Supplement dated May 1, 2019

This supplement updates and amends certain information contained in your prospectus dated May 1, 2019. Please read it carefully and keep it with your prospectus for future reference.

NOTICE OF AND IMPORTANT INFORMATION ABOUT AN UPCOMING FUND REORGANIZATION

The following information only affects you if you currently invest in or plan to invest in the subaccount that corresponds to the VY® Templeton Global Growth Portfolio.

On November 16, 2018, the Board of Trustees of Voya Investors Trust approved a proposal to reorganize the VY® Templeton Global Growth Portfolio (the “Reorganization”). Subject to shareholder approval, effective after the close of business on or about August 23, 2018 (the “Reorganization Date”), the VY® Templeton Global Growth Portfolio (the “Merging Fund”) will reorganize with and into the Voya Global Equity Portfolio (the “Surviving Fund”).

If shareholders of the Merging Fund approve the Reorganization, from the close of business on August 9, 2019, through the close of business on August 23, 2019, the Merging Fund will be in a “transition period” during which time a transition manager will sell all or most of its assets and the transition manager may hold a large portion of the Merging Fund’s assets in temporary investments. During this time, the Merging Fund may not be pursuing its investment objective and strategies, and limitations on permissible investments and investment restrictions will not apply. The sales and purchases of securities during the transition period are expected to result in buy and sell transactions and such transactions may be made at a disadvantageous time.

Voluntary Transfers Before the Reorganization Date. Prior to the Reorganization Date and for 30 days thereafter, you may transfer amounts allocated to the subaccount that invests in the Merging Fund to any other available subaccount or to any available Fixed Account. There will be no charge for any such transfer, and any such transfer will not count as a transfer when imposing any applicable restriction or limit on transfers. See the “**TRANSFERS AMONG YOUR INVESTMENTS (EXCESSIVE TRADING POLICY)**” section of your Contract prospectus for information about making subaccount transfers, including applicable restrictions and limits on transfers.

On the Reorganization Date. Your investment in the subaccount that invests in Class S of Merging Fund will automatically be reallocated to and become an investment in the subaccount that invests in Class S of the Surviving Fund with an equal total net asset value. The subaccount that invests in Class S of the Surviving Fund is otherwise closed to new investors and to new investments through your Contract. You will not incur any tax liability because of this automatic reallocation, and your Contract Value immediately before the reallocation will equal your Contract Value immediately after the reallocation.

Automatic Fund Reallocation After the Reorganization Date. After the Reorganization Date, the Merging Fund will no longer be available through your Contract. Unless you provide us with alternative allocation instructions, after the Reorganization Date all allocations directed to the subaccount that invests in the Merging Fund will be automatically allocated to the subaccount that invests in Class T of the Surviving Fund. Please note that gross fund expenses of Class T of the Surviving Fund are greater than the gross fund expenses of either Class S of the Surviving Fund, which is closed to new investors and new allocations through your Contract, or Class S of the Merging Fund in which you may have been invested.

Review your Allocation Elections. In light of this fund reorganization, you should consider whether an investment in the Surviving Fund is appropriate for you, given your personal investment objectives and risk characteristics. After the Reorganization Date, you may transfer amounts allocated to the subaccount that invests in the Surviving Fund to any other available subaccount or to any available Fixed Account. For 30 days after the Reorganization Date there will be no charge for any such transfer, and any such transfer will not count as a transfer when imposing any applicable restriction or limit on transfers. **See the “TRANSFERS AMONG YOUR INVESTMENTS (EXCESSIVE TRADING POLICY)” section of your Contract prospectus for information about making fund allocation changes.**

Allocation Instructions. You may give us alternative allocation instructions at any time by contacting Customer Service at P.O. Box 9271, Des Moines, Iowa 50306-9271, (800) 366-0066.

MORE INFORMATION IS AVAILABLE

More information about the funds available through your Contract, including information about the risks associated with investing in them, can be found in the current prospectus and Statement of Additional Information for each fund. You may obtain these documents by contacting:

Customer Service
P.O. Box 9271
Des Moines, Iowa 50306-9271
(800) 366-0066

If you received a summary prospectus for any of the funds available through your Contract, you may obtain a full prospectus and other fund information free of charge by either accessing the internet address, calling the telephone number or sending an email request to the email address shown on the front of the fund’s summary prospectus.

Voya Insurance and Annuity Company

Separate Account B of Voya Insurance and Annuity Company

Deferred Combination Variable and Fixed Annuity Prospectus

GOLDENSELECT DVA PLUS®

May 1, 2019

This prospectus describes GoldenSelect DVA Plus®, a group and individual deferred variable annuity Contract (the “Contract” or the “Contracts”) issued by Voya Insurance and Annuity Company (“VIAC,” the “Company,” “we,” “us” or “our”). Subject to regulatory approval, the Company intends to change its name to Venerable Insurance and Annuity Company on or about September 1, 2019. The Contract was available in connection with certain retirement plans that qualified for special federal income tax treatment (“qualified Contracts”) as well as those that did not qualify for such treatment (“nonqualified Contracts”). **We no longer offer this Contract for sale to new purchasers.**

The Contract provides a means for you, the Contract Owner, to invest your premium payments in one or more mutual fund investment portfolios (hereinafter referred to as a “fund”). You may also allocate premium payments to our Fixed Account with Guaranteed Interest Periods. Your Contract Value will vary daily to reflect the investment performance of the fund(s) you select and any interest credited to your allocations in the Fixed Account. For Contracts sold in some states, not all Fixed Interest Allocations or Subaccounts are available. **The funds currently available under your Contract are listed on the next page.**

Beginning on January 1, 2021, as permitted by regulations adopted by the Securities and Exchange Commission (“SEC”), paper copies of the shareholder reports for the funds available through your Contract will no longer be sent by mail, unless you specifically request paper copies of the reports from the Company. Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Company electronically by writing to Customer Service at P.O. Box 9271, Des Moines, Iowa 50306-9271 or calling (800) 366-0066.

You may elect to receive all future reports in paper free of charge. You can inform the Company that you wish to continue receiving paper copies of your shareholder reports by 1-800-283-3427. Your election to receive reports in paper will apply to all funds in which you choose to invest.

Replacing an existing annuity with the Contract may not be beneficial to you. Your existing annuity may be subject to fees or penalties on surrender, and the Contract may have new charges.

This prospectus provides information that you should know before investing and should be kept for future reference. A Statement of Additional Information (“SAI”), dated May 1, 2019, has been filed with the SEC. It is available without charge upon request. To obtain a copy of this document, write to Customer Service at P.O. Box 9271, Des Moines, Iowa 50306-9271 or call (800) 366-0066, or access the SEC’s website (www.sec.gov). The table of contents of the SAI is on the last page of this prospectus and the SAI is made part of this prospectus by reference.

The Securities and Exchange Commission has not approved or disapproved these securities or passed upon the adequacy of this prospectus. Any representation to the contrary is a criminal offense.

Allocations to a Subaccount investing in a fund are not bank deposits and are not insured or guaranteed by any bank or by the Federal Deposit Insurance Corporation (“FDIC”) or any other government agency. The Contract described in this prospectus is subject to investment risk, including the possible loss of the principal amount invested.

We pay compensation to broker/dealers whose registered representatives sold the Contract. See “OTHER CONTRACT PROVISIONS – *Selling the Contract*” for further information about the amount of compensation we pay.

The Funds

Subaccounts that invest in the following funds are currently open and available to new premiums and transfers under your Contract are:

BlackRock Global Allocation V.I. Fund (Class III)	Voya Russell TM Large Cap Index Portfolio (Class S)
Voya Balanced Income Portfolio (Class S) ¹	Voya Russell TM Large Cap Value Index Portfolio (Class S)

Voya Russell TM Large Cap Growth Index Portfolio (Class S)	VY [®] T. Rowe Price International Stock Portfolio (Class S)
	VY [®] Templeton Global Growth Portfolio (Class S)

More information can be found in the appendices. See APPENDIX A for all Subaccounts and valuation information. APPENDIX B highlights each fund's investment objective and adviser (and any subadviser). If you received a summary prospectus for any of the underlying funds available through your Contract, you may obtain a full prospectus and other fund information free of charge by either accessing the internet address, calling the telephone number or sending an email request to the contact information shown on the front of the fund's summary prospectus.

¹ This fund employs a managed volatility strategy. See the *"Funds with Managed Volatility Strategies"* section for more information about managed volatility funds.

² This fund is structured as a "fund of funds." Funds offered in a "fund of funds" structure may have higher fees and expenses than a fund that invests directly in debt and equity securities because they also incur the fees and expenses of the underlying funds in which they invest. See **"THE FUNDS"** section for more information

INDEX OF SPECIAL TERMS

The following special terms are used throughout this prospectus. Refer to the page(s) listed for an explanation of each term:

Special Term	Page
Accumulation Unit	8
Annual Ratchet Enhanced Death Benefit	38
Annuitant	16
Annuity Start Date	16
Cash Surrender Value	20
Claim Date	36
Contract Date	15
Contract Owner	15
Contract Value	20
Contract Year	15
Covered Fund	10
Earnings Multiplier Benefit	39
Excluded Funds	10
Free Withdrawal Amount	11
Max 7 Enhanced Death Benefit	38
Net Investment Factor	8
Net Rate of Return	8
Restricted Funds	10
Rider Date	21
7% Solution Enhanced Death Benefit	37
Special Funds	10
Standard Death Benefit	36

The following terms as used in this prospectus have the same or substituted meanings as the corresponding terms currently used in the Contract:

Term Used in This Prospectus	Corresponding Term Used in the Contract
Accumulation Unit Value	Index of Investment Experience
Annuity Start Date	Annuity Commencement Date
Contract Owner	Owner or Certificate Owner
Contract Value	Accumulation Value
Fixed Interest Allocation	Fixed Allocation
Free Look Period	Right to Examine Period
Guaranteed Interest Period	Guarantee Period
MGIB Benefit Base	MGIB Charge Base
Net Investment Factor	Experience Factor
Regular Withdrawals	Conventional Partial Withdrawals
Subaccount(s)	Division(s)
Transfer Charge	Excess Allocation Charge
Withdrawals	Partial Withdrawals

FEES AND EXPENSES

The following tables describe the fees and expenses that you will pay when buying, owning and surrendering the Contract. The first table describes the fees and expenses that you will pay at the time that you buy the Contract, surrender the Contract or transfer Contract Value between investment options. State premium taxes may also be deducted.

The first table describes the charges that you will pay at the time that you buy the Contract, surrender the Contract or transfer Contract Value between investment options. State premium taxes may also be deducted.

Contract Owner Transaction Expenses³

Surrender Charge:

Complete Years Elapsed Since Premium Payment	0	1	2	3	4	5	6	7+
Surrender Charge	7%	7%	6%	5%	4%	3%	1%	0

Transfer Charge:⁴

\$25 per transfer, if you make more than 12 transfers in a Contract Year.

Overnight Charge:⁵

\$20

The next table describes the charges that you could pay periodically during the time that you own the Contract, not including fund fees and expenses.

Periodic Fees and Charges

Annual Contract Administrative Charge:⁶

\$40

(We waive this charge if the total of your premium payments is \$100,000 or more or if your Contract Value at the end of a Contract Year is \$100,000 or more.)

Separate Account Annual Charges:⁷

	Standard Death Benefit	Enhanced Death Benefits		
		Annual Ratchet	7% Solution	Max 7
Mortality & Expense Risk Charge	1.15%	1.40%	1.50%	1.60%
Asset-Based Administrative Charge	0.15%	0.15%	0.15%	0.15%
Total	1.30%	1.55%	1.65%	1.75%

Earnings Multiplier Benefit Rider Charge:⁸

As an Annual Charge	As a Quarterly Charge
0.30% of Contract Value	0.08% of Contract Value

³ If you invested in a Fixed Interest Allocation, a Market Value Adjustment may apply to certain transactions. This may increase or decrease your Contract Value and/or your transfer or surrender amount.

⁴ We currently do not impose this charge, but may do so in the future.

⁵ You may choose to have this charge deducted from the net amount of a withdrawal you would like sent to you by overnight delivery service.

⁶ We deduct this charge on each contract anniversary.

⁷ As a percentage of average daily assets in each Subaccount. The Separate Account Annual Charges are deducted daily.

⁸ We deduct the rider charge from the Subaccounts in which you are invested on each quarterly contract anniversary and proportionally upon termination of the Contract, if the value in the Subaccounts is insufficient, the rider charge will be deducted from the Fixed Interest Allocation(s) nearest maturity, and the amount deducted may be subject to a Market Value Adjustment.

TABLE OF CONTENTS

The following tables show the charges for the optional riders currently available with the Contract. These charges would be in addition to the Separate Account Annual Charges noted above. You may add only one of the three optional benefit riders, namely: the Minimum Guaranteed Accumulation Benefit; the Minimum Guaranteed Income Benefit and the Minimum Guaranteed Withdrawal Benefit. For more information about which one may be right for you, please see “THE ANNUITY CONTRACT – *Optional Riders.*”

Optional Rider Charges⁹

Minimum Guaranteed Accumulation Benefit rider:

Waiting Period	As an Annual Charge	As a Quarterly Charge
10 Year	0.65% of MGAB Charge Base	0.17% of the MGAB Charge Base ¹⁰
20 Year	0.65% of MGAB Charge Base	0.17% of the MGAB Charge Base

Minimum Guaranteed Income Benefit rider:

MGIB Rate	As an Annual Charge	As a Quarterly Charge
7%	0.75% of the MGIB Charge Base	0.19% of the MGIB Charge Base ¹¹

Minimum Guaranteed Withdrawal Benefit rider:

As an Annual Charge	As a Quarterly Charge
0.65% of the MGWB Eligible Payment Amount	0.17% of the MGWB Eligible Payment Amount ¹²

The next item shows the minimum and maximum total annual fund operating expenses that you may pay periodically during the time that you own the Contract. The minimum and maximum expenses listed below are based on expenses for the funds’ most recent fiscal year ends without taking into account any fee waiver or expense reimbursement arrangements that may apply. Expenses of the funds may be higher or lower in the future. More detail concerning each fund’s fees and expenses is contained in the prospectus for the fund.

Total Annual Fund Operating Expenses	Minimum	Maximum
(expenses that are deducted from fund assets, including management fees, distribution and/or service (12b-1) fees and other expenses) ¹³	0.54%	1.51%

⁹ We deduct optional rider charges from the Subaccounts in which you are invested on each quarterly contract anniversary and proportionally upon termination of the Contract. If the value in the Subaccounts is insufficient, the optional rider charges will be deducted from the Fixed Interest Allocation(s) nearest maturity, and the amount deducted may be subject to a Market Value Adjustment. You may add only one optional benefit rider to your Contract.

¹⁰ The MGAB Charge Base is the total of premiums added during the two-year period commencing on the Rider Date if you purchase the rider on the Contract Date, or, your Contract Value on the Rider Date plus premiums added during the two-year period commencing on the Rider Date if you purchased the rider after the Contract Date, reduced proportionally for all Withdrawals taken while the MGAB rider is in effect, and reduced proportionally for transfers made during the three year period before the MGAB Date. The MGAB Charge Base is tracked separately for Covered, Special and Excluded Funds, based on initial allocation of premium (or Contract Value), subsequent allocation of eligible premium, Withdrawals and transfers. Withdrawals and transfers may reduce the applicable MGAB Charge Base by more than the amount withdrawn or transferred.

¹¹ The MGIB Charge Base generally depends on the amount of premiums you pay during the first five Contract Years after you purchase the rider, when you pay the premiums, less a pro-rata deduction for any withdrawal made while the MGIB rider is in effect and accumulated at the MGIB Rate. The MGIB Charge Base is tracked separately for Covered, Special and Excluded Funds, based on initial allocation of premium (or Contract Value), subsequent allocation of eligible premium, Withdrawals and transfers. Withdrawals and transfers between Covered, Special and Excluded Funds may reduce the applicable MGIB Charge Base by more than the amount withdrawn or transferred.

¹² The MGWB Eligible Payment Amount is (i) the total of premiums paid during the two-year period commencing on the Rider Date if you purchase the rider on the Contract Date; or (ii) your Contract Value on the Rider Date plus subsequent premiums paid during the two-year period commencing on the Rider Date.

¹³ No fund currently charges a redemption fee. For more information about redemption fees, please see “CHARGES AND FEES – *Charges Deducted From the Contract Value – Redemption Fees.*”

Examples

The following examples are intended to help you compare the cost of investing in the Contract with the cost of investing in other variable annuity contracts. These costs include Contract Owner transaction expenses, Contract fees, separate account annual expenses and fund fees and expenses. Premium taxes (which currently range from 0% to 3.5% of premium payments) may apply, but are not reflected in the example below.

The examples assume that you invest \$10,000 in the Contract for the time periods indicated. The examples also assume that your investment has a 5% return each year and assumes the maximum fees and expenses of any of the funds. Specifically, the examples assume election of the Max 7 Enhanced Death Benefit and election of the Earnings Multiplier Benefit rider with a charge of 0.30% of the Contract Value annually. The examples reflect the deduction of a mortality and expense risk charge, an asset-based administrative charge and the annual Contract administrative charge as an annual charge of 0.04% of assets. The examples also assume you elected an optional benefit rider with the highest cost, an assumed charge of 1.14% annually, where the rider base is equal to the initial premium and increases by 7% annually, and the rider charge is assessed each quarter on a base equal to the hypothetical \$10,000 premium increasing at 7% per year. The assumed annual rider charge of 1.14% results from the assumption of a 7% annual increase in the rider base but only a 5% earnings increase in the Contract Value before expenses. Thus, 1.14% represents an annual charge over the ten-year period which is equivalent to a charge of 0.19% of rider base per quarter over the same period. Note that surrender charges may apply if you choose to annuitize your Contract within the first three Contract Years, and under certain circumstances, within the first seven Contract Years.

Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

Example 1: If you surrender or annuitize your Contract at the end of the applicable time period:			
1 year	3 years	5 years	10 years
\$1,137	\$1,935	\$2,666	\$4,748
Example 2: If you do not surrender your Contract:			
1 year	3 years	5 years	10 years
\$437	\$1,335	\$2,266	\$4,748

Compensation is paid for the sale of the Contracts. For information about this compensation, see “OTHER CONTRACT PROVISIONS – Selling the Contract.”

Fees Deducted by the Funds

Fund Fee Information. The fund prospectuses show the investment advisory fees, 12b-1 fees and other expenses including service fees (if applicable) charged annually by each fund. Fund fees are one factor that impacts the value of a fund share. Please refer to the fund prospectuses for more information and to learn more about additional factors.

The Company may receive compensation from each of the funds or the funds’ affiliates based on an annual percentage of the average net assets held in that fund by the Company. The percentage paid may vary from one fund Company to another. For certain funds, some of this compensation may be paid out of 12b-1 fees or service fees that are deducted from fund assets. Any such fees deducted from fund assets are disclosed in the fund prospectuses. The Company may also receive additional compensation from certain funds for administrative, recordkeeping or other services provided by the Company to the funds or the funds’ affiliates. These additional payments may also be used by the Company to finance the costs associated with past distribution of the Contract. These additional payments are made by the funds or the funds’ affiliates to the Company and do not increase, directly or indirectly, the fund fees and expenses. **Please see “CHARGES AND FEES – Fund Expenses” for more information.**

How Fees are Deducted. Fees are deducted from the value of the fund shares on a daily basis, which in turn affects the value of each Subaccount that purchases fund shares.

CONDENSED FINANCIAL INFORMATION

Accumulation Unit

We use Accumulation Units to calculate the value of a Contract. Each Subaccount of Separate Account B has its own Accumulation Unit Value. The Accumulation Units are valued each business day that the New York Stock Exchange (“NYSE”) is open for trading. Their values may increase or decrease from day to day according to a Net Investment Factor, which is primarily based on the investment performance of the applicable fund in which the Subaccount invests. Shares in the funds are valued at their net asset value.

Tables showing the Accumulation Unit Value history of each Subaccount of Separate Account B available for investment under the Contract and the total investment value history of each such Subaccount for a Contract with the lowest and highest combination of asset-based changes are presented in **APPENDIX A**. The numbers show the year-end unit values of each Subaccount from the time premium payments were first received in the Subaccounts under the Contract. Complete information is available in the SAI.

The Net Investment Factor

The Net Investment Factor is an index number which reflects certain charges under the Contract and the investment performance of the Subaccount. The Net Investment Factor is calculated for each Subaccount as follows:

- (1) We take the net asset value of the Subaccount at the end of each business day;
- (2) We add to (1) the amount of any dividend or capital gains distribution declared for the Subaccount and reinvested in such Subaccount. We subtract from that amount a charge for our taxes, if any;
- (3) We divide (2) by the net asset value of the Subaccount at the end of the preceding business day; and
- (4) We then subtract the applicable daily charges from the Subaccount: the mortality and expense risk charge; the asset-based administrative charge and any optional rider charges.

Calculations for the Subaccounts are made on a per Accumulation Unit basis.

The Net Rate of Return equals the Net Investment Factor minus one.

Financial Statements

The statements of assets and liabilities, the statements of operations, the statements of changes in net assets and the related notes to financial statements for Separate Account B and the financial statements and the related notes to financial statements for Voya Insurance and Annuity Company are included in the SAI.

SEPARATE ACCOUNT B

Separate Account B was established as a separate account of the Company on July 14, 1988. It is registered with the SEC as a unit investment trust under the Investment Company Act of 1940, as amended (the “1940 Act”). Separate Account B is a separate investment account used for our variable annuity contracts. We own all the assets in Separate Account B but such assets are kept separate from our other accounts.

Separate Account B is divided into Subaccounts. Each Subaccount invests exclusively in shares of one fund of a fund. Each fund has its own distinct investment objectives and policies. Income, gains and losses, whether or not realized, of an fund are credited to or charged against the corresponding Subaccount of Separate Account B without regard to any other income, gains or losses of the Company. Assets equal to the reserves and other Contract liabilities with respect to each are not chargeable with liabilities arising out of any other business of the Company. They may, however, be subject to liabilities arising from Subaccounts whose assets we attribute to other variable annuity contracts supported by Separate Account B. If the assets in Separate Account B exceed the required reserves and other liabilities, we may transfer the excess to our general account. We are obligated to pay all benefits and make all payments provided under the Contracts.

The other variable annuity contracts that invest in Separate Account B are not discussed in this prospectus.

Separate Account B may also invest in other funds which are not available under your Contract. Under certain circumstances, we may make certain changes to the Subaccounts. **For more information, see “THE ANNUITY CONTRACT – Addition, Deletion or Substitution of Subaccounts and Other Changes.”**

VOYA INSURANCE AND ANNUITY COMPANY

We are an Iowa stock life insurance company, which was originally organized in 1973 under the insurance laws of Minnesota. Prior to September 1, 2014, we were known as ING USA Annuity and Life Insurance Company. Prior to January 1, 2004, we were known as Golden American Life Insurance Company. On June 1, 2018 we became an indirect wholly owned subsidiary of VA Capital Company LLC, an insurance holding company organized under Delaware law (“VA Capital”). Our direct parent company is Venerable Holdings, Inc. (“Venerable”). Before June 1, 2018, we were an indirect, wholly owned subsidiary of Voya Financial, Inc. (“Voya”), which until April 7, 2014, was known as ING U.S., Inc. **The June 1, 2018, sale of the Company by Voya to VA Capital did not change the terms, features and benefits of your Contract.**

Although we are a subsidiary of VA Capital and Venerable, neither VA Capital nor Venerable are responsible for the obligations under the Contract. The obligations under the Contract are solely our responsibility.

We are authorized to sell insurance and annuities in all states, except New York, and the District of Columbia. We are engaged in the business of administering insurance and annuities, and we no longer sell or issue any new insurance or annuities. Our principal office is located at 699 Walnut Street, Suite 1350, Des Moines, Iowa 50309-3942.

Product Regulation. Our products are subject to a complex and extensive array of state and federal tax, securities and insurance laws, and regulations, which are administered and enforced by a number of governmental and self-regulatory authorities. Specifically, U.S. federal income tax law imposes requirements relating to nonqualified annuity product design, administration, and investments that are conditions for beneficial tax treatment of such products under the Internal Revenue Code. **See “FEDERAL TAX CONSIDERATIONS” for further discussion of some of these requirements.** Failure to administer certain nonqualified Contract features (for example, contractual Annuity Start Dates in nonqualified annuities) could affect such beneficial tax treatment. In addition, state and federal securities and insurance laws impose requirements relating to insurance and annuity product design, offering and distribution, and administration. Failure to meet any of these complex tax, securities, or insurance requirements could subject the Company to administrative penalties, unanticipated remediation, or other claims and costs.

THE FUNDS

You will find information about the funds, or funds, currently available under your Contract in “APPENDIX B – The Funds.” Please refer to the fund prospectuses for additional information and read them carefully before investing. Fund prospectuses may be obtained, free of charge, by calling Customer Service at (800) 366-0066, by accessing the SEC’s website or by contacting the SEC Public Reference Branch. Consult with your investment professional to determine if the funds may be suited to your financial needs, investment time horizon and risk comfort level. You should periodically review these factors to determine if you need to change your investment strategy.

Selection of Underlying Funds

The underlying funds available through the Contract described in this prospectus are determined by the Company. When determining which underlying funds to make available, we may consider various factors, including, but not limited to, asset class coverage, the alignment of the investment objectives of an underlying fund with our hedging strategy, the strength of the adviser’s or subadviser’s reputation and tenure, brand recognition, performance and the capability and qualification of each investment firm. Another factor that we may consider is whether the underlying fund or its service providers (e.g., the investment adviser or subadvisers) or its affiliates will make payments to us or our affiliates in connection with certain administrative, marketing and support services, or whether affiliates of the fund can provide marketing and distribution support for sales of the Contracts. **(For additional information on these arrangements, see “Revenue from the Funds.”)** We review the funds periodically and may, subject to certain limits or restrictions, remove a fund or limit its availability to new investment if we determine that a fund no longer satisfies one or more of the selection criteria and/or if the fund has not attracted significant allocations under the Contract. We have included certain of the funds at least in part because they were managed or subadvised by our affiliates.

We do not recommend or endorse any particular fund, and we do not provide investment advice.

Fund of Funds

Certain funds are designated as “fund of funds.” Funds offered in a fund of funds structure may have higher fees and expenses than a fund that invests directly in debt and equity securities. **See “CHARGES AND FEES – Fund Expenses.”** The fund prospectuses disclose the aggregate annual operating expenses of each fund and its corresponding underlying fund or funds. These funds are identified in the list of available funds found on page 2 of this prospectus.

Funds with Managed Volatility Strategies

As described in more detail in the fund prospectuses, certain funds employ a managed volatility strategy that is intended to reduce the fund's overall volatility and downside risk. Funds that employ a managed volatility strategy help us manage the risks associated with providing certain guarantees under the Contract. During rising markets, the hedging strategies employed to manage volatility could result in your Contract Value rising less than would have been the case if you had been invested in a fund with substantially similar investment objectives, policies and strategies that does not utilize a volatility management strategy. In addition, the cost of these hedging strategies may have a negative impact on investment performance. On the other hand, investing in funds with a managed volatility strategy may be helpful in a declining market with higher market volatility because the hedging strategy will reduce your equity exposure in such circumstances. In such cases, your Contract Value may decline less than would have been the case if you had not invested in funds with a managed volatility strategy. There is no guarantee that a managed volatility strategy can achieve or maintain the fund's optimal risk targets, and the fund may not perform as expected. Funds that employ a managed volatility strategy are identified in the list of the available funds found on page 2 of this prospectus.

Possible Conflicts of Interest

If, due to differences in tax treatment or other considerations, the interests of Contract Owners of various contracts participating in the funds conflict, we, the Boards of Trustees or Directors of the funds, and any other insurance companies participating in the funds will monitor events to identify and resolve any material conflicts that may arise.

Restricted Funds

We may, with 30 days' notice to you, designate any investment option as a Restricted Fund and limit the amount you may allocate or transfer to a Restricted Fund. We may also change the limitations on existing Contracts with respect to new premiums added to funds and with respect to new transfers to funds. We may establish any limitations, at our discretion, as a percentage of premium or Contract Value, or as a specified dollar amount, and change the limitation at any time. Currently, we have not designated any investment option as a Restricted Fund. If we designate an investment option as a Restricted Fund or set applicable limitations, such change will apply only to transactions made after the designation.

We limit your investment in the Restricted Funds on an aggregate basis for all Restricted Funds and for each individual Restricted Fund. Currently, we limit an investment in Restricted Funds to the following limitations: (1) no more than \$999,999,999; and (2) no more than 30 percent of Contract Value. We may change these limits, in our discretion, for new Contracts, premiums, transfers or Withdrawals.

We monitor the aggregate and individual limits on investments in Restricted Funds for each transaction (e.g. premium payments, reallocations, Withdrawals, dollar cost averaging). If the Contract Value in the Restricted Funds has increased beyond the applicable limit due to market growth, we will not require the reallocation or withdrawal of Contract Value from the Restricted Funds. However, if the Contract Value in the Restricted Funds exceed the aggregate limit, if you take a withdrawal, it must come from either the Restricted Funds or proportionally from all investment options in which Contract Value is allocated, so that the percentage of Contract Value in the Restricted Funds following the withdrawal is less than or equal to the percentage of Contract Value in the Restricted Funds prior to the withdrawal.

We will not permit a transfer to the Restricted Funds if it would increase the Contract Value in the Restricted Fund or in all Restricted Funds to more than the applicable limits set forth above. We will not limit transfers from Restricted Funds. If the multiple reallocations lower the percentage of total Contract Value in Restricted Funds, we will permit the reallocation even if the percentage of Contract Value in a Restricted Fund is greater than its limit.

Please see "WITHDRAWALS" and "TRANSFERS AMONG YOUR INVESTMENTS (EXCESSIVE TRADING POLICY)" in this prospectus for more information on the effect of Restricted Funds.

Covered Funds, Special Funds and Excluded Funds

For purposes of determining death benefits and benefits under the optional benefit riders (but not the Earnings Multiplier Benefit rider), we assign the investment options to one of three categories of funds. The categories are:

- Covered Funds;
- Special Funds; and
- Excluded Funds.

TABLE OF CONTENTS

Allocations to Covered Funds participate fully in all guaranteed benefits. Allocations to Special Funds could affect the death benefit and/or optional benefit rider guarantee that may otherwise be provided. Allocations to Excluded Funds do not participate in any guaranteed benefits, due to their potential for volatility. No investment options are currently designated as Excluded Funds.

Designation of investment options under these categories may vary by benefit. For example, we may designate an investment option a Special Fund for purposes of calculating a benefit under an optional benefit rider, but not a death benefit, or for calculating one death benefit and not another. We may, with 30 days' notice to you, designate any investment option as a Special or Excluded Fund with respect to new premiums added to such investment option and also with respect to new transfers to such investment option.

CHARGES AND FEES

We deduct the Contract charges described below to compensate us for our costs and expenses, services provided and risks assumed under the Contracts. We incur certain costs and expenses for distributing and administering the Contracts, including compensation and expenses paid in connection with sales of the Contracts, for paying the benefits payable under the Contracts and for bearing various risks associated with the Contracts. Some of the charges are for optional riders, so they are only deducted if you elect to purchase the rider. The amount of a Contract charge will not always correspond to the actual costs associated with the charge. For example, the surrender charge collected may not fully cover all of the distribution expenses incurred by us with the service or benefits provided. If there are any profits from fees and charges deducted under the Contract, including the mortality and expense risk charge and rider and benefit charges, we may use such profits to finance the costs associated with past distribution of the Contract.

Charge Deduction Subaccount

You may elect to have all charges, except daily charges, against your Contract Value deducted directly from a single Subaccount designated by the Company. Currently we use the Voya Government Liquid Assets Subaccount for this purpose. If you do not elect this option, or if the amount of the charges is greater than the amount in the designated Subaccount, we will deduct the charges as discussed below. You may cancel this option at any time by sending notice to Customer Service in a form satisfactory to us.

Charges Deducted from the Contract Value

We deduct the following charges from your Contract Value.

Surrender Charge. We will deduct a surrender charge if you surrender your Contract or if you take a withdrawal in excess of the Free Withdrawal Amount during the seven-year period from the date we receive and accept a premium payment. We base the surrender charge on a percentage of each premium payment withdrawn. The surrender charge is based on the amount requested for withdrawal. The surrender charge is deducted from the Contract Value remaining after you have received the amount requested for withdrawal. This charge is intended to cover sales expenses that we have incurred. We may reduce or waive the surrender charge in certain situations. We will never charge more than the maximum surrender charges. The percentage of premium payments deducted at the time of surrender or excess withdrawal depends on the number of complete years that have elapsed since that premium payment was made. We determine the surrender charge as a percentage of each premium payment as follows:

Complete Years Elapsed Since Premium Payment	0	1	2	3	4	5	6	7+
Surrender Charge	7%	7%	6%	5%	4%	3%	1%	0

Waiver of Surrender Charge for Extended Medical Care. We will waive the surrender charge in most states in the following events: (1) you begin receiving qualified extended medical care on or after the first Contract anniversary for at least 45 days during a 60-day period and we receive your request for the surrender or withdrawal, together with all required documentation at Customer Service during the term of your care or within 90 days after the last day of your care; or (2) you are first diagnosed by a qualified medical professional, on or after the first Contract anniversary, as having a qualifying terminal illness. We have the right to require an examination by a physician of our choice. If we require such an examination, we will pay for it. You are required to send us satisfactory written proof of illness. See your Contract for more information. The waiver of surrender charge may not be available in all states.

Free Withdrawal Amount. The Free Withdrawal Amount in any Contract Year is 15% of your Contract Value on the date of withdrawal less any Withdrawals during that Contract Year.

[TABLE OF CONTENTS](#)

Surrender Charge for Excess Withdrawals. We will deduct a surrender charge for excess Withdrawals, which may include a withdrawal you make to satisfy required minimum distribution requirements under the Internal Revenue Code of 1986, as amended (the “Tax Code”). We consider a withdrawal to be an excess withdrawal when the amount you withdraw in any Contract Year exceeds the Free Withdrawal Amount. When you are receiving systematic Withdrawals, any combination of Regular Withdrawals and systematic Withdrawals taken will be included in determining the amount of the excess withdrawal. Such a withdrawal will be considered a partial surrender of the Contract and we will impose a surrender charge and any associated premium tax. We will deduct such charges from the Contract Value in proportion to the Contract Value in each Subaccount or Fixed Interest Allocation from which the excess withdrawal was taken. In instances where the excess withdrawal equals the entire Contract Value in such Subaccounts or Fixed Interest Allocations, we will deduct charges proportionately from all other Subaccounts and Fixed Interest Allocations in which you are invested. **Any withdrawal from a Fixed Interest Allocation more than 30 days before its maturity date will trigger a Market Value Adjustment. See APPENDIX C for more information.**

For the purpose of calculating the surrender charge for an excess withdrawal: (1) we treat premiums as being withdrawn on a first-in, first-out basis; and (2) amounts withdrawn which are not considered an excess withdrawal are not considered a withdrawal of any premium payments. We have included an example of how this works in **APPENDIX E**. Although we treat premium payments as being withdrawn before earnings for purpose of calculating the surrender charge for excess Withdrawals, the federal tax law treats earnings as withdrawn first.

Premium Taxes. We may charge for state and local premium taxes depending on your state of residence. These taxes can range from 0% to 3.5% of the premium payment. We have the right to change this amount to conform with changes in the law or if you change your state of residence.

We deduct the premium tax from your Contract Value (or from the MGIB Base, if exercised) on the Annuity Start Date. However, some jurisdictions impose a premium tax at the time initial and additional premiums are paid, regardless of when the annuity payments begin. In those states we may defer collection of the premium taxes from your Contract Value and deduct it when you surrender the Contract, when you take an excess withdrawal or on the Annuity Start Date.

Administrative Charge. We deduct an annual administrative charge on each Contract anniversary. If you surrender your Contract prior to a Contract anniversary, we deduct an administrative charge when we determine the Cash Surrender Value payable to you. The charge is \$40 per Contract. We waive this charge if your Contract Value is \$100,000 or more at the end of a Contract Year or the total of your premium payments is \$100,000 or more, or under other conditions established by VIAC. We deduct the charge proportionately from all Subaccounts in which you are invested. If there is no Contract Value in those Subaccounts, we will deduct the charge from your Fixed Interest Allocations starting with the Guaranteed Interest Periods nearest their maturity dates until the charge has been paid.

Transfer Charge. We currently do not deduct any charges for transfers made during a Contract Year. We have the right, however, to assess up to \$25 for each transfer after the twelfth transfer in a Contract Year. The charge will not apply to any transfers due to the election of dollar cost averaging or automatic rebalancing.

Overnight Charge. You may elect to have a \$20 overnight charge deducted from the net amount of a withdrawal you would like sent to you by overnight delivery service.

Redemption Fees. If applicable, we may deduct the amount of any redemption fees imposed by the underlying funds as a result of Withdrawals, transfers or other fund transactions you initiate. Redemption fees, if any, are separate and distinct from any transaction charges or other charges deducted from your Contract Value. **For a more complete description of the funds’ fees and expenses, review each fund’s prospectus.**

No underlying fund currently charges a redemption fee.

Charges Deducted from the Subaccounts

Mortality and Expense Risk Charge. The amount of the mortality and expense risk charge depends on the death benefit you have elected and on the category of Contract Owner to which you belong. We deduct the charge each business day based on the assets you have in each Subaccount. If there are any profits from the mortality and expense risk charge, we may use such profits to finance the costs associated with past distribution of the Contract.

Mortality and Expense Risk Charge							
Standard Death Benefit		Annual Ratchet Enhanced Death Benefit		7% Solution Enhanced Death Benefit		Max 7 Enhanced Death Benefit	
Annual Charge	Annual Charge Expressed as Daily Rate	Annual Charge	Annual Charge Expressed as Daily Rate	Annual Charge	Annual Charge Expressed as Daily Rate	Annual Charge	Annual Charge Expressed as Daily Rate
1.15%	0.003169%	1.40%	0.003863%	1.50%	0.004141%	1.60%	0.004419%

Asset-Based Administrative Charge. The amount of the asset-based administrative charge, on an annual basis, is equal to 0.15% of the assets you have in each Subaccount. We deduct the charge from your assets in each Subaccount on each business day at the rate of 0.000411% for each day since the previous business day.

Earnings Multiplier Benefit Charge. Subject to state availability, you may purchase the Earnings Multiplier Benefit rider for a nonqualified Contract either at issue or on the next Contract anniversary following the introduction of the benefit in your state, if later. So long as the rider is in effect, we will deduct a separate quarterly charge for the rider through a proportional reduction of the Contract Value of the Subaccounts in which you are invested. If there is insufficient Contract Value in the Subaccounts, we will deduct the charges from your Fixed Interest Allocations starting with the allocation nearest its maturity date. If that is insufficient, we will deduct the charge from the allocation next nearest its maturity date, and so on. We deduct the rider charge on each quarterly Contract anniversary in arrears, meaning we deduct the first charge on the first quarterly anniversary following the Rider Date. If you surrender or annuitize your Contract, we will deduct a proportional portion of the charge for the current quarter based on the current Contract Value immediately prior to the surrender or annuitization. The quarterly charge for the Earnings Multiplier Benefit rider is 0.08% (0.30% annually). **For a description of the rider, see “DEATH BENEFIT CHOICES – Earnings Multiplier Benefit Rider.”**

Optional Rider Charges

In addition to the Earnings Multiplier Benefit rider, subject to state availability, you may purchase one of three optional benefit riders. So long as the rider is in effect, we will deduct a separate quarterly charge for each optional benefit rider through a proportional reduction of the Contract Value of the Subaccounts in which you are invested. If there is insufficient Contract Value in the Subaccount, we will deduct the charges from your Fixed Interest Allocations nearest their maturity date. We deduct each rider charge on each quarterly Contract anniversary in arrears, meaning we deduct the first charge on the first quarterly anniversary following the Rider Date. **For a description of the riders and the defined terms used in connection with the riders, see “THE ANNUITY CONTRACT – Optional Riders.”**

Minimum Guaranteed Accumulation Benefit (“MGAB”). The charge for the MGAB rider is as follows:

Waiting Period	As an Annual Charge	As a Quarterly Charge
10 Year	0.65% of MGAB Charge Base	0.16% of the MGAB Charge Base
20 Year	0.65% of MGAB Charge Base	0.16% of the MGAB Charge Base

Minimum Guaranteed Income Benefit (“MGIB”). The charge for the MGIB rider is as follows:

MGIB Rate	As an Annual Charge	As a Quarterly Charge
7%	0.75% of the MGIB Charge Base	0.19% of the MGIB Charge Base

[TABLE OF CONTENTS](#)

Minimum Guaranteed Withdrawal Benefit (“MGWB”). The annual charge for the MGWB rider is 0.65% (0.17% quarterly) of the original MGWB Eligible Payment Amount. When we calculate the MGWB rider charge, we do not reduce the Eligible Payment Amount by the amount of any Withdrawals taken while the MGWB rider is in effect. We will deduct charges only during the period before your Contract’s Automatic Periodic Benefit Status. If you surrender or annuitize your Contract, we will deduct a proportional portion of the charge for the current quarter based on the current quarterly charge rate and your original MGWB Eligible Payment Amount immediately prior to the surrender or annuitization.

Fund Expenses

As shown in the fund prospectuses and described in the “**FEES AND EXPENSES – Fees Deducted by the Funds**” section of this prospectus, each fund deducts management fees from the amounts allocated to the fund. In addition, each fund deducts other expenses which may include service fees that may be used to compensate service providers, including the Company and its affiliates, for administrative and Contract Owner services provided on behalf of the fund. Furthermore, certain funds may deduct a distribution or 12b-1 fee, which is used to finance any activity that is primarily intended to result in the sale of fund shares. **For a more complete description of the funds’ fees and expenses, review each fund’s prospectus.**

Less expensive share classes of the funds offered through this Contract may be available for investment outside of this Contract. You should evaluate the expenses associated with the funds available through this Contract before making a decision to invest.

Revenue from the Funds

The Company or its affiliates may receive compensation from each of the funds or the funds’ affiliates. This revenue may include:

- A share of the management fee;
- Service fees;
- For certain share classes, 12b-1 fees; and
- Additional payments (sometimes referred to as revenue sharing).

12b-1 fees are used to compensate the Company and its affiliates for distribution related activity. Service fees and additional payments (sometimes collectively referred to as sub-accounting fees) help compensate the Company and its affiliates for administrative, recordkeeping or other services that we provide to the funds or the funds’ affiliates, such as:

- Communicating with customers about their fund holdings;
- Maintaining customer financial records;
- Processing changes in customer accounts and trade orders (e.g., purchase and redemption requests);
- Recordkeeping for customers, including Subaccounting services;
- Answering customer inquiries about account status and purchase and redemption procedures;
- Providing account balances, account statements, tax documents and confirmations of transactions in a customer’s account;
- Transmitting proxy statements, annual and semi-annual reports, fund prospectuses and other fund communications to customers; and
- Receiving, tabulating and transmitting proxies executed by customers.

The management fee, service fees and 12b-1 fees are deducted from fund assets. Any such fees deducted from fund assets are disclosed in the fund prospectuses. Additional payments, which are not deducted from fund assets and may be paid out of the legitimate profits of fund advisers and/or other fund affiliates, do not increase, directly or indirectly, fund fees and expenses, and we may use these additional payments to finance the costs associated with past distribution of the Contract.

The amount of revenue the Company may receive from each of the funds or from the funds’ affiliates may be substantial, although the amount and types of revenue vary with respect to each of the funds offered through the Contract. This revenue is one of several factors we consider when determining Contract fees and expenses and whether to offer a fund through our contracts. **Fund revenue is important to the Company’s profitability.**

Assets allocated to funds formerly affiliated with the Company, meaning Voya funds managed by Voya Investments, LLC or another Voya affiliate, generally generate the largest dollar amount of revenue for the Company. Assets allocated to funds that were never affiliated with the Company generate lesser, but still substantial dollar amounts of revenue for the Company. The Company expects to earn profit from this revenue to the extent it exceeds the Company’s expenses, including the payment of sales compensation to our distributors.

TABLE OF CONTENTS

Revenue Received from Formerly Affiliated Voya Funds. The revenue received by the Company from the formerly affiliated Voya funds may be based either on an annual percentage of average net assets held in the fund by the Company or a share of the fund's management fee.

In the case of formerly affiliated Voya funds subadvised by unaffiliated third parties, any sharing of the management fee between the Company and the formerly affiliated investment adviser is based on the amount of such fee remaining after the subadvisory fee has been paid to the unaffiliated subadviser. Because subadvisory fees vary by subadviser, varying amounts of revenue are retained by the formerly affiliated investment adviser and ultimately shared with the Company. The sharing of the management fee between the Company and the formerly affiliated investment adviser does not increase, directly or indirectly, fund fees and expenses. The Company may also receive additional compensation in the form of intercompany payments from an formerly affiliated fund's investment adviser or the investment adviser's parent in order to allocate revenue and profits across the organization. The intercompany payments and other revenue received from the formerly affiliated Voya funds provide the Company with a financial incentive to offer these funds through the Contract rather than unaffiliated funds.

Additionally, in the case of formerly affiliated Voya funds subadvised by third parties, no direct payments are made to the Company or the formerly affiliated investment adviser by the subadvisers.

Revenue Received from Funds Never Affiliated with the Company. Revenue received by the Company from funds that were never affiliated with the Company is based on an annual percentage of the average net assets held in that fund by the Company. Some of these funds or their affiliates pay us more than others and some of the amounts we receive may be significant.

The BlackRock Global Allocation V.I. Fund is the only fund currently open and available for investment through the Contract that is not a formerly affiliated Voya fund. We receive more revenue from the formerly affiliated Voya funds than we do from this BlackRock V.I. Fund.

THE ANNUITY CONTRACT

The Contract described in this prospectus is a deferred combination variable and fixed annuity contract. The Contract provides a means for you to invest in one or more of the available funds through Separate Account B. It also provides a means for you to invest in a Fixed Interest Allocation. **See APPENDIX C for more information about the Fixed Account.** If you have any questions concerning this Contract, contact your registered representative or call Customer Service at (800) 366-0066.

Contract Date and Contract Year

The date the Contract became effective is the Contract Date. Each 12-month period following the Contract Date is a Contract Year.

Contract Owner

You are the Contract Owner. You have the rights and options described in the Contract. One or more persons may own the Contract. If there are multiple owners named, the age of the oldest owner will determine the applicable death benefit if such death benefit is available for multiple owners.

The death benefit becomes payable when you die. In the case of a sole Contract Owner who dies before the Annuity Start Date, we will pay the beneficiary the death benefit then due. The sole Contract Owner's estate will be the beneficiary if no beneficiary has been designated or the beneficiary has predeceased the Contract Owner. In the case of a joint owner of the Contract dying before the Annuity Start Date, we will designate the surviving Contract Owner as the beneficiary. This will override any previous beneficiary designation. **See "Joint Owner" below.**

Joint Owner

For nonqualified Contracts only, joint owners may be named in a written request before the Contract is in effect. Joint owners may independently exercise transfers and other transactions allowed under the Contract. All other rights of ownership must be exercised by both owners. Joint owners own equal shares of any benefits accruing or payments made to them. All rights of a joint owner end at death of that owner if the other joint owner survives. The entire interest of the deceased joint owner in the Contract will pass to the surviving joint owner and the death benefit will be payable. Joint owners may only select the Standard Death Benefit option. The Earnings Multiplier Benefit rider is not available when there are joint owners.

[TABLE OF CONTENTS](#)

Any addition or deletion of a joint owner is treated as a change of owner which may affect the amount of the death benefit. See “**Change of Contract Owner or Beneficiary**” below. If you have elected an Enhanced Death Benefit, and you add a joint owner after issue, the Enhanced Death Benefit from the date of change will end. If the older joint owner is attained age 85 or under, the Standard Death Benefit will apply. If the older joint owner is attained age 86 or over on the date of the ownership change, the death benefit will be the Cash Surrender Value. The mortality and expense risk charge going forward will reflect the change in death benefit. If you elected the Earnings Multiplier Benefit rider, it will terminate if you add a joint owner after issue. Note that returning a Contract to single owner status will not restore any Enhanced Death Benefit or the Earnings Multiplier Benefit. Unless otherwise specified, the term “age” when used for joint owners shall mean the age of the oldest owner.

Annuity Start Date

The Annuity Start Date is the date you start receiving annuity payments under your Contract. The Contract, like all deferred variable annuity contracts, has two phases: (1) the accumulation phase; and (2) the income phase. The accumulation phase is the period between the Contract Date and the Annuity Start Date. The income phase begins when you start receiving regular annuity payments from your Contract on the Annuity Start Date.

Annuitant

The Annuitant is the person designated by you to be the measuring life in determining annuity payments. You are the Annuitant unless you name another Annuitant in the application. The Annuitant’s age determines when the income phase must begin and the amount of the annuity payments to be paid. The Contract Owner will receive the annuity benefits of the Contract if the Annuitant is living on the Annuity Start Date. You may not change the Annuitant after the Contract is in effect.

If the Contract Owner is an individual, and the Annuitant dies before the Annuity Start Date and you have named a contingent Annuitant, the contingent Annuitant becomes the Annuitant. If the Annuitant dies before the Annuity Start Date and there is no contingent Annuitant, the Contract Owner will become the Annuitant. In the event of joint owners, the youngest will be the contingent Annuitant. The Contract Owner may designate a new Annuitant within 60 days of the death of the Annuitant. If the Annuitant was the sole Contract Owner and there is no beneficiary designation, the Annuitant’s estate will be the beneficiary.

If the Contract Owner is not an individual, and the Annuitant dies before the Annuity Start Date, we will pay the designated beneficiary the death benefit then due. If a beneficiary has not been designated, or if there is no designated beneficiary living, the Contract Owner will be the beneficiary.

Regardless of whether a death benefit is payable, if the Annuitant dies and any Contract Owner is not an individual, distribution rules under federal tax law will apply. You should consult your tax and/or legal adviser for more information if the Contract Owner is not an individual.

Beneficiary

The beneficiary is named by you in a written request. The beneficiary is the person who receives any death benefit proceeds. The beneficiary may become the successor Contract Owner if the Contract Owner who is a spouse dies before the income phase start date. We pay death benefits to the primary beneficiary (unless there are joint owners, in which case death proceeds are payable to the surviving owner(s)).

If the beneficiary dies before the Annuitant or the Contract Owner, we pay the death benefit proceeds to the contingent beneficiary, if any. If there is no surviving beneficiary, we pay the death benefit proceeds to the Contract Owner’s estate.

One or more persons may be a beneficiary or contingent beneficiary. In the case of more than one beneficiary, we will assume any death benefit proceeds are to be paid in equal shares to the surviving beneficiaries, unless you indicate otherwise in writing.

Change of Contract Owner or Beneficiary

During the Annuitant’s lifetime, you may transfer ownership of a nonqualified Contract. A change in ownership may affect the amount of the death benefit, the guaranteed minimum death benefit and/or the death benefit option applied to the Contract, the amount of the Earnings Multiplier Benefit, if applicable, and the continuation of any other optional rider that you have elected. The new owner’s age, as of the date of the change, will be used as the basis for determining the applicable benefits and charges. The new owner’s death will determine when a death benefit is payable.

TABLE OF CONTENTS

If you have elected the Standard Death Benefit option, the minimum guaranteed death benefit will continue if the new owner is age 85 or under on the date of the ownership change. For the Enhanced Death Benefit options, if the new owner is age 79 or under on the date that ownership changes, the minimum guaranteed death benefit will continue. If the new owner is age 80 to 85, the Enhanced Death Benefit will end, and the death benefit will become the Standard Death Benefit. For all death benefit options, 1) if the new owner's attained age is 86 or over on the date of the ownership change, or 2) if the new owner is not an individual (other than a trust for the benefit of the owner or Annuitant), the death benefit will be the Cash Surrender Value. The mortality and expense risk charge going forward will reflect the change in death benefit. Please note that once a death benefit has been changed due to a change in owner, a subsequent change to a younger owner will not restore any Enhanced Death Benefits.

If you have elected the Earnings Multiplier Benefit rider, and the new owner is under age 76, the rider will continue. The benefit will be adjusted to reflect the attained age of the new owner as the issue age. We will use the Maximum Base and Benefit Base percentages in effect on the original Rider Date to calculate the benefit. If the new owner is age 76 or over, the rider will terminate. If you have not elected the Earnings Multiplier Benefit rider, the new owner may not add the rider upon the change of ownership. If you have elected another optional rider, the rider will terminate upon a change of ownership.

A change of owner likely has tax consequences. See **"FEDERAL TAX CONSIDERATIONS" in this prospectus.**

You have the right to change beneficiaries during the Annuitant's lifetime unless you have designated an irrevocable beneficiary. If you have designated an irrevocable beneficiary, you and the irrevocable beneficiary may have to act together to exercise some of the rights and options under the Contract. In the event of joint owners all must agree to change a beneficiary.

In the event of a death claim, we will honor the form of payment of the death benefit specified by the beneficiary to the extent permitted under Section 72(s) of the Tax Code. You may also restrict a beneficiary's right to elect an income phase payment option or receive a lump-sum payment. If so, such rights or options will not be available to the beneficiary.

All requests for changes must be in writing and submitted to Customer Service. The change will be effective as of the day we receive the request. The change will not affect any payment made or action taken by us before recording the change.

Purchase and Availability of the Contract

We no longer offer the Contract for sale to new purchasers.

We issued a Contract only if both the Annuitant and the Contract Owner were age 85 or younger. The initial premium payment must have been \$10,000 or more (\$1,500 for qualified Contracts). You may make additional payments of at least \$500 or more (\$50 for qualified Contracts) at any time after the Free Look Period and up to the Contract anniversary after your 85th birthday. Under certain circumstances, we may have waived the minimum premium payment requirement. We may also change the minimum initial or additional premium requirements for certain group or sponsored arrangements. An initial or additional premium payment that would cause the Contract Value of all annuities that you maintain with us to exceed \$1,500,000 requires our prior approval. The Contract may not have been available to all ages through all broker dealers.

The Contract is designed for people seeking long-term tax-deferred accumulation of assets, generally for retirement or other long-term purposes. The tax-deferred feature is more attractive to people in high federal and state tax brackets. You should not buy this Contract: (1) if you are looking for a short-term investment; (2) if you cannot risk getting back less money than you put in; or (3) if your assets are in a plan which provides for tax-deferral and you see no other reason to purchase this Contract. **When considering an investment in the Contract, you should consult with your investment professional about your financial goals, investment time horizon and risk tolerance.**

Replacing an existing insurance contract with this Contract may not be beneficial to you. Before purchasing the Contract, determine whether your existing contract will be subject to any fees or penalties upon surrender. Also, compare the fees, charges, coverage provisions and limitations, if any, of your existing contract with those of the Contract described in this prospectus.

IRAs and other qualified plans already have the tax-deferral feature found in this Contract. For an additional cost, the Contract provides other features and benefits including death benefits and the ability to receive a lifetime income. You should not purchase a qualified Contract unless you want these other features and benefits, taking into account their cost. See **"FEES AND EXPENSES" in this prospectus. If you are considering an Enhanced Death Benefit Option and/or the Earnings Multiplier Benefit rider and your Contract will be an IRA, see "FEDERAL TAX CONSIDERATIONS – Tax Consequences of Living Benefits and Enhanced Death Benefits" in this prospectus.**

[TABLE OF CONTENTS](#)

We and our affiliates offer other variable products that may offer some of the same funds. These products have different benefits and charges, and may or may not better match your needs. If you are interested in learning more about these other products, contact Customer Service or your registered representative.

Crediting of Premium Payments

We will process your initial premium within two business days after receipt, if the application and all information necessary for processing the Contract are complete. We will process subsequent premium payments within one business day if we receive all information necessary. In certain states we also accept initial and additional premium payments by wire order. Wire transmittals must be accompanied by sufficient electronically transmitted data. We may retain your initial premium payment for up to five business days while attempting to complete an incomplete application. If the application cannot be completed within this period, we will inform you of the reasons for the delay. We will also return the premium payment immediately unless you direct us to hold the premium payment until the application is completed. If you choose to have us hold the premium payment, it will be held in a non-interest bearing account.

If a Subaccount is not available or requested in error, we will make inquiry about a replacement Subaccount. If we are unable to reach you or your representative within five days, we will consider the application incomplete. For initial premium payments designated for a Subaccount of Separate Account B, we will credit the payment at the Accumulation Unit Value next determined after we receive your premium payment and the completed application. Once the completed application is received, we will allocate the payment to the Subaccounts of Separate Account B specified by you within two business days.

If your premium payment was transmitted by wire order from your broker/dealer, we will follow one of the following two procedures after we receive and accept the wire order and investment instructions. The procedure we follow depends on state availability and the procedures of your broker/dealer.

- If either your state or broker/dealer do not permit us to issue a Contract without an application, we reserve the right to rescind the Contract if we do not receive and accept a properly completed application or enrollment form within five days of the premium payment. If we do not receive the application or form within five days of the premium payment, we will refund the Contract Value plus any charges we deducted, and the Contract will be voided. Some states require that we return the premium paid; or
- If your state and broker/dealer allow us to issue a Contract without an application, we will issue and mail the Contract to you or your representative, together with a Contract Acknowledgement and Delivery Statement for your execution. Until Customer Service receives the executed Contract Acknowledgement and Delivery Statement, neither you nor the broker/dealer may execute any financial transactions on your Contract unless they are requested in writing by you. We may require additional information before complying with your request (e.g., signature guarantee).

We will ask about any missing information related to subsequent payments. We will allocate the subsequent payment(s) proportionally according to the current variable Subaccount allocation unless you specify otherwise. Any fixed allocation(s) will not be considered in these calculations. If a Subaccount is no longer available (including due to a fund purchase restriction) or requested in error, we will allocate the subsequent payment(s) proportionally among the other Subaccount(s) in your current allocation. For any subsequent premium payments, we will credit the payment designated for a Subaccount of Separate Account B at the Accumulation Unit Value next determined after receipt of your premium payment and instructions.

Once we allocate your premium payment to the Subaccounts selected by you, we convert the premium payment into Accumulation Units. We divide the amount of the premium payment allocated to a particular Subaccount by the value of an Accumulation Unit for the Subaccount to determine the number of Accumulation Units of the Subaccount to be held in Separate Account B with respect to your Contract. The net investment results of each Subaccount vary with its investment performance.

In some states, we may require that an initial premium designated for a Subaccount of Separate Account B or the Fixed Account be allocated to a Subaccount specially designated by the Company (currently, the Voya Government Liquid Assets Subaccount) during the Free Look Period. After the Free Look Period, we will convert your Contract Value (your initial premium plus any earnings less any expenses) into Accumulation Units of the Subaccounts you previously selected. The Accumulation Units will be allocated based on the Accumulation Unit Value next computed for each Subaccount. Initial premiums designated for Fixed Interest Allocations will be allocated to a Fixed Interest Allocation with the Guaranteed Interest Period you have chosen; however, in the future we may allocate the premiums to the specially designated Subaccount during the Free Look Period.

Anti-Money Laundering

In order to protect against the possible misuse of our products in money laundering or terrorist financing, we have adopted an anti-money laundering program satisfying the requirements of the USA PATRIOT Act and other current anti-money laundering laws. Among other things, this program requires us, our agents and customers to comply with certain procedures and standards that serve to assure that our customers' identities are properly verified and that premiums and loan repayments are not derived from improper sources.

Under our anti-money laundering program, we may require customers and/or beneficiaries to provide sufficient evidence of identification, and we reserve the right to verify any information provided to us by accessing information databases maintained internally or by outside firms.

We may also refuse to accept certain forms of premium payments or loan repayments (traveler's cheques, cashier's checks, bank drafts, bank checks and treasurer's checks, for example) or restrict the amount of certain forms of premium payments or loan repayments (money orders totaling more than \$5,000 for example). In addition, we may require information as to why a particular form of payment was used (third party checks, for example) and the source of the funds of such payment in order to determine whether or not we will accept it. Use of an unacceptable form of payment may result in us returning the payment and not issuing the Contract.

Applicable laws designed to prevent terrorist financing and money laundering might, in certain circumstances, require us to block certain transactions until authorization is received from the appropriate regulator. We may also be required to provide additional information about you and your Contract to government regulators.

Our anti-money laundering program is subject to change without notice to take account of changes in applicable laws or regulations and our ongoing assessment of our exposure to illegal activity.

Unclaimed Property

Every state has some form of unclaimed property laws that impose varying legal and practical obligations on insurers and, indirectly, on Contract Owners, insureds, beneficiaries and other payees of proceeds. Unclaimed property laws generally provide for escheatment to the state of unclaimed proceeds under various circumstances.

Contract Owners are urged to keep their own, as well as their beneficiaries' and other payees', information up to date, including full names, postal and electronic media addresses, telephone numbers, dates of birth, and Social Security numbers. Such updates should be communicated to Customer Service in writing or by calling (800) 366-0066.

Cyber Security

Like others in our industry, we are subject to operational and information security risks resulting from "cyber-attacks," "hacking" or similar illegal or unauthorized intrusions into computer systems and networks. These risks include, among other things, the theft, misuse, corruption and destruction of data maintained online or digitally, denial of service attacks on websites and other operational disruption and unauthorized release of confidential customer information. Although we seek to limit our vulnerability to such risks through technological and other means and we rely on industry standard commercial technologies to maintain the security of our information systems, it is not possible to anticipate or prevent all potential forms of cyber-attack or to guarantee our ability to fully defend against all such attacks. In addition, due to the sensitive nature of much of the financial and similar personal information we maintain, we may be at particular risk for targeting.

Cyber-attacks affecting us, any third-party administrator, the underlying funds, intermediaries and other affiliated or third-party service providers may adversely affect us and your Contract Value. For instance, cyber-attacks may interfere with our processing of Contract transactions, including the processing of orders from our website or with the underlying funds, impact our ability to calculate Accumulation Unit Values, cause the release and possible destruction of confidential customer or business information, impede order processing, subject us and/or our service providers and intermediaries to regulatory fines and financial losses and/or cause reputational damage. Cyber security risks may also affect the issuers of securities in which the underlying funds invest, which may cause the funds underlying your Contract to lose value. There can be no assurance that we or the underlying funds or our service providers will avoid losses affecting your Contract that result from cyber-attacks or information security breaches in the future.

Administrative Procedures

We may accept a request for Contract service in writing, by telephone, or other approved electronic means, subject to our administrative procedures, which vary depending on the type of service requested and may include proper completion of certain forms, providing appropriate identifying information, and/or other administrative requirements. We will process your request at the Contract Value next determined only after you have met all administrative requirements. Please be advised that the risk of a fraudulent transaction is increased with telephonic or electronic instructions (for example, a facsimile withdrawal request form), even if appropriate identifying information is provided.

Contract Value

We determine your Contract Value on a daily basis beginning on the Contract Date. Your Contract Value is the sum of (1) the Contract Value in the Fixed Interest Allocations; and (2) the Contract Value in each Subaccount in which you are invested.

Contract Value in Fixed Interest Allocations. The Contract Value in your Fixed Interest Allocation is the sum of premium payments allocated to the Fixed Interest Allocation under the Contract, plus Contract Value transferred to the Fixed Interest Allocation, plus credited interest, minus any transfers and Withdrawals from the Fixed Interest Allocation (including any Market Value Adjustment applied to such withdrawal), Contract fees (including, in some cases, fees for optional benefit riders) and premium taxes.

Contract Value in the Subaccounts. On the Contract Date, the Contract Value in the Subaccount in which you are invested is equal to the initial premium paid and designated to be allocated to the Subaccount. On the Contract Date, we allocate your Contract Value to each Subaccount and/or a Fixed Interest Allocation specified by you, unless the Contract is issued in a state that requires the return of premium payments during the Free Look Period, in which case, the portion of your initial premium not allocated to a Fixed Interest Allocation may be allocated to a Subaccount specially designated by the Company during the Free Look Period for this purpose (currently, the Voya Government Liquid Assets Subaccount).

On each business day after the Contract Date, we calculate the amount of Contract Value in each Subaccount as follows:

- (1) We take the Contract Value in the Subaccount at the end of the preceding business day;
- (2) We multiply (1) by the Subaccount's Net Rate of Return since the preceding business day;
- (3) We add (1) and (2);
- (4) We add to (3) any additional premium payments, and then add or subtract any transfers to or from that Subaccount; and
- (5) We subtract from (4) any Withdrawals and any related charges, and then subtract any Contract fees (including any rider charges) and premium taxes.

Cash Surrender Value

The Cash Surrender Value is the amount you receive when you surrender the Contract. The Cash Surrender Value will fluctuate daily based on the investment results of the Subaccounts in which you are invested and interest credited to Fixed Interest Allocations and any Market Value Adjustment. **See APPENDIX C and the Fixed Account I prospectus for a description of the calculation of Cash Surrender Value under any Fixed Interest Allocation.** We do not guarantee any minimum Cash Surrender Value. On any date during the accumulation phase, we calculate the Cash Surrender Value as follows: (1) we start with your Contract Value; (2) adjust for any Market Value Adjustment; and (3) deduct any surrender charge, any charge for premium taxes, the annual Contract administrative fee (unless waived), any optional benefit rider charge and any other charges incurred but not yet deducted.

Surrendering to Receive the Cash Surrender Value. You may surrender the Contract at any time while the Annuitant is living and before the Annuity Start Date. A surrender is effective on the date we receive your written request and the Contract at Customer Service. After we receive all paperwork required for us to process your surrender, we will determine and pay the Cash Surrender Value at the price next determined. Once paid, all benefits under the Contract will terminate. You may receive the Cash Surrender Value in a single sum payment or apply it under one or more annuity options. We will usually pay the Cash Surrender Value within seven days.

Consult your tax and/or legal adviser regarding the tax consequences associated with surrendering your Contract. A surrender made before you reach age 59½ may result in a 10% tax penalty. See **"FEDERAL TAX CONSIDERATIONS"** for more details.

Addition, Deletion or Substitution of Subaccounts and Other Changes

We may make additional Subaccounts available to you under the Contract. These Subaccounts will invest in funds we find suitable for your Contract. We may also withdraw or substitute funds, subject to the conditions in your Contract and compliance with regulatory requirements.

We do not guarantee that each fund will always be available for investment through the Contract. If we feel that investment in any of the funds has become inappropriate for the purposes of the Contract, we may, with approval of the SEC (and any other regulatory agency, if required) combine two or more accounts or substitute another portfolio for existing and future investments. Whether a fund has become inappropriate for the purposes of the Contract will be determined by us based upon factors that include, but are not limited to, the fund's fees and expenses, performance history, actual or potential impact on our hedging program used to support our Contract guarantees, and the availability through the Contract of similarly styled and/or managed funds. If you elected the dollar cost averaging, systematic Withdrawals or automatic rebalancing programs, or if you have other outstanding instructions and we substitute or otherwise eliminate a portfolio subject to those instructions, we will execute your instructions using the substituted or proposed replacement portfolio, unless you request otherwise. If the most recent allocation instructions we have on file do not include any available Subaccounts, the amount to be allocated will be returned unless you provide us with alternative allocation instructions. The substitute or proposed replacement portfolio may have higher fees and charges than any portfolio it replaces.

Subject to SEC approval, we reserve the right to: (1) deregister Separate Account B under the 1940 Act; (2) operate Separate Account B as a management company under the 1940 Act if it is operating as a unit investment trust; (3) operate Separate Account B as a unit investment trust under the 1940 Act if it is operating as a managed separate account; (4) restrict or eliminate any voting rights as to Separate Account B; (5) combine Separate Account B with other accounts; and (6) transfer separate account assets to another separate account that we determine to be associated with the class of contracts to which the Contract belongs.

We will provide you with written notice before we make any of these changes.

We do not recommend or endorse any particular fund, and we do not provide investment advice.

Fixed Interest Allocation (The Fixed Account or Fixed Interest Division)

The Fixed Interest Allocation option that may be available through your Contract is the Fixed Account. The Fixed Account is a segregated asset account which contains the assets that support a Contract Owner's investment in this option. **See APPENDIX C and your Contract, including any endorsements and riders, for more information. In the event the Fixed Account is not available in your state, then the Fixed Interest Allocation is the Fixed Interest Division. Accordingly, see APPENDIX D, instead, for more information.**

Optional Riders

Subject to state availability, you may elect one of the three optional benefit riders discussed below. **You may add only one of these three riders to your Contract. Each rider has a separate charge.** Once elected, the riders generally may not be cancelled. You may not remove the rider and charges will be assessed regardless of the performance of your Contract. **Please see "CHARGES AND FEES – Optional Rider Charges" for information on rider charges.**

The optional riders may not be available for all investors. You should analyze each rider thoroughly and understand it completely before you select one. The optional riders do not guarantee any return of principal or premium payments and do not guarantee performance of any specific fund under the Contract. You should consult a qualified financial adviser in evaluating the riders.

The optional riders may not be approved in all states. Check with Customer Service for availability in your state. The telephone number is (800) 366-0066.

Rider Date. The Rider Date is the date an optional benefit rider becomes effective. The Rider Date is also the Contract Date if you purchased the rider when the Contract was issued.

No Cancellation. Once you purchase a rider, you may not cancel it unless you cancel the Contract during the Contract's Free Look Period, surrender, annuitize or otherwise terminate the Contract. These events automatically cancel any rider. Once the Contract continues beyond the Free Look Period, you may not cancel the rider. The Company may, at its discretion, cancel and/or replace a rider at your request in order to renew or reset a rider.

TABLE OF CONTENTS

Termination. The optional riders are “living benefits,” which means the guaranteed benefits offered by the riders are intended to be available to you while you are living and while your Contract is in the accumulation phase. The optional riders automatically terminate if you:

- Annuitize, surrender or otherwise terminate your Contract during the accumulation phase; or
- Die during the accumulation phase (first owner to die if there are multiple Contract Owners, or at death of Annuitant if the Contract Owner is not a natural person), unless your spouse beneficiary elects to continue the Contract.

The optional riders will also terminate if there is a change in Contract Ownership (other than a spousal beneficiary continuation on your death). Other circumstances which may cause a particular optional rider to terminate automatically are discussed below with each rider.

Minimum Guaranteed Accumulation Benefit Rider (“MGAB”)

The MGAB rider is an optional benefit which provides you with an MGAB intended to guarantee a minimum Contract Value at the end of a specified waiting period. Only premiums added to your Contract during the first two-year period after your Rider Date are included in the MGAB Base. Any additional premium payments added after the second rider anniversary are not included in the MGAB Base. Thus, the MGAB rider may not be appropriate for you if you plan to add substantial premium payments after your second rider anniversary.

The MGAB is a one-time adjustment to your Contract Value if your Contract Value on the MGAB Date is less than the MGAB Base. The MGAB Date is the next business day after the applicable waiting period. We calculate your Minimum Guaranteed Accumulation Benefit on this date. The MGAB rider may offer you protection if your Contract loses value during the MGAB waiting period. **For a discussion of the charges we deduct under the MGAB rider, see “CHARGES AND FEES – Optional Rider Charges.”**

The MGAB rider offers a ten-year option and a 20-year option, of which you may purchase only one. The 10-year option has a waiting period of ten years and, other than for allocations to Excluded Funds and certain transfers, guarantees that your Contract Value at the end of ten years will at least equal your initial premium payment, reduced proportionally for Withdrawals. Transfers made within three years prior to the MGAB Date will also reduce the MGAB Base proportionally. The 20-year option has a waiting period of 20 years and, other than allocations to Special Funds or Excluded Funds, guarantees that your Contract Value at the end of 20 years will at least equal two times your initial premium payment, reduced proportionally for Withdrawals and reduced for transfers made within three years prior to the MGAB Date. If you add the 20-year option rider after the Contract Date, any payment of premiums after the Rider Date, and/or investments in the Special Funds or Excluded Funds, may prevent the MGAB Base from doubling over the waiting period.

Calculating the MGAB. We calculate your MGAB as follows:

- **We first determine your MGAB Base.** The MGAB Base is only a calculation used to determine the MGAB. It does not represent a Contract Value, nor does it guarantee performance of the Subaccounts in which you are invested. It is also not used in determining the amount of your annuity income, Cash Surrender Value and death benefits.

The MGAB Base is tracked separately for Covered, Special and Excluded Funds, based on the initial allocation of premium (or Contract Value), subsequently allocated eligible premiums, Withdrawals and transfers. Contract Value is used as the initial value if the rider is added after the Contract Date. The aggregate MGAB Base is used to determine the MGAB on the MGAB Date. The aggregate MGAB Base equals the sum of:

- The MGAB Base allocated to Covered Funds;
- The MGAB Base allocated to Special Funds; and
- The **lesser of** the Contract Value allocated to Excluded Funds or MGAB Base allocated to Excluded Funds.

No investment options are currently designated as Special Funds for the 10-year MGAB. The following investment options are designated as Special Funds for the 20-year MGAB:

- The Voya Government Liquid Assets Portfolio;
- The Voya Intermediate Bond Portfolio; and
- The Fixed Interest Allocation.

For Contracts issued prior to May 1, 2003, the Voya Intermediate Bond Portfolio is not designated as a Special Fund. As of July 11, 2014, the Voya Intermediate Bond Portfolio has been re-designated as a Covered Fund for all current and future investments.

The ProFunds VP Rising Rates Opportunities Portfolio is also a Special Fund, but was closed to new allocations effective April 30, 2007. For Contracts issued prior to September 2, 2003, the ProFunds VP Rising Rates Opportunity Portfolio is not designated as a Special Fund.

No investment options are currently designated as Excluded Funds.

TABLE OF CONTENTS

The MGAB Base for both the Covered Funds and the Excluded Funds equals the allocated eligible premiums, adjusted for subsequent Withdrawals and transfers, accumulated until the MGAB Date at 0% for the 10-year MGAB and 3.53% for the 20-year MGAB.

The MGAB Base for Special Funds equals the allocated eligible premiums, adjusted for subsequent Withdrawals and transfers. There is no accumulation of MGAB Base for Special Funds for either the 10-year or 20-year MGAB.

If you purchased the MGAB optional benefit rider after the Contract Date, your MGAB Base equals your allocated Contract Value, plus premiums added during the two-year period after your Rider Date, accumulated at the appropriate MGAB rate described above, and adjusted for Withdrawals and transfers.

We use the MGAB Charge Base to determine the periodic MGAB rider charges. The MGAB Charge Base equals the eligible premiums, adjusted for subsequent Withdrawals and transfers, as allocated by fund category. The MGAB Charge Base is tracked separately for Covered, Special and Excluded Funds, and separate rates may apply to each. Currently, the same deduction method and rate apply to all categories.

Withdrawals reduce the MGAB Base and MGAB Charge Base proportionally. The percentage reduction in the MGAB Base and MGAB Charge Base for each Fund category (i.e. Covered, Special or Excluded) equals the percentage reduction in Contract Value in that Fund category resulting from the withdrawal.

Net Transfers from Covered Funds or Special Funds to Excluded Funds reduce the MGAB Base and MGAB Charge Base allocated to Covered Funds or Special Funds proportionally. Any resulting increase in MGAB Base and MGAB Charge Base allocated to Excluded Funds will equal the reduction in the MGAB Base and MGAB Charge Base allocated to Covered Funds or Special Funds. There will be no such increase if the transfer occurs within three years of the MGAB Date.

Net Transfers from Excluded Funds to other funds reduce the MGAB Base and MGAB Charge Base allocated to Excluded Funds proportionally. The resulting increase in MGAB Base and MGAB Charge Base allocated to other funds will equal the **lesser of** the Contract Value transferred and the change in the MGAB Base and MGAB Charge Base allocated to Excluded Funds. There will be no such increase if the transfer occurs within 3 years of the MGAB Date.

Any transfer within three years of the MGAB Date (regardless of the funds involved) reduces the MGAB Base and MGAB Charge Base for Covered, Special or Excluded Funds, as applicable, proportionally, based on the percentage of Contract Value transferred, without any corresponding increase.

- **We then subtract your Contract Value on the MGAB Date from your aggregate MGAB Base.** The Contract Value that we subtract includes both the Contract Value in the Subaccounts in which you are invested and the Contract Value in your Fixed Interest Allocations, if any.
- **Any positive difference is your MGAB.** If there is a MGAB, we will automatically credit it on the MGAB Date to the Subaccounts in which you are invested proportionally based on the proportion of your Contract Value in the Subaccounts on that date. If you do not have an investment in any Subaccount on the MGAB Date, we will allocate the MGAB to the Voya Government Liquid Assets Subaccount on your behalf. After we credit the MGAB, the amount of your annuity income, Cash Surrender Value and death benefits will reflect the crediting of the MGAB to your Contract Value to the extent the Contract Value is used to determine such value.

Purchase. To purchase the MGAB rider, you must be age 80 or younger on the Rider Date if you choose the 10-year option and age 65 or younger on the Rider Date if you choose the 20-year option. The waiting period must end at or before your Annuity Start Date. The MGAB rider may be purchased: (1) on the Contract Date; and (2) within 30 days following the Contract Date. For Contracts issued more than 30 days before the date this rider first became available in your state, the Company may in its discretion allow purchase of this rider during the 30-day period preceding the first Contract anniversary after the date of this prospectus, or the date of state approval, whichever is later.

The MGAB Date. If you purchased the MGAB rider on the Contract Date or added the MGAB rider within 30 days following the Contract Date, the MGAB Date is your tenth Contract anniversary for the 10-year option or twentieth Contract anniversary for the 20-year option. If you added the MGAB rider during the 30-day period preceding your first Contract anniversary after the date of this prospectus, your MGAB Date will be the first Contract anniversary occurring after ten years (for the 10-year option) or 20 years (for the 20-year option) after the Rider Date. The MGAB rider is not available if the MGAB Date would fall beyond the latest Annuity Start Date.

TABLE OF CONTENTS

Cancellation. If you elected the 20-year option, you have a one-time right to cancel the MGAB rider on your first Contract anniversary that is at least ten years after the Rider Date. If you purchased the MGAB rider during the 30-day period following the Contract Date, your one-time right to cancel the rider occurs on the tenth anniversary of your Contract Date. To cancel, you need to send written notice to Customer Service at least 30 days before such anniversary date. If you terminate the MGAB rider before the MGAB Date, we will not credit you with the MGAB and we will assess proportionally the portion of the MGAB rider charge for the current quarter.

Notification. We will report any crediting of the MGAB in your first quarterly statement following the MGAB Date.

Minimum Guaranteed Income Benefit Rider (“MGIB”)

The MGIB rider is an optional benefit which guarantees a minimum amount of annuity income will be available to you if you annuitize on the MGIB Date, regardless of fluctuating market conditions. The amount of the Minimum Guaranteed Income Benefit will depend on the amount of premiums you pay during the five Contract Years after you purchase the rider, the amount of Contract Value you allocate or transfer to Special Funds or Excluded Funds, the MGIB Rate, the adjustment for Special Fund or Excluded Fund transfers, and any Withdrawals you take while the rider is in effect. Thus, investing in Special Funds or Excluded Funds may limit the MGIB.

The following investment options are designated as Special Funds for purposes of calculating the MGIB:

- The Voya Government Liquid Assets Portfolio;
- The Voya Intermediate Bond Portfolio; and
- The Fixed Interest Allocation.

For Contracts issued prior to May 1, 2003, the Voya Intermediate Bond Portfolio is not designated as a Special Fund. As of July 11, 2014, the Voya Intermediate Bond Portfolio has been re-designated as a Covered Fund for all current and future investments.

The ProFunds VP Rising Rates Opportunities Portfolio is also a Special Fund, but was closed to new allocations effective April 30, 2007. For Contracts issued prior to September 2, 2003, the ProFunds VP Rising Rates Opportunity Portfolio is not designated as a Special Fund.

No investment options are currently designated as Excluded Funds.

The MGIB Rate is currently 7%. We may, at our discretion, discontinue offering this rate. The MGIB Rate is an annual effective rate.

For a discussion of the charges we deduct under the MGIB rider, see “CHARGES AND FEES – *Optional Rider Charges*.”

Ordinarily, the amount of income that will be available to you on the Annuity Start Date is based on your Contract Value, the annuity option you selected and the guaranteed or the income factors in effect on the date you annuitize. If you purchase the MGIB rider, the amount of income that will be available to you upon annuitization on the MGIB Date is the greatest of:

- Your annuity income based on your Contract Value adjusted for any Market Value Adjustment (see **APPENDIX C**) on the MGIB Date applied to the guaranteed income factors specified in your Contract for the annuity option you selected;
- Your annuity income based on your Contract Value adjusted for any Market Value Adjustment (see **APPENDIX C**) on the MGIB Date applied to the then-current income factors in effect for the annuity option you selected; and
- The MGIB annuity income based on your MGIB Base on the MGIB Date applied to the MGIB income factors specified in your rider for the MGIB annuity option you selected. Prior to applying the MGIB income factors, we will adjust the MGIB Base for any surrender charge, premium tax recovery and Market Value Adjustment (see **APPENDIX C**) that would otherwise apply at annuitization.

The guaranteed factors contained in the MGIB rider generally provide lower payout per \$1,000 of value applied than the guaranteed factors found in your Contract.

The MGIB Benefit Base is only a calculation used to determine the MGIB annuity income. The MGIB Benefit Base does not represent a Contract Value, nor does it guarantee performance of the Subaccounts in which you are invested. It is also not used in determining the amount of your Cash Surrender Value and death benefits. Any reset of Contract Value under provisions of the Contract or other riders will not increase the MGIB Benefit Base or Maximum MGIB Base.

The MGIB Benefit Base is tracked separately for Covered, Special and Excluded Funds, based on initial allocation of eligible premium (or Contract Value), and subsequently allocated eligible premiums, Withdrawals and transfers. Contract Value is used as the initial value if the rider is added after the Contract Date.

Prior to your latest Annuity Start Date, you may choose to exercise your right to receive payments under the MGIB rider. Payments under the rider begin on the MGIB Date. The MGIB must be exercised in the 30-day period prior to any Contract anniversary. At your request, the Company may in its discretion extend the latest Annuity Start Date without extending the MGIB Date.

TABLE OF CONTENTS

Determining the MGIB Charge Base. The MGIB Charge Base is the greater of the MGIB Rollup Base and the MGIB Ratchet Base.

- (1) The MGIB Rollup Base is equal to the lesser of the Maximum MGIB Base and the sum of (a), (b) and (c) where:
 - (a) is the MGIB Rollup Base for Covered Funds;
 - (b) is the MGIB Rollup Base for Special Funds; and
 - (c) is the MGIB Rollup Base for Excluded Funds; and
- (2) The MGIB Ratchet Base is equal to the sum of (a) and (b) where:
 - (a) is the MGIB Ratchet Base for Covered and Special Funds; and
 - (b) is the MGIB Ratchet Base for Excluded Funds.

Determining the MGIB Annuity Income. On the MGIB Date, we calculate your MGIB annuity income as follows:

- **We first determine your MGIB Benefit Base:** The MGIB Benefit Base is equal to the greater of the MGIB Rollup Benefit Base and the MGIB Ratchet Benefit Base.

Calculation of MGIB Rollup Benefit Base:

The MGIB Rollup Base equals the lesser of the Maximum MGIB Base and the sum of 1), 2) and 3) where:

- (1) Is the MGIB Rollup Base for Covered Funds;
- (2) Is the MGIB Rollup Base for Special Funds; and
- (3) Is the Contract Value allocated to Excluded Funds.

The Maximum MGIB Base applicable to the MGIB Rollup Base is 300% of eligible premiums adjusted proportionally for Withdrawals. This means that the Maximum MGIB Base is reduced for Withdrawals by the same proportion that the withdrawal reduces the Contract Value. The Maximum MGIB Base is not allocated by Fund category.

The MGIB Rollup Base allocated to Covered Funds equals the eligible premiums allocated to Covered Funds, adjusted for subsequent Withdrawals and transfers taken or made while the MGIB rider is in effect, accumulated at the MGIB Rollup Rate to the earlier of the oldest owner reaching age 80 and the MGIB Rollup Benefit Base reaching the Maximum MGIB Base, and at 0% thereafter.

The MGIB Rollup Base allocated to Special Funds equals the eligible premiums allocated to Special Funds, adjusted for subsequent Withdrawals and transfers taken or made while the MGIB rider is in effect. The MGIB Rate does not apply to the MGIB Rollup Base allocated to Special Funds, so the MGIB Rollup Base Allocated to Special Funds does not accumulate.

The MGIB Rollup Base allocated to Excluded Funds equals the eligible premiums allocated to Excluded Funds, adjusted for subsequent Withdrawals and transfers taken or made while the MGIB rider is in effect, accumulated at the MGIB Rate to the earlier of the oldest owner reaching age 80 and the MGIB Rollup Benefit Base reaching the Maximum MGIB Base, and at 0% thereafter. **The MGIB Rollup Base allocated to Excluded Funds is used only for transfer adjustments and rider charges. It is not included in the MGIB Rollup Base used to determine benefits.**

Eligible premiums are those added more than five years before the earliest MGIB Benefit Date. Premiums paid after that are excluded from the MGIB Rollup Base.

The MGIB Rollup Rate is currently 7%. We may, at our discretion, discontinue offering this rate. The MGIB Rollup Rate is an annual effective rate.

Withdrawals reduce the MGIB Rollup Base proportionally. The percentage reduction in the MGIB Rollup Base for each Fund category (i.e. Covered, Special or Excluded) equals the percentage reduction in Contract Value in that Fund category resulting from the withdrawal. For example, the value of the MGIB Rollup Base in Covered Funds after a withdrawal from one or more Covered Funds equals the value of the MGIB Rollup Base in Covered Funds before the withdrawal times the Contract Value in Covered Funds after the withdrawal divided by the Contract Value in Covered Funds before the withdrawal.

Net transfers from Covered Funds will reduce the MGIB Rollup Base allocated to Covered Funds proportionally. The resulting increase in the MGIB Rollup Base allocated to Special or Excluded Funds, as applicable, will equal the reduction in the MGIB Rollup Base allocated to Covered Funds.

TABLE OF CONTENTS

Net transfers from Special Funds will reduce the MGIB Rollup Base allocated to Special Funds proportionally. The resulting increase in the MGIB Rollup Base allocated to Covered or Excluded Funds, as applicable, will equal the reduction in the MGIB Rollup Base allocated to Special Funds.

Net transfers from Excluded Funds will reduce the MGIB Rollup Base allocated to Excluded Funds proportionally. The resulting increase in the MGIB Rollup Base allocated to Covered or Special Funds, as applicable, will equal the lesser of the net Contract Value transferred and the change in the MGIB Rollup Base allocated to Excluded Funds.

Calculation of MGIB Ratchet Benefit Base:

The MGIB Ratchet Benefit Base equals the sum of 1) and 2) where:

- (1) Is the MGIB Ratchet Base for Covered Funds and Special Funds; and
- (2) Is the Contract Value for Excluded Funds.

The MGIB Ratchet Base for Covered Funds, Special Funds and Excluded Funds equals:

- (1) On the Rider Date, eligible premiums, or the Contract Value, if applicable, allocated to Covered Funds, Special Funds and Excluded Funds;
- (2) On each “quarterly anniversary date” prior to attainment of age 90, the MGIB Ratchet Base for Covered Funds, Special Funds and Excluded Funds is set equal to the greater of:
 - (a) the current Contract Value allocated to Covered Funds, Special Funds and Excluded Funds (after any deductions occurring on that date); and
 - (b) the MGIB Ratchet Base for Covered Funds, Special Funds and Excluded Funds from the most recent prior quarterly anniversary date, adjusted for any new eligible premiums and Withdrawals attributable to Covered Funds, Special Funds or Excluded Funds, and transfers.
- (3) At other times, the MGIB Ratchet Base for Covered Funds, Special Funds or Excluded Funds is the MGIB Ratchet Base from the prior quarterly anniversary date, adjusted for subsequent eligible premiums and Withdrawals attributable to Covered Funds, Special Funds or Excluded Funds, and transfers.

The MGIB Ratchet Base allocated to Excluded Funds is used only for transfer adjustments and rider charges. It is not included in the MGIB Ratchet Benefit Base used to determine benefits.

Effect of Transfers on MGIB Ratchet Base. Net transfers from Covered or Special Funds to Excluded Funds will reduce the MGIB Ratchet Base allocated to Covered and Special Funds proportionally. The resulting increase in the MGIB Ratchet Base allocated to Excluded Funds will equal the reduction in the MGIB Ratchet Base allocated to Covered and Special Funds.

Net transfers from Excluded Funds to Covered or Special Funds will reduce the MGIB Ratchet Base allocated to Excluded Funds proportionally. The resulting increase in the MGIB Ratchet Base allocated to Covered and Special Funds will equal the lesser of the net Contract Value transferred and the change in the MGIB Ratchet Base allocated to Excluded Funds.

A “quarterly anniversary date” is the date three months from the Contract Date that falls on the same date in the month as the Contract Date. For example, if the Contract Date is February 12, the quarterly anniversary date is May 12. If there is no corresponding date in the month, the quarterly anniversary date will be the last date of such month. If the quarterly anniversary date falls on a weekend or holiday, we will use the value as of the subsequent business day.

- **Then we determine the MGIB annuity income by multiplying your MGIB Benefit Base (adjusted for any Market Value Adjustment, surrender charge and premium taxes) by the income factor, and then divide by \$1,000.**

MGIB Income Options. The following are the MGIB Income Options available under the MGIB Rider:

- Income for Life (Single Life or Joint with 100% Survivor) and 10-20 year certain;
- Income for a 20-30 year period certain; and
- Any other income plan offered by the Company in conjunction with the MGIB rider on the MGIB Benefit Date.

You may elect to have payments under the Income for Life and Income for a 20-30 year period certain MGIB Income Options increase annually at 1%, 2% or 3%.

[TABLE OF CONTENTS](#)

Once during the life of the Contract, you have the option to elect to apply up to 50% of the MGIB Benefit Base to one of the MGIB Income Options available under the Rider. This option may only be exercised in the 30 day period prior to a Contract anniversary. The portion of the MGIB Benefit Base so applied will be used to determine the MGIB income, as is otherwise described in the prospectus. The Contract Value will be reduced on a proportional basis. Any subsequent exercise of your right to receive payments under the MGIB rider must be for 100% of the remaining value. The exercise of this partial annuitization of the MGIB Benefit Base does not affect your right to annuitize under the Contract without regard to the rider. The amount applied to the partial annuitization will be treated as a withdrawal for purposes of adjusting Contract and rider values.

Purchase. The MGIB rider is no longer available for purchase, including purchase by owners of existing Contracts.

The MGIB Date. Your MGIB Date is the next Contract anniversary occurring after the Rider Date when you decide to exercise your right to annuitize under the MGIB rider, or any other special exercise date that we may make available upon prior written notice.

No Change of Annuitant. Once you purchase the MGIB rider, the Annuitant may not be changed except for the following exception. If an Annuitant who is not a Contract Owner dies prior to annuitization, a new Annuitant may be named in accordance with the provisions of your Contract. The MGIB Base is unaffected and continues to accumulate.

Notification. On or about 30 days prior to the MGIB Date, we will provide you with notification which will include an estimate of the amount of MGIB annuity benefit available if you choose to exercise it. We will determine the actual amount of the MGIB annuity benefit as of the MGIB Date.

The MGIB rider does not restrict or limit your right to annuitize the Contract at any time permitted under the Contract. The MGIB rider does not restrict your right to annuitize the Contract using Contract Values that may be higher than the MGIB annuity benefit.

The benefits associated with the MGIB rider are available only if you annuitize your Contract under the rider and in accordance with the provisions set forth above. Annuitizing using the MGIB may result in a more favorable stream of income payments, and different tax consequences, under your Contract. Because the MGIB rider is based on conservative actuarial factors, the level of lifetime income that it guarantees may be less than the level that might be provided by the application of your Contract Value to the Contract's applicable annuity factors. You should consider all of your options at the time you begin the income phase of your Contract.

Minimum Guaranteed Withdrawal Benefit Rider ("MGWB")

The MGWB rider, marketed under the name, PrincipalGuard Withdrawal Benefit, is an optional benefit which guarantees that if your Contract Value is reduced to zero, you will receive periodic payments equal to all premium payments paid during the first two Contract Years ("Eligible Payment Amount") adjusted for any prior Withdrawals. To maintain this guarantee, Withdrawals in any Contract Year may not exceed 7% of your adjusted Eligible Payment Amount. If your Contract Value is reduced to zero, your periodic payments will be 7% of your Eligible Payment Amount every year. Payments continue until your MGWB Withdrawal Account is reduced to zero. **For a discussion of the charges we deduct under the MGWB rider, see "CHARGES AND FEES – Optional Rider Charges."** Each payment you receive under the MGWB rider will be taxed as a withdrawal and may be subject to a penalty tax. See **"WITHDRAWALS" and "FEDERAL TAX CONSIDERATIONS" for more information.** Your original Eligible Payment Amount depends on when you purchase the MGWB rider and equals:

- Your premium payments received during the first two Contract Years, if you purchased the MGWB rider on the Contract Date; otherwise
- Your Contract Value on the Rider Date, including any premiums received that day, and any subsequent premium payments received during the two-year period commencing on the Rider Date.

The MGWB Withdrawal Account. The MGWB Withdrawal Account is only a calculation which represents the remaining amount available for periodic payments under the MGWB rider. It does not represent a Contract Value, nor does it guarantee performance of the Subaccounts in which you are invested. It will not affect your annuitization, surrender and death benefits.

The MGWB Withdrawal Account is equal to the Eligible Payment Amount, tracked separately for Covered and Excluded Funds, adjusted for any Withdrawals and transfers between Covered and Excluded Funds. **The MGWB Withdrawal Account equals the sum of: (1) the MGWB Withdrawal Account allocated to Covered Funds, and (2) the lesser of (a) the MGWB Withdrawal Account allocated to Excluded Funds and (b) the Contract Value in Excluded Funds. Thus, investing in the Excluded Funds may limit the MGWB Withdrawal Account.**

No investment options are currently designated as Excluded Funds for the Minimum Guaranteed Withdrawal Benefit.

TABLE OF CONTENTS

Withdrawals of up to 7% per year of the Eligible Payment Amount will reduce the value of your MGWB Withdrawal Account by the dollar amount of the withdrawal for Covered Funds and proportionally for Excluded Funds, based on the source of the withdrawal. Any Withdrawals greater than the 7% per year of the Eligible Payment Amount will cause a reduction in the MGWB Withdrawal Account of the Covered and Excluded Funds, by the proportion that the withdrawal bears to the Contract Value in Covered and Excluded Funds, respectively, at the time of the withdrawal. If a single withdrawal involves both Covered and Excluded Funds and exceeds 7%, the withdrawal will be treated as taken first from Covered Funds. Any Withdrawals greater than 7% per year of the Eligible Payment Amount will also cause a reduction in the Eligible Payment Amount by the proportion that the withdrawal bears to the Contract Value at the time of the withdrawal. Once your Contract Value is zero, any periodic payments paid under the MGWB rider also reduce the MGWB Withdrawal Account. If a withdrawal reduces the MGWB Withdrawal Account to zero, the MGWB rider terminates and no further benefits are payable under the rider.

Net transfers from Covered Funds to Excluded Funds will reduce the MGWB Withdrawal Account allocated to Covered Funds on a proportional basis. The resulting increase in the MGWB Withdrawal Account allocated to Excluded Funds equals the reduction in the MGWB Withdrawal Account for Covered Funds.

Net transfers from Excluded Funds to Covered Funds will reduce the MGWB Withdrawal Account allocated to Excluded Funds on a proportional basis. The resulting increase in the MGWB Withdrawal Account allocated to Covered Funds will equal the lesser of the reduction in the MGWB Withdrawal Account for Excluded Funds or the net Contract Value transferred.

Guaranteed Withdrawal Status. You may continue to make Withdrawals in any amount permitted under your Contract so long as your Contract Value is greater than zero. See “WITHDRAWALS.” However, making any Withdrawals in any year greater than 7% per year of the Eligible Payment Amount will reduce the Eligible Payment Amount for future Withdrawals and payments under the MGWB rider by the proportion that the withdrawal bears to the Contract Value at the time of the withdrawal. The MGWB rider will remain in force and you may continue to make Withdrawals each year so long as:

- Your Contract Value is greater than zero;
- Your MGWB Withdrawal Account is greater than zero;
- You have not reached your latest allowable Annuity Start Date;
- You have not elected to annuitize your Contract; and
- You have not died (unless your spouse has elected to continue the Contract), changed the ownership of the Contract or surrendered the Contract.

The standard Contract provision limiting Withdrawals to no more than 90% of the Cash Surrender Value is not applicable under the MGWB rider.

Automatic Periodic Benefit Status. Under the MGWB rider, in the event your Contract Value is reduced to zero, your Contract is given Automatic Periodic Benefit Status, if:

- Your MGWB Withdrawal Account is greater than zero;
- You have not reached your latest allowable Annuity Start Date;
- You have not elected to annuitize your Contract; and
- You have not died, changed the ownership of the Contract or surrendered the Contract.

Once your Contract is given Automatic Periodic Benefit Status, we will pay you the annual MGWB periodic payments, beginning on the next Contract anniversary. These payments are equal to the lesser of the remaining MGWB Withdrawal Account or 7% annually of your Eligible Payment Amount, until the earliest of: (1) your Contract’s latest Annuity Start Date; (2) the death of the owner; or (3) your MGWB Withdrawal Account is exhausted. We will reduce the MGWB Withdrawal Account by the amount of each payment. Once your Contract is given Automatic Periodic Benefit Status, we will not accept any additional premium payments in your Contract and the Contract will not provide any benefits except those provided by the MGWB rider. Any other rider terminates. Your Contract will remain in Automatic Periodic Benefit Status until the earliest of: (1) payment of all MGWB periodic payments; (2) payment of the Commuted Value (defined below); or (3) the owner’s death.

On the Contract’s latest Annuity Start Date, in lieu of making the remaining MGWB periodic payments, we will pay you the Commuted Value of your MGWB periodic payments remaining. We may, at our option, extend your Annuity Start Date in order to continue the MGWB periodic payments. The Commuted Value is the present value of any then-remaining MGWB periodic payments at the current interest rate plus 0.50%. The current interest rate will be determined by the average of the Ask Yields for U.S. Treasury STRIPS as quoted by a national quoting service for period(s) applicable to the remaining payments. Once we pay you the last MGWB periodic payment or the Commuted Value, your Contract and the MGWB rider terminate.

Death Benefit During Automatic Periodic Benefit Status. The death benefit payable during Automatic Periodic Benefit Status is your MGWB Withdrawal Account which equals the sum of the remaining MGWB periodic payments.

[TABLE OF CONTENTS](#)

Purchase. To purchase the MGWB rider, you must be age 80 or younger on the Rider Date. The MGWB rider must be purchased on the Contract Date. If the rider is not yet available in your state, the Company may in its discretion allow purchase of this rider during the 30-day period preceding the first Contract anniversary after the date of this prospectus, or the date of state approval, whichever is later.

For a discussion of the charges we deduct under the MGWB rider, see “CHARGES AND FEES – *Optional Rider Charges*.” Each payment you receive under the MGWB rider will be taxed as a withdrawal and may be subject to a penalty tax. See **“WITHDRAWALS” and “FEDERAL TAX CONSIDERATIONS” for more information.**

WITHDRAWALS

Except under certain qualified Contracts, you may withdraw all or part of your money any time during the accumulation phase and before the death of the Contract Owner. If you request a withdrawal for more than 90% of the Cash Surrender Value, and the remaining Cash Surrender Value after the withdrawal is less than \$2,500, we will treat it as a request to surrender the Contract. If any single withdrawal or the sum of Withdrawals exceeds the Free Withdrawal Amount, you will incur a surrender charge. The Free Withdrawal Amount in any Contract Year is 15% of your Contract Value on the date of the withdrawal less any Withdrawals during that Contract Year.

You need to submit to us a request specifying the Fixed Interest Allocations or Subaccounts from which to withdraw amounts, otherwise we will make the withdrawal on a proportional basis from all of the Subaccounts in which you are invested. If there is not enough Contract Value in the Subaccounts, we will deduct the balance of the withdrawal from your Fixed Interest Allocations starting with the Guaranteed Interest Periods nearest their maturity dates until we have honored your request. We will apply a Market Value Adjustment to any withdrawal from your Fixed Interest Allocation taken more than 30 days before its maturity date. Definitive guidance on the proper federal tax treatment of the Market Value Adjustment has not been issued. You may want to discuss the potential tax consequences of a Market Value Adjustment with your tax and/or legal adviser. We will determine the Contract Value as of the close of business on the day we receive your withdrawal request at Customer Service. The Contract Value may be more or less than the premium payments made.

If the aggregate percentage cap on allocations to the Restricted Funds has been exceeded, any subsequent Withdrawals must be taken so that the percentage of Contract Value in the Restricted Funds following the withdrawal would not be greater than the percentage of Contract Value in the Restricted Funds prior to the withdrawal. If a requested withdrawal would cause the percentage cap to be exceeded, the amount of the withdrawal in excess of the cap would be taken proportionally from all variable Subaccounts.

Please be aware that the benefit we pay under certain optional benefit riders will be reduced by any Withdrawals you take while the optional benefit rider is in effect. Withdrawals may be subject to taxation and tax penalties.

We offer the following three withdrawal options:

Regular Withdrawals

After the Free Look Period, you may make Regular Withdrawals. Each withdrawal must be a minimum of \$100. We will apply a Market Value Adjustment to any regular withdrawal you take from a Fixed Interest Allocation more than 30 days before its maturity date. See **APPENDIX C and the Fixed Account I prospectus for more information on the application of Market Value Adjustment.**

Systematic Withdrawals

You may choose to receive automatic systematic withdrawal payments: (1) from the Contract Value in the Subaccounts in which you are invested; or (2) from the interest earned in your Fixed Interest Allocations. You may not elect the systematic withdrawal option if you are taking IRA Withdrawals. Systematic Withdrawals may be taken monthly, quarterly or annually. If you have Contract Value allocated to one or more Restricted Funds, and you elect to receive systematic Withdrawals from the Subaccounts in which you are invested, the systematic Withdrawals must be taken proportionally from all Subaccounts in which Contract Value is invested. If you do not have Contract Value allocated to a Restricted Fund and choose systematic Withdrawals on a non-proportional basis, we will monitor the Withdrawals annually. If you subsequently allocate Contract Value to one or more Restricted Funds, we will require you to take your systematic Withdrawals on a proportional basis from all Subaccounts in which Contract Value is invested.

You decide the date on which you would like your systematic Withdrawals to start. This date must be at least 30 days after the Contract Date and no later than the 28th day of the month. Subject to these rules, if you have not indicated the date, your systematic Withdrawals will occur on the next business day after your Contract Date (or the monthly or quarterly anniversary thereof) for your desired frequency.

[TABLE OF CONTENTS](#)

Each systematic withdrawal amount must be a minimum of \$100. The amount of your systematic withdrawal can either be: (1) a fixed dollar amount; or (2) an amount based on a percentage of your Contract Value. Both forms of systematic Withdrawals are subject to the following maximum, which is calculated on each withdrawal date:

Frequency	Maximum Percentage of Contract Value
Monthly	1.25%
Quarterly	3.75%
Annually	15.00%

Your fixed dollar systematic Withdrawals will never exceed the maximum percentage. If you want fixed dollar systematic Withdrawals to exceed the maximum percentage and are willing to incur associated surrender charges, consider the Fixed Dollar Systematic Withdrawal Feature discussed below which you may add to your regular fixed dollar systematic withdrawal program.

If your systematic withdrawal is based on a percentage of your Contract Value and the amount to be withdrawn based on that percentage would be less than \$100, we will contact you and seek alternative instructions. Unless you provide alternative instructions, if the systematic withdrawal would exceed the maximum percentage, we will send the amount, and then automatically cancel your systematic withdrawal option.

We limit systematic Withdrawals from Fixed Interest Allocations to interest earnings during the prior month, quarter, or year, depending on the frequency you chose. Systematic Withdrawals are not subject to a Market Value Adjustment, unless you have added the Fixed Dollar Systematic Withdrawal Feature discussed below and the payments exceed interest earnings. Systematic Withdrawals from Fixed Interest Allocations under the Fixed Dollar Systematic Withdrawal Feature are available only in connection with Section 72(q) and 72(t) distributions. A Fixed Interest Allocation may not participate in both the systematic withdrawal option and the dollar cost averaging program at the same time.

You may change the amount or percentage of your systematic withdrawal once each Contract Year or cancel this option at any time by sending satisfactory notice to Customer Service at least seven days before the next scheduled withdrawal date. If you submit a subsequent premium payment after you have applied for systematic Withdrawals, we will not adjust future Withdrawals under the systematic withdrawal program unless you specifically request that we do so. The systematic withdrawal option may commence in a Contract Year where a regular withdrawal has been taken but you may not change the amount or percentage of your Withdrawals in any Contract Year during which you have previously taken a regular withdrawal.

Subject to availability, a spousal or non-spousal beneficiary may elect to receive death benefits as payments over the beneficiary's lifetime ("stretch"). Stretch payments will be subject to the same limitations as systematic Withdrawals, and nonqualified stretch payments will be reported on the same basis as other systematic Withdrawals.

Fixed Dollar Systematic Withdrawal Feature

You may add the Fixed Dollar Systematic Withdrawal Feature to your regular fixed dollar systematic withdrawal program. This feature allows you to receive a systematic withdrawal in a fixed dollar amount regardless of any surrender charges or Market Value Adjustments. Systematic Withdrawals from Fixed Interest Allocations under the Fixed Dollar Systematic Withdrawal Feature are available only in connection with Section 72(q) and 72(t) of the Tax Code. You choose the amount of the fixed systematic Withdrawals, which may total up to a maximum of 15% of your Contract Value as determined on the day we receive your election of this feature. We will not recalculate the maximum limit when you make additional premium payments, unless you instruct us to do so. We will assess a surrender charge on the withdrawal date if the withdrawal exceeds the maximum limit as calculated on the withdrawal date. We will assess a Market Value Adjustment on the withdrawal date if the withdrawal from a Fixed Interest Allocation exceeds your interest earnings on the withdrawal date. We will apply the surrender charge and any Market Value Adjustment directly to your Contract Value (rather than to the withdrawal) so that the amount of each systematic withdrawal remains fixed.

Fixed dollar systematic Withdrawals which are intended to satisfy the requirements of Section 72(q) or 72(t) of the Tax Code may exceed the maximum. Such Withdrawals are subject to surrender charges and Market Value Adjustments when they exceed the applicable maximum percentage.

IRA Withdrawals

If you have a non-Roth IRA Contract and will be at least age 70½ during the current calendar year, you may elect to have distributions made to you to satisfy requirements imposed by federal tax law. IRA Withdrawals provide payout of amounts required to be distributed by the Internal Revenue Service (“IRS”) rules governing mandatory distributions under qualified plans. We will send you a notice before your distributions commence. You may elect to take IRA Withdrawals at that time, or at a later date. You may not elect IRA Withdrawals and participate in systematic Withdrawals at the same time. If you do not elect to take IRA Withdrawals, and distributions are required by federal tax law, distributions adequate to satisfy the requirements imposed by federal tax law may be made. Thus, if you are participating in systematic Withdrawals, distributions under that option must be adequate to satisfy the mandatory distribution rules imposed by federal tax law.

You choose the frequency of your IRA Withdrawals (monthly, quarterly or annually) and the start date. This date must be at least 30 days after the Contract Date and no later than the 28th day of the month. Subject to these rules, if you have not indicated the date, your IRA Withdrawals will occur on the next business day after your Contract Date for your desired frequency.

You may request us to calculate the amount you are required to withdraw from your Contract each year based on the information you give us and various choices you make. **For information regarding the calculation and choices you have, see the SAI.** Or, we will accept your written instructions regarding the calculated amount required to be withdrawn from your Contract each year. The minimum dollar amount you can withdraw is \$100. When we determine the required IRA withdrawal amount for a taxable year based on the frequency you select, if that amount is less than \$100, we will pay \$100.

You may change the payment frequency of your IRA Withdrawals once each Contract Year or cancel this option at any time by sending satisfactory notice to Customer Service at least seven days before the next scheduled withdrawal date.

An IRA withdrawal from a Fixed Interest Allocation in excess of the amount allowed under systematic Withdrawals will be subject to a Market Value Adjustment.

Consult your tax and/or legal adviser regarding the tax consequences associated with taking Withdrawals. You are responsible for determining that Withdrawals comply with applicable law. A withdrawal made before the taxpayer reaches age 59½ may result in a 10% penalty tax. See **“FEDERAL TAX CONSIDERATIONS” for more details.**

TRANSFERS AMONG YOUR INVESTMENTS (EXCESSIVE TRADING POLICY)

Between the end of the Free Look Period and the Annuity Start Date, you may transfer your Contract Value among the Subaccounts in which you are invested and your Fixed Interest Allocations. We currently do not charge you for transfers made during a Contract Year, but reserve the right to charge for each transfer after the twelfth transfer in a Contract Year. **We also reserve the right to limit the number of transfers you may make and may otherwise modify or terminate transfer privileges if required by our business judgment or in accordance with applicable law.** We will apply a Market Value Adjustment to transfers from a Fixed Interest Allocation taken more than 30 days before its maturity date, unless the transfer is made under the dollar cost averaging program. Keep in mind that transfers between Covered Funds, Special Funds and Excluded Funds and other funds may negatively impact your death benefit or rider benefits.

If you allocate Contract Value to an investment option that has been designated as a Restricted Fund, your ability to transfer Contract Value to the Restricted Fund may be limited. A transfer to the Restricted Funds will not be permitted to the extent that it would increase the Contract Value in the Restricted Fund to more than the applicable limits following the transfer. We do not limit transfers from Restricted Funds. If the result of multiple reallocations is to lower the percentage of total Contract Value in the Restricted Fund, the reallocation will be permitted even if the percentage of Contract Value in the Restricted Fund is greater than the limit.

Please be aware that the benefit we pay under an optional benefit rider may be affected by certain transfers you make while the rider is in effect. Transfers, including those involving Special Funds or Excluded Funds, may also affect your optional rider base. See **“THE ANNUITY CONTRACT – Optional Riders.”**

The minimum amount that you may transfer is \$100 or, if less, your entire Contract Value held in a Subaccount or a Fixed Interest Allocation. To make a transfer, you must notify Customer Service and all other administrative requirements must be met. We will determine transfer values at the end of the business day on which we receive the transfer request at Customer Service. If we receive your transfer request after 4 p.m. eastern time or the close of regular trading of the NYSE, we will make the transfer on the next business day.

Separate Account B and the Company will not be liable for following instructions communicated by telephone or other approved electronic means that we reasonably believe to be genuine. We may require personal identifying information to process a request for transfer made over the telephone, over the internet or other approved electronic means. Please be advised that the risk of a fraudulent transaction is increased with telephonic or electronic instructions, even if appropriate identifying information is provided.

Limits on Frequent or Disruptive Transfers

The Contract is not designed to serve as a vehicle for frequent transfers. Frequent transfer activity can disrupt management of a fund and raise its expenses through:

- Increased trading and transaction costs;
- Forced and unplanned portfolio turnover;
- Lost opportunity costs; and
- Large asset swings that decrease the fund’s ability to provide maximum investment return to all Contract Owners.

This in turn can have an adverse effect on fund performance. **Accordingly, individuals or organizations that use market-timing investment strategies or make frequent transfers should be aware that:**

- **We suspend the Electronic Trading Privileges, as defined below, of any individual or organization if we determine, in our sole discretion, that the individual’s or organization’s transfer activity is disruptive or not in the best interest of other owners of our variable insurance and retirement products; and**
- **Each underlying fund may limit or restrict fund purchases and we will implement any limitation or restriction on transfers to an underlying fund as directed by that underlying fund.**

Consequently, individuals or organizations that use market-timing investment strategies or make frequent transfers should not purchase or participate in the Contract.

Excessive Trading Policy. We provide multi-fund variable insurance and retirement products, have adopted an Excessive Trading Policy to respond to the demands of the various fund families that make their funds available through our products to restrict excessive fund trading activity and to ensure compliance with Rule 22c-2 of the 1940 Act.

TABLE OF CONTENTS

We actively monitor fund transfer and reallocation activity within our variable insurance products to identify violations of our Excessive Trading Policy. Our Excessive Trading Policy is violated if fund transfer and reallocation activity:

- Meets or exceeds our current definition of Excessive Trading, as defined below; or
- Is determined, in our sole discretion, to be disruptive or not in the best interests of other owners of our variable insurance and retirement products.

We currently define Excessive Trading as:

- More than one purchase and sale of the same fund (including money market funds) within a 60 calendar day period (hereinafter, a purchase and sale of the same fund is referred to as a “round-trip”). This means two or more round-trips involving the same fund within a 60 calendar day period would meet our definition of Excessive Trading; or
- Six round-trips involving the same fund within a twelve month period.

The following transactions are excluded when determining whether trading activity is excessive:

- Purchases or sales of shares related to non-fund transfers (for example, new premium payments, Withdrawals and loans);
- Transfers associated with any scheduled dollar cost averaging, scheduled rebalancing or scheduled asset allocation programs;
- Purchases and sales of fund shares in the amount of \$5,000 or less;
- Purchases and sales of funds that affirmatively permit short-term trading in their fund shares, and movement between such funds and a money market fund; and
- Transactions initiated by us or a fund.

If we determine that an individual or entity has made a purchase of a fund within 60 days of a prior round-trip involving the same fund, we will send them a letter warning that another sale of that same fund within 60 days of the beginning of the prior round-trip will be deemed to be Excessive Trading and result in a six month suspension of their ability to initiate fund transfers or reallocations through the Internet, facsimile, Voice Response Unit (“VRU”), telephone calls to the Customer Service, or other electronic trading medium that we may make available from time to time (“Electronic Trading Privileges”). Likewise, if we determine that an individual or entity has made five round-trips involving the same fund within a rolling twelve month period, we will send them a letter warning that another purchase and sale of that same fund within twelve months of the initial purchase in the first round-trip in the prior twelve month period will be deemed to be Excessive Trading and result in a suspension of their Electronic Trading Privileges. According to the needs of the various business units, a copy of the warning letters may also be sent, as applicable, to the person(s) or entity authorized to initiate fund transfers or reallocations, the agent/registered representative or investment adviser for that individual or entity. A copy of the warning letters and details of the individual’s or entity’s trading activity may also be sent to the fund whose shares were involved in the trading activity.

If we determine that an individual or entity has violated our Excessive Trading Policy, we will send them a letter stating that their Electronic Trading Privileges have been suspended for a period of six months. Consequently, all fund transfers or reallocations, not just those which involve the fund whose shares were involved in the activity that violated our Excessive Trading Policy, will then have to be initiated by providing written instructions to us via regular U.S. mail. Suspension of Electronic Trading Privileges may also extend to products other than the product through which the Excessive Trading activity occurred. During the six month suspension period, electronic “inquiry only” privileges will be permitted where and when possible. A copy of the letter restricting future transfer and reallocation activity to regular U.S. mail and details of the individual’s or entity’s trading activity may also be sent, as applicable, to the person(s) or entity authorized to initiate fund transfers or reallocations, the agent/registered representative or investment adviser for that individual or entity and the fund whose shares were involved in the activity that violated our Excessive Trading Policy.

Following the six month suspension period during which no additional violations of our Excessive Trading Policy are identified, Electronic Trading Privileges may again be restored. We will continue to monitor the fund transfer and reallocation activity, and any future violations of our Excessive Trading Policy will result in an indefinite suspension of Electronic Trading Privileges. A violation of our Excessive Trading Policy during the six month suspension period will also result in an indefinite suspension of Electronic Trading Privileges.

We reserve the right to suspend Electronic Trading Privileges with respect to any individual or entity, with or without prior notice, if we determine, in our sole discretion, that the individual’s or entity’s trading activity is disruptive or not in the best interests of other owners of our variable insurance products, regardless of whether the individual’s or entity’s trading activity falls within the definition of Excessive Trading set forth above.

Our failure to send or an individual’s or entity’s failure to receive any warning letter or other notice contemplated under our Excessive Trading Policy will not prevent us from suspending that individual’s or entity’s Electronic Trading Privileges or taking any other action provided for in our Excessive Trading Policy.

[TABLE OF CONTENTS](#)

We do not allow exceptions to our Excessive Trading Policy. We reserve the right to modify our Excessive Trading Policy, or the policy as it relates to a particular fund, at any time without prior notice, depending on, among other factors, the needs of the underlying fund(s), the best interests of Contract Owners and fund investors and/or state or federal regulatory requirements. If we modify our policy, it will be applied uniformly to all Contract Owners or, as applicable, to all Contract Owners investing in the underlying fund.

Our Excessive Trading Policy may not be completely successful in preventing market timing or excessive trading activity. If it is not completely successful, fund performance and management may be adversely affected, as noted above.

Limits Imposed by the Funds. Each underlying fund available through the variable insurance and retirement products offered by us, either by prospectus or stated contract, has adopted or may adopt its own excessive/frequent trading policy, and orders for the purchase of fund shares are subject to acceptance or rejection by the underlying fund. We reserve the right, without prior notice, to implement fund purchase restrictions and/or limitations on an individual or entity that the fund has identified as violating its excessive/frequent trading policy and to reject any allocation or transfer request to a Subaccount if the corresponding fund will not accept the allocation or transfer for any reason. All such restrictions and/or limitations (which may include, but are not limited to, suspension of Electronic Trading Privileges and/or blocking of future purchases of a fund or all funds within a fund) will be done in accordance with the directions we receive from the fund.

Agreements to Share Information with Fund Companies. As required by Rule 22c-2 under the 1940 Act, we have entered into information sharing agreements with each of the fund companies whose funds are offered through the Contract. Contract Owner trading information is shared under these agreements as necessary for the fund companies to monitor fund trading and our implementation of our Excessive Trading Policy. Under these agreements, the company is required to share information regarding Contract Owner transactions, including but not limited to information regarding fund transfers initiated by you. In addition to information about Contract Owner transactions, this information may include personal Contract Owner information, including names and social security numbers or other tax identification numbers.

As a result of this information sharing, a fund company may direct us to restrict a Contract Owner's transactions if the fund determines that the Contract Owner has violated the fund's excessive/frequent trading policy. This could include the fund directing us to reject any allocations of premium or Contract Value to the fund or all funds within the fund family.

Dollar Cost Averaging

You may elect to participate in our dollar cost averaging program through either the Voya Government Liquid Assets Portfolio Subaccount or a Fixed Interest Allocation, subject to availability, starting 30 days after the Contract Date. These investment options serve as the source accounts from which we will, on a monthly basis, automatically transfer a set dollar amount of money to the Subaccounts you specify. There is no additional charge for dollar cost averaging. Dollar cost averaging is not available with automatic rebalancing and may be subject to limited availability with systematic Withdrawals.

We also may offer dollar cost averaging Fixed Interest Allocations for durations of six months and one year, subject to availability, exclusively for use with the dollar cost averaging program.

The dollar cost averaging program is designed to lessen the impact of market fluctuation on your investment. Since we transfer the same dollar amount to other Subaccounts each month, more units of a Subaccount are purchased if the value of its unit is low and fewer units are purchased if the value of its unit is high. Therefore, a lower than average value per unit may be achieved over the long term. However, we cannot guarantee this. When you elect the dollar cost averaging program, you are continuously investing in securities regardless of fluctuating price levels. You should consider your tolerance for investing through periods of fluctuating price levels.

Dollar cost averaging requires a minimum monthly transfer amount of \$100. We will transfer all your money allocated to that source account into the Subaccount(s) you specify in equal payments over the relevant duration. The last payment will include earnings accrued over the duration. If you make an additional premium payment into a Fixed Interest Allocation subject to dollar cost averaging, the amount of your transfers under the dollar cost averaging program remains the same, unless you instruct us to increase the transfer amount.

Transfers under the dollar cost averaging program are not subject to a Market Value Adjustment. However, if you terminate the dollar cost averaging program for a dollar cost averaging Fixed Interest Allocation and there is money remaining in the dollar cost averaging Fixed Interest Allocation, we will transfer the remaining money to the Voya Government Liquid Assets Subaccount. Such transfer will trigger a Market Value Adjustment if the transfer is made more than 30 days before the maturity date of the dollar cost averaging Fixed Interest Allocation.

TABLE OF CONTENTS

If you do not specify to which Subaccounts you want to transfer the dollar amount of the source account, we will transfer the money to the Subaccounts in which you are invested on a proportional basis. The transfer date is the same day each month as your Contract Date. If, on any transfer date, your Contract Value in a source account is equal or less than the amount you have elected to have transferred, the entire amount will be transferred and the program will end. You may terminate the dollar cost averaging program at any time by sending satisfactory notice to Customer Service at least seven days before the next transfer date.

You are permitted to transfer Contract Value to a Restricted Fund, subject to the limitations described above in this section and in “**APPENDIX B – The Funds.**” Compliance with the individual and aggregate Restricted Fund limits will be reviewed when the dollar cost averaging program is established. Transfers under the dollar cost averaging program must be within those limits. We will not review again your dollar cost averaging election for compliance with the individual and aggregate limits for investment in the Restricted Funds except in the case of the transactions described below:

- **Amount added to source account:** If you add amounts to the source account which would increase the amount to be transferred under the dollar cost averaging program, we will review the amounts to be transferred to ensure that the individual and aggregate limits are not being exceeded. If such limits would be exceeded, we will require that the dollar cost averaging transfer amounts be changed to ensure that the transfers are within the limits based on the then-current allocation of Contract Value to the Restricted Fund(s) and the then-current value of the amount designated to be transferred to that Restricted Fund(s);
- **Additional premium paid:** Up to the individual Restricted Fund percentage limit may be allocated to a Restricted Fund. If you request more than the individual limit be allocated to a Restricted Fund, we will look at the aggregate limit, subtract the current allocation to Restricted Funds, and subtract the current value of amounts to be transferred under the dollar cost averaging program to Restricted Funds. The excess, if any, is the maximum that may be allocated proportionally to the Restricted Funds; and
- **Reallocation request is made while the dollar cost averaging program is active:** If the reallocation would increase the amount allocated to Restricted Funds, the maximum that may be so allocated is the individual Restricted Fund percentage limit, less the current allocation to Restricted Funds and less the current value of any remaining amounts to be transferred under the dollar cost averaging program to the Restricted Funds.

We may offer additional Subaccounts or withdraw any Subaccount or Fixed Interest Allocation to or from the dollar cost averaging program, stop offering dollar cost averaging Fixed Interest Allocations or otherwise modify, suspend or terminate this program. Such change will not affect any dollar cost averaging programs in operation at the time.

Automatic Rebalancing

If you have at least \$10,000 of Contract Value invested in the Subaccounts of Separate Account B, you may elect to have your investments in the Subaccounts automatically rebalanced. Automatic rebalancing is not available if you participate in dollar cost averaging. Automatic rebalancing will not take place during the Free Look Period. Transfers made pursuant to automatic rebalancing do not count toward the 12-transfer limit on free transfers.

You are permitted to reallocate between Restricted and non-Restricted Funds, subject to the limitations described above, in this section and in “**APPENDIX B – The Funds.**” If the reallocation would increase the amount allocated to the Restricted Funds, the maximum that may be so allocated is the individual Restricted Fund percentage limit, less the current allocation to all Restricted Funds.

We will transfer funds under your Contract on a quarterly, semi-annual or annual calendar basis among the Subaccounts to maintain the investment blend of your selected Subaccounts. The minimum size of any allocation must be in full percentage points. Rebalancing does not affect any amounts that you have allocated to the Fixed Account. The program may be used in conjunction with the systematic withdrawal option only if Withdrawals are taken proportionally.

To participate in automatic rebalancing, send satisfactory notice to Customer Service. We will begin the program on the last business day of the period in which we receive the notice. You may cancel the program at any time. The program will automatically terminate if you choose to reallocate your Contract Value among the Subaccounts or if you make an additional premium payment or partial withdrawal on other than a proportional basis. Additional premium payments and partial Withdrawals made proportionally will not cause the automatic rebalancing program to terminate.

The Company may change or discontinue the automatic rebalancing program at any time.

DEATH BENEFIT CHOICES

Death Benefit During the Accumulation Phase

During the accumulation phase, a death benefit (and Earnings Multiplier Benefit, if elected) is payable when either the Contract Owner, or the first of joint owners or the Annuitant (when a Contract Owner is not an individual) dies before the Annuity Start Date. Assuming you are the Contract Owner, your beneficiary will receive a death benefit unless the beneficiary is your surviving spouse and elects to continue the Contract. We calculate the death benefit value as of the close of the business day on which we receive written notice and due proof of death, as well as any required paperwork, at Customer Service ("Claim Date"). If your beneficiary wants to receive the death benefit on a date later than this, it may affect the amount of the benefit payable in the future. If there is a beneficiary who is not the spouse of the Contract Owner, the value of the death benefit may be allocated to the Fixed Interest Division and earn a fixed rate of interest from the Claim Date until the date of payment. If the spouse is the sole beneficiary of the Contract Owner, the value of the death benefit will remain allocated to the investment options in which Contract Value is allocated on the Claim Date and may be subject to market performance, positive or negative, from the Claim Date until the date of payment. The proceeds may be received in a single sum, applied to any of the annuity options, or, if available, paid over the beneficiary's lifetime. See ***"Systematic Withdrawals,"*** above. A beneficiary's right to elect an annuity option or receive a lump-sum payment may have been restricted by the Contract Owner. If so, such rights or options will not be available to the beneficiary.

If we do not receive a request to apply the death benefit proceeds to an annuity option, we will make a single sum distribution. We will generally distribute death benefit proceeds within seven days after Customer Service has received sufficient information to make the payment. **For information on required distributions under federal income tax laws, you should see "Required Distributions Upon Contract Owner's Death."** Beneficiaries should carefully review all settlement and payment options available under the Contract and are encouraged to consult with a financial professional or tax and/or legal adviser before choosing a settlement or payment option.

You may choose one of the following Death Benefits: (1) the Standard Death Benefit; (2) the 7% Solution Enhanced Death Benefit; (3) the Annual Ratchet Enhanced Death Benefit or (4) the Max 7 Enhanced Death Benefit. The 7% Solution Enhanced Death Benefit, the Annual Ratchet Enhanced Death Benefit and the Max 7 Enhanced Death Benefit are available only if the Contract Owner or the Annuitant (if the Contract Owner is not an individual) is not more than 79 years old at the time of purchase. The Enhanced Death Benefits are available only at the time you purchase your Contract. The Enhanced Death Benefits are not available where a Contract is owned by joint owners. If you do not choose a death benefit, your death benefit will be the Standard Death Benefit.

Once you choose a death benefit, you cannot change it. We may stop or suspend offering any of the Enhanced Death Benefit options to new Contracts. A change in ownership of the Contract may affect the amount of the death benefit and the Enhanced Death Benefit. The MGWB rider may also affect the death benefit.

The death benefit may be subject to certain mandatory distribution rules required by federal tax law.

We use the Base Death Benefit to help determine the minimum death benefit payable under each of the death benefit options described below. You do not elect the Base Death Benefit. The Base Death Benefit is equal to the greater of:

- The Contract Value; and
- The Cash Surrender Value.

The **Standard Death Benefit** equals the **greater** of:

- The Base Death Benefit; and
- The Standard Minimum Guaranteed Death Benefit ("Standard MGDB") for amounts allocated to Covered Funds plus the Contract Value allocated to Excluded Funds.

Covered Funds are all investment options not designated as Excluded Funds. No investment options are currently designated as Excluded Funds for purposes of the Standard Death Benefit.

The Standard MGDB allocated to Covered Funds equals premiums allocated to Covered Funds less proportional adjustments for any Withdrawals and transfers.

The Standard MGDB allocated to Excluded Funds equals premiums allocated to Excluded Funds less proportional adjustments for any Withdrawals and transfers. This calculation is not used for benefit purposes, but only to determine the impact of transfers to and from Excluded Funds.

TABLE OF CONTENTS

Withdrawals reduce the Standard MGDB on a proportional basis. The percentage reduction in the Standard MGDB for each Fund category (i.e. Covered or Excluded) equals the percentage reduction in Contract Value in that Fund category resulting from the withdrawal. The proportional adjustment is based on the change in Contract Value resulting from the withdrawal, not the amount requested.

Transfers among Fund categories do not reduce the overall Standard MGDB.

- Net transfers from Covered Funds to Excluded Funds will reduce the Standard MGDB in the Covered Funds proportionally. The increase in the Standard MGDB allocated to Excluded Funds will equal the decrease in the Standard MGDB in Covered Funds.
- Net transfers from Excluded Funds to Covered Funds will reduce the Standard MGDB in Excluded Funds proportionally. The increase in the Standard MGDB allocated to Covered Funds will equal the lesser of the net Contract Value transferred and the decrease in the Standard MGDB in Excluded Funds.

Enhanced Death Benefit Options. Under the Enhanced Death Benefit options, if you die before the Annuity Start Date, your beneficiary will receive the greater of the Standard Death Benefit or the Enhanced Death Benefit option elected. We may, with 30 days' notice to you, designate any fund as a Special Fund or Excluded Fund on existing Contracts with respect to new premiums added to such fund and also with respect to new transfers to such fund. Selecting a Special Fund or Excluded Fund may limit or reduce the Enhanced Death Benefit.

For the period during which a portion of the Contract Value is allocated to a Special Fund or Excluded Fund, we may, at our discretion, reduce the mortality and expense risk charge attributable to that portion of the Contract Value. The reduced mortality and expense risk charge will be applicable only during that period.

The **7 % Solution Enhanced Death Benefit Element** is the greater of:

- The Standard Death Benefit; and
- The lesser of:
 - 3 times all premium payments, adjusted for Withdrawals (the "cap"); or
 - the **sum of** the 7% Solution Minimum Guaranteed Death Benefit Element ("7% MGDB") allocated to Covered Funds, the 7% MGDB allocated to Special Funds, and the Contract Value allocated to Excluded Funds.

For purposes of calculating the 7% Solution Enhanced Death Benefit, the following investment options are designated as Special Funds:

- The Voya Government Liquid Assets Portfolio;
- The Voya Intermediate Bond Portfolio; and
- The Fixed Interest Allocation.

For Contracts issued prior to May 1, 2003, the Voya Intermediate Bond Portfolio is not designated as a Special Fund. As of July 11, 2014, the Voya Intermediate Bond Portfolio was designated as a Covered Fund for all current and future investments.

For Contracts issued prior to September 2, 2003, the ProFunds VP Rising Rates Opportunity Portfolio is not designated as a Special Fund.

Covered Funds are all investment options not designated as Special Funds or Excluded Funds. No investment options are currently designated as Excluded Funds.

The 7% MGDB allocated to Covered Funds equals premiums allocated to Covered Funds, adjusted for Withdrawals and transfers, accumulated at 7% annually until age 80 or the 7% MGDB reaches the cap. There is no accumulation once the cap is reached. Payment of additional premiums may cause the accumulation to resume, but there is no catch-up for any period where accumulation was suspended. The Max 7 Enhanced Death Benefit available for some Contracts issued in 2001 or earlier allows for accumulation to continue beyond age 80, subject to the cap. Please see your Contract for details regarding the terms of your death benefit.

The 7% MGDB allocated to Special Funds equals premiums allocated to Special Funds, adjusted for Withdrawals and transfers. There is no accumulation of Minimum Guaranteed Death Benefit allocated to Special Funds.

The 7% MGDB allocated to Excluded Funds is determined in the same way as the 7% MGDB for Covered Funds, but the calculation is not used for benefit purposes, but only to determine the impact of transfers to and from Excluded Funds.

Withdrawals reduce the 7% MGDB proportionally. The percentage reduction in the 7% MGDB for each Fund category (i.e. Covered, Special or Excluded) equals the percentage reduction in Contract Value in that Fund category resulting from the withdrawal. The percentage reduction in the cap equals the percentage reduction in total Contract Value resulting from the withdrawal. The proportional adjustment is based on the change in Contract Value resulting from the withdrawal, not the amount requested.

TABLE OF CONTENTS

Transfers among Fund categories do not reduce the overall 7% MGDB, but do affect the amount of the 7% MGDB in a particular Fund category. Net transfers from among the Funds will reduce the 7% MGDB in the Funds proportionally.

The **Annual Ratchet Enhanced Death Benefit** equals the greater of:

- The Standard Death Benefit; and
- The Annual Ratchet Minimum Guaranteed Death Benefit (“Annual Ratchet MGDB”) allocated to Covered Funds plus the Contract Value allocated to Excluded Funds.

Covered funds are all investment options not designated as Excluded Funds. No investment options are currently designated as Excluded Funds for purposes of the Annual Ratchet MGDB.

The Annual Ratchet MGDB allocated to Covered Funds on the Contract Date equals the premium allocated to Covered Funds. On each Contract anniversary that occurs on or prior to attainment of age 90, the Annual Ratchet MGDB in Covered Funds will be set to the greater of:

- The current Contract Value in Covered Funds (after deductions occurring as of that date); or
- The Annual Ratchet MGDB in Covered Funds from the prior Contract anniversary (after deductions occurring on that date), adjusted for new premiums, and partial Withdrawals attributable to Covered Funds, and transfers.

Other than on Contract anniversaries, the Annual Ratchet MGDB in the Covered Funds is equal to the Annual Ratchet MGDB in the Covered Funds from the last Contract anniversary, adjusted for new premiums, and partial Withdrawals attributable to Covered Funds, and transfers.

The Annual Ratchet MGDB allocated to Excluded Funds on the Contract Date equals the premium allocated to Excluded Funds. The calculation is not used for benefit purposes, but only to determine the impact of transfers to and from Excluded Funds. On the Contract Date, the Annual Ratchet MGDB allocated to Excluded Funds is equal to the premium allocated to Excluded Funds. On each Contract anniversary that occurs on or prior to attainment of age 90, the Annual Ratchet MGDB in Excluded Funds will be set to the greater of:

- The current Contract Value in Excluded Funds (after deductions occurring as of that date); and
- The Annual Ratchet MGDB in the Excluded Funds from the prior Contract anniversary (after deductions occurring on that date), adjusted for new premiums and partial Withdrawals attributable to Excluded Funds, and transfers.

Other than on Contract anniversaries, the Annual Ratchet MGDB in the Excluded Funds is equal to the Annual Ratchet MGDB in the Excluded Funds from the last Contract anniversary, adjusted for new premiums, and partial Withdrawals attributable to Excluded Funds, and transfers.

Withdrawals reduce the Annual Ratchet MGDB proportionally. This proportional adjustment is based on the change in Contract Value resulting from the withdrawal, not the amount requested.

Net transfers from Covered Funds to Special or Excluded Funds will reduce the 7% MGDB in Covered Funds proportionally. The increase in the 7% MGDB allocated to Special or Excluded Funds, as applicable, will equal the decrease in the 7% MGDB in Covered Funds.

Net transfers from Excluded Funds to Covered Funds will reduce the Annual Ratchet MGDB in Excluded Funds proportionally. The increase in the Annual Ratchet MGDB allocated to Covered Funds will equal the lesser of the net Contract Value transferred and the reduction in the Annual Ratchet MGDB in Excluded Funds.

The **Max 7 Enhanced Death Benefit** equals the greater of the 7% Solution Enhanced Death Benefit or the Annual Ratchet Enhanced Death Benefit described above. Each Enhanced Death Benefit is determined independently of the other at all times.

Earnings Multiplier Benefit Rider. The Earnings Multiplier Benefit rider is an optional rider that provides a separate death benefit in addition to the death benefit provided under the death benefit options described above. The rider is subject to state availability and is available only for issue ages 75 or under. You may add it at issue of the Contract or, if not yet available in your state, on the next Contract anniversary following introduction of the rider in your state. The date on which the rider is added is referred to as the “rider effective date.”

TABLE OF CONTENTS

If the rider is added at issue, the rider provides a benefit equal to a percentage of the gain under the Contract, up to a gain equal to 150% of premiums adjusted for Withdrawals (“Maximum Base”). Currently, if added at issue, the Earnings Multiplier Benefit is equal to 55% (30% for issue ages 70 and above) of the lesser of: (1) the Maximum Base; and (2) the Contract Value on the Claim Date minus premiums adjusted for Withdrawals. If added after issue, the Earnings Multiplier Benefit is equal to 55% (30% for issue ages 70 and above) of the lesser of: (1) 150% of the Contract Value on the rider effective date, plus subsequent premiums adjusted for subsequent Withdrawals; and (2) the Contract Value on the Claim Date minus the Contract Value on the rider effective date, minus subsequent premiums adjusted for subsequent Withdrawals. The adjustment to the benefit for Withdrawals is proportional, meaning that the benefit will be reduced by the proportion that the withdrawal bears to the Contract Value at the time of the withdrawal.

There is an extra charge for the Earnings Multiplier Benefit rider and once selected, it may not be revoked. The rider does not provide a benefit if there is no gain under the Contract. As such, the Company would continue to assess a charge for the rider, even though no benefit would be payable at death under the rider if there are no gains under the Contract. **Please see “CHARGES AND FEES – Earnings Multiplier Benefit Charge” for a description of the charge.**

The rider is available for both nonqualified and qualified Contracts. **Please see the discussions of possible tax consequences in “FEDERAL TAX CONSIDERATIONS,” “Individual Retirement Annuities (“IRA”) and Roth IRA,” “Taxation of Qualified Contracts,” and “Tax Consequences of Living Benefits and Enhanced Death Benefits,” in this prospectus.**

Death Benefit During the Income Phase

If any Contract Owner or the Annuitant dies after the Annuity Start Date, the Company will pay the beneficiary any certain benefit remaining under the annuity in effect at the time.

Continuation After Death – Spouse

If at the Contract Owner’s death, the surviving spouse of the deceased Contract Owner is the beneficiary and such surviving spouse elects to continue the Contract as his or her own, the following will apply:

- If the guaranteed death benefit as of the date we receive due proof of death, minus the Contract Value on that date is greater than zero, we will add such difference to the Contract Value. We will allocate such addition to the variable Subaccounts in proportion to the Contract Value in the Subaccounts, unless you direct otherwise. If there is no Contract Value in any Subaccount, we will allocate the addition to the Voya Government Liquid Assets Subaccount, or its successor. Such addition to Contract Value will not affect the guaranteed death benefit or any living benefit rider values. Any addition to Contract Value is available only to the spouse of the owner as of the date of death of the owner if such spouse under the provisions of the Contract elects to continue the Contract as his or her own;
- The death benefits under each of the available options will continue, based on the surviving spouse’s age on the date that ownership changes;
- At subsequent surrender, we will waive any surrender charge applicable to premiums paid prior to the date we receive due proof of death of the Contract Owner. Any premiums paid later will be subject to any applicable surrender charge;
- If you elected the Earnings Multiplier Benefit rider, and the benefit would otherwise be payable, we will add the benefit to the Contract Value and allocate the benefit among the variable Subaccounts in proportion to the Contract Value in the Subaccounts, unless you direct otherwise. If there is no Contract Value in any Subaccount, we will allocate the benefit to the Voya Government Liquid Assets Subaccount, or its successor; and
- The Earnings Multiplier Benefit rider will continue if the surviving spouse is eligible based on his or her attained age. If the surviving spouse is older than the maximum rider issue age, the rider will terminate. The Maximum Base and the percentages will be reset based on the adjusted Contract Value. The calculation of the benefit going forward will be: (1) based on the attained age of the spouse at the time of the ownership change using current values as of that date; (2) computed as if the rider were added to the Contract after issue and after the increase; and (3) based on the Maximum Base and percentages in effect on the original Rider Date. However, we may permit the surviving spouse to elect to use the then-current Maximum Base and percentages in the benefit calculation.

Continuation After Death – Not a Spouse

If the beneficiary or surviving joint owner is not the spouse of the owner, the Contract may continue in force subject to the required distribution rules of the Tax Code. **See next section, “Required Distributions Upon Contract Owner’s Death.”**

[TABLE OF CONTENTS](#)

If the guaranteed death benefit as of the date we receive due proof of death, minus the Contract Value also on that date, is greater than zero, we will add such difference to the Contract Value. Such addition will be allocated to the variable Subaccounts in proportion to the Contract Value in the Subaccounts, unless we are directed otherwise. If there is no Contract Value in any Subaccount, the addition will be allocated to the Voya Government Liquid Assets Subaccount, or its successor.

The death benefit will then terminate. At subsequent surrender, any surrender charge applicable to premiums paid prior to the date we receive due proof of death of the Contract Owner will be waived. No additional premium payments may be made.

If you elected the Earnings Multiplier Benefit rider, and the benefit would otherwise be payable, we will add the benefit to the Contract Value and allocate the benefit among the variable Subaccounts in proportion to the Contract Value in the Subaccounts, unless you direct otherwise. If there is no Contract Value in any Subaccount, we will allocate the benefit to the Voya Government Liquid Assets Subaccount, or its successor. The Earnings Multiplier Benefit rider then terminates, whether or not a benefit was payable under the terms of the rider.

Required Distributions Upon Contract Owner's Death

We will not allow any payment of benefits provided under a nonqualified Contract which does not satisfy the requirements of Section 72(s) of the Tax Code.

If any Contract Owner of a nonqualified Contract dies before the Annuity Start Date, we will distribute the death benefit payable to the beneficiary as follows: (1) the death benefit must be completely distributed within five years of the Contract Owner's date of death; or (2) the beneficiary may elect, within the one-year period after the Contract Owner's date of death, to receive the death benefit in the form of an annuity from us, provided that: (a) such annuity is distributed in substantially equal installments over the life of such beneficiary or over a period not extending beyond the life expectancy of such beneficiary; and (b) such distributions begin no later than one year after the Contract Owner's date of death.

Notwithstanding (1) and (2) above, if the sole Contract Owner's beneficiary is the deceased owner's surviving spouse, then such spouse may elect to continue the Contract under the same terms as before the Contract Owner's death. Upon receipt of such election from the spouse at Customer Service: (a) all rights of the spouse as Contract Owner's beneficiary under the Contract in effect prior to such election will cease; (b) the spouse will become the owner of the Contract and will also be treated as the contingent Annuitant, if none has been named and only if the deceased owner was the Annuitant; and (c) all rights and privileges granted by the Contract or allowed by us will belong to the spouse as Contract Owner of the Contract. We deem the spouse to have made this election if such spouse makes a premium payment to the Contract or fails to make a timely election as described in this paragraph. If the owner's beneficiary is not a spouse, the distribution provisions described in subparagraphs (1) and (2) above, will apply even if the Annuitant and/or contingent Annuitant are alive at the time of the Contract Owner's death.

Subject to availability, and our then current rules, a spousal or non-spousal beneficiary may elect to receive death benefits as payments over the life expectancy of the beneficiary ("stretch"). "Stretch" payments will be subject to the same limitations as systematic Withdrawals, and nonqualified "stretch" payments will be reported on the same basis as other systematic Withdrawals.

If we do not receive an election from an owner's beneficiary who is not a spouse within the one-year period after the Contract Owner's date of death, then we will pay the death benefit to the owner's beneficiary in a cash payment within five years from the date of death. We will determine the death benefit as of the date we receive proof of death. Such cash payment will be in full settlement of all our liability under the Contract.

If a Contract Owner dies after the Annuity Start Date, all of the Contract Owner's rights granted under the Contract or allowed by us will pass to the Contract Owner's beneficiary.

If a Contract has joint owners, we will consider the date of death of the first joint owner as the death of the Contract Owner, and the surviving joint owner will become the beneficiary of the Contract. If any Contract Owner is not an individual, the death of an Annuitant shall be treated as the death of a Contract Owner.

Effect of MGWB on Death Benefit

If you die before Automatic Periodic Benefit Status under the MGWB rider, the death benefit is payable, but the rider terminates. However, if the beneficiary is the owner's spouse, and the spouse elects to continue the Contract, the death benefit is not payable until the spouse's death.

If you die during Automatic Periodic Benefit Status, the death benefit payable is your MGWB Withdrawal Account, which equals the sum of the remaining MGWB periodic payments. **Please see "*Minimum Guaranteed Withdrawal Benefit Rider*."**

THE ANNUITY OPTIONS

Annuitization of Your Contract

If the Annuitant and Contract Owner are living on the Annuity Start Date, we will begin making payments to the Contract Owner under an income plan. We will make these payments under the annuity option you chose. You may change an annuity option by making a written request to us at least 30 days before the Annuity Start Date. The amount of the payments will be determined by applying your Contract Value, adjusted for any applicable Market Value Adjustment, on the Annuity Start Date in accordance with the annuity option you chose. The MGIB annuity benefit may be available if you have purchased the MGIB rider, provided the waiting period and other specified conditions have been met.

You may also elect an annuity option on surrender of the Contract for its Cash Surrender Value or you may choose one or more annuity options for the payment of death benefit proceeds while it is in effect and before the Annuity Start Date. If, at the time of the Contract Owner's death or the Annuitant's death (if the Contract Owner is not an individual), no option has been chosen for paying death benefit proceeds, the beneficiary may choose an annuity option. In such a case, the payments will be based on the life expectancy of the beneficiary rather than the life of the Annuitant. In all events, payments of death benefit proceeds must comply with the distribution requirements of applicable federal tax law.

The minimum monthly annuity income payment that we will make is \$20. We may require that a single sum payment be made if the Contract Value is less than \$2,000 or if the calculated monthly annuity income payment is less than \$20.

For each annuity option we will issue a separate written agreement putting the annuity option into effect. Before we pay any annuity benefits, we require the return of your Contract. If your Contract has been lost, we will require that you complete and return the applicable lost Contract form. Various factors will affect the level of annuity benefits, such as the annuity option chosen, the applicable payment rate used and the investment performance of the portfolios and interest credited to the Fixed Interest Allocations.

Our current annuity options provide only for fixed payments. Fixed annuity payments are regular payments, the amount of which is fixed and guaranteed by us. Some fixed annuity options provide fixed payments either for a specified period of time or for the life of the Annuitant. The amount of life income payments will depend on the form and duration of payments you chose, the age of the Annuitant or beneficiary (and gender, where appropriate under applicable law), the total Contract Value applied to periodic income payments and the applicable payment rate. As a general rule, more frequent payments will result in smaller individual payments. Likewise, payments that are anticipated over a longer period of time will also result in smaller individual payments.

Our approval is needed for any option where:

- The person named to receive payment is other than the Contract Owner or beneficiary;
- The person named is not a natural person, such as a corporation; or
- Any income payment would be less than the minimum annuity income payment allowed.

Selecting the Annuity Start Date

You select the Annuity Start Date, which is the date on which the annuity payments commence. Unless we consent, the Annuity Start Date must be at least three years from the Contract Date but before the month immediately following the Annuitant's 90th birthday. If, on the Annuity Start Date, a surrender charge remains, the elected annuity option must include a period certain of at least three years.

If you do not select an Annuity Start Date, it will automatically begin in the month following the Annuitant's 90th birthday.

If the Annuity Start Date occurs when the Annuitant is at an advanced age, such as over age 85, it is possible that the Contract will not be considered an annuity for federal tax purposes. **For more information, see "FEDERAL TAX CONSIDERATIONS" and the SAI.** For a Contract purchased in connection with a qualified plan, other than a Roth IRA, distributions must commence not later than April 1st of the calendar year following the calendar year in which you reach age 70½ or, in some cases, retire. Distributions may be made through annuitization or Withdrawals. You should consult a tax and/or legal adviser for tax advice before investing.

Frequency of Annuity Payments

You choose the frequency of the annuity payments. They may be monthly, quarterly, semi-annually or annually. If we do not receive written notice from you, we will make the payments monthly. There may be certain restrictions on minimum payments that we will allow.

Beneficiary Rights

A beneficiary's right to elect an annuity option or receive a lump sum may have been restricted by the Contract Owner. If so, such options will not be available to the beneficiary.

The Annuity Options

We offer the four annuity options shown below. Payments under Options 1, 2 and 3 are fixed. Payments under Option 4 may be fixed or variable, although only fixed payments are currently available. For a fixed annuity option, the Contract Value in the Subaccounts is transferred to the Company's general account. The MGIB annuity options available under the MGIB rider are different from the four options listed below. **For additional information, please see "THE ANNUITY CONTRACT – Minimum Guaranteed Income Benefit Rider – MGIB Income Options."**

Option 1. Income for a Fixed Period. Under this option, we make monthly payments in equal installments for a fixed number of years based on the Contract Value on the Annuity Start Date. We guarantee that each monthly payment will be at least the amount stated in your Contract. If you prefer, you may request that payments be made in annual, semi-annual or quarterly installments. We will provide you with illustrations if you ask for them. If the Cash Surrender Value or Contract Value is applied under this option, a 10% penalty tax may apply to the taxable portion of each income payment until the Contract Owner reaches age 59½.

Option 2. Income for Life with a Period Certain. Under this option, we make payments for the life of the Annuitant in equal monthly installments and guarantee the income for at least a period certain, such as 10 or 20 years. Other periods certain may be available to you on request. You may choose a refund period instead. Under this arrangement, income is guaranteed until payments equal the amount of your Contract. If the person named lives beyond the guaranteed period, we will continue payments until his or her death. We guarantee that each payment will be at least the amount specified in the Contract corresponding to the person's age on his or her last birthday before the Annuity Start Date. Amounts for ages not shown in the Contract are available if you ask for them.

Option 3. Joint Life Income. This option is available when there are two persons named to determine annuity payments. At least one of the persons named must be either the Contract Owner or beneficiary of the Contract. We guarantee monthly payments will be made as long as at least one of the named persons is living. There is no minimum number of payments. Monthly payment amounts are available if you ask for them.

Option 4. Annuity Plan. Under this option, your Contract Value can be applied to any other annuitization plan that we choose to offer on the Annuity Start Date. Annuity payments under Option 4 may be fixed or variable, although only fixed payments are currently available. If variable and subject to the 1940 Act, it will comply with the requirements of such Act.

Payment When Named Person Dies

When the person named to receive payment dies, we will pay any amounts still due as provided in the annuity agreement between you and VIAC. The amounts we will pay are determined as follows:

- For Options 1 and 2, we will continue the remaining guaranteed payments. Under Options 1 and 2, the discounted values of the remaining guaranteed payments may be paid in a single sum. This means we deduct the amount of the interest each remaining guaranteed payment would have earned had it not been paid out early. We will base the discount interest rate on the interest rate used to calculate the payments for Options 1 and 2;
- For Option 3, no amounts are payable after both named persons have died; and
- For Option 4, the annuity option agreement will state the amount we will pay, if any.

OTHER CONTRACT PROVISIONS

Reports to Contract Owners

We confirm purchase, transfer and withdrawal transactions usually within five business days of processing. We may also send you a quarterly report within 31 days after the end of each calendar quarter. The report will show the Contract Value, Cash Surrender Value, and the death benefit as of the end of the calendar quarter. The report will also show the allocation of your Contract Value and reflects the amounts deducted from or added to the Contract Value. You have 30 days to notify Customer Service of any errors or discrepancies. We will notify you when any shareholder reports of the funds in which Separate Account B invests are available. We will also send any other reports, notices or documents we are required by law to furnish to you.

Suspension of Payments

The Company reserves the right to suspend or postpone the date of any payment of benefits or processing these transactions beyond the seven permitted days, under any of the following circumstances: (1) on any business day when the NYSE is closed (except customary weekend and holiday closings); (2) when an emergency exists as determined by the SEC; or (3) during any other periods the SEC may, by order, permit for the protection of investors.

The conditions under which restricted trading or an emergency exists shall be determined by the rules and regulations of the SEC.

Payment of benefits or values may also be delayed or suspended as required by court order or any regulatory action.

In Case of Errors in Your Application

If an age or gender given in the application or enrollment form is misstated, the amounts payable or benefits provided by the Contract shall be those that the premium payment would have bought had the age or gender not been misstated.

Assigning the Contract as Collateral

You may assign a nonqualified Contract as collateral security for a loan but you should understand that your rights and any beneficiary's rights may be subject to the terms of the assignment. An assignment likely has federal tax consequences. You should consult a tax and/or legal adviser for tax advice. You must give us satisfactory written notice to Customer Service in order to make or release an assignment. We are not responsible for the validity of any assignment.

Contract Changes – Applicable Tax Law

We have the right to make changes in the Contract to continue to qualify the Contract as an annuity under applicable federal tax law and to conform to applicable laws or governmental regulations. We will give you advance notice of such changes.

Free Look

You may cancel your Contract within your ten-day Free Look Period. We deem the Free Look Period to expire 15 days after we mail the Contract to you. Some states may require a longer Free Look Period. To cancel, you need to send your Contract to Customer Service or to the agent from whom you purchased it. We will refund the Contract Value. For purposes of the refund during the Free Look Period: (1) we adjust your Contract Value for any Market Value Adjustment (if you have invested in the Fixed Account); and (2) then we include a refund of any charges deducted from your Contract Value. Because of the market risks associated with investing in the portfolios, and the potential positive or negative effect of the Market Value Adjustment, the Contract Value returned may be greater or less than the premium payment you paid. Some states require us to return to you the amount of the paid premium (rather than the Contract Value) in which case you will not be subject to investment risk during the Free Look Period. In these states, your premiums designated for investment in the Subaccounts may be allocated during the Free Look Period to a Subaccount specially designated by the Company for this purpose (currently, the Voya Government Liquid Assets Subaccount). We may, in our discretion, require that premiums designated for investment in the Subaccounts from all other states as well as premiums designated for a Fixed Interest Allocation be allocated to the specially designated Subaccount during the Free Look Period. Your Contract is void as of the day we receive your Contract and cancellation request in good order. We determine your Contract Value at the close of business on the day we void your Contract. If you keep your Contract after the Free Look Period and the investment is allocated to a Subaccount specially designated by the Company, we will put your money in the Subaccount(s) chosen by you, based on the Accumulation Unit Value next computed for each Subaccount, and/or in the Fixed Interest Allocation chosen by you.

Special Arrangements

We may reduce or waive any Contract, rider, or benefit fees or charges for certain group or sponsored arrangements, under special programs, and for certain employees, agents, and related persons of our parent corporation and its affiliates. We reduce or waive these items based on expected economies, and the variations are based on differences in costs or services.

Selling the Contract

Our affiliate, Directed Services LLC, 1475 Dunwoody Drive, Suite 200, West Chester, Pennsylvania 19380 is the principal underwriter and distributor of the Contract as well as for our other variable contracts. Directed Services LLC, a Delaware limited liability company, is registered with the SEC as a broker/dealer under the Securities Exchange Act of 1934 and is a member of the Financial Industry Regulatory Authority, Inc. ("FINRA").

TABLE OF CONTENTS

Directed Services LLC does not retain any commissions or compensation paid to it by VIAC for Contract sales. Directed Services LLC entered into selling agreements with affiliated and unaffiliated broker/dealers to sell the Contracts through their registered representatives who are licensed to sell securities and variable insurance products ("selling firms"). Selling firms are also registered with the SEC and are FINRA member firms.

Although the Contracts are no longer offered for new sales, Directed Services LLC pays selling firms compensation for the past promotion and sale of the Contracts. Registered representatives of the selling firms who solicited sales of the Contracts typically receive a portion of the compensation paid by Directed Services LLC to the selling firm in the form of commissions or other compensation, depending on the agreement between the selling firm and the registered representative. This compensation, as well as other incentives or payments, is not paid directly by Contract Owners or the Separate Account. We intend to recoup this compensation and other sales expenses paid to selling firms through fees and charges imposed under the Contracts.

Directed Services LLC pays selling firms for past Contract sales according to one or more schedules. This compensation is generally based on a percentage of premium payments. Selling firms may receive commissions of up to 8.0% of premium payments. In addition, selling firms may receive ongoing annual compensation of up to 1.0% of all, or a portion, of values of Contracts sold through the firm. Individual representatives may receive all or a portion of compensation paid to their selling firm, depending on the firm's practices. Commissions and annual compensation, when combined, could exceed 8.0% of total premium payments.

Directed Services LLC has special compensation arrangements with certain selling firms based on those firms' aggregate or anticipated sales of the Contracts or other criteria. These special compensation arrangements will not be offered to all selling firms, and the terms of such arrangements may differ among selling firms based on various factors. Any such compensation payable to a selling firm will not result in any additional direct charge to you by us.

In addition to the direct cash compensation for past sales of Contracts described above, Directed Services LLC may also pay selling firms additional compensation or reimbursement of expenses for their past efforts in selling the Contracts to you and other customers. These amounts may include:

- Marketing/distribution allowances which may be based on the percentages of premium received, the aggregate commissions paid and/or the aggregate assets held in relation to certain types of designated insurance products issued by the Company and/or its affiliates during the year;
- Loans or advances of commissions in anticipation of future receipt of premiums (a form of lending to agents/registered representatives). These loans may have advantageous terms such as reduction or elimination of the interest charged on the loan and/or forgiveness of the principal amount of the loan, which terms may be conditioned on fixed insurance product sales; and
- Additional cash or noncash compensation and reimbursements permissible under existing law.

We may pay commissions, dealer concessions, wholesaling fees, overrides, bonuses, other allowances and benefits and the costs of all other incentives or training programs from our resources, which include the fees and charges imposed under the Contract.

Directed Services LLC may also compensate wholesalers/distributors, and their management personnel, for past Contract sales within the wholesale/distribution channel. This compensation may be based on a percentage of premium payments and/or a percentage of Contract Values. Directed Services LLC may, at its discretion, pay additional cash compensation to wholesalers/distributors for sales by certain broker-dealers or "focus firms."

We do not pay any additional compensation on the sale or exercise of any of the Contract's optional benefit riders described in this prospectus.

This is a general discussion of the types and levels of compensation paid by us for the past sale of our variable annuity contracts. It is important for you to know that the payment of volume- or sales-based compensation to a selling firm or registered representative may have provided that registered representative a financial incentive to promote our Contracts over those of another company, and may also have provided a financial incentive to promote one of our contracts over another.

OTHER INFORMATION

Order Processing

In certain circumstances, we may need to correct the pricing associated with an order that has been processed. In such circumstances, we may incur a loss or receive a gain depending upon the price of the fund when the order was executed and the price of the fund when the order is corrected. Losses may be covered from our assets and gains that may result from such order correction will be retained by us as additional compensation associated with order processing.

Voting Rights

We will vote the shares of a fund owned by Separate Account B according to your instructions. However, if the 1940 Act or any related regulations should change, or if interpretations of it or related regulations should change, and we decide that we are permitted to vote the shares of a fund in our own right, we may decide to do so.

We determine the number of shares that you have in a Subaccount by dividing the Contract's Contract Value in that Subaccount by the net asset value of one share of the fund in which a Subaccount invests. We count fractional votes. We will determine the number of shares you can instruct us to vote 180 days or less before a fund shareholder meeting. We will ask you for voting instructions by mail at least ten days before the meeting. If we do not receive your instructions in time, we will vote the shares in the same proportion as the instructions received from all contracts in that Subaccount. We will also vote shares we hold in Separate Account B which are not attributable to Contract Owners in the same proportion. The effect of proportional voting is that a small number of Contract Owners may decide the outcome of a vote.

State Regulation

We are regulated by the Insurance Department of the State of Iowa. We are also subject to the insurance laws and regulations of all jurisdictions where we do business. The Contract offered by this prospectus has been approved where required by those jurisdictions. We are required to submit annual statements of our operations, including financial statements, to the Insurance Departments of the various jurisdictions in which we do business to determine solvency and compliance with state insurance laws and regulations.

Legal Proceedings

We are not aware of any pending legal proceedings that are likely to have a material adverse effect upon the Company's ability to meet its obligations under the Contract, Directed Services LLC's ability to distribute the Contract or upon the separate account.

- **Litigation.** Notwithstanding the foregoing, the Company and/or Directed Services LLC, is a defendant in a number of litigation matters arising from the conduct of its business, both in the ordinary course and otherwise. In some of these matters, claimants seek to recover very large or indeterminate amounts, including compensatory, punitive, treble and exemplary damages. Certain claims are asserted as class actions. Modern pleading practice in the U.S. permits considerable variation in the assertion of monetary damages and other relief. The variability in pleading requirements and past experience demonstrates that the monetary and other relief that may be requested in a lawsuit or claim oftentimes bears little relevance to the merits or potential value of a claim.
- **Regulatory Matters.** As with other financial services companies, the Company and its affiliates, including Directed Services LLC, periodically receive informal and formal requests for information from various state and federal governmental agencies and self-regulatory organizations in connection with inquiries and investigations of the products and practices of the Company or the financial services industry. It is the practice of the Company to cooperate fully in these matters. Regulatory investigations, exams, inquiries and audits could result in regulatory action against the Company or subject the Company to settlement payments, fines, penalties and other financial consequences, as well as changes to the Company's policies and procedures.

The outcome of a litigation or regulatory matter and the amount or range of potential loss is difficult to forecast and estimating potential losses requires significant management judgment. It is not possible to predict the ultimate outcome for all pending litigation and regulatory matters and given the large and indeterminate amounts sought and the inherent unpredictability of such matters, it is possible that an adverse outcome in certain litigation or regulatory matters could, from time to time, have a material adverse effect upon the Company's results of operations or cash flows in a particular quarterly or annual period.

FEDERAL TAX CONSIDERATIONS

Introduction

The Contract described in this prospectus is designed to be treated as an annuity for U.S. federal income tax purposes. This section discusses our understanding of current federal income tax laws affecting the Contract. The U.S. federal income tax treatment of the Contract is complex and sometimes uncertain. You should keep the following in mind when reading this section:

- Your tax position (or the tax position of the beneficiary, as applicable) determines the federal taxation of amounts held or paid out under the Contract;
- Tax laws change. It is possible that a change in the future could affect Contracts issued in the past, including the Contract described in this prospectus;

TABLE OF CONTENTS

- This section addresses some, but not all, applicable federal income tax rules and generally does not discuss federal estate and gift tax implications, state and local taxes or any other tax provisions;
- We do not make any guarantee about the tax treatment of the Contract or transactions involving the Contract; and
- No assurance can be given that the IRS would not assert, or that a court would not sustain, a position contrary to any of those set forth below.

When consulting a tax and/or legal adviser, be certain that he or she has expertise with respect to the provisions of the Internal Revenue Code of 1986, as amended, (the “Tax Code”) that apply to your tax concerns.

We do not intend this information to be tax advice. No attempt is made to provide more than a general summary of information about the use of the Contract with non-tax-qualified and tax-qualified retirement arrangements, and the Tax Code may contain other restrictions and conditions that are not included in this summary. You should consult with a tax and/or legal adviser for advice about the effect of federal income tax laws, state tax laws or any other tax laws affecting the Contract or any transactions involving the Contract.

Types of Contracts: Nonqualified or Qualified

The Contract described in this prospectus may be purchased on a non-tax-qualified basis (nonqualified Contracts) or on a tax-qualified basis (qualified Contracts).

Nonqualified Contracts. Nonqualified Contracts do not receive the same tax benefits as are afforded to contracts funding qualified plans. You may not deduct the amount of your premium payments to a nonqualified Contract. Rather, nonqualified Contracts are purchased with after-tax contributions to save money, generally for retirement, with the right to receive annuity payments for either a specified period of time or over a lifetime.

Qualified Contracts. Qualified Contracts are designed for use by individuals whose premium payments are comprised solely of proceeds from and/or contributions to retirement plans or programs that are intended to qualify as plans or programs entitled to special favorable income tax treatment under Sections 401(a), 401(k), 403(a), 403(b), 408, 408A or 457(b) of the Tax Code. Qualified Contracts may also be offered in connection with deferred compensation plans under Tax Code Section 457(f). **Employers or individuals intending to use the Contract with such plans should seek legal and tax advice.**

Taxation of Nonqualified Contracts

Taxation of Gains Prior to Distribution or Annuity Starting Date

General. Tax Code Section 72 governs the federal income taxation of annuities in general. We believe that if you are a natural person (in other words, an individual), you will generally not be taxed on increases in the value of a nonqualified Contract until a distribution occurs or until annuity payments begin. This assumes that the Contract will qualify as an annuity contract for federal income tax purposes. For these purposes, the agreement to collaterally assign or pledge any portion of the Contract Value will be treated as a distribution. In order to be eligible to receive deferral of taxation, the following requirements must be satisfied:

- **Diversification.** Tax Code Section 817(h) requires that in a nonqualified Contract the investments of the funds be “adequately diversified” in accordance with Treasury Regulations in order for the Contract to qualify as an annuity contract under federal tax law. The separate account, through the funds, intends to comply with the diversification requirements prescribed by Tax Code Section 817(h) and by Treasury Regulations Sec. 1.817-5, which affects how the funds’ assets may be invested. If it is determined, however, that your Contract does not satisfy the applicable diversification requirements because a Subaccount’s corresponding fund fails to be adequately diversified for whatever reason, we will take appropriate steps to bring your Contract into compliance with such requirements, and we reserve the right to modify your Contract as necessary to do so;
- **Investor Control.** Although earnings under nonqualified annuity Contracts are generally not taxed until withdrawn, the IRS has stated in published rulings that a variable Contract Owner will be considered the owner of separate account assets if the Contract Owner possesses incidents of investment control over the assets. In these circumstances, income and gains from the separate account assets would be currently includible in the variable Contract Owner’s gross income. Future guidance regarding the extent to which owners could direct their investments among Subaccounts without being treated as owners of the underlying assets of the separate account may adversely affect the tax treatment of existing Contracts. The Company therefore reserves the right to modify the Contract as necessary to attempt to prevent the Contract Owner from being considered the federal tax owner of a proportional share of the assets of the separate account;

TABLE OF CONTENTS

- **Required Distributions.** In order to be treated as an annuity contract for federal income tax purposes, the Tax Code requires a nonqualified Contract to contain certain provisions specifying how your interest in the Contract will be distributed in the event of your death. The nonqualified Contracts contain provisions that are intended to comply with these Tax Code requirements, although no regulations interpreting these requirements have yet been issued. When such requirements are clarified by regulation or otherwise, we intend to review such distribution provisions and modify them if necessary to assure that they comply with the applicable requirements;
- **Non-Natural Owners of a Nonqualified Contract.** If the owner of the Contract is not a natural person (in other words, is not an individual), a nonqualified Contract generally is not treated as an annuity for federal income tax purposes and the income on the Contract for the taxable year is currently taxable as ordinary income. Income on the Contract is any increase in the Contract Value over the “investment in the Contract” (generally, the premium payments or other consideration you paid for the Contract less any nontaxable Withdrawals) during the taxable year. There are some exceptions to this rule and a non-natural person should consult with a tax and/or legal adviser before purchasing the Contract. When the Contract Owner is not a natural person, a change in the Annuitant is treated as the death of the Contract Owner for purposes of the required distribution rules described above; and
- **Delayed Annuity Starting Date.** If the Contract’s annuity starting date occurs (or is scheduled to occur) at a time when the Annuitant has reached an advanced age (e.g., after age 95), it is possible that the Contract would not be treated as an annuity for federal income tax purposes. In that event, the income and gains under the Contract could be currently includible in your income.

Taxation of Distributions

General. When a withdrawal from a nonqualified Contract occurs before the Contract’s annuity starting date, the amount received will be treated as ordinary income subject to tax up to an amount equal to the excess (if any) of the Contract Value (unreduced by the amount of any surrender charge) immediately before the distribution over the Contract Owner’s investment in the Contract at that time. A Market Value Adjustment, if applicable, could increase the Contract Value. Investment in the Contract is generally equal to the amount of all premium payments to the Contract, plus amounts previously included in your gross income as the result of certain loans, collateral assignments or gifts, less the aggregate amount of non-taxable distributions previously made.

In the case of a surrender under a nonqualified Contract, the amount received generally will be taxable only to the extent it exceeds the Contract Owner’s investment in the Contract.

10% Penalty Tax. A distribution from a nonqualified Contract may be subject to a penalty tax equal to 10% of the amount treated as income. In general, however, there is no penalty tax on distributions:

- Made on or after the taxpayer reaches age 59½;
- Made on or after the death of a Contract Owner (or the primary Annuitant if the Contract Owner is a non-natural person);
- Attributable to the taxpayer’s becoming disabled as defined in the Tax Code;
- Made as part of a series of substantially equal periodic payments (at least annually) over your life or life expectancy or the joint lives or joint life expectancies of you and your designated beneficiary; or
- The distribution is allocable to investment in the Contract before August 14, 1982.

The 10% penalty tax does not apply to distributions from an immediate annuity as defined in the Tax Code. Other exceptions may be applicable under certain circumstances and special rules may be applicable in connection with the exceptions enumerated above. A tax and/or legal adviser should be consulted with regard to exceptions from the penalty tax.

Tax-Free Exchanges. Section 1035 of the Tax Code permits the exchange of a life insurance, endowment or annuity contract for an annuity contract on a tax-free basis. In such instance, the “investment in the contract” in the old contract will generally carry over to the new contract. You should consult with your tax and/or legal adviser regarding procedures for making Section 1035 exchanges.

If your Contract is purchased through a tax-free exchange of an annuity contract that was purchased prior to August 14, 1982, then any distributions other than annuity payments will be treated, for tax purposes, as coming:

- First, from any remaining “investment in the contract” made prior to August 14, 1982, and exchanged into the Contract;
- Next, from any “income on the contract” attributable to the investment made prior to August 14, 1982;
- Then, from any “income on the contract” attributable to investments made after August 13, 1982; and
- Lastly, from any remaining “investment in the contract” made after August 13, 1982

TABLE OF CONTENTS

In certain instances, the partial exchange of a portion of one annuity contract for another contract is a tax-free exchange. Pursuant to IRS guidance, receipt of partial Withdrawals or surrenders from either the original contract or the new contract during the 180 day period beginning on the date of the partial exchange may retroactively negate the partial exchange. If the partial exchange is retroactively negated, the amount exchanged from the original contract may be treated as a withdrawal, taxable as ordinary income to the extent of gain in the original contract and, if the partial exchange occurred prior to you reaching age 59½, may be subject to an additional 10% penalty tax. We are not responsible for the manner in which any other insurance company, for tax reporting purposes, or the IRS, with respect to the ultimate tax treatment, reports or recognizes a partial exchange. We strongly advise you to discuss any proposed 1035 exchange or subsequent distribution within 180 days of a partial exchange with your tax and/or legal adviser prior to proceeding with the transaction.

Taxation of Annuity Payments. Although tax consequences may vary depending upon the payment option elected under an annuity contract, a portion of each annuity payment is generally not taxed and the remainder is taxed as ordinary income. The non-taxable portion of an annuity payment is generally determined in a manner that is designed to allow you to recover your investment in the Contract ratably on a tax-free basis over the expected stream of annuity payments, as determined when annuity payments start. Once your investment in the Contract has been fully recovered, however, the full amount of each subsequent annuity payment is subject to tax as ordinary income.

Annuity Contracts that are partially annuitized are treated as separate contracts with their own annuity starting date and exclusion ratio. Specifically, an exclusion ratio will be applied to any amount received as an annuity under a portion of the annuity Contract, provided that annuity payments are made for a period of ten years or more or for life. Please consult your tax and/or legal adviser before electing a partial annuitization.

Death Benefits. Amounts may be distributed from a Contract because of your death or the death of the Annuitant. Different distribution requirements apply if your death occurs:

- After you begin receiving annuity payments under the Contract; or
- Before you begin receiving such distributions.

If your death occurs after you begin receiving annuity payments, any remaining distributions must be made at least as rapidly as under the method in effect at the time of your death.

If your death occurs before you begin receiving annuity payments, your entire balance must be distributed within five years after the date of your death. For example, if you die on September 1, 2019, your entire balance must be distributed by August 31, 2024. However, if distributions begin within one year of your death, then payments may be made over one of the following timeframes:

- Over the life of the designated beneficiary; or
- Over a period not extending beyond the life expectancy of the designated beneficiary.

If the designated beneficiary is your spouse, the Contract may be continued with the surviving spouse as the new Contract Owner. If the Contract Owner is a non-natural person and the primary Annuitant dies or is changed, the same rules apply as outlined above for the death of the Contract Owner.

Generally, amounts distributed from a Contract because of your death or the death of the Annuitant prior to the time annuity payments begin are includible in the income of the recipient as follows:

- If distributed in a lump sum, they are taxed in the same manner as a surrender of the Contract; or
- If distributed under a payment option, they are taxed in the same way as annuity payments.

Special rules apply to amounts distributed after a beneficiary has elected to maintain the Contract Value and receive payments.

If the death occurs after annuity payments begin, a guaranteed period exists under the annuity option selected, and the Annuitant dies before the end of that period, payments made for the remainder of that period are includible in income as follows:

- If distributed in a lump sum, they are included in income to the extent that they exceed the unrecovered investment in the Contract at that time; or
- If distributed in accordance with the existing annuity option selected, they are fully excluded from income until the remaining investment in the Contract is deemed to be recovered, and all payments thereafter are fully includible in income.

Some Contracts offer a death benefit that may exceed the greater of the premium payments and the Contract Value. Certain charges are imposed with respect to these death benefits. It is possible that these charges (or some portion thereof) could be treated for federal tax purposes as a distribution from the Contract.

TABLE OF CONTENTS

Collateral Assignments, Pledges, Gratuitous Transfers and Other Issues. A pledge or collateral assignment (or agreement to pledge or collaterally assign) any portion of the Contract Value of a nonqualified Contract is treated as a distribution of such amount or portion. If the entire Contract Value is pledged or collaterally assigned, subsequent increases in the Contract Value are also treated as distributions for as long as the pledge or collateral assignment remains in place. The investment in the Contract is increased by the amount includible in income with respect to such pledge or collateral assignment, though it is not affected by any other aspect of the pledge or collateral assignment (including its release).

If an owner transfers a nonqualified Contract without adequate consideration (a gratuitous transfer) to a person other than the owner's spouse (or to a former spouse incident to a divorce), the owner must include in income the difference between the "Cash Surrender Value" and the investment in the Contract at the time of the transfer. In such case, the transferee's investment in the Contract will be increased to reflect the amount that is included in the transferor's income. The exceptions for transfers to an owner's spouse or former spouse are limited to individuals who are treated as spouses under federal law.

The designation of an Annuitant or payee other than an owner may result in certain tax consequences to you that are generally not discussed herein.

Anyone contemplating any pledges, collateral assignments, gratuitous transfers, or other designations, should consult a tax and/or legal adviser regarding the potential tax effects of such a transaction.

Multiple Contracts. Tax laws require that all nonqualified deferred annuity Contracts that are issued by a company or its affiliates to the same Contract Owner during any calendar year be treated as one annuity contract for purposes of determining the amount includible in gross income under Tax Code Section 72(e). In addition, the Treasury Department has specific authority to issue regulations that prevent the avoidance of Tax Code Section 72(e) through the serial purchase of annuity contracts or otherwise.

Net Investment Income Tax. A net investment income tax of 3.8% will apply to some types of investment income. This tax will apply to all taxable distributions from nonqualified Contracts. This tax only applies to taxpayers with "modified adjusted gross income" above \$250,000 in the case of married couples filing jointly or a qualifying widow(er) with dependent child, \$125,000 in the case of married couples filing separately, and \$200,000 for all others.

Withholding. We will withhold and remit to the IRS a part of the taxable portion of each distribution made under a Contract unless the distributee notifies us at or before the time of the distribution that he or she elects not to have any amounts withheld. Withholding is mandatory, however, if the distributee fails to provide a valid taxpayer identification number, if we are notified by the IRS that the taxpayer identification number we have on file is incorrect or if payment is made outside of the U.S. The withholding rates applicable to the taxable portion of periodic annuity payments are the same as the withholding rates generally applicable to payments of wages. In addition, a 10% withholding rate applies to the taxable portion of any non-periodic payments. Regardless of whether you elect to have federal income tax withheld, you are still liable for payment of federal income tax on the taxable portion of the payment.

Certain states have indicated that state income tax withholding will also apply to payments from the Contracts made to residents. Generally, an election out of federal withholding will also be considered an election out of state withholding. In some states, you may elect out of state withholding, even if federal withholding applies. If you need more information concerning a particular state or any required forms, please contact Customer Service.

If the payee is a non-resident alien, then U.S. federal withholding on taxable distributions will generally be at a 30% rate, unless a lower tax treaty rate applies. We may require additional documentation prior to processing any requested transaction.

If the payee of a distribution from the Contract is a foreign financial institution ("FFI") or a non-financial foreign entity ("NFFE") within the meaning of the Tax Code as amended by the Foreign Account Tax Compliance Act ("FATCA"), the distribution could be subject to U.S. federal withholding tax on the taxable amount of the distribution at a 30% rate irrespective of the status of any beneficial Owner of the Contract or the distribution. The rules relating to FATCA are complex, and a tax advisor should be consulted if an FFI or NFFE is or may be designated as a payee with respect to the Contract.

Taxation of Qualified Contracts

Eligible Retirement Plans and Programs

The Contract may have been purchased with the following retirement plans and programs to accumulate retirement savings:

- **Sections 401(a), 401(k) and 403(a) Plans.** Sections 401(a), 401(k), and 403(a) of the Tax code permit certain employers to establish various types of retirement plans for employees, and permit self-employed individuals to establish these plans for themselves and their employees;

TABLE OF CONTENTS

- **403(b) Plans.** Section 403(b) of the Tax Code allows employees of certain Tax Code Section 501(c)(3) organizations and public schools to exclude from their gross income the premium payments made, within certain limits, to a Contract that will provide an annuity for the employee's retirement;
- **Individual Retirement Annuities ("IRA") and Roth IRA.** Section 408 of the Tax Code permits eligible individuals to contribute to an individual retirement program known as an Individual Retirement Annuity ("IRA"). Certain employers may establish Simplified Employee Pension ("SEP") or Savings Incentive Match Plan for Employees ("SIMPLE") plans to provide IRA contributions on behalf of their employees. Section 408A of the Tax Code permits certain eligible individuals to contribute to a Roth IRA, which provides for tax-free distributions, subject to certain restrictions. **Sales of the Contract for use with IRAs or Roth IRAs may be subject to special requirements of the IRS. The IRS has not reviewed the Contract described in this prospectus for qualification as an IRA and has not addressed, in a ruling of general applicability, whether the Contract's death benefit provisions comply with IRA qualification requirements;** and
- **457 Plans.** Section 457 of the Tax Code permits certain employers to offer deferred compensation plans for their employees. These plans may be offered by state governments, local governments, political subdivisions, agencies, instrumentalities and certain affiliates of such entities (governmental employers), as well as non-governmental, tax-exempt organizations (non-governmental employers). A 457 plan may be either a 457(b) plan or a 457(f) plan. Participation in a 457(b) plan maintained by a non-governmental employer is generally limited to a select group of management and highly-compensated employees (other than 457(b) plans maintained by nonqualified, church-controlled organizations). Depending on the plan design, the participant may be entitled to determine the investment allocation of their deferred compensation account. There is no further information specific to 457 plans in this prospectus.

The Company may offer or may have offered the Contract for use with certain other types of qualified plans. Please see your Contract and consult with your tax adviser if you have questions about other types of plan arrangements not discussed herein.

Special Considerations for IRAs. IRAs are subject to limits on the amounts that can be contributed, the deductible amount of the contribution, the persons who may be eligible, and the time when distributions commence. Contributions to IRAs must be made in cash or as a rollover or a transfer from another eligible plan. Also, distributions from IRAs, individual retirement accounts, and other types of retirement plans may be "rolled over" on a tax-deferred basis into an IRA. You may roll over a distribution from an IRA to an IRA only once in any 12 month period. You will not be able to roll over any portion of an IRA distribution if you rolled over any other IRA distribution during the preceding one-year period. This limit applies by aggregating all of your IRAs, including SEP and SIMPLE IRAs as well as traditional and Roth IRAs effectively treating them as one IRA for purposes of this limit. Please note that this one-rollover-per-year rule does not apply to: (1) the conversion of a traditional IRA to a Roth IRA; (2) a rollover to or from a qualified plan; or (3) a trustee-to-trustee transfer between IRAs. Please consult your own tax and/or legal adviser if you have additional questions about these rules.

Early distribution from SIMPLE IRAs made within two years of beginning participation in the SIMPLE IRA are subject to a 25% early distribution tax.

Special Considerations for Roth IRAs. Contributions to a Roth IRA are subject to limits on the amount of contributions and the persons who may be eligible to contribute. Roth IRA contributions are not deductible, and must be made in cash or as a rollover or transfer from another Roth IRA, IRA or eligible plan. Individuals may convert an IRA, SEP, or a SIMPLE to a Roth IRA. Such rollovers and conversions are subject to tax, and other special rules may apply. A conversion of a traditional IRA to a Roth IRA, and a rollover from any other eligible retirement plan to a Roth IRA, made after December 31, 2017, cannot be recharacterized as having been made to a traditional IRA.

You will not be able to roll over any portion of a Roth IRA distribution if you rolled over any other IRA distribution during the preceding one-year period. This limit applies by aggregating all of your IRAs, including SEP and SIMPLE IRAs, as well as traditional and Roth IRAs, effectively treating them as one IRA for purposes of this limit. Please note that this one-rollover-per-year rule does not apply to: (1) the conversion of a traditional IRA to a Roth IRA; (2) a rollover to or from a qualified plan; or (3) a trustee-to-trustee transfer between Roth IRAs. Please consult your own tax and/or legal adviser if you have additional questions about these rules.

A 10% penalty tax may apply to amounts attributable to a conversion to a Roth IRA if the amounts are distributed during the five taxable years beginning with the year in which the conversion was made. Sales of a Contract for use with a Roth IRA may be subject to special requirements of the IRS. The IRS has not reviewed the Contracts described in this prospectus for qualification as Roth IRAs and has not addressed, in a ruling of general applicability, whether the Contract's death benefit provisions comply with IRS qualification requirements.

Taxation

The tax rules applicable to qualified Contracts vary according to the type of qualified Contract and the specific terms and conditions of the qualified Contract and the terms and conditions of the qualified plan or program. The ultimate effect of federal income taxes on the amounts held under a qualified Contract, or on income phase (i.e., annuity) payments from a qualified Contract, depends upon the type of qualified Contract or program as well as your particular facts and circumstances. Special favorable tax treatment may be available for certain types of contributions and distributions. In addition, certain requirements must be satisfied in purchasing a qualified Contract with proceeds from a tax-qualified plan or program in order to continue receiving favorable tax treatment.

Adverse tax consequences may result from:

- Contributions in excess of specified limits;
- Distributions before age 59½ (subject to certain exceptions);
- Distributions that do not conform to specified commencement and minimum distribution rules; and
- Certain other specified circumstances.

Some qualified plans and programs are subject to additional distribution or other requirements that are not incorporated into the Contract described in this prospectus. No attempt is made to provide more than general information about the use of the Contract with qualified plans and programs. Contract Owners, sponsoring employers, participants, Annuitants and beneficiaries are cautioned that the rights of any person to any benefit under these qualified plans and programs may be subject to the terms and conditions of the plan or program, regardless of the terms and conditions of the Contract. The Company is not bound by the terms and conditions of such plans and programs to the extent such terms contradict the language of the Contract, unless we consent in writing.

Contract Owners, sponsoring employers, participants, Annuitants and beneficiaries generally are responsible for determining that contributions, distributions and other transactions with respect to the Contract comply with applicable law. **Therefore, you should seek tax and/or legal advice regarding the suitability of the Contract for your particular situation.** The following discussion assumes that qualified Contracts are purchased with proceeds from and/or contributions under retirement plans or programs that qualify for the intended special federal tax treatment.

Tax Deferral. Under federal tax laws, earnings on amounts held in annuity contracts are generally not taxed until they are withdrawn. However, in the case of a qualified plan (as described in this prospectus), an annuity contract is not necessary to obtain this favorable tax treatment and does not provide any tax benefits beyond the deferral already available to the qualified plan itself. Annuities do provide other features and benefits (such as the guaranteed death benefit or the option of lifetime income phase options at established rates) that may be valuable to you. You should discuss your alternatives with a qualified financial representative taking into account the additional fees and expenses you may incur in an annuity.

Contributions

In order to be excludable from gross income for federal income tax purposes, total annual contributions to certain qualified plans and programs are limited by the Tax Code. We provide general information on these requirements for certain plans and programs below. You should consult with a tax and/or legal adviser in connection with contributions to a qualified Contract.

401(a), 401(k), 403(a) and 403(b) Plans. The total annual contributions (including pre-tax contributions) by you and your employer cannot exceed, generally, the lesser of 100% of your compensation or \$56,000 (as indexed for 2019). Compensation means your compensation for the year from the employer sponsoring the plan and includes any elective deferrals under Tax Code Section 402(g) and any amounts not includible in gross income under Tax Code Sections 125 or 457.

This limit applies to your contributions as well as to any contributions made by your employer on your behalf. An additional requirement limits your salary reduction contributions to a 401(k) or 403(b) plan to generally no more than \$19,000 (2019). Contribution limits are subject to annual adjustments for cost-of-living increases. Your own limit may be higher or lower, depending upon certain conditions.

Contributions and premium payments to your account(s) will generally be excluded from your gross income.

Catch-up Contributions. Notwithstanding the contribution limits noted above, if permitted by the plan, a participant in a 401(k), Roth 401(k) or 403(b) plan who is at least age 50 by the end of the plan year may contribute an additional amount ("Age 50 Catch-ups") not to exceed the lesser of:

- \$6,000 (2019); or
- The participant's compensation for the year reduced by any other elective deferrals of the participant for the year.

[TABLE OF CONTENTS](#)

Traditional and Roth IRAs. You are eligible to contribute to a traditional IRA if you have compensation includible in income for the taxable year and you are not age 70½ by the end of the year. For 2019, the contribution to your traditional IRA cannot exceed the lesser of \$6,000 or your taxable compensation. If you are age 50 or older, you can make an additional catch-up contribution of \$1,000. Contributions to a traditional IRA may be deductible depending on your modified adjusted gross income (“MAGI”), tax filing status, and whether you or your spouse are an active participant in a retirement plan.

You may be eligible to contribute to a Roth IRA if you have compensation includible in income for the year. For 2019, the contribution to a Roth IRA cannot exceed the lesser of \$6,000 or your taxable compensation. If you are age 50 or older, you can make an additional catch up contribution of \$1,000. The amount you can contribute to a Roth IRA is reduced by the amount of any contributions you make to an individual retirement plan for your benefit (not including SEPs or SIMPLE IRAs). Your ability to contribute to a Roth IRA may be further limited by your MAGI and tax filing status. Contributions to a Roth IRA are not deductible.

Distributions – General

Certain tax rules apply to distributions from the Contract. A distribution is any amount taken from a Contract including Withdrawals, income phase (i.e., annuity) payments and death benefit proceeds. If a portion of a distribution is taxable, the distribution will be reported to the IRS.

Section 401(a), 401(k), 403(a) and 403(b) Plans. Distributions from these plans are taxed as received unless one of the following is true:

- The distribution is an eligible rollover distribution and is directly transferred or rolled over within 60 days to another plan eligible to receive rollovers or to a traditional IRA in accordance with the Tax Code;
- You made after-tax contributions to the plan. In this case, depending upon the type of distribution, the amount will be taxed on all or part of the earnings on the contributions according to the rules detailed in the Tax Code; or
- The distribution is a qualified health insurance premium of a retired public safety officer as defined in the Pension Protection Act of 2006.

A distribution is an eligible rollover distribution unless it is:

- Part of a series of substantially equal periodic payments (at least one per year) made over the life (or life expectancy) of the participant or the joint lives (or joint life expectancies) of the participant and his designated beneficiary or for a specified period of ten years or more;
- A required minimum distribution under Tax Code Section 401(a)(9);
- A hardship withdrawal; or
- Otherwise not recognized under applicable regulations as eligible for rollover.

Traditional IRAs. All distributions from a traditional IRA are generally taxed as received unless either one of the following is true:

- The distribution is directly transferred or rolled over within 60 days to another traditional IRA or to a plan eligible to receive rollovers as permitted under the Tax Code; or
- You made after-tax contributions to the traditional IRA. In this case, the distribution will be taxed according to rules detailed in the Tax Code.

10% Additional Tax. The Tax Code imposes a 10% additional tax on the taxable portion of any distribution from a Contract used with a 401(a), 401(k), 403(a) or 403(b) plan (collectively, qualified plans). The Tax Code imposes a 10% additional tax on the taxable portion of any distribution from a traditional or Roth IRA.

Exceptions to the 10% additional tax apply if:

- You have attained age 59½;
- You have become disabled, as defined in the Tax Code;
- You have died and the distribution is to your beneficiary;
- The distribution amount is rolled over tax free into another eligible retirement plan or to a traditional or Roth IRA in accordance with the terms of the Tax Code;
- The distribution is paid directly to the government in accordance with an IRS levy;
- The distribution is a qualified reservist distribution as defined under the Tax Code;
- The distribution is eligible for penalty relief extended to victims of certain natural disasters; or
- You have unreimbursed medical expenses that are deductible (without regard to whether you itemize deductions).

TABLE OF CONTENTS

Additional exceptions may apply to distributions from a traditional or Roth IRA if:

- The distribution amount is made in substantially equal periodic payments (at least annually) over your life (or life expectancy) or the joint lives (or joint life expectancies) of you and your designated beneficiary;
- The distributions are not more than the cost of your medical insurance due to a period of unemployment (subject to certain conditions);
- The distributions are not more than your qualified higher education expenses; or
- You use the distribution to buy, build or rebuild a first home.

Additional exceptions may apply to distributions from a qualified plan if:

- You have separated from service with the plan sponsor at or after age 55;
- You are a qualified public safety employee taking a distribution from a governmental plan and you separated from service after age 50;
- You have separated from service with the plan sponsor and the distribution amount is made in substantially equal periodic payments (at least annually) over your life (or life expectancy) or the joint lives (or joint life expectancies) of you and your designated Beneficiary; or
- The withdrawal amount is paid to an alternate payee under a Qualified Domestic Relations Order (“QDRO”).

The Tax Code may provide other exceptions or impose other penalty taxes in other circumstances.

Roth IRAs. A qualified distribution from a Roth IRA is not includible in gross income. A qualified distribution from a Roth IRA is a payment or distribution that meets the following two requirements:

- It is made after the five-year period beginning with the first taxable year for which a contribution was made to any Roth IRA established for the benefit of the owner; and
- It is:
 - Made on or after the date on which the owner attains age 59 ½;
 - Made to a beneficiary (or to the estate of the owner) on or after the death of the owner;
 - Attributable to the owner being disabled (within the meaning of the Tax Code); or
 - A qualified first time homebuyer distribution (within the meaning of the Tax Code).

If a payment or a distribution from a Roth account is not a qualified distribution, the portion allocable to earnings is includible in gross income and may be subject to the additional 10% additional tax discussed above. Special ordering rules apply for purposes of determining the taxable portion of a payment or distribution from a Roth account.

Distributions — Eligibility

Distributions generally may occur only upon the occurrence of certain events. The terms of your 401(a), 401(k), 403(a) or 403(b) plan will govern when you are eligible to take a distribution from the plan. The following describes circumstances when you may be able to take a distribution from certain more common types of plans.

401(a) Pension Plans. Subject to the terms of your 401(a) pension plan, distributions generally may occur only upon:

- Retirement;
- Death;
- Disability;
- Severance from employment;
- Attainment of normal retirement age;
- Attainment of age 62; or
- Termination of the plan.

Such distributions remain subject to other applicable restrictions under the Tax Code.

401(k) Plans. Subject to the term of your 401(k) plan, distributions from your 401(k) employee account, and possibly all or a portion of your 401(k) employer account, generally may occur only upon:

- Retirement;
- Death;
- Attainment of age 59½;
- Severance from employment;
- Disability;

TABLE OF CONTENTS

- Financial hardship (for 2018 and earlier, contributions only, not earnings); or
- Termination of the plan.

Such distributions remain subject to other applicable restrictions under the Tax Code.

403(b) Plans. Subject to the terms of your 403(b) Contract, distribution of certain salary reduction contributions and earnings on such contributions restricted under Tax Code Section 403(b)(11) generally may occur only upon:

- Retirement;
- Death;
- Attainment of age 59½;
- Severance from employment;
- Disability;
- Financial hardship (for 2018 and earlier, contributions only, not earnings);
- Termination of the plan; or
- Meeting other circumstances as allowed by federal law, regulations or rulings.

Such distributions remain subject to other applicable restrictions under the Tax Code.

Section 403(b) regulations prohibit the distribution of amounts attributable to employer contributions before the earlier of your severance from employment or prior to the occurrence of some event as provided under your employer's plan, such as after a fixed number of years, the attainment of a stated age, or a disability.

If the Company agrees to accept amounts exchanged from a Tax Code Section 403(b)(7) custodial account, such amounts will be subject to the withdrawal restrictions set forth in Tax Code Section 403(b)(7)(A)(ii).

Before we process a withdrawal request to confirm with your 403(b) plan sponsor or otherwise, that the Withdrawals you request from a 403(b) Contract comply with applicable tax requirements.

Lifetime Required Minimum Distributions (401(a), 401(k), 403(a), 403(b) and IRAs)

To avoid certain tax penalties, you and any designated beneficiary must also satisfy the required minimum distribution rules set forth in the Tax Code. These rules dictate the following:

- The start date for distributions;
- The time period in which all amounts in your Contract(s) must be distributed; and
- Distribution amounts.

Start Date. Generally, you must begin receiving distributions by April 1 of the calendar year following the calendar year in which you attain age 70½ or in the case of an employer-sponsored plan, April 1 of the calendar year following the calendar year in which you retire, whichever occurs later, unless:

- Under 401(a), 401(k), 403(a), or 403(b) plans that are not governmental or church plans, you are a 5% owner, in which case such distributions must begin by April 1 of the calendar year following the calendar year in which you attain age 70½; or
- Under 403(b) plans, the Company maintains separate records of amounts held as of December 31, 1986. In this case distribution of these amounts generally must begin by the end of the calendar year in which you attain age 75. However, if you take any distributions in excess of the minimum required amount, then special rules require that the excess be distributed from the December 31, 1986 balance.

Time Period. You must receive distributions from the Contract over a period not extending beyond one of the following time periods:

- Over your life or the joint lives of you and your designated beneficiary; or
- Over a period not greater than your life expectancy or the joint life expectancies of you and your designated beneficiary.

Distribution Amounts. The amount of each required minimum distribution must be calculated in accordance with Tax Code Section 401(a)(9). Before annuity payments begin, the required minimum distribution amount is generally determined by dividing the entire interest in the account as of December 31 of the preceding year by the applicable distribution period. The entire interest in the account includes the amount of any outstanding rollover, transfer and recharacterization, if applicable, and the actuarial present value of other benefits provided under the account, such as guaranteed death benefits and any optional living benefit. If annuity payments have begun under an annuity option that satisfies the Tax Code Section 401(a)(9) regulations, such payments will generally be viewed as satisfying your required minimum distribution.

50% Excise Tax. If you fail to receive the required minimum distribution for any tax year, a 50% excise tax is imposed on the required amount that was not distributed. In certain circumstances this excise tax may be waived by the IRS.

[TABLE OF CONTENTS](#)

Roth IRAs. Required minimum distributions are not applicable to Roth IRAs during your lifetime. Further information regarding required minimum distributions may be found in your Contract.

Required Distributions upon Death (401(a), 401(k), 403(a), 403(b), IRAs and Roth IRAs)

Different distribution requirements apply after your death, depending upon if you have begun receiving required minimum distributions. Further information regarding required distributions upon death may be found in your Contract.

If your death occurs on or after the date you are required to begin receiving minimum distributions under the Contract, distributions generally must be made at least as rapidly as under the method in effect at the time of your death. Very generally, for benefits not being paid as an annuity, this means calculating the minimum distribution using the longer of the beneficiary's remaining life expectancy or the owner's remaining life expectancy. Tax Code Section 401(a)(9) provides specific rules for calculating the minimum required distributions after your death.

If your death occurs before the date you are required to begin receiving minimum distributions under the Contract, your entire balance generally must be distributed by December 31 of the calendar year containing the fifth anniversary of the date of your death. For example, if you die on September 1, 2019, your entire balance must be distributed to the designated beneficiary by December 31, 2024. However, if distributions begin by December 31 of the calendar year following the calendar year of your death, then payments may be made within one of the following timeframes:

- Over the life of the designated beneficiary; or
- Over a period not extending beyond the life expectancy of the designated beneficiary.

Start Dates for Spousal Beneficiaries. If your death occurs before the date you are required to begin receiving required minimum distributions under the Contract and the designated beneficiary is your spouse, distributions must generally begin on or before the later of the following:

- December 31 of the calendar year following the calendar year of your death; or
- December 31 of the calendar year in which you would have attained age 70½.

No Designated Beneficiary. If your death occurs before the date you are required to begin receiving required minimum distributions under the Contract and there is no designated beneficiary, the entire interest generally must be distributed by the end of the calendar year containing the fifth anniversary of the Contract Owner's death.

Special Rule for IRA Spousal Beneficiaries (IRAs and Roth IRAs Only). In lieu of taking a distribution under these rules, if the sole designated beneficiary is the Contract Owner's surviving spouse, the spousal beneficiary may elect to treat the Contract as his or her own IRA and defer taking a distribution until his or her own start date. The surviving spouse is deemed to have made such an election if the surviving spouse makes a contribution to the Contract, makes a rollover to or from the Contract or fails to take a distribution within the required time period.

Withholding

In general, the withholding rules described above for nonqualified Contracts also apply to Qualified Contract. In addition, special withholding rules apply to eligible rollover distributions from 401(a), 401(k), 403(a) and 403(b) plans.

401(a), 401(k), 403(a) and 403(b) Plans. Generally, eligible rollover distributions from these plans are subject to a mandatory 20% federal income tax withholding. However, mandatory withholding will not be required if you elect a direct rollover of the distributions to an eligible retirement plan or in the case of certain other distributions described in the Tax Code.

Assignment and Other Transfers

401(a), 401(k), 403(a) and 403(b) Plans. Your beneficial interest in the Contract may not be assigned or transferred to persons other than:

- A plan participant as a means to provide benefit payments;
- An alternate payee under a QDRO in accordance with Tax Code Section 414(p);
- The Company as collateral for a loan; or
- The enforcement of a federal income tax lien or levy.

IRAs and Roth IRAs. The Tax Code does not allow a transfer or assignment of your rights under these Contracts except in limited circumstances. Adverse tax consequences may result if you assign or transfer your interest in the Contract to persons other than your spouse incident to a divorce. Anyone contemplating such an assignment or transfer should contact a tax and/or legal adviser regarding the potential tax effects of such a transaction.

Tax Consequences of Living Benefits and Enhanced Death Benefits

Living Benefits. Except as otherwise noted below, when a full or partial withdrawal from a Contract occurs under the MGWB rider, the amount received will be treated as ordinary income subject to tax up to an amount equal to the excess (if any) of the Contract Value (unreduced by the amount of any deferred sales charge) immediately before the distribution over the investment in the Contract at that time.

Investment in the Contract is generally equal to the amount of all contributions to the Contract previously included in your gross income, plus amounts previously included in your gross income as the result of certain loans, assignments, or gifts, less the aggregate amount of non-taxable distributions previously made. The income on the Contract for purposes of calculating the taxable amount of a distribution may be unclear. For example, the living benefits provided under the MGWB rider, as well as any applicable Market Value Adjustment, could increase the Contract Value that applies. Thus, the income on the Contract could be higher than the amount of income that would be determined without regard to such a benefit. As a result, you could have higher amounts of income than will be reported to you. In addition, payments under any guaranteed payment phase of such riders may be subject to the exclusion ratio rules under Tax Code Section 72(b) for tax purposes. **Please consult your tax and/or legal adviser about the tax consequences of living benefits.**

Enhanced Death Benefits. The Contract offers a death benefit that may exceed the greater of premium payments and the Contract Value. It is possible that the IRS could characterize such a death benefit as other than an incidental death benefit, which may result in currently taxable income and could affect the amount of required minimum distributions. Additionally, because certain charges are imposed with respect to some of the available death benefits it is possible those charges (or some portion thereof) could be treated for federal tax purposes as a distribution from the Contract. **Please consult your tax adviser about the tax consequences of enhanced death benefits.**

Same-Sex Marriages

The Contract provides that upon your death a surviving spouse may have certain continuation rights that he or she may elect to exercise for the Contract's Death Benefit and any joint-life coverage under a living benefit. All Contract provisions relating to spousal continuation are available only to a person who meets the definition of "spouse" under federal law. U.S. Treasury Department regulations provide that for federal tax purposes, the term "spouse" does not include individuals (whether of the opposite sex or the same sex) who have entered into a registered domestic partnership, civil union, or other similar formal relationship that is not denominated as a marriage under the laws of the state where the relationship was entered into, regardless of domicile. As a result, if a beneficiary of a deceased owner and the owner were parties to such a relationship, the beneficiary will be required by federal tax law to take distributions from the Contract in the manner applicable to non-spouse beneficiaries and will not be able to continue the Contract. Please consult your tax and/or legal adviser for further information about this subject. Please consult your tax and/or legal adviser for further information about this subject.

Possible Changes in Taxation

Although the likelihood of changes in tax legislation, regulation, rulings and other interpretation thereof is uncertain, there is always the possibility that the tax treatment of the Contracts could change by legislation or other means. It is also possible that any change could be retroactive (that is, effective before the date of the change). You should consult a tax and/or legal adviser with respect to legislative developments and their effect on the Contract.

Taxation of the Company

We are taxed as a life insurance company under the Tax Code. The separate account is not a separate entity from us. Therefore, it is not taxed separately as a "regulated investment company" but is taxed as part of the Company.

We automatically apply investment income and capital gains attributable to the separate account to increase reserves under the Contracts. Because of this, under existing federal tax law we believe that any such income and gains will not be taxed to the extent that such income and gains are applied to increase reserves under the Contracts. In addition, any foreign tax credits attributable to the separate account will be first used to reduce any income taxes imposed on the separate account before being used by the Company.

In summary, we do not expect that we will incur any federal income tax liability attributable to the separate account and we do not intend to make any provision for such taxes. However, changes in federal tax laws and/or their interpretation thereof may result in our being taxed on income or gains attributable to the separate account. In this case we may impose a charge against the separate account (with respect to some or all of the Contracts) to set aside provisions to pay such taxes. We may deduct this amount from the separate account, including from your Contract Value invested in the Subaccounts.

APPENDIX A

CONDENSED FINANCIAL INFORMATION

Except for subaccounts which did not commence operations as of December 31, 2018, the following tables show the Condensed Financial Information (accumulation unit values and number of units outstanding for the indicated periods) for each subaccount of Separate Account B under the Contract with the lowest and highest combination of asset-based charges. This information is current through December 31, 2018, including portfolio names. Portfolio name changes after December 31, 2018 are not reflected in the following information. Complete information is available in the SAI. Contact Customer Service to obtain your copy of the SAI free of charge.

APPENDIX B

The Funds

The following funds are closed to new premiums and transfers. Contract Owners who have value in any of the closed funds may leave their Contract Value in these investments.

Closed Funds

Columbia Variable Portfolio – Small Cap Value Fund (Class 2)	Voya International Index Portfolio (Class S)
ProFund VP Bull	Voya Large Cap Growth Portfolio (Class S)
ProFund VP Europe 30	Voya Limited Maturity Bond Portfolio (Class S)
ProFund VP Rising Rates Opportunity	Voya SmallCap Opportunities Portfolio (Class S)
Voya Global Equity Portfolio (Class S) ¹⁴	VY® Clarion Global Real Estate Portfolio (Class S)
Voya Growth and Income Portfolio (Class S)	VY® Clarion Real Estate Portfolio (Class S)
Voya Index Plus LargeCap Portfolio (Class S)	VY® Columbia Small Cap Value II Portfolio (Class S)
Voya Index Plus MidCap Portfolio (Class S)	VY® Invesco Equity and Income Portfolio (Class S)
Voya Index Plus SmallCap Portfolio (Class S)	VY® JPMorgan Mid Cap Value Portfolio (Class S)

Open Funds

During the accumulation phase, you may allocate your premium payments and Contract Value to any of the open funds available under this Contract, plus any Fixed Interest Allocation that is available. The funds that are currently open and available for allocations are listed below in this appendix. You bear the entire investment risk for amounts you allocate to any fund, and you may lose your principal.

The investment results of the mutual funds (funds) are likely to differ significantly and there is no assurance that any of the funds will achieve their respective investment objectives. You should consider the investment objectives, risks and charges and expenses of the funds carefully before investing. Please refer to the funds' prospectuses for this and additional information.

Shares of the funds will rise and fall in value and you could lose money by investing in them. Shares of the funds are not bank deposits and are not guaranteed, endorsed or insured by any financial institution, the FDIC or any other government agency. Fund prospectuses may be obtained free of charge, from Customer Service at the address and telephone number listed in the prospectus, by accessing the SEC's website or by contacting the SEC Public Reference Room. If you received a summary prospectus for any of the funds available through your Contract, you may also obtain a full prospectus and other fund information free of charge by either accessing the internet address, calling the telephone number or sending an email request to the contact information shown on the front of the fund's summary prospectus.

Certain funds offered under the Contract have investment objectives and policies similar to other funds managed by the fund's investment adviser. The investment results of a fund may be higher or lower than those of other funds managed by the same adviser. There is no assurance and no representation is made that the investment results of any fund will be comparable to those of another fund managed by the same investment adviser.

Certain funds are designated as "fund of funds." Funds offered in a fund of funds structure may have higher fees and expenses than a fund that invests directly in debt and equity securities.

Certain funds employ a managed volatility strategy. A managed volatility strategy is a strategy that is intended to reduce a fund's overall volatility and downside risk and, thereby, help us manage the risks associated with providing certain guarantees under the Contract.

Consult with your investment professional to determine if the funds may be suited to your financial needs, investment time horizon and risk tolerance. You should periodically review these factors to determine if you need to change your investment strategy.

¹⁴ This fund employs a managed volatility strategy. See the "*Funds with Managed Volatility Strategies*" section for more information about managed volatility funds.

APPENDIX C

Fixed Account I

The Fixed Account I (“Fixed Account”) is an optional Fixed Interest Allocation option offered during the accumulation phase of your variable annuity Contract. The Fixed Account, which is a segregated asset account of VIAC, provides a means for you to invest on a tax-deferred basis and earn a guaranteed interest for Guaranteed Interest Periods (Fixed Interest Allocation(s)). We will credit your Fixed Interest Allocation(s) with a fixed rate of interest. We currently offer Fixed Interest Allocations with Guaranteed Interest Periods of five, seven and ten years. In addition, we may offer dollar cost averaging Fixed Interest Allocations, which are six-month and one-year Fixed Interest Allocations available exclusively in connection with our dollar cost averaging program. We may offer additional Guaranteed Interest Periods in some or all states, may not offer all Guaranteed Interest Periods on all Contracts or in all states and the rates for a given Guaranteed Interest Period may vary among contracts. We set the interest rates periodically. We may credit a different interest rate for each Guaranteed Interest Period. The interest you earn in the Fixed Account, as well as your principal, is guaranteed by VIAC, as long as you do not take your money out before the maturity date for the applicable Guaranteed Interest Period. If you take your money out from a Fixed Interest Allocation more than 30 days before the applicable maturity date, we will apply a Market Value Adjustment. A Market Value Adjustment could increase or decrease your Contract Value and/or the amount you take out. A surrender charge may also apply to Withdrawals from your Contract.

For Contracts sold in some states, not all Fixed Interest Allocations are available. You have a right to return a Contract for a refund as described in the Contract prospectus.

The Fixed Account

You may allocate premium payments and transfer your Contract Value to the Guaranteed Interest Periods of the Fixed Account during the accumulation period as described in the Contract prospectus. Every time you allocate money to the Fixed Account, we set up a Fixed Interest Allocation for the Guaranteed Interest Period you select. We will credit your Fixed Interest Allocation with a guaranteed interest rate for the Guaranteed Interest Period you select, so long as you do not withdraw money from that Fixed Interest Allocation before the end of the Guaranteed Interest Period. Each Guaranteed Interest Period ends on its maturity date, which is the last day of the month in which the Guaranteed Interest Period is scheduled to expire.

Your Contract Value in the Fixed Account is the sum of your Fixed Interest Allocations and the interest credited as adjusted for any Withdrawals, transfers or other charges we may impose, including any Market Value Adjustment. Your Fixed Interest Allocation will be credited with the guaranteed interest rate in effect for the Guaranteed Interest Period you selected when we receive and accept your premium or reallocation of Contract Value. We will credit interest daily at a rate that yields the quoted guaranteed interest rate.

If you surrender, withdraw, transfer or annuitize your investment in a Fixed Interest Allocation more than 30 days before the end of the Guaranteed Interest Period, we will apply a Market Value Adjustment to the transaction. A Market Value Adjustment could increase or decrease the amount you surrender, withdraw, transfer or annuitize, depending on current interest rates at the time of the transaction.

Guaranteed Interest Rates

Each Fixed Interest Allocation will have an interest rate that is guaranteed as long as you do not take your money out until its maturity date. We do not have a specific formula for establishing the guaranteed interest rates for the different Guaranteed Interest Periods. We determine guaranteed interest rates at our sole discretion. We cannot predict the level of future interest rates.

Transfers from a Fixed Interest Allocation

You may transfer your Contract Value in a Fixed Interest Allocation to one or more new Fixed Interest Allocations with new Guaranteed Interest Periods, or to any of the Subaccounts of Separate Account B as described in the Contract prospectus on the maturity date of a Guaranteed Interest Period. The minimum amount that you can transfer to or from any Fixed Interest Allocation is \$100. Transfers from a Fixed Interest Allocation may be subject to a Market Value Adjustment. If you have a special Fixed Interest Allocation that was offered exclusively with our dollar cost averaging program, canceling dollar cost averaging will cause a transfer of the entire Contract Value in such Fixed Interest Allocation to the Liquid Assets Subaccount, and such a transfer will be subject to a Market Value Adjustment.

Please be aware that the benefit we pay under certain optional benefit riders will be adjusted by any transfers you make to and from the Fixed Interest Allocations during specified periods while the rider is in effect.

Withdrawals from a Fixed Interest Allocation

During the accumulation phase, you may withdraw a portion of your Contract Value in any Fixed Interest Allocation. You may make systematic Withdrawals of only the interest earned during the prior month, quarter or year, depending on the frequency chosen, from a Fixed Interest Allocation under our systematic withdrawal option. A withdrawal from a Fixed Interest Allocation may be subject to a Market Value Adjustment and a Contract surrender charge. Be aware that Withdrawals may have federal income tax consequences, including a 10% penalty tax, as well as state income tax consequences.

Please be aware that the benefit we pay under any of the optional benefit riders will be reduced by any Withdrawals you made from the Fixed Interest Allocations during the period while the rider is in effect.

Market Value Adjustment

A Market Value Adjustment may decrease, increase or have no effect on your Contract Value. We will apply a Market Value Adjustment: (1) whenever you withdraw or transfer money from a Fixed Interest Allocation (unless made within 30 days before the maturity date of the applicable Guaranteed Interest Period, or under the systematic withdrawal or dollar cost averaging program); and (2) if on the Annuity Start Date a Guaranteed Interest Period for any Fixed Interest Allocation does not end on or within 30 days of the Annuity Start Date.

A Market Value Adjustment may be positive, negative or result in no change. In general, if interest rates are rising, you bear the risk that any Market Value Adjustment will likely be negative and reduce your Contract Value. On the other hand, if interest rates are falling, it is more likely that you will receive a positive Market Value Adjustment that increases your Contract Value. In the event of a full surrender, transfer or annuitization from a Fixed Interest Allocation, we will add or subtract any Market Value Adjustment from the amount surrendered, transferred or annuitized. In the event of a partial withdrawal, transfer or annuitization, we will add or subtract any Market Value Adjustment from the total amount withdrawn, transferred or annuitized (hereinafter referred to as a “Withdrawal”) in order to provide the amount requested.

Effective February 13, 2018 (the “Effective Date”), your Contract was endorsed or otherwise amended to limit any negative Market Value Adjustment that we may apply to a Withdrawal from the Fixed Account. More specifically, on and after the Effective Date, we will limit future negative Market Value Adjustments that we may apply to any Withdrawals from the Fixed Account so that any such Market Value Adjustments will not cause your applicable Fixed Account value to be less than the following “Floor Guarantee”:

- 100% of premiums or other amounts allocated to the Fixed Account, accumulated while so allocated with interest at an effective annual rate equal to the greater of (i) any guaranteed minimum interest rate (“GMIR”) applicable to the Fixed Account and (ii) 1.5%; *minus*
- The amount of any Withdrawals from the Fixed Account (before applying any positive or negative Market Value Adjustments); *minus*
- Any applicable surrender charges.

If your Fixed Account value after application of any Market Value Adjustment or upon any Withdrawal not subject to a Market Value Adjustment is less than the Floor Guarantee, then we will reset your applicable Fixed Account value to equal the amount of your Floor Guarantee.

In applying any Market Value Adjustment, each Fixed Interest Allocation will be considered separately – i.e., amounts allocated to the Fixed Account at different points in time, and earning different rates for different Guaranteed Interest Periods, will be considered separately. The Floor Guarantee has no impact on any positive Market Value Adjustments that may apply to a Withdrawal from a Fixed Interest Allocation.

Additionally, on the Effective Date the GMIR for the Fixed Account is increased to 1.5% if prior to the Effective Date the applicable GMIR was less than 1.5%.

As a result of the above-referenced endorsement or amendment to the Contract, on and after the Effective Date interests in the Fixed Account are no longer securities registered under the Securities Act of 1933.

Contract Value in the Fixed Interest Allocations

On the Contract Date, the Contract Value in any Fixed Interest Allocation in which you are invested is equal to the portion of the initial premium paid and designated for allocation to the Fixed Interest Allocation. On each business day after the Contract Date, we calculate the amount of Contract Value in each Fixed Interest Allocation as follows:

- (1) We take the Contract Value in the Fixed Interest Allocation at the end of the preceding business day;

[TABLE OF CONTENTS](#)

- (2) We credit a daily rate of interest on (1) at the guaranteed rate since the preceding business day;
- (3) We add (1) and (2);
- (4) We subtract from (3) any transfers from that Fixed Interest Allocation; and
- (5) We subtract from (4) any Withdrawals, and then subtract any Contract fees (including any rider charges) and premium taxes.

Additional premium payments and transfers allocated to the Fixed Account will be placed in a new Fixed Interest Allocation. The Contract Value on the date of allocation will be the amount allocated. **Several examples, which illustrate how the Market Value Adjustment works, including the Floor Guarantee, are included below at the end of this Appendix.**

Cash Surrender Value

The Cash Surrender Value is the amount you receive when you surrender the Contract. The Cash Surrender Value of amounts allocated to the Fixed Account will fluctuate daily based on the interest credited to Fixed Interest Allocations, any Market Value Adjustment, and any surrender charge. We guarantee the Cash Surrender Value of amounts allocated to the Fixed Account will never be less than the Floor Guarantee. On any date during the accumulation phase, we calculate the Cash Surrender Value as follows: (1) we start with your Contract Value; (2) we adjust for any Market Value Adjustment; and (3) we deduct any surrender charge, any charge for premium taxes, the annual Contract administrative fee (unless waived), any optional benefit rider charge and any other charges incurred but not yet deducted.

Dollar Cost Averaging from Fixed Interest Allocations

You may elect to participate in our dollar cost averaging program from a Fixed Account Interest Allocation with a Guaranteed Interest Period of one year or less. The Fixed Interest Allocations serve as the source accounts from which we will, on a monthly basis, automatically transfer a set dollar amount of money to other Fixed Interest Allocations or fund Subaccounts selected by you.

The dollar cost averaging program is designed to lessen the impact of market fluctuation on your investment. Since we transfer the same dollar amount to Subaccounts each month, more units of a Subaccount are purchased if the value of its unit is low and fewer units are purchased if the value of its unit is high. Therefore, a lower than average value per unit may be achieved over the long term. However, we cannot guarantee this. When you elect the dollar cost averaging program, you are continuously investing in securities regardless of fluctuating price levels. You should consider your tolerance for investing through periods of fluctuating price levels.

You elect the dollar amount you want transferred under this program. Each monthly transfer must be at least \$100. You may change the transfer amount once each Contract Year.

Transfers from a Fixed Interest Allocation under the dollar cost averaging program are not subject to a Market Value Adjustment.

We may in the future offer additional Subaccounts or withdraw any Subaccount or Fixed Interest Allocation to or from the dollar cost averaging program or otherwise modify, suspend or terminate this program. Of course, such change will not affect any dollar cost averaging programs in operation at the time.

Suspension of Payments

We have the right to delay payment of amounts from a Fixed Interest Allocation for up to six months.

Market Value Adjustment Examples with Application of the Floor Guarantee

The following examples show the application of the Floor Guarantee in relation to any negative MVA on Withdrawals from the Fixed Account.

Examples #1 and #2 use the following assumptions:

- On May 15, 2000, \$200,000 is invested in the Fixed Account with a Guaranteed Interest Period of 10 years;
- On the Maturity Date, the full amount invested in the Fixed Account is renewed into another 10 year Guaranteed Interest Period;
- A Withdrawal request is made on March 30, 2018, when the Fixed Account value is \$350,000;
- No prior Withdrawals affecting the Fixed Account have been taken;
- A 3% GMIR applies to the Fixed Account under the Contract;
- A 10% negative MVA would normally apply to full Withdrawal absent the Floor Guarantee; and
- Any applicable surrender charges are not applied.

TABLE OF CONTENTS

Example #1: Full Withdrawal with a negative MVA limited by the Floor Guarantee

Step 1: Calculate the Fixed Account value after the MVA (without the Floor Guarantee).

In this example, the Fixed Account value (\$350,000) after application of the -10% MVA (-\$35,000) equals \$315,000.

Step 2: Calculate the Floor Guarantee.

The Floor Guarantee is calculated by accruing the \$200,000 invested in the Fixed Account with 3% interest annually (because the GMIR under the Contract is more than 1.5%). The Floor Guarantee on the date of the Withdrawal as a result of this calculation equals \$339,330.

Step 3: Compare the result from Step 1 (the Fixed Account value after the MVA) to the result from Step 2 (the Floor Guarantee).

The amount paid will be the greater of (i) the calculated Fixed Account value after application of the MVA and (ii) the Floor Guarantee. Consequently, in this example the amount paid as a result of the full Withdrawal request is the Floor Guarantee amount of \$339,330. The Floor Guarantee limits the amount of the MVA actually assessed, which is effectively -3.05% (the "Effective MVA") instead of the normal -10%.

The Effective MVA may limit the MVA calculated under the Contract to ensure that upon full Withdrawal the net proceeds do not fall below the Floor Guarantee. The Effective MVA is calculated as follows $[\text{Floor Guarantee} \div \text{Fixed Account value}] - 1$. Therefore, in this example the Effective MVA calculation is $[\$339,330 \div \$350,000] - 1 = -3.05\%$.

Example #2: \$100,000 Partial Withdrawal with a negative MVA limited by the Floor Guarantee

Step 1: Calculate the Effective MVA as if a full Withdrawal were being taken (see Example #1).

In this example, the Fixed Account value (\$350,000) after application of the -10% MVA (-\$35,000) equals \$315,000.

The Floor Guarantee is calculated by accruing the \$200,000 invested in the Fixed Account with 3% interest annually (because the GMIR under the Contract is more than 1.5%). As a result of this calculation, the Floor Guarantee on the date of the Withdrawal equals \$339,330.

Because the Floor Guarantee (\$339,330) exceeds the Fixed Account value after application of the negative MVA, but does not exceed the total Fixed Account value immediately prior to the Withdrawal, the Fixed Account value (\$350,000) is adjusted to equal the amount of the Floor Guarantee. In this example, the Fixed Account value is reduced by -3.05%, which is the Effective MVA actually assessed instead of the normal -10%.

Step 2: Apply the Effective MVA to the amount withdrawn as a consequence of the partial Withdrawal request.

A partial Withdrawal request for \$100,000 will result in a reduction of the Fixed Account value equal to the amount requested plus the amount needed to cover the Effective MVA of -3.05%. The total amount withdrawn is calculated as we normally do, except that the Effective MVA percentage is used: $[\text{Withdrawal amount requested}] \div [1 + (\text{Effective MVA}\%)]$. Therefore, in this example the total amount withdrawn is: $[\$100,000] \div [1 + (-3.05\%)] = \$103,145$.

Step 3: Calculate the new Fixed Account value after the partial Withdrawal and the Effective MVA.

In this example, the Fixed Account value (\$350,000) after the \$100,000 partial Withdrawal and application of the -3.05% Effective MVA (-\$3,145) equals \$246,855.

Step 4: Calculate the new Floor Guarantee after the partial Withdrawal.

The Floor Guarantee is calculated by accruing the \$200,000 invested in the Fixed Account with 3% interest annually (because the GMIR under the Contract is more than 1.5%). The Floor Guarantee immediately prior to the Withdrawal as a result of this calculation equals \$339,330. This amount is reduced by the \$100,000 partial Withdrawal (without taking into account the negative Effective MVA), and the Floor Guarantee after the partial Withdrawal equals \$239,330.

Example #3 uses the following assumptions:

- On May 15, 2000, \$200,000 is invested in the Fixed Account with a Guaranteed Interest Period of 10 years;
- On the Maturity Date, a partial Withdrawal of \$90,000 is taken
- The full amount invested in the Fixed Account less the aforementioned \$90,000 Withdrawal is renewed into another 10 year Guaranteed Interest Period;
- A \$100,000 partial Withdrawal request is made on March 30, 2018, when the Fixed Account value is \$150,000;
- A 0% GMIR applies to the Fixed Account under the Contract;

TABLE OF CONTENTS

- A 10% negative MVA would normally apply to full Withdrawal absent the Floor Guarantee; and
- Any applicable surrender charges are not applied.

Example #3: Partial Withdrawal with a negative MVA limited by the Floor Guarantee

Step 1: Calculate the Effective MVA as if a full Withdrawal were being taken.

In this example, the Fixed Account value on the date of the second Withdrawal (\$150,000) after application of the -10% MVA (-\$15,000) equals \$135,000.

The Floor Guarantee is calculated by accruing the \$200,000 invested in the Fixed Account with 1.5% interest annually (because the GMIR under the Contract is less than 1.5%). On May 15, 2010, the Floor Guarantee is equal to \$232,127. On this date, \$90,000 is withdrawn and the new Floor Guarantee is \$142,127, which will continue to accrue 1.5% interest annually. As a result of this calculation, the Floor Guarantee on the date of the second Withdrawal equals \$159,818.

Because the Floor Guarantee (\$159,818) exceeds the Fixed Account value after application of the negative MVA and also exceeds the Fixed Account value immediately prior to the Withdrawal, the Fixed Account value is reset to equal the amount of the Floor Guarantee (here, \$159,818). Because the Floor Guarantee and Fixed Account value are equal, the Effective MVA actually assessed is 0% instead of the normal -10%.

Step 2: Apply the Effective MVA to the amount withdrawn as a consequence of the partial Withdrawal request.

A partial Withdrawal request for \$100,000 will result in a reduction of the Fixed Account value equal to the amount requested (\$100,000). No negative MVA is assessed because the Effective MVA is 0%.

Step 3: Calculate the new Fixed Account value after the partial Withdrawal and the Effective MVA.

In this example, the Fixed Account value (\$159,818) after the \$100,000 partial Withdrawal equals \$59,818.

Step 4: Calculate the new Floor Guarantee after the partial Withdrawal.

Based on the calculation above, the Floor Guarantee immediately prior to the Withdrawal equals \$159,818. When this amount is reduced by the \$100,000 partial Withdrawal, the Floor Guarantee is the same as the Fixed Account value after the partial Withdrawal and application of the 0% Effective MVA, \$59,818.

APPENDIX D

Fixed Interest Division

A Fixed Interest Division option is available through the group and individual deferred variable annuity contracts offered by VIAC. The Fixed Interest Division is part of the VIAC General Account. Interests in the Fixed Interest Division have not been registered under the Securities Act of 1933, and neither the Fixed Interest Division nor the General Account are registered under the Investment Company Act of 1940.

Interests in the Fixed Interest Division are offered in certain states through an Offering Brochure. The Fixed Interest Division is different from the Fixed Account which is described in the prospectus but which is not available in your state. If you are unsure whether the Fixed Account is available in your state, please contact Customer Service at (800) 366-0066. When reading through the Prospectus, the Fixed Interest Division should be counted among the various investment options available for the allocation of your premiums, in lieu of the Fixed Account. The Fixed Interest Division may not be available in some states. Some restrictions may apply.

You will find more complete information relating to the Fixed Interest Division in the Offering Brochure. Please read the Offering Brochure carefully before you invest in the Fixed Interest Division.

APPENDIX E

Surrender Charge for Excess Withdrawals Example

The following assumes you made an initial premium payment of \$25,000 and additional premium payments of \$25,000 in each of the second and third Contract Years, for total premium payments under the Contract of \$75,000. It also assumes a withdrawal at the beginning of the fifth Contract Year of 30% of the Contract Value of \$90,000.

In this example, \$13,500 (15% of \$90,000) is maximum Free Withdrawal Amount that you may withdraw during the Contract Year without a surrender charge. The total withdrawal would be \$27,000 (\$90,000 x .30). Therefore, \$13,500 (\$27,000 - \$13,500) is considered an excess withdrawal and would be subject to a 4% surrender charge of \$540 (\$13,500 x .04). This example does not take into account any Market Value Adjustment or deduction of any premium taxes.

Financial Statements of Separate Account B of Voya Insurance and Annuity Company	1
Financial Statements of Voya Insurance and Annuity Company	C-1

Introduction

This Statement of Additional Information provides background information regarding Separate Account B.

Description of Voya Insurance and Annuity Company

We are an Iowa stock life insurance company, which was originally organized in 1973 under the insurance laws of Minnesota. Prior to September 1, 2014, we were known as ING USA Annuity and Life Insurance Company. Prior to January 1, 2004, we were known as Golden American Life Insurance Company. On June 1, 2018 we became an indirect wholly owned subsidiary of VA Capital Company LLC, an insurance holding company organized under Delaware law (“VA Capital”). Our direct parent company is Venerable Holdings, Inc. (“Venerable”). Before June 1, 2018, we were an indirect, wholly owned subsidiary of Voya Financial, Inc. (“Voya”), which until April 7, 2014, was known as ING U.S., Inc. **The June 1, 2018, sale of the Company by Voya to VA Capital did not change the terms, features and benefits of your Contract.**

Although we are a subsidiary of VA Capital and Venerable, neither VA Capital nor Venerable are responsible for the obligations under the Contract. The obligations under the Contract are solely our responsibility.

We are authorized to sell insurance and annuities in all states, except New York, and the District of Columbia. We are engaged in the business of administering insurance and annuities, and we no longer sell or issue any new insurance or annuities. Our principal office is located at 699 Walnut Street, Suite 1350, Des Moines, Iowa 50309-3942.

Separate Account B of Voya Insurance and Annuity Company

Separate Account B was established as a separate account of the Company on July 14, 1988. It is registered with the SEC as a unit investment trust under the Investment Company Act of 1940, as amended (the “1940 Act”). Separate Account B is a separate investment account used for our variable annuity Contract s. We own all the assets in Separate Account B but such assets are kept separate from our other accounts.

Separate Account B is divided into subaccounts. Each subaccount invests exclusively in shares of one fund. Each fund has its own distinct investment objectives and policies. Income, gains and losses, whether or not realized, of a fund are credited to or charged against the corresponding subaccount of Separate Account B without regard to any other income, gains or losses of the Company. Assets equal to the reserves and other Contract liabilities with respect to each are not chargeable with liabilities arising out of any other business of the Company. They may, however, be subject to liabilities arising from subaccounts whose assets we attribute to other variable annuity Contract s supported by Separate Account B. If the assets in Separate Account B exceed the required reserves and other liabilities, we may transfer the excess to our general account. When we deduct the fees we charge for the Contract, these would constitute excess assets that we would transfer to the general account. We are obligated to pay all benefits and make all payments provided under the Contracts, and will keep the Separate Account fully funded to cover such liabilities.

Safekeeping of Assets

Voya Insurance and Annuity Company acts as its own custodian for Separate Account B.

Experts

The statements of assets and liabilities of Separate Account B as of December 31, 2018, and the related statements of operations and changes in net assets for the periods disclosed in the financial statements, and the financial statements of the Company as of December 31, 2018 and 2017, and for each of the two years in the period ended December 31, 2018, included in the Statement of Additional Information, have been audited by Ernst & Young LLP, independent registered public accounting firm, as set forth in their reports thereon appearing elsewhere herein, and are included in reliance upon such reports given on the authority of such firm as experts in accounting and auditing.

The primary business address of Ernst & Young LLP is 2005 Market Street, Philadelphia, Pennsylvania 19103.

Distribution of Contracts

The offering of Contracts under the prospectus associated with this Statement of Additional Information is continuous. Directed Services LLC, an affiliate of Voya Insurance and Annuity Company, acts as the principal underwriter (as defined in the Securities Act of 1933 and the Investment Company Act of 1940, as amended) of the variable insurance products (the “variable insurance products”) issued by Voya Insurance and Annuity Company. The Contracts are distributed through registered representatives of other broker-dealers who have entered into selling agreements with Directed Services LLC. For the years ended 2018, 2017 and 2016 commissions paid by Voya Insurance and Annuity Company to Directed Services LLC equaled \$153,949,046, \$206,293,565, and \$205,433,294, respectively. All commissions received by the distributor were passed through to the broker-dealers who sold the Contracts. Directed Services LLC is located at 1475 Dunwoody Drive, West Chester, PA 19380.

Under a management services agreement, last amended in 1995, Voya Insurance and Annuity Company provides to Directed Services LLC certain of its personnel to perform management, administrative and clerical services and the use of certain facilities. Voya Insurance and Annuity Company charges Directed Services LLC for such expenses and all other general and administrative costs, first on the basis of direct charges when identifiable, and the remainder allocated based on the estimated amount of time spent by Voya Insurance and Annuity Company’s employees on behalf of Directed Services LLC. In the opinion of management, this method of cost allocation is reasonable. However effective January 1, 2010, this management services agreement was changed to an arms-length pricing agreement, whereas Voya Insurance and Annuity Company now receives a monthly fee from Directed Services LLC based on annual contractual rates by fund. This fee, calculated as a percentage of average assets in the variable separate accounts, was \$60,172,545, \$80,362,617 and \$116,527,230 for the years ended 2018, 2017 and 2016, respectively.

Accumulation Unit Value

The calculation of the Accumulation Unit Value (“AUV”) is discussed in the prospectus and below. Note that in your Contract, accumulation unit value is referred to as the Index of Investment Experience. The following illustrations show a calculation of a new AUV and the purchase of Units (using hypothetical examples). Note that the examples below do not reflect the mortality and expense risk charge for this product and are for illustration purposes only. Complete AUV information for the AUVs calculated for this Contract is available in this SAI.

ILLUSTRATION OF CALCULATION OF AUV

EXAMPLE 1

(1)	AUV, beginning of period	\$	10.00
(2)	Value of securities, beginning of period	\$	10.00
(3)	Change in value of securities	\$	0.10
(4)	Gross investment return (3) divided by (2)		0.01
(5)	Less daily mortality and expense charge		0.00004280
(6)	Less asset based administrative charge		0.00000411
(7)	Net investment return (4) minus (5) minus (6)		0.009953092
(8)	Net investment factor (1.000000) plus (7)		1.009953092
(9)	AUV, end of period (1) multiplied by (8)	\$	10.09953092

ILLUSTRATION OF PURCHASE OF UNITS (ASSUMING NO STATE PREMIUM TAX)

EXAMPLE 2

(1)	Initial premium payment	\$	1,000
(2)	AUV on effective date of purchase (see EXAMPLE 1)	\$	10.00
(3)	Number of units purchased (1) divided by (2)		100
(4)	AUV for valuation date following purchase (see EXAMPLE 1)	\$	10.09953092
(5)	Contract Value in account for valuation date following purchase (3) multiplied by (4)	\$	1,009.95

Performance Information

From time to time, we may advertise or include in reports to contract owner's performance information for the subaccounts of Separate Account B, including the average annual total return performance, yields and other nonstandard measures of performance. Such performance data will be computed, or accompanied by performance data computed, in accordance with standards defined by the SEC.

Except for the Voya Government Liquid Assets Portfolio subaccount, quotations of yield for the subaccounts will be based on all investment income per unit (contract value divided by the accumulation unit) earned during a given 30-day period, less expenses accrued during such period. Information on standard total average annual return performance will include average annual rates of total return for one-, five- and ten-year periods, or lesser periods depending on how long Separate Account B has been investing in the portfolio. We may show other total returns for periods of less than one year. We will base total return figures on the actual historic performance of the subaccounts of Separate Account B, assuming an investment at the beginning of the period when the separate account first invested in the portfolios, and withdrawal of the investment at the end of the period, adjusted to reflect the deduction of all applicable portfolio and current contract charges. We may also show rates of total return on amounts invested at the beginning of the period with no withdrawal at the end of the period. Total return figures which assume no withdrawals at the end of the period will reflect all recurring charges. In addition, we may present historic performance data for the investment portfolios since their inception reduced by some or all of the fees and charges under the Contract. Such adjusted historic performance includes data that precedes the inception dates of the subaccounts of Separate Account B. This data is designed to show the performance that would have resulted if the Contract had been in existence before the separate account began investing in the investment portfolios.

Current yield for the Voya Government Liquid Assets Portfolio subaccount is based on income received by a hypothetical investment over a given seven-day period, less expenses accrued, and then "annualized" (i.e., assuming that the seven-day yield would be received for 52 weeks). We calculate "effective yield" for the Voya Government Liquid Assets Portfolio subaccount in a manner similar to that used to calculate yield, but when annualized, the income earned by the investment is assumed to be reinvested. The "effective yield" will thus be slightly higher than the "yield" because of the compounding effect of earnings. We calculate quotations of yield for the remaining subaccounts on all investment income per accumulation unit earned during a given 30-day period, after subtracting fees and expenses accrued during the period, assuming the selection of the Max 7 Enhanced Death Benefit and the MGIB optional benefit rider. **You should be aware that there is no guarantee that the Voya Government Liquid Assets Portfolio subaccount will have a positive or level return.**

We may compare performance information for a subaccount to: (1) the Standard & Poor's 500 Stock Index, Dow Jones Industrial Average, Donoghue Money Market Institutional Averages, or any other applicable market indices; (2) other variable annuity separate accounts or other investment products tracked by Lipper Analytical Services (a widely used independent research firm which ranks mutual funds and other investment companies), or any other rating service; and (3) the Consumer Price Index (measure for inflation) to determine the real rate of return of an investment in the Contract. Our reports and promotional literature may also contain other information including the ranking of any subaccount based on rankings of variable annuity separate accounts or other investment products tracked by Lipper Analytical Services or by similar rating services.

Performance information reflects only the performance of a hypothetical contract and should be considered in light of other factors, including the investment objective of the investment portfolio and market conditions. Please keep in mind that past performance is not a guarantee of future results.

Other Information

Registration statements have been filed with the SEC under the Securities Act of 1933, as amended, with respect to the Contracts discussed in this Statement of Additional Information. Not all of the information set forth in the registration statements, amendments and exhibits thereto has been included in this Statement of Additional Information. Statements contained in this Statement of Additional Information concerning the content of the Contracts and other legal instruments are intended to be summaries. For a complete statement of the terms of these documents, reference should be made to the instruments filed with the SEC.

CONDENSED FINANCIAL INFORMATION

Except for subaccounts which did not commence operations as of December 31, 2018, the following tables give (1) the accumulation unit value (“AUV”) at the beginning of the period, (2) the AUV at the end of the period and (3) the total number of accumulation units outstanding at the end of the period for each subaccount of Separate Account B available under the Contract for the indicated periods. This information is current through December 31, 2018, including portfolio names. Portfolio name changes after December 31, 2018 are not reflected in the following information.

Statements of Operations	47
Statements of Changes in Net Assets	88
Notes to Financial Statements	139

To the Board of Directors of Voya Insurance and Annuity Company and Contract Owners of Voya Insurance and Annuity Company Separate Account B

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities of each of the subaccounts listed in the Appendix that comprise Voya Insurance and Annuity Company Separate Account B (the Separate Account), as of December 31, 2018, the related statements of operations and the statements of changes in net assets for each of the periods indicated in the Appendix, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of each subaccount as of December 31, 2018, the results of its operations and changes in its net assets for each of the periods indicated in the Appendix, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Separate Account’s management. Our responsibility is to express an opinion on each of the subaccounts’ financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Separate Account in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2018, by correspondence with the fund companies or their transfer agents, as applicable. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

/s/ Ernst & Young LLP

We have served as the Separate Accounts auditor since 1988.
Philadelphia, PA

1. Organization

Voya Insurance and Annuity Company Separate Account B (the “Account”) was established by Voya Insurance and Annuity Company (“VIAC” or the “Company”) to support the operations of variable annuity contracts (“Contracts”). The Company is an indirect, wholly owned subsidiary of Venerable Holdings, Inc. (“Venerable Holdings”), a holding company domiciled in the State of Delaware.

On December 20, 2017, Voya Financial entered into a Master Transaction Agreement (“MTA”) with VA Capital Company LLC, a Delaware limited liability company (“VA Capital”) and Athene Holding Ltd., a Bermuda limited company (“Athene”), pursuant to which of VA Capital’s wholly-owned subsidiary, Venerable Holdings, will acquire certain assets of Voya Financial Inc.’s, including all of the shares of capital stock of the Company, and VIAC Services Company (“VSC”) and all of the membership interest of Directed Services, LLC (“DSL”) (the “Acquisition”). On June 1, 2018, Venerable Holdings completed the Acquisition.

The Account includes the Potential Plus Indexed Variable Annuity Contract, the Voya Architect® Variable Annuity Contract, the Voya Customized Solutions Focus Contract, the Voya GoldenSelect® Contracts, the Voya Retirement Solutions Rollover Choice Contract, the Voya Simplicity Contract, the Voya SmartDesign Contracts, and the Wells Fargo Voya Contracts, which all ceased being available to new contract owners, as well as the Voya Preferred Advantage Variable Annuity Contracts (collectively, the “Contracts”). The ceased contracts were, however, still available to existing contract owners. Voya GoldenSelect Contracts included Access, DVA Plus®, Premium Plus®, ESII® and Landmark®. Voya SmartDesign Contracts include Advantage, Signature Variable Annuity and Variable Annuity.

The Account also includes the following discontinued offerings:

Voya GoldenSelect® Contracts:	Voya GoldenSelect® Contracts (continued):
Access One® (September 2003)	Opportunities® and Legends® (March 2007)
Access® (March 2010)	Premium Plus® (May 2010)
DVA® and DVA Series 100® (May 2000)	Premium Plus® featuring the Galaxy VIP Fund (May 2002)
DVA 80® (May 1991)	Value (June 2003)
DVA Plus® (January 2004)	ING Simplicity Contracts (August 2007)
ESII® (March 2010)	Voya SmartDesign Contracts:
Fund for Life (May 1994)	Variable Annuity, Advantage and Signature (April 2008)
Generations® (October 2008)	Wells Fargo ING contracts:
Granite PrimElite® (May 2001)	Opportunities and Landmark (June 2006)
Landmark® (March 2010)	ING Customized Solutions Focus Contracts (September 2004)

The Account is registered as a unit investment trust with the Securities Exchange Commission (“SEC”) under the Investment Company Act of 1940, as amended. VIAC provides for variable accumulation and benefits under the Contracts by crediting annuity considerations to one or more divisions within the Account or the VIAC guaranteed interest division, the VIAC fixed interest division and the fixed account (an investment option in the Company’s general account), as directed by the contract owners. The portion of the Account’s assets applicable to Contracts will not be charged with liabilities arising out of any other business VIAC may conduct, but obligations of the Account, including the promise to make benefit payments, are obligations of VIAC. Under applicable insurance law, the assets and liabilities of the Account are clearly identified and distinguished from the other assets and liabilities of VIAC.

At December 31, 2018, the Account had 200 investment divisions (the “Divisions”), 78 of which invest in independently managed mutual funds and 124 of which invest in mutual funds managed by an affiliate, Voya Investments, LLC (“VIL”). The assets in each Division are invested in shares of a designated fund (“Fund”) of various investment trusts (“the Trusts”).

The Divisions with assets balances at December 31, 2018 and related Trusts are as follows:

Voya Investors Trust:
Voya Multi-Manager Large Cap Core Portfolio - Service Class

2. Significant Accounting Policies

The following is a summary of the significant accounting policies of the Account:

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investments

Investments are made in shares of a Division and are recorded at fair value, determined by the net asset value per share of the respective Division. Investment transactions in each Division are recorded on the trade date. Distributions of net investment income and capital gains from each Division are recognized on the ex-distribution date. Realized gains and losses on redemptions of the shares of the Division are determined on a first-in, first-out basis. The difference between cost and current fair value of investments owned on the day of measurement is recorded as unrealized appreciation or depreciation of investments.

Federal Income Taxes

Operations of the Account form a part of, and are taxed with, the total operations of VIAC, which is taxed as a life insurance company under the Internal Revenue Code ("IRC"). Under the current provisions of the IRC, the Company does not expect to incur federal income taxes on the earnings of the Account to the extent the earnings are credited to contract owners. Accordingly, earnings and realized capital gains of the Account attributable to the contract owners are excluded in the determination of the federal income tax liability of VIAC, and no charge is being made to the Account for federal income taxes for these amounts. The Company will review this tax accounting in the event of changes in the tax law. Such changes in the law may result in a charge for federal income taxes. Uncertain tax positions are assessed at the parent level on a consolidated basis, including taxes of the operations of the Separate Account.

Contract Owner Reserves

The annuity reserves of the Account are represented by net assets on the Statements of Assets and Liabilities and are equal to the aggregate account values of the contract owners invested in the Account Divisions. To the extent that benefits to be paid to the contract owners exceed their account values, VIAC will contribute additional funds to the benefit proceeds. Conversely, if amounts allocated exceed amounts required, transfers may be made to VIAC. Prior to the annuitization date, the Contracts are redeemable for the net cash surrender value of the Contracts.

Changes from Principal Transactions

Included in Changes from principal transactions on the Statements of Changes in Net Assets are items which relate to contract owner activity, including premiums, death benefits, surrenders and withdrawals, contract charges, and cost of insurance and administrative charges. Also included are transfers between the fixed account and the Divisions, transfers between Divisions, and transfers to (from) VIAC related to gains and losses resulting from actual mortality experience (the full responsibility for which is assumed by VIAC).

Subsequent Events

The Account has evaluated subsequent events for recognition and disclosure through the date the financial statements were issued.

3. Financial Instruments

The Account invests assets in shares of open-end mutual funds, which process orders to purchase and redeem shares on a daily basis at the fund's next computed net asset values ("NAV"). The fair value of the Account's assets is based on the NAVs of mutual funds, which are obtained from the transfer agents or fund companies and reflect the fair values of the mutual fund investments. The NAV is calculated daily upon close of the New York Stock Exchange and is based on the fair values of the underlying securities.

The Account's assets are recorded at fair value on the Statements of Assets and Liabilities and are categorized as Level 1 as of December 31, 2018 based on the priority of the inputs to the valuation technique below. There were no transfers among the levels for the year ended December 31, 2018. The Account had no liabilities as of December 31, 2018.

The Account categorizes its financial instruments into a three-level hierarchy based on the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument.

- Level 1 - Unadjusted quoted prices for identical assets or liabilities in an active market. The Account defines an active market as a market in which transactions take place with sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2 - Quoted prices in markets that are not active or valuation techniques that require inputs that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - a) Quoted prices for similar assets or liabilities in active markets;
 - b) Quoted prices for identical or similar assets or liabilities in non-active markets;
 - c) Inputs other than quoted market prices that are observable; and
 - d) Inputs that are derived principally from or corroborated by observable market data through correlation or other means.
- Level 3 - Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These valuations, whether derived internally or obtained from a third party, use critical assumptions that are not widely available to estimate market participant expectations in valuing the asset or liability.

4. Charges and Fees

Under the terms of all Contracts, certain charges and fees are incurred by the Contracts to cover VIAC's expenses in connection with the issuance and administration of the Contracts. Following is a summary of these charges and fees:

Mortality and Expense Risk Charges

VIAC assumes mortality and expense risks related to the operations of the Account and, in accordance with the terms of the Contracts, deducts a daily charge from the assets of the Account. Daily charges are deducted at annual rates of 0.35% to 2.20% of the average daily net asset value of each Division of the Account to cover these risks, as specified in the Contracts. These charges are assessed through a reduction in unit values.

Asset Based Administrative Charges

A charge to cover administrative expenses of the Account is deducted at annual rates of up to 0.15% of the assets attributable to certain Contracts. For the Voya Preferred Advantage Variable Annuity Contract the Account deducts this charge at annual rates of 0.60% to cover the mortality and expense risks, as specified in the contract. This Contract with contract dates on and after November 21, 2016 the maximum daily asset based administrative fee increased to 1.15% annually. These charges are assessed through a reduction in unit values.

Contract Maintenance Charges

An annual Contract maintenance fee of up to \$50 may be deducted from the accumulation value of Contracts to cover ongoing administrative expenses, as specified in the Contracts. These charges are assessed through the redemption of units.

Contingent Deferred Sales Charges

For certain Contracts, a contingent deferred sales charge (“Surrender Charge”) is imposed as a percentage that ranges up to 8.00% of each premium payment if the Contract is surrendered or an excess partial withdrawal is taken as specified in the Contract. These charges are assessed through the redemption of units.

Withdrawal and Distribution Charges

For certain Contracts, a charge is deducted from the accumulation value for contract owners taking more than one conventional partial withdrawal during a Contract year. For certain Contracts, annual distribution fees are deducted from the Contracts’ accumulation values. These charges are assessed through the redemption of units.

Other Contract Charges

For certain Contracts, an additional charge up to 0.60% is deducted daily from the accumulation values for contract owners who select the Premium Bonus Option feature. These charges are assessed through a reduction in unit values.

Certain Contracts contain optional riders that are available for an additional charge, such as minimum guaranteed income benefits and minimum guaranteed withdrawal benefits. The amounts charged for these optional benefits vary based on a number of factors and are defined in the Contracts. These charges are assessed through the redemption of units.

Fees Waived by VIAC

Certain charges and fees for various types of Contracts may be waived by VIAC. VIAC reserves the right to discontinue these waivers at its discretion or to conform with changes in the law.

5. Purchases and Sales of Investment Securities

The aggregate cost of purchases and proceeds from sales of investments for the year ended December 31, 2018 follow:

- (a) As investment Division had no investments until 2014, this data is not meaningful and is therefore not presented.
(b) As investment Division had no investments until 2015, this data is not meaningful and is therefore not presented.
(c) As investment Division had no investments until 2016, this data is not meaningful and is therefore not presented.
(d) As investment Division had no investments until 2017, this data is not meaningful and is therefore not presented.

- A** The Fund Inception Date represents the first date the fund received money.
B The Investment Income Ratio represents dividends received by the Division, excluding capital gains distributions, divided by the average net assets. The recognition of investments income is determined by the timing of declaration of dividends by the underlying fund in which the Division invests.
C The Expense Ratio considers only the annualized contract expenses borne directly by the Account, excluding expenses charged through the redemption of units, and is equal to the mortality and expense risks, administrative, and other charges, as defined in the Charges and Fees note. Certain items in this table are presented as a range of minimum and maximum values; however, such information is calculated independently for each column in the table.
D Total Return is calculated as the change in unit value for each Contract presented in the Statements of Assets and Liabilities. Certain items in this table are presented as a range of minimum and maximum values; however, such information is calculated independently for each column in the table.

Report of Independent Auditors

The Board of Directors and Stockholder
Voya Insurance and Annuity Company

We have audited the accompanying statutory-basis financial statements of Voya Insurance and Annuity Company (the Company), which comprise the balance sheets as of December 31, 2018 and 2017, and the related statements of operations, changes in capital and surplus and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with accounting practices prescribed or permitted by the Insurance Division, Department of Commerce, of the State of Iowa. Management also is responsible for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 to the statutory-basis financial statements, the Company prepared these financial statements using accounting practices prescribed or permitted by the Insurance Division, Department of Commerce, of the State of Iowa, which is a basis of accounting other than U.S. generally accepted accounting principles. The effects on the financial statements of the variances between these statutory accounting practices and U.S. generally accepted accounting principles, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the effects of the matter described in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles paragraph, the statutory-basis financial statements referred to above do not present fairly, in conformity with U.S. generally accepted accounting principles, the financial position of the Company at December 31, 2018 and 2017, or the results of its operations or its cash flows for the years then ended.

Opinion on Statutory-Basis of Accounting

In our opinion, the statutory-basis financial statements referred to above present fairly, in all material respects, the financial position of the Company at December 31, 2018 and 2017, and the results of its operations and its cash flows for the years then ended, on the basis of accounting described in Note 1.

1. Organization and Significant Accounting Policies

Voya Insurance and Annuity Company ("VIAC" or the "Company"), is domiciled in Iowa and is a direct, wholly-owned subsidiary of Venerable Holdings Inc. ("Venerable Holdings"), a holding company domiciled in the state of Delaware.

On December 20, 2017, the Company's then parent, Voya Financial, Inc. ("Voya Financial"), entered into a Master Transaction Agreement ("MTA") with VA Capital Company LLC, a Delaware limited liability company ("VACapital"), and Athene Holding Ltd., a Bermuda limited company ("Athene"), pursuant to which VA Capital's wholly owned subsidiary, Venerable Holdings, will acquire certain assets of Voya Financial's, including all of the shares of the capital stock of the Company and VIAC Services Company ("VSC") and all of the membership interest in Directed Services, LLC ("DSL") (the "Acquisition"). During the 5 months ended May 31, 2018, the Company completed various reinsurance transactions with its related parties at the time in preparation for the Acquisition. On June 1, 2018, Venerable Holdings completed the Acquisition.

Description of Business

The Company historically offered various insurance products including immediate and deferred variable and fixed annuities, fixed indexed annuities, traditional life insurance, supplemental contracts consisting of life insurance proceeds, investment-only products and payout annuities for pre-retirement wealth accumulation and post-retirement income management. The Company ceased the issuance of new fixed and indexed annuity products in 2018, ceased the issuance of new variable annuity products in 2010, and ceased the issuance of new life insurance policies in 2001, placing them in run-off. New amounts may continue to be deposited as add-on premiums to certain existing contracts. The Company then has a significant concentration of reinsurance, primarily in the form of ceded business. See, "Reinsurance" in the Notes to Financial Statements for further discussion of the Company's reinsurance arrangements.

Use of Estimates

The preparation of the financial statements of the Company requires management to make estimates and assumptions that affect amounts reported in the financial statements and accompanying notes. Such estimates and assumptions could change in the future as more information becomes known, which could impact the amounts reported and disclosed herein.

Recently Adopted Accounting Principles

The Company does not have any recently adopted accounting principles to disclose as of December 31, 2018.

(Dollar amounts in millions, unless otherwise stated)

Correction of Errors

In 2017, the Company discovered aggregate reserves established for certain annuity contracts were understated in prior years by \$12.7 due to various data coding and extraction issues from the Company's valuation system. To correct for this error, the Company has recognized a cumulative prior period adjustment to decrease surplus of \$14.6 net of tax, in accordance with the provision of the NAIC Statement of Statutory Accounting Principles ("SSAP") SSAP No. 3, *Accounting Changes and Corrections of Errors* ("SSAP No. 3"). The tax effect of this adjustment was a decrease to surplus of \$1.9 due to SSAP No. 101, *Income Taxes* ("SSAP No. 101") surplus limitation.

Basis of Presentation

The accompanying financial statements of the Company have been prepared in conformity with accounting practices prescribed or permitted by the Iowa Insurance Division, which practices differ from United States Generally Accepted Accounting Principles ("U.S. GAAP"). The more significant variances from U.S. GAAP are:

Investments: Investments in bonds and mandatorily redeemable preferred stocks are reported at amortized cost or fair value based on a rating assigned by the National Association of Insurance Commissioners ("NAIC").

The Company periodically reviews the value of its investments in bonds and mandatorily redeemable preferred stocks. If the fair value of any investment falls below its cost basis, the decline is analyzed to determine whether it is an other-than-temporary decline. To make this determination for each security, the following are some of the factors considered:

- The length of time and the extent to which the fair value has been below cost.
- The financial condition and near-term prospects of the issuer of the security, including any specific events that may affect its operations or earnings potential.
- The Company's intent to sell the security prior to its maturity at an amount below its carrying value.
- The Company's intent and ability to hold the security long enough for it to recover its fair value.

Based on the analysis, the Company makes a judgment as to whether the decline in fair value is other- than-temporary. When an other-than-temporary impairment ("OTTI") is recorded because there is intent to sell or the Company does not have the intent and ability to hold the security for a period of time sufficient to recover the amortized cost basis, the security is written down to fair value. The interest related OTTI is deferred through the interest maintenance reserve ("IMR") and the non-interest related OTTI is included in the asset valuation reserve ("AYR") in the period that the OTTI is considered to have occurred as prescribed by the NAIC. Losses resulting from OTTI charges, net of transfers to IMR, are recorded within net realized capital gains (losses) in the statements of operations.

(Dollar amounts in millions, unless otherwise stated)

The Company invests in structured securities, including mortgage backed securities/ collateralized mortgage obligations, asset backed securities, collateralized debt obligations, and commercial mortgage backed securities. Structured securities are reported at amortized cost or fair value based on a rating assigned by the NAIC. They are amortized using the interest method over the period which repayment of principal is expected to occur. For structured securities in unrealized loss positions, the Company determines whether it has the intent to sell or the intent and ability to hold the security for a period of time sufficient to recover the amortized cost. If the Company has the intent and ability to hold the security to recovery, the Company must compare the present value of the expected future cash flows for this security to its carrying value. If the present value of the expected future cash flows for the security is lower than its carrying value, the security is written down to its present value of the expected future cash flows.

Net realized gains and losses on disposed investments are reported in the statements of operations, net of federal income tax and transfers to the IMR.

Under U.S. GAAP, fixed maturities are designated at purchase as held to maturity, trading or available-for-sale, except for those accounted for using the fair value option ("FVO"). Held to maturity investments are reported at amortized cost and the remaining fixed maturity investments are reported at fair value. For those designated as trading, changes in fair value are reported in the statements of operations. Available-for-sale securities are reported at fair value with changes in fair value reported as a separate component of other comprehensive income (loss) in shareholder's equity. Using the FVO, securities are reported at fair value with changes in fair value reported in the statements of operations.

When an intent impairment is determined, the individual security is written down from amortized cost to fair value, and a corresponding charge is recorded in net realized capital gains (losses) in the statements of operations as an OTTI. If the Company does not intend to sell the security and it is not more likely than not that the Company will be required to sell the security before recovery of its amortized cost basis, but the Company has determined that there has been an other-than-temporary decline in fair value below the amortized cost basis, the OTTI is bifurcated into the amount representing the present value of the decrease in cash flows expected to not be collected ("credit impairment") and the amount related to other factors ("noncredit impairment"). The credit impairment is recorded in net realized capital gains (losses) in the statements of operations. The noncredit impairment is recorded in other comprehensive income (loss) in shareholder's equity.

Asset Valuation Reserves: The AVR is intended to establish a reserve to offset potential credit related investment losses on most invested asset categories. AVR is determined by an NAIC prescribed formula and is reported as a liability rather than as a valuation allowance or an appropriation of surplus. The change in AVR is reported directly to unassigned surplus. AVR is not applicable under U.S. GAAP.

(Dollar amounts in millions, unless otherwise stated)

Interest Maintenance Reserve: Under a formula prescribed by the NAIC, the Company defers the portion of realized gains and losses on sales of fixed income investments, principally bonds, derivatives and mortgage loans, attributable to changes in the general level of interest rates and amortizes those deferrals over the remaining period to maturity based on groupings of individual securities sold in five year bands. The Company reports the net deferral of IMR as a liability on the accompanying balance sheets. When the net deferral of IMR is negative, the amount is reported as a component of other assets and nonadmitted. IMR is not applicable under U.S. GAAP.

Cash and Short-term Investments: Cash and short-term investments represent cash balances, demand deposits and short-term fixed maturity investments with initial maturities of one year or less at the date of acquisition.

Under U.S. GAAP, the corresponding caption of cash and cash equivalents includes cash on hand, amounts due from banks and other highly liquid investments, such as money market instruments and debt instruments with maturities of three months or less at the time of purchase. Short-term investments include investments with remaining maturities of one year or less, but greater than three months, at the time of purchase.

Derivatives: The Company follows the hedge accounting guidance in SSAP No. 86, *Derivatives* ("SSAP No. 86") for derivative transactions. Under SSAP No. 86, derivatives that are deemed effective hedges are accounted for entirely in a manner which is consistent with the underlying hedged item. Derivatives used in hedging transactions that do not meet the requirements of SSAP No. 86 as an effective hedge are carried at fair value with the change in value recorded in surplus as unrealized gains or losses. Embedded derivatives are not accounted for separately from the host contract.

Under U.S. GAAP, the effective and ineffective portions of a cash flow hedge are accounted for separately. The effective portion of the gain or loss on the derivative instrument is reported as a component of accumulated other comprehensive income and reclassified into earnings in the same periods during which the hedged transaction impacts earnings in the same line item associated with the forecasted transaction. The ineffective portion of the derivative's change in value, if any, along with any of the derivative's change in value that is excluded from the assessment of hedge effectiveness, are recorded in other net realized capital gains (losses). For derivative instruments that are designated and qualify as a fair value hedge, the gain or loss on the derivative instrument, as well as the hedged item, to the extent of the risk being hedged, are recognized in other net realized capital gains (losses).

An embedded derivative within a contract that is not clearly and closely related to the economic characteristics and risk of the host contract is reported with the host contract on the balance sheets at fair value, and the change in fair value is recorded in income.

(Dollar amounts in millions, unless otherwise stated)

Mortgage Loans: Mortgage loans are reported at amortized cost, less write downs for impairments. If the value of any mortgage loan is determined to be impaired (i.e., when it is probable that the Company will be unable to collect all amounts due according to the contractual terms of the loan agreement), the carrying value of the mortgage loan is reduced to the lesser of either the present value of expected cash flows from the loan, discounted at the loan's original purchase yield or fair value of the collateral. For those mortgages that are determined to require foreclosure, the carrying value is reduced to the fair value of the underlying collateral, net of estimated costs to obtain and sell at the point of foreclosure. The carrying value of the impaired loans is reduced by establishing a permanent write-down recorded in net realized capital gains (losses).

Under U.S. GAAP, the Company records an allowance for probable losses incurred on non-impaired loans on an aggregate basis, rather than specifically identified probable losses incurred by individual loan.

Deferred Income Taxes: Deferred tax assets and liabilities represent the future tax recoveries or obligations associated with the accumulation of temporary differences between the tax and financial statement bases of the Company's assets and liabilities. Deferred tax assets are provided for and admitted to an amount determined under a standard formula in accordance with SSAP No. 101. A valuation allowance is required if based on the available evidence, it is more likely than not (a likelihood of more than 50 percent) that some portion or all of the gross deferred tax assets will not be realized. This assessment is determined on a separate reporting entity basis.

After reduction for any valuation allowance, the Company follows the admissibility formula prescribed under SSAP No. 101. These provisions limit the amount of gross deferred tax assets that can be admitted to surplus to those for which ultimate recoverability can be demonstrated. This limitation is based on availability of taxes paid in prior years that could be recovered through carrybacks, the expected timing of reversals for accumulated temporary differences over the next three years to offset future taxes, surplus limits, and the amount of gross deferred tax liabilities available for offset. Any deferred tax assets not covered under the formula are nonadmitted.

SSAP No. 101 requires all changes in deferred tax balances to be included as surplus adjustments; under U.S. GAAP, however, most changes in deferred tax balances are recorded in the income statement (with the exception of certain items that are recorded through Other Comprehensive Income or directly to the equity section of the balance sheet) as a component of the total income tax provision.

U.S. GAAP also requires that deferred taxes be included for all jurisdictions that determine taxes based on income. Thus deferred state income taxes must be recorded under U.S. GAAP. SSAP No. 101, however, specifically prohibits establishing deferred state income tax assets and liabilities.

(Dollar amounts in millions, unless otherwise stated)

Investments in Real Estate: Investments in real estate are reported net of related obligations rather than on a gross basis. Real estate owned and occupied by the Company is included in investments, and investment income and operating expenses include rent for the Company's occupancy of those properties. Changes between depreciated cost and admitted asset investment amounts are credited or charged directly to unassigned surplus. Any real estate not meeting the appraisal requirements established in SSAP No. 40R, *Real Estate*, shall be nonadmitted until the required appraisals are obtained.

Under U.S. GAAP, property is carried at cost, less accumulated depreciation, and is reported gross of related obligations in other assets on the balance sheets. Any depreciation and rent expense are charged to operating expenses on the statements of operations. Rental income is reported as Net Investment income.

Policy Acquisition Costs: The costs of acquiring and renewing business are expensed when incurred.

Under U.S. GAAP, incremental, direct costs of contract acquisition and certain costs related directly to successful acquisition activities are capitalized. Indirect or unsuccessful acquisition costs, maintenance, product development and overhead expenses are charged to expense as incurred. In addition, the outstanding value of in force business acquired is capitalized. For certain traditional life insurance, to the extent recoverable from future gross profits, acquisition costs are amortized over the premium payment period in proportion to the present value of expected gross premium. For universal life insurance and investment products, to the extent recoverable from future gross profits, acquisition costs are amortized over the estimated lives of the contracts in relation to the emergence of estimated gross profits.

Premiums: Life premiums are recognized as revenue when due. Premiums for annuity policies with mortality and morbidity risk, except for guaranteed interest and group annuity contracts, are also recognized as revenue when due. Premiums received for annuity policies without mortality or morbidity risk and for guaranteed interest and group annuity contracts are recorded using deposit accounting.

Under U.S. GAAP, premiums related to traditional life insurance contracts and payout contracts with life contingencies are recognized as revenue when due. Amounts received for investment• type, universal life-type, fixed annuities, payout contracts without life contingencies and fixed•indexed annuity contracts are reported as deposits to contract owner account balances. Revenues from these contracts consist primarily of fees assessed against the contract owner account balance for mortality and policy administration charges.

Benefits Paid or Provided: Benefits incurred for universal life and annuity policies represent the total of death benefits paid and the change in policy reserves.

(Dollar amounts in millions, unless otherwise stated)

Under U.S. GAAP, benefits and expenses for investment-type, universal life-type, fixed annuities, payout contracts without life contingencies and fixed-indexed annuity contracts include claims in excess of related account balances, expenses of contract administration and interest credited to contract owner account balances.

Benefit and Contract Reserves: Life policy and contract reserves under statutory accounting practices are calculated based upon both the net level premium method and Commissioners' Reserve Valuation method ("CRVM") using statutory rates for mortality and interest. Annuity policy and contract reserves under statutory accounting practices are calculated based upon the Commissioners' Annuity Reserve Valuation method ("CARVM") using statutory rates for mortality and interest.

Under U.S. GAAP policy reserves for traditional products are based upon the net level premium method utilizing best estimates of mortality, interest, and withdrawals prevailing when the policies were sold. For interest sensitive products, the U.S. GAAP policy reserve is equal to the policy fund balance plus an unearned revenue reserve which reflects the unamortized balance of early year policy loads over renewal year policy loads.

Reinsurance: Policy and contract liabilities ceded to reinsurers have been reported as reductions of the related reserves. Commissions allowed by reinsurers on business ceded are reported as income when received. Losses generated in certain reinsurance transactions are recognized immediately in income, with gains reported as a separate component of surplus and amortized over the remaining life of the business. For business ceded to unauthorized reinsurers, statutory accounting practices require that reinsurance credits permitted by the treaty be recorded as an offsetting liability and charged against unassigned surplus.

Under U.S. GAAP, ceded future policy benefits and contract owner liabilities are reported gross on the balance sheets. Only those reinsurance recoverable balances deemed probable of recovery are reflected as assets on the balance sheets and are stated net of allowances for uncollectible reinsurance, which are charged to earnings. Gains and losses on reinsurance, including commission and expense allowances, are deferred and amortized over the remaining life of the business.

Nonadmitted Assets: Certain assets designated as "nonadmitted," principally past due agents' balances and commission advances, and other assets not specifically identified as an admitted asset within the NAIC *Accounting Practices and Procedures Manual*, are excluded from the accompanying balance sheets and are charged directly to unassigned surplus. In addition, non-admitted assets include deferred tax assets that are not admissible under SSAP No. 101. See *Deferred Income Taxes* above.

Under U.S. GAAP, such assets are included in the balance sheets.

Policyholder Dividends: Policyholder dividends are recognized when declared.

(Dollar amounts in millions, unless otherwise stated)

Under U.S. GAAP, dividends allocable to participating contract owners are based on published dividend projections or expected dividend scales.

Surplus Notes: Surplus notes issued are reported as a component of surplus on the balance sheets. Under statutory accounting practices, no interest expense is recorded on the surplus notes until payment has been approved by the Iowa Insurance Division.

Under U.S. GAAP, surplus notes are reported as long-term debt, and the related interest is reported as a charge to earnings over the term of the notes.

Separate Accounts: The assets and liabilities of the separate accounts are carried at fair value, and the reserves are calculated based upon the CARVM.

Under U.S. GAAP, separate account assets supporting variable options under variable annuity contracts are equal to cumulative deposits, less charges and withdrawals, plus interest credited thereon. The Market Value Adjustment ("MVA") and Collared Annuity Product ("CAP") separate accounts do not qualify as separate accounts and are reported as assets and liabilities of the Company's general account. Reserves for individual and group deferred annuity contracts are equal to cumulative deposits, less charges and withdrawals, net of adjustments for investment experience that the Company is entitled to reflect in future credit interest.

Reconciliation to U.S. GAAP: The effects of the preceding variances from U.S. GAAP on the accompanying statutory basis financial statements have not been determined, but are presumed to be material.

Significant accounting practices are as follows:

Investments: Investments are stated at values prescribed by the NAIC, as follows:

Bonds not backed by other loans are stated at either amortized cost using the interest method or the lower of cost or fair market value.

Loan-backed securities are stated at either amortized cost or the lower of amortized cost or fair value. Amortized cost is determined using the effective interest method and includes anticipated prepayments. The retrospective adjustment method is used to determine the amortized cost for the majority of loan-backed and structured securities. For certain securities, the prospective adjustment methodology is utilized, including interest-only securities and securities that have experienced an other-than-temporary impairment ("OTTI").

Preferred stocks are stated in accordance with SSAP No. 32, *Preferred Stock*.

(Dollar amounts in millions, unless otherwise stated)

Common stocks are stated at market except that investments in stocks of uncombined subsidiaries and affiliates in which the Company has an interest of 20% or more are carried on the equity basis. Federal Home Loan Bank ("FHLB") common stock is priced at par value.

Short-term investments are stated at amortized cost.

Residual collateralized mortgage obligations, which are included in other invested assets on the balance sheets, are reported at amortized cost using the effective interest method.

Surplus notes acquired, which are included in other invested assets on the balance sheets, are reported at amortized cost using the effective interest method.

Realized capital gains and losses are generally determined using the first in first out method.

The Company enters into various derivative transactions to reduce and manage the risk of a change in value, yield, price, cash flow or quantity of, or a degree of exposure with respect to assets, liabilities, or future cash flows which the Company has acquired or incurred. Hedge accounting practices are in accordance with SSAP No. 86. The Company enters into credit default swaps to reduce the credit loss exposure with respect to certain assets which the Company has acquired. The Company does not receive hedge accounting treatment for these derivative transactions. The Company also enters into credit default swaps to replicate the investment characteristics of permissible investments using the derivative in conjunction with other investments. The replication (synthetic asset) and the derivative and other cash instrument are carried at amortized cost. The replication practices are in accordance with Statement of Statutory Accounting Principles ("SSAP") No. 86, *Derivatives*.

The Company enters into the following types of derivatives:

Credit Contracts:

Credit default swaps: Credit default swaps are used to reduce credit loss exposure with respect to certain assets that the Company owns, or to assume credit exposure on certain assets that the Company does not own. Payments are made to or received from the counterparty at specified intervals. In the event of a default on the underlying credit exposure, the Company will either receive a payment (purchased credit protection) or will be required to make a payment (sold credit protection) equal to the par minus recovery value of the swap contract. The Company utilizes these contracts in replication relationships for sold credit protection and non-qualifying relationships for purchased credit protection.

(Dollar amounts in millions, unless otherwise stated)

Equity Contracts:

Futures: Futures contracts are used to hedge against a decrease in certain equity indices. Such decreases may result in a decrease in variable annuity account values which would increase the possibility of the Company incurring an expense for guaranteed benefits in excess of account values. Such increases may result in increased payments to the holders of the fixed index annuity ("FIA") contracts.

Options: The Company uses put options to manage the equity, interest rate and equity volatility risk of the economic liabilities associated with certain variable annuity minimum guaranteed benefits. The Company also used equity options to hedge against an increase in various equity indices, and interest rate options to hedge against an increase in the interest rate benchmarking crediting strategies within FIA contracts. Such increases may have resulted in increased payments to the holders of the FIA contracts. The Company paid an upfront premium to purchase these options. The Company utilized these options in non-qualifying hedging relationships.

Total return swaps: The Company uses total return swaps as a hedge against a decrease in variable annuity account values, which are invested in certain indices. Using total return swaps, the Company agrees with another party to exchange, at specified intervals, the difference between the economic risk and reward of assets or a market index and the London Interbank Offered Rates ("LIBOR"), calculated by reference to an agreed upon notional principal amount. No cash is exchanged at the onset of the contracts. Cash is paid and received over the life of the contract based upon the terms of the swaps. The Company utilizes these contracts in non-qualifying hedging relationships.

Variance swaps: The Company uses variance swaps to manage equity volatility risk on the economic liabilities associated with certain minimum guaranteed living benefits. An increase in the equity volatility may result in a higher valuation of such liabilities and may also prospectively increase the cost of hedging equity risk with options. In an equity variance swap, the Company agrees with another party to exchange amounts in the future, based on the changes in equity volatility over a defined period. The Company utilizes equity variance swaps in non-qualifying hedging relationships.

Foreign Exchange Contracts:

Foreign exchange swaps: The Company uses foreign exchange or currency swaps to reduce the risk of change in the value, yield or cash flows associated with certain foreign denominated invested assets. Foreign exchange swaps represent contracts that require the exchange of foreign currency cash flows against U.S. dollar cash flows at regular periods, typically quarterly or semi-annually. The Company utilizes these contracts in qualifying hedging relationships.

(Dollar amounts in millions, unless otherwise stated)

Currency forwards: The Company utilizes currency forward contracts to hedge currency exposure related to its invested assets. The Company utilizes these contracts in non-qualifying hedging relationships.

Interest Rate Contracts:

Interest rate swaps: Interest rate swaps are used by the Company primarily to reduce market risks from changes in interest rates and to alter interest rate exposure arising from mismatches between assets and/or liabilities. Interest rate swaps are also used to hedge the interest rate risk associated with the value of assets it owns or in an anticipation of acquiring them. Using interest rate swaps, the Company agrees with another party to exchange, at specified intervals, the difference between fixed rate and floating rate interest payments, calculated by reference to an agreed upon notional principal amount. These transactions are entered into pursuant to master agreements that provide for a single net payment to be made to/from the counterparty at each due date. The Company utilizes these contracts in qualifying hedging relationships as well as non-qualifying hedging relationships.

Swaptions: A swaption is an option to enter into a swap with a forward starting effective date. The Company uses swaptions to hedge the interest rate exposure associated with the minimum crediting rate and book value guarantees embedded in the retirement products that the Company offers. Increases in interest rates will generate losses on assets that are backing such liabilities. In certain instances, the Company locks in the economic impact of existing purchased swaptions by entering into offsetting written swaptions. The Company pays a premium when it purchases the swaption. The Company utilizes these contracts in non-qualifying hedging relationships.

Futures: The Company uses interest rate futures contracts to hedge interest rate risks associated with the CMO-B portfolio. Changes in the general level of interest rates can result in the potential for adverse changes in the portfolio. The Company enters into exchange traded futures with regulated futures commissions that are members of the exchange. The Company also posts initial and variation margins, with the exchange, on a daily basis. The Company utilizes exchange-traded futures in non-qualifying hedging relationships.

Interest rate caps and floors: The Company uses interest rate cap contracts to hedge the interest rate exposure arising from duration mismatches between assets and liabilities. Interest rate caps are also used to hedge interest rate exposure if rates rise above a specified level. The Company uses interest rate floor contracts to hedge interest rate exposure if rates decrease below a specified level. The Company pays an upfront premium for these caps and floors. The Company utilizes these contracts in non-qualifying hedging relationships.

Contract Loans: Contract Loans are reported at unpaid principal balances but not in excess of the cash surrender value.

(Dollar amounts in millions, unless otherwise stated)

Aggregate Reserve for Life Policies and Contracts: Life, annuity, and accident and health reserves are developed by actuarial methods and are determined based on published tables using statutorily specified interest rates and valuation methods that will provide, in the aggregate, reserves that are greater than or equal to the minimum or guaranteed policy cash value or the amounts required by law. Interest rates ranged from 2.25% to 13.25% for 2018.

The Company waives deduction of deferred fractional premiums upon the death, the larger of the variable insurance amount or the amount of the death benefits as of the prior processing date plus the amount of any subsequent additional premium payments minus withdrawals. Surrender values are not promised in excess of the legally computed reserves.

The methods used in valuation of substandard policies are as follows:

For life, endowment and term policies issued substandard, the standard reserve during the premium paying period is increased by 50% of the gross annual extra premium. Standard reserves are held on Paid-Up Limited Pay contracts.

For reinsurance accepted with table rating, the reserve established is a multiple of the standard reserve corresponding to the table rating.

For reinsurance with flat extra premiums, the standard reserve is increased by 50% of the flat extra.

The amount of insurance in force for which the gross premiums are less than the net premiums, according to the standard of valuation required by the Iowa Insurance Division, is \$72.6 and

\$73.8 at December 31, 2018 and 2017, respectively. Reserves to cover the above insurance totaled the gross amount of \$0.0 and \$0.6 at December 31, 2018 and 2017, respectively.

The tabular interest has been determined from the basic data for the calculation of policy reserves for all direct ordinary life insurance and for the portion of group life insurance classified as group Section 79. The method of determination of tabular interest of funds not involving life contingencies is as follows: current year reserves, plus payments, less prior year reserves, less funds added.

Reinsurance: Reinsurance premiums, commissions, expense reimbursements, and reserves related to reinsured business are accounted for on a basis consistent with those used in accounting for the original policies issued and the terms of the reinsurance contracts. Reserves are based on the terms of the reinsurance contracts and are consistent with the risks assumed. Premiums and benefits ceded to other companies have been reported as a reduction of premium revenue and benefits expense. Amounts applicable to reinsurance ceded for reserves and unpaid claim liabilities have been reported as reductions of these items, and expense allowances received in connection with reinsurance ceded have been reflected in operations. The Company establishes a receivable for amounts due from reinsurers for claims paid and other amounts recoverable under the terms of the reinsurance contracts.

(Dollar amounts in millions, unless otherwise stated)

Electronic Data Processing Equipment: Electronic data processing equipment is carried at cost less accumulated depreciation. Depreciation for major classes of such assets is calculated on a straight line basis over the estimated useful life of the asset, not to exceed three years.

Participating Insurance: Participating business approximates less than 17% of the Company's life insurance in force. For the year ended December 31, 2018, premiums on participating policies were \$6.3, or less than 1% of premium income. The amount of dividends to be paid to participating policyholders is determined annually by the Board of Directors. Amounts allocable to participating policyholders are based on published dividend projections or expected dividend scales. In connection with the Acquisition described in Note 1, the participating business was reinsured with, ReliaStar Life Insurance Company (a subsidiary of Voya Financial). As a result, dividends expense of \$(6.0) was incurred in 2018, as compared to \$7.5 in 2017.

Benefit Plans: The Company provides a contributory retirement plan for substantially all employees. In addition, the Company historically provided noncontributory retirement plans for substantially all employees and certain agents. Pension costs were charged to operations as contributions were made to the plans.

Nonadmitted Assets: Nonadmitted assets are summarized as follows:

	December 31	
	2018	2017
	(In Thousands)	
Net deferred tax asset	\$ —	\$ 522,380
Healthcare and other amounts receivable	4,952	5,241
Other	505	1,174
Total nonadmitted assets	<u>\$ 5,457</u>	<u>\$ 528,795</u>

Changes in nonadmitted assets are generally reported directly in unassigned surplus as an increase or decrease in nonadmitted assets.

Claims and Claims Adjustment Expenses: Claims expenses represent the estimated ultimate net cost of all reported and unreported claims incurred through December 31, 2018. The Company does not discount claims and claims adjustment expense reserves. Such estimates are based on actuarial projections applied to historical claim payment data. Such liabilities are considered to be reasonable and adequate to discharge the Company's obligations for claims incurred but unpaid as of December 31, 2018.

Guaranteed Benefits: For variable annuity guarantees, Actuarial Guideline 43 – Variable Annuity Commissioners Annuity Reserve Valuation Method ("AG43") is followed. This guideline interprets how to apply the CARVM. The greater of the result under a single deterministic "Standard Scenario" and the average of the most severe 30% of randomly generated stochastic scenarios is held as the reserve. Both reinsurance and hedging are also reflected.

(Dollar amounts in millions, unless otherwise stated)

Taxes are not incorporated. All assumptions for the Standard Scenario are prescribed. For the stochastic scenarios, equity market returns must meet a calibration test. All other assumptions are set by the actuary using prudent best-estimates.

Separate Accounts: Most separate account assets and liabilities held by the Company represent funds held for the benefit of the Company's variable life and annuity policy and contract holders who bear all of the investment risk associated with the policies. Such policies are of a non-guaranteed nature. All net investment experience, positive or negative, is attributed to the policy and contract holders' account values. The assets and liabilities of these accounts, excluding the MVA and CAP, are carried at fair value and are legally segregated and are not subject to claims that arise out of any other business of the Company. There are no product classification differences between STAT and U.S. GAAP. (See Note 2 for details related to the Company's prescribed practices related to the MVA and CAP.)

2. Permitted and Prescribed Statutory Basis Accounting Practices

The financial statements of the Company are presented on the basis of accounting practices prescribed or permitted by the Iowa Insurance Division. The Iowa Insurance Division recognizes only statutory accounting practices prescribed or permitted by the State of Iowa for determining and reporting the financial condition and results of operations of an insurance company and for determining its solvency under the Iowa Insurance Law. The NAIC *Accounting Practices and Procedures Manual* has been adopted as a component of prescribed practices by the State of Iowa. The Commissioner of the Iowa Insurance Division ("the Commissioner") has the right to permit other specific practices that deviate from prescribed practices.

The Company is required to identify those significant accounting practices that are permitted or prescribed, and obtain written approval of the practices from the Iowa Insurance Division.

For the years ended December 31, 2018 and 2017, the Company had no such permitted accounting practices. For information on the permitted accounting practices of the Company's Captive reinsurer, see "Reinsurance" in the Notes to Financial Statements.

CAP & MVA Prescribed Practice

The Company, with the explicit permission of the Commissioner of Insurance of the State of Iowa (the "Commissioner"), carries the assets of the Collared Annuity Product Separate Account ("CAP") and the Market Value Adjustment Separate Account ("MVA") at amortized cost instead of fair value as required by SSAP No. 56, *Separate Accounts* ("SSAP No. 56"). The impact to the Company's capital and surplus as a result of this prescribed practice was a decrease of \$12.0 as of December 31, 2018 and a decrease of \$20.7 as of December 31, 2017. The Company's net loss was increased by \$8.6 for the year ended December 31, 2018 and net income was decreased by \$1.0 for the year ended December 31, 2017 as a result of the prescribed practice. The Company's risk-based capital would not have triggered a regulatory event had the Company not used this prescribed practice.

(Dollar amounts in millions, unless otherwise stated)

IAC 191-97 Prescribed Practice

Effective April 1, 2016, after receipt of non-objection from the Iowa Division of Insurance, the Company adopted Iowa Administrative Code 191-97 *Accounting for Certain Derivative Instruments Used to Hedge the Growth in Interest Credited for Indexed Insurance Products and Accounting for the Indexed Insurance Products Reserve* (“IAC 191-97”). Under the prescribed practice, the derivative transactions used to hedge the growth in interest credited on fixed indexed annuities will be carried at amortized cost, with the corresponding reserve liability calculation updated to assume the market value of the options to be zero. Iowa Rule 191-97 supersedes SSAP No. 86. As of June 30, 2018, the Company is no longer operating under this prescribed practice.

The impact related to this change in accounting principle before reinsurance was \$266.5 as of the year ended December 31, 2018. Net of reinsurance, there was no impact for the year ended December 31, 2018. The impact to the Company's capital and surplus as a result of this prescribed practice was a decrease of \$78.2 as of December 31, 2017. The Company's net income was increased by \$82.6 for the year ended December 31, 2017 as a result of the prescribed practice.

The Company's risk-based capital would not have triggered a regulatory event had the Company not used any of these prescribed practices.

Quasi-Reorganization Permitted Practice

On May 8, 2013, the Company, with the permission of the Commissioner, restated the gross paid-in and contributed surplus and the unassigned funds components of surplus, as of December 31, 2012, similar to the restatement of surplus that occurs pursuant to the prescribed accounting guidance for a quasi-reorganization under SSAP No. 72, *Surplus and Quasi-Reorganizations* (“SSAP No. 72”). The restatement resulted in a decrease to gross paid-in and contributed surplus and an increase in unassigned surplus of \$1,659.0. This permitted practice had no impact on net income, total capital and surplus or risk-based capital.

The Company's risk-based capital would not have triggered a regulatory event had the Company not used any of these prescribed practices.

(Dollar amounts in millions, unless otherwise stated)

3. Investments

Bonds and Equity Securities

The cost or amortized cost and fair value of bonds and equity securities are as follows:

	Cost or Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
	(In Thousands)			
At December 31, 2018				
U.S. Treasury securities and obligations of U.S. government corporations and agencies	\$ 745,255	\$ 26,176	\$ 6,306	\$ 765,125
States, municipalities, and political subdivisions	399,164	9,035	3,249	404,950
Foreign other (par value - \$4,244,172)	4,247,445	56,563	88,140	4,215,868

Total	\$ 21,444,072	\$ 1,312,838	\$ 117,605	\$ 22,639,305

(Dollar amounts in millions, unless otherwise stated)

Reconciliation of bonds from amortized cost to carrying value is as follows:

	December 31	
	2018	2017
	<i>(In Thousands)</i>	
Cost or amortized cost	\$ 17,455,532	\$ 21,305,488
Adjustment for below investment grade bonds	(395)	(7,578)
Carrying value	<u>\$ 17,455,137</u>	<u>\$ 21,297,910</u>

The aggregate fair value of bonds with unrealized losses and the time period that cost exceeded fair value are as follows:

	Less than 6 Months Below Cost	More than 6 Months and Less than 12 Months Below Cost	More than 12 Months Below Cost	Total
	<i>(In Thousands)</i>			
At December 31, 2018				
Fair value	\$ 4,359,022	\$ 3,957,524	\$ 1,512,245	\$ 9,828,791
Unrealized loss	116,440	154,818	102,075	373,333
At December 31, 2017				
Fair value	\$ 2,049,391	\$ 115,855	\$ 1,188,716	\$ 3,353,962
Unrealized loss	47,297	4,070	65,484	116,851

The amortized cost and fair value of investments in bonds at December 31, 2018, by contractual maturity, are shown below. Expected maturities may differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

	Amortized Cost	Fair Value
	<i>(In Thousands)</i>	
Maturity:		
Due in 1 year or less	\$ 271,200	\$ 271,293
Due after 1 year through 5 years	3,340,172	3,358,575
Due after 5 years through 10 years	5,217,679	5,135,966
Due after 10 years	4,821,813	4,878,111
	<u>13,650,864</u>	<u>13,643,945</u>
Residential mortgage-backed securities	970,562	989,656
Commercial mortgage-backed securities	1,256,163	1,240,701
Other asset-backed securities	1,577,943	1,547,650
Total	<u>\$ 17,455,532</u>	<u>\$ 17,421,952</u>

(Dollar amounts in millions, unless otherwise stated)

Pre-2008 vintage subprime and Alt-A mortgage collateral continues to reflect a housing market entrenched in recovery. While collateral losses continue to be realized, the pace and magnitude at which losses are being realized are steadily decreasing. Serious delinquencies and other measures of performance, like prepayments and loan defaults, have also displayed sustained periods of improvement. Reflecting these fundamental improvements, related bond prices and sector liquidity have increased substantially since the credit crisis. More broadly, home prices have moved steadily higher, further supporting bond payment performance. Year-over-year home price measures, while at a lower magnitude than experienced in the years following the trough in home prices, have stabilized at sustainable levels, when measured on a nationwide basis. While certain geographies began to show signs of slowing in the fourth quarter, this backdrop overall remains supportive of continued improvement in overall borrower payment behavior. In managing our risk exposure to subprime and Alt-A mortgages, we take into account collateral performance and structural characteristics associated with our various positions.

While the Company actively invests in and continues to manage a portfolio of such exposures in the form of securitized investments, the Company does not originate or purchase subprime or Alt-A whole-loan mortgages. Subprime lending is the origination of loans to customers with weaker credit profiles. The Company defines Alt-A mortgages to include the following: residential mortgage loans to customers who have strong credit profiles but lack some element(s), such as documentation to substantiate income; residential mortgage loans to borrowers that would otherwise be classified as prime but for which loan structure provides repayment options to the borrower that increase the risk of default; and any securities backed by residential mortgage collateral not clearly identifiable as prime or subprime.

(Dollar amounts in millions, unless otherwise stated)

The Company does not have direct exposure through investments in subprime mortgage loans as of December 31, 2018 and 2017.

The following table summarizes the Company's direct exposure through other investments as of December 31, 2018 and 2017, respectively:

	Actual Cost	Book/Adjusted Carrying Value (excluding interest)	Fair Value	Other Than Temporary Impairment Losses Recognized
	<i>(In Thousands)</i>			
December 31, 2018				
Residential mortgage-backed securities	\$ 31,954	\$ 27,181	\$ 31,802	\$ 927
Structured securities	12,807	12,338	14,395	2
Total	<u>\$ 44,761</u>	<u>\$ 39,519</u>	<u>\$ 46,197</u>	<u>\$ 929</u>
December 31, 2017				
Residential mortgage-backed securities	\$ 62,571	\$ 51,857	\$ 61,058	\$ 409
Structured securities	33,657	32,048	34,708	20
Total	<u>\$ 96,228</u>	<u>\$ 83,905</u>	<u>\$ 95,766</u>	<u>\$ 429</u>

The Company does not have underwriting exposure to subprime mortgage risk through Mortgage Guaranty or Financial Guaranty insurance coverage as of December 31, 2018 and 2017.

(Dollar amounts in millions, unless otherwise stated)

The following tables detail the Company's exposure to structured notes:

At December 31, 2018:

CUSIP Identification	Actual Cost	Fair Value (In Thousands)	Book/Adjusted Carrying Value	Mortgage-Referenced Security (Y/N)

Mortgage Loans and Real Estate

All mortgage loans are evaluated by seasoned underwriters, including an appraisal of loan- specific credit quality, property characteristics, and market trends, and assigned a quality rating using the Company's internally developed quality rating system. The Company's mortgage loans on real estate are all commercial mortgage loans, held for investment.

The maximum and minimum lending rates for mortgage loans initiated during 2018 were 7.5% and 3.5%.

Taxes, assessments and any amounts advanced and not included in the mortgage loan total were \$0.0 as of December 31, 2018 and 2017.

During 2018, the maximum percentage of any one loan to the value of security at the time of the loan, exclusive of insured or guaranteed or purchase money mortgages was 80.3% on commercial properties.

The following table shows an age analysis of mortgage loans by type and identification of mortgage loans in which the insurer is a participant or co-lender in a mortgage loan agreement as of December 31, 2018 and 2017:

The Company had no investments in impaired mortgage loans with or without an allowance for credit losses or in any impaired loans subject to a participant or co-lender mortgage loan agreement for which the Company is restricted from unilaterally foreclosing on the mortgage loan as of December 31, 2018 and 2017.

The Company recognizes interest income on its impaired loans upon receipt.

The Company has no allowances for credit losses as of December 31, 2018 and 2017.

The Company has no mortgage loans derecognized as a result of foreclosure as of December 31, 2018 and 2017.

Real Estate

In connection with the Acquisition described in Note 1, the Company sold ownership of certain real estate property used as Voya Financial, Inc.'s Atlanta campus to ReliaStar Life Insurance Company, a Minnesota insurer and then affiliate of the Company. The Company received \$39.7 in consideration and recognized a gain of \$12.0 on the disposal in accordance with SSAP No. 40R, Real Estate Investments.

Net Realized Capital Gains and Losses

Realized capital gains (losses) are reported net of federal income taxes and amounts transferred to the IMR as follows:

	December 31	
	2018	2017
	<i>(In Thousands)</i>	
Realized capital (losses) gains	\$ 4,058	\$ (1,176,785)
Amount transferred to IMR (net of related taxes of \$15,820 in 2018, \$9,762 in 2017)	(59,512)	(18,129)
Federal income tax benefit	88,734	511,249
Net realized capital (losses) gains	<u>\$ 33,280</u>	<u>\$ (683,665)</u>

Realized capital losses include losses of \$36.9 and \$14.2 related to securities that have experienced other-than-temporary declines in value during 2018 and 2017, respectively.

Proceeds from sales of investments in bonds and other fixed maturity interest securities were \$11.3 billion and \$3.3 billion in 2018 and 2017, respectively. Gross gains of \$265.1 and \$59.8 and gross losses of \$178.8 and \$25.1 during 2018 and 2017, respectively, were realized on those sales. A portion of the gains and losses realized in 2018 and 2017 has been deferred to future periods in the IMR.

(Dollar amounts in millions, unless otherwise stated)

The following table discloses, in aggregate, the other-than-temporary impairments ("OTTI") recognized by the Company in accordance with structured securities subject to SSAP No. 43R, *Loan-backed and Structured Securities* ("SSAP No. 43R") due to intent to sell or inability or lack of intent to hold to recovery as of December 31, 2018:

	Amortized Cost Basis Before Other-than- Temporary Impairment	Other-than-Temporary Impairment Recognized		Fair Value
		Interest	Non-interest

(Dollar amounts in millions, unless otherwise stated)

The total amount of OTTI's recognized by the Company arising from the present value of expected cash flows being less than the amortized cost of structured securities subject to SSAP No. 43R was \$1.2 and \$0.5 in 2018 and 2017, respectively.

The following table shows for the years ended December 31, 2018 and 2017, all impaired securities in the aggregate for which an OTTI has not been recognized in earnings as a realized loss, including securities with a recognized OTTI for non-interest related declines when a non- recognized interest related impairment remains:

	December 31, 2018	
	Aggregate Amount of Unrealized Losses	Aggregate Fair Value of Securities with Unrealized Losses
	<i>(In Thousands)</i>	
Less than 12 months	\$ 54,558	\$ 1,741,128
Greater than 12 months	35,732	594,239
Total	<u>\$ 90,290</u>	<u>\$ 2,335,367</u>

	December 31, 2017	
	Aggregate Amount of Unrealized Losses	Aggregate Fair Value of Securities with Unrealized Losses
	<i>(In Thousands)</i>	
Less than 12 months	\$ 16,388	\$ 769,624
Greater than 12 months	30,101	364,809
Total	<u>\$ 46,489</u>	<u>\$ 1,134,433</u>

Impairments on joint venture, partnerships and limited liability company holdings are taken when it is determined that these values are not recoverable. The fair value of these investments is based upon the Company's overall proportional ownership interest in the underlying partnership. The investment and the amount of the impairments for the years ended December 31, 2018 and 2017 are as follows:

Description	Year ended December 31	
	2018	2017
Blackstone Comdty Fund	\$ —	\$ 137
Energy Capital Partners, LP PRVT	686	323
Total	<u>\$ 686</u>	<u>\$ 460</u>

(Dollar amounts in millions, unless otherwise stated)

Investment Income

Major categories of net investment income are summarized as follows:

	Year ended December 31	
	2018	2017
	<i>(In Thousands)</i>	
Income:		
Bonds	\$ 839,523	\$ 976,187
Mortgage loans	169,142	176,254
Equity securities	7,256	12,106
Subsidiary	32,407	—
Contract loans	1,287	3,628
Derivatives	314,725	(125,510)
Real estate	1,847	8,308
Other	29,301	30,938
Total investment income	1,395,488	1,081,911
Investment expenses	(66,307)	(97,885)
Net investment income	\$ 1,329,181	\$ 984,026

(Dollar amounts in millions, unless otherwise stated)

Securities Lending

The Company did not have any loaned securities as of December 31, 2018. The Company had loaned securities, which are reflected as invested assets on the balance sheet, with a fair value of approximately \$384.5 at December 31, 2017. The securities received as collateral and the obligation to return the collateral are reflected separately on the balance sheet. The aggregate fair value amount of open collateral received for securities lending agreements was \$388.9 at December 31, 2017.

The Company uses cash collateral received for income generation and general liquidity purposes. At the end of the loan term, the Company will take back its securities, and the counterparty will receive the amount loaned, together with the agreed upon interest.

The Company has not pledged any of its assets as collateral that are not reclassified and separately reported on the balance sheet.

The aggregate amount of collateral reinvested, by specific time period, for securities lending agreements at December 31, 2017 are shown below:

	Securities Lending	
	Amortized Cost	Fair Value
	(In Thousands)	
At December 31, 2017		
Open	\$ —	\$ —
30 days or less	213,923	213,921
31 to 60 days	28,820	28,821
61 to 90 days	94,894	94,901
91 to 120 days	18,130	18,131
121 to 180 days	33,109	33,109
181 to 365 days	—	—
1 to 2 years	—	—
2 to 3 years	—	—
Greater than 3 years	—	—
Securities received	—	—
Total collateral reinvested	<u>\$ 388,876</u>	<u>\$ 388,883</u>

The maturity dates of the liabilities appropriately match the invested assets in the securities lending program.

The Company may engage in securities lending whereby certain securities from its portfolio are loaned to other institutions, through a lending agent, for short periods of time. As of December 31, 2018 the Company did not engage in any securities lending. As of December 31, 2017 the fair value of securities retained as collateral by the lending agent on the Company's behalf was \$9.0.

(Dollar amounts in millions, unless otherwise stated)

There were no amounts held as collateral for transactions that extend beyond one year at December 31, 2018 and 2017.

Federal Home Loan Bank Agreements

The Company is a member of the FHLB of Des Moines. Through its membership, the Company has conducted business activity (entered into advances) with the FHLB as part of the Company's liquidity strategy. The Company has determined the estimated maximum borrowing capacity as \$16.1 billion. The Company has the ability to obtain funding from the FHLB based on a percentage of the value of its assets and subject to the availability of eligible collateral. The limit across all programs is 30% of the general and separate accounts total assets of the Company, one quarter in arrears.

The amount of FHLB capital stock held by the Company is as follows:

	2018			2017		
	General Account	Separate Account	Total	General Account	Separate Account	Total
	<i>(In Thousands)</i>					
Membership stock - Class A	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —
Membership stock - Class B	10,000	—	10,000	10,000	—	10,000
Activity stock	400	—	400	24,000	—	24,000
Excess stock	—	—	—	—	—	—
Aggregate total	\$ 10,400	\$ —	\$ 10,400	\$ 34,000	\$ —	\$ 34,000

The actual collateral as determined by the Company is \$165.7 and \$635.0 at December 31, 2018 and 2017, respectively.

All FHLB membership stock is not eligible for redemption.

(Dollar amounts in millions, unless otherwise stated)

The amount of collateral pledged to FHLB at the the end of the reporting period, and the maximum amount that was pledged to FHLB during the reporting period is as follows:

	Amount Pledged at End of Reporting Period			Maximum Amount Pledged During Reporting Period		
	Fair Value	Carrying Value	Aggregate Total Borrowing	Fair Value	Carrying Value	Aggregate Total Borrowing
<i>(In Thousands)</i>						
As of December 31, 2018						
General account	\$ 181,715	\$ 183,817	\$ 10,000	\$ 687,061	\$ 677,710	\$ 600,000
Separate account	—	—	—	—	—	—
Total	\$ 181,715	\$ 183,817	\$ 10,000	\$ 687,061	\$ 677,710	\$ 600,000
As of December 31, 2017						
General account	\$ 691,465	\$ 663,978	\$ 600,000	\$ 691,465	\$ 663,978	\$ 600,000
Separate account	—	—	—	—	—	—
Total	\$ 691,465	\$ 663,978	\$ 600,000	\$ 691,465	\$ 663,978	\$ 600,000

The amount borrowed from the FHLB at the the end of the reporting period is as follows:

	General Account	Separate Account	Total	Funding Agreement Reserves Established
<i>(In Thousands)</i>				
As of December 31, 2018				
Debt	\$ 10,000	\$ —	\$ 10,000	XXX
Funding agreements	—	—	—	\$ —
Other	—	—	—	XXX
Aggregate total	\$ 10,000	\$ —	\$ 10,000	\$ —
As of December 31, 2017				
Debt	\$ —	\$ —	\$ —	XXX
Funding agreements	600,000	—	600,000	\$ 601,513
Other	—	—	—	XXX
Aggregate total	\$ 600,000	\$ —	\$ 600,000	\$ 601,513

The maximum amount the general account borrowed from FHLB during the years ended December 31, 2018 and 2017 was \$600.

The Company's current FHLB borrowings may be subject to prepayment penalties.

(Dollar amounts in millions, unless otherwise stated)

Restricted Assets

The following table shows assets pledged as collateral or restricted at December 31, 2018:

Restricted Asset Category	Gross (Admitted & Nonadmitted) Restricted								Gross (Admitted & Nonadmitted) Restricted to Total Assets	Admitted Restricted to Total Admitted Assets

Troubled Debt Restructuring

The Company has high quality, well performing, portfolio of private placement debts. Under certain circumstances, modifications to these contracts are granted. Each modification is evaluated as to whether troubled debt restructuring has occurred. A modification is a troubled debt restructure when the borrower is in financial difficulty and the creditor makes concessions. Generally, the types of concessions may include: reduction of the face amount or maturity amount of the debt as originally stated, reduction of the contractual interest rate, extension of the maturity date at an interest rate lower than current market interest rates and/or reduction of accrued interest. The Company considers the amount, timing and extent of the concession granted in determining any impairment or changes in the specific valuation allowance recorded in connection with the troubled debt restructuring. A valuation allowance may have been recorded prior to the quarter when the loan is modified in a troubled debt restructuring. Accordingly, the carrying value (net of the specific valuation allowance) before and after modification through a troubled debt restructuring may not change significantly, or may increase if the expected recovery is higher than the pre-modification recovery assessment.

As of December 31, 2018 the Company did not hold any private placement debt restructuring loans. As of December 31, 2017 the Company's total recorded investment in troubled debt restructurings was \$7.3 and the Company had no realized losses related to these investments in 2017.

The Company has no contractual commitments to extend credit to debtors owing receivables whose terms have been modified in troubled debt restructurings.

The Company accrues interest income on impaired loans to the extent it is deemed collectible, that is delinquent less than 90 days, and the loan continues to perform under its original or restructured contractual terms. Interest income on non-performing loans is generally recognized on a cash basis.

4. Derivative Financial Instruments Held for Purposes Other than Trading

The Company's use of derivatives is primarily for economic hedging purposes. The Company enters into various derivative transactions to reduce and manage the risk of a change in value, yield, price, cash flow or quantity of, or a degree of exposure with respect to assets, liabilities, or future cash flows which the Company has acquired or incurred. Hedge accounting practices are in accordance with SSAP No. 86, *Derivatives*. The Company enters into credit default swaps to reduce the credit loss exposure with respect to certain assets which the Company has acquired.

The Company does not receive hedge accounting treatment for these derivative transactions. The Company also enters into credit default swaps to replicate the investment characteristics of permissible investments using the derivative in conjunction with other investments. The replication (synthetic asset) and the derivative and other cash instrument are carried at amortized cost. The replication practices are in accordance with SSAP No. 86.

(Dollar amounts in millions, unless otherwise stated)

The Company enters into the following type of derivatives: Credit Contracts, Equity Contracts, Foreign Exchange Contracts and Interest Rate Contracts. The Company's use and hedging strategy of derivatives is detailed in Note 1.

Upfront fees paid or received on derivative contracts are included on the balance sheet as an asset or liability and are amortized to investment income over the remaining term of the contracts.

Periodic payments from such contracts are included in investment income on the statements of operations. Accrued amounts payable to or receivable from counterparties are included in other liabilities or accrued investment income on the balance sheet. Gains or losses realized as a result of early terminations are recognized in income in the statements of operations or deferred into IMR and amortized into investment income.

The Company is exposed to credit loss in the event of nonperformance by counterparties on certain derivative contracts; however, the Company does not anticipate nonperformance by any of these counterparties. The amount of such exposure is generally the unrealized gains in such contracts. The Company manages the potential credit exposure from interest rate contracts through careful evaluation of the counterparties' credit standing, collateral agreements, and master netting agreements.

Under the terms of the Company's Over-The-Counter ("OTC") Derivative International Swaps and Derivatives Association, Inc. ("ISDA") agreements, the Company may receive from, or deliver to, counterparties, collateral to assure that all terms of the ISDA agreements will be met with regard to the Credit Support Annex ("CSA"). The terms of the CSA call for the Company to pay interest on any cash received equal to the Federal Funds rate. Collateral held is used in accordance with the CSA to satisfy any obligations. Investment grade bonds owned by the Company are the source of noncash collateral posted, which is reported on the balance sheet.

The table below summarizes the Company's types and amounts of collateral held, pledged and delivered related to OTC derivative contracts and cleared derivative contracts:

	As of December 31, 2018	As of December 31, 2017
Collateral Type:	(In Thousands)	
Cash		
Held- Cleared Contracts	\$ —	\$ 54,936
Held- OTC Contracts	807,736	666,360
Pledged-Cleared Contracts	9,323	—
Securities		
Held	\$ 139,690	\$ 33,515
Delivered	253,502	439,897

(Dollar amounts in millions, unless otherwise stated)

The Company is required to post collateral for any futures contracts that are entered into. The amount of collateral required is determined by the exchange. The Company currently posts cash and U.S. Treasury Bonds to satisfy this collateral requirement.

The Company sells credit default swap protection, in conjunction with other investments, to replicate the income characteristics of otherwise permitted investments. The standard contract is five or seven years. In the event of default of the reference entity, the Company would be required to pay the notional amount of the contract. At December 31, 2018 and 2017, the total amount would be \$25.0 and \$127.0, respectively.

The table below summarizes the Company's derivative contracts on the balance sheet at December 31, 2018 and 2017:

	<u>Notional Amount</u>	<u>Carrying Value</u> <i>(In Thousands)</i>	<u>Fair Value</u>
December 31, 2018			
Derivative contracts:			
Credit contracts	\$ 25,000	\$ 135	\$ (205)
Equity contracts	27,945,616	767,347	758,645
Foreign exchange contracts	42,832	679	1,033
Interest rate contracts	26,142,500	136,613	136,486
Total derivatives	<u>\$ 54,155,948</u>	<u>\$ 904,774</u>	<u>\$ 895,959</u>
December 31, 2017			
Derivative contracts:			
Credit contracts	\$ 437,767	\$ (5,797)	\$ (4,943)
Equity contracts	34,487,149	100,899	377,754
Foreign exchange contracts	244,673	(17,041)	(24,421)
Interest rate contracts	27,039,348	389,821	403,594
Separate account liability:			
Foreign exchange contracts	77,459	759	759
Total derivatives	<u>\$ 62,286,396</u>	<u>\$ 468,641</u>	<u>\$ 752,743</u>

The net gain or (loss) recognized in unrealized gains or (losses) during the reporting period resulting from derivative instruments that no longer qualify for hedge accounting was \$0 for both the years ended December 31, 2018 and 2017.

The Company does not have any derivative contracts with financing premiums.

(Dollar amounts in millions, unless otherwise stated)

5. Concentrations of Credit Risk

The Company held below investment grade corporate bonds with an aggregate book value of \$809.2 and \$932.8 and an aggregate fair value of \$801.6 and \$961.4 at December 31, 2018 and 2017, respectively. Those holdings amounted to 4.6% and 4.4% of the Company's investments in bonds and 3.1% and 3.2% of total admitted assets excluding separate accounts, at December 31, 2018 and 2017, respectively. The holdings of below investment grade bonds are widely diversified and of satisfactory quality based on the Company's investment policies and credit standards.

The Company held unrated bonds with a carrying value of \$143.5 and \$494.3 with an aggregate fair value of \$150.2 and \$513.3 at December 31, 2018 and 2017, respectively. The carrying value of these holdings amounted to 0.8% and 2.3% of the Company's investment in bonds and 0.5% and 1.7% of the Company's total admitted assets excluding separate accounts, at December 31, 2018 and 2017, respectively.

The Company's commercial mortgage loan portfolio is diversified by geographic region and property type to manage concentration risk. The Company manages risk when originating commercial mortgage loans by generally lending only up to 75% of the estimated fair value of the underlying real estate. Subsequently, the Company continuously evaluates all mortgage loans based on relevant current information including a review of loan-specific credit, property characteristics and market trends. Loan performance is continuously monitored on a loan-specific basis throughout the year. This review includes submitted appraisals, operating statements, rent revenues and annual inspection reports, among other items. This review evaluates whether the properties are performing at a consistent and acceptable level to secure the debt. The components to evaluate debt service coverage are received and reviewed at least annually to determine the level of risk.

The Company rates all commercial mortgages to quantify the level of risk. The Company places those loans with higher risk on a watch list and closely monitors these loans for collateral deficiency or other credit events that may lead to a potential loss of principal and/or interest.

(Dollar amounts in millions, unless otherwise stated)

Loan-to-value ("LTV") and debt service coverage ("DSC") ratios are measures commonly used to assess the risk and quality of commercial mortgage loans. The LTV ratio, calculated at time of origination, is expressed as a percentage of the amount of the loan relative to the value of the underlying property. An LTV ratio in excess of 100% indicates the unpaid loan amount exceeds the value of the underlying collateral. The DSC ratio, based upon the most recently received financial statements, is expressed as a percentage of the amount of a property's net income (loss) to its debt service payments. A DSC ratio of less than 1.0 indicates that property's operations do not generate sufficient income to cover debt payments. These ratios are utilized as part of the review process described above. LTV and DSC ratios as of the dates indicated are presented below:

	As of December 31, 2018		As of December 31, 2017	
	Carrying Value	%	Carrying Value	%
	(In Thousands)		(In Thousands)	
Origination Loan-to-Value

1.0x to 1.25x	265,797	7.0%	291,884	6.8%
Less than 1.0x	53,101	1.4%	61,510	1.4%
Not Applicable*	18,079	0.4%	25,462	0.6%
Total	\$ 3,818,016	100.0%	\$ 4,278,170	100.0%

*Commercial mortgage loans secured by land or construction loans

If the value of any mortgage loan is determined to be impaired (i.e., when it is probable that the Company will be unable to collect on all amounts due according to the contractual terms of the loan agreement), the carrying value of the mortgage loan is reduced to either the present value of expected cash flows from the loan, discounted at the loan's effective interest rate, or fair value of the collateral.

(Dollar amounts in millions, unless otherwise stated)

The following table shows the Company's mortgage loan portfolio diversification by property type:

Property Type	As of December 31, 2018		As of December 31, 2017

Totals	<u>\$ (89,609)</u>	<u>\$ (90,164)</u>

7. Employee Benefit Plans

Effective June 1, 2018, in connection with the Acquisition described in Note 1, VSC created and sponsors the Venerable 401(k) Savings Plan (the “Venerable Savings Plan”). Substantially all employees of VSC are eligible to participate, and the features of the Venerable Savings Plan are substantially identical to those of the Voya Savings Plan described below, including company pre-tax match up to a maximum of 6% of eligible compensation and a profit sharing contribution of up to a maximum 4% of eligible compensation. Amounts allocated to the Company for the Venerable Savings Plan were \$0.9 for the seven months ended December 31, 2018.

Prior to the Acquisition, the Company's Employee Benefit Plans were structured as follows:

Defined Benefit Plan: Prior to the Acquisition, Voya Services Company sponsored the Voya Financial, Inc. Retirement Plan (the “Voya Qualified Plan”). The Voya Qualified Plan was a tax qualified defined benefit plan, the benefits of which were guaranteed (within certain specified legal limits) by the Pension Benefit Guaranty Corporation (“PBGC”). The Voya Qualified Plan operates under a cash balance plan where participants earn a credit equal to 4% of eligible pay. The accrued vested cash balance benefit is portable. The costs allocated to the Company for its employees’ participation in the Qualified Plan were \$1.0 and \$2.2 for 2018 and 2017, respectively. Upon completion of the Acquisition, the Company's employees were moved from active participants to term-vested participants in the Voya Qualified Plan, and all of the Company's obligations under the Voya Qualified Plan were terminated.

(Dollar amounts in millions, unless otherwise stated)

Defined Contribution Plans: Prior to the Acquisition, Voya Services Company sponsored the Voya 401(k) Savings Plan (the “Voya Savings Plan”). Substantially all employees of Voya Services Company and its affiliates were eligible to participate, including, prior to the Acquisition, the Company’s employees other than Company agents. The Voya Savings Plan was a tax qualified defined contribution plan. Voya Savings Plan benefits were not guaranteed by the PBGC. The Voya Savings Plan allowed eligible participants to defer into the Voya Savings Plan a specified percentage of eligible compensation on a pretax basis and post-tax basis. Voya Services Company matched such pretax contributions, up to a maximum of 6% of eligible compensation. All matching contributions were subject to a 4 year graded vesting schedule (although certain specified participants were subject to a 5 year graded vesting schedule). All contributions made to the Savings Plan were subject to certain limits imposed by applicable law. Amounts allocated to the Company for the Voya Savings Plan were \$0.9 and \$3.5 for 2018 and 2017, respectively. Effective with the Acquisition, employee and Company contributions to the Voya Savings Plan ceased.

The Omnibus Plan: Prior to the completion of the Acquisition, certain employees of the Company participated in the Voya Financial, Inc. 2013 and 2014 Omnibus Employee Incentive Plan (the “Voya Omnibus Plan”) with respect to awards granted in 2013, 2014, 2015, 2016, 2017, and 2018. The Voya Omnibus Plans each permit the granting of a wide range of equity-based awards, including restricted stock units (“RSUs”), performance share units (“PSUs”), and stock options. The costs allocated to the Company under these holding company arrangements for employee participation were \$5.8 and \$14.2 for 2018 and 2017, respectively.

The Company also offers deferred compensation plans for eligible employees and certain other individuals who meet the eligibility criteria. The Company recorded a liability of \$1.9 and \$8.8 at December 31, 2018 and 2017, respectively.

Other Benefit Plans: In addition to providing retirement plan benefits, prior to completion of the Acquisition the Company, in conjunction with Voya Services Company, provided certain supplemental retirement benefits to eligible employees and health care and life insurance benefits to retired employees and other eligible dependents. The supplemental retirement plan included a nonqualified defined benefit pension plan and a nonqualified defined contribution plan, which means all benefits were payable from the general assets of the Company. The postretirement health care plan was contributory with retiree contribution levels adjusted annually. The life insurance plan provides a flat amount of noncontributory coverage and optional contributory coverage.

(Dollar amounts in millions, unless otherwise stated)

A summary of the net periodic benefit cost of the Company's benefit plans are as follows at December 31, 2018 and December 31, 2017:

	Overfunded		Underfunded	
	2018	2017	2018	2017
	<i>(In Thousands)</i>			
Pension Benefits				
Benefit obligation at beginning of year	\$ —	\$ —	\$ 23,613	\$ 22,376
Interest cost	—	—	370	991
Actuarial loss (gain)	—	—	—	1,604
Benefits paid	—	—	(564)	(1,359)
Business combinations, divestitures, curtailments, settlements and special termination benefits	—	—	(23,419)	—
Benefit obligation at end of year	<u>\$ —</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 23,612</u>

Net gain and loss recognized	(5,609)	(362)	1,616	130
Items not yet recognized - current year	\$ —	\$ 5,597	\$ —	\$ (1,651)

The amounts in unassigned funds (surplus) expected to be recognized in the next fiscal year as components of net periodic benefit cost are as follows:

	Pension Benefits		Postretirement Benefits	
	2018	2017	2018	2017
	(In Thousands)			
Net transition asset or obligation recognized	—	1	—	—
Net prior service cost or credit	—	(32)	—	(85)
Net recognized gains and losses	\$ —	\$ 642	\$ —	\$ (119)

(Dollar amounts in millions, unless otherwise stated)

The amounts in unassigned funds (surplus) that have not yet been recognized as components of net periodic benefit cost are as follows:

	Pension Benefits		Postretirement Benefits	
	2018	2017	2018	2017
	<i>(In Thousands)</i>			
Net transition asset or obligation recognized	\$ —	4	\$ —	—
Net prior service cost or credit	—	(31)	—	(424)
Net recognized gains and losses	\$ —	\$ 5,642	—	(1,227)

Assumptions used in determining year-end liabilities for the defined benefit plans and other benefit plans as of December 31, 2017 were as follows:

	2017
Weighted average discount rate	3.64%
Rate of increase in compensation level	N/A

Assumptions used in determining expense for the defined benefit plans and other benefit plans as of January 1, 2017 were as follows:

	2017
Weighted average discount rate	4.55%
Expected long-term rate of return on plan assets	N/A
Rate of compensation increase	N/A

Assumed health care cost trend rates have a significant effect on the amounts reported for the health care plans. A one percentage point change in assumed health care cost trend rates would have \$0 effect on total of service and interest cost components for the years ended December 31, 2018 and 2017, and \$0 effect on postretirement benefit obligations for the years ended December 31, 2018 and 2017.

The Company had multiple postretirement welfare benefit plans. The medical plans were contributory, with plan premiums and participants' contributions adjusted annually. The life insurance plan for retirees was contributory based on retirement date. Voya Financial, Inc. did not subsidize retiree medical benefit coverage for retirements that occurred after October 1, 2009. Prior to April 1, 2017, coverage for Medicare eligible retirees was provided through a fully insured Medicare Advantage plan. Effective April 1, 2017, the fully insured Medicare Advantage Plan was replaced with access to individual coverage through a private exchange. The Company's premium subsidy ended and was replaced with a monthly HRA contribution.

The Company does not have any regulatory contribution requirements for 2019, and the Company currently does not intend to make voluntary contributions to the defined benefit pension plan for 2019.

(Dollar amounts in millions, unless otherwise stated)

8. Separate Accounts

Separate account assets and liabilities represent funds segregated by the Company for the benefit of certain policy and contract holders who bear the investment risk. Revenues and expenses on the separate account assets and related liabilities equal the benefits paid to the separate account policy and contract holders.

The general nature and characteristics of the separate accounts business follows:

(Dollar amounts in millions, unless otherwise stated)

	Non-Indexed Guarantee Less than/equal to 4%	Non-Guaranteed Separate Accounts	Total
<i>(In Thousands)</i>			
December 31, 2018			
Premium, consideration or deposits for the year	\$ 457	\$ 59,215	\$ 59,672

At fair value	—	23,738,071	23,738,071
Subtotal	490,614	23,738,071	24,228,685
Total separate account aggregate reserves	\$ 490,614	\$ 23,738,071	\$ 24,228,685

	Non-Indexed Guarantee Less than/equal to 4%	Non-Guaranteed Separate Accounts	Total
<i>(In Thousands)</i>			
December 31, 2017			
Premium, consideration or deposits for the year	\$ 1,050	\$ 932,775	\$ 933,825
Reserves for separate accounts with assets at:			
Fair value	\$ —	\$ 28,844,021	\$ 28,844,021
Amortized cost*	556,050	—	556,050
Total separate account reserves	\$ 556,050	\$ 28,844,021	\$ 29,400,071
Reserves for separate accounts by withdrawal characteristics:			
Subject to discretionary withdrawal:			
With market value adjustment*	\$ 556,050	\$ —	\$ 556,050
At fair value	—	28,844,021	28,844,021
Subtotal	556,050	28,844,021	29,400,071
Total separate account aggregate reserves	\$ 556,050	\$ 28,844,021	\$ 29,400,071

* These amounts reflect prescribed practices that depart from the NAIC Accounting Practices and Procedures Manual, see Note 2 for additional information.

The Company utilizes separate accounts to record and account for assets and liabilities for particular lines of business. For the years ended December 31, 2018 and 2017, the Company reported assets and liabilities from the following product lines in a separate account: Individual Annuity, Group Annuity, Individual Life and Group Life.

(Dollar amounts in millions, unless otherwise stated)

Some assets in the separate account are considered legally insulated from the general account, providing protection of such assets from being available to satisfy claims resulting in the general account. The assets legally and not legally insulated from the general account are summarized in the following table, by product or transaction type, as of December 31, 2018 and 2017:

Product or Transaction	Legally Insulated Assets	Not Legally Insulated Assets*
(In Thousands)		
December 31, 2018		
Individual Annuity	\$ 9,358,972	\$ 207,422
Group Annuity	14,388,032	317,548
Individual Life	8,962	—
Group Life	21,484	—
Total	<u>\$ 23,777,450</u>	<u>\$ 524,970</u>
December 31, 2017		
Individual Annuity	\$ 11,355,457	\$ 254,937
Group Annuity	17,503,061	398,736
Individual Life	11,568	—
Group Life	23,753	—
Total	<u>\$ 28,893,839</u>	<u>\$ 653,673</u>

* These amounts reflect prescribed practices that depart from the NAIC Accounting Practices and Procedures Manual, see Note 2 for additional information.

As of December 31, 2018 separate account assets for products registered with the SEC totaled \$24.3 billion.

In accordance with the products/transactions recorded within the separate account, some separate account liabilities are guaranteed by the general account. To compensate the general account for the risk taken, the separate account paid the following amounts in risk charges:

Year ended	Risk Charges
	<i>(In Thousands)</i>
2018	\$ 199,389
2017	226,722
2016	252,482
2015	265,776
2014	285,399

(Dollar amounts in millions, unless otherwise stated)

Total separate account guarantees paid by the Company's general account are as follows:

Year ended	Guarantees Paid
	<i>(In Thousands)</i>
2018	\$ 12,084
2017	13,753
2016	40,783
2015	40,498
2014	34,594

The Company does not engage in securities lending transactions within its separate accounts.

A reconciliation of the amounts transferred to and from the separate accounts is presented below:

	2018	2017
	<i>(In Thousands)</i>	
Transfers as Reported in the Summary of Operations of the Separate Accounts Statement:		
Transfers to separate accounts	\$ 59,611	\$ 934,128
Transfers from separate accounts	(3,176,719)	(6,946,158)
Transfers as reported in the Statements of Operations	<u>\$ (3,117,108))</u>	<u>\$ (6,012,030)</u>

The aggregate fair value of equity securities, including mutual funds, supporting separate accounts with additional insurance benefits and minimum investment return guarantees as of December 31, 2018 and 2017, was \$23.8 billion and \$28.9 billion, respectively.

The Company has products classified within the separate account for which the investment directive is not determined by the contract holder. If these investments had been included in the general account, the Company would not have exceeded the investment limitations imposed on the general account.

The Company has separate account assets for which less than 100% of investment proceeds, net of contract fees and assessments, are attributed to the contract holder. The reinvestment of these investment proceeds within the separate account would not have resulted in a combined investment portfolio that exceeds the state investment limitations imposed on the general account.

(Dollar amounts in millions, unless otherwise stated)

9. Federal Income Taxes

For the period of June 1, 2018 through December 31, 2018, the Company has entered into a federal tax sharing agreement with members of an affiliated group as defined in Section 1504 of the Internal Revenue Code of 1986, as amended. The agreement provided for the manner of calculation and the amounts/timing of the payments between the parties as well as other related matters in connection with the filing of consolidated federal income tax returns. The federal tax sharing agreement provides that each subsidiary will make payments as if it were not included in the consolidated group, but instead filed its federal income tax return on a stand-alone basis.

For the period of June 1, 2018 through December 31, 2018, the following is a list of affiliated companies that participate in the filing of the Company's consolidated federal income tax return:

Voya Insurance and Annuity Company Rocky Range, Inc.

Under the intercompany tax sharing agreement, the Company recorded a receivable of \$71.7 at December 31, 2018 from its subsidiary RR, for its portion of the consolidated federal income taxes.

Prior to the Acquisition for the period of January 1, 2018 through May 31, 2018, and for the year ended December 31, 2017, the Company was included in a federal tax sharing agreement with the members of Voya Financial, Inc.'s affiliated group as defined in Section 1504 of the Internal Revenue Code of 1986, as amended. The agreement provided for the manner of calculation and the amounts/timing of the payments between the parties as well as other related matters in connection with the filing of consolidated federal income tax returns. The federal tax sharing agreement provided that Voya Financial, Inc. will pay its subsidiaries for the tax benefits of ordinary and capital losses only to the extent the consolidated tax group actually uses the tax benefit of losses generated.

(Dollar amounts in millions, unless otherwise stated)

For the period of January 1, 2018 through May 31, 2018, and for the period ended December 31, 2017, the following is a list of all affiliated companies that participated in the filing of the Voya Financial consolidated federal income tax return:

Australia Retirement Services Holding, LLC	Voya II Custom Investments LLC
IB Holdings LLC	Voya Financial Advisors, Inc.
IIPS of Florida, LLC	Voya Financial Partners, LLC
ILICA LLC	Voya Financial Products Company, Inc.
Langhorne I, LLC	Voya Financial, Inc.
Midwestern United Life Insurance Company	Voya Funds Services, LLC
Pen-Cal Administrators, Inc. *	Voya Holdings Inc.
Pomona Management LLC	Voya Insurance and Annuity Company
Rancho Mountain Properties, Inc.	Voya Institutional Plan Services, LLC
ReliaStar Life Insurance Company	Voya Institutional Trust Company
ReliaStar Life Insurance Company of New York	Voya Insurance Solutions, Inc.
Roaring River, LLC	Voya International Nominee Holdings, Inc.
Roaring River II, Inc.	Voya Investment Management Alternative Assets LLC
Roaring River IV Holding, LLC	Voya Investment Management Co. LLC
Roaring River IV, LLC	Voya Investment Management LLC
Security Life Assignment Corp.	Voya Investment Trust Company
Security Life of Denver Insurance Company	Voya Investments Distributor, LLC
Security Life of Denver International Limited	Voya Investments, LLC
SLDI Georgia Holdings, Inc.	Voya Payroll Management, Inc.
Voya Alternative Asset Management LLC	Voya Pomona Holdings LLC
Voya America Equities, Inc.	Voya Realty Group LLC
Voya Benefits Company, LLC *	Voya Retirement Advisors, LLC
Voya Capital, LLC	Voya Retirement Insurance and Annuity Company
Voya Custom Investments LLC	Voya Services Company

*New affiliate for the period of January 1, 2018 through May 31, 2018. Directed Services, LLC was removed as an affiliate for this same period, as they are a single member LLC that did not participate in the filing of the Voya Financial consolidated federal income tax return.

Under the intercompany tax sharing agreement, the Company has a (payable)/receivable of \$(144.5) at December 31, 2017 to Voya Financial, Inc., an affiliate, for federal income taxes.

Current income taxes incurred consisted of the following major components:

	Year ended December 31	
	2018	2017
	<i>(In Thousands)</i>	
Federal tax expense on operations	\$ 56,210	\$ 855,267
Federal tax benefit on capital losses	(88,734)	(511,249)
Total current tax expense incurred	<u>\$ (32,524)</u>	<u>\$ 344,018</u>

(Dollar amounts in millions, unless otherwise stated)

The components of deferred tax asset and deferred tax liability that make up a Net Deferred Tax Asset (DTA) at December 31, 2018 and 2017 are as follows:

	December 31, 2018			December 31, 2017			Change		
	Ordinary	Capital	Total	Ordinary	Capital	Total	Ordinary	Capital	Total
	(In Thousands)								
Gross DTAs	\$ 448,889	\$ 14,190	\$ 463,079	\$ 870,778	\$ 26,143	\$ 896,921	\$ (421,889)	\$ (11,953)	\$ (433,842)
Statutory Valuation Allowance									
Adjustments	301,327	4,329	305,656	—	—	—	301,327	4,329	305,656
Adjusted gross DTAs	147,562	9,861	157,423	870,778	26,143	896,921	(723,216)	(16,282)	(739,498)
Deferred Tax Assets Nonadmitted	—	—	—	512,215	10,165	522,380	(512,215)	(10,165)	(522,380)
Admitted Adjusted Gross DTAs	147,562	9,861	157,423	358,563	15,978	374,541	(211,001)	(6,117)	(217,118)
Gross Deferred tax liabilities	147,562	9,861	157,423	119,194	15,978	135,172	28,368	(6,117)	22,251
Net Admitted Adjusted Gross DTAs	\$ —	\$ —	\$ —	\$ 239,369	\$ —	\$ 239,369	\$ (239,369)	\$ —	\$ (239,369)

The admission calculation components by tax character of admitted adjusted gross deferred tax assets as the result of the application of SSAP No. 101 as of December 31, 2018 and December 31, 2017 are as follows:

	December 31, 2018			December 31, 2017			Change		
	Ordinary	Capital	Total	Ordinary	Capital	Total	Ordinary	Capital	Total
	(In Thousands)								
a. Federal income taxes paid in prior years recoverable through loss carrybacks	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —
b. Adjusted gross DTAs expected to be realized (excluding the amount of DTAs from (a)) after application of the	—	—	—	239,369	—	239,369	(239,369)	4,329	(239,369)
1. Adjusted gross DTAs expected to be realized following the balance sheet date	—	—	—	354,115	—	354,115	(354,115)	—	(354,115)
2. Adjusted gross DTAs allowed per limitation threshold	XXX	XXX	337,755	XXX	XXX	239,369	XXX	XXX	98,386
c. Adjusted gross DTAs (excluding the amount of DTAs from (a) and (b) above) offset by gross deferred tax liabilities	147,562	9,861	157,423	119,194	15,978	135,172	28,368	(6,117)	22,251
Deferred tax assets admitted as the result of application SSAP No.101 Total	\$ 147,562	\$ 9,861	\$ 157,423	\$ 358,563	\$ 15,978	\$ 374,541	\$ (211,001)	\$ (6,117)	\$ (217,118)

(Dollar amounts in millions, unless otherwise stated)

The ratio percentage and the amount of adjusted capital and surplus used to determine the recovery period and threshold limitation is as follows:

	<u>2018</u>	<u>2017</u>
	<i>(Amounts in Thousands)</i>	
Ratio percentage used to determine recovery period and threshold limitation amount	1,274.7%	883.4%
Amount of adjusted capital and surplus used to determine recovery period and threshold limitation	\$ 2,487,098	\$ 1,652,788

Below shows the calculation to determine the impact of tax planning strategies on adjusted gross and net admitted DTAs:

	December 31, 2017		December 31, 2017		Change	
	Ordinary	Capital	Ordinary	Capital	Ordinary	Capital
	<i>(Amounts in Thousands)</i>					
Adjusted gross DTAs	\$ 147,562	\$ 9,861	\$ 870,778	\$ 26,143	\$ (723,216)	\$ (16,282)
Percentage of adjusted gross DTAs by tax character attributable to the impact of tax planning strategies	0.00%	0.00%	0.00%	38.88%	0.00%	(38.88)%
Net Admitted Adjusted Gross DTAs	\$ 147,562	\$ 9,861	\$ 358,563	\$ 15,978	\$ (211,001)	\$ (6,117)
Percentage of net admitted adjusted gross DTAs by tax character admitted because of the impact of tax planning strategies	0.00%	0.00%	0.00%	0.00%	0.00%	0.00%

The Company's tax planning strategies do not include the use of reinsurance.

(Dollar amounts in millions, unless otherwise stated)

The significant components of deferred tax assets and deferred tax liabilities are as follows:

	<u>12/31/2018</u>	<u>12/31/2017</u> <i>(In Thousands)</i>	<u>Change</u>
Deferred Tax Assets Ordinary:			
Policyholder reserves	\$ 144,431	\$ 168,837	\$ (24,406)
Investments	270,496	653,398	(382,902)
Deferred acquisition costs	—	26,160	(26,160)
Policyholder dividends accrual	—	1,681	(1,681)
Compensation and benefits accrual	398	6,136	(5,738)
Pension accrual	—	6,886	(6,886)
Receivables - nonadmitted	1,146	1,347	(201)
Tax credit carry-forward	—	372	(372)
Net operating loss	32,407	—	32,407
Other (including items <5% of total ordinary tax assets)	11	5,961	(5,950)

(Dollar amounts in millions, unless otherwise stated)

See Effective Rate Reconciliation for the estimated impact of the Tax Cuts and Jobs Act (“Tax Reform”) on the Company’s net adjusted gross deferred tax assets.

Valuation allowances are provided when it is considered more likely than not that some portion or all of the deferred tax assets will not be realized. We have determined that it is more likely than not, the portion of gross deferred tax assets subject to reversal from future taxable income exclusive of the reversing of temporary differences, will not be realized as of December 31, 2018. As of December 31, 2018 and 2017, the Company had valuation allowances of \$305.7 and \$0.0, respectively.

The provision for federal income tax expense and change in deferred taxes differs from the amount which would be obtained by applying the statutory federal income tax rate to income (including capital items) before income taxes. The significant items causing this difference are as follow:

	Year Ended December 31			
	2018		2017	
	Amount	Effective Tax Rate	Amount	Effective Tax Rate
	<i>(Amounts In Thousands)</i>			
Ordinary income (loss)	\$ (130,381)		\$ 2,052,633	
Capital losses	(55,454)		(1,194,914)	
Total pretax income (loss)	(185,835)		857,719	
Expected tax expense (benefit) at 21% and 35% statutory rate for 2018 and 2017, respectively	(39,025)	21.0%	300,202	35.0%
Increase (decrease) in actual tax reported resulting from:				
a. Dividends received deduction	(29,766)	16.0%	(49,784)	(5.8)%
b. Interest maintenance reserve	(2,398)	1.3%	9,090	1.1%
c. Reinsurance	156,997	(84.5)%	(6,462)	(0.8)%
d. Reattribution of hedge losses	304,839	(164.0)%	—	—%
e. Change in valuation allowance	305,656	(164.5)%	—	—%
h. Prior year tax	82	—%	—	—%
f. Rate Change	—	—%	503,955	58.8%
i. Other	230	(0.1)%	(1,816)	(0.2)%
Total income tax reported	\$ 696,615	(374.8)%	\$ 755,185	88.0%
Current income taxes incurred	\$ (32,524)	17.5%	\$ 348,457	40.6%
Change in deferred income tax*	729,139	(392.4)%	406,728	47.4%
Total income tax reported	\$ 696,615	(374.9)%	\$ 755,185	88.0%

* Excluding tax on unrealized gains (losses) and other surplus items

(Dollar amounts in millions, unless otherwise stated)

On December 22, 2017, the U.S. government enacted comprehensive tax legislation commonly referred to as the Tax Cuts and Jobs Act ("Tax Reform"). Tax Reform made broad changes to

U.S. federal tax law, including, but not limited to (1) reducing the U.S. federal corporate tax rate from 35% to 21%; (2) changing the computations of the dividends received deduction, tax reserves, and deferred acquisition costs; and (3) eliminating the net operating loss ("NOL") carryback and limiting the NOL carryforward deduction to 80% of taxable income for losses arising in taxable years beginning after December 31, 2017.

The NAIC SAP Working Group adopted Interpretation ("INT") 18-01, Updated Tax Estimates under the Tax Cuts and Jobs Act. The guidance addresses situations where an insurance company does not have the necessary information available, prepared, or analyzed (including computations) in reasonable detail to complete the accounting under SSAP No. 101 for certain income tax effects of Tax Reform for the reporting period of enactment. The guidance allowed the Company to provide a provisional estimate of the impacts of Tax Reform as of December 31, 2017 and required all accounting impacts to be completed within one year of the enactment date. Changes in the provisional estimate will be recognized as a change in accounting estimate under SSAP No. 3. INT 18-01 also requires the remeasurement of DTAs and DTLs to be allocated to three components of surplus: change in net unrealized capital gain/loss, change in net deferred income tax and change in nonadmitted assets.

In reliance on INT 18-01, the Company provisionally remeasured its deferred tax assets and liabilities based on the 21% tax rate at which they are expected to reverse in the future, resulting in a one-time reduction in its net adjusted gross deferred tax assets of \$504.0 as of December 31, 2017. In 2018, the company finalized the impact of Tax Reform with no additional adjustments to income tax expense.

For tax years ending December 31, 2016, December 31, 2017 and May 31, 2018, Voya Financial, Inc. (including the Company) participates in the IRS Compliance Assurance Process (CAP), which is a continuous audit program provided by the IRS. In 2017, the IRS finalized the audit of Voya Financial, Inc. for the period ended December 31, 2016. Voya Financial, Inc. is under examination for the periods ended December 31, 2017 and May 31, 2018. For the period ending December 31, 2017, Voya Financial, Inc. expects the examination to be finalized within the next twelve months. For tax years after May 31, 2018, the Company will no longer participate in the CAP. Furthermore, the IRS has not indicated whether it intends to examine the Company's tax year June 1, 2018 - December 31, 2018.

There are no amounts of federal income tax incurred that will be available for recoupment in the event of future net losses from 2018 and 2017.

There were no deposits admitted under Section 6603 of the Internal Revenue Service Code as of December 31, 2018.

The Company has no unrecorded tax liability as of December 31, 2018 and December 31, 2017.

(Dollar amounts in millions, unless otherwise stated)

Pursuant to the MTA signed by the seller and buyer, the parties agreed that Voya would make an election under Treas. Reg. §1.1502-36(d)(6)(i)(A) and (B) to (i) to reattribute tax attributes except for a certain category and amount of tax attributes. Under the agreement, the buyer may select those particular tax attributes it wishes to not have reattributed. The buyer has until 30 days prior to the due date of the Federal income tax return for taxable year January 1, 2018 - May 31, 2018, which is after issuance of the financial statements, to select the particular tax attributes not reattributed. The Company anticipates that 2018 (a) Federal income taxes incurred, (b) capital gains tax, and (c) net deferred tax asset (but not admitted net deferred tax asset) reported in these financial statements could vary from those actual amounts once the buyer selects the tax attributes not reattributed.

The Company does not have any transferable or non-transferable tax credits and does not have any nonadmitted state tax credits at December 31, 2018 or 2017.

A reconciliation of the change in the tax contingencies is as follows:

	2018	2017
	<i>(In Thousands)</i>	
Balance at beginning of year	\$ 1,900	\$ 1,900
Reduction for tax positions related to prior year	(1,900)	—
Balance at end of year	<u>\$ —</u>	<u>\$ 1,900</u>

The Company had \$0 and \$1.9 of tax contingencies as of December 31, 2018 and 2017, respectively, that would affect the Company's effective tax rate if recognized.

The Company recognizes accrued interest and penalties related to tax contingencies in federal income taxes and federal income tax expense on the balance sheets and statements of operations, respectively. The Company had no accrued interest as of December 31, 2018 and 2017.

(Dollar amounts in millions, unless otherwise stated)

10. Investment in Subsidiaries

The Company has one wholly-owned subsidiary as of December 31, 2018, Rocky Range, Inc. ("RR"), an Arizona pure captive insurance company.

On June 1, 2018, Rocky Range received a pre-tax capital contribution from the Company in the amount of \$400.2.

Pursuant to SSAP No. 97, Investments in Subsidiary Controlled and Affiliated entities, the Company reports its investment in Rocky Range based on the subsidiary's statutory surplus. The carrying value on the Company's financial statements as of December 31, 2018 is as follows:

	December 31
	2018
	<i>(In Thousands)</i>
Common Stock (cost - \$400,250 in 2018 and \$0 in 2017)	\$ 1,163,524

Summarized financial information of the Company's subsidiary for the year ended December 31, 2018 is as follows:

	December 31
	2018
	<i>(In Thousands)</i>
Revenues	\$ 605,072
(Loss) Income before net realized gains and losses	(654,065)
Net (loss) income	(654,824)
Admitted assets	4,340,456
Liabilities	3,176,932

The Company received no cash dividends from RR during the year ended December 31, 2018.

(Dollar amounts in millions, unless otherwise stated)

11. Reinsurance

The Company utilizes reinsurance transactions to reduce its exposure to large losses. The Company bases its selection of a reinsurer on the financial strength of the reinsurer. Reinsurance treaties can be either in the form of ceding or assuming and are structured as monthly or yearly renewable term, coinsurance, modified coinsurance, funds withheld or a combination thereof. Reinsurance permits recovery of a portion of losses from reinsurers, although it does not discharge the Company's primary liability as the direct insurer of the risks. To the extent that the assuming companies become unable to meet their obligations under these treaties, the Company remains contingently liable to its policyholders for the portion reinsured. To minimize its exposure to significant losses from reinsurer insolvencies, the Company evaluates the financial condition of the reinsurer and monitors concentrations of credit risk.

The Company's ceded reinsurance arrangements reduced certain items in the accompanying financial statements by the following amounts:

	December 31	
	2018	2017
	<i>(In Thousands)</i>	
Premiums	\$ 18,780,082	\$ 331,636
Benefits paid or provided	1,519,587	1,314,285
Policy and contract liabilities at year end	7,531,567	6,967,617

The Company does not have any reinsurance agreements in effect under which the reinsurer may unilaterally cancel the agreement.

Assumed premiums amounted to \$(107.0) and \$422.5 for years ended December 31, 2018 and 2017, respectively.

The Company estimates no aggregate reduction in surplus would occur in the event that all reinsurance agreements were terminated, by either party, as of December 31, 2018. The amount estimated for the year ended December 31, 2017 was \$263.1.

(Dollar amounts in millions, unless otherwise stated)

Reinsurance Transactions

The Company reinsures its previously issued, closed block variable annuity contracts to affiliated reinsurers.

Effective May 31, 2018, and in accordance with the Acquisition described in Note 1, the Company recaptured its variable annuity guaranteed living benefit business previously reinsured to Roaring River II, Inc. ("RRII") Effective June 1, 2018, the Company entered into a reinsurance agreement with RR an Arizona pure captive insurance company which is a wholly-owned subsidiary of the Company. Under this agreement the Company cedes, on a funds withheld coinsurance and modified coinsurance basis, its variable annuity business to RR, which completes its financial statements on a modified U.S. GAAP basis.

The agreement has the economic impact of ceding 100% of the closed block variable annuity contracts previously issued by the Company, which includes contracts with multiple rider guarantees, including minimum accumulation, income, death, and withdrawal benefits policies. Also, as a result of the reinsurance agreement RR can use letters of credit, which would not be admitted assets to the Company, to back some or all of the reserves. Under the terms of the agreement, the Company reinsures to RR on a funds withheld basis, 100% of the general account liabilities of the reinsured policies. The agreement also cedes on a modified coinsurance basis, 100% of the separate account liabilities. Under the modified coinsurance structure the Company retains control and owns all assets contained in the separate account and holds separate account reserves.

The Company also entered into two retrocession agreements with Athene Life Re Ltd., ("ALRe"), a Bermuda reinsurer and wholly owned subsidiary of Athene, and Athene Annuity & Life Assurance Company, ("AADE"), an insurance company organized under the laws of the State of Delaware and an indirect wholly-owned subsidiary of Athene. These two treaties have the impact of ceding 100% of the net liability associated with the GMIB-annuitized contracts from Rocky Range to ALRe and AADE. Under the ALRe retrocession agreement, 80% of the liability associated with annuitized GMIB contracts is ceded from Rocky Range to ALRe on a modified coinsurance funds withheld basis. Under the AADE retrocession agreement, 20% of the liability associated with annuitized GMIB contracts is ceded from Rocky Range to AADE on a coinsurance basis. ALRe and AADE are then ultimately liable directly to the Company. All other payout annuities are reinsured at annuitization by RR to the Company, who pays the Company the statutory carrying value of the annuitization reserve at the annuitization date. Any contracts which annuitize or reach withdrawal benefit payout during the reporting period are "paid" by the Company to RR via release of the separate account assets and funds withheld assets backing the general account liability.

(Dollar amounts in millions, unless otherwise stated)

The amount of reserves held by RR as of December 31, 2018 was \$3.2 billion. The reserving basis is AG43 for all deferred individual and group variable policies with guaranteed benefits. RR maintains a variable annuity hedge program that is designed to mitigate market risk arising primarily from the minimum guarantees within the variable annuity products, whose economic costs are primarily dependent on future equity market returns, interest rate levels, equity volatility levels and policyholder behavior. The hedge target of the variable annuity hedge program is regulatory and rating agency capital and their sensitivities to immediate market movements.

RR is domiciled in the the State of Arizona and under Arizona Insurance Statutes ("ARS") 20-1098.07(A), the Arizona Department of Insurance ("ADOI") permits a regulatory basis of accounting where a captive insurer may use U.S. GAAP or SSAP to prepare financial statement filings. RR has elected the U.S. GAAP basis of accounting. When a captive insurer elects to use U.S. GAAP, however, it is required to follow certain prescribed practices required by the ADOI, as follows:

- 1) Reinsurance reserve credits and recoverables are recorded as reductions from gross reserve liabilities, rather than as assets in accordance with U.S. GAAP;
- 2) Letters of credit ("LOC") provided as capital funds are recorded as assets and reported at face value;
- 3) Surplus notes issued are recorded as surplus items in Shareholder's equity, rather than as a liability in accordance with U.S. GAAP;
- 4) Fixed assets and prepaid expenses are recorded in Other assets; and
- 5) Deferred acquisition costs ("DAC") are recorded as assets, consistent with U.S. GAAP, and are reported in Other assets.

In addition to the above described prescribed practices, RR has been granted approval by the ADOI to apply the following permitted practices:

- 1) To make retroactive capital contributions as permitted by SSAP 72, and notify the ADOI prior to posting the receivable, if utilized.
- 2) To record future policy benefit reserves assumed under various reinsurance agreements based on SSAP with an offsetting Sundry asset recorded, which is the excess of the SSAP reserve over the U.S. GAAP reserve.
- 3) To present the U.S. GAAP deferred gain resulting from its assumption of the business from the Company, net of related federal income taxes, as a separate component of Shareholder's Equity. Amortization of the deferred liability will be recognized as income over the remaining lives of the underlying reinsured contracts, and the related tax impacts on federal income taxes will be included in income tax expense (benefit), in the Statement of Operations.
- 4) To hold a receivable in the funds withheld account and modified coinsurance account it establishes for AADE and ALRe, respectively. Since the assets withheld by RR under the two retrocession agreements will be held by VIAC (which is RR's direct parent), RR will continue to take reinsurance reserve credits for the reserves ceded under the two retrocession agreements to the extent the assets are held by VIAC rather than RR.

(Dollar amounts in millions, unless otherwise stated)

The reserve credit taken by the Company for variable annuities, as of December 31, 2018 was \$3.2 billion. The total amount of collateral supporting the reserve credit taken, as of December 31, 2018, was \$4.4 billion.

The table below details the nature and amount of collateral backing the reserve credit taken at December 31, 2018 related to the reinsurance agreement:

<u>Type/Description</u>	<u>Collateral Detail - Basis of Valuation</u>	<u>December 31, 2018</u>
		<i>(In Thousands)</i>
Funds Withheld Trust	Market Value	\$ 3,946,633
Credit for Reinsurance Trust	Market Value	429,374
Miscellaneous Balances	Current Month Payable/(Receivable)	11,753
	Collateral Backing Reserve Credit Taken	<u>\$ 4,387,760</u>

*Letters of credit do not meet the definition of an admitted asset under SSAP No. 4, Assets and Nonadmitted Assets

The Company reinsures 100% of its previously issued, fixed and fixed indexed annuity contracts to affiliated reinsurers.

Effective June 1, 2018, and in accordance with the Acquisition described in Note 1, the Company entered into a reinsurance agreement with ALRe, under which the Company cedes on a modified coinsurance basis an eighty percent (80%) quota share of certain liabilities with respect to certain fixed annuity business of the Company.

Effective June 1, 2018, and in accordance with the Acquisition described in Note 1, the Company entered into a reinsurance agreement with AADE, under which the Company cedes on a coinsurance basis a twenty percent (20%) quota share of certain liabilities with respect to certain fixed annuity business of the Company.

During the year ended December 31, 2018, the Company paid ceding commissions, net of other post-Acquisition reinsurance activity, of \$571.2 and \$126.6 to ALRe and AADE, respectively. The amount of reserves held as of December 31, 2018 was \$13.2 billion and \$3.3 billion, to ALRe and AADE, respectively.

The Company reinsures its remaining business to third party reinsurers, in accordance with the Acquisition described in Note 1. Most notable of which was the reinsurance agreement with Reliastar Life Insurance Company, an insurance company organized under the laws of the State of Minnesota and an indirect wholly-owned subsidiary of Voya Financial. Effective April 1, 2018, the Company cedes on a coinsurance and modified coinsurance basis, its traditional individual life insurance, supplemental contracts consisting of life insurance proceeds, and certain deferred annuity and investment-only policies of the Company. The amount of reserves held as of December 31, 2018 was \$1.2 billion.

(Dollar amounts in millions, unless otherwise stated)

12. Capital and Surplus

Under Iowa insurance regulations, the Company is required to maintain a minimum total capital and surplus of the greater of \$5.0 or Risk Based Capital ("RBC"). Additionally, an extraordinary dividend or distribution is defined as a dividend or distribution that, together with other dividends and distributions made within the preceding twelve months, exceeds the greater of (1) 10% of the insurer's policyholder surplus as of the preceding December 31; or (2) the insurer's net gain from operations for the twelve-month period ended the preceding December 31, in each case determined in accordance with statutory accounting principles. Dividends are paid as determined by the Company's Board of Directors. An extraordinary dividend or distribution cannot be paid without the prior approval of the Iowa Insurance Division. In addition, no dividend or other distribution exceeding an amount equal to an insurance company's earned surplus may be paid without the domiciliary insurance regulator's prior approval.

On December 8, 1999, the Company issued an 8.0% surplus note in the amount of \$35.0 to First Columbine Life Insurance Company ("First Columbine"), a Colorado corporation and at the time, an affiliate of the Company. The note matures on December 7, 2029. Effective December 31, 2002, First Columbine was merged into Security Life of Denver Insurance Company

("SLD"), another affiliate at the time of the Company, after approval by the Colorado Department of Insurance. SLD became the holder of the surplus note. As a result of the Acquisition, as described above in Note 1, the surplus note was transferred from SLD to Venerable Holdings on June 1, 2018. For the years ended December 31, 2018 and 2017 interest paid was \$2.8 and

\$3.5, respectively. The Company paid 8.0% interest on the \$35.0 surplus note issued to Venerable Holdings on June 29, 2018. There was an immaterial amount of unapproved interest and/or principal associated with this surplus note as of December 31, 2018 and 2017.

Payment of the notes and related accrued interest is subordinate to payments due to policyholders, claimant and beneficiary claims, as well as debts owed to all other classes of debtors, other than surplus note holders, of the Company in the event of (a) the institution of bankruptcy, reorganization, insolvency, or liquidation proceedings by or against the Company, or (b) the appointment of a Trustee, receiver or other conservator for a substantial part of the Company's properties. Any payment of principal and/or interest made is subject to the prior approval of the Iowa Insurance Commissioner.

On December 29, 2004, the Company issued a 6.3% surplus note in the amount of \$175.0 to Voya Retirement Insurance and Annuity Company ("VRIAC"), a Connecticut corporation and at the time, an affiliate of the Company. The note matures on December 29, 2034. For the year ended December 31, 2018 and 2017, interest paid was \$11.1 and \$16.7, respectively. There was an immaterial amount of unapproved interest and/or principal associated with this surplus note as of December 31, 2018 and 2017.

On December 29, 2004, the Company issued a 6.3% surplus note in the amount of \$175.0 to ReliaStar Life Insurance Company ("RLIC"), a Minnesota corporation and at the time, an affiliate of the Company. The note matures on December 29, 2034. For the year ended December 31, 2018 and 2017, interest paid was \$11.1 and \$16.7, respectively. There was an immaterial amount of unapproved interest and/or principal associated with this surplus note as of December 31, 2018 and 2017.

(Dollar amounts in millions, unless otherwise stated)

On December 29, 2004, the Company issued a 6.3% surplus note in the amount of \$50.0 to Security Life of Denver International Limited ("SLDI"), an Arizona corporation and at the time, an affiliate of the Company. The note matures on December 29, 2034. As a result of the Acquisition, as described above in Note 1, the \$50.0 surplus note was transferred from Security Life of Denver International Limited to Venerable Holdings on June 1, 2018. For the year ended December 31, 2018 and 2017, interest paid was \$3.2 and \$4.8, respectively. The Company paid 6.3% interest on the \$50.0 surplus note issued to Venerable Holdings on June 29, 2018. There was an immaterial amount of unapproved interest and/or principal associated with this surplus note as of December 31, 2018 and 2017.

On June 1, 2018, the Company received a capital contribution in the amount of \$50.7 from Venerable Holdings.

On May 26, 2017, the Company declared an ordinary dividend in the amount of \$278.0 to its then sole shareholder, Voya Holdings, for ultimate distribution to Voya Financial, Inc., which was paid on June 28, 2017, after providing notice to the Iowa Insurance Division.

On May 31, 2017, the Company declared an extraordinary distribution in the amount of \$250.0, subject to receipt of approval by the Iowa Insurance Division, and the condition to such regulatory approval was satisfied in July 2017. On July 5, 2017, as a condition to such regulatory approval, the Company reduced its cash flow testing reserves supporting Closed Block Variable Annuity products by \$250.0 and on July 5, 2017, paid the \$250.0 extraordinary distribution to its then sole shareholder, Voya Holdings, out of the surplus generated by the cash flow testing reserve release.

Life and health insurance companies are subject to certain RBC requirements as specified by the NAIC. Under those requirements, the amount of capital and surplus maintained by a life and health insurance company is to be determined based on the various risk factors related to it. The Company exceeded the minimum RBC requirements that would require any regulatory or corrective action for all periods presented herein.

(Dollar amounts in millions, unless otherwise stated)

13. Fair Values of Financial Instruments

The fair value of an asset is the amount at which that asset could be bought or sold in a current transaction between willing parties, that is, other than in a forced or liquidation sale. The fair value of a liability is the amount at which that liability could be incurred or settled in a current transaction between willing parties, that is, other than in a forced or liquidation sale.

Fair values are based on quoted market prices when available. When market prices are not available, fair value is generally estimated using discounted cash flow analyses, incorporating current market inputs for similar financial instruments with comparable terms and credit quality (matrix pricing). In instances where there is little or no market activity for the same or similar instruments, the Company estimates fair value using methods, models and assumptions that management believes market participants would use to determine a current transaction price. These valuation techniques involve some level of management estimation and judgment which becomes more significant with increasingly complex instruments or pricing models. Where appropriate, adjustments are included to reflect the risk inherent in a particular methodology, model or input used.

In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. In that regard, the derived fair value estimates cannot be substantiated by comparison to independent markets and, in many cases, could not be realized in immediate settlement of the financial instrument. Accordingly, the aggregate fair value amounts presented herein do not represent the underlying value of the Company.

Life insurance liabilities that contain mortality risk and all non-financial instruments have been excluded from the disclosure requirements. However, the fair values of liabilities under all insurance contracts are taken into consideration in the Company's overall management of interest rate risk, such that the Company's exposure to changing interest rates is minimized through the matching of investment maturities with amounts due under insurance contracts.

The following methods and assumptions are used by the Company in estimating the fair value disclosures for financial instruments in the accompanying financial statements and notes thereto:

Cash, cash equivalents and short term investments: The carrying amounts reported in the accompanying balance sheets for these financial instruments approximate their fair values.

Bonds and equity securities: The Company utilizes a number of valuation methodologies to determine the fair values of its bonds, preferred stocks and common stocks reported herein in conformity with the concepts of "exit price" and the fair value measurement as prescribed in SSAP No. 100, *Fair Value* ("SSAP No. 100"). Valuations are obtained from third party commercial pricing services, brokers, and industry-standard vendor-provided software that models the value based on market observable inputs. The valuations obtained from brokers and third-party commercial pricing services are non-binding. The valuations are reviewed and validated monthly through the internal valuation committee price variance review, comparisons to internal pricing models, back testing to recent trades, or monitoring of trading volumes.

(Dollar amounts in millions, unless otherwise stated)

Fair values of privately placed bonds are determined using a matrix-based pricing model. The model considers the current level of risk-free interest rates, current corporate spreads, the credit quality of the issuer, and cash flow characteristics of the security. Also considered are factors such as the net worth of the borrower, the value of collateral, the capital structure of the borrower, the presence of guarantees, and the Company's evaluation of the borrower's ability to compete in its relevant market. Using this data, the model generates estimated market values which the Company considers reflective of the fair value of each privately placed bond.

For securities not actively traded, fair values are estimated using values obtained from independent pricing services or, in the case of private placement investments, are estimated by discounting the expected future cash flows. The discount rates used vary as a function of factors such as yield, credit quality, and maturity, which fall within a range between 0.70% and 13.89% over the total portfolio. The Company statutory fair values represent the amount that would be received to sell securities at the measurement date (i.e. "exit value" concept).

Mortgage loans: Estimated fair values for commercial real estate loans were generated using a discounted cash flow approach. Loans in good standing are discounted using interest rates determined by U.S. Treasury yields on December 31 and spreads applied on new loans with similar characteristics. The amortizing features of all loans are incorporated in the valuation. Where data on option features is available, option values are determined using a binomial valuation method, and are incorporated into the mortgage valuation. Restructured loans are valued in the same manner; however, these loans were discounted at a greater spread to reflect increased risk.

Derivative financial instruments: Fair values for derivative financial instruments are based on broker/dealer valuations or on internal discounted cash flow pricing models, taking into account current cash flow assumptions and the counterparties' credit standing.

Individual and group annuities: The fair values for individual and group annuities with defined maturities are estimated using discounted cash flow calculations, based on interest rates currently being offered for similar contracts with maturities consistent with those remaining for the contracts being valued. For individual and group annuities, fair value is estimated to be the present surrender value.

Assets held in separate accounts: Assets held in separate accounts, excluding MVA's, are reported at the quoted fair values of the underlying investments in the separate account. The underlying investments include mutual funds, short-term investments and cash, the valuation of which are based upon quoted market prices.

(Dollar amounts in millions, unless otherwise stated)

The carrying value of all other financial instruments approximates their fair value.

Included in various investment related line items in the financial statements are certain financial instruments carried at fair value. Other financial instruments are periodically measured at fair value, such as when impaired, or, for certain bonds and preferred stock when carried at the lower of cost or market.

Derivatives are carried at fair value, which is determined using the Company's derivative accounting system in conjunction with observable key financial data from third-party sources, such as yield curves, exchange rates, Standard & Poor's ("S&P") 500 Index prices and London Interbank Offered Rates ("LIBOR") and Overnight Index Swap Rates ("OIS"). For those derivatives that are unable to be valued by the accounting system, the Company typically utilizes values established by third-party brokers. Derivatives which qualify for special hedge accounting treatment are reported in a manner that is consistent with the accounting for the hedged asset or liability.

The Company's financial assets and liabilities have been classified, for disclosure purposes, based on a hierarchy defined by SSAP No. 100.

The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument. Financial assets and liabilities recorded at fair value on the balance sheets are categorized as follows:

- Level 1 - Unadjusted quoted prices for identical assets or liabilities in an active market.
- Level 2 - Quoted prices in markets that are not active or inputs that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - a) Quoted prices for similar assets or liabilities in active markets;
 - b) Quoted prices for identical or similar assets or liabilities in non-active markets;
 - c) Inputs other than quoted market prices that are observable; and
 - d) Inputs that are derived principally from or corroborated by observable market data through correlation or other means.
- Level 3 - Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These valuations, whether derived internally or obtained from a third party, use critical assumptions that are not widely available to estimate market participant expectations in valuing the asset or liability.

(Dollar amounts in millions, unless otherwise stated)

The following valuation methods and assumptions were used by the Company in estimating the reported values for the investments and derivatives described below:

Bonds and other invested assets: Securities that are carried at fair value on the balance sheet are classified as Level 2 or Level 3. Level 2 bond prices are obtained through several commercial pricing services, which incorporate a variety of market observable information in their valuation techniques, including benchmark yields, broker-dealer quotes, credit quality, issuer spreads, bids, offers and other reference data to provide estimated fair values. The fair value for privately placed bonds and other invested assets are determined using a matrix-based pricing model and are classified as Level 2 assets. When a price cannot be obtained from a commercial pricing service, independent broker quotes are solicited. Securities priced using independent broker quotes are classified as Level 3. The Company's Level 3 fair value measurement of its bonds and other invested assets are primarily based on broker quotes for which the quantitative detail of the unobservable inputs is neither provided nor reasonably corroborated, thus negating the ability to perform a sensitivity analysis. Price transparency and liquidity for bonds backed by subprime mortgages have improved with reduced volatility across broader risk markets. The Company monitors the market for subprime and continues to categorize these securities as Level 3 in the valuation hierarchy.

Preferred and Common Stocks: Fair values of publicly traded equity securities are based upon quoted market prices and are classified as Level 1 assets. Fair values of private equities or equity securities not traded on an exchange, are valued by other sources such as analytics or brokers and are classified as Level 3 assets.

Cash and short-term investments: The carrying amounts for cash reflect the assets' fair values. The fair values for cash equivalents and short-term investments are determined based on quoted market prices. These assets are classified as Level 1.

Assets held in separate accounts: Assets held in separate accounts, excluding MVA's, are reported at the quoted fair values of the underlying investments in the separate accounts. The underlying investments can include mutual funds, short-term investments and cash, the valuation of which are based upon a quoted market price and are included in Level 1. The underlying investments can also include bonds the valuation of which are obtained from third party commercial pricing services and brokers and are classified in the fair value hierarchy as either Level 2 or Level 3, consistent with the policies described above for fixed maturities.

(Dollar amounts in millions, unless otherwise stated)

Derivatives: The carrying amounts for these financial instruments, which can be assets or liabilities, reflect the fair value of the assets and liabilities. Certain derivatives are carried at fair value (on the balance sheets), which is determined using the Company's derivative accounting system in conjunction with observable key financial data, such as yield curves, exchange rates, S&P 500 Index prices, LIBOR, and OIS which are obtained from third party sources and uploaded into the system. The Company uses OIS for valuations of collateralized interest rate derivatives, which are obtained from third party sources. For those derivatives that are unable to be valued by the accounting system, the Company typically utilizes values established by third party brokers. Counterparty credit risk is considered and incorporated in the Company's valuation process through counterparty credit rating requirements and monitoring of overall exposure. The Company's own credit risk is monitored by comparison of credit ratings from national rating services. It is the Company's policy to transact only with investment grade counterparties with a credit rating of A- or better. Valuations for the Company's futures contracts are based on unadjusted quoted prices from an active exchange and, therefore, are classified as Level 1. The Company also has certain purchased call options that have been classified as Level 3 and are priced using models that primarily use market observable inputs, but contain inputs that are not observable to market participants. However, all other derivative instruments are valued based on market observable inputs and are classified as Level 2.

Mortgage loans: The fair values for mortgage loans are estimated on a monthly basis using discounted cash flow analyses and rates currently being offered in the marketplace for similar loans to borrowers with similar credit ratings. Loans with similar characteristics are aggregated for purposes of the calculations. Mortgage loans are classified as Level 3.

Contract loans: The fair value of contract loans approximates the carrying value of the loans. Contract loans are collateralized by the cash surrender value of the associated insurance contracts and are classified as Level 1.

Deposit type contracts: Fair value is estimated as the present value of expected cash flows associated with the contract liabilities discounted using risk-free rates plus an adjustment for nonperformance risk. The valuation is consistent with current market parameters. Margins for non-financial risks associated with the contract liabilities are also included. These liabilities are classified as Level 3. For certain deposit type contracts, fair value is estimated by discounting cash flows at rates that are risk-free rates plus an adjustment for nonperformance risk. These liabilities are classified as Level 2.

(Dollar amounts in millions, unless otherwise stated)

The following table shows the Company's financial instruments and the Level within the fair value hierarchy in which the fair value measurements fall as of December 31, 2018:

	<u>Aggregate Fair Value</u>	<u>Carrying Value</u>	<u>Level 1</u> <i>(In Thousands)</i>	<u>Level 2</u>	<u>Level 3</u>

The Company did not have any security transfers between Level 1 and Level 2 during 2017. The Company's policy is to recognize transfers in and transfers out as of the beginning of the most recent quarterly reporting period.

(Dollar amounts in millions, unless otherwise stated)

The following table summarizes the change in fair value of the Company's Level 3 assets and liabilities for the year ended December 31, 2018:

Description	Beginning of the Year	Transfers into Level 3	Transfers Out of Level 3	Total Gains and (Losses) Included in Net Income	Total Gains and (Losses) Included in Surplus	Purchases	Issuances	Sales	Settlements	End of the Year
<i>(In Thousands)</i>										
Bonds										
Foreign	\$ 3,045	\$ —	\$ (3,045)	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —
Common stock	4,021	3	—	(12)	(35)	—	—	(3,977)	—	—
Derivatives										
Equity contracts	—	30,071	—	4,633	(6,972)	—	—	—	(27,732)	—
Separate accounts*	1,795	—	(105)	—	—	—	—	—	—	1,690
Total	\$ 8,861	\$ 30,074	\$ (3,150)	\$ 4,621	\$ (7,007)	\$ —	\$ —	\$ (3,977)	\$ (27,732)	\$ 1,690

* These amounts reflect prescribed or permitted practices that depart from the NAIC Accounting Practices and Procedures Manual, see Note 2, Summary of Significant Accounting Policies for additional information.

Transfers in and out of Level 3 during the year ended December 31, 2018 are due to the variation in inputs relied upon for valuation each quarter. Securities that are primarily valued using independent broker quotes when prices are not available from one of the commercial pricing services are reflected as transfers into Level 3, as these securities are generally less liquid with very limited trading activity or where less transparency exists corroborating the inputs to the valuation methodologies. When securities are valued using more widely available information, the securities are transferred out of Level 3 and into Level 1 or 2, as appropriate.

The amount reflected above for the transfer into Level 3 for Equity Contracts is due to the Company's change in application of the *IAC 191-97 Prescribed Practice*, as described in Note 2. These Equity Contracts are Level 3 assets, and financial instruments measured and reported at fair value as of December 31, 2018.

(Dollar amounts in millions, unless otherwise stated)

The following table summarizes the change in fair value of the Company's Level 3 assets and liabilities for the year ended December 31, 2017:

Description	Beginning of the Year	Transfers into Level 3	Transfers Out of Level 3	Total Gains and (Losses) Included in Net Income	Total Gains and (Losses) Included in Surplus	Purchases	Issuances	Sales	Settlements	End of the Year

14. Commitments and Contingencies

Operating Leases: Following the Acquisition, the Company is party to certain cost-sharing arrangements and service agreements with other affiliated companies. Included in these cost-sharing arrangements is rent expense, which is allocated to the Company in accordance with systematic cost allocation arrangements. The Company incurred rent expense of \$0.7 for the seven months ended December 31, 2018 under this cost-sharing methodology.

The following disclosures were applicable prior to the Acquisition, described in Note 1:

- The Company was party to certain cost-sharing arrangements and service agreements with other affiliated Voya Financial companies. Included in these cost-sharing arrangements is rent expense, which was allocated to the Company in accordance with systematic cost allocation arrangements. The Company incurred rent expense of \$1.2 and \$5.2 for the five months ended May 31, 2018 and for the year ended December 31, 2017, respectively, under this cost-sharing methodology.
- The Company leased office space under various non-cancellable operating lease agreements which were terminated in 2017, and renewed by a separate affiliate company of Voya Financial. During the year ended December 31, 2017, rent expense totaled \$5.0
- Principal Life Insurance Company ("Principal") entered into a leasing agreement with the Company to sublease approximately 51,200 SF of space in the Des Moines, Iowa office building. The structure of the agreement was as follows: The term commenced on November 1, 2014 and expired on December 15, 2017, with an annual sublease income of \$0.9 (average annual). The Company gave the tenant free rent for 4 months (November 1, 2014 through February 28, 2015). This was for Principal to build-out the space. The rent terms were: \$17.00 SF growing, \$.50 annually, which equates to approximately \$2.6 over the term. The Company also paid a leasing commission of \$0.2. Principal entered into an additional leasing agreement with the Company to sublease approximately 17,591 SF of space in the Des Moines, Iowa office building. The structure of the agreement was as follows: The term commenced on October 1, 2015 and expired on December 15, 2017, with an annual sublease income of \$0.3 (average annual). The Company gave the tenant free rent for 3 months (October 1, 2015 through December 31, 2015). This is for Principal to build-out the space. The rent terms were: \$17.50 SF growing, \$.50 annually, which equates to approximately \$0.6 over the term. The Company also paid a leasing commission of \$.04.
- Cognizant entered into a leasing agreement with the Company to sublease approximately 34,350 SF of usable area in the Des Moines office building. The lease term commenced on August 16, 2012 and expired on December 15, 2017. Under the lease terms, Cognizant paid the Company \$0.04 per month in base rent and paid \$0.03 per month in operating expenses in 2017. They also leased an additional 2,806 SF with an original expiration date on June 30, 2014. This term automatically extended for an additional 6 months and expired on July 1, 2017.

(Dollar amounts in millions, unless otherwise stated)

For the 2,806 SF space, the annual base rent was \$0.04 and the 2017 annual operating expense payments was \$0.03.

Legal Proceedings - The Company is involved in threatened or pending lawsuits/arbitrations arising from the normal conduct of business. Due to the climate in insurance and business litigation/arbitration, suits against the Company sometimes include claims for substantial compensatory, consequential or punitive damages and other types of relief. Certain claims are asserted as class actions, purporting to represent a group of similarly situated individuals. In addition, the life insurance industry has experienced litigation alleging, for example, that insurance companies have breached the terms of their life insurance policies by increasing the insurance rates of the applicable policies inappropriately or by factoring into rate adjustments elements not disclosed under the terms of the applicable policies, and, consequently, unjustly enriched themselves. This litigation is generally known as cost of insurance litigation. While it is not possible to forecast the outcome of such lawsuits/arbitrations, in light of existing insurance, reinsurance and established reserves, it is the opinion of management that the disposition of such lawsuits/arbitrations will not have a material adverse effect on the Company's operations or financial position.

Regulatory Matters - As with many financial services companies, the Company and its affiliates periodically receive informal and formal requests for information from various state and federal governmental agencies and self-regulatory organizations in connection with examinations, inquiries, investigations and audits of the products and practices of the Company or the financial services industry. Some of the investigations, examinations, audits and inquiries could result in regulatory action against the Company. The potential outcome of such regulatory action is difficult to predict but could subject the Company to adverse consequences, including, but not limited to, additional payments to beneficiaries, settlement payments, penalties, fines and other financial liability, and changes to the Company's policies and procedures. The potential economic consequences cannot be predicted, but management does not believe that the outcome of any such action will have a material adverse effect on the Company's financial position. It is the practice of the Company and its affiliates to cooperate fully in these matters.

Investment Purchase Commitments: As part of its overall investment strategy, the Company has entered into agreements to purchase private placements and commercial mortgages of \$45.7 and \$289.5 at December 31, 2018 and 2017, respectively. The Company is also committed to provide additional capital contributions to partnerships of \$203.1 and \$312.3 at December 31, 2018 and 2017, respectively.

Liquidity: The Company's principal sources of liquidity are product charges, investment income, premiums, proceeds from the maturity and sale of investments, and capital contributions. Primary uses of these funds are payments of commissions and operating expenses, interest credits, investment purchases, and contract maturities, death benefits, withdrawals, surrenders, and dividends to its parent.

(Dollar amounts in millions, unless otherwise stated)

The Company's liquidity position is managed by maintaining adequate levels of liquid assets, such as cash, cash equivalents, and short-term investments. In addition, the investment portfolio is primarily composed of high quality fixed income investments, which include holdings of U.S. Government securities, high quality corporate bonds and agency backed residential mortgage backed securities. Asset/liability management is integrated into many aspects of the Company's operations, including investment decisions, product development, and determination of crediting rates. As part of the risk management process, different economic scenarios are modeled, including cash flow testing required for insurance regulatory purposes, to determine that existing assets are adequate to meet projected liability cash flows. Key variables in the modeling process include interest rates, anticipated contract owner behavior, and variable separate account performance. Contract owners bear the investment risk related to variable annuity products, subject, in limited cases, to certain minimum guaranteed rates.

The fixed account liabilities are supported by a general account portfolio principally composed of fixed rate investments with matching duration characteristics that can generate predictable, steady rates of return. The portfolio management strategy for the general account considers the assets available-for-sale. This strategy enables the Company to respond to changes in market interest rates, prepayment risk, relative values of asset sectors and individual securities and loans, credit quality outlook, and other relevant factors. The Company's asset/liability management discipline includes strategies to minimize exposure to loss as interest rates and economic and market conditions change. In executing this strategy, the Company uses derivative instruments to manage these risks. The Company's derivative counterparties are of high credit quality.

As a result of the Acquisition discussed in Note 1, the rating agencies no longer provide their specific views of the Company's financial strength by way of a rating action.

(Dollar amounts in millions, unless otherwise stated)

15. Financing Agreements

The Company was a party to a reciprocal loan agreement with Voya Financial, Inc. pursuant to which the Company and Voya Financial, Inc. could lend to or borrow from each other up to 3% of the Company's admitted assets excluding separate accounts as of the 31st day of December next preceding (the "Prior RLA"). Effective upon the closing of the Acquisition, the Prior RLA was terminated and all amounts due to\from the Company were settled.

Effective June 1, 2018 the Company entered into a reciprocal loan agreement with Venerable Holdings to promote efficient management of cash and liquidity and to provide for unanticipated short-term cash requirements. Under this agreement, which expires June 1, 2028, the Company and Venerable Holdings can lend funds to or borrow from each other up to 3% of the Company's admitted assets excluding separate accounts as of the 31st day of December next preceding. Under this agreement, the Company received interest income of \$0.1 for the year ended December 31, 2018, and under the previous agreement, received interest income of \$1.5 for the year ended December 31, 2017. The Company incurred no interest expense in 2018 and minimal interest expense in 2017. As of December 31, 2018, the Company had a \$15.0 receivable balance with Venerable Holdings, Inc under the reciprocal loan agreement.

(Dollar amounts in millions, unless otherwise stated)

16. Related Party Transaction

The Company has entered into various management and services contracts and cost sharing arrangements with other affiliated Venerable Holdings companies which are allocated among companies in accordance with systematic cost allocation methods. Prior to the Acquisition described in Note 1, various management and services contracts and cost sharing arrangements included affiliates of Voya Financial, Inc companies, that were also allocated among companies in accordance with systematic cost allocation methods. The Company's material related party agreements are detailed below:

Investment Management: Prior to the Acquisition, the Company was party to an investment advisory agreement with Voya Investment Management LLC ("VIM") under which VIM provides the Company with investment management services. For the periods ended May 31, 2018 and December 31, 2017, expenses were incurred in the amounts of \$22.4 and \$56.8, respectively.

Prior to the Acquisition, the Company was party to an intercompany agreement with VIM pursuant to which VIM agreed to pay the Company on a monthly basis, a portion of the revenues VIM earns as investment adviser to certain U.S. registered investment companies that are investment options under certain of the Company's variable insurance products. For the periods ended May 31, 2018 and December 31, and 2017, revenue under this agreement was \$33.3 and \$70.7, respectively.

Effective June 1, 2018 the Company entered into an investment advisory agreement with Athene Asset Management LLC ("AAM") under which AAM provides the Company with investment management services. For the seven months ending December 31, 2018, expenses were incurred in the amount of \$24.3 related to this agreement.

Service Agreements: Prior to the Acquisition, the Company was party to an inter-insurer services agreement with its then U.S. insurance company affiliates and other affiliates (collectively, the "affiliates") whereby the affiliates provide certain administrative, management, professional, advisory, consulting, and other services to each other. For the periods ended May 31, 2018 and December 31, 2017, expenses were incurred in the amounts of \$5.0 and \$20.1, respectively.

Prior to the Acquisition, the Company was party to a services agreement with Voya Services Company whereby Voya Services Company provided certain administrative, management, professional, advisory, consulting and other services to the Company. For the periods ended May 31, 2018 and December 31, 2017, expenses were incurred in the amounts of \$48.8 and \$131.5, respectively.

(Dollar amounts in millions, unless otherwise stated)

Effective June 1, 2018 the Company has entered into an inter-company agreement with its affiliates whereby the affiliates provide certain administrative, management, professional, advisory, consulting, and other services to each other. Management and service contracts and all cost-sharing arrangements are allocated among companies in accordance with systematic cost allocation methods. For the seven months ending December 31, 2018, expenses were incurred in the amounts of \$29.5.

Under an arms-length pricing agreement, the Company receives a monthly fee from DSL based on annual contractual rates by fund. This fee is calculated as a percentage of average assets in the variable separate accounts. In addition, through April 30, 2017, DSL served as investment adviser to certain U.S. registered investment companies that were investment options under certain of the Company's variable insurance products, and accordingly, paid the Company a portion of the revenues earned. Revenue earned by the Company under these arrangements were

\$60.2 and \$80.4 for the years ended December 31, 2018 and 2017, respectively.

The Company has entered into an underwriting and distribution agreement with DSL, whereby DSL serves as the principal underwriter for annuity contracts issued by the Company. DSL is authorized to enter into agreements with broker-dealers to distribute the Company's annuity contracts and appoint representatives of the broker-dealers as agents. For the periods ended December 31, 2018 and 2017, commissions were incurred in the amounts of \$153.9 and \$167.6, respectively.

See Note 10 regarding reinsurance agreements with related parties.

Tax Sharing Agreements: See Note 9 for disclosure related to the federal tax sharing agreement.

Prior to the Acquisition, the Company had also entered into a state tax sharing agreement with Voya Financial, Inc. and each of the specific subsidiaries that were parties to the agreement. The state tax agreement applied to situations in which Voya Financial, Inc. and all or some of the subsidiaries joined in the filing of a state or local franchise, income tax, or other tax return on a consolidated, combined or unitary basis.

Effective June 1, 2018, the Company is not a party to any state tax sharing agreement, and is currently not required to file any state or local taxes.

(Dollar amounts in millions, unless otherwise stated)

17. Guaranty Fund Assessments

Insurance companies are assessed the costs of funding the insolvencies of other insurance companies by the various state guaranty associations, generally based on the amount of premium companies collect in that state. The Company accrues for the cost of potential future guaranty fund assessments based on estimates of insurance company insolvencies provided by the National Organization of Life and Health Insurance Guaranty Associations and the amount of premiums written in each state. The accrual methodology follows a retrospective-premium- based guaranty-fund assessments construct. The Company has estimated and recorded this liability to be \$0.1 and \$0.3 as of December 31, 2018 and 2017, respectively, and is reflected in accounts payable and accrued expenses on the balance sheets. The Company has also recorded an asset in other assets on the balance sheets of \$0.7 and \$1.0 as of December 31, 2018 and 2017, respectively, for future credits to premium taxes for assessments already paid and/or accrued. The periods over which the guaranty fund assessments are expected to be paid, the related premium tax offsets are expected to be realized and the additional industry support is expected to be paid are unknown at this time.

There are no premium tax offsets where it is reasonably possible that an impairment has occurred in accordance with SSAP No. 5R, *Liabilities, Contingencies and Impairments of Assets* ("SSAP No. 5R").

A reconciliation of assets recognized is presented below:

	Year ended December 31	
	2018	2017
	(In Thousands)	
Assets recognized from paid and accrued premium tax offsets and policy surcharges beginning of the year	\$ 1,042	\$ 1,329

18. Subsequent Events

The Company is not aware of any events occurring subsequent to December 31, 2018 that may have a material effect on the Company's financial statements. The Company evaluated events subsequent to December 31, 2018 through April 12, 2019, the date the statutory financial statements were available to be issued.

(Dollar amounts in millions, unless otherwise stated)

19. Reconciliation to Statutory Annual Statement

During the preparation of the accompanying statutory-basis financial statement for the year ended December 31, 2018, the Company concluded an adjustment was necessary regarding the taxes between VIAC and Rocky Range, its newly formed subsidiary. It was determined that a receivable from its subsidiary, for its portion of the consolidated tax payable, should have been reflected in the Company's Statutory Annual Statement pursuant to a tax sharing agreement (note 16). This receivable and the corresponding impacts related to the value in the subsidiary are reflected in the accompanying financial statements as of December 31, 2018. A reconciliation of the amounts previously reported in the Company's Statutory Annual Statement as filed with the Iowa Insurance Division for the year ended December 31, 2018, to those reported in the accompanying financial statement is as follows:

	Annual Statement	Adjustments (In Thousands)	Accompanying Financial Statements
Balance Sheet

Report of Independent Auditors on Supplementary Information

The Board of Directors and Stockholder
Voya Insurance and Annuity Company

We have audited, in accordance with auditing standards generally accepted in the United States, the statutory-basis financial statements of Voya Insurance and Annuity Company for the years ended December 31, 2018 and 2017, and have issued an adverse opinion with respect to conformity with U.S. generally accepted accounting principles and an unmodified opinion with respect to conformity with accounting practices prescribed or permitted by the Iowa Insurance Division thereon dated April 12, 2019. Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedule of selected statutory-basis financial data and supplemental investment disclosures are presented to comply with the National Association of Insurance Commissioners' Annual Statement Instructions and the National Association of Insurance Commissioners' Accounting Practices and Procedures Manual and for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the information is fairly stated, in all material respects, in relation to the statutory-basis financial statements as a whole.

This report is intended solely for the information and use of the Company and state insurance departments to whose jurisdiction the Company is subject and is not intended to be and should not be used by anyone other than these specified parties.

Item 27 **Number of Contract Owners**

As of February 28, 2019, there are 1,950 qualified Contract Owners and 3,044 nonqualified Contract Owners in the GoldenSelect DVA Plus® Variable Annuity Contract.

Item 28 **Indemnification**

Voya Insurance and Annuity Company (the “Company”) shall indemnify to the full extent permitted by Chapter 490 of the Code of Iowa, as may be amended from time to time, or by other provisions of applicable law, each person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, wherever brought, whether civil, criminal, administrative or investigative, by reason of the fact that he or she is or was a director, officer, fiduciary or employee of the Company, or is or was serving at the request of the Company as a director, officer, fiduciary, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses, including attorneys' fees, judgments, fines and amounts paid in settlement actually and reasonably incurred by him or her in connection with such action, suit or proceeding, if he or she acted in good faith and in a manner reasonably believed to be in and not opposed to the best interests of the Company, and with respect to any criminal action or proceeding, had no reasonable cause to believe his or her conduct was unlawful.

Any indemnification as described in the preceding paragraph (unless ordered by a court) shall be made by the Company only as authorized in the specific case upon a determination that the indemnification is proper in the circumstances because the person claiming indemnification has met the applicable standard of conduct set forth in therein. Such determination shall be made by the Company’s Board of Directors by a majority vote of a quorum consisting of Directors who were not parties to the action, suit or proceeding in question. If such a quorum is not obtainable, the Board shall retain independent legal counsel who shall make such a determination in a written opinion.

Expenses (including attorney’s fees) incurred in defending a civil or criminal action, suit, or proceeding may be paid by the Company in advance of the final disposition of such action upon receipt of an undertaking by or on behalf of a person entitled to claim indemnification to repay such amount, if it is ultimately determined that he or she is not entitled to be indemnified by the Company.

To the extent permitted by law, the Company or its parents may purchase and maintain insurance on behalf of any person or persons described in the preceding paragraphs of this Item 28 against any liability asserted against and incurred by him or her, whether or not the Company would have power to indemnify him or her as described above.

Consistent with the laws of the State of Iowa, VA Capital Company LLC (“VA Capital”) maintains various insurance policies issued by reputable insurers covering VA Capital and any company in which VA Capital has a controlling interest, including the Company and the principal underwriter. These policies cover the funds and assets of the principal underwriter/depositor under the care, custody and control of VA Capital and/or its subsidiaries. The policies include, but are not limited to, the following types of coverages: Professional Liability, Directors & Officers Liability, Cyber Liability, Employment Practices Liability, Fiduciary Liability, and Financial Institutional Bond.

Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended, may be permitted to directors, officers and controlling persons of the Registrant, as provided above or otherwise, the Registrant has been advised that in the opinion of the SEC such indemnification by the Depositor is against public policy, as expressed in the Securities Act of 1933, and therefore may be unenforceable. In the event that a claim of such indemnification (except insofar as it provides for the payment by the Depositor of expenses incurred or paid by a director, officer or controlling person in the successful defense of any action, suit or proceeding) is asserted against the Depositor by such director, officer or controlling person and the SEC is still of the same opinion, the Depositor or Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question of whether such indemnification by the Depositor is against public policy as expressed by the Securities Act of 1933 and will be governed by the final adjudication of such issue.

Item 29 Principal Underwriter

- (a) Directed Services LLC serves as principal underwriter for all contracts issued by Voya Insurance and Annuity Company through its Separate Accounts A, B, EQ, U and Alger Separate Account A.
- (b) The following information is furnished with respect to the principal officers and directors of Directed Services LLC, the Registrant’s Distributor.

Jay Lemoncelli, 1475 Dunwoody Drive, Suite 200, West Chester, PA 19380	Assistant Secretary

- (c) Compensation From the Registrant.

(1) Name of Principal Underwriter	(2) 2017 Net Underwriting Discounts and Commissions	(3) Compensation on Redemption	(4) Brokerage Commissions	(5) Other Compensation
Directed Services LLC	\$ 153,949,046	\$ 0	\$ 0	\$ 0

Item 30 **Location of Accounts and Records**

All accounts, books and other documents required to be maintained by Section 31(a) of the 1940 Act and the rules under it relating to the securities described in and issued under this Registration Statement are maintained by the Depositor and located at: 699 Walnut Street, Suite 1350, Des Moines, Iowa 50309-3942 and 1475 Dunwoody Drive, suite 200, West Chester, PA 19380.

Item 31 **Management Services**

None.

Item 32 **Undertakings**

- Registrant hereby undertakes to file a post-effective amendment to this registration statement as frequently as it is necessary to ensure that the audited financial statements in the registration statement are never more than 16 months old so long as payments under the variable annuity contracts may be accepted;
- Registrant hereby undertakes to include either (1) as part of any application to purchase a contract offered by the prospectus, a space that an applicant can check to request a Statement of Additional Information, or (2) a post card or similar written communication affixed to or included in the prospectus that the applicant can remove to send for a Statement of Additional Information; and
- Registrant hereby undertakes to deliver any Statement of Additional Information and any financial statements required to be made available under this Form promptly upon written or oral request.

Representations

- The account meets the definition of a “separate account” under federal securities laws.
 - Voya Insurance and Annuity Company hereby represents that the fees and charges deducted under the Contract described in the Prospectus, in the aggregate, are reasonable in relation to the services rendered, the expenses to be incurred and the risks assumed by Voya Insurance and Annuity Company.
-

SIGNATURES

As required by the Securities Act of 1933 and the Investment Company Act of 1940, the Registrant, Separate Account B of Voya Insurance and Annuity Company, certifies that it meets the requirements of Securities Act Rule 485(b) for effectiveness of this Post-Effective Amendment to its Registration Statement on Form N-4 (File No. 033-59261) to be signed on its behalf by the undersigned, thereunto duly authorized, in the Town of Windsor, State of Connecticut, on the 23rd day of April, 2019.
