**United Community Banks, Inc. Reports First Quarter Results  
*Strong Core Profitability, Loan Growth of 9% and Deposit Growth of 7%***

GREENVILLE, SC – April 19, 2022 - United Community Banks, Inc. (NASDAQ: UCBI) (United) today announced that net income for the first quarter was \$48.0 million and pre-tax, pre-provision income was \$83.5 million. Diluted earnings per share of \$0.43 for the quarter represented a decrease of \$0.39 or 48%, from the first quarter of 2021, and represented a decrease of \$0.12 or 22% from the fourth quarter of 2021. The quarter was highlighted by strong 9% annualized core loan growth, 7% annualized deposit growth, 16 basis points of net interest margin expansion, a reserve build to 1.02% of loans and an improvement in the efficiency ratio to 57.4%, or 53.1% on an operating basis, which excludes the effect of merger-related and other charges.

A primary driver of the reduced earnings on a GAAP basis relative to prior quarters was a higher credit loss provision, as the acquisition of Reliant in the current quarter necessitated the establishment of an allowance for credit losses, often referred to as a “double dip” under CECL, as well as the wind down of the PPP program that resulted in significantly less fee accretion, which was down \$8.7 million year over year. Excluding these items, our operating trends continue to improve with strong pre-tax, pre-provision income for the quarter of \$83.5 million which was \$17.9 million, or 27% higher, than the fourth quarter of 2021, and \$1.9 million, or 2% greater, than the first quarter of 2021.

United’s first quarter return on assets (ROA) was 0.78% and return on common equity was 6.80%. On an operating basis, United’s ROA was 0.89% and its return on tangible common equity was 11.0%. On a pre-tax, pre-provision basis, operating ROA was 1.52% for the quarter.

Total loans increased by \$2.6 billion during the quarter including \$2.3 billion of loans acquired in the Reliant acquisition. Excluding the effect of PPP and the acquired Reliant loans, core organic loan growth was 9% annualized. Excluding deposits received from the Reliant acquisition, deposits grew by 7% annualized. United’s cost of deposits was flat at 0.06%.

Chairman and CEO Lynn Harton stated, “Core performance measures continue to be strong for the company. Organic loan and deposit growth were excellent. Mortgage production remained strong and comparable to fourth quarter levels and our SBA business also performed well in the quarter.” Harton continued, “From a strategic perspective, we are excited to have completed the acquisition of Reliant on January 1 and are proud to welcome their outstanding team of great bankers to the United franchise. Nashville is a dynamic market and we look forward to the growth and opportunities it will bring for years to come.”

Mr. Harton continued “We have a very positive outlook for 2022 for United, supported by strong business growth across our markets and a balance sheet that is well-positioned for increasing interest rates. Additionally, we believe we have a balanced business mix with a focus on credit quality and risk management that will sustain our performance through economic and business cycles.”

Harton concluded “We are proud to announce we have once again ranked Highest in Customer Satisfaction in Retail Banking in the Southeast in 2022 according to J.D. Power. Our customers have given us this recognition for eight of the last nine years, and the third consecutive year. Service is at the core of our culture and the main focus and mission of our outstanding employees. Congratulations to each of them for this outstanding recognition!”

**First Quarter 2022 Financial Highlights:**

- Net income of \$48.0 million and pre-tax, pre-provision income of \$83.5 million

- Net charge-offs of \$2.98 million, or 8 basis points as a percentage of average loans, up 7 basis points from the fourth quarter

- Core transaction deposits, excluding Reliant, were up \$478 million, which represents a 13% annualized growth rate for the quarter
- Net interest margin of 2.97% was up 16 basis points from the fourth quarter, mainly due to the impact of the Reliant acquisition and the deployment of cash into securities
