Indicate by check mark if the registrant is a well-known seasoned issuer,
as defined in Rule 405 of the Securities Act. Yes ☐ No ☒

Indicate by check mark if the registrant is not required to file reports
pursuant to Section 13 or 15(d) of the Act. Yes ☐ No ☒

Indicate by check mark whether the registrant (1) has filed all reports
required to be filed by Section 13 or 15(d) of the Securities Exchange Act
of 1934 during the preceding 12 months (or for such shorter period that the
registrant was required to file such reports), and (2) has been subject to
such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically
and posted on its corporate Web site, if any, every Interactive Data File
required to be submitted and posted pursuant to Rule 405 of Regulation S-T
during the preceding 12 months (or for such shorter period that the
registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark if disclosure of delinquent filers pursuant to Item
405 of Regulation S-K is not contained herein, and will not be contained,
to the best of registrant's knowledge, in definitive proxy or information
statements incorporated by reference in Part III of this Form 10-K or any
amendment to this Form 10-K. ☐

Indicate by check mark whether the registrant is a large accelerated filer,
an accelerated filer, a non-accelerated filer, or a smaller reporting
company. See definitions of "large accelerated filer," "accelerated filer"
and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐

Accelerated filer ☒

Non-accelerated filer ☐

Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes _____ No **X**

The number of shares of the registrant's stock outstanding as of November 23, 2010 was 3,092,696. The aggregate market value of the shares of Common Stock held by non-affiliates of the registrant as of March 31, 2010, the last day of business of our most recently completed second fiscal quarter, was \$122,923,722. Solely for purposes of this calculation, the registrant has assumed that all directors, officers and ten percent (10%) shareholders of the Company are affiliates of the registrant.

Documents Incorporated by Reference

Portions of the Patriot Transportation Holding, Inc. 2010 Annual Report to Shareholders are incorporated by reference in Parts I and II.

Portions of the Patriot Transportation Holding, Inc. Proxy Statement which will be filed with the Securities and Exchange Commission not later than December 31, 2010 are incorporated by reference in Part III.

Preliminary Note Regarding Forward-Looking Statements.

Certain matters discussed in this report contain forward-looking statements that are subject to risks and uncertainties that could cause actual results to differ materially from those indicated by such forward-looking statements.

These forward-looking statements relate to, among other things, capital expenditures, liquidity, capital resources and competition and may be indicated by words or phrases such as "anticipate", "estimate", "plans", "projects", "continuing", "ongoing", "expects", "management believes", "the Company believes", "the Company intends" and similar words or phrases. The following factors and others discussed in the Company's periodic reports and filings with the Securities and Exchange Commission are among the principal factors that could cause actual results to differ materially from the forward-looking statements: freight demand for petroleum products including recessionary and terrorist impacts on travel in the Company's markets; levels of construction activity in the markets served by our mining properties; fuel costs and the Company's ability to recover fuel surcharges; accident severity and frequency; risk insurance markets; driver availability and cost; the impact of future regulations regarding the transportation industry; availability and terms of financing; competition; interest rates, inflation and general economic conditions; demand for flexible warehouse/office facilities in the Baltimore-Washington-Northern Virginia area; and ability to obtain zoning and entitlements necessary for property development. However, this list is not a complete statement of all potential risks or uncertainties.

These forward-looking statements are made as of the date hereof based on management's current expectations, and the Company does not undertake an obligation to update such statements, whether as a result of new information, future events or otherwise. Additional information regarding these and other risk factors may be found in the Company's other filings made from time to time with the Securities and Exchange Commission.

PART I

Item 1. BUSINESS.

Patriot Transportation Holding, Inc., which was incorporated in Florida in 1988, and its subsidiaries (the "Company") are engaged in the transportation and real estate businesses.

Our transportation business is conducted through Florida Rock & Tank Lines, Inc. ("Tank Lines") which operates in the Southeastern United States. Tank Lines hauls petroleum and other liquids and dry bulk commodities by tank trailers.

The Company's real estate activities are conducted through two wholly owned subsidiaries: Florida Rock Properties, Inc. ("Properties") and FRP Development Corp. ("Development").

The Company's real estate operations consist of two reportable segments. The Mining royalty land segment owns real estate including construction aggregate royalty sites and parcels held for investment. The Developed property rentals segment acquires, constructs, and leases office/warehouse buildings primarily in the Baltimore/Northern Virginia/Washington area and holds real estate for future development or related to its developments. Substantially all of the real estate operations are conducted within the Southeastern and Mid-Atlantic United States.

In filings prior to the March 2010 the Company's real estate operations were aggregated and reported as a single segment. The prior filings additionally included results by division. In connection with the new presentation of our real estate operations as two reportable segments, two properties in Washington, D.C. and two properties in Duval County, Florida were reclassified out of the Royalties and rent division and the division was renamed the Mining royalty land segment. Historical results have been reclassified to conform to the new segment presentation.

Transportation. The transportation segment primarily serves customers in the petroleum industries in the Southeastern U.S.

During fiscal 2010, Tank Lines operated from terminals in Jacksonville, Orlando, Panama City, Pensacola, Port Everglades, Tampa and White Springs, Florida; Albany, Atlanta, Augusta, Bainbridge, Columbus, Macon and Savannah, Georgia; Chattanooga and Knoxville, Tennessee; Montgomery, Alabama; and Wilmington, North Carolina.

Tank Lines has from two to six major tank truck competitors in each of its markets. Price, service, and location are the major factors which affect competition in the transportation segment within a given market.

During fiscal 2010, the transportation segment's ten largest customers accounted for approximately 57.3% of the transportation segment's revenue. One of these customers, Murphy Oil Corporation,

accounted for 21.1% of the transportation segment's revenue. The loss of any one of these customers could have a material adverse effect on the Company's revenues and income.

During fiscal 2010, the transportation group purchased 55 new tractors and 3 trailers. In fiscal 2009 and 2008, the Company purchased 102 tractors and 71 trailers.

Our fiscal 2011 capital budget includes 45 new tractors and 24 new trailers including binding commitments to purchase 25 tractors at September 30, 2010. Maintaining a modern fleet has resulted in reduced maintenance expenses, improved operating efficiencies and enhanced driver recruitment and retention. At September 30, 2010, the Company owned and operated a fleet of 388 trucks and 502 trailers plus 9 additional trucks that were being prepared for sale.

Real Estate. We own real estate in Florida, Georgia, Virginia, Maryland, Delaware and Washington, D.C. The real estate owned generally falls into one of three categories: (i) land and/or buildings leased under rental agreements or being developed for rental; (ii) land with construction aggregates deposits, a substantial portion of which is leased to Vulcan Materials Company under long-term mining royalty agreements; and (iii) land held for future appreciation or development. Real estate revenues in fiscal 2010 were divided approximately 79% from rentals on developed properties and 21% from mining royalties.

A significant part of our real estate strategy has been to develop high quality, flexible warehouse/office space. Average occupancy for the fiscal year for buildings in service more than 12 months was 75.8%. At September 30, 2010, 72.0% of the total warehouse/office portfolio of approximately 2.8 million square feet was occupied.

Price, location, rental space availability, flexibility of design, and property management services are the major factors that affect competition in the flexible warehouse/office rental market. The Company experiences considerable competition in all of its markets.

Tenants of flexible warehouse/office properties are not concentrated in any one particular industry.

Relationship with Vulcan Materials Company. The Company was spun off from Florida Rock Industries, Inc. ("FRI") in 1986. FRI merged with Vulcan Materials Company ("Vulcan") in November 2007. Nearly all of our mining properties are leased to Vulcan under long-term mining leases entered into in the 1980s. We haul diesel fuel and cement for the Florida Rock Division of Vulcan. We also are a party to a joint venture agreement with Vulcan to develop approximately 4,300 acres of property located near Brooksville, Florida.

Vulcan accounted for approximately 17.9% of our real estate revenues and 2.7% of our transportation revenues for fiscal 2010.

On a consolidated basis, Vulcan accounted for 5.7% of our fiscal 2010 revenues.

Segment Information. The Company operates in three reportable segments: transportation, mining royalty land and developed property rentals. Industry segment information is presented in Notes 2 and 10 to the consolidated financial statements included in the accompanying 2010 Annual Report to Shareholders and is incorporated herein by reference.

Environmental Matters. While the Company is affected by environmental regulations, such regulations are not expected to have a major effect on the Company's capital expenditures or operating results. Revised EPA regulations decrease the amount of permitted air emissions that can be released by tractor engines and affect tractors produced after the effective date of the regulations. Compliance with these regulations has increased the cost of our new tractors and lowered fuel mileage. This will increase our capital expenses and our operating expenses. The Company's mining leases contain a provision making the lessee responsible for reclamation of mining sites at least to the extent required by law.

Seasonality. The Company's business is subject to limited seasonality due to the cyclical nature of our customers' businesses, with revenues generally declining slightly during winter months.

Employees. The Company employed 739 people in its transportation group, 16 people in its real estate group and 8 people in its corporate offices at September 30, 2010.

Company Website. The Company's website may be accessed at www.patriottrans.com. All of our filings with the Securities and Exchange Commission can be accessed through our website promptly after filing. This includes annual reports on Form 10-K, proxy statements, quarterly reports on Form 10-Q, current reports filed or furnished on Form 8-K and all related amendments.

EXECUTIVE OFFICERS OF THE REGISTRANT

<u>Name</u>	<u>Age</u>	<u>Office</u>	<u>Position Since</u>
John D. Baker II	62	Executive Chairman	Oct. 1, 2010
Thompson S. Baker II	51	President & Chief Executive Officer	Oct. 1, 2010
David H. deVilliers, Jr.	59	Vice President of the Company and President of the Company's Real Estate Group	Feb. 28, 1994
John D. Milton, Jr.	65	Exec. Vice President,	June 16, 2008

Treasurer, Secretary
and Chief Financial
Officer

John D. Klopfenstein 47 Controller and Chief Feb. 16, 2005
 Accounting Officer

Robert E. Sandlin 49 Vice President of the March 1, 2003
 Company and President
 of Florida Rock &
 Tank Lines, Inc.

All of the above officers have been employed in their respective positions for the past five years except as follows: John D. Baker II served as President and Chief Executive Officer of the Company from February 2008 to October 2010 and as President and Chief Executive Officer of Florida Rock Industries, Inc. from 1996 to November 2007; Thompson Baker served as the President of the Florida Rock Division of Vulcan Materials Company ("Vulcan") from November 2007 to September 2010 and as President of the Aggregates Group of Florida Rock Industries, Inc. from August 1991 to November 2007; and John D. Milton, Jr. served as Executive Vice President and Chief Financial Officer of Florida Rock Industries, Inc. from 2001 to November 2007.

John D. Baker II, who is the brother of Edward L. Baker, and Thompson S. Baker II, who is the son of Edward L. Baker, are directors of the Company.

All executive officers of the Company are elected by the Board of Directors annually and serve until their resignation or removal.

On July 29, 2010, Thompson S. Baker II, a director of the Company, accepted an offer to become President and CEO of the Company, effective October 1, 2010. Upon Mr. Baker's appointment, Mr. John D. Baker II, the current President and Chief Executive Officer, became Executive Chairman of the Company and Mr. Edward L. Baker became Chairman Emeritus. John D. Baker, Edward L. Baker and Thompson S. Baker II will continue to serve as directors of the Company.

Item 1A. RISK FACTORS.

Our future results may be affected by a number of factors over which we have little or no control. The following issues, uncertainties, and risks, among others, should be considered in evaluating our business and outlook. Also, note that additional risks not currently identified or known to us could also negatively impact our business or financial results.

We face significant uncertainty regarding the continued demand for our transportation services during the current economic climate. The transportation segment produces approximately 81% of our gross revenues and 57% of our operating profit. The current economic

climate could adversely affect the demand for our transportation services. These adverse economic conditions may result in reductions in our revenue, increased price competition and increased operating costs, which could have an adverse effect on our business, results of operation and financial condition.

We would be adversely affected by a decline in demand for hauling ethanol.

In addition to other products, our tank lines subsidiary hauls ethanol which is blended with other petroleum products. The ethanol industry is highly dependent upon federal and state legislation and changes in such legislation could adversely affect the demand for ethanol products and the resulting demand for our transportation services. In addition, we would be adversely affected by the future construction of pipelines to transport ethanol, which also would reduce demand for our transportation services.

Our operating results may be adversely impacted by volatility in fuel costs or by fuel shortages.

The crude oil and petroleum products markets are extremely volatile. Fuel prices are affected by a number of economic and political factors, including general political conditions, acts of war or terrorism, political instability in oil producing regions and capacity at United States oil refineries. Our operating results are impacted by our ability to recover fuel surcharges from customers. In light of the volatility of fuel prices, it may be difficult for us to recover fuel surcharges from customers at levels that will allow us to maintain current levels of profitability. In addition, increased fuel prices reduce consumer demand for the petroleum products hauled by our tank lines subsidiary, adversely impacting revenues. Our operations may also be adversely affected by any limit on the availability of fuel.

Our business may be adversely affected by seasonal factors and harsh weather conditions.

Our business is subject to seasonal trends common in the refined petroleum products delivery industry. We typically face increased demand for fuels delivery services in Florida during the spring months. Our real estate group is adversely affected by reduced construction activity during periods of inclement weather. These factors can cause our operating results to fluctuate from quarter to quarter. An occurrence of unusually harsh or long-lasting inclement weather such as hurricanes, tornadoes and heavy snowfalls could have an adverse effect on our operations and profitability.

Our revenues depend in part on construction sector activity levels, which tend to be cyclical.

Our real estate group receives part of its revenues from royalties on construction aggregates mined on our properties. Thus, our results depend in part on residential, commercial and infrastructure construction activity and spending levels. The construction industry in our markets tends to be cyclical.

Construction activity and spending levels vary across our markets and are influenced by interest rates, inflation, consumer spending habits, demographic shifts, environmental laws and regulations, employment levels and the availability of funds for public infrastructure projects. Economic downturns may lead to recessions in the construction industry, either in individual markets or nationally.

We face difficulty in recruiting and retaining qualified drivers.

In some years the transportation industry has had difficulty attracting and retaining qualified drivers (including independent contractors), and competition for drivers sometimes can be intense. To compete for drivers, we may be forced to increase driver compensation. We cannot be certain that we could pass along the increased compensation costs to our customers. If we are unable to continue to attract drivers and contract with independent contractors, we could be required to suffer downtime and lost revenue miles.

New tractors are more expensive.

New tractors are more expensive, primarily due to higher commodity prices, better pricing power among equipment manufacturers, and government regulations applicable to newly manufactured tractors and diesel engines. Revised EPA regulations decrease the amount of permitted air emissions that can be released by tractor engines and affect tractors produced after the effective date of the regulations. Compliance with these regulations has increased the cost of our new tractors and lowered fuel mileage. This will increase our capital expenses and our operating expenses. These adverse effects combined with the uncertainty as to the reliability of the vehicles equipped with the newly designed diesel engines and the residual values that will be realized from the disposition of these vehicles could increase our costs or otherwise adversely affect our business or operations.

We have significant ongoing capital requirements.

Our transportation business requires substantial ongoing capital investment, particularly for tractors, trailers, terminals and technology. For the past few years, we have depended on cash from operations and our credit facilities to fund our revenue equipment. We expect to continue to pay for projected capital expenditures with cash flows from operations and borrowings under our line of credit. If we are unable to generate sufficient cash from operations and obtain financing on favorable terms in the future, we may have to limit our growth, enter into less favorable financing arrangements, or operate our revenue equipment for longer periods, any of which could have a material adverse effect on our profitability.

The loss of one of our major transportation customers could have a materially adverse effect on our business.

A significant portion of our transportation revenue is generated from our major customers. For 2010, our top 10 customers, based on

revenue, accounted for approximately 57.3% of our transportation segment's revenue and one customer accounted for 21.1% of the segment's revenue. A reduction in or termination of our services by one or more of our major customers could have a materially adverse effect on our business and operating results.

The trucking industry is extremely competitive and fragmented.

The trucking industry is extremely competitive and fragmented. No single truckload carrier has a significant market share. We compete with many other truckload carriers of varying sizes, customers' private fleets, and, to a lesser extent, with railroads which may limit our growth opportunities and reduce profitability. Some of our competitors periodically reduce their freight rates to gain business, especially during times of reduced growth rates in the economy, which may limit our ability to maintain or increase freight rates or maintain our profit margins. Many customers reduce the number of carriers they use by selecting so-called "core carriers" as approved transportation service providers, and in some instances we may not be selected. Historically, competition has created downward pressure on the truckload industry's pricing structure.

Our operations are subject to various environmental laws and regulations, the violation of which could result in substantial fines or penalties.

We are subject to various environmental laws and regulations dealing with the handling of hazardous materials, fuel storage tanks, air emissions from our vehicles and facilities, and engine idling. Our operations involve the risks of fuel spillage or seepage, environmental damage, and hazardous waste disposal, among others. We also maintain bulk fuel storage and fuel islands at several of our facilities. Although we have instituted programs to monitor and control environmental risks and promote compliance with applicable environmental laws and regulations, the failure to comply with applicable laws or regulations could subject us to liabilities, including substantial fines or penalties or civil and criminal liability, that could have a materially adverse effect on our business and operating results.

Uninsured losses could significantly reduce our earnings.

We self-insure for a portion of our claims exposure resulting from workers' compensation, auto liability, general liability, cargo and property damage claims, as well as employees' health insurance. We also are responsible for our legal expenses relating to such claims. We maintain insurance above the amounts for which we self-insure with licensed insurance carriers. Although we believe the aggregate insurance limits should be sufficient to cover reasonably expected claims, it is possible that one or more claims could exceed our aggregate coverage limits. Also, there are some types of losses such as from hurricanes, terrorism, wars, or earthquakes where insurance is limited and/or not economically justifiable. If an uninsured loss occurs, we could lose both the invested capital and anticipated revenues. We accrue currently for estimated

incurred losses and expenses. We periodically evaluate and adjust our claims accrued liability to reflect our experience. However, ultimate results may differ from our estimates, which could result in losses over our accrued amounts.

Rising insurance costs could significantly reduce our earnings.

Insurance carriers sometimes raise premiums for many businesses, including trucking companies. As a result, our insurance and claims expense could increase, or we could raise our self-insured retention when our policies are renewed. If we are unable to pass along this cost increase to customers, our earnings may be significantly reduced.

Compliance with new or future transportation regulations may significantly reduce earnings.

Our transportation operations are regulated and licensed by various U.S. agencies. While the costs of compliance with existing regulations generally is reflected in our prior results, new regulations (such as the new tractor air emissions regulations) and future laws and regulations may be more stringent and require changes in our operating practices, influence the demand for transportation services, or require us to incur significant additional costs. Higher costs incurred by us could adversely affect our results of operations.

We may be unable to renew leases or relet space as leases expire.

When a lease expires, a tenant may elect not to renew it. We may not be able to relet the property on similar terms. The terms of renewal or re-lease (including the cost of required renovations and/or concessions to tenants) may be less favorable than the prior lease. If we are unable to relet all or a substantial portion of our properties, or if the rental rates upon such reletting are significantly lower than expected rates, our cash generated before debt repayments and capital expenditures may be adversely affected. As of September 30, 2010, leases at our properties representing approximately 9%, 8% and 13% of the total square footage of buildings completed prior to September 2010 were scheduled to expire in fiscal year 2011, 2012 and 2013, respectively.

We may be unable to lease currently vacant space.

Vacant space totals 28% in our business parks and only a small portion of that has leases signed for future occupancy. If we are unable to obtain leases sufficient to cover carrying costs then our cash flows may continue to be adversely affected.

The bankruptcy or insolvency of significant tenants with long-term leases may adversely affect income produced by our properties.

We have ten buildings in our business parks that are single-tenant occupied representing 37% of developed property rentals under long-term leases. We have five other tenants with leases in excess of five years. Should tenants default on their obligations, our cash flow would be adversely affected and we may not be able to find another tenant to occupy the space under similar terms or have to

make expenditures to retrofit and/or divide the space. In addition we may have to incur a non-cash expense for a significant amount of deferred rent revenue generated from the accounting requirement to straight-line rental revenues. The bankruptcy or insolvency of a major tenant may also adversely affect the income produced by a property. If any of our tenants becomes a debtor in a case under the U.S. Bankruptcy Code, we cannot evict that tenant solely because of its bankruptcy. The bankruptcy court may authorize the tenant to reject and terminate its lease with us. Our claim against such a tenant for unpaid future rent would be subject to a statutory limitation that might be substantially less than the remaining rent actually owed to us under the tenant's lease. Any shortfall in rent payments could adversely affect our cash flow.

A decline in the economic conditions in Baltimore-Washington-Northern Virginia area could adversely affect our business.

Nearly all of our office/warehouse properties are located in the Baltimore-Washington-Northern Virginia area. As a result of our geographic concentration, we depend upon the local conditions in these markets, including local real estate conditions. We are, therefore, subject to increased exposure (positive or negative) to economic and other competitive factors specific to markets in confined geographic areas. Our operations may also be affected if too many competing properties are built in these markets. An economic downturn in these markets could adversely affect our operation. We cannot assure you that these markets will continue to grow or will continue to provide favorable demand for our office/warehouse product.

Our inability to obtain necessary approvals for property development could adversely affect our profitability.

We may be unable to obtain, or incur delays in obtaining, necessary zoning, land-use, building, occupancy and other required governmental permits and authorizations, which could result in increased costs or abandonment of these projects. Before we can develop a property, we must obtain a variety of approvals from local and state governments with respect to such matters as zoning, density, parking, subdivision, site planning and environmental issues. Legislation could impose moratoriums on new real estate development and/or land-use conversions from mining to development. These factors may reduce our profit or growth and may limit the value of these properties.

Real estate investments are not as liquid as other types of assets.

The illiquid nature of real estate investments may limit our ability to react promptly to changes in economic or other conditions. In addition, significant expenditures associated with real estate investments, such as mortgage payments, real estate taxes and maintenance costs, are generally not reduced when circumstances cause a reduction in income from the investments. Thus, the illiquid nature of our real estate investments could adversely affect our profitability under certain economic conditions.

Our debt service obligations may have adverse consequences on our business operations.

We use debt to finance our operations, including acquisitions of properties. Our use of debt may have adverse consequences, including the following:

- Our cash flows from operations may not be sufficient to meet required payments of principal and interest.
- We may be forced to dispose of one or more of our properties, possibly on disadvantageous terms, to make payments on our debt.
- We may default on our debt obligations, and the lenders may foreclose on our properties that collateralize those loans.
- A foreclosure on one of our properties could create taxable income without any accompanying cash proceeds to pay the tax.
- A default under a mortgage loan that has cross default provisions may cause us to automatically default on another loan.
- We may not be able to refinance or extend our existing debt.
- The terms of any refinancing or extension may not be as favorable as the terms of our existing debt.
- We may not be able to issue debt on unencumbered properties under reasonable terms to finance growth of our portfolio of properties.
- We may be subject to a significant increase in the variable interest rates on our unsecured line of credit or unsecured term loan, which could adversely impact our operations.

As of September 30, 2010, we had outstanding non-recourse mortgage indebtedness of \$71,860,000, secured by developed real estate properties having a carrying value of \$78,328,000.

Our uncollateralized revolving credit agreement restricts our ability to engage in some business activities.

Our uncollateralized revolving credit agreement contains customary negative covenants and other financial and operating covenants that, among other things:

- restricts our ability to incur certain additional indebtedness;
- restricts our ability to make certain investments;
- restricts our ability to merge with another company;
- restricts our ability to pay dividends;
- requires us to maintain financial coverage ratios; and
- requires us to not encumber certain assets except as approved by the lenders.

These restrictions could cause us to default on our unsecured line of credit or negatively affect our operations.

Our real estate segment faces competition from numerous sources.

As a developer of flexible warehouse/office space, we compete with numerous developers, owners and operators of real estate, many of which own properties similar to ours in the same submarkets in which our properties are located. If our competitors offer space at rental rates below current market rates, or below the rental rates we currently charge our tenants, we may lose potential tenants and we may be pressured to reduce our rental rates below those we currently charge in order to retain tenants when our tenants' leases expire. As a result, our financial condition, results of operations, cash flow and ability to satisfy our debt service obligations could be materially adversely affected.

Construction costs may be higher than anticipated.

Our long-term business plan includes a number of construction projects. The construction costs of these projects may exceed original estimates and possibly make the completion of a property uneconomical. Building material commodity shortages, construction delays/stoppages and/or rapidly escalating construction costs may out-pace market rents, adversely affecting profits. The market environment and existing lease commitments may not allow us to raise rents to cover these higher costs.

Certain shareholders have effective control of nearly a majority of our common stock and likely will control the outcome of any shareholder vote.

As of November 24, 2010, three of our directors, Edward L. Baker, John D. Baker II and Thompson S. Baker II, beneficially own approximately 23.6% of the outstanding shares of our common stock and certain of their family members beneficially own an additional 10.3%. As a result, these individuals effectively may have the ability to direct the election of all members of our Board of Directors and to exercise a controlling influence over our business and affairs, including any determinations with respect to mergers or other business combinations involving us, our acquisition or disposition of assets, our borrowing of monies, our issuance of any additional securities, our repurchase of common stock and our payment of dividends.

Our charter and bylaws contain provisions that may hinder a takeover or negatively affect our stock price.

Our articles of incorporation and bylaws contain several provisions that may make it more difficult and expensive for a third party to acquire control of us without the approval of our board of directors. Our articles of incorporation and bylaws contain provisions dividing our board of directors into four classes of directors serving four-year terms and providing that directors may only be removed for cause. Our articles of incorporation also provide that our shareholders can take action only at a duly called

annual or special meeting of shareholders and require a supermajority vote to approve certain matters. In addition, our board of directors is authorized to issue additional shares of common stock or preferred stock and to determine the rights and preferences of any shares of preferred stock to be issued.

Our cash and cash equivalents at times exceed FDIC insurance limits exposing us to possible losses.

In the current financial climate, the Company is monitoring the financial stability of its lending banks as well as its depository institutions. At present the Company does not foresee the necessity for changing any of these relationships but will continue to monitor conditions particularly with respect to the depository for its liquid funds. The Company places its cash and cash equivalents with high credit quality institutions. At times such amounts may exceed FDIC insurance limits.

Item 2. PROPERTIES.

The Company's principal properties are located in Florida, Georgia, Virginia, Washington, D.C., Delaware and Maryland.

Real Estate Segment Properties. Principal properties held by the Real Estate segment are discussed below under the captions Developed Properties, Future Planned Development, Construction Aggregates Properties, and Other Properties.

At September 30, 2010 certain developed real estate properties having a carrying value of \$78,328,000 were pledged on long-term non-recourse notes with an outstanding principal balance totaling \$71,860,000.

Developed Properties. At September 30, 2010, the Company owned 267 acres in 12 developed parcels of land all but one of which are in the Mid-Atlantic region of the United States as follows:

1) Hillside Business Park in Anne Arundel County, Maryland consists of 49 usable acres. A total of 571,138 square feet exist on the property and it is 86% occupied. Construction of the final building with 66,398 square feet of office space was completed September 30, 2008 and is currently unoccupied. An agreement to lease 20,000 square feet is scheduled to commence on or about January 1, 2011 and will increase the occupancy to 89%.

2) Lakeside Business Park in Harford County, Maryland consists of 84 usable acres. Nine warehouse/office buildings, totaling 893,722 square feet, were in place at the beginning of 2010 and are 82% occupied. Construction of the ninth building with 148,425 warehouse/office space was completed in April 2009 and was unoccupied until 60,578 square feet were occupied on November 10, 2010. The remaining 14 acres are available for future development and have the potential to offer an additional 210,230 square feet of comparable product.

- 3) 6920 Tudsbury Road in Baltimore County, Maryland contains 5.3 acres with 86,100 square feet of warehouse/office space that was 100% leased to a single tenant whose lease expired March 31, 2010. The tenant did not renew and building was vacant until November 1, 2010 when it was occupied by a single tenant.
- 4) 8620 Dorsey Run Road in Howard County, Maryland contains 5.8 acres with 85,100 square feet of warehouse/office space that is 100% leased.
- 5) Rossville Business Center in Baltimore County, Maryland contains approximately 10 acres with 190,517 square feet of warehouse/office space and is 75% leased.
- 6) 34 Loveton Circle in suburban Baltimore County, Maryland contains 8.5 acres with 30,006 square feet of office space, which is 40% leased including 23% of the space occupied by the Company.
- 7) Oregon Business Center in Anne Arundel County, Maryland contains approximately 17 acres with 195,615 square feet of warehouse/office space, which is 75% leased.
- 8) Arundel Business Center in Howard County, Maryland contains approximately 11 acres with 162,796 square feet of warehouse/office space, which is 83% leased.
- 9) 100-400 Interchange Boulevard in New Castle County, Delaware contains approximately 17 acres with 303,006 square feet of warehouse/office space, which is 17% leased. Chrysler and General Motors plant closings have reduced demand for space in this market. The remaining 8.8 acres are available for future development and have the potential to offer an additional 93,600 square feet of comparable product.
- 10) 1187 Azalea Garden Road in Norfolk, Virginia contains approximately 12 acres with 188,093 square feet of warehouse/office space, which is 100% leased.
- 11) Windlass Run Business Park in Baltimore County, Maryland contains 69,474 square feet of warehouse/office space completed September 30, 2008. The building is as yet unoccupied. This building is contained within a larger parcel containing approximately 42 acres when complete is estimated to include 519,824 square feet of total build-out.
- 12) 155 E. 21st Street in Duval County, Florida contains approximately 6 acres with 68,757 square feet of office space which is 100% leased to Vulcan.

Future Planned Developments. At September 30, 2010 the Company owned the following future development parcels:

- 1) Windlass Run Residential (previously Bird River), located in southeastern Baltimore County, Maryland, is a 121 acre tract of

land adjacent to and west of our Windlass Run Business Park. The property was rezoned in September 2007 to allow for additional density and plans are being pursued to obtain an appropriate product mix. In July 2008, the Company entered into an agreement to sell the property. The purchase price for the property is \$25,075,000, subject to certain potential purchase price adjustments. The agreement of sale is subject to certain contingencies including government approvals and the closing may be one or more years away. The purchaser has placed non-refundable deposits of \$1,000,000 under this contract in escrow. Preliminary approval for the development as originally contemplated under the agreement's pricing contingencies has now been received and the time for any appeals from that approval has expired.

2) Patriot Business Park, located in Prince William County, Virginia, is a 73 acre tract of land which is immediately adjacent to the Prince William Parkway providing access to I-66. The Company plans to develop and lease approximately 733,650 square feet of warehouse/office buildings on the property. Land development efforts commenced in the summer of 2008 but were placed on hold in April 2009.

3) Brooksville Quarry LLC. On October 4, 2006, a subsidiary of the Company (FRP) entered into a Joint Venture Agreement with Vulcan Materials Company (formerly Florida Rock Industries, Inc.) to form Brooksville Quarry, LLC, a real estate joint venture to develop approximately 4,300 acres of land near Brooksville, Florida. The property does not yet have the necessary entitlements for real estate development. Approval to develop real property in Florida entails an extensive entitlements process involving multiple and overlapping regulatory jurisdictions and the outcome is inherently uncertain. In August 2010, the Company received final development approvals from the Hernando County Board of County Commissioners for the proposed project. In September 2010, Hernando County transmitted, as required by state law, the entire approval package to the State Department of Community Affairs (DCA) for a determination of whether the approval package is in compliance with state and local laws. In October 2010, the DCA issued a finding of "not in compliance" with a list of suggested remedial actions which could be taken to bring the approval package into compliance. The Company is currently in the process of negotiating the list of suggested remedial actions with the Department and the County and expects to complete this process within the next nine months.

4) Anacostia River. The Company owns a 5.8 acre parcel of undeveloped real estate in Washington D.C. that fronts the Anacostia River and is adjacent to the Washington Nationals Baseball Park. The Company also owns a nearby 2.1 acre tract on the same bank of the Anacostia River. Currently, the 5.8 acre tract is leased to a subsidiary of Vulcan Materials Company on a month-to-month basis. The approved planned unit development permits the Company to develop a four building, mixed use project, containing approximately 545,800 square feet of office and retail space and approximately 569,600 square feet of additional space for

residential and hotel uses. The approved development would include numerous publicly accessible open spaces and a waterfront esplanade along the Anacostia River. In November 2009, the Company received a two-year extension for commencement of this project, moving the construction commencement date to June 2013. The Company sought this extension because of negative current market indications.

5) Commonwealth Avenue in Jacksonville, Florida is a 50 acre site near the western beltway of Interstate-295 capable of supporting approximately 500,000 square feet of warehouse/office build-out.

6) Leister property in Hampstead, Carroll County, Maryland is a 117 acre parcel located adjacent to State Route 30 bypass. The parcel was acquired for future commercial development and is projected to contain 900,000 square feet of space when complete. This parcel is currently in a predevelopment planning stage.

7) Ft. Myers residential property in Lee County, Florida is part of a 1,993 acre site under a long-term mining lease to Vulcan. In June, 2010 the Company entered into a letter agreement with Vulcan Materials Company that required modifications to the existing mining lease on our property, such that the mining will be accelerated and the mining plan will be revised to accommodate future construction of up to 105 residential dwelling units around the mined lakes. In return the Company agreed to grant Lee County a right of way for a road and to place a conservation easement on part of the property.

Construction Aggregates Properties. The following table summarizes the Company's principal construction aggregates locations and estimated reserves at September 30, 2010, a substantial portion of which are leased to Vulcan.

	Tons Sold in Year Ended 9/30/10 (000's)	Tons of Estimated Reserves at 9/30/10 (000's)	Approximate Acres Owned
The Company owns seven locations currently being mined in Grandin, Keuka, Newberry, Florida; Columbus, Macon, and Tyrone, Georgia; and Manassas, Virginia.	4,997	354,501	10,423
The Company owns six locations not currently being mined in Ft. Myers, Gulf Hammock, Airgrove/Lake County(temporary), Marion County, Astatula/Lake County, Florida; and Forest Park, Georgia.	16	95,410	5,454

These figures exclude Brooksville, Florida as the property was transferred October 4, 2006 to a joint venture with Vulcan for development. Brooksville tons sold in fiscal 2010 were 349,000 and estimated reserves were 6,416,000 at September 30, 2010.

Other Properties. In addition to the development, mining and rental sites, the Company owns approximately 2,222 acres of investment and other real estate. This includes a 1,844-acre timberland site located in Caroline County, Virginia.

In February 2010, a subsidiary of the Company, Florida Rock Properties, Inc., entered into an agreement to sell approximately 1,844 acres of land in Caroline County, Virginia, to the Commonwealth of Virginia, Board of Game and Inland Fisheries. The purchase price for the property is \$5,200,000, subject to certain deductions. The Company is also donating the value of minerals and aggregates. The Company's book value of the property is \$276,000. If the sale closes before January 19, 2011 the Company intends to use the proceeds in a 1031 exchange to purchase Hollander 95 Business Park in a foreclosure sale auction through a qualified intermediary. Hollander 95 Business Park, in Baltimore City, Maryland, closed on October 22, 2010 by a 1031 intermediary for a purchase price totaling \$5,750,000. This property consists of an existing 82,800 square foot warehouse building (52.9% occupied) with an additional 42 acres of partially developed land with a development capacity of 470,000 square feet (a mix of warehouse, office, hotel and flex buildings).

Transportation Segment Properties. The Company has 19 sites for its trucking terminals in Alabama, Florida, Georgia, North Carolina, and Tennessee. The Company owns 14 of these sites and leases 5.

Item 3. LEGAL PROCEEDINGS.

Note 12 to the Consolidated Financial Statements included in the accompanying 2010 Annual Report to Shareholders is incorporated herein by reference.

Item 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

No reportable events.

PART II

Item 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

There were approximately 509 holders of record of Patriot Transportation Holding, Inc. common stock, \$.10 par value, as of September 30, 2010. The Company's common stock is traded on the Nasdaq Stock Market (Symbol PATR). Information concerning stock prices is included under the caption "Quarterly Results" on page 6 of the Company's 2010 Annual Report to Shareholders, and such information is incorporated herein by reference. The Company has not paid a cash dividend in the past and it is the present policy of the Board of Directors not to pay cash dividends. Information concerning restrictions on the payment of cash dividends is included in Note 3 to the consolidated financial statements included in the accompanying 2010 Annual Report to Shareholders and such information is incorporated herein by reference. Information regarding securities authorized for issuance under equity compensation plans is included in Item 12 of Part III of this Annual Report on Form 10-K and such information is incorporated herein by reference.

Purchases of Equity Securities by the Issuer and Affiliated Purchasers

<u>Period</u>	(a) <u>Total Number of Shares Purchased</u>	(b) <u>Average Price Paid per Share</u>	(c) <u>Total Number of Shares Purchased As Part of Publicly Announced Plans or Programs</u>	(d) <u>Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (1)</u>
July 1 through July 31	0	\$ 0	0	\$ 5,625,000
August 1 through August 31	0	\$ 0	0	\$ 5,625,000
September 1 through September 30	<u>0</u>	\$ 0	<u>0</u>	\$ 5,625,000
Total	0	\$ 0	0	

(1) In December, 2003, the Board of Directors authorized management to expend up to \$6,000,000 to repurchase shares of the Company's common stock from time to time as opportunities arise. On February

19, 2008, the Board of Directors authorized management to expend up to an additional \$5,000,000 to repurchase shares of the Company's common stock from time to time as opportunities arise.

Item 6. SELECTED FINANCIAL DATA.

Information required in response to this Item 6 is included under the caption "Five Year Summary" on page 6 of the Company's 2010 Annual Report to Shareholders and such information is incorporated herein by reference.

Item 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION.

Information required in response to Item 7 is included under the caption "Management Analysis" on pages 7 through 13 of the Company's 2010 Annual Report to Shareholders and such information is incorporated herein by reference.

Item 7.A QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

The Company is exposed to market risk from changes in interest rates. For its cash and cash equivalents, a change in interest rates affects the amount of interest income that can be earned. The Company prepared a sensitivity analysis of its cash and cash equivalents to determine the impact of hypothetical changes in interest rates on the Company's results of operations and cash flows. The interest-rate analysis assumed a 50 basis point adverse change in interest rates on all cash and cash equivalents. However, the interest-rate analysis did not consider the effects of the reduced level of economic activity that could exist in such an environment. Based on this analysis, management has concluded that a 50 basis point adverse move in interest rates on the Company's cash and cash equivalents would have an immaterial impact on the Company's results of operations and cash flows.

For its debt instruments with variable interest rates, changes in interest rates affect the amount of interest expense incurred. The Company did not have any variable rate debt outstanding at September 30, 2010. The following table provides information about the Company's long-term debt (dollars in thousands):

Liabilities:	<u>2011</u>	<u>2012</u>	<u>2013</u>	<u>2014</u>	<u>2015</u>	<u>There after</u>	<u>Total</u>	<u>Fair Value</u>
Scheduled maturities of long-term debt:								
Fixed Rate	\$ 4,588	\$4,902	\$5,239	\$5,308	\$5,379	\$46,444	\$71,860	\$73,558
Average interest rate	6.3%	6.3%	6.3%	6.3%	6.2%	6.4%		

Item 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

Information required in response to this Item 8 is included under the caption "Quarterly Results" on page 6 and on pages 14 through 26 of the Company's 2010 Annual Report to Shareholders. Such information is incorporated herein by reference.

Item 9A. CONTROLS AND PROCEDURES.

CONCLUSION REGARDING THE EFFECTIVENESS OF DISCLOSURE CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our principal executive officer, principal financial officer and chief accounting officer, we conducted an evaluation of our disclosure controls and procedures, as such terms is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based on this evaluation, our principal executive officer, our principal financial officer and our chief accounting officer concluded that our disclosure controls and procedures were effective as of the end of the period covered by this Annual Report.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f). Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in *Internal Control-Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation under the framework in *Internal Control-Integrated Framework*, our management concluded that our internal control over financial reporting was effective as of September 30, 2010.

Hancock Askew & Co., LLP, the independent registered certified public accounting firm that audited the consolidated financial statements included in this Annual Report on Form 10-K, has also audited the effectiveness of our internal control over financial reporting as of September 30, 2010, as stated in their report which appears in Item 8.

INHERENT LIMITATIONS OVER INTERNAL CONTROLS

Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted

accounting principles. Our internal control over financial reporting includes those policies and procedures that:

- i. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets;
- ii. provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and
- iii. provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the consolidated financial statements.

Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations, including the possibility of human error and circumvention by collusion or overriding of controls. Accordingly, even an effective internal control system may not prevent or detect material misstatements on a timely basis. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

PART III

Item 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE REGISTRANT.

Information regarding the Company's executive officers is set forth under the caption "Executive Officers of the Registrant" in Part I of this Form 10-K. Information concerning directors (including the disclosure regarding audit committee financial experts), required in response to this Item 10, is included under the captions "Election of Directors", "Board Structure and Committee Membership - Audit Committee" and "Section 16(a) Beneficial Ownership Reporting Compliance" in the Company's Proxy Statement and such information is incorporated herein by reference. The Proxy Statement will be filed with the Securities and Exchange Commission not later than December 31, 2010.

The Company has adopted a Financial Code of Ethical Conduct applicable to its principal executive officers, principal financial officers and principal accounting officers. A copy of this Financial Code of Ethical Conduct is filed as Exhibit 14 to this Form 10-K. The Financial Code of Ethical Conduct is available on our web site at www.patriottrans.com under the heading *Corporate Governance*.

Item 11. EXECUTIVE COMPENSATION.

Information required in response to this Item 11 is included under the captions "Executive Compensation," "Compensation Committee Report," "Board Structure and Committee Membership - Compensation Committee," and "Shareholder Return Performance" in the Company's Proxy Statement and such information is incorporated herein by reference. The Proxy Statement will be filed with the Securities and Exchange Commission not later than December 31, 2010.

Item 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS.

Information required in response to this Item 12 is included under the captions "Common Stock Ownership of Certain Beneficial Owners" and "Common Stock Ownership by Directors and Executive Officers" in the Company's Proxy Statement and such information is incorporated herein by reference. The Proxy Statement will be filed with the Securities and Exchange Commission not later than December 31, 2010.

Equity Compensation Plan Information

<u>Plan Category</u>	<u>Number of Securities to be issued upon exercise of outstanding options, warrants and rights (a)</u>	<u>Weighted Average exercise price of outstanding options, warrants and rights (b)</u>	<u>Number of Securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a)) (c)</u>
Equity compensation plans approved by security holders	211,300	\$42.01	227,970
Equity compensation plans not approved by security holders	<u>0</u>	<u>0</u>	<u>0</u>
Total	<u>211,300</u>	<u>\$42.01</u>	<u>227,970</u>

Item 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS.

Information required in response to this Item 13 is included under

the caption "Related Party Transactions" in the Company's Proxy Statement and such information is incorporated herein by reference. The Proxy Statement will be filed with the Securities and Exchange Commission not later than December 31, 2010.

Item 14. PRINCIPAL ACCOUNTING FEES AND SERVICES.

Information required in response to this Item 14 is included under the captions "Independent Auditor" and "Ratification of Independent Registered Certified Public Accounting Firm" in the Company's Proxy Statement and such information is incorporated herein by reference. The Proxy Statement will be filed with the Securities and Exchange Commission not later than December 31, 2010.

PART IV

Item 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES.

- (a) (1) and (2) Financial Statements and Financial Statement Schedules.

The response to this item is submitted as a separate section. See Index to Financial Statements and Financial Statement Schedules on page 29 of this Form 10-K.

- (3) Exhibits.

The response to this item is submitted as a separate section. See Exhibit Index on pages 26 through 28 of this Form 10-K.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

**REPORT OF INDEPENDENT REGISTERED CERTIFIED PUBLIC ACCOUNTING FIRM ON
FINANCIAL STATEMENT SCHEDULES**

To the Board of Directors of
Patriot Transportation Holding, Inc.:

Our audit of the consolidated financial statements referred to in our report dated December 1, 2010 appearing in the 2010 Annual Report to Shareholders of Patriot Transportation Holding, Inc. (which report and consolidated financial statements are incorporated by reference in this Annual Report on Form 10-K) also included an audit of the financial statement schedules listed in Item 15(a)(2) of this Form 10-K. These financial statement schedules are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statement schedules based on our audit. In our opinion, these financial statement schedules present fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements.

BUSINESS. The Company is engaged in the transportation and real estate businesses. The Company's transportation business is conducted through a wholly owned subsidiary, Florida Rock & Tank Lines, Inc. (Tank Lines), which is a Southeastern U.S. based tank truck company concentrating in the hauling of primarily petroleum products and other liquids and dry bulk commodities. The Company's real estate group, comprised of FRP Development Corp. and Florida Rock Properties, Inc., acquires, constructs, leases, operates and manages land and buildings to generate both current cash flows and long-term capital appreciation. The real estate group also owns real estate which is leased under mining royalty agreements or held for investment.

OBJECTIVES. The Company's dual objectives are to continue building a substantial transportation company and a real estate company providing sound long-term growth, cash generation and asset appreciation.

TRANSPORTATION

Internal growth is accomplished by a dedicated and competent work force emphasizing superior service to customers in existing markets, developing new transportation services for customers in current market areas and expanding into new market areas.

External growth is designed to broaden the Company's geographic market area and delivery services by acquiring related businesses.

REAL ESTATE

The growth plan is based on the acquisition, development and management of commercial warehouse/office rental properties located in appropriate sub-markets in order to provide long-term positive cash flows and capital appreciation.

To Our Shareholders

Fiscal 2010 opened under the continuing cloud of economic downturn and all of our operations experienced reduced demand for our products and services for the balance of the year. In January, as we struggled to maintain our returns on capital amidst a backdrop of heightened competition, we lost two significant customers in our trucking operations that together accounted for approximately 11% of our prior year's transportation revenues. Since that time we have worked to fill that void and by year end those volumes had been completely replaced.

Our Developed Properties segment began the year with a 75% occupancy rate while facing lease expirations on another 12% of our total square footage. Coping with increased demands for concessions from expiring and prospective tenants, our Baltimore based management team performed admirably in renewing 60% of the expiring tenants and signing a few new ones. By year end our overall occupancy rate was down only slightly to 72%. For our Mining Properties segment, the story was much the same as total tons mined declined 8.2%, as demand for construction materials continued to weaken. However, our actual royalties received increased 1.4%, due to higher average prices per ton and minimum royalties at several of the mining sites.

Hosting our first ever earnings conference call in December, we continued our efforts at transparency with quarterly earnings calls for the balance of the year. We also made four appearances during the year at analyst conferences where our presentations were webcast and archived for availability to a wider potential investor audience. In the same vein we have strived to enhance the information provided in our regular filings with the SEC that our asset holdings and business operations may better be understood by our shareholders and interested investors.

TRANSPORTION SEGMENT:

While there was much effort expended on replacing January's lost business, the real story of our success in this segment was our team's achievement of an even better safety record than the record performance they achieved in fiscal 2009. Our management team has maintained a constant focus for all employees on keeping our Preventable Accident Frequency Rate low. In an industry where capital and equipment are readily available and largely fungible, it is the better-than-average safety record that drives superior operating ratios and investment returns!

This segment has repeatedly produced excellent returns on capital, and it is our intention to grow its business. Our plans are to add incremental volumes to our existing terminals while opening at least one new terminal each year. We stay in touch with potential acquisition candidates and will acquire when we can achieve our dual goals of growth and continued high returns on investment.

Additionally our transportation management team continues to drive improvement through its "ACE" (for "Achieve Continuous Improvement") disciplined management initiative first reported to you in last year's edition of this letter. Through this initiative each management team member has aligned his or her personal commitments to action with the goals and commitments for the year of the whole segment. Likewise, financial incentives have been tied inextricably to these same commitments with the conviction that a coordinated approach to goal achievement is the best method for reaching success.

DEVELOPED PROPERTY SEGMENT:

We began the 2010 fiscal year in this segment with a concentrated focus on leasing up our existing space and looking to acquire warehouse type facilities in an opportunistic manner within our geographic area. Traffic for our vacant space continued to improve during the fiscal year but rates and tenant demands for it did

not. Although we are pleased that our occupancy has not declined materially during the year, we continue to face a challenging environment.

Our search for opportunities to acquire properties met with success in the acquisition (through a 3rd party intermediary to facilitate a 1031 tax deferred exchange) of a 46 acre parcel in Baltimore with one completed warehouse and several partially developed lots.

Going forward our focus remains as last year: 1) bring our existing occupancy rate back to our historical rates of 90% plus; 2) vigilantly watch the market for select opportunities to acquire income-producing commercial properties at reasonable cap rates; 3) cease any speculative vertical construction; and 4) actively seek opportunities to market finished building lots to appropriately selected buyers. We will channel our management performance incentives to achieve these goals with a focus on returns on our investments.

MINING PROPERTIES SEGMENT:

While we experienced declining tons mined in this segment for 2010, we are guardedly optimistic that the demand for construction aggregates is near bottom. Overall, average aggregate prices have improved at an annual rate of 11% over the past five years, leaving us optimistic that as demand for construction materials returns in the market, our revenues in this segment have the potential to gain substantially in excess of the growth rates in tons mined.

CONCLUSION:

Finally, as we look at our balance sheet, we are proud to say that even in these tough times we have grown both cash and shareholder equity. We continue to amortize our non-recourse debt as originally scheduled and maintain the availability of the lion's share of our thirty-seven million dollar revolver. (We are only using it today to underwrite \$12.8 million dollars of letters of credit primarily used to underpin our insurance retained risks and development commitments)! As always, our financial philosophy is conservative as we search for forthcoming opportunities in a recovering economy.

We cannot close this letter without again extending heartfelt thanks to the many women and men that devote their working lives to the improving performance of our businesses. Without them our accomplishments would not exist and our opportunities for improvement would disappear. Our special thanks to all of them for a good and respectable (if not great) year and our continuing devoted thanks to you, our loyal shareholders and customers, for the privilege to serve you and challenge our own abilities to achieve even greater success for all of us!

Respectively yours,

John D. Baker II
Executive Chairman

Thompson S. Baker II
President & Chief Executive Officer

OPERATING PROPERTIES

Transportation. During fiscal 2010, the Company's transportation group operated through a wholly owned subsidiary, Florida Rock & Tank Lines, Inc. Tank Lines). Tank Lines is engaged in hauling petroleum and other liquid and dry bulk commodities in tank trucks.

Tank Lines operates from terminals in Jacksonville, Orlando, Panama City, Pensacola, Port Everglades, Tampa and White Springs, Florida; Albany, Atlanta, Augusta, Bainbridge, Columbus, Macon and Savannah, Georgia; Chattanooga and Knoxville, Tennessee; Montgomery, Alabama; and Wilmington, North Carolina.

At September 30, 2010 the transportation group owned and operated a fleet of 388 trucks and 502 trailers plus 9 additional trucks that were being prepared for sale. In August 2009 the Company sold its flatbed trucking company, SunBelt Transport, Inc. (SunBelt). Under the agreement, the Buyer purchased all of SunBelt's tractors and trailers and leased certain facilities. During fiscal 2010, the transportation group purchased 55 new tractors and 3 trailers. In fiscal 2008 and 2009, the Company purchased 102 new tractors. The fiscal 2011 capital budget includes 45 new tractors and 24 new trailers including binding commitments to purchase 25 tractors at September 30, 2010. Maintaining a modern fleet has resulted in reduced maintenance expenses, improved operating efficiencies and enhanced driver recruitment and retention.

Real Estate. The real estate group operates the Company's real estate and property development activities. The Company owns real estate in Florida, Georgia, Virginia, Maryland, Delaware and Washington, D.C. The real estate owned generally falls into one of three categories: (i) land and/or buildings leased under rental agreements or being developed for rental; (ii) land with construction aggregates deposits, a substantial portion of which is leased to Vulcan Materials Company under long-term mining royalty agreements, whereby the Company is paid a percentage of the revenues generated or annual minimums; and (iii) land held for future appreciation or development.

At September 30, 2010, the Company owned 267 acres in 12 developed parcels of land all but one of which are in the Mid-Atlantic region of the United States as follows:

1) Hillside Business Park in Anne Arundel County, Maryland consists of 49 usable acres. A total of 571,138 square feet exist on the property and it is 86% occupied. Construction of the final building with 66,398 square feet of office space was completed September 30, 2008 and is currently unoccupied. An agreement to lease 20,000 square feet is scheduled to commence on or about January 1, 2011 and will increase the occupancy to 89%.

2) Lakeside Business Park in Harford County, Maryland consists of 84 usable acres. Nine warehouse/office buildings, totaling 893,722 square feet, were in place at the beginning of 2010 and are 82% occupied. Construction of the ninth building with 148,425 warehouse/office space was completed in April 2009 and was unoccupied until 60,578 square feet were occupied on November 10, 2010. The remaining 14 acres are available for future development and have the potential to offer an additional 210,230 square feet of comparable product.

3) 6920 Tudsbury Road in Baltimore County, Maryland contains 5.3 acres with 86,100 square feet of warehouse/office space that was 100% leased to a single tenant whose lease expired March 31, 2010. The tenant did not renew and the building was vacant until November 1, 2010 when it was occupied by a single tenant.

- 4) 8620 Dorsey Run Road in Howard County, Maryland contains 5.8 acres with 85,100 square feet of warehouse/office space that is 100% leased.
- 5) Rossville Business Center in Baltimore County, Maryland contains approximately 10 acres with 190,517 square feet of warehouse/office space and is 75% leased.
- 6) 34 Loveton Circle in suburban Baltimore County, Maryland contains 8.5 acres with 30,006 square feet of office space, which is 40% leased including 23% of the space occupied by the Company.
- 7) Oregon Business Center in Anne Arundel County, Maryland contains approximately 17 acres with 195,615 square feet of warehouse/office space, which is 75% leased.
- 8) Arundel Business Center in Howard County, Maryland contains approximately 11 acres with 162,796 square feet of warehouse/office space, which is 83% leased.
- 9) 100-400 Interchange Boulevard in New Castle County, Delaware contains approximately 17 acres with 303,006 square feet of warehouse/office space, which is 17% leased. Chrysler and General Motors plant closings have reduced demand for space in this market. The remaining 8.8 acres are available for future development and have the potential to offer an additional 93,600 square feet of comparable product.
- 10) 1187 Azalea Garden Road in Norfolk, Virginia contains approximately 12 acres with 188,093 square feet of warehouse/office space, which is 100% leased.
- 11) Windlass Run Business Park in Baltimore County, Maryland contains 69,474 square feet of warehouse/office space completed September 30, 2008. The building is as yet unoccupied. This building is contained within a larger parcel containing approximately 42 acres when complete is estimated to include 519,824 square feet of total build-out.
- 12) 155 E. 21st Street in Duval County, Florida contains approximately 6 acres with 68,757 square feet of office space which is 100% leased to Vulcan.

Future Planned Developments. At September 30, 2010 the Company owned the following future development parcels:

- 1) Windlass Run Residential (previously Bird River), located in southeastern Baltimore County, Maryland, is a 121 acre tract of land adjacent to and west of our Windlass Run Business Park. The property was rezoned in September 2007 to allow for additional density and plans are being pursued to obtain an appropriate product mix. In July 2008, the Company entered into an agreement to sell the property. The purchase price for the property is \$25,075,000, subject to certain potential purchase price adjustments. The agreement of sale is subject to certain contingencies including government approvals and the closing may be one or more years away. The purchaser has placed non-refundable deposits of \$1,000,000 under this contract in escrow. Preliminary approval for the development as originally contemplated under the agreement's pricing contingencies has now been received and the time for any appeals from that approval has expired.
- 2) Patriot Business Park, located in Prince William County, Virginia, is a 73 acre tract of land which is immediately adjacent to the Prince William Parkway providing access to I-66. The Company plans to develop and lease approximately

733,650 square feet of warehouse/office buildings on the property. Land development efforts commenced in the summer of 2008 but were placed on hold in April 2009.

3) Brooksville Quarry LLC. On October 4, 2006, a subsidiary of the Company (FRP) entered into a Joint Venture Agreement with Vulcan Materials Company (formerly Florida Rock Industries, Inc.) to form Brooksville Quarry, LLC, a real estate joint venture to develop approximately 4,300 acres of land near Brooksville, Florida. The property does not yet have the necessary entitlements for real estate development. Approval to develop real property in Florida entails an extensive entitlements process involving multiple and overlapping regulatory jurisdictions and the outcome is inherently uncertain. In August 2010, the Company received final development approvals from the Hernando County Board of County Commissioners for the proposed project. In September 2010, Hernando County transmitted, as required by state law, the entire approval package to the State Department of Community Affairs (DCA) for a determination of whether the approval package is in compliance with state and local laws. In October 2010, the DCA issued a finding of "not in compliance" with a list of suggested remedial actions which could be taken to bring the approval package into compliance. The Company is currently in the process of negotiating the list of suggested remedial actions with the Department and the County and expects to complete this process within the next nine months.

4) Anacostia River. The Company owns a 5.8 acre parcel of undeveloped real estate in Washington D.C. that fronts the Anacostia River and is adjacent to the Washington Nationals Baseball Park. The Company also owns a nearby 2.1 acre tract on the same bank of the Anacostia River. Currently, the 5.8 acre tract is leased to a subsidiary of Vulcan Materials Company on a month-to-month basis. The approved planned unit development permits the Company to develop a four building, mixed use project, containing approximately 545,800 square feet of office and retail space and approximately 569,600 square feet of additional space for residential and hotel uses. The approved development would include numerous publicly accessible open spaces and a waterfront esplanade along the Anacostia River. In November 2009, the Company received a two-year extension for commencement of this project, moving the construction commencement date to June 2013. The Company sought this extension because of negative current market indications.

5) Commonwealth Avenue in Jacksonville, Florida is a 50 acre site near the western beltway of Interstate-295 capable of supporting approximately 500,000 square feet of warehouse/office build-out.

6) Leister property in Hampstead, Carroll County, Maryland is a 117 acre parcel located adjacent to State Route 30 bypass. The parcel was acquired for future commercial development and is projected to contain 900,000 square feet of space when complete. This parcel is currently in a predevelopment planning stage.

7) Ft. Myers residential property in Lee County, Florida is part of a 1,993 acre site under a long-term mining lease to Vulcan. In June, 2010 the Company entered into a letter agreement with Vulcan Materials Company that required modifications to the existing mining lease on our property, such that the mining will be accelerated and the mining plan will be revised to accommodate future construction of up to 105 residential dwelling units around the mined lakes. In return the Company agreed to grant Lee County a right of way for a road and to place a conservation easement on part of the property.

stock for a year may not equal the total for the year due to rounding differences.

(b) All prices represent high and low daily closing prices as reported by The Nasdaq Stock Market.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Executive Overview

Patriot Transportation Holding, Inc. (the Company) is a holding company engaged in the transportation and real estate businesses.

The Company's transportation business, Florida Rock & Tank Lines, Inc. is engaged in hauling primarily petroleum and other liquids and dry bulk commodities in tank trailers.

The Company's real estate business is operated through two subsidiaries: Florida Rock Properties, Inc. and FRP Development Corp. The Company owns real estate in Florida, Georgia, Virginia, Maryland, Delaware and Washington, D.C. The real estate owned generally falls into one of three categories: (i) land and/or buildings leased under rental agreements or being developed for rental; (ii) land with construction aggregates deposits, a substantial portion of which is leased to Vulcan Materials Company (Vulcan) under mining royalty agreements; and (iii) land held for future appreciation or development.

The Company may have been considered a related party to Vulcan Materials Company (Vulcan). One director of the Company was employed by Vulcan until September 17, 2010 and is related to two other Company directors. Those three directors own under 5% of the stock of Vulcan and 23.6% of the stock of the Company. The Company derived 5.7% of its consolidated revenue from Vulcan in fiscal 2010.

Net income was \$7,371,000 or \$2.35 per diluted share in fiscal 2010, an increase of 96.4% compared to \$3,753,000 or \$1.20 per diluted share in fiscal 2009. Net income for 2010 included earnings on discontinued operations of \$315,000 and net income for 2009 included a loss on discontinued operations of \$4,155,000, net of tax benefit, related to the operations and sale of the Company's flatbed trucking company, Sunbelt Transport, Inc.

Transportation. The Company generates transportation revenue by providing over the road hauling services for customers primarily in the petroleum products industry (Tank Lines). The majority of our petroleum products customers are major oil companies and convenience store chains, who sell gasoline or diesel fuel directly to the retail market.

Our customers generally pay for services based on miles driven. We also bill for other services that may include stop-offs and pump-offs. Additionally, we generally bill customers a fuel surcharge that relates to the fluctuations in diesel fuel costs.

Miles hauled and rates per mile are the primary factors impacting transportation revenue. Changes in miles or rates will affect revenue. Operating results are impacted by our ability to recover fuel surcharges from customers. In light of the volatility of fuel prices, it may be difficult for us to recover fuel surcharges from customers at levels that will allow us to maintain current levels of profitability. Tank Lines primarily engages in short-haul out-and-back deliveries and generally is paid for round trip miles (approximately 100 miles).

Operating safely, efficient equipment utilization, appropriate freight rates, and driver retention are the most critical factors in maintaining profitable operations. Statistics related to these factors are monitored weekly and monthly. Operating expenses are generally split evenly between variable (driver pay, fuel, and maintenance) and fixed costs (overhead, insurance and depreciation). As a result, increases in revenue will generally improve our operating profit ratio.

Real Estate. The Company owns real estate in Florida, Georgia, Virginia, Maryland, Delaware, and Washington, D.C. The real estate owned generally falls into one of three categories: (i) land and/or buildings leased under rental agreements or being developed for rental; (ii) land with construction aggregates deposits; and (iii) land held for future appreciation or development.

Revenue from land and/or buildings is generated primarily from leasing our portfolio of flex office/warehouse buildings. Our flex office/warehouse product is a functional warehouse with the ability to configure portions as office space as required by our tenants. We lease space to tenants who generally sign multiple year agreements. Growth is achieved by increasing occupancy and lease rates in existing buildings and by developing or acquiring new warehouses. We attempt to develop or purchase properties in areas that have high growth potential and are accessible to major interstates or other distribution lanes.

Operating profit from the leasing of developed buildings has been unfavorably impacted by three newer buildings brought into service in fiscal 2009 which remained vacant during fiscal 2010, two nearly vacant buildings in Delaware impacted by automobile plant closings along with other space vacated upon lease expiration. Occupancy decreased from 75.1% to 72.0% during the year primarily due to space vacated at lease expiration. However, the market for new tenants appears to have bottomed and traffic for vacant space has increased. Two tenants took occupancy in November 2010 comprising 5.1% of total square footage. The Company is not presently engaged in the construction of any new buildings.

The following table shows the total developed square footage and occupancy rates of our flex office/warehouse and office parks at September 30, 2010:

<u>Development</u>	<u>Location</u>	<u>Total Sq. feet</u>	<u>% Occupied</u>
Hillside	Anne Arundel Co., MD	571,138	85.7%
Lakeside	Harford Co., MD	893,722	81.6%
Tudsbury	Baltimore Co., MD	86,100	0.0%
Dorsey Run	Howard Co., MD	85,100	100.0%
Rossville	Baltimore Co., MD	190,517	74.5%
Loveton	Baltimore Co., MD	30,006	40.0%
Oregon	Anne Arundel Co., MD	195,615	75.0%
Arundel	Howard Co., MD	162,796	82.5%
Interchange	New Castle Co., DE	303,006	16.9%
Azelea Garden	Norfolk, VA	188,093	100.0%
Windlass Run	Baltimore Co., MD	69,474	0.0%
21st Street	Duval Co., FL	68,757	100.0%
		<u>2,844,324</u>	<u>72.0%</u>

Average occupancy in fiscal 2010 was 73.8% compared to 84.1% in fiscal 2009 and 95.5% in fiscal 2008. Excluding buildings in service less than 12 months average occupancy in fiscal 2010 was 75.8% compared to 91.0% in fiscal 2009 and 96.5% in fiscal 2008.

In addition to the completed buildings land is available at these parks to

construct additional buildings at Lakeside Business Park (210,230 square feet), Windlass Run (450,300 square feet), and Interchange (93,600 square feet).

As of September 30, 2010, leases at our properties representing approximately 9%, 8%, 13%, 5% and 12% of the total square footage of buildings completed prior to September 2010 were scheduled to expire in fiscal year 2011, 2012, 2013, 2014 and 2015, respectively. There is currently vacant space in the portfolio. Leasing or renewing these spaces will be critical to future financial results.

We also own a portfolio of mineable land, a substantial portion of which is leased to Vulcan under long-term mining royalty agreements, whereby we are paid a percentage of the revenues generated from mined product sold or annual minimum rents. The mines primarily consist of construction aggregates, such as stone and sand, and calcium deposits.

Properties held for future development include:

Windlass Run Residential (previously Bird River), located in southeastern Baltimore County, Maryland, is a 121 acre tract of land adjacent to and west of our Windlass Run Business Park. The property was rezoned in September 2007 to allow for additional density and plans are being pursued to obtain an appropriate product mix. In July 2008, the Company entered into an agreement to sell the property. The purchase price for the property is \$25,075,000, subject to certain potential purchase price adjustments. The agreement of sale is subject to certain contingencies including government approvals and the closing may be one and one half or more years away. The purchaser has placed non-refundable deposits of \$1,000,000 under this contract in escrow. Preliminary approval for the development as originally contemplated under the agreement's pricing contingencies has now been received and the time for any appeals from that approval has expired.

Patriot Business Park, located in Prince William County, Virginia, is a 73-acre tract of land, which is immediately adjacent to the Prince William Parkway providing access to I-66. The Company plans to develop and lease approximately 733,650 square feet of warehouse/office buildings on the property. Land development efforts commenced in the spring of 2008 but were placed on hold in April 2009.

Brooksville Quarry LLC. On October 4, 2006, a subsidiary of the Company (FRP) entered into a Joint Venture Agreement with Vulcan Materials Company (formerly Florida Rock Industries, Inc.) to form Brooksville Quarry, LLC, a real estate joint venture to develop approximately 4,300 acres of land near Brooksville, Florida. Under the terms of the joint venture, FRP contributed its fee interest in approximately 3,443 acres formerly leased to Vulcan under a long-term mining lease which had a net book value of \$2,548,000. Vulcan is entitled to mine the property until 2018 and pay royalties for the benefit of FRP for as long as mining does not interfere with the development of the property. Real estate revenues included \$231,000 of such royalties in fiscal 2010 and \$158,000 in fiscal 2009. Allocated depletion expense of \$7,000 was included in real estate cost of operations for fiscal 2010. FRP also contributed \$3,018,000 for one-half of the acquisition costs of a 288-acre contiguous parcel. Vulcan also contributed 553 acres that it owned as well as its leasehold interest in the 3,443 acres that it leased from FRP. The joint venture is jointly controlled by Vulcan and FRP, and they each had a mandatory obligation to fund additional capital contributions of up to \$2.15 million. Capital contributions of \$1,995,000 have been made by each party as of September 30, 2010. Distributions will be made on a 50-50 basis except for royalties and depletion specifically allocated to FRP. Other income for fiscal 2010 includes a loss of \$2,000 representing the Company's equity in the loss of the joint venture. The property does not yet have the necessary entitlements for real estate development.

Approval to develop real property in Florida entails an extensive entitlements process involving multiple and overlapping regulatory jurisdictions and the outcome is inherently uncertain. In August 2010, the Company received final development approvals from the Hernando County Board of County Commissioners for the proposed project. In September 2010, Hernando County transmitted, as required by state law, the entire approval package to the State Department of Community Affairs (DCA) for a determination of whether the approval package is in compliance with state and local laws. In October 2010, the DCA issued a finding of "not in compliance" with a list of suggested remedial actions which could be taken to bring the approval package into compliance. The Company is currently in the process of negotiating the list of suggested remedial actions with the Department and the County and expects to complete this process within the next nine months.

The Company owns a 5.8 acre parcel of undeveloped real estate in Washington D.C. that fronts the Anacostia River and is adjacent to the Washington Nationals Baseball Park. The Company also owns a nearby 2.1 acre tract on the same bank of the Anacostia River. Currently, the 5.8 acre tract is leased to Vulcan Materials Company on a month-to-month basis. In May 2008, the Company received final approval from the Zoning Commission of the District of Columbia of its planned unit development application for the Company's 5.8 acre undeveloped waterfront site on the Anacostia River in Washington, D.C. The approved planned unit development permits the Company to develop a four building, mixed use project, containing approximately 545,800 square feet of office and retail space and approximately 569,600 square feet of additional space for residential and hotel uses. The approved development would include numerous publicly accessible open spaces and a waterfront esplanade along the Anacostia River. In November 2009, the Company received a two-year extension for commencement of this project, moving the construction commencement date to June 2013. The Company sought this extension because of negative current market indications.

Commonwealth Avenue is a 50-acre site in Jacksonville, Florida near the western beltway of Interstate-295 capable of supporting approximately 500,000 square feet of warehouse/office build-out.

Leister property in Hampstead, Carroll County, Maryland is a 117 acre parcel located adjacent to State Route 30 bypass. The parcel was acquired for future commercial development and is projected to contain 900,000 square feet of space when complete. This parcel is currently in a predevelopment planning stage.

Ft. Myers residential property in Lee County, Florida is part of a 1,993 acre site under a long-term mining lease to Vulcan. In June, 2010 the Company entered into a letter agreement with Vulcan Materials Company that required modifications to the existing mining lease on our property, such that the mining will be accelerated and the mining plan will be revised to accommodate future construction of up to 105 residential dwelling units around the mined lakes. In return the Company agreed to grant Lee County a right of way for a road and to place a conservation easement on part of the property.

In February 2010, a subsidiary of the Company, Florida Rock Properties, Inc., entered into an agreement to sell approximately 1,844 acres of land in Caroline County, Virginia, to the Commonwealth of Virginia, Board of Game and Inland Fisheries. The purchase price for the property is \$5,200,000, subject to certain deductions. The Company is also donating the value of minerals and aggregates. The Company's book value of the property is \$276,000. If the sale closes before January 19, 2011 the Company intends to use the proceeds in a 1031 exchange to purchase Hollander 95 Business Park in a foreclosure sale auction through a qualified intermediary. Hollander 95 Business Park, in Baltimore City, Maryland, closed on October 22, 2010 by a 1031 intermediary for a purchase price totaling \$5,750,000. This property consists of an existing 82,800 square foot warehouse

building (52.9% occupied) with an additional 42 acres of partially developed land with a development capacity of 470,000 square feet (a mix of warehouse, office, hotel and flex buildings).

Revenues 2010 vs 2009 - The Company announced on January 6, 2010 that the transportation group had been unsuccessful in renewing contracts with customers that represented approximately 11.0% of transportation group revenue in fiscal 2009. The Company successfully replaced the majority of the lost business with new business obtained in the remainder of fiscal 2010. Nevertheless, revenue miles in the current year were down 3.1% compared to fiscal 2009 due to the time involved in replacing the lost business along with lower demand and a more competitive economic climate. Approximately 3.3% of miles during fiscal 2010 were from services related to the contracts that were not renewed. Transportation revenues were \$89,637,000 in 2010, a decrease of \$1,783,000 or 2.0% over 2009. Fuel surcharge revenue increased \$2,309,000. Excluding fuel surcharges, revenue per mile decreased 2.1% over 2009 due to lower revenue per mile on certain replacement business partially offset by a shorter average haul length in the first six months of fiscal 2010. The average price paid per gallon of diesel fuel increased by \$0.36 or 15.8% over 2009.

Revenues 2009 vs 2008 - Transportation revenues were \$91,420,000 for 2009, a decrease of \$13,667,000 or 13.0% over 2008. Revenue miles were down 7.0% principally due to lower demand for products hauled resulting from the economic environment. Excluding fuel surcharges, revenue per mile increased 4.3%. The average price paid per gallon of diesel fuel decreased by \$1.43 or 39% over 2008 and fuel surcharge revenue decreased \$11,312,000.

Expenses 2010 vs 2009 - The Transportation segment's cost of operations was \$81,401,000 in 2010, a decrease of \$168,000 over 2009. The Transportation segment's cost of operations in 2010 as a percentage of revenue was 91% versus 89% in 2009. Compensation and benefits decreased \$1,932,000 or 5.4% in 2010 due to the decrease in miles driven, change in the mix of business and lower driver turnover related pay. Fuel surcharge revenue increased \$2,309,000 while fuel cost increased by \$2,051,000. Insurance and losses decreased \$280,000 compared to last year due to a \$314,000 decrease in group health expense. Depreciation expense decreased \$507,000 due to fewer trucks in service and existing trailers

becoming fully depreciated. Other expense increased \$952,000 primarily due to lower gains on equipment sales partially due to reduced market values of used equipment. Selling general and administrative costs decreased \$315,000 or 4.1% compared to last year due to lower staffing. Allocated corporate expenses decreased \$137,000 due to reduced allocation to the Transportation segment as a result of the sale of SunBelt.

Expenses 2009 vs 2008 - Transportation's segment's cost of operations was \$81,569,000 in 2009, a decrease of \$15,155,000 over 2008. The Transportation segment's cost of operations in 2009 as a percentage of revenue was 89% versus 92% in 2008. Compensation and benefits decreased \$2,290,000 or 6.0% in 2009 due to the decrease in miles driven. Fuel surcharge revenue decreased \$11,312,000 while fuel costs decreased by \$10,249,000 leaving a negative impact on operating profit of \$1,063,000 due to less favorable recovery of fuel costs when the fuel price is lower. Insurance and losses decreased \$1,841,000 due to the reduction in miles driven and reduced vehicle accident costs partially offset by higher health insurance claims. Depreciation expense increased \$662,000. Other expense decreased \$1,302,000 due to the higher gains on equipment sales, the decrease in miles driven, and other cost management. Selling general and administrative costs decreased \$87,000 compared to 2008. Allocated corporate expenses decreased \$48,000 due to reduced allocation to the Transportation segment as a result of the sale of SunBelt.

Mining Royalty Land

(dollars in thousands)	Fiscal Years ended September 30					
	<u>2010</u>	<u>%</u>	<u>2009</u>	<u>%</u>	<u>2008</u>	<u>%</u>
Mining royalty land revenue \$	4,510	100%	5,067	100%	5,585	100%
Property operating expenses	537	12%	713	14%	661	12%
Depreciation and depletion	103	2%	134	2%	193	3%
Management company indirect	174	4%	192	4%	190	3%
Allocated corporate expense	<u>588</u>	<u>13%</u>	<u>551</u>	<u>11%</u>	<u>480</u>	<u>9%</u>
Cost of operations	<u>1,402</u>	<u>31%</u>	<u>1,590</u>	<u>31%</u>	<u>1,524</u>	<u>27%</u>
Operating profit	<u>\$ 3,108</u>	<u>69%</u>	<u>3,477</u>	<u>69%</u>	<u>4,061</u>	<u>73%</u>

Revenues 2010 vs 2009 - Mining royalty land segment revenues for fiscal 2010 were \$4,510,000, a decrease of \$557,000 or 11.0% compared to \$5,067,000 in 2009 due to a \$594,000 decrease in revenues from timber sales.

Revenues 2009 vs 2008 - Mining royalty land segment revenues decreased \$518,000 or 9.3% in 2009 to \$5,067,000 due to reduced demand for mined tons.

Expenses 2010 vs 2009 - The mining royalty land segment's cost of operations decreased \$188,000 to \$1,402,000 in 2010, compared to \$1,590,000 in 2009. Property operating expenses decreased \$176,000 due to lower maintenance and other costs. Depreciation and depletion expenses decreased \$31,000 due to reduced tons mined. Management Company indirect expenses (excluding internal allocations for lease related property management fees) decreased \$18,000 due to reduced salaries from the staffing level adjustments completed during fiscal 2009. Allocated corporate expenses increased \$37,000.

Expenses 2009 vs 2008 - The mining royalty land segment's cost of operations increased \$66,000 to \$1,590,000 in 2009, compared to \$1,524,000 in 2008. Property operating expenses increased \$52,000. Depreciation and depletion decreased \$59,000 due to reduced tons mined. Management Company indirect expenses increased \$2,000. Allocated corporate expenses increased \$71,000.

Developed Property Rentals

(dollars in thousands)	Fiscal Years ended September 30					
	2010	%	2009	%	2008	%
Developed property rentals revenue	\$ 17,191	100%	18,066	100%	18,499	100%
Property operating expenses	5,436	32%	5,072	28%	5,048	27%
Depreciation and depletion	5,061	29%	5,081	28%	4,688	26%
Management company indirect	1,568	9%	1,731	10%	1,707	9%
Allocated corporate expense	883	5%	826	4%	720	4%
Cost of operations	12,948	75%	12,710	70%	12,163	66%
Operating profit	\$ 4,243	25%	5,356	30%	6,336	34%

Revenues 2010 vs 2009 - Developed property rentals segment revenues decreased \$875,000 or 4.8% in 2010 to \$17,191,000 due to reduced occupancy partly offset by a \$376,000 increase in tenant reimbursements for snow removal.

Revenues 2009 vs 2008 - Developed property rentals segment revenues decreased \$433,000 or 2.3% in 2009 to \$18,066,000.

Expenses 2010 vs 2009 - Developed property segment's cost of operations increased to \$12,948,000 in 2010, compared to \$12,710,000 in 2009. Property operating expenses increased \$364,000 due to higher property taxes and increased snow removal expenses. Depreciation and amortization decreased \$20,000 due to lower commission amortization. Management Company indirect expenses (excluding internal allocations for lease related property management fees) decreased \$163,000 due to reduced salaries from the staffing level adjustments completed during fiscal 2009. Allocated corporate expenses increased \$57,000 due to increase allocation to the real estate segment resulting from the sale of SunBelt.

Expenses 2009 vs 2008 - Developed property segment's cost of operations increased to \$12,710,000 in 2009, compared to \$12,163,000 in 2008. Property operating expenses increased \$24,000 due to higher property taxes. Depreciation and amortization increased \$393,000 as a result of new building placed in service. Management Company indirect expenses increased \$24,000 as a result of new buildings placed into service and severance costs. Allocated corporate expenses increased \$106,000.

Consolidated Results

Operating Profit - Consolidated operating profit was \$14,503,000 in fiscal 2010 compared to \$16,128,000, a decrease of 10.1%. Operating profit in the transportation segment decreased \$1,615,000 or 16.4% due to reduced miles driven and lower gains on sales of equipment partially offset by lower insurance and losses. Operating profit in the mining royalty land segment decreased \$369,000 or 10.6% due to lower timber sales partially offset by reduced expenses. Operating profit in the Developed property rentals segment decreased \$1,113,000 or 20.8% due to reduced occupancy of developed properties. Consolidated operating profit includes corporate expenses not allocated to any segment in the amount of \$1,084,000 in fiscal 2010, a decrease of \$1,472,000 compared to the same period last year. These unallocated corporate expenses primarily include stock compensation and corporate aircraft expenses both of which decreased during 2010 versus 2009. Consolidated operating profit was \$16,128,000 in 2009 compared to \$14,338,000 in 2008 an increase of 12.5%.

Gain from condemnation of land - Gain from condemnation of land was \$3,111,000 in fiscal 2008 resulting from the taking by the Virginia Department of Transportation ("VDOT") of 28 acres on December 13, 2007. The Prince William County Property was purchased in December 2005 and the cost of the 28 acres taken by VDOT was \$3,282,000.

Interest income and other - Interest income and other in fiscal 2010 increased \$356,000 due to the note receivable from the sale of SunBelt Transport, Inc. in August 2009. Fiscal 2009 was \$793,000 lower than 2008 due to lower cash balances, reduced interest rates, and a land sale of \$171,000 in fiscal 2008.

Interest expense - Interest expense for fiscal 2010 increased \$446,000 over 2009 due to lower capitalized interest due to less projects under construction. Interest expense for 2009 decreased \$1,069,000 from the prior year due to higher capitalized interest costs.

Income taxes - Income tax expense for 2010 decreased \$859,000 over 2009 due to decreased earnings, a tax credit of \$116,000 funded by legislative action related to fiscal 2008 expenditures, lower non-deductible expenses and lower than estimated state income taxes. Income tax expense for 2009 decreased \$437,000 from the prior year due to the lower earnings.

Income from continuing operations - Income from continuing operations was \$7,056,000 or \$2.25 per diluted share in 2010, a decrease of 10.8% compared to \$7,908,000 or \$2.53 per diluted share in 2009. Income from continuing operations was \$7,908,000 or \$2.53 per diluted share in fiscal 2009, a decrease of 6.8% compared to \$8,493,000 or \$2.72 per diluted share in fiscal 2008.

Discontinued operations - The after tax income from discontinued operations was \$315,000 or \$.10 per diluted share in fiscal 2010 as a result of favorable insurance reserve adjustments compared to a loss of \$4,155,000 or \$1.33 per diluted share in fiscal 2009. Fiscal 2009 includes a loss on the sale of \$2,316,000 after tax or \$.74 per diluted share. Fiscal 2008 loss from discontinued operations was \$525,000 or \$.17 per diluted share.

Net income - Net income was \$7,371,000 or \$2.35 per diluted share in fiscal 2010, an increase of 96.4% compared to \$3,753,000 or \$1.20 per diluted share in fiscal 2009. Income from discontinued operations favorably impacted net income due to lower than expected retained liabilities and losses in the prior year from operations. Transportation segment results were lower due to reduced miles driven and lower gains on sales of equipment partially offset by lower insurance and losses. Mining royalty land segment's results were lower due to reduced mining royalties and lower timber sales. Developed property rentals segment's results were lower due to lower developed property occupancy. Net income for 2008 benefited from a gain on condemnation of land of \$1,916,000, net of income taxes but was adversely impacted by the retirement benefits expense of \$1,541,000, net of income tax benefits, for the Company's previous President and CEO, whose retirement was effective February 6, 2008. Diluted earnings per share increased to \$2.35 in fiscal 2010 from \$1.20 in 2009, and were \$2.55 in 2008.

LIQUIDITY AND CAPITAL RESOURCES

For fiscal 2010, the Company used cash provided by operating activities of continuing operations of \$14,390,000, proceeds received on notes of \$1,185,000, proceeds from the sale of plant, property and equipment of \$833,000, proceeds from the exercise of employee stock options of \$732,000, and excess tax benefits

from the exercise of stock options of \$740,000 to purchase \$6,568,000 in transportation equipment, to expend \$4,135,000 in real estate development, to invest \$495,000 in the Brooksville Joint Venture and to make \$4,293,000 scheduled principal payments on long-term debt. Cash used in operating activities of discontinued operations was \$1,041,000. Cash increased \$1,348,000.

Cash flows from operating activities for fiscal 2010 were \$11,624,000 lower than the same period last year primarily due to lower revenues, payment of retained SunBelt liabilities, higher income tax payments related to the sale of SunBelt, overpayment of income taxes, and deposit on real estate. Also, the same period last year included an unusually large decrease in accounts receivable both in continuing operations and discontinued operations resulting from lower fuel surcharge revenues.

Cash flows used in investing activities for fiscal 2010 were \$4,200,000 lower than fiscal 2009 due to decreased real estate development.

Cash flows from financing activities for fiscal 2010 were \$747,000 lower than fiscal 2009 due to increased stock options exercised by employees offset by an increase of \$274,000 in mortgage principal payments.

For fiscal 2009, the Company used cash provided by operating activities of continuing operations of \$24,341,000, proceeds from the sale of plant, property and equipment of \$1,181,000, proceeds from the exercise of employee stock options of \$371,000, excess tax benefits from the exercise of stock options of \$80,000 and cash balances to purchase \$3,298,000 in transportation equipment, to expend \$10,826,000 in real estate development, to invest \$475,000 in the Brooksville Joint Venture and to make \$4,019,000 scheduled principal payments on long-term debt. Cash provided by operating activities of discontinued operations was \$632,000, proceeds from the sale of plant, property and equipment of discontinued operations was \$1,055,000 and transportation equipment of discontinued operations was purchased for \$1,017,000. Cash increased \$8,025,000. Cash flows from operating activities for fiscal 2009 were \$2,674,000 higher than the same period last year primarily reflecting prepayment of fiscal 2009 insurance premiums in September 2008 along with a reduction in accounts receivable due to lower revenues and lower days sales outstanding. Cash flows used in investing activities for fiscal 2009 were \$21,832,000 lower than fiscal 2008 due to decreased purchases of equipment and land. Fiscal 2008 included \$3,395,000 for the purchase of a corporate aircraft and \$4,333,000 for the purchase of 118 acres in Carroll County, Maryland for future warehouse/office development. Cash flows from financing activities for fiscal 2009 were \$2,685,000 lower than fiscal 2008 due to an increase of \$257,000 in mortgage principal payments, reduced stock options exercised by employees and the prior year including \$4,388,000 for the repurchase of Company stock.

In August 2009 the Company sold its flatbed trucking company, SunBelt Transport, Inc. ("SunBelt"). The purchase price received for the tractors and trailers and inventories was a \$1 million cash payment and the delivery of a Promissory Note requiring 60 monthly payments of \$130,000 each including 7% interest, secured by the assets of the business conveyed. The Company retained all pre-closing receivables and liabilities. SunBelt has been accounted for as discontinued operations. All periods presented have been restated accordingly.

The Company has a \$37,000,000 uncollateralized Revolving Credit Agreement which was renewed on October 1, 2008 to extend the term until December 31, 2013 and to amend the loan covenants. The Revolver contains limitations including limitations on paying cash dividends. As of September 30, 2010 letters of credit in the amount of \$14,204,000 were issued under the Revolver. As of September 30, 2010, \$22,796,000 of the line was available for borrowing and \$43,306,000 of consolidated retained earnings was available for the payment of dividends. The

Company was in compliance with all covenants as of September 30, 2010.

The Company had \$14,853,000 of irrevocable letters of credit outstanding at September 30, 2010. Most of the letters of credit are irrevocable for a period of one year and are automatically extended for additional one-year periods until notice of non-renewal is received by the issuing bank not less than thirty days before the expiration date. These were issued for insurance retentions and to guarantee certain obligations to state agencies related to real estate development. The Company issued replacement letters of credit through the Revolver to avoid increased fees.

The Board of Directors has authorized management to repurchase shares of the Company's common stock from time to time as opportunities may arise. No shares were repurchased during fiscal 2010 or 2009. At September 30, 2010 the Company had \$5,625,000 authorized for future repurchases of common stock.

The Company has committed to make an additional capital contribution of up to \$155,000 to Brooksville Quarry, LLC in connection with a joint venture with Vulcan (see Transactions with Related Parties).

The Virginia Department of Transportation took title to 28 acres of the Company's land on December 13, 2007 by filing a Certificate of Take and depositing with the Court \$5,860,000. The Company received these funds in April 2008. On October 15, 2008 the Company agreed to total compensation for the condemnation of \$6,414,000 resulting in an additional amount of \$554,000 received February 2009. A portion of these funds that were receivable were used to purchase replacement property in March 2008 and the Company used the balance of the funds to improve the replacement property under IRS involuntary conversion rules.

The Company currently expects its fiscal 2011 capital expenditures to be approximately \$26,467,000 (\$18,071,000 for real estate development expansion, \$8,396,000 for transportation segment expansion and replacement equipment). Depreciation and depletion expense is expected to be approximately \$11,116,000.

The Company expects that cash flows from operating activities, secured financing on existing and planned real estate projects, cash on hand and the funds available under its revolving credit agreement will be adequate to finance these capital expenditures and its working capital needs for the next 12 months and the foreseeable future.

OFF-BALANCE SHEET ARRANGEMENTS

Except for the letters of credit described above under "Liquidity and Capital Resources," the Company does not have any off balance sheet arrangements that either have, or are reasonably likely to have, a current or future material effect on its financial condition.

CRITICAL ACCOUNTING POLICIES

Management of the Company considers the following accounting policies critical to the reported operations of the Company:

Accounts Receivable and Unrealized Rents Valuation. The Company is subject to customer credit risk that could affect the collection of outstanding accounts receivable and unrealized rents, that is rents recorded on a straight-lined

basis. To mitigate these risks, the Company performs credit reviews on all new customers and periodic credit reviews on existing customers. A detailed analysis of late and slow pay customers is prepared monthly and reviewed by senior management. The overall collectibility of outstanding receivables and straight-lined rents is evaluated and allowances are recorded as appropriate. Significant changes in customer credit could require increased allowances and affect cash flows.

Property and Equipment and Intangible Assets. Property and equipment is recorded at cost less accumulated depreciation and depletion. Provision for depreciation of property, plant and equipment is computed using the straight-line method based on the following estimated useful lives:

	<u>Years</u>
Buildings and improvements	7-39
Revenue equipment	7-10
Other equipment	3-10

Depletion of sand and stone deposits is computed on the basis of units of production in relation to estimated reserves.

The Company periodically reviews property and equipment and intangible assets for potential impairment whenever events or circumstances indicate the carrying amount of a long-lived asset may not be recoverable. The review of real estate group assets consists of comparing cap rates on recent cash flows and market value estimates to the carrying values of each asset group. If this review indicates the carrying value might exceed fair value then an estimate of future cash flows for the remaining useful life of each property is prepared considering anticipated vacancy, lease rates, and any future capital expenditures. The Company's estimated holding period for developed buildings with current vacancies is long enough that the undiscounted cash flows exceed the carrying value of the properties and thus no impairment loss is recorded. The review of the transportation group assets consists of a review of future anticipated results considering business prospects and asset utilization. If the sum of these future cash flows (undiscounted and without interest charges) is less than the carrying amount of the assets, the Company would record an impairment loss based on the fair value of the assets with the fair value of the assets generally based upon an estimate of the discounted future cash flows expected with regards to the assets and their eventual disposition as the measure of fair value. The Company performs an annual impairment test on goodwill. Changes in estimates or assumptions could have an impact on the Company's financials.

All direct and indirect costs, including interest and real estate taxes, associated with the development, construction, leasing or expansion of real estate investments are capitalized as a development cost of the property. Included in indirect costs is an estimate of internal costs associated with development and rental of real estate investments. Changes in estimates or assumptions could have an impact on the Company's financials.

Risk Insurance. The nature of the Transportation business subjects the Company to risks arising from workers' compensation, automobile liability, and general liability claims. The Company retains the exposure on certain claims of \$250,000 to \$500,000 and has third party coverage for amounts exceeding the retention up to the amount of the policy limits. The Company expenses during the year an estimate of risk insurance losses. Periodically, an analysis is performed, using historical and projected data, to determine exposure for claims incurred and reported but not yet settled and for claims incurred but not reported. On at least an annual basis the Company obtains an independent actuarial analysis to assist in estimating the losses expected on such claims. The Company attempts to mitigate losses from insurance claims by maintaining

safe operations and providing mandatory safety training. Significant changes in assumptions or claims history could have a material impact on our operations. The liability at any point in time depends upon the relative ages and amounts of the individual open claims. There is a reasonable possibility that the Company's estimate of this liability for the transportation group or discontinued operations may be understated or overstated but the possible range can not be estimated.

Income Taxes. The Company accounts for income taxes under the asset-and-liability method. Deferred tax assets and liabilities represent items that will result in taxable income or a tax deduction in future years for which the related tax expense or benefit has already been recorded in our statement of earnings. Deferred tax accounts arise as a result of timing differences between when items are recognized in the Consolidated Financial Statements compared with when they are recognized in the tax returns. The Company assesses the likelihood that deferred tax assets will be recovered from future taxable income. To the extent recovery is not probable, a valuation allowance is established and included as an expense as part of our income tax provision. No valuation allowance was recorded at September 30, 2010, as all deferred tax assets are considered more likely than not to be realized. Significant judgment is required in determining and assessing the impact of complex tax laws and certain tax-related contingencies on the provision for income taxes. As part of the calculation of the provision for income taxes, we assess whether the benefits of our tax positions are at least more likely than not of being sustained upon audit based on the technical merits of the tax position. For tax positions that are more likely than not of being sustained upon audit, we accrue the largest amount of the benefit that is more likely than not of being sustained in our consolidated financial statements. Such accruals require estimates and judgments, whereby actual results could vary materially from these estimates. Further, a number of years may elapse before a particular matter, for which an established accrual was made, is audited and resolved.

CONTRACTUAL OBLIGATIONS

The following table summarizes our contractual obligations as of September 30, 2010:

	<u>Payments due by period</u>				
	<u>Total</u>	<u>Less than 1 year</u>	<u>1-3 years</u>	<u>3-5 years</u>	<u>More than 5 years</u>
Mortgages Including Interest	\$104,292	8,997	17,994	17,144	60,157
Operating Leases	1,028	376	499	153	-
Purchase Commitments	10,230	10,180	50	-	-
Other Long-Term Liabilities	<u>813</u>	<u>248</u>	<u>146</u>	<u>78</u>	<u>341</u>
Total obligations	<u>\$116,363</u>	<u>19,801</u>	<u>18,689</u>	<u>17,375</u>	<u>60,498</u>

As of September 30, 2010 the Company was committed to make an additional capital contribution of up to \$155,000 to Brooksville Quarry, LLC in connection with a joint venture with Vulcan (see Transactions with Related Parties) which is not included in the table above.

INFLATION

Historically, the Company has been able to recover inflationary cost increases in the transportation group through increased freight rates and fuel surcharges. It is expected that over time, justifiable and necessary rate increases will be obtained. Substantially all of the Company's royalty agreements are based on a percentage of the sales price of the related mined items. Minimum royalties and substantially all lease agreements provide escalation provisions.

FORWARD LOOKING STATEMENTS

Certain matters discussed in this report contain forward-looking statements that are subject to risks and uncertainties that could cause actual results to differ materially from those indicated by such forward-looking statements.

These forward-looking statements relate to, among other things, capital expenditures, liquidity, capital resources and competition and may be indicated by words or phrases such as "anticipate", "estimate", "plans", "projects", "continuing", "ongoing", "expects", "management believes", "the Company believes", "the Company intends" and similar words or phrases. The following factors and others discussed in the Company's periodic reports and filings with the Securities and Exchange Commission are among the principal factors that could cause actual results to differ materially from the forward-looking statements: freight demand for petroleum products including recessionary and terrorist impacts on travel in the Company's markets; levels of construction activity in the markets served by our mining properties; fuel costs and the Company's ability to recover fuel surcharges; accident severity and frequency; risk insurance markets; driver availability and cost; the impact of future regulations regarding the transportation industry; availability and terms of financing; competition; interest rates, inflation and general economic conditions; demand for flexible warehouse/office facilities in the Baltimore-Washington-Northern Virginia area; and ability to obtain zoning and entitlements necessary for property development. However, this list is not a complete statement of all potential risks or uncertainties.

These forward-looking statements are made as of the date hereof based on management's current expectations, and the Company does not undertake an obligation to update such statements, whether as a result of new information, future events or otherwise. Additional information regarding these and other risk factors may be found in the Company's Annual Report on Form 10-K and other filings made from time to time with the Securities and Exchange Commission.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Accounting Policies.

ORGANIZATION - Patriot Transportation Holding, Inc. (Company) is engaged in the transportation and real estate businesses. The Company's transportation business is conducted through its subsidiary, Florida Rock & Tank Lines, Inc. (Tank Lines). Tank Lines is a Southeastern transportation company concentrating in the hauling by motor carrier of primarily petroleum related bulk liquids and dry bulk commodities. The Company's real estate group, through subsidiaries, acquires, constructs, leases, operates and manages land and buildings to generate both current cash flows and long-term capital appreciation. The real estate group also owns real estate that is leased under mining royalty agreements or held for investment.

RECLASSIFICATIONS - In connection with the presentation adopted in March, 2010 of our real estate operations as two reportable segments, two properties in Washington, D.C. and two properties in Duval County, Florida were reclassified out of the Royalties and rent division and the division was renamed the Mining royalty land segment. Historical results have been reclassified to conform to the new segment presentation. Certain reclassifications due to discontinued operation (see note 16) have been made to 2008 and 2009 financials to conform to the presentation adopted in 2010.

CONSOLIDATION - The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. Investment in the 50% owned Brooksville joint venture is accounted for under the equity method. All significant intercompany transactions have been eliminated in consolidation.

CASH AND CASH EQUIVALENTS - The Company considers all highly liquid debt instruments with maturities of three months or less at time of purchase to be cash equivalents.

INVENTORY - Inventory of parts and supplies is valued at the lower of cost (first-in, first-out) or market.

TIRES ON EQUIPMENT - The value of tires on tractors and trailers is accounted for as a prepaid expense and amortized over the life of the tires as a function of miles driven.

REVENUE AND EXPENSE RECOGNITION - Transportation revenue, including fuel surcharges, is recognized when the services have been rendered to customers or delivery has occurred, the pricing is fixed or determinable and collectibility is reasonably assured. Transportation expenses are recognized as incurred.

Real estate rental revenue and mining royalties are generally recognized when earned under the leases. Rental income from leases with scheduled increases or other incentives during their term is recognized on a straight-line basis over the term of the lease. Reimbursements of expenses, when provided in the lease, are recognized in the period that the expenses are incurred.

Sales of real estate are recognized when the collection of the sales price is reasonably assured and when the Company has fulfilled substantially all of its obligations, which are typically as of the closing date.

Accounts receivable are recorded net of discounts and provisions for estimated allowances. We estimate allowances on an ongoing basis by considering historical and current trends. We record estimated bad debts expense as a selling, general and administrative expense. We estimate the net collectability of our accounts receivable and establish an allowance for

doubtful accounts based upon this assessment. Specifically, we analyze the aging of accounts receivable balances, historical bad debts, customer concentrations, customer credit-worthiness, current economic trends and changes in customer payment terms.

PROPERTY AND EQUIPMENT - Property and equipment is recorded at cost less accumulated depreciation and depletion. Provision for depreciation of property, plant and equipment is computed using the straight-line method based on the following estimated useful lives:

	Years
Buildings and improvements	7-39
Revenue equipment	7-10
Other equipment	3-10

Depletion of sand and stone deposits is computed on the basis of units of production in relation to estimated reserves. Reserve estimates are periodically adjusted based upon surveys.

The Company recorded depreciation and depletion expenses for 2010, 2009 and 2008 of \$10,908,000, \$12,764,000, and \$10,708,000, respectively.

The Company periodically reviews property and equipment and intangible assets for potential impairment whenever events or circumstances indicate the carrying amount of a long-lived asset may not be recoverable. The review of real estate group assets consists of comparing cap rates on recent cash flows and market value estimates to the carrying values of each asset group. If this review indicates the carrying value might exceed fair value then an estimate of future cash flows for the remaining useful life of each property is prepared considering anticipated vacancy, lease rates, and any future capital expenditures. The review of the transportation group assets consists of a review of future anticipated results considering business prospects and asset utilization. If the sum of these future cash flows (undiscounted and without interest charges) is less than the carrying amount of the assets, the Company would record an impairment loss based on the fair value of the assets with the fair value of the assets generally based upon an estimate of the discounted future cash flows expected with regards to the assets and their eventual disposition. The Company performs an annual impairment test on goodwill. Changes in estimates or assumptions could have an impact on the Company's financials.

All direct and indirect costs, including interest and real estate taxes, associated with the development, construction, leasing or expansion of real estate investments are capitalized as a cost of the property. Included in indirect costs is an allocation of internal costs associated with development of real estate investments. The cost of routine repairs and maintenance to property and equipment is expensed as incurred.

INVESTMENTS - The Company uses the equity method to account for its investment in Brooksville, in which it has a voting interest of 50% and has significant influence but does not have control. Under the equity method, the investment is originally recorded at cost and adjusted to recognize the Company's share of net earnings or losses of the investee, limited to the extent of the Company's investment in and advances to the investee and financial guarantees on behalf of the investee that create additional basis. The Company regularly monitors and evaluates the realizable value of its investments. When assessing an investment for an other-than-temporary decline in value, the Company considers such factors as, the performance of the investee in relation to its own operating targets and its business plan, the investee's revenue and cost trends, as well as liquidity and cash position, and the outlook for the overall

industry in which the investee operates. From time to time, the Company may consider third party evaluations or valuation reports. If events and circumstances indicate that a decline in the value of these assets has occurred and is other-than-temporary, the Company records a charge to investment income (expense).

INSURANCE - The Company has a \$250,000 to \$500,000 self-insured retention per occurrence in connection with certain of its workers' compensation, automobile liability, and general liability insurance programs ("risk insurance"). The Company is also self-insured for its employee health insurance benefits and carries stop loss coverage of \$250,000 per covered participant per year plus a \$53,000 aggregate. The Company has established an accrued liability for the estimated cost in connection with its portion of its risk and health insurance losses incurred and reported. Claims paid by the Company are charged against the liability. Additionally, the Company maintains an accrued liability for incurred but not reported claims based on historical analysis of such claims. The method of calculating the accrual liability is subject to inherent uncertainty. If actual results are less favorable than the estimates used to calculate the liabilities, the Company would have to record expenses in excess of what has been accrued.

INCOME TAXES - Deferred tax assets and liabilities are recognized based on differences between financial statement and tax bases of assets and liabilities using presently enacted tax rates. Deferred income taxes result from temporary differences between pre-tax income reported in the financial statements and taxable income. The Company recognizes liabilities for uncertain tax positions based on a two-step process. The first step is to evaluate the tax position for recognition by determining if the weight of available evidence indicates that it is more likely than not that the position will be sustained on audit. The second step is to estimate and measure the tax benefit as the largest amount that is more than 50% likely to be realized upon ultimate settlement. It is inherently difficult and subjective to estimate such amounts, as the amounts rely upon the determination of the probability of various possible outcomes. The Company reevaluates these uncertain tax positions on a quarterly basis. This evaluation is based on factors including, but not limited to, changes in facts or circumstances, changes in tax law and expiration of statutes of limitations, effectively settled issues under audit, and audit activity. Such a change in recognition or measurement would result in the recognition of a tax benefit or an additional charge to the tax provision. It is the Company's policy to recognize as additional income tax expense the items of interest and penalties directly related to income taxes.

STOCK BASED COMPENSATION - The Company accounts for compensation related to share based plans by recognizing the grant date fair value of stock options and other equity-based compensation issued to employees in its income statement over the requisite employee service period using the straight-line attribution model. In addition, compensation expense must be recognized for the change in fair value of any awards modified, repurchased or cancelled after the grant date. The fair value of each grant is estimated on the date of grant using the Black-Scholes option-pricing model. The assumptions used in the model and current year impact is discussed in Footnote 7.

PENSION PLAN - The Company accounts for its pension plan following the requirements of FASB ASC Topic 715, "Compensation - Retirement Benefits", which requires an employer to: (a) recognize in its statement of financial position the funded status of a benefit plan; (b) measure defined benefit plan assets and obligations as of the end of the employer's fiscal year (with limited exceptions); and (c) recognize as a component of other comprehensive income, net of tax, the gains or losses and prior service costs or credits that arise

but are not recognized as components of net periodic benefit costs pursuant to prior existing guidance.

EARNINGS PER COMMON SHARE - Basic earnings per common share are based on the weighted average number of common shares outstanding during the periods. Diluted earnings per common share are based on the weighted average number of common shares and potential dilution of securities that could share in earnings. The differences between basic and diluted shares used for the calculation are the effect of employee and director stock options and restricted stock.

USE OF ESTIMATES - The preparation of financial statements in conformity with accounting principles generally accepted in the United State requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Certain accounting policies and estimates are of more significance in the financial statement preparation process than others. The most critical accounting policies and estimates include the economic useful lives and salvage values of our vehicles and equipment, provisions for uncollectible accounts receivable and collectability of unrealized rents and notes receivable, estimates of exposures related to our insurance claims plans, and estimates for taxes. To the extent that actual, final outcomes are different than these estimates, or that additional facts and circumstances result in a revision to these estimates, earnings during that accounting period will be affected.

ENVIRONMENTAL - Environmental expenditures that benefit future periods are capitalized. Expenditures that relate to an existing condition caused by past operations, and which do not contribute to current or future revenue generation, are expensed. Liabilities are recorded for the estimated amount of expected environmental assessments and/or remedial efforts. Estimation of such liabilities includes an assessment of engineering estimates, continually evolving governmental laws and standards, and potential involvement of other potentially responsible parties.

COMPREHENSIVE INCOME - Comprehensive income consists of net income and other comprehensive income (loss). Other comprehensive income (loss) refers to expenses, gains, and losses that are not included in net income, but rather are recorded directly in shareholder's equity.

NEW ACCOUNTING PRONOUNCEMENTS - On October 1, 2009, the Company adopted fair value measurement standards codified in ASC Topic 820, "Fair Value Measurements and Disclosures" (ASC 820), for non-financial assets and liabilities. ASC 820 defines fair value for accounting purposes, establishes a framework for measuring fair value and expands disclosures about fair value measurements. On October 1, 2008, the Company adopted this standard with respect to financial assets and liabilities and elected to defer our adoption of this standard for non-financial assets and liabilities. The adoption of these standards did not materially affect the consolidated financial results of the Company.

2. Transactions with Related Parties.

The Company may have been considered a related party to Vulcan Materials Company (Vulcan). One director of the Company was employed by Vulcan until September 17, 2010 and is related to two other Company directors. Those three

directors own under 5% of the stock of Vulcan and 23.6% of the stock of the Company.

The Company, through its transportation subsidiaries, hauls commodities by tank trucks for Vulcan. Charges for these services are based on prevailing market prices. The real estate subsidiaries lease certain construction aggregates mining and other properties to Vulcan.

A summary of revenues derived from Vulcan follows (in thousands):

	<u>2010</u>	<u>2009</u>	<u>2008</u>
Transportation	\$ 2,407	1,659	1,952
Real estate	<u>3,888</u>	<u>4,591</u>	<u>6,052</u>
	<u>\$ 6,295</u>	<u>6,250</u>	<u>8,004</u>

The Company outsourced certain functions to Vulcan in prior years, including some administrative, and property management functions. The cost of these administrative services was \$45,000 in 2008.

A subsidiary of the Company (FRP) has a Joint Venture Agreement with Vulcan Materials Company (formerly Florida Rock Industries, Inc.) to develop approximately 4,300 acres of land near Brooksville, Florida. Under the terms of the joint venture, FRP contributed its fee interest in approximately 3,443 acres formerly leased to Vulcan under a long-term mining lease which had a net book value of \$2,548,000. Vulcan is entitled to mine the property until 2018 and pay royalties for the benefit of FRP for as long as mining does not interfere with the development of the property. Real estate revenues included \$231,000 of such royalties in fiscal 2010 and \$158,000 in fiscal 2009. Allocated depletion expense of \$7,000 was included in real estate cost of operations for fiscal 2010. FRP also contributed \$3,018,000 for one-half of the acquisition costs of a 288-acre contiguous parcel. Vulcan also contributed 553 acres that it owned as well as its leasehold interest in the 3,443 acres that it leased from FRP. The joint venture is jointly controlled by Vulcan and FRP, and they each had a mandatory obligation to fund additional capital contributions of up to \$2.15 million. Capital contributions of \$1,995,000 have been made by each party as of September 30, 2010. Distributions will be made on a 50-50 basis except for royalties and depletion specifically allocated to FRP. Other income for fiscal 2010 includes a loss of \$2,000 representing the Company's equity in the loss of the joint venture. The property does not yet have the necessary entitlements for real estate development. Approval to develop real property in Florida entails an extensive entitlements process involving multiple and overlapping regulatory jurisdictions and the outcome is inherently uncertain.

In connection with the Joint Venture, the independent directors of the Company also approved certain extensions of lease agreements between FRP and Vulcan on Vulcan's offices in Jacksonville, Florida, the Astatula and Marion Sand mining properties, also in Florida. The Company and Vulcan also agreed that a 2,500 acre tract of the Grandin mining property, in Florida, due to be released will remain subject to the lease and available for future mining.

3. Debt.

Debt at September 30 is summarized as follows (in thousands):

	<u>2010</u>	<u>2009</u>
Revolving credit (uncollateralized)	\$ -	-
5.6% to 8.6% mortgage notes, due in installments through 2027	<u>71,860</u>	<u>76,153</u>

	71,860	76,153
Less portion due within one year	<u>4,588</u>	<u>4,293</u>
	<u>\$67,272</u>	<u>71,860</u>

The aggregate amount of principal payments, excluding the revolving credit, due subsequent to September 30, 2010 is: 2011 - \$4,588,000; 2012 - \$4,902,000; 2013 - \$5,239,000; 2014 - \$5,308,000; 2015 - \$5,379,000; 2016 and subsequent years - \$46,444,000.

The Company has a \$37,000,000 uncollateralized Revolving Credit Agreement with three banks, which matures on December 13, 2013. The Revolver bears interest at a rate of 1.00% over the selected LIBOR, which may change quarterly based on the Company's ratio of Consolidated Total Debt to Consolidated Total Capital, as defined. A commitment fee of 0.15% per annum is payable quarterly on the unused portion of the commitment. The commitment fee may also change quarterly based upon the ratio described above. The Revolver contains limitations on availability and restrictive covenants including limitations on paying cash dividends. During fiscal 2010 letters of credit in the amount of \$14,204,000 were issued under the Revolver. As of September 30, 2010, \$22,796,000 was available for borrowing and \$43,306,000 of consolidated retained earnings would be available for payment of dividends. The Company was in compliance with all covenants as of September 30, 2010.

The non-recourse fully amortizing mortgage notes payable are collateralized by real estate having a carrying value of approximately \$78,328,000 at September 30, 2010.

During fiscal 2010, 2009 and 2008 the Company capitalized interest costs of \$952,000, \$1,707,000, and \$890,000, respectively.

The Company had \$14,853,000 of irrevocable letters of credit outstanding at September 30, 2010. Most of the letters of credit are irrevocable for a period of one year and are automatically extended for additional one-year periods unless notified by the issuing bank not less than thirty days before the expiration date. These were issued for insurance retentions and to guarantee certain obligations to state agencies related to real estate development.

4. Leases.

At September 30, 2010, the total carrying value of property owned by the Company which is leased or held for lease to others is summarized as follows (in thousands):

Construction aggregates property	\$ 24,049
Commercial property	<u>198,758</u>
	<u>222,807</u>
Less accumulated depreciation and depletion	<u>48,847</u>
	<u>\$173,960</u>

The minimum future straight-lined rentals due the Company on noncancelable leases as of September 30, 2010 are as follows: 2011 - \$13,016,000; 2012 - \$11,666,000; 2013 - \$9,891,000; 2014 - \$8,712,000; 2015 - \$7,243,000; 2016 and subsequent years \$23,101,000.

5. Preferred Shareholder Rights Plan.

On May 5, 1999, the Board of Directors of the Company declared a dividend of

one preferred share purchase right (a "Right") for each outstanding share of common stock. The dividend was payable on June 2, 1999. The Rights expired on September 30, 2009 and are no longer exercisable.

6. Earnings Per Share.

The following details the computations of the basic and diluted earnings per common share. (Dollars in thousands, except per share amounts.)

	<u>Years Ended September 30</u>		
	<u>2010</u>	<u>2009</u>	<u>2008</u>
Common shares:			
Weighted average common shares outstanding during the period - shares used for basic earnings per common share	3,061	3,041	3,033
Common shares issuable under share based payment plans which are potentially dilutive	<u>80</u>	<u>76</u>	<u>93</u>
Common shares used for diluted earnings per common share	<u>3,141</u>	<u>3,117</u>	<u>3,126</u>
Net income	\$ <u>7,371</u>	<u>3,753</u>	<u>7,968</u>
Earnings per common share			
Basic	<u>\$2.41</u>	<u>1.23</u>	<u>2.63</u>
Diluted	<u>\$2.35</u>	<u>1.20</u>	<u>2.55</u>

For 2010, 2009 and 2008, 37,070, 28,000 and 10,000 shares, respectively, attributable to outstanding stock options were excluded from the calculation of diluted earnings per share because their inclusion would have been anti-dilutive. For 2010, 2009 and 2008, all outstanding restricted shares were included in the calculation of diluted earnings per common share because the unrecorded compensation and tax benefits to be credited to capital in excess of par for all awards of restricted stock were lower than the average price of the common shares, and therefore were dilutive.

7. Stock-Based Compensation Plans.

The Company has two Stock Option Plans (the 2000 Stock Option Plan and the 2006 Stock Option Plan) under which options for shares of common stock were granted to directors, officers and key employees. The 2006 plan permits the grant of stock options, stock appreciation rights, restricted stock awards, restricted stock units, or stock awards. The options awarded under the plans have similar characteristics. All stock options are non-qualified and expire ten years from the date of grant. Stock based compensation awarded to directors, officers and employers are exercisable immediately or become exercisable in cumulative installments of 20% or 25% at the end of each year following the date of grant. When stock options are exercised the Company issues new shares after receipt of exercise proceeds and taxes due, if any, from the grantee. In February 2006, 15,960 shares of restricted stock were granted subject to forfeiture restrictions, tied to continued employment that lapsed 25% annually beginning on January 1, 2007 and were fully vested on January 1, 2010. The number of common shares available for future issuance was 227,970 at September 30, 2010.

The Company utilizes the Black-Scholes valuation model for estimating fair value of stock compensation for options awarded to officers and employees. Each grant is evaluated based upon assumptions at the time of grant. The

assumptions were no dividend yield, expected volatility between 37% and 53%, risk-free interest rate of 2.7% to 4.9% and expected life of 5.0 to 7.0 years.

The dividend yield of zero is based on the fact that the Company does not pay cash dividends and has no present intention to pay cash dividends. Expected volatility is estimated based on the Company's historical experience over a period equivalent to the expected life in years. The risk-free interest rate is based on the U.S. Treasury constant maturity interest rate at the date of grant with a term consistent with the expected life of the options granted. The expected life calculation is based on the observed and expected time to exercise options by the employees.

The Company recorded the following stock compensation expense in its consolidated statement of income (in thousands):

	<u>Years Ended September 30</u>		
	<u>2010</u>	<u>2009</u>	<u>2008</u>
Stock option grants	\$ 402	381	315
Restricted stock awards granted in 2006	48	193	206
Annual non-employee Director stock award	354	294	395
Shares purchased in connection with previous CEO retirement	-	-	162
Modification to accelerate prior awards made in connection with CEO retirement	-	-	216
	<u>804</u>	<u>868</u>	<u>1,294</u>

A summary of changes in outstanding options is presented below:

<u>Options</u>	<u>Number Of Shares</u>	<u>Weighted Average Exercise Price</u>	<u>Weighted Average Remaining Term (yrs)</u>	<u>Weighted Average Grant Date Fair Value (000's)</u>

September 30, 2010	<u>16,000</u>			\$ 435

The following table summarizes information concerning stock options outstanding at September 30, 2010:

<u>Range of Exercise</u>	<u>Shares under</u>	<u>Weighted Average</u>	<u>Weighted Average</u>
--------------------------	-------------------------	-----------------------------	-----------------------------

<u>Prices per Share</u>	<u>Option</u>	<u>Exercise Price</u>	<u>Remaining Life</u>
Non-exercisable:			
\$51.01 - \$76.00	14,400	74.43	8.8
\$76.01 - \$87.00	<u>12,570</u>	<u>91.59</u>	<u>8.5</u>
	26,970	\$82.43	8.7 years
Exercisable:			
\$15.00 - \$23.00	38,780	21.48	1.8
\$23.01 - \$34.00	81,000	29.75	2.9
\$34.01 - \$51.00	45,450	44.29	4.3
\$51.01 - \$76.00	12,600	64.41	6.0
\$76.01 - \$87.00	<u>6,500</u>	<u>90.18</u>	<u>8.3</u>
	184,330	\$36.09	3.4 years
Total	<u>211,300</u>	<u>\$42.01</u>	<u>4.1</u> years

The aggregate intrinsic value of exercisable in-the-money options was \$6,420,000 and the aggregate intrinsic value of outstanding in-the-money options was \$6,420,000 based on the market closing price of \$70.13 on September 30, 2010 less exercise prices. Gains of \$1,988,000 were realized by option holders during the twelve months ended September 30, 2010. The realized tax benefit from options exercised for the twelve months ended September 30, 2010 was \$762,000. Total compensation cost of options granted but not yet vested as of September 30, 2010 was \$775,000, which is expected to be recognized over a weighted-average period of 2.9 years. Fiscal 2008 included stock compensation expense of \$180,000 related to the modification to accelerate the vesting of 4,000 shares in connection with the retirement benefits for John E. Anderson, the Company's previous President and CEO, whose retirement was effective February 6, 2008.

A summary of changes in restricted stock awards is presented below:

<u>Restricted Stock</u>	<u>Number Of Shares</u>	<u>Weighted Average Grant Price</u>	<u>Weighted Average Remaining Term (yrs)</u>	<u>Weighted Average Grant Date Fair Value (000's)</u>
Outstanding at				
September 30, 2007	10,800	\$63.65	2.3	\$ 687

Forfeited	<u>(40)</u>	\$66.09		\$ 3
Outstanding at				
September 30, 2010	-	\$ -	-	\$ -

Fiscal 2008 included stock compensation expense of \$36,000 related to the modification to accelerate the vesting of 400 shares in connection with retirement benefits for John E. Anderson, the Company's previous President and CEO, whose retirement was effective February 6, 2008.

8. Income Taxes.

The provision for income taxes for continuing operations for fiscal years ended September 30 consists of the following (in thousands):

	<u>2010</u>	<u>2009</u>	<u>2008</u>
Current:			
Federal	\$3,162	3,800	292
State	<u>119</u>	<u>777</u>	<u>233</u>
	<u>3,281</u>	<u>4,577</u>	<u>525</u>
Deferred	<u>682</u>	<u>245</u>	<u>4,734</u>
Total	<u>\$3,963</u>	<u>4,822</u>	<u>5,259</u>

A reconciliation between the amount of tax shown above and the amount computed at the statutory Federal income tax rate follows (in thousands):

	<u>2010</u>	<u>2009</u>	<u>2008</u>
Amount computed at statutory			
Federal rate	\$3,760	4,359	4,715
State income taxes (net of Federal income tax benefit)	460	541	578
Other, net	<u>(257)</u>	<u>(78)</u>	<u>(34)</u>
Provision for income taxes	<u>\$3,963</u>	<u>4,822</u>	<u>5,259</u>

In this reconciliation, the category "Other, net" consists of changes in unrecognized tax benefits, permanent tax differences related to non-deductible expenses, special tax rates and tax credits, interest and penalties, and adjustments to prior year estimates.

The types of temporary differences and their related tax effects that give rise to deferred tax assets and deferred tax liabilities at September 30, are presented below (in thousands):

	<u>2010</u>	<u>2009</u>
Deferred tax liabilities:		
Property and equipment	\$16,097	15,819
Depletion	431	421
Unrealized rents	1,289	1,285
Prepaid expenses	<u>1,633</u>	<u>1,675</u>
Gross deferred tax liabilities	19,450	19,200
Deferred tax assets:		
Insurance liabilities	1,735	2,238
Employee benefits and other	<u>1,457</u>	<u>1,387</u>
Gross deferred tax assets	<u>3,192</u>	<u>3,625</u>
Net deferred tax liability	<u>\$16,258</u>	<u>15,575</u>

A reconciliation of the beginning and ending amount of unrecognized tax benefits is as follows (in thousands):

	<u>2010</u>	<u>2009</u>
Balance at October 1	\$237	372
Reductions due to lapse of statute of limitations	<u>(154)</u>	<u>(135)</u>
Balance at September 30	83	237

As of September 30, 2010 there was \$61,000 of unrecognized tax benefits that, if recognized, would impact the Company's effective tax rate. Interest and penalties of \$22,000 was reflected as a component of the total liability at September 30, 2010. The Company expects a decrease in the liability of up to \$32,000 for uncertain tax positions during the next 12 months. The Company files income tax returns in the U.S. and various states which are subject to

audit for up to five years after filing.

9. Employee Benefits.

The Company and certain subsidiaries have a savings/profit sharing plan for the benefit of qualified employees. The savings feature of the plan incorporates the provisions of Section 401(k) of the Internal Revenue Code under which an eligible employee may elect to save a portion (within limits) of their compensation on a tax deferred basis. The Company contributes to a participant's account an amount equal to 50% (with certain limits) of the participant's contribution. Additionally, the Company may make an annual discretionary contribution to the plan as determined by the Board of Directors, with certain limitations. The plan provides for deferred vesting with benefits payable upon retirement or earlier termination of employment. The Company's cost was \$612,000 in 2010, \$760,000 in 2009 and \$828,000 in 2008.

The Company has a Management Security Plan (MSP) for certain officers and key employees. The accruals for future benefits are based upon the remaining years to retirement of the participating employees and other actuarial assumptions. Life insurance on the lives of one of the participants has been purchased to partially fund this benefit and the Company is the owner and beneficiary of that policy. The expense for fiscal 2010, 2009 and 2008 was \$143,000, \$136,000 and \$191,000, respectively. The accrued benefit under this plan as of September 30, 2010 and 2009 was \$1,089,000 and \$1,017,000 respectively. On December 5, 2007, the board of directors approved certain retirement benefits for John E. Anderson, the Company's previous President and Chief Executive Officer who retired effective February 6, 2008. Upon Mr. Anderson's retirement, the Company paid him \$1,331,000 for his GAAP accrued benefit under the MSP.

The Company provides certain health benefits for retired employees. Employees may become eligible for those benefits if they were employed by the Company prior to December 10, 1992, meet the service requirements and reach retirement age while working for the Company. The plan is contributory and unfunded. The Company accrues the estimated cost of retiree health benefits over the years that the employees render service. The accrued postretirement benefit obligation for this plan as of September 30, 2010 and 2009 was \$319,000 and \$308,000, respectively. The net periodic postretirement benefit cost was \$12,000, \$(1,000) and \$13,000 for fiscal 2010, 2009, and 2008, respectively. The discount rate used in determining the Net Periodic Postretirement Benefit Cost was 5.5% for 2010, 6.75% for 2009 and 6.0% for 2008. The discount rate used in determining the Accumulated Postretirement Benefit Obligation (APBO) was 5.5% for 2010, 5.5% for 2009 and 6.75% for 2008. No medical trend is applicable because the Company's share of the cost is frozen.

10. Business Segments.

The Company operates in three reportable business segments. The Company's operations are substantially in the Southeastern and Mid-Atlantic states.

The transportation segment hauls petroleum and other liquids and dry bulk commodities by tank trailers. The Company's real estate operations consist of two reportable segments. The Mining royalty land segment owns real estate including construction aggregate royalty sites and parcels held for investment. The Developed property rentals segment acquires, constructs, and leases office/warehouse buildings primarily in the Baltimore/Northern Virginia/Washington area and holds real estate for future development or related to its developments.

The Company's transportation and real estate groups operate independently and have minimal shared overhead except for corporate expenses. Corporate expenses are allocated in fixed quarterly amounts based upon budgeted and estimated proportionate cost by segment. Unallocated corporate expenses primarily include stock compensation and corporate aircraft expenses. Reclassifications to prior period amounts have been made to be comparable the current presentation.

Operating results and certain other financial data for the Company's business segments are as follows (in thousands):

	2010	2009	2008
Revenues:			
Transportation	\$ 89,637	91,420	105,087
Mining royalty land	4,510	5,067	5,585
Developed property rentals	<u>17,191</u>	<u>18,066</u>	<u>18,499</u>

Cash	17,151	15,803	7,778
Unallocated corporate assets	<u>3,667</u>	<u>3,842</u>	<u>4,512</u>
	<u>\$257,712</u>	<u>256,854</u>	<u>262,040</u>

11. Fair Value Measurements.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. Level 1 means the use of quoted prices in active markets for identical assets or liabilities. Level 2 means the use of values that are derived principally from or corroborated by observable market data. Level 3 means the use of inputs are those that are unobservable and significant to the overall fair value measurement.

As of September 30, 2010 the Company had no assets or liabilities measured at fair value on a recurring basis and only one asset recorded at fair value on a non-recurring basis as it was deemed to be other-than-temporarily impaired. The fair value of the corporate aircraft of \$1,850,000 is based on level 2 inputs for similar assets in the current market. The fourth quarter of fiscal 2009 included \$900,000 for the impairment to estimated fair value of the corporate aircraft. The Company's decision to discontinue its use required adjustment to the lower values of the current economic environment.

The fair value of the note receivable (see Note 16) approximates the unpaid principal balance based upon the interest rate and credit risk of the note. The fair value of all other financial instruments with the exception of mortgage notes (see Note 3) approximates the carrying value due to the short-term nature of such instruments.

The fair values of the Company's other mortgage notes payable were estimated based on current rates available to the Company for debt of the same remaining maturities. At September 30, 2010, the carrying amount and fair value of such other long-term debt was \$71,860,000 and \$73,558,000, respectively. At September 30, 2009, the carrying amount and fair value of other long-term debt was \$76,153,000 and \$72,750,000, respectively.

12. Contingent Liabilities.

Certain of the Company's subsidiaries are involved in litigation on a number of matters and are subject to certain claims which arise in the normal course of business. The Company has retained certain self-insurance risks with respect to losses for third party liability and property damage. There is a reasonable possibility that the Company's estimate of vehicle and workers' compensation liability for the transportation group or discontinued operations may be understated or overstated but the possible range can not be estimated. The liability at any point in time depends upon the relative ages and amounts of the individual open claims. In the opinion of management none of these matters are expected to have a material adverse effect on the Company's consolidated financial condition, results of operations or cash flows.

13. Commitments.

The Company, at September 30, 2010, had entered into various contracts to develop real estate with remaining commitments totaling \$7,355,000, and to purchase transportation equipment for approximately \$2,875,000. The Company has committed to make an additional capital contribution of up to \$155,000 dollars to Brooksville Quarry, LLC in connection with a joint venture with Vulcan. In July 2008, the Company entered into an agreement to sell the

Windlass Run Residential property. Windlass Run Residential (previously Bird River), located in southeastern Baltimore County, Maryland, is a 121 acre tract of land adjacent to and west of our Windlass Run Business Park. The property was rezoned in September 2007 to allow for additional density and plans are being pursued to obtain an appropriate product mix. The purchase price for the property is \$25,075,000, subject to certain potential purchase price adjustments. The agreement of sale is subject to certain contingencies including additional government approvals and closing may be one and one half or more years away. The cost of the property of \$5,808,000 is included in Real estate held for investment rather than held for sale because of the original and current expectation that the sale would not be completed within one year.

In February 2010, a subsidiary of the Company, Florida Rock Properties, Inc., entered into an agreement to sell approximately 1,844 acres of land in Caroline County, Virginia, to the Commonwealth of Virginia, Board of Game and Inland Fisheries. The purchase price for the property is \$5,200,000, subject to certain deductions. The Company is also donating the value of minerals and aggregates. The Company's book value of the property is \$276,000. If the sale closes before January 19, 2011 the Company intends to use the proceeds in a 1031 exchange to purchase Hollander 95 Business Park in a foreclosure sale auction through a qualified intermediary. Hollander 95 Business Park, in Baltimore City, Maryland, closed on October 22, 2010 by a 1031 intermediary for a purchase price totaling \$5,750,000. This property consists of an existing 82,800 square foot warehouse building (52.9% occupied) with an additional 42 acres of partially developed land with a development capacity of 470,000 square feet (a mix of warehouse, office, hotel and flex buildings).

14. Concentrations.

The transportation segment primarily serves customers in the industries in the Southeastern U.S. Significant economic disruption or downturn in this geographic region or these industries could have an adverse effect on our financial statements.

During fiscal 2010, the transportation segment's ten largest customers accounted for approximately 57.3% of the transportation segment's revenue. One of these customers accounted for 21.1% of the transportation segment's revenue. The loss of any one of these customers would have an adverse effect on the Company's revenues and income. Accounts receivable from the transportation segment's ten largest customers was \$2,797,000 and \$2,578,000 at September 30 2010 and 2009 respectively.

The Company places its cash and cash equivalents with high credit quality institutions. At times such amounts may exceed FDIC limits.

15. Previous CEO Retirement.

On December 5, 2007, the board of directors approved certain retirement benefits for John E. Anderson, the Company's previous President and Chief Executive Officer effective February 6, 2008. Upon Mr. Anderson's retirement, the Company paid him \$4,851,000 for his accrued benefit under the Management Security Plan, the fair value of his outstanding stock options and restricted stock and an additional bonus. The total impact of these payments on the Company's earnings for fiscal 2008 was \$2,503,000 before taxes which is included in selling, general, and administrative expense primarily in the three months ended December 31, 2007. On December 5, 2007, the Company's Board of Directors elected John D. Baker II to succeed Mr. Anderson as President and

Chief Executive Officer. The following tables detail the expense incurred and payments made (in thousands):

Expenses

Additional bonus paid in cash	\$2,125
Repurchase of vested options and stock at 20 day average market value per agreement which exceeded the closing price on the date of repurchase	162
Accelerated vesting of options	180
Accelerated vesting of restricted stock	36
Total expense (\$2,371 in quarter ended 12/31/07)	<u>\$2,503</u>

Payments

Total expense	\$2,503
Previously accrued benefit MSP Retirement Plan	1,331
Gain on vested stock options repurchased	999
Restricted shares vested 1/1/08 repurchased	18
Total payments	<u>\$4,851</u>

16. Discontinued Operations.

In August 2009 the Company sold its flatbed trucking company, SunBelt Transport, Inc. ("SunBelt"). Under the agreement, the Buyer purchased all of SunBelt's tractors and trailers, leased the SunBelt terminal facilities in Jacksonville, Florida for 36 months at a rental of \$5,000 per month and leased the terminal facilities in South Pittsburg, Tennessee for 60 months at a rental of \$5,000 per month with an option to purchase the Tennessee facilities at the end of the lease for payment of an additional \$100,000. The South Pittsburg lease was recorded as a sale under bargain purchase accounting. The purchase price received for the tractors and trailers and inventories was a \$1 million cash payment and the delivery of a Promissory Note requiring 60 monthly payments of \$130,000 each including interest at 7%, secured by the assets of the business conveyed. In the quarter ending September 30, 2009 the Company recognized \$283,000 in severance costs related to a change-in-control agreement triggered by the sale of SunBelt. The Company retained all pre-closing receivables and liabilities.

SunBelt has been accounted for as discontinued operations in accordance with ASC Topic 205-20 Presentation of Financial Statements - Discontinued Operations. All periods presented have been restated accordingly.

In February 2010, a subsidiary of the Company, Florida Rock Properties, Inc., entered into an agreement to sell approximately 1,844 acres of land in Caroline County, Virginia, to the Commonwealth of Virginia, Board of Game and Inland Fisheries. The purchase price for the property is \$5,200,000, subject to certain deductions. The Company is also donating the value of minerals and aggregates. The Company's book value of the property is \$276,000. The sale is likely to be completed during fiscal 2011. The property had revenue of \$729,000 and operating expense of \$38,000 in fiscal 2008 from timber sales which has been reclassified to discontinued operations.

A summary of discontinued operations is as follows:

	<u>2010</u>	<u>2009</u>	<u>2008</u>
Revenue	\$ 84	21,250	42,878
Operating expenses	(427)	24,239	43,732
Loss on sale before taxes	-	(3,760)	-
Income (loss) before taxes	<u>\$ 511</u>	<u>(6,749)</u>	<u>(854)</u>

Income taxes	(196)	2,594	329
Income (loss) from discontinued operations	\$ <u>315</u>	<u>(4,155)</u>	<u>(525)</u>

A summary of the loss on sale before income taxes (in thousands):

Carrying amount of assets disposed:

Petty cash	\$ 4
Inventory of parts and supplies	88
Prepaid tires on equipment	643
Land	103
Buildings	459
Equipment	24,022
Less accumulated depreciation	<u>(14,013)</u>
Net book value of assets disposed	\$ 11,306

Plus liabilities assumed:

Change in control agreement	283
Real estate taxes of bargain lease	61

Less proceeds from sale:

Cash Payment Received	1,000
Present value of promissory note	6,565
Present value of bargain lease	<u>325</u>

Loss on sale before taxes	<u>\$ 3,760</u>
---------------------------	-----------------

The estimated loss on sale of \$3,263,000 was recorded in the quarter ending June 30, 2009. An adjustment to the loss on sale of \$214,000 along with the change in control agreement of \$283,000 was recorded in the quarter ending September 30, 2009.

The components of the balance sheet are as follows:

	September 30, <u>2010</u>	September 30, <u>2009</u>
Accounts receivable	\$ 8	142
Other assets	-	1
Deferred income taxes	417	1,249
Property and equipment, net	117	127
Assets of discontinued operations	<u>\$ 542</u>	<u>1,519</u>
Accounts payable	\$ 154	243
Accrued payroll and benefits	2	140
Accrued liabilities, other	61	73
Insurance liabilities	1,110	3,204
Liabilities of discontinued operations	<u>\$ 1,327</u>	<u>3,660</u>

17. Subsequent Events

On December 1, 2010 the Company announced a 3-for-1 common stock split. Shareholders of record on January 3, 2011 will receive two additional shares for each share held. The stock split will be effected in the form of a stock dividend which will be paid in newly issued common stock on January 17, 2011. As of December 1, 2010, the Company had 3,092,696 shares of common stock outstanding. After the stock split, the Company will have approximately 9,278,088 shares of common stock outstanding. The effect of this stock split has not been reflected in these financial statements because it will not occur until January 2011.

Management's Report on Internal Control Over Financial Reporting

The management of Patriot is responsible for establishing and maintaining adequate internal control over financial reporting. Patriot's internal control system was designed to provide reasonable assurance to the Company's management and Board of Directors regarding the preparation and fair presentation of published financial statements in accordance with U.S. generally accepted accounting principles. All internal control systems, no matter how well designed have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Patriot's management assessed the effectiveness of the Company's internal control over financial reporting as of September 30, 2010 based on the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control-Integrated Framework. Based on this assessment, management believes that, as of September 30, 2010, the Company's internal control over financial reporting is effective.

Report of Independent Registered Certified Public Accounting Firm

The Shareholders and Board of Directors
Patriot Transportation Holding, Inc.

We have audited the accompanying consolidated balance sheets of Patriot Transportation Holding, Inc. as of September 30, 2010, and 2009, and the related consolidated statements of income, shareholder's equity and comprehensive income, and cash flows for years ended September 30, 2010, 2009 and 2008. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Patriot Transportation Holding, Inc. as of September 30, 2010 and 2009, and the consolidated results of its operations and its cash flows for the years ended

September 30, 2010, 2009 and 2008 in conformity with accounting principles generally accepted in the United States of America.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of Patriot Transportation Holding, Inc.'s internal control over financial reporting as of September 30, 2010, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Patriot Transportation Holding, Inc. maintained, in all material respects, effective internal control over financial reporting as of September 30, 2010, based on criteria established in *Internal Control-Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

Form 10-K

Shareholders may receive without charge a copy of Patriot Transportation Holding, Inc.'s annual report on Form 10-K for the fiscal year ended September 30, 2010 as filed with the Securities and Exchange Commission by writing to the Treasurer at 501 Riverside Avenue, Suite 500, Jacksonville, Florida 32202. The most recent certifications by our Chief Executive Officer, Chief Financial Officer and Chief Accounting Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 are filed as exhibits to our Form 10-K.

Company Website

The Company's website may be accessed at www.patriottrans.com. All of our filings with the Securities and Exchange Commission can be accessed through our website promptly after filing. This includes annual reports on Form 10-K, proxy statements, quarterly reports on Form 10-Q, current reports filed or furnished on Form 8-K and all related amendments.

I, Thompson S. Baker II, certify that:

1. I have reviewed this annual report on Form 10-K of Patriot Transportation Holding, Inc.;
2. Based on my knowledge, this annual report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this annual report;
3. Based on my knowledge, the financial statements, and other financial information included in this annual report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this annual report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls to be designed under our supervision, ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosures controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any changes in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal annual that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial report; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
