NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS
February 28, 2003
(Unaudited)

NOTE 1—Preparation of Financial Statements

In the opinion of management, the accompanying unaudited consolidated condensed financial statements of Robbins & Myers, Inc. and subsidiaries (“we” “our”) contain all adjustments, consisting of normally recurring items, necessary to present fairly the financial condition as of February 28, 2003, and August 31, 2002, the results of our operations for the three and six month periods ended February 28, 2003 and 2002, and our cash flows for the six month periods ended February 28, 2003 and 2002. All intercompany transactions have been eliminated. Certain amounts in the prior period financial statements have been reclassified to conform to the current year presentation.

NOTE 2—Acquisition

On November 15, 2002, we purchased the stock of Tarby, Inc. (“Tarby”) for \$12,478,000. Tarby is a manufacturer and marketer of progressing cavity pumps and components for the general industrial and municipal wastewater markets with annual sales of approximately \$6,000,000.

NOTE 3—Goodwill and Other Intangible Assets

(a) For the three and six month periods ended February 28, 2003, the computed diluted net income per share is \$0.22 and \$0.37, respectively. However diluted net income per share may not exceed basic net income per share. Therefore the reported diluted net income per share for the three and six month periods ended February 28, 2003 are \$0.21and \$0.35, respectively.

NOTE 5—Product Warranties

Warranty obligations are contingent upon product failure rates, material required for the repairs and service delivery costs. We estimate the warranty accrual based on specific product failures that are known to us plus an additional amount based on the historical relationship of warranty claims to sales.

Changes in our product warranty liability during the period are as follows:

Our Bank Credit Agreement (“Agreement”) provides that we may borrow on a revolving credit basis up to a maximum of \$126,123,000. All outstanding amounts under the Agreement are due and payable on January 9, 2005. Interest is variable based upon formulas tied to LIBOR or prime, at our option, and is payable at least quarterly. At February 28, 2003 the weighted average interest rate for all amounts outstanding was 3.18%. Indebtedness under the Agreement is unsecured, except for guarantees by our U.S. subsidiaries, the pledge of the stock of our U.S. subsidiaries and the pledge of the stock of certain non-U.S. subsidiaries.

We have \$100,000,000 of Senior Notes (“Senior Notes”) issued in two series. Series A in the principal amount of \$70,000,000 has an interest rate of 6.76% and is due May 1, 2008, and Series B in the principal amount of \$30,000,000 has an interest rate of 6.84% and is due May 1, 2010. Interest is payable semi-annually on May 1 and November 1.

The above agreements have certain restrictive covenants including limitations on cash dividends, treasury stock purchases and capital expenditures, and minimum requirements for interest coverage and leverage ratios. The amount of cash dividends and treasury stock purchases, other than in relation to stock option exercises, we may incur in each fiscal year is restricted to the greater of \$3,500,000 or 50% of our consolidated net income for the immediately preceding fiscal year, plus a portion of any unused amounts from the preceding fiscal year. Under this Agreement and other lines of credit, we could incur additional indebtedness of approximately \$10,000,000 based on our covenant position.

Our other debt primarily consists of unsecured non-U.S. bank lines of credit with interest rates ranging from 4.00% to 8.00%.

We have \$22,294,000 of 10.00% Subordinated Notes (“Subordinated Notes”) with the former owner of Romaco. The Subordinated Notes are due in 2006 and 2007 and interest is payable quarterly.

We have \$40,000,000 of 8.00% Convertible Subordinated Notes Due 2008 (“8.00% Convertible Subordinated Notes”). The 8.00% Convertible Subordinated Notes are due on January 31, 2008, bear interest at 8.00%, payable semi-annually on March 1 and September 1 and are convertible into common stock at a rate of \$22.50 per share. Holders may convert at any time until maturity. The 8.00% Convertible Subordinated Notes are redeemable at our option at any time on or after March 1, 2004, at a redemption price (a) prior to or on March 1, 2005, equal to 102% of the principal amount, and (b) after March 1, 2005, equal to 100% of the principal amount.

We have \$19,691,000 of 6.50% Convertible Subordinated Notes Due 2003 (“6.50% Convertible Subordinated Notes”). The 6.50% Convertible Subordinated Notes are due on September 1, 2003, bear interest at 6.50%, payable semi-annually on March 1 and September 1 and are convertible into common stock at a rate of \$27.25 per share. On March 14, 2003, we announced a call for redemption of the 6.50%

Convertible Subordinated Notes. The redemption price is 100% of the principal amount and the redemption date is April 16, 2003. We will use proceeds from our revolving credit loan to pay for the redemption.

The 8.00% Convertible Subordinated Notes, 6.50% Convertible Subordinated Notes and the Subordinated Notes are subordinated to all of our other indebtedness.

We have entered into an interest rate swap agreement. The interest rate swap agreement utilized by us effectively modifies our exposure to interest rate risk by converting our fixed rate debt to floating rate debt. This agreement involves the receipt of fixed rate amounts in exchange for floating rate interest payments over the life of the agreement without an exchange of underlying principal amounts. The fair value hedge qualifies for treatment under the short cut method of measuring effectiveness. As a result, there is no impact on earnings due to hedge ineffectiveness. The interest rate swap agreement totals \$30,000,000, expires in 2008 and allows us to receive an interest rate of 6.76% and pay an interest rate based on LIBOR.

NOTE 7—Income Taxes

The estimated annual effective tax rate was 33.5% for the three and six month periods of fiscal 2003 and fiscal 2002.

Three months ended February 28, 2003

Net sales for the second quarter of fiscal 2003 were \$134.2 million compared with \$130.0 million in the second quarter of fiscal 2002.

The Pharmaceutical segment had sales of \$80.4 million in the second quarter of fiscal 2003 compared with \$79.6 million in the second quarter of fiscal 2002. The change in exchange rates, primarily the strengthening of the Euro, increased the second quarter of fiscal 2003 sales by \$10.2 million compared with the second quarter of fiscal 2002. Excluding the impact of exchange rates, the second quarter of fiscal 2003 sales declined by \$9.4 million, or 11.8%. This decline in sales follows the low order intake in fiscal 2002 due to the weak specialty chemical market and slow industrial economy in the U.S., the overall slowing of the European economies and price pressures in Europe for glass-lined vessel business. Orders for this segment increased from \$67.8 million in the second quarter of fiscal 2002 to \$99.5 million in the second quarter of fiscal 2003. The change in exchange rates increased the second quarter of fiscal 2003 orders by \$20.2 million. Excluding the impact of exchange rates, the second quarter of fiscal 2003 orders increased by \$11.5 million, or 17.0%. The increase in orders was in both the Romaco and Reactor Systems businesses. Backlog in this segment increased to \$119.8 million at the end of the second quarter of fiscal 2003 from \$100.8 million at August 31, 2002.

The Industrial segment had sales of \$30.5 million in the second quarter of fiscal 2003 compared with \$27.7 million in the second quarter of fiscal 2002. The increase in sales is primarily in our Industrial Pumps product platform from municipal waste water treatment projects. Incoming orders in this segment were \$31.0 million in the second quarter of fiscal 2003 compared with \$27.1 million in the second quarter of fiscal 2002. The increased orders of \$3.9 million, or 14.4%, were due to the acquisition of Tarby and increased order activity in Asia. Backlog in this segment increased to \$24.5 million at the end of the second quarter of fiscal 2003 from \$21.6 million at August 31, 2002.

The Energy segment had sales of \$23.3 million in the second quarter of fiscal 2003 compared with \$22.7 million in the second quarter of fiscal 2002, an increase of \$0.6 million or 2.6%. The overall level of crude oil and natural gas exploration and production activities remains stagnant. Incoming orders in this segment increased slightly to \$23.1 million in the second quarter of fiscal 2003, compared with \$22.2 million in the second quarter of fiscal 2002. Backlog decreased marginally to \$3.2 million at the end of the second quarter of fiscal 2003 from \$3.3 million at August 31, 2002.

EBIT for the second quarter of fiscal 2003 was \$8.9 million compared with \$11.2 million in the second quarter of fiscal 2002.

The Pharmaceutical segment had EBIT of \$4.4 million in the second quarter of fiscal 2003 compared to \$9.2 million in the second quarter of fiscal 2002. The decline in EBIT is due to the aforementioned decline in sales after considering the impact of exchange rates, and the lower selling prices in Europe due to intense competition for glass-lined vessel business.

The Industrial segment had EBIT of \$2.4 million in the second quarter of fiscal 2003 compared with \$.4 million in the second quarter of fiscal 2002, an increase of \$2.0 million. The increase is due to higher sales volumes and cost reduction programs implemented in fiscal 2002.

The Energy segment had EBIT of \$5.0 million in the second quarter of fiscal 2003 compared with \$4.3 million in the second quarter of fiscal 2002, an increase of \$.7 million or 16.2%. The Energy segment EBIT has increased \$.7 million while sales have increased \$.6 million. The larger increase in EBIT is again attributed to cost reduction programs that were implemented in fiscal 2002 in response to lower sales volumes.

Interest expense decreased from \$4.6 million in the second quarter of fiscal 2002 to \$3.9 million in the second quarter of fiscal 2003. This was due to lower average debt levels and lower interest rates on our variable rate debt.

The effective tax rate is 33.5% in fiscal 2003 and fiscal 2002.

Six months ended February 28, 2003

Net sales for the six months ended February 28, 2003 were \$259.0 million compared with \$269.4 million for the same period of the prior year.

The Pharmaceutical segment had sales of \$155.3 million for the six month period ended February 28, 2003 compared with \$162.8 million for the same period of fiscal 2002. The change in exchange rates increased the year to date fiscal 2003 sales by \$15.3 million compared with the year to date sales of fiscal 2002. Excluding the impact of exchange rates, sales for the first six months of fiscal 2003 declined by \$22.8 million, or 14.0%, compared to the first six months of fiscal 2002. This decline in sales follows the low order intake in fiscal 2002 due to the weak specialty chemical market and slow industrial economy in the U.S., the overall slowing of the European economies and price pressures in Europe for glass-lined vessel business. However, year to date orders for this segment increased from \$142.2 million in fiscal 2002 to \$174.4 million in fiscal 2003. The change in exchange rates increased orders for the six months ended February 28, 2003 by \$25.8 million. Excluding the impact of exchange rates, the orders for the six months ended February 28, 2003 increased by \$6.4 million, or 4.5%.

The Industrial segment had sales of \$58.3 million for the six month period ended February 28, 2003 compared with \$60.2 million in the same period of fiscal 2002. The decreased year to date sales can be attributed to the first quarter of fiscal 2003 when sales were \$4.6 million lower than the first quarter of

fiscal 2002. The first quarter of fiscal 2003 was negatively impacted by the weak specialty chemical market as well as the slow industrial economy in the U.S. in relation to the first quarter of fiscal 2002. Year to date incoming orders in this segment were \$61.5 compared with year to date orders of \$54.6 million in fiscal 2002. The 12.6% improvement in orders is a result of the Tarby acquisition and increased order activity in Asia.

The Energy segment had sales of \$45.4 million for the six month period ended February 28, 2003 compared with \$46.4 million in the same period of fiscal 2002, a decrease of \$1.0 million or 2.2%. Crude oil and natural gas exploration and production activities remain stagnant. Incoming orders in this segment increased slightly to \$45.3 million in the first six months of fiscal 2003 compared with \$44.2 million in first six months of fiscal 2002.

EBIT for the six months ended February 28, 2003 was \$15.9 million compared with \$23.9 million in the six months ended February 28, 2002

The Pharmaceutical segment had EBIT of \$8.1 million in the first six months of fiscal 2003 compared with \$17.4 million in the first six months of fiscal 2002. The decline in EBIT is due to the aforementioned \$22.8 million decline in year to date sales after considering the impact of exchange rates, and the lower selling prices in Europe due to intense competition for glass-lined vessel business.

The Industrial segment had EBIT of \$4.2 million in the first six months of fiscal 2003 compared with \$2.7 million in the first six months of fiscal 2002, an increase of \$1.5 million while sales decreased by \$1.9 million. The increase in EBIT is due to cost reduction programs implemented in fiscal 2002 and improved pricing for aftermarket products.

The Energy segment had year to date EBIT of \$9.5 million in fiscal 2003 compared with year to date EBIT of \$9.1 million in fiscal 2002, an increase of \$.4 million while sales have decreased by \$1.0 million for the same period. The improvement in EBIT is again attributed to cost reduction actions implemented in fiscal 2002.

Year to date interest expense decreased from \$8.6 million in fiscal 2002 to \$7.7 million in fiscal 2003. This was due to lower average debt levels and lower interest rates on our variable rate debt.

The effective tax rate is 33.5% in fiscal 2003 and fiscal 2002.

Liquidity and Capital Resources

On February 10, 2003, we exchanged \$40.0 million of 8.0% Convertible Subordinated Notes due 2008 for an equal amount of our existing 6.5% Convertible Subordinated Notes due 2003. The 8.0% Convertible Subordinated Notes are convertible into our common shares at \$22.50 per share. On March 14, 2003, we announced a call for redemption of the remaining \$19.7 million of 6.5% Convertible Subordinated Notes. The redemption price is 100% of the principal amount and the redemption date is April 16, 2003. We will use proceeds from our revolving credit loan to pay for the redemption.

Cash uses in the first six months of fiscal 2003 were \$9.2 million in semi-annual interest payments due on our Senior Notes and Convertible Subordinated Notes, \$0.5 million for variable pay plans, \$3.0 million for capital expenditures and \$12.5 million for the purchase of Tarby. Cash generated from operations funded these cash uses.

Cash uses in the first six months of fiscal 2002 were \$18.9 million in earnout payment and acquisition costs related to the Romaco acquisition, \$9.6 million in semi-annual interest payments due on our Senior Notes and 6.5% Convertible Subordinated Notes, \$2.8 million for variable pay plans, \$9.6 million for capital expenditures, and \$1.9 million for refinancing fees related to our credit agreement. Cash generated from operations and borrowings under our revolving credit facility funded these cash uses. In addition we received \$4.2 million when certain equipment was sold under sale-leaseback arrangements.

We expect operating cash flow to be adequate for the remainder of fiscal year 2003 operating needs and shareholder dividend requirements. In addition to the aforementioned redemption of our 6.5% Subordinated Convertible Notes, the major cash requirement for the remainder of fiscal 2003 is planned capital expenditures of approximately \$9.0 million. Capital expenditures are related to additional production capacity, cost reductions and replacement items.

Market Risk

In our normal operations we have market risk exposure to foreign currency exchange rates and interest rates. There has been no significant change in our exposure to these risks, which has been previously disclosed.

Forward-looking Statements

In addition to historical information, this report contains forward-looking statements identified by use of words such as “expects,” “anticipates,” “estimates,” and similar expressions. These statements reflect our expectations at the time this report was issued. Actual events and results may differ materially from those described in the forward-looking statements. Among the factors that could cause material differences are significant declines in capital expenditures in specialty chemical and pharmaceutical industries, a major decline in oil and natural gas prices, foreign exchange rate fluctuations, continued availability of acceptable acquisition candidates, access to capital and financing and general economic conditions that can affect demand in the process industries. We undertake no obligation to update or revise any forward-looking statement.

Item 4. Controls and Procedures

- (a) Based on a recent evaluation, which was performed within 90 days of the filing of this Quarterly Report on Form 10-Q, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures (as defined in Securities Exchange Act Rules 13a-14 and 15d-14) are effective in timely alerting them to material information relating to us (including our consolidated subsidiaries) required to be included in periodic reports filed under the Securities Exchange Act.
- (b) There have been no significant changes in our internal controls or in other factors that could significantly affect these controls subsequent to February 28, 2003.
