LETTER FROM THE CHAIRMAN

Dear Shareholder:

We are pleased to present this annual report for Dreyfus Worldwide Dollar Money Market Fund, Inc., covering the 12-month period from November 1, 2005, through October 31, 2006.

Although reports of slower U.S. economic growth and declining housing prices recently have raised economic concerns, we believe that neither a domestic recession nor a major shortfall in global growth is likely. A stubbornly low unemployment rate suggests that labor market conditions remain strong, and stimulative monetary policies over the last several years have left a legacy of ample financial liquidity worldwide. These and other factors should continue to support further economic expansion, but at a slower rate than we saw earlier this year.

The U.S. bond market also appears to be expecting a slower economy, as evidenced by an “inverted yield curve” at the end of October, in which yields of two-year U.S. Treasury securities were lower than the overnight federal funds rate. This anomaly may indicate that short-term interest rates have peaked, and that investors expect the Federal Reserve Board’s next move to be toward lower short-term interest rates.

For information about how the fund performed during the reporting period, as well as market perspectives, we have provided a Discussion of Fund Performance given by the fund’s portfolio manager.

Thank you for your continued confidence and support.

Sincerely,

Stephen E. Canter
Chairman and Chief Executive Officer
The Dreyfus Corporation
November 15, 2006

DISCUSSION OF FUND PERFORMANCE

Patricia A. Larkin, Senior Portfolio Manager

How did Dreyfus Worldwide Dollar Money Market Fund perform during the period?

For the 12-month period ended October 31, 2006, the fund produced a yield of 4.12% and, after taking into account the effects of compounding, an effective yield of 4.20%.¹

What is the fund's investment approach?

The fund seeks as high a level of current income as is consistent with the preservation of capital and the maintenance of liquidity.

To pursue this goal, the fund invests in a diversified portfolio of high-quality, short-term debt securities, including: securities issued or guaranteed by the U.S. government or its agencies or instrumentalities; certificates of deposit, time deposits, bankers' acceptances and other short-term securities issued by domestic and foreign banks or their subsidiaries or branches; repurchase agreements; asset-backed securities; domestic and dollar-denominated foreign commercial paper; and other short-term corporate obligations, including those with floating or variable rates of interest; and dollar-denominated obligations issued or guaranteed by one or more foreign governments or any of their political subdivisions or agencies. Normally, the fund invests at least 25% of its net assets in domestic or dollar-denominated foreign bank obligations.

What other factors influenced the fund's performance?

After posting a relatively anemic annualized growth rate of 1.6% for the fourth quarter of 2005, the U.S. economy expanded at a more robust 5.6% annualized U.S. GDP growth rate in the first quarter of 2006. Low unemployment, strong consumer confidence and brisk retail sales began to rekindle investors' inflation concerns, and the U.S. Treasury securities yield curve steepened in the spring, despite increases in the overnight federal funds rate in November, December, January and March.

In May, hawkish comments from members of the Federal Reserve Board (the “Fed”) sparked sharp declines in U.S. Treasury security prices. In addition, the unemployment rate fell to 4.6%, stoking concerns that wage inflation might accelerate. Hence, concerned investors revised upward their interest-rate expectations, and they widely expected the Fed’s rate hike in May to 5%. Although investors also anticipated the Fed’s June 29 rate hike to 5.25%, the outlook for future action became cloudier amid worries that the Fed might become too aggressive, possibly triggering a recession.

Investors’ economic concerns were compounded when it later was announced that U.S. GDP expanded at a more moderate 2.6% annualized rate during the second quarter. Indeed, the U.S. economy appeared to slow further over the summer, when housing markets softened and employment gains moderated. The Fed cited a slower economy when it left short-term interest rates unchanged at 5.25% at its meeting on August 8, the first pause after more than two years of steady rate hikes.

The softening of the housing market became more pronounced in September, and the Fed again left overnight interest rates unchanged. While core inflation data remained elevated, the Fed indicated that it expected those pressures to moderate as the economy slowed. In fact, oil prices tumbled to around \$60 per barrel, helping to put a lid on one of the main drivers of the market’s inflation fears. At the same time, a decline in the unemployment rate to 4.6% helped to reassure investors that the economy probably was headed for a soft landing.

As was widely expected, the Fed continued to hold overnight interest rates steady at its meeting on October 25. Still, Fed members indicated that the risk of higher inflation was greater than the risk of a pronounced economic downturn, and further policy firming might be needed if inflation remains above the Fed’s comfort zone. The Fed’s concerns appeared to be warranted when an employment report released in early November showed a drop in the unemployment rate to a five-year low of 4.4%.

Early in the reporting period, as short-term interest rates rose, we maintained the fund's weighted average maturity in a range we considered shorter than industry averages. After the Fed paused in its tightening campaign in August, we increased the fund's weighted average maturity to the neutral range. However, with yield differences along the money market yield curve near historically narrow levels, it currently makes little sense to us to establish an even longer maturity position.

What is the fund's current strategy?

Fed members may be comfortable with interest rates for now, but they stand ready to change monetary policy as conditions warrant. Therefore, after a multi-year period in which Fed actions were predictable, we have entered a more uncertain time, in which every piece of economic data is likely to be scrutinized for its possible impact on monetary policy. In our view, however, it will not be a single economic release that triggers the next move by the Fed. Rather, we believe it will be a series of numbers that convinces policy-makers that interest rates need to be adjusted. As a result, we believe that today's relatively high level of uncertainty is likely to last for some time, making a relatively cautious investment posture prudent until economic conditions and Fed policy become clearer.

November 15, 2006

An investment in the fund is not insured or guaranteed by the FDIC or any other government agency. Although the fund seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the fund.

- ¹ *Effective yield is based upon dividends declared daily and reinvested monthly. Past performance is no guarantee of future results. Yields fluctuate. Yields provided reflect the absorption of certain fund expenses by The Dreyfus Corporation pursuant to an undertaking in effect that may be extended, terminated or modified at any time. Had these expenses not been absorbed, the fund's yield and effective yield would have been 4.05% and 4.13%, respectively.*

UNDERSTANDING YOUR FUND'S EXPENSES (Unaudited)

As a mutual fund investor, you pay ongoing expenses, such as management fees and other expenses. Using the information below, you can estimate how these expenses affect your investment and compare them with the expenses of other funds. You also may pay one-time transaction expenses, including sales charges (loads) and redemption fees, which are not shown in this section and would have resulted in higher total expenses. For more information, see your fund's prospectus or talk to your financial adviser.

Review your fund's expenses

The table below shows the expenses you would have paid on a \$1,000 investment in Dreyfus Worldwide Dollar Money Market Fund, Inc. from May 1, 2006 to October 31, 2006. It also shows how much a \$1,000 investment would be worth at the close of the period, assuming actual returns and expenses.

Expenses and Value of a \$1,000 Investment	
assuming actual returns for the six months ended October 31, 2006	
Expenses paid per \$1,000+	\$ 3.82
Ending value (after expenses)	\$1,023.20

COMPARING YOUR FUND'S EXPENSES WITH THOSE OF OTHER FUNDS (Unaudited)

Using the SEC's method to compare expenses

The Securities and Exchange Commission (SEC) has established guidelines to help investors assess fund expenses. Per these guidelines, the table below shows your fund's expenses based on a \$1,000 investment, assuming a hypothetical 5% annualized return. You can use this information to compare the ongoing expenses (but not transaction expenses or total cost) of investing in the fund with those of other funds. All mutual fund shareholder reports will provide this information to help you make this comparison. Please note that you cannot use this information to estimate your actual ending account balance and expenses paid during the period.

Expenses and Value of a \$1,000 Investment	
assuming a hypothetical 5% annualized return for the six months ended October 31, 2006	
Expenses paid per \$1,000+	\$ 3.82
Ending value (after expenses)	\$1,021.42

[†] Expenses are equal to the fund's annualized expense ratio of .75%, multiplied by the average account value over the period, multiplied by 184/365 (to reflect the one-half year period).

FINANCIAL HIGHLIGHTS

The following table describes the performance for the fiscal periods indicated. Total return shows how much your investment in the fund would have increased (or decreased) during each period, assuming you had reinvested all dividends and distributions. These figures have been derived from the fund’s financial statements.

	Year Ended October 31,				
	2006	2005	2004	2003	2002
Per Share Data (\$):					
Net asset value, beginning of period	1.00	1.00	1.00	1.00	1.00
Investment Operations:					
Investment income–net	.041	.021	.005	.006	.016
Distributions:					
Dividends from investment income–net	(.041)	(.021)	(.005)	(.006)	(.016)
Net asset value, end of period	1.00	1.00	1.00	1.00	1.00
Total Return (%)	4.20	2.14	.50	.62	1.62
Ratios/Supplemental Data (%):					
Ratio of total expenses to average net assets	.82	.84	.85	.82	.82
Ratio of net expenses to average net assets	.75	.75	.75	.75	.75
Ratio of net investment income to average net assets	4.12	2.08	.49	.62	1.63
Net Assets, end of period (\$ x 1,000)	700,509	739,965	851,019	967,440	1,147,581

See notes to financial statements.

NOTE 1—Significant Accounting Policies:

Dreyfus Worldwide Dollar Money Market Fund, Inc. (the “fund”) is registered under the Investment Company Act of 1940, as amended (the “Act”), as a diversified open-end management investment company. The fund’s investment objective is to provide investors with as high a level of current income as is consistent with the preservation of capital and the maintenance of liquidity. The Dreyfus Corporation (the “Manager” or “Dreyfus”) serves as the fund’s investment adviser. The Manager is a wholly-owned subsidiary of Mellon Bank, N.A., which is a wholly-owned subsidiary of the Mellon Financial Corporation. Dreyfus Service Corporation (the “Distributor”), a wholly-owned subsidiary of the Manager, is the distributor of the fund’s shares, which are sold to the public without a sales charge.

It is the fund’s policy to maintain a continuous net asset value per share of \$1.00; the fund has adopted certain investment, portfolio valuation and dividend and distribution policies to enable it to do so. There is no assurance, however, that the fund will be able to maintain a stable net asset value per share of \$1.00.

The fund’s financial statements are prepared in accordance with U.S. generally accepted accounting principles, which may require the use of management estimates and assumptions. Actual results could differ from those estimates.

The fund enters into contracts that contain a variety of indemnifications. The fund’s maximum exposure under these arrangements is unknown. The fund does not anticipate recognizing any loss related to these arrangements.

(a) Portfolio valuation: Investments in securities are valued at amortized cost in accordance with Rule 2a-7 of the Act, which has been determined by the Board of Directors to represent the fair value of the fund’s investments.

On September 20, 2006, the FASB released Statement of Financial Accounting Standards No. 157 “Fair Value Measurements” (“FAS 157”).

FAS 157 establishes an authoritative definition of fair value, sets out a framework for measuring fair value, and requires additional disclosures about fair-value measurements. The application of FAS 157 is required for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. Management does not believe that the application of this standard will have a material impact on the financial statements of the fund.

(b) Securities transactions and investment income: Securities transactions are recorded on a trade date basis. Realized gain and loss from securities transactions are recorded on the identified cost basis. Interest income, adjusted for accretion of discount and amortization of premium on investments is earned from settlement date and recognized on the accrual basis. Cost of investments represents amortized cost.

The fund has an arrangement with the custodian bank whereby the fund receives earnings credits from the custodian when positive cash balances are maintained, which are used to offset custody fees. For financial reporting purposes, the fund includes net earnings credits as an expense offset in the Statement of Operations.

The fund may enter into repurchase agreements with financial institutions, deemed to be creditworthy by the Manager, subject to the seller's agreement to repurchase and the fund's agreement to resell such securities at a mutually agreed upon price. Securities purchased subject to repurchase agreements are deposited with the fund's custodian and, pursuant to the terms of the repurchase agreement, must have an aggregate market value greater than or equal to the repurchase price plus accrued interest at all times. If the value of the underlying securities falls below the value of the repurchase price plus accrued interest, the fund will require the seller to deposit additional collateral by the next business day. If the request for additional collateral is not met, or the seller defaults on its repurchase obligation, the fund maintains the right to sell the underlying securities at market value and may claim any resulting loss against the seller.

(c) Dividends to shareholders: It is the policy of the fund to declare dividends daily from investment income-net. Such dividends are paid monthly. Dividends from net realized capital gain, if any, are normally declared and paid annually, but the fund may make distributions on a more frequent basis to comply with the distribution requirements of the Internal Revenue Code of 1986, as amended (the “Code”). To the extent that net realized capital gain can be offset by capital loss carryovers, it is the policy of the fund not to distribute such gain.

(d) Federal income taxes: It is the policy of the fund to continue to qualify as a regulated investment company, if such qualification is in the best interests of its shareholders, by complying with the applicable provisions of the Code, and to make distributions of taxable income sufficient to relieve it from substantially all federal income and excise taxes.

On July 13, 2006, the Financial Accounting Standards Board (FASB) released FASB Interpretation No. 48 Accounting for Uncertainty in Income Taxes” (FIN 48). FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. FIN 48 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the fund’s tax returns to determine whether the tax positions are “more-likely-than-not” of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. Adoption of FIN 48 is required for fiscal years beginning after December 15, 2006 and is to be applied to all open tax years as of the effective date. Management does not believe that the application of this standard will have a material impact on the financial statements of the fund.

At October 31, 2006, the components of accumulated earnings on a tax basis were substantially the same as for financial reporting purposes.

The accumulated capital loss carryover of \$335 is available to be applied against future net securities profits, if any, realized subsequent to October 31, 2006. If not applied, \$208 of the carryover expires in fiscal 2008 and \$127 expires in fiscal 2011.

The tax character of distributions paid to shareholders during the fiscal periods ended October 31, 2006 and October 31, 2005, were all ordinary income.

At October 31, 2006, the cost of investments for federal income tax purposes was substantially the same as the cost for financial reporting purposes (see the Statement of Investments).

NOTE 2—Management Fee and Other Transactions With Affiliates:

(a) Pursuant to a management agreement with the Manager, the management fee is computed at the annual rate of .50% of the value of the fund's average daily net assets and is payable monthly. The Manager had undertaken from November 1, 2005 through October 31, 2006 to reduce the management fee paid by the fund, if the fund's aggregate expenses, exclusive of taxes, brokerage fees, interest on borrowings and extraordinary expenses, exceed an annual rate of .75% of the value of the fund's average daily net assets. The reduction in management fee, pursuant to the undertaking, amounted to \$528,494 during the period ended October 31, 2006.

(b) Under the Shareholder Services Plan, the fund reimburses the Distributor an amount not to exceed an annual rate of .25% of the value of the fund's average daily net assets for certain allocated expenses of providing personal services and/or maintaining shareholder accounts. The services provided may include personal services relating to shareholder accounts, such as answering shareholder inquiries regarding the fund and providing reports and other information, and services related to the maintenance of shareholder accounts. During the period ended October 31, 2006, the fund was charged \$1,074,646 pursuant to the Shareholder Services Plan.

The fund compensates Dreyfus Transfer, Inc., a wholly-owned subsidiary of the Manager, under a transfer agency agreement for providing personnel and facilities to perform transfer agency services for the fund.

During the period ended October 31, 2006, the fund was charged \$728,633 pursuant to the transfer agency agreement.

During the period ended October 31, 2006, the fund was charged \$4,164 for services performed by the Chief Compliance Officer.

The components of Due to the Dreyfus Corporation and affiliates consist of: management fees \$295,020, chief compliance officer fees \$1,363 and transfer agency per account fees \$124,000 which are offset against an expense reimbursement currently in effect in the amount of \$30,712.

(c) Each Board member also serves as a Board member of other funds within the Dreyfus complex. Annual retainer fees and attendance fees are allocated to each fund based on net assets.

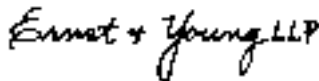

REPORT OF INDEPENDENT REGISTERED
PUBLIC ACCOUNTING FIRM

**Shareholders and Board of Directors of
Dreyfus Worldwide Dollar Money Market Fund, Inc.**

We have audited the accompanying statement of assets and liabilities of Dreyfus Worldwide Dollar Money Market Fund, Inc., including the statement of investments, as of October 31, 2006, and the related statement of operations for the year then ended, the statement of changes in net assets for each of the two years in the period then ended, and financial highlights for each of the years indicated therein. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Fund's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements and financial highlights, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of October 31, 2006 by correspondence with the custodian and others or by other appropriate auditing procedures where replies from others were not received. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of Dreyfus Worldwide Dollar Money Market Fund, Inc. at October 31, 2006, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the indicated years, in conformity with U.S. generally accepted accounting principles.

New York, New York
December 11, 2006

IMPORTANT TAX INFORMATION (Unaudited)

For federal tax purposes the fund hereby designates 89.23% of ordinary income dividends paid during the fiscal year ended October 31, 2006 as qualifying interest related dividends.

INFORMATION ABOUT THE REVIEW AND APPROVAL OF THE FUND'S MANAGEMENT AGREEMENT (Unaudited)

At a meeting of the fund's Board of Directors held on July 11 and 12, 2006, the Board considered the re-approval for an annual period (through August 31, 2007) of the fund's Management Agreement with Dreyfus, pursuant to which Dreyfus provides the fund with investment advisory and administrative services. The Board members, none of whom are "interested persons" (as defined in the Investment Company Act of 1940, as amended) of the fund were assisted in their review by independent legal counsel and met with counsel in executive session separate from representatives of Dreyfus.

Analysis of Nature, Extent and Quality of Services Provided to the Fund. The Board members received a presentation from representatives of Dreyfus regarding services provided to the fund and other funds in the Dreyfus fund complex, and discussed the nature, extent and quality of the services provided to the fund pursuant to its Management Agreement. Dreyfus' representatives reviewed the fund's distribution of accounts and the relationships Dreyfus has with various intermediaries and the different needs of each. Dreyfus' representatives noted the distribution channels for the fund as well as the diversity of distribution among the funds in the Dreyfus fund complex, and Dreyfus' corresponding need for broad, deep, and diverse resources to be able to provide ongoing shareholder services to each distribution channel, including those of the fund. Dreyfus also provided the number of accounts investing in the fund, as well as the fund's asset size.

The Board members also considered Dreyfus' research and portfolio management capabilities and that Dreyfus also provides oversight of day-to-day fund operations, including fund accounting and administration and assistance in meeting legal and regulatory requirements. The Board members also considered Dreyfus' extensive administrative, accounting and compliance infrastructure.

Comparative Analysis of the Fund's Performance and Management Fee and Expense Ratio. The Board members reviewed the fund's performance and placed significant emphasis on comparisons to a group of retail no-load money market funds (the "Performance Group") and to

a larger universe of funds, consisting of all retail money market funds (the "Performance Universe") selected and provided by Lipper, Inc., an independent provider of investment company data. The Board was provided with a description of the methodology Lipper used to select the Performance Group and Performance Universe, as well as the Expense Group and Expense Universe (discussed below). The Board members discussed the results of the comparisons and noted that the fund's total return performance was above median and variously in the second or third quintiles of the Performance Group and the Performance Universe for the comparison periods ended May 31, 2006.

The Board members also discussed the fund's management fee and expense ratio and reviewed the range of management fees and expense ratios of a comparable group of funds (the "Expense Group") and a broader group of funds (the "Expense Universe"), each selected and provided by Lipper. The Board members noted that the fund's management fee was higher than the Expense Group and Expense Universe medians and that the fund's expense ratio was lower than the Expense Group median and higher than the Expense Universe median; the Board members noted that the fund's expense ratio was lower due to the undertaking by Dreyfus to waive fees and reimburse expenses to limit the fund's expense ratio.

Representatives of Dreyfus reviewed with the Board members the advisory fees paid by mutual funds managed by Dreyfus or its affiliates with similar investment objectives, policies and strategies, and included within the fund's Lipper category (the "Similar Funds"). There were no other accounts with similar investment objectives, policies and strategies as the fund managed by Dreyfus or its affiliates. The Board members considered the relevance of the fee information provided for the Similar Funds to evaluate the appropriateness and reasonableness of the fund's management fee.

Analysis of Profitability and Economies of Scale. Dreyfus' representatives reviewed the dollar amount of expenses allocated and profit received by Dreyfus and the method used to determine such expenses and profit. The Board considered information, previously provided and

discussed, prepared by an independent consulting firm regarding Dreyfus' approach to allocating costs to, and determining the profitability of, individual funds and the entire Dreyfus mutual fund complex. The Board members also considered that the methodology had also been reviewed by an independent registered public accounting firm which, like the consultant, found the methodology to be reasonable. The consulting firm also analyzed where any economies of scale might emerge in connection with the management of the fund. The Board members evaluated the profitability analysis in light of the relevant circumstances for the fund and the extent to which economies of scale would be realized if the fund grows and whether fee levels reflect these economies of scale for the benefit of fund investors. The Board members also considered potential benefits to Dreyfus from acting as investment adviser and noted that there were no soft dollar arrangements with respect to trading the fund's investments.

It was noted that the Board members should consider Dreyfus' profitability with respect to the fund as part of their evaluation of whether the fees under the Management Agreement bear a reasonable relationship to the mix of services provided by Dreyfus, including the nature, extent and quality of such services and that a discussion of economies of scale is predicated on increasing assets and that, if a fund's assets had been decreasing, the possibility that Dreyfus may have realized any economies of scale would be less. It also was noted that the profitability percentage for managing the fund was within ranges determined by appropriate court cases to be reasonable given the services rendered and generally superior service levels provided. The Board also noted the fee waiver and expense reimbursement arrangement and its effect on Dreyfus' profitability.

At the conclusion of these discussions, the Board agreed that it had been furnished with sufficient information to make an informed business decision with respect to continuation of the Management Agreement. Based on the discussions and considerations as described above, the Board made the following conclusions and determinations.

- The Board concluded that the nature, extent and quality of the services provided by Dreyfus are adequate and appropriate.
- The Board was generally satisfied with the fund's relative performance.
- The Board concluded that the fee paid by the fund to Dreyfus was reasonable in light of the services provided, comparative performance, expense and advisory fee information, including Dreyfus' undertaking to limit the fund's expense ratio (which reduced the expense ratio of the fund), costs of the services provided and profits to be realized and benefits derived or to be derived by Dreyfus from its relationship with the fund.
- The Board determined that the economies of scale which may accrue to Dreyfus and its affiliates in connection with the management of the fund had been adequately considered by Dreyfus in connection with the management fee rate charged to the fund and that, to the extent in the future it were determined that material economies of scale had not been shared with the fund, the Board would seek to have those economies of scale shared with the fund.

The Board members considered these conclusions and determinations, along with information received on a routine and regular basis throughout the year, and, without any one factor being dispositive, the Board determined that re-approval of the fund's Management Agreement was in the best interests of the fund and its shareholders.

BOARD MEMBERS INFORMATION (Unaudited)

Joseph S. DiMartino (63)
Chairman of the Board (1995)

Principal Occupation During Past 5 Years:

- Corporate Director and Trustee

Other Board Memberships and Affiliations:

- The Muscular Dystrophy Association, Director
- Century Business Services, Inc., a provider of outsourcing functions for small and medium size companies, Director
