GATEWAY TAX CREDIT FUND II LTD.  
(A Florida Limited Partnership)

NOTES TO FINANCIAL STATEMENTS  
(Unaudited)  
SEPTEMBER 30, 2006

NOTE 1 - ORGANIZATION:

Gateway Tax Credit Fund II Ltd. ("Gateway" or "Partnership"), a Florida Limited Partnership, was formed September 12, 1989, under the laws of Florida. Operations commenced on September 14, 1990 for Series 2, September 28, 1990 for Series 3, February 1, 1991 for Series 4, July 1, 1991 for Series 5 and January 1, 1992 for Series 6. Gateway has invested, as a limited partner, in other limited partnerships ("Project Partnerships") each of which owns and operates one or more apartment complexes expected to qualify for Low-Income Housing Tax Credits. Gateway will terminate on December 31, 2040, or sooner, in accordance with the terms of the Limited Partnership Agreement. As of September 30, 2006, Gateway had received capital contributions of \$1,000 from the General Partners and \$37,228,000 from Beneficial Assignee Certificate investors (the "Assignees"). The fiscal year of Gateway for reporting purposes ends on March 31.

Pursuant to the Securities Act of 1933, Gateway filed a Form S-11 Registration Statement with the Securities and Exchange Commission, effective September 12, 1989, which covered the offering (the "Public Offering") of Gateway's Beneficial Assignee Certificates ("BACs") representing assignments of units for the beneficial interest of the limited partnership interest of the Assignor Limited Partner. The Assignor Limited Partner was formed for the purpose of serving in that capacity for the Fund and will not engage in any other business.

Raymond James Partners, Inc. and Raymond James Tax Credit Funds, Inc., wholly-owned subsidiaries of Raymond James Financial, Inc., are the General Partner and the Managing General Partner, respectively.

Gateway offered BACs in five series. BACs in the amounts of \$6,136,000, \$5,456,000, \$6,915,000, \$8,616,000 and \$10,105,000 for Series 2, 3, 4, 5 and 6, respectively had been issued as of September 30, 2006. Each Series is treated as a separate partnership, investing in a separate and distinct pool of Project Partnerships. Net proceeds from each Series are used to acquire Project Partnerships which are specifically allocated to such Series. Income or loss and all tax items from the Project Partnerships acquired by each Series are specifically allocated among the Assignees of such Series.

Operating profits and losses, cash distributions from operations and tax credits are allocated 99% to the Assignees and 1% to the General Partners. Profit or loss and cash distributions from sales of properties will be allocated as formulated in the Limited Partnership Agreement.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting

Gateway utilizes the accrual basis of accounting whereby revenues are recognized when earned and expenses are recognized when obligations are incurred.

Gateway accounts for its investments as the sole limited partner in Project Partnerships ("Investments in Project Partnerships") using the equity method of accounting, because management believes that Gateway does not have a majority control of the major operating and financial policies of the Project Partnerships in which it invests, and reports the equity in losses of the Project Partnerships on a 3-month lag in the Statements of Operations. Under the equity method, the Investments in Project Partnerships initially include:

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued):

- 1) Gateway's capital contribution,
- 2) Acquisition fees paid to the General Partner for services rendered in selecting properties for acquisition, and
- 3) Acquisition expenses including legal fees, travel and other miscellaneous costs relating to acquiring properties.

Quarterly the Investments in Project Partnerships are increased or decreased as follows:

- 1) Increased for equity in income or decreased for equity in losses of the Project Partnerships,
- 2) Decreased for cash distributions received from the Project Partnerships, and
- 3) Decreased for the amortization of the acquisition fees and expenses.

For the fiscal year ended March 31, 2006, Gateway changed the period over which the intangible acquisition fees and expenses are amortized. In all prior years, the period in which such intangible assets had been amortized was 35 years. In the fiscal year ended March 31, 2006, this amortization period was changed to 15 years to better approximate the period over which the benefits of these investments are realized. As a result of this change in estimate, an additional amortization expense of \$23,779 for Series 5 and \$33,465 for Series 6, or a total of \$57,244 for all Series of Gateway, was recognized during the year-ended March 31, 2006, as compared to the amortization expense amount which would have been realized had the estimated amortization period not changed during the year. The amortization expense is shown on the Statements of Operations.

Pursuant to the limited partnership agreements for the Project Partnerships, cash losses generated by the Project Partnerships are allocated to the general partners of those partnerships. In subsequent years, cash profits, if any, are first allocated to the general partners to the extent of the allocation of prior years' cash losses.

Since Gateway invests as a limited partner, and therefore is not obligated to fund losses or make additional capital contributions, it does not recognize losses from individual Project Partnerships to the extent that these losses would reduce the investment in those Project Partnerships below zero. The suspended losses will be used to offset future income from the individual Project Partnerships. Any cash distributions received from Project Partnerships which have a zero investment balance are accounted for as distribution income in the period the cash distribution is received by Gateway.

Gateway reviews its investments in Project Partnerships to determine if there has been any permanent impairment whenever events or changes in circumstances indicate that the carrying amount of the investment may not be recoverable. If the sum of the expected future cash flows is less than the carrying amount of the investment, Gateway recognizes an impairment loss. No impairment loss has been recognized in the accompanying financial statements for the six-month period ended September 30, 2006. For the fiscal year ended March 31, 2006, impairment expense was recognized in the statement of operations in Series 6 in the total amount of \$343,241. Refer to Note 5 - Investment in Project Partnerships for further details regarding the components of the Investment in Project Partnership balance.

Gateway, as a limited partner in the Project Partnerships, is subject to risks inherent in the ownership of property which are beyond its control, such as fluctuations in occupancy rates and operating expenses, variations in rental schedules, proper maintenance and continued eligibility of tax credits. If the cost of operating a property exceeds the rental income earned thereon, Gateway may deem it in its best interest to voluntarily provide funds in order to protect its investment. Gateway does not guarantee any of the mortgages or other debt of the Project Partnerships.

Cash and Cash Equivalents

It is Gateway's policy to include short-term investments with an original maturity of three months or less in Cash and Cash Equivalents. Short-term investments are comprised of money market mutual funds.

## NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (Continued):

### Concentration of Credit Risk

Financial instruments which potentially subject Gateway to concentrations of credit risk consist of cash investments in a money market mutual fund that is advised by a wholly-owned subsidiary of Raymond James Financial, Inc.

### Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates that affect certain reported amounts and disclosures. These estimates are based on management's knowledge and experience. Accordingly, actual results could differ from these estimates.

### Investment in Securities

Gateway applies Statement of Financial Accounting Standards No. 115, Accounting for Certain Investments in Debt and Equity Securities ("FAS 115"). Under FAS 115, Gateway is required to categorize its debt securities as held-to-maturity, available-for-sale or trading securities, dependent upon Gateway's intent in holding the securities. Gateway's intent is to hold all of its debt securities (U.S. Government Security Strips and U.S. Treasury Notes) until maturity and to use these assets to fund Gateway's ongoing operations. Interest income is recognized ratably on the U.S. Government Strips and U.S. Treasury Notes using the effective yield to maturity.

### Income Taxes

No provision for income taxes has been made in these financial statements, as income taxes are a liability of the partners rather than of Gateway.

### Reclassifications

For comparability, certain 2005 figures have been reclassified, where appropriate, to conform with the financial statement presentation used in 2006.

### Variable Interest Entities

In January 2003, the FASB issued FASB Interpretation No. 46 ("FIN46"), "Consolidation of Variable Interest Entities, an Interpretation of ARB No. 51," which was subsequently revised in December, 2003. Gateway has adopted FIN 46 and applied its requirements to all Project Partnerships in which Gateway held an interest. Generally, a variable interest entity, or VIE, is an entity with one or more of the following characteristics, (a) the total equity investment at risk is not sufficient to permit the entity to finance its activities without additional subordinated financial support; (b) as a group the holders of the equity investment at risk lack (i) the ability to make decisions about an entity's activities through voting or similar rights, (ii) the obligation to absorb the expected losses of the entity; or (c) the equity investors have voting rights that are not proportional to their economic interests and substantially all of the entity's activities either involve, or are conducted on behalf of, an investor that has disproportionately few voting rights. FIN 46 requires VIE to be consolidated in the financial statements of the entity that is determined to be the primary beneficiary of the VIE. The primary beneficiary, as is applicable to Gateway's circumstances, is the party in the Project Partnership equity group that is most closely associated with the Project Partnership.

Gateway holds variable interests in 141 VIE's, which consist of Project Partnerships, which Gateway is not the primary beneficiary. Gateway's maximum exposure to loss as a result of its involvement with unconsolidated VIE's is limited to Gateway's recorded investments in and receivables from those VIE's, which is approximately \$502,658 at September 30, 2006. Gateway may be subject to additional losses to the extent of any financial support that Gateway voluntarily provides to those Project Partnerships in the future.

### Basis of Preparation

The unaudited financial statements presented herein have been prepared in accordance with the instructions to Form 10-Q and do not include all of the information and note disclosures required by generally accepted accounting

principles. These statements should be read in conjunction with the financial statements and notes thereto included with the Partnership's report on Form 10-K for the year ended March 31, 2006. In the opinion of management these financial statements include adjustments, consisting only of normal recurring adjustments, necessary to fairly summarize the Partnership's financial position and results of operations. The results of operations for the periods may not be indicative of the results to be expected for the year.

NOTE 3 - INVESTMENT IN SECURITIES:

The September 30, 2006 Balance Sheet includes Investment in Securities consisting of U.S. Government Security Strips and U.S. Treasury Notes which represents their cost, plus accreted interest income of \$1,406 for Series 2, \$1,406 for Series 3, \$1,970 for Series 4, \$1,118 for Series 5 and \$55,900 for Series 6. The Investment in Securities are commonly held in a brokerage account with Raymond James and Associates, Inc. A separate accounting is maintained for each series' share of the investments.

NOTE 4 - RELATED PARTY TRANSACTIONS:

The Payable to General Partners primarily represents the asset management fees owed to the General Partners at the end of the period. It is unsecured, due on demand and, in accordance with the limited partnership agreement, non-interest bearing. Within the next 12 months, the Managing General Partner does not intend to demand payment on the portion of Asset Management Fees payable classified as long-term on the Balance Sheet.

For the six months ended September 30, 2006 and 2005 the General Partners and affiliates are entitled to compensation and reimbursement for costs and expenses incurred by Gateway as follows:

Asset Management Fee - The Managing General Partner is entitled to be paid an annual asset management fee equal to 0.25% of the aggregate cost of Gateway's interest in the projects owned by the Project Partnerships. The asset management fee will be paid only after all other expenses of Gateway have been paid. These fees are included in the Statements of Operations.

## NOTE 6 - SALE OF PROJECT PARTNERSHIPS:

Gateway is currently in the process of disposing of its investments in Project Partnerships which have reached the end of their fifteen year tax-credit compliance period. This process may take a number of years to complete. Gateway's objective is to maximize the investor's return wherever possible and ultimately, to liquidate the Project Partnerships. Gateway has not classified the Project Partnerships as held for sale in the accompanying financial statements because Gateway believes they do not meet all of the criteria required by SFAS 144, "Accounting for the Impairment or Disposal of Long-Lived Assets".

Generally, the market for Project Partnerships is limited. Some of the factors which negatively impact the marketability of these projects include 1) requirements by government agencies or the projects debt holder to continue to maintain the property in the low-income housing program, and 2) the mortgage balance of the property is very near the initial balance as a result of the heavily subsidized debt of the Project Partnerships which offered extremely low interest rates to the borrower and lengthy (usually 50 year) amortization periods.

The following summarizes the most recent status of the Project Partnership sale/disposal process:

### Series 2

Gateway has consented to the general partner granting an option for either the general partner or a third-party to purchase the Partnership Interest:

Brookhaven Apartments	Lewiston Country Estates
Lakeshore Apartments	Rolling Oaks II Apartments

Should all these options be exercised, the estimated net sales proceeds to Gateway from the sales transactions are estimated to be \$445,000, or \$72.52 per limited partnership unit potentially available for distribution to the Limited Partners over the next 24 months. These options to purchase could expire without being exercised which would result in no sales proceeds and remarketing of the Project Partnerships, the results of which are undeterminable.

### Series 3

Project Partnerships currently listed for sale on a commercial real estate for sale website:

Logansport Seniors Apartments	Southwood Apartments
Mill Run Apartments	

Gateway has consented to the general partner granting an option for either the general partner or a third-party to purchase the Partnership Interest:

Birchwood Apartments	Countrywood Apartments
----------------------	------------------------

Should all these options be exercised, the estimated net sales proceeds to Gateway from the sales transactions are estimated to be \$175,000, or \$32.07 per limited partnership unit potentially available for distribution to the Limited Partners over the next 24 months. These options to purchase could expire without being exercised which would result in no sales proceeds and remarketing of the Project Partnerships, the results of which are undeterminable.

Gateway has approved the sale to the general partner of the Project Partnerships:

Brubaker Square Apartments	Villa Allegra Apartments
Plaza Senior Village Apartments	

The estimated net proceeds to Gateway from the sales of these Project Partnerships are estimated to be \$255,000, or \$46.74 per limited partnership unit, which would be available for distribution to the Limited Partners subsequent to the closing of the sales transactions.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations:

Results of Operations, Liquidity and Capital Resources

Operations commenced on September 14, 1990, with the first admission of Assignees in Series 2. The proceeds from Assignees' capital contributions available for investment were used to acquire interests in Project Partnerships.

As disclosed on the statement of operations for each Series, interest income is comparable for the six months ended September 30, 2006 and September 30, 2005. The General and Administrative expenses - General Partner and General and Administrative expenses - Other for the six months ended September 30, 2006, as compared to the six months ended September 30, 2005, have increased due to higher administrative costs arising from the process of evaluating potential dispositions of Project Partnerships.

The capital resources of each Series are used to pay General and Administrative operating costs including personnel, supplies, data processing, travel and legal and accounting associated with the administration and monitoring of Gateway and the Project Partnerships. The capital resources are also used to pay the Asset Management Fee due the Managing General Partner, but only to the extent that Gateway's remaining resources are sufficient to fund Gateway's ongoing needs. (Payment of any Asset Management Fee unpaid at the time Gateway sells its interests in the Project Partnerships is subordinated to the return of the investors' original capital contributions).

The sources of funds to pay the operating costs of each Series are cash and cash equivalents, short-term investments and interest earned thereon, the maturity of U.S. Treasury Security Strips ("Zero Coupon Treasuries") and U.S. Treasury Notes (purchased in July 2006), which were purchased with funds set aside for this purpose and cash distributed to the Series from the operations of the Project Partnerships.

From inception of Gateway to-date, two Series have paid distributions upon sale of Project Partnerships. A distribution of \$157,126 related to the sale of Highland View, LP, in Series 5 was made during the quarter ended September 30, 2005, and a distribution of \$224,074 related to the sale of Mountain Crest, LP, in Series 6 was made during the quarter ended December 31, 2005. Future distributions may be made for any particular Series as a result of the sale of other Project Partnerships.

Series 2 - Gateway closed this series on September 14, 1990 after receiving \$6,136,000 from 375 Assignees. Equity in Losses of Project Partnerships for the six months ended September 30, 2006 decreased from \$13,112 for the six months ended September 30, 2005 to \$0 as a result of the suspension of losses in this Series so that the Investment in Project Partnerships does not fall below zero. (These Project Partnerships reported depreciation and amortization of \$434,855 and \$437,738 for the six months ended June 30, 2005 and 2006, respectively.) As a result, management expects that this Series, as well as those described below, will report its equity in Project Partnerships as a loss for tax and financial reporting purposes. Overall, management believes the Project Partnerships are operating as expected and have generated tax credits which met projections.

At September 30, 2006, the Series had \$151,735 of short-term investments (Cash and Cash Equivalents). It also had \$126,583 in U.S. Treasury Notes with a maturity value of \$127,000 at June 30, 2007. Management believes the sources of funds are sufficient to meet current and ongoing operating costs for the foreseeable future, and to pay part of the Asset Management Fee.

As disclosed on the statement of cash flows, the Series had a net loss of \$64,997 for the six months ended September 30, 2006. However, after adjusting for the changes in operating assets and liabilities, net cash used in operating activities was \$43,686. Cash used in investing activities totaled \$55,108, consisting of cash distributions from the Project Partnerships and proceeds from the redemption of securities, offset by the purchase of U.S. Treasury Notes in July 2006.

Series 3 - Gateway closed this series on December 13, 1990 after receiving \$5,456,000 from 398 Assignees. Equity in Losses of Project Partnerships for the six months ended September 30, 2006 and 2005 was \$0 as a result of the

suspension of losses in this Series so that the Investment in Project Partnerships does not fall below zero. (These Project Partnerships reported depreciation and amortization of \$482,927 and \$479,179 for the six months ended June 30, 2005 and 2006, respectively.) Overall, management believes the Project Partnerships are operating as expected and have generated tax credits which met projections.

At September 30, 2006, the Series had \$134,240 of short-term investments (Cash and Cash Equivalents). It also had \$126,583 in U.S. Treasury Notes with a maturity value of \$127,000 at June 30, 2007. Management believes the sources of funds are sufficient to meet current and ongoing operating costs for the foreseeable future, and to pay part of the Asset Management Fee.

As disclosed on the statement of cash flows, the Series had a net loss of \$57,145 for the six months ended September 30, 2006. However, after adjusting for the changes in operating assets and liabilities, net cash used in operating activities was \$47,384. Cash used in investing activities totaled \$54,411, consisting of cash distributions from the Project Partnerships and proceeds from the redemption of securities, offset by the purchase of U.S. Treasury Notes in July 2006.

Subsequent to September 30, 2006, Gateway sold its Project Partnership investment in Birchwood Apartments. The sale of this Project Partnerships' assets will be reflected in the financial statements for the quarter ended December 31, 2006. Gateway received net proceeds from the sale of this Project Partnership of approximately \$100,000.

Series 4 - Gateway closed this series on May 31, 1991 after receiving \$6,915,000 from 465 Assignees. Equity in Losses of Project Partnerships for the six months ended September 30, 2006 and 2005 was \$0 as a result of the suspension of all losses in this Series so that the Investment in Project Partnerships does not fall below zero. (These Project Partnerships reported depreciation and amortization of \$516,596 and \$522,094 for the six months ended June 30, 2005 and 2006, respectively.) Overall, management believes the Project Partnerships are operating as expected and have generated tax credits which met projections.

At September 30, 2006, the Series had \$177,519 of short-term investments (Cash and Cash Equivalents). It also had \$177,414 in U.S. Treasury Notes with a maturity value of \$178,000 at June 30, 2007. Management believes the sources of funds are sufficient to meet current and ongoing operating costs for the foreseeable future, and to pay part of the Asset Management Fee.

As disclosed on the statement of cash flows, the Series had a net loss of \$71,264 for the six months ended September 30, 2006. However, after adjusting for the changes in operating assets and liabilities, net cash used in operating activities was \$57,273. Cash used in investing activities totaled \$87,412, consisting of cash distributions from the Project Partnership and proceeds from the redemption of securities, offset by the purchase of U.S. Treasury Notes in July 2006.

Series 5 - Gateway closed this series on October 11, 1991 after receiving \$8,616,000 from 535 Assignees. Equity in Losses of Project Partnerships for the six months ended September 30, 2006 increased from \$1,348 for the six months ended September 30, 2005 to \$2,537 as a result of a lesser proportion of the Partnerships' share of net loss being suspended. Suspended losses are a direct result of the Investment balance in Project Partnership reaching a zero balance of individual Project Partnerships. Since more Project Partnerships have accumulated enough losses to warrant a zero balance, additional losses are suspended since the Partnership's accounting policy is to not carry Investments in Project Partnerships below zero. (These Project Partnerships reported depreciation and amortization of \$612,593 and \$601,764 for the six months ended June 30, 2005 and 2006, respectively.) Overall, management believes the Project Partnerships are operating as expected and have generated tax credits which met projections.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (Continued):

At September 30, 2006, the Series had \$215,980 of short-term investments (Cash and Cash Equivalents). It also had \$100,669 in U.S. Treasury Notes with a maturity value of \$101,000 at June 30, 2007. Management believes the sources of funds are sufficient to meet current and ongoing operating costs for the foreseeable future, and to pay part of the Asset Management Fee.

As disclosed on the statement of cash flows, the Series had a net loss of \$92,766 for the six months ended September 30, 2006. However, after adjusting for Equity in Losses of Project Partnerships of \$2,537 and the changes in operating assets and liabilities, net cash used in operating activities was \$60,764. Cash provided by investing activities totaled \$14,305, consisting of cash distributions from the Project Partnerships and proceeds from the redemption of securities, offset by the purchase of U.S. Treasury Notes in July 2006.

Series 6 - Gateway closed this series on March 11, 1992 after receiving \$10,105,000 from 625 Assignees. Equity in Losses of Project Partnerships for the six months ended September 30, 2006 decreased from a loss of \$106 for the six months ended September 30, 2005 to income of \$12,741 due to a decrease in total expenses of the Project Partnership. (These Project Partnerships reported depreciation and amortization of \$689,524 and \$646,609 for the six months ended June 30, 2005 and 2006, respectively.) Overall, management believes the Project Partnerships are operating as expected and are generating tax credits which meet projections.

At September 30, 2006, the Series had \$150,270 of short-term investments (Cash and Cash Equivalents). It also had \$81,327 in Zero Coupon Treasuries with maturities providing \$83,000 in fiscal year 2007. In addition, the series had \$278,079 in U.S. Treasury Notes with a maturity value of \$279,000 at June 30, 2007. Management believes the sources of funds are sufficient to meet current and ongoing operating costs for the foreseeable future, and to pay part of the Asset Management Fee.

As disclosed on the statement of cash flows, the Series had a net loss of \$90,906 for the six months ended September 30, 2006. However, after adjusting for Equity in Income of Project Partnerships of \$12,741 and the changes in operating assets and liabilities, net cash used in operating activities was \$62,295. Cash used in investing activities totaled \$251,015, consisting of cash distributions from the Project Partnerships, offset by the purchase of U.S. Treasury Notes in July 2006.

Exit Strategy

The IRS compliance period for low-income housing tax credit properties is generally 15 years from occupancy following construction or rehabilitation completion.

Many of the Project Partnerships have reached the end of their tax-credit compliance period and those Project Partnerships that have yet to reach the end of their tax-credit compliance period will do so within the next three years. To-date, two of the Project Partnerships have been sold and, in accordance with the Gateway partnership agreement, the entire net proceeds received from these sales have been disbursed to the Limited Partners of those series of Gateway.

Gateway is presently evaluating the potential disposition of each of the Project Partnerships which have reached the end of their tax-credit compliance period and as opportunities arise, will endeavor to sell Gateway's interest in those Project Partnerships. The Partnerships objective is to maximize the investor's return wherever possible and ultimately, to liquidate the Project Partnerships that no longer provide tax benefits to investors. Refer to Note 6 - Sale of Project Partnerships for discussion of the process.

Gateway has no direct employees. The General Partners have full and exclusive discretion in management and control of Gateway.

Item 3. Quantitative and Qualitative Disclosure About Market Risk:

As a small business issuer, no information is required.

Item 4. Controls and Procedures:

Within 90 days prior to the filing of this report, under the supervision and with the participation of the Partnership's management, including the General Managing Partnership's chief executive and chief financial officers, an evaluation of the effectiveness of the Partnership's disclosure controls and procedures (as defined in Rule 13a-14(c) under the Securities Exchange Act of 1934) was performed. Based on this evaluation, such officers have concluded that the Partnership's disclosure controls and procedures were effective as of the date of that evaluation in alerting them in a timely manner to material information relating to the Partnership required to be included in this report and the Partnership's other reports that it files or submits under the Securities Exchange Act of 1934. There were no significant changes in the Partnership's internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation.
