During Lifetime Automatic Periodic Benefit Status, we will pay you periodic payments equal to the Maximum Annual Withdrawal. These payments will cease upon the death of the annuitant at which time both the rider and the contract will terminate. The rider will remain in Lifetime Automatic Periodic Benefit Status until it terminates without value upon the annuitant's death.

If the Maximum Annual Withdrawal exceeds the net withdrawals taken the contract year when the ING LifePay rider enters Lifetime Automatic Periodic Benefit Status (including the withdrawal that results in the contract value decreasing to zero), that difference will be paid immediately to the contract owner. The periodic payments will begin on the last day of the first full contract year following the date the rider enters Lifetime Automatic Periodic Benefit Status and will continue to be paid annually thereafter.

You may elect to receive systematic withdrawals pursuant to the terms of the contract. Under a systematic withdrawal, either a fixed amount or an amount based upon a percentage of the contract value will be withdrawn from your contract and paid to you on a scheduled basis, either monthly, quarterly or annually. If, at the time the rider enters Lifetime Automatic Periodic Benefit Status, you are receiving systematic withdrawals under the contract more frequently than annually, the periodic payments will be made at the same frequency in equal amounts such that the sum of the payments in each contract year will equal the annual Maximum Annual Withdrawal. Such payments will be made on the same payment dates as previously set up, if the payments were being made monthly or quarterly. If the payments were being made semi-annually or annually, the payments will be made at the end of the half-contract year or contract year, as applicable.

ING LifePay Reset Option. Beginning one year after the Withdrawal Phase begins, you may choose to reset the Maximum Annual Withdrawal, if 5% of the contract value would be greater than your current Maximum Annual Withdrawal. You must elect to reset by a request in a form satisfactory to us. On the date the request is received (the "Reset Effective Date"), the Maximum Annual Withdrawal will increase to be equal to 5% of the contract value on the Reset Effective Date. The reset option is only available when the rider is in Lifetime Guaranteed Withdrawal Status.

After exercising the reset option, you must wait one year before electing to reset again. We will not accept a request to reset if the new Maximum Annual Withdrawal on the date the request is received would be less than your current Maximum Annual Withdrawal.

If the reset option is exercised, the charge for the ING LifePay rider will be equal to the charge then in effect for a newly purchased rider but will not exceed the maximum annual charge of 1.20%. However, we guarantee that the rider charge will not increase for resets exercised within the first five contract years. See Illustration 4, below.

Investment Option Restrictions. In order to mitigate the insurance risk inherent in our guarantee to provide you with lifetime payments (subject to the terms and restrictions of the ING LifePay rider), we require that your contract value be allocated in accordance with certain limitations. In general, to the extent that you choose not to invest in the Accepted Funds, we require that 20% of such contract value be invested in the Fixed Allocation Fund. See “Fixed Allocation Funds Automatic Rebalancing” below.

The ING GET U.S. Core Portfolio is not available as an investment option if you have chosen the ING LifePay rider.

Accepted Funds. Currently, the Accepted Funds are:

- Fixed Account II
- Fixed Interest Division
- ING Liquid Assets Portfolio
- ING Solution Income Portfolio
- ING Solution 2015 Portfolio
- ING Solution 2025 Portfolio
- ING Solution 2035 Portfolio
- ING T. Rowe Price Capital Appreciation Portfolio.

If this rider was purchased before January 12, 2009, the following are additional Accepted Funds:

- ING Franklin Templeton Founding Strategy Portfolio; and
- ING WisdomTreeSM Global High-Yielding Equity Index Portfolio

No rebalancing is necessary if the contract value is allocated entirely to Accepted Funds. We may change these designations at any time upon 30 days notice to you. If a change is made, the change will apply to contract value allocated to such portfolios after the date of the change.

Fixed Allocation Funds. Currently, the Fixed Allocation Funds are:

- ING American Funds Bond Portfolio
- ING BlackRock Inflation Protected Bond Portfolio
- ING Intermediate Bond Portfolio
- ING U.S. Bond Index Portfolio.

You may allocate your contract value to one or more Fixed Allocated Funds. We consider the ING Intermediate Bond Portfolio to be the default Fixed Allocation Fund in connection with Fixed Allocation Funds Automatic Rebalancing.

Other Funds. All portfolios available under the contract other than Accepted Funds and the Fixed Allocation Funds are considered Other Funds.

Fixed Allocation Funds Automatic Rebalancing. If the contract value in the Fixed Allocation Funds is less than 20% of the contract value allocated to the Fixed Allocation Funds and Other Funds on any ING LifePay Rebalancing Date, we will automatically rebalance the contract value allocated to Fixed Allocation Funds and Other Funds so that 20% of this amount is allocated to the Fixed Allocation Funds. Accepted Funds are excluded from Fixed Allocation Funds Automatic Rebalancing. Any rebalancing is done on a pro-rata basis among the Fixed Allocation Funds and Other Funds and will be the last transaction processed on that date. The ING LifePay Rebalancing Dates occur on each contract anniversary and after the following transactions:

- 1) receipt of additional premiums;
- 2) transfer or reallocation among Fixed Allocation Funds or Other Funds, whether automatic or specifically directed by you; and
- 3) withdrawals from a Fixed Allocation Fund or Other Fund.

Fixed Allocation Funds Automatic Rebalancing is separate from any other automatic rebalancing under the contract. However, if the other automatic rebalancing under the contract causes the allocations to be out of compliance with the investment option restrictions noted above, Fixed Allocation Funds Automatic Rebalancing will occur immediately after the automatic rebalancing to restore the required allocations. See “Appendix J – Examples of Fixed Allocation Funds Automatic Rebalancing.”

In certain circumstances, Fixed Allocation Funds Automatic Rebalancing may result in a reallocation into the Fixed Allocation Fund even if you have not previously been invested in it. See “Appendix J—Examples of Fixed Allocation Funds Automatic Rebalancing, Example I.” **By electing to purchase the ING LifePay rider, you are providing the Company with direction and authorization to process these transactions, including reallocations into the Fixed Allocation Fund. You should not purchase the ING LifePay rider if you do not wish to have your contract value reallocated in this manner.**

Death of Owner or Annuitant. The ING LifePay rider and charges terminate on the earlier of:

- 1) if the rider is in Lifetime Guaranteed Withdrawal status, the date of receipt of due proof of death (“notice date”) of the contract owner (or in the case of joint contract owners, the death of the first owner) or the annuitant if there is a non-natural owner; or
- 2) the date the rider enters Lifetime Automatic Periodic Benefit status.

Under 1), above, the rider terminates on the death of the first owner, even if the owner is not the annuitant. **Thus, you should not purchase this rider with multiple owners, unless the owners are spouses.** Under 2), above, we will continue to pay the periodic payments that the owner was receiving under the ING LifePay rider to the annuitant. No other death benefit is payable in this situation.

Continuation After Death – Spouse. If the surviving spouse of the deceased owner continues the contract (see, “Death Benefit Choices—Continuation After Death – Spouse”), this rider will also continue, provided the following conditions are met:

- 1) The spouse is at least 50 years old on the date the contract is continued; and
- 2) The spouse becomes the annuitant and sole contract owner.

If the rider is in the Growth Phase at the time of spousal continuation:

- 1) The rider will continue in the Growth Phase;
- 2) On the date the rider is continued, the ING LifePay Base will be reset to equal the then current contract value; and
- 3) The ING LifePay charges will restart and be the same as were in effect prior to the notice date.

If the rider is in the Withdrawal Phase at the time of spousal continuation:

- 1) The rider will continue in the Withdrawal Phase;
- 2) On the contract anniversary following the date the rider is continued,
 - (a) If the surviving spouse had not been the annuitant before the owner’s death, the Maximum Annual Withdrawal is recalculated by multiplying the contract value on that contract anniversary by 5%, and the Maximum Annual Withdrawal is considered to be zero from the notice date to that contract anniversary. Withdrawals are permitted pursuant to the other provisions of the contract. Withdrawals causing the contract value to fall to zero will terminate the contract and rider.
 - (b) If the surviving spouse was the annuitant before the owner’s death, the Maximum Annual Withdrawal is recalculated as the greater of the Maximum Annual Withdrawal on the notice date (adjusted for excess withdrawals thereafter) and the Maximum Annual Withdrawal resulting from multiplying the contract value on that contract anniversary by 5%. The Maximum Annual Withdrawal does not go to zero on the notice date, and withdrawals may continue under the rider provisions.
- 3) The rider charges will restart on the contract anniversary following the date the rider is continued and will be the same as were in effect prior to the notice date.

Change of Owner or Annuitant. Other than as provided above under “Continuation After Death–Spouse,” you may not change the annuitant. The rider and rider charges will terminate upon change of owner, including adding an additional owner, except for the following ownership changes:

- 1) spousal continuation as described above;
- 2) change of owner from one custodian to another custodian;
- 3) change of owner from a custodian for the benefit of an individual to the same individual;
- 4) change of owner from an individual to a custodian for the benefit of the same individual;
- 5) collateral assignments;
- 6) change in trust as owner where the individual owner and the grantor of the trust are the same individual;
- 7) change of owner from an individual to a trust where the individual owner and the grantor of the trust are the same individual; and
- 8) change of owner from a trust to an individual where the individual owner and the grantor of the trust are the same individual.

Surrender Charges. If you elect the ING LifePay rider, your withdrawals will be subject to surrender charges if they exceed the free withdrawal amount. However, once your Contract value is zero, the periodic payments under the ING LifePay rider are not subject to surrender charges.

Loans. The portion of any Contract value used to pay off an outstanding loan balance will reduce the ING LifePay Base or Maximum Annual Withdrawal as applicable. We do not recommend the ING LifePay rider if loans are contemplated.

Effect of ING LifePay Rider on Death Benefit. If you die before Lifetime Automatic Periodic Benefit Status begins under the ING LifePay rider, the death benefit is payable, but the rider terminates. However, if the beneficiary is the owner’s spouse, and the spouse elects to continue the contract, the death benefit is not payable until the spouse’s death. **Thus, you should not purchase this rider with multiple owners, unless the owners are spouses.** See “ING LifePay Minimum Guaranteed Withdrawal Benefit Rider–Death of Owner or Annuitant” for further information.

While in Lifetime Automatic Periodic Benefit Status, if the owner who is not the annuitant dies, we will continue to pay the periodic payments that the owner was receiving under the ING LifePay rider to the annuitant. While in Lifetime Automatic Periodic Benefit Status, if an owner who is also the annuitant dies, the periodic payments will stop. No other death benefit is payable.

Taxation. For more information about the tax treatment of amounts paid to you under the ING LifePay Rider, see “Federal Tax Considerations–Tax Consequences of Living Benefits and Death Benefit.”

ING Joint LifePay Minimum Guaranteed Withdrawal Benefit (ING Joint LifePay) Rider. The ING Joint LifePay rider generally provides, subject to the restrictions and limitations below, that we will guarantee a minimum level of annual withdrawals you may take from the contract for the lifetime of both you and your spouse, even if these withdrawals deplete your contract value to zero. Annual withdrawals in excess of the annual withdrawal amount allowed under the rider will reduce the amount of allowable future annual withdrawals, and may result in your inability to receive lifetime payments under the rider. You may wish to purchase this rider if you are married and are concerned that you and your spouse may outlive your income.

Purchase. The ING Joint LifePay rider is only available for purchase by individuals who are married at the time of purchase and eligible to elect spousal continuation (as defined by the Tax Code) when the death benefit becomes payable. We refer to these individuals as spouses. Certain ownership, annuitant, and beneficiary designations are required in order to purchase the ING Joint LifePay rider. See “Ownership, Annuitant, and Beneficiary Designation Requirements” below.

The minimum issue age is 60 and the maximum issue age is 80. Both spouses must meet these issue age requirements on the contract anniversary on which the ING Joint LifePay rider is effective. Some broker-dealers may limit the maximum issue age to ages younger than age 80, but in no event lower than age 60. We reserve the right to change the minimum or maximum issue ages on a nondiscriminatory basis. The ING Joint LifePay rider is currently only available if you have not already purchased an optional living benefit rider. We do, however, reserve the right to allow the purchase of more than one optional living benefit rider in the future, as well as the right to allow contract owners to replace the ING LifePay rider with the ING Joint LifePay rider. The ING Joint LifePay rider will not be issued if the initial allocation to investment options is not in accordance with the investment option restrictions described in “Investment Option Restrictions” below. The Company in its discretion may allow the ING Joint LifePay rider to be elected during the 30-day period preceding a contract anniversary. Such election must be received in good order, including owner, annuitant, and beneficiary designations and compliance with the investment restrictions described below. The ING Joint LifePay rider will be effective as of that contract anniversary.

Ownership, Annuitant, and Beneficiary Designation Requirements. Certain ownership, annuitant, and beneficiary designations are required in order to purchase the ING Joint LifePay rider. These designations depend upon whether the contract is issued as a nonqualified contract or as an IRA. In both cases the ownership, annuitant, and beneficiary designations must allow for the surviving spouse to continue the contract when the death benefit becomes payable, as provided by the Tax Code. Non-natural, custodial owners are only allowed with IRAs (“custodial IRAs”). Joint annuitants are not allowed. The necessary ownership, annuitant, and/or beneficiary designations are described below. Applications that do not meet the requirements below will be rejected. We reserve the right to verify the date of birth and social security number of both spouses.

Nonqualified Contracts. For a jointly owned contract, the owners must be spouses, and the annuitant must be one of the owners. For a contract with only one owner, the owner’s spouse must be the sole primary beneficiary, and the annuitant must be one of the spouses.

IRAs. There may only be one owner of a contract issued as an IRA, who must also be the annuitant. The owner’s spouse must be the sole primary beneficiary.

Custodial IRAs. While we do not maintain individual owner and beneficiary designations for IRAs held by an outside custodian, the ownership and beneficiary designations with the custodian must comply with the requirements listed in “IRAs” above. The annuitant must be the same as the beneficial owner of the custodial IRA. We require the custodian to provide us the name and date of birth of both the owner and the owner’s spouse.

Rider Date. The rider date is the date the ING Joint LifePay rider becomes effective. The rider date is also the contract date if you purchased the ING Joint LifePay rider when the contract was issued.

Charge. The charge for the ING Joint LifePay rider is deducted quarterly from your contract value as follows:

As an Annual Charge (Charge Deducted Quarterly)	As a Quarterly Charge	Maximum Annual Charge if Reset Option Elected
0.65% of contract value	0.1625% of contract value	1.50% of contract value

The charge is deducted during the period starting on the rider date and up to your rider’s Lifetime Automatic Periodic Benefit status. Lifetime Automatic Periodic Benefit Status will occur if your contract value is reduced to zero and other conditions are met. The charge may be subject to change if you elect the reset option, subject to the maximum annual charge. For more information on this rider, including when Lifetime Automatic Periodic Benefit status begins, please see “ING Joint LifePay Minimum Guaranteed Withdrawal Benefit Rider” below. If you surrender your contract or begin receiving income phase payments, the charge is pro-rated based upon the amount owed at the time. We reserve the right to change the charge for this rider, subject to the maximum annual charge. If changed, the new charge will only apply to riders issued after this change.

If the contract value in the subaccounts is insufficient for the charge, then we deduct it from any Fixed Interest Allocations, in which case a Market Value Adjustment may apply. Currently, a Market Value Adjustment would not apply when this charge is deducted from a Fixed Interest Allocation. With Fixed Interest Allocations, we deduct the charge from the Fixed Interest Allocation having the nearest maturity. For more information about the Fixed Interest Allocation, including the Market Value Adjustment, please see Appendix C. We reserve the right to change the charge for this rider, subject to the maximum annual charge. If changed, the new charge will only apply to riders issued after the change.

No Cancellation. Once you purchase the ING Joint LifePay rider, you may not cancel it unless you a) cancel the contract during the contract's free look period, b) surrender, c) begin income phase payments, or d) otherwise terminate the contract pursuant to its terms. These events automatically cancel the ING Joint LifePay rider. Once the contract continues beyond the free look period, you may not cancel the rider. The Company may, at its discretion, cancel and/or replace a rider at your request in order to renew or reset a rider.

Termination. The ING Joint LifePay rider a "living benefit," which means the guaranteed benefits offered by the rider is intended to be available to you while you are living and while your contract is in the accumulation phase. Generally, the optional riders automatically terminate if you:

- 1) Terminate your contract pursuant to its terms during the accumulation phase, surrender, or begin receiving income phase payments in lieu of payments under the rider;
- 2) Die during the accumulation phase (first owner to die in the case of joint owners, or death of annuitant if the contract is a custodial IRA), unless your spouse elects to continue the contract (and your spouse is active for purposes of the ING Joint LifePay rider); or
- 3) Change the owner of the contract (other than a spousal continuation by an active spouse).

Other circumstances that may cause a rider to terminate automatically are discussed below with each rider.

Active Status. Once the ING Joint LifePay rider has been issued, a spouse must remain in "active" status in order to exercise rights and receive the benefits of the ING Joint LifePay rider after the first spouse's death by electing spousal continuation. In general, changes to the ownership, annuitant, and/or beneficiary designation requirements noted above will result in one spouse being designated as "inactive." Inactive spouses are not eligible to continue the benefits of the ING Joint LifePay rider after the death of the other spouse. Once designated "inactive," a spouse may not regain active status under the ING Joint LifePay rider. Specific situations that will result in a spouse's designation as "inactive" include the following:

- 1) For nonqualified contracts where the spouses are joint owners, the removal of a joint owner (if that spouse does not automatically become sole primary beneficiary pursuant to the terms of the contract), or the change of one joint owner to a person other than an active spouse.
- 2) For nonqualified contracts where one spouse is the owner and the other spouse is the sole primary beneficiary, as well as for IRA contracts (including custodial IRAs), the addition of a joint owner who is not also an active spouse, or any change of beneficiary (including the addition of primary beneficiaries).
- 3) In the event of the death of one spouse (in which case the deceased spouse becomes inactive).

An owner may also request that one spouse be treated as inactive. In the case of joint-owned contracts, both contract owners must agree to such a request. An inactive spouse is not eligible to exercise any rights or receive any benefits under the ING Joint LifePay rider. **However, all charges for the ING Joint LifePay rider will continue to apply, even if one spouse becomes inactive, regardless of the reason. You should make sure you understand the impact of beneficiary and owner changes on the ING Joint LifePay rider prior to requesting any such changes.**

A divorce will terminate the ability of an ex-spouse to continue the contract. See "Divorce" below.

Lifetime Guaranteed Withdrawal Status. This status begins on the date the ING Joint LifePay rider is issued (the "effective date of the ING Joint LifePay rider") and continues until the earliest of: not used in other sections

- 1) the income phase commencement date;
- 2) reduction of the contract value to zero by a withdrawal in excess of the Maximum Annual Withdrawal;
- 3) reduction of the contract value to zero by a withdrawal less than or equal to the Maximum Annual Withdrawal;
- 4) the surrender of the contract; or
- 5) the death of the owner (first owner, in the case of joint owners, or the annuitant, in the case of a custodial IRA), unless your active spouse beneficiary elects to continue the contract.

For more information on the impact of a withdrawal reducing the contract value to zero on the Maximum Annual Withdrawal, please see “Lifetime Automatic Periodic Benefit Status” below. As described below, certain features of the ING Joint LifePay rider may differ depending upon whether you are in Lifetime Guaranteed Withdrawal Status.

How the ING Joint LifePay Rider Works. The ING Joint LifePay rider has two phases. The first phase, called the Growth Phase, begins on the effective date of the ING Joint LifePay rider and ends as of the business day before the first withdrawal is taken (or when the income phase commencement date is reached). The second phase is called the Withdrawal Phase. This phase begins as of the date you take the first withdrawal of any kind under the contract (other than investment advisory fees, as described below), or the income phase commencement date, whichever occurs first. During the accumulation phase of the contract, the ING Joint LifePay rider may be in either the Growth Phase or the Withdrawal Phase. During the income phase of the contract, the rider may only be in the Withdrawal Phase. The rider is initially in Lifetime Guaranteed Withdrawal Status. While in this status you may terminate the rider by electing to enter the income phase and begin receiving income phase payments. However, if you have not elected to begin receiving income phase payments, and the rider enters Lifetime Automatic Periodic Benefit Status because the contract value has been reduced to zero, the rider and contract terminate (other than those provisions regarding the payment of the Maximum Annual Withdrawal, as described below) and you can no longer elect to receive income phase payments.

Benefits paid under the ING Joint LifePay rider require the calculation of the Maximum Annual Withdrawal. The ING Joint LifePay Base (referred to as the “MGWB Base” in the contract) is used to determine the Maximum Annual Withdrawal and is calculated as follows:

- 1) If you purchased the ING Joint LifePay rider on the contract date, the initial ING Joint LifePay Base is equal to the initial premium.
- 2) If you purchased the ING Joint LifePay rider after the contract date, the initial ING Joint LifePay Base is equal to the contract value on the effective date of the ING Joint LifePay rider.
- 3) The initial ING Joint LifePay Base is increased dollar-for-dollar by any premiums received during the Growth Phase (“eligible premiums”). The ING Joint LifePay Base is also increased to equal the contract value if the contract value is greater than the current ING Joint LifePay Base, valued on each quarterly contract anniversary after the effective date of the ING Joint LifePay rider during the Growth Phase. The ING Joint LifePay Base has no additional impact on the calculation of income phase payments or withdrawal benefits.

Currently, any additional premiums paid during the Withdrawal Phase are not eligible premiums for purposes of determining the ING Joint LifePay Base or the Maximum Annual Withdrawal; however, we reserve the right to treat such premiums as eligible premiums at our discretion, in a nondiscriminatory manner. Premiums received during the Withdrawal Phase do increase the contract value used to determine the reset Maximum Annual Withdrawal if you choose to reset the ING Joint LifePay rider (see “ING Joint LifePay Reset Option,” below). We reserve the right to discontinue allowing premium payments during the Withdrawal Phase.

Determination of the Maximum Annual Withdrawal. The Maximum Annual Withdrawal is determined on the date the Withdrawal Phase begins. It equals 5% of the greater of the contract value and the ING Joint LifePay Base, as of the last day of the Growth Phase. The first withdrawal after the effective date of the ING Joint LifePay rider (which causes the end of the Growth Phase) is treated as occurring on the first day of the Withdrawal Phase, immediately after calculation of the Maximum Annual Withdrawal.

If the ING Joint LifePay rider is in the Growth Phase, and the income phase commencement date is reached, the ING Joint LifePay rider will enter the Withdrawal Phase and income phase payments will begin. In lieu of the income phase options under the Contract, you may elect a life only income phase option under which we will pay the greater of the income phase payout under the Contract and equal annual payments of the Maximum Annual Withdrawal, provided that, if both spouses are active, payments under the life only income phase option will be calculated using the joint life expectancy table for both spouses. If only one spouse is active, payments will be calculated using the single life expectancy table for the active spouse.

Withdrawals in a contract year that do not exceed the Maximum Withdrawal Amount do not reduce the Maximum Withdrawal Amount. However, if withdrawals in any contract year exceed the Maximum Annual Withdrawal (an “excess withdrawal”), the Maximum Annual Withdrawal will be reduced on a pro-rata basis. This means that the Maximum Annual Withdrawal will be reduced by the same proportion as the excess withdrawal is of the contract value determined after the deduction for the amount withdrawn up to the Maximum Annual Withdrawal but before the deduction of the excess withdrawal.

When a withdrawal is made, the total withdrawals taken in a contract year are compared with the current Maximum Annual Withdrawal. To the extent that the withdrawal taken causes the total withdrawals in that year to exceed the current Maximum Annual Withdrawal, that withdrawal is considered excess. For purposes of determining whether the Maximum Annual Withdrawal has been exceeded, any applicable Market Value Adjustment or surrender charges will not be considered. However, for purposes of determining the Maximum Annual Withdrawal reduction after an excess withdrawal, any surrender charges and/or Market Value Adjustment are considered to be part of the withdrawal, and will be included in the pro-rata adjustment to the Maximum Annual Withdrawal. See Illustration 1 and 2 below for examples of this concept.

Required Minimum Distributions. Withdrawals taken from the contract to satisfy the Required Minimum Distribution rules of the Tax Code are considered withdrawals for purposes of the rider, and will begin the Withdrawal Phase if the Withdrawal Phase has not already started. Any such withdrawal which exceeds the Maximum Annual Withdrawal for a specific contract year, will not be deemed excess withdrawals in that contract year for purposes of the ING Joint LifePay rider, subject to the following:

- 1) If the contract owner's Required Minimum Distribution for a calendar year (determined on a date on or before January 31 of that year), applicable to the contract, is greater than the Maximum Annual Withdrawal on that date, an Additional Withdrawal Amount will be set equal to that portion of the Required Minimum Distribution that exceeds the Maximum Annual Withdrawal.
- 2) You may withdraw the Additional Withdrawal Amount from this contract without it being deemed an excess withdrawal.
- 3) Any withdrawals taken in a contract year will count first against the Maximum Annual Withdrawal for that contract year.
- 4) Once the Maximum Annual Withdrawal for the then current contract year has been taken, additional amounts withdrawn in excess of the Maximum Annual Withdrawal will count against and reduce any Additional Withdrawal Amount.
- 5) Withdrawals that exceed the Additional Withdrawal Amount are excess withdrawals and will reduce the Maximum Annual Withdrawal on a pro-rata basis, as described above.
- 6) The Additional Withdrawal Amount is reset to zero at the end of each calendar year, and remains at zero until it is reset in January of the following calendar year, even if, pursuant to the Tax Code, the contract owner may take a Required Minimum Distribution for that calendar year after the end of the calendar year. The Additional Withdrawal Amount, when recalculated, will not include your Required Minimum Distribution for a calendar year, or any portion thereof, that may otherwise be taken after that calendar year's end.
- 7) If the contract is still in the Growth Phase on the date the Additional Withdrawal Amount is determined, but enters the Withdrawal Phase later during that calendar year, the Additional Withdrawal Amount will be equal to the amount in excess of the Maximum Annual Withdrawal Amount necessary to satisfy the Required Minimum Distribution for that year (if any).

See Illustration 3, below.

Investment Advisory Fees. Withdrawals taken pursuant to a program established by the contract owner for the payment of investment advisory fees to a named third party investment adviser for advice on management of the contract's values will not cause the Withdrawal Phase to begin. During the Growth Phase, such withdrawals reduce the ING Joint LifePay Base on a pro-rata basis, and during the Withdrawal Phase, these withdrawals are treated as any other withdrawal.

Lifetime Automatic Periodic Benefit Status. If the contract value is reduced to zero by a withdrawal in excess of the Maximum Annual Withdrawal, the contract and the ING Joint LifePay rider will terminate due to the pro-rata reduction described in "Determination of the Maximum Annual Withdrawal," above.

If the contract value is reduced to zero for a reason other than a withdrawal in excess of the Maximum Annual Withdrawal while the ING Joint LifePay rider is in Lifetime Guaranteed Withdrawal Status, the ING Joint LifePay rider will enter Lifetime Automatic Periodic Benefit Status and you are no longer entitled to make withdrawals. Instead, under the rider you will begin to receive periodic payments in an annual amount equal to the Maximum Annual Withdrawal.

When the ING Joint LifePay rider enters Lifetime Automatic Periodic Benefit Status:

- 1) the contract will provide no further benefits (including death benefits) other than as provided under the ING Joint LifePay rider;
- 2) no further premium payments will be accepted; and
- 3) any other riders attached to the contract will terminate, unless otherwise specified in that rider.

During Lifetime Automatic Periodic Benefit Status, we will pay you periodic payments in an annual amount equal to the Maximum Annual Withdrawal. The time period for which we will make these payments will depend upon whether one or two spouses are active under the ING Joint LifePay rider at the time this status begins. If both spouses are active under the ING Joint LifePay rider, these payments will cease upon the death of the second spouse, at which time both the ING Joint LifePay rider and the contract will terminate without further value. If only one spouse is active under the ING Joint LifePay rider, the payments will cease upon the death of the active spouse, at which time both the ING Joint LifePay rider and the contract will terminate without value.

If the Maximum Annual Withdrawal exceeds the net withdrawals taken the contract year when the ING Joint LifePay rider enters Lifetime Automatic Periodic Benefit Status (including the withdrawal that results in the contract value decreasing to zero), that difference will be paid immediately to the contract owner. The periodic payments will begin on the last day of the first full contract year following the date the ING Joint LifePay rider enters Lifetime Automatic Periodic Benefit Status and will continue to be paid annually thereafter.

You may elect to receive systematic withdrawals pursuant to the terms of the contract. Under a systematic withdrawal, either a fixed amount or an amount based upon a percentage of the contract value will be withdrawn from your contract and paid to you on a scheduled basis, either monthly, quarterly, or annually. If, at the time the ING Joint LifePay rider enters Lifetime Automatic Periodic Benefit Status, you are receiving systematic withdrawals under the contract more frequently than annually, the periodic payments will be made at the same frequency in equal amounts such that the sum of the payments in each contract year will equal the annual Maximum Annual Withdrawal. Such payments will be made on the same payment dates as previously set up, if the payments were being made monthly or quarterly. If the payments were being made semi-annually or annually, the payments will be made at the end of the half-contract year or contract year, as applicable.

ING Joint LifePay Reset Option. Beginning one year after the Withdrawal Phase begins, you may choose to reset the Maximum Annual Withdrawal, if 5% of the contract value would be greater than your current Maximum Annual Withdrawal. You must elect to reset by a request in a form satisfactory to us. On the date the request is received (the "Reset Effective Date"), the Maximum Annual Withdrawal will increase to be equal to 5% of the contract value on the Reset Effective Date. The reset option is only available when the ING Joint LifePay rider is in Lifetime Guaranteed Withdrawal Status. We reserve the right to limit resets to the contract anniversary.

After exercising the reset option, you must wait one year before electing to reset again. We will not accept a request to reset if the new Maximum Annual Withdrawal on the date the request is received would be less than your current Maximum Annual Withdrawal.

If the reset option is exercised, the charge for the ING Joint LifePay rider will be equal to the charge then in effect for a newly purchased rider but will not exceed the maximum annual charge of 1.50%. However, we guarantee that the ING Joint LifePay rider charge will not increase for resets exercised within the first five contract years. See Illustration 4, below.

Investment Option Restrictions. In order to mitigate the insurance risk inherent in our guarantee to provide you and your spouse with lifetime payments (subject to the terms and restrictions of the ING Joint LifePay rider, as described in this supplement), we require that your contract value be allocated in accordance with certain limitations. In general, to the extent that you choose not to invest in the Accepted Funds, we require that 20% of the amount not so invested be invested in the Fixed Allocation Fund. We will require this allocation regardless of your investment instructions to the contrary, as described further below.

Accepted Funds. Currently, the Accepted Funds are:

- Fixed Account II
- Fixed Interest Division
- ING Liquid Assets Portfolio
- ING Solution Income Portfolio
- ING Solution 2015 Portfolio
- ING Solution 2025 Portfolio
- ING Solution 2035 Portfolio
- ING T. Rowe Price Capital Appreciation Portfolio.

If this rider was purchased before January 12, 2009, the following are additional Accepted Funds:

- ING Franklin Templeton Founding Strategy Portfolio; and
- ING WisdomTreeSM Global High-Yielding Equity Index Portfolio

No rebalancing is necessary if the contract value is allocated entirely to Accepted Funds. We may change these designations at any time upon 30 days notice to you. If a change is made, the change will apply to contract value allocated to such portfolios after the date of the change.

Fixed Allocation Funds. Currently, the Fixed Allocation Funds are:

- ING American Funds Bond Portfolio
- ING BlackRock Inflation Protected Bond Portfolio
- ING Intermediate Bond Portfolio
- ING U.S. Bond Index Portfolio.

You may allocate your contract value to one or more Fixed Allocated Funds. We consider the ING Intermediate Bond Portfolio to be the default Fixed Allocation Fund in connection with Fixed Allocation Funds Automatic Rebalancing.

Other Funds. All portfolios available under the contract other than Accepted Funds or Fixed Allocation Funds are considered Other Funds.

Fixed Allocation Funds Automatic Rebalancing. If the contract value in the Fixed Allocation Funds is less than 20% of the total contract value allocated to the Fixed Allocation Funds and Other Funds on any ING Joint LifePay Rebalancing Date, we will automatically rebalance the contract value allocated to the Fixed Allocation Funds and Other Funds so that 20% of this amount is allocated to the Fixed Allocation Funds. Accepted Funds are excluded from Fixed Allocation Funds Automatic Rebalancing. Any rebalancing is done on a pro-rata basis among the Other Funds and will be the last transaction processed on that date. The ING Joint LifePay Rebalancing Dates occur on each contract anniversary and after the following transactions:

- 1) receipt of additional premiums;
- 2) transfer or reallocation among the Fixed Allocation Funds or Other Funds, whether automatic or specifically directed by you; and
- 3) withdrawals from the Fixed Allocation Funds or Other Funds.

Fixed Allocation Funds Automatic Rebalancing is separate from any other automatic rebalancing under the contract. However, if the other automatic rebalancing under the contract causes the allocations to be out of compliance with the investment option restrictions noted above, Fixed Allocation Funds Automatic Rebalancing will occur immediately after the automatic rebalancing to restore the required allocations. See "Appendix J—Examples of Fixed Allocation Funds Automatic Rebalancing."

In certain circumstances, Fixed Allocation Funds Automatic Rebalancing may result in a reallocation into the Fixed Allocation Fund even if you have not previously been invested in it. See "Appendix J—Examples of Fixed Allocation Funds Automatic Rebalancing, Example I." **By electing to purchase the ING Joint LifePay rider, you are providing the Company with direction and authorization to process these transactions, including reallocations into the Fixed Allocation Fund. You should not purchase the ING Joint LifePay rider if you do not wish to have your contract value reallocated in this manner.**

Divorce. Generally, in the event of a divorce, the spouse who retains ownership of the contract will continue to be entitled to all rights and benefits of the ING Joint LifePay rider, while the ex-spouse will no longer have any such rights or be entitled to any such benefits. In the event of a divorce during Lifetime Guaranteed Withdrawal Status, the ING Joint LifePay rider continues, and terminates upon the death of the owner (first owner in the case of joint owners, or the annuitant in the case of a custodial IRA). Although spousal continuation may be available under the Tax Code for a subsequent spouse, the ING Joint LifePay rider cannot be continued by the new spouse. As the result of the divorce, we may be required to withdraw assets for the benefit of an ex-spouse. Any such withdrawal will be considered a withdrawal for purposes of the Maximum Annual Withdrawal amount. In other words, if a withdrawal incident to a divorce exceeds the Maximum Annual Withdrawal amount, it will be considered an excess withdrawal. See “Determination of the Maximum Annual Withdrawal,” above. As noted, in the event of a divorce there is no change to the Maximum Annual Withdrawal and we will continue to deduct charges for the ING Joint LifePay rider.

In the event of a divorce during Lifetime Automatic Periodic Benefit Status, there will be no change to the periodic payments made. Payments will continue until both spouses are deceased.

Death of Owner. The death of the owner (in the case of joint owners, the first owner, or for custodial IRAs, the annuitant) during Lifetime Guaranteed Withdrawal Status may cause the termination of the ING Joint LifePay rider and its charges, depending upon whether one or both spouses are in active status at the time of death, as described below.

- 1) **If both spouses are in active status:** If the surviving spouse elects to continue the contract and becomes the owner and annuitant, the ING Joint LifePay rider will remain in effect pursuant to its original terms and ING Joint LifePay coverage and charges will continue. As of the date the contract is continued, the Maximum Annual Withdrawal will be set to the greater of the existing Maximum Annual Withdrawal or 5% of the contract value on the date the contract is continued. Such a reset will not count as an exercise of the ING Joint LifePay Reset Option, and rider charges will not increase.

If the surviving spouse elects not to continue the contract, ING Joint LifePay rider coverage and charges will cease upon the earlier of payment of the death benefit or notice that an alternative distribution option has been chosen.

- 2) **If the surviving spouse is in inactive status:** The ING Joint LifePay rider terminates and ING Joint LifePay coverage and charges cease upon proof of death.

Change of Owner or Annuitant. Other than as a result of spousal continuation, you may not change the annuitant. The ING Joint LifePay rider and rider charges will terminate upon change of owner, including adding an additional owner, except for the following ownership changes:

- 1) spousal continuation by an active spouse, as described above;
- 2) change of owner from one custodian to another custodian for the benefit of the same individual;
- 3) change of owner from a custodian for the benefit of an individual to the same individual (in order to avoid the owner's spouse from being designated inactive, the owner's spouse must be named sole beneficiary under the contract);
- 4) change of owner from an individual to a custodian for the benefit of the same individual;
- 5) collateral assignments;
- 6) for nonqualified contracts only, the addition of a joint owner, provided that the additional joint owner is the original owner's spouse and is active when added as joint owner;
- 7) for nonqualified contracts, removal of a joint owner, provided the removed joint owner is active and becomes the primary contract beneficiary; and
- 8) for nonqualified contracts, change of owner where the owner becomes the sole primary beneficiary and the sole primary beneficiary becomes the owner if both were active spouses at the time of the change.

Surrender Charges. If you elect the ING Joint LifePay rider, your withdrawals will be subject to surrender charges if they exceed the free withdrawal amount. However, once your contract value is zero, the periodic payments under the ING Joint LifePay rider are not subject to surrender charges, nor will these amounts be subject to any other charges under the contract.

Taxation. For more information about the tax treatment of amounts paid to you under the ING LifePay and the ING Joint LifePay riders, see “Federal Tax Considerations–Tax Consequences of Living Benefits and Death Benefits.”

ING LifePay and ING Joint LifePay Partial Withdrawal Amount Examples

The following are examples of adjustments to the Maximum Annual Withdrawal amount for withdrawals in excess of the Maximum Annual Withdrawal:

Illustration 1: Adjustment to the Maximum Annual Withdrawal amount for a withdrawal in excess of the Maximum Annual Withdrawal, including surrender and/or MVA charges.

Assume the Maximum Annual Withdrawal is \$5,000.

The first withdrawal taken during the contract year is \$3,000 net, with \$500 of surrender and/or MVA charges. The Maximum Annual Withdrawal is not exceeded.

The next withdrawal taken during the contract year is \$1,500 net, with \$300 of surrender and/or MVA charges. The Maximum Annual Withdrawal is not exceeded because total net withdrawals, \$4,500, do not exceed the Maximum Annual Withdrawal, \$5,000.

The next withdrawal taken during the contract year is \$1,500 net, with \$200 of surrender and/or MVA charges. Because total net withdrawals taken, \$6,000, exceed the Maximum Annual Withdrawal, \$5,000, then there is an adjustment to the Maximum Annual Withdrawal.

Total gross withdrawals during the contract year are \$7,000 (\$3,000 + \$500 + \$1,500 + \$300 + \$1,500 + \$200). The adjustment is the lesser of the amount by which the total gross withdrawals for the year exceed the Maximum Annual Withdrawal (\$7,000 – \$5,000 = \$2,000), and the amount of the current gross withdrawal (\$1,500 + \$200 = \$1,700).

If the contract value before this withdrawal is \$50,000, then the Maximum Annual Withdrawal is reduced by 3.40% ($\$1,700 / \$50,000$) to \$4,830 ($(1 - 3.40\%) * \$5,000$).

Illustration 2: Adjustment to the Maximum Annual Withdrawal amount for a withdrawal in excess of the Maximum Annual Withdrawal.

Assume the Maximum Annual Withdrawal is \$5,000.

The first withdrawal taken during the contract year is \$3,000 net, with \$0 of surrender and/or MVA charges. The Maximum Annual Withdrawal is not exceeded.

The next withdrawal taken during the contract year is \$1,500 net, with \$0 of surrender and/or MVA charges. The Maximum Annual Withdrawal is not exceeded because total net withdrawals, \$4,500, do not exceed the Maximum Annual Withdrawal, \$5,000.

The next withdrawal taken during the contract year is \$1,500 net, with \$0 of surrender and/or MVA charges. Because total net withdrawals taken, \$6,000, exceed the Maximum Annual Withdrawal, \$5,000, there is an adjustment to the Maximum Annual Withdrawal.

Total gross withdrawals during the contract year are \$6,000 (\$3,000 + \$1,500 + \$1,500). The adjustment is the lesser of the amount by which the total gross withdrawals for the year exceed the Maximum Annual Withdrawal, \$1,000, and the amount of the current gross withdrawal, \$1,500.

If the contract value after the part of the gross withdrawal that was within the Maximum Annual Withdrawal, \$500, is \$49,500, then the Maximum Annual Withdrawal is reduced by 2.02% ($\$1,000 / \$49,500$) to \$4,899 ($(1 - 2.02\%) * \$5,000$).

Illustration 3: A withdrawal exceeds the Maximum Annual Withdrawal amount but does not exceed the Additional Withdrawal Amount.

Assume the Maximum Annual Withdrawal is \$5,000. On January 31, the Required Minimum Distribution for the current calendar year applicable to this contract is determined to be \$6,000. The Additional Withdrawal Amount is set equal to the excess of this amount above the Maximum Annual Withdrawal, \$1,000 ($\$6,000 - \$5,000$).

The first withdrawal taken during the contract year is \$3,000 net, with \$0 of surrender and/or MVA charges. The Maximum Annual Withdrawal is not exceeded.

The next withdrawal taken during the contract year is \$1,500 net, with \$0 of surrender and/or MVA charges. The Maximum Annual Withdrawal is not exceeded because total net withdrawals, \$4,500, do not exceed the Maximum Annual Withdrawal, \$5,000.

The next withdrawal taken during the contract year is \$1,500 net, with \$0 of surrender and/or MVA charges. Total net withdrawals taken, \$6,000, exceed the Maximum Annual Withdrawal, \$5,000, however, the Maximum Annual Withdrawal is not adjusted until the Additional Withdrawal Amount is exhausted. The amount by which total net withdrawals taken exceed the Maximum Annual Withdrawal, \$1,000 ($\$6,000 - \$5,000$), is the same as the Additional Withdrawal Amount, so no adjustment to the Maximum Annual Withdrawal is made. If total net withdrawals taken had exceeded the sum of the Maximum Annual Withdrawal and the Additional Withdrawal Amount, then an adjustment would be made to the Maximum Annual Withdrawal.

Illustration 4: The Reset Option is utilized.

Assume the Maximum Annual Withdrawal is \$5,000.

One year after the first withdrawal is taken, the contract value has increased to \$120,000, and the Reset Option is utilized. The Maximum Annual Withdrawal is now \$6,000 ($\$120,000 * 5\%$).

One year after the Reset Option was first utilized, the contract value has increased further to \$130,000. The Reset Option is utilized again, and the Maximum Annual Withdrawal is now \$6,500 ($\$130,000 * 5\%$).

ING USA Annuity and Life Insurance Company

ING USA Annuity and Life Insurance Company is a stock company domiciled in Iowa.

Introduction

This Statement of Additional Information provides background information regarding Separate Account B.

Description of ING USA Annuity and Life Insurance Company

ING USA Annuity and Life Insurance Company (“ING USA”) is an Iowa stock life insurance company, which was originally incorporated in Minnesota on January 2, 1973. ING USA is a wholly owned subsidiary of Lion Connecticut Holdings Inc. (“Lion Connecticut”), which in turn is a wholly owned subsidiary of ING Groep N.V. (“ING”), a global financial services holding company based in The Netherlands. ING USA is authorized to sell insurance and annuities in all states, except New York, and the District of Columbia. ING USA is authorized to sell insurance and annuities in all states, except New York, and the District of Columbia. ING USA’s consolidated financial statements appear in the Statement of Additional Information.

ING USA is authorized to do business in all jurisdictions except New York. ING USA offers variable insurance products. ReliaStar Life Insurance Company of New York (“RLNY”), an affiliate of ING USA, is licensed to do variable annuity business in the state of New York.

Separate Account B

Separate Account B is a separate account established by the Company for the purpose of funding variable annuity contracts issued by the Company. The separate account is registered with the Securities and Exchange Commission (“SEC”) as a unit investment trust under the Investment Company Act of 1940, as amended. Purchase payments to accounts under the contract may be allocated to one or more of the subaccounts. Each subaccount invests in the shares of only one of the funds offered under the contracts. We may make additions to, deletions from or substitutions of available investment options as permitted by law and subject to the conditions of the contract. The availability of the funds is subject to applicable regulatory authorization. Not all funds are available in all jurisdictions or under all contracts.

Safekeeping of Assets

ING USA acts as its own custodian for Separate Account B.

Experts

The statements of assets and liabilities of Separate Account B as of December 31, 2010, and the related statements of operations and changes in net assets for the periods disclosed in the financial statements, and the financial statements of ING USA Annuity and Life Insurance Company as of December 31, 2010 and 2009, and for each of the three years in the period ended December 31, 2010, included in the Statement of Additional Information, have been audited by Ernst & Young LLP, independent registered public accounting firm, as set forth in their reports thereon appearing elsewhere herein, and are included in reliance upon such reports given on the authority of such firm as experts in accounting and auditing.

The primary business address of Ernst & Young LLP is Suite 1000, 55 Ivan Allen Jr. Boulevard, Atlanta, GA 30308.

Distribution of Contracts

The offering of contracts under the prospectus associated with this Statement of Additional Information is continuous. Directed Services LLC, an affiliate of ING USA, acts as the principal underwriter (as defined in the Securities Act of 1933 and the Investment Company Act of 1940, as amended) of the variable insurance products (the “variable insurance products”) issued by ING USA. The contracts are distributed through registered representatives of other broker-dealers who have entered into selling agreements with Directed Services LLC. For the years ended 2010, 2009 and 2008 commissions paid by ING USA, including amounts paid by its affiliated Company, RLNY, to Directed Services LLC aggregated \$207,327,036, \$275,329,257 and \$622,486,274, respectively. All commissions received by the distributor were passed through to the broker-dealers who sold the contracts. Directed Services LLC is located at 1475 Dunwoody Drive, West Chester, Pennsylvania 19380-1478.

Under a management services agreement, last amended in 1995, ING USA provides to Directed Services LLC certain of its personnel to perform management, administrative and clerical services and the use of certain facilities. ING USA charges Directed Services LLC for such expenses and all other general and administrative costs, first on the basis of direct charges when identifiable, and the remainder allocated based on the estimated amount of time spent by ING USA's employees on behalf of Directed Services LLC. In the opinion of management, this method of cost allocation is reasonable. This fee, calculated as a percentage of average assets in the variable separate accounts, was \$204,327,036, \$123,231,239 and \$139,224,091 for the years ended 2010, 2009 and 2008, respectively.

Published Ratings

From time to time, the rating of ING USA as an insurance company by A.M. Best may be referred to in advertisements or in reports to contract owners. Each year the A.M. Best Company reviews the financial status of thousands of insurers, culminating in the assignment of Best's Ratings. These ratings reflect their current opinion of the relative financial strength and operating performance of an insurance company in comparison to the norms of the life/health insurance industry. Best's ratings range from A++ to F. An A++ and A+ ratings mean, in the opinion of A.M. Best, that the insurer has demonstrated the strongest ability to meet its respective policyholder and other contractual obligations.

Accumulation Unit Value

The calculation of the Accumulation Unit Value ("AUV") is discussed in the prospectus for the Contracts under Condensed Financial Information. Note that in your Contract, accumulation unit value is referred to as the Index of Investment Experience. The following illustrations show a calculation of a new AUV and the purchase of Units (using hypothetical examples). Note that the examples below are calculated for a Contract issued with the death benefit option with the highest mortality and expense risk charge. The mortality and expense risk charge associated with other death benefit options are lower than that used in the examples and would result in higher AUV's or contract values.

Illustration of Calculation of AUV

Example 1.

1. AUV, beginning of period	\$10.00
2. Value of securities, beginning of period	\$10.00
3. Change in value of securities	\$0.10
4. Gross investment return (3) divided by (2)	0.01
5. Less daily mortality and expense charge	0.00004280
6. Less asset based administrative charge	0.00000411
7. Net investment return (4) minus (5) minus (6)	0.009953092
8. Net investment factor (1.000000) plus (7)	1.009953092
9. AUV, end of period (1) multiplied by (8)	\$10.09953092

Illustration of Purchase of Units (Assuming no state premium tax)

Example 2.

1. Initial premium payment	\$1,000
2. AUV on effective date of purchase (see Example 1)	\$10.00
3. Number of units purchased (1) divided by (2)	100
4. AUV for valuation date following purchase (see Example 1)	\$10.09953092
5. Contract Value in account for valuation date following purchase (3) multiplied by (4)	\$1,009.95

IRA Partial Withdrawal Option

If the contract owner has an IRA contract and will attain age 70½ in the current calendar year, distributions will be made in accordance with the requirements of Federal tax law. This option is available to assure that the required minimum distributions from qualified plans under the Internal Revenue Code (the “Code”) are made. Under the Code, distributions must begin no later than April 1st of the calendar year following the calendar year in which the contract owner attains age 70½. If the required minimum distribution is not withdrawn, there may be a penalty tax in an amount equal to 50% of the difference between the amount required to be withdrawn and the amount actually withdrawn. Even if the IRA Partial Withdrawal Option is not elected, distributions must nonetheless be made in accordance with the requirements of Federal tax law.

ING USA notifies the contract owner of these regulations with a letter mailed in the calendar year in which the contract owner reaches age 70½ which explains the IRA Partial Withdrawal Option and supplies an election form. If electing this option, the owner specifies whether the withdrawal amount will be based on a life expectancy calculated on a single life basis (contract owner’s life only) or, if the contract owner is married, on a joint life basis (contract owner’s and spouse’s lives combined). The contract owner selects the payment mode on a monthly, quarterly or annual basis. If the payment mode selected on the election form is more frequent than annually, the payments in the first calendar year in which the option is in effect will be based on the amount of payment modes remaining when ING USA receives the completed election form. ING USA calculates the IRA Partial Withdrawal amount each year based on the minimum distribution rules. We do this by dividing the contract value by the life expectancy. In the first year withdrawals begin; we use the contract value as of the date of the first payment. Thereafter, we use the contract value on December 31st of each year. The life expectancy is recalculated each year. Certain minimum distribution rules govern payouts if the designated beneficiary is other than the contract owner’s spouse and the beneficiary is more than ten years younger than the contract owner.

Other Information

Registration statements have been filed with the SEC under the Securities Act of 1933, as amended, with respect to the contracts discussed in this Statement of Additional Information. Not all of the information set forth in the registration statements, amendments and exhibits thereto has been included in this Statement of Additional Information. Statements contained in this Statement of Additional Information concerning the content of the contracts and other legal instruments are intended to be summaries. For a complete statement of the terms of these documents, reference should be made to the instruments filed with the SEC.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Account's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Account's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2010, by correspondence with the transfer agents. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of each of the respective Divisions constituting ING USA Annuity and Life Insurance Company Separate Account B at December 31, 2010, the results of their operations and changes in their net assets for the periods disclosed in the financial statements, in conformity with U.S. generally accepted accounting principles.

ING USA ANNUITY AND LIFE INSURANCE COMPANY
SEPARATE ACCOUNT B
Notes to Financial Statements

1. Organization

ING USA Annuity and Life Insurance Company Separate Account B (the “Account”) was established by ING USA Annuity and Life Insurance Company (“ING USA” or the “Company”) to support the operations of variable annuity contracts (“Contracts”). The Company is an indirect, wholly owned subsidiary of ING America Insurance Holdings, Inc. (“ING AIH”) an insurance holding company domiciled in the State of Delaware. ING AIH is an indirect wholly owned subsidiary of ING Groep, N.V. (“ING”), a global financial services holding company based in The Netherlands.

As part of a restructuring plan approved by the European Commission (“EC”), ING has agreed to separate its banking and insurance businesses by 2013. ING intends to achieve this separation by divestment of its insurance and investment management operations, including the Company. ING has announced that it will explore all options for implementing the separation including one or more initial public offerings (“IPOs”), sales or a combination thereof. On November 10, 2010, ING announced that while the option of one global IPO remains open, ING and its U.S. insurance affiliates, including the Company, are going to prepare for a base case of two IPOs: one Europe-led IPO and one separate U.S. focused IPO.

The Account includes ING Architect Contracts, ING GoldenSelect Contracts, ING Retirement Solutions Rollover Choice Contracts and ING SmartDesign Contracts (collectively, the “Contracts”), that ceased being available to new contractowners in 2010. These Contracts were, however, still available to existing contractowners in 2010. ING GoldenSelect Contracts included Access, DVA Plus, Premium Plus, ESII, and Landmark. ING SmartDesign Contracts include Advantage, Signature Variable Annuity and Variable Annuity.

The Account also includes the following discontinued offerings:

ING GoldenSelect Contracts:

- Access One (September 2003)
- DVA and DVA Series 100 (May 2000)
- DVA 80 (May 1991)
- DVA Plus (January 2004)
- Generations (October 2008)
- Granite PrimElite (May 2001)
- Opportunities and Legends (March 2007)
- Value (June 2003)

ING Simplicity Contracts (August 2007)

ING SmartDesign Contracts:

- Variable Annuity, Advantage and Signature (April 2008)

Wells Fargo ING Contracts:

- Opportunities and Landmark (June 2006)

ING Customized Solutions Focus Contracts (September 2004)

In addition, the Account includes The Fund For Life Division, which is not included in the accompanying financial statements, and which ceased to accept new Contracts effective December 31, 1994.

ING USA ANNUITY AND LIFE INSURANCE COMPANY
SEPARATE ACCOUNT B
Notes to Financial Statements

The Account is registered as a unit investment trust with the Securities and Exchange Commission under the Investment Company Act of 1940, as amended. ING USA provides for variable accumulation and benefits under the Contracts by crediting annuity considerations to one or more divisions within the Account or the ING USA guaranteed interest division, the ING USA fixed interest division, and the fixed separate account, which are not part of the Account, as directed by the contractowners. The portion of the Account's assets applicable to Contracts will not be charged with liabilities arising out of any other business ING USA may conduct, but obligations of the Account, including the promise to make benefit payments, are obligations of ING USA. Under applicable insurance law, the assets and liabilities of the Account are clearly identified and distinguished from the other assets and liabilities of ING USA.

At December 31, 2010, the Account had 154 investment divisions (the "Divisions"), 24 of which invest in independently managed mutual fund portfolios and 130 of which invest in mutual fund portfolios managed by affiliates, either Directed Services LLC ("DSL") or ING Investments, LLC ("IIL"). The assets in each Division are invested in shares of a designated mutual fund ("Fund") of various investment trusts (the "Trusts"). Investment Divisions at December 31, 2010 and related Trusts are as follows:

The following Divisions were offered during 2010 but did not have any activity as of December 31, 2010:

ING Investors Trust:
 ING BlackRock Large Cap Growth Portfolio - Service 2 Class
 ING Wells Fargo Health Care Portfolio - Service 2 Class
ING Variable Portfolios, Inc.:
 ING Small Company Portfolio - Service 2 Class

2. Significant Accounting Policies

The following is a summary of the significant accounting policies of the Account:

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from reported results using those estimates.

Investments

Investments are made in shares of a Division and are recorded at fair value, determined by the net asset value per share of the respective Division. Investment transactions in each Division are recorded on the trade date. Distributions of net investment income and capital gains from each Division are recognized on the ex-distribution date. Realized gains and losses on redemptions of the shares of the Division are determined on a first-in, first-out basis. The difference between cost and current market value of investments owned on the day of measurement is recorded as unrealized appreciation or depreciation of investments.

Federal Income Taxes

Operations of the Account form a part of, and are taxed with, the total operations of ING USA, which is taxed as a life insurance company under the Internal Revenue Code. Earnings and realized capital gains of the Account attributable to the contractowners are excluded in the determination of the federal income tax liability of ING USA.

Contractowner Reserves

The annuity reserves of the Account are represented by net assets on the Statements of Assets and Liabilities and are equal to the aggregate account values of the contractowners invested in the Account Divisions. To the extent that benefits to be paid to the contractowners exceed their account values, ING USA will contribute additional funds to

ING USA ANNUITY AND LIFE INSURANCE COMPANY
SEPARATE ACCOUNT B
Notes to Financial Statements

the benefit proceeds. Conversely, if amounts allocated exceed amounts required, transfers may be made to ING USA. Prior to the annuity date, the Contracts are redeemable for the net cash surrender value of the Contracts.

Changes from Principal Transactions

Included in Changes from Principal Transactions on the Statements of Changes in Net Assets are items which relate to contractowner activity, including deposits, surrenders and withdrawals, benefits, and contract charges. Also included are transfers between the fixed account and the Divisions, transfers between Divisions, and transfers to (from) ING USA related to gains and losses resulting from actual mortality experience (the full responsibility for which is assumed by ING USA). Any net unsettled transactions as of the reporting date are included in Payable to related parties on the Statements of Assets and Liabilities.

Subsequent Events

The Account has evaluated subsequent events for recognition and disclosure through the date the financial statements as of December 31, 2010 and for the years ended December 31, 2010 and 2009, were issued.

3. Recently Adopted Accounting Standards

Improving Disclosures about Fair Value Measurements

In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2010-06, "Fair Value Measurements and Disclosure (Topic 820): Improving Disclosures about Fair Value Measurements," ("ASU 2010-06"), which requires several new disclosures, as well as clarification to existing disclosures, as follows:

- Significant transfers in and out of Level 1 and Level 2 fair value measurements and the reason for the transfers;
- Purchases, sales, issuances, and settlement, in the Level 3 fair value measurements reconciliation on a gross basis;
- Fair value measurement disclosures for each class of assets and liabilities (i.e., disaggregated); and
- Valuation techniques and inputs for both recurring and nonrecurring fair value measurements that fall in either Level 2 or Level 3 fair value measurements.

The provisions of ASU 2010-06 were adopted by the Account on January 1, 2010, except for the disclosures related to the Level 3 reconciliation, which are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. The Account determined, however, that there was no effect on the Account's

ING USA ANNUITY AND LIFE INSURANCE COMPANY
SEPARATE ACCOUNT B
Notes to Financial Statements

disclosures, as the guidance is consistent with that previously applied by the Account under FASB Accounting Standards Codification™ (“ASC”) Topic 820, “Fair Value Measurements and Disclosures” (“ASC Topic 820”). As the pronouncement only pertains to additional disclosure, the adoption had no effect on the Account’s net assets and results of operations.

Subsequent Events

In May 2009, the FASB issued new guidance on subsequent events, included in ASC Topic 855, “Subsequent Events,” which establishes:

- The period after the balance sheet date during which an entity should evaluate events or transactions for potential recognition or disclosure in the financial statements;
- The circumstances under which an entity should recognize such events or transactions in its financial statements; and
- Disclosures regarding such events or transactions and the date through which an entity has evaluated subsequent events.

These provisions, as included in ASC Topic 855, were adopted by the Account on June 30, 2009. In addition, in February 2010, the FASB issued ASU 2010-09, “Subsequent Events (Topic 855): Amendments to Certain Recognition and Disclosure Requirements,” which clarifies that an SEC filer should evaluate subsequent events through the date the financial statements are issued and eliminates the requirement for an SEC filer to disclose that date, effective upon issuance. The Account determined that there was no effect on the Account’s net assets and results of operations upon adoption, as the guidance is consistent with that previously applied by the Account under US auditing standards. The disclosure provisions included in ASC Topic 855, as amended, are presented in the Significant Accounting Policies footnote.

Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly

In April 2009, the FASB issued new guidance on determining fair value when the volume and level of activity for the asset or liability have significantly decreased and identifying transactions that are not orderly, included in ASC Topic 820, “Fair Value Measurements and Disclosures,” which confirms that fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date under current market conditions. In addition, this guidance, as included in ASC Topic 820:

- Clarifies factors for determining whether there has been a significant decrease in market activity for an asset or liability;

ING USA ANNUITY AND LIFE INSURANCE COMPANY
SEPARATE ACCOUNT B
Notes to Financial Statements

- Requires an entity to determine whether a transaction is not orderly based on the weight of the evidence; and
- Requires an entity to disclose in interim and annual periods the input and valuation technique used to measure fair value and any change in valuation technique.

These provisions, as included in ASC Topic 820, were adopted by the Account on April 1, 2009. The Account determined, however, that there was no effect on the Account's net assets and results of operations upon adoption, as its guidance is consistent with that previously applied by the Account under US GAAP.

4. Financial Instruments

The Account invests assets in shares of open-end mutual funds, which process orders to purchase and redeem shares on a daily basis at the fund's next computed net asset values ("NAV"). The fair value of the Account's assets is based on the NAVs of mutual funds, which are obtained from the custodian and reflect the fair values of the mutual fund investments. The NAV is calculated daily upon close of the New York Stock Exchange and is based on the fair values of the underlying securities.

The Account's financial assets are recorded at fair value on the Statements of Assets and Liabilities and are categorized as Level 1 as of December 31, 2010 and 2009, respectively, based on the priority of the inputs to the valuation technique below. The Account had no financial liabilities as of December 31, 2010.

The ASC Topic 820 fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument.

- Level 1 - Unadjusted quoted prices for identical assets or liabilities in an active market.
- Level 2 - Quoted prices in markets that are not active or inputs that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - a) Quoted prices for similar assets or liabilities in active markets;
 - b) Quoted prices for identical or similar assets or liabilities in non-active markets;
 - c) Inputs other than quoted market prices that are observable; and
 - d) Inputs that are derived principally from or corroborated by observable market data through correlation or other means.
- Level 3 - Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These valuations, whether derived internally or obtained from a third party, use critical assumptions that are not widely available to estimate market participant

expectations in valuing the asset or liability.

5. Charges and Fees

Prior to February 1, 2000, DVA Plus, Access, and Premium Plus Contracts each had three different death benefit options referred to as Standard, Annual Ratchet, and 7% Solution; however, in the state of Washington, the 5.5% Solution is offered instead of the 7% Solution. After February 1, 2000, DVA Plus, Access and Premium Plus each had four different death benefit options referred to as Standard, Annual Ratchet, 7% Solution and Max 7. In the state of Washington, the 5.5% Solution is offered instead of the 7% Solution and Max 5.5 is offered instead of Max 7 after February 1, 2000. ES II, Generations, Landmark and Opportunities contracts each have four different death benefit options referred to as Standard, Annual or Quarterly Ratchet, 7% Solution and Max 7. In the state of Washington, the 5.5% Solution is offered instead of the 7% Solution and Max 5.5 is offered instead of Max 7. SmartDesign Advantage, SmartDesign Signature, and SmartDesign Variable Annuity contracts each have three different death benefit options referred to as Option Package I, Option Package II, and Option Package III. Focus has two different options referred to as Option Package I, Option Package II.

Under the terms of all Contracts, certain charges are allocated to the Contracts to cover ING USA's expenses in connection with the issuance and administration of the Contracts. Following is a summary of these charges:

Mortality and Expense Risk Charges

ING USA assumes mortality and expense risks related to the operations of the Account and, in accordance with the terms of the Contracts, deducts a daily charge from the assets of the Account.

ING USA ANNUITY AND LIFE INSURANCE COMPANY
SEPARATE ACCOUNT B
Notes to Financial Statements

Daily charges are deducted at annual rates of up to 2.20% of the average daily net asset value of each Division of the Account to cover these risks, as specified in the Contracts:

Asset Based Administrative Charges

A daily charge to cover administrative expenses of the Account at an annual rate of 0.10% is deducted from assets attributable to DVA and DVA Series 100 Contracts. A daily charge at an annual rate of 0.15% is deducted from the assets attributable to the Access, Access One, Advantage, Architect, DVA Plus, ESII, Focus VA, Generations, Granite PrimElite, Landmark, Legends, Premium Plus, Rollover Choice, Signature, Opportunities Contracts, Variable Annuity, and Value.

Contract Maintenance Charges

An annual Contract fee may be deducted from the accumulation value of Contracts to cover ongoing administrative expenses, as specified in the Contracts. The charge is \$30 per Contract year for Generations, Opportunities, Landmark, Focus VA, Signature, Legends, SmartDesign, Simplicity, ES II, Value, Variable Annuity, Advantage, and Rollover Choice Contracts. For DVA Series 100 and Access One Contracts there is no charge. For all other Contracts, the charge is \$40. The charge is incurred at the beginning of the Contract processing period and deducted at the end of the Contract processing period. This charge had been waived for certain offerings of the Contracts.

Contingent Deferred Sales Charges

Under DVA 80, DVA, DVA Plus, Premium Plus, ES II, Value, Granite PrimElite, Generations, Opportunities, Premium Plus, Focus VA, Signature, Legends, Simplicity, Landmark, VA, Advantage, and Rollover Choice Contracts, a contingent deferred sales charge ("Surrender Charge") is imposed as a percentage of each premium payment if the Contract is surrendered or an excess partial withdrawal is taken, as specified in the Contract. The following table reflects the Surrender Charge that is assessed based upon the date a premium payment is received.

Withdrawal and Distribution Charges

Under DVA 80, DVA, and DVA Series 100 Contracts, a charge is deducted from the accumulation value for contractowners taking more than one conventional partial withdrawal during a Contract year. For DVA 80 and DVA Contracts, annual distribution fees are deducted from the Contracts' accumulation values.

Deferred Sales Load

Under Contracts offered prior to October 1995, a sales load of up to 7.50% was assessed against each premium payment for sales-related expenses, as specified in the Contracts. For DVA Series 100, the sales load is deducted in equal annual installments over the period the Contract is in force, not to exceed 10 years. For DVA 80 and DVA Contracts, although the sales load is chargeable to each premium when ING USA receives it, the amount of such charge is initially advanced by ING USA to contractowners and included in the accumulation value, and then deducted in equal installments on each Contract anniversary date over a period of six years. Upon surrender of the Contract, the unamortized deferred sales load is deducted from the accumulation value. In addition, when partial withdrawal limits are exceeded, a portion of the unamortized deferred sales load is deducted.

Premium Taxes

For certain Contracts, premium taxes are deducted, where applicable, from the accumulation value of each Contract. The amount and timing of the deduction depends on the contractowner's state of residence and currently ranges up to 4.00% of premiums.

ING USA ANNUITY AND LIFE INSURANCE COMPANY
SEPARATE ACCOUNT B
Notes to Financial Statements

Other Contract Charges

For certain Contracts, an additional annual charge of 0.50% is deducted daily from the accumulation value for amounts invested in the ING GET U.S. Core Portfolio Funds.

Certain Contracts contain optional riders that are available for an additional charge, such as minimum guaranteed income benefits and minimum guaranteed withdrawal benefits. The amounts charged for these optional benefits vary based on a number of factors and are defined in the Contracts.

Fees Waived by ING USA

Certain charges and fees for various types of Contracts are currently waived by ING USA. ING USA reserves the right to discontinue these waivers at its discretion or to conform with changes in the law.

6. Related Party Transactions

During the year ended December 31, 2010, management and service fees were paid indirectly to DSL, an affiliate of the Company, in its capacity as investment manager to the ING Investors Trust and ING Partners, Inc. The Trust's advisory agreement provided for a fee at annual rates up to 1.25% of the average net assets of each respective Fund.

In addition, management and service fees were paid to IIL, an affiliate of the Company, in its capacity as investment adviser to the ING Mutual Funds, the ING Variable Insurance Trust, ING Intermediate Bond Portfolio, ING Variable Portfolios, Inc., ING Variable Funds, ING Balanced Portfolio, Inc., ING Strategic Allocation Portfolio, Inc., and the ING Variable Products Trust. The Trusts' advisory agreement provided for fees at annual rates up to 0.95% of the average net assets of each respective Fund.

- (a) As investment Division had no investments until 2006, this data is not meaningful and is therefore not presented.
 - (b) As investment Division had no investments until 2007, this data is not meaningful and is therefore not presented.
 - (c) As investment Division had no investments until 2008, this data is not meaningful and is therefore not presented.
 - (d) As investment Division had no investments until 2009, this data is not meaningful and is therefore not presented.
 - (e) As investment Division had no investments until 2010, this data is not meaningful and is therefore not presented.
- A** The Investment Income Ratio represents dividends received by the Division, excluding capital gains distributions divided by the average net assets. The recognition of investment income is determined by the timing of the declaration of dividends by the underlying fund in which the Division invests.
- B** The Expense Ratio considers only the expenses borne directly by the Account and is equal to the mortality and expense, administrative and other charges, as defined in Note 5. Certain items in this table are presented as a range of minimum and maximum values; however, such information is calculated independently for each column in the table.
- C** Total Return is calculated as the change in unit value for each Contract presented in the Statements of Assets and Liabilities. Certain items in this table are presented as a range of minimum and maximum values; however, such information is calculated independently for each column in the table.

Report of Independent Registered Public Accounting Firm

The Board of Directors
ING USA Annuity and Life Insurance Company

We have audited the accompanying balance sheets of ING USA Annuity and Life Insurance Company as of December 31, 2010 and 2009, and the related statements of operations, changes in shareholder's equity, and cash flows for each of the three years in the period ended December 31, 2010. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits include consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of ING USA Annuity and Life Insurance Company at December 31, 2010 and 2009, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2010, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 1 to the financial statements, in 2009 the Company changed its method of accounting for the recognition and presentation of other-than-temporary impairments.

Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

1. Organization and Significant Accounting Policies

Basis of Presentation

ING USA Annuity and Life Insurance Company (“ING USA” or the “Company,” as appropriate) is a stock life insurance company domiciled in the State of Iowa and provides financial products and services in the United States. ING USA is authorized to conduct its insurance business in all states, except New York, and the District of Columbia.

ING USA is a direct, wholly-owned subsidiary of Lion Connecticut Holdings Inc. (“Lion” or “Parent”), which is an indirect, wholly-owned subsidiary of ING Groep N.V. (“ING”). ING is a global financial services holding company based in the Netherlands, with American Depository Shares listed on the New York Stock Exchange under the symbol “ING”.

As part of a restructuring plan approved by the European Commission (“EC”), ING has agreed to separate its banking and insurance businesses by 2013. ING intends to achieve this separation by divestment of its insurance and investment management operations, including the Company. ING has announced that it will explore all options for implementing the separation including one or more initial public offerings, sales, or a combination thereof. On November 10, 2010, ING announced that while the option of one global initial public offering (“IPO”) remains open, ING and its U.S. insurance affiliates, including the Company, are going to prepare for a base case of two IPOs: one Europe-led IPO and one separate U.S.-focused IPO.

On September 30, 2010, ING USA purchased the remaining 30% interest in PFP Holdings LP (“PFP”), an affiliate, from ING Clarion, an affiliate, for \$11.0. The Company previously held a 70% equity interest in PFP. Immediately upon acquisition, PFP was dissolved as ING USA owned 100% of the limited partnership. This acquisition is treated as a combination of entities under common control (i.e. the comparative financial statements were revised and presented as if the transaction had occurred on the opening balance sheet date). This resulted in a reduction in total Shareholder’s equity of \$0.8 at January 1, 2008.

Description of Business

The Company currently offers various insurance products, including immediate and deferred fixed annuities. The Company’s fixed annuity products are distributed by national and regional brokerage and securities firms, independent broker-dealers, banks, life insurance companies with captive agency sales forces, independent insurance agents, independent marketing organizations, and affiliated broker-dealers. The Company’s primary annuity customers are individual consumers. The Company ceased new sales of variable annuity products in March of 2010, as part of a global business strategy and risk

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

reduction plan. Some new amounts will continue to be deposited on ING USA variable annuities as add-on premiums to existing contracts.

The Company also offers guaranteed investment contracts and funding agreements (collectively referred to as “GICs”), sold primarily to institutional investors and corporate benefit plans. These products are marketed by home office personnel or through specialty insurance brokers.

The Company has one operating segment.

Recently Adopted Accounting Standards

Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses

In July 2010, the FASB issued ASU 2010-20, “Receivables (ASC Topic 310): Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses” (“ASU 2010-20”), which requires certain existing disclosures to be disaggregated by class of financing receivable, including the rollforward of the allowance for credit losses, with the ending balance further disaggregated on the basis of impairment method. For each disaggregated ending balance, an entity is required to also disclose the related recorded investment in financing receivables, the nonaccrual status of financing receivables, and impaired financing receivables.

ASU 2010-20 also requires new disclosures by class of financing receivable, including credit quality indicators, aging of past due amounts, the nature and extent of troubled debt restructurings and related defaults, and significant purchases and sales of financing receivables disaggregated by portfolio segment.

In January 2011, the FASB issued ASU 2011-01, which temporarily delays the effective date of the disclosures about troubled debt restructurings in ASU 2010-20.

The provisions of ASU 2010-20 were adopted by the Company on December 31, 2010, and are included in the Financial Instruments footnote to these financial statements, except for the disclosures that include information for activity that occurs during a reporting period, which are effective for periods beginning after December 15, 2010 and the disclosures about troubled debt restructuring. As the pronouncement only pertains to additional disclosure, the adoption had no effect on the Company’s financial condition, results of operations, or cash flows.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Scope Exception Related to Embedded Credit Derivatives

In March 2010, the FASB issued ASU 2010-11, “Derivatives and Hedging (ASC Topic 815): Scope Exception Related to Embedded Credit Derivatives” (“ASU 2010-11”), which clarifies that the only type of embedded credit derivatives that are exempt from bifurcation requirements are those that relate to the subordination of one financial instrument to another.

The provisions of ASU 2010-11 were adopted by the Company on July 1, 2010. The Company determined, however, that there was no effect on the Company’s financial condition, results of operations, or cash flows upon adoption, as the guidance is consistent with that previously applied by the Company under ASC Topic 815.

Improving Disclosures about Fair Value Measurements

In January 2010, the FASB issued ASU 2010-06, “Fair Value Measurements and Disclosure (ASC Topic 820): Improving Disclosures about Fair Value Measurements,” (“ASU 2010-06”), which requires several new disclosures, as well as clarification to existing disclosures, as follows:

- Significant transfers in and out of Level 1 and Level 2 fair value measurements and the reason for the transfers;
- Purchases, sales, issuances, and settlement, in the Level 3 fair value measurements reconciliation on a gross basis;
- Fair value measurement disclosures for each class of assets and liabilities (i.e., disaggregated); and
- Valuation techniques and inputs for both recurring and nonrecurring fair value measurements that fall in either Level 2 or Level 3 fair value measurements.

The provisions of ASU 2010-06 were adopted by the Company on January 1, 2010, and are included in the Financial Instruments footnote to these financial statements, except for the disclosures related to the Level 3 reconciliation, which are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. As the pronouncement only pertains to additional disclosure, the adoption had no effect on the Company’s financial condition, results of operations, or cash flows.

Improvements to Financial Reporting by Enterprises Involved in Variable Interest Entities

In December 2009, the FASB issued ASU 2009-17, “Consolidations (ASC Topic 810): Improvements to Financial Reporting by Enterprises Involved in Variable Interest Entities,” (“ASU 2009-17”), which eliminates the exemption for qualifying special-purpose entities (“QSPEs”), as well as amends the consolidation guidance for variable interest entities (“VIEs”), as follows:

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

- Removes the quantitative-based assessment for consolidation of VIEs and, instead, requires a qualitative assessment of whether an entity has the power to direct the VIE's activities, and whether the entity has the obligation to absorb losses or the right to reserve benefits that could be significant to the VIE; and
- Requires an ongoing reassessment of whether an entity is the primary beneficiary of a VIE.

In addition, in February 2010, the FASB issued ASU 2010-10, "Consolidation (ASC Topic 810): Amendments for Certain Investment Funds" ("ASU 2010-10"), which primarily defers to ASU 2009-17 for an investment in an entity that is accounted for as an investment company.

The provisions of ASU 2009-17 and ASU 2010-10 were adopted on January 1, 2010. The Company determined, however, that there was no effect on the Company's financial condition, results of operations, or cash flows upon adoption, as the consolidation conclusions were consistent with those under previous accounting principles generally accepted in the United States ("US GAAP"). The disclosure provisions required by ASU 2009-17 are presented in the Financial Instruments footnote to these financial statements.

Accounting for Transfers of Financial Assets

In December 2009, the FASB issued ASU 2009-16 "Transfers and Servicing (ASC Topic 860): Accounting for Transfers of Financial Assets" ("ASU 2009-16"), which eliminates the QSPE concept and requires a transferor of financial assets to:

- Consider the transferor's continuing involvement in assets, limiting the circumstances in which a financial asset should be derecognized when the transferor has not transferred the entire asset to an entity that is not consolidated;
- Account for the transfer as a sale only if an entity transfers an entire financial asset and surrenders control, unless the transfer meets the conditions for a participating interest; and
- Recognize and initially measure at fair value all assets obtained and liabilities incurred as a result of a transfer of financial assets accounted for as a sale.

The provisions of ASU 2009-16 were adopted on January 1, 2010. The Company determined, however, that there was no effect on the Company's financial condition, results of operations, or cash flows upon adoption, as the Company did not have any QSPEs under previous US GAAP, and the requirements for sale accounting treatment are consistent with those previously applied by the Company under US GAAP.

(Dollar amounts in millions, unless otherwise stated)

Measuring the Fair Value of Certain Alternative Investments

In September 2009, the FASB issued ASU 2009-12, “Fair Value Measurements and Disclosures (ASC Topic 820): Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)” (“ASU 2009-12”), which allows the use of net asset value to estimate the fair value of certain alternative investments, such as interests in hedge funds, private equity funds, real estate funds, venture capital funds, offshore fund vehicles, and funds of funds. In addition, ASU 2009-12 requires disclosures about the attributes of such investments.

The provisions of ASU 2009-12 were adopted by the Company on December 31, 2009. The Company determined, however, that there was no effect on the Company’s financial condition, results of operations, or cash flows upon adoption, as its guidance is consistent with that previously applied by the Company under US GAAP. The disclosure provisions required by ASU 2009-12 are presented in the Investments footnote to these financial statements.

Subsequent Events

In May 2009, the FASB issued new guidance on subsequent events, included in ASC Topic 855, “Subsequent Events,” which establishes:

- The period after the balance sheet date during which an entity should evaluate events or transactions for potential recognition or disclosure in the financial statements;
- The circumstances under which an entity should recognize such events or transactions in its financial statements; and
- Disclosures regarding such events or transactions and the date through which an entity has evaluated subsequent events.

These provisions, as included in ASC Topic 855, were adopted by the Company on June 30, 2009. In addition, in February 2010, the FASB issued ASU 2010-09, “Subsequent Events (Topic 855): Amendments to Certain Recognition and Disclosure Requirements”, which clarifies that an SEC filer should evaluate subsequent events through the date the financial statements are issued and eliminates the requirement for an SEC filer to disclose that date, effective upon issuance. The Company determined that there was no effect on the Company’s financial condition, results of operations, or cash flows upon adoption, as the guidance is consistent with that previously applied by the Company under U.S. auditing standards. The disclosure provisions included in ASC Topic 855, as amended, are presented in the Organization and Significant Accounting Policies footnote to these financial statements.

Recognition and Presentation of Other-Than-Temporary Impairments

In April 2009, the FASB issued new guidance on recognition and presentation of other-than-temporary impairments, included in ASC Topic 320, “Investments-Debt and Equity Securities,” which requires:

- Noncredit related impairments to be recognized in other comprehensive income (loss), if management asserts that it does not have the intent to sell the security and that it is more likely than not that the entity will not have to sell the security before recovery of the amortized cost basis;
- Total other-than-temporary impairments (“OTTI”) to be presented in the Statement of Operations with an offset recognized in Accumulated other comprehensive income (loss) for the noncredit related impairments;
- A cumulative effect adjustment as of the beginning of the period of adoption to reclassify the noncredit component of a previously recognized other-than-temporary impairment from Retained earnings (deficit) to Accumulated other comprehensive income (loss); and
- Additional interim disclosures for debt and equity securities regarding types of securities held, unrealized losses, and other-than-temporary impairments.

These provisions, as included in ASC Topic 320, were adopted by the Company on April 1, 2009. As a result of implementation, the Company recognized a cumulative effect of change in accounting principle of \$312.0 after considering the effects of deferred policy acquisition costs (“DAC”) and income taxes of \$(139.1) and \$48.6, respectively, as an increase to April 1, 2009 Retained earnings (deficit) with a corresponding decrease to Accumulated other comprehensive income (loss).

In addition, the Company recognized an increase in amortized cost for previously impaired securities due to the recognition of the cumulative effect of change in accounting principle as of April 1, 2009, as follows:

	<u>Change in Amortized Cost</u>
Fixed maturities:	
U.S. corporate, state and municipalities	\$ 53.3
Foreign	69.2
Residential mortgage-backed	64.3
Commercial mortgage-backed	92.6
Other asset-backed	123.1
Total investments, available-for-sale	<u>\$ 402.5</u>

The disclosure provisions, as included in ASC Topic 320, are presented in the Investments footnote to these financial statements.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Disclosures about Derivative Instruments and Hedging Activities

In March 2008, the FASB issued new guidance on disclosures about derivative instruments and hedging activities, included in ASC Topic 815, “Derivatives and Hedging,” which requires enhanced disclosures about objectives and strategies for using derivatives, fair value amounts of, and gains and losses on, derivative instruments, and credit-risk-related contingent features in derivative agreements, including:

- How and why derivative instruments are used;
- How derivative instruments and related hedged items are accounted for under US GAAP for derivative and hedging activities; and
- How derivative instruments and related hedged items affect an entity’s financial statements.

These provisions, as included in ASC Topic 815, were adopted by the Company on January 1, 2009 and are included in the Financial Instruments footnote to these financial statements. As the pronouncement only pertains to additional disclosure, the adoption had no effect on the Company’s financial condition, results of operations, or cash flows.

New Accounting Pronouncements

Accounting for Costs Associated with Acquiring or Renewing Insurance Contracts

In October 2010, the FASB issued ASU 2010-26, “Financial Services - Insurance (ASC Topic 944): Accounting for Costs Associated with Acquiring or Renewing Insurance Contracts” (“ASU 2010-26”), which clarifies what costs relating to the acquisition of new or renewal insurance contracts qualify for deferral. Costs that should be capitalized include (1) incremental direct costs of successful contract acquisition and (2) certain costs related directly to successful acquisition activities (underwriting, policy issuance and processing, medical and inspection, and sales force contract selling) performed by the insurer for the contract. Advertising costs should be included in deferred acquisition costs only if the capitalization criteria in the US GAAP direct-response advertising guidance are met. All other acquisition-related costs should be charged to expense as incurred.

The provisions of ASU 2010-26 are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2011, and should be applied prospectively. Retrospective application is permitted, and early adoption is permitted at the beginning of an entity’s annual reporting period. The Company is currently in the process of determining the impact of adoption of the provisions of ASU 2010-26.

Consolidation Analysis of Investments Held through Separate Accounts

In April 2010, the FASB issued ASU 2010-15, “Financial Services-Insurance (ASC Topic 944): How Investments Held through Separate Accounts Affect an Insurer’s

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Consolidation Analysis of Those Investments” (“ASU 2010-15”), which clarifies that an insurance entity generally should not consider any separate account interests held for the benefit of policy holders in an investment to be the insurer’s interests, and should not combine those interests with its general account interest in the same investment when assessing the investment for consolidation.

The provisions of ASU 2010-15 are effective for fiscal years and interim periods beginning after December 15, 2010. The amendments are to be applied retrospectively to all prior periods as of the date of adoption. The Company does not expect any effect on its financial condition, results of operations, or cash flows upon adoption, as the guidance is consistent with that previously applied by the Company under ASC Topic 944.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from reported results using those estimates.

Reclassifications

Certain reclassifications have been made to prior year financial information to conform to the current year classifications. In the Statements of Operations for the year ended December 31, 2009, Premiums and Interest credited and other benefits to contract owners were increased by \$92.0 related to fourth quarter 2009 activity under a reinsurance transaction, which had no effect on net income.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, certain money market instruments, and other debt issues with a maturity of 90 days or less when purchased.

Investments

All of the Company’s fixed maturities, except those accounted for using the fair value option, and equity securities are currently designated as available-for-sale. Available-for-sale securities are reported at fair value and unrealized capital gains (losses) on these securities are recorded directly in Shareholder’s equity, after adjustment for related changes in DAC, value of business acquired (“VOBA”), and deferred income taxes. Fixed maturities accounted for using the fair value option are reported at fair value with changes in fair value recognized in the Statement of Operations.

Other-Than-Temporary Impairments

The Company analyzes its general account investments to determine whether there has been an other-than-temporary decline in fair value below the amortized cost basis. Factors considered in this analysis include, but are not limited to, the length of time and the extent to which the fair value has been less than amortized cost, the issuer's financial condition and near-term prospects, future economic conditions and market forecasts, interest rate changes, and changes in ratings of the security.

When assessing the Company's intent to sell a security or if it is more likely than not it will be required to sell a security before recovery of its cost basis, management evaluates facts and circumstances such as, but not limited to, decisions to rebalance the investment portfolio and sales of investments to meet cash flow needs.

When the Company has determined it has the intent to sell or if it is more likely than not that it will be required to sell a security before recovery of its amortized cost basis and the fair value has declined below amortized cost ("intent impairment") the individual security is written down from amortized cost to fair value and a corresponding charge is recorded in Net realized capital gains (losses) on the Statements of Operations as an other-than-temporary impairment ("OTTI"). If the Company does not intend to sell the security nor is it more likely than not it will be required to sell the security before recovery of its amortized cost basis, but the Company has determined that there has been an other-than-temporary decline in fair value below the amortized cost basis, the OTTI is bifurcated into the amount representing the present value of the decrease in cash flows expected to be collected ("credit impairment") and the amount related to other factors ("noncredit impairment"). The credit impairment is recorded in Net realized capital gains (losses) on the Statements of Operations. The noncredit impairment is recorded in Other comprehensive income (loss) on the Balance Sheets.

In order to determine the amount of the OTTI that is considered a credit impairment, the Company utilizes the following methodology and significant inputs:

- Recovery value is estimated by performing a discounted cash flow analysis based upon the best estimate of expected future cash flows, discounted at the effective interest rate implicit in the underlying debt security. The effective interest rate is the current yield prior to impairment for a fixed rate security or current coupon yield for a floating rate security.
- Collectability and recoverability are estimated using the same considerations as the Company uses in its overall impairment analysis which includes, but is not limited to, the length of time and the extent to which the fair value has been less than amortized cost, the issuer's financial condition and near-term prospects, future economic conditions and market forecasts, interest rate changes, and changes in ratings of the security.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

- Additional factors considered for structured securities such as Residential Mortgage-backed Securities (“RMBS”), Commercial Mortgage-backed Securities (“CMBS”) and other Asset-backed Securities (“ABS”) include, but are not limited to, quality of underlying collateral, anticipated loss severities, collateral default rates, and other collateral characteristics such as vintage, re-payment terms, and the geographical makeup of the collateral.

Purchases and Sales

Purchases and sales of fixed maturities and equity securities, excluding private placements, are recorded on the trade date. Purchases and sales of private placements and mortgage loans are recorded on the closing date.

Valuation of Investments and Derivatives

The Company utilizes a number of valuation methodologies to determine the fair values of its financial assets and liabilities in conformity with the concepts of “exit price” and the fair value hierarchy as prescribed in ASC Topic 820. Valuations are obtained from third party commercial pricing services, brokers, and industry-standard, vendor-provided software that models the value based on market observable inputs. The valuations obtained from brokers and third-party commercial pricing services are non-binding. The valuations are reviewed and validated monthly through the internal valuation committee price variance review, comparisons to internal pricing models, back testing to recent trades, or monitoring of trading volumes.

All valuation methods and assumptions are validated at least quarterly to ensure the accuracy and relevance of the fair values. There were no material changes to the valuation methods or assumptions used to determine fair values during 2010, except for the Company’s use of commercial pricing services to value certain collateralized mortgage obligations (“CMO-Bs”) which commenced in the first quarter of 2010.

Fair Value Measurements

ASC Topic 820, “Fair Value Measurements and Disclosures,” defines fair value, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value, and enhances disclosure requirements for fair value measurements.

Fair Value Hierarchy

The Company has categorized its financial instruments into a three level hierarchy based on the priority of the inputs to the valuation technique.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument.

Financial assets and liabilities recorded at fair value on the Balance Sheets are categorized as follows:

- Level 1 - Unadjusted quoted prices for identical assets or liabilities in an active market.
- Level 2 - Quoted prices in markets that are not active or inputs that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - a) Quoted prices for similar assets or liabilities in active markets;
 - b) Quoted prices for identical or similar assets or liabilities in non-active markets;
 - c) Inputs other than quoted market prices that are observable; and
 - d) Inputs that are derived principally from or corroborated by observable market data through correlation or other means.
- Level 3 - Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These valuations, whether derived internally or obtained from a third party, use critical assumptions that are not widely available to estimate market participant expectations in valuing the asset or liability.

The following valuation methods and assumptions were used by the Company in estimating the reported values for the investments and derivatives described below:

Fixed maturities: The fair values for the actively traded marketable bonds are determined based upon the quoted market prices and are classified as Level 1 assets. Assets in this category would primarily include certain US Treasury securities. The fair values for marketable bonds without an active market, excluding subprime residential mortgage-backed securities, are obtained through several commercial pricing services, which provide the estimated fair values, and are classified as Level 2 assets. These services incorporate a variety of market observable information in their valuation techniques, including benchmark yields, broker-dealer quotes, credit quality, issuer spreads, bids, offers and other reference data. This category includes US and foreign corporate bonds, ABS, US agency and government guaranteed securities, CMBS, and RMBS, including CMO-Bs.

Generally, the Company does not obtain more than one vendor price from pricing services per instrument. The Company uses a hierarchy process in which prices are obtained from a primary vendor, and, if that vendor is unable to provide the price, the

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

next vendor in the hierarchy is contacted until a price is obtained or it is determined that a price cannot be obtained from a commercial pricing service. When a price cannot be obtained from a commercial pricing service, independent broker quotes are solicited. Securities priced using independent broker quotes are classified as Level 3.

Broker quotes and prices obtained from pricing services are reviewed and validated monthly through an internal valuation committee price variance review, comparisons to internal pricing models, back testing to recent trades, or monitoring of trading volumes. At December 31, 2010, \$235.3 and \$17.3 billion of a total of \$22.0 billion in fixed maturities were valued using unadjusted broker quotes and unadjusted prices obtained from pricing services, respectively, and verified through the review process. The remaining balance in fixed maturities consisted primarily of privately placed bonds valued using a matrix-based pricing model.

All prices and broker quotes obtained go through the review process described above including valuations for which only one broker quote is obtained. After review, for those instruments where the price is determined to be appropriate, the unadjusted price provided is used for financial statement valuation. If it is determined that the price is questionable, another price may be requested from a different vendor. For CMO-Bs, the average of several broker quotes may be used when multiple quotes are available. The internal valuation committee then reviews all prices for the instrument again, along with information from the review, to determine which price best represents “exit price” for the instrument.

Fair values of privately placed bonds are determined using a matrix-based pricing model and are classified as Level 2 assets. The model considers the current level of risk-free interest rates, current corporate spreads, the credit quality of the issuer, and cash flow characteristics of the security. Also considered are factors such as the net worth of the borrower, the value of collateral, the capital structure of the borrower, the presence of guarantees, and the Company’s evaluation of the borrower’s ability to compete in its relevant market. Using this data, the model generates estimated market values which the Company considers reflective of the fair value of each privately placed bond.

Trading activity for the Company’s RMBS, particularly subprime and Alt-A RMBS, declined during 2008 as a result of the dislocation of the credit markets. The Company continued to obtain pricing information from commercial pricing services and brokers. However, the pricing for subprime and Alt-A RMBS did not represent regularly occurring market transactions since the trading activity declined significantly in the second half of 2008. As a result, the Company concluded in the second half of 2008 that the market for subprime and Alt-A RMBS was inactive and classified these securities as Level 3 assets. The Company did not change its valuation procedures, which are consistent with those used for Level 2 marketable bonds without an active market, as a result of determining that the market was inactive. Due to increased trade activity of Alt-A RMBS during the second half of 2009, the Company determined that the Alt-A RMBS

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

should be transferred to Level 2 of the valuation hierarchy as its overall assessment of the market was that it was active. The market for subprime RMBS remains largely inactive, and as such these securities will remain in Level 3 of the valuation hierarchy. The Company will continue to monitor market activity for RMBS to determine proper classification in the valuation hierarchy.

Equity securities, available-for-sale: Fair values of publicly traded equity securities are based upon quoted market price and are classified as Level 1 assets. Other equity securities, typically private equities or equity securities not traded on an exchange, are valued by other sources such as analytics or brokers and are classified as Level 3 assets.

Cash and cash equivalents, Short-term investments, and Short-term investments under securities loan agreement: The fair values for cash equivalents and short-term investments are determined based on quoted market prices. These assets are classified as Level 1. Other short-term investments are valued and classified in the fair value hierarchy consistent with the policies described herein, depending on investment type.

Derivatives: The carrying amounts for these financial instruments, which can be assets or liabilities, reflect the fair value of the assets and liabilities. Derivatives are carried at fair value (on the Balance Sheets), which is determined using the Company's derivative accounting system in conjunction with observable key financial data from third party sources, such as yield curves, exchange rates, Standard & Poor's ("S&P") 500 Index prices, and London Inter Bank Offered Rates ("LIBOR"), or through values established by third party brokers. Counterparty credit risk is considered and incorporated in the Company's valuation process through counterparty credit rating requirements and monitoring of overall exposure. It is the Company's policy to transact only with investment grade counterparties with a credit rating of A- or better. The Company's own credit risk is also considered and incorporated in the Company's valuation process. Valuations for the Company's futures contracts are based on unadjusted quoted prices from an active exchange and, therefore, are classified as Level 1. The Company also has certain credit default swaps and options that are priced using models that primarily use market observable inputs, but contain inputs that are not observable to market participants, which have been classified as Level 3. However, all other derivative instruments are valued based on market observable inputs and are classified as Level 2.

Embedded derivatives - Investment contract guarantees: The Company records guarantees, which can be either assets or liabilities, for annuity contracts containing guaranteed riders for Guaranteed Minimum Accumulated Benefits ("GMABs") and Guaranteed Minimum Withdrawal Benefits ("GMWBs") without life contingencies in accordance with US GAAP for derivative instruments and hedging activities. The guarantee is treated as an embedded derivative and is required to be reported separately from the host variable annuity contract. The fair value of the obligation is calculated based on actuarial and capital market assumptions related to the projected cash flows, including benefits and related contract charges, over the anticipated life of the related

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

contracts. The cash flow estimates are produced by using stochastic techniques under a variety of market return scenarios and other best estimate assumptions. These derivatives are classified as Level 3 assets in the fair value hierarchy.

The Company also records for its fixed indexed annuity (“FIA”) contracts an embedded derivative liability for interest payments to contractholders above the minimum guaranteed interest rate, in accordance with US GAAP for derivative instruments and hedging activities. The guarantee is treated as an embedded derivative and is required to be reported separately from the host contract. The fair value of the obligation is calculated based on actuarial and capital market assumptions related to the projected cash flows, including benefits and related contract charges, over the anticipated life of the related contracts. The cash flow estimates are produced by best estimate assumptions. These derivatives are classified as Level 3 assets in the fair value hierarchy.

Nonperformance risk for investment contract guarantees contains adjustments to the fair values of these contract liabilities related to the current credit standing of ING and the Company based on credit default swaps with similar term to maturity and priority of payment. The ING credit default swap spread is applied to the discount factors for FIAs and the risk-free rates for GMABs and GMWBs in the Company’s valuation models in order to incorporate credit risk into the fair values of these investment contract guarantees. As of December 31, 2010, the credit spreads of ING and the Company increased by approximately 150 basis points from December 31, 2009, which contributed to changes in the valuation of the reserves for all investment contract guarantees.

Embedded derivative on reinsurance: The carrying value of the embedded derivative is estimated based upon the change in the fair value of the assets supporting the funds withheld payable under the combined coinsurance and coinsurance funds withheld reinsurance agreement between the Company and Security Life of Denver International Limited (“SLDI”). As the fair value of the assets held in trust is based on a quoted market price (Level 1), the fair value of the embedded derivative is based on market observable inputs and is classified as Level 2.

Assets held in separate accounts: Assets held in separate accounts are reported at the quoted fair values of the underlying investments in the separate accounts.

The following investments are reported at values other than fair value on the Balance Sheets and are therefore not categorized in the fair value hierarchy:

Mortgage loans on real estate: Mortgage loans on real estate are reported at amortized cost, less impairment write-downs and allowance for losses. If the value of any mortgage loan is determined to be impaired (i.e., when it is probable that the Company will be unable to collect all amounts due according to the contractual terms of the loan agreement), the carrying value of the mortgage loan is reduced to the lower of either the present value of expected cash flows from the loan, discounted at the loan’s effective

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

interest rate, or fair value of the collateral. For those mortgages that are determined to require foreclosure, the carrying value is reduced to the fair value of the underlying collateral, net of estimated costs to obtain and sell at the point of foreclosure. The carrying value of the impaired loans is reduced by establishing a permanent write-down recorded in Net realized capital gains (losses).

Policy loans: The reported value of policy loans is equal to the carrying, or cash surrender, value of the loans. Policy loans are fully collateralized by the account value of the associated insurance contracts.

Loan - Dutch State obligation: The reported value of The State of the Netherlands (the “Dutch State”) loan obligation is based on the outstanding loan balance plus any unamortized premium.

Limited partnerships/corporations: The carrying value for these investments, primarily private equities and hedge funds, is determined based on the Company’s degree of influence over the investee’s operating and financial policies along with the percent of the investee that the Company owns. Those investments where the Company has determined it has significant influence are accounted for under the equity method, with the remainder accounted for under the cost method.

Other investments: Other investments are comprised primarily of investments in joint ventures, accounted for under the equity method, and real estate reported at cost.

Fair value estimates are made at a specific point in time, based on available market information and judgments about various financial instruments, such as estimates of timing and amounts of future cash flows. Such estimates do not reflect any premium or discount that could result from offering for sale at one time the Company’s entire holdings of a particular financial instrument, nor do they consider the tax impact of the realization of unrealized capital gains (losses). In many cases, the fair value estimates cannot be substantiated by comparison to independent markets, nor can the disclosed value be realized in immediate settlement of the instruments.

Repurchase Agreements

The Company engages in dollar repurchase agreements with mortgage-backed securities (“dollar rolls”) and repurchase agreements with other collateral types to increase its return on investments and improve liquidity. Such arrangements typically meet the requirements to be accounted for as financing arrangements. The Company enters into dollar roll transactions by selling existing mortgage-backed securities and concurrently entering into an agreement to repurchase similar securities within a short time frame in the future at a lower price. Under repurchase agreements, the Company borrows cash from a counterparty at an agreed upon interest rate for an agreed upon time frame and pledges collateral in the form of securities. At the end of the agreement, the counterparty

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

returns the collateral to the Company and the Company, in turn, repays the loan amount along with the additional agreed upon interest. Company policy requires that at all times during the term of the dollar roll and repurchase agreements that cash or other collateral types obtained is sufficient to allow the Company to fund substantially all of the cost of purchasing replacement assets. Cash collateral received is invested in short-term investments, with the offsetting collateral liability included in Borrowed money on the Balance Sheets. At December 31, 2010, the Company did not have any securities pledged in dollar rolls and repurchase agreement transactions. At December 31, 2009, the carrying value of the securities pledged in dollar rolls and repurchase agreement transactions was \$354.1 and is included in Securities pledged on the Balance Sheets. The repurchase obligation related to dollar rolls and repurchase agreements, including accrued interest, totaled \$0 and \$311.1 at December 31, 2010 and 2009, respectively, and is included in Borrowed money on the Balance Sheets. In addition to the repurchase obligation, at December 31, 2009, the Company held \$28.9 in collateral posted by the counterparty in connection with the increase in the value of pledged securities that will be released upon settlement.

The Company also enters into reverse repurchase agreements. These transactions involve a purchase of securities and an agreement to sell substantially the same securities as those purchased. Company policy requires that, at all times during the term of the reverse repurchase agreements, cash or other collateral types provided is sufficient to allow the counterparty to fund substantially all of the cost of purchasing replacement assets. At December 31, 2010 and 2009, the Company did not have any securities pledged under reverse repurchase agreements.

The primary risk associated with short-term collateralized borrowings is that the counterparty will be unable to perform under the terms of the contract. The Company's exposure is limited to the excess of the net replacement cost of the securities over the value of the short-term investments, an amount that was immaterial at December 31, 2010. The Company believes the counterparties to the dollar rolls, repurchase, and reverse repurchase agreements are financially responsible and that the counterparty risk is minimal.

Securities Lending

The Company engages in securities lending whereby certain securities from its portfolio are loaned to other institutions for short periods of time. Initial collateral, primarily cash, is required at a rate of 102% of the market value of the loaned domestic securities. The collateral is deposited by the borrower with a lending agent, and retained and invested by the lending agent according to the Company's guidelines to generate additional income. The market value of the loaned securities is monitored on a daily basis with additional collateral obtained or refunded as the market value of the loaned securities fluctuates. At December 31, 2010 and 2009, the fair value of loaned securities was \$139.7 and \$163.7, respectively, and is included in Securities pledged on the Balance Sheets.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Derivatives

The Company's use of derivatives is limited mainly to economic hedging purposes to reduce the Company's exposure to cash flow variability of assets and liabilities, interest rate risk, credit risk, and market risk.

The Company enters into interest rate, equity market, credit default, and currency contracts, including swaps, caps, floors, options and futures, to reduce and manage risks associated with changes in value, yield, price, cash flow, or exchange rates of assets or liabilities held or intended to be held, or to assume or reduce credit exposure associated with a referenced asset, index, or pool. The Company also utilizes options and futures on equity indices to reduce and manage risks associated with its annuity products. Open derivative contracts are reported as either Derivatives or Other liabilities, as appropriate, on the Balance Sheets. Changes in the fair value of such derivatives are recorded in Net realized capital gains (losses) in the Statements of Operations.

If the Company's current debt and claims paying ratings were downgraded in the future, the terms in the Company's derivative agreements may be triggered, which could negatively impact overall liquidity. For the majority of the Company's counterparties, there is a termination event should the Company's long-term debt ratings drop below BBB+/Baa1.

The Company also has investments in certain fixed maturity instruments, and has issued certain retail annuity products, that contain embedded derivatives whose market value is at least partially determined by, among other things, levels of or changes in domestic and/or foreign interest rates (short-term or long-term), exchange rates, prepayment rates, equity markets, or credit ratings/spreads.

Embedded derivatives within retail annuity products are included in Future policy benefits and claims reserves on the Balance Sheets, and changes in the fair value are recorded in Interest credited and other benefits to contract owners in the Statements of Operations.

In addition, the Company has entered into a coinsurance with funds withheld arrangement which contains an embedded derivative whose fair value is based on the change in the fair value of the underlying assets held in trust. The embedded derivative within the coinsurance funds withheld arrangement is included in Future policy benefits and claims reserves on the Balance Sheets, and changes in the fair value are recorded in Interest credited and other benefits to contract owners in the Statement of Operations.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

DAC and VOBA

General

DAC represents policy acquisition costs that have been capitalized and are subject to amortization. Such costs consist principally of certain commissions, underwriting, contract issuance, and agency expenses, related to the production of new and renewal business.

VOBA represents the outstanding value of in force business capitalized in purchase accounting when the Company was acquired and is subject to amortization. The value is based on the present value of estimated profits embedded in the Company's contracts.

Current US GAAP guidance for universal life and investment-type products, such as fixed and variable deferred annuities, indicates DAC and VOBA are amortized, with interest, over the life of the related contracts in relation to the present value of estimated future gross profits from investment, mortality, and expense margins, plus surrender charges.

Internal Replacements

Contract owners may periodically exchange one contract for another, or make modifications to an existing contract. Beginning January 1, 2007, these transactions are identified as internal replacements and are accounted for in accordance with current US GAAP guidance for DAC related to modification or exchange of insurance contracts.

Internal replacements that are determined to result in substantially unchanged contracts are accounted for as continuations of the replaced contracts. Any costs associated with the issuance of the new contracts are considered maintenance costs and expensed as incurred. Unamortized DAC and VOBA related to the replaced contracts continue to be deferred and amortized in connection with the new contracts. Internal replacements that are determined to result in contracts that are substantially changed are accounted for as extinguishments of the replaced contracts, and any unamortized DAC and VOBA related to the replaced contracts are written off to Net amortization of deferred policy acquisition costs and value of business acquired in the Statements of Operations.

Unlocking

Changes in assumptions can have a significant impact on DAC and VOBA balances and amortization rates. Several assumptions are considered significant in the estimation of future gross profits associated with variable universal life and variable deferred annuity products. One of the most significant assumptions involved in the estimation of future gross profits is the assumed return associated with the variable account performance. To reflect the volatility in the equity markets, this assumption involves a combination of

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

near-term expectations and long-term assumptions regarding market performance. The overall return on the variable account is dependent on multiple factors, including the relative mix of the underlying sub-accounts among bond funds and equity funds, as well as equity sector weightings. Other significant assumptions include estimated future hedging and guaranteed benefit costs, surrender and lapse rates, estimated interest spread, and estimated mortality.

Due to the relative size and sensitivity to minor changes in underlying assumptions of DAC and VOBA balances, the Company performs quarterly and annual analyses of DAC and VOBA for the annuity and life businesses, respectively. The DAC and VOBA balances are evaluated for recoverability.

At each evaluation date, actual historical gross profits are reflected, and estimated future gross profits and related assumptions are evaluated for continued reasonableness. Any adjustment in estimated future gross profits requires that the amortization rate be revised (“unlocking”), retroactively to the date of the policy or contract issuance. The cumulative unlocking adjustment is recognized as a component of current period amortization. In general, sustained increases in investment, mortality, and expense margins, and thus estimated future profits, lower the rate of amortization. Sustained decreases in investment, mortality, and expense margins, and thus estimated future gross profits, however, increase the rate of amortization.

Reserves

The Company establishes and carries actuarially-determined reserves that are calculated to meet its future obligations. Generally, reserves are calculated using mortality and withdrawal rate assumptions based on relevant Company experience and are periodically reviewed against both industry standards and experience. Changes in, or deviations from, the assumptions used can significantly affect the Company’s reserve levels and related future operations.

Future policy benefits and claims reserves include reserves for deferred annuities and immediate annuities with and without life contingent payouts, universal and traditional life insurance contracts, and GICs.

Reserves for deferred annuity investment contracts and immediate annuities without life contingent payouts are equal to cumulative deposits, less charges and withdrawals, plus credited interest thereon. Deferred annuity crediting rates and reserve interest rates vary by product and ranged from 0% to 7.8% for the years 2010, 2009, and 2008.

Reserves for individual immediate annuities with life contingent payout benefits are computed on the basis of assumed interest discount rate, mortality, and expenses, including a margin for adverse deviations. Such assumptions generally vary by annuity

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

plan type, year of issue, and policy duration. For the years 2010, 2009, and 2008, immediate annuity reserve interest rates ranged from 0% to 8.0%.

Reserves for FIAs are computed in accordance with the requirements of FASB ASC Topic 944, “Financial Services – Insurance”, Topic 815, “Derivatives and Hedging”, and Topic 820, “Fair Value Measurements and Disclosures”. Accordingly, the aggregate initial liability is equal to the deposit received, plus a bonus, if applicable, and is split into a host component and an embedded derivative component. Thereafter, the host liability accumulates at a set interest rate, and the embedded derivative liability is recognized at fair value, with the change in fair value recorded in the Statements of Operations.

Reserves for universal life products are equal to cumulative deposits, less withdrawals and charges, plus credited interest thereon. Reserves for traditional life insurance contracts represent the present value of future benefits to be paid to or on behalf of contract owners and related expenses, less the present value of future net premiums.

Under the requirements of ASC Topic 944, the Company calculates additional reserve liabilities for certain variable annuity guaranteed benefits and for universal life products with certain patterns of cost of insurance charges and certain other fees. The additional reserve for such products recognizes the portion of contract assessments received in early years used to compensate the insurer for services provided in later years.

The Company calculates a benefit ratio for each block of business that meets the requirements for additional reserves as outlined in ASC Topic 944, and calculates an additional reserve by accumulating amounts equal to the benefit ratio multiplied by the assessments for each period, reduced by excess benefits during the period. The additional reserve is accumulated at interest rates using rates consistent with the deferred policy acquisition costs model for the period. The calculated reserve includes a provision for universal life contracts with patterns of cost of insurance charges that produce expected gains from the insurance benefit function followed by losses from that function in later years.

GMABs and GMWBs without life contingent payouts are considered to be derivatives under ASC Topic 815 and Topic 820. The additional reserves for these guarantees are recognized at fair value through the Statements of Operations.

Reserves for GICs are calculated using the amount deposited with the Company, less withdrawals, plus interest accrued to the ending valuation date. Interest on these contracts is accrued by a predetermined index, plus a spread or a fixed rate, established at the issue date of the contract.

Sales Inducements

Sales inducements represent benefits paid to contract owners for a specified period that are incremental to the amounts the Company credits on similar contracts and are higher than the contract’s expected ongoing crediting rates for periods after the inducement. Sales inducements are amortized as a component of Interest credited and other benefits to contract owners using methodologies and assumptions consistent with those used for amortization of DAC.

Revenue Recognition

For universal life and most annuity contracts, charges assessed against contract owner funds for the cost of insurance, surrenders, expenses, and other fees are recorded as revenue as charges are assessed. Other amounts received for these contracts are reflected as deposits and are not recorded as premium or revenue. Related policy benefits are recorded in relation to the associated premiums or gross profit so that profits are recognized over the expected lives of the contracts.

Premiums on the Statements of Operations primarily represent amounts received under traditional life insurance policies.

For GICs, deposits made to the Company are not recorded as revenue in the Statements of Operations, but are recorded directly to Future policy benefits and claims reserves on the Balance Sheets.

Separate Accounts

Separate account assets and liabilities generally represent funds maintained to meet specific investment objectives of contract owners who bear the investment risk, subject, in limited cases, to certain minimum guarantees. Investment income and investment gains and losses generally accrue directly to such contract owners. The assets of each account are legally segregated and are not subject to claims that arise out of any other business of the Company or its affiliates.

Separate account assets supporting variable options under variable annuity contracts are invested, as designated by the contract owner or participant (who bears the investment risk subject, in limited cases, to minimum guaranteed rates) under a contract, in shares of mutual funds that are managed by the Company or its affiliates, or in other selected mutual funds not managed by the Company or its affiliates.

The Company reports separately, as assets and liabilities, investments held in the separate accounts and liabilities of separate accounts if:

- such separate accounts are legally recognized;

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

- assets supporting the contract liabilities are legally insulated from the Company's general account liabilities;
- investments are directed by the contractholder;
- and, all investment performance, net of contract fees and assessments, is passed through to the contractholder.

The Company reports separate account assets and liabilities that meet the above criteria at fair value based on the fair value of the underlying investments. Investment income and net realized and unrealized capital gains (losses) of the separate accounts, however, are not reflected in the Statements of Operations. The Statements of Cash Flows do not reflect investment activity of the separate accounts.

Deposits and Reinsurance Recoverable

The Company utilizes reinsurance agreements to reduce its exposure to large losses in most aspects of its insurance business. Such reinsurance permits recovery of a portion of losses from reinsurers, although it does not discharge the primary liability of the Company as direct insurer of the risks reinsured. The Company evaluates the financial strength of potential reinsurers and continually monitors the financial condition of reinsurers. Only those reinsurance recoverable balances deemed probable of recovery are reflected as assets on the Company's Balance Sheets.

Participating Insurance

Participating business approximates 8.0% of the Company's ordinary life insurance in force and 28.0% of life insurance premium income. The amount of dividends to be paid is determined annually by the Board of Directors. Amounts allocable to participating contract owners are based on published dividend projections or expected dividend scales. Dividends to participating policyholders of \$12.1, \$12.4, and \$13.7, were incurred during the years ended December 31, 2010, 2009, and 2008, respectively.

Income Taxes

The Company files a consolidated federal income tax return with ING America Insurance Holdings, Inc. ("ING AIH"), an affiliate, and certain other subsidiaries of ING AIH. The Company is a party to a federal tax allocation agreement with ING AIH and its subsidiaries that are part of the group, whereby ING AIH charges its subsidiaries for federal taxes each subsidiary would have incurred were it not a member of the consolidated group and credits each subsidiary for losses at the statutory federal tax rate.

At December 31, 2010 and 2009, net unrealized gains (losses) were \$689.3 and \$(551.2), respectively, on total fixed maturities, including securities pledged to creditors, and equity securities.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The amortized cost and fair value of total fixed maturities, including securities pledged, as of December 31, 2010, are shown below by contractual maturity. Actual maturities may differ from contractual maturities as securities may be restructured, called, or prepaid.

	Amortized Cost	Fair Value
Due to mature:		
One year or less	\$ 805.0	\$ 821.6
After one year through five years	5,775.1	6,018.0
After five years through ten years	5,214.7	5,394.9
After ten years	4,210.0	4,328.8
Mortgage-backed securities	4,140.9	4,369.9
Other asset-backed securities	1,213.9	1,107.6
Fixed maturities, including securities pledged	<u>\$ 21,359.6</u>	<u>\$ 22,040.8</u>

The Company did not have any investments in a single issuer, other than obligations of the U.S. government and government agencies and the Dutch State loan obligation, with a carrying value in excess of 10.0% of the Company’s Shareholder’s equity at December 31, 2010 and 2009.

At December 31, 2010 and 2009, fixed maturities with fair values of \$12.4 and \$12.1, respectively, were on deposit as required by regulatory authorities.

The Company invests in various categories of collateralized mortgage obligations (“CMOs”), including CMOs that are not agency-backed, that are subject to different degrees of risk from changes in interest rates and defaults. The principal risks inherent in holding CMOs are prepayment and extension risks related to dramatic decreases and increases in interest rates resulting in the prepayment of principal from the underlying mortgages, either earlier or later than originally anticipated. At December 31, 2010 and 2009, approximately 22.9% and 26.1%, respectively, of the Company’s CMO holdings were invested in those types of CMOs which are subject to more prepayment and extension risk than traditional CMOs, such as interest-only or principal-only strips.

The Company is a member of the Federal Home Loan Bank of Des Moines (“FHLB”) and is required to maintain a collateral deposit that backs funding agreements issued to the FHLB. At December 31, 2010 and 2009, the Company had \$1,579.6 and \$1,304.5, respectively, in non-putable funding agreements, including accrued interest, issued to the FHLB. These non-putable funding agreements are included in Future policy benefits and claims reserves, in the Balance Sheets. At December 31, 2010 and 2009, assets with a market value of \$1,930.1 and \$1,657.9, respectively, collateralized the funding agreements to the FHLB. Assets pledged to the FHLB are included in Fixed maturities, available-for-sale, in the Balance Sheets.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Transfer of Alt-A RMBS Participation Interest

On January 26, 2009, ING announced it reached an agreement, for itself and on behalf of certain ING affiliates including the Company, with the Dutch State on an Illiquid Assets Back-Up Facility (the “Back-Up Facility”) covering 80% of ING’s Alt-A RMBS. Under the terms of the Back-Up Facility, a full credit risk transfer to the Dutch State was realized on 80% of ING’s Alt-A RMBS owned by ING Bank, FSB and ING affiliates within ING Insurance US with a book value of \$36.0 billion, including book value of \$1.4 billion of the Alt-A RMBS portfolio owned by the Company (with respect to the Company’s portfolio, the “Designated Securities Portfolio”) (the “ING-Dutch State Transaction”). As a result of the risk transfer, the Dutch State will participate in 80% of any results of the ING Alt-A RMBS portfolio. The risk transfer to the Dutch State took place at a discount of approximately 10% of par value. In addition, under the Back-Up Facility, other fees were paid both by the Company and the Dutch State. Each ING company participating in the ING-Dutch State Transaction, including the Company remains the legal owner of 100% of its Alt-A RMBS portfolio and will remain exposed to 20% of any results on the portfolio. The ING-Dutch State Transaction closed March 31, 2009, with the affiliate participation conveyance and risk transfer to the Dutch State described in the succeeding paragraph taking effect as of January 26, 2009.

In order to implement that portion of the ING-Dutch State Transaction related to the Company’s Designated Securities Portfolio, the Company entered into a participation agreement with its affiliates, ING Support Holding B.V. (“ING Support Holding”) and ING pursuant to which the Company conveyed to ING Support Holding an 80% participation interest in its Designated Securities Portfolio and will pay a periodic transaction fee, and received, as consideration for the participation, an assignment by ING Support Holding of its right to receive payments from the Dutch State under the Illiquid Assets Back-Up Facility related to the Company’s Designated Securities Portfolio among, ING, ING Support Holding and the Dutch State (the “Company Back-Up Facility”). Under the Company Back-Up Facility, the Dutch State is obligated to pay certain periodic fees and make certain periodic payments with respect to the Company’s Designated Securities Portfolio, and ING Support Holding is obligated to pay a periodic guarantee fee and make periodic payments to the Dutch State equal to the distributions made with respect to the 80% participation interest in the Company’s Designated Securities Portfolio. The Dutch State payment obligation to the Company under the Company Back-Up Facility is accounted for as a loan receivable for US GAAP and is reported in Loan - Dutch State obligation on the Balance Sheets.

Upon the closing of the transaction on March 31, 2009, the Company reduced the unrealized loss balance in Accumulated other comprehensive loss included in Shareholder’s equity by \$411.3 and recognized a gain of \$117.6, which was reported in Net realized capital losses on the Statements of Operations.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

In a second transaction, known as the Step 1 Cash Transfer, a portion of the Company's Alt-A RMBS which had a book value of \$18.9 was sold for cash to an affiliate, Lion II Custom Investments LLC ("Lion II"). Immediately thereafter, Lion II sold to ING Direct Bancorp the purchased securities (the "Step 2 Cash Transfer"). Contemporaneous with the Step 2 Cash Transfer, ING Direct Bancorp included such purchased securities as part of its Alt-A RMBS portfolio sale to the Dutch State. The Step 1 Cash Transfer closed on March 31, 2009, and the Company recognized a gain of \$7.9 contemporaneous with the closing of the ING-Dutch State Transaction, which was reported in Net realized capital gains (losses) on the Statements of Operations.

As part of the final restructuring plan submitted to the European Commission ("EC") in connection with its review of the Dutch state aid to ING (the "Restructuring Plan"), ING has agreed to make additional payments to the Dutch State corresponding to an adjustment of fees for the Back-Up Facility. Under this new agreement, the terms of the ING-Dutch State Transaction which closed on March 31, 2009, including the transfer price of the Alt-A RMBS securities, will remain unaltered and the additional payments will not be borne by the Company or any other ING U.S. subsidiaries.

Variable Interest Entities

The Company holds certain VIEs for investment purposes. VIEs may be in the form of private placement securities, structured securities, securitization transactions, or limited partnerships. The Company has reviewed each of its holdings and determined that consolidation of these investments in the Company's financial statements is not required, as the Company is not the primary beneficiary, because the Company does not have both the power to direct the activities that most significantly impact the entity's economic performance and the obligation or right to potentially significant losses or benefits, for any of its investments in VIEs. Rather, the VIEs are accounted for using the cost or equity method of accounting. The Company provided no non-contractual financial support and its carrying value represents the Company's exposure to loss. The carrying value of collateralized loan obligations ("CLOs") of \$2.7 and \$2.3 at December 31, 2010 and 2009, respectively, is included in Limited partnerships/corporations on the Balance Sheets. Income and losses recognized on these investments are reported in Net investment income on the Statements of Operations.

Unrealized Capital Losses

Unrealized capital losses (including non-credit impairments) in fixed maturities, including securities pledged to creditors, for Investment Grade ("IG") and Below Investment Grade ("BIG") securities by duration were as follows at December 31, 2010 and 2009.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

	2010				2009			
	IG	% of IG and BIG	BIG	% of IG and BIG	IG	% of IG and BIG	BIG	% of IG and BIG
Six months or less below amortized cost	\$ 124.6	28.8%	\$ 12.4	2.9%	\$ 170.1	13.5%	\$ 21.2	1.7%

Of the unrealized capital losses aged more than twelve months, the average market value of the related fixed maturities was 81.6% of the average book value as of December 31, 2010.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Unrealized capital losses (including non-credit impairments) in fixed maturities, including securities pledged to creditors, for instances in which fair value declined below amortized cost by greater than or less than 20% for consecutive periods as indicated in the tables below, were as follows for December 31, 2010 and 2009.

	<u>Amortized Cost</u>		<u>Unrealized Capital Loss</u>		<u>Number of Securities</u>	
	<u>< 20%</u>	<u>> 20%</u>	<u>< 20%</u>	<u>> 20%</u>	<u>< 20%</u>	<u>> 20%</u>

For the year ended December 31, 2010, unrealized capital losses on fixed maturities decreased by \$836.0. Lower unrealized losses are due to lower yields and the overall tightening of credit spreads since the end of 2009, leading to higher fair value of fixed maturities.

At December 31, 2010, the Company had 1 fixed maturity with an unrealized capital loss in excess of \$10.0. The unrealized capital loss on this fixed maturity equaled \$17.8, or 4.1% of the total unrealized losses, as of December 31, 2010. At December 31, 2009, the Company had 19 fixed maturities with unrealized capital losses in excess of \$10.0. The unrealized capital losses on these fixed maturities equaled \$353.9, or 27.9% of the total unrealized losses, as of December 31, 2009.

All investments with fair values less than amortized cost are included in the Company’s other-than-temporary impairment analysis, and impairments were recognized as disclosed

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

in “Other-Than-Temporary Impairments,” which follows this section. After detailed impairment analysis was completed, management determined that the remaining investments in an unrealized loss position were not other-than-temporarily impaired, and therefore no further other-than-temporary impairment was necessary.

Other-Than-Temporary Impairments

The following tables identify the Company’s credit-related and intent-related impairments included in the Statements of Operations, excluding noncredit impairments included in Accumulated other comprehensive income (loss), by type for the years ended December 31, 2010, 2009, and 2008.

⁽¹⁾ Primarily U.S. dollar denominated.

The Company may sell securities during the period in which fair value has declined below amortized cost for fixed maturities or cost for equity securities. In certain situations, new factors, including changes in the business environment, can change the Company’s previous intent to continue holding a security. In late first quarter 2011, the Company changed its intent to hold certain securities and will record other-than-temporary impairments of approximately \$50.0.

The following tables identify the noncredit impairments recognized in Accumulated other comprehensive income (loss) by type for the years ended December 31, 2010 and 2009.

	2010		2009	
	Impairment	No of Securities	Impairment	No of Securities

Net Realized Capital Gains (Losses)

Net realized capital gains (losses) are comprised of the difference between the amortized cost of investments and proceeds from sale, and redemption, as well as losses incurred due to credit-related and intent-related other-than-temporary impairment of investments and changes in fair value of fixed maturities accounted for using the fair value option and derivatives. The cost of the investments on disposal is determined based on specific identification of securities. Net realized capital gains (losses) on investments were as follows for the years ended December 31, 2010, 2009, and 2008.

	2010	2009	2008
Fixed maturities, available-for-sale, including net OTTI of \$(187.8), \$(465.0), and \$(990.8) in 2010, 2009, and 2008, respectively	\$ 11.8	\$ (298.0)	\$ (976.0)
Fixed maturities at fair value using the fair value option	(14.6)	117.6	0.1
Equity securities, available-for-sale, including net OTTI of \$0, \$(3.3), and \$(32.0) in 2010, 2009, and 2008, respectively	1.9	6.4	(52.9)
Derivatives	(795.6)	(2,307.2)	(447.5)
Other investments, including net OTTI of \$(6.6), \$(21.3), and \$(5.3) in 2010, 2009, and 2008, respectively	(9.1)	(15.9)	(5.4)
Net realized capital losses	<u>\$ (805.7)</u>	<u>\$ (2,497.1)</u>	<u>\$ (1,481.7)</u>
After-tax net realized capital losses	<u>\$ (580.7)</u>	<u>\$ (1,590.2)</u>	<u>\$ (1,337.1)</u>

Proceeds from the sale of fixed maturities and equity securities and the related gross realized gains and losses were as follows for the periods ended December 31, 2010, 2009, and 2008.

	2010	2009	2008
Proceeds on sales	\$ 6,211.7	\$ 5,202.4	\$ 6,893.4
Gross gains	243.1	173.3	100.2
Gross losses	37.4	98.3	164.9

Excluding separate accounts assets for which the policyholder bears the risk, the Level 3 net assets and liabilities in relation to total net assets and liabilities measured at fair value on a recurring basis totaled 3.2%.

Transfers in and out of Level 1 and 2

Certain US Treasury securities valued by commercial pricing services where prices are derived using market observable inputs have been transferred from Level 1 to Level 2. These securities for the year ended December 31, 2010, include US Treasury strips of

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

\$79.4 in which prices are modeled incorporating a variety of market observable information in their valuation techniques, including benchmark yields, broker-dealer quotes, credit quality, issuer spreads, bids, offers and other reference data. The Company's policy is to recognize transfers in and transfers out as of the beginning of the reporting period.

Valuation of Financial Assets and Liabilities

As described below, certain assets and liabilities are measured at estimated fair value on the Company's Balance Sheets. In addition, further disclosure of estimated fair values is included in this Financial Instruments footnote. The Company defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The exit price and the transaction (or entry) price will be the same at initial recognition in many circumstances. However, in certain cases, the transaction price may not represent fair value. The fair value of a liability is based on the amount that would be paid to transfer a liability to a third-party with an equal credit standing. Fair value is required to be a market-based measurement which is determined based on a hypothetical transaction at the measurement date, from a market participant's perspective. The Company considers three broad valuation techniques when a quoted price is unavailable: (i) the market approach, (ii) the income approach and (iii) the cost approach. The Company determines the most appropriate valuation technique to use, given the instrument being measured and the availability of sufficient inputs. The Company prioritizes the inputs to fair valuation techniques and allows for the use of unobservable inputs to the extent that observable inputs are not available.

The Company utilizes a number of valuation methodologies to determine the fair values of its financial assets and liabilities in conformity with the concepts of "exit price" and the fair value hierarchy as prescribed in ASC Topic 820. Valuations are obtained from third party commercial pricing services, brokers, and industry-standard, vendor-provided software that models the value based on market observable inputs. The valuations obtained from brokers and third-party commercial pricing services are non-binding. The valuations are reviewed and validated monthly through the internal valuation committee price variance review, comparisons to internal pricing models, back testing to recent trades, or monitoring of trading volumes.

All valuation methods and assumptions are validated at least quarterly to ensure the accuracy and relevance of the fair values. There were no material changes to the valuation methods or assumptions used to determine fair values during 2010, except for the Company's use of commercial pricing services to value CMO-Bs which commenced in the first quarter of 2010.

Level 3 Financial Instruments

The fair values of certain assets and liabilities are determined using prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement (i.e., Level 3 as defined by ASC 820), including but not limited to liquidity spreads for investments within markets deemed not currently active. These valuations, whether derived internally or obtained from a third party, use critical assumptions that are not widely available to estimate market participant expectations in valuing the asset or liability. In addition, the Company has determined, for certain financial instruments, an active market is such a significant input to determine fair value that the presence of an inactive market may lead to classification in Level 3. In light of the methodologies employed to obtain the fair values of financial assets and liabilities classified as Level 3, additional information is presented below, with particular attention addressed to changes in derivatives, FIAs, and GMWBs and GMABs due to their impacts on the Company’s results of operations.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The following table summarizes the changes in fair value of the Company’s Level 3 assets and liabilities for the year ended December 31, 2010.

	December 31, 2010							
	Fair Value as of January 1	Total realized/unrealized gains (losses) included in: Net income	OCI	Purchases, issuances, and settlements	Transfers in to Level 3 ⁽²⁾	Transfers out of Level 3 ⁽²⁾	Fair Value as of December 31	Change in unrealized gains (losses) included in earnings ⁽³⁾

⁽¹⁾ This amount is included in Interest credited and other benefits to contract owners on the Statements of Operations. All gains and losses on Level 3 liabilities are classified as realized gains (losses) for the purpose of this disclosure because it is impracticable to track realized and unrealized gains (losses) separately on a contract-by-contract basis.

⁽²⁾ The Company’s policy is to recognize transfers in and transfers out as of the beginning of the reporting period.

⁽³⁾ For financial instruments still held as of December 31. Amounts are included in Net investment income and Net realized capital losses on the Statements of Operations.

The transfers out of Level 3 during the year ended December 31, 2010 in Fixed maturities, including securities pledged, are primarily due to the Company’s use of commercial pricing services to value CMO-Bs. These services incorporate a variety of market observable information in their valuation techniques, including benchmark yields, broker-dealer quotes, credit quality, issuer spreads, bids, offers and other reference data and have been classified as Level 2. The CMO-Bs had previously been valued by using the average of broker quotes when more than one broker quote was provided.

The remaining transfers in and out of Level 3 for fixed maturities during the year ended December 31, 2010, are due to the variation in inputs relied upon for valuation each quarter. Securities that are primarily valued using independent broker quotes when prices are not available from one of the commercial pricing services are reflected as transfers into Level 3, as these securities are generally less liquid with very limited trading activity or where less transparency exists corroborating the inputs to the valuation methodologies. When securities are valued using more widely available information, the securities are transferred out of Level 3 and into Level 1 or 2, as appropriate.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The carrying values and estimated fair values of certain of the Company’s financial instruments were as follows at December 31, 2010 and 2009.

	2010		2009	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Assets:				
Fixed maturities, available-for-sale, including securities pledged	\$ 21,803.1	\$ 21,803.1	\$ 18,018.0	\$ 18,018.0

The following disclosures are made in accordance with the requirements of ASC Topic 825 which requires disclosure of fair value information about financial instruments, whether or not recognized in the balance sheet, for which it is practicable to estimate that value. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. In that regard, the derived fair value estimates, in many cases, could not be realized in immediate settlement of the instrument.

ASC Topic 825 excludes certain financial instruments, including insurance contracts, and all nonfinancial instruments from its disclosure requirements. Accordingly, the aggregate fair value amounts presented do not represent the underlying value of the Company.

The following valuation methods and assumptions were used by the Company in estimating the fair value of the following financial instruments, which are not carried at fair value on the Balance Sheets, and therefore not categorized in the fair value hierarchy:

Limited partnerships/corporations: The fair value for these investments, primarily private equities and hedge funds, is estimated based on the Net Asset Value (“NAV”) as provided by the investee.

Mortgage loans on real estate: The fair values for mortgage loans on real estate are estimated using discounted cash flow analyses and rates currently being offered in the marketplace for similar loans to borrowers with similar credit ratings. Loans with similar characteristics are aggregated for purposes of the calculations.

Loan - Dutch State obligation: The fair value of the Dutch State loan obligation is estimated utilizing discounted cash flows from the Dutch Strip Yield Curve.

Policy loans: The fair value of policy loans is equal to the carrying, or cash surrender, value of the loans. Policy loans are fully collateralized by the account value of the associated insurance contracts.

Other investments: The fair value of other investments is estimated based on the Company’s percentage of ownership of third party appraised value for joint ventures and third party appraised value for real estate.

Deposits from affiliates: Fair value is estimated based on the fair value of the liabilities for the account values of the underlying contracts, plus the fair value of the unamortized ceding allowance based on the present value of the projected release of the ceding allowance, discounted at risk-free rates, plus a credit spread.

Investment contract liabilities (included in Future policy benefits and claims reserves):

With a fixed maturity: Fair value is estimated by discounting cash flows, including associated expenses for maintaining the contracts, at rates, which are market risk-free rates augmented by credit spreads on current Company credit default swaps. The augmentation is present to account for non-performance risk. A margin for non-financial risks associated with the contracts is also included.

Without a fixed maturity: Fair value is estimated as the mean present value of stochastically modeled cash flows associated with the contract liabilities relevant to

both the contractholder and to the Company. Here, the stochastic valuation scenario set is consistent with current market parameters, and discount is taken using stochastically evolving short risk-free rates in the scenarios augmented by credit spreads on current Company debt. The augmentation in the discount is present to account for non-performance risk. Margins for non-financial risks associated with the contract liabilities are also included.

Notes to affiliates: Estimated fair value of the Company’s notes to affiliates is based upon discounted future cash flows using a discount rate approximating the current market rate.

Fair value estimates are made at a specific point in time, based on available market information and judgments about various financial instruments, such as estimates of timing and amounts of future cash flows. Such estimates do not reflect any premium or discount that could result from offering for sale at one time the Company’s entire holdings of a particular financial instrument, nor do they consider the tax impact of the realization of unrealized capital gains (losses). In many cases, the fair value estimates cannot be substantiated by comparison to independent markets, nor can the disclosed value be realized in immediate settlement of the instruments. In evaluating the Company’s management of interest rate, price, and liquidity risks, the fair values of all assets and liabilities should be taken into consideration, not only those presented above.

Mortgage Loans on Real Estate

The Company’s mortgage loans on real estate are summarized as follows at December 31, 2010 and 2009.

	2010	2009
	Carrying Value	Carrying Value
Total commercial mortgage loans	\$ 2,970.9	\$ 3,417.3
Collective valuation allowance	(3.0)	(4.1)
Total net commercial mortgage loans	\$ 2,967.9	\$ 3,413.2

As of December 31, 2010, all commercial mortgage loans are held-for-investment. The Company diversifies its commercial mortgage loan portfolio by geographic region and property type to reduce concentration risk. The Company manages risk when originating commercial mortgage loans by generally lending only up to 75% of the estimated fair value of the underlying real estate. All mortgage loans are evaluated by seasoned underwriters, including an appraisal of loan-specific credit quality, property characteristics, and market trends, and assigned a quality rating using the Company’s internally developed quality rating system. Loan performance is continuously monitored on a loan-specific basis through the review of borrower submitted appraisals, operating statements, rent revenues and annual inspection reports, among other items. This review ensures properties are performing at a consistent and acceptable level to secure the debt.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The Company has established a collective valuation allowance for probable incurred, but not specifically identified, losses related to factors inherent in the lending process. The changes in the collective valuation allowance were as follows for the years ended December 31, 2010 and 2009.

	2010 Carrying Value	2009 Carrying Value
Collective valuation allowance for losses, beginning of year ⁽¹⁾	\$ 4.1	\$ -
Addition to / (release of) allowance for losses	(1.1)	4.1
Collective valuation allowance for losses, end of year	<u>\$ 3.0</u>	<u>\$ 4.1</u>

⁽¹⁾ Allowance was not recorded prior to 2009.

The commercial mortgage loan portfolio is the recorded investment, prior to collective valuation allowances, by the indicated loan-to-value ratio and debt service coverage ratio, as reflected in the following tables at December 31, 2010 and 2009.

	2010 ⁽¹⁾	2009 ⁽¹⁾
Loan-to-Value Ratio:		
0% - 50%	\$ 1,140.4	\$ 1,541.0
50% - 60%	707.7	742.5
60% - 70%	903.4	845.0
70% - 80%	197.6	264.9
80% - 90%	21.8	23.9
Total Commercial Mortgage Loans	<u>\$ 2,970.9</u>	<u>\$ 3,417.3</u>

⁽¹⁾ Balances do not include allowance for mortgage loan credit losses.

	2010 ⁽¹⁾	2009 ⁽¹⁾
Debt Service Coverage Ratio:		
Greater than 1.5x	\$ 2,038.3	\$ 2,356.1
1.25x - 1.5x	387.9	371.5
1.0x - 1.25x	255.2	284.1
Less than 1.0x	144.0	219.5
Mortgages secured by loans on land or construction loans	145.5	186.1
Total Commercial Mortgage Loans	<u>\$ 2,970.9</u>	<u>\$ 3,417.3</u>

⁽¹⁾ Balances do not include allowance for mortgage loan credit losses.

The Company believes it has a high quality mortgage loan portfolio with 100% of commercial mortgages classified as performing. The Company defines delinquent commercial mortgage loans consistent with industry practice as 60 days past due. As of December 31, 2010, there were no commercial loans classified as delinquent. The Company’s policy is to recognize interest income until a loan becomes 90 days delinquent or foreclosure proceedings are commenced, at which point interest accrual is

discontinued. Interest accrual is not resumed until past due payments are brought current. At December 31, 2010, there were no commercial mortgage loans on nonaccrual status.

All commercial mortgages are rated for the purpose of quantifying the level of risk. Those loans with higher risk are placed on a watch list and are closely monitored for collateral deficiency or other credit events that may lead to a potential loss of principal or interest. If the value of any mortgage loan is determined to be impaired (i.e., when it is probable that the Company will be unable to collect on all amounts due according to the contractual terms of the loan agreement), the carrying value of the mortgage loan is reduced to either the present value of expected cash flows from the loan, discounted at the loan’s effective interest rate, or fair value of the collateral.

The carrying values and unpaid principal balances (prior to any charge-off) of impaired commercial mortgage loans were as follows for the years ended December 31, 2010 and 2009.

	2010 Carrying Value	2009 Carrying Value
Impaired loans without valuation allowances	\$ 16.5	\$ 48.2
Unpaid principal balance of impaired loans	\$ 18.7	\$ 65.0

Derivative Financial Instruments

See the Organization and Significant Accounting Policies footnote for disclosure regarding the Company’s purpose for entering into derivatives and the policies on valuation and classification of derivatives. In addition, the Company’s derivatives are generally not accounted for using hedge accounting treatment under US GAAP, as the Company has not historically sought hedge accounting treatment. The Company enters into the following derivatives:

Interest rate caps: Interest rate caps are used to manage the interest rate risk in the Company’s fixed maturity portfolio. Interest rate caps are purchased contracts that are used by the Company to hedge annuity products against rising interest rates.

Interest rate swaps: Interest rate swaps are used to manage the interest rate risk in the Company’s fixed maturity portfolio, as well as the Company’s liabilities. Interest rate swaps represent contracts that require the exchange of cash flows at regular interim periods, typically monthly or quarterly.

Foreign exchange swaps: Foreign exchange swaps are used to reduce the risk of a change in the value, yield, or cash flow with respect to invested assets. Foreign exchange swaps represent contracts that require the exchange of foreign currency cash flows for U.S. dollar cash flows at regular interim periods, typically quarterly or semi-annually.

Credit default swaps: Credit default swaps are used to reduce the credit loss exposure with respect to certain assets that the Company owns, or to assume credit exposure on certain assets that the Company does not own. Payments are made to or received from the counterparty at specified intervals and amounts for the purchase or sale of credit protection. In the event of a default on the underlying credit exposure, the Company will either receive an additional payment (purchased credit protection) or will be required to make an additional payment (sold credit protection) equal to par minus recovery value of the swap contract.

Total return swaps: Total return swaps are used to hedge against a decrease in variable annuity account values, which are invested in certain funds. The difference between floating-rate interest amounts calculated by reference to an agreed upon notional principal amount is exchanged with other parties at specified intervals.

Forwards: Certain forwards are acquired to hedge the Company's CMO-B portfolio against movements in interest rates, particularly mortgage rates. On the settlement date, the Company will either receive a payment (interest rate drops on purchased forwards or interest rate rises on sold forwards) or will be required to make a payment (interest rate rises on purchased forwards or interest rate drops on sold forwards). The Company also uses currency forward contracts to hedge policyholder liabilities in variable annuity contracts which are linked to foreign indexes. The currency fluctuations may result in a decrease in variable annuity account values, which would increase the possibility of the Company incurring an expense for guaranteed benefits in excess of account values.

Futures: Futures contracts are used to hedge against a decrease in certain equity indices. Such decreases may result in a decrease in variable annuity account values, which would increase the possibility of the Company incurring an expense for guaranteed benefits in excess of account values. Futures contracts are also used to hedge against an increase in certain equity indices. Such increases may result in increased payments to contract holders of fixed indexed annuity contracts, and the futures income would serve to offset this increased expense.

Options: Call options are used to hedge against an increase in the various equity indices. Such increase may result in increased payments to contract holders of fixed indexed annuity contracts, and the options offset this increased expense.

Embedded derivatives: The Company also has investments in certain fixed maturity instruments, and has issued certain retail annuity products, that contain embedded derivatives whose market value is at least partially determined by, among other things, levels of or changes in domestic and/or foreign interest rates (short-term or long-term), exchange rates, prepayment rates, equity rates, or credit ratings/spreads. In addition, the Company has entered into a coinsurance with funds withheld arrangement which contains

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

an embedded derivative whose fair value is based on the change in the fair value of the underlying assets held in trust.

The notional amounts and fair values of derivatives were as follows as of December 31, 2010 and 2009.

	2010			2009		
	Notional Amount	Asset Fair Value	Liability Fair Value	Notional Amount	Asset Fair Value	Liability Fair Value

⁽²⁾ Changes in value are included in Interest credited and other benefits to contract owners on the Condensed Statements of Operations.

Credit Default Swaps

The Company has entered into various credit default swaps. When credit default swaps are sold, the Company assumes credit exposure to certain assets that it does not own. Credit default swaps may also be purchased to reduce credit exposure in the Company’s portfolio. Credit default swaps involve a transfer of credit risk from one party to another in exchange for periodic payments. These instruments are typically written for a maturity period of five years and do not contain recourse provisions, which would enable the seller to recover from third parties. The Company has International Swaps and Derivatives Association, Inc. (“ISDA”) agreements with each counterparty with which it conducts business and tracks the collateral positions for each counterparty. To the extent cash collateral is received, it is included in Payables under securities loan agreement, including collateral held, on the Balance Sheets and is reinvested in short-term investments. Collateral held is used in accordance with the Credit Support Annex (“CSA”) to satisfy any obligations. Investment grade bonds owned by the Company are the source of noncash collateral posted, which is reported in Securities pledged on the Balance Sheets. In the event of a default on the underlying credit exposure, the Company will either receive an additional payment (purchased credit protection) or will be required to make an additional payment (sold credit protection) equal to par minus recovery value of the swap contract. At December 31, 2010, the fair value of credit default swaps of \$3.2 and \$14.5 was included in Derivatives and Other liabilities, respectively, on the Balance Sheets. At December 31, 2009, the fair value of credit default swaps of \$0.3 and \$106.0

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

was included in Derivatives and Other liabilities, respectively, on the Balance Sheets. As of December 31, 2010 and 2009, the maximum potential future exposure to the Company on the sale of credit protection under credit default swaps was \$308.1 and \$122.9, respectively.

4. Deferred Policy Acquisition Costs and Value of Business Acquired

Activity within DAC was as follows for the years ended December 31, 2010, 2009, and 2008.

	2010	2009	2008
Balance at January 1	\$ 3,718.0	\$ 4,205.5	\$ 2,908.4
Deferrals of commissions and expenses	197.4	411.7	781.7
Amortization:			
Amortization	(616.9)	171.7	(814.9)
Interest accrued at 5% to 6%	230.2	191.3	146.4
Net amortization included in the Statements of Operations	(386.7)	363.0	(668.5)
Change in unrealized capital gains/losses on available-for-sale securities	(373.7)	(1,262.2)	1,098.2
Effect of variable annuity guaranteed living benefits reinsurance	-	-	85.7
Balance at December 31	\$ 3,155.0	\$ 3,718.0	\$ 4,205.5

The estimated amount of DAC amortization expense, net of interest, is \$157.9, \$245.4, \$327.7, \$397.2, and \$377.1, for the years 2011, 2012, 2013, 2014, and 2015, respectively. Actual amortization incurred during these years may vary as assumptions are modified to incorporate actual results.

Activity within VOBA was as follows for the years ended December 31, 2010, 2009, and 2008.

	2010	2009	2008
Balance at January 1	\$ 113.4	\$ 195.1	\$ 128.7
Amortization:			
Amortization	(30.1)	(7.5)	(18.7)
Interest accrued at 5% to 6%	5.2	6.7	6.7
Net amortization included in the Statements of Operations	(24.9)	(0.8)	(12.0)
Change in unrealized capital gains/losses on available-for-sale securities	(20.4)	(80.9)	78.4
Balance at December 31	\$ 68.1	\$ 113.4	\$ 195.1

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The estimated amount of VOBA amortization expense, net of interest, is \$7.7, \$8.6, \$8.9, \$8.6, and \$7.9, for the years 2011, 2012, 2013, 2014, and 2015, respectively. Actual amortization incurred during these years may vary as assumptions are modified to incorporate actual results.

Analysis of DAC and VOBA - Annuity Products

The Net amortization of DAC and VOBA increased for the year ended December 31, 2010 driven by higher actual gross profits mainly resulting from improved net realized capital losses.

During 2010, 2009, and 2008, the Company adjusted its projections for future gross profits due to actual experience in the year, adjusted its k-factor for the impact of current period gross profit variances, and revised and unlocked certain assumptions for its fixed and variable annuity products. These adjustments and their acceleration (deceleration) impact on Amortization of DAC and VOBA were as follows for the years ended December 2010, 2009, and 2008.

	2010	2009	2008
Impact of separate account growth and contract owner withdrawal behavior different from assumptions	\$ 114.2	\$ (324.1)	\$ 491.8
Impact of current year gross profit variances	(40.2)	342.6	227.2
Unlock of mortality, lapse, expense and mutual fund sharing assumptions	(81.6)	88.9	(40.1)
Impact of refinements of gross profit projections	117.6	(0.9)	302.0
Total unlocking effect on Amortization of DAC and VOBA	<u>\$ 110.0</u>	<u>\$ 106.5</u>	<u>\$ 980.9</u>

5. Sales Inducements

During the year ended December 31, 2010, the Company capitalized and amortized \$46.9 and \$(110.8), respectively, of sales inducements. During the year ended December 31, 2009, the Company capitalized and amortized \$65.7 and \$(222.5), respectively, of sales inducements. The unamortized balance of capitalized sales inducements, net of unrealized capital gains (losses) on available-for-sale securities, was \$665.9 and \$810.2 as of December 31, 2010 and 2009, respectively.

6. Capital Contributions, Dividends and Statutory Information

The Company’s ability to pay dividends to its parent is subject to the prior approval of the State of Iowa Insurance Division (the “Division”) for payment of any dividend, which, when combined with other dividends paid within the preceding twelve months, exceeds the greater of (1) ten percent (10.0%) of the Company’s earned statutory surplus at the prior year end or (2) the Company’s prior year statutory net gain from operations.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

During 2010 and 2009, the Company did not pay any dividends or return of capital distributions to its Parent. During 2008, the Company paid its Parent a cash return of capital distribution in the amount of \$900.0.

During the year ended December 31, 2010, the Company received \$749.0 in capital contributions from its Parent. On November 12, 2008, ING issued to The State of the Netherlands (the “Dutch State”) non-voting Tier 1 securities for a total consideration of EUR 10 billion. On February 24, 2009, \$2.2 billion was contributed to the direct and indirect insurance company subsidiaries of ING AIH, of which \$835.0 was contributed to the Company. The contribution was comprised of the proceeds from the investment by the Dutch State and the redistribution of currently existing capital within ING. During 2008, the Company received a \$1.1 billion capital contribution from its Parent.

The Division recognizes as net income and capital and surplus those amounts determined in conformity with statutory accounting practices prescribed or permitted by the Department, which differ in certain respects from accounting principles generally accepted in the United States. Statutory net income (loss) was \$(384.4), \$(638.3), and \$(831.4), for the years ended December 31, 2010, 2009, and 2008, respectively. Statutory capital and surplus was \$1,724.7 and \$1,486.1 as of December 31, 2010 and 2009, respectively. As prescribed by statutory accounting practices, statutory surplus as of December 31, 2009 included the impact of a \$239.0 capital contribution received by the Company from its immediate Parent on February 19, 2010.

The Division has the ability to ease certain reserving requirements at its discretion. Due to the reduction in liquidity and the limited availability of letters of credit confirming banks, the Department allowed the Company to accept unconfirmed letters of credit of up to \$320.0 for reinsurance transactions. This allowed the Company to take the full reserve relief for reinsurance transactions with unconfirmed letters of credit. This reserve relief was available for the period from December 31, 2008 through July 1, 2010 and is not a permitted practice.

Effective December 31, 2009, the Company adopted Actuarial Guideline 43 - Variable Annuity Commissioners Annuity Reserve Valuation Method (“AG43”) for its statutory basis of accounting. Where the application of AG43 produces higher reserves than the Company had otherwise established under previous standards, the Company may request permission from the Division to grade-in the impact of higher reserve over a three year period. During 2009, the Company elected this grade-in provision as allowed under AG43 and as approved by the Division. The impact of the grade-in for the year ended December 31, 2009 was an increase in reserves and a corresponding decrease in statutory surplus of \$79.2. Since the AG43 reserves as of December 31, 2010 were lower than reserves established under previous standards, the Company did not elect the grade in provision.

Effective December 31, 2009, the Company adopted SSAP No. 10R, Income Taxes, for its statutory basis of accounting. This statement requires the Company to calculate admitted deferred tax assets based upon what is expected to reverse within one year with a cap on the admitted portion of the deferred tax asset of 10% of capital and surplus for its most recently filed statement. If the Company’s risk-based capital (“RBC”) levels, after reflecting the above limitation, exceeds 250% of the authorized control level, the statement increases the limitation on admitted deferred tax assets from what is expected to reverse in one year to what is expected to reverse over the next three years and increases the cap on the admitted portion of the deferred tax asset from 10% of capital and surplus for its most recently filed statement to 15%. Other revisions in the statement include requiring the Company to reduce the gross deferred tax asset by a statutory valuation allowance adjustment if, based on the weight of available evidence, it is more likely than not (a likelihood of more than 50 percent) that some portion of or all of the gross deferred tax assets will not be realized. To temper this positive RBC impact, and as a temporary measure at December 31, 2009 only, a 5% pre-tax RBC charge must be applied to the additional admitted deferred tax assets generated by SSAP 10R. The adoption for 2009 had a December 31, 2009 sunset; however, during 2010, the 2009 adoption, including the 5% pre-tax RBC charge, was extended through December 31, 2011. The effects on the Company’s statutory financial statements of adopting this change in accounting principle were increases to total assets and capital and surplus of \$70.4 and \$85.6 as of December 31, 2010 and 2009, respectively. This adoption had no impact on total liabilities or net income.

7. Additional Insurance Benefits and Minimum Guarantees

Under the requirements of ASC Topic 944, the Company calculates reserve liabilities for certain guaranteed benefits and for universal life products with certain patterns of cost of insurance charges and certain other fees.

The following assumptions and methodology were used to determine the guaranteed minimum death benefits (“GMDB”), guaranteed minimum income benefits (“GMIB”), guaranteed minimum withdrawal for life benefit (LifePay “LP” and LifePay Plus “LPP”), guaranteed minimum accumulation benefits (“GMAB”) and guarantee minimum withdrawal benefits without lifetime guarantees (“GMWB”) additional reserves at December 31, 2010.

Area	Assumptions/Basis for Assumptions
Data used	Based on 1000 investment performance scenarios
Mean investment performance	GMDB: The mean investment performance varies by fund group. In general we group all separate account returns into 6 fund groups, and generate stochastic returns for each of these fund groups. The overall mean separate account return is 8.125%. The general account fixed portion is a small percentage of the overall total.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

	GMIB / LP/LPP: 8.125% based on a single fund group.
	AB/WB: Zero rate curve
Volatility	GMDB: 15.76% GMIB / LP/LPP: 16.53% AB/WB: Blended 1 year implied forward volatilities for GMAB/WB. The volatilities range between 6.1% and 36.03% base on fund type.
Mortality	Depending on Guaranteed Living Benefit Type, product, and issue year we use 55% to 80% of the SoA 90-95 ultimate mortality table. This percentage grade to 100% over the ages of 80 to 120.
Lapse rates	Vary by contract type and duration; range between 1.0% and 30.0%.
Discount rates	GMDB and GMIB/LP/LPP: 5.5%, based on management’s best estimate of the long term credited rate of return AB/WB: Zero rate curve + ING Bond spread; the ING Bond spread varies between 1.486% and 2.575%

The calculation of the GMIB, LP, and LPP liabilities assumes dynamic surrenders and dynamic utilization of the guaranteed benefit reserves.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The separate account liabilities subject to the requirements for additional reserve liabilities under ASC Topic 944 for minimum guaranteed benefits, and the additional liabilities recognized related to minimum guarantees, by type, as of December 31, 2010 and 2009, and the paid and incurred amounts by type for the years ended December 31, 2010 and 2009, were as follows:

	Guaranteed Minimum Death Benefit (GMDB)	Guaranteed Minimum Accumulation/ Withdrawal Benefit (GMAB/GMWB)	Guaranteed Minimum Income Benefit (GMIB)	Guaranteed Withdrawal For Life Benefit (LP/LPP)
Separate account liability at December 31, 2010	\$ 44,413.3	\$ 1,442.6	\$ -	\$ -
Separate account liability at December 31, 2009	\$ 42,996.1	\$ 1,602.6	\$ 15,418.6	\$ 15,480.8
Additional liability balance:				
Balance at January 1, 2009	\$ 565.4	\$ 153.0	\$ -	\$ -
Incurred guaranteed benefits	83.7	(79.1)	-	-
Paid guaranteed benefits	(171.5)	-	-	-
Balance at December 31, 2009	\$ 477.6	\$ 73.9	\$ -	\$ -
Incurred guaranteed benefits	21.4	13.8	-	-
Paid guaranteed benefits	(125.1)	(10.7)	-	-
Balance at December 31, 2010	\$ 373.9	\$ 77.0	\$ -	\$ -

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The net amount at risk, net of reinsurance, and the weighted average attained age of contract owners by type of minimum guaranteed benefit, were as follows as of December 31, 2010 and 2009.

	Guaranteed Minimum Death Benefit (GMDB)	Guaranteed Minimum Accumulation/ Withdrawal Benefit (GMAB/GMWB)	Guaranteed Minimum Income Benefit (GMIB)	Guaranteed Withdrawal For Life Benefit (LP/LPP)
2010				
Net amount at risk, net of reinsurance	\$ 6,918.5	\$ 52.4	\$ -	\$ -
Weighted average attained age	67	62	-	-
2009				
Net amount at risk, net of reinsurance	\$ 9,108.7	\$ 104.9	\$ -	\$ -
Weighted average attained age	65	68	-	-

The aggregate fair value of equity securities, including mutual funds, supporting separate accounts with additional insurance benefits and minimum investment return guarantees as of December 31, 2010 and 2009 was \$44.4 billion and \$43.0 billion, respectively.

8. Income Taxes

Income tax expense (benefit) consisted of the following for the years ended December 31, 2010, 2009, and 2008.

	2010	2009	2008
Current tax expense (benefit):			
Federal	\$ 622.9	\$ (357.2)	\$ (754.9)
Total current tax expense (benefit)	622.9	(357.2)	(754.9)
Deferred tax expense:			
Federal	(678.0)	220.7	509.7
Total deferred tax (benefit) expense	(678.0)	220.7	509.7
Total income tax benefit	<u>\$ (55.1)</u>	<u>\$ (136.5)</u>	<u>\$ (245.2)</u>

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Income taxes were different from the amount computed by applying the federal income tax rate to income before income taxes for the following reasons for the years ended December 31, 2010, 2009, and 2008.

	2010	2009	2008
Income (loss) before income taxes	\$ 26.2	\$ (133.3)	\$ (1,626.4)
Tax rate	35.0%	35.0%	35.0%
Income tax expense (benefit) at federal statutory rate	9.2	(46.6)	(569.2)
Tax effect of:			
Dividend received deduction	(75.9)	(53.7)	(48.9)
Tax valuation allowance	64.0	(35.6)	379.1
Audit settlement	(49.2)	0.1	-
Tax credits	(3.5)	(1.0)	(5.0)
Other	0.3	0.3	(1.2)
Income tax benefit	<u>\$ (55.1)</u>	<u>\$ (136.5)</u>	<u>\$ (245.2)</u>

Temporary Differences

The tax effects of temporary differences that give rise to Deferred tax assets and Deferred tax liabilities at December 31, 2010 and 2009, are presented below.

	2010	2009
Deferred tax assets:		
Future policy benefits	\$ 503.4	\$ 505.3
Goodwill	1.0	2.4
Investments	839.0	367.7
Employee compensation and benefits	43.2	39.7
Unrealized losses	-	125.1
Other	84.0	70.4
Total gross assets before valuation allowance	1,470.6	1,110.6
Less: valuation allowance	(199.6)	(308.6)
Assets, net of valuation allowance	1,271.0	802.0
Deferred tax liabilities:		
Deferred policy acquisition costs	(1,231.3)	(1,445.4)
Unrealized gains	(139.3)	-
Value of business acquired	(31.3)	(39.3)
Other	(50.1)	(84.8)
Total gross liabilities	(1,452.0)	(1,569.5)
Net deferred income tax liability	<u>\$ (181.0)</u>	<u>\$ (767.5)</u>

Net unrealized capital gains (losses) are presented as a component of other comprehensive income (loss) in Shareholder’s equity, net of deferred taxes.

Valuation allowances are provided when it is considered unlikely that deferred tax assets will be realized. At December 31, 2010 and 2009, the Company had a tax valuation allowance of \$187.5 and \$303.5, respectively, related to realized and unrealized capital

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

losses. As of December 31, 2010 and 2009, the Company had a full tax valuation allowance of \$12.1 and \$5.1, respectively, related to foreign tax credits, the benefit of which is uncertain. The change in net unrealized capital gains (losses) includes an increase (decrease) in the tax valuation allowance of \$(173.0), \$(64.7), and \$17.1 for the years ended December 31, 2010, 2009, and 2008, respectively.

Tax Sharing Agreement

The Company had a payable to ING AIH of \$79.2 and \$69.0 at December 31, 2010 and 2009, respectively, for federal income taxes under the intercompany tax sharing agreement.

See Related Party Transactions footnote for more information.

Unrecognized Tax Benefits

Reconciliations of the change in the unrecognized income tax benefits for the years ended December 31, 2010 and 2009 are as follows:

	2010	2009
Balance at beginning of period	\$ 60.3	\$ 64.9
Additions for tax positions related to the current year	-	9.1
Additions for tax positions related to prior years	28.0	3.2
Reductions for tax positions related to prior years	(60.2)	(16.9)
Reductions for settlements with taxing authorities	(0.1)	-
Balance at end of period	<u>\$ 28.0</u>	<u>\$ 60.3</u>

The Company had \$2.7 and \$53.4 of unrecognized tax benefits as of December 31, 2010 and 2009, respectively, that would affect the Company’s effective tax rate if recognized.

Interest and Penalties

The Company recognizes accrued interest and penalties related to unrecognized tax benefits in Current income taxes and Income tax benefit on the Balance Sheets and Statement of Operations, respectively. The Company had accrued interest of \$0.0 and \$4.4 as of December 31, 2010 and 2009, respectively. The decrease during the tax period ended December 31, 2010 is primarily related to the settlement of the 2004-2008 federal audits.

Tax Regulatory Matters

In September 2010, the IRS completed its examination of the Company’s returns through tax year 2008. The provision for the year ended December 31, 2010 reflected non-recurring favorable adjustments, resulting from a reduction in the tax liability that was no longer deemed necessary based on the results of the IRS examination, monitoring the

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

activities of the IRS with respect to certain issues with other taxpayers and the merits of the Company's position.

The Company is currently under audit by the IRS for tax years 2009 and 2010 and it is expected that the examination of tax year 2009 will be finalized within the next twelve months. Upon finalization of the IRS examination it is reasonably possible that the unrecognized tax benefits will decrease by up to \$25.3. The timing of the payment of the remaining allowance of \$2.7 cannot be reliably estimated. The Company and the IRS have agreed to participate in the Compliance Assurance Program ("CAP") for the tax years 2009 and 2010.

9. Benefit Plans

Defined Benefit Plan

ING North America Insurance Corporation ("ING North America") sponsors the ING Americas Retirement Plan (the "Retirement Plan"), effective as of December 31, 2001. Substantially all employees of ING North America and its affiliates (excluding certain employees) are eligible to participate, including the Company's employees. The Retirement Plan was amended and restated effective January 1, 2008. The Retirement Plan was amended on July 1, 2008, related to the admission of employees from the acquisition of CitiStreet LLC ("CitiStreet") by Lion, and ING North America filed a request for a determination letter on the qualified status of the Retirement Plan, but has not yet received a favorable determination letter. Additionally, effective January 1, 2009, the Retirement Plan was amended to provide that anyone hired or rehired by the Company on or after January 1, 2009, would not be eligible to participate in the Retirement Plan.

The Retirement Plan is a tax-qualified defined benefit plan, the benefits of which are guaranteed (within certain specified legal limits) by the Pension Benefit Guaranty Corporation ("PBGC"). As of January 1, 2002, each participant in the Retirement Plan (except for certain specified employees) earns a benefit under a final average compensation formula. Subsequent to December 31, 2001, ING North America is responsible for all Retirement Plan liabilities. The costs allocated to the Company for its employees' participation in the Retirement Plan were \$11.0, \$15.7, and \$10.8, for the years ended 2010, 2009, and 2008, respectively, and are included in Operating expenses in the Statements of Operations.

Defined Contribution Plan

ING North America sponsors the ING Americas Savings Plan and ESOP (the "Savings Plan"). Substantially all employees of ING North America and its affiliates (excluding certain employees) are eligible to participate, including the Company's employees other

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

than Company agents. The Savings Plan is a tax-qualified defined contribution retirement plan, which includes an employee stock ownership plan (“ESOP”) component. The Savings Plan was amended and restated effective January 1, 2008 and subsequently amended on July 1, 2008, with respect to the admission of employees from the acquisition of CitiStreet by Lion. The Savings Plan was amended effective January 1, 2011, to permit Roth 401(k) contributions to be made to the Plan. ING North America filed a request for a determination letter on the qualified status of the Plan and received a favorable determination letter dated May 19, 2009. Savings Plan benefits are not guaranteed by the PBGC. The Savings Plan allows eligible participants to defer into the Savings Plan a specified percentage of eligible compensation on a pre-tax basis. ING North America matches such pre-tax contributions, up to a maximum of 6.0% of eligible compensation. Matching contributions are subject to a 4-year graded vesting schedule, although certain specified participants are subject to a 5-year graded vesting schedule. All contributions made to the Savings Plan are subject to certain limits imposed by applicable law. The cost allocated to the Company for the Savings Plan were \$2.4, \$4.2, and \$5.6, for the years ended December 31, 2010, 2009, and 2008, respectively, and are included in Operating expenses in the Statements of Operations.

Non-Qualified Retirement Plans

Through December 31, 2001, the Company, in conjunction with ING North America, offered certain eligible employees (other than Career Agents) a Supplemental Executive Retirement Plan and an Excess Plan (collectively, the “SERPs”). Benefits under the SERPs are determined based on an eligible employee’s years of service and average annual compensation for the highest five years during the last ten years of employment.

The SERPs are non-qualified defined benefit pension plans, which means all the SERPs benefits are payable from the general assets of the Company. These non-qualified defined benefit pension plans are not guaranteed by the PBGC.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Obligations and Funded Status

The following table summarizes the benefit obligations, fair value of plan assets, and funded status, for the SERPs for the years ended December 31, 2010 and 2009.

	2010	2009
Change in Projected Benefit Obligation:		
Projected benefit obligation, January 1	\$ 25.9	\$ 21.7
Interest cost	1.5	1.2
Benefits paid	(1.2)	(1.2)
Actuarial gain on obligation	(0.6)	4.3
The effect of any curtailment or settlement	(0.1)	(0.1)
Projected benefit obligation, December 31	<u>\$ 25.5</u>	<u>\$ 25.9</u>
Fair Value of Plan Assets:		
Fair value of plan assets, December 31	<u>\$ -</u>	<u>\$ -</u>

Amounts recognized in the Consolidated Balance Sheets consist of:

	2010	2009
Accrued benefit cost	\$ (25.5)	\$ (25.9)
Accumulated other comprehensive income	7.5	9.1
Net amount recognized	<u>\$ (18.0)</u>	<u>\$ (16.8)</u>

Assumptions

The weighted-average assumptions used in the measurement of the December 31, 2010 and 2009, benefit obligation for the SERPs were as follows:

	2010	2009
Discount rate at end of period	5.50%	6.00%
Rate of compensation increase	3.00%	1.50%

In determining the discount rate assumption, the Company utilizes current market information provided by its plan actuaries (particularly the Citigroup Pension Discount Curve Liability Index), including a discounted cash flow analysis of the Company’s pension obligation and general movements in the current market environment. The discount rate modeling process involves selecting a portfolio of high quality, noncallable bonds that will match the cash flows of the Retirement Plan. Based upon all available information, it was determined that 5.5% was the appropriate discount rate as of December 31, 2010, to calculate the Company’s accrued benefit liability.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The weighted-average assumptions used in calculating the net pension cost were as follows:

	2010	2009	2008
Discount rate	6.00%	6.00%	6.50%
Rate of increase in compensation levels	3.00%	1.50%	4.20%

Since the benefit plans of the Company are unfunded, an assumption for return on plan assets is not required.

Net Periodic Benefit Costs

Net periodic benefit costs for the SERPs for the years ended December 31, 2010, 2009, and 2008, were as follows:

	2010	2009	2008
Interest cost	\$ 1.5	\$ 1.3	\$ 1.3
Net actuarial loss recognized in the year	0.8	0.4	0.4
Net periodic benefit cost	<u>\$ 2.3</u>	<u>\$ 1.7</u>	<u>\$ 1.7</u>

Cash Flows

In 2011, the employer is expected to contribute \$1.4 to the SERPs. Future expected benefit payments related to the SERPs for the years ended December 31, 2011 through 2015, and thereafter through 2020, are estimated to be \$1.4, \$1.4, \$1.4, \$1.4, \$1.5, and \$7.7, respectively.

Stock Option and Share Plans

Through 2010, ING sponsored the ING Group Long-Term Equity Ownership Plan (“leo”), which provides employees of the Company who are selected by the ING Executive Board with options and/or performance shares. The terms applicable to an award under leo are set out in an award agreement which is signed by the participant when he or she accepts the award.

Options granted under leo are nonqualified options on ING shares in the form of American Depositary Receipts (“ADRs”). Leo options have a ten (10) year term and vest three years from the grant date. Options awarded under leo may vest earlier in the event of the participant’s death, permanent disability or retirement. Retirement for purposes of leo means a participant terminates service after attaining age 55 and completing 5 years of service. Early vesting in all or a portion of a grant of options may also occur in the event the participant is terminated due to redundancy or business divestiture. Unvested options are generally subject to forfeiture when a participant voluntarily terminates employment or is terminated for cause (as defined in leo). Upon vesting, participants generally have up to seven years in which to exercise their vested options. A shorter

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

exercise period applies in the event of termination due to redundancy, business divestiture, voluntary termination or termination for cause. An option gives the recipient the right to purchase an ING share in the form of ADRs at a price equal to the fair market value of one ING share on the date of grant. On exercise, participant's have three options (i) retain the shares and remit a check for applicable taxes due on exercise, (ii) request the administrator to remit a cash payment for the value of the options being exercised, less applicable taxes, or (iii) retain some of the shares and have the administrator liquidate sufficient shares to satisfy the participant's tax obligation. The amount is converted from Euros to U.S. dollars based on the daily average exchange rate between the Euro and the U.S. dollar, as determined by ING.

Awards of performance shares may also be made under leo. Performance shares are a contingent grant of ING stock and on vesting, the participant has the right to receive a cash amount equal to the closing price per ING share on the Euronext Amsterdam Stock Market on the vesting date times the number of vested Plan shares. Performance shares generally vest three years from the date of grant, with the amount payable based on ING's share price on the vesting date. Payments made to participants on vesting are based on the performance targets established in connection with leo and payments can range from 0% to 200% of target. Performance is based on ING's total shareholder return relative to a peer group as determined at the end of the vesting period. To vest, a participant must be actively employed on the vesting date, although immediate vesting will occur in the event of the participant's death, disability or retirement. If a participant is terminated due to redundancy or business divestiture, vesting will occur but in only a portion of the award. Unvested shares are generally subject to forfeiture when an employee voluntarily terminates employment or is terminated for cause (as defined in leo). Upon vesting, participants have three options (i) retain the shares and remit a check for applicable taxes due on exercise, (ii) request the administrator to remit a cash payment for the value of the shares, less applicable taxes, or (iii) retain some of the shares and have the administrator liquidate sufficient shares to satisfy the participant's tax obligation. The amount is converted from Euros to U.S. dollars based on the daily average exchange rate between the Euro and the U.S. dollar, as determined by ING.

The Company was allocated from ING compensation expense for the leo options and performance shares of \$2.6, \$4.5, and \$5.3, for the years ended December 31, 2010, 2009, and 2008, respectively.

For leo, the Company recognized minimal tax benefits in 2010 and 2009, and \$0.7 in 2008.

Commencing in 2011, ING introduced a new long-term equity and deferred bonus plan, the Long-Term Sustainable Performance Plan ("LSPP"). The terms applicable to an award under the LSPP will be set out in a grant agreement which is signed by the participant when he or she accepts the award. The LSPP will provide employees of the Company who are selected by the ING Executive Board with performance shares and

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

will also require deferral of discretionary incentive bonus awards in excess of EUR 100,000. The performance shares awarded under the LSPP will be a contingent grant of ING ADR units and on settlement, the participant will have the right to either receive ING ADR units in kind or a cash amount equal to the closing price per ING share on the Euronext Amsterdam Stock Market on the settlement date times the number of vested ADR units, subject to achievement during the vesting period of performance targets based on return of equity and employee engagement. The excess bonus amount will be held in deferred ING ADR units or in a deferred cash account, or some combination thereof, depending on the total amount of the incentive bonus award, generally subject to vesting in three equal tranches over the three year period commencing on the date of incentive bonus payment. Unlike the leo plan, no options on ING shares in the form of ADRs will be granted under the LSPP. To vest in performance shares, deferred shares or deferred cash, an employee must generally be actively employed on the settlement date, although immediate full and partial vesting in the event of normal age or early retirement, death or disability, or termination due to redundancy or business divestiture will occur, similar to the vesting treatment in the leo plan.

Other Benefit Plans

In addition to providing retirement plan benefits, the Company, in conjunction with ING North America, provides certain supplemental retirement benefits to eligible employees and health care and life insurance benefits to retired employees and other eligible dependents. The supplemental retirement plan includes a non-qualified defined benefit pension plan and a non-qualified defined contribution plan, which means all benefits are payable from the general assets of the Company. The post-retirement health care plan is contributory, with retiree contribution levels adjusted annually and the Company subsidizes a portion of the monthly per-participant premium. Beginning August 1, 2009, the Company moved from self-insuring its supplemental health care costs and began to use a private-fee-for-service Medicare Advantage program for post-Medicare eligible retired participants. In addition, effective October 1, 2009, the Company no longer subsidizes medical premium costs for early retirees. This change does not impact any participant currently retired and receiving coverage under the plan or any employee who is eligible for coverage under the plan and whose employment ended before October 1, 2009. The Company continues to offer access to medical coverage until retirees become eligible for Medicare. The life insurance plan provides a flat amount of noncontributory coverage and optional contributory coverage. The ING Americas Deferred Compensation Savings Plan is a deferred compensation plan that includes a 401(k) excess component. The benefits charges allocated to the Company related to all of these plans for the years ended December 31, 2010, 2009, and 2008, were \$2.1, \$5.8, and \$8.2, respectively.

(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

10. Related Party Transactions

Operating Agreements

The Company has certain agreements whereby it generates revenues and incurs expenses with affiliated entities. The agreements are as follows:

- Underwriting and distribution agreement with Directed Services LLC (“DSL”) (successor by merger to Directed Services, Inc.), an affiliated broker-dealer, whereby DSL serves as the principal underwriter for variable insurance products issued by the Company. DSL is authorized to enter into agreements with broker-dealers to distribute the Company’s variable products and appoint representatives of the broker-dealers as agents. For the years ended December 31, 2010, 2009, and 2008, commissions were incurred in the amounts of \$204.3, \$268.0, and \$603.8, respectively.
- Asset management agreement with ING Investment Management LLC (“IIM”), an affiliate, in which IIM provides asset management, administration, and accounting services for ING USA’s general account. The Company records a fee, which is paid quarterly, based on the value of the assets under management. For the years ended December 31, 2010, 2009, and 2008, expenses were incurred in the amounts of \$49.0, \$51.0, and \$85.9, respectively.
- Intercompany agreement with DSL pursuant to which DSL agreed, effective January 1, 2010, to pay the Company, on a monthly basis, a portion of the revenues DSL earns as investment adviser to certain U.S. registered investment companies that are investment options under certain of the Company’s variable insurance products. For the year ended December 31, 2010, revenue under the DSL intercompany agreement was \$146.9. Prior to January 1, 2010, the Company was a party to a service agreement with DSL pursuant to which the Company provided managerial and supervisory services to DSL and earned a fee. This service agreement was terminated as of January 1, 2010. For the years ended December 31, 2009 and 2008, revenue for these services was \$123.2 and \$139.2, respectively.
- Intercompany agreement with IIM pursuant to which IIM agreed, effective January 1, 2010, to pay the Company, on a monthly basis, a portion of the revenues IIM earns as investment adviser to certain U.S. registered investment companies that are investment options under certain of the Company’s variable insurance products. For the year ended December 31, 2010, revenue under the IIM intercompany agreement was \$32.0.
- Services agreements with ING North America, dated September 1, 2000 and January 1, 2001, respectively, for administrative, management, financial, information technology, and finance and treasury services. For the years ended December 31, 2010, 2009, and 2008, expenses were incurred in the amounts of \$91.6, \$77.1, and \$93.0, respectively. Effective October 1, 2010, the services agreement with ING North America dated January 1, 2001, was amended in order for the Company to provide ING North America with use of the corporate office

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

facility at 5780 Powers Ferry Road, N.W., Atlanta, GA (the “Atlanta Office”) in exchange for ING North America’s payment of the Company’s direct and indirect costs for the Atlanta Office.

- Services agreement between the Company and its U.S. insurance company affiliates dated January 1, 2001, amended effective January 1, 2002 and December 31, 2007, for administrative, management, professional, advisory, consulting, and other services. For the years ended December 31, 2010, 2009, and 2008, expenses related to the agreements were incurred in the amount of \$31.0, \$26.3, and \$21.6, respectively.
- Administrative Services Agreement between the Company, ReliaStar Life Insurance Company of New York (“RLNY”), an affiliate, and other U.S. insurance company affiliates dated March 1, 2003, amended effective August 1, 2004, in which the Company and affiliates provide services to RLNY. For the years ended December 31, 2010, 2009, and 2008, revenue related to the agreement was \$2.1, \$3.1, and \$6.5, respectively.
- ING Advisors Network, a group of broker-dealers formerly affiliated with the Company, distributes the Company’s annuity products. For the years ended December 31, 2010, 2009, and 2008, ING Advisors Network sold new contracts of \$117.5, \$442.2, and \$1,411.3, respectively. Certain of these affiliated broker-dealers were sold to Lightyear Capital LLC effective February 1, 2010.
- Services agreement between the Company, Security Life of Denver Insurance Company (“SLD”), an affiliate, and IIM whereby IIM provides administrative, management, professional, advisory, consulting and other services to the Company and SLD with respect to its Financial Products unit. For the years ended December 31, 2010, 2009, and 2008, the Company incurred expenses of \$4.8, \$7.6, and \$8.9, respectively.

Management and service contracts and all cost sharing arrangements with other affiliated companies are allocated in accordance with the Company’s expense and cost allocation methods. Revenues and expenses recorded as a result of transactions and agreements with affiliates may not be the same as those incurred if the Company was not a wholly-owned subsidiary of its Parent.

Reinsurance Agreements

Reinsurance Ceded

Waiver of Premium – Coinsurance Funds Withheld

Effective October 1, 2010, the Company entered into a coinsurance funds withheld agreement with its affiliate, Security Life of Denver International Limited (“SLDI”). Under the terms of the agreement, the Company ceded to SLDI 100% of the group life waiver of premium liability (except for groups covered under rate credit agreements) assumed from ReliaStar Life Insurance Company (“RLI”), an affiliate, related to the

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Group Annual Term Coinsurance Funds Withheld agreement between the Company and RLI described under “Reinsurance Assumed” below.

Upon inception of the agreement, the Company paid SLDI a premium of \$245.6. At the same time, the Company established a funds withheld liability for \$188.5 to SLDI and SLDI purchased a \$65.0 letter of credit to support the ceded Statutory reserves of \$245.6. In addition, the Company recognized a gain of \$17.9 based on the difference between the premium paid and the ceded US GAAP reserves of \$227.7, which offsets the \$57.1 ceding allowance paid by SLDI. The ceding allowance will be amortized over the life of the business.

As of December 31, 2010, the value of the funds withheld liability under this agreement was \$191.3, which is included in Other liabilities on the Balance Sheets.

Group Term Life – Monthly Renewable Term

Effective June 30, 2009, the Company entered into a monthly renewable term (“MRT”) reinsurance agreement with Canada Life Assurance Company (“Canada Life”), an unaffiliated Canadian insurance company. Under the terms of the agreement, the Company ceded 90% of its net retained in-force block of group term life business and any new group term life business assumed from RLI, an affiliate, to Canada Life. The coinsurance agreement is accounted for using the deposit method. Effective October 1, 2010, the treaty was amended to discontinue ceding the group life waiver of premium business.

Guaranteed Living Benefit – Coinsurance and Coinsurance Funds Withheld

Effective June 30, 2008, the Company entered into an automatic reinsurance agreement with its affiliate, SLDI, covering 100% of the benefits guaranteed under specific variable annuity guaranteed living benefit riders attached to certain variable annuity contracts issued by the Company on or after January 1, 2000.

Also effective June 30, 2008, the Company entered into a services agreement with SLDI, under which the Company provides certain actuarial risk modeling consulting services to SLDI with respect to hedge positions undertaken by SLDI in connection with the reinsurance agreement. For the years ended December 31, 2010 and 2009, revenue related to the agreement was \$11.9 and \$10.5, respectively.

Effective July 1, 2009, the reinsurance agreement was amended to change the reinsurance basis from coinsurance to a combined coinsurance and coinsurance funds withheld basis. On July 31, 2009, SLDI transferred assets with a market value of \$3.2 billion to the Company, and the Company deposited those assets into a funds withheld trust account. As of December 31, 2010, assets totaling \$3.3 billion remain on deposit in the trust

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

account. The Company also established a corresponding funds withheld liability to SLDI, which is included in Other liabilities on the Balance Sheets.

Also effective July 1, 2009, the Company and SLDI entered into an asset management services agreement, under which SLDI serves as asset manager for the funds withheld account. SLDI has retained its affiliate, ING Investment Management LLC, as subadviser for the funds withheld account.

At December 31, 2010 and 2009, the value of reserves ceded by the Company under this agreement was \$955.4 and \$878.6, respectively. In addition, a cost of reinsurance in the amount of \$355.9 and \$372.8 at December 31, 2010 and 2009, respectively, is included in Other assets on the Balance Sheets and is amortized over the reinsurance period.

Multi-year Guaranteed Fixed Annuity – Coinsurance

Effective May 1, 2005, the Company entered into a coinsurance agreement with its affiliate, Security Life of Denver Insurance Company (“SLD”). Under the terms of the agreement, SLD assumed and accepted the responsibility for paying, when due, 100% of the liabilities arising under the multi-year guaranteed fixed annuity contracts issued by the Company between January 1, 2001 and December 31, 2003. In addition, the Company assigned to SLD all future premiums received by the Company attributable to the ceded contracts.

Under the terms of the agreement, the Company ceded \$2.5 billion in account balances and transferred a ceding commission and \$2.7 billion in assets to SLD.

The coinsurance agreement is accounted for using the deposit method. As such, \$2.7 billion of Deposit receivable from affiliate was established on the Balance Sheets. The receivable will be adjusted over the life of the agreement based on cash settlements and the experience of the contracts, as well as for amortization of the ceding commission. The Company incurred amortization expense of the negative ceding commission of \$21.4, \$17.9, and \$19.9 for the years ended December 31, 2010, 2009, and 2008, respectively, which is recorded in Other expenses in the Statements of Operations.

Universal Life – Coinsurance

Effective January 1, 2000, the Company entered into a 100% coinsurance agreement with its affiliate, SLD, covering certain universal life policies which had been issued and in force as of, as well as any such policies issued after, the effective date of the agreement. As of December 31, 2010 and 2009, the value of reserves ceded by the Company under this agreement was \$18.1 and \$17.8, respectively.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Guaranteed Investment Contract - Coinsurance

Effective August 20, 1999, the Company entered into a Facultative Coinsurance Agreement with its affiliate, SLD. Under the terms of the agreement, the Company facultatively cedes to SLD, from time to time, certain GICs on a 100% coinsurance basis. The Company utilizes this reinsurance facility primarily for diversification and asset-liability management purposes in connection with this business, which is facilitated by the fact that SLD is also a major GIC issuer. Senior management of the Company has established a current maximum of \$4.0 billion for GIC reserves ceded under this agreement.

The value of GIC reserves ceded by the Company under this agreement was \$40.0 and \$47.5 at December 31, 2010 and 2009, respectively.

Reinsurance Assumed

Level Premium Term Life Insurance - Stop-loss

Effective October 1, 2010, the Company entered into a stop-loss agreement with its affiliate, RLI under which the Company agreed to indemnify and reinsure RLI for the aggregate mortality risk under certain level premium term life insurance policies issued by RLI between January 1, 2009 and December 31, 2009 and certain level premium term life insurance policies assumed by RLI from ReliaStar Life Insurance Company of New York under an Automatic Coinsurance Agreement effective March 1, 2008. Under the terms of the agreement, the Company will make benefit payments to RLI equal to the amount of claims in excess of the attachment point (equal to a percentage of net reinsurance premium) up to the maximum fully covered benefit.

There was no initial consideration received by the Company from RLI under this agreement. The Company receives monthly premiums, net of benefit payments, based on premium rates set forth in the respective agreements. As such, there is no unearned reinsurance premium.

The stop-loss agreement is accounted for using the deposit method. A fee receivable from affiliate of \$0.5 is included in Future policy benefits and claims reserves on the Balance Sheets. The fee is accrued for and subsequently settled in cash each quarterly accounting period.

Individual Life – Yearly Renewable Term

Effective December 1, 2008 and December 31, 2008, respectively, the Company entered into two yearly renewable term reinsurance agreements with its affiliate, RLI, for an indefinite duration. Under the terms of the agreements, the Company assumed 100% of

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

RLI's mortality risk associated with the net amount at risk under specific life insurance policies, including:

- Individual life policies issued by RLI and previously assumed by RLI from ReliaStar Life Insurance Company of New York ("RLNY"), with policy dates prior to January 1, 2000, including certain term life, universal life, variable universal life, and whole life, insurance policies.
- In force individual life policies issued by RLI, where premiums are paid on the insured's behalf through payroll deduction and which were marketed by employee benefit brokers.

the Company received initial consideration of \$3.9 from RLI. Thereafter, the Company receives monthly premiums, net of benefit payments, based on premium rates set forth in the respective agreements. As such, there is no unearned reinsurance premium.

As of December 31, 2010 and 2009, the value of the reserves assumed by the Company under these agreements was \$9.6 and \$9.2, respectively.

Group Annual Term – Coinsurance Funds Withheld

Effective December 31, 2008, the Company entered into a coinsurance funds withheld agreement with RLI for an indefinite duration. Under the terms of the agreement, the Company assumed 100% quota share of RLI's net retained liability under certain Employee Benefits Group Annual Term policies, including disability waiver of premium.

The initial premium of \$219.9 was equal to the aggregate reserve assumed by the Company. Thereafter, premiums are equal to the total earned gross premiums collected by RLI from policyholders. RLI will retain all reinsurance premiums payable to the Company as funds withheld, as security for ceded liabilities and against which ceded losses will be offset. Monthly, the Company will receive or pay a net settlement. This agreement was amended October 1, 2010 to better reflect the current investment environment and to modify the treatment of claims under certain policies under which claims are not paid in the form of a single lump sum; the underlying terms described above remained unchanged. (Please see also description of Waiver of Premium - Coinsurance Funds Withheld Agreement between the Company and SLDI under "Reinsurance Ceded" above).

As of December 31, 2010 and 2009, the value of the reserves assumed by the Company under this agreement was \$465.5 and \$467.2, respectively. In addition, as of December 31, 2010, the Company had an embedded derivative with a value of \$8.5, which is recorded in Other liabilities on the Balance Sheets

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Group Life – Funds Withheld

Effective December 31, 2008, the Company entered into a funds withheld agreement with RLI pursuant to which the Company assumed 100% quota share of RLI's net retained liability under assumed group life reinsurance in-force. Effective January 1, 2010 and as a result of the sale of ING's U.S. Group Reinsurance business to Reinsurance Group of America, this agreement was terminated.

The initial premium of \$60.0 for this agreement was equal to the net Statutory reserve assumed by the Company. Thereafter, premiums were equal to the total earned reinsurance premiums collected by RLI, less a ceding commission. RLI retained all reinsurance premiums payable to the Company as funds withheld, as security for ceded liabilities and against which ceded losses were offset. Net settlements were made on a monthly basis. In addition, the Company provided reserve credit (in the excess of the funds withheld balance) to RLI through either a cash deposit or letter of credit. As of December 31, 2010 and 2009, the value of the reserves assumed by the Company under this agreement was \$0 and \$58.2, respectively.

Reciprocal Loan Agreement

The Company maintains a reciprocal loan agreement with ING AIH, an affiliate, to facilitate the handling of unanticipated short-term cash requirements that arise in the ordinary course of business. Under this agreement, which became effective in January 2004 and expires on January 14, 2014, either party can borrow from the other up to 3.0% of the Company's statutory net admitted assets, excluding Separate Accounts, as of the preceding December 31. Interest on any ING USA borrowing is charged at the rate of ING AIH's cost of funds for the interest period, plus 0.15%. Interest on any ING AIH borrowing is charged at a rate based on the prevailing interest rate of U.S. commercial paper available for purchase with a similar duration.

Under this agreement, the Company incurred interest expense of \$0.0, \$0.4, and \$1.3, for the years ended December 31, 2010, 2009, and 2008, respectively. The Company earned interest income of \$1.2, \$1.7, and \$2.8, for the years ended December 31, 2010, 2009, and 2008, respectively. Interest expense and income are included in Interest expense and Net investment income, respectively, on the Statements of Operations. At December 31, 2010 and 2009, the Company had an outstanding receivable of \$593.6 and \$545.5, respectively, with ING AIH under the reciprocal loan agreement.

Total Return Swap

During December 2010, the Company entered into a series of interest rate swaps with external counterparties. The Company also entered into a short-term mirror total return swap ("TRS") transaction with ING Verzekeringen N.V. ("ING V"), its indirect parent

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

company. The outstanding market value of the TRS was \$11.6 at December 31, 2010. The TRS matured January 3, 2011.

Notes with Affiliates

The Company issued a 30-year surplus note in the principal amount of \$35.0 on December 8, 1999, to its affiliate, SLD, which matures on December 7, 2029. Interest is charged at an annual rate of 7.98%. Payment of the note and related accrued interest is subordinate to payments due to contract owners and claimant and beneficiary claims, as well as debts owed to all other classes of debtors, other than surplus note holders. Any payment of principal and/or interest made is subject to the prior approval of the Iowa Insurance Commissioner. Interest expense was \$2.8 for each of the years ended December 31, 2010, 2009, and 2008, respectively.

On December 29, 2004, the Company issued surplus notes in the aggregate principal amount of \$400.0 (the "Notes"), scheduled to mature on December 29, 2034, to its affiliates, ING Life Insurance and Annuity Company, RLI, and SLDI, in an offering that was exempt from the registration requirements of the Securities Act of 1933. The Notes bear interest at a rate of 6.26% per year. Any payment of principal and/or interest is subject to the prior approval of the Iowa Insurance Commissioner. Interest is scheduled to be paid semi-annually in arrears on June 29 and December 29 of each year, commencing on June 29, 2005. Interest expense was \$25.4 for each of the years ended December 31, 2010, 2009, and 2008, respectively.

Funding Agreement

On August 10, 2007, the Company issued an extendable funding agreement to its parent, Lion, upon receipt of a single deposit in the amount of \$500.0. To fund the purchase of the funding agreement, Lion issued a promissory note to its indirect parent company, ING Verzekeringen N.V. ("ING V"), which has been guaranteed by Lion's immediate parent, ING AIH.

Under the terms of the funding agreement, the Company will pay Lion interest quarterly at the credited interest rate until maturity, and on the maturity date, the Company will pay Lion the single deposit and any accrued and unpaid interest. The credited interest rate shall be the three-month LIBOR, plus 0.05%, and shall be reset quarterly. The maturity date of the funding agreement shall be August 10, 2011, or such later date to which the maturity date may be extended; provided, however, that the maturity date may not be extended beyond August 10, 2012.

Proprietary Alpha Fund

The ING Proprietary Alpha Fund, LLC (“PAF”) is a multi-strategy investment fund established in 2007 as a U.S. domiciled limited liability company managed by ING Alternative Asset Management LLC (“IAAM”), an affiliate. The investment strategies within PAF include both long and short exposures to various investments and utilize various fixed income, equity, and derivative financial instruments. In September 2007, ING USA invested \$125.0 into PAF. The value of the Company’s investment in PAF was \$13.4 and \$13.7 at December 31, 2010 and 2009, respectively.

Derivatives

As of December 31, 2010 and 2009, the Company had options with a notional amount of \$382.6 and \$260.0, respectively, and market value of \$14.0 and \$12.1, respectively, with ING Bank, an affiliate. Each of these contracts was entered into as a result of a competitive bid, which included unaffiliated counterparties.

11. Financing Agreements

The Company maintains a \$50.0 uncommitted, perpetual revolving note facility with the Bank of New York (“BONY”). Interest on any of the Company borrowing accrues at an annual rate equal to a rate quoted by BONY to the Company for the borrowing. Under this agreement, the Company did not incur any interest expense for the years ended December 31, 2010, 2009, and 2008. At December 31, 2010 and 2009, the Company had no amounts outstanding under the revolving note facility.

Also see Financing Agreements in the Related Party Transactions footnote.

12. Reinsurance

At December 31, 2010, the Company had reinsurance treaties with 15 unaffiliated reinsurers covering a portion of the mortality risks and guaranteed death and living benefits under its annuity contracts. The Company, as cedant, also has reinsurance treaties with two affiliates, SLD and SLDI, related to GICs, fixed annuities, variable annuities, and universal life insurance policies. In addition, the Company assumed reinsurance risk under reinsurance treaties with its affiliate, RLI, related to certain life insurance policies and employee benefit group annual term policies. The Company remains liable to the extent its reinsurers do not meet their obligations under the reinsurance agreements.

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Reinsurance ceded in force for life mortality risks was \$170.4 billion and \$186.4 billion at December 31, 2010 and 2009, respectively.

	2010	2009
Claims recoverable from reinsurers	\$ 14.4	\$ 9.3
Amounts due to reinsurers	(26.2)	(26.1)
Reinsurance reserves ceded	1,368.7	1,068.9
Deposits	1,600.4	1,752.0
Reinsurance receivable	508.6	532.2
Other	15.5	13.7
Total	<u>\$ 3,481.4</u>	<u>\$ 3,350.0</u>

Premiums and Interest credited and other benefits to contract owners were reduced by the following amounts for reinsurance ceded for the years ended December 31, 2010, 2009, and 2008.

	2010	2009	2008
Deposits ceded (assumed) under reinsurance	\$ 829.1	\$ (2,034.2)	\$ 1,632.0
Premiums ceded under reinsurance	260.0	94.4	2.1
Reinsurance recoveries	7.0	9.1	1,212.6

Also see Reinsurance Agreements in the Related Party Transactions footnote.

13. Commitments and Contingent Liabilities

Leases

The Company leases its office space and certain equipment under operating leases, the longest term of which expires in 2017.

For the years ended December 31, 2010, 2009, and 2008, rent expense for leases was \$8.4, \$9.2, and \$9.8, respectively. The future net minimum payments under noncancelable leases for the years ended December 31, 2010 through 2014 are estimated to be \$5.8, \$6.7, \$7.3, \$7.4, and \$7.1, respectively, and \$8.4, thereafter. The Company pays substantially all expenses associated with its leased and subleased office properties. Expenses not paid directly by the Company are paid for by an affiliate and allocated back to the Company.

Commitments

Through the normal course of investment operations, the Company commits to either purchase or sell securities, commercial mortgage loans, or money market instruments, at a specified future date and at a specified price or yield. The inability of counterparties to

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

honor these commitments may result in either a higher or lower replacement cost. Also, there is likely to be a change in the value of the securities underlying the commitments.

As of December 31, 2010, the Company had off-balance sheet commitments to purchase investments equal to their fair value of \$529.2, of which \$153.0 was with related parties. At December 31, 2009, the Company had off-balance sheet commitments to purchase investments equal to their fair value of \$354.6, of which \$193.0 was with related parties. During 2010 and 2009, \$41.0 and \$19.5, respectively, was funded to related parties under these commitments.

Collateral

Under the terms of the Company's Over-The-Counter Derivative ISDA Agreements ("ISDA Agreements"), the Company may receive from, or deliver to, counterparties, collateral to assure that all terms of the ISDA Agreements will be met with regard to the CSA. The terms of the CSA call for the Company to pay interest on any cash received equal to the Federal Funds rate. As of December 31, 2010 and 2009, the Company held \$57.9 and \$32.1, respectively, of cash collateral, related to derivative contracts, which was included in Payables under securities loan agreement, including collateral held, on the Balance Sheets. In addition, as of December 31, 2010 and 2009, the Company delivered collateral of \$749.7 and \$574.6, respectively, in fixed maturities pledged under derivatives contracts, which was included in Securities pledged on the Balance Sheets.

Litigation

The Company is involved in threatened or pending lawsuits/arbitrations arising from the normal conduct of business. Due to the climate in insurance and business litigation/arbitrations, suits against the Company sometimes include claims for substantial compensatory, consequential, or punitive damages, and other types of relief. Moreover, certain claims are asserted as class actions, purporting to represent a group of similarly situated individuals. While it is not possible to forecast the outcome of such lawsuits/arbitrations, in light of existing insurance, reinsurance, and established reserves, it is the opinion of management that the disposition of such lawsuits/arbitrations will not have a materially adverse effect on the Company's operations or financial position.

Regulatory Matters

As with many financial services companies, the Company and its affiliates periodically receive informal and formal requests for information from various state and federal governmental agencies and self-regulatory organizations in connection with inquiries and investigations of the products and practices of the Company or the financial services industry. Some of these investigations and inquiries could result in regulatory action against the Company. The potential outcome of such action is difficult to predict but could subject the Company or its affiliates to adverse consequences, including, but not

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

limited to, settlement payments, penalties, fines, and other financial liability. It is not currently anticipated that the outcome of any such action will have a material adverse effect on ING or ING’s U.S.-based operations, including the Company. It is the practice of the Company and its affiliates to cooperate fully in these matters.

14. Accumulated Other Comprehensive Income (Loss)

Shareholder’s equity included the following components of Accumulated other comprehensive loss as of December 31, 2010, 2009, and 2008.

	2010	2009	2008
Net unrealized capital (losses) gains:			
Fixed maturities	681.2	\$ (554.7)	\$ (3,234.0)
Derivatives	0.3	-	-
Equity securities, available-for-sale	8.1	3.5	(3.7)
DAC/VOBA adjustment on available-for-sale securities	(458.3)	(64.3)	1,139.7
Sales inducements adjustment on available-for-sale securities	(80.5)	(0.1)	102.2
Other investments	(35.7)	(25.0)	(6.2)
Unrealized capital losses, before tax	115.1	(640.6)	(2,002.0)
Deferred income tax asset	19.8	111.3	670.9
Net unrealized capital (losses) gains	134.9	(529.3)	(1,331.1)
Pension liability, net of tax	(2.6)	(3.2)	(2.6)
Accumulated other comprehensive loss	\$ 132.3	\$ (532.5)	\$ (1,333.7)

Changes in Accumulated other comprehensive income (loss), net of DAC, VOBA, and tax (excluding the tax valuation allowance), related to changes in unrealized capital gains (losses) on securities, including securities pledged, were as follows for the years ended December 31, 2010, 2009, and 2008.

	2010	2009	2008
Fixed maturities	\$ 1,236.2	\$ 2,679.3	\$ (3,111.7)
Equity securities, available-for-sale	4.6	7.2	1.8
DAC/VOBA adjustment on available-for-sale securities	(394.0)	(1,204.0)	1,176.6
Sales inducements adjustment on available-for-sale securities	(80.4)	(102.3)	101.7
Other investments	(10.7)	0.9	0.2
Unrealized capital gains (losses), before tax	755.7	1,381.1	(1,831.4)

ING USA Annuity and Life Insurance Company
(A wholly-owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Changes in unrealized capital gains on securities, including securities pledged and noncredit impairments, as recognized in Accumulated other comprehensive income (loss), reported net of DAC, VOBA, and income taxes, were as follows for the years ended December 31, 2010, 2009, and 2008.

	2010	2009	2008
Net unrealized capital holding (losses) gains arising during the year ⁽¹⁾	\$ 500.6	\$ 717.7	\$ (1,877.2)
Less: reclassification adjustment for (losses) gains and other items included in Net (loss) income ⁽²⁾	9.4	(180.0)	(686.8)
Net change in unrealized capital (losses) gains on securities	<u>\$ 491.2</u>	<u>\$ 897.7</u>	<u>\$ (1,190.4)</u>

⁽¹⁾ Pretax unrealized capital holding gains (losses) arising during the year were \$770.2, \$1,104.1, and \$(2,888.0), for the years ended December 31, 2010, 2009, and 2008, respectively.

⁽²⁾ Pretax reclassification adjustments for gains (losses) and other items included in Net (loss) income were \$14.5, \$(277.0), and \$(1,056.6), for the years ended December 31, 2010, 2009, and 2008, respectively.

The reclassification adjustments for gains (losses) and other items included in Net income (loss) in the above table are determined by specific identification of each security sold during the period.
