REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Member and Board of Directors of Rothschild Investment LLC

Opinion on the Financial Statement

We have audited the statement of financial condition of Rothschild Investment LLC as of December 31, 2022 and the related notes to the financial statement. In our opinion, the financial statement presents fairly, in all material respects, the financial position of Rothschild Investment LLC as of December 31, 2022 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

This financial statement is the responsibility of Rothschild Investment LLC's management. Our responsibility is to express an opinion on Rothschild Investment LLC's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to Rothschild Investment LLC in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to fraud or error. Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to fraud or error, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

We have served as Rothschild Investment LLC's auditor since 2019.

Rothschild Investment LLC
(Formerly Rothschild Investment Corporation)

Notes to Statement of Financial Condition

Note 1. Nature of Organization and Significant Accounting Policies

Nature of organization: Rothschild Investment LLC (the Company) (formerly Rothschild Investment Corporation) is a registered securities broker-dealer and a registered investment adviser. As a broker-dealer, the Company provides brokerage services to retail and institutional customers located primarily throughout the Midwestern United States, with customer transactions cleared through another broker-dealer on a fully disclosed basis. The Company's designated examining authority is the Financial Industry Regulatory Authority ("FINRA"). As an investment adviser, the Company provides investment management services to individuals, trusts and retirement plans.

The Company operates under the provision of Paragraph (k)(2)(ii) of Rule 15c3-3 of the Securities Exchange Act of 1934 and, accordingly, is exempt from the remaining provisions of those Rules. The requirement of Paragraph (k)(2)(ii) provides that the Company clear all transactions on behalf of customers on a fully disclosed basis with a clearing broker-dealer. The clearing broker-dealer carries all of the accounts of the customers and maintains and preserves all related books and records as are customarily kept by a clearing broker. Any customer checks or securities received are promptly transmitted to the clearing broker.

On October 19, 2022, under a purchase agreement Tin Goose Holdings LLC ("Holdings") acquired 100% of the equity interests of the Company. The transaction resulted in a change in control of the Company. Holdings elected not to account for the purchase as a business combination and push down the purchase price to the Company's financial statements.

The following is a summary of the Company's significant accounting policies:

Accounting policies: The Company follows the Generally Accepted Accounting Principles (GAAP), as established by the Financial Accounting Standards Board (FASB), to ensure consistent reporting of financial condition, results of operations, and cash flows.

Use of estimates: The preparation of financial statements in conformity with GAAP requires the Company's management to make estimates and assumptions that affect the reported amounts of assets, liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Furniture, equipment and leasehold improvements: Furniture, equipment and leasehold improvements are recorded at cost. Furniture and equipment are depreciated on a straight-line basis over the estimated useful lives of the assets. Leasehold improvements are amortized on a straight-line basis over the lesser of the term of the lease or the economic useful lives of the improvements.

Revenue recognition: The revenue recognition policies are as follows:

- **Asset Management:** Investment advisory fees are based on contractual rates applied to assets managed and recognized as earned. The Company provides investment advisory services on a daily basis. The Company believes the performance obligation for providing advisory services is satisfied over time because the customer is receiving the benefits as they are provided. Fees are received quarterly and are recognized as revenue over time as they relate specifically to the services provided in that period, which are distinct from the services provided in other periods.
- **Commissions and related clearing expenses** are recorded on a trade-date basis. The Company buys and sells securities on behalf of its customers. The Company believes the performance obligation is satisfied on the trade date because that is when the underlying security is identified, the pricing is agreed upon and the risks and rewards of ownership have been transferred to/from the customer.

Rothschild Investment LLC
(Formerly Rothschild Investment Corporation)

Notes to Statement of Financial Condition

Note 1. Nature of Organization and Significant Accounting Policies (Continued)

Revenue recognition: (continued)

- Commission revenue also includes mutual fund revenues consisting primarily of sales charges earned on open-end funds and 12b-1 distribution and/or service fees from open-end funds and money market funds. The Company may receive fees paid by the funds up front (sales charges) or over time (distribution /service fees). The Company believes that its performance obligation is the sale of securities to investors and as such is fulfilled on trade date. Distribution/service fees recognized in the current period are primarily related to performance obligations that have been satisfied in prior periods. Distribution service fees are accrued monthly as services are provided and amounts are determinable.
- Rebates consist of credits to customers. Rebates are recorded when quantifiable and are shown as reduction of commissions or advisory fees on the statement of operations.

The following contract assets and liabilities are presented under the requirements of Topic 606:

	<u>1/1/2022</u>	<u>12/31/2022</u>
Fee Receivables	<u>\$ 280,446</u>	<u>\$ 289,052</u>
Deferred Fees	<u>\$ 350,929</u>	<u>\$ 318,951</u>
Revenue recognized in the period from: Amounts included in the contract liability at the beginning of the period	<u>\$ 350,929</u>	

The incremental costs of obtaining a contract with a customer are incurred by the Company only when a new contract is obtained. The following are incremental costs that the Company incurs: Commissions and Investment Advisory fees paid to the Company's investment representatives as well as clearing expenses. The Company elected a practical expedient for recording the incremental costs of obtaining a contract with the customer, wherein the Company recognizes such costs as incurred.

Investments: Marketable equity securities are carried at fair value. Realized gains and losses are recorded on a trade date basis and are calculated as the difference between the proceeds received and the cost basis. Unrealized gain/loss is based on securities stated at fair value with the related change shown on the statement of operations. Dividend income is recognized on the ex-dividend date.

Deposits with Clearing Broker: The amounts shown as deposits with clearing broker represents the balances held by clearing broker of uninvested cash, money market funds and unsettled securities.

Income taxes: The Company operates as a single member limited liability company and is considered a disregarded entity for United States income tax reporting purposes. Consequently, the Sole Member recognizes profits and losses of the Company and any related tax liability thereon, on its individual income tax return.

FASB guidance requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained "when challenged" or "when examined" by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense and liability in the current year. Through December 31, 2021 management has determined that there are no material uncertain tax positions.

Rothschild Investment LLC
(Formerly Rothschild Investment Corporation)

Notes to Statement of Financial Condition

Note 1. Nature of Organization and Significant Accounting Policies (Continued)

Income taxes: (continued)

The Company is generally not subject to examination by the U.S. Federal and state tax authorities for tax years before 2020.

Leases: The Company accounts for its leases under ASC 842, Leases. The Company determines if an arrangement is, or contains, a lease at inception date. The Company is a lessee in multiple noncancelable operating leases. If the contract provides the Company the right to substantially all the economic benefits and the right to direct the use of the identified asset, it is considered to be or contain a lease. Right-of-use assets and the related liabilities result from operating leases.

Operating lease assets represent the Company's right to use an underlying asset for the lease term and lease liabilities represent the Company's obligations to make lease payments arising from the lease. Operating lease assets and liabilities are recognized at the lease commencement date based on the estimated present value of lease payments over the lease term. The ROU asset also includes any lease payments made and adjusted for lease incentive and initial direct costs incurred. The implicit rates of our leases are not readily determinable, and accordingly, the Company uses the estimated incremental borrowing rate in determining the present value of lease payments. The Company's incremental borrowing rate for a lease is the rate of interest it would have to pay on a collateralized basis to borrow an amount equal to the lease payments under similar terms and in a similar economic environment. The ROU asset is subsequently measured throughout the lease term at the amount of the remeasured lease liability (i.e., present value of the remaining lease payments), plus unamortized initial direct costs, plus (minus) any prepaid (accrued) lease payments, less the unamortized balance of lease incentives received, and any impairment recognized. Lease costs are recognized on a straight-line basis over the lease term.

The Company's lease agreements do not contain any material residual value guarantees or material restrictive covenants. Payments due under the lease contracts include fixed payments. Variable components of the lease payments such as fair market value adjustments, utilities, and maintenance costs are expensed as incurred and not included in determining the present value of lease liabilities. The lease terms include options to extend or terminate the lease when it is reasonably certain that the Company will exercise that option. The Company has lease agreements with lease and non-lease components which are accounted for as a single lease component.

As an accounting policy election, the Company excludes short-term leases having initial terms of 12 months or less under the new lease accounting guidance and does not include an option to purchase the underlying asset that the Company is reasonably certain to exercise. Leases containing termination clauses in which either party may terminate the lease without cause given a notice period less than 12 months are deemed short-term leases with lease costs included in short-term lease expense. Lease expense is recognized on a straight-line basis over the lease term. Please see Note 6 for additional information on leases.

Subsequent events: The Company has evaluated subsequent events through February 24, 2023, the date at which the financial statements were available to be issued. The Company has concluded that no other events have occurred subsequent to February 24, 2023, which require consideration as adjustments to or disclose in its financial statements.

Rothschild Investment LLC
(Formerly Rothschild Investment Corporation)

Notes to Statement of Financial Condition

Note 2. Receivable from and Deposit with Clearing Broker

The Company clears customer transactions on a fully disclosed basis and proprietary transactions through the Company's clearing broker.

Amounts receivable from and on deposit with the clearing broker at December 31, 2022, consist of the following:

Cash	\$	10,827
Money market funds		1,035,734
Deposit		100,000
Fees receivable		2,000
	\$	<u>1,148,561</u>

The deposit is required to be maintained in accordance with the Company's agreement with the clearing broker.

At December 31, 2022, deposits with the Company's clearing broker may serve as collateral for amounts due to the clearing broker and securities sold short, not yet purchased, if any.

Note 3. Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company utilizes valuation techniques to maximize the use of observable inputs and minimize the use of unobservable inputs. Inputs are broadly defined as assumptions market participants would use in pricing an asset or liability. Financial assets and liabilities recorded at fair value are categorized within the fair value hierarchy based upon the level of judgment associated with the inputs used to measure their value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2: Inputs other than quoted prices within Level 1 that are observable for the asset or liability, either directly or indirectly, and fair value is determined through the use of models or other valuation methodologies. A significant adjustment to a Level 2 input could result in the Level 2 measurement becoming a Level 3 measurement.

Level 3: Inputs are unobservable for the asset or liability and include situations where there is little, if any, market activity for the asset or liability. The inputs into the determination of fair value are based upon the best information in the circumstances and may require significant management judgment or estimation.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, a financial investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the financial investment.

Rothschild Investment LLC
(Formerly Rothschild Investment Corporation)

Notes to Statement of Financial Condition

Note 3. Fair Value Measurements (Continued)

The following table presents the Company's financial assets and liabilities measured at fair value at December 31, 2022 using the fair value hierarchy:

Description	Level 1	Total
Assets		
Receivable from and deposit with clearing broker -		
Money market funds	\$ 1,035,734	\$ 1,035,734
	<u>\$ 1,035,734</u>	<u>\$ 1,035,734</u>

Equity securities are traded on a national securities exchange and are stated at the last reported sales price on the day of valuation. Money market funds are valued based on the published net asset value per share on the day of valuation. These financial instruments are classified as Level 1 in the fair value hierarchy.

As of December 31, 2022, the Company had no financial instruments categorized as Level 2 or Level 3 of the fair value hierarchy.

The Company assesses the levels of the investments at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfer in accordance with the Company's accounting policy regarding the recognition of transfers between levels of the fair value hierarchy. There were no significant transfers among levels 1, 2, and 3 during the year.

Note 4. Furniture, Equipment and Leasehold Improvements

Furniture, equipment, and leasehold improvements at December 31, 2022 consisted of the following:

Furniture and equipment	\$ 290,369
Leasehold improvements	903,508
	<u>1,193,877</u>
Less accumulated depreciation and amortization	(96,926)
	<u>\$ 1,096,951</u>

Note 5. Member's Equity

The Company converted from a corporation to a single member limited liability company in October 2022.

Note 6. Leases

The Company leases office space under a noncancelable operating lease agreement which expires in March 2033 and the Company has executed a new lease effective April 1, 2022. The lease required a deposit for \$225,000 which is included in other assets on the statement of financial condition as of December 31, 2021. The Company's lease does not require any contingent rental payments, impose any financial restrictions, or contain any residual value guarantees. Certain of the Company's leases include renewal options and escalation clauses; renewal options have not been included in the calculation of the lease liabilities and right of use assets as the Company is not reasonably certain to exercise the options. The Company does not act as a lessor or have any leases classified as financing leases.

Rothschild Investment LLC
(Formerly Rothschild Investment Corporation)

Notes to Statement of Financial Condition

Note 6. Leases (Continued)

At December 31, 2022, the Company had operating lease liabilities of \$2,332,749 and right-of-use assets of \$1,014,979 in the Statement of Financial Condition.

The following summarizes quantitative information about the Company's operating leases:

Lease cost	
Operating lease cost	\$ 245,132
Short-term lease cost	34,919
Total lease cost	\$ 280,052
Supplementary Cash Flow Information	
Cash paid for amounts included in measuring operating lease liabilities	\$ 104,383
Lease assets obtained in exchange for operating lease liabilities	986,567
Weighted-average remaining lease term (years)	10.3
Weighted-average discount rate	5%

Maturities of the Company's operating leases, excluding short-term leases, are as follows:

Year Ending December 31:	
2023	\$ 201,118
2024	272,983
2025	279,760
2026	286,704
2027	293,820
Thereafter	1,665,639
Total lease payments	3,000,024
Less: imputed interest	(667,275)
Operating lease liabilities at December 31, 2022	\$ 2,332,749

Note 7. Profit Sharing Plan

The Company has a discretionary profit-sharing plan that covers all eligible employees. Profit sharing amounts may be contributed at the option of the Company's Managing Member.

The Company earns commissions from executing trades for the profit-sharing plan. In addition, investment advisory fees for services rendered to the plan were absorbed by the Company.

Note 8. Contingency

In 2021, the Company submitted a claim to recover professional fees related to the SEC Settlement. The estimated amount of recovery was approximately \$235,000 to \$285,000; however any amounts recovered as a result of the claim would be credited to income in the year received. A check for \$222,000 was received by the Company in 2022.

Note 9. Related Party

The Company provides brokerage and investment services to certain shareholders and executive officers and their family members. Advisory fees are waived and commissions charged may be reduced.

Rothschild Investment LLC
(Formerly Rothschild Investment Corporation)

Notes to Statement of Financial Condition

Note 10. Indemnifications

In the normal course of business, the Company enters into contracts that contain a variety of representations and warranties that provide indemnifications under certain circumstances. The Company's maximum exposure under these agreements is unknown, as this would involve future claims that may be made against the Company that have not yet occurred. However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the financial statements for these indemnifications. Management of the Company expects the risk of loss to be remote.

Note 11. Financial Instruments with Off-Balance-Sheet Risk

Customers' transactions are introduced to and cleared through Pershing, LLC, the Company's clearing broker. Under the terms of its clearing agreement, the Company guarantees the performance of its customers in meeting contracted obligations. In conjunction with the clearing broker, the Company seeks to control the risks associated with its customer activities by requiring customers to maintain collateral in compliance with various regulatory and internal guidelines. Compliance with the various guidelines is monitored daily and, pursuant to such guidelines, the customers may be required to deposit additional collateral, or reduce positions where necessary.

The Company is exposed to off-balance-sheet counterparty risk resulting from principal transactions in securities. Such risk arises in the event that counterparties fail to satisfy their obligations and the related collateral is insufficient. The Company monitors such risk on a daily basis.

The receivable from and deposit with the clearing broker, and cash equivalents held by the clearing broker, resulting from the Company's trading and brokerage activities, represent a concentration of credit risk. The Company does not anticipate nonperformance by its customers or clearing broker. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

The Company maintains cash in its trading accounts at its clearing broker and in bank deposit accounts. The cash in bank deposit accounts may at times exceed federally insured limits. The Company has not experienced any losses in such accounts. Management believes the Company is not exposed to any significant credit risk on cash.

Note 12. Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. The rule also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At December 31, 2022, the Company had net capital of \$1,297,516 which was \$1,047,516 in excess of its required net capital \$250,000. The Company's aggregate indebtedness to net capital ratio was 1.83 to 1.
