

**Supplement Dated May 1, 2013
To The Prospectus Dated May 1, 2013**

ING SmartDesign Variable Annuity

**Issued by ING USA Annuity and Life Insurance Company
Through Its Separate Account B**

This supplement updates the prospectus for your variable annuity contract. Please read it carefully and keep it with your copy of the prospectus for future reference. If you have any questions, please call our Customer Service Center at 1-800-366-0066. The following information only affects you if you currently invest in the subaccount that corresponds to the Fidelity® VIP Contrafund® Portfolio.

NOTICE OF AND IMPORTANT INFORMATION REGARDING A FUND SUBSTITUTION

The Securities and Exchange Commission issued an order to permit the ING USA Annuity and Life Insurance Company and its Separate Account B to replace, effective on or about **July 12, 2013** (the “Substitution Effective Date”), the **Fidelity® VIP Contrafund® Portfolio** (“Replaced Fund”) with the **ING Large Cap Growth Portfolio** (“Substitute Fund”).

The following lists important information regarding the upcoming fund substitution:

- Prior to the Substitution Effective Date, and for thirty days thereafter you may transfer amounts allocated to the subaccount that invests in the Replaced Fund to any other available subaccount or any available fixed account free of charge, and any such transfer will not count as a transfer when imposing any applicable restrictions or limits on transfers (other than restrictions related to frequent or disruptive transfers).
- On the Substitution Effective Date, your investment in the subaccount that invests in the Replaced Fund will automatically become an investment in the subaccount that invests in the Substitute Fund with an equal total net asset value.
- You will not incur any fees or charges or any tax liability because of the substitution, and your Contract value immediately before the substitution will equal your Contract value immediately after the substitution.
- The overall expenses of the Substitute Fund are less than the overall expenses of the Replaced Fund. The fees and expenses of the Substitute Fund are more fully described in the Substitute Fund’s summary prospectus.
- The investment objective and policies of the Substitute Fund are similar to the investment objective and policies of the Replaced Fund. The investment objective of the Substitute Fund, along with information about the Substitute Fund's investment adviser/subadviser, are more fully described in the Substitute Fund’s summary prospectus.
- Prior to the Substitution Effective Date you will be sent a fund summary prospectus for the Substitute Fund. Read this summary prospectus carefully before deciding what to do with amounts allocated to the Subaccount that invests in the Substitute Fund. If you have not received one, or if you need another copy, please contact our Customer Service Center at 1-800-366-0066.
- After the Substitution Effective Date, the subaccount investing in the Replaced Fund will no longer be available through the Contract and there will be no further disclosure regarding it in any future Contract prospectus or supplements to the Contract prospectus.

ING USA Annuity and Life Insurance Company
Separate Account B of ING USA Annuity and Life Insurance Company

Deferred Combination Variable and Fixed Annuity Prospectus

ING SMARTDESIGN VARIABLE ANNUITY

May 1, 2013

The Contract. The contract described in this prospectus is a group or individual deferred variable annuity contract issued by ING USA Annuity and Life Insurance Company (“ING USA,” the “Company,” “we,” “us,” “our”). It is issued to you, the contract holder, as either a nonqualified deferred annuity, including contracts offered to a custodian for an Individual Retirement Account as described in Section 408(a) of the Internal Revenue Code of 1986, as amended (Tax Code); a qualified individual retirement annuity (IRA); a qualified Roth IRA; or as a qualified contract for use with certain employer sponsored retirement plans. We no longer offer this contract for sale to new purchasers. The contract is not available as a SIMPLE IRA under Tax Code Section 408(p).

Why Reading this Prospectus Is Important. This prospectus contains facts about the contract and its investment options that you should know before purchasing. This information will help you decide if the contract is right for you. Please read this prospectus carefully.

Premium Bonus Option. We will credit a premium bonus to your account for each purchase payment you make during the first account year if you elect the premium bonus option. There is an additional charge for this option during the first seven account years. Therefore, the fees you will pay if you elect the premium bonus option will be greater than the fees you will pay if you do not elect the premium bonus option. The premium bonus option may not be right for you if you expect to make additional purchase payments after the first account year or if you anticipate that you will need to make withdrawals during the first seven account years. In these circumstances the amount of the premium bonus option charge may be more than the amount of the premium bonus we credit to your account. See “Premium Bonus Option — Suitability.” The premium bonus option may not be available in all states.

Investment Options. The contract offers variable investment options and a fixed interest option. When we establish your account you instruct us to direct account dollars to any of the available options.

Variable Investment Options. These options are called subaccounts. The subaccounts are within Separate Account B (the separate account), a separate account of the Company. Each subaccount invests in one of the mutual funds listed on this page. Earnings on amounts invested in a subaccount will vary depending upon the performance of its underlying fund. You do not invest directly in or hold shares of the funds.

The Funds. Information about the funds in which the subaccounts invest is located in Appendix III — Description of Underlying Funds and in each fund prospectus. A prospectus containing more information on each Underlying Fund may be obtained by calling our Customer Service Center at 800-366-0066. **Read this prospectus in conjunction with the fund prospectuses, and retain the prospectuses for future reference.**

Getting Additional Information. You may obtain free of charge the May 1, 2013, Statement of Additional Information (“SAI”) about the separate account by indicating your request on your application or calling us at 1-800-366-0066. You may also obtain free of charge the most recent annual and/or quarterly report of ING USA Annuity and Life Insurance Company by calling us at 1-800-366-0066. You may also obtain an SAI for any of the funds by calling that number. The Securities and Exchange Commission (“SEC”) also makes available to the public reports and information about the separate account and the funds. Certain reports and information, including this prospectus and SAI, are available on the EDGAR Database on the SEC web site, www.sec.gov, or at the SEC Public Reference Room in Washington, D.C. When looking for information regarding the contracts offered through this prospectus, you may find it useful to use the number assigned to the registration statement under the Securities Act of 1933. This number is 333-57218. You may call 1-202-551-8090 or 1-800-SEC-0330 to get information about the operations of the Public Reference Room. You may obtain copies of reports and other information about the separate account and the funds, after paying a duplicating fee, by sending an e-mail request to publicinfo@sec.gov or by writing to the SEC Public Reference Room, Washington, D.C. 20549-0102. The SAI table of contents is listed in this prospectus. The SAI is incorporated into this prospectus by reference.

Additional Disclosure Information. Neither the SEC nor any state securities commission has approved or disapproved the securities offered through this prospectus or passed on the accuracy or adequacy of this prospectus. Any representation to the contrary is a criminal offense. We do not intend for this prospectus to be an offer to sell or a solicitation of an offer to buy these securities in any state that does not permit their sale. We have not authorized anyone to provide you with information that is different than that contained in this prospectus.

Fixed Interest Options.

- ING USA Guaranteed Account (the Guaranteed Account)
- Fixed Account

Except as specifically mentioned, this prospectus describes only the investment options offered through the separate account. However, we describe the fixed interest options in appendices to this prospectus. There is also a separate Guaranteed Account prospectus.

Availability of Options. Some funds or fixed interest options may be unavailable through your contract or in your state.

The contract is not a deposit with, obligation of or guaranteed or endorsed by any bank, nor is it insured by the FDIC. The contract is subject to investment risk, including the possible loss of the principal amount of your investment.

We pay compensation to broker/dealers whose registered representatives sell the Contract. See “Other Topics – Selling the Contract,” for further information about the amount of compensation we pay.

The investment portfolios are listed on the next page.

The investment portfolios currently open and available to new premiums and transfers under your Contract are:

CONTRACT OVERVIEW

The following is intended as a summary. Please read each section of this prospectus for additional detail.

Questions:

Contacting the Company. To answer your questions, contact your sales representative or write or call our Customer Service Center at:

P.O. Box 9271
Des Moines, IA 50306-9271
1-800-366-0066

Sending Forms and Written Requests in Good Order. If you are writing to change your beneficiary, request a withdrawal or for any other purpose, contact us or your sales representative to learn what information is required for the request to be in “good order.” We can only act upon requests that are received in good order.

Generally, a request is considered to be in “good order” when it is signed, dated and made with such clarity and completeness that we are not required to exercise any discretion in carrying it out.

Sending Additional Purchase Payments. Use the following address when sending additional purchase payments.

If using the U.S. Postal Service:
ING USA Annuity and Life
Insurance Company
Attn: Customer Service Department
P.O. Box 9271
Des Moines, IA 50306-9271

If using express mail:
ING USA Annuity and Life
Insurance Company
Attn: Customer Service Department
909 Locust Street
Des Moines, IA 50309-2899

Contract Design:

The contract described in this prospectus is a group or individual deferred variable annuity contract. It is intended to be a retirement savings vehicle that offers a variety of investment options to help meet long-term financial goals. The term “contract” in this prospectus refers to individual contracts and to certificates issued under group contracts.

Contract Facts:

Option Packages. There are three option packages available under the contract. You select an option package at the time of application. Each option package is distinct. See “Purchase and Rights” for age maximums on the calculation of death benefits. The differences are summarized as follows:

	Option Package I		Option Package II		Option Package III	
Mortality and Expense Risk Charge ¹ :	0.80%		1.10%		1.25%	
Death Benefit ² on Death of the Annuitant ³ :	The greater of: (1) The sum of all purchase payments, adjusted for amounts withdrawn or applied to an income phase payment option as of the claim date; or (2) The account value on the claim date.		The greatest of: (1) The sum of all purchase payments, adjusted for amounts withdrawn or applied to an income phase payment option as of the claim date; or (2) The account value on the claim date; or (3) The “step-up value” on the claim date.		The greatest of: (1) The sum of all purchase payments, adjusted for amounts withdrawn or applied to an income phase payment option as of the claim date; or (2) The account value on the claim date; or (3) The “step-up value” on the claim date; or (4) The “roll-up value” on the claim date.	
Minimum Initial Purchase Payment ⁴ :	Non-Qualified: \$15,000	Qualified: \$1,500	Non-Qualified: \$5,000	Qualified: \$1,500	Non-Qualified: \$5,000	Qualified: \$1,500
Free Withdrawals ⁵ :	10% of your account value each account year, non-cumulative.		10% of your account value each account year, non-cumulative.		10% of your account value each account year, cumulative to a maximum 30%.	
Nursing Home Waiver — Waiver of Early Withdrawal Charge:	Not Available		Available		Available	

¹ See “Fee Table” and “Fees.”

² See “Death Benefit.” If a death benefit is payable based on account value, step-up value or roll-up value, the death benefit will not include any premium bonus credited to the account after or within 12 months of the date of death. See “Premium Bonus Option—Forfeiture.”

³ When a contract holder who is not the annuitant dies, the amount of the death benefit is not the same as shown above under each option package. See “Death Benefit.” **Therefore, contract holders who are not also the annuitant should seriously consider whether Option Packages II and III are suitable for their circumstances.**

⁴ See “Purchase and Rights.”

⁵ See “Fees.”

Premium Bonus Option. At the time of application you may elect the premium bonus option. Once elected it may not be revoked. If you elect this option we will credit your account with a 4% premium bonus for each purchase payment you make during the first account year. The premium bonus will be included in your account value and allocated among the investment options you have selected in the same proportion as the purchase payment. See “Premium Bonus Option.”

In exchange for the premium bonus, during the first seven account years you will pay an annual premium bonus option charge equal to 0.50% of your account value allocated to the subaccounts. This charge will also be deducted from amounts allocated to the Guaranteed Account, resulting in a 0.50% reduction in the interest which would have been credited to your account during the first seven account years if you had not elected the premium bonus option. See “Fee Table” and “Fees.”

In each of the following circumstances all or part of a premium bonus credited to your account will be forfeited:

- If you exercise your free look privilege and cancel your contract. See “Premium Bonus Option—Forfeiture” and “Right to Cancel.”
- If a death benefit is payable based on account value, step-up value or roll-up value, but only the amount of any premium bonus credited to the account after or within 12 months of the date of death. See “Premium Bonus Option—Forfeiture” and “Death Benefit—Premium Bonus.”
- Unless prohibited by state law, if all or part of a purchase payment for which a premium bonus was credited is withdrawn during the first seven account years. See “Premium Bonus Option—Forfeiture” and “Withdrawals.”

If you expect to make purchase payments to your contract after the first account year, the premium bonus option may not be right for you. Also, if you anticipate that you will need to make withdrawals from your account during the first seven account years, you may not want to elect the premium bonus option. See “Premium Bonus Option—Suitability.” Your sales representative can help you decide if the premium bonus option is right for you.

Transferability. You may transfer from one option package to another.

- Transfers must occur on an account anniversary.
- A written request for the transfer must be received by us within 60 days of an account anniversary.
- Certain minimum account values must be met.

See “Transfers Between Option Packages.”

Free Look/Right to Cancel. You may cancel your contract within ten days (some states allow you more than ten days) of receipt. See “Right to Cancel.”

Death Benefit. Your beneficiary may receive a financial benefit in the event of your death prior to the income phase. The amount of the death benefit will depend upon the option package selected. See “Death Benefit.” Any death benefit during the income phase will depend upon the income phase payment option selected. See “The Income Phase.”

Withdrawals. During the accumulation phase you may withdraw all or part of your account value. Certain fees, taxes and early withdrawal penalties may apply. In addition, the Tax Code restricts full and partial withdrawals in some circumstances. See “Withdrawals.” Amounts withdrawn from the Guaranteed Account may be subject to a market value adjustment. See Appendix I.

Systematic Distribution Options. These are made available for you to receive periodic withdrawals from your account, while retaining the account in the accumulation phase. See “Systematic Distribution Options.”

Fees and Expenses. Certain fees and expenses are deducted from the value of your contract. The fees and expenses deducted may vary depending upon the option package you select. See “Fee Table” and “Fees.”

Taxation. You will generally not pay taxes on any earnings from the annuity contract described in this prospectus until they are withdrawn. Tax-qualified retirement arrangements (e.g., IRAs) also defer payment of taxes on earnings until they are withdrawn. If you are considering funding a tax-qualified retirement arrangement with an annuity contract, you should know that the annuity contract does not provide any additional tax deferral of earnings beyond the tax deferral provided by the tax-qualified retirement arrangement. However, annuities do provide other features and benefits which may be valuable to you. You should discuss your decision with your financial representative.

Taxes will generally be due when you receive a distribution. Tax penalties may apply in some circumstances. See “Federal Tax Considerations.”

Use of an Annuity Contract in an IRA or other Qualified Plan. Under the federal tax laws, earnings on amounts held in annuity contracts are generally not taxed until they are withdrawn. However, in the case of an Individual Retirement Account or other qualified retirement account, an annuity contract is not necessary to obtain this favorable tax treatment. However, annuities do provide other features and benefits (such as the guaranteed death benefit or the option of lifetime income phase options at established rates) which may be valuable to you. You should discuss your alternatives with your sales representative taking into account the additional fees and expenses you may incur in an annuity. See “Purchase and Rights.”

CONTRACT PHASES

I. The Accumulation Phase (accumulating dollars under your contract)

STEP 1: You provide us with your completed application and initial purchase payment. We establish an account for you and credit that account with your initial purchase payment. If you elected the premium bonus option we will also credit your account with a premium bonus.

STEP 2: You direct us to invest your purchase payment and the premium bonus, if applicable, in one or more of the following investment options:

- Fixed Interest Options; or
- Variable Investment Options. (The variable investment options are the subaccounts of Separate Account B. Each one invests in a specific mutual fund.)

STEP 3: Each subaccount you select purchases shares of its assigned fund.

II. The Income Phase (receiving income phase payments from your contract)

When you want to begin receiving payments from your contract you may select from the options available. The contract offers several income phase payment options (see “The Income Phase”). In general, you may:

- Receive income phase payments for a specified period of time or for life;
- Receive income phase payments monthly, quarterly, semi-annually or annually;
- Select an income phase payment option that provides for payments to your beneficiary; or
- Select income phase payments that are fixed or vary depending upon the performance of the variable investment options you select.

FEE TABLE

The following tables describe the fees and expenses that you will pay when buying, owning, and surrendering the contract. The first table describes the fees and expenses that you will pay at the time that you buy the contract, surrender the contract, or transfer contract value between investment options. State premium taxes may also be deducted. See “The Income Phase” for the different fees that may apply after you begin receiving payments under the contract.

Maximum Transaction Fees

Early Withdrawal Charge

(As a percentage of payments withdrawn.)

Years from Receipt of Purchase Payment	Early Withdrawal Charge
Less than 2	7%
2 or more but less than 4	6%
4 or more but less than 5	5%
5 or more but less than 6	4%
6 or more but less than 7	3%
7 or more	0%

Annual Maintenance Fee..... \$30.00¹

Transfer Charge..... \$10.00²

Overnight Charge..... \$20.00³

¹ The annual maintenance fee will be waived if your account value is \$50,000 or greater on the date this fee is due. See “Fees – Transaction Fees – Annual Maintenance Fee.”

² We currently do not impose this charge. We reserve the right, however, during the accumulation phase to charge \$10 for each transfer after the first 12 transfers in each account year. See “Fees – Transaction Fees – Transfers” for additional information.

³ You may choose to have this charge deducted from the net amount of a withdrawal you would like sent to you by overnight delivery service.

The next table describes the fees and expenses that you will pay periodically during the time that you own the contract, not including Trust or Fund fees and expenses.

If You Do Not Elect the Premium Bonus Option

	All Account Years
<u>Option Package I</u>	
Mortality and Expense Risk Charge	0.80%
Administrative Expense Charge	<u>0.15%</u>
Total Separate Account Expenses	0.95%
<u>Option Package II</u>	
Mortality and Expense Risk Charge	1.10%
Administrative Expense Charge	<u>0.15%</u>
Total Separate Account Expenses	1.25%
<u>Option Package III</u>	
Mortality and Expense Risk Charge	1.25%
Administrative Expense Charge	<u>0.15%</u>
Total Separate Account Expenses	1.40%

If You Elect the Premium Bonus Option

	Account Years 1–7	After the 7 th Account Year
<u>Option Package I</u>		
Mortality and Expense Risk Charge	0.80%	0.80%
Administrative Expense Charge	0.15%	0.15%
Premium Bonus Option Charge	<u>0.50%</u>	<u>0.00%</u>
Total Separate Account Expenses	1.45%	0.95%
<u>Option Package II</u>		
Mortality and Expense Risk Charge	1.10%	1.10%
Administrative Expense Charge	0.15%	0.15%
Premium Bonus Option Charge	<u>0.50%</u>	<u>0.00%</u>
Total Separate Account Expenses	1.75%	1.25%

Mortality and Expense Risk Charge	1.25%	1.25%
Administrative Expense Charge	0.15%	0.15%
Premium Bonus Option Charge	<u>0.50%</u>	<u>0.00%</u>
Total Separate Account Expenses	1.90%	1.40%

If You Elect the Premium Bonus Option and Invest in the GET Fund*

	Account Years 1–7	After the 7 th Account Year
<u>Option Package I</u>		
Mortality and Expense Risk Charge	0.80%	0.80%
Administrative Expense Charge	0.15%	0.15%
Premium Bonus Option Charge	0.50%	0.00%
GET Fund Guarantee Charge	0.50%	0.00%
Total Separate Account Expenses	1.95%	0.95%
<u>Option Package II</u>		
Mortality and Expense Risk Charge	1.10%	1.10%
Administrative Expense Charge	0.15%	0.15%
Premium Bonus Option Charge	0.50%	0.00%
GET Fund Guarantee Charge	0.50%	0.00%
Total Separate Account Expenses	2.25%	1.25%

Option Package III

Mortality and Expense Risk Charge	1.25%	1.25%
Administrative Expense Charge	0.15%	0.15%
Premium Bonus Option Charge	0.50%	0.00%
GET Fund Guarantee Charge	0.50%	0.00%
Total Separate Account Expenses	2.40%	1.40%

- * The GET Fund guarantee charge applies during each five-year guarantee period to amounts invested in the GET Fund investment option only. See “Investment Options — Variable Investment Options” for additional information. Effective June 21, 2007, no new series of the GET Fund are available.

Fees Deducted by the Funds:

The next item shows the minimum and maximum total operating expenses charged by a Trust or Fund that you may pay periodically during the time that you own the Contract. More detail concerning each Trust or Fund’s fees and expenses is contained in the prospectus for each Trust or Fund.

Total Annual Trust or Fund Operating Expenses	Minimum	Maximum
(expenses that are deducted from Trust or Fund assets, including management fees, distribution and/or service (12b-1) fees ¹ , and other expenses):	0.53%	1.85%

- ¹ The Company may receive compensation from each of the funds or the funds’ affiliates based on an annual percentage of the average net assets held in that fund by the Company. The percentage paid may vary from one fund company to another. For certain funds, some of this compensation may be paid out of 12b-1 fees or service fees that are deducted from fund assets. Any such fees deducted from fund assets are disclosed in the fund prospectuses. The Company may also receive additional compensation from certain funds for administrative, recordkeeping or other services provided by the Company to the funds or the funds’ affiliates. These additional payments are made by the funds or the funds’ affiliates to the Company and do not increase, directly or indirectly, the fees and expenses shown above. See “Fees – Fund Expenses” for additional information.

Examples:

These examples are intended to help you compare the costs of investing in the Contract with the cost of investing in other variable annuity Contracts. These costs include contract owner transaction expenses, contract fees, separate account annual expenses, and Trust or Fund fees and expenses. The examples assume that you invest \$10,000, in the Contract for the time periods indicated. The examples also assume that your investment has a 5% return each year and assumes the maximum fees and expenses of the Contracts and of any of the Trusts or Funds.

Premium taxes (which currently range from 0% to 3.5% of premium payments) may apply, but are not reflected in the example below.

Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

1) If you surrender your contract at the end of the applicable time period: *			
1 year	3 years	5 years	10 years
\$1,078	\$1,649	\$2,238	\$3,837
2) If you annuitize at the end of the applicable time period: **			
1 year	3 years	5 years	10 years
\$378	\$1,149	\$1,938	\$3,837
3) If you do <i>not</i> surrender your contract:			
1 year	3 years	5 years	10 years
\$378	\$1,149	\$1,938	\$3,837

- * This example reflects deduction of an early withdrawal charge using the early withdrawal charge schedule that applies to all contracts, including Roth IRA contracts issued after September 19, 2000.

- ** This example does not apply during the income phase if you selected a nonlifetime income phase payment option with variable payments and take a lump-sum withdrawal after payments start. In this case the lump-sum payment is treated as a withdrawal during the accumulation phase and may be subject to an early withdrawal charge (refer to Example 1).

Fund Fee Information

The fund prospectuses show the investment advisory fees, 12b-1 fees and other expenses including service fees (if applicable) charged annually by each fund. Fund fees are one factor that impacts the value of a fund share. Please refer to the fund prospectuses for more information and to learn more about additional factors.

The Company may receive compensation from each of the funds or the funds' affiliates based on an annual percentage of the average net assets held in that fund by the Company. The percentage paid may vary from one fund company to another. For certain funds, some of this compensation may be paid out of 12b-1 fees or service fees that are deducted from fund assets. Any such fees deducted from fund assets are disclosed in the fund prospectuses. The Company may also receive additional compensation from certain funds for administrative, recordkeeping or other services provided by the Company to the funds or the funds' affiliates. These additional payments may also be used by the Company to finance distribution. These additional payments are made by the funds or the funds' affiliates to the Company and do not increase, directly or indirectly, the fund fees and expenses. Please see "Fees – Fund Expenses" for more information.

In the case of fund companies affiliated with the Company, where an affiliated investment adviser employs subadvisers to manage the funds, no direct payments are made to the Company or the affiliated investment adviser by the subadvisers. Subadvisers may provide reimbursement for employees of the Company or its affiliates to attend business meetings or training conferences. Investment management fees are apportioned between the affiliated investment adviser and subadviser. This apportionment varies by subadviser, resulting in varying amounts of revenue retained by the affiliated investment adviser. This apportionment of the investment advisory fee does not increase, directly or indirectly, fund fees and expenses. Please see "Fees – Fund Expenses" for more information.

Fees are deducted from the value of the fund shares on a daily basis, which in turn affects the value of each subaccount that purchases fund shares.

CONDENSED FINANCIAL INFORMATION

Understanding Condensed Financial Information. In Appendix IV of this prospectus we provide condensed financial information about Separate Account B (the separate account) subaccounts you may invest in through the contract. The numbers show the year-end unit values of each subaccount from the time purchase payments were first received in the subaccounts under the contract for the lowest and highest combination of asset-based charges. Complete information is available in the Statement of Additional Information.

Financial Statements

The statements of assets and liabilities, the statements of operations, the statements of changes in net assets and the related notes to financial statements for Separate Account B and the financial statements and the related notes to financial statements for ING USA Annuity and Life Insurance Company are included in the Statement of Additional Information.

PURCHASE AND RIGHTS

How to Purchase

Please note that this contract is no longer available to purchase.

- **Individual Contracts.** In some states, where group contracts are not available, you may purchase the contract directly from us by completing an application and delivering it and your initial purchase payment to us. Upon our approval we will issue you a contract and set up an account for you under the contract.

- **Group Contracts.** In most states we have distributors, usually broker-dealers or banks, who hold the contract as a group contract (see “Other Topics – Contract Distribution”). You may purchase an interest (or, in other words, participate) in the group contract by contacting a distributor and completing an application and delivering it with your initial purchase payment to that distributor. Upon our approval, we will set up an account for you under the group contract and issue you a certificate showing your rights under the contract.
- **Joint Contracts (generally spouses).** For a nonqualified contract, you may participate in a group contract as a joint contract holder. References to “contract holder” in this prospectus mean both contract holders under joint contracts. Tax law prohibits the purchase of qualified contracts by joint contract holders.

Factors to Consider in the Purchase Decision. You should discuss your decision to purchase a contract with your sales representative. You should understand the investment options it provides, its other features, the risks and potential benefits it includes, and the fees and expenses you will incur. You should take note of the following issues, among others:

1. **Long-Term Investment** – This contract is designed for people seeking long-term tax-deferred accumulation of assets, generally for retirement or other long-term purposes. Early withdrawals may cause you to incur surrender charges and/or tax penalties. The value of deferred taxation on earnings grows with the amount of time funds are left in the contract. You should not buy this contract if you are looking for a short-term investment or expect to need to make withdrawals before you are 59½.
2. **Investment Risk** – The value of investment options available under this contract may fluctuate with the markets and interest rates. You should not buy this contract in order to invest in these options if you cannot risk getting back less money than you put in.
3. **Features and Fees** – The fees for this contract reflect costs associated with the features and benefits it provides. In some cases, you have the option to elect certain benefits that carry additional charges. As you consider this contract, you should determine the value that these various benefits and features have for you, taking into account the charges for those features.
4. **Exchanges** – If this contract will be a replacement for another annuity contract, you should compare the two contracts carefully. You should consider whether any additional benefits under this contract justify any increased charges that might apply. Also, be sure to talk to your sales representative or tax adviser to make sure that the exchange will be handled so that it is tax-free.

Maximum Issue Age. The maximum issue age for you and the annuitant (if you are not the annuitant) on the date you apply for your account is 80. Please note that there are age maximums on the calculation of the step-up value and roll-up value death benefits under Option Packages II and III. Therefore, if you are age 75 or over, you may want to consider whether choosing one of these options is in your best interest. See “Death Benefit” for a description of the calculation of death benefits above certain ages. The contract may not be available to all issue ages through all broker-dealers.

Your Rights Under the Contract

- **Individual Contracts.** You have all contract rights.
- **Group Contracts.** The holder of the group contract has title to the contract and, generally, only the right to accept or reject any modifications to the contract. You have all other rights to your account under the contract.
- **Joint Contracts.** Joint contract holders have equal rights under the contract with respect to their account. All rights under the contract must be exercised by both joint contract holders with the exception of transfers among investment options. See the “Death Benefit” section for the rights of the surviving joint contract holder upon the death of a joint contract holder prior to the income phase start date.

Purchase Payment Methods. The following purchase payment methods are allowed:

- One lump sum;
- Periodic payments; or
- Transfer or rollover from a pre-existing retirement plan or account.

We reserve the right to reject any purchase payments to a prospective or existing account without advance notice. If you are considering making periodic payments beyond the first contract year, the premium bonus option may not be right for you. See “Premium Bonus Option – Suitability.”

Purchase Payment Amounts.

The minimum initial purchase payment depends upon the option package you select when you purchase the contract and must be met without consideration of any premium bonus.

	Option Package I		Option Package II		Option Package III	
Minimum Initial Purchase Payment	Non-Qualified:	Qualified:*	Non-Qualified:	Qualified:*	Non-Qualified:	Qualified:*
	\$15,000	\$1,500	\$5,000	\$1,500	\$5,000	\$1,500

*The Tax Code imposes a maximum limit on annual payments which may be excluded from your gross income. Additional purchase payments must be at least \$50 (we may change this amount from time to time). A purchase payment of more than \$1,000,000 will be allowed only with our consent.

Reduction of Purchase Payment Amounts. In certain circumstances we may reduce the minimum initial or additional purchase payment amount we will accept under a contract. Whether such a reduction is available will be based on consideration of each of the following factors:

- The size and type of the prospective group, if any, to which the reduction would apply;
- The method and frequency of purchase payments to be made under the contract; and
- The amount of compensation to be paid to distributors and their registered representative on each purchase payment.

Any reduction of the minimum initial or additional purchase payment amount will not be unfairly discriminatory against any person. We will make any such reduction according to our own rules in effect at the time the purchase payment is received. We reserve the right to change these rules from time to time.

Acceptance or Rejection of Your Application. We must accept or reject your application within two business days of receipt. If the application is incomplete, we may hold any forms and accompanying purchase payment(s) for five business days. We may hold purchase payments for longer periods, pending acceptance of the application, only with your permission. If the application is rejected, the application and any purchase payments will be returned to you.

Anti-Money Laundering

In order to protect against the possible misuse of our products in money laundering or terrorist financing, we have adopted an anti-money laundering program satisfying the requirements of the USA PATRIOT Act and other current anti-money laundering laws. Among other things, this program requires us, our agents and customers to comply with certain procedures and standards that serve to assure that our customers’ identities are properly verified and that premiums and loan repayments are not derived from improper sources.

Under our anti-money laundering program, we may require policy owners, insured persons and/or beneficiaries to provide sufficient evidence of identification, and we reserve the right to verify any information provided to us by accessing information databases maintained internally or by outside firms.

We may also refuse to accept certain forms of premium payments or loan repayments (traveler’s cheques, cashier’s checks, bank drafts, bank checks and treasurer’s checks, for example) or restrict the amount of certain forms of premium payments or loan repayments (money orders totaling more than \$5,000.00, for example). In addition, we may require information as to why a particular form of payment was used (third party checks, for example) and the source of the funds of such payment in order to determine whether or not we will accept it. Use of an unacceptable form of payment may result in us returning the payment and not issuing the Contract.

Applicable laws designed to prevent terrorist financing and money laundering might, in certain circumstances, require us to block certain transactions until authorization is received from the appropriate regulator. We may also be required to provide additional information about you and your policy to government regulators.

Our anti-money laundering program is subject to change without notice to take account of changes in applicable laws or regulations and our ongoing assessment of our exposure to illegal activity.

Allocating Purchase Payments to the Investment Options. We will allocate your purchase payments among the investment options you select. Allocations must be in whole percentages and there may be limits on the number of investment options you may select. When selecting investment options you may find it helpful to review the “Investment Options” section.

Other Contracts. We and our affiliates offer various other products with different features and terms than the contracts, and that may offer some or all of the same subaccounts. These products have different benefits, fees and charges, and may or may not better match your needs. You should be aware that these are alternative options available, and, if you are interested in learning more about these other products, contact our Customer Service Center or your registered representative.

RIGHT TO CANCEL

When and How to Cancel. You may cancel your contract within ten days of receipt (some states allow you more than ten days) by returning it to our Customer Service Center along with a written notice of cancellation.

Refunds. We will issue you a refund within seven days of our receipt of your contract and written notice of cancellation. Unless your state requires otherwise or unless you purchased an IRA, your refund will equal your account value. This means that you will bear the entire investment risk for amounts allocated among the subaccounts, including applicable fund and contract fees and charges. Consequently, the amount refunded could be less than the amount you paid into the contract. Any premium bonus credited to your account will also be forfeited and your refund will reflect any earnings or losses attributable to the premium bonus. If your state requires or if you purchased an IRA, we will refund all purchase payments made.

If the purchase payments for your canceled contract came from a rollover from another contract issued by us or one of our affiliates where an early withdrawal charge was reduced or eliminated, the purchase payments will be restored to your prior contract.

PREMIUM BONUS OPTION

Election. At the time of application you may elect the premium bonus option. Once elected it may not be revoked. The premium bonus option may not be available under all contracts.

Premium Bonus Amount. If you elect this option we will credit your account with a 4% premium bonus for each purchase payment you make during the first account year. The premium bonus will be included in your account value and allocated among the investment options you have selected in the same proportion as the purchase payment. The amount of the premium bonus we credit to an account may be reduced if the premium bonus option charge is reduced or eliminated.

Premium Bonus Option Charge. In exchange for the premium bonus, during the first seven account years you will pay an annual premium bonus option charge equal to 0.50% of your account value allocated to the subaccounts. This charge will also be deducted from amounts allocated to the fixed interest options, resulting in a 0.50% reduction in the interest which would have been credited to your account during the first seven account years if you had not elected the premium bonus option. Under certain contracts, the premium bonus option charge may be reduced or eliminated. See “Fees – Reduction or Elimination of Certain Fees.”

After the seventh account year you will no longer pay the premium bonus option charge. We will administer the elimination of this charge by decreasing the number of accumulation units and increasing the accumulation unit values of the subaccounts in which you are then invested. The elimination of this charge and the adjustment of the number of accumulation units and accumulation unit values will not affect your account value. See “Your Account Value.”

Forfeiture. In each of the following circumstances all or part of a premium bonus credited to your account will be forfeited:

- If you exercise your free look privilege and cancel your contract. See “Right to Cancel.”

- If a death benefit is payable based on account value, step-up value or roll-up value, but only the amount of any premium bonus credited to the account after or within 12 months of the date of death. See “Death Benefit – Premium Bonus.”
- Unless prohibited by state law, if all or part of a purchase payment for which a premium bonus was credited is withdrawn during the first seven account years. The amount of the premium bonus forfeited will be in the same percentage as the amount withdrawn subject to an early withdrawal charge is to the total purchase payments made during the first account year. See “Withdrawals.”

The following hypothetical example illustrates how the forfeiture of premium bonus is calculated when you withdraw all or part of a purchase payment for which a premium bonus was credited during the first seven account years.

Date	Purchase Payment	Premium Bonus	Account Value	Withdrawal Amount	Explanation
May 2, 2007	\$100,000	\$4,000	\$104,000	—	You make a \$100,000 initial purchase payment and we credit your account with a 4% (\$4,000) premium bonus. Your beginning account value equals \$104,000.
May 2, 2010	—	—	\$120,000	\$30,000	Assume that your account value grows to \$120,000 over the next three years and you request a \$30,000 withdrawal. \$18,000 of that \$30,000 will be subject to an early withdrawal charge (\$30,000 minus \$12,000 (the 10% free withdrawal amount, see “Fees – Free Withdrawals”)) and you would pay a \$1,080 early withdrawal charge (6% of \$18,000). Additionally, because \$18,000 is 18% of the \$100,000 purchase payment made in the first account year, 18% of your \$4,000 premium bonus, or \$720, would be forfeited.*

* This example assumes that either Option Package I or II has been in effect since you purchased the contract. If Option Package III has been in effect since inception, none of the withdrawal would be subject to an early withdrawal charge because the 30% cumulative free withdrawal amount (\$36,000) would be greater than the amount of the withdrawal. See “Fees – Free Withdrawals.” Therefore, the withdrawal would not result in forfeiture of any of the premium bonus.

Suitability. If you expect to make purchase payments to your account after the first account year, the premium bonus option may not be right for you. Your account will not be credited with a premium bonus for purchase payments made after the first account year yet we will assess the premium bonus option charge against your account value which is increased by these additional purchase payments. Consequently, the amount of the premium bonus option charge you would pay over time may be more than the amount of the premium bonus we credited to your account. Also, if you anticipate that you will need to make withdrawals from your account during the first seven account years, you may not want to elect the premium bonus option. When you make such a withdrawal you may forfeit part of your premium bonus, and the amount of the premium bonus option charge you have paid may be more than the amount of the premium bonus not forfeited. Likewise, if you make a withdrawal during the first seven account years and the market is down, the amount of the bonus forfeited may be greater than the then current market value of the premium bonus. Your sales representative can help you decide if the premium bonus option is right for you.

INVESTMENT OPTIONS

The contract offers variable investment options and fixed interest options.

Variable Investment Options. These options are called subaccounts. The subaccounts are within Separate Account B (the separate account), a separate account of the Company. Each subaccount invests in a specific mutual fund. You do not invest directly in or hold shares of the funds.

Mutual Fund (Fund) Descriptions. We provide brief descriptions of the funds in Appendix III. Investment results of the funds are likely to differ significantly and there is no assurance that any of the funds will achieve their respective investment objectives. You should consider the investment objectives, risks and charges and expenses of the funds carefully before investing. Please refer to the funds prospectuses for this and additional information. Shares of the funds will rise and fall in value and you could lose money by investing in the funds. Shares of the funds are not bank deposits and are not guaranteed, endorsed or insured by any financial institution, the Federal Deposit Insurance Corporation or any other government agency. Unless otherwise noted, all funds are diversified as defined under the Investment Company Act of 1940. Fund prospectuses may be obtained, free of charge, from our Customer Service Center at the address and phone number listed in “Contract Overview—Questions: Contacting the Company,” by accessing the SEC’s web site or by contacting the SEC Public Reference Room.

Certain funds are designated as “Master-Feeder” or “fund of funds.” Funds offered in a Master Feeder structure (such as the American Funds) or fund of funds structure (such as Retirement Funds) may have higher fees and expenses than a fund that invests directly in debt and equity securities. Consult with your investment professional to determine if the portfolios may be suited to your financial needs, investment time horizon and risk tolerance. You should periodically review these factors to determine if you need to change your investment strategy.

ING GET U.S. Core Portfolio (formerly known as, and referred to herein as, “GET Fund”). A GET Fund series may be available during the accumulation phase of the Contract. We make a guarantee, as described below, when you allocate money into a GET Fund series. Each GET Fund series has an offering period of six months which precedes the guarantee period. The GET Fund investment option may not be available under your Contract or in your state. Effective June 21, 2007, no new series of the GET Fund are available.

Various series of the GET Fund may be offered from time to time, and additional charges will apply if you elect to invest in one of these series. The Company makes a guarantee when you direct money into a GET Fund series. We guarantee that the value of an accumulation unit of the GET Fund subaccount for that series under the Contract on the maturity date will not be less than its value as determined after the close of business on the last day of the offering period for that GET Fund series. If the value on the maturity date is lower than it was on the last day of the offering period, we will add funds to the GET Fund subaccount for that series to make up the difference. This means that if you remain invested in the GET Fund series until the maturity date, at the maturity date, you will receive no less than the value of your separate account investment directed to the GET Fund series as of the last day of the offering period, less any maintenance fees or any amounts you transfer or withdraw from the GET Fund subaccount for that series. The value of dividends and distributions made by the GET Fund series throughout the guarantee period is taken into account in determining whether, for purposes of the guarantee, the value of your GET Fund investment on the maturity date is no less than its value as of the last day of the offering period.

If you withdraw or transfer funds from a GET Fund series prior to the maturity date, we will process the transactions at the actual unit value next determined after we receive your request. The guarantee will not apply to these amounts or to amounts deducted as a maintenance fee, if applicable. The GET Fund subaccount is not available for the dollar cost averaging program or the account rebalancing program.

Before the maturity date, we will send a notice to each contract owner who has allocated amounts to the GET Fund series. This notice will remind you that the maturity date is approaching and that you must choose other investment options for your GET Fund series amounts. If you do not make a choice, on the maturity date we will transfer your GET Fund series amounts to another available series of the GET Fund that is then accepting deposits. If no GET Fund series is then available, we will transfer your GET Fund series amounts to the fund or funds that we designate.

Please see the ING GET U.S. Core Portfolio prospectus for a complete description of the GET Fund investment option, including charges and expenses.

Fixed Interest Options. If available in your state, the ING USA Guaranteed Account (the “Guaranteed Account”) offers certain guaranteed minimum interest rates for a stated period of time. Amounts must remain in the Guaranteed Account for specific periods to receive the quoted interest rates, or a market value adjustment will be applied. The market value adjustment may be positive or negative. The Fixed Account guarantees payment of the minimum interest rate specified in the contract. The Fixed Account is only available in certain states. For a description of these options, see Appendices I and II and the Guaranteed Account prospectus. To obtain a copy of the Guaranteed Account prospectus, write to our Customer Service Center at P.O. Box 9271, Des Moines, Iowa 50306-9271, call (800) 366-0066, or access the SEC’s website (<http://www.sec.gov>).

Selecting Investment Options

- **Choose options appropriate for you.** Your sales representative can help you evaluate which investment options may be appropriate for your financial goals.
- **Understand the risks associated with the options you choose.** Some subaccounts invest in funds that are considered riskier than others. Funds with additional risks are expected to have values that rise and fall more rapidly and to a greater degree than other funds. For example, funds investing in foreign or international securities are subject to risks not associated with domestic investments, and their investment performance may vary accordingly. Also, funds using derivatives in their investment strategy may be subject to additional risks.
- **Be informed.** Read this prospectus, the fund prospectuses, the Guaranteed Account and Fixed Account appendices and the Guaranteed Account prospectus.

Limits on Availability of Options. Some funds or fixed interest options may be unavailable through your contract or in your state. We may add funds, or withdraw or substitute funds available when you purchased your contract, subject to the conditions in your contract and compliance with regulatory requirements. In the case of a substitution, the new fund may have different fees and charges, investment objectives or policies than the fund it replaced.

Limits on How Many Investment Options You May Select. Although there is currently no limit, we reserve the right to limit the number of investment options you may select at any one time or during the life of the contract. For purposes of determining any limit, each subaccount and each guaranteed term of the Guaranteed Account, or an investment in the Fixed Account in certain contracts, will be considered an investment option.

Additional Risks of Investing in the Funds (*Mixed and Shared Funding*). “Shared funding” occurs when shares of a fund, which the subaccounts buy for the contracts, are also bought by other insurance companies for their variable insurance contracts.

“Mixed funding” occurs when shares of a fund, which the subaccounts buy for the contracts, are bought for variable life insurance contracts issued by us or other insurance companies.

- Shared—bought by more than one company
- Mixed—bought for annuities and life insurance

It is possible that a conflict of interest may arise due to mixed and/or shared funding, which could adversely impact the value of a fund. For example, if a conflict of interest occurred and one of the subaccounts withdrew its investment in a fund, the fund may be forced to sell its securities at disadvantageous prices, causing its share value to decrease. Each fund’s Board of Directors or Trustees will monitor events to identify any conflicts which may arise and to determine what action, if any, should be taken to address such conflicts.

TRANSFERS AMONG INVESTMENT OPTIONS (EXCESSIVE TRADING POLICY)

You may transfer amounts among the available subaccounts. During the accumulation phase we allow you 12 free transfers each account year. We reserve the right to charge \$10 for each additional transfer. We currently do not impose this charge. During the income phase we allow you four free transfers each account year. We reserve the right to charge \$10 for each additional transfer. We currently do not impose this charge.

Transfers from the Guaranteed Account are subject to certain restrictions and may be subject to a market value adjustment. Transfers from the Fixed Account are subject to certain restrictions, and transfers into the Fixed Account from any of the other investment options are not allowed. Transfers must be made in accordance with the terms of your contract.

Transfer Requests. Requests may be made in writing, by fax or telephone or, when available, electronically.

Limits on Frequent or Disruptive Transfers

The contract is not designed to serve as a vehicle for frequent transfers. Frequent transfer activity can disrupt management of a fund and raise its expenses through:

- Increased trading and transaction costs;
- Forced and unplanned portfolio turnover;
- Lost opportunity costs; and
- Large asset swings that decrease the fund's ability to provide maximum investment return to all contract owners.

This in turn can have an adverse effect on fund performance. **Accordingly, individuals or organizations that use market-timing investment strategies or make frequent transfers should not purchase the contract.**

Excessive Trading Policy. We and the other members of the ING family of companies that provide multi-fund variable insurance and retirement products, have adopted a common Excessive Trading Policy to respond to the demands of the various fund families that make their funds available through our products to restrict excessive fund trading activity and to ensure compliance with Rule 22c-2 of the 1940 Act.

We actively monitor fund transfer and reallocation activity within our variable insurance products to identify violations of our Excessive Trading Policy. Our Excessive Trading Policy is violated if fund transfer and reallocation activity:

- Meets or exceeds our current definition of Excessive Trading, as defined below; or
- Is determined, in our sole discretion, to be disruptive or not in the best interests of other owners of our variable insurance and retirement products.

We currently define Excessive Trading as:

- More than one purchase and sale of the same fund (including money market funds) within a 60 calendar day period (hereinafter, a purchase and sale of the same fund is referred to as a "round-trip"). This means two or more round-trips involving the same fund within a 60 calendar day period would meet our definition of Excessive Trading; or
- Six round-trips involving the same fund within a twelve month period.

The following transactions are excluded when determining whether trading activity is excessive:

- Purchases or sales of shares related to non-fund transfers (for example, new purchase payments, withdrawals and loans);
- Transfers associated with scheduled dollar cost averaging, scheduled rebalancing or scheduled asset allocation programs;
- Purchases and sales of fund shares in the amount of \$5,000 or less;
- Purchases and sales of funds that affirmatively permit short-term trading in their fund shares, and movement between such funds and a money market fund; and
- Transactions initiated by us, another member of the ING family of insurance companies or a fund.

If we determine that an individual or entity has made a purchase of a fund within 60 days of a prior round-trip involving the same fund, we will send them a letter warning that another sale of that same fund within 60 days of the beginning of the prior round-trip will be deemed to be Excessive Trading and result in a six month suspension of their ability to initiate fund transfers or reallocations through the Internet, facsimile, Voice Response Unit (VRU), telephone calls to the ING Customer Service Center, or other electronic trading medium that we may make available from time to time ("Electronic Trading Privileges"). Likewise, if we determine that an individual or entity has made five round-trips involving the same fund within a rolling twelve month period, we will send them a letter warning that another purchase and sale of that same fund within twelve months of the initial purchase in the first round-trip in the prior twelve month period will be deemed to be Excessive Trading and result in a suspension of their Electronic Trading Privileges. According to the needs of the various business units, a copy of the warning letters may also be sent, as applicable, to the person(s) or entity authorized to initiate fund transfers or reallocations, the agent/registered representative or investment adviser for that individual or entity. A copy of the warning letters and details of the individual's or entity's trading activity may also be sent to the fund whose shares were involved in the trading activity.

If we determine that an individual or entity has violated our Excessive Trading Policy, we will send them a letter stating that their Electronic Trading Privileges have been suspended for a period of six months. Consequently, all fund transfers or reallocations, not just those which involve the fund whose shares were involved in the activity that violated our Excessive Trading Policy, will then have to be initiated by providing written instructions to us via regular U.S. mail. Suspension of Electronic Trading Privileges may also extend to products other than the product through which the Excessive Trading activity occurred. During the six month suspension period, electronic “inquiry only” privileges will be permitted where and when possible. A copy of the letter restricting future transfer and reallocation activity to regular U.S. mail and details of the individual’s or entity’s trading activity may also be sent, as applicable, to the person(s) or entity authorized to initiate fund transfers or reallocations, the agent/registered representative or investment adviser for that individual or entity and the fund whose shares were involved in the activity that violated our Excessive Trading Policy.

Following the six month suspension period during which no additional violations of our Excessive Trading Policy are identified, Electronic Trading Privileges may again be restored. We will continue to monitor the fund transfer and reallocation activity, and any future violations of our Excessive Trading Policy will result in an indefinite suspension of Electronic Trading Privileges. A violation of our Excessive Trading Policy during the six month suspension period will also result in an indefinite suspension of Electronic Trading Privileges.

We reserve the right to suspend Electronic Trading Privileges with respect to any individual or entity, with or without prior notice, if we determine, in our sole discretion, that the individual’s or entity’s trading activity is disruptive or not in the best interests of other owners of our variable insurance products, regardless of whether the individual’s or entity’s trading activity falls within the definition of Excessive Trading set forth above.

Our failure to send or an individual’s or entity’s failure to receive any warning letter or other notice contemplated under our Excessive Trading Policy will not prevent us from suspending that individual’s or entity’s Electronic Trading Privileges or taking any other action provided for in our Excessive Trading Policy.

We do not allow exceptions to our Excessive Trading Policy. We reserve the right to modify our Excessive Trading Policy, or the policy as it relates to a particular fund, at any time without prior notice, depending on, among other factors, the needs of the underlying fund(s), the best interests of contract owners and fund investors and/or state or federal regulatory requirements. If we modify our policy, it will be applied uniformly to all contract owners or, as applicable, to all contract owners investing in the underlying fund.

Our Excessive Trading Policy may not be completely successful in preventing market timing or excessive trading activity. If it is not completely successful, fund performance and management may be adversely affected, as noted above.

Limits Imposed by the Funds. Each underlying fund available through the variable insurance and retirement products offered by us and/or the other members of the ING family of insurance companies, either by prospectus or stated contract, has adopted or may adopt its own excessive/frequent trading policy, and orders for the purchase of fund shares are subject to acceptance or rejection by the underlying fund. We reserve the right, without prior notice, to implement fund purchase restrictions and/or limitations on an individual or entity that the fund has identified as violating its excessive/frequent trading policy and to reject any allocation or transfer request to a subaccount if the corresponding fund will not accept the allocation or transfer for any reason. All such restrictions and/or limitations (which may include, but are not limited to, suspension of Electronic Trading Privileges and/or blocking of future purchases of a fund or all funds within a fund family) will be done in accordance with the directions we receive from the fund.

Agreements to Share Information with Fund Companies. As required by Rule 22c-2 under the 1940 Act, we have entered into information sharing agreements with each of the fund companies whose funds are offered through the contract. Contract owner trading information is shared under these agreements as necessary for the fund companies to monitor fund trading and our implementation of our Excessive Trading Policy. Under these agreements, the company is required to share information regarding contract owner transactions, including but not limited to information regarding fund transfers initiated by you. In addition to information about contract owner transactions, this information may include personal contract owner information, including names and social security numbers or other tax identification numbers.

As a result of this information sharing, a fund company may direct us to restrict a contract owner’s transactions if the fund determines that the contract owner has violated the fund’s excessive/frequent trading policy. This could include the fund directing us to reject any allocations of premium or contract value to the fund or all funds within the fund family.

Value of Your Transferred Dollars. The value of amounts transferred into or out of subaccounts will be based on the subaccount unit values next determined after we receive your transfer request in good order at our Customer Service Center or, if you are participating in the dollar cost averaging or account rebalancing programs, after your scheduled transfer or reallocation.

Telephone and Electronic Transactions: Security Measures. To prevent fraudulent use of telephone and electronic transactions (including, but not limited to, internet transactions), we have established security procedures. This includes recording calls on our toll-free telephone lines. You are responsible for keeping your account information confidential. Please be advised that the risk of a fraudulent transaction is increased with telephone or electronic transaction (for example, a facsimile withdrawal request form), even if appropriate identifying information is provided. If we fail to follow reasonable security procedures, we may be liable for losses due to unauthorized or fraudulent telephone or other electronic transactions. We are not liable for losses resulting from telephone or electronic instructions we believe to be genuine. If a loss occurs when we rely on such instructions, you will bear the loss.

The Dollar Cost Averaging Program. Dollar cost averaging is an investment strategy whereby you purchase fixed dollar amounts of an investment at regular intervals, regardless of price. Under this program a fixed dollar amount is automatically transferred from certain subaccounts, the Guaranteed Account or Fixed Account to any of the other subaccounts. A market value adjustment will not be applied to dollar cost averaging transfers from a guaranteed term of the Guaranteed Account during participation in the dollar cost averaging program. If such participation is discontinued, we will automatically transfer the remaining balance in that guaranteed term to another guaranteed term of the same duration, unless you initiate a transfer into another investment option. In either case a market value adjustment will apply. See Appendix I for more information about dollar cost averaging from the Guaranteed Account. If dollar cost averaging is stopped with respect to amounts invested in the Fixed Account, the remaining balance will be transferred to a money market subaccount.

Dollar cost averaging neither ensures a profit nor guarantees against loss in a declining market. You should consider your financial ability to continue purchases through periods of low price levels. There is no additional charge for this program and transfers made under this program do not count as transfers when determining the number of free transfers that may be made each account year. For additional information about this program, contact your sales representative or call us at the number listed in “Contract Overview – Questions: Contacting the Company.” In certain states, purchase payments allocated to the Fixed Account may require participation in the dollar cost averaging program.

The Account Rebalancing Program. Account rebalancing allows you to reallocate your account value to match the investment allocations you originally selected. Only account values invested in the subaccounts may be rebalanced. We automatically reallocate your account value annually (or more frequently as we allow). Account rebalancing neither ensures a profit nor guarantees against loss in a declining market. There is no additional charge for this program and transfers made under this program do not count as transfers when determining the number of free transfers that may be made each account year. Account rebalancing is subject to any fund purchase restrictions, however. You may participate in this program by completing the account rebalancing section of your application or by contacting us at the address and/or number listed in “Contract Overview – Questions: Contacting the Company.”

TRANSFERS BETWEEN OPTION PACKAGES

You may transfer from one option package to another.

- Transfers must occur on an account anniversary.
- A written request for the transfer must be received by us within 60 days of an account anniversary.
- The following minimum account values need to be met on the date of transfer:

	Transfers to Option Package I		Transfers to Option Packages II or III	
Minimum Account Value	Non-Qualified: \$15,000	Qualified: \$1,500	Non-Qualified: \$5,000	Qualified: \$1,500

- You will receive a new contract schedule page upon transfer.
- Only one option package may be in effect at any time.

Transfers to Option Package I	Transfers to Option Package II	Transfers to Option Package III
Death Benefit¹: The sum of all purchase payments made, adjusted for amounts withdrawn or applied to an income phase payment option as of the claim date, will continue to be calculated from the account effective date. <ul style="list-style-type: none"> • The “step-up value” under Option Packages II and III will terminate on the new schedule effective date. • The “roll-up value” under Option Package III will terminate on the new schedule effective date. 	Death Benefit¹: <ul style="list-style-type: none"> • The sum of all purchase payments made, adjusted for amounts withdrawn or applied to an income phase payment option as of the claim date, will continue to be calculated from the account effective date. • If transferring from Option Package I, the “step-up value” will be calculated beginning on the new schedule effective date. • If transferring from Option Package III, the “step-up value” will continue to be calculated from the date calculated under Option Package III. • The “roll-up value” under Option Package III will terminate on the new schedule effective date. 	Death Benefit¹: <ul style="list-style-type: none"> • The sum of all purchase payments made, adjusted for amounts withdrawn or applied to an income phase payment option as of the claim date, will continue to be calculated from the account effective date. • If transferring from Option Package I, the “step-up value” will be calculated beginning on the new schedule effective date. • If transferring from Option Package II, the “step-up value” will continue to be calculated from the date calculated under Option Package II. • The “roll-up value” will be calculated beginning on the new schedule effective date.
Nursing Home Waiver²: <ul style="list-style-type: none"> • The availability of the waiver of the early withdrawal charge under the Nursing Home Waiver will terminate on the new schedule effective date. 	Nursing Home Waiver²: <ul style="list-style-type: none"> • If transferring from Option Package I, the waiting period under the Nursing Home Waiver will begin to be measured from the new schedule effective date. • If transferring from Option Package III, the waiting period will have been satisfied on the new schedule effective date. 	Nursing Home Waiver²: <ul style="list-style-type: none"> • If transferring from Option Package I, the waiting period under the Nursing Home Waiver will begin to be measured from the new schedule effective date. • If transferring from Option Package II, the waiting period will have been satisfied on the new schedule effective date.
Free Withdrawals³: <ul style="list-style-type: none"> • If transferring from Option Package III, any available free withdrawal amount in excess of 10% will be lost as of the new schedule effective date. 	Free Withdrawals³: <ul style="list-style-type: none"> • If transferring from Option Package III, any available free withdrawal amount in excess of 10% will be lost as of the new schedule effective date. 	Free Withdrawals³: <ul style="list-style-type: none"> • The cumulative to 30% available free withdrawal amount will begin to be calculated as of the new schedule effective date.

FEES

The following repeats and adds to information provided in the “Fee Table” section. Please review both sections for information on fees.

TRANSACTION FEES

Early Withdrawal Charge

Withdrawals of all or a portion of your account value may be subject to a charge. In the case of a partial withdrawal where you request a specified dollar amount, the amount withdrawn from your account will be the amount you specified plus adjustment for any applicable early withdrawal charge.

Amount. A percentage of the purchase payments that you withdraw. The percentage will be determined by the early withdrawal charge schedule that applies to your account.

Early Withdrawal Charge Schedules

(As a percentage of payments withdrawn.)

Years from Receipt of Purchase Payment	Early Withdrawal Charge
Less than 2	7%
2 or more but less than 4	6%
4 or more but less than 5	5%
5 or more but less than 6	4%
6 or more but less than 7	3%
7 or more	0%

Purpose. This is a deferred sales charge. It reimburses us for some of the sales and administrative expenses associated with the contract. If our expenses are greater than the amount we collect for the early withdrawal charge, we may use any of our corporate assets, including potential profit that may arise from the mortality and expense risk charge, to make up any difference.

First In, First Out. The early withdrawal charge is calculated separately for each purchase payment withdrawn. For purposes of calculating your early withdrawal charge, we consider that your first purchase payment to the account (first in) is the first you withdraw (first out).

Examples: Where the early withdrawal charge is based on the number of years since the purchase payment was received, if your initial purchase payment was made three years ago, we will deduct an early withdrawal charge equal to 6% of the portion of that purchase payment withdrawn.

In each case the next time you make a withdrawal we will assess the early withdrawal charge, if any, against the portion of the first purchase payment you did not withdraw and/or subsequent purchase payments to your account in the order they were received.

Earnings may be withdrawn after all purchase payments have been withdrawn. There is no early withdrawal charge for withdrawal of earnings.

Free Withdrawals. There is no early withdrawal charge if, during each account year, the amount withdrawn is 10% or less of your account value on the later of the date we established your account or the most recent anniversary of that date. Under Option Package III, any unused percentage of the 10% free withdrawal amount shall carry forward into successive account years, up to a maximum 30% of your account value.

The free withdrawal amount will be adjusted for amounts withdrawn under a systematic distribution option or taken as a required minimum distribution during the account year.

Waiver. The early withdrawal charge is waived for purchase payments withdrawn if the withdrawal is:

- Used to provide income phase payments to you;
- Paid due to the annuitant's death during the accumulation phase in an amount up to the sum of purchase payments made, minus the total of all partial withdrawals, amounts applied to an income phase payment option and deductions made prior to the annuitant's death;
- Paid upon a full withdrawal where your account value is \$2,500 or less and no part of the account has been withdrawn during the prior 12 months;
- Taken because of the election of a systematic distribution option (see "Systematic Distribution Options");
- Applied as a rollover to certain Roth IRAs issued by us or an affiliate;
- If approved in your state, taken under a qualified contract, when the amount withdrawn is equal to the minimum distribution required by the Tax Code for your account calculated using a method permitted under the Tax Code and agreed to by us (including required minimum distributions using the ECO systematic distribution option (see "Systematic Distribution Options")); or
- Paid upon termination of your account by us (see "Other Topics — Involuntary Terminations").

Nursing Home Waiver. Under Option Packages II and III, you may withdraw all or a portion of your account value without an early withdrawal charge if:

- More than one account year has elapsed since the schedule effective date;
- The withdrawal is requested within three years of the annuitant’s admission to a licensed nursing care facility (in Oregon there is no three year limitation period and in New Hampshire non-licensed facilities are included); and
- The annuitant has spent at least 45 consecutive days in such nursing care facility.

We will not waive the early withdrawal charge if the annuitant was in a nursing care facility for at least one day during the two-week period immediately preceding or following the schedule effective date. It will also not apply to contracts where prohibited by state law.

Annual Maintenance Fee

Maximum Amount. \$30.00

When/How. Each year during the accumulation phase we deduct this fee from your account value. We deduct it on your account anniversary and at the time of full withdrawal. It is deducted proportionally from each investment option.

Purpose. This fee reimburses us for our administrative expenses relating to the establishment and maintenance of your account.

Elimination. We will not deduct the annual maintenance fee if your account value is \$50,000 or more on the date this fee is to be deducted.

Transfer Charge

Amount. During the accumulation phase we currently allow you 12 free transfers each account year. We reserve the right to charge \$10 for each additional transfer. We currently do not impose this charge.

Purpose. This charge reimburses us for administrative expenses associated with transferring your dollars among investment options.

Redemption Fees

If applicable, we may deduct the amount of any redemption fees imposed by the underlying portfolios as a result of withdrawals, transfers or other fund transactions you initiate. Redemption fees, if any, are separate and distinct from any transaction charges or other charges deducted from your contract value. **For a more complete description of the funds’ fees and expenses, review each fund’s prospectus.**

Overnight Fee. You may elect to have a \$20 overnight charge deducted from the net amount of a withdrawal you would like sent to you by overnight delivery service.

FEEES DEDUCTED FROM INVESTMENTS IN THE SEPARATE ACCOUNT

Mortality and Expense Risk Charge

Maximum Amount. During the accumulation phase the amount of this charge, on an annual basis, is equal to the following percentages of your account value invested in the subaccounts:

Option Package I	Option Package II	Option Package III
0.80%	1.10%	1.25%

During the income phase this charge, on an annual basis, is equal to 1.25% of amounts invested in the subaccounts. See “The Income Phase- Charges Deducted.”

When/How. We deduct this charge daily from the subaccounts corresponding to the funds you select. We do not deduct this charge from any fixed interest option.

Purpose. This charge compensates us for the mortality and expense risks we assume under the contract.

- The mortality risks are those risks associated with our promise to provide a death benefit and make lifetime income phase payments based on annuity rates specified in the contract.
- The expense risk is the risk that the actual expenses we incur under the contract will exceed the maximum costs that we can charge.

If the amount we deduct for this charge is not enough to cover our mortality costs and expenses under the contract, we will bear the loss. We may use any excess to recover distribution costs relating to the contract and as a source of profit. We expect to make a profit from this charge.

Administrative Expense Charge

Maximum Amount. During the accumulation phase the amount of this charge, on an annual basis, is equal to the following percentages of your account value invested in the subaccounts:

Option Package I	Option Package II	Option Package III
0.15%	0.15%	0.15%

There is currently no administrative expense charge during the income phase. We reserve the right, however, to charge an administrative expense charge of up to 0.25% during the income phase.

When/How. If imposed, we deduct this charge daily from the subaccounts corresponding to the funds you select. We do not deduct this charge from the fixed interest options. If we are imposing this charge when you enter the income phase, the charge will apply to you during the entire income phase.

Purpose. This charge helps defray our administrative expenses.

Premium Bonus Option Charge.

Maximum Amount. 0.50%, but only if you elect the premium bonus option.

When/How. We deduct this charge daily from the subaccounts corresponding to the funds you select. We may also deduct this charge from amounts allocated to the fixed interest options. This charge is deducted for the first seven account years during the accumulation phase and, if applicable, the income phase. See “Premium Bonus Option — Premium Bonus Option Charge.”

Purpose. This charge compensates us for the cost associated with crediting the premium bonus to your account on purchase payments made during the first account year.

ING GET U.S. Core Portfolio Guarantee Charge. Effective June 21, 2007, no new series of the GET Fund are available.

Maximum Amount. 0.50%, but only if you elect to invest in the GET Fund investment option.

When/How. We deduct this charge daily during the guarantee period from amounts allocated to the GET Fund investment option.

Purpose. This charge compensates us for the cost of providing a guarantee of accumulation unit values of the GET Fund subaccount. See “Investment Options-Variable Investment Options.”

REDUCTION OR ELIMINATION OF CERTAIN FEES

When sales of the contract are made to individuals or a group of individuals in a manner that results in savings of sales or administrative expenses, we may reduce or eliminate the early withdrawal charge, annual maintenance fee, mortality and expense risk charge, administrative expense charge or premium bonus option charge. Our decision to reduce or eliminate any of these fees will be based on one or more of the following:

- The size and type of group to whom the contract is issued;
- The amount of expected purchase payments;
- A prior or existing relationship with the Company, such as being an employee or former employee of the Company or one of our affiliates, receiving distributions or making transfers from other contracts issued by us or one of our affiliates or transferring amounts held under qualified retirement plans sponsored by us or one of our affiliates;
- The type and frequency of administrative and sales services provided; or
- The level of annual maintenance fee and early withdrawal charges.

In the case of an exchange of another contract issued by us or one of our affiliates where the early withdrawal charge has been waived, the early withdrawal charge for certain contracts offered by this prospectus may be determined based on the dates purchase payments were received in the prior contract.

The reduction or elimination of any of these fees will not be unfairly discriminatory against any person and will be done according to our rules in effect at the time the contract is issued. We reserve the right to change these rules from time to time. The right to reduce or eliminate any of these fees may be subject to state approval.

FUND EXPENSES

As shown in the fund prospectuses and described in the “Fund Fee Information” section of this prospectus, each fund deducts management fees from the amounts allocated to the fund. In addition, each fund deducts other expenses which may include service fees that may be used to compensate service providers, including the company and its affiliates, for administrative and contract owner services provided on behalf of the fund. Furthermore, certain funds may deduct a distribution or 12b-1 fee, which is used to finance any activity that is primarily intended to result in the sale of fund shares. **For a more complete description of the funds’ fees and expenses, review each fund’s prospectus.** You should evaluate the expenses associated with the funds available through this contract before making a decision to invest.

The company may receive substantial revenue from each of the funds or the funds’ affiliates, although the amount and types of revenue vary with respect to each of the funds offered through the contract. This revenue is one of several factors we consider when determining the contract fees and charges and whether to offer a fund through our policies. **Fund revenue is important to the company’s profitability, and it is generally more profitable for us to offer affiliated funds than to offer unaffiliated funds.**

Assets allocated to affiliated funds, meaning funds managed by Directed Services LLC, ING Investments, LLC or another company affiliate, generate the largest dollar amount of revenue for the company. Affiliated funds may also be subadvised by a company affiliate or by an unaffiliated third party. Assets allocated to unaffiliated funds, meaning funds managed by an unaffiliated third party, generate lesser, but still substantial dollar amounts of revenue for the company. The company expects to make a profit from this revenue to the extent it exceeds the company’s expenses, including the payment of sales compensation to our distributors.

Revenue Received from Affiliated Funds.

The revenue received by the company from affiliated funds may be deducted from fund assets and may include:

- A share of the management fee;
- Service fees;
- For certain share classes, compensation paid from 12b-1 fees; and
- Other revenues that may be based either on an annual percentage of average net assets held in the fund by the company or a percentage of the fund’s management fees.

In the case of affiliated funds subadvised by unaffiliated third parties, any sharing of the management fee between the company and the affiliated investment adviser is based on the amount of such fee remaining after the subadvisory fee has been paid to the unaffiliated subadviser. Because subadvisory fees vary by subadviser, varying amounts of revenue may be retained by the affiliated investment adviser and ultimately shared with the Company. The Company may also receive additional compensation in the form of intercompany payments from an affiliated fund’s investment advisor or the investment advisor’s parent in order to allocate revenue and profits across the organization. The intercompany payments and other revenue received from affiliated funds provide the company with a financial incentive to offer affiliated funds through the contract rather than unaffiliated funds.

Revenue Received from Unaffiliated Funds. Revenue received from each of the unaffiliated funds or their affiliates is based on an annual percentage of the average net assets held in that fund by the company. Some unaffiliated funds or their affiliates pay us more than others and some of the amounts we receive may be significant.

The revenues received by the company or its affiliates from unaffiliated funds may be deducted from fund assets and may include:

- Service fees;
- For certain share classes, compensation paid from 12b-1 fees; and
- Additional payments for administrative, recordkeeping or other services that we provide to the funds or their affiliates, such as processing purchase and redemption requests, and mailing fund prospectuses, periodic reports and proxy materials. These additional payments do not increase directly or indirectly the fees and expenses shown in each fund's prospectus. These additional payments may be used by us to finance distribution of the contract.

If the unaffiliated fund families currently offered through the contract that made payments to us were individually ranked according to the total amount they paid to the company or its affiliates in 2012, in connection with the registered annuity contracts issued by the company, that ranking would be as follows:

- BlackRock Variable Series Funds, Inc.

If the revenues received from the affiliated funds were taken into account when ranking the funds according to the total dollar amount they paid to the company or its affiliates in 2012, the affiliated funds would be at the top of the list.

In addition to the types of revenue received from affiliated and unaffiliated funds described above, affiliated and unaffiliated funds and their investment advisers, subadvisers or affiliates may participate at their own expense in company sales conferences or educational and training meetings. In relation to such participation, a fund's investment adviser, subadviser or affiliate may help offset the cost of the meetings or sponsor events associated with the meetings. In exchange for these expense offset or sponsorship arrangements, the investment adviser, subadviser or affiliate may receive certain benefits and access opportunities to company sales representatives and wholesalers rather than monetary benefits. These benefits and opportunities include, but are not limited to co-branded marketing materials, targeted marketing sales opportunities, training opportunities at meetings, training modules for sales personnel and opportunity to host due diligence meetings for representatives and wholesalers.

Certain funds may be structured as "fund of funds." These funds may have higher fees and expenses than a fund that invests directly in debt and equity securities because they also incur the fees and expenses of the underlying funds in which they invest. These funds are affiliated funds, and the underlying funds in which they invest may be affiliated funds as well. The fund prospectuses disclose the aggregate annual operating expenses of each fund and its corresponding underlying fund or funds.

Please note that certain management personnel and other employees of the company or its affiliates may receive a portion of their total employment compensation based on the amount of net assets allocated to affiliated funds. **See "Other Contract Provisions – Selling the Contract."**

PREMIUM AND OTHER TAXES

Maximum Amount. Some states and municipalities charge a premium tax on annuities. These taxes currently range from 0% to 4%, depending upon the jurisdiction.

When/How. We reserve the right to deduct a charge for premium taxes from your account value or from purchase payments to the account at any time, but not before there is a tax liability under state law. For example, we may deduct a charge for premium taxes at the time of a complete withdrawal or we may reflect the cost of premium taxes in our income phase payment rates when you commence income phase payments.

We will not deduct a charge for any municipal premium tax of 1% or less, but we reserve the right to reflect such an expense in our annuity purchase rates.

In addition, we reserve the right to assess a charge for any federal taxes due against the separate account. See "Federal Tax Considerations."

YOUR ACCOUNT VALUE

During the accumulation phase your account value at any given time equals:

- The current dollar value of amounts invested in the subaccounts; plus
- The current dollar values of amounts invested in the fixed interest options, including interest earnings to date.

Subaccount Accumulation Units. When you select a fund as an investment option, your account dollars invest in “accumulation units” of the Separate Account B subaccount corresponding to that fund. The subaccount invests directly in the fund shares. The value of your interests in a subaccount is expressed as the number of accumulation units you hold multiplied by an “accumulation unit value,” as described below, for each unit.

Accumulation Unit Value (AUV). The value of each accumulation unit in a subaccount is called the accumulation unit value or AUV. The AUV varies daily in relation to the underlying fund’s investment performance. The value also reflects deductions for fund fees and expenses, the mortality and expense risk charge, the administrative expense charge, the premium bonus option charge (if any) and, for amounts allocated to the ING GET U.S. Core Portfolio subaccount only, the GET Fund guarantee charge. We discuss these deductions in more detail in “Fee Table” and “Fees.”

Valuation. We determine the AUV every normal business day after the close of the New York Stock Exchange (normally at 4:00 p.m. Eastern Time). At that time we calculate the current AUV by multiplying the AUV last calculated by the “net investment factor” of the subaccount. The net investment factor measures the investment performance of the subaccount from one valuation to the next.

$$\text{Current AUV} = \text{Prior AUV} \times \text{Net Investment Factor}$$

Net Investment Factor. The net investment factor for a subaccount between two consecutive valuations equals the sum of 1.0000 plus the net investment rate.

Net Investment Rate. The net investment rate is computed according to a formula that is equivalent to the following:

- The net assets of the fund held by the subaccount as of the current valuation; minus
- The net assets of the fund held by the subaccount at the preceding valuation; plus or minus
- Taxes or provisions for taxes, if any, due to subaccount operations (with any federal income tax liability offset by foreign tax credits to the extent allowed); divided by
- The total value of the subaccount’s units at the preceding valuation; minus
- A daily deduction for the mortality and expense risk charge and the administrative expense charge, if any, and any other fees deducted from investments in the separate account, such as the premium bonus option charge and guarantee charges for the GET fund. See “Fees.”

The net investment rate may be either positive or negative.

Hypothetical Illustration. As a hypothetical illustration, assume that your initial purchase payment to a qualified contract is \$5,000 and you direct us to invest \$3,000 in Fund A and \$2,000 in Fund B. Also assume that you did not elect the premium bonus option and on the day we receive the purchase payment the applicable AUV’s after the next close of business of the New York Stock Exchange are \$10 for Subaccount A and \$20 for Subaccount B. Your account is credited with 300 accumulation units of Subaccount A and 100 accumulation units of Subaccount B.

Step 1: You make an initial purchase payment of \$5000.

Step 2:

- A. You direct us to invest \$3,000 in Fund A. The purchase payment purchases 300 accumulation units of Subaccount A (\$3,000 divided by the current \$10 AUV).
- B. You direct us to invest \$2,000 in Fund B. The purchase payment purchases 100 accumulation units of Subaccount B (\$2,000 divided by the current \$20 AUV).

Step 3: The separate account purchases shares of the applicable funds at the then current market value (net asset value or NAV).

Each fund's subsequent investment performance, expenses and charges, and the daily charges deducted from the subaccount, will cause the AUV to move up or down on a daily basis.

Purchase Payments to Your Account. If all or a portion of your initial purchase payment is directed to the subaccounts, it will purchase subaccount accumulation units at the AUV next computed after our acceptance of your application as described in "Purchase and Rights." Subsequent purchase payments or transfers directed to the subaccounts will purchase subaccount accumulation units at the AUV next computed following our receipt of the purchase payment or transfer request in good order. The AUV will vary day to day.

WITHDRAWALS

You may withdraw all or a portion of your account value at any time during the accumulation phase.

Steps for Making A Withdrawal

- Select the withdrawal amount.
 - (1) Full Withdrawal: You will receive, reduced by any required withholding tax, your account value allocated to the subaccounts, the Guaranteed Account (plus or minus any applicable market value adjustment) and the Fixed Account, minus any applicable early withdrawal charge, annual maintenance fee and forfeited premium bonus.
 - (2) Partial Withdrawal (Percentage or Specified Dollar Amount): You will receive, reduced by any required withholding tax, the amount you specify, subject to the value available in your account. However, the amount actually withdrawn from your account will be adjusted by any applicable early withdrawal charge, any positive or negative market value adjustment for amounts withdrawn from the Guaranteed Account and any forfeited premium bonus. See Appendices I and II and the Guaranteed Account prospectus for more information about withdrawals from the Guaranteed Account and the Fixed Account.
- Select investment options. If you do not specify this, we will withdraw dollars from each investment option in which you have account value in the same proportion as that value bears to your total account value.
- Properly complete a disbursement form and deliver it to our Customer Service Center.

Calculation of Your Withdrawal. We determine your account value every normal business day after the close of the New York Stock Exchange. We pay withdrawal amounts based on your account value as of the next valuation after we receive a request for withdrawal in good order at our Customer Service Center.

Delivery of Payment. Payments for withdrawal requests will be made in accordance with SEC requirements. Normally, your withdrawal amount will be sent no later than seven calendar days following our receipt of your properly-completed disbursement form in good order.

Reinstating a Full Withdrawal. Within 30 days after a full withdrawal, if allowed by law and the contract, you may elect to reinstate all or a portion of your withdrawal. We must receive any reinstated amounts within 60 days of the withdrawal. We reserve the right, however, to accept a reinstatement election received more than 30 days after the withdrawal and accept proceeds received more than 60 days after the withdrawal. We will credit your account for the amount reinstated based on the subaccount values next computed following our receipt of your request and the amount to be reinstated. We will credit the amount reinstated proportionally for annual maintenance fees and early withdrawal charges imposed at the time of withdrawal. We will deduct from the amount reinstated any annual maintenance fee which fell due after the withdrawal and before the reinstatement. We will reinstate in the same investment options and proportions in place at the time of withdrawal. If you withdraw amounts from a series of the ING GET U.S. Core Portfolio and then elect to reinstate them, we will reallocate your GET amounts among other investment options in which you invested on a pro-rata basis. Previously, we would have reinstated them in a GET Fund series that was then accepting deposits. However, since June 21, 2007, no new series of the GET Fund are available. The reinstatement privilege may be used only once. Special rules apply to reinstatement of amounts withdrawn from the Guaranteed Account (see Appendix I and the Guaranteed Account prospectus). We will not credit your account for market value adjustments or any premium bonus forfeited that we deducted at the time of your withdrawal or refund any taxes that were withheld. Seek competent advice regarding the tax consequences associated with reinstatement.

SYSTEMATIC DISTRIBUTION OPTIONS

Systematic distribution options may be exercised at any time during the accumulation phase.

Features of a Systematic Distribution Option

A systematic distribution option allows you to receive regular payments from your contract without moving into the income phase. By remaining in the accumulation phase, you retain certain rights and investment flexibility not available during the income phase.

The following systematic distribution options may be available:

- **SWO—Systematic Withdrawal Option.** SWO is a series of automatic partial withdrawals from your account based on a payment method you select. Consider this option if you would like a periodic income while retaining investment flexibility for amounts accumulated in the account.
- **ECO—Estate Conservation Option.** ECO offers the same investment flexibility as SWO, but is designed for those who want to receive only the minimum distribution that the Tax Code requires each year. Under ECO we calculate the minimum distribution amount required by law, generally at age 70½, and pay you that amount once a year. ECO is not available under nonqualified contracts. An early withdrawal charge will not be deducted from and a market value adjustment will not be applied to any part of your account value paid under an ECO.
- **LEO—Life Expectancy Option.** LEO provides for annual payments for a number of years equal to your life expectancy or the life expectancy of you and a designated beneficiary. It is designed to meet the substantially equal periodic payment exception to the 10% premature distribution penalty under Tax Code section 72. See “Federal Tax Considerations.”

Other Systematic Distribution Options. We may add additional systematic distribution options from time to time. You may obtain additional information relating to any of the systematic distribution options from your sales representative or by calling us at the number listed in “Contract Overview—Questions: Contacting the Company.”

Systematic Distribution Option Availability. Withdrawals under a systematic distribution option are limited to your free withdrawal amount. See “Fees – Early Withdrawal Charge – Free Withdrawals.” If allowed by applicable law, we may discontinue the availability of one or more of the systematic distribution options for new elections at any time and/or to change the terms of future elections.

Eligibility for a Systematic Distribution Option. To determine if you meet the age and account value criteria and to assess terms and conditions that may apply, contact your sales representative or our Customer Service Center at the number listed in “Contract Overview—Questions: Contacting the Company.”

Terminating a Systematic Distribution Option. You may revoke a systematic distribution option at any time by submitting a written request to our Customer Service Center. ECO, once revoked, may not, unless allowed under the Tax Code, be elected again.

Charges and Taxation. When you elect a systematic distribution option your account value remains in the accumulation phase and subject to the charges and deductions described in the “Fees” and “Fee Table” sections. Taking a withdrawal under a systematic distribution option, or later revoking the option, may have tax consequences. If you are concerned about tax implications, consult a qualified tax adviser before electing an option.

DEATH BENEFIT

This section provides information about the death benefit during the accumulation phase. For death benefit information applicable to the income phase, see “The Income Phase.”

Terms to Understand: Account Year/Account Anniversary: A period of 12 months measured from the date we established your account and each anniversary of this date. Account anniversaries are measured from this date.

Annuitant(s): The person(s) on whose life or life expectancy(ies) the income phase payments are based.

Beneficiary(ies): The person(s) or entity(ies) entitled to receive a death benefit under the contract.

Claim Date: The date proof of death and the beneficiary's right to receive the death benefit are received in good order at our Customer Service Center. Please contact our Customer Service Center to learn what information is required for a request for payment of the death benefit to be in good order.

Contract Holder (You/Your): The contract holder of an individually owned contract or the certificate holder of a group contract. The contract holder and annuitant may be the same person.

Schedule Effective Date: The date an option package and benefits become effective. The initial schedule effective date equals the date we established your account. Thereafter, this date can occur only on an account anniversary.

During the Accumulation Phase

When is a Death Benefit Payable? During the accumulation phase a death benefit is payable when the contract holder or the annuitant dies. If there are joint contract holders, the death benefit is payable when either one dies.

Who Receives the Death Benefit? If you would like certain individuals or entities to receive the death benefit when it becomes payable, you may name them as your beneficiaries. However, if you are a joint contract holder and you die, the beneficiary will automatically be the surviving joint contract holder. In this circumstance any other beneficiary you named will be treated as the primary or contingent beneficiary, as originally named, of the surviving joint contract holder. The surviving joint contract holder may change the beneficiary designation. If you die and no beneficiary exists, the death benefit will be paid in a lump sum to your estate.

Designating Your Beneficiary. You may designate a beneficiary on your application or by contacting your sales representative or us as indicated in "Contract Overview—Questions: Contacting the Company."

Death Benefit Amount. The death benefit depends upon the option package in effect on the date the annuitant dies.

	Option Package I	Option Package II	Option Package III
Death Benefit on Death of the Annuitant:	The greater of: (1) The sum of all purchase payments, adjusted for amounts withdrawn or applied to an income phase payment option as of the claim date; or (2) The account value* on the claim date.	The greatest of: (1) The sum of all purchase payments, adjusted for amounts withdrawn or applied to an income phase payment option as of the claim date; or (2) The account value* on the claim date; or (3) The "step-up value"* (as described below) on the claim date.	The greatest of: (1) The sum of all purchase payments, adjusted for amounts withdrawn or applied to an income phase payment option as of the claim date; or (2) The account value* on the claim date; or (3) The "step-up value"* (as described below) on the claim date; or (4) The "roll-up value"* (as described below) on the claim date.

* For purposes of calculating the death benefit, the account value, step-up value and roll-up value will be reduced by the amount of any premium bonus credited to your account after or within 12 months of the date of death. See "Premium Bonus Option—Forfeiture."

Step-up Value. On the schedule effective date, the step-up value is equal to the greater of:

- The account value; or
- The step-up value, if any, calculated on the account anniversary prior to the schedule effective date, adjusted for purchase payments made and amounts withdrawn or applied to an income phase payment option during the prior account year.

Thereafter, once each year on the anniversary of the schedule effective date until the anniversary immediately preceding the annuitant's 85th birthday or death, whichever is earlier, the step-up value is equal to the greater of:

- The step-up value most recently calculated, adjusted for purchase payments made and amounts withdrawn or applied to an income phase payment option during the prior account year; or
- The account value on that anniversary of the schedule effective date.

On each anniversary of the schedule effective date after the annuitant's 85th birthday, the step-up value shall be equal to the step-up value on the anniversary immediately preceding the annuitant's 85th birthday, adjusted for purchase payments made and amounts withdrawn or applied to an income phase payment option since that anniversary.

On the claim date, the step-up value shall equal the step-up value on the anniversary of the schedule effective date immediately preceding the annuitant's death, adjusted for purchase payments made and amounts withdrawn or applied to an income phase payment option since that anniversary.

For purposes of calculating the death benefit, the step-up value will be reduced by the amount of any premium bonus credited to your account after or within 12 months of the date of death. See "Premium Bonus Option—Forfeiture."

Roll-up Value. On the schedule effective date, the roll-up value is equal to the account value. Thereafter, once each year on the anniversary of the schedule effective date until the anniversary immediately preceding the annuitant's 76th birthday or death, whichever is earlier, the roll-up value is equal to the roll-up value most recently calculated multiplied by a factor of 1.05, adjusted for purchase payments made and amounts withdrawn or applied to an income phase payment option during the prior account year. The roll-up value may not exceed 200% of the account value on the schedule effective date, adjusted for purchase payments made and amounts withdrawn or applied to an income phase payment option since that date.

On each anniversary of the schedule effective date after the annuitant's 76th birthday, the roll-up value shall be equal to the roll-up value on the anniversary immediately preceding the annuitant's 76th birthday, adjusted for purchase payments made and amounts withdrawn or applied to an income phase payment option since that anniversary. On the claim date, the roll-up value shall equal the roll-up value on the anniversary of the schedule effective date immediately preceding the annuitant's death, adjusted for purchase payments made and amounts withdrawn or applied to an income phase payment option since that anniversary.

For purposes of calculating the death benefit, the roll-up value will be reduced by the amount of any premium bonus credited to your account after or within 12 months of the date of death. See "Premium Bonus Option—Forfeiture."

Adjustment. For purposes of determining the death benefit, the adjustment for purchase payments made will be dollar for dollar. The adjustment for amounts withdrawn or applied to an income phase payment option will be proportionate, reducing the sum of all purchase payments made, the step-up value and the roll-up value in the same proportion that the account value was reduced on the date of the withdrawal or application to an income phase payment option.

Death Benefit Greater than the Account Value. Notwithstanding which option package is selected, on the claim date, if the amount of the death benefit is greater than the account value, the amount by which the death benefit exceeds the account value will be deposited and allocated to the money market subaccount available under the contract, thereby increasing the account value available to the beneficiary to an amount equal to the death benefit.

Prior to the election of a method of payment of the death benefit by the beneficiary, the account value will remain in the account and continue to be affected by the investment performance of the investment option(s) selected. The beneficiary has the right to allocate or transfer any amount to any available investment option (subject to a market value adjustment, as applicable). The amount paid to the beneficiary will equal the adjusted account value on the day the payment is processed. Subject to the conditions and requirements of state law, unless the beneficiary elects otherwise, the distribution will generally be made into an interest bearing account, backed by our general account. This account is not FDIC insured and can be accessed by the beneficiary through a draftbook feature. The beneficiary may access death benefit proceeds at any time without penalty. Interest earned on this account may be less than interest paid on other settlement options, and the Company seeks to make a profit on these accounts. We will generally distribute death benefit proceeds within 7 days after our Customer Service Center has received sufficient information to make the payment. For more information on required distributions under federal income tax laws, you should see "Required Distributions." At the time of death benefit election, the beneficiary may elect to receive the death benefit proceeds directly by check rather than through the draftbook feature of the interest bearing account by notifying the Customer Service Center. Beneficiaries should carefully review all settlement and payment options available under the contract and are encouraged to consult with a financial professional or tax advisor before choosing a settlement or payment option.

Death Benefit Amounts in Certain Cases

If a Spousal Beneficiary Continues the Account Following the Death of the Contract Holder/Annuitant. If a spousal beneficiary continues the account at the death of a contract holder who was also the annuitant, the spousal beneficiary becomes the annuitant. The option package in effect at the death of the contract holder will also apply to the spousal beneficiary, unless later changed by the spousal beneficiary. The premium bonus option charge, if any, will continue, unless the premium bonus was forfeited when calculating the account value, step-up value and roll-up value on the death of the original contract holder/annuitant.

The amount of the death benefit payable at the death of a spousal beneficiary who has continued the account shall be determined under the option package then in effect, except that:

- (1) In calculating the sum of all purchase payments, adjusted for amounts withdrawn or applied to an income phase payment option, the account value on the claim date following the original contract holder's/annuitant's death shall be treated as the spousal beneficiary's initial purchase payment;
- (2) In calculating the step-up value, the step-up value on the claim date following the original contract holder's/annuitant's death shall be treated as the spousal beneficiary's initial step-up value; and
- (3) In calculating the roll-up value, the roll-up value on the claim date following the original contract holder's/annuitant's death shall be treated as the initial roll-up value.

If the Contract Holder is not the Annuitant. Under nonqualified contracts only, the death benefit described above under Option Packages I, II and III will not apply if a contract holder (including a spousal beneficiary who has continued the account) who is not also the annuitant dies. In these circumstances the amount paid will be equal to the account value on the date the payment is processed, plus or minus any market value adjustment. An early withdrawal charge may apply to any full or partial payment of this death benefit.

Because the death benefit in these circumstances equals the account value, plus or minus any market value adjustment, a contract holder who is not also the annuitant should seriously consider whether Option Packages II and III are suitable for their circumstances.

If the spousal beneficiary who is the annuitant continues the account at the death of the contract holder who was not the annuitant, the annuitant will not change. The option package in effect at the death of the contract holder will also apply to the spousal beneficiary, unless later changed by the spousal beneficiary, and the death benefit payable at the spousal beneficiary's death shall be determined under the option package then in effect.

Guaranteed Account. For amounts held in the Guaranteed Account, see Appendix I for a discussion of the calculation of the death benefit.

Death Benefit—Methods of Payment

For Qualified Contracts. Under a qualified contract, if the annuitant dies the beneficiary may choose one of the following three methods of payment:

- Apply some or all of the account value, plus or minus any market value adjustment, to any of the income phase payment options (subject to the Tax Code distribution rules). See "Federal Tax Considerations";
- Receive, at any time, a lump-sum payment equal to all or a portion of the account value, plus or minus any market value adjustment; or
- Elect SWO, ECO or LEO (described in "Systematic Distribution Options"), provided the election would satisfy the Tax Code minimum distribution rules.

Payments from a Systematic Distribution Option. If the annuitant was receiving payments under a systematic distribution option and died before the Tax Code's required beginning date for minimum distributions, payments under the systematic distribution option will stop. The beneficiary, or contract holder on behalf of the beneficiary, may elect a systematic distribution option provided the election is permitted under the Tax Code minimum distribution rules. If the annuitant dies after the required beginning date for minimum distributions, payments will continue as permitted under the Tax Code minimum distribution rules, unless the option is revoked.

Distribution Requirements. Subject to Tax Code limitations, a beneficiary may be able to defer distribution of the death benefit. Death benefit payments must satisfy the distribution rules in Tax Code Section 401(a)(9). See “Federal Tax Considerations.”

For Nonqualified Contracts.

- (1) If you die and the beneficiary is your surviving spouse, or if you are a non-natural person and the annuitant dies and the beneficiary is the annuitant’s surviving spouse, then the beneficiary becomes the successor contract holder. In this circumstance the Tax Code does not require distributions under the contract until the successor contract holder’s death.

As the successor contract holder, the beneficiary may exercise all rights under the account and has the following options:

- (a) Continue the contract in the accumulation phase;
- (b) Elect to apply some or all of the account value, plus or minus any market value adjustment, to any of the income phase payment options; or
- (c) Receive at any time a lump-sum payment equal to all or a portion of the account value, plus or minus any market value adjustment.

If you die and are not the annuitant, an early withdrawal charge will apply if a lump sum is elected.

- (2) If you die and the beneficiary is not your surviving spouse, he or she may elect option 1(b) or option 1(c) above (subject to the Tax Code distribution rules). See “Federal Tax Considerations.”

In this circumstance the Tax Code requires any portion of the account value, plus or minus any market value adjustment, not distributed in installments over the beneficiary’s life or life expectancy, beginning within one year of your death, must be paid within five years of your death. See “Federal Tax Considerations.”

- (3) If you are a natural person but not the annuitant and the annuitant dies, the beneficiary may elect option 1(b) or 1(c) above. If the beneficiary does not elect option 1(b) within 60 days from the date of death, the gain, if any, will be included in the beneficiary’s income in the year the annuitant dies.

Payments from a Systematic Distribution Option. If the contract holder or annuitant dies and payments were made under SWO, payments will stop. A beneficiary, however, may elect to continue SWO.

Taxation. In general, payments received by your beneficiary after your death are taxed to the beneficiary in the same manner as if you had received those payments. Additionally, your beneficiary may be subject to tax penalties if he or she does not begin receiving death benefit payments within the time-frame required by the Tax Code. See “Federal Tax Considerations.”

THE INCOME PHASE

During the income phase you stop contributing dollars to your account and start receiving payments from your accumulated account value.

Initiating Payments. At least 30 days prior to the date you want to start receiving payments you must notify us in writing of all of the following:

- Payment start date;
- Income phase payment option (see the income phase payment options table in this section);
- Payment frequency (i.e., monthly, quarterly, semi-annually or annually);
- Choice of fixed, variable or a combination of both fixed and variable payments; and
- Selection of an assumed net investment rate (only if variable payments are elected).

Your account will continue in the accumulation phase until you properly initiate income phase payments. Once an income phase payment option is selected it may not be changed.

What Affects Payment Amounts? Some of the factors that may affect the amount of your income phase payments include your age, gender, account value, the income phase payment option selected, the number of guaranteed payments (if any) selected and whether you select fixed, variable or a combination of both fixed and variable payments and, for variable payments, the assumed net investment rate selected.

Fixed Payments. Amounts funding fixed income phase payments will be held in the Company's general account. The amount of fixed payments does not vary with investment performance over time.

Variable Payments. Amounts funding your variable income phase payments will be held in the subaccount(s) you select. Not all subaccounts available during the accumulation phase may be available during the income phase. Payment amounts will vary depending upon the performance of the subaccounts you select. For variable income phase payments, you must select an assumed net investment rate.

Assumed Net Investment Rate. If you select variable income phase payments, you must also select an assumed net investment rate of either 5% or 3½%. If you select a 5% rate, your first income phase payment will be higher, but subsequent payments will increase only if the investment performance of the subaccounts you selected is greater than 5% annually, after deduction of fees. Payment amounts will decline if the investment performance is less than 5%, after deduction of fees.

If you select a 3½% rate, your first income phase payment will be lower and subsequent payments will increase more rapidly or decline more slowly depending upon changes to the net investment rate of the subaccounts you selected. For more information about selecting an assumed net investment rate, call us for a copy of the SAI. See "Contract Overview—Questions: Contacting the Company."

Minimum Payment Amounts. The income phase payment option you select must result in:

- A first income phase payment of at least \$50; and
- Total yearly income phase payments of at least \$250.

If your account value is too low to meet these minimum payment amounts, you will receive one lump-sum payment. Unless prohibited by law, we reserve the right to increase the minimum payment amount based on increases reflected in the Consumer Price Index-Urban (CPI-U) since July 1, 1993.

Restrictions on Start Dates and the Duration of Payments. Income phase payments may not begin during the first account year, or, unless we consent, later than the later of:

- (a) The first day of the month following the annuitant's 85th birthday; or
- (b) The tenth anniversary of the last purchase payment made to your account.

Income phase payments will not begin until you have selected an income phase payment option. Failure to select an income phase payment option by the later of the annuitant's 85th birthday or the tenth anniversary of your last purchase payment may have adverse tax consequences. You should consult with a qualified tax adviser if you are considering delaying the selection of an income phase payment option before the later of these dates.

For qualified contracts only, income phase payments may not extend beyond:

- (a) The life of the annuitant;
- (b) The joint lives of the annuitant and beneficiary;
- (c) A guaranteed period greater than the annuitant's life expectancy; or
- (d) A guaranteed period greater than the joint life expectancies of the annuitant and beneficiary.

When income phase payments start, the age of the annuitant plus the number of years for which payments are guaranteed may not exceed 95.

If income phase payments start when the annuitant is at an advanced age, such as over 85, it is possible that the contract will not be considered an annuity for federal tax purposes.

See "Federal Tax Considerations" for further discussion of rules relating to income phase payments.

Charges Deducted.

- If variable income phase payments are selected, we make a daily deduction for mortality and expense risks from amounts held in the subaccounts. Therefore, if you choose variable income phase payments and a nonlifetime income phase payment option, we still make this deduction from the subaccounts you select, even though we no longer assume any mortality risks. The amount of this charge, on an annual basis, is equal to 1.25% of amounts invested in the subaccounts. See “Fees—Mortality and Expense Risk Charge.”
- There is currently no administrative expense charge during the income phase. We reserve the right, however, to charge an administrative expense charge of up to 0.25% during the income phase. If imposed, we deduct this charge daily from the subaccounts corresponding to the funds you select. If we are imposing this charge when you enter the income phase, the charge will apply to you during the entire income phase. See “Fees—Administrative Expense Charge.”
- If you elected the premium bonus option and variable income phase payments, we may also deduct the premium bonus option charge. We deduct this charge daily during the first seven account years from the subaccounts corresponding to the funds you select. If fixed income phase payments are selected, this charge may be reflected in the income phase payment rates. See “Fees—Premium Bonus Option Charge.”

Death Benefit during the Income Phase. The death benefits that may be available to a beneficiary are outlined in the income phase payment options table below. If a lump-sum payment is due as a death benefit, we will make payment within seven calendar days after we receive proof of death acceptable to us and the request for the payment in good order at our Customer Service Center. Unless the beneficiary elects otherwise, the distribution will be made into an interest bearing account, backed by our general account, that is accessed by the beneficiary through a checkbook feature. The beneficiary may access death benefit proceeds at any time without penalty. Interest earned on this account may be less than interest paid on other settlement options. If continuing income phase payments are elected, the beneficiary may not elect to receive a lump sum at a future date unless the income phase payment option specifically allows a withdrawal right. We will calculate the value of any death benefit at the next valuation after we receive proof of death and a request for payment. Such value will be reduced by any payments made after the date of death.

Beneficiary Rights. A beneficiary’s right to elect an income phase payment option or receive a lump-sum payment may have been restricted by the contract holder. If so, such rights or options will not be available to the beneficiary.

Partial Entry into the Income Phase. You may elect an income phase payment option for a portion of your account dollars, while leaving the remaining portion invested in the accumulation phase. Whether the Tax Code considers such payments taxable as income phase payments or as withdrawals is currently unclear; therefore, you should consult with a qualified tax adviser before electing this option. The same or different income phase payment option may be selected for the portion left invested in the accumulation phase.

Taxation. To avoid certain tax penalties, you or your beneficiary must meet the distribution rules imposed by the Tax Code. Additionally, when selecting an income phase payment option, the Tax Code requires that your expected payments will not exceed certain durations. See “Federal Tax Considerations” for additional information.

Payment Options.

The following table lists the income phase payment options and accompanying death benefits available during the income phase. We may offer additional income phase payment options under the contract from time to time. Once income phase payments begin the income phase payment option selected may not be changed.

Terms to understand:

Annuitant(s): The person(s) on whose life expectancy(ies) the income phase payments are based.

Beneficiary(ies): The person(s) or entity(ies) entitled to receive a death benefit under the contract.

Lifetime Income Phase Payment Options

Life Income	<p>Length of Payments: For as long as the annuitant lives. It is possible that only one payment will be made if the annuitant dies prior to the second payment's due date.</p> <p>Death Benefit—None: All payments end upon the annuitant's death.</p>
Life Income— Guaranteed Payments	<p>Length of Payments: For as long as the annuitant lives, with payments guaranteed for your choice of 5 to 30 years or as otherwise specified in the contract.</p> <p>Death Benefit—Payment to the Beneficiary: If the annuitant dies before we have made all the guaranteed payments, we will continue to pay the beneficiary the remaining payments, unless the beneficiary elects to receive a lump-sum payment equal to the present value of the remaining guaranteed payments.</p>
Life Income— Two Lives	<p>Length of Payments: For as long as either annuitant lives. It is possible that only one payment will be made if both annuitants die before the second payment's due date.</p> <p>Continuing Payments: When you select this option you choose for:</p> <ul style="list-style-type: none"> (a) 100%, 66 2/3% or 50% of the payment to continue to the surviving annuitant after the first death; or (b) 100% of the payment to continue to the annuitant on the second annuitant's death, and 50% of the payment to continue to the second annuitant on the annuitant's death. <p>Death Benefit—None: All payments end upon the death of both annuitants.</p>
Life Income— Two Lives— Guaranteed Payments	<p>Length of Payments: For as long as either annuitant lives, with payments guaranteed from 5 to 30 years or as otherwise specified in the contract.</p> <p>Continuing Payments: 100% of the payment to continue to the surviving annuitant after the first death.</p> <p>Death Benefit—Payment to the Beneficiary: If both annuitants die before we have made all the guaranteed payments, we will continue to pay the beneficiary the remaining payments, unless the beneficiary elects to receive a lump-sum payment equal to the present value of the remaining guaranteed payments.</p>
Life Income— Cash Refund Option (limited availability—fixed payments only)	<p>Length of Payments: For as long as the annuitant lives.</p> <p>Death Benefit—Payment to the Beneficiary: Following the annuitant's death, we will pay a lump sum payment equal to the amount originally applied to the income phase payment option (less any applicable premium tax) and less the total amount of income payments paid.</p>
Life Income—Two Lives—Cash Refund Option (limited availability—fixed payments only)	<p>Length of Payments: For as long as either annuitant lives.</p> <p>Continuing Payments: 100% of the payment to continue after the first death.</p> <p>Death Benefit—Payment to the Beneficiary: When both annuitants die we will pay a lump-sum payment equal to the amount applied to the income phase payment option (less any applicable premium tax) and less the total amount of income payments paid.</p>

Nonlifetime Income Phase Payment Option

Nonlifetime— Guaranteed Payments	<p>Length of Payments: You may select payments for 5 to 30 years (15 to 30 years if you elected the premium bonus option). In certain cases a lump-sum payment may be requested at any time (see below).</p> <p>Death Benefit—Payment to the Beneficiary: If the annuitant dies before we make all the guaranteed payments, we will continue to pay the beneficiary the remaining payments, unless the beneficiary elects to receive a lump-sum payment equal to the present value of the remaining guaranteed payments. We will not impose any early withdrawal charge.</p>
--	--

Lump-Sum Payment: If the "Nonlifetime—Guaranteed Payments" option is elected with variable payments, you may request at any time that all or a portion of the present value of the remaining payments be paid in one lump sum. Any such lump-sum payments will be treated as a withdrawal during the accumulation phase and we will charge any applicable early withdrawal charge. See "Fees—Early Withdrawal Charge." Lump-sum payments will be sent within seven calendar days after we receive the request for payment in good order at our Customer Service Center.

Calculation of Lump-Sum Payments: If a lump-sum payment is available under the income phase payment options above, the rate used to calculate the present value of the remaining guaranteed payments is the same rate we used to calculate the income phase payments (i.e., the actual fixed rate used for fixed payments or the 3½% or 5% assumed net investment rate used for variable payments).

FEDERAL TAX CONSIDERATIONS

Introduction

This section discusses our understanding of current federal income tax laws affecting the contract. Federal income tax treatment of the contract is complex and sometimes uncertain. You should keep the following in mind when reading it:

- Your tax position (or the tax position of the designated beneficiary, as applicable) determines federal taxation of amounts held or paid out under the contract;
- Tax laws change. It is possible that a change in the future could affect contracts issued in the past;
- This section addresses some but not all applicable federal income tax rules and does not discuss federal estate and gift tax implications, state and local taxes, or any other tax provisions; and
- We do not make any guarantee about the tax treatment of the contract or transactions involving the contract.

We do not intend this information to be tax advice. For advice about the effect of federal income taxes or any other taxes on amounts held or paid out under the contract, consult a tax adviser.

Types of Contracts: Non-Qualified or Qualified

The Contract may be purchased on a non-tax-qualified basis (non-qualified contracts) or purchased on a tax-qualified basis (qualified contracts).

Non-qualified contracts are purchased with after tax contributions and are not related to retirement plans that receive special income tax treatment under the Tax Code.

Qualified Contracts are designed for use by individuals whose premium payments are comprised solely of proceeds from and/or contributions to retirement plans that are intended to qualify for special income tax treatment under Sections 401, 408 or 408A, and some provisions of 403 and 457 of the Tax Code.

Effective January 1, 2009, except in the case of a rollover contribution as permitted under the Tax Code or as a result of an intra-plan exchange or plan-to-plan transfer described under the Final Regulations, contributions to a section 403(b) tax sheltered annuity contract may only be made by the Employer sponsoring the Plan under which the assets in your contract are covered subject to the applicable Treasury Regulations and only if the Company, in its sole discretion, agrees to be an approved provider.

Taxation of Non-Qualified Contracts

Premiums

You may not deduct the amount of your premiums to a non-qualified contract.

Taxation of Gains Prior to Distribution

Tax Code Section 72 governs taxation of annuities in general. We believe that if you are a natural person you will generally not be taxed on increases in the value of a non-qualified Contract until a distribution occurs or until annuity payments begin. This assumes that the Contract will qualify as an annuity contract for federal income tax purposes. For these purposes, the agreement to assign or pledge any portion of the contract value generally will be treated as a distribution. In order to be eligible to receive deferral of taxation, the following requirements must be satisfied:

Diversification. Tax Code Section 817(h) requires that in a nonqualified contract the investments of the funds be “adequately diversified” in accordance with Treasury Regulations in order for the Contract to qualify as an annuity contract under federal tax law. The separate account, through the funds, intends to comply with the diversification requirements prescribed by Tax Code Section 817(h) and by the Treasury in Reg. Sec. 1.817-5, which affects how the funds’ assets may be invested. If it is determined, however, that your Contract does not satisfy the applicable diversification requirements and rulings because a subaccount’s corresponding fund fails to be adequately diversified for whatever reason, we will take appropriate steps to bring your Contract into compliance with such regulations and rulings, and we reserve the right to modify your Contract as necessary to do so.

Investor Control. Although earnings under non-qualified contracts are generally not taxed until withdrawn, the Internal Revenue Service (IRS) has stated in published rulings that a variable contract owner will be considered the owner of separate account assets if the contract owner possesses incidents of investment control over the assets. In these circumstances, income and gains from the separate account assets would be currently includible in the variable contract owner’s gross income.

Future guidance regarding the extent to which owners could direct their investments among subaccounts without being treated as owners of the underlying assets of the separate account may adversely affect the tax treatment of existing contracts. The Company therefore reserves the right to modify the contract as necessary to attempt to prevent the contract holder from being considered the federal tax owner of a pro rata share of the assets of the separate account.

Required Distributions. In order to be treated as an annuity contract for federal income tax purposes, the Tax Code requires any non-qualified Contract to contain certain provisions specifying how your interest in the Contract will be distributed in the event of your death. The non-qualified Contracts contain provisions that are intended to comply with these Tax Code requirements, although no regulations interpreting these requirements have yet been issued. When such requirements are clarified by regulation or otherwise, we intend to review such distribution provisions and modify them if necessary to assure that they comply with the applicable requirements.

Non-Natural Holders of a Non-Qualified Contract. If you are not a natural person, a non-qualified contract generally is not treated as an annuity for income tax purposes and the income on the contract for the taxable year is currently taxable as ordinary income. Income on the contract is any increase in the contract value over the “investment in the contract” (generally, the premiums or other consideration you paid for the contract less any nontaxable withdrawals) during the taxable year. There are some exceptions to this rule and a non-natural person should consult with its tax adviser prior to purchasing the Contract. When the contract owner is not a natural person, a change in the annuitant is treated as the death of the contract owner.

Delayed Annuity Starting Date. If the Contract’s annuity starting date occurs (or is scheduled to occur) at a time when the annuitant has reached an advanced age (e.g., after age 85), it is possible that the Contract would not be treated as an annuity for federal income tax purposes. In that event, the income and gains under the Contract could be currently includible in your income.

Taxation of Distributions

General. When a withdrawal from a non-qualified Contract occurs, the amount received will be treated as ordinary income subject to tax up to an amount equal to the excess (if any) of the contract value (unreduced by the amount of any surrender charge) immediately before the distribution over the contract owner’s investment in the contract at that time. Investment in the contract is generally equal to the amount of all premiums to the contract, plus amounts previously included in your gross income as the result of certain loans, assignments or gifts, less the aggregate amount of non-taxable distributions previously made.

In the case of a surrender under a non-qualified Contract, the amount received generally will be taxable only to the extent it exceeds the contract owner’s investment in the contract (cost basis).

10% Penalty Tax. A distribution from a non-qualified Contract may be subject to a federal tax penalty equal to 10% of the amount treated as income. In general, however, there is no penalty on distributions:

	made on or after the taxpayer reaches age 59½;
	made on or after the death of a contract owner (the annuitant if the contract owner is a non-natural person);
	attributable to the taxpayer’s becoming disabled as defined in the Tax Code;
	made as part of a series of substantially equal periodic payments (at least annually) over your life or life expectancy or the joint lives or joint life expectancies of you and your designated beneficiary; or
	the distribution is allocable to investment in the contract before August 14, 1982.

The 10% penalty does not apply to distributions from an immediate annuity as defined in the Tax Code. Other exceptions may be applicable under certain circumstances and special rules may be applicable in connection with the exceptions enumerated above. A tax adviser should be consulted with regard to exceptions from the penalty tax.

Tax-Free Exchanges. Section 1035 of the Tax Code permits the exchange of a life insurance, endowment or annuity contract for an annuity contract on a tax-free basis. In such instance, the “investment in the contract” in the old contract will carry over to the new contract. You should consult with your tax advisor regarding procedures for making Section 1035 exchanges.

If your Contract is purchased through a tax-free exchange of a life insurance, endowment or annuity contract that was purchased prior to August 14, 1982, then any distributions other than annuity payments will be treated, for tax purposes, as coming:

- | |
|---|
| First, from any remaining “investment in the contract” made prior to August 14, 1982 and exchanged into the Contract; |
| Next, from any “income on the contract” attributable to the investment made prior to August 14, 1982; |
| Then, from any remaining “income on the contract;” and |
| Lastly, from any remaining “investment in the contract.” |

The IRS has concluded that in certain instances, the partial exchange of a portion of one annuity contract for another contract will be tax-free. Pursuant to IRS guidance, receipt of partial withdrawals or surrenders from either the original contract or the new contract during the 180 day period beginning on the date of the partial exchange may retroactively negate the partial exchange. If the partial exchange is retroactively negated, the partial withdrawal or surrender of the original contract will be treated as a withdrawal, taxable as ordinary income to the extent of gain in the original contract and, if the partial exchange occurred prior to you reaching age 59½, may be subject to an additional 10% tax penalty. We are not responsible for the manner in which any other insurance company, for tax reporting purposes, or the IRS, with respect to the ultimate tax treatment, recognizes or reports a partial exchange. We strongly advise you to discuss any proposed 1035 exchange or subsequent distribution within 180 days of a partial exchange with your tax advisor prior to proceeding with the transaction.

Taxation of Annuity Payments. Although tax consequences may vary depending on the payment option elected under an annuity contract, a portion of each annuity payment is generally not taxed and the remainder is taxed as ordinary income. The non-taxable portion of an annuity payment is generally determined in a manner that is designed to allow you to recover your investment in the contract ratably on a tax-free basis over the expected stream of annuity payments, as determined when annuity payments start. Once your investment in the contract has been fully recovered, however, the full amount of each subsequent annuity payment is subject to tax as ordinary income.

On September 27, 2010, President Obama signed into law the Small Business Jobs Act of 2010, which included language that permits the partial annuitization of non-qualified annuities, effective for amounts received in taxable years beginning after December 31, 2010. The provision applies an exclusion ratio to any amount received as an annuity under a portion of an annuity provided that the annuity payments are made for a period of 10 years or more or for life. Please consult your tax adviser before electing a partial annuitization.

Death Benefits. Amounts may be distributed from a Contract because of your death or the death of the annuitant. Generally, such amounts are includible in the income of the recipient as follows: (i) if distributed in a lump sum, they are taxed in the same manner as a surrender of the Contract, or (ii) if distributed under a payment option, they are taxed in the same way as annuity payments. Special rules may apply to amounts distributed after a Beneficiary has elected to maintain Contract value and receive payments.

Different distribution requirements apply if your death occurs:

- | |
|---|
| After you begin receiving annuity payments under the Contract; or |
| Before you begin receiving such distributions. |

If your death occurs after you begin receiving annuity payments, distributions must be made at least as rapidly as under the method in effect at the time of your death.

If your death occurs before you begin receiving annuity payments, your entire balance must be distributed within five years after the date of your death. For example, if you die on September 1, 2013, your entire balance must be distributed by August 31, 2018. However, if distributions begin within one year of your death, then payments may be made over one of the following timeframes:

- | |
|---|
| Over the life of the designated beneficiary; or |
| Over a period not extending beyond the life expectancy of the designated beneficiary. |

If the designated beneficiary is your spouse, the contract may be continued with the surviving spouse as the new contract owner. If the contract owner is a non-natural person and the primary annuitant dies, the same rules apply on the death of the primary annuitant as outlined above for the death of a contract owner.

The Contract offers a death benefit that may exceed the greater of the premium payments and the contract value. Certain charges are imposed with respect to the death benefit. It is possible that these charges (or some portion thereof) could be treated for federal tax purposes as a distribution from the Contract.

Assignments and Other Transfers. A transfer, pledge or assignment of ownership of a non-qualified contract, the selection of certain annuity dates, or the designation of an annuitant or payee other than an owner may result in certain tax consequences to you that are not discussed herein. The assignment, pledge or agreement to assign or pledge any portion of the contract value generally will be treated as a distribution. Anyone contemplating any such transfer, pledge, assignment, or designation or exchange, should consult a tax adviser regarding the potential tax effects of such a transaction.

Immediate Annuities. Under Section 72 of the Tax Code, an immediate annuity means an annuity (1) which is purchased with a single premium, (2) with annuity payments starting within one year from the date of purchase, and (3) which provides a series of substantially equal periodic payments made annually or more frequently. While this Contract is not designed as an immediate annuity, treatment as an immediate annuity would have significance with respect to exceptions from the 10% early withdrawal penalty, to contracts owned by non-natural persons, and for certain exchanges.

Multiple Contracts. Tax laws require that all non-qualified deferred annuity contracts that are issued by a company or its affiliates to the same contract owner during any calendar year be treated as one annuity contract for purposes of determining the amount includible in gross income under Tax Code Section 72(e). In addition, the Treasury Department has specific authority to issue regulations that prevent the avoidance of Tax Code Section 72(e) through the serial purchase of annuity contracts or otherwise.

Withholding. We will withhold and remit to the IRS a part of the taxable portion of each distribution made under a Contract unless the distributee notifies us at or before the time of the distribution that he or she elects not to have any amounts withheld. Withholding is mandatory, however, if the distributee fails to provide a valid taxpayer identification number or if we are notified by the IRS that the taxpayer identification number we have on file is incorrect. The withholding rates applicable to the taxable portion of periodic annuity payments are the same as the withholding rates generally applicable to payments of wages. In addition, a 10% withholding rate applies to the taxable portion of non-periodic payments. Regardless of whether you elect to have federal income tax withheld, you are still liable for payment of federal income tax on the taxable portion of the payment.

Certain states have indicated that state income tax withholding will also apply to payments from the contracts made to residents. Generally, an election out of federal withholding will also be considered an election out of state withholding. In some states, you may elect out of state withholding, even if federal withholding applies. If you need more information concerning a particular state or any required forms, please contact our Customer Service Center.

If you or your designated beneficiary is a non-resident alien, then any withholding is governed by Tax Code Section 1441 based on the individual's citizenship, the country of domicile and treaty status, and we may require additional documentation prior to processing any requested transaction.

Taxation of Qualified Contracts

General

The Contracts are primarily designed for use with IRAs under Tax Code Sections 401, 408 or 408A, and some provisions of 403 and 457 (We refer to all of these as "qualified plans"). The tax rules applicable to participants in these qualified plans vary according to the type of plan and the terms and conditions of the plan itself. The ultimate effect of federal income taxes on the amounts held under a Contract, or on annuity payments, depends on the type of retirement plan as well as your particular facts and circumstances. Special favorable tax treatment may be available for certain types of contributions and distributions. In addition, certain requirements must be satisfied in purchasing a qualified contract with proceeds from a tax-qualified plan in order to continue receiving favorable tax treatment.

Adverse tax consequences may result from: contributions in excess of specified limits; distributions before age 59½ (subject to certain exceptions); distributions that do not conform to specified commencement and minimum distribution rules; and in other specified circumstances. Some qualified plans may be subject to additional distribution or other requirements that are not incorporated into the Contract. No attempt is made to provide more than general information about the use of the Contracts with qualified plans. Contract owners, annuitants, and beneficiaries are cautioned that the rights of any person to any benefits under these qualified plans may be subject to the terms and conditions of the plans themselves, regardless of the terms and conditions of the Contract. The Company is not bound by the terms and conditions of such plans to the extent such terms contradict the Contract, unless we consent.

Contract owners and beneficiaries generally are responsible for determining that contributions, distributions and other transactions with respect to the contract comply with applicable law. Therefore, you should seek competent legal and tax advice regarding the suitability of a contract for your particular situation. The following discussion assumes that qualified contracts are purchased with proceeds from and/or contributions under retirement plans or programs that qualify for the intended special federal tax treatment.

Tax Deferral

Under the federal tax laws, earnings on amounts held in annuity contracts are generally not taxed until they are withdrawn. However, in the case of a qualified plan (as defined in this prospectus), an annuity contract is not necessary to obtain this favorable tax treatment and does not provide any tax benefits beyond the deferral already available to the qualified plan itself. Annuities do provide other features and benefits (such as guaranteed living benefits and/or death benefits or the option of lifetime income phase options at established rates) that may be valuable to you. You should discuss your alternatives with your financial representative taking into account the additional fees and expenses you may incur in an annuity.

Section 401(a), 401(k), Roth 401(k), and 403(a) Plans. Sections 401(a), 401(k), and 403(a) of the Tax Code permit certain employers to establish various types of retirement plans for employees, and permits self-employed individuals to establish these plans for themselves and their employees. These retirement plans may permit the purchase of Contracts to accumulate retirement savings under the plans. Employers intending to use the Contract with such plans should seek competent legal advice.

The contracts may also be available as a Roth 401(k), as described in Tax Code Section 402A, and we may set up accounts for you under the Contract for Roth 401(k) contributions ("Roth 401(k) accounts"). Tax Code Section 402A allows employees of certain private employers to contribute after-tax salary contributions to a Roth 401(k), which provides for tax-free distributions, subject to certain restrictions.

Individual Retirement Annuities. Section 408 of the Tax Code permits eligible individuals to contribute to an individual retirement program known as an Individual Retirement Annuity ("IRA"). IRAs are subject to limits on the amounts that can be contributed, the deductible amount of the contribution, the persons who may be eligible, and the time when distributions commence. Contributions to IRAs must be made in cash or as a rollover or a transfer from another eligible plan. Also, distributions from IRAs, individual retirement accounts, and other types of retirement plans may be "rolled over" on a tax-deferred basis into an IRA. If you make a tax-free rollover of a distribution from an IRA you may not make another tax-free rollover from the IRA within a 1-year period. Sales of the contract for use with IRAs may be subject to special requirements of the IRS.

The IRS has not reviewed the contracts described in this prospectus for qualification as IRAs and has not addressed, in a ruling of general applicability, whether the contract's death benefit provisions comply with IRS qualification requirements.

Roth IRAs. Section 408A of the Tax Code permits certain eligible individuals to contribute to a Roth IRA. Contributions to a Roth IRA are subject to limits on the amount of contributions and the persons who may be eligible to contribute, are not deductible, and must be made in cash or as a rollover or transfer from another Roth IRA or other IRA. Certain qualifying individuals may convert an IRA, SEP, or a SIMPLE to a Roth IRA. Such rollovers and conversions are subject to tax, and other special rules may apply. If you make a tax-free rollover of a distribution from a Roth IRA to another Roth IRA, you may not make another tax-free rollover from the Roth IRA within a 1-year period. A 10% penalty may apply to amounts attributable to a conversion to a Roth IRA if the amounts are distributed during the five taxable years beginning with the year in which the conversion was made.

Sales of a contract for use with a Roth IRA may be subject to special requirements of the IRS. The IRS has not reviewed the contracts described in this prospectus for qualification as IRAs and has not addressed, in a ruling of general applicability, whether the contract's death benefit provisions comply with IRS qualification requirements.

Section 403(b) Tax-Sheltered Annuities. The contracts are no longer available for purchase as Tax Code section 403(b) tax-sheltered annuities. Existing contracts issued as Tax Code section 403(b) tax-sheltered annuities will continue to be maintained as such under the applicable rules and regulations.

The Treasury Department has issued regulations which generally take effect on January 1, 2009. Existing contracts will be modified as necessary to comply with these regulations where allowed, or where required by law in order to maintain their status as section 403(b) tax-sheltered annuities. The final regulations include: (a) the ability to terminate a 403(b) plan, which would entitle a participant to a distribution; (b) the revocation of IRS Revenue Ruling 90-24, and the resulting increase in restrictions on a participant's right to transfer his or her 403(b) accounts; and (3) the imposition of withdrawal restrictions on non-salary reduction contribution amounts, as well as other changes.

Contributions

In order to be excludable from gross income for federal income tax purposes, total annual contributions to certain qualified plans are limited by the Tax Code. You should consult with your tax adviser in connection with contributions to a qualified contract.

Distributions – General

Certain tax rules apply to distributions from the Contract. A distribution is any amount taken from a Contract including withdrawals, annuity payments, rollovers, exchanges and death benefit proceeds. We report the taxable portion of all distributions to the IRS.

Section 401(a), 401(k) and 403(a) Plans. Distributions from these plans are taxed as received unless one of the following is true:

- The distribution is an eligible rollover distribution and is directly transferred to another plan eligible to receive rollovers or to a traditional IRA in accordance with the Tax Code;
- You made after-tax contributions to the plan. In this case, depending upon the type of distribution, the amount will be taxed according to the rules detailed in the Tax Code; or
- The distribution is a qualified health insurance premium of a retired safety officer as defined in the Pension Protection Act of 2006.

A payment is an eligible rollover distribution unless it is:

- part of a series of substantially equal periodic payments (at least one per year) made over the life expectancy of the participant or the joint life expectancy of the participant and his designated beneficiary or for a specified period of 10 years or more;
- a required minimum distribution under Tax Code Section 401(a)(9);
- a hardship withdrawal;
- otherwise excludable from income; or
- Not recognized under applicable regulations as eligible for rollover.

The Tax Code imposes a 10% penalty tax on the taxable portion of any distribution from a Contract used with a 401(a), 401(k) or 403(a) plan unless certain exceptions, including one or more of the following, have occurred:

- You have attained age 59½;
- You have become disabled, as defined in the Tax Code;
- You have died and the distribution is to your beneficiary;
- You have separated from service with the sponsor at or after age 55;
- The distribution amount is directly transferred into another eligible retirement plan or to an IRA in accordance with the terms of the Tax Code;
- You have separated from service with the plan sponsor and the distribution amount is made in substantially equal periodic payments (at least annually) over your life or the life expectancy or the joint lives or joint life expectancies of you and your designated beneficiary;
- The distribution is made due to an IRS levy upon your plan;
- The withdrawal amount is paid to an alternate payee under a Qualified Domestic Relations Order (QDRO); or
- The distribution is a qualified reservist distribution as defined under the Pension Protection Act of 2006 (401(k) plans only).

In addition, the 10% penalty tax does not apply to the amount of a distribution equal to unreimbursed medical expenses incurred by you during the taxable year that qualify for deduction as specified in the Tax Code. The Tax Code may provide other exceptions or impose other penalties in other circumstances.

Individual Retirement Annuities. All distributions from an IRA are taxed as received unless either one of the following is true:

- | |
|--|
| The distribution is directly transferred to another IRA or to a plan eligible to receive rollovers as permitted under the Tax Code; or |
| You made after-tax contributions to the IRA. In this case, the distribution will be taxed according to rules detailed in the Tax Code. |

The Tax Code imposes a 10% penalty tax on the taxable portion of any distribution from an IRA unless certain exceptions, including one or more of the following, have occurred:

- | |
|--|
| You have attained age 59½; |
| You have become disabled, as defined in the Tax Code; |
| You have died and the distribution is to your beneficiary; |
| The distribution amount is directly transferred into another eligible retirement plan or to an IRA in accordance with the terms of the Tax Code; |
| The distribution is made due to an IRS levy upon your plan; or |
| The distribution is a qualified reservist distribution as defined under the Pension Protection Act of 2006. |

In addition, the 10% penalty tax does not apply to a distribution made from an IRA to pay for health insurance premiums for certain unemployed individuals, a qualified first-time home purchase, or for higher education expenses.

Roth IRAs. A qualified distribution from a Roth IRA is not taxed when it is received. A qualified distribution is a distribution:

- | |
|---|
| Made after the five-taxable year period beginning with the first taxable year for which a contribution was made to a Roth IRA of the owner; and |
| Made after you attain age 59½, die, become disabled as defined in the Tax Code, or for a qualified first-time home purchase. |

If a distribution is not qualified, generally it will be taxable to the extent of the accumulated earnings. A partial distribution will first be treated as a return of contributions which is not taxable and then as taxable accumulated earnings.

The Tax Code imposes a 10% penalty tax on the taxable portion of any distribution from a Roth IRA that is not a qualified distribution unless certain exceptions have occurred. In general, the exceptions for an IRA listed above also apply to a distribution from a Roth IRA that is not a qualified distribution or a rollover to a Roth IRA that is not a qualified rollover contribution. The 10% penalty tax is also waived on a distribution made from a Roth IRA to pay for health insurance premiums for certain unemployed individuals, used for a qualified first-time home purchase, or for higher education expenses.

403(b) Plans. Distributions from your contract are subject to the requirements of Code Section 403(b), the Treasury Regulations, and, if applicable, the Plan under which the assets in your contract are covered. In accordance with Code Section 403(b) and the Treasury Regulations, we have no responsibility or obligation to make any distribution (including distributions due to loans, annuity payouts, qualified domestic relations orders, hardship withdrawals and systematic distributions options) from your contract until we have received instructions or information from your Employer and/or its designee or, if permitted under Code Section 403(b) and the Treasury Regulations, you in a form acceptable to us and necessary for us to administer your contract in accordance with Code Section 403(b) the Treasury Regulations, and, if applicable, the Plan.

All distributions from these plans are taxed as received unless one of the following is true:

- | |
|--|
| The distribution is an eligible rollover distribution and is directly transferred to another plan eligible to receive rollovers or to a traditional IRA in accordance with the Tax Code; |
| You made after-tax contributions to the plan. In this case, depending upon the type of distribution, the amount will be taxed according to the rules detailed in the Tax Code; or |
| The distribution is a qualified health insurance premium of a retired public safety officer as defined in the Pension Protection Act of 2006. |

A payment is an eligible rollover distribution unless it is:

- | |
|--|
| Part of a series of substantially equal periodic payments (at least one per year) made over the life expectancy of the participant or the joint life expectancy of the participant and his designated beneficiary or for a specified period of 10 years or more; |
| A required minimum distribution under Tax Code section 401(a)(9); |
| A hardship withdrawal; |
| Otherwise excludable from income; or |
| Not recognized under applicable regulations as eligible for rollover. |

The Tax Code imposes a 10% penalty tax on the taxable portion of any distribution from a contract used with a 403(b) plan, unless certain exceptions have occurred. In general, the exceptions for an IRA listed above also apply to a distribution from a 403(b) plan, plus in the event you have separated from service with the sponsor at or after age 55, or you have separated from service with the plan sponsor and the distribution amount is made in substantially equal periodic payments (at least annually) over your life or the life expectancy or the joint lives or joint life expectancies of you and your designated beneficiary. In addition, the 10% penalty tax does not apply to the amount of a distribution equal to unreimbursed medical expenses incurred by you during the taxable year that qualify for deduction as specified in the Tax Code. The Tax Code may provide other exceptions or impose other penalty taxes in other circumstances.

Distribution of amounts restricted under Tax Code section 403(b)(11) may only occur upon your death, attainment of age 59½, severance from employment, disability or financial hardship. Such distributions remain subject to other applicable restrictions under the Tax Code and the regulations.

Lifetime Required Minimum Distributions (Sections 401(a), 401(k), Roth 401(k), 403(a), 403(b) and IRAs only).

To avoid certain tax penalties, you and any designated beneficiary must also meet the minimum distribution requirements imposed by the Tax Code. These rules may dictate the following:

- | |
|--|
| Start date for distributions; |
| The time period in which all amounts in your account(s) must be distributed; and |
| Distribution amounts. |

Start Date and Time Period. Generally, you must begin receiving distributions by April 1 of the calendar year following the calendar year in which you attain age 70½. We must pay out distributions from the contract over a period not extending beyond one of the following time periods:

- | |
|--|
| Over your life or the joint lives of you and your designated beneficiary; or |
| Over a period not greater than your life expectancy or the joint life expectancies of you and your designated beneficiary. |

Distribution Amounts. The amount of each required distribution must be calculated in accordance with Tax Code Section 401(a)(9). The entire interest in the account includes the amount of any outstanding rollover, transfer, recharacterization, if applicable, and the actuarial present value of other benefits provided under the account, such as guaranteed death benefits.

50% Excise Tax. If you fail to receive the minimum required distribution for any tax year, a 50% excise tax may be imposed on the required amount that was not distributed.

Lifetime Required Minimum Distributions are not applicable to Roth IRAs during your lifetime. Further information regarding required minimum distributions may be found in your contract.

Required Distributions Upon Death (Sections 401(a), 401(k), Roth 401(k), 403(a), 403(b), IRAs and Roth IRAs Only). Different distribution requirements apply after your death, depending upon if you have been receiving required minimum distributions. Further information regarding required distributions upon death may be found in your contract.

If your death occurs on or after you begin receiving minimum distributions under the contract, distributions generally must be made at least as rapidly as under the method in effect at the time of your death. Tax Code Section 401(a)(9) provides specific rules for calculating the required minimum distributions after your death.

If your death occurs before you begin receiving minimum distributions under the contract, your entire balance must be distributed by December 31 of the calendar year containing the fifth anniversary of the date of your death. For example, if you die on September 1, 2013, your entire balance must be distributed to the designated beneficiary by December 31, 2018. However, if distributions begin by December 31 of the calendar year following the calendar year of your death, and you have named a designated beneficiary, then payments may be made over either of the following time frames:

- | |
|---|
| Over the life of the designated beneficiary; or |
| Over a period not extending beyond the life expectancy of the designated beneficiary. |

Start Dates for Spousal Beneficiaries. If the designated beneficiary is your spouse, distributions must begin on or before the later of the following:

- | |
|--|
| December 31 of the calendar year following the calendar year of your death; or |
| December 31 of the calendar year in which you would have attained age 70½. |

No designated beneficiary. If there is no designated beneficiary, the entire interest generally must be distributed by the end of the calendar containing the fifth anniversary of the contract owner's death.

Special Rule for IRA Spousal Beneficiaries (IRAs and Roth IRAs Only). In lieu of taking a distribution under these rules, if the sole designated beneficiary is the contract owner's surviving spouse, the spousal beneficiary may elect to treat the contract as his or her own IRA and defer taking a distribution until his or her own start date. The surviving spouse is deemed to have made such an election if the surviving spouse makes a rollover to or from the contract or fails to take a distribution within the required time period.

Withholding

Any taxable distributions under the contract are generally subject to withholding. Federal income tax liability rates vary according to the type of distribution and the recipient's tax status.

401(a), 401(k), Roth 401(k), 403(a) and 403(b). Generally, distributions from these plans are subject to mandatory 20% federal income tax withholding. However, mandatory withholding will not be required if you elect a direct rollover of the distributions to an eligible retirement plan or in the case of certain distributions described in the Tax Code.

IRAs and Roth IRAs. Generally, you or, if applicable, a designated beneficiary may elect not to have tax withheld from distributions.

Non-resident Aliens. If you or your designated beneficiary is a non-resident alien, then any withholding is governed by Tax Code section 1441 based on the individual's citizenship, the country of domicile and treaty status, and we may require additional documentation prior to processing any requested distribution.

Assignment and Other Transfers

IRAs and Roth IRAs. The Tax Code does not allow a transfer or assignment of your rights under these contracts except in limited circumstances. Adverse tax consequences may result if you assign or transfer your interest in the contract to persons other than your spouse incident to a divorce. Anyone contemplating such an assignment or transfer should contact a qualified tax adviser regarding the potential tax effects of such a transaction.

Section 403(b) Plans. Adverse tax consequences to the plan and/or to you may result if your beneficial interest in the contract is assigned or transferred to persons other than:

- | |
|--|
| A plan participant as a means to provide benefit payments; |
| An alternate payee under a qualified domestic relations order in accordance with Tax Code section 414(p); or |
| The Company as collateral for a loan. |

Tax Consequences of Enhanced Death Benefit

The Contract offers a death benefit that may exceed the greater of the premium payments and the contract value. It is possible that the IRS could characterize such a death benefit as other than an incidental death benefit. In addition, the provision of such benefits may result in currently taxable income, and the presence of the death benefit could affect the amount of required minimum distributions. Finally, certain charges are imposed with respect to some of the available death benefits. It is possible

those charges (or some portion thereof) could be treated for federal tax purposes as a distribution from the Contract. Please consult your tax advisor about the tax consequences of enhanced death benefits.

Possible Changes in Taxation

Although the likelihood of legislative change and tax reform is uncertain, there is always the possibility that the tax treatment of the Contracts could change by legislation or other means. It is also possible that any change could be retroactive (that is, effective before the date of the change). You should consult a tax adviser with respect to legislative developments and their effect on the Contract.

Same-Sex Marriages

Pursuant to Section 3 of the federal Defense of Marriage Act (“DOMA”), same-sex marriages currently are not recognized for purposes of federal law. Therefore, the favorable income-deferral options afforded by federal tax law to an opposite-sex spouse under Code sections 72(s) and 401(a)(9) are currently NOT available to a same-sex spouse. Same-sex spouses who own or are considering the purchase of annuity products that provide benefits based upon status as a spouse should consult a qualified tax adviser. In certain states, to the extent that an annuity contract or certificate offers to spouses other rights or benefits that are not affected by DOMA, same-sex spouses remain entitled to such rights or benefits to the same extent as any Contract Owner’s spouse.

Taxation of Company

We are taxed as a life insurance company under the Tax Code. The separate account is not a separate entity from us. Therefore, it is not taxed separately as a “regulated investment company,” but is taxed as part of the Company.

We automatically apply investment income and capital gains attributable to the separate account to increase reserves under the contracts. Because of this, under existing federal tax law we believe that any such income and gains will not be taxed to the extent that such income and gains are applied to increase reserves under the contracts. In addition, any foreign tax credits attributable to the separate account will be first used to reduce any income taxes imposed on the separate account before being used by the Company.

In summary, we do not expect that we will incur any federal income tax liability attributable to the separate account and we do not intend to make any provision for such taxes. However, changes in federal tax laws and/or their interpretation may result in our being taxed on income or gains attributable to the separate account. In this case, we may impose a charge against the separate account (with respect to some or all of the Contracts) to set aside provisions to pay such taxes. We may deduct this amount from the separate account, including from your account value invested in the subaccounts.

OTHER TOPICS

Separate Account B

ING USA Separate Account B (“Separate Account B”) was established as a separate account of the Company on July 14, 1988. It is registered with the SEC as a unit investment trust under the Investment Company Act of 1940, as amended. The Separate Account B is a separate investment account used for our variable annuity contracts. We own all the assets in the Separate Account B but such assets are kept separate from our other accounts.

Separate Account B is divided into subaccounts. The subaccounts invest directly in the shares of a pre-assigned underlying fund. Each underlying fund has its own distinct investment objectives and policies. Income, gains and losses, realized or unrealized, of an underlying fund are credited to or charged against the corresponding subaccount of Separate Account B without regard to any other income, gains or losses of the Company. Assets equal to the reserves and other contract liabilities with respect to each are not chargeable with liabilities arising out of any other business of the Company. They may, however, be subject to liabilities arising from subaccounts whose assets we attribute to other variable annuity contracts supported by Separate Account B. If the assets in Separate Account B exceed the required reserves and other liabilities, we may transfer the excess to our general account. We are obligated to pay all benefits and make all payments provided under the contract.

Other variable annuity contracts invest in Separate Account B but are not discussed in this prospectus. Separate Account B may also invest in other investment portfolios which are not available under your contract.

The Company

ING USA Annuity and Life Insurance Company (“ING USA”) is an Iowa stock life insurance company, which was originally incorporated in Minnesota on January 2, 1973. ING USA is a wholly owned subsidiary of Lion Connecticut Holdings Inc. (“Lion Connecticut”), which in turn is a wholly owned subsidiary of ING Groep N.V. (“ING”), a global financial services holding company based in The Netherlands. ING USA is authorized to sell insurance and annuities in all states, except New York and the District of Columbia.

Although we are a subsidiary of ING, ING is not responsible for the obligations under the Contract. The obligations under the Contract are solely the responsibility of ING USA.

Directed Services LLC, the distributor of the Contracts and the investment manager of the ING Investors Trust, is also a wholly owned indirect subsidiary of ING. ING also indirectly owns ING Investments, LLC and ING Investment Management Co. LLC, portfolio managers of the ING Investors Trust and the investment managers of the ING Variable Insurance Trust, ING Variable Products Trust and ING Variable Product Portfolios, respectively.

Pursuant to an agreement with the European Commission (“EC”), ING has announced its intention to divest itself of ING U.S., Inc. and its subsidiaries, including the Company (“ING U.S.”), which constitutes ING’s U.S.-based retirement, investment management and insurance operations. Under the agreement with the EC, ING is required to divest itself of at least 25% of ING U.S. by the end of 2013, more than 50% by the end of 2014 and 100% by the end of 2016. While all options for effecting the separation from ING remain open, ING has announced that the base case for this separation includes an initial public offering (“IPO”) of ING U.S., and in connection with the proposed IPO of its common stock ING U.S. filed a registration statement on Form S-1 with the SEC in November 2012, which was amended in January, March and April 2013. While the base case for the separation is an IPO, all options remain open and it is possible that ING’s divestment of ING U.S. may take place by means of a sale to a single buyer or group of buyers.

Our principal office is located at 1475 Dunwoody Drive, West Chester, Pennsylvania 19380.

Product Regulation. Our products are subject to a complex and extensive array of state and federal tax, securities and insurance laws, and regulations, which are administered and enforced by a number of governmental and self-regulatory authorities. Specifically, U.S. federal income tax law imposes requirements relating to nonqualified annuity product design, administration, and investments that are conditions for beneficial tax treatment of such products under the Internal Revenue Code. (See “Federal Tax Considerations” for further discussion of some of these requirements.) Failure to administer certain nonqualified contract features (for example, contractual annuity start dates in nonqualified annuities) could affect such beneficial tax treatment. In addition, state and federal securities and insurance laws impose requirements relating to insurance and annuity product design, offering and distribution, and administration. Failure to meet any of these complex tax, securities, or insurance requirements could subject the Company to administrative penalties, unanticipated remediation, or other claims and costs.

Selling the Contract

Our affiliate, Directed Services LLC, 1475 Dunwoody Drive, West Chester, PA 19380 is the principal underwriter and distributor of the Contract as well as for other ING USA contracts. Directed Services LLC, a Delaware limited liability company, is registered with the SEC as a broker/dealer under the Securities Exchange Act of 1934, and is a member of the Financial Industry Regulatory Authority, Inc. (“FINRA”).

Directed Services LLC does not retain any commissions or compensation paid to it by ING USA for Contract sales. Directed Services LLC enters into selling agreements with affiliated and unaffiliated broker/dealers to sell the Contracts through their registered representatives who are licensed to sell securities and variable insurance products (“selling firms”). Selling firms are also registered with the SEC and are FINRA member firms.

ING Financial Partners, Inc. is affiliated with the Company and has entered into a selling agreement with Directed Services LLC for the sale of our variable annuity contracts.

Directed Services LLC pays selling firms compensation for the promotion and sale of the Contracts. Registered representatives of the selling firms who solicit sales of the Contracts typically receive a portion of the compensation paid by Directed Services LLC to the selling firm in the form of commissions or other compensation, depending on the agreement between the selling firm and the registered representative. This compensation, as well as other incentives or payments, is not paid directly by contract owners or the Separate Account. We intend to recoup this compensation and other sales expenses paid to selling firms through fees and charges imposed under the Contracts.

Directed Services LLC pays selling firms for Contract sales according to one or more schedules. This compensation is generally based on a percentage of premium payments. Selling firms may receive commissions of up to 8.0% of premium payments. In addition, selling firms may receive ongoing annual compensation of up to .50% of all, or a portion, of values of Contracts sold through the firm. Individual representatives may receive all or a portion of compensation paid to their selling firm, depending on their firm's practices. Commissions and annual compensation, when combined, could exceed 8.0% of total premium payments.

Directed Services LLC has special compensation arrangements with certain selling firms based on those firms' aggregate or anticipated sales of the Contracts or other criteria. These special compensation arrangements will not be offered to all selling firms, and the terms of such arrangements may differ among selling firms based on various factors. Any such compensation payable to a selling firm will not result in any additional direct charge to you by us.

In addition to the direct cash compensation for sales of Contracts described above, Directed Services LLC may also pay selling firms additional compensation or reimbursement of expenses for their efforts in selling the Contracts to you and other customers. These amounts may include:

- Marketing/distribution allowances which may be based on the percentages of premium received, the aggregate commissions paid and/or the aggregate assets held in relation to certain types of designated insurance products issued by the Company and/or its affiliates during the year;
- Loans or advances of commissions in anticipation of future receipt of premiums (a form of lending to agents/registered representatives). These loans may have advantageous terms such as reduction or elimination of the interest charged on the loan and/or forgiveness of the principal amount of the loan, which terms may be conditioned on fixed insurance product sales;
- Education and training allowances to facilitate our attendance at certain educational and training meetings to provide information and training about our products. We also hold training programs from time to time at our expense;
- Sponsorship payments or reimbursements for broker/dealers to use in sales contests and/or meetings for their agents/registered representatives who sell our products. We do not hold contests based solely on the sales of this product;
- Certain overrides and other benefits that may include cash compensation based on the amount of earned commissions, agent/representative recruiting or other activities that promote the sale of policies; and
- Additional cash or noncash compensation and reimbursements permissible under existing law. This may include, but is not limited to, cash incentives, merchandise, trips, occasional entertainment, meals and tickets to sporting events, client appreciation events, business and educational enhancement items, payment for travel expenses (including meals and lodging) to pre-approved training and education seminars, and payment for advertising and sales campaigns.

We may pay commissions, dealer concessions, wholesaling fees, overrides, bonuses, other allowances and benefits and the costs of all other incentives or training programs from our resources, which include the fees and charges imposed under the Contract.

The following is a list of the top 25 selling firms that, during 2012, received the most compensation, in the aggregate, from us in connection with the sale of registered annuity contracts issued by us, ranked by total dollars received:

- | | |
|--|---|
| 1. Morgan Stanley Smith Barney LLC | 14. First Allied Securities Inc. |
| 2. LPL Financial Corporation | 15. Woodbury Financial Services Inc. |
| 3. Merrill Lynch, Pierce, Fenner & Smith, Incorporated | 16. Commonwealth Financial Network Inc. |
| 4. ING Financial Partners Inc. | 17. SII Investments Inc. WI |
| 5. Wells Fargo Advisors, LLC | 18. ING Financial Partners, Inc.-CAREER |
| 6. Wells Fargo Advisors, LLC (Bank Channel) | 19. Wells Fargo Advisors Financial Network, LLC |
| 7. UBS Financial Services Inc. | 20. Ameriprise Financial Services Inc. |
| 8. Raymond James Financial Services Inc. | 21. Centaurus Financial Inc. |
| 9. ING Financial Partners, Inc.-Retirement Channels | 22. Cetera Investment Services LLC |
| 10. National Planning Corporation | 23. Raymond James and Associates Inc. |
| 11. Cetera Advisors LLC | 24. Wells Fargo SEC, LLC |
| 12. Cetera Advisor Networks LLC | 25. Cambridge Investment Research Inc. |
| 13. Securities America Inc. | |

Directed Services LLC may also compensate wholesalers/distributors, and their sales management personnel, for Contract sales within the wholesale/distribution channel. This compensation may be based on a percentage of premium payments and/or a percentage of Contract values. Directed Services LLC may, at its discretion, pay additional cash compensation to wholesalers/distributors for sales by certain broker-dealers or “focus firms.”

We do not pay any additional compensation on the sale or exercise of any of the Contract’s optional benefit riders offered in this prospectus.

This is a general discussion of the types and levels of compensation paid by us for sale of our variable annuity contracts. It is important for you to know that the payment of volume- or sales-based compensation to a selling firm or registered representative may provide that registered representative a financial incentive to promote our contracts over those of another company, and may also provide a financial incentive to promote one of our contracts over another.

Payment Delay or Suspension

We reserve the right to suspend or postpone the date of any payment of benefits or values under any one of the following circumstances:

- On any valuation date when the New York Stock Exchange is closed (except customary weekend and holiday closings) or when trading on the New York Stock Exchange is restricted;
- When an emergency exists as determined by the SEC so that disposal of the securities held in the subaccounts is not reasonably practicable or it is not reasonably practicable to fairly determine the value of the subaccount’s assets; or
- During any other periods the SEC may by order permit for the protection of investors.

The conditions under which restricted trading or an emergency exists shall be determined by the rules and regulations of the SEC.

Voting Rights

Each of the subaccounts holds shares in a fund and each is entitled to vote at regular and special meetings of that fund. Under our current view of applicable law, we will vote the shares for each subaccount as instructed by persons having a voting interest in the subaccount. If you are a contract holder under a group contract, you have a fully vested interest in the contract and may instruct the group contract holder how to direct the Company to cast a certain number of votes. We will vote shares for which instructions have not been received in the same proportion as those for which we received instructions, the effect of which could be that a small number of contract owners decide the outcome of a vote. Each person who has a voting interest in the separate account will receive periodic reports relating to the funds in which he or she has an interest, as well as any proxy materials and a form on which to give voting instructions. Voting instructions will be solicited by a written communication at least 14 days before the meeting.

The number of votes (including fractional votes) you are entitled to direct will be determined as of the record date set by any fund you invest in through the subaccounts.

- During the accumulation phase the number of votes is equal to the portion of your account value invested in the fund, divided by the net asset value of one share of that fund.
- During the income phase the number of votes is equal to the portion of reserves set aside for the contract's share of the fund, divided by the net asset value of one share of that fund.

Contract Modifications

We may change the contract as required by federal or state law or as otherwise permitted in the contract. In addition, we may, upon 30 days' written notice to the group contract holder, make other changes to a group contract that would apply only to individuals who become participants under that contract after the effective date of such changes. If a group contract holder does not agree to a change, we reserve the right to refuse to establish new accounts under the contract. Certain changes will require the approval of appropriate state or federal regulatory authorities.

Transfer of Ownership: Assignment

We will accept assignments or transfers of ownership of a nonqualified contract or a qualified contract where such assignments or transfers are not prohibited, with proper notification. The date of any assignment or transfer of ownership will be the date we receive the notification at our Customer Service Center. An assignment or transfer of ownership may have tax consequences and you should consult with a tax adviser before assigning or transferring ownership of the contract.

An assignment of a contract will only be binding on the Company if it is made in writing and sent to the Company at our Customer Service Center. We will use reasonable procedures to confirm that the assignment is authentic, including verification of signature. If we fail to follow our own procedures, we will be liable for any losses to you directly resulting from such failure. Otherwise, we are not responsible for the validity of any assignment. The rights of the contract holder and the interest of the annuitant and any beneficiary will be subject to the rights of any assignee we have on our records.

Involuntary Terminations

We reserve the right to terminate any account with a value of \$2,500 or less immediately following a partial withdrawal. However, an IRA may only be closed out when payments to the contract have not been received for a 24-month period and the paid-up annuity benefit at maturity would be less than \$20 per month. If such right is exercised, you will be given 90 days' advance written notice. No early withdrawal charge will be deducted for involuntary terminations. We do not intend to exercise this right in cases where the account value is reduced to \$2,500 or less solely due to investment performance.

Legal Proceedings

We are not aware of any pending legal proceedings that are likely to have a material adverse effect upon the Company's ability to meet its obligations under the contract, Directed Services LLC ability to distribute the contract or upon the separate account.

Litigation. Notwithstanding the foregoing, the Company and/or Directed Services LLC, is a defendant in a number of litigation matters arising from the conduct of its business, both in the ordinary course and otherwise. In some of these matters, claimants seek to recover very large or indeterminate amounts, including compensatory, punitive, treble and exemplary damages. Certain claims are asserted as class actions. Modern pleading practice in the U.S. permits considerable variation in the assertion of monetary damages and other relief. The variability in pleading requirements and past experience demonstrates that the monetary and other relief that may be requested in a lawsuit or claim oftentimes bears little relevance to the merits or potential value of a claim. Due to the uncertainties of litigation, the outcome of a litigation matter and the amount or range of potential loss is difficult to forecast and a determination of potential losses requires significant management judgment.

Regulatory Matters. As with other financial services companies, the Company and its affiliates, including Directed Services LLC, periodically receive informal and formal requests for information from various state and federal governmental agencies and self-regulatory organizations in connection with inquiries and investigations of the products and practices of the Company or the financial services industry. It is the practice of the Company to cooperate fully in these matters. Regulatory investigations, exams, inquiries and audits could result in regulatory action against the Company or subject the Company to settlement payments, fines, penalties and other financial consequences, as well as changes to the Company's policies and procedures.

It is not possible to predict the ultimate outcome for all pending litigation and regulatory matters and given the large and indeterminate amounts sought and the inherent unpredictability of such matters, it is possible that an adverse outcome in certain litigation or regulatory matters could, from time to time, have a material adverse effect upon the Company's results of operations or cash flows in a particular quarterly or annual period.

ING USA Guaranteed Account

The ING USA Guaranteed Account (the Guaranteed Account) is a fixed interest option available during the accumulation phase under the contract. This appendix is only a summary of certain facts about the Guaranteed Account. Please read the Guaranteed Account prospectus carefully before investing in this option.

In General. Amounts invested in the Guaranteed Account earn specified interest rates if left in the Guaranteed Account for specified periods of time. If you withdraw or transfer those amounts before the specified periods elapse, we may apply a market value adjustment (described below), which may be positive or negative.

When deciding to invest in the Guaranteed Account, contact your sales representative or our Customer Service Center to learn:

- The interest rate(s) we will apply to amounts invested in the Guaranteed Account. We change the rate(s) periodically. Be certain you know the rate we guarantee on the day your account dollars are invested in the Guaranteed Account. Guaranteed interest rates will never be less than an annual effective rate of 3%.
- The period of time your account dollars need to remain in the Guaranteed Account in order to earn the rate(s). You are required to leave your account dollars in the Guaranteed Account for a specified period of time in order to earn the guaranteed interest rate(s).

Deposit Period. During a deposit period, we offer a specific interest rate for dollars invested for a certain guaranteed term. For a specific interest rate and guaranteed term to apply, account dollars must be invested in the Guaranteed Account during the deposit period for which that rate and term are offered.

Interest Rates. We guarantee different interest rates, depending upon when account dollars are invested in the Guaranteed Account. For guaranteed terms one year or longer, we may apply more than one specified interest rate. The interest rate we guarantee is an annual effective yield. That means the rate reflects a full year's interest. We credit interest daily at a rate that will provide the guaranteed annual effective yield over one year. Guaranteed interest rates will never be less than an annual effective rate of 3%. Among other factors, the safety of the interest rate guarantees depends upon the Company's claims-paying ability.

Guaranteed Terms. The guaranteed term is the period of time account dollars must be left in the Guaranteed Account in order to earn the guaranteed interest rate. For guaranteed terms one year or longer, we may offer different rates for specified time periods within a guaranteed term. We offer different guaranteed terms at different times. We also may offer more than one guaranteed term of the same duration with different interest rates. Check with your sales representative or our Customer Service Center to learn what terms are being offered. The Company also reserves the right to limit the number of guaranteed terms or the availability of certain guaranteed terms.

Fees and Other Deductions. If all or a portion of your account value in the Guaranteed Account is withdrawn or transferred, you may incur one or more of the following:

- Market Value Adjustment (MVA)—as described in this appendix and in the Guaranteed Account prospectus;
- Tax penalties and/or tax withholding—see “Federal Tax Considerations”;
- Early withdrawal charge—see “Fees”; or
- Maintenance fee—see “Fees.”

We do not make deductions from amounts in the Guaranteed Account to cover mortality and expense risks. Rather, we consider these risks when determining the interest rate to be credited.

Also, if you elected the premium bonus option, a charge will be deducted from amounts allocated to the Guaranteed Account, resulting in a 0.50% reduction in the interest which would have been credited to your account during the first seven account years if you had not elected the premium bonus option. See the “Premium Bonus Option – Forfeiture” and “Withdrawals” sections of the contract prospectus.

Market Value Adjustment (MVA). If your account value is withdrawn or transferred from the Guaranteed Account before the guaranteed term is completed, an MVA may apply. The MVA reflects investment value changes caused by changes in interest rates occurring since the date of deposit. The MVA may be positive or negative.

If interest rates at the time of withdrawal or transfer have increased since the date of deposit, the value of the investment decreases and the MVA will be negative. This could result in your receiving less than the amount you paid into the Guaranteed Account. If interest rates at the time of withdrawal or transfer have decreased since the date of deposit, the value of the investment increases and the MVA will be positive.

MVA Waiver. For withdrawals or transfers from a guaranteed term before the guaranteed term matures, the MVA may be waived for:

- Transfers due to participation in the dollar cost averaging program;
- Withdrawals taken due to your election of SWO or ECO (described in “Systematic Distribution Options”), if available;
- Withdrawals for minimum distributions required by the Tax Code and for which the early withdrawal charge is waived; and
- Withdrawals due to your exercise of the right to cancel your contract (described in “Right to Cancel”).

Death Benefit. When a death benefit is paid under the contract within six months of the date of death, only a positive aggregate MVA amount, if any, is applied to the account value attributable to amounts withdrawn from the Guaranteed Account. This provision does not apply upon the death of a spousal beneficiary or joint contract holder who continued the account after the first death. If a death benefit is paid more than six months from the date of death, a positive or negative aggregate MVA amount, as applicable, will be applied.

Partial Withdrawals. For partial withdrawals during the accumulation phase, amounts to be withdrawn from the Guaranteed Account will be withdrawn pro rata from each group of deposits having the same length of time until the maturity date (“Guaranteed Term Group”). Within each Guaranteed Term Group, the amount will be withdrawn first from the oldest deposit period until depleted, then from the next oldest and so on until the amount requested is satisfied.

Guaranteed Terms Maturity. As a guaranteed term matures, assets accumulating under the Guaranteed Account may be (a) transferred to a new guaranteed term; (b) transferred to other available investment options; or (c) withdrawn. Amounts withdrawn may be subject to an early withdrawal charge, taxation and, if you are under age 59½, tax penalties may apply.

If no direction is received from you at our Customer Service Center by the maturity date of a guaranteed term, the amount from the maturing guaranteed term will be transferred to a new guaranteed term of a similar length. If the same guaranteed term is no longer available, the next shortest guaranteed term available in the current deposit period will be used. If no shorter guaranteed term is available, the next longer guaranteed term will be used.

If you do not provide instructions concerning the maturity value of a maturing guaranteed term, the maturity value transfer provision applies. This provision allows transfers or withdrawals without an MVA if the transfer or withdrawal occurs during the calendar month immediately following a guaranteed term maturity date. This waiver of the MVA only applies to the first transaction regardless of the amount involved in the transaction.

Under the Guaranteed Account each guaranteed term is counted as one funding option. If a guaranteed term matures and is renewed for the same term, it will not count as an additional investment option for purposes of any limitation on the number of investment options.

Subsequent Purchase Payments. Purchase payments received after your initial purchase payment to the Guaranteed Account will be allocated in the same proportions as the last allocation, unless you properly instruct us to do otherwise. If the same guaranteed term(s) is not available, the next shortest term will be used. If no shorter guaranteed term is available, the next longer guaranteed term will be used.

Dollar Cost Averaging. The Company may offer more than one guaranteed term of the same duration and credit one with a higher rate contingent upon use only with the dollar cost averaging program. If amounts are applied to a guaranteed term which is credited with a higher rate using dollar cost averaging and the dollar cost averaging is discontinued, the amounts will be transferred to another guaranteed term of the same duration and an MVA will apply.

Transfer of Account Dollars. Generally, account dollars invested in the Guaranteed Account may be transferred among guaranteed terms offered through the Guaranteed Account and/or to other investment options offered through the contract. However, transfers may not be made during the deposit period in which your account dollars are invested in the Guaranteed Account or for 90 days after the close of that deposit period. We will apply an MVA to transfers made before the end of a guaranteed term. The 90-day wait does not apply to (1) amounts transferred on the maturity date or under the maturity value transfer provision; (2) amounts transferred from the Guaranteed Account before the maturity date due to the election of an income phase payment option; (3) amounts distributed under the ECO or SWO (see “Systematic Distribution Options”); and (4) amounts transferred from an available guaranteed term in connection with the dollar cost averaging program.

Transfers after the 90-day period are permitted from guaranteed term(s) to other guaranteed term(s) available during a deposit period or to other available investment options. Transfers of the Guaranteed Account values on or within one calendar month of a term’s maturity date are not counted as one of the 12 free transfers of accumulated values in the account.

Reinstating Amounts Withdrawn from the Guaranteed Account. If amounts are withdrawn and then reinstated in the Guaranteed Account, we apply the reinstated amount to the current deposit period. This means the guaranteed annual interest rate and guaranteed terms available on the date of reinstatement will apply. We reinstate amounts proportionately in the same way as they were allocated before withdrawal. We will not credit your account for market value adjustments that we deducted, any premium bonus forfeited or any taxes that were withheld at the time of withdrawal.

The Income Phase. The Guaranteed Account cannot be used as an investment option during the income phase. However, you may notify us at least 30 days in advance to elect a fixed or variable payment option and to transfer your Guaranteed Account dollars to the general account or any of the subaccounts available during the income phase. Transfers made due to the election of a lifetime income phase payment option will be subject to only a positive aggregate MVA.

Distribution. Directed Services LLC is principal underwriter and distributor of the contract. Directed Services LLC enters into sales agreements with broker-dealers to sell the contract through registered representatives who are licensed to sell securities and variable insurance products. These broker-dealers are registered with the SEC and are members of the Financial Industry Regulatory Authority (FINRA). From time to time the Company may offer customers of certain broker-dealers special guaranteed rates in connection with the Guaranteed Account offered through the contract and may negotiate different commissions for these broker-dealers.

Fixed Interest Division

A Fixed Interest Division option is available through the group and individual deferred variable annuity contracts offered by ING USA Annuity and Life Insurance Company. The Fixed Interest Division is part of the ING USA General Account. Interests in the Fixed Interest Division have not been registered under the Securities Act of 1933, and neither the Fixed Interest Division nor the General Account are registered under the Investment Company Act of 1940.

Interests in the Fixed Interest Division are offered in certain states through an Offering Brochure, dated May 1, 2013. The Fixed Interest Division is different from the Fixed Account which is described in the prospectus but which is not available in your state. If you are unsure whether the Fixed Account is available in your state, please contact our Customer Service Center at (800) 366-0066. When reading through the Prospectus, the Fixed Interest Division should be counted among the various investment options available for the allocation of your premiums, in lieu of the Fixed Account. The Fixed Interest Division may not be available in some states. Some restrictions may apply.

You will find more complete information relating to the Fixed Interest Division in the Offering Brochure. Please read the Offering Brochure carefully before you invest in the Fixed Interest Division.

APPENDIX III

Description of Underlying Funds

The following table reflects investment portfolio name changes.

Fund Name Changes	
Former Fund Name	New Fund Name
ING Invesco Van Kampen Comstock Portfolio	ING Invesco Comstock Portfolio
ING Invesco Van Kampen Equity and Income Portfolio	ING Invesco Equity and Income Portfolio
ING Invesco Van Kampen Growth and Income Portfolio	ING Invesco Growth and Income Portfolio
ING Pioneer Fund Portfolio	ING Multi-Manager Large Cap Core Portfolio
Invesco Van Kampen V.I. American Franchise Fund	Invesco V.I. American Franchise Fund

The following investment portfolios are closed to new premiums and transfers. Contract owners who have value in any of the closed investment portfolios may leave their contract value in these investments.

Closed Investment Portfolios	
Columbia Small Cap Value Fund (Class B)	ING Index Plus LargeCap Portfolio (Class S)
Fidelity® VIP <i>Contrafund</i> ® Portfolio (Service Class 2)	ING Index Plus MidCap Portfolio (Class S)
Fidelity® VIP Equity-Income Portfolio (Service Class 2)	ING Index Plus SmallCap Portfolio (Class S)
ING Balanced Portfolio (Class S)	ING Large Cap Growth Portfolio (Class S)
ING Clarion Global Real Estate Portfolio (Class S)	ING Oppenheimer Global Portfolio (Class I)
ING Clarion Real Estate Portfolio (Class S)	ING SmallCap Opportunities Portfolio (Class S)
ING Columbia Small Cap Value II Portfolio (Class S)	Invesco V.I. American Franchise Fund (Class I)
ING GET Fund	ProFund VP Bull
ING Global Resources Portfolio (Class S)	ProFund VP Europe 30
ING Growth and Income Portfolio (Class S) and (Class I)	ProFund VP Rising Rates Opportunity

Open Investment Portfolios

During the accumulation phase, you may allocate your premium payments and contract value to any of the investment portfolios available under this Contract, plus any Fixed Interest Allocation that is available. The investment portfolios that are currently available for allocation are listed in this appendix. You bear the entire investment risk for amounts you allocate to any investment portfolio, and you may lose your principal.

The investment results of the mutual funds (funds) are likely to differ significantly and there is no assurance that any of the funds will achieve their respective investment objectives. You should consider the investment objectives, risks and charges and expenses of the funds carefully before investing. Please refer to the fund prospectuses for this and additional information.

Shares of the funds will rise and fall in value and you could lose money by investing in the funds. Shares of the funds are not bank deposits and are not guaranteed, endorsed or insured by any financial institution, the Federal Deposit Insurance Corporation or any other government agency. Except as noted, all funds are diversified, as defined under the Investment Company Act of 1940. Fund prospectuses may be obtained free of charge, from our Customer Service Center at the address and telephone number listed in the prospectus, by accessing the SEC's web site or by contacting the SEC Public Reference Room. If you received a summary prospectus for any of the funds available through your contract, you may also obtain a full prospectus and other fund information free of charge by either accessing the internet address, calling the telephone number or sending an email request to the contact information shown on the front of the fund's summary prospectus.

Certain funds offered under the contracts have investment objectives and policies similar to other funds managed by the fund's investment adviser. The investment results of a fund may be higher or lower than those of other funds managed by the same adviser. There is no assurance and no representation is made that the investment results of any fund will be comparable to those of another fund managed by the same investment adviser.

Certain funds are designated as “Master-Feeder” or “fund of funds.” Funds offered in a Master-Feeder structure (such as the American Funds) or fund of funds structure (such as the Retirement Funds) may have higher fees and expenses than a fund that invests directly in debt and equity securities.

Consult with your investment professional to determine if the portfolios may be suited to your financial needs, investment time horizon and risk tolerance. You should periodically review these factors to determine if you need to change your investment strategy.

Fund Name and Investment Adviser/Subadviser	Investment Objective
BlackRock Global Allocation V.I. Fund Investment Adviser: BlackRock Advisors, LLC Investment Subadviser: BlackRock Investment Management, LLC; BlackRock International Limited	Seeks to provide high total return through a fully managed investment policy utilizing U.S. and foreign equity, debt and money market instruments, the combination of which will be varied from time to time both with respect to types of securities and markets in response to changing market and economic trends.

APPENDIX IV

The following tables show the Condensed Financial Information (accumulation unit values for the periods indicated and number of units outstanding) by subaccount for a Contract with the lowest and highest combination of asset-based charges. This information is current through December 31, 2012 including portfolio names, and derives from the financial statements of the Separate Account, which together constitute the Separate Account's Condensed Financial Information. Portfolio name changes after December 31, 2012 are not reflected in the following information. Complete information is available in the SAI. Contact our Customer Service Center to obtain your copy free of charge. Please ask us about where you can find more timely information.

CONDENSED FINANCIAL INFORMATION

Except for subaccounts which did not commence operations as of December 31, 2012, the following tables give (1) the accumulation unit value ("AUV") at the beginning of the period, (2) the AUV at the end of the period and (3) the total number of accumulation units outstanding at the end of the period for each subaccount of ING USA Separate Account B available under the Contract for the indicated periods. This information is current through December 31, 2012, including portfolio names. Portfolio name changes after December 31, 2012 are not reflected in the following information.

Introduction

This Statement of Additional Information provides background information regarding Separate Account B.

Description of ING USA Annuity and Life Insurance Company

ING USA Annuity and Life Insurance Company (“ING USA”) is an Iowa stock life insurance company, which was originally incorporated in Minnesota on January 2, 1973. ING USA is a wholly owned subsidiary of Lion Connecticut Holdings Inc. (“Lion Connecticut”), which in turn is a wholly owned subsidiary of ING Groep N.V. (“ING”), a global financial services holding company based in The Netherlands. ING USA is authorized to sell insurance and annuities in all states, except New York and the District of Columbia. ING USA’s financial statements appear in the Statement of Additional Information.

ING USA is authorized to do business in all jurisdictions except New York. ING USA offers variable insurance products. ReliaStar Life Insurance Company of New York (“RLNY”), an affiliate of ING USA, is licensed to do variable annuity business in the state of New York.

Pursuant to an agreement with the European Commission (“EC”), ING has announced its intention to divest itself of ING U.S., Inc. and its subsidiaries, including the Company (“ING U.S.”), which constitutes ING’s U.S.-based retirement, investment management and insurance operations. Under the agreement with the EC, ING is required to divest itself of at least 25% of ING U.S. by the end of 2013, more than 50% by the end of 2014 and 100% by the end of 2016. While all options for effecting the separation from ING remain open, ING has announced that the base case for this separation includes an initial public offering (“IPO”) of ING U.S., and in connection with the proposed IPO of its common stock ING U.S. filed a registration statement on Form S-1 with the SEC on November 9, 2012, which was amended on January 23, 2013, and March 19, 2013. While the base case for the separation is an IPO, all options remain open and it is possible that ING’s divestment of ING U.S. may take place by means of a sale to a single buyer or group of buyers.

Separate Account B of ING USA Annuity and Life Insurance Company

Separate Account B is a separate account established by the Company for the purpose of funding variable annuity contracts issued by the Company. The separate account is registered with the Securities and Exchange Commission (“SEC”) as a unit investment trust under the Investment Company Act of 1940, as amended. Purchase payments to accounts under the contract may be allocated to one or more of the subaccounts. Each subaccount invests in the shares of only one of the funds offered under the contracts. We may make additions to, deletions from or substitutions of available investment options as permitted by law and subject to the conditions of the contract. The availability of the funds is subject to applicable regulatory authorization. Not all funds are available in all jurisdictions or under all contracts.

Safekeeping of Assets

ING USA acts as its own custodian for Separate Account B.

Experts

The statements of assets and liabilities of Separate Account B as of December 31, 2012, and the related statements of operations and changes in net assets for the periods disclosed in the financial statements, and the financial statements of the Company as of December 31, 2012 and 2011, and for each of the three years in the period ended December 31, 2012, included in the Statement of Additional Information, have been audited by Ernst & Young LLP, independent registered public accounting firm, as set forth in their reports thereon appearing elsewhere herein, and are included in reliance upon such reports given on the authority of such firm as experts in accounting and auditing.

The primary business address of Ernst & Young LLP is Suite 1000, 55 Ivan Allen Jr. Boulevard, Atlanta, GA 30308.

Distribution of Contracts

The offering of contracts under the prospectus associated with this Statement of Additional Information is continuous. Directed Services LLC, an affiliate of ING USA, acts as the principal underwriter (as defined in the Securities Act of 1933 and the Investment Company Act of 1940, as amended) of the variable insurance products (the “variable insurance products”) issued by ING USA. The contracts are distributed through registered representatives of other broker-dealers who have entered into selling agreements with Directed Services LLC. For the years ended 2012, 2011 and 2010 commissions paid by ING USA, including amounts paid by its affiliated Companies, RLNY and ILIAC, to Directed Services LLC aggregated \$225,489,553, \$218,345,765 and \$219,973,598, respectively. All commissions received by the distributor were passed through to the broker-dealers who sold the contracts. Directed Services LLC is located at 1475 Dunwoody Drive, West Chester, Pennsylvania 19380-1478.

Under a management services agreement, last amended in 1995, ING USA provides to Directed Services LLC certain of its personnel to perform management, administrative and clerical services and the use of certain facilities. ING USA charges Directed Services LLC for such expenses and all other general and administrative costs, first on the basis of direct charges when identifiable, and the remainder allocated based on the estimated amount of time spent by ING USA’s employees on behalf of Directed Services LLC. In the opinion of management, this method of cost allocation is reasonable. However effective January 1, 2010, this management services agreement was changed to an arms-length pricing agreement, whereas ING USA now receives a monthly fee from Directed Services LLC based on annual contractual rates by fund. This fee, calculated as a percentage of average assets in the variable separate accounts, was \$141,124,215, \$143,404,615 and \$146,897,323 for the years ended 2012, 2011 and 2010, respectively.

Published Ratings

From time to time, the rating of ING USA as an insurance company by A.M. Best may be referred to in advertisements or in reports to contract owners. Each year the A.M. Best Company reviews the financial status of thousands of insurers, culminating in the assignment of Best’s Ratings. These ratings reflect their current opinion of the relative financial strength and operating performance of an insurance company in comparison to the norms of the life/health insurance industry. Best’s ratings range from A+ + to F. An A++ and A+ ratings mean, in the opinion of A.M. Best, that the insurer has demonstrated the strongest ability to meet its respective policyholder and other contractual obligations.

Accumulation Unit Value

The calculation of the Accumulation Unit Value (“AUV”) is discussed in the prospectus and below. Note that in your Contract, accumulation unit value is referred to as the Index of Investment Experience. The following illustrations show a calculation of a new AUV and the purchase of Units (using hypothetical examples). Note that the examples below do not reflect the mortality and expense risk charge for this product and are for illustration purposes only. Complete AUV information for the AUVs calculated for this Contract is available in this SAI following the financial statements of the separate account.

ILLUSTRATION OF CALCULATION OF AUV

EXAMPLE 1.

1. AUV, beginning of period	\$10.00
2. Value of securities, beginning of period	\$10.00
3. Change in value of securities	\$0.10
4. Gross investment return (3) divided by (2)	0.01
5. Less daily mortality and expense charge	0.00004280
6. Less asset based administrative charge	0.00000411
7. Net investment return (4) minus (5) minus (6)	0.009953092
8. Net investment factor (1.000000) plus (7)	1.009953092
9. AUV, end of period (1) multiplied by (8)	\$10.09953092

ILLUSTRATION OF PURCHASE OF UNITS (ASSUMING NO STATE PREMIUM TAX)

EXAMPLE 2.

1. Initial premium payment	\$1,000
2. AUV on effective date of purchase (see Example 1)	\$10.00
3. Number of units purchased (1) divided by (2)	100
4. AUV for valuation date following purchase (see Example 1)	\$10.09953092
5. Contract Value in account for valuation date following purchase (3) multiplied by (4)	\$1,009.95

Performance Information

From time to time, we may advertise or include in reports to contract owner's performance information for the subaccounts of Separate Account B, including the average annual total return performance, yields and other nonstandard measures of performance. Such performance data will be computed, or accompanied by performance data computed, in accordance with standards defined by the SEC.

Except for the ING Liquid Assets Portfolio subaccount, quotations of yield for the subaccounts will be based on all investment income per unit (contract value divided by the accumulation unit) earned during a given 30-day period, less expenses accrued during such period. Information on standard total average annual return performance will include average annual rates of total return for 1-, 5- and 10-year periods, or lesser periods depending on how long Separate Account B has been investing in the portfolio. We may show other total returns for periods of less than one year. We will base total return figures on the actual historic performance of the subaccounts of Separate Account B, assuming an investment at the beginning of the period when the separate account first invested in the portfolios, and withdrawal of the investment at the end of the period, adjusted to reflect the deduction of all applicable portfolio and current contract charges. We may also show rates of total return on amounts invested at the beginning of the period with no withdrawal at the end of the period. Total return figures which assume no withdrawals at the end of the period will reflect all recurring charges. In addition, we may present historic performance data for the investment portfolios since their inception reduced by some or all of the fees and charges under the Contract. Such adjusted historic performance includes data that precedes the inception dates of the subaccounts of Separate Account B. This data is designed to show the performance that would have resulted if the Contract had been in existence before the separate account began investing in the portfolios.

Current yield for the ING Liquid Assets Portfolio subaccount is based on income received by a hypothetical investment over a given 7-day period, less expenses accrued, and then "annualized" (i.e., assuming that the 7-day yield would be received for 52 weeks). We calculate "effective yield" for the Liquid Assets subaccount in a manner similar to that used to calculate yield, but when annualized, the income earned by the investment is assumed to be reinvested. The "effective yield" will thus be slightly higher than the "yield" because of the compounding effect of earnings. We calculate quotations of yield for the remaining subaccounts on all investment income per accumulation unit earned during a given 30-day period, after subtracting fees and expenses accrued during the period, assuming the selection of the Max 7 Enhanced Death Benefit and the MGIB optional benefit rider. **You should be aware that there is no guarantee that the ING Liquid Assets Portfolio subaccount will have a positive or level return.**

We may compare performance information for a subaccount to: (i) the Standard & Poor's 500 Stock Index, Dow Jones Industrial Average, Donoghue Money Market Institutional Averages, or any other applicable market indices, (ii) other variable annuity separate accounts or other investment products tracked by Lipper Analytical Services (a widely used independent research firm which ranks mutual funds and other investment companies), or any other rating service, and (iii) the Consumer Price Index (measure

for inflation) to determine the real rate of return of an investment in the Contract. Our reports and promotional literature may also contain other information including the ranking of any subaccount based on rankings of variable annuity separate accounts or other investment products tracked by Lipper Analytical Services or by similar rating services.

Performance information reflects only the performance of a hypothetical contract and should be considered in light of other factors, including the investment objective of the investment portfolio and market conditions. Please keep in mind that past performance is not a guarantee of future results.

Other Information

Registration statements have been filed with the SEC under the Securities Act of 1933, as amended, with respect to the Contracts discussed in this Statement of Additional Information. Not all of the information set forth in the registration statements, amendments and exhibits thereto has been included in this Statement of Additional Information. Statements contained in this Statement of Additional Information concerning the content of the Contracts and other legal instruments are intended to be summaries. For a complete statement of the terms of these documents, reference should be made to the instruments filed with the SEC.

CONDENSED FINANCIAL INFORMATION

Except for subaccounts which did not commence operations as of December 31, 2012, the following tables give (1) the accumulation unit value ("AUV") at the beginning of the period, (2) the AUV at the end of the period and (3) the total number of accumulation units outstanding at the end of the period for each subaccount of ING USA Separate Account B available under the Contract for the indicated periods. This information is current through December 31, 2012, including portfolio names. Portfolio name changes after December 31, 2012 are not reflected in the following information.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Participants
ING USA Annuity and Life Insurance Company

We have audited the accompanying financial statements of ING USA Annuity and Life Insurance Company Separate Account B (the “Account”), which comprises the statements of assets and liabilities of each of the investment divisions disclosed in Note 1 as of December 31, 2012, and the related statements of operations for the year or period then ended, and the statements of changes in net assets for the years or periods ended December 31, 2012 and 2011. These financial statements are the responsibility of the Account’s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Account’s internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Account’s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2012, by correspondence with the transfer agents or fund companies. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of each of the investment divisions disclosed in Note 1 constituting ING USA Annuity and Life Insurance Company Separate Account B at December 31, 2012, the results of their operations for the year or period then ended, and the changes in their net assets for the years or periods ended December 31, 2012 and 2011, in conformity with U.S. generally accepted accounting principles.

ING USA ANNUITY AND LIFE INSURANCE COMPANY
SEPARATE ACCOUNT B
Notes to Financial Statements

1. Organization

ING USA Annuity and Life Insurance Company Separate Account B (the “Account”) was established by ING USA Annuity and Life Insurance Company (“ING USA” or the “Company”) to support the operations of variable annuity contracts (“Contracts”). The Company is an indirect, wholly owned subsidiary of ING U.S., Inc. (name changed from ING America Insurance Holdings, Inc.), an insurance holding company domiciled in the State of Delaware. ING U.S., Inc. is an indirect, wholly owned subsidiary of ING Groep, N.V. (“ING”), a global financial services holding company based in The Netherlands.

ING has announced the anticipated separation of its global banking and insurance businesses. While all options for effecting this separation remain open, ING has announced that the base case for this separation includes an initial public offering (“IPO”) of ING U.S., Inc., which together with its subsidiaries, constitutes ING's U.S.-based retirement, investment management, and insurance operations. ING U.S., Inc. filed a registration statement on Form S-1 with the U.S. Securities and Exchange Commission (“SEC”) on November 9, 2012, which was amended on January 23, 2013 and March 19, 2013, in connection with the proposed IPO of its common stock.

The Account includes ING Architect Contracts, ING GoldenSelect Contracts, ING Retirement Solutions Rollover Choice Contracts and ING SmartDesign Contracts (collectively, the “Contracts”), that ceased being available to new contract owners in 2011. These Contracts were, however, still available to existing contract owners in 2012. ING GoldenSelect Contracts included Access, DVA Plus, Premium Plus, ES II, and Landmark. ING SmartDesign Contracts include Advantage, Signature Variable Annuity and Variable Annuity.

The Account also includes the following discontinued offerings:

ING GoldenSelect Contracts:

- Access One (September 2003)
- DVA and DVA Series 100 (May 2000)

ING USA ANNUITY AND LIFE INSURANCE COMPANY
SEPARATE ACCOUNT B
Notes to Financial Statements

The Account is registered as a unit investment trust with the SEC under the Investment Company Act of 1940, as amended. ING USA provides for variable accumulation and benefits under the Contracts by crediting annuity considerations to one or more divisions within the Account or the ING USA guaranteed interest division, the ING USA fixed interest division, and the fixed account (an investment option in the Company's general account), as directed by the contract owners. The portion of the Account's assets applicable to Contracts will not be charged with liabilities arising out of any other business ING USA may conduct, but obligations of the Account, including the promise to make benefit payments, are obligations of ING USA. Under applicable insurance law, the assets and liabilities of the Account are clearly identified and distinguished from the other assets and liabilities of ING USA.

At December 31, 2012, the Account had 141 investment divisions (the "Divisions"), 23 of which invest in independently managed mutual funds and 118 of which invest in mutual funds managed by affiliates, either Directed Services LLC ("DSL") or ING Investments, LLC ("IIL"). The assets in each Division are invested in shares of a designated mutual fund ("Fund") of various investment trusts (the "Trusts"). Investment Divisions with assets balances at December 31, 2012 and related Trusts are as follows:

BlackRock Variable Series Funds, Inc.:

2. Significant Accounting Policies

The following is a summary of the significant accounting policies of the Account:

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from reported results using those estimates.

Investments

Investments are made in shares of a Division and are recorded at fair value, determined by the net asset value per share of the respective Division. Investment transactions in each Division are recorded on the trade date. Distributions of net investment income and capital gains from each Division are recognized on the ex-distribution date. Realized gains and losses on redemptions of the shares of the Division are determined on a first-in, first-out basis. The difference between cost and current fair value of investments owned on the day of measurement is recorded as unrealized appreciation or depreciation of investments.

Federal Income Taxes

Operations of the Account form a part of, and are taxed with, the total operations of ING USA, which is taxed as a life insurance company under the Internal Revenue Code ("IRC"). Under the current provisions of the IRC, the Company does not expect to incur federal income taxes on the earnings of the Account to the extent the earnings are credited to contract owners. Accordingly, earnings and realized capital gains of the Account attributable to the contract owners are excluded in the determination of the federal income tax liability of ING USA, and no charge is being made to the Account for federal

ING USA ANNUITY AND LIFE INSURANCE COMPANY
SEPARATE ACCOUNT B
Notes to Financial Statements

income taxes for these amounts. The Company will review this tax accounting in the event of changes in the tax law. Such changes in the law may result in a charge for federal income taxes.

Contract Owner Reserves

The annuity reserves of the Account are represented by net assets on the Statements of Assets and Liabilities and are equal to the aggregate account values of the contract owners invested in the Account Divisions. To the extent that benefits to be paid to the contract owners exceed their account values, ING USA will contribute additional funds to the benefit proceeds. Conversely, if amounts allocated exceed amounts required, transfers may be made to ING USA. Prior to the annuity date, the Contracts are redeemable for the net cash surrender value of the Contracts.

Amounts Receivable From/Payable to Related Parties

Amount payable to/receivable from related parties in each Division on the Statement of Asset and Liabilities represent accrued fees to ING USA.

Changes from Principal Transactions

Included in Changes from Principal Transactions on the Statements of Changes in Net Assets are items which relate to contract owner activity, including deposits, surrenders and withdrawals, benefits, and contract charges. Also included are transfers between the fixed account and the Divisions, transfers between Divisions, and transfers to (from) ING USA related to gains and losses resulting from actual mortality experience (the full responsibility for which is assumed by ING USA). Any net unsettled transactions as of the reporting date are included in Payable to related parties on the Statements of Assets and Liabilities.

Subsequent Events

The Account has evaluated subsequent events for recognition and disclosure through the date the financial statements as of December 31, 2012 and for the years ended December 31, 2012 and 2011, were issued.

3. Financial Instruments

The Account invests assets in shares of open-end mutual funds, which process orders to purchase and redeem shares on a daily basis at the fund's next computed net asset values ("NAV"). The fair value of the Account's assets is based on the NAVs of mutual funds, which are obtained from the custodian and reflect the fair values of the mutual fund investments. The NAV is calculated daily upon close of the New York Stock Exchange and is based on the fair values of the underlying securities.

ING USA ANNUITY AND LIFE INSURANCE COMPANY
SEPARATE ACCOUNT B
Notes to Financial Statements

The Account's financial assets are recorded at fair value on the Statements of Assets and Liabilities and are categorized as Level 1 as of December 31, 2012 based on the priority of the inputs to the valuation technique below. There were no transfers among the levels for the year ended December 31, 2012. The Account had no financial liabilities as of December 31, 2012.

The Account categorizes its financial instruments into a three-level hierarchy based on the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument.

- Level 1 - Unadjusted quoted prices for identical assets or liabilities in an active market. The Account defines an active market as a market in which transactions take place with sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2 - Quoted prices in markets that are not active or valuation techniques that require inputs that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - a) Quoted prices for similar assets or liabilities in active markets;
 - b) Quoted prices for identical or similar assets or liabilities in non-active markets;
 - c) Inputs other than quoted market prices that are observable; and
 - d) Inputs that are derived principally from or corroborated by observable market data through correlation or other means.
- Level 3 - Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These valuations, whether derived internally or obtained from a third party, use critical assumptions that are not widely available to estimate market participant expectations in valuing the asset or liability.

4. Charges and Fees

Under the terms of all Contracts, certain charges and fees are incurred by the Contracts to cover ING USA's expenses in connection with the issuance and administration of the Contracts. Following is a summary of these charges and fees:

Mortality and Expense Risk Charges

ING USA assumes mortality and expense risks related to the operations of the Account and, in accordance with the terms of the Contracts, deducts a daily charge from the assets of the Account. Daily charges are deducted at annual rates of 0.35% to 2.20% of the average daily net asset value of each Division of the Account to cover these risks, as specified in the Contracts. These charges are assessed through a reduction in unit values.

ING USA ANNUITY AND LIFE INSURANCE COMPANY
SEPARATE ACCOUNT B
Notes to Financial Statements

Asset Based Administrative Charges

A daily charge to cover administrative expenses of the Account at an annual rate of up to 0.15% of the assets attributable to the Contracts. These charges are assessed through a reduction in unit values.

Contract Maintenance Charges

An annual Contract maintenance fee of up to \$40 may be deducted from the accumulation value of Contracts to cover ongoing administrative expenses, as specified in the Contracts. These charges are assessed through the redemption of units.

Contingent Deferred Sales Charges

For certain Contracts, a contingent deferred sales charge (“Surrender Charge”) is imposed as a percentage that ranges up to 8.00% of each premium payment if the Contract is surrendered or an excess partial withdrawal is taken as specified in the Contract. These charges are assessed through the redemption of units.

Withdrawal and Distribution Charges

For certain Contracts, a charge is deducted from the accumulation value for contract owners taking more than one conventional partial withdrawal during a Contract year. For certain Contracts, annual distribution fees are deducted from the Contracts’ accumulation values. These charges are assessed through the redemption of units.

Premium Taxes

For certain Contracts, premium taxes are deducted, where applicable, from the accumulation value of each Contract. The amount and timing of the deduction depends on the contract owner’s state of residence and currently ranges up to 4.00% of premiums. These charges are assessed through the redemption of units.

Other Contract Charges

For certain Contracts, an additional annual charge of 0.50% is deducted daily from the accumulation value for amounts invested in the ING GET U.S. Core Portfolio Funds.

Certain Contracts contain optional riders that are available for an additional charge, such as minimum guaranteed income benefits and minimum guaranteed withdrawal benefits. The amounts charged for these optional benefits vary based on a number of factors and are defined in the Contracts.

These charges are assessed through either a reduction in unit values or the redemption of units.

ING USA ANNUITY AND LIFE INSURANCE COMPANY
SEPARATE ACCOUNT B
Notes to Financial Statements

Fees Waived by ING USA

Certain charges and fees for various types of Contracts may be waived by ING USA. ING USA reserves the right to discontinue these waivers at its discretion or to conform with changes in the law.

5. Related Party Transactions

During the year ended December 31, 2012, management fees were paid indirectly to DSL, an affiliate of the Company, in its capacity as investment adviser to the ING Investors Trust and ING Partners, Inc. The Trust's advisory agreement provided for a fee at annual rates up to 1.25% of the average net assets of each respective Fund.

Management fees were also paid indirectly to IIL, an affiliate of the Company, in its capacity as investment adviser to the ING Balanced Portfolio, Inc., ING Intermediate Bond Portfolio, ING Mutual Funds, ING Strategic Allocation Portfolio, Inc., ING Variable Funds, ING Variable Insurance Trust, ING Variable Portfolios, Inc., and ING Variable Products Trust. The Trusts' advisory agreement provided for fees at annual rates up to 0.95% of the average net assets of each respective Fund.

(a) As investment Division had no investment until 2008, this data is not meaningful and is therefore not presented.

(b) As investment Division had no investment until 2009, this data is not meaningful and is therefore not presented.

(c) As investment Division had no investment until 2010, this data is not meaningful and is therefore not presented.

(d) As investment Division had no investment until 2011, this data is not meaningful and is therefore not presented.

(e) As investment Division had no investment until 2012, this data is not meaningful and is therefore not presented.

A The Investment Income Ratio represents dividends received by the Division, excluding capital gains distributions, divided by the average net assets.

The recognition of investment income is determined by the timing of the declaration of dividends by the underlying fund in which the Division invests.

B The Expense Ratio considers only the expenses borne directly by the Account, excluding expenses charged through the redemption of units, and is equal to the mortality and expense, administrative, and other charges, as defined in the Charges and Fees note. Certain items in this table are presented as a range of minimum and maximum values; however, such information is calculated independently for each column in the table.

C Total Return is calculated as the change in unit value for each Contract presented in the Statements of Assets and Liabilities. Certain items in this table are presented as a range of minimum and maximum values; however, such information is calculated independently for each column in the table.

Report of Independent Registered Public Accounting Firm

The Board of Directors
ING USA Annuity and Life Insurance Company

We have audited the accompanying balance sheets of ING USA Annuity and Life Insurance Company as of December 31, 2012 and 2011, and the related statements of operations, comprehensive income, changes in shareholder's equity, and cash flows for each of the three years in the period ended December 31, 2012. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits include consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of ING USA Annuity and Life Insurance Company at December 31, 2012 and 2011, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2012, in conformity with U.S. generally accepted accounting principles.

As discussed in Note 1 to the financial statements, the Company retrospectively changed its method of accounting for costs associated with acquiring or renewing insurance contracts. Additionally, as discussed in Note 1 to the financial statements, the Company has elected to change its method of accounting for guaranteed minimum withdrawal benefits with life payouts riders, and has also elected to change its method of recognizing actuarial gains and losses related to its pension and post-retirement benefit plans.

1. Business, Basis of Presentation and Significant Accounting Policies

Business

ING USA Annuity and Life Insurance Company ("ING USA" or "the Company") is a stock life insurance company domiciled in the State of Iowa and provides financial products and services in the United States. ING USA is authorized to conduct its insurance business in all states, except New York, and in the District of Columbia.

ING USA is a direct, wholly owned subsidiary of Lion Connecticut Holdings Inc. ("Lion" or "Parent"), which is a direct, wholly owned subsidiary of ING U.S., Inc. ING U.S., Inc. is a wholly owned subsidiary of ING Insurance International B.V., which is a wholly owned subsidiary of ING Verzekeringen N.V. ("ING Insurance"), which is a wholly owned subsidiary of ING Insurance Topholding N.V., which is a wholly owned subsidiary of ING Groep N.V. ("ING Group" or "ING"), the ultimate parent company. ING is a global financial services holding company based in The Netherlands, with American Depository Shares listed on the New York Stock Exchange under the symbol "ING."

ING has announced the anticipated separation of its global banking and insurance businesses. While all options for effecting this separation remain open, ING has announced that the base case for this separation includes an initial public offering ("IPO") of ING U.S., Inc., which together with its subsidiaries, constitutes ING's U.S.-based retirement, investment management, and insurance operations. ING U.S., Inc. filed a registration statement on Form S-1 with the U.S. Securities and Exchange Commission ("SEC") on November 9, 2012, which was amended on January 23, 2013 and March 19, 2013, in connection with the proposed IPO of its common stock.

The Company offers various insurance products, including immediate and deferred fixed annuities. The Company's fixed annuity products are distributed by national and regional brokerage and securities firms, independent broker-dealers, banks, life insurance companies with captive agency sales forces, independent insurance agents, independent marketing organizations and affiliated broker-dealers. The Company's primary annuity customers are individual consumers. The Company ceased new sales of retail variable annuity products in March of 2010, as part of a global business strategy and risk reduction plan. New amounts will continue to be deposited on ING USA variable annuities as add-on premiums to existing contracts.

The Company has historically issued guaranteed investment contracts and funding agreements (collectively referred to as "GICs"), primarily to institutional investors and corporate benefit plans. In 2009, the Company made a strategic decision to run-off the assets and liabilities in the GIC business over time. New GIC contracts may be issued on a limited basis to replace maturing contracts.

The Company has one operating segment.

Basis of Presentation

The accompanying Financial Statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP").

Certain reclassifications have been made to prior year financial information to conform to the current year classifications, including the presentation of changes in fair value of embedded derivatives within annuity products and the presentation of market value adjustment items in order to align with the presentation of the Consolidated Financial Statements of ING U.S., Inc. For the years ended December 31, 2011 and 2010, respectively, reclassifications decreased Fee income by \$207.9 and \$211.2, decreased Other net realized capital gains (losses) by \$1.7 billion and \$111.9, increased Other revenue by \$53.5 and \$61.5, and decreased Interest credited and other benefits to contract owners by \$1.9 billion and \$260.4, in the Statements of Operations. Such reclassifications had no impact on Shareholder's equity or Net income (loss).

Accounting Changes

Future Policy Benefits and Contract Owner Accounts

As of January 1, 2012, the Company voluntarily changed to fair value accounting for the guaranteed minimum withdrawal benefits with life payouts ("GMWBL") riders as a retrospective change in accounting principle. Under fair value accounting, GMWBLs are considered embedded derivatives, which are measured at estimated fair value separately from the host annuity contract. Changes in estimated fair value are reported in Other net realized capital gains (losses) in the Statements of Operations. Previously, GMWBLs were accounted for by estimating the value of expected benefits in excess of the projected account balance and recognizing the excess ratably over the accumulation period based on total expected assessments. The new accounting method is preferable, as it provides more useful financial reporting information to financial statement users and fair value is more closely aligned with the underlying economics of the guarantee.

The cumulative effect of this change as of January 1, 2010, is a decrease to Accumulated other comprehensive income (loss) and to Retained earnings of \$(4.2) and \$(13.6), respectively, net of other related impacts of DAC, other intangible assets, and taxes.

Deferred Policy Acquisition Costs

In October 2010, the FASB issued ASU 2010-26, "Financial Services - Insurance (ASC Topic 944): Accounting for Costs Associated with Acquiring or Renewing Insurance Contracts" ("ASU 2010-26"), which clarifies what costs relating to the acquisition of new or renewal insurance contracts qualify for deferral. Costs that should be capitalized include (1) incremental direct costs of successful contract acquisition and (2) certain costs related directly to successful acquisition activities (underwriting, policy issuance and processing, medical and inspection, and sales force contract selling) performed by the insurer for the contract. Advertising costs should be included in deferred acquisition costs only if the capitalization criteria in the U.S. GAAP direct-response advertising guidance are met. All other acquisition-related costs should be charged to expense as incurred.

The provisions of ASU 2010-26 were adopted retrospectively by the Company on January 1, 2012. As a result of implementing ASU 2010-26, the Company recognized a cumulative effect of change in accounting principle of \$419.8, net of income taxes of \$226.0, as a reduction to January 1, 2010 Retained earnings (deficit). In addition, the Company recognized a \$8.0 increase to Accumulated other comprehensive income ("AOCI").

Employee Benefit Plans

As of January 1, 2012, the Company voluntarily changed its method of recognizing actuarial gains and losses related to its pension and post-retirement benefit plans. Previously, actuarial gains and losses were recognized in Accumulated other comprehensive income and, to the extent outside a corridor, amortized into operating results over the average remaining service period of active plan participants or the average remaining life expectancy of inactive plan participants, as applicable. The Company has elected to immediately recognize actuarial gains and losses in the Statements of Operations in the year in which the gains and losses occur. The new accounting method is preferable, as it eliminates the delay in recognition of actuarial gains and losses. These gains and losses are generally only measured annually as of December 31 and, accordingly, will generally be recorded during the fourth quarter.

The Company's change in accounting methodology has been applied retrospectively. The cumulative effect of this change as of January 1, 2010, is a decrease to Retained earnings, with a corresponding increase to Accumulated other comprehensive income, of \$4.6, net of tax.

ING USA Annuity and Life Insurance Company

Significant Accounting Policies

Estimates and Assumptions

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Financial Statements and the reported amounts of revenues and expenses during the reporting period. Those estimates are inherently subject to change and actual results could differ from those estimates.

The Company has identified the following accounts and policies as the most significant in that they involve a higher degree of judgment, are subject to a significant degree of variability, and/or contain significant accounting estimates:

Reserves for future policy benefits, valuation and amortization of deferred policy acquisition costs ("DAC"), value of business acquired ("VOBA") and deferred sales inducements ("DSI"), valuation of investments and derivatives, impairments, income taxes and contingencies.

Fair Value Measurement

The Company measures the fair value of its financial assets and liabilities based on assumptions used by market participants in pricing the asset or liability, which may include inherent risk, restrictions on the sale or use of an asset, or nonperformance risk, which is the risk the Company will not fulfill its obligation. The estimate of an exchange price is the price in an orderly transaction between market participants to sell the asset or transfer the liability ("exit price") in the principal market, or the most advantageous market in the absence of a principal market, for that asset or liability. The Company utilizes a number of valuation sources to determine the fair values of its financial assets and liabilities, including quoted market prices, third-party commercial pricing services, third-party brokers, industry-standard, vendor-provided software that models the value based on market observable inputs, and other internal modeling techniques based on projected cash flows.

Investments

The accounting policies for the Company's principal investments are as follows:

Fixed Maturities and Equity Securities: The Company's fixed maturities and equity securities are currently designated as available-for-sale, except those accounted for using the fair value option ("FVO"). Available-for-sale securities are reported at fair value and unrealized capital gains (losses) on these securities are recorded directly in Accumulated other comprehensive

income (loss) ("AOCI") and presented net of related changes in DAC, VOBA, DSI and deferred income taxes. In addition, certain fixed maturities have embedded derivatives, which are reported with the host contract on the Balance Sheets.

The Company has elected the FVO for certain of its fixed maturities to better match the measurement of assets and liabilities in the Statements of Operations. Certain collateralized mortgage obligations ("CMOs"), primarily interest-only and principal-only strips, are accounted for as hybrid instruments and valued at fair value with changes in the fair value recorded in Other net realized capital gains (losses) in the Statements of Operations.

Purchases and sales of fixed maturities and equity securities, excluding private placements, are recorded on the trade date. Purchases and sales of private placements and mortgage loans are recorded on the closing date. Investment gains and losses on sales of securities are generally determined on a first-in-first-out ("FIFO") basis.

Interest income on fixed maturities is recorded when earned using an effective yield method, giving effect to amortization of premiums and accretion of discounts. Dividends on equity securities are recorded when declared. Such dividends and interest income are recorded in Net investment income in the Statements of Operations.

Included within fixed maturities are loan-backed securities, including residential mortgage-backed securities ("RMBS"), commercial mortgage-backed securities ("CMBS") and asset-backed securities ("ABS"). Amortization of the premium or discount from the purchase of these securities considers the estimated timing and amount of prepayments of the underlying loans. Actual prepayment experience is periodically reviewed and effective yields are recalculated when differences arise between the prepayments originally anticipated and the actual prepayments received and currently anticipated. Prepayment assumptions for single class and multi-class mortgage-backed securities ("MBS") and ABS are estimated by management using inputs obtained from third-party specialists, including broker-dealers and based on management's knowledge of the current market. For prepayment-sensitive securities such as interest-only, principal-only strips, inverse floaters and credit-sensitive MBS and ABS securities, which represent beneficial interest in securitized financial assets that are not of high credit quality or that have been credit impaired, the effective yield is recalculated on a prospective basis. For all other MBS and ABS, the effective yield is recalculated on a retrospective basis.

Short-term Investments: Short-term investments include investments with remaining maturities of one year or less, but greater than three months, at the time of purchase. These investments are stated at fair value.

Assets Held in Separate Accounts: Assets held in separate accounts are reported at the fair values of the underlying investments in the separate accounts. The underlying investments include mutual funds, short-term investments, cash and fixed maturities.

Mortgage Loans on Real Estate: The Company's mortgage loans on real estate are all commercial mortgage loans, which are reported at amortized cost, less impairment write-downs and allowance for losses. If a mortgage loan is determined to be impaired (i.e., when it is probable that the Company will be unable to collect all amounts due according to the contractual terms of the loan agreement), the carrying value of the mortgage loan is reduced to the lower of either the present value of expected cash flows from the loan discounted at the loan's original purchase yield or fair value of the collateral. For those mortgages that are determined to require foreclosure, the carrying value is reduced to the fair value of the underlying collateral, net of estimated costs to obtain and sell at the point of foreclosure. The carrying value of the impaired loans is reduced by establishing a permanent write-down recorded in Other net realized capital gains (losses) in the Statements of Operations. Property obtained from foreclosed mortgage loans is recorded in Other investments on the Balance Sheets.

Mortgage loans are evaluated by the Company's investment professionals, including an appraisal of loan-specific credit quality, property characteristics, and market trends. Loan performance is continuously monitored on a loan-specific basis throughout the year. The Company's review includes submitted appraisals, operating statements, rent revenues, and annual inspection reports, among other items. This review evaluates whether the properties are performing at a consistent and acceptable level to secure the debt.

Mortgages are rated for the purpose of quantifying the level of risk. Those loans with higher risk are placed on a watch list and are closely monitored for collateral deficiency or other credit events that may lead to a potential loss of principal or interest. The Company defines delinquent mortgage loans consistent with industry practice as 60 days past due.

The Company's policy is to recognize interest income until a loan becomes 90 days delinquent or foreclosure proceedings are commenced, at which point interest accrual is discontinued. Interest accrual is not resumed until the loan is brought current.

The Company records an allowance for probable losses incurred on non-impaired loans on an aggregate basis, rather than specifically identified probable losses incurred by individual loan.

Loan - Dutch State Obligation: The reported value of the State of The Netherlands (the "Dutch State") loan obligation was based on the outstanding loan balance, plus any unamortized premium. This loan obligation was sold to a related party in November 2012.

Policy Loans: Policy loans are carried at an amount equal to the unpaid balance. Interest income on such loans is recorded as earned in Net investment income using the contractually agreed upon interest rate. Generally, interest is capitalized on the policy's anniversary date. Valuation allowances are not established for policy loans, as these loans are collateralized by the cash surrender value of the associated insurance contracts. Any unpaid principal or interest on the loan is deducted from the account value or the death benefit prior to settlement of the policy.

Limited Partnerships/Corporations: The Company uses the equity method of accounting for investments in limited partnership interests which consists primarily of private equities and hedge funds. The Company records its share of earnings using a lag methodology, relying upon the most recent financial information available, generally not to exceed three months. The Company's equity in earnings from limited partnership interests accounted for under the equity method is recorded in Net investment income.

Other Investments: Other investments are comprised primarily of Federal Home Loan Bank ("FHLB") stock and property obtained from foreclosed mortgage loans, as well as other miscellaneous investments. The Company is a member of the FHLB system and is required to own a certain amount of stock based on the level of borrowings and other factors, the Company may invest in additional amounts. FHLB stock is carried at cost, classified as a restricted security and periodically evaluated for impairment based on ultimate recovery of par value.

Securities Lending: The Company engages in securities lending whereby certain domestic securities from its portfolio are loaned to other institutions for short periods of time. Initial collateral, primarily cash, is required at a rate of 102% of the market value of the loaned securities. For portions of the program, the lending agent retains 5% of the collateral deposited by the borrower and transfers the remaining 95% to the Company. For other portions of the program, the lending agent retains the cash collateral. Collateral retained by the agent is invested in liquid assets on behalf of the Company. The market value of the loaned securities is monitored on a daily basis with additional collateral obtained or refunded as the market value of the loaned securities fluctuates.

Other-than-temporary Impairments

The Company periodically evaluates its available-for-sale investments to determine whether there has been an other-than-temporary decline in fair value below the amortized cost basis. Factors considered in this analysis include, but are not limited to, the length of time and the extent to which the fair value has been less than amortized cost, the issuer's financial condition and near-term prospects, future economic conditions and market forecasts, interest rate changes and changes in ratings of the security. An extended and severe unrealized loss position on a fixed maturity may not have any impact on: (a) the ability of the issuer to service all scheduled interest and principal payments and (b) the evaluation of recoverability of all contractual cash flows or the ability to recover an amount at least equal to its amortized cost based on the present value of the expected future cash flows to be collected. In contrast, for certain equity securities, the Company gives greater weight and consideration to a decline in market value and the likelihood such market value decline will recover.

When assessing the Company's intent to sell a security or if it is more likely than not it will be required to sell a security before recovery of its amortized cost basis, management evaluates facts and circumstances such as, but not limited to, decisions to rebalance the investment portfolio and sales of investments to meet cash flow or capital needs.

When the Company has determined it has the intent to sell or if it is more likely than not that the Company will be required to sell a security before recovery of its amortized cost basis and the fair value has declined below amortized cost ("intent impairment"), the individual security is written down from amortized cost to fair value and a corresponding charge is recorded in Net realized capital gains (losses) in the Statements of Operations as an other-than-temporary impairment ("OTTI"). If the Company does not intend to sell the security and it is not more likely than not that the Company will be required to sell the security before recovery of its amortized cost basis, but the Company has determined that there has been an other-than-

temporary decline in fair value below the amortized cost basis, the OTTI is bifurcated into the amount representing the present value of the decrease in cash flows expected to be collected ("credit impairment") and the amount related to other factors ("noncredit impairment"). The credit impairment is recorded in Net realized capital gains (losses) in the Statements of Operations. The noncredit impairment is recorded in Other comprehensive income (loss).

The Company uses the following methodology and significant inputs to determine the amount of the OTTI credit loss:

- The Company performs a discounted cash flow analysis comparing the current amortized cost of a security to the present value of future cash flows expected to be received including estimated defaults and prepayments. The discount rate is generally the effective interest rate of the fixed maturity prior to impairment.
- When determining collectability and the period over which the value is expected to recover, the Company applies the same considerations utilized in its overall impairment evaluation process, which incorporates information regarding the specific security, the industry and geographic area in which the issuer operates and overall macroeconomic conditions. Projected future cash flows are estimated using assumptions derived from the Company's best estimates of likely scenario-based outcomes, after giving consideration to a variety of variables that includes, but is not limited to: general payment terms of the security; the likelihood that the issuer can service the scheduled interest and principal payments; the quality and amount of any credit enhancements; the security's position within the capital structure of the issuer; possible corporate restructurings or asset sales by the issuer; and changes to the rating of the security or the issuer by rating agencies.
- Additional considerations are made when assessing the unique features that apply to certain structured securities such as subprime, Alt-A, non-agency, RMBS, CMBS and ABS. These additional factors for structured securities include, but are not limited to: the quality of underlying collateral; expected prepayment speeds; loan-to-value ratios; debt service coverage ratios; current and forecasted loss severity; and the payment priority within the tranche structure of the security.
- When determining the amount of the credit loss for U.S. and foreign corporate securities, foreign government securities and state and political subdivision securities, the Company considers the estimated fair value as the recovery value when available information does not indicate that another value is more appropriate. When information is identified that indicates a recovery value other than estimated fair value, the Company considers in the determination of recovery value the same considerations utilized in its overall impairment evaluation process, which incorporates available information and the Company's best estimate of scenarios-based outcomes regarding the specific security and issuer; possible corporate restructurings or asset sales by the issuer; the quality and amount of any credit enhancements; the security's position within the capital structure of the issuer; fundamentals of the industry and geographic area in which the security issuer operates and the overall macroeconomic conditions.

In periods subsequent to the recognition of the credit related impairment components of OTTI on a fixed maturity, the Company accounts for the impaired security as if it had been purchased on the measurement date of the impairment. Accordingly, the discount (or reduced premium) based on the new cost basis is accreted into net investment income over the remaining term of the fixed maturity in a prospective manner based on the amount and timing of estimated future cash flows.

Derivatives

The Company's use of derivatives is limited mainly to economic hedging to reduce the Company's exposure to cash flow variability of assets and liabilities, interest rate risk, credit risk, exchange rate risk and market risk. It is the Company's policy not to offset amounts recognized for derivative instruments and amounts recognized for the right to reclaim cash collateral or the obligation to return cash collateral arising from derivative instruments executed with the same counterparty under a master netting arrangement.

The Company enters into interest rate, equity market, credit default and currency contracts, including swaps, futures, forwards, caps, floors and options, to reduce and manage various risks associated with changes in value, yield, price, cash flow, or exchange rates of assets or liabilities held or intended to be held, or to assume or reduce credit exposure associated with a referenced asset, index, or pool. The Company also utilizes options and futures on equity indices to reduce and manage risks associated with its annuity products. Open derivative contracts are reported as Derivatives assets or liabilities on the Balance Sheets at fair value. Changes in the fair value of derivatives are recorded in Net realized capital gains (losses) in the Statements of Operations.

To qualify for hedge accounting, at the inception of the hedging relationship, the Company formally documents its risk management objective and strategy for undertaking the hedging transaction, as well as its designation of the hedge as either (a) a hedge of the exposure to changes in the estimated fair value of a recognized asset or liability or an identified portion thereof that is attributable to a particular risk ("fair value hedge") or (b) a hedge of a forecasted transaction or of the variability of cash flows that is attributable to interest rate risk to be received or paid related to a recognized asset or liability ("cash flow hedge"). In this documentation, the Company sets forth how the hedging instrument is expected to hedge the designated risks related to the hedged item and sets forth the method that will be used to retrospectively and prospectively assess the hedging instrument's effectiveness and the method that will be used to measure ineffectiveness. A derivative designated as a hedging instrument must be assessed as being highly effective in offsetting the designated risk of the hedged item. Hedge effectiveness is formally assessed at inception and periodically throughout the life of the designated hedging relationship.

- *Fair Value Hedge:* For derivative instruments that are designated and qualify as a fair value hedge, the gain or loss on the derivative instrument as well as the hedged item, to the extent of the risk being hedged, are recognized in Other net realized capital gains (losses).
- *Cash Flow Hedge:* For derivative instruments that are designated and qualify as a cash flow hedge, the effective portion of the gain or loss on the derivative instrument is reported as a component of AOCI and reclassified into earnings in the same periods during which the hedged transaction impacts earnings in the same line item associated with the forecasted transaction. The ineffective portion of the derivative's change in value, if any, along with any of the derivative's change in value that is excluded from the assessment of hedge effectiveness, are recorded in Other net realized capital gains (losses).

When hedge accounting is discontinued because it is determined that the derivative is no longer expected to be highly effective in offsetting changes in the estimated fair value or cash flows of a hedged item, the derivative continues to be carried on the Balance Sheets at its estimated fair value, with subsequent changes in estimated fair value recognized immediately in Other net realized capital gains (losses). The carrying value of the hedged asset or liability under a fair value hedge is no longer adjusted for changes in its estimated fair value due to the hedged risk and the cumulative adjustment to its carrying value is amortized into income over the remaining life of the hedged item. Provided the hedged forecasted transaction is still probable of occurrence, the changes in estimated fair value of derivatives recorded in Other comprehensive income (loss) related to discontinued cash flow hedges are released into the Statements of Operations when the Company's earnings are affected by the variability in cash flows of the hedged item.

When hedge accounting is discontinued because it is no longer probable that the forecasted transactions will occur on the anticipated date or within two months of that date, the derivative continues to be carried on the Balance Sheets at its estimated fair value, with changes in estimated fair value recognized currently in Other net realized capital gains (losses). Derivative gains and losses recorded in Other comprehensive income (loss) pursuant to the discontinued cash flow hedge of a forecasted transaction that is no longer probable are recognized immediately in Other net realized capital gains (losses).

If the Company's current debt and claims paying ratings were downgraded in the future, the terms in the Company's derivative agreements may be triggered, which could negatively impact overall liquidity. For the majority of the Company's counterparties, there is a termination event should the Company's long-term debt ratings drop below BBB+/Baa1.

The Company also has investments in certain fixed maturities and has issued certain annuity products, that contain embedded derivatives whose fair value is at least partially determined by levels of or changes in domestic and/or foreign interest rates (short-term or long-term), exchange rates, prepayment rates, equity markets, or credit ratings/spreads. Embedded derivatives within fixed maturities are included with the host contract on the Balance Sheets and changes in fair value of the embedded derivatives are recorded in Other net realized capital gains (losses) in the Statements of Operations. Embedded derivatives within certain annuity products are included in Future policy benefits and contract owner account balances on the Balance Sheets and changes in the fair value of the embedded derivatives are recorded in Other net realized capital gains (losses) in the Statements of Operations.

In addition, the Company has entered into two coinsurance with funds withheld arrangements that contains an embedded derivative, the fair value of which is based on the change in the fair value of the underlying assets held in trust. The embedded derivative within the coinsurance funds withheld arrangement is included in Funds held under reinsurance treaties with affiliates on the Balance Sheets and changes in the fair value are recorded in Interest credited and other benefits to contract owners in the Statements of Operations.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand, amounts due from banks and other highly liquid investments, such as money market instruments and debt instruments with maturities of three months or less at the time of purchase. Cash and cash equivalents are stated at fair value.

DAC and VOBA

DAC represents policy acquisition costs that have been capitalized and are subject to amortization and interest. Capitalized costs are incremental, direct costs of contract acquisition, as well as certain costs related directly to successful acquisition activities. Such costs consist principally of certain commissions, underwriting, sales and contract issuance and processing expenses directly related to the successful acquisition of new and renewal business. Indirect or unsuccessful acquisition costs, maintenance, product development and overhead expenses are charged to expense as incurred. VOBA represents the outstanding value of in force business acquired and is subject to amortization and interest. The value is based on the present value of estimated net cash flows embedded in the insurance contracts at the time of the acquisition and increased for subsequent deferrable expenses on purchased policies.

Amortization Methodologies

The Company amortizes DAC and VOBA related to universal life contracts and fixed and variable deferred annuity contracts over the estimated lives of the contracts in relation to the emergence of estimated gross profits. Assumptions as to mortality, persistency, interest crediting rates, returns associated with separate account performance, impact of hedge performance, expenses to administer the business and certain economic variables, such as inflation, are based on the Company's experience and overall capital markets. At each valuation date, estimated gross profits are updated with actual gross profits and the assumptions underlying future estimated gross profits are evaluated for continued reasonableness. Adjustments to estimated gross profits require that amortization rates be revised retroactively to the date of the contract issuance ("unlocking").

The Company also reviews the estimated gross profits for each block of business to determine the recoverability of DAC and VOBA balances each period. DAC and VOBA are deemed to be recoverable if the estimated gross profits exceed these balances.

Assumptions

Changes in assumptions can have a significant impact on DAC and VOBA balances and amortization rates. Amortization of DSI on these products are also impacted by changes in assumptions (see *Sales Inducements* below).

Several assumptions are considered significant in the estimation of future gross profits associated with variable products. One significant assumption is the assumed return associated with the variable account performance. To reflect the volatility in the equity markets, this assumption involves a combination of near-term expectations and long-term assumptions regarding market performance. The overall return on the variable account is dependent on multiple factors, including the relative mix of the underlying sub-accounts among bond funds and equity funds, as well as equity sector weightings. The Company's practice assumes that intermediate-term appreciation in equity markets reverts to the long-term appreciation in equity markets ("reversion to the mean"). The Company monitors market events and only changes the assumption when sustained deviations are expected. This methodology incorporates a 9% long-term equity return assumption, a 14% cap and a five-year lookforward period. The reversion to the mean methodology was implemented prospectively on January 1, 2011.

Prior to January 1, 2011, the Company utilized a static long-term equity return assumption for projecting account balance growth in all future years. This return assumption was reviewed annually or more frequently, if deemed necessary. Actual returns that were higher than long-term expectations produced higher contract owner account balances, which increased future fee expectations and decreased future benefit payment expectations on minimum death and living benefit guarantees, resulting in higher expected gross profits. The opposite result occurred when returns were lower than long-term expectations.

Other significant assumptions include estimated policyholder behavior assumptions, such as surrender, lapse and annuitization rates. Estimated gross profits of variable annuity contracts are sensitive to these assumptions.

Contract owners may periodically exchange one contract for another, or make modifications to an existing contract. These transactions are identified as internal replacements. Internal replacements that are determined to result in substantially unchanged contracts are accounted for as continuations of the replaced contracts. Any costs associated with the issuance of the

new contracts are considered maintenance costs and expensed as incurred. Unamortized DAC and VOBA related to the replaced contracts continue to be deferred and amortized in connection with the new contracts. Internal replacements that are determined to result in contracts that are substantially changed are accounted for as extinguishments of the replaced contracts and any unamortized DAC and VOBA related to the replaced contracts are written off to Net amortization of deferred policy acquisition costs and value of business acquired in the Statements of Operations.

Sales Inducements

DSI represent benefits paid to contract owners for a specified period that are incremental to the amounts the Company credits on similar contracts and are higher than the contract's expected ongoing crediting rates for periods after the inducement. The Company defers sales inducements and amortizes them over the life of the policy using the same methodology and assumptions used to amortize DAC. The amortization of sales inducements is included in Interest credited and other benefits to contract owners on the Statements of Operations. Each year, or more frequently if circumstances indicate a potentially significant recoverability issue exists, the Company reviews DSI to determine the recoverability of these balances.

Future Policy Benefits and Contract Owner Account Balances

Future Policy Benefits

The Company establishes and carries actuarially-determined reserves that are calculated to meet its future obligations. Reserves also include estimates of unpaid claims as well as claims that the Company believes have been incurred but have not yet been reported as of the balance sheet date. The principal assumptions used to establish liabilities for future policy benefits are based upon Company experience and periodically reviewed against industry standards. These assumptions include mortality, morbidity, policy lapse, contract renewal, payment of subsequent premiums or deposits by the contract owner, retirement, investment returns, inflation, benefit utilization and expenses. Changes in, or deviations from, the assumptions used can significantly affect the Company's reserve levels and related results of operations.

Reserves for individual and group life insurance contracts (mainly term insurance, non-participating whole life insurance, and traditional group life insurance) and accident and health insurance represent the present value of future benefits to be paid to or on behalf of contract owners and related expenses, less the present value of future net premiums. Assumptions as to interest rates, mortality, expenses, and persistency are based upon the Company's estimates of anticipated experience at the period the policy is sold or acquired, including a provision for adverse deviation. Interest rates used to calculate the present value of these reserves ranged from 3.5% to 6.25%.

Reserves for payout contracts with life contingencies are equal to the present value of expected future payments. Assumptions as to interest rates, mortality, and expenses are based upon the Company's experience at the period the policy is sold or acquired, including a provision for adverse deviation. Such assumptions generally vary by annuity plan type, year of issue, and policy duration. Interest rates used to calculate the present value of future benefits ranged from 3.0% to 7.50%.

Although assumptions are "locked-in" upon the issuance of traditional life insurance and immediate annuities with life contingent payout benefits, significant changes in experience or assumptions may require the Company to provide for expected future losses on a product by establishing premium deficiency reserves. Premium deficiency reserves are determined based on best estimate assumptions that exist at the time the premium deficiency reserve is established and do not include a provision for adverse deviation.

Contract Owner Account Balances

Contract owner account balances relate to investment-type contracts, such as guaranteed investment contracts and funding agreements (collectively referred to as "GICs"), universal life-type contracts and fixed-indexed annuity ("FIA") contracts.

- Account balances for GICs are calculated using the amount deposited with the Company, less withdrawals, plus interest accrued to the ending valuation date. Interest on these contracts is accrued by a predetermined index, plus a spread or a fixed rate, established at the issue date of the contract.
- Account balances for fixed annuities and payout contracts without life contingencies are equal to cumulative deposits, less charges and withdrawals, plus credited interest thereon. Credited interest rates vary by product and ranged up to 8.0% for the years 2012, 2011 and 2010. Account balances for group immediate annuities without life contingent payouts are equal to the discounted value of the payment at the implied break-even rate.

- Account balances for universal life-type contracts are equal to cumulative deposits, less charges and withdrawals and account values released upon death, plus credited interest thereon.
- For FIAs, the aggregate initial liability is equal to the deposit received, plus a bonus, if applicable, and is split into a host component and an embedded derivative component. Thereafter, the host liability accumulates at a set interest rate and the embedded derivative liability is recognized at fair value.

Guarantees and Additional Reserves

The Company calculates additional reserve liabilities for certain universal life products and certain variable annuity guaranteed benefits. The additional reserve for such products recognizes the portion of contract assessments received in early years used to compensate the Company for benefits provided in later years.

The Company also calculates a benefit ratio for each block of business that meets the requirements for additional reserves and calculates an additional reserve by accumulating amounts equal to the benefit ratio multiplied by the assessments for each period, reduced by excess benefits during the period. The additional reserve is accumulated at interest rates consistent with the DAC model for the period. The calculated reserve includes a provision for universal life contracts with patterns of cost of insurance charges that produce expected gains from the insurance benefit function followed by losses from that function in later years.

Guaranteed minimum death benefits and Guaranteed minimum income benefits

Reserves for annuity guaranteed minimum death benefits ("GMDB") and guaranteed minimum income benefits ("GMIB") are determined by estimating the value of expected benefits in excess of the projected account balance and recognizing the excess ratably over the accumulation period based on total expected assessments. Expected experience is based on a range of scenarios. Assumptions used, such as the long-term equity market return, lapse rate and mortality, are consistent with assumptions used in estimating gross profits for purposes of amortizing DAC. The assumptions of investment performance and volatility are consistent with the historical experience of the appropriate underlying equity index, such as the Standard & Poor's ("S&P") 500 Index. In addition, the reserve for the GMIB guarantee incorporates assumptions for the likelihood and timing of the potential annuitizations that may be elected by the contract owner. In general, the Company assumes that GMIB annuitization rates will be higher for policies with more valuable guarantees ("in the money" guarantees where the notional benefit amount is in excess of the account value). Reserves for GMDB and GMIB are recorded in Future policy benefits on the Balance Sheets. Changes in reserves for GMDB and GMIB are reported in Interest credited and other benefits to contract owners in the Statements of Operations.

Most contracts issued on or before December 31, 1999 with enhanced death benefit guarantees were reinsured to third-party reinsurers to mitigate the risk associated with such guarantees. For contracts issued after December 31, 1999, the Company instituted a variable annuity guarantee hedging program to mitigate the risks associated with these guarantees, for which the Company did not seek hedge accounting. The variable annuity guarantee hedging program is based on the Company entering into derivative positions to offset such exposures to GMDB and GMIB due to adverse changes in the equity markets.

GMAB, GMWB, GMWBL and FIA

The Company also issues certain products which contain embedded derivatives that are measured at estimated fair value separately from the host contracts. These products include annuity guaranteed minimum accumulation benefits ("GMAB"), guaranteed minimum withdrawal benefits without life contingencies ("GMWBs"), guaranteed minimum withdrawal benefits with life contingent payouts ("GMWBL") and FIAs which are measured at estimated fair value separately from the host annuity contract, with changes in estimated fair value, along with attributed fees collected or payments made, are reported in Other net realized capital gains (losses) in the Statements of Operations.

At inception of the GMAB, GMWB and GMWBL contracts, the Company projects a fee to be attributed to the embedded derivative portion of the guarantee equal to the present value of projected future guaranteed benefits. After inception the estimated fair value of the GMAB, GMWB and GMWBL contracts is determined based on the present value of projected future guaranteed benefits minus the present value of projected attributed fees. A risk neutral valuation methodology is used under which the cash flows from the guarantees are projected under multiple capital market scenarios using observable risk free rates. The projection of future guaranteed benefits and future attributed fees require the use of assumptions for capital markets (e.g., implied volatilities, correlation among indices, risk-free swap curve, etc.) and policyholder behavior (e.g., lapse, benefit utilization, mortality, etc.). Risk margins are established to capture uncertainties related to policyholder behavior assumptions. The margin represents additional compensation a market participant would require to assume these risks.

The estimated fair value of the FIA contracts is based on the present value of the excess of interest payments to the contract owners over the minimum guaranteed interest rate. The excess interest payments are determined as the excess of projected index driven benefits over the projected guaranteed benefits. The projection horizon is over the anticipated life of the related contracts, which takes into account best estimate actuarial assumptions, such as, partial withdrawals, full surrenders, deaths, annuitizations and, maturities.

The GMAB, GMWB, GMWBL and FIA embedded derivative liabilities include a risk margin to capture uncertainties related to policyholder behavior assumptions. The margin represents additional compensation a market participant would require to assume these risks.

Separate Accounts

Separate account assets and liabilities generally represent funds maintained to meet specific investment objectives of contract owners or participants who bear the investment risk, subject, in limited cases, to minimum guaranteed rates. Investment income and investment gains and losses generally accrue directly to such contract owners. The assets of each account are legally segregated and are not subject to claims that arise out of any other business of the Company or its affiliates.

Separate account assets supporting variable options under variable annuity contracts are invested, as designated by the contract owner or participant under a contract, in shares of mutual funds that are managed by the Company or its affiliates, or in other selected mutual funds not managed by the Company or its affiliates.

The Company reports separately, as assets and liabilities, investments held in the separate accounts and liabilities of separate accounts if:

- Such separate accounts are legally recognized;
- Assets supporting the contract liabilities are legally insulated from the Company's general account liabilities;
- Investments are directed by the contract owner or participant; and
- All investment performance, net of contract fees and assessments, is passed through to the contract owner.

The Company reports separate account assets that meet the above criteria at fair value on the Balance Sheets based on the fair value of the underlying investments. Separate account liabilities equal separate account assets. Investment income and net realized and unrealized capital gains (losses) of the separate accounts, however, are not reflected in the Statements of Operations. The Statements of Cash Flows do not reflect investment activity of the separate accounts.

Long-term Debt

Long-term debt is carried at an amount equal to the unpaid principal balance, net of any remaining unamortized discount or premium attributable to issuance. Direct and incremental costs to issue the debt are recorded in Other assets on the Balance Sheets and are recognized as a component of Interest expense in the Statements of Operations over the life of the debt, using the effective interest method of amortization.

Repurchase Agreements

The Company engages in dollar repurchase agreements with MBS ("dollar rolls") and repurchase agreements with other collateral types to increase its return on investments and improve liquidity. Such arrangements meet the requirements to be accounted for as financing arrangements.

The Company enters into dollar roll transactions by selling existing MBS and concurrently entering into an agreement to repurchase similar securities within a short time frame at a lower price. Under repurchase agreements, the Company borrows cash from a counterparty at an agreed upon interest rate for an agreed upon time frame and pledges collateral in the form of securities. At the end of the agreement, the counterparty returns the collateral to the Company and the Company, in turn, repays the loan amount along with the additional agreed upon interest.

Company policy requires that at all times during the term of the dollar roll and repurchase agreements that cash or other collateral types obtained is sufficient to allow the Company to fund substantially all of the cost of purchasing replacement assets. Cash received is invested in Short-term investments, with the offsetting obligation to repay the loan included as an

Other liability on the Balance Sheets. The carrying value of the securities pledged in dollar rolls and repurchase agreement transactions and the related repurchase obligation are included in Securities pledged and Short-term debt, respectively, on the Balance Sheets.

The primary risk associated with short-term collateralized borrowings is that the counterparty will be unable to perform under the terms of the contract. The Company's exposure is limited to the excess of the net replacement cost of the securities over the value of the short-term investments. The Company believes the counterparties to the dollar rolls and repurchase agreements are financially responsible and that the counterparty risk is minimal.

Recognition of Insurance Revenue and Related Benefits

Premiums related to individual and group life policies are recognized in Premiums in the Statements of Operations when due from the contract owners. When premiums are due over a significantly shorter period than the period over which benefits are provided, any gross premium in excess of the net premium (i.e., the portion of the gross premium required to provide for all expected future benefits and expenses) is deferred and recognized into revenue in a constant relationship to insurance in force. Benefits are recorded in Interest credited and other benefits to contract owners in the Statements of Operations when incurred.

Amounts received as payment for investment-type and universal life-type contracts are reported as deposits to contract owner account balances. Revenues from these contracts consist primarily of fees assessed against the contract owner account balance for mortality, policy administration and surrender charges and are reported in Fee income. In addition, the Company earns investment income from the investment of contract deposits in the Company's general account portfolio which is reported in Net Investment Income in the Statements of Operations. Fees assessed that represent compensation to the Company for services to be provided in future periods and certain other fees are deferred and amortized into revenue over the expected life of the related contracts in proportion to estimated gross profits, in a manner consistent with DAC for these contracts. Benefits and expenses for these products include claims in excess of related account balances, expenses of contract administration and interest credited to contract owner account balances.

Income Taxes

The Company uses certain assumptions and estimates in determining the income taxes payable or refundable to/from the Parent for the current year, the deferred income tax liabilities and assets for items recognized differently in its financial statements from amounts shown on its income tax returns and the federal income tax expense. Determining these amounts requires analysis and interpretation of current tax laws and regulations, including the loss limitation rules associated with change in control. Management exercises considerable judgment in evaluating the amount and timing of recognition of the resulting income tax liabilities and assets. These judgments and estimates are reevaluated on a continual basis as regulatory and business factors change.

The Company's deferred tax assets and liabilities resulting from temporary differences between financial reporting and tax bases of assets and liabilities are measured at the balance sheet date using enacted tax rates expected to apply to taxable income in the years the temporary differences are expected to reverse.

Deferred tax assets represent the tax benefit of future deductible temporary differences and operating loss and tax credit carryforwards. The Company evaluates and tests the recoverability of its deferred tax assets. Deferred tax assets are reduced by a valuation allowance if, based on the weight of evidence, it is more likely than not that some portion, or all, of the deferred tax assets will not be realized. Considerable judgment and the use of estimates are required in determining whether a valuation allowance is necessary and if so, the amount of such valuation allowance. In evaluating the need for a valuation allowance, the Company considers many factors, including:

- The nature and character of the deferred tax assets and liabilities;
- Taxable income in prior carryback years;
- Projected future income, exclusive of reversing temporary differences and carryforwards;
- Projected future reversals of existing temporary differences;
- The length of time carryforwards can be utilized;
- Any prudent and feasible tax planning strategies the Company would employ to avoid a tax benefit from expiring unused;
- The nature, frequency and severity of cumulative U.S. GAAP losses in recent years; and

- Any tax rules that would impact the utilization of the deferred tax assets.

In establishing unrecognized tax benefits, the Company determines whether a tax position is more likely than not to be sustained under examination by the appropriate taxing authority. The Company also considers positions that have been reviewed and agreed to as part of an examination by the appropriate taxing authority. Tax positions that do not meet the more likely than not standard are not recognized. Tax positions that meet this standard are recognized in the Financial Statements. The Company measures the tax position as the largest amount of benefit that is greater than 50% likely of being realized upon ultimate resolution with the tax authority that has full knowledge of all relevant information.

Reinsurance

The Company utilizes reinsurance agreements in most aspects of its insurance business to reduce its exposure to large losses. Such reinsurance permits recovery of a portion of losses from reinsurers, although it does not discharge the primary liability of the Company as direct insurer of the risks reinsured.

For each of its reinsurance agreements, the Company determines whether the agreement provides indemnification against loss or liability relating to insurance risk. The Company reviews all contractual features, particularly those that may limit the amount of insurance risk to which the reinsurer is subject or features that delay the timely reimbursement of claims.

For reinsurance of long-duration contracts that transfer significant insurance risk, the difference, if any, between the amounts paid and benefits received related to the underlying contracts is included in the expected net cost of reinsurance which is recorded as a component of the reinsurance asset or liability. Any difference between actual and expected net cost of reinsurance is recognized in the current period and included as a component of profits used to amortize DAC.

For prospective reinsurance of short-duration contracts that meet the criteria for reinsurance accounting, amounts paid are recorded as ceded premiums and ceded unearned premiums and are reflected as a component of Premiums in the Statements of Operations and Other assets on the Balance Sheets, respectively. Ceded unearned premiums are amortized through premiums over the remaining contract period in proportion to the amount of protection provided.

If the Company determines that a reinsurance agreement does not expose the reinsurer to a reasonable possibility of a significant loss from insurance risk, the Company records the agreement using the deposit method of accounting. Deposits received are included in Other liabilities and deposits made are included in Deposits and reinsurance recoverable on the Balance Sheets. As amounts are paid or received, consistent with the underlying contracts, the deposit assets or liabilities are adjusted. Interest on such deposits is recorded as Other revenues or Other expenses, as appropriate. Periodically, the Company evaluates the adequacy of the expected payments or recoveries and adjusts the deposit asset or liability through Other revenues or Other expenses, as appropriate.

Accounting for reinsurance requires extensive use of assumptions and estimates, particularly related to the future performance of the underlying business and the potential impact of counterparty credit risks. The Company periodically reviews actual and anticipated experience compared to the assumptions used to establish assets and liabilities relating to ceded and assumed reinsurance. The Company also evaluates the financial strength of potential reinsurers and continually monitors the financial condition of reinsurers. Only those reinsurance recoverable balances deemed probable of recovery are reflected as assets on the Balance Sheets and are stated net of allowances for uncollectible reinsurance. Amounts currently recoverable under reinsurance agreements are included in Reinsurance recoverable and amounts currently payable are included in Other liabilities. Such assets and liabilities relating to reinsurance agreements with the same reinsurer are recorded net on the Balance Sheets if a right of offset exists within the reinsurance agreement.

Premiums, Fee income and Policyholder benefits are reported net of reinsurance ceded. Amounts received from reinsurers for policy administration are reported in Other revenue.

The combined coinsurance and coinsurance funds withheld reinsurance agreement between the Company and Security Life of Denver International Limited ("SLDI"), an affiliate, contains an embedded derivative whose carrying value is estimated based upon the change in the fair value of the assets supporting the funds withheld payable under the agreement.

The Company currently has significant concentrations of ceded reinsurance with its affiliates, Security Life of Denver Insurance Company ("SLD") and SLDI primarily related to GICs, fixed annuities and universal life policies with respect to SLD and variable annuities with respect to SLDI. The outstanding recoverable balances may fluctuate from period to period.

Participating Insurance

Participating business approximates 12.5% of the Company's ordinary life insurance in force and 29.9% of life insurance premium income. The amount of dividends to be paid is determined annually by the Board of Directors. Amounts allocable to participating contract owners are based on published dividend projections or expected dividend scales. Dividends to participating policyholders of \$9.8, \$11.1 and \$12.1, were incurred during the years ended December 31, 2012, 2011 and 2010, respectively.

Contingencies

A loss contingency is an existing condition, situation, or set of circumstances involving uncertainty as to possible loss that will ultimately be resolved when one or more future events occur or fail to occur. Examples of loss contingencies include pending or threatened adverse litigation, threat of expropriation of assets and actual or possible claims and assessments. Amounts related to loss contingencies are accrued and recorded in Other liabilities on the Balance Sheets if it is probable that a loss has been incurred and the amount can be reasonably estimated, based on the Company's best estimate of the ultimate outcome. If determined to meet the criteria for a reserve, the Company also evaluates whether there are external legal or other costs directly associated with the resolution of the matter and accrues such costs if estimable.

Adoption of New Pronouncements

Financial Instruments

Reconsideration of Effective Control for Repurchase Agreements

In April 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2011-03, "Transfers and Servicing (Accounting Standards CodificationTM ("ASC") Topic 860): Reconsideration of Effective Control for Repurchase Agreements" ("ASU 2011-03"), which removes from the assessment of effective control (1) the criterion requiring the transferor to have the ability to repurchase or redeem the financial assets on substantially the agreed terms and (2) the collateral maintenance implementation guidance related to that criterion.

The provisions of ASU 2011-03 were adopted by the Company on January 1, 2012. The Company determined that there was no effect on the Company's financial condition, results of operations or cash flows, as the guidance is consistent with that previously applied by the Company.

A Creditor's Determination of Whether a Restructuring is a Troubled Debt Restructuring

In April 2011, the FASB issued ASU 2011-02, "Receivables ASC Topic 310: A Creditor's Determination of Whether a Restructuring is a Troubled Debt Restructuring" ("ASU 2011-02"), which clarifies the guidance on a creditor's evaluation of whether it has granted a concession and whether the debtor is experiencing financial difficulties, as follows:

- If a debtor does not have access to funds at a market rate for similar debt, the restructuring would be considered to be at a below-market rate;
- An increase in the contractual interest rate does not preclude the restructuring from being considered a concession, as the new rate could still be below the market interest rate;
- A restructuring that results in a delay in payment that is insignificant is not a concession;
- A creditor should evaluate whether it is probable that the debtor would be in payment default on any of its debt without the modification to determine if the debtor is experiencing financial difficulties; and
- A creditor is precluded from using the effective interest rate test.

Also, ASU 2011-02 requires disclosure of certain information about troubled debt restructuring, which was previously deferred by ASU 2011-01, "Deferral of the Effective Date of Disclosure about Troubled Debt Restructurings in Update No. 2010-20" ("ASU 2011-01").

The provisions of ASU 2011-02 were adopted by the Company on July 1, 2011, and applied retrospectively to January 1, 2011. The Company determined, however, that there was no effect on the Company's financial position, results of operations or cash flows upon adoption, as there were no troubled debt restructurings between January 1, 2011 and July 1, 2011. The disclosures required by ASU 2011-02 are included in the Investments note to these Financial Statements.

Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses

In July 2010, the FASB issued ASU 2010-20, "Receivables (ASC Topic 310): Disclosures about the Credit Quality of Financing Receivables and the Allowance for Credit Losses" ("ASU 2010-20"), which requires certain existing disclosures to be disaggregated by class of financing receivable, including the rollforward of the allowance for credit losses, with the ending balance further disaggregated on the basis of impairment method. For each disaggregated ending balance, an entity also is required to disclose the related recorded investment in financing receivables, the nonaccrual status of financing receivables, and impaired financing receivables.

ASU 2010-20 also requires new disclosures by class of financing receivable, including credit quality indicators, aging of past due amounts, the nature and extent of troubled debt restructurings and related defaults, and significant purchases and sales of financing receivables disaggregated by portfolio segment.

In January 2011, the FASB issued ASU 2011-01, which temporarily delayed the effective date of the disclosures about troubled debt restructurings in ASU 2010-20.

The provisions of ASU 2010-20 were adopted by the Company on December 31, 2010, and are included in the Investments note to these Financial Statements, as well as the "Reinsurance" section above, except for the disclosures about troubled debt restructurings included in ASU 2011-02 that were adopted by the Company on July 1, 2011 (see above). The disclosures that include information for activity that occurs during a reporting period were adopted by the Company on January 1, 2011 and are included in the Investment note to these Financial Statements. As this pronouncement only pertains to additional disclosure, the adoption had no effect on the Company's financial condition, results of operations, or cash flows.

Scope Exception Related to Embedded Credit Derivatives

In March 2010, the FASB issued ASU 2010-11, "Derivatives and Hedging (ASC Topic 815): Scope Exception Related to Embedded Credit Derivatives" ("ASU 2010-11"), which clarifies that the only type of embedded credit derivatives that are exempt from bifurcation requirements are those that relate to the subordination of one financial instrument to another.

The provisions of ASU 2010-11 were adopted by the Company on July 1, 2010. The Company determined, however, that there was no effect on the Company's financial condition, results of operations, or cash flows upon adoption, as the guidance is consistent with that previously applied by the Company.

Fair Value

Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards ("IFRS")

In May 2011, the FASB issued Accounting Standards Update ("ASU") 2011-04, "Fair Value Measurement (ASC Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS" ("ASU 2011-04"), which includes the following amendments:

- The concepts of highest and best use and valuation premise are relevant only when measuring the fair value of nonfinancial assets;
- The requirements for measuring the fair value of equity instruments are consistent with those for measuring liabilities;
- An entity is permitted to measure the fair value of financial instruments managed within a portfolio at the price that would be received to sell or transfer a net position for a particular risk; and
- The application of premiums and discounts in a fair value measurement is related to the unit of account for the asset or liability.

ASU 2011-04 also requires additional disclosures, including use of a nonfinancial asset in a way that differs from its highest and best use, categorization by level for items in which fair value is required to be disclosed and further information regarding Level 3 fair value measurements.

The provisions of ASU 2011-04 were adopted, prospectively, by the Company on January 1, 2012. The adoption had no effect on the Company's financial condition, results of operations or cash flows as the pronouncement only pertains to additional disclosure. The disclosures required by ASU 2011-04 are included in the Fair Value Measurements note to these Financial Statements.

Improving Disclosures about Fair Value Measurements

In January 2010, the FASB issued ASU 2010-06, "Fair Value Measurements and Disclosure (ASC Topic 820): Improving Disclosures about Fair Value Measurements" ("ASU 2010-06"), which requires several new disclosures, as well as clarification to existing disclosures, as follows:

- Significant transfers in and out of Level 1 and Level 2 fair value measurements and the reason for the transfers;
- Purchases, sales, issuances and settlement, in the Level 3 fair value measurements reconciliation on a gross basis;
- Fair value measurement disclosures for each class of assets and liabilities (i.e., disaggregated); and
- Valuation techniques and inputs for both recurring and nonrecurring fair value measurements that fall in either Level 2 or Level 3 fair value measurements.

The provisions of ASU 2010-06 were adopted by the Company on January 1, 2010, except for the disclosures related to the Level 3 reconciliation that were adopted by the Company on January 1, 2011. The adoption had no effect on the Company's financial condition, results of operations, or cash flows as the pronouncement only pertains to additional disclosure. The disclosures required by ASU 2010-06 are included in the *Fair Value Measurements* note to these Financial Statements.

Improvements to Financial Reporting by Enterprises Involved in Variable Interest Entities

In December 2009, the FASB issued ASU 2009-17, "Consolidations (ASC Topic 810): Improvements to Financial Reporting by Enterprises Involved in Variable Interest Entities," ("ASU 2009-17"), which amends the consolidation guidance for variable interest entities ("VIEs"), as follows:

- Eliminates the quantitative-based assessment for consolidation of VIEs and, instead, requires a qualitative assessment of whether an entity has the power to direct the VIE's activities and whether the entity has the obligation to absorb losses or the right to receive benefits that could be significant to the VIE;
- Requires an ongoing reassessment of whether an entity is the primary beneficiary of a VIE; and
- Requires enhanced disclosures, including (i) presentation on the balance sheet of assets and liabilities of consolidated VIEs that meet the separate presentation criteria and disclosure of assets and liabilities recognized on the balance sheet and (ii) the maximum exposure to loss for those VIEs in which a reporting entity is determined to not be the primary beneficiary but in which it has a variable interest.

In addition, in February 2010, the FASB issued ASU 2010-10, "Consolidation (ASC Topic 810): Amendments for Certain Investment Funds" (ASU 2010-10), which defers to ASU 2009-17 for reporting entity's interests in certain investment funds that have attributes of investment companies, for which the reporting entity does not have an obligation to fund losses and that are not structured as securitization entities.

The provisions of ASU 2009-17 and ASU 2010-10 were adopted on January 1, 2010. The Company determined, however, that there was no effect on the Company's financial condition, results of operations, or cash flows upon adoption, as the consolidation conclusions were consistent with those under previous U.S. GAAP. The disclosure provisions required by ASU 2009-17 are presented in the Financial Instruments note to these Financial Statements.

Other Pronouncements

Presentation of Comprehensive Income

In June 2011, the FASB issued ASU 2011-05, "Comprehensive Income (ASC Topic 220): Presentation of Comprehensive Income" ("ASU 2011-05"), which states that an entity has the option to present total comprehensive income and the components of net income and other comprehensive income either in a single, continuous statement of comprehensive income or in two separate, consecutive statements.

In December 2011, the FASB issued ASU 2011-12, which defers the ASU 2011-05 requirements to present, on the face of the financial statements, the effects of reclassification out of AOCI on the components of net income and other comprehensive income.

The Company early adopted provisions of ASU 2011-05 and ASU 2010-12 on December 31, 2011, and applied the provisions retrospectively. The Statement of Comprehensive Income, with corresponding revisions to the Statements of Changes in Shareholder's Equity, is included in the Financial Statements. In addition, the required disclosures are included in the Accumulated Other Comprehensive Income (Loss) note to these Financial Statements.

Future Adoption of Accounting Pronouncements

Disclosures about Offsetting Assets and Liabilities

In December 2011, the FASB issued ASU 2011-11, "Balance Sheet (ASC Topic 210): Disclosures about Offsetting Assets and Liabilities" ("ASU 2011-11"), which requires an entity to disclose both gross and net information about instruments and transactions eligible for offset in the statement of financial position, as well as instruments and transactions subject to an agreement similar to a master netting arrangement. In addition, the standard requires disclosure of collateral received and posted in connection with master netting agreements or similar arrangements.

In January 2013, the FASB issued ASU 2013-01, "Balance Sheet (Topic 210): Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities" ("ASU 2013-01"), which clarifies that the scope of ASU 2011-11 applies to derivatives accounted for in accordance with ASU Topic 815, Derivatives and Hedging, including bifurcated embedded derivatives, repurchase agreements and reverse repurchase agreements and securities borrowing and securities lending transactions that are either offset in accordance with Section 210-20-45 or Section 815-10-45 or subject to an enforceable master netting arrangement or similar agreement.

The provisions of ASU 2013-01 and ASU 2011-11 are effective retrospectively for annual reporting periods beginning on or after January 1, 2013 and periods within those annual reporting periods. The Company will adopt the provisions of these ASUs in the first quarter of 2013 which will include additional disclosure of the gross and net information instruments deemed in scope, including any related collateral received or posted.

Disclosures about Amounts Reclassified out of AOCI

In January 2013, the FASB issued ASU 2013-02, "Comprehensive Income (ASC Topic 220): Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income" ("ASU 2013-02"), which requires an entity to provide information about the amounts reclassified out of accumulated other comprehensive income by component. In addition, an entity is required to present, either on the face of the statement where net income is presented or in the notes, significant amounts reclassified out of accumulated other comprehensive income by the respective line items of net income but only if the amount reclassified is required under U.S. GAAP to be reclassified to net income in its entirety in the same reporting period. For other amounts that are not required under U.S. GAAP to be reclassified in their entirety to net income, an entity is required to cross-reference to other disclosures required under U.S. GAAP that provide additional detail about those amounts.

The provisions of ASU 2013-02 are effective prospectively for reporting periods beginning after December 15, 2012. The Company will adopt the provisions of ASU 2013-02 in the first quarter of 2013 to provide additional information about amounts reclassified out of accumulated other comprehensive income by component.

⁽³⁾ Represents OTTI reported as a component of Other comprehensive income.

ING USA Annuity and Life Insurance Company
(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to the Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The amortized cost and fair value of fixed maturities, including securities pledged, as of December 31, 2012, are shown below by contractual maturity. Actual maturities may differ from contractual maturities as securities may be restructured, called, or prepaid. Mortgage-backed securities ("MBS") and other asset-backed securities ("ABS") are shown separately because they are not due at a single maturity date.

	Amortized Cost	Fair Value
Due to mature:		
One year or less	\$ 1,122.5	\$ 1,145.2
After one year through five years	4,967.1	5,274.6
After five years through ten years	5,836.5	6,440.6
After ten years	3,781.8	4,468.9
Mortgage-backed securities	3,182.5	3,617.3
Other asset-backed securities	681.6	680.7
Fixed maturities, including securities pledged	<u>\$ 19,572.0</u>	<u>\$ 21,627.3</u>

The investment portfolio is monitored to maintain a diversified portfolio on an ongoing basis. Credit risk is mitigated by monitoring concentrations by issuer, sector and geographic stratification and limiting exposure to any one issuer.

As of December 31, 2012, the Company did not have any investments in a single issuer, other than obligations of the U.S. government and government agencies, with a carrying value in excess of 10% of the Company's Shareholder's equity. As of December 31, 2011 the Company did not have any investments in a single issuer, other than obligations of the U.S. government and government agencies and the Dutch State loan obligation, with a carrying value in excess of 10% of the Company's Shareholder's equity.

The following tables set forth the composition of the U.S. and foreign corporate securities within the fixed maturity portfolio by industry category as of December 31, 2012 and 2011:

	Amortized Cost	Gross Unrealized Capital Gains	Gross Unrealized Capital Losses	Fair Value
<u>2012</u>				
Communications	\$ 991.8	\$ 138.8	\$ 0.5	\$ 1,130.1
Financial	1,669.5	179.0	17.6	1,830.9
Industrial and other companies	8,393.6	839.0	5.5	9,227.1
Utilities	2,573.6	310.8	9.9	2,874.5
Transportation	356.4	41.9	0.2	398.1
Total	<u>\$ 13,984.9</u>	<u>\$ 1,509.5</u>	<u>\$ 33.7</u>	<u>\$ 15,460.7</u>
<u>2011</u>				
Communications	\$ 1,109.9	\$ 96.0	\$ 5.3	\$ 1,200.6
Financial	1,948.2	115.1	54.3	2,009.0
Industrial and other companies	8,453.1	634.0	33.2	9,053.9
Utilities	2,589.6	244.5	10.5	2,823.6
Transportation	366.3	31.7	2.5	395.5
Total	<u>\$ 14,467.1</u>	<u>\$ 1,121.3</u>	<u>\$ 105.8</u>	<u>\$ 15,482.6</u>

The Company invests in various categories of collateralized mortgage obligations ("CMOs"), including CMOs that are not agency-backed, that are subject to different degrees of risk from changes in interest rates and defaults. The principal risks inherent in holding CMOs are prepayment and extension risks related to significant decreases and increases in interest rates

resulting in the prepayment of principal from the underlying mortgages, either earlier or later than originally anticipated. As of December 31, 2012 and 2011, approximately 32.9% and 28.3%, respectively, of the Company's CMO holdings, such as interest-only or principal-only strips, were invested in those types of CMOs, which are subject to more prepayment and extension risk than traditional CMOs.

Repurchase Agreements

As described in the Business, Basis of Presentation and Significant Accounting Policy note, the Company engages in dollar repurchase agreements with mortgage-backed securities ("dollar rolls") and repurchase agreements with other collateral types to increase its return on investments and improve liquidity. Such arrangements meet the requirements to be accounted for as financing arrangements. As of December 31, 2012 and 2011 the Company did not have any securities pledged in dollar rolls and repurchase agreement transactions.

The Company also enters into reverse repurchase agreements. These transactions involve a purchase of securities and an agreement to sell substantially the same securities as those purchased. As of December 31, 2012 and 2011, the Company did not have any securities pledged under reverse repurchase agreements.

Securities Lending

As described in the Business, Basis of Presentation and Significant Accounting Policy note, the Company engages in securities lending whereby certain domestic securities from its portfolio are loaned to other institutions for short periods of time. As of December 31, 2012 and 2011, the fair value of loaned securities was \$134.7 and \$233.0, respectively, and is included in Securities pledged on the Balance Sheets. As of December 31, 2012 and 2011, collateral retained by the lending agent and invested in liquid assets on the Company's behalf was \$138.9 and \$248.3, respectively, and recorded in Short-term investments under securities loan agreement, including collateral delivered on the Balance Sheets. As of December 31, 2012 and 2011, liabilities to return collateral of \$138.9 and \$248.3, respectively, are included in Payables under securities loan agreement, including collateral held on the Balance Sheets.

Variable Interest Entities ("VIEs")

The Company holds certain VIEs for investment purposes. VIEs may be in the form of private placement securities, structured securities, securitization transactions, or limited partnerships. The Company has reviewed each of its holdings and determined that consolidation of these investments in the Company's financial statements is not required, as the Company is not the primary beneficiary, because the Company does not have both the power to direct the activities that most significantly impact the entity's economic performance and the obligation or right to potentially significant losses or benefits, for any of its investments in VIEs. The Company provided no non-contractual financial support and its carrying value represents the Company's exposure to loss. The carrying value of the equity tranches of the collateralized loan obligations ("CLOs") of \$4.0 and \$3.5 as of December 31, 2012 and 2011, respectively, is included in Limited partnerships/corporations on the Balance Sheets. Income and losses recognized on these investments are reported in Net investment income in the Statements of Operations.

On June 4, 2012, the Company entered into an agreement to sell certain general account private equity limited partnership investment interest holdings with a carrying value of \$146.1 as of March 31, 2012 to a group of private equity funds that are managed by Pomona Management LLC, an affiliate of the Company. The transaction resulted in a net pretax loss of \$16.9 in the second quarter of 2012 reported in Net investment income on the Statements of Operations. The transaction closed in two tranches with the first tranche closed on June 29, 2012 and the second tranche closed on October 29, 2012. Consideration received included \$8.2 of promissory notes due in two equal installments at December 31, 2013 and 2014. In connection with these promissory notes, ING U.S., Inc. unconditionally guarantees payments of the notes in the event of any default of payments due. No additional loss was incurred on the second tranche since the fair value of the alternative investments was reduced to the agreed-upon sales price as of June 30, 2012.

Securitizations

The Company invests in various tranches of securitization entities, including residential mortgage-backed securities ("RMBS"), commercial mortgage-backed securities ("CMBS") and ABS. Certain RMBS investments represent agency pass-through securities and close-to-the-index tranches issued by Fannie Mae, Freddie Mac, or a similar government-sponsored entity.

ING USA Annuity and Life Insurance Company
(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to the Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Investments held by the Company in non-agency RMBS and CMBS also include interest-only, principal-only and inverse floating securities. Through its investments, the Company is not obligated to provide any financial or other support to these entities. Each of the RMBS, CMBS and ABS entities described above are thinly capitalized by design and considered VIEs under ASC 810-10-25 as amended by ASU 2009-17. As discussed above, the Company's involvement with these entities is limited to that of a passive investor. The Company has no unilateral right to appoint or remove the servicer, special servicer, or investment manager, which are generally viewed to have the power to direct the activities that most significantly impact the securitization entities' economic performance, in any of these entities, nor does the Company function in any of these roles. The Company through its investments or other arrangements does not have the obligation to absorb losses or the right to receive benefits from the entity that could potentially be significant to the entity. Therefore, the Company is not the primary beneficiary and will not consolidate any of the RMBS, CMBS and ABS entities in which it holds investments. These investments are accounted for as investments available-for-sale as described in the Business, Basis of Presentation and Significant Accounting Policies note to these Financial Statements.

Unrealized Capital Losses

Unrealized capital losses (including noncredit impairments), along with the fair value of fixed maturity securities, including securities pledged, by market sector and duration were as follows as of December 31, 2012 and 2011:

	Six Months or Less Below Amortized Cost		More Than Six Months and Twelve Months or Less Below Amortized Cost		More Than Twelve Months Below Amortized Cost		Total	
	Fair Value	Unrealized Capital Losses	Fair Value	Unrealized Capital Losses	Fair Value	Unrealized Capital Losses	Fair Value	Unrealized Capital Losses
2012								
U.S. corporate, state and municipalities	\$ 237.3	\$ 2.9	\$ 40.1	\$ 0.6	\$ 94.0	\$ 10.4	\$ 371.4	\$ 13.9

Of the unrealized capital losses aged more than twelve months, the average fair value of the related fixed maturities was 87.9% and 83.4% of the average book value as of December 31, 2012 and 2011, respectively.

ING USA Annuity and Life Insurance Company
(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to the Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Unrealized capital losses (including noncredit impairments) in fixed maturities, including securities pledged, for instances in which fair value declined below amortized cost by greater than or less than 20% were as follows as of December 31, 2012 and 2011:

	Amortized Cost		Unrealized Capital Losses		Number of Securities	
	< 20%	> 20%	< 20%	> 20%	< 20%	> 20%
2012						
Six months or less below amortized cost	\$ 553.1	\$ 27.3	\$ 22.8	\$ 6.5	116	13
More than six months and twelve months or less below amortized cost	151.9	2.9	7.9	1.0	35	3
More than twelve months below amortized cost	290.1	149.2	10.0	46.1	83	55

All investments with fair values less than amortized cost are included in the Company's other-than-temporary impairments analysis and impairments were recognized as disclosed in the "Evaluating Securities for Other-Than-Temporary Impairments" section below. The Company evaluates non-agency RMBS and ABS for other-than-temporary impairments each quarter based on actual and projected cash flows after considering the quality and updated loan-to-value ratios of underlying collateral, forecasted loss severity, the payment priority within the tranche structure of the security and amount of any credit enhancements. The Company's assessment of current levels of cash flows compared to estimated cash flows at the time the

securities were acquired indicates the amount and the pace of projected cash flows from the underlying collateral has generally been lower and slower, respectively. However, since cash flows are typically projected at a trust level, the impairment review incorporates the security's position within the trust structure as well as credit enhancement remaining in the trust to determine whether an impairment is warranted. Therefore, while lower and slower cash flows will impact the trust, the effect on a particular security within the trust will be dependent upon the trust structure. Where the assessment continues to project full recovery of principal and interest on schedule, the Company has not recorded an impairment. Unrealized losses on below investment grade securities are principally related to RMBS (primarily Alt-A RMBS) and ABS (primarily subprime RMBS) largely due to economic and market uncertainties including concerns over unemployment levels, lower interest rate environment on floating rate securities requiring higher risk premiums since purchase and valuations of residential real estate supporting non-agency RMBS. Based on this analysis, the Company determined that the remaining investments in an unrealized loss position were not other-than-temporarily impaired and therefore no further other-than-temporary impairment was necessary.

Fixed Maturity Securities Credit Quality - Ratings

The Securities Valuation Office ("SVO") of the National Association of Insurance Commissioners ("NAIC") evaluates the fixed maturity security investments of insurers for regulatory reporting and capital assessment purposes and assigns securities to one of six credit quality categories called "NAIC designations." An internally developed rating is used as permitted by the NAIC if no rating is available. These designations are generally similar to the credit quality designations of the NAIC acceptable rating organizations ("ARO") for marketable fixed maturity securities, called rating agency designations except for certain structured securities as described below. NAIC designations of "1," highest quality and "2," high quality, include fixed maturity securities generally considered investment grade by such rating organizations. NAIC designations "3" through "6" include fixed maturity securities generally considered below investment grade by such rating organizations.

The NAIC designations for structured securities, including subprime and Alt-A RMBS, are based upon a comparison of the bond's amortized cost to the NAIC's loss expectation for each security. Securities where modeling results in no expected loss in all scenarios are considered to have the highest designation of NAIC 1. A large percentage of the Company's RMBS securities carry a NAIC 1 designation while the ARO rating indicates below investment grade. This is primarily due to the credit and intent impairments recorded by the Company which reduced the amortized cost on these securities to a level resulting in no expected loss in all scenarios, which corresponds to a NAIC 1 designation. The revised methodology reduces regulatory reliance on rating agencies and allows for greater regulatory input into the assumptions used to estimate expected losses from such structured securities. In the tables below, the Company presents the rating of structured securities based on ratings from the NAIC rating methodologies described above (which may not correspond to rating agency designations.) All NAIC designations (e.g., NAIC 1-6) are based on the revised NAIC methodologies.

As a result of time lags between the funding of investments, the finalization of legal documents and the completion of the SVO filing process, the fixed maturity portfolio generally includes securities that have not yet been rated by the SVO as of each balance sheet date, such as private placements. Pending receipt of SVO ratings, the categorization of these securities by NAIC designation is based on the expected ratings indicated by internal analysis.

Information about certain of the Company's fixed maturity securities holdings by NAIC designations is set forth in the following tables. Corresponding rating agency designation does not directly translate into NAIC designation, but represents the Company's best estimate of comparable ratings from rating agencies, including Moody's Investors Service, Inc. ("Moody's"), Standard & Poor's Ratings Services ("S&P") and Fitch, Inc. ("Fitch"). If no rating is available from a rating agency, then an internally developed rating is used.

The fixed maturities in the Company's portfolio are generally rated by external rating agencies and, if not externally rated, are rated by the Company on a basis similar to that used by the rating agencies. Ratings are derived from three ARO ratings and are applied as follows based on the number of agency ratings received:

- when three ratings are received then the middle rating is applied;
- when two ratings are received then the lower rating is applied;
- when a single rating is received, the ARO rating is applied; and
- when ratings are unavailable then an internal rating is applied.

Subprime and Alt-A Mortgage Exposure

The Company does not originate or purchase subprime or Alt-A whole-loan mortgages. Subprime lending is the origination of loans to customers with weaker credit profiles. The Company defines Alt-A Loans to include the following: residential mortgage loans to customers who have strong credit profiles but lack some element, such as documentation to substantiate income; residential mortgage loans to borrowers that would otherwise be classified as prime but whose loan structure provides repayment options to the borrower that increase the risk of default; and any securities backed by residential mortgage collateral not clearly identifiable as prime or subprime.

The Company's exposure to subprime mortgage backed securities is primarily in the form of ABS structures collateralized by subprime residential mortgages and the majority of these holdings are included in Other ABS in the "Fixed Maturities and Equity Securities" section above. As of December 31, 2012, the fair value, and gross unrealized losses related to the Company's exposure to subprime mortgage backed securities was \$194.0 and \$23.5, respectively, representing 0.9% of total fixed maturities, including securities pledged, based on fair value. As of December 31, 2011, the fair value and gross unrealized losses related to the Company's exposure to subprime mortgage backed securities were \$189.3 and \$69.7, respectively, representing 0.8% of total fixed maturities, including securities pledged, based on fair value.

The following tables summarize the Company's exposure to subprime mortgage-backed securities by credit quality using NAIC designations, ARO ratings and vintage year as of December 31, 2012 and 2011:

% of Total Subprime Mortgage-backed Securities

ING USA Annuity and Life Insurance Company
(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to the Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The Company's exposure to Alt-A mortgages is included in Residential mortgage-backed securities in the "Fixed Maturities and Equity Securities" section above. As of December 31, 2012, the fair value and gross unrealized losses related to the Company's exposure to Alt-A RMBS aggregated to \$133.6 and \$21.7, respectively, representing 0.6% of total fixed maturities including securities pledged, based on fair value. As of December 31, 2011, the fair value and gross unrealized losses related to the Company's exposure to Alt-A RMBS aggregated to \$129.7 and \$52.7, respectively, representing 0.6% of total fixed maturities, including securities pledged, based on fair value.

The following tables summarize the Company's exposure to Alt-A residential mortgage-backed securities by credit quality using NAIC designations, ARO ratings and vintage year as of December 31, 2012 and 2011:

Commercial Mortgage-backed and Other Asset-backed Securities

As of December 31, 2012 and 2011, the fair value of the Company's CMBS totaled \$1.8 billion and \$2.0 billion, respectively, and Other ABS, excluding subprime exposure, totaled \$491.9 and \$489.7, respectively. As of December 31, 2012 and 2011, the gross unrealized losses related to CMBS totaled \$3.0 and \$26.4, respectively. As of December 31, 2012, there were no gross unrealized losses related to Other ABS, excluding subprime exposure. As of December 31, 2011, gross unrealized losses related to Other ABS, excluding subprime exposure, totaled \$0.2. CMBS investments represent pools of commercial mortgages that are broadly diversified across property types and geographical areas.

The following tables summarize the Company's exposure to CMBS holdings by credit quality using NAIC designations, ARO ratings and vintage year as of December 31, 2012 and 2011:

% of Total CMBS						
NAIC Designation			ARO Ratings		Vintage	
<u>2012</u>	1	97.5 %	AAA	47.6 %	2008	0.6 %

Troubled Debt Restructuring

The Company invests in high quality, well performing portfolios of commercial mortgage loans and private placements. Under certain circumstances, modifications are granted to these contracts. Each modification is evaluated as to whether a troubled debt restructuring has occurred. A modification is a troubled debt restructure when the borrower is in financial difficulty and the creditor makes concessions. Generally, the types of concessions may include reducing the face amount or maturity amount of the debt as originally stated, reducing the contractual interest rate, extending the maturity date at an interest rate lower than current market interest rates and/or reducing accrued interest. The Company considers the amount, timing and extent of the concession granted in determining any impairment or changes in the specific valuation allowance recorded in connection with the troubled debt restructuring. A valuation allowance may have been recorded prior to the quarter when the loan is modified in a troubled debt restructuring. Accordingly, the carrying value (net of the specific valuation allowance) before and after modification through a troubled debt restructuring may not change significantly, or may increase if the expected recovery is higher than the pre-modification recovery assessment. As of December 31, 2012 the Company did not have any troubled debt restructurings. As of December 31, 2011, the Company had one private placement troubled debt restructuring with a pre-modification and post-modification carrying value of \$9.8.

As of December 31, 2012 and 2011, the Company did not have any commercial mortgage loans or private placements modified in a troubled debt restructuring with a subsequent payment default.

Mortgage Loans on Real Estate

The Company's mortgage loans on real estate are all commercial mortgage loans, which are reported at amortized cost, less impairment write-downs and allowance for losses.

The Company diversifies its commercial mortgage loan portfolio by geographic region and property type to reduce concentration risk. The Company manages risk when originating commercial mortgage loans by generally lending only up to 75% of the estimated fair value of the underlying real estate. Subsequently, the Company continuously evaluates all mortgage loans based on relevant current information including an appraisal of loan-specific credit quality, property characteristics and market trends. Loan performance is monitored on a loan-specific basis through the review of submitted appraisals, operating statements, rent revenues and annual inspection reports, among other items. This review ensures properties are performing at a consistent and acceptable level to secure the debt.

The following table summarizes the Company's investment in mortgage loans as of December 31, 2012 and 2011:

	2012	2011
Commercial mortgage loans	\$ 2,836.2	\$ 3,138.8
Collective valuation allowance	(1.2)	(1.5)
Total net commercial mortgage loans	<u>\$ 2,835.0</u>	<u>\$ 3,137.3</u>

There were no impairments taken on the mortgage loan portfolio for the year ended December 31, 2012. Impairments taken on the mortgage loan portfolio were \$6.9 for the year ended December 31, 2011.

The following table summarizes the activity in the allowance for losses for all commercial mortgage loans as of December 31, 2012 and 2011:

	2012	2011
Collective valuation allowance for losses, beginning of period	\$ 1.5	\$ 3.0
Addition to / (reduction of) allowance for losses	(0.3)	(1.5)
Collective valuation allowance for losses, end of period	<u>\$ 1.2</u>	<u>\$ 1.5</u>

The following table presents information on impaired loans as of December 31, 2012 and 2011:

	2012	2011
Impaired loans, average investment during the period	\$ —	\$ 8.3

There were no mortgage loans in the Company's portfolio in process of foreclosure as of December 31, 2012 and 2011. There were no other loans in arrears with respect to principal and interest as of December 31, 2012 and 2011.

The following table presents information on interest income recognized on impaired loans for the years ended December 31, 2012, 2011 and 2010:

	Years Ended December 31,		
	2012	2011	2010
Interest income recognized on impaired loans, on an accrual basis	\$ —	\$ —	\$ 1.3
Interest income recognized on impaired loans, on a cash basis	—	—	1.4

Loan-to-value ("LTV") and debt service coverage ("DSC") ratios are measures commonly used to assess the risk and quality of mortgage loans. The LTV ratio, calculated at time of origination, is expressed as a percentage of the amount of the loan relative to the value of the underlying property. A LTV ratio in excess of 100% indicates the unpaid loan amount exceeds the underlying collateral. The DSC ratio, based upon the most recently received financial statements, is expressed as a percentage

ING USA Annuity and Life Insurance Company
(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to the Financial Statements
(Dollar amounts in millions, unless otherwise stated)

of the amount of a property's net income to its debt service payments. A DSC ratio of less than 1.0 indicates that property's operations do not generate sufficient income to cover debt payments. These ratios are utilized as part of the review process described above.

The following table presents the LTV ratios as of December 31, 2012 and 2011:

	2012⁽¹⁾	2011⁽¹⁾
Loan-to-Value Ratio:		
0% - 50%	\$ 658.9	\$ 920.9
50% - 60%	848.0	833.9
60% - 70%	1,169.4	1,173.2
70% - 80%	149.4	191.3
80% and above	10.5	19.5
Total Commercial mortgage loans	<u>\$ 2,836.2</u>	<u>\$ 3,138.8</u>

⁽¹⁾ Balances do not include allowance for mortgage loan credit losses.

The following table presents the DSC ratios as of December 31, 2012 and 2011:

	2012⁽¹⁾	2011⁽¹⁾
Debt Service Coverage Ratio:		
Greater than 1.5x	\$ 1,970.9	\$ 2,105.3
1.25x - 1.5x	464.8	565.8
1.0x - 1.25x	259.2	355.5
Less than 1.0x	141.3	112.2
Total Commercial mortgage loans	<u>\$ 2,836.2</u>	<u>\$ 3,138.8</u>

⁽¹⁾ Balances do not include allowance for mortgage loan credit losses.

Properties collateralizing mortgage loans are geographically dispersed throughout the United States, as well as diversified by property type, as reflected in the following tables as of December 31, 2012 and 2011:

	2012⁽¹⁾		2011⁽¹⁾

Total Commercial mortgage loans	<u>\$ 2,836.2</u>	<u>\$ 3,138.8</u>

⁽¹⁾ Balances do not include allowance for mortgage loan credit losses.

Evaluating Securities for Other-Than-Temporary Impairments

The Company performs a regular evaluation, on a security-by-security basis, of its available-for-sale securities holdings, including fixed maturity securities and equity securities in accordance with its impairment policy in order to evaluate whether such investments are other-than-temporarily impaired.

The following tables identify the Company's credit-related and intent-related impairments included in the Statements of Operations, excluding impairments included in Other comprehensive income (loss) by type for the years ended December 31, 2012, 2011 and 2010:

	2012		2011		2010	
	Impairment	No. of Securities	Impairment	No. of Securities	Impairment	No. of Securities
U.S. corporate	\$ 6.0	3	\$ 9.5	17	\$ 5.1	24
Foreign ⁽¹⁾	0.7	3	27.2	52	30.7	23

Equity	—	—	—	—	—	*
Mortgage loans on real estate	—	—	6.9	5	6.3	5
Total	\$ 18.5	65	\$ 180.4	213	\$ 194.4	181

⁽¹⁾ Primarily U.S. dollar denominated.

* Less than \$0.1.

The above tables include \$14.7, \$27.6 and \$95.5 of write-downs related to credit impairments for the years ended December 31, 2012, 2011 and 2010, respectively, in Other-than-temporary impairments which are recognized in the Statements of Operations. The remaining \$3.8, \$152.8 and \$98.9, in write-downs for the years ended December 31, 2012, 2011 and 2010, respectively, are related to intent impairments.

The following tables summarize these intent impairments, which are also recognized in earnings, by type for the years ended December 31, 2012, 2011 and 2010 :

	2012		2011		2010	
	Impairment	No. of Securities	Impairment	No. of Securities	Impairment	No. of Securities

⁽¹⁾ Primarily U.S. dollar denominated.

* Less than \$0.1.

The Company may sell securities during the period in which fair value has declined below amortized cost for fixed maturities or cost for equity securities. In certain situations, new factors, including changes in the business environment, can change the Company's previous intent to continue holding a security. Accordingly, these factors may lead the Company to record additional intent related capital losses.

ING USA Annuity and Life Insurance Company
(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to the Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The fair value of fixed maturities with OTTI as of December 31, 2012 and 2011 was \$2.2 billion and \$2.1 billion, respectively.

The following tables identify the amount of credit impairments on fixed maturities for which a portion of the OTTI loss was recognized in Other comprehensive income (loss) and the corresponding changes in such amounts for the years ended December 31, 2012, 2011 and 2010:

	2012	2011	2010
Balance at January 1	\$ 64.1	\$ 118.2	\$ 123.3
Additional credit impairments:			
On securities not previously impaired	4.8	5.0	20.0
On securities previously impaired	6.8	6.7	23.4
Reductions:			
Securities intent impaired	—	(3.4)	(7.1)
Securities sold, matured, prepaid or paid down	(27.8)	(62.4)	(41.4)
Balance at December 31	<u>\$ 47.9</u>	<u>\$ 64.1</u>	<u>\$ 118.2</u>

Net Investment Income

The following table summarizes Net investment income for the years ended December 31, 2012, 2011 and 2010:

	2012	2011	2010
Fixed maturities	\$ 1,137.9	\$ 1,242.5	\$ 1,182.2
Equity securities, available-for-sale	4.0	3.7	4.5
Mortgage loans on real estate	166.3	174.9	180.8
Policy loans	5.7	6.6	7.2
Short-term investments and cash equivalents	0.2	2.0	4.1
Other	23.7	38.4	30.7
Gross investment income	<u>1,337.8</u>	<u>1,468.1</u>	<u>1,409.5</u>
Less: Investment expenses	<u>52.3</u>	<u>58.8</u>	<u>53.1</u>
Net investment income	<u>\$ 1,285.5</u>	<u>\$ 1,409.3</u>	<u>\$ 1,356.4</u>

As of December 31, 2012 and 2011, the Company did not have any investments in fixed maturities which produced no net investment income. Fixed maturities are moved to a non-accrual status immediately when the investment defaults.

Net Realized Capital Gains (Losses)

Net realized capital gains (losses) are comprised of the difference between the amortized cost of investments and proceeds from sale and redemption, as well as losses incurred due to the credit-related and intent-related other-than-temporary impairment of investments. Realized investment gains and losses are also primarily generated from changes in fair value of embedded derivatives within product guarantees and fixed maturities, changes in fair value of fixed maturities recorded at FVO and changes in fair value including accruals on derivative instruments, except for effective cash flow hedges. The cost of the investments on disposal is generally determined based on first-in-first-out ("FIFO") methodology.

Net realized capital gains (losses) were as follows for the years ended December 31, 2012, 2011 and 2010:

	2012	2011	2010
Fixed maturities, available-for-sale, including securities pledged	\$ 138.0	\$ 33.7	\$ 11.8
Fixed maturities, at fair value option	(57.7)	(34.4)	(14.6)
Equity securities, available-for-sale	(0.2)	(0.2)	1.9
Derivatives	(1,654.0)	744.4	(807.9)
Embedded derivative - fixed maturities	(4.2)	4.3	12.3
Embedded derivative - product guarantees	202.9	(1,699.1)	(111.9)
Other investments	1.1	(5.7)	(9.2)
Net realized capital gains (losses)	<u>\$ (1,374.1)</u>	<u>\$ (957.0)</u>	<u>\$ (917.6)</u>
After-tax net realized capital gains (losses)	<u>\$ (932.8)</u>	<u>\$ (513.1)</u>	<u>\$ (660.6)</u>

Proceeds from the sale of fixed maturities and equity securities, available-for-sale and the related gross realized gains and losses, before-tax were as follows for the years ended December 31, 2012, 2011 and 2010:

	2012	2011	2010
Proceeds on sales	\$ 4,652.0	\$ 3,821.9	\$ 6,211.7
Gross gains	177.8	238.0	243.1
Gross losses	(14.3)	(33.7)	(37.4)

3. Derivative Financial Instruments

The Company enters into the following types of derivatives:

Interest rate swaps: Interest rate swaps are used by the Company primarily to reduce market risks from changes in interest rates and to alter interest rate exposure arising from mismatches between assets and/or liabilities. Using interest rate swaps, the Company agrees with another party to exchange, at specified intervals, the difference between fixed rate and floating rate interest payments, calculated by reference to an agreed upon notional principal amount. These transactions are entered into pursuant to master agreements that provide for a single net payment to be made to/from the counterparty at each due date. The Company utilizes these contracts in non-qualifying hedging relationships.

Foreign exchange swaps: The Company uses foreign exchange or currency swaps to reduce the risk of change in the value, yield or cash flows associated with certain foreign denominated invested assets. Foreign exchange swaps represent contracts that require the exchange of foreign currency cash flows against U.S. dollar cash flows at regular periods, typically quarterly or semi-annually. The Company utilizes these contracts in non-qualifying hedging relationships.

Credit default swaps: Credit default swaps are used to reduce credit loss exposure with respect to certain assets that the Company owns, or to assume credit exposure on certain assets that the Company does not own. Payments are made to or received from the counterparty at specified intervals. In the event of a default on the underlying credit exposure, the Company will either receive a payment (purchased credit protection) or will be required to make a payment (sold credit protection) equal to the par minus recovery value of the swap contract. The Company utilizes these contracts in non-qualifying hedging relationships.

Total return swaps: The Company uses total return swaps as a hedge against a decrease in variable annuity account values, which are invested in certain indices. Using total return swaps, the Company agrees with another party to exchange, at specified intervals, the difference between the economic risk and reward of assets or a market index and the LIBOR rate, calculated by reference to an agreed upon notional principal amount. No cash is exchanged at the onset of the contracts. Cash is paid and received over the life of the contract based upon the terms of the swaps. The Company utilizes these contracts in non-qualifying hedging relationships.

Currency forwards: The Company uses currency forward contracts to hedge policyholder liabilities associated with the variable annuity contracts which are linked to foreign indices. The currency fluctuations may result in a decrease in account values,

which would increase the possibility of the Company incurring an expense for guaranteed benefits in excess of account values. The Company utilizes these contracts in non-qualifying hedging relationships.

Forwards: The Company uses forward contracts to hedge certain invested assets against movement in interest rates, particularly mortgage rates. The Company uses To Be Announced securities as an economic hedge against rate movements. The Company utilizes these contracts in non-qualifying hedging relationships.

Futures: Futures contracts are used to hedge against a decrease in certain equity indices. Such decreases may result in a decrease in variable annuity account values which would increase the possibility of the Company incurring an expense for guaranteed benefits in excess of account values. The Company also uses futures contracts as a hedge against an increase in certain equity indices. Such increases may result in increased payments to the holders of the fixed index annuity contracts. The Company enters into exchange traded futures with regulated futures commissions that are members of the exchange. The Company also posts initial and variation margin with the exchange on a daily basis. The Company utilizes exchange-traded futures in non-qualifying hedging relationships.

Swaptions: A swaption is an option to enter into a swap with a forward starting effective date. The Company uses swaptions to hedge the interest rate exposure associated with the minimum crediting rate and book value guarantees embedded in the retirement products that the Company offers. Increases in interest rates will generate losses on assets that are backing such liabilities. In certain instances, the Company locks in the economic impact of existing purchased swaptions by entering into offsetting written swaptions. Swaptions are also used to hedge against an increase in the interest rate benchmarked crediting strategies within Fixed indexed annuities ("FIA") contracts. Such increases may result in increased payments to contract holders of FIA contracts and the interest rate swaptions offset this increased exposure. The Company pays a premium when it purchases the swaption. The Company utilizes these contracts in non-qualifying hedging relationships.

Options: The Company uses put options to manage the equity, interest rate, and equity volatility risk of the economic liabilities associated with variable annuity minimum guaranteed living benefits. The Company also uses call options to hedge against an increase in various equity indices. Such increases may result in increased payments to the holders of the FIA contracts. The Company pays an upfront premium to purchase these options. The Company utilizes these options in non-qualifying hedging relationships.

Variance swaps: The Company uses variance swaps to manage equity volatility risk on the economic liabilities associated with certain minimum guaranteed living benefits. An increase in the equity volatility results in a higher valuations of such liabilities. In an equity variance swap, the Company agrees with another party to exchange amounts in the future, based on the changes in equity volatility over a defined period. The Company utilizes equity variance swaps in non-qualifying hedging relationships.

Embedded derivatives: The Company also invests in certain fixed maturity instruments and has issued certain annuity products, that contain embedded derivatives whose market value is at least partially determined by, among other things, levels of or changes in domestic and/or foreign interest rates (short-term or long-term), exchange rates, prepayment rates, equity rates, or credit ratings/spreads. Embedded derivatives within fixed maturities are reported with the host contract on the Balance Sheets and changes in fair value of the embedded derivatives are recorded in Other net realized capital gains (losses) in the Statements of Operations. Embedded derivatives within annuity products are included in Future policy benefits and contract owner account balances on the Balance Sheets and changes in the fair value of the embedded derivatives are recorded in Other net realized capital gains (losses) in the Statements of Operations.

In addition, the Company has entered into two coinsurance with funds withheld arrangements that contain embedded derivatives in which the fair value is based on the change in the fair value of the underlying assets held in trust. The embedded derivative within the coinsurance funds withheld arrangement is included in Funds held under reinsurance treaties with affiliates on the Balance Sheets and changes in the fair value are recorded in Interest credited and other benefits to contract owners in the Statements of Operations.

Total	\$ (1,404.4)	\$ (1,202.2)	\$ (925.3)

⁽¹⁾ Changes in value for effective fair value hedges are recorded in Other net realized capital gains (losses). Changes in fair value upon disposal for effective cash flow hedges are recorded in Other net realized capital gains (losses) in the Statements of Operations. For the years ended December 31, 2012, 2011 and 2010, ineffective amounts are deemed to be immaterial.

⁽²⁾ Changes in value are included in other net realized capital gains (losses) in the Statements of Operations.

Credit Default Swaps

The Company has entered into various credit default swaps. When credit default swaps are sold, the Company assumes credit exposure to certain assets that it does not own. Credit default swaps may also be purchased to reduce credit exposure in the Company's portfolio. Credit default swaps involve a transfer of credit risk from one party to another in exchange for periodic payments. These instruments are typically written for a maturity period of five years and do not contain recourse provisions, which would enable the seller to recover from third parties. The Company has International Swaps and Derivatives Association, Inc. ("ISDA") agreements with each counterparty with which it conducts business and tracks the collateral positions for each counterparty. To the extent cash collateral is received, it is included in Payables under securities loan agreements, including collateral held, on the Balance Sheets and is reinvested in short-term investments. Collateral held is used in accordance with the Credit Support Annex ("CSA") to satisfy any obligations. Investment grade bonds owned by the

Company are the source of noncash collateral posted, which is reported in Securities pledged on the Balance Sheets. In the event of a default on the underlying credit exposure, the Company will either receive an additional payment (purchased credit protection) or will be required to make an additional payment (sold credit protection) equal to par value minus recovery value of the swap contract. As of December 31, 2012, the fair value of credit default swaps of \$1.0 were included in Derivatives assets and there were no credit default swaps included in Derivatives liabilities, respectively, on the Balance Sheets. As of December 31, 2011, the fair value of credit default swaps of \$0.9 and \$14.1 were included in Derivatives assets and Derivatives liabilities, respectively, on the Balance Sheets. As of December 31, 2012 and 2011, the maximum potential future exposure to the Company on the sale of credit default swaps was \$155.5 and \$108.8, respectively.

4. Fair Value Measurements

Fair Value Measurement

The Company categorizes its financial instruments into a three-level hierarchy based on the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument. Financial assets and liabilities recorded at fair value on the Balance Sheets are categorized as follows:

- Level 1 - Unadjusted quoted prices for identical assets or liabilities in an active market. The Company defines an active market as a market in which transactions take place with sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2 - Quoted prices in markets that are not active or valuation techniques that require inputs that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - a) Quoted prices for similar assets or liabilities in active markets;
 - b) Quoted prices for identical or similar assets or liabilities in non-active markets;
 - c) Inputs other than quoted market prices that are observable; and
 - d) Inputs that are derived principally from or corroborated by observable market data through correlation or other means.
- Level 3 - Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These valuations, whether derived internally or obtained from a third party, use critical assumptions that are not widely available to estimate market participant expectations in valuing the asset or liability.

When available, the estimated fair value of financial instruments is based on quoted prices in active markets that are readily and regularly obtainable. When quoted prices in active markets are not available, the determination of estimated fair value is based on market standard valuation methodologies, including discounted cash flow methodologies, matrix pricing, or other similar techniques.

Valuation of Financial Assets and Liabilities at Fair Value

Certain assets and liabilities are measured at estimated fair value on the Company's Balance Sheets. In addition, further disclosure of estimated fair values is included in the Investments note to these Financial Statements. The Company defines fair value as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The exit price and the transaction (or entry) price will be the same at initial recognition in many circumstances. However, in certain cases, the transaction price may not represent fair value. The fair value of a liability is based on the amount that would be paid to transfer a liability to a third-party with an equal credit standing. Fair value is required to be a market-based measurement which is determined based on a hypothetical transaction at the measurement date, from a market participant's

perspective. The Company considers three broad valuation techniques when a quoted price is unavailable: (i) the market approach, (ii) the income approach and (iii) the cost approach. The Company determines the most appropriate valuation technique to use, given the instrument being measured and the availability of sufficient inputs. The Company prioritizes the inputs to fair valuation techniques and allows for the use of unobservable inputs to the extent that observable inputs are not available.

The Company utilizes a number of valuation methodologies to determine the fair values of its financial assets and liabilities in conformity with the concepts of "exit price" and the fair value hierarchy as prescribed in ASC Topic 820. Valuations are obtained from third party commercial pricing services, brokers and industry-standard, vendor-provided software that models the value based on market observable inputs. The valuations obtained from third-party commercial pricing services are non-binding. The Company reviews the assumptions and inputs used by third-party commercial pricing services for each reporting period in order to determine an appropriate fair value hierarchy level. The documentation and analysis obtained from third-party commercial pricing services are reviewed by the Company, including in-depth validation procedures confirming the observability of inputs. The valuations are reviewed and validated monthly through the internal valuation committee price variance review, comparisons to internal pricing models, back testing to recent trades, or monitoring of trading volumes.

The following valuation methods and assumptions were used by the Company in estimating the reported values for the investments and derivatives described below:

Fixed maturities: The fair values for the actively traded marketable bonds are determined based upon the quoted market prices and are classified as Level 1 assets. Assets in this category would primarily include certain U.S. Treasury securities. The fair values for marketable bonds without an active market are obtained through several commercial pricing services which provide the estimated fair values and are classified as Level 2 assets. These services incorporate a variety of market observable information in their valuation techniques, including benchmark yields, broker-dealer quotes, credit quality, issuer spreads, bids, offers and other reference data. This category includes U.S. and foreign corporate bonds, ABS, U.S. agency and government guaranteed securities, CMBS and RMBS, including certain CMO assets.

Generally, the Company does not obtain more than one vendor price from pricing services per instrument. The Company uses a hierarchy process in which prices are obtained from a primary vendor and, if that vendor is unable to provide the price, the next vendor in the hierarchy is contacted until a price is obtained or it is determined that a price cannot be obtained from a commercial pricing service. When a price cannot be obtained from a commercial pricing service, independent broker quotes are solicited. Securities priced using independent broker quotes are classified as Level 3.

Broker quotes and prices obtained from pricing services are reviewed and validated through an internal valuation committee price variance review, comparisons to internal pricing models, back testing to recent trades, or monitoring of trading volumes. As of December 31, 2012, \$157.7 and \$16.3 billion of a total fair value of \$21.6 billion in fixed maturities, including securities pledged, were valued using unadjusted broker quotes and unadjusted prices obtained from pricing services, respectively and verified through the review process. The remaining balance in fixed maturities consisted primarily of privately placed bonds valued using a matrix-based pricing. At December 31, 2011, \$157.1 and \$17.7 billion of a total of \$22.7 billion in fixed maturities, including securities pledged, were valued using unadjusted broker quotes and unadjusted prices obtained from pricing services, respectively, and verified through the review process. The remaining balance in fixed maturities consisted primarily of privately placed bonds valued using a matrix-based pricing model.

All prices and broker quotes obtained go through the review process described above including valuations for which only one broker quote is obtained. After review, for those instruments where the price is determined to be appropriate, the unadjusted price provided is used for financial statement valuation. If it is determined that the price is questionable, another price may be requested from a different vendor. The internal valuation committee then reviews all prices for the instrument again, along with information from the review, to determine which price best represents "exit price" for the instrument.

Fair values of privately placed bonds are determined primarily using a matrix-based pricing model and are generally classified as Level 2 assets. The model considers the current level of risk-free interest rates, current corporate spreads, the credit quality of the issuer and cash flow characteristics of the security. Also considered are factors such as the net worth of the borrower, the value of collateral, the capital structure of the borrower, the presence of guarantees and the Company's evaluation of the borrower's ability to compete in its relevant market. Using this data, the model generates estimated market values which the Company considers reflective of the fair value of each privately placed bond.

Equity securities, available-for-sale: Fair values of publicly traded equity securities are based upon quoted market price and are classified as Level 1 assets. Other equity securities, typically private equities or equity securities not traded on an exchange, are valued by other sources such as analytics or brokers and are classified as Level 2 or Level 3 assets.

Derivatives: Derivatives are carried at fair value which is determined using the Company's derivative accounting system in conjunction with observable key financial data from third party sources, such as yield curves, exchange rates, S&P 500 Index prices, London Interbank Offered Rates ("LIBOR") and Overnight Index Swap ("OIS") rates. In June 2012, the Company began using OIS rather than LIBOR for valuations of collateralized interest rate derivatives, which are obtained from third-party sources. For those derivatives that are unable to be valued by the accounting system, the Company typically utilizes values established by third-party brokers. Counterparty credit risk is considered and incorporated in the Company's valuation process through counterparty credit rating requirements and monitoring of overall exposure. It is the Company's policy to transact only with investment grade counterparties with a credit rating of A- or better. The Company's nonperformance risk is also considered and incorporated in the Company's valuation process. Valuations for the Company's futures and interest rate forward contracts are based on unadjusted quoted prices from an active exchange and, therefore, are classified as Level 1. The Company also has certain credit default swaps and options that are priced using models that primarily use market observable inputs, but contain inputs that are not observable to market participants, which have been classified as Level 3. However, all other derivative instruments are valued based on market observable inputs and are classified as Level 2.

The Company has entered into a number of options as hedges on its FIA liabilities. The maximum exposure is the current value of the option. The payoff of these contracts depends on market conditions during the lifetime of the option. The fair value measurement of options is highly sensitive to implied equity and interest rate volatility and the market reflects a considerable variance in broker quotes. The Company uses a third-party vendor to determine the market value of these options.

Cash and cash equivalents, Short-term investments and Short-term investments under securities loan agreement: The carrying amounts for cash reflect the assets' fair values. The fair value for cash equivalents and most short-term investments are determined based on quoted market prices. These assets are classified as Level 1. Other short-term investments are valued and classified in the fair value hierarchy consistent with the policies described herein, depending on investment type.

Assets held in separate accounts: Assets held in separate accounts are reported at the quoted fair values of the underlying investments in the separate accounts. The underlying investments include mutual funds, short-term investments and cash, the valuations of which are based upon a quoted market price and are included in Level 1. Fixed maturity valuations are obtained from third-party commercial pricing services and brokers and are classified in the fair value hierarchy consistent with the policy described above for fixed maturities.

Annuity product guarantees: The Company records reserves for annuity contracts containing GMAB, GMWB and GMWBL riders. The guarantee is an embedded derivative and is required to be accounted for separately from the host variable annuity contract. The fair value of the obligation is calculated based on actuarial and capital market assumptions related to the projected cash flows, including benefits and related contract charges, over the anticipated life of the related contracts. The cash flow estimates are produced by using stochastic techniques under a variety of market return scenarios and other market implied assumptions. These derivatives are classified as Level 3 liabilities in the fair value hierarchy.

The Company records an embedded derivative liability for its FIA contracts for interest payments to contract holders above the minimum guaranteed interest rate. The guarantee is treated as an embedded derivative and is required to be accounted for separately from the host contract. The fair value of the obligation is calculated based on actuarial and capital market assumptions related to the projected cash flows, including benefits and related contract charges, over the anticipated life of the related contracts. The cash flow estimates are produced by market implied assumptions. These derivatives are classified as Level 3 liabilities in the fair value hierarchy.

The discount rate used to determine the fair value of the Company's guaranteed minimum accumulation benefits ("GMAB"), guaranteed minimum withdrawal benefits ("GMWB"), guaranteed minimum withdrawal benefits with life payouts ("GMWBL") and fixed-indexed annuity ("FIA") embedded derivative liabilities includes an adjustment to reflect the risk that these obligations will not be fulfilled ("nonperformance risk"). Through June 30, 2012, the Company's nonperformance risk adjustment was based on the credit default swap spreads of ING Insurance, the Company's indirect parent company and applied to the risk-free swap curve in the Company's valuation models for these product guarantees. As a result of the availability of ING U.S., Inc.'s market observable data following the issuance of long-term debt on July 13, 2012, the Company changed its estimate of nonperformance risk as of the beginning of the third quarter of 2012 to incorporate a blend of observable, similarly

rated peer company credit default swap spreads, adjusted to reflect the credit quality of the Company as well as an adjustment to reflect the priority of policyholder claims.

The Company's valuation actuaries are responsible for the policies and procedures for valuing the embedded derivatives, reflecting the capital markets and actuarial valuation inputs and nonperformance risk in the estimate of the fair value of the embedded derivatives. The actuarial and capital market assumptions for each liability are approved by each product's Chief Risk Officer ("CRO"), including an independent annual review by the U.S. CRO. Models used to value the embedded derivatives must comply with the Company's governance policies.

Quarterly, an attribution analysis is performed to quantify changes in fair value measurements and a sensitivity analysis is used to analyze the changes. The changes in fair value measurements are also compared to corresponding movements in the hedge target to assess the validity of the attributions. The results of the attribution analysis are reviewed by the valuation actuaries, responsible CFOs, Controllers, CROs and/or others as nominated by management.

Embedded derivative on reinsurance: The carrying value of the embedded derivative is estimated based upon the change in the fair value of the assets supporting the funds withheld payable under the combined coinsurance and coinsurance funds withheld reinsurance agreement between the Company and Security Life of Denver International Limited ("SLDI"). As the fair value of the assets held in trust is based on a quoted market price (Level 1), the fair value of the embedded derivative is based on market observable inputs and is classified as Level 2.

Transfers in and out of Level 1 and 2

There were no securities transferred between Levels 1 and Level 2 for the years ended December 31, 2012 and 2011. The Company's policy is to recognize transfers in and transfers out as of the beginning of the reporting period.

Level 3 Financial Instruments

The fair values of certain assets and liabilities are determined using prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement (i.e., Level 3 as defined by ASC Topic 820), including but not limited to liquidity spreads for investments within markets deemed not currently active. These valuations, whether derived internally or obtained from a third party, use critical assumptions that are not widely available to estimate market participant expectations in valuing the asset or liability. In addition, the Company has determined, for certain financial instruments, an active market is such a significant input to determine fair value that the presence of an inactive market may lead to classification in Level 3. In light of the methodologies employed to obtain the fair values of financial assets and liabilities classified as Level 3, additional information is presented below.

ING USA Annuity and Life Insurance Company

ING USA Annuity and Life Insurance Company
(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to the Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The transfers in and out of Level 3 for fixed maturities, equity securities and separate account for the year ended December 31, 2012, were due to the variation in inputs relied upon for valuation each quarter. Securities that are primarily valued using independent broker quotes when prices are not available from one of the commercial pricing services are reflected as transfers into Level 3. When securities are valued using more widely available information, the securities are transferred out of Level 3 and into Level 1 or 2, as appropriate.

The fair value of certain options and swap contracts were valued using observable inputs and such options and swap contracts were transferred from Level 3 to Level 2 during the year ended December 31, 2012.

The transfers out of Level 3 for the year ended December 31, 2011 in fixed maturities, including securities pledged, were primarily due to the Company's determination that the market for subprime RMBS securities had become active in the first quarter 2011 and to an increased utilization of vendor valuations for certain CMO assets, as opposed to the previous use of broker quotes in the second quarter of 2011. While the valuation methodology for subprime RMBS securities has not changed, the Company has concluded that the frequency of transactions in the market for subprime RMBS securities represent regularly occurring market transactions and therefore are now classified as Level 2.

Significant Unobservable Inputs

Quantitative information about the significant unobservable inputs used in the Company's Level 3 fair value measurements of its annuity product guarantees is presented in the following sections and table.

The Company's Level 3 fair value measurements of its fixed maturities, equity securities available-for-sale and equity and credit derivative contracts are primarily based on broker quotes for which the quantitative detail of the unobservable inputs is neither provided nor reasonably corroborated, thus negating the ability to perform a sensitivity analysis. The Company performs a review of broker quotes by performing a monthly price variance comparison and back tests broker quotes to recent trade prices.

Significant unobservable inputs used in the fair value measurements of GMABs, GMWBs and GMWBLs include long-term equity implied volatility, correlations between the rate of return on policyholder funds and between interest rates and equity returns, nonperformance risk, mortality and policyholder behavior assumptions, such as benefit utilization, lapses and partial withdrawals.

Significant unobservable inputs used in the fair value measurements of FIAs include nonperformance risk and lapses. Such inputs are monitored quarterly.

Following is a description of selected inputs:

Equity Volatility: A term-structure model is used to approximate implied volatility for the equity indices for GMAB, GMWB and GMWBL fair value measurements. Where no implied volatility is readily available in the market, an alternative approach is applied based on historical volatility.

Correlations: Integrated interest rate and equity scenarios are used in GMAB, GMWB and GMWBL fair value measurements to better reflect market interest rates and interest rate volatility correlations between equity and fixed income fund groups and between equity fund groups and interest rates. The correlations are based on historical fund returns and swap rates from external sources.

Nonperformance Risk: For the estimate of the fair value of embedded derivatives associated with the Company's product guarantees, the Company uses a blend of observable, similarly rated peer company credit default swap spreads, adjusted to reflect the credit quality of the Company as well as adjustment to reflect the priority of policyholder claims.

Actuarial Assumptions: Management regularly reviews actuarial assumptions, which are based on the Company's experience and periodically reviewed against industry standards. Industry standards and Company experience may be limited on certain products.

The following table presents the unobservable inputs for Level 3 fair value measurements as of December 31, 2012:

Unobservable Input	Range ⁽¹⁾		
	GMWB / GMWBL	GMAB	FIA
Long-term equity implied volatility	15% to 25%	15% to 25%	—
Correlations between:			
Equity Funds	50% to 98%	50% to 98%	—
Equity and Fixed Income Funds	-20% to 44%	-20% to 44%	—
Interest Rates and Equity Funds	-25% to -16%	-25% to -16%	—
Nonperformance risk	0.10% to 1.3%	0.10% to 1.3%	0.10% to 1.3%
Actuarial Assumptions:			
Benefit Utilization	85% to 100% ⁽²⁾	—	—
Partial Withdrawals	0% to 10%	0% to 10%	—
Lapses	0.08% to 32% ⁽³⁾	0.08% to 31% ⁽³⁾	0% to 10% ⁽³⁾
Mortality	— ⁽⁴⁾	— ⁽⁴⁾	—

⁽¹⁾ Represents the range of reasonable assumptions that management has used in its fair value calculations.

⁽²⁾ Those policyholders who have elected systematic withdrawals are assumed to continue taking withdrawals. As a percent of account value, 26% are taking systematic withdrawals. Of those policyholders who are not taking withdrawals, we assume that 85% will begin systematic withdrawals after a delay period. The utilization function varies by policyholder age and policy duration. Interactions with lapses and mortality also affect utilization. The utilization rate for GMWB and GMWBL tends to be lower for younger contract owners and contracts that have not reached their maximum accumulated GMWB and GMWBL benefit amount. There is also a lower utilization rate, though indirectly, for contracts that are less "in the money" due to higher lapses. Conversely, the utilization rate tends to be higher for contract owners near or beyond retirement age and contracts that have accumulated their maximum GMWB or GMWBL benefit amount. There is also a higher utilization rate, though indirectly, for contracts that are highly "in the money". The chart below provides the GMWBL account value by current age group and average expected delay times from the associated attained age group as of December 31, 2012 (account value amounts are in \$ billions).

Attained Age Group	Account Values			Average Expected Delay (Years)
	In the Money	Out of the Money	Total	
< 60	\$ 3.54	\$ 0.27	\$ 3.81	5.5
60-69	6.80	0.36	7.16	1.9
70+	4.16	0.14	4.30	0.2
	\$ 14.50	\$ 0.77	\$ 15.27	2.8

⁽³⁾ Lapse rates tend to be lower during the contractual surrender charge period and higher after the surrender charge period ends; the highest lapse rates occur in the year immediately after the end of the surrender charge period. We make dynamic adjustments to lower the lapse rates for contracts that are more "in the money." The table below shows an analysis of policy account values according to whether they are in or out of the surrender charge period and to whether they are "in the money" or "out of the money" as of December 31, 2012 (account value amounts are in \$ billions).

	Moneyiness	GMAB		GMWB/GMWBL	
		Account Value	Lapse Range	Account Value	Lapse Range
During Surrender Charge Period					
	In the Money**	\$ —	0.08% to 8.2%	\$ 8.5	0.08% to 5.8%
	Out of the Money	—	0.41% to 12%	0.9	0.35% to 12%
After Surrender Charge Period					
	In the Money**	—	2.4% to 22%	6.1	1.5% to 17%
	Out of the Money	0.1	12% to 31%	0.6	3.2% to 32%

** The low end of the range corresponds to policies that are highly "in the money." The high end of the range corresponds to the policies that are close to zero in terms of "in the money."

⁽⁴⁾ The mortality rate is based on the Annuity 2000 Basic table with mortality improvements.

ING USA Annuity and Life Insurance Company
(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to the Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Generally, the following will cause an increase (decrease) in the GMAB, GMWB and GMWBL embedded derivative fair value liabilities:

- An increase (decrease) in long-term equity implied volatility
- An increase (decrease) in equity-interest rate correlations
- A decrease (increase) in nonperformance risk
- A decrease (increase) in mortality
- An increase (decrease) in benefit utilization
- A decrease (increase) in lapses

Changes in fund correlations may increase or decrease the fair value depending on the direction of the movement and the mix of funds. Changes in partial withdrawals may increase or decrease the fair value depending on the timing and magnitude of withdrawals.

Generally, the following will cause an increase (decrease) in the FIA embedded derivative fair value liability:

- A decrease (increase) in nonperformance risk
- A decrease (increase) in lapses

The Company notes the following interrelationships:

- Higher long-term equity implied volatility is often correlated with lower equity returns, which will result in higher in-the-moneyness, which in turn, results in lower lapses due to the dynamic lapse component reducing the lapses. This increases the projected number of policies that are available to use the GMWBL benefit and may also increase the fair value of the GMWBL.
- Generally, an increase (decrease) in benefit utilization will decrease (increase) lapses for GMWB and GMWBL.

Embedded derivative on reinsurance	301.3	301.3	230.9	230.9

⁽¹⁾ This facility was terminated in November 2012. Refer to the Related Party note for further description of the transaction.

⁽²⁾ Certain amounts included in Deferred annuities are also reflected within the Annuity product guarantees section of the table above.

The following disclosures are made in accordance with the requirements of ASC Topic 825 which requires disclosure of fair value information about financial instruments, whether or not recognized at fair value on the Balance Sheets, for which it is practicable to estimate that value. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. In that regard, the derived fair value estimates, in many cases, could not be realized in immediate settlement of the instrument.

ASC Topic 825 excludes certain financial instruments, including insurance contracts and all nonfinancial instruments from its disclosure requirements. Accordingly, the aggregate fair value amounts presented do not represent the underlying value of the Company.

The following valuation methods and assumptions were used by the Company in estimating the fair value of the following financial instruments, which are not carried at fair value on the Balance Sheets:

Mortgage loans on real estate: The fair values for mortgage loans on real estate are estimated on a monthly basis using discounted cash flow analyses and rates currently being offered in the marketplace for similar loans to borrowers with similar

ING USA Annuity and Life Insurance Company
(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to the Financial Statements
(Dollar amounts in millions, unless otherwise stated)

credit ratings. Loans with similar characteristics are aggregated for purposes of the calculations. Mortgage loans on real estate are classified as Level 3.

Loan - Dutch State obligation: The fair value of the Dutch State loan obligation is estimated utilizing cash flows net of certain contract fees discounted using The Netherlands Strip Yield Curve and is classified as Level 2.

Policy loans: The fair value of policy loans is equal to the carrying, or cash surrender, value of the loans. Policy loans are fully collateralized by the cash surrender value of the associated insurance contracts and are classified as Level 2.

Limited partnerships/corporations: The fair value for these investments, primarily private equity fund of funds and hedge funds, is based on actual or estimated Net Asset Value ("NAV") information as provided by the investee and are classified as Level 3.

Other investments: Federal Home Loan Bank ("FHLB") stock is carried at cost and periodically evaluated for impairment based on ultimate recovery of par value and is classified as Level 1. The carrying value of the stock was \$78.9 and \$80.2 as of December 31, 2012 and 2011, respectively.

Deposits from affiliates: Fair value is estimated based on the fair value of the liabilities for the underlying contracts, plus the fair value of the unamortized ceding allowance. The Fair value of the liabilities of the underlying contract is estimated based on the mean present value of stochastically modeled cash flows associated with the contract liabilities taking into account assumptions about contract holder behavior. The stochastic valuation scenario set is consistent with current market parameters and discount is taken using stochastically evolving short risk-free rates plus an adjustment for nonperformance risk. Margins for non-financial risks associated with the contract liabilities are also included. The fair value of the unamortized ceding allowance is based on the projected release ceding allowances and discounted at risk-free rates plus an adjustment for nonperformance risk. These liabilities are classified as Level 3.

Investment contract liabilities:

Deferred annuities: Fair value is estimated as the mean present value of stochastically modeled cash flows associated with the contract liabilities, taking into account assumptions about contract holder behavior. The stochastic valuation scenario set is consistent with current market parameters and discount is taken using stochastically evolving risk-free rates in the scenarios plus an adjustment for nonperformance risk. Margins for non-financial risks associated with the contract liabilities are also included. These liabilities are classified as Level 3.

Funding agreements with a fixed maturity and guaranteed investment contracts: Fair value is estimated by discounting cash flows, including associated expenses for maintaining the contracts, at rates, which are risk-free rates plus an adjustment for nonperformance risk. These liabilities are classified as Level 2.

Supplementary contracts and immediate annuities: Fair value is estimated as the mean present value of the single deterministically modeled cash flows associated with the contract liabilities discounted using stochastically evolving short risk-free rates in the scenarios plus an adjustment for nonperformance risk. The valuation is consistent with current market parameters. Margins for non-financial risks associated with the contract liabilities are also included. These liabilities are classified as Level 3.

Long-term debt: Estimated fair value of the Company's notes to affiliates is based upon discounted future cash flows using a discount rate approximating the current market rate, incorporating nonperformance risk and is classified as Level 2.

Fair value estimates are made at a specific point in time, based on available market information and judgments about various financial instruments, such as estimates of timing and amounts of future cash flows. Such estimates do not reflect any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument, nor do they consider the tax impact of the realization of unrealized capital gains (losses). In many cases, the fair value estimates cannot be substantiated by comparison to independent markets, nor can the disclosed value be realized in immediate settlement

of the instruments. In evaluating the Company's management of interest rate, price and liquidity risks, the fair values of all assets and liabilities should be taken into consideration, not only those presented above.

5. Deferred Policy Acquisition Costs and Value of Business Acquired

Activity within DAC was as follows for the years ended December 31, 2012, 2011 and 2010.

	2012	2011	2010
Balance at January 1	\$ 3,326.5	\$ 2,758.9	\$ 3,322.4
Deferrals of commissions and expenses	107.8	126.8	171.1
Amortization:			
Amortization	(582.0)	742.6	(570.8)
Interest accrued ⁽¹⁾	262.7	169.1	177.2
Net amortization included in the Statements of Operations	(319.3)	911.7	(393.6)
Change in unrealized capital gains/losses on available-for-sale securities	(146.8)	(470.9)	(341.0)
Balance at December 31	<u>\$ 2,968.2</u>	<u>\$ 3,326.5</u>	<u>\$ 2,758.9</u>

⁽¹⁾ Interest accrued at 3.0% to 7.0% during 2012, 2011 and 2010.

Activity within VOBA was as follows for the years ended December 31, 2012, 2011 and 2010.

	2012	2011	2010
Balance at January 1	\$ 46.1	\$ 66.5	\$ 113.2
Amortization:			
Amortization	(27.5)	(11.0)	(28.6)
Interest accrued ⁽¹⁾	3.1	3.7	3.9
Net amortization included in the Statements of Operations	(24.4)	(7.3)	(24.7)
Change in unrealized capital gains/losses on available-for-sale securities	6.7	(13.1)	(22.0)
Balance at December 31	<u>\$ 28.4</u>	<u>\$ 46.1</u>	<u>\$ 66.5</u>

⁽¹⁾ Interest accrued at 3.0% to 7.0% during 2012, 2011 and 2010.

The estimated amount of VOBA amortization expense, net of interest, is \$0.2, \$6.4, \$6.4, \$5.4 and \$4.8, for the years 2013, 2014, 2015, 2016 and 2017, respectively. Actual amortization incurred during these years may vary as assumptions are modified to incorporate actual results.

6. Sales Inducements

During the year ended December 31, 2012, 2011 and 2010, the Company capitalized \$29.8, \$32.2 and \$46.9, respectively, of sales inducements. During the years ended December 31, 2012, 2011 and 2010, the Company amortized \$(303.1), \$461.8 and \$(82.0), respectively, of sales inducements. The unamortized balance of capitalized sales inducements, net of unrealized capital gains (losses) on available-for-sale securities, was \$741.6, \$1,023.9 and \$669.9 as of December 31, 2012, 2011 and 2010, respectively.

7. Additional Insurance Benefits and Minimum Guarantees

Under the requirements of ASC Topic 944, the Company calculates reserve liabilities for certain guaranteed benefits and for universal life products with certain patterns of cost of insurance charges and certain other fees.

ING USA Annuity and Life Insurance Company
(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to the Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The following assumptions and methodology were used to determine GMDB, GMIB, GMWBL, GMAB and GMWB additional reserves at December 31, 2012 and 2011.

Area	Assumptions/Basis for Assumptions
Data used	Based on 1,000 investment performance scenarios
Mean investment performance	GMDB: The mean investment performance varies by fund group. In general the Company groups all separate account returns into 6 fund groups and generate stochastic returns for each of these fund groups. The overall mean blended separate account return is 8.1%. The general account fixed portion is a small percentage of the overall total. GMIB: the overall blended mean is 8.1% based on a single fund group. GMAB / GMWB / GMWBL: Zero rate curve.
Volatility	GMDB: 15.8% for 2012 and 2011. GMIB: 15.8% for 2012 and 16.5% for 2011. GMAB / GMWB / GMWBL: Implied volatilities through the first 5 years and then a blend of implied and historical thereafter.
Mortality	Depending on the type of benefit and gender, the Company uses Annuity 2000 basic table with mortality improvement through 2011, further adjusted for company experience.
Lapse rates	Vary by contract type, share class, time remaining in the surrender charge period and in-the-moneyness.
Discount rates	GMDB / GMIB: 5.5% for 2012 and 2011. GMAB / GMWB / GMWBL: Zero rate curve plus adjustment for nonperformance risk.

The calculation of the GMIB and GMWBL liabilities assumes dynamic surrenders and dynamic utilization of the guaranteed benefit reserves.

The separate account liabilities subject to the requirements for additional reserve liabilities under ASC Topic 944 for minimum guaranteed benefits and the additional liabilities recognized related to minimum guarantees, by type, as of December 31, 2012 and 2011, and the paid and incurred amounts by type for the years ended December 31, 2012 and 2011, were as follows:

	GMDB	GMAB/GMWBL	GMIB	GMWBL
Separate account liability at December 31, 2012	<u>\$ 39,799.1</u>	<u>\$ 954.1</u>	<u>\$ 14,503.9</u>	<u>\$ 15,249.5</u>
Separate account liability at December 31, 2011	<u>\$ 39,356.9</u>	<u>\$ 1,105.9</u>	<u>\$ 14,208.0</u>	<u>\$ 14,743.7</u>
Additional liability balance:				
Balance at January 1, 2011	\$ 373.9	\$ 77.0	\$ —	\$ 217.5
Incurred guaranteed benefits	246.7	40.1	—	1,520.6
Paid guaranteed benefits	(110.3)	(2.2)	—	—
Balance at December 31, 2011	<u>\$ 510.3</u>	<u>\$ 114.9</u>	<u>\$ —</u>	<u>\$ 1,738.1</u>
Incurred guaranteed benefits	94.2	(38.3)	—	(226.3)
Paid guaranteed benefits	(116.5)	(0.6)	—	—
Balance at December 31, 2012	<u>\$ 488.0</u>	<u>\$ 76.0</u>	<u>\$ —</u>	<u>\$ 1,511.8</u>

ING USA Annuity and Life Insurance Company
(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to the Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The net amount at risk, net of reinsurance, and the weighted average attained age of contract owners by type of minimum guaranteed benefit, were as follows as of December 31, 2012 and 2011.

	<u>GMDB</u>	<u>GMAB/GMWB</u>	<u>GMIB</u>	<u>GMWBL</u>
<u>2012</u>				
Net amount at risk, net of reinsurance	\$ 6,920.6	\$ 38.4	\$ —	\$ —
Weighted average attained age	69.0	69.0	—	—
<u>2011</u>				
Net amount at risk, net of reinsurance	\$ 8,699.0	\$ 63.2	\$ —	\$ —
Weighted average attained age	68.0	68.0	—	—

The aggregate fair value of equity securities, including mutual funds, supporting separate accounts with additional insurance benefits and minimum investment return guarantees as of December 31, 2012 and 2011 was \$39.8 billion and \$39.4 billion, respectively.

8. Reinsurance

At December 31, 2012, the Company had reinsurance treaties with 15 unaffiliated reinsurers covering a portion of the mortality risks and guaranteed death and living benefits under its annuity contracts. The Company, as cedant, also has reinsurance treaties with two affiliates, SLD and SLDI, related to GICs, fixed annuities, variable annuities and universal life insurance policies. In addition, the Company assumed reinsurance risk under reinsurance treaties with its affiliate, ReliaStar Life Insurance Company ("RLI"), related to certain life insurance policies and employee benefit group annual term policies. The Company remains liable to the extent its reinsurers do not meet their obligations under the reinsurance agreements.

Reinsurance ceded in force for life mortality risks was \$155.1 billion and \$147.7 billion at December 31, 2012 and 2011, respectively. At December 31, 2012 and 2011, net receivables were comprised of the following:

	<u>2012</u>	<u>2011</u>
Claims recoverable from reinsurers	\$ 8.0	\$ 11.0
Amounts due to reinsurers	(10.8)	(23.6)
Reinsurance reserves ceded	2,585.5	2,188.2
Deposits	901.7	1,377.6
Reinsurance receivable	523.1	498.1
Other	7.2	17.3
Total	<u>\$ 4,014.7</u>	<u>\$ 4,068.6</u>

Premiums and Interest credited and other benefits to contract owners were reduced by the following amounts for reinsurance ceded for the years ended December 31, 2012, 2011 and 2010.

	<u>2012</u>	<u>2011</u>	<u>2010</u>
Premiums:			
Direct premiums	\$ 16.3	\$ 16.9	\$ 17.8
Reinsurance assumed	480.3	478.4	522.8
Reinsurance ceded	(37.6)	(39.1)	(260.0)
Net premiums	<u>\$ 459.0</u>	<u>\$ 456.2</u>	<u>\$ 280.6</u>

ING USA Annuity and Life Insurance Company
(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to the Financial Statements
(Dollar amounts in millions, unless otherwise stated)

9. Capital Contributions, Dividends and Statutory Information

The Company's ability to pay dividends to its parent is subject to the prior approval of the State of Iowa Insurance Division (the "Division") for payment of any dividend, which, when combined with other dividends paid within the preceding twelve months, exceeds the greater of (1) ten percent (10.0%) of the Company's earned statutory surplus at the prior year end or (2) the Company's prior year statutory net gain from operations. Iowa law also prohibits an Iowa insurer from declaring or paying a dividend except out of its earned surplus unless prior insurance regulatory approval is obtained.

During the year ended December 31, 2012, following receipt of required approval from the Division, the Company paid a return of capital distribution of \$250.0 to its Parent. During the years ended December 31, 2011 and 2010, the Company did not pay a dividend or return of capital distribution to its Parent.

During the year ended December 31, 2012, the Company did not receive any capital contributions from its Parent. During the years ended December 31, 2011 and 2010, the Company received \$44.0 and \$749.0, respectively, in capital contributions from its Parent.

The Company is subject to minimum risk-based capital ("RBC") requirements established by the Division. The formulas for determining the amount of RBC specify various weighting factors that are applied to financial balances or various levels of activity based on the perceived degree of risk. Regulatory compliance is determined by a ratio of total adjusted capital ("TAC"), as defined by the NAIC, to authorized control level RBC, as defined by the NAIC. The Company exceeded the minimum RBC requirements that would require any regulatory or corrective action for all periods presented herein.

The Company is required to prepare statutory financial statements in accordance with statutory accounting practices prescribed or permitted by the Division. Such statutory accounting practices primarily differ from U.S. GAAP by charging policy acquisition costs to expense as incurred, establishing future policy benefit liabilities and contract owner account balances using different actuarial assumptions as well as valuing investments and certain assets and accounting for deferred taxes on a different basis. Certain assets that are not admitted under statutory accounting principles are charged directly to surplus. Depending on the regulations of the Division, the entire amount or a portion of an insurance company's asset balance can be nonadmitted based on the specific rules regarding admissibility.

Statutory net income (loss) was \$(9.1), \$386.0 and \$(384.4), for the years ended December 31, 2012, 2011 and 2010, respectively. Statutory capital and surplus was \$2.2 billion as of December 31, 2012 and 2011.

10. Accumulated Other Comprehensive Income (Loss)

Shareholder's equity included the following components of AOCI as of December 31, 2012, 2011 and 2010.

	2012	2011	2010
Fixed maturities, net of OTTI	\$ 2,004.5	\$ 1,331.1	\$ 682.4
Equity securities, available-for-sale	3.4	1.0	6.9
Derivatives	(0.7)	(1.1)	0.3
DAC/VOBA and sales inducements adjustment on available-for-sale securities	(1,283.3)	(1,134.1)	(510.1)
Other investments	(35.4)	(35.7)	(35.7)
Unrealized capital gains (losses), before tax	688.5	161.2	143.8
Net deferred income tax asset (liability)	(55.3)	82.7	9.8
Unrealized capital gains (losses), after tax	633.2	243.9	153.6
Pension liability, net of tax	1.0	1.2	1.2
AOCI	<u>\$ 634.2</u>	<u>\$ 245.1</u>	<u>\$ 154.8</u>

ING USA Annuity and Life Insurance Company
(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to the Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Changes in AOCI, net of DAC, VOBA and tax, related to changes in unrealized capital gains (losses) on securities, including securities pledged, were as follows for the years ended December 31, 2012, 2011 and 2010.

	2012	2011	2010
Fixed maturities	\$ 660.7	\$ 619.7	\$ 1,244.0
Equity securities, available-for-sale	2.4	(5.9)	3.4
Derivatives	0.4	(1.4)	0.3
DAC/VOBA and sales inducements adjustment on available-for-sale securities	(149.2)	(624.0)	(451.7)
Other investments	0.3	—	(10.7)
Change in unrealized gains/losses on securities, before tax	514.6	(11.6)	785.3
Deferred income tax asset/liability	(133.5)	83.1	(101.8)
Change in unrealized gains/losses on securities, after tax	381.1	71.5	683.5
Change in OTTI, before tax	12.7	29.0	(6.9)
Deferred income tax asset /liability	(4.5)	(10.2)	2.4
Change in OTTI, after tax	8.2	18.8	(4.5)
Pension and other post-employment benefit liability, before tax	(0.2)	—	(0.2)
Deferred income tax asset/liability	—	—	0.1
Pension and other post-employment benefit liability, after tax	(0.2)	—	(0.1)
Net change in AOCI, after tax	<u>\$ 389.1</u>	<u>\$ 90.3</u>	<u>\$ 678.9</u>

Changes in unrealized capital gains/losses on securities, including securities pledged and noncredit impairments, as recognized in AOCI , reported net of DAC, VOBA and income taxes, were as follows for the years ended December 31, 2012, 2011 and 2010.

	2012	2011	2010
Net unrealized capital gains/losses arising during the year ⁽¹⁾	\$ 447.5	\$ 34.0	\$ 515.4
Less: reclassification adjustment for gains (losses) and other items included in Net income (loss) ⁽²⁾	97.9	22.7	9.4
Change in deferred tax valuation allowance and other tax adjustments ⁽³⁾	39.7	79.0	173.0
Net change in unrealized capital gains/losses on securities	<u>\$ 389.3</u>	<u>\$ 90.3</u>	<u>\$ 679.0</u>

⁽¹⁾ Pretax net unrealized capital gains/losses arising during the year were \$674.9, \$52.3 and \$792.9 for the years ended December 31, 2012, 2011 and 2010, respectively.

⁽²⁾ Pretax reclassification adjustments for gains (losses) and other items included in Net income (loss) were \$147.6, \$34.9 and \$14.5, for the years ended December 31, 2012, 2011 and 2010, respectively.

⁽³⁾ These amounts include amounts allocated to Other Comprehensive Income in accordance with the exception described in ASC 740-20-45-7.

ING USA Annuity and Life Insurance Company
(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to the Financial Statements
(Dollar amounts in millions, unless otherwise stated)

11. Income Taxes

Income tax expense (benefit) consisted of the following for the years ended December 31, 2012, 2011 and 2010.

	2012	2011	2010
Current tax expense (benefit):			
Federal	\$ 266.6	\$ (195.8)	\$ 622.9
Total current tax expense (benefit)	<u>266.6</u>	<u>(195.8)</u>	<u>622.9</u>
Deferred tax expense (benefit):			
Federal	(84.3)	64.5	(665.0)
Total deferred tax expense (benefit)	<u>(84.3)</u>	<u>64.5</u>	<u>(665.0)</u>
Total income tax expense (benefit)	<u>\$ 182.3</u>	<u>\$ (131.3)</u>	<u>\$ (42.1)</u>

Income taxes were different from the amount computed by applying the federal income tax rate to income (loss) before income taxes for the following reasons for the years ended December 31, 2012, 2011 and 2010:

	Years Ended December 31,					
	2012		2011		2010	
Income (loss) before income taxes	\$ 5.3		\$ 20.8		\$ 63.3	
Tax rate	35.0 %		35.0 %		35.0 %	
Income tax expense (benefit) at federal statutory rate	<u>1.9</u>		<u>7.3</u>		<u>22.2</u>	
Tax effect of:						
Dividends received deduction	(72.9)		(30.3)		(75.9)	
Valuation allowance	247.9		(109.0)		64.0	
Audit settlements	(0.1)		3.3		(49.2)	
Tax credits	(2.0)		(2.0)		(3.5)	
Prior year tax	6.9		—		—	
Other	0.6		(0.6)		0.3	
Income tax expense (benefit)	<u>182.3</u>		<u>(131.3)</u>		<u>(42.1)</u>	

ING USA Annuity and Life Insurance Company
(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to the Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Temporary Differences

The tax effects of temporary differences that give rise to Deferred tax assets and Deferred tax liabilities at December 31, 2012 and 2011, are presented below.

	<u>2012</u>	<u>2011</u>
Deferred tax assets:		
Insurance reserves	\$ 1,035.9	\$ 1,003.3
Investments	940.6	662.7
Employee compensation and benefits	29.4	50.7
Other assets	183.0	172.6
Total gross assets before valuation allowance	<u>2,188.9</u>	<u>1,889.3</u>
Less: Valuation allowance	<u>220.3</u>	<u>12.1</u>
Assets, net of valuation allowance	1,968.6	1,877.2
Deferred tax liabilities:		
Deferred policy acquisition costs	(1,293.8)	(1,500.6)
Net unrealized investment (gains) losses	(652.1)	(275.2)
Value of business acquired	(20.6)	(29.2)
Other liabilities	(35.0)	(33.6)
Total gross liabilities	<u>(2,001.5)</u>	<u>(1,838.6)</u>
Net deferred income tax asset (liability)	<u>\$ (32.9)</u>	<u>\$ 38.6</u>

Valuation allowances are provided when it is considered unlikely that deferred tax assets will be realized. As of December 31, 2012 and 2011, the Company had a tax valuation allowance of \$406.0 and \$158.1, respectively, that was allocated to Net income (loss) and \$(185.7) and \$(146.0), respectively, that was allocated to Other comprehensive income. Therefore, after consideration of available sources of taxable income required to realize the Company's deferred tax assets in the future, the Company had a tax valuation allowance of \$220.3 related to deferred tax assets as of December 31, 2012.

Tax Sharing Agreement

The Company had a payable to ING U.S., Inc. of \$22.6 and receivable of \$204.0 as of December 31, 2012 and 2011, respectively, for federal income taxes under the intercompany tax sharing agreement.

The results of the Company's operations are included in the consolidated tax return of ING U.S., Inc. Generally, the Company's financial statements recognize the current and deferred income tax consequences that result from the Company's activities during the current and preceding periods pursuant to the provisions of Income Taxes (ASC 740) as if the Company were a separate taxpayer rather than a member of ING U.S., Inc.'s consolidated income tax return group with the exception of any net operating loss carryforwards and capital loss carryforwards, which are recorded pursuant to the tax sharing agreement. The Company's tax sharing agreement with ING U.S., Inc. states that for each taxable year prior to January 1, 2013 during which the Company is included in a consolidated federal income tax return with ING U.S., Inc., ING U.S., Inc. will pay to the Company an amount equal to the tax benefit of the Company's net operating loss carryforwards and capital loss carryforwards generated in such year, without regard to whether such net operating loss carryforwards and capital loss carryforwards are actually utilized in the reduction of the consolidated federal income tax liability for any consolidated taxable year.

Effective January 1, 2013, the Company entered into a new tax sharing agreement with ING U.S., Inc. which provides that, for 2013 and subsequent years, ING U.S., Inc. will pay the Company for the tax benefits of ordinary and capital losses only in the event that the consolidated tax group actually uses the tax benefit of losses generated.

ING USA Annuity and Life Insurance Company
(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to the Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Unrecognized Tax Benefits

Reconciliations of the change in the unrecognized income tax benefits for the years ended December 31, 2012, 2011 and 2010 are as follows:

	2012	2011	2010
Balance at beginning of period	\$ 2.7	\$ 28.0	\$ 60.3
Additions for tax positions related to prior years	—	6.1	28.0
Reductions for tax positions related to prior years	—	(6.1)	(60.2)
Reductions for settlements with taxing authorities	—	(25.3)	(0.1)
Balance at end of period	<u>\$ 2.7</u>	<u>\$ 2.7</u>	<u>\$ 28.0</u>

The Company had \$2.7 of unrecognized tax benefits as of December 31, 2012 and 2011, that would affect the Company's effective tax rate if recognized.

Interest and Penalties

The Company recognizes accrued interest and penalties related to unrecognized tax benefits in Current income taxes and Income tax expense on the Balance Sheets and Statements of Operations, respectively. The Company had no accrued interest for the years ended December 31, 2012 and 2011.

Tax Regulatory Matters

In March 2012, the Internal Revenue Service ("IRS") completed its examination of the Company's return for tax year 2010. The 2010 audit settlement did not have a material impact on the financial statements.

The Company is currently under audit by the IRS for tax years 2011 and 2012 and it is expected that the examination of tax year 2011 will be finalized within the next twelve months. The timing of the payment (if any) of the remaining allowance of \$2.7 cannot be reliably estimated. The Company and the IRS have agreed to participate in the Compliance Assurance Program ("CAP") for the tax years 2011, 2012 and 2013.

12. Benefit Plans

Defined Benefit Plan

ING North America Insurance Corporation ("ING North America") sponsors the ING Americas Retirement Plan (the "Retirement Plan"), effective as of December 31, 2001. Substantially all employees of ING North America and its affiliates (excluding certain employees) are eligible to participate, including the Company's employees. ING North America filed a request for a determination letter on the qualified status of the Retirement Plan, but has not yet received a favorable determination letter.

Beginning January 1, 2012, the Retirement Plan implemented a cash balance pension formula instead of a final average pay ("FAP") formula, allowing all eligible employees to participate in the Retirement Plan. Participants will earn an annual credit equal to 4% of eligible pay. Interest is credited monthly based on a 30-year U.S. Treasury securities bond rate published by the Internal Revenue Service in the preceding August of each year. The accrued vested cash balance benefit is portable; participants can take it when they leave the Company's employ. For participants in the Retirement Plan as of December 31, 2012, there will be a two-year transition period from the Retirement Plan's current FAP formula to the cash balance pension formula. Due to ASC Topic 715 requirements, the accounting impact of the change in the Retirement Plan was recognized upon Board approval November 10, 2011. This change had no material impact on the financial statements.

The Retirement Plan is a tax-qualified defined benefit plan, the benefits of which are guaranteed (within certain specified legal limits) by the Pension Benefit Guaranty Corporation ("PBGC"). As of January 1, 2002, each participant in the Retirement Plan (except for certain specified employees) earns a benefit under a FAP formula. Subsequent to December 31, 2001, ING North

ING USA Annuity and Life Insurance Company
(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to the Financial Statements
(Dollar amounts in millions, unless otherwise stated)

America is responsible for all Retirement Plan liabilities. The costs allocated to the Company for its employees' participation in the Retirement Plan were \$7.7, \$11.5 and \$11.0, for the years ended December 31, 2012, 2011 and 2010, respectively, and are included in Operating expenses in the Statements of Operations.

Defined Contribution Plan

ING North America sponsors the ING Americas Savings Plan and ESOP (the "Savings Plan"). Substantially all employees of ING North America and its affiliates (excluding certain employees) are eligible to participate, including the Company's employees other than Company agents. The Savings Plan is a tax-qualified defined contribution retirement plan, which includes an employee stock ownership plan ("ESOP") component. The Savings Plan was amended effective January 1, 2011, to permit Roth 401(k) contributions to be made to the Plan. ING North America filed a request for a determination letter on the qualified status of the Plan and received a favorable determination letter dated May 19, 2009. Savings Plan benefits are not guaranteed by the PBGC. The Savings Plan allows eligible participants to defer into the Savings Plan a specified percentage of eligible compensation on a pre-tax basis. ING North America matches such pre-tax contributions, up to a maximum of 6.0% of eligible compensation. Matching contributions are subject to a 4-year graded vesting schedule, although certain specified participants are subject to a 5-year graded vesting schedule. All contributions made to the Savings Plan are subject to certain limits imposed by applicable law. The cost allocated to the Company for the Savings Plan were \$3.2, \$3.3 and \$2.4, for the years ended December 31, 2012, 2011 and 2010, respectively, and are included in Operating expenses in the Statements of Operations.

Non-Qualified Retirement Plans

Effective December 31, 2001, the Company, in conjunction with ING North America, offered certain eligible employees (other than Career Agents) a Supplemental Executive Retirement Plan and an Excess Plan (collectively, the "SERPs"). Benefits under the SERPs are determined based on an eligible employee's years of service and average annual compensation for the highest five years during the last ten years of employment.

Effective January 1, 2012, the Supplemental Executive Retirement Plan was amended to coordinate with the amendment of the Retirement Plan from its current final average pay formula to a cash balance formula.

The SERPs are non-qualified defined benefit pension plans, which means all the SERPs benefits are payable from the general assets of the Company. These non-qualified defined benefit pension plans are not guaranteed by the PBGC.

Obligations and Funded Status

The following table summarizes the benefit obligations, fair value of plan assets and funded status, for the SERPs for the years ended December 31, 2012 and 2011.

	2012	2011
Change in obligation:		
Projected benefit obligation, January 1	\$ 25.2	\$ 25.5
Interest cost	1.2	1.3
Benefits paid	(1.3)	(1.1)
Actuarial gain on obligation	(0.2)	(0.2)
Plan adjustments	—	(0.3)
Benefit obligation, December 31	<u>\$ 24.9</u>	<u>\$ 25.2</u>
Fair Value of Plan Assets:		
Fair value of plan assets, December 31	<u>\$ —</u>	<u>\$ —</u>

ING USA Annuity and Life Insurance Company
(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to the Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Amounts recognized in the Balance Sheets consist of:

	2012	2011
Accrued benefit cost	\$ (24.9)	\$ (25.2)
Accumulated other comprehensive loss (income):		
Prior service cost	(0.2)	(0.3)
Net amount recognized	<u>\$ (25.1)</u>	<u>\$ (25.5)</u>

Assumptions

The weighted-average assumptions used in the measurement of the December 31, 2012 and 2011, benefit obligation for the SERPs were as follows:

	2012	2011
Discount rate	4.05 %	4.75 %
Rate of compensation increase	4.00 %	4.00 %

In determining the discount rate assumption, the Company utilizes current market information provided by its plan actuaries, including a discounted cash flow analysis of the Company's pension obligation and general movements in the current market environment. The discount rate modeling process involves selecting a portfolio of high quality, noncallable bonds that will match the cash flows of the SERP. Based upon all available information, it was determined that 4.05% was the appropriate discount rate as of December 31, 2012, to calculate the Company's accrued benefit liability.

The weighted-average assumptions used in calculating the net pension cost were as follows:

	2012	2011	2010
Discount rate	4.75 %	5.50 %	6.00 %
Rate of increase in compensation levels	4.00 %	4.00 %	3.00 %

Since the benefit plans of the Company are unfunded, an assumption for return on plan assets is not required.

Net Periodic Benefit Costs

Net periodic benefit costs for the SERPs for the years ended December 31, 2012, 2011 and 2010, were as follows:

	2012	2011	2010
Interest cost	\$ 1.2	\$ 1.3	\$ 1.5
Amortization of prior service cost (credit)	(0.1)	—	—
Net loss (gain) recognition	(0.2)	(0.2)	(0.8)
Net periodic benefit cost	<u>\$ 0.9</u>	<u>\$ 1.1</u>	<u>\$ 0.7</u>

Cash Flows

In 2012, the employer contributed \$1.5 to the SERPs. Future expected benefit payments related to the SERPs for the years ended December 31, 2013 through 2017, and thereafter through 2022, are estimated to be \$1.5, \$1.5, \$1.5, \$1.5, \$1.5 and \$7.8, respectively.

Stock Option and Share Plans

Long-term Equity Ownership Plan: Starting in 2004, ING Group began issuing options under the Long-term Equity Ownership Plan ("leo"). Under leo, participants are awarded both stock options and performance shares. Leo options are nonqualified

ING USA Annuity and Life Insurance Company
(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to the Financial Statements
(Dollar amounts in millions, unless otherwise stated)

options on ING Group shares in the form of American Depositary Receipts (“ADRs”). The leo options give the recipient the right to purchase an ING Group share in the form of ADRs at a price equal to the fair market value of one ING Group share on the date of grant. The options have a ten-year term and vest three years from the grant date subject to the participant meeting the three-year service vesting condition. Upon vesting, participants generally have up to seven years in which to exercise their vested options. A shorter exercise period applies in the event of termination due to redundancy, business divestiture, voluntary termination, or termination for cause.

Leo performance shares are a contingent grant of ING Group stock and generally vest three years from the grant date, and can range from 0-200% of target based on ING’s Total Shareholder Return (“TSR”) relative to a peer group of global financial services companies as determined at the end of the vesting period. To vest, a participant must be actively employed on the vesting date, although immediate vesting will occur in the event of the participant’s death, disability or retirement. If a participant is terminated due to redundancy or business divestiture, vesting will occur but in only a portion of the award. Unvested shares are generally subject to forfeiture when an employee voluntarily terminates employment or is terminated for cause (as defined in the leo plan document).

Long-term Sustainable Performance Plan performance shares (“LSPP”) were granted on March 30, 2011 and 2012 with a three year graded vesting schedule. Participants were awarded a conditional right to receive a number of ING Group shares in the form of ADR’s in the future. Awards under the LSPP vest, and shares are delivered 1/3 each of the first, second and third anniversary of the award date, provided the participants are still employed by ING. The LSPP performance shares are subject to a performance measure. The number of ADR’s that would be ultimately granted at the end of each performance period is dependent upon a measure of the Company’s performance over that period.

At the end of the specified performance period, the extent to which ING’s performance targets have been met will determine the actual number of leo and LSPP performance shares that the participants will receive on the vesting date.

The Company was allocated from ING compensation expense for the leo options, leo performance shares and LSPP of \$5.1, \$4.2 and \$2.6, for the years ended December 31, 2012, 2011 and 2010, respectively.

For leo, the Company recognized minimal tax benefits in December 31, 2012, 2011 and 2010.

Other Benefit Plans

In addition to providing retirement plan benefits, the Company, in conjunction with ING North America, provides certain supplemental retirement benefits to eligible employees and health care and life insurance benefits to retired employees and other eligible dependents. The supplemental retirement plan includes a non-qualified defined benefit pension plan and a non-qualified defined contribution plan, which means all benefits are payable from the general assets of the Company. The post-retirement health care plan is contributory, with retiree contribution levels adjusted annually and the Company subsidizes a portion of the monthly per-participant premium. Beginning August 1, 2009, the Company moved from self-insuring its supplemental health care costs and began to use a private-fee-for-service Medicare Advantage program for post-Medicare eligible retired participants. In addition, effective October 1, 2009, the Company no longer subsidizes medical premium costs for early retirees. This change does not impact any participant currently retired and receiving coverage under the plan or any employee who is eligible for coverage under the plan and whose employment ended before October 1, 2009. The Company continues to offer access to medical coverage until retirees become eligible for Medicare. The life insurance plan provides a flat amount of noncontributory coverage and optional contributory coverage. The ING Americas Deferred Compensation Savings Plan is a deferred compensation plan that includes a 401(k) excess component. The benefits charges allocated to the Company related to all of these plans for the years ended December 31, 2012, 2011 and 2010 were \$3.5, \$3.4 and \$2.1, respectively.

13. Commitments and Contingencies

Leases

The Company leases its office space and certain equipment under operating leases, the longest term of which expires in 2017.

ING USA Annuity and Life Insurance Company
(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to the Financial Statements
(Dollar amounts in millions, unless otherwise stated)

For the years ended December 31, 2012, 2011 and 2010, rent expense for leases was \$6.9, \$7.7 and \$8.4, respectively. The future net minimum payments under noncancelable leases for the years ended December 31, 2013 through 2017 are estimated to be \$7.2, \$7.3, \$7.2, \$6.6 and \$5.3, respectively, and \$0.0, thereafter. The Company pays substantially all expenses associated with its leased and subleased office properties. Expenses not paid directly by the Company were paid for by an affiliate and allocated back to the Company.

Commitments

Through the normal course of investment operations, the Company commits to either purchase or sell securities, commercial mortgage loans, or money market instruments, at a specified future date and at a specified price or yield. The inability of counterparties to honor these commitments may result in either a higher or lower replacement cost. Also, there is likely to be a change in the value of the securities underlying the commitments.

As of December 31, 2012 and 2011, the Company had off-balance sheet commitments to purchase investments equal to their fair value of \$304.7 and \$255.3, respectively.

Collateral

Under the terms of the Company's Over-The-Counter Derivative International Swaps and Derivatives Association, Inc. Agreements ("ISDA Agreements"), the Company may receive from, or deliver to, counterparties, collateral to assure that all terms of the ISDA Agreements will be met with regard to the CSA. The terms of the CSA call for the Company to pay interest on any cash received equal to the Federal Funds rate. As of December 31, 2012 and 2011, the Company held \$766.7 and \$821.2, of net cash collateral, respectively, related to derivative contracts, which was included in Payables under securities loan agreement, including collateral held, on the Balance Sheets. In addition, as of December 31, 2012 and 2011, the Company delivered collateral of \$579.3 and \$779.8, respectively, in fixed maturities pledged under derivatives contracts, which was included in Securities pledged on the Balance Sheets.

Federal Home Loan Bank Funding

The Company is a member of the Federal Home Loan Bank of Des Moines ("FHLB") and is required to maintain collateral that backs funding agreements issued to the FHLB. As of December 31, 2012 and 2011, the Company had \$1,548.0 and \$1,579.6, respectively, in non-putable funding agreements, including accrued interest, issued to the FHLB. These non-putable funding agreements are included in Future policy benefits and contract owner account balances on the Balance Sheets. As of December 31, 2012 and 2011, assets with a market value of \$1,855.1 and \$1,897.9, respectively, collateralized the funding agreements to the FHLB. Assets pledged to the FHLB are included in Fixed maturities, available-for-sale, on the Balance Sheets.

Restricted Assets

The Company is required to maintain assets on deposit with various regulatory authorities to support its insurance operation. The Company may also post collateral in connection with certain securities lending, repurchase agreements, funding agreement, LOC and derivative transactions as described further in this note. The components of the fair value of the restricted assets were as follows as of December 31, 2012 and 2011:

	2012	2011
Fixed maturity collateral pledged to FHLB	\$ 1,855.1	\$ 1,897.9
FHLB restricted stock ⁽¹⁾	78.9	80.3
Other fixed maturities-state deposits	12.1	12.2
Securities pledged ⁽²⁾	714.0	1,012.8
Total restricted assets	<u>\$ 2,660.1</u>	<u>\$ 3,003.2</u>

⁽¹⁾ Reported in Other investments on the Balance Sheets. Refer to Other investments in Business, Basis of Presentation and Significant Accounting Policies note for further discussion.

⁽²⁾ Includes the fair value of loaned securities of \$134.7 and \$233.0 as of December 31, 2012 and 2011, respectively, which is included in Securities pledged on the Balance Sheets.

Litigation and Regulatory Matters

The Company is a defendant in a number of litigation matters arising from the conduct of its business, both in the ordinary course and otherwise. In some of these matters, claimants seek to recover very large or indeterminate amounts, including compensatory, punitive, treble and exemplary damages. Modern pleading practice in the U.S. permits considerable variation in the assertion of monetary damages and other relief. Claimants are not always required to specify the monetary damages they seek or they may be required only to state an amount sufficient to meet a court's jurisdictional requirements. Moreover, some jurisdictions allow claimants to allege monetary damages that far exceed any reasonable possible verdict. The variability in pleading requirement and past experience demonstrates that the monetary and other relief that may be requested in a lawsuit or claim oftentimes bears little relevance to the merits or potential value of a claim. Litigation against the Company includes a variety of claims including negligence, breach of contract, fraud, violation of regulation or statute, breach of fiduciary duty, negligent misrepresentation, failure to supervise, elder abuse and other torts. Due to the uncertainties of litigation, the outcome of a litigation matter and the amount or range of potential loss is difficult to forecast and a determination of potential losses requires significant management judgment.

As with other financial services companies, the Company periodically receives informal and formal requests for information from various state and federal governmental agencies and self-regulatory organizations in connection with inquiries and investigations of the products and practices of the Company or the financial services industry. It is the practice of the Company to cooperate fully in these matters.

It is not possible to predict the ultimate outcome or to provide reasonably possible losses or ranges of losses for all pending regulatory matters and litigation. While it is possible that an adverse outcome in certain cases could have a material adverse effect upon the Company's financial position, based on information currently known, management believes that the outcome of pending litigation and regulatory matters is not likely to have such an effect. However, given the large and indeterminate amounts sought and the inherent unpredictability of such matters, it is possible that an adverse outcome in certain of the Company's litigation or regulatory matters could, from time to time, have a material adverse effect upon the Company's results of operations or cash flows in a particular quarterly or annual period.

For some matters, the Company is able to estimate a possible range of loss. For such matters in which a loss is probable, an accrual has been made. For matters where the Company, however, believes a loss is reasonably possible, but not probable, no accrual is required to be made. Accordingly, the Company's estimate reflects both types of matters. For matters for which an accrual has been made, but there remains a reasonably possible range of loss in excess of the amounts accrued, the estimate reflects the reasonably possible range of loss in excess of the accrued amounts. For other matters included within this estimation for which a reasonably possible but not probable range of loss exists, the estimate reflects the reasonably possible and unaccrued loss or range of loss. As of December 31, 2012, the Company estimates the aggregate range of reasonably possible losses in excess of any amounts accrued for these matters as of such date, is not material to the Company.

For other matters, the Company is currently not able to estimate the reasonably possible loss or range of loss. It is often unable to estimate the possible loss or range of loss until developments in such matters have provided sufficient information to support an assessment of the range of possible loss, such as quantification of a damage demand from plaintiffs, discovery from plaintiffs and other parties, investigation of factual allegations, rulings by a court on motions or appeals, analysis by experts and the progress of settlement discussions. On a quarterly and annual basis, the Company reviews relevant information with respect to litigation and regulatory contingencies and updates the Company's accruals, disclosures and reasonably possible losses or ranges of loss based on such reviews.

14. Related Party Transactions

Operating Agreements

The Company has certain agreements whereby it generates revenues and incurs expenses with affiliated entities. The agreements are as follows:

ING USA Annuity and Life Insurance Company
(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to the Financial Statements
(Dollar amounts in millions, unless otherwise stated)

-
- Underwriting and distribution agreement with Directed Services LLC ("DSL") (successor by merger to Directed Services, Inc.), an affiliated broker-dealer, whereby DSL serves as the principal underwriter for variable insurance products issued by the Company. DSL is authorized to enter into agreements with broker-dealers to distribute the Company's variable products and appoint representatives of the broker-dealers as agents. For the years ended December 31, 2012, 2011 and 2010, commissions were incurred in the amounts of \$208.0, \$201.1 and \$204.3, respectively.
 - Asset management agreement with ING Investment Management LLC ("IIM"), an affiliate, in which IIM provides asset management, administration and accounting services for ING USA's general account. The Company records a fee, which is paid quarterly, based on the value of the assets under management. For the years ended December 31, 2012, 2011 and 2010, expenses were incurred in the amounts of \$50.3, \$56.2 and \$49.0, respectively.
 - Intercompany agreement with DSL pursuant to which DSL agreed, effective January 1, 2010, to pay the Company, on a monthly basis, a portion of the revenues DSL earns as investment adviser to certain U.S. registered investment companies that are investment options under certain of the Company's variable insurance products. For the years ended December 31, 2012, 2011 and 2010, revenue under the DSL intercompany agreement was \$141.1, \$143.4 and \$146.9, respectively.
 - Intercompany agreement with IIM pursuant to which IIM agreed, effective January 1, 2010, to pay the Company, on a monthly basis, a portion of the revenues IIM earns as investment adviser to certain U.S. registered investment companies that are investment options under certain of the Company's variable insurance products. For the years ended December 31, 2012, 2011 and 2010, revenue under the IIM intercompany agreement was \$33.8, \$35.3 and \$32.0, respectively.
 - Services agreements with ING North America, dated September 1, 2000 and January 1, 2001, respectively, for administrative, management, financial, information technology and finance and treasury services. For the years ended December 31, 2012, 2011 and 2010, expenses were incurred in the amounts of \$109.3, \$110.3 and \$91.6, respectively. Effective October 1, 2010, the services agreement with ING North America dated January 1, 2001, was amended in order for the Company to provide ING North America with use of the corporate office facility at 5780 Powers Ferry Road, N.W., Atlanta, GA (the "Atlanta Office") in exchange for ING North America's payment of the Company's direct and indirect costs for the Atlanta Office.
 - Services agreement between the Company and its U.S. insurance company affiliates dated January 1, 2001, amended effective January 1, 2002 and December 31, 2007, for administrative, management, professional, advisory, consulting and other services. For the years ended December 31, 2012, 2011 and 2010, expenses related to the agreements were incurred in the amount of \$16.4, \$14.0 and \$31.0, respectively.
 - Administrative Services Agreement between the Company, ReliaStar Life Insurance Company of New York ("RLNY"), an affiliate and other U.S. insurance company affiliates dated March 1, 2003, amended effective August 1, 2004, in which the Company and affiliates provide services to RLNY. For the years ended December 31, 2012, 2011 and 2010, revenue related to the agreement was \$3.3, \$3.1 and \$2.1, respectively.
 - Services agreement between the Company, Security Life of Denver Insurance Company ("SLD"), an affiliate, and IIM whereby IIM provides administrative, management, professional, advisory, consulting and other services to the Company and SLD with respect to its Financial Products unit. For the years ended December 31, 2012, 2011 and 2010, the Company incurred expenses of \$4.0, \$3.6 and \$4.8, respectively.

Management and service contracts and all cost sharing arrangements with other affiliated companies are allocated in accordance with the Company's expense and cost allocation methods. Revenues and expenses recorded as a result of transactions and agreements with affiliates may not be the same as those incurred if the Company was not a wholly owned subsidiary of its Parent.

Reinsurance Agreements

Reinsurance Ceded

Waiver of Premium - Coinsurance Funds Withheld

Effective October 1, 2010, the Company entered into a coinsurance funds withheld agreement with its affiliate, Security Life of Denver International Limited ("SLDI"). Under the terms of the agreement, the Company ceded to SLDI 100% of the group life waiver of premium liability (except for groups covered under rate credit agreements) assumed from RLI, related to the Group Annual Term Coinsurance Funds Withheld agreement between the Company and RLI described under "Reinsurance Assumed" below.

ING USA Annuity and Life Insurance Company
(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to the Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Upon inception of the agreement, the Company paid SLDI a premium of \$245.6. At the same time, the Company established a funds withheld liability for \$188.5 to SLDI and SLDI purchased a \$65.0 letter of credit to support the ceded Statutory reserves of \$245.6. In addition, the Company recognized a gain of \$17.9 based on the difference between the premium paid and the ceded U.S. GAAP reserves of \$227.7, which offsets the \$57.1 ceding allowance paid by SLDI. The ceding allowance will be amortized over the life of the business.

As of December 31, 2012 and 2011, the value of the funds withheld liability under this agreement was \$191.4 and \$190.7, which is included in Funds held under reinsurance treaties with affiliates on the Balance Sheets. In addition, as of December 31, 2012 and 2011, the Company had an embedded derivative under this agreement with a value of \$7.7 and \$(4.8), respectively, which is recorded in Funds held under reinsurance treaties with affiliates on the Balance Sheets.

Guaranteed Living Benefit - Coinsurance and Coinsurance Funds Withheld

Effective June 30, 2008, the Company entered into an automatic reinsurance agreement with its affiliate, SLDI, covering 100% of the benefits guaranteed under specific variable annuity guaranteed living benefit riders attached to certain variable annuity contracts issued by the Company on or after January 1, 2000.

Also effective June 30, 2008, the Company entered into a services agreement with SLDI, under which the Company provides certain actuarial risk modeling consulting services to SLDI with respect to hedge positions undertaken by SLDI in connection with the reinsurance agreement. For the years ended December 31, 2012, 2011 and 2010, revenue related to the agreement was \$12.0, \$12.4 and \$11.9, respectively.

Effective July 1, 2009, the reinsurance agreement was amended and restated to change the reinsurance basis from coinsurance to a combined coinsurance and coinsurance funds withheld basis. On July 31, 2009, SLDI transferred assets with a market value of \$3.2 billion to the Company and the Company deposited those assets into a funds withheld trust account. As of December 31, 2012, the assets on deposit in the trust account increased to \$3.9 billion. The Company also established a corresponding funds withheld liability to SLDI, which is included in Funds held under reinsurance treaties with affiliates on the Balance Sheets. Funds held under reinsurance treaties with affiliates had a balance of \$3.6 billion and \$5.0 billion, at December 31, 2012 and 2011, respectively. In addition, as of December 31, 2012 and 2011, the Company had an embedded derivative with a value of \$293.6 and \$235.7, respectively, which is recorded in Funds held under reinsurance treaties with affiliates on the Balance Sheets.

Also effective July 1, 2009, the Company and SLDI entered into an asset management services agreement, under which SLDI serves as asset manager for the funds withheld account. SLDI has retained its affiliate, ING Investment Management LLC, as subadviser for the funds withheld account.

Effective October 1, 2011, the Company and SLDI entered into an amended and restated automatic reinsurance agreement in order to provide more flexibility to the Company and SLDI with respect to the collateralization of the reserves related to the variable annuity guaranteed living benefits reinsured under the agreement.

At December 31, 2012 and 2011, reserves ceded by the Company under this agreement were \$2.1 billion and \$1.9 billion, respectively. In addition, a deferred loss in the amount of \$343.9 and \$365.3 at December 31, 2012 and 2011, respectively, is included in Other assets on the Balance Sheets and is amortized over the reinsurance period of benefit.

Multi-year Guaranteed Fixed Annuity - Coinsurance

Effective May 1, 2005, the Company entered into a coinsurance agreement with its affiliate, Security Life of Denver Insurance Company ("SLD"). Under the terms of the agreement, SLD assumed and accepted the responsibility for paying, when due, 100% of the liabilities arising under the multi-year guaranteed fixed annuity contracts issued by the Company between January 1, 2001 and December 31, 2003. In addition, the Company assigned to SLD all future premiums received by the Company attributable to the ceded contracts.

Under the terms of the agreement, the Company ceded \$2.5 billion in account balances and transferred a ceding commission and \$2.7 billion in assets to SLD, resulting in a realized capital gain of \$47.9 to the Company, which reduced the ceding commission.

ING USA Annuity and Life Insurance Company
(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to the Financial Statements
(Dollar amounts in millions, unless otherwise stated)

The coinsurance agreement is accounted for using the deposit method. As such, \$2.7 billion of Deposit receivable from affiliate was established on the Balance Sheets. As of December 31, 2012 and 2011, the receivable was \$901.7 and \$1,377.6, respectively, and is adjusted over the life of the agreement based on cash settlements and the experience of the contracts, as well as for amortization of the ceding commission. The Company incurred amortization expense of the negative ceding commission of \$10.8, \$7.2 and \$21.4, for the years ended December 31, 2012, 2011 and 2010, respectively, which is recorded in Other expenses in the Statements of Operations.

Universal Life - Coinsurance

Effective January 1, 2000, the Company entered into a 100% coinsurance agreement with its affiliate, SLD, covering certain universal life policies which had been issued and in force as of, as well as any such policies issued after, the effective date of the agreement. As of December 31, 2012 and 2011, reserves ceded by the Company under this agreement were \$19.3 and \$18.7, respectively.

Guaranteed Investment Contract - Coinsurance

Effective August 20, 1999, the Company entered into a Facultative Coinsurance Agreement with its affiliate, SLD. Under the terms of the agreement, the Company facultatively cedes, from time to time, certain GICs to SLD on a 100% coinsurance basis. The Company utilizes this reinsurance facility primarily for diversification and asset-liability management purposes in connection with this business. Senior management of the Company has established a current maximum of \$4.0 billion for GIC reserves ceded under this agreement.

GIC reserves ceded by the Company under this agreement were \$505.6 and \$121.4 at December 31, 2012 and 2011, respectively.

Reinsurance Assumed

Level Premium Term Life Insurance - Stop-loss

Effective October 1, 2010, the Company entered into a stop-loss agreement with its affiliate, RLI under which the Company agreed to indemnify and reinsure RLI for the aggregate mortality risk under certain level premium term life insurance policies issued by RLI between January 1, 2009 and December 31, 2009 and certain level premium term life insurance policies assumed by RLI from ReliaStar Life Insurance Company of New York under an Automatic Coinsurance Agreement effective March 1, 2008. Under the terms of the agreement, the Company will make benefit payments to RLI equal to the amount of claims in excess of the attachment point (equal to a percentage of net reinsurance premium) up to the maximum fully covered benefit.

Effective April 1, 2012, the agreement was recaptured by RLI and terminated, and there was no consideration received by the Company upon such recapture and termination.

Effective January 1, 2012, the Company entered into a stop-loss agreement with RLI, which was amended and restated April 1, 2012 to include the recaptured business described above, under which the Company agreed to indemnify RLI, and RLI agreed to reinsure with the Company, the aggregate mortality risk under the combined blocks of level premium term life insurance policies issued by RLI between January 1, 2009 and December 31, 2009 and also between January 1, 2012 and December 31, 2012. This coverage included certain level premium term life insurance policies assumed by RLI from ReliaStar Life Insurance Company of New York under an Automatic Coinsurance Agreement effective March 1, 2008. Under the terms of the agreement, the Company will make benefit payments to RLI equal to the amount of claims in excess of the attachment point (equal to a percentage of net reinsurance premium) up to the maximum fully covered benefit.

The stop-loss agreement is accounted for using the deposit method. A fee receivable from affiliate of \$0.9 and \$0.5 as of December 31, 2012 and 2011, respectively, is included in Future policy benefits and contract owner account balances on the Balance Sheets. The fee is accrued for and subsequently settled in cash each quarterly accounting period.

Effective July 1, 2012, the Company entered into a stop-loss agreement with its affiliate, SLD under which the Company agrees to indemnify SLD, and SLD agrees to reinsure with the Company, aggregate mortality risk under certain level premium term life insurance policies assumed by SLD from RLI and written by either RLI or RLNY with issue dates between January 1, 2007 and March 31, 2008 and between January 1, 2010 and December 31, 2010. Under the terms of the agreement, the

ING USA Annuity and Life Insurance Company
(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to the Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Company will make benefit payments to SLD equal to the amount of claims in excess of the attachment point (equal to a percentage of net reinsurance premium) up to the maximum fully covered benefit.

The stop-loss agreement is accounted for using the deposit method. A fee receivable from affiliate of \$0.9 as of December 31, 2012 is included in Future policy benefits and contract owner account balances on the Balance Sheets. The fee is accrued for and subsequently settled in cash each quarterly accounting period.

Group Annual Term - Coinsurance Funds Withheld

Effective December 31, 2008, the Company entered into a coinsurance funds withheld agreement with RLI for an indefinite duration. Under the terms of the agreement, the Company assumed 100% quota share of RLI's net retained liability under certain Employee Benefits Group Annual Term policies, including disability waiver of premium.

The initial premium of \$219.9 was equal to the aggregate reserve assumed by the Company. Thereafter, premiums are equal to the total earned gross premiums collected by RLI from policyholders. RLI will retain all reinsurance premiums payable to the Company as funds withheld, as security for ceded liabilities and against which ceded losses will be offset. Monthly, the Company will receive or pay a net settlement. This agreement was amended and restated October 1, 2010 to better reflect the current investment environment and to modify the treatment of claims under certain policies under which claims are not paid in the form of a single lump sum; the underlying terms described above remained unchanged. (Please see also description of Waiver of Premium - Coinsurance Funds Withheld Agreement between the Company and SLDI under "Reinsurance Ceded" above).

As of December 31, 2012 and 2011, reserves assumed by the Company under this agreement were \$456.4 and \$453.1, respectively.

Reciprocal Loan Agreement

The Company maintains a reciprocal loan agreement with ING U.S., Inc., an affiliate, to facilitate the handling of unanticipated short-term cash requirements that arise in the ordinary course of business. Under this agreement, which became effective in January 2004 and expires on January 14, 2014, either party can borrow from the other up to 3.0% of the Company's statutory net admitted assets, excluding Separate Accounts, as of the preceding December 31. Interest on any ING USA borrowing is charged at the rate of ING U.S., Inc.'s cost of funds for the interest period, plus 0.15%. Interest on any ING U.S., Inc. borrowing is charged at a rate based on the prevailing interest rate of U.S. commercial paper available for purchase with a similar duration.

Under this agreement, the Company did not incur interest expense for the year ended December 31, 2012, 2011 and 2010. The Company earned interest income of \$0.4, \$1.0 and \$1.2, for the years ended December 31, 2012, 2011 and 2010, respectively. Interest expense and income are included in Interest expense and Net investment income, respectively, on the Statements of Operations. As of December 31, 2012, the Company did not have any outstanding receivable with ING U.S., Inc. under reciprocal loan agreement. As of December 31, 2011, the Company had an outstanding receivable \$535.9, with ING U.S., Inc. under the reciprocal loan agreement.

Long-Term Debt with Affiliates

The Company issued a 30-year surplus note in the principal amount of \$35.0 on December 8, 1999, to its affiliate, SLD, which matures on December 7, 2029. Interest is charged at an annual rate of 7.98%. Payment of the note and related accrued interest is subordinate to payments due to contract owners and claimant and beneficiary claims, as well as debts owed to all other classes of debtors, other than surplus note holders. Any payment of principal and/or interest made is subject to the prior approval of the Iowa Insurance Commissioner. Interest expense was \$2.8 for each of the years ended December 31, 2012, 2011 and 2010, respectively.

On December 29, 2004, the Company issued surplus notes in the aggregate principal amount of \$400.0 (the "Notes"), scheduled to mature on December 29, 2034, to its affiliates, ING Life Insurance and Annuity Company, RLI and SLDI. The Notes bear interest at a rate of 6.26% per year. Any payment of principal and/or interest is subject to the prior approval of the Iowa Insurance Commissioner. Interest expense was \$25.4 for each of the years ended December 31, 2012, 2011 and 2010, respectively.

ING USA Annuity and Life Insurance Company
(A wholly owned subsidiary of Lion Connecticut Holdings Inc.)
Notes to the Financial Statements
(Dollar amounts in millions, unless otherwise stated)

Funding Agreement

On August 10, 2007, the Company issued an extendable funding agreement to its parent, Lion, upon receipt of a single deposit in the amount of \$500.0. To fund the purchase of the funding agreement, Lion issued a promissory note to its indirect parent company, ING Insurance, which has been guaranteed by Lion's immediate parent, ING U.S., Inc.

The funding agreement was scheduled to mature on August 10, 2012, however it was terminated on September 14, 2011, with an early termination fee paid to the Company of \$3.2.

Alt-A Back-up Facility

On January 26, 2009, ING, for itself and on behalf of certain subsidiaries, including the Company, reached an agreement with the Dutch State on an Illiquid Asset Back Up Facility (the "Alt-A Back-up Facility") regarding Alt-A RMBS owned by certain subsidiaries of ING U.S., Inc., including the Company. Pursuant to this transaction, the Company transferred all risks and rewards on 80% of a \$1.6 billion par Alt-A RMBS portfolio to ING Support Holding B.V. ("ING Support Holding"), a wholly owned subsidiary of ING Group by means of the granting of a participation interest to ING Support Holding. ING and ING Support Holding entered into a back-to-back arrangement with the Dutch State on this 80%. As a result of this first transaction, the Company retained 20% of the exposure for any results on the \$1.6 billion Alt-A RMBS portfolio.

The purchase price for the participation payable by the Dutch State was set at 90% of the par value of the 80% interest in the securities as of that date. This purchase price was payable in installments, was recognized as a loan granted to the Dutch State with a value of \$1.2 billion, and was recorded as Loan-Dutch State Obligation on the Balance Sheets (the "Dutch State Obligation"). Under the transaction, other fees were payable by both the Company and the Dutch State. The Company incurred net fees of \$2.3, \$3.0 and \$3.4 in the years ended December 31, 2012, 2011 and 2010, respectively.

The Company executed a second transaction effective January 26, 2009, in which an additional \$29.8 par Alt-A RMBS portfolio owned by the Company were sold to ING Direct Bancorp. ING Direct Bancorp paid cash in the amount of \$21.4 for 80% of the Company's additional \$29.8 par Alt-A RMBS and included those purchased securities as part of its Alt-A RMBS portfolio sale to the Dutch State. ING Direct Bancorp paid cash in the amount of \$3.6 and retained the remaining 20% of this Alt-A RMBS portfolio.

On November 13, 2012, ING, all participating ING U.S., Inc. subsidiaries, including the Company, ING Support Holding and ING Bank N.V. ("ING Bank") entered into restructuring arrangements with the Dutch State, which closed the following day (the "Termination Agreement"). Pursuant to the restructuring transaction, the Company sold the Dutch State Obligation to ING Support Holding at fair value and transferred legal title to 80% of the securities subject to the Alt-A Back-up Facility to ING Bank. The restructuring resulted in an immaterial pre-tax loss. Following the restructuring transaction, the Company continues to own 20% of the Alt-A RMBS from the first transaction. The Company has the right to sell these securities, subject to a right of first refusal granted to ING Bank.

Derivatives

As of December 31, 2012 and 2011, the Company had call options with a notional amount of \$256.7 and \$382.2, respectively, and market value of \$2.8 and \$4.9, respectively, with ING Bank, an affiliate. Each of these contracts was entered into as a result of a competitive bid, which included unaffiliated counterparties.
