

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, DC 20549

FORM 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2006

The Savannah Bancorp, Inc.

(Exact name of registrant as specified in its charter)

Georgia	0-18560	58-1861820
State of Incorporation	SEC File Number	Tax I.D. Number

25 Bull Street, Savannah, GA 31401
(Address of principal executive offices) (Zip Code)

912-629-6486
(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:
Common, \$1.00 Par Value **NASDAQ Global Market**
Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☐ No ☒
Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act. Yes ☐ No ☒

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days.
Yes ☒ No ☐

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):
Large accelerated filer ☐ Accelerated filer ☒ Non-accelerated filer ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act) Yes ☐ No ☒

The aggregate market value of the voting and non-voting common equity at June 30, 2006 held by non-affiliates, based on the price of the last trade of \$30.26 per share times 4,404,680 non-affiliated shares, was \$133,285,617.

APPLICABLE ONLY TO CORPORATE REGISTRANTS

As of February 28, 2007, the registrant had outstanding 5,781,063 shares of common stock.

Portions of the 2006 Annual Report to Shareholders of Registrant are incorporated in Parts I, II and IV of this report. Portions of the Proxy Statement of Registrant dated March --16, 2007 are incorporated in Part III of this report.

PART I

The Savannah Bancorp, Inc. (the "Company") may, from time to time, make written or oral forward-looking statements (as defined in the Private Securities Litigation Reform Act of 1995), including statements contained in the Company's filings with the United States Securities and Exchange Commission ("SEC" or "Commission") (including this Annual Report on Form 10-K and the exhibits thereto), in its reports to shareholders and in other communications by the Company. These forward-looking statements may include, among others, statements about our beliefs, plans, objectives, goals, expectations, estimates and intentions that are subject to significant risks and uncertainties and which may change based on various factors, many of which are beyond our control. The words "may," "could," "should," "would," "believe," "anticipate," "estimate," "expect," "intend," "plan" and similar expressions are intended to identify forward-looking statements. The following factors, among others, could cause our financial performance to differ materially from what is contemplated in those forward-looking statements:

- The strength of the United States economy in general and the strength of the local economies in which the Company conducts operations;
- The effects of, and changes in, trade, monetary and fiscal policies and laws, including interest rate policies of the Board of Governors of the Federal Reserve System;
- Inflation, interest rate, market and monetary fluctuations;
- Adverse conditions in the stock market and other capital markets and the impact of those conditions on our capital markets and capital management activities, including our investment and wealth management advisory businesses;
- Changes in United States foreign or military policy;
- The timely development of competitive new products and services by the Company and the acceptance of those products and services by new existing customers;
- The willingness of customers to accept third-party products marketed by us;
- The willingness of customers to substitute competitors' products and services for the Company's products and services and vice versa;
- The impact of changes in financial services' laws and regulations (including laws concerning taxes, banking, securities and insurance);
- Technological changes;
- Changes in consumer spending and saving habits;
- The effect of corporate restructuring, acquisitions or dispositions, including the actual restructuring and other related charges and the failure to achieve the expected gains, revenue growth or expense savings from such corporate restructuring, acquisitions or dispositions;
- The growth and profitability of our noninterest or fee income being less than expected;
- Unanticipated regulatory or judicial proceedings;
- The impact of changes in accounting policies by the SEC or the Financial Accounting Standards Board;
- Adverse changes in the financial performance and/or condition of our borrowers, which could impact the repayment of those borrowers' outstanding loans; and
- The success of the Company at managing the risks involved in the foregoing.

The Company cautions that the foregoing list of important factors is not exclusive. The Company does not undertake to update any forward-looking statement, whether written or oral, that may be made from time to time by or on our behalf except as may be required by our disclosure obligations in filings we make with the SEC under federal securities laws.

Item 1. Business

(a) General Development of Business

The Company was incorporated as a Georgia business corporation on October 5, 1989, for the purpose of becoming a bank holding company. The Company became a bank holding company within the meaning of the Federal Bank Holding Company Act and the Georgia Bank Holding Company Act upon the acquisition of 100 percent of the common stock of The Savannah Bank, National Association ("Savannah") on August 22, 1990.

In February 1998, the Company entered into a plan of merger to exchange shares of its stock for shares of Bryan Bancorp of Georgia, Inc. ("Bryan"), the bank holding company for Bryan Bank & Trust ("Bryan Bank"). The transaction was valued at approximately \$24 million. The merger, which was accounted for as a pooling of interests, was a tax-free reorganization for federal income tax purposes. The merger was consummated on December 15, 1998. Bryan was merged into the Company and Bryan Bank became a wholly-owned subsidiary of the Company on the merger date.

On February 6, 2006, the Company invested \$10 million cash, a portion of the net proceeds from an August 2005 private placement stock offering, in 100 percent of the common stock of Harbourside Community Bank ("Harbourside"), a newly-formed federal stock savings bank, located on Hilton Head Island, South Carolina. In addition to full-service banking, Harbourside conducts mortgage banking activities including mortgage loan origination, sales and servicing. The plans for forming Harbourside began in October 2003 when Savannah opened a mortgage loan production office on Hilton Head Island.

Savannah, Bryan Bank and Harbourside (the "Subsidiary Banks" or "Banks") currently are the only operating subsidiaries of the Company. Savannah received its charter from the Office of the Comptroller of the Currency ("OCC") to commence business and opened for business on August 22, 1990. Bryan Bank received its charter from the Georgia Department of Banking and Finance ("GDBF") in December 1989. Harbourside received its charter from the Office of Thrift Supervision ("OTS") on February 6, 2006 and commenced public business on March 1, 2006. The deposits at the Subsidiary Banks are insured by the Federal Deposit Insurance Corporation ("FDIC").

As of December 31, 2006, Savannah had six full service offices, total assets of \$591 million, total loans of \$508 million, total deposits of \$494 million, total shareholders' equity of \$48.3 million and \$8.3 million in 2006 net income. As of December 31, 2006, Bryan Bank had one full service office, total assets of \$189 million, total loans of \$162 million, total deposits of \$161 million, total shareholders' equity of \$16.6 million and net income of \$4.0 million for the year then ended. Harbourside had one full service office, total assets of \$66.2 million, total loans of \$50.7 million, total deposits of \$52.5 million, total shareholders' equity of \$8.7 million and a net loss of \$1.3 million for 2006.

In September 2005, the Company formed SAVB Properties, LLC for the primary purpose of owning a 50 percent interest in two real estate partnerships. Johnson Square Associates, a Georgia general partnership, owns a seven-story, 35,000 square foot building at 25 Bull Street on Johnson Square in downtown Savannah. The Company currently leases approximately 25 percent of this space for its corporate headquarters and the main office of Savannah. Whitaker Street Associates, a Georgia Limited Partnership, owned the 80' x 200' parking lot directly across Whitaker Street from 25 Bull Street. Under an agreement with the City of Savannah, the parking lot is currently being re-developed as part of a 3 acre, 1100 space underground parking garage. Upon completion of the garage construction, the partnership's surface parking lot will be restored and will include the structural foundation adequate to support a 6-story building, the maximum height allowed on this property by city ordinances. This lot will adjoin Ellis Square, one of Savannah's original squares, which is being restored by the City of Savannah.

(b) Information about Industry Segments

In June 1997, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards ("SFAS") No. 131, "Disclosures about Segments of an Enterprise and Related Information" ("SFAS 131"). SFAS 131 requires disclosure of financial and descriptive information about an enterprise's operating segments in annual and interim financial reports issued to shareholders. It defines an operating segment as a component of an enterprise which engages in business activities that generate revenues and incur expenses, whose operating results are reviewed by the chief operating decision makers in the determination of resource allocation and performance, and for which discrete financial information is available. The Company has two

segments, commercial banking and mortgage banking. In 2006, the Company discontinued the sale of loans on a servicing retained basis and reduced the related mortgage banking activities. Mortgage banking does not meet the criteria for segment reporting.

(c) Narrative Description of Business

General

The Company is authorized to engage in any corporate activity permitted by law, subject to applicable federal regulatory restrictions on the activities of bank holding companies. The Company was formed for the primary purpose of becoming a holding company to own 100 percent of the stock of the Subsidiary Banks. The holding company structure provides the Company with greater flexibility than a bank would otherwise have to expand and diversify its business activities through newly formed subsidiaries or through acquisitions.

Banking Services

The Subsidiary Banks have approximately 195 full-time and 12 part-time employees and offer a full range of deposit services, including checking accounts, savings accounts and various time deposits ranging from daily money market accounts to long-term certificates of deposit. The transaction accounts and time deposits are tailored to the principal market areas at rates competitive with those offered in the area. In addition, retirement accounts such as Individual Retirement Accounts and Simplified Employee Pension accounts are offered. The FDIC insures all deposit accounts up to the maximum amount (currently \$100,000 per non-retirement account or \$250,000 for certain retirement accounts). The Subsidiary Banks solicit these accounts from individuals, businesses, foundations, organizations, and governmental authorities.

The Subsidiary Banks offer a full range of short-term and medium-term commercial, real estate, residential mortgage and personal loans. The Subsidiary Banks' primary lending focus is business, real estate and consumer lending. Commercial loans include both secured loans and a limited volume of unsecured loans. Consumer loans include secured loans for financing automobiles, home improvements, real estate and other personal investments. Unsecured consumer loans are limited and generally made to the most creditworthy borrowers. The Subsidiary Banks originate fixed and variable rate mortgage loans and offer real estate construction and acquisition loans.

The Subsidiary Banks' lending policies provide each lending officer with written guidance for lending activities as approved by the Banks' Board of Directors ("Board"). Real estate loan-to-value guidelines generally conform to regulatory loan-to-value limits. Additionally, the existence of reliable sources of repayment/cash flow are usually required before making any loan, regardless of the collateral. Appraisals are obtained as required. Lending officers or contract inspectors make on-site inspections on construction loans. Lending authority is delegated to each lending officer by the Credit Committee of each Subsidiary Banks' Board. Loans in excess of the individual officer limits must be approved by a senior officer with sufficient approval authority delegated by these committees. Loans to borrowers whose aggregate combined companywide exposure exceeds \$2,500,000 at Savannah, \$1,500,000 at Harbourside and \$1,000,000 at Bryan Bank require the approval of the Subsidiary Bank's Credit Committee.

Management and the directors are aware that environmental liabilities may negatively impact the financial condition of borrowers, the value of real property and the contingent environmental clean-up liabilities the Subsidiary Banks could incur by having a lien on environmentally deficient property. The Subsidiary Banks generally decline to make loans secured by property with environmental deficiencies. Environmental surveys are required when there is reason for concern about potential environmental liabilities.

Savannah and Bryan Bank operate residential mortgage loan origination departments. The departments take mortgage loan applications, obtain rate commitments and complete various origination documentation and follow-up for an origination and service release fee from third-party mortgage bankers. In addition to generating fee income, the departments also generate banking relationships from its customers and real estate-related contacts. These loans are funded by other mortgage investors and have not been warehoused on Savannah or Bryan Bank's books.

Harbourside's activities in the mortgage banking area include originating, processing, underwriting, closing, warehousing, selling and servicing mortgage loans sold into the secondary market, sold to other banks or investors, or held in the Subsidiary Banks' portfolios. Increased fee income at origination and servicing fee income over the life of the loan, offset by

additional costs associated with the expanded services, provide an opportunity for increased net earnings. Variations in mortgage origination volume, the value of loans held for sale, the initial valuation of servicing assets and the ongoing valuation of servicing assets for impairment result in the potential for both positive and negative earnings volatility.

Credit Risk Management and Allowance for Credit Losses

The Subsidiary Banks have a comprehensive program designed to control and continually monitor the credit risks inherent in the loan portfolios. This program includes a structured loan approval process in which the Board delegates authority for various types and amounts of loans to loan officers on a basis commensurate with seniority and lending experience. There are four risk grades of "criticized" assets: Special Mention, Substandard, Doubtful and Loss. Assets designated as substandard, doubtful or loss are considered "classified". The classification of assets is subject to regulatory review and reclassification. The Subsidiary Banks include aggregate totals of criticized assets, and general and specific valuation reserves in quarterly reports to the Board, which approves the overall allowance for credit losses evaluation.

The Subsidiary Banks use a risk rating system which is consistent with the regulatory risk rating system. This system applies to all assets of an insured institution and requires each institution to periodically evaluate the risk rating assigned to its assets. The Subsidiary Banks' loan risk rating systems utilize both the account officer and an independent loan review function to monitor the risk rating of loans. Each loan officer is charged with the responsibility of monitoring changes in loan quality within his or her loan portfolio and reporting changes directly to loan review and senior management. The internal credit administration function monitors loans on a continuing basis for both documentation and credit related exceptions. Additionally, the Subsidiary Banks have contracted with an external loan review service which performs a review of the Subsidiary Banks' loans to determine that the appropriate risk grade has been assigned to each borrowing relationship and to evaluate other credit quality, documentation and compliance factors. Delinquencies are monitored on all loans as a basis for potential credit quality deterioration. Commercial and mortgage loans that are delinquent 90 days (four payments) or longer generally are placed on nonaccrual status unless the credit is well-secured and in process of collection. Revolving credit loans and other personal loans are typically charged-off when payments are 120 days past due. Loans are placed on nonaccrual status or charged-off at an earlier date if collection of principal or interest in full becomes doubtful. Real estate acquired through foreclosure is classified as substandard unless there is sufficient evidence to indicate such classification is not warranted.

The allowance for credit losses is evaluated as described in the Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") section of the 2006 Annual Report to Shareholders ("2006 Annual Report") on pages F-27 and 28.

Other Banking Services

Savannah was granted trust powers by the OCC in 1996. The Trust Department of Savannah contracts with Marshall & Ilsley Trust Company for trust data processing, securities safekeeping and certain other operational functions. This system provides clients and their advisors access to trust account information via the Internet. Employee benefit administration and certain money management functions are outsourced to third parties. Using these resources, the Trust Department offers a full array of trust services, including investment management, personal trusts, custodial accounts, estate administration and retirement plan asset management.

The Subsidiary Banks offer cash management services, Internet banking, electronic bill payment, non-cash deposit courier service, safe deposit boxes, travelers checks, direct deposit of payroll, U.S. Savings bonds, official bank checks, money orders and automatic drafts for various accounts. The Subsidiary Banks have nine automated teller machines and are members of the *STAR* network of automated teller machines. The Subsidiary Banks issue ATM and debit cards. They also offer VISA and MasterCard credit cards as an agent for a correspondent bank.

Location and Service Area

The Subsidiary Banks' primary service areas include the city of Savannah and surrounding Chatham County, the city of Richmond Hill (which is 20 miles southwest of downtown Savannah) and surrounding Bryan County and Hilton Head Island, Bluffton and southern Beaufort County in South Carolina. Their secondary service areas include Effingham and Liberty

Counties, Georgia and Jasper County, South Carolina. The Subsidiary Banks' target customers are individuals and small to medium-sized businesses, including wholesale, retail and professional service businesses in the community. The Subsidiary Banks also target individuals who meet certain net worth and income requirements as potential customers for private banking services.

Savannah's main office, known as the Johnson Square Office, opened in August 1990 and is located in the primary financial district in downtown Savannah, where most of the commercial banks in the primary service area have their main Savannah offices. In recent years, regional banks with headquarters outside of the state of Georgia have acquired several of the banks in the primary service area. Savannah emphasizes that it is based in Savannah and that its directors and officers are committed to the economic development of the Savannah area.

Bryan Bank's main office opened in December 1989 and is located in the primary commercial area of the city of Richmond Hill. Several other community bank branch offices and one grocery store branch office are located in Richmond Hill.

In October 1992, Savannah opened its second office at 400 Mall Boulevard. The Mall Boulevard Office is located in the primary commercial and retail district in Savannah which includes a high concentration of professional and service-related businesses.

In November 1995, Savannah opened its third office, the West Chatham Office, at 100 Chatham Parkway. West Chatham is a full service office located six miles west of the main office in a commercial and industrial growth area of Chatham County.

In October 1997, the fourth office at 4741 Highway 80 East on Whitmarsh Island, six miles east of the main office, opened for business. Deposits, mortgage loans and consumer loans are the primary opportunities for this location which serves a large concentration of higher net worth individuals.

In October 1998, Savannah opened its fifth location in the Medical Arts Shopping Center. This office is strategically located near two major hospitals and numerous medical, dental and professional practices. This location is approximately four miles southeast of the main office.

In May 2002, the Company opened an operations center in 5,000 square feet of office space at 450 Mall Boulevard, adjacent to Savannah's existing branch office at 400 Mall Boulevard. The imaged item processing, statement rendering, information technology, deposit operations and branch operations support functions are located at this center. These functions work closely together and their relocation from different offices to one location provides an opportunity for significant service enhancements, efficiencies and synergies.

In October 2003, Savannah opened a mortgage loan production office on Hilton Head Island, South Carolina which operated as Harbourside Mortgage Company, a division of Savannah, through February 28, 2006. On March 1, 2006, the separately chartered Harbourside opened for business in its new main office building at 852 William Hilton Parkway, the primary traffic artery on Hilton Head Island.

In September 2006, Savannah opened its sixth office in The Village on Skidaway Island adjacent to the Landings community in Savannah. This office location services the higher income individuals and higher net worth retiree island communities nearby.

The Subsidiary Banks' business plans rely principally upon local advertising and promotional activity and upon personal contacts by their directors and officers to attract business and to acquaint potential customers with their personalized services. The Subsidiary Banks emphasize a high degree of personalized customer service. Advertising and marketing emphasize the advantages of dealing with an independent, locally-owned, relationship-oriented bank to meet the particular needs of individuals, professionals and small to medium-size businesses in the community.

Liquidity and Interest Rate Sensitivity Management

Quantitative disclosures regarding the Company's liquidity management are included on pages F-31 to F-33 in the 2006 Annual Report.

Interest Rate Risk

Quantitative discussion of the Company's interest rate risk is included on pages F-32 to F-33 in the 2006 Annual Report.

Federal and State Laws and Regulation of Banks and Bank Holding Companies

Bank holding companies and commercial and federal savings banks are extensively regulated under both federal and state law. These laws and regulations delineate the nature and extent of the activities in which commercial and federal savings banks may engage. In particular, certain lending authority for federal savings banks, for example, commercial, non-residential real property loans and consumer loans, is limited to a specified percentage of the institution's capital or assets. To the extent that the following information describes statutory and regulatory provisions, it is qualified in its entirety by reference to the particular statutory and regulatory provisions. Change in applicable laws or regulations may have a material effect on the business of the Company and its subsidiaries.

Savannah is subject to extensive supervision and regulation by the OCC, Bryan Bank is subject to extensive supervision by the GBDF and the FDIC and Harbourside is subject to extensive supervision by the OTS. The regulators are responsible for overseeing the affairs of the Subsidiary Banks and periodically examining the Banks to determine their compliance with laws and regulations. The Subsidiary Banks must make quarterly reports of financial condition and results of operations to the regulators. This quarterly financial information is made available to the public approximately 45 days after each quarter-end. Regulators use this data for quarterly offsite monitoring of the financial condition of the Banks. Quarterly holding company reports are filed with the Federal Reserve Bank of Atlanta ("FRB") within 40 days of each quarter-end. This financial information is reviewed by the FRB for accuracy, consistency and reasonableness and is also made available to holding company database providers within 75 days of the end of each quarter. Bank analysts, regulators and consultants regularly use this information in analyzing historical and expected performance of banks and bank holding companies.

The regulators have authority to issue cease and desist orders against banks and bank holding companies which are about to engage, are engaging or have engaged in unsafe or unsound practices in the conduct of their business. The regulators can order affirmative action to correct any harm resulting from a violation or practice, including, but not limited to, making restitution and providing reimbursement or guarantees against loss in certain cases. Regulators also administer several federal statutes, such as the Community Reinvestment Act of 1977 ("CRA") and the Depository Institution Management Interlocks Act, which apply to banks. The Subsidiary Banks are subject to special examination by the FDIC and to certain FDIC regulations.

Regulators have adopted risk-based capital requirements that specify the minimum level for which no prompt corrective action is required. In addition, the FDIC adopts FDIC insurance assessment rates based on certain risk-based and equity capital ratios. The regulators have authority to establish higher capital requirements if they determine that the circumstances of a particular institution require it and to take certain supervisory actions against undercapitalized institutions, the severity of which depends upon the institution's degree of undercapitalization. The table in Note 12 to the Consolidated Financial Statements in the 2006 Annual Report shows the capital ratios for the Company and Subsidiary Banks and the regulatory minimum capital ratios at December 31, 2006. The capital ratios of the Company and each Subsidiary Bank exceeded the ratios required to be considered "well-capitalized" by the FDIC.

OTS regulations require institutions to meet a qualified thrift lender test. Under the test, such an institution is required to either qualify as a "domestic building and loan association" under the Internal Revenue Code or maintain at least 65% of its "portfolio assets" (total assets less: (i) specified liquid assets up to 20% of total assets; (ii) intangibles, including goodwill; and (iii) the value of property used to conduct business) in certain "qualified thrift investments" (primarily residential mortgages and related investments, including certain mortgage-backed securities) in at least 9 months out of each 12 month period. An institution that fails the qualified thrift lender test is subject to certain operating restrictions and may be required to convert

to a bank charter. Harbourside passed the test in each of the last two quarters of 2006 and does not anticipate any future concerns regarding the requirements.

The Subsidiary Banks are subject to applicable provisions of the Federal Reserve Act ("Act") which restrict the ability of any bank to extend credit to its parent holding company. Additionally, a national banking association cannot extend credit to any affiliate (including its parent and non-bank subsidiaries of its parent); issue a guarantee, acceptance or letter of credit (including an endorsement or standby letter of credit) on behalf of its affiliates; invest in the stock or securities of affiliates or, under certain circumstances, take such stock or securities as collateral for loans to any borrower.

Shareholders of banks (including bank holding companies which own stock in banks, such as the Company) may be compelled by bank regulatory authorities to invest additional capital in the event their bank's capital becomes impaired by losses or otherwise. Failure to pay such an assessment could cause a forced sale of the holder's bank stock. In addition, the Company may also be required to provide additional capital to any banks that it acquires as a condition to obtaining the approvals and consents of regulatory authorities in connection with such acquisitions.

The earnings of the Subsidiary Banks and, consequently, of the Company, are affected significantly by the policies of the Board of Governors of the Federal Reserve System (the "Fed"), which regulates the money supply in order to mitigate recessionary and inflationary pressures. Among the techniques used to implement these objectives are open market operations in United States Government securities, changes in the rate paid by banks on bank borrowings, and changes in reserve requirements against bank deposits. These techniques are used in varying combinations to influence overall growth and distribution of bank loans, investments and deposits, and their use may also affect interest rates charged on loans or paid for deposits. The monetary policies of the Fed have had a significant effect on the operating results of banks in the past and are expected to continue to do so in the future.

The Company, as a bank holding company, is required to register as such with the Fed and the GDBF. It is required to file with both of these agencies quarterly and annual reports and other information regarding its business operations and those of its subsidiaries. It is also subject to examination by these two agencies and will be required to obtain their approval before acquiring, directly or indirectly, ownership or control of any voting shares of a bank or bank subsidiary of a bank holding company if, after such acquisition, it would own or control, directly or indirectly, more than five percent of the voting stock of such bank or banking subsidiary of a bank holding company. Furthermore, a bank holding company is prohibited from acquiring direct or indirect ownership or control of any voting stock of any company which is not a bank or bank holding company, with limited exceptions. It must engage only in the business of banking, managing or controlling banks or furnishing services to or performing services for its subsidiary banks. During 1996, the Fed enacted regulations that are slightly less restrictive regarding the types of businesses which bank holding companies may own.

Banking organizations are prohibited under the Act from participating in new financial affiliations unless their depository institution subsidiaries are well-capitalized and well-managed. Regulators are required to address any failure to maintain safety and soundness standards in a prompt manner. In addition, regulators must prohibit holding companies from participating in new financial affiliations if, at the time of certification, any insured depository affiliate had received a less than "satisfactory" CRA rating at its most recent examination.

Affiliation Authority - The Gramm-Leach-Bliley Act of 1999 ("GLB") amended section 4 of the Act to provide a framework for engaging in new financial activities. Those bank holding companies ("BHCs") that qualify to engage in the new financial activities are designated as Financial Holding Companies ("FHCs"). Provisions of GLB permit BHCs that qualify as FHCs to engage in activities, and acquire companies engaged in activities, that are financial in nature or incidental to such financial activities. FHCs are also permitted to engage in activities that are "complementary" to financial activities if the Fed determines that the activity does not pose a substantial risk to the safety or soundness of the institution or the financial system in general.

The Fed may act by either regulation or order in determining what activities are financial in nature, incidental to financial in nature, or complementary. In doing so, the Fed must notify the Treasury Department ("Treasury") of requests to engage in new financial activities and may not determine that an activity is financial or incidental to a financial activity if Treasury objects. Furthermore, Treasury may propose that the Fed find a particular activity financial in nature or incidental to a financial activity. GLB establishes a similar procedure with regard to the Treasury's (acting through the OCC) determination of financial activities and activities that are incidental to financial activities for subsidiaries of national banks. Congress intended for the

Fed and Treasury to establish a consultative process that would negate the need for either agency to veto a proposal of the other agency.

Federal Home Loan Bank Reform - GLB reformed the Federal Home Loan Bank ("FHLB") System, including expanding the collateral that a community bank can pledge against FHLB advances, thus giving smaller banks access to a substantial new liquidity source. FHLB members can also pledge small business and agricultural loans (or securities representing a whole interest in such loans) as collateral for advances.

Privacy - GLB imposed a number of new restrictions on the ability of financial institutions to share nonpublic personal information with nonaffiliated third parties. Specifically, the GLB:

- requires financial institutions to establish privacy policies and disclose them annually to all customers, setting forth how the institutions share nonpublic personal financial information with affiliates and third parties;
- directs regulators to establish regulatory standards that ensure the security and confidentiality of customer information;
- permits customers to prohibit ("opt out" of permitting) such institutions from disclosing personal financial information to nonaffiliated third parties;
- prohibits transfer of credit card or other account numbers to third-party marketers;
- prohibits pretext calling (that is, makes it illegal for information brokers to call banks to obtain customer information with the intent to defraud the bank or customer);
- protects stronger state privacy laws, as well as those not "inconsistent" with the federal rules;
- requires the Treasury and other federal regulators to study the appropriateness of sharing information with affiliates, including considering both negative and positive aspects of such sharing for consumers.

GLB also imposes an affirmative obligation on banks to respect their customers' privacy interests. Language protects a community bank's ability to share information with third parties selling financial products (for example, insurance or securities) to bank customers. Community banks can thus continue such sales practices without being subject to the opt-out provisions contained elsewhere in the legislation.

The Riegle-Neal Interstate Banking and Branching Efficiency Act of 1994 (the "Riegle-Neal Act") has introduced a process that enables nationwide interstate banking through bank subsidiaries and interstate bank mergers. Separately, the Riegle-Neal Act also permits bank subsidiaries to act as agents for each other across state lines. Since September 29, 1995, adequately capitalized and managed bank holding companies have been permitted to acquire control of a bank in any state. Acquisitions are subject to concentration limits. Beginning June 1, 1997, banks were permitted to merge with one another across state lines. The Interstate Banking Act also permits de novo branching to the extent that a particular state "opts into" the de novo branching provisions. The legislation preserves the state laws which require that a bank must be in existence for a minimum period of time before being acquired as long as the requirement is five years or less. This legislation has relevance for the banking industry due to increased competitive forces from institutions which may consolidate through mergers and those which may move into new markets through enhanced opportunities to branch across state lines. Georgia and South Carolina do not have reciprocal provisions for de novo branches or charters. Holding companies domiciled in Georgia may not branch or charter banks in South Carolina and vice versa. Alternatives for expansion between these states include acquiring an existing financial institution, chartering a federal savings bank or moving the charter of a national bank within 35 miles of its headquarters into the new state.

A bank holding company and its subsidiaries are prohibited from engaging in certain tie-in arrangements in connection with the extension of credit or provision of any property or service. Thus, a bank may not extend credit, lease or sell property or furnish any service or fix or vary the consideration for such on the condition that (i) the customer should obtain or provide some additional credit, property or service from or to such bank (other than a loan, discount, deposit or trust service related to and usually provided in connection with a loan, discount, deposit or trust service), its bank holding company or any other subsidiary of its bank holding company or (ii) the customer may not obtain some other credit, property or service from a competitor, except to the extent reasonable conditions are imposed in a credit transaction to assure the soundness of the credit extended.

The Fed has cease and desist powers over bank holding companies and non-banking subsidiaries should their actions constitute a serious threat to the safety, soundness or stability of a subsidiary bank. The Company is also subject to certain restrictions with respect to engaging in the business of issuing, underwriting and distributing securities.

Although the Company is not presently subject to any direct regulatory restrictions on dividends (other than those of Georgia corporate law), the Company's long-term ability to pay cash dividends will depend on the amount of dividends paid by the Subsidiary Banks and any other subsequently acquired entities. OCC regulations restrict the amount of dividends which Savannah may pay without obtaining prior approval. Based on such regulatory restrictions without prior approval, Savannah is restricted from paying dividends in a calendar year which exceeds the current year's net income combined with the retained net profits of the preceding two years. Bryan Bank may pay dividends equal to no more than 50 percent of prior year net income without prior approval from the GDBF. Harbourside does not anticipate paying dividends for the foreseeable future. The dividend payout plans of the Subsidiary Banks consider the objective of maintaining their "well-capitalized" status.

The Subsidiary Banks are members of the FHLB System, which consists of 12 regional FHLBs subject to supervision and regulation by the Federal Housing Finance Board. The FHLBs maintain central credit facilities primarily for member institutions. The Subsidiary Banks, as members of the FHLB of Atlanta, are required to hold shares of capital stock in the FHLB of Atlanta in an amount at least equal to the greater of: (i) 1 percent of the aggregate outstanding principal amount of its unpaid residential mortgage loans, home purchase contracts and similar obligations as of the beginning of each year, (ii) 4.5 percent of its advances (borrowings) from the FHLB of Atlanta, or (iii) \$500,000. Additionally, the FHLB of Atlanta imposed a maximum investment in its capital stock equal to \$100,000 over the required minimum. The Subsidiary Banks are in compliance with this requirement at December 31, 2006.

Each FHLB serves as a reserve or central bank for its member institutions within its assigned regions. It is funded primarily from proceeds derived from the sale of obligations of the FHLB System. The FHLB makes advances (i.e., loans) to members in accordance with policies and procedures established by its Board. The Subsidiary Banks are authorized to borrow funds from the FHLB of Atlanta to meet demands for withdrawals of deposits, to meet seasonal requirements and for the expansion of its loan portfolio. Advances may be made on a secured or unsecured basis depending upon a number of factors, including the purpose for which the funds are being borrowed and the amount of previously existing advances. Interest rates charged for advances vary depending upon maturity, the cost of funds to the FHLB of Atlanta and the purpose of the borrowing.

Community Reinvestment Act

CRA requires the federal bank regulatory agencies to encourage financial institutions to meet the credit needs of low- and moderate-income borrowers in their local communities. In May 1995, the federal bank regulatory agencies published final amended regulations promulgated pursuant to the CRA. The final regulations eliminate the 12 assessment factors under the former regulation and replace them with performance tests. Institutions are no longer required to prepare CRA statements or extensively document director participation, marketing efforts or the ascertainment of community credit needs. Under the final rule, an institution's size and business strategy determines the type of examination that it will receive. Large, retail-oriented institutions are examined using a performance-based lending, investment and service test. Small institutions are examined using a streamlined approach. All institutions have the option of being evaluated under a strategic plan formulated with community input and pre-approved by the applicable bank regulatory agency.

CRA regulations provide for certain disclosure obligations. In accordance with the CRA, each institution must post a CRA notice advising the public of the right to comment to the institution and its regulator on the institution's CRA performance and to review the CRA public file. Each lending institution must maintain for public inspection a public file that includes a listing of branch locations and services, a summary of lending activity, a map of its communities, and any written comments from the public on its performance in meeting community credit needs. Large institutions also are required to collect certain data, including the amount and location of originated and purchased small business, small farm, community development, and home mortgage loans, and to report this data to their regulatory agencies.

Public disclosure of written CRA evaluations of financial institutions made by regulatory agencies is required under the CRA. This promotes enforcement of CRA requirements by providing

the public with the status of a particular institution's community reinvestment record. Savannah and Bryan Bank received a "satisfactory" rating on the most recent performance evaluations of their CRA efforts by their respective banking regulatory agencies. Harbourside has not yet been evaluated.

Fair Lending

Congress and various federal agencies responsible for implementing fair lending laws have been increasingly concerned with discriminatory lending practices. In 1994, those federal agencies announced a Joint Policy Statement detailing specific discriminatory practices prohibited under the Equal Opportunity Act and the Fair Housing Act. In the Policy Statement, three methods of proving lending discrimination were identified: (i) overt evidence of discrimination, where a lender blatantly discriminates on a prohibited basis; (ii) evidence of disparate treatment, when a lender treats applicants differently based upon a prohibited factor, even where there is no evidence showing that the treatment was motivated by intention to discriminate; and (iii) evidence of disparate impact, when a lender applies a practice uniformly to all applicants, but the practice has a discriminatory effect, even where such practices are neutral in appearance and applied equally.

Anti-Money Laundering

The Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 ("Patriot Act") significantly expands the responsibilities of financial institutions in preventing the use of the United States financial system to fund terrorist activities. Title III of the Patriot Act provides for a significant overhaul of the United States anti-money laundering regime. Among other provisions, it requires financial institutions operating in the United States to develop new anti-money laundering compliance programs, due diligence policies and controls to ensure the detection and reporting of money laundering. Such required compliance programs are intended to supplement existing compliance requirements, also applicable to financial institutions, under the Bank Secrecy Act and the Office of Foreign Assets Control Regulations. This federal legislation and the resultant bank regulations require a financial institution to expeditiously search its records to determine whether it maintains or has maintained accounts, or engaged in transactions with individuals or entities listed in a database maintained by the Financial Crimes Enforcement Network ("FinCEN"). The records search must cover current accounts, accounts opened in the prior twelve months, and transactions conducted in the prior six months. Its purpose is to identify funds or transactions with individuals associated with terrorist activities. Substantial penalties and /or criminal prosecution may result from non-compliance. Management has established policies and procedures to ensure compliance with the Patriot Act.

Rules Adopted by the SEC

Certification of Disclosure in Companies' Quarterly and Annual Reports - As directed by Section 302(a) of the Sarbanes-Oxley Act of 2002 ("Sarbox"), the SEC adopted rules to require an issuer's principal executive and financial officers each to certify the financial and other information contained in the issuer's quarterly and annual reports. The rules also require these officers to certify that (i) they are responsible for establishing, maintaining and regularly evaluating the effectiveness of the issuer's internal controls; (ii) they have made certain disclosures to the issuer's auditors and the audit committee of the board of directors about the issuer's internal controls; and (iii) they have included information in the issuer's quarterly and annual reports about their evaluation and whether there have been significant changes in the issuer's internal controls or in other factors that could significantly affect internal controls subsequent to the evaluation. In addition, the SEC has adopted rules which require issuers to maintain and regularly evaluate the effectiveness of disclosure controls and procedures designed to ensure that the information required in reports filed under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported on a timely basis. The effective date of this requirement was August 29, 2002. The Company has implemented procedures and reporting tools to meet the requirements of the SEC certification rules.

Disclosure Required by Sections 406 and 407 of Sarbox - The SEC adopted rules and amendments requiring publicly traded companies to include two new types of disclosures in their annual reports filed pursuant to the Securities Exchange Act of 1934. First, the rules require a company to disclose whether it has at least one "audit committee financial expert" serving on its audit committee, and if so, the name of the expert and whether the expert is independent of management. A company that does not have an audit committee financial expert must disclose this fact and explain why it has no such expert. Second, the rules require a company to disclose whether it has adopted a code of ethics that applies to the company's principal executive

officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. A company which has not adopted such a code must disclose this fact and explain why it has not done so. A company also will be required to promptly disclose amendments to, and waivers from, the code of ethics relating to any of those officers. The Company posts its Corporate Code of Business Ethics & Conduct, Audit Committee Charter and Nominating Committee Charter on its Corporate Website located at www.savb.com.

Sections 302 and 404 of Sarbox specifically require public companies to establish, implement, document and evaluate their internal controls for purposes of financial statement reporting (i.e. 'disclosure controls') and operational integrity. In establishing rules to implement both sections 302 and 404, the SEC makes reference to existing auditing standards issued by the American Institute of Certified Public Accountants regarding auditing and internal controls.

As directed by Section 404 of Sarbox ('Sarbox 404'), the SEC adopted rules on June 6, 2003 requiring companies subject to the reporting requirements of the Securities Exchange Act of 1934 to include in their annual reports a report of management on the company's internal control over financial reporting. The internal control report must include (i) a statement of management's responsibility for establishing and maintaining adequate internal control over financial reporting for the company; (ii) management's assessment of the effectiveness of the company's internal control over financial reporting as of the end of the company's most recent fiscal year; (iii) a statement identifying the framework used by management to evaluate the effectiveness of the company's internal control over financial reporting; and (iv) a statement that the registered public accounting firm that audited the company's financial statements included in the annual report has issued an attestation report on management's assessment of the company's internal control over financial reporting. Under the rules, a company is required to file the registered public accounting firm's attestation report as part of the annual report. The SEC also added a requirement that management evaluate and disclose any change in the company's internal control over financial reporting that occurred during a fiscal quarter that has materially affected, or is reasonably likely to materially affect, the company's internal control over financial reporting.

Required implementation dates of Sarbox 404 have changed since the original rule was issued. The Company met the definition of an accelerated filer as of June 30, 2005. Under current rules and conditions the Company was required to comply, and did comply, with Sarbox 404 as of December 31, 2006 and 2005. The SEC is currently in the process of receiving and evaluating proposals and recommendations related to the implementation of the Sarbox 404 requirements on smaller companies including the definition of smaller companies. There appears to be a reasonable probability that the Sarbox 404 implementation rules will include changes in the requirements for smaller companies that will lessen the compliance burden for future periods.

Companies must comply with the code of ethics disclosure requirements promulgated under Section 406 of Sarbox in their annual reports for fiscal years ending on or after July 15, 2003. They also must comply with the requirements regarding disclosure of amendments to, and waivers from, their ethics codes on or after the date on which they file their first annual report in which the code of ethics disclosure is required. Companies similarly must comply with the audit committee financial expert disclosure requirements promulgated under Section 407 of Sarbox in their annual reports for fiscal years ending on or after July 15, 2003. Mr. Charles Izlar was elected to the Company's Board at the 2004 Annual Shareholder's Meeting. Mr. Izlar was elected by the Board to serve on the Audit Committee and designated as the "financial expert." Mr. Izlar is independent of management.

Recent Banking Legislation

Bills are presently pending before the United States Congress and certain state legislatures, and additional bills may be introduced in the future in the Congress and the state legislatures, which, if enacted, may alter the structure, regulation and competitive relationships of the nation's financial institutions. It cannot be predicted whether or in what form any of these proposals will be adopted or the extent to which the business of the Company or the Subsidiary Banks may be affected thereby.

Competition

The banking business is very competitive. Banks generally compete with other financial institutions using the mix of banking products and services offered, the pricing of services, the convenience and availability of services, and the degree of expertise and the personal manner in which services are offered. The Subsidiary Banks compete with other commercial and savings banks in their primary service areas. The Subsidiary Banks also compete with credit unions, consumer finance companies, insurance companies, money market mutual funds, brokerage firms and other financial institutions, some of which are not subject to the degree of regulation and restriction imposed upon the Subsidiary Banks. Many of these competitors have substantially greater resources and lending limits than the Subsidiary Banks and offer certain services that the Subsidiary Banks do not provide currently.

Many of these competitors have more branch offices in the Subsidiary Bank's primary service area. However, the Company's plan is to expand into the markets which will best serve its targeted customers. Management believes that competitive pricing, local ownership, local decisions, local control and personalized, relationship-oriented service provide the Subsidiary Banks with a method to compete effectively for prospective customers.

The Subsidiary Banks experience the most competition from new local community bank entrants into the market area. Numerous banking offices of community banks and de novo banks have opened in the Savannah market since January 1, 2002. Other banks have indicated interest in the coastal Georgia and South Carolina markets. These new entrants have increased and will continue to increase the competition for existing and new business.

Deposit growth is a substantial challenge facing the banking industry and the Subsidiary Banks. It is likely that deposit growth in competitive markets will require higher deposit interest rates. Higher costs of funds without corresponding higher rates on earning assets will have a long-term negative impact on net interest income. Higher growth in lower cost core deposits, higher revenue growth from fee based services and lower overhead growth rates are the key items required to accomplish the Company's earnings growth objectives.

SELECTED STATISTICAL INFORMATION FOR THE COMPANY

Investments

Table 1 - Weighted Average Yields by Maturity

The following table sets forth the amortized cost, fair value and tax-equivalent yields by investment type and maturity category at December 31, 2006:

	Amortized Cost (Thousands)	Fair Value	Taxable Equivalent Yield (a) (%)
Securities available for sale:			
U.S. Treasury, other U.S. Government			
Agencies and mortgage-backed:			
Within one year	\$ 12,402	\$ 12,325	3.88
One year to five years	32,524	32,324	4.79
Five years to ten years	3,198	3,178	5.03
Over ten years	199	199	5.26
Total	48,323	48,026	4.58
Other interest-earning investments:			
Within one year	3,896	3,931	6.24
One year to five years	1,389	1,401	7.75
Five years to ten years	-	-	-
Over ten years	555	559	6.00
Total	5,840	5,891	6.57
Total securities available for sale	\$ 54,163	\$ 53,917	4.79

(a) The yield is calculated on the amortized cost of the securities.

Loans

Following is certain information regarding the loan portfolio as of December 31, 2006 on a consolidated basis.

Table 2 - Loan Repricing Opportunities

The following table sets forth certain loan maturity and repricing information as of December 31, 2006. Loan renewals generally reprice relative to the prime rate in effect at the time of the renewal. Management expects that certain real estate mortgage loans which have maturities of one to three years with longer amortization periods will renew at maturity.

(\$ in thousands)				
Loan Category	One Year or Less	After One Year Through Five years	Over Five Years	Total
Real estate-construction and development	\$ 141,745	\$ 19,793	\$ 4,634	\$ 166,172
Commercial	36,952	19,685	1,100	57,737
Total	\$178,697	\$39,478	\$5,734	\$223,909
Loans with fixed rates	\$ 29,919	\$34,796	\$5,657	\$ 70,372
Loans with floating and adjustable rates	153,537	-	-	153,537
Total	\$183,456	\$34,796	\$ 5,657	\$223,909

SAVB 2006 Form 10-K

Nonaccrual, Past Due and Restructured Loans

At December 31, 2006 and 2005, nonperforming loans were \$2,231,000 and \$1,357,000, respectively. At December 31, 2006, the Subsidiary Banks had nonaccruing loans of \$825,000 and \$1,313,000 in loans past due 90 days or more. Interest income of \$23,000 was recognized from nonaccrual loans in 2006.

Except for consumer loans, the Company's policy is to place loans on nonaccrual status when, in management's judgment, the collection of principal and interest in full becomes doubtful. Interest receivable accrued in prior years and subsequently determined to have doubtful collectibility is charged to the allowance for credit losses. Interest on loans that are placed on nonaccrual is recognized when received. In some cases, where borrowers are experiencing financial difficulties, loans may be restructured to provide terms significantly different from the original contractual terms.

Loan Concentrations

Most of the Company's business activity is with customers located within Chatham and Bryan County, Georgia and southern Beaufort County, South Carolina. Table 6 on page F-31 of the 2006 Annual Report provides details of the various real estate loan concentrations. The Company has no loans that are considered to be highly leveraged transactions or foreign credits.

Table 3 - Allowance for Credit Losses

Changes in the allowance for credit losses from 2002 through 2006 are summarized as follows:

(\$ in thousands)	2006	2005	2004	2003	2002
Balance at the beginning of the year	\$ 7,813	\$ 6,389	\$ 5,067	\$ 4,373	\$ 3,826
Charge-offs - Commercial	-	(22)	(143)	(161)	(67)
Charge-offs - Consumer	(125)	(82)	(112)	(112)	(191)
Charge-offs - Real estate	(381)	(48)	-	(122)	(35)
Charge-offs - Total	(506)	(152)	(255)	(395)	(293)
Recoveries - Commercial	6	7	26	7	11
Recoveries - Consumer	54	53	68	70	75
Recoveries - Real estate	2	16	33	12	4
Recoveries - Total	62	76	127	89	90
Net charge-offs	(444)	(76)	(128)	(306)	(203)
Provision for credit losses	1,585	1,500	1,450	1,000	750
Balance at the end of the year	\$ 8,954	\$ 7,813	\$ 6,389	\$ 5,067	\$ 4,373
Ratio of net charge-offs to average loans	0.08%	0.01%	0.09%	0.13%	0.09%

Table 4 - Allocation of Allowance for Credit Losses by Loan Type

The allowance for credit losses is allocated by loan category based on management's assessment of risk within the various categories of loans. Loans are segregated by category and by credit risk rating within each category. The allowance for credit losses is allocated to each category by applying reserve percentages to each category. These percentages are based upon management's assessment of risk inherent within each category and the historical and anticipated loss rates within each category. The Company's allocation of the allowance for credit losses is presented in the following table:

(\$ in thousands)	2006	2005	2004	2003	2002
Commercial	\$ 900	\$ 700	\$ 650	\$ 600	\$ 650
Real estate-construction and development	4,350	3,750	2,750	1,650	1,450
Real estate-mortgage	2,350	1,900	1,750	1,300	1,300
Consumer	400	350	400	400	500
Unallocated	954	1,113	839	1,117	473
Total allowance for credit losses	\$ 8,954	\$ 7,813	\$ 6,389	\$ 5,067	\$ 4,373

The composition of the loan portfolio as a percentage of total loans is presented below:

Loan Categories	2006	2005	2004	2003	2002
Commercial	8.0%	7.4%	7.3%	11.1%	8.6%
Real estate-construction and development	23.1	23.6	19.4	13.4	13.1
Real estate-mortgage	66.6	66.7	69.9	71.1	68.6
Consumer	2.3	2.3	3.4	4.4	9.7
Total loans	100.0%	100.0%	100.0%	100.0%	100.0%

Additional information regarding accounting estimates in the allowance for credit losses is included in the MD&A section of the 2006 Annual Report on page F-28 which is included as Exhibit 13 to this filing.

Deposits

Deposit Average Balances and Rates Paid

Tables 8 and 9 on pages F-36 and F-37 summarize the average balances of the Company's deposits and the average rates paid on such deposits during 2006, 2005 and 2004.

Table 5 - Long-term Obligations

The following table includes a breakdown of payment obligations due under long-term contracts:

(\$ in thousands)	Payments Due by Period				
	Total	Less than 1 Year	1 - 3 Years	3 - 5 Years	More than 5 Years
Contractual Obligations					
FHLB advances - long-term	\$ 13,309	\$ 340	\$ 2,807	\$ 10,011	\$ 151
Subordinated debt	10,310	-	-	-	10,310
Operating leases - buildings	11,512	699	1,645	1,182	7,986
Total	\$ 35,131	\$ 1,039	\$ 4,452	\$ 11,193	\$ 18,447

Item 1A. Risk Factors

Like other financial companies, the Company is subject to a number of risks, many of which are outside of our direct control. Efforts are made to manage those risks while optimizing returns. Among the risks assumed are: (1) credit risk, which is the risk that loan customers or other counterparties will be unable to perform their contractual obligations, (2) market risk, which is the risk that changes in market rates and prices will adversely affect our financial condition or results of operation, (3) liquidity risk, which is the risk that the Company and/or Banks will have insufficient cash or access to cash to meet its operating needs, (4) operational risk, which is the risk of loss resulting from inadequate or failed internal processes, people and systems, or external events and (5) common stock marketability risk, which is risk specifically related to the marketability of the Company's common stock.

In addition to the other information included or incorporated by reference into this report, readers should carefully consider that the following important factors, among others, could materially impact our business, future results of operations, and future cash flows.

Credit Risk

Our business is affected by the strength of the local economies where we operate.

Our success significantly depends upon the growth in population, income levels, deposits and real estate development in our primary markets in coastal Georgia and South Carolina. If these communities do not grow or if prevailing economic conditions locally or nationally are unfavorable, our business may be adversely impacted. We are less able than larger institutions to spread the risks of unfavorable local economic conditions across a large number of diversified economies. Moreover, we cannot give any assurance that we will benefit from any market growth or favorable economic conditions in our primary market areas.

Any adverse market or economic conditions in coastal Georgia and South Carolina may disproportionately increase the risk that our borrowers will be unable to make their loan payments. In addition, the market value of the real estate securing loans could be adversely affected by unfavorable changes in market and economic conditions. As of December 31, 2006, approximately 90% of our loans held for investment were secured by real estate. Of the commercial real estate loans in our portfolio, approximately 37% represent properties owned and occupied by businesses to which we have extended loans. Any sustained period of increased payment delinquencies, foreclosures or losses caused by adverse market or economic conditions in coastal Georgia and South Carolina could adversely affect the value of our assets, our revenues, results of operations and overall financial condition.

Our business is concentrated in the areas of Chatham and Bryan County, Georgia and southern Beaufort County, South Carolina.

Currently, our lending and other business is concentrated in Chatham and Bryan Counties in Georgia and southern Beaufort County in South Carolina. A downturn in market conditions in any of the respective areas may adversely affect the performance of our loans and the results of our operations and financial condition. In particular, Hilton Head Island in southern Beaufort County is a vacation and resort area with high concentrations of second home and investment properties. Changes in interest rates, local or general economic conditions, real estate values or the income tax deductibility of mortgage interest may subject this market to greater volatility which could adversely impact our performance. Additionally, our market area is susceptible to the risk of hurricane disasters and many areas are located in flood zones. While most such losses are insurable, hurricanes and flooding could adversely affect operations and financial condition.

If our allowance for credit losses is not sufficient to cover actual credit losses, our earnings could decrease.

Our loan customers may not repay their loans according to the terms of these loans and the collateral securing the payment of these loans may be insufficient to assure repayment. We may experience significant credit losses which could have a material adverse effect on our operating results. Our management makes various assumptions and judgments about the collectibility of our loans, including the creditworthiness of our borrowers and the value of the real estate and other assets serving as collateral for the repayment of our loans. We maintain an allowance for credit losses in an attempt to cover any credit losses which may occur. In determining the size of the allowance, we rely on an analysis of our loan portfolio based on historical loss

experience, volume and types of loans, trends in classification, volume and trends in delinquencies and nonaccruals, national and local economic conditions and other pertinent information. As we expand into new markets, such as the coastal South Carolina market in which Harbourside operates, our determination of the size of the allowance could be understated due to our lack of familiarity with market-specific factors.

If our assumptions are wrong, our current allowance may not be sufficient to cover future credit losses, and adjustments may be necessary to allow for different economic conditions or adverse developments in our loan portfolio. Material additional provisions to our allowance would materially decrease our net income.

In addition, federal and state regulators periodically review our allowance for credit losses and may require us to increase our provision for credit losses or recognize further loan charge-offs, based on judgments different than those of our management. Any increase in our allowance for credit losses or loan charge-offs as required by these regulatory agencies could have a negative effect on our operating results.

Market Risk

Changes in interest rates could negatively impact our financial condition and results of operations.

Our earnings are significantly dependent on our net interest income. We expect to realize income primarily from the difference between interest earned on loans and investments and the interest paid on deposits and borrowings. We expect that we will periodically experience "gaps" in the interest rate sensitivities of our assets and liabilities, meaning that either our interest-bearing liabilities will be more sensitive to changes in market interest rates than our interest-earning assets, or vice versa. In either event, if market interest rates should move contrary to our position, this "gap" would work against us, and our earnings may be negatively affected.

For example, in the event of a decrease in interest rates, our net interest income will be negatively affected because our interest-bearing assets currently reprice faster than our interest-bearing liabilities. Although our asset-liability management strategy is designed to control our risk from changes in market interest rates, we may not be able to prevent changes in interest rates from having a material adverse effect on our results of operations and financial condition.

Changes in the level of interest rates also may negatively affect our ability to originate loans, the value of our assets and our ability to realize gains from the sale of our assets, all of which ultimately affect our earnings. A decline in the market value of our assets may limit our ability to borrow additional funds or result in our lenders requiring additional collateral from us under our loan agreements. As a result, we could be required to sell some of our loans and investments under adverse market conditions, upon terms that are less favorable to us, in order to maintain our liquidity. If those sales are made at prices lower than the amortized costs of the investments, we will incur losses. While rising interest rates since mid-2004 have been favorable to us, there can be no assurance or guarantee that rates will continue to be favorable to us or that we will be able to take measures to hedge, on favorable terms or at all, against unfavorable events, which could adversely affect our results of operations and financial condition.

Monetary policies may adversely affect our business and earnings.

Our results of operations are affected by the policies of monetary authorities, particularly the Fed. Changes in interest rates can affect the number of loans we originate, as well as the value of our loans and other interest-bearing assets and liabilities and the ability to realize gains on the sale of those assets and liabilities. Prevailing interest rates also affect the extent to which borrowers prepay loans owned by us. When interest rates decrease, borrowers are more likely to prepay their loans, and vice versa. We may be required to invest funds generated by prepayments at less favorable interest rates. Increases in interest rates could hurt the ability of borrowers who have loans with floating interest rates to meet their increased payment obligations. If those borrowers were not able to make their payments, then we could suffer losses, and our level of nonperforming assets could increase.

Liquidity Risk

Our use of brokered deposits, uninsured local deposits and other borrowings may impair our liquidity and constitute an unstable funding source.

We use wholesale, institutional and brokered deposits, uninsured local deposits and other borrowings, including repurchase agreements, federal funds purchased and FHLB borrowings, to fund a portion of our operations. Federal law requires a bank to be well-capitalized if it accepts new brokered deposits. Thus, the Company and the Banks must maintain a "well-capitalized" status to meet our funding plans. Failure to maintain "well-capitalized" status would limit our access to wholesale and brokered deposits and federal funds purchased (but not necessarily repurchase agreements or FHLB borrowings), which could impair our liquidity. We will be considered "well-capitalized" if we (i) have a total risk-based capital ratio of 10.0 percent or greater; (ii) have a Tier 1 risk-based capital ratio of 6.0 percent or greater; (iii) have a leverage ratio of 5.0 percent or greater; and (iv) are not subject to any written agreement, order, capital directive, or prompt corrective action directive issued by the FDIC to meet and maintain a specific capital level for any capital measure.

Depositors that invest in brokered deposits are generally interest rate sensitive and well informed about alternative markets and investments. Consequently, funding with brokered deposits may not provide the same stability to our deposit base as traditional local retail deposit relationships. Our liquidity may be negatively affected if brokered deposit supply declines due to a loss of investor confidence or a flight to higher quality investments such as U.S. Treasury securities.

Deposit balances in excess of the FDIC's \$100,000 insurance limit (\$250,000 for certain retirement accounts) per depositor are uninsured deposits. Customers with uninsured deposits are more sensitive to financial or reputation risk than insured depositors. Consequently, uninsured deposits do not provide the same stability to our deposit base as insured deposits. Our liquidity may be negatively affected by a decline in uninsured deposits due to a loss of investor confidence and a flight to insured deposits at other financial institutions.

Operational Risk

Our recent operating results may not be indicative of our future operating results.

We may not be able to sustain our historical rate of growth. In addition, our recent growth may distort some of our historical financial ratios and statistics. For example, our earnings grew by 11% in 2006 and 58% in 2005 as compared to the prior periods. This can be attributed to a strong lending market in Savannah and Richmond Hill, Georgia and in Hilton Head Island, South Carolina. Rising interest rates have also been favorable to the Company since mid-2004 due to an ability to reprice interest-earning assets faster than interest-bearing liabilities. In the future we may not benefit from such a favorable interest rate environment, a beneficial residential mortgage market or expansion into neighboring communities. Various factors, such as economic conditions, regulatory and legislative considerations and competition, may impede or prohibit our ability to expand our market presence, which may adversely affect our results of operations.

Future departures of our key personnel may impair our operations.

We are, and for the foreseeable future will be, dependent on the services of John C. Helmken II, President and Chief Executive Officer of the Company and of Savannah; E. James Burnsed, Vice Chairman of the Company and Chairman and Chief Executive Officer of Bryan Bank; R. Stephen Stramm, Executive Vice President - Lending of the Company and of Savannah; Robert B. Briscoe, Executive Vice President and Chief Financial Officer of the Company and of Savannah; and Thomas W. Lennox, President and Chief Executive Officer of Harbourside. Should the services of any of Messrs. Helmken, Burnsed, Stramm, Briscoe or Lennox become unavailable, there can be no assurance that a suitable successor could be found who will be willing to be employed upon terms and conditions acceptable to us. A failure to replace any of these individuals promptly, should his services become unavailable, could have a material adverse effect on our results of operations and financial performance. These risks are heightened by the fact that neither the Company nor the Banks have entered into an employment agreement with any of these individuals. G. Mike Odom, Jr., CEO, resigned on November 17, 2006 to pursue other professional interests. An orderly management transition has been made in the CEO position; however, additional senior management personnel are needed to work with the executive management team.

Our continued pace of growth may require us to raise additional capital in the future, but that capital may not be available when it is needed.

We are required by federal and state regulatory authorities to maintain adequate levels of capital to support our operations. We anticipate that our current capital resources will satisfy our capital requirements for the foreseeable future. We may, at some point, however, need to raise additional capital to support our continued growth.

Our ability to raise additional capital, if needed, will depend on conditions in the capital markets at that time, which are outside our control, and on our financial performance. Accordingly, we cannot give any assurances of our ability to raise additional capital if needed on terms acceptable to us, or at all. If we cannot raise additional capital when needed, our ability to further expand our operations through internal growth and acquisitions could be materially impaired.

We have limited operating history for Harbourside upon which to base an estimate of our future financial performance.

Harbourside opened for business on March 1, 2006 and has a relatively short operating history as a bank. The President and CEO resigned on May 2, 2006. G. Mike Odom, Jr. served as interim President and CEO until mid-October when Thomas W. Lennox, President and CEO, filled the permanent position. Our operations at Harbourside are subject to the risks inherent in the establishment of any new business and, specifically, those of a new bank. Harbourside incurred substantial initial expenses and may not be profitable for several quarters, if ever.

Our industry operates in a highly regulated environment. New laws or regulations or changes in existing laws or regulations affecting the banking industry could have a material adverse effect on our results of operations.

The Company and the Banks are subject to extensive government regulation and supervision under various state and federal laws, rules and regulations, primarily the rules and regulations of the OCC, OTS, FDIC, GDBF, SEC and the Fed. These laws and regulations are designed primarily to protect depositors, borrowers, and the deposit insurance funds of the FDIC. These regulators maintain significant authority to impose requirements on our overall operations, such as limiting certain activities or mandating the increase of capital levels. The financial services industry also is subject to frequent legislative and regulatory changes and proposed changes, the effects of which cannot be predicted.

We face substantial competition in our industry sector from banking and financial institutions that have larger and greater financial and marketing capabilities, which may hinder our ability to compete successfully.

The banking and financial services industry is highly competitive. This competitiveness may negatively impact our ability to retain qualified management and loan officers, raise sufficient deposits at an acceptable price, and attract customers. The increasingly competitive environment is a result of changes in regulation, changes in technology and product delivery systems, and the accelerating pace of consolidation among financial providers.

We compete with many different banking and financial institutions, including banks and savings and loan associations, credit unions, brokerage and investment banking firms, and mortgage companies and brokers. These entities may be branches or subsidiaries of much larger organizations affiliated with statewide, regional or national banking companies and, as a result, may have greater resources and lower costs of funds. These entities may also be start-up organizations. Any of these entities may attempt to duplicate our business plan and strategy. There can be no assurance that we will be able to compete effectively in the future.

Failure to implement our business strategies may adversely affect our financial performance.

Our management has developed a business plan that details the strategies we intend to implement in our efforts to continue profitable operations. If we cannot implement our business strategies, we may be hampered in our ability to develop business and serve our customers, which could, in turn, have an adverse effect on our financial performance. Even if our business strategies are successfully implemented, they may not have the favorable impact on operations that we anticipate.

An extended disruption of vital infrastructure could negatively impact our business, results of operations, and financial condition.

Our operations depend upon, among other things, our infrastructure, including equipment and facilities. Extended disruption of vital infrastructure by fire, power loss, natural disaster, telecommunications failure, computer hacking or viruses, terrorist activity or the domestic and foreign response to such activity, or other events outside of our control could have a material adverse impact on the financial services industry as a whole and on our business, results of operations, cash flows, and financial condition in particular. Our disaster recovery and business resumption contingency plans may not work as intended or may not prevent significant interruptions of our operations.

Non-compliance with the Patriot Act, Bank Secrecy Act, or other laws and regulations could result in fines or sanctions.

The Patriot and Bank Secrecy Acts require financial institutions to develop programs to prevent financial institutions from being used for money laundering and terrorist activities. If such activities are detected, financial institutions are obligated to file suspicious activity reports with the Treasury's FinCEN. These rules require financial institutions to establish procedures for identifying and verifying the identity of customers seeking to open new financial accounts. Failure to comply with these regulations could result in fines or sanctions. We have developed policies and procedures designed to assist in compliance with these laws and regulations.

The Fed may require the Company to commit capital resources to support the Subsidiary Banks.

The Fed, which examines the Company and our non-bank subsidiaries, has a policy stating that a bank holding company is expected to act as a source of financial and managerial strength to a subsidiary bank and to commit resources to support such subsidiary bank. Under the source of strength doctrine, the Fed may require a bank holding company to make capital injections into a troubled subsidiary bank, and may charge the bank holding company with engaging in unsafe and unsound practices for failure to commit resources to such a subsidiary bank. Capital injections may be required at times when the holding company may not have the resources to provide it, and, therefore, may be required to borrow the funds. Loans from a holding company to its subsidiary banks are subordinate in right of payment to deposits and to certain other indebtedness of such subsidiary bank. In the event of a bank holding company's bankruptcy, the bankruptcy trustee will assume any commitment by the holding company to a federal bank regulatory agency to maintain the capital of a subsidiary bank. Moreover, the bankruptcy law provides that claims based on any such commitment will be entitled to a priority of payment over the claims of the institution's general unsecured creditors, including the holders of its note obligations. Thus, any borrowing that must be done by the holding company in order to make the required capital injection becomes more difficult and expensive and may adversely impact the holding company's results of operations and cash flows.

Common Stock Marketability Risk

Our authorized preferred stock exposes holders of our common stock to certain risks.

Our Articles of Incorporation authorize the issuance of up to 10,000,000 shares of preferred stock, par value \$1.00 per share. The authorized but unissued preferred stock constitutes what is commonly referred to as "blank check" preferred stock. This type of preferred stock may be issued by us, at the direction of our Board, from time to time on any number of occasions, without stockholder approval, as one or more separate series of shares comprised of any number of the authorized but unissued shares of preferred stock, designated by resolution of the Board stating (i) the dividend rate or the amount of dividends to be paid thereon, whether dividends shall be cumulative and, if so, from which date(s), the payment date(s) for dividends, and the participating or other special rights, if any, with respect to dividends; (ii) the voting powers, full or limited, if any, of shares of such series; (iii) whether the shares of such series shall be redeemable and, if so, the price(s) at which, and the terms and conditions on which, such shares may be redeemed; (iv) the amount(s) payable upon the shares of such series in the event of voluntary or involuntary liquidation, dissolution or winding up of the Company; (v) whether the shares of such series shall be entitled to the benefit of a sinking or retirement fund to be applied to the purchase or redemption of such shares, and if so entitled, the amount of such fund and the manner of its application, including the price or prices at which such shares may be redeemed or purchased through the application of such funds; (vi) whether the shares of such series shall be convertible into, or exchangeable for, shares of any other class or

classes of stock of the Company, and, if so, the conversion price(s), or the rate(s) of exchange, and the adjustments thereof, if any, at which such conversion or exchange may be made, and any other terms and conditions of such conversion and exchange; (vii) the price or other consideration for which the shares of such series shall be issued; (viii) whether the shares of such series which are redeemed or converted shall have the status of authorized but unissued shares of serial preferred stock and whether such shares may be reissued as shares of the same or any other series of serial preferred stock; and (ix) whether the shares of such series shall be entitled to other rights, preferences and privileges. Such preferred stock may provide our Board the ability to hinder or discourage any attempt to gain control of us by a merger, tender offer at a control premium price, proxy contest or otherwise. Consequently, the preferred stock could entrench our management. The market price of our common stock could be depressed to some extent by the existence of the preferred stock. Moreover, any preferred stock that is issued will rank ahead, in terms of dividends, priority and liquidation preferences and may have greater voting rights than our Company's common stock. No shares of preferred stock have been issued as of December 31, 2006.

Our directors and executive officers own a significant portion of our common stock.

As of December 31, 2006, our directors and executive officers, collectively, beneficially owned approximately 23% of our outstanding common stock. As a result of their ownership, the directors and executive officers, as a group, have the ability to significantly influence the outcome of all matters submitted to our shareholders for approval, including the election of directors and the approval of mergers and other significant corporate transactions, even if their interests conflict with those of other shareholders, which could adversely affect the market price of our common stock.

The OCC, OTS or the GDBF may impose dividend payment and other restrictions on the Subsidiary Banks which would impact our ability to pay dividends to shareholders. Dividends from Harbourside are not anticipated for the foreseeable future.

The OCC, OTS and the GDBF are the primary regulatory agencies that examine the Subsidiary Banks. Under certain circumstances, including any determination that the activities of a bank or their subsidiaries constitute unsafe and unsound banking practices, the regulators have the authority by statute to restrict the Subsidiary Banks' ability to transfer assets, make shareholder distributions, and redeem preferred securities or pay dividends to the parent company.

Certain provisions in our Articles of Incorporation and Bylaws may deter potential acquirers and may depress our stock price.

Our Articles of Incorporation and Bylaws divide our Board into three classes, as nearly equal as possible, with staggered three-year terms. Business combinations, such as sales or mergers involving us, require the approval of a majority of shareholders as well as the recommendation for such business combination by at least two-thirds of the continuing directors, or in the alternative, unanimously recommended by the continuing directors, provided that the continuing directors constitute at least three members of the Board at the time of such approval. Shareholders may remove directors with or without cause upon the affirmative vote of the holders of at least 75% of the outstanding voting shares of the Company and the affirmative vote of the holders of at least 75% of the outstanding voting shares of the Company other than those of which an interested shareholder is the beneficial owner. These provisions could make it more difficult for a third party to acquire control of the Company. In addition, the above provisions may be altered only pursuant to specified shareholder action. With several specific exceptions, our Articles of Incorporation and Bylaws are silent with respect to the amendment of our Articles of Incorporation, and thus, the Georgia Business Corporations Code ("GBCC") dictates the requirements for making such an amendment. The GBCC generally provides that, other than in the case of certain routine amendments (such as changing the corporate name) and other amendments which the GBCC specifically allows without shareholder action, the corporation's board of directors must recommend any amendment of the Articles of Incorporation to the shareholders (unless the board elects to make no such recommendation because of a conflict of interest or other special circumstances and the board communicates the reasons for its election to the shareholders) and the affirmative vote of a majority of the votes entitled to be cast on the amendment by each voting group entitled to vote on the amendment (unless the GBCC, the articles of incorporation, or the board of directors require a greater percentage of votes) is required to amend our Articles of Incorporation.

Our Articles of Incorporation provide that the provisions regarding the approval required for certain business combinations may only be changed by the affirmative vote of at least 75% of the outstanding voting shares of the Company and the affirmative vote of the holders of at least 75% of the outstanding shares of the Company other than those of which an interested shareholder is the beneficial owner. Our Articles of Incorporation also provide that the provisions regarding the applicability of Article 11, Parts 2 and 3 of the GBCC (regarding mergers and share exchanges) to the Company may only be repealed by both the affirmative vote of at least two-thirds of the continuing directors and a majority of the votes entitled to be cast by voting shares of the Company, in addition to any other vote required by our Articles of Incorporation.

Our Bylaws generally provide that the Bylaws may be altered or amended by our shareholders at any annual meeting or special meeting of the shareholders or by our Board at any regular or special meeting of the Company's Board.

The existence of the above provisions could result in our being less attractive to a potential acquirer, or result in our shareholders receiving less for their shares of common voting stock than otherwise might be available if there were a takeover attempt.

We have certain obligations and the general ability to issue additional shares of our common stock in the future, and such future issuances may depress the price of our common stock.

We have various obligations to issue additional shares of common stock in the future. These obligations include non-qualified and incentive stock options as detailed in the table below.

Options outstanding at December 31, 2006 were as follows:

	Outstanding			Exercisable	
	Remaining Contractual Number	Weighted Average Life	Weighted Average Price	Number	Weighted Average Price
Outstanding Common Options					
Range of exercise prices					
\$5.43	8,895	0.01	\$ 5.43	8,895	\$ 5.43
\$9.98 - \$11.37	52,957	3.20	10.33	52,957	10.33
\$12.63 - \$13.56	64,088	3.81	13.22	57,557	13.24
\$15.76 - \$17.85	97,656	7.10	16.93	41,404	16.55
\$22.20 - \$28.56	47,634	8.41	23.72	21,441	24.78
Total outstanding	271,230	5.56	\$ 15.58	182,254	\$ 14.12

The options described above permit the holders to purchase shares of our common stock at specified prices. These purchase prices may be less than the then current market price of our common stock. Any shares of our common stock issued pursuant to these options would dilute the percentage ownership of existing stockholders. The terms on which we could obtain additional capital during the life of these options may be adversely affected because of such potential dilution. Finally, we may issue additional shares in the future other than as listed above. There are no preemptive rights in connection with our common stock. Thus, the percentage ownership of existing stockholders may be diluted if we issue additional shares in the future. For issuances of shares and grants of options, our Board will determine the timing and size of the issuances and grants and the consideration or services required thereof. Our Board intends to use its reasonable business judgment to fulfill its fiduciary obligations to our then existing stockholders in connection with any such issuance or grant. Nonetheless, future issuances of additional shares could cause immediate and substantial dilution to the net tangible book value of shares of our common stock issued and outstanding immediately before such transaction. Any future decrease in the net tangible book value of such issued and outstanding shares could materially and adversely affect the market value of the shares.

Sales of large quantities of our common stock could reduce the market price of our common stock.

Any sales of large quantities of shares of our common stock, or the perception that any such sales are likely to occur, could reduce the market price of our common stock. In 2005, we issued 397,273 restricted shares to investors in a private placement of our shares which were registered with the SEC on October 21, 2005. When the registration statement covering the resale of those restricted shares became effective, the holders of those shares are able to offer to sell those shares from time to time at the current market price or at negotiated prices. If holders sell

large quantities of shares of our common stock, the market price of our common stock may decrease and the public market for our common stock may otherwise be adversely affected because of the additional shares available in the market.

Our common stock has experienced only limited trading.

Our common stock has been quoted and traded on the NASDAQ National Market in the United States under the symbol "SAVB" since 1998 and the NASDAQ SmallCap Market from 1990 to 1998. In 2006, the NASDAQ National Market was renamed the Global Market. The trading volume in our common stock has been relatively low when compared with larger companies quoted on the NASDAQ Global Market or listed on the stock exchanges. We cannot say with any certainty that a more active and liquid trading market for our common stock will develop. Because of this, it may be more difficult for you to sell a substantial number of shares for the same price at which you could sell a smaller number of shares.

We cannot predict the effect, if any, that future sales of our common stock in the market, or the availability of shares of common stock for sale in the market, will have on the market price of our common stock. We, therefore, can give no assurance that sales of substantial amounts of our common stock in the market, or the potential for large amounts of sales in the market, would not cause the market price of our common stock to decline or impair our future ability to raise capital through sales of our common stock. As of December 31, 2006, there were 5,781,381 shares of common stock outstanding. The price of our common stock will be determined in the marketplace and may be influenced by many factors, including the following:

- The depth and liquidity of the markets for our common stock;
- Investor perception of us and the industry in which we participate;
- General economic and market conditions;
- Responses to quarter-to-quarter variations in operating results;
- Earnings relative to securities analysts' estimates;
- Changes in financial estimates by securities analysts;
- Conditions, trends or announcements in the banking industry;
- Announcements of significant acquisitions, strategic alliances, joint ventures or capital commitments by us or our competitors;
- Additions or departures of key personnel;
- Accounting pronouncements or changes in accounting rules that affect our financial statements; and,
- Other factors and events beyond our control.

The market price of our common stock could experience significant fluctuations unrelated to our operating performance. As a result, an investor (due to personal circumstances) may be required to sell their shares of our common stock at a time when our stock price is depressed due to random fluctuations, possibly based on factors beyond our control.

The market price of our common stock has risen significantly in a relatively short period of time.

Since January 1, 2005, the market price of our common stock has fluctuated from a low of \$21.20 per share to a high of \$30.40 per share and closed at \$27.25 on December 31, 2006. These prices have been restated to reflect the effect of a 5-for-4 stock split in December 2006. There can be no guarantee or assurance that the market price of our common stock will remain at or near its current level.

Item 1B. Unresolved Staff Comments

None

Item 2. Properties

See Note 5 and Note 13 of Notes to Consolidated Financial Statements on page F-13 and page F-18 of the Registrant's 2006 Annual Report, which is specifically incorporated herein by reference.

Savannah's main office is located at 25 Bull Street, Savannah, Georgia, on the ground floor and lower level of a seven story office building located on Johnson Square in downtown Savannah. Savannah has leased approximately 4,700 square feet on the main floor and 2,000 square feet on the lower level of the building. In November 1998, an additional 1,475 square feet of space on the sixth floor was added to the lease. An additional 600 square feet was added to the sixth floor lease in 2003 and approximately 2,500 additional square feet in December 2005. The leases expire in June 2009. The rental costs increase by 2 percent of the gross rental amount each year during the remaining five-year term. The Company is also responsible for its pro rata share of operating cost increases in utilities, janitorial services, property taxes and insurance. In September 2005, SAVB Properties LLC, a nonconsolidated subsidiary of the Company, acquired a 50 percent interest in Johnson Square Associates, LLP ("JSA"), which owns the 25 Bull Street property. SAVB Properties LLC also acquired a 50 percent interest in Whitaker Street Associates, which owns the adjacent parking lot on which an underground parking deck is being constructed.

In 1989, Bryan Bank constructed its 8,500 square foot, two-story main office in Richmond Hill, Georgia, on land owned by Bryan Bank. The building has a walk-up ATM, a drive-up ATM and 4 drive-through lanes. All Bryan Bank personnel are housed in this location.

Savannah leases approximately 6,500 square feet on the first floor of a two-story building located at 400 Mall Boulevard, Savannah, Georgia. This space is used for a branch location and the mortgage and construction lending departments. The building is near the intersection of Mall Boulevard and Hodgson Memorial Drive, a location that is convenient to a significant concentration of commercial, service, and retail entities. The lease rate increases with the Consumer Price Index. The initial lease term was for five years and ended March 31, 1997. Savannah committed to exercise the second five-year lease option in February 2002. There are two additional five-year renewal options included in the terms. Savannah is also responsible for its prorata share of increases in the cost of ad valorem taxes, insurance and maintenance of common areas. Savannah renovated the space, constructed a vault, and added a five lane drive-through teller facility adjacent to the building.

During 1995, Savannah entered into a five-year ground lease with seven five-year renewal options on land located at 100 Chatham Parkway. Savannah also has a right of first refusal to buy the property at appraised value should the owner ever decide to sell the property. The location is at the intersection of Chatham Parkway and U.S. Highway 80, a major commercial and industrial intersection in west Chatham County. Savannah made land improvements and constructed a 2,200 square-foot banking facility including four drive-through lanes and an ATM drive-through lane. The West Chatham Office opened for business on November 20, 1995.

In 1997, Savannah constructed a 2,300 square foot office on an out lot owned in the Island Towne Centre Shopping Plaza, six miles east of downtown Savannah. This office includes a four lane drive-through facility.

In November 1997, Savannah entered into a ten-year lease beginning June 1, 1998 with four five-year renewal options in the Medical Arts Shopping Center at 4809 Waters Avenue. The property consists of 3,055 square feet of banking office space and a separate drive-through facility behind the shopping center.

In March 2002, Savannah entered into a lease agreement, effective May 1, 2002, for approximately 5,000 square feet of office space at 450 Mall Boulevard, adjacent to the existing branch office at 400 Mall Boulevard. This lease is an addition to an existing lease for space at 400 Mall Boulevard that contains renewal options through 2017. The operations center is located in this space.

On February 24, 2006, Harbourside entered into a lease agreement, effective March 1, 2006, for approximately 17,400 square feet of office space at 852 William Hilton Parkway on Hilton Head Island. The lease is on a new building for a 20-year initial lease term with three five-year renewal options. Harbourside's main banking office is located on the ground floor. The mortgage banking and other offices are located on the second floor. The lease is accounted for as an operating lease. The tenant is responsible for all taxes, insurance and maintenance. After five years, the rent will adjust annually by an amount that approximates the increase in the Consumer Price Index.

On August 1, 2006, Savannah entered into a lease agreement for approximately 1,200 square feet of banking office space in The Village, a shopping center on Skidaway Island. The initial term of the lease is for five years and includes two five-year renewal options. The rent will adjust annually by an amount that approximates the increase in the Consumer Price Index. Savannah is also responsible for its prorata share of increases in the cost of ad valorem taxes, insurance and maintenance of common areas.

Item 3. Legal Proceedings

The Company is not a party to, nor is any of its property the subject of, any material pending legal proceedings incidental to the business of the Company or the Subsidiary Banks.

Item 4. Submission of Matters to a Vote of Security Holders

None

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures - We have evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the period covered by this Annual Report on Form 10-K as required by Rule 13a-15 of the Securities Exchange Act of 1934, as amended. This evaluation was carried out under the supervision and with the participation of our management, including our chief executive officer and chief financial officer. Based on this evaluation, the chief executive officer and chief financial officer have concluded that our disclosure controls and procedures are effective in timely alerting them to material information relating to the Company required to be included in our periodic SEC filings.

Management's Report on Internal Control over Financial Reporting and Report of Independent Registered Public Accounting Firm. - Our management is responsible for establishing and maintaining adequate internal control over financial reporting for the Company. Internal control over financial reporting is a process to provide reasonable assurance regarding the reliability of our financial reporting for external purposes in accordance with accounting principles generally accepted in the United States of America. Internal control over financial reporting includes maintaining records that in reasonable detail accurately and fairly reflect our transactions; providing reasonable assurance that transactions are recorded as necessary for preparation of our financial statements; providing reasonable assurance that receipts and expenditures of Company assets are made in accordance with management authorization; and providing reasonable assurance that unauthorized acquisition, use or disposition of Company assets that could have a material effect on our financial statements would be prevented or detected in a timely manner. Because of its inherent limitations, internal control over financial reporting is not intended to provide absolute assurance that a misstatement of our financial statements would be prevented or detected.

Management conducted an evaluation of the effectiveness of our internal control over financial reporting based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, management concluded that the Company's internal control over financial reporting was effective as of December 31, 2006. BDO Seidman, LLP has audited this assessment of our internal control over financial reporting and their report is included below.

Changes in Internal Control over Financial Reporting - No change in our internal control over financial reporting occurred during the fourth fiscal quarter covered by this Annual Report on Form 10-K that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Report of Independent Registered Public Accounting Firm

To the Board of Directors
The Savannah Bancorp, Inc.:

We have audited management's assessment, included in the accompanying Report of Management on Internal Control over Financial Reporting included in Item 9A, that The Savannah Bancorp, Inc. and subsidiaries (the "Company") maintained effective internal control over financial reporting as of December 31, 2006, based on criteria established in *Internal Control -- Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (the "COSO criteria"). The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express an opinion on management's assessment and an opinion on the effectiveness of The Savannah Bancorp, Inc.'s internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, management's assessment that The Savannah Bancorp, Inc. maintained effective internal control over financial reporting as of December 31, 2006 is fairly stated, in all material respects, based on the COSO criteria. Also in our opinion, The Savannah Bancorp, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 31, 2006, based on the COSO criteria.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of The Savannah Bancorp, Inc. and subsidiaries as of December 31, 2006 and 2005 and the related consolidated statements of income, changes in shareholders' equity and cash flows for each of the three years in the period ended December 31, 2006 and our report dated March 8, 2007 expressed an unqualified opinion thereon.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders
of The Savannah Bancorp, Inc.:

We have audited the accompanying consolidated balance sheets of The Savannah Bancorp, Inc. and its subsidiaries as of December 31, 2006 and 2005, and the related consolidated statements of income, changes in shareholders' equity and cash flows for each of the three years in the period ended December 31, 2006. These consolidated financial statements are the responsibility of The Savannah Bancorp, Inc.'s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of The Savannah Bancorp, Inc. and its subsidiaries as of December 31, 2006 and 2005, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2006 in conformity with accounting principles generally accepted in the United States of America.

We have also audited in accordance with the standards of the Public Company Accounting Oversight Board (United States), the effectiveness of the Company's internal controls over financial reporting as of December 31, 2006, based on criteria established in Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated March 8, 2007 expressed an unqualified opinion thereon.

Notes to Consolidated Financial Statements

Note 1 - Organization and Summary of Significant Accounting Policies

Principles of Consolidation - The consolidated financial statements include the accounts of The Savannah Bancorp, Inc. ("the Company") and its wholly-owned subsidiaries, The Savannah Bank, N.A. ("Savannah"), Bryan Bank & Trust ("Bryan") and Harbourside Community Bank ("Harbourside") or together referred to as the "Subsidiary Banks". All significant intercompany balances and transactions have been eliminated in consolidation. Certain prior year balances have been reclassified to conform to the current year presentation.

Nature of Operations - The Company is a three-bank holding company that offers a full range of lending, deposit, residential mortgage origination and fiduciary trust products. In the fourth quarter 2003, Savannah opened Harbourside Mortgage Company, a mortgage loan production office on Hilton Head Island, South Carolina. In March 2006, Harbourside assumed the operations of Harbourside Mortgage Company and commenced operations in its new leased headquarters facility. The primary service area of the Company is the city of Savannah, Georgia, surrounding Chatham County, Richmond Hill, Georgia (20 miles south of downtown Savannah) and Bryan County and Hilton Head Island, South Carolina and southern Beaufort County. In 2005, the Company formed a nonconsolidated subsidiary, SAVB Properties, LLC, which purchased a 50 percent interest in two real estate partnerships that own the Company's headquarters building and the adjacent parking lot. This investment is accounted for using the equity method of accounting.

Segments - The Company has two segments, commercial banking and mortgage banking. In 2006, the Company discontinued the sale of loans on a servicing retained basis and reduced the related mortgage banking activities. Mortgage banking does not meet the criteria for segment reporting.

Use of Estimates - In preparing consolidated financial statements in conformity with generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for credit losses and the evaluation of the realization of deferred tax assets.

Cash and Cash Equivalents - For purposes of the consolidated statements of cash flows, cash and cash equivalents include cash and balances due from banks, federal funds sold and interest-bearing deposits in banks, all of which mature within ninety days.

Investment Securities Available for Sale - Management has classified the entire investment securities portfolio as available for sale. Securities available for sale are carried at estimated fair value with unrealized gains and losses, net of deferred income taxes, recorded as a separate component of shareholders' equity. Purchase premiums and discounts are recognized in interest income using the interest method over the life of the securities. Gains and losses on the sale of securities are recorded on the trade date and are determined using the specific identification method.

Loans Held For Sale - Loans originated and intended for sale in the secondary market are carried at the lower of cost or estimated fair value in the aggregate. Net unrealized losses, if any, are recognized through a valuation allowance by charges to income. In estimating fair value, consideration is given to commitments from investors and prevailing market prices. Loan origination fees applicable to mortgage loans held for sale, net of certain direct origination costs, are deferred and recognized as an adjustment to the related gain or loss on subsequent sale of the loan.

Loans and Loan Fees - The Company's Subsidiary Banks underwrite mortgage, commercial and consumer loans to customers. A substantial portion of the loan portfolio consists of real estate secured loans throughout the coastal Georgia and South Carolina areas. Loans that management has the intent and ability to hold for the foreseeable future or until maturity or pay-off are generally reported at their outstanding unpaid principal balances adjusted for charge-offs, the allowance for credit losses, and any deferred fees or origination costs. Interest income is accrued on the unpaid principal balance. Loan origination fees, net of certain direct origination costs, are deferred and recognized as an adjustment of the related loan yield on a straight-line basis, which approximates the interest method.

Notes to Consolidated Financial Statements

Note 1 - Organization and Summary of Significant Accounting Policies (continued)

The accrual of interest on mortgage and commercial loans is discontinued at the time the loan is 90 days past due unless the credit is well-secured and in process of collection. Revolving credit loans and other personal loans are typically charged-off when payments are 120 days past due. Past due status is based on the contractual terms of the loan. Loans are placed on nonaccrual status or charged-off at an earlier date if collection of principal or interest in full becomes doubtful.

All interest accrued in the current year but not collected for loans that are placed on nonaccrual status or charged-off is reversed against interest income. The interest on these loans is accounted for on the cash-basis or cost-recovery method until qualifying for return to accrual. Loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured.

Allowance for Credit Losses - The allowance for credit losses is based on estimates and maintained at a level considered adequate to provide for potential losses inherent in the portfolio based on the current environment. The adequacy of the allowance is based on management's continuing evaluation of the loan portfolio considering current economic conditions, underlying collateral value securing loans and other factors that deserve recognition in estimating credit losses. Actual future losses may be different from estimates due to unforeseen events. Loans that are determined to be uncollectible are charged-off against the allowance.

The adequacy of the allowance for credit losses is evaluated on a regular basis by management and reported quarterly to the Audit Committee of the Board of Directors ("Board"). The evaluation is based upon management's periodic review of the collectibility of specific loans, adverse situations that may affect specific borrowers' ability to repay, the estimated value of any underlying collateral, the composition and size of the loan portfolio and prevailing economic conditions. This evaluation is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available.

The allowance consists of specific and general reserve components. The specific component relates to loans that are classified as doubtful or substandard. For such loans that are also classified as impaired, an allowance is established when the discounted cash flows (or value of related collateral or observable market price) of the impaired loan is lower than the carrying value of that loan. The general component covers non-classified loans and is based on historical loss experience adjusted for qualitative factors.

A loan is considered impaired when, based on current information and events, it is probable that the Company will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement. Factors considered by management in determining impairment include payment status, collateral value, and the probability of collecting scheduled principal and interest payments when due. Loans that experience insignificant payment delays and payment shortfalls generally are not classified as impaired. Management determines the significance of payment delays and payment shortfalls on a case-by-case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including the length of the delay, the reasons for the delay, the borrower's prior payment record, and the amount of the shortfall in relation to the principal and interest owed. Impairment is measured on a loan by loan basis by either the present value of expected future cash flows discounted at the loan's effective interest rate, the loan's obtainable market price, or the fair value of the collateral if the loan is collateral dependent.

Premises and Equipment - Buildings, furniture, banking equipment and leasehold improvements are stated at cost less accumulated depreciation and amortization. Depreciation and amortization are computed using the straight-line method over the estimated useful lives or estimated lease terms including expected lease renewals, ranging from three to fifty years, of the respective assets for financial reporting purposes and using an accelerated method for income tax purposes. Additions and major improvements are capitalized, while routine maintenance and repairs and gain or loss on dispositions are recognized currently.

Other Real Estate Owned - Assets acquired through loan foreclosure are held for sale and are initially recorded at fair value at the date of foreclosure, establishing a new cost basis. Subsequent to foreclosure, valuations are periodically performed by management and the assets are carried at the lower of carrying amount or fair value less costs to sell. Revenue and expenses from operations and changes in the valuation allowance are included in other operating expense.

Notes to Consolidated Financial Statements

Note 1 - Organization and Summary of Significant Accounting Policies (continued)

Bank-Owned Life Insurance - Bank-owned life insurance policies are recorded at the net realizable value of the underlying insurance contracts. The change in contract value during the year represents the contract earnings during the period less the mortality costs and administrative costs of the underlying life insurance contracts. The increase in cash surrender value from bank-owned life insurance contracts is included as a component of other operating income and the mortality costs and administrative fees are recorded as noninterest expense.

Income Taxes - Deferred income tax assets and liabilities are determined using the liability (or balance sheet) method. Deferred tax assets and liabilities arise from temporary differences between the carrying amounts of assets and liabilities for financial reporting and income tax purposes. They are reflected at currently enacted income tax rates applicable to the period in which the deferred tax assets or liabilities are expected to be realized or settled. As changes in tax laws or rates are enacted, deferred tax assets and liabilities are adjusted through income tax expense.

Earnings Per Share - Basic earnings per share represent net income divided by the weighted average number of common shares outstanding during the period. Diluted earnings per share reflect additional common shares that would have been outstanding if dilutive potential common shares had been issued, as well as any adjustment to income that would result from the assumed issuance. Potential common shares that may be issued by the Company relate solely to outstanding stock options, and are determined using the treasury stock method. Earnings per common share have been computed based on the following:

Year Ended December 31,	2006	2005	2004
Average number of common shares outstanding - basic	5,765,000	5,396,000	5,136,000
Effect of dilutive options	111,000	135,000	125,000
Average number of common shares outstanding - diluted	5,876,000	5,531,000	5,261,000

Stock option shares in the amount of 10,716 for the year ended 2006 were excluded from the diluted earnings per share calculation due to their anti-dilutive effect. None were excluded in 2005 or 2004. All share amounts have been restated to reflect the effect of a 5-for-4 stock split in December 2006.

Derivative Instruments and Hedging Activities - Statement of Financial Accounting Standards ("SFAS") No. 133, "Accounting for Derivative Instruments and Hedging Activities" ("SFAS 133"), as amended and interpreted, establishes accounting and reporting standards for derivatives and hedging activities. As required by SFAS 133, the Company records all derivatives at fair value on the balance sheet as either other assets or other liabilities. The Company uses derivative instruments including interest rate swaps, floors and collars as part of its overall asset and liability duration and interest rate risk management strategy. These instruments enable the Company to manage desired asset and liability duration and to reduce exposure to interest rate movements.

Other Comprehensive Income (Loss) - Comprehensive income (loss) is the change in the Company's equity during the period from transactions and other events and circumstances from non-owner sources.

(\$ in thousands)	2006	2005	2004
Net income	\$ 10,002	\$ 9,040	\$ 5,736
Change in net unrealized gains (losses) on securities available for sale, net of tax	178	(522)	(362)
Net change in fair value of derivative instruments, net of tax	(236)	(243)	-
Other comprehensive income	\$ 9,944	\$ 8,275	\$ 5,374

Notes to Consolidated Financial Statements

Note 1 - Organization and Summary of Significant Accounting Policies (continued)

Accounting for Stock-Based Compensation - On January 1, 2006, the Company adopted the revised SFAS No. 123, "Share-Based Payment," ("SFAS 123R") using the modified prospective method. In accordance with SFAS 123R, the Company measures the cost of employee services received in exchange for an award of equity instruments based on the fair value of the award on the grant date. That cost is recognized over the period during which an employee is required to provide service in exchange for the award - the requisite service period. No compensation cost is recognized for equity instruments for which employees do not render the requisite service. The Company determines the fair value of employee stock options using the Black-Scholes option pricing model.

The 1995 Incentive Stock Option Plan ("1995 Plan") authorized the Company to issue both incentive stock options and non-qualified stock options to certain key officers for the purchase of shares at the fair market value of the stock at the date of grant. In 2000, the shareholders authorized additional option shares under the 1995 Plan. All authorized shares have been awarded from the 1995 Plan.

In 2005, shareholders approved the 2005 Omnibus Stock Ownership and Long-Term Incentive Plan ("2005 Omnibus Plan") and authorized 250,000 option or restricted shares to be available for issuance. The total number of remaining options or awards available for issuance at December 31, 2006 under the 2005 Omnibus Plan was 193,830 shares of common stock. Options granted under both plans have a term of ten years and generally become fully vested by the end of the fifth year. Performance based options granted to directors vest over four quarters from the date of grant.

In accordance with the modified prospective method, the Company's consolidated financial statements for prior periods have not been restated to reflect, and do not include, the impact of SFAS 123R. The following table summarizes compensation costs related to the Company's stock-based compensation plans for the year ended December 31:

(\$ in thousands)	2006
Salaries and employee benefits	\$ 200
Directors' stock-based compensation	99
Pre-tax stock-based compensation expense	299
Income tax benefit	(108)
Total stock-based compensation expense, net of tax	\$ 191

In the third quarter of 2006, the Company realized \$48,000 in income tax benefit associated with certain stock option exercises. Stock-based compensation expense, net of tax, for 2005 and 2004 was \$151,000 and \$89,000, respectively. Net income per diluted share would have been approximately \$0.03 less for 2005 and \$0.02 less for 2004.

The Company recognizes stock-based compensation expense using the graded vesting attribution method. The remaining unrecognized compensation cost related to unvested awards at December 31, 2006 is approximately \$551,000 and the weighted-average period of time over which this cost will be recognized is approximately 3.2 years. This amount does not include the cost of any additional options that may be granted in future periods nor any reduction in cost for potential forfeitures.

Notes to Consolidated Financial Statements

Note 1 - Organization and Summary of Significant Accounting Policies (continued)

The Company implemented an improved Black-Scholes methodology for calculating stock-based compensation in 2006. Certain prior year assumptions and amounts have been restated to conform to the current year methodology. The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following assumptions. The values have been restated to reflect the effect of a 5-for-4 stock split in December 2006.

	2006	2005	2004
Weighted average fair value of options granted	\$ 8.89	\$ 6.06	\$ 5.81
Expected volatility	27.7%	29.0%	32.0%
Dividend yield	1.53%	1.94%	2.30%
Risk-free interest rate	4.90%	3.82%	3.39%
Expected life	6.0 years	6.0 years	7.0 years

Recent Accounting Pronouncements

In June 2006, the Financial Accounting Standards Board ("FASB") issued Interpretation 48, "Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109" ("FIN 48"). FIN 48 clarifies the accounting for uncertainty in income taxes by establishing minimum standards for the recognition and measurement of income tax positions taken, or expected to be taken, in an income tax return. FIN 48 represents a significant change in accounting for income taxes, and for disclosures related to income taxes, and becomes effective for the Company in 2007. The Company is currently evaluating FIN 48 but believes the adoption of this Interpretation will have no material impact on its consolidated financial position or results of operations.

In September 2006, the Securities and Exchange Commission ("SEC") issued Staff Accounting Bulletin No. 108 ("SAB 108"). Due to diversity in practice among registrants, SAB 108 expresses SEC staff views regarding the process by which misstatements in financial statements are evaluated for purposes of determining whether financial statement restatement is necessary. SAB 108 is effective for fiscal years ending after November 15, 2006, and early application is encouraged. The Company does not believe SAB 108 will have a material impact on the consolidated financial statements.

On February 15, 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" ("SFAS 159") that provides companies with an option to report selected financial assets and liabilities at fair value. SFAS 159's objective is to reduce both complexity in accounting for financial instruments and the volatility in earnings caused by measuring related assets and liabilities differently. SFAS 159 also establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. SFAS 159 does not eliminate disclosure requirements included in other accounting standards, including requirements for disclosures about fair value measurements included in FASB Statements No. 157, "Fair Value Measurements," and No. 107, "Disclosures about Fair Value of Financial Instruments." SFAS 159 is effective as of the beginning of an entity's first fiscal year that begins after November 15, 2007. The Company will evaluate the impact of this optional Statement.

Various proposals have been issued by the SEC related to changes in filing requirements, accountability of executive management and directors regarding accounting policies, internal controls and audit issues. The Company does not believe the eventual outcome of these proposals will have a material impact on the consolidated financial statements.

Notes to Consolidated Financial Statements

Note 2 - Restrictions on Cash and Demand Balances Due from Banks and Interest-Bearing Bank Balances

The Subsidiary Banks are required by the Federal Reserve Bank to maintain minimum cash reserves based upon reserve requirements calculated on their deposit balances. Cash reserves of \$1,841,000 and \$1,912,000 were required as of December 31, 2006 and 2005, respectively. The Company has pledged interest-bearing cash balances at the Federal Home Loan Bank of Atlanta ("FHLB") in lieu of investment securities to secure public fund deposits and securities sold under repurchase agreements. Pledged cash balances were \$7,500,000 and \$1,200,000 at December 31, 2006 and 2005, respectively.

Note 3 - Securities Available for Sale

The aggregate amortized cost and fair value of securities available for sale as of December 31, 2006 and 2005 were as follows:

2006				
(\$ in thousands)	Amortized Cost	Unrealized Gains	Unrealized Losses	Fair Value
Investment securities:				
U. S. government agencies	\$ 33,643	\$ 73	\$ (193)	\$33,523
Mortgage-backed securities	14,681	10	(188)	14,503
State and municipal	2,104	52	-	2,156
Other taxable securities	3,735	-	-	3,735
Total investment securities	\$ 54,163	\$ 135	\$ (381)	\$53,917
2005				
(\$ in thousands)	Amortized Cost	Unrealized Gains	Unrealized Losses	Fair Value
Investment securities:				
U. S. government agencies	\$ 28,170	\$ 3	\$ (380)	\$27,793
Mortgage-backed securities	10,137	8	(256)	9,889
State and municipal	3,769	91	-	3,860
Other taxable securities	2,896	-	-	2,896
Total investment securities	\$ 44,972	\$ 102	\$ (636)	\$44,438

The distribution of securities by maturity or expected call date at December 31, 2006 is shown below:

(\$ in thousands)	Amortized Cost	Fair Value
Securities available for sale:		
Due in one year or less	\$ 16,298	\$ 16,224
Due after one year through five years	33,913	33,759
Due after five years through ten years	3,198	3,183
Due after ten years	754	751
Total investment securities	\$ 54,163	\$ 53,917

At December 31, 2006 and 2005, investment securities with a carrying value of \$44,190,000 and \$36,292,000, respectively, were pledged as collateral to secure public funds, securities sold under repurchase agreements and FHLB borrowings.

Notes to Consolidated Financial Statements

Note 4 - Loans

The composition of the loan portfolio at December 31, 2006 and 2005 is presented below:

(\$ in thousands)	2006	Percent of Total	2005	Percent of Total
Commercial	\$ 57,737	8.0%	\$ 45,934	7.4%
Real estate - construction and development	166,172	23.1	144,732	23.6
Real estate - mortgage	480,381	66.6	408,845	66.7
Installment and other consumer	16,628	2.3	14,156	2.3
Gross loans	720,918	100.0%	613,667	100.0%
Allowance for credit losses	(8,954)		(7,813)	
Net loans	\$ 711,964		\$ 605,854	

Nonperforming loans included nonaccruing loans and loans which are contractually past due 90 days or more of \$2,231,000 and \$1,357,000 at December 31, 2006 and 2005, respectively. Nonaccruing loans of \$825,000 and \$1,313,000 at December 31, 2006 and 2005, respectively, were also considered impaired. Interest income of \$23,000 was recognized on nonaccrual loans in 2006.

Changes in the allowance for credit losses are summarized as follows:

(\$ in thousands)	2006	2005	2004
Balance, beginning of year	\$ 7,813	\$ 6,389	\$ 5,067
Provision for credit losses	1,585	1,500	1,450
Charge-offs	(506)	(152)	(256)
Recoveries	62	76	128
Balance, end of year	\$ 8,954	\$ 7,813	\$ 6,389

The Company has granted loans to certain directors and executive officers of the Company and to their related interests. The aggregate amounts of loans were \$16,332,000 and \$18,910,000 at December 31, 2006 and 2005, respectively. During 2006, \$14,005,000 of new loans were made and repayments of \$16,583,000 were received. Unfunded commitments of credit available to related parties aggregated \$7,554,000 and \$8,840,000 at December 31, 2006 and 2005, respectively. Related party loans are made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with unrelated persons and do not involve more than normal risk of collectibility.

Note 5 - Premises and Equipment

Premises and equipment at December 31, 2006 and 2005 are summarized as follows:

(\$ in thousands)	Depreciable Lives	2006	2005
Land	-	\$ 698	\$ 698
Buildings and improvements	39 - 50	2,665	2,548
Furniture and banking equipment	3 - 15	6,571	5,130
Leasehold improvements	10 - 39	2,069	1,423
Total cost		12,003	9,799
Less accumulated depreciation and amortization		5,638	4,779
Premises and equipment, net		\$ 6,365	\$ 5,020

Notes to Consolidated Financial Statements

Note 6 - Deposits

Total time deposits mature as follows: 2007 - \$269,121,000; 2008 - \$39,919,000; 2009 - \$3,469,000; 2010 - \$6,006,000; and 2011 and thereafter - \$4,766,000.

The following table indicates the amount of the Company's time deposits of \$100,000 or more at December 31, 2006 by time remaining until maturity.

Maturity Period	Amount
Three months or less	\$ 35,606,000
Over three through six months	34,689,000
Over six through twelve months	63,560,000
Over twelve months	30,365,000
Total	\$ 164,220,000

Note 7 - Short-Term Borrowings

Short-term borrowings include the following:

(\$ in thousands)

	Federal Funds Purchased	Securities Sold Under Repurchase Agreements	FHLB Short-Term Advances	Notes Payable
<u>2006</u>				
Balance at December 31	\$ 1,003	\$ 15,684	\$ 24,000	\$ -
Maximum indebtedness at any month end	2,502	19,073	40,000	2,100
Daily average indebtedness outstanding	1,616	15,724	17,977	858
Average rate paid for the year	5.02%	4.48%	5.28%	7.69%
Average rate paid on period-end borrowings	5.08%	4.75%	5.36%	N/A
<u>2005</u>				
Balance at December 31	\$ 884	\$ 13,018	\$ 4,000	\$ 2,000
Maximum indebtedness at any month end	6,056	16,980	30,000	2,000
Daily average indebtedness outstanding	1,593	15,462	6,800	421
Average rate paid for the year	3.20%	2.60%	2.83%	6.99%
Average rate paid on period-end borrowings	4.05%	3.75%	4.44%	7.25%

Short-term borrowings at December 31, 2006 and 2005 consist of federal funds purchased, securities sold under agreements to repurchase, FHLB short-term advances and notes payable. As of December 31, 2006 and 2005, the Company had short-term borrowings totaling \$40,687,000 and \$19,902,000, respectively. The average interest rates were 4.98 percent and 2.78 percent during the years ended 2006 and 2005, respectively. The interest rates on short-term borrowings ranged from 4.75 percent to 5.36 percent at December 31, 2006 and from 3.75 percent to 7.25 percent at December 31, 2005. The maximum amount outstanding at the end of any month was \$56,683,000 and \$45,823,000 during 2006 and 2005, respectively. At December 31, 2006 federal funds borrowing arrangements aggregating \$40.8 million were available to the Subsidiary Banks from correspondent banking institutions. There are no commitment fees and no requirements for compensating balances. These unused lines principally serve as temporary liquidity back-up lines and are subject to availability of funds and other specific limitations of the correspondent banks. Savannah is a member and shareholder of the Federal Reserve Bank of Atlanta ("FRB") and has access to borrowings at the FRB discount window. Bryan has also been approved to access the FRB discount window.

The Company has a \$5,000,000 line of credit through a correspondent bank, of which none was advanced at December 31, 2006. The primary purpose of the line is to provide access to funds that can be used for short-term corporate needs. The borrowing facility is available through June 6, 2007 at which time any outstanding indebtedness is due and payable in full. Advances

Notes to Consolidated Financial Statements

Note 7 - Short-Term Borrowings (continued)

on the line are subject to the Company certifying compliance with covenants and conditions specified in the agreement. The covenants include customary performance items and a negative pledge agreement on the stock of Savannah. The Company may not pledge the stock of Savannah for any other indebtedness or other purpose without the express written consent of the lender.

Note 8 - Federal Home Loan Bank Advances - Long-Term

Convertible Advances - The Company has convertible fixed rate advances from the FHLB of \$11,000,000, including advances of \$1,000,000 with an interest rate of 6.39 percent maturing in August 2009 and \$10,000,000 with an interest rate of 4.82 percent maturing in December 2010. The advances are convertible each quarter at the option of the FHLB to advances with rates equal to the current three-month LIBOR.

Long-term Advances - Long-term advances from the FHLB totaled \$2,309,000 and \$2,476,000 at December 31, 2006 and 2005, respectively. The weighted-average interest rates on the long-term advances were 4.64 and 4.87 percent at December 31, 2006 and 2005, respectively. Aggregate maturities are \$340,000 in 2007, \$1,591,000 in 2008, \$217,000 in 2009 and \$161,000 in 2010 and thereafter. Interest is generally payable monthly and scheduled principal reductions are made quarterly, semi-annually or at maturity. The long-term advances include prepayment penalties for each advance.

FHLB Advance Borrowing Capacity - The Subsidiary Banks are shareholders of the FHLB and have access to secured borrowings from the FHLB under Blanket Floating Lien Agreements. Under these agreements, Savannah and Bryan have credit lines up to 80 percent of the FHLB qualifying collateral value of their 1-4 family first mortgage loans and up to 50 percent of the FHLB qualifying collateral value of their home equity lines of credit and second mortgage loans, with a limit of 20 percent of assets for Savannah and 16 percent of assets for Bryan. Harbourside has an approved borrowing capacity of \$2.2 million at December 31, 2006. In aggregate, the Subsidiary Banks had secured borrowing capacity of approximately \$106.8 million of which \$37.3 million was advanced at December 31, 2006. These credit arrangements serve as a core funding source as well as liquidity backup for the Subsidiary Banks. Additional advances are subject to review and approval by the FHLB.

Note 9 - Subordinated Debt to Nonconsolidated Subsidiaries

During the third quarters 2003 and 2004, the Company formed SAVB Capital Trust I and SAVB Capital Trust II (the "Trusts"), respectively, nonconsolidated subsidiaries whose sole purpose was to issue \$6,000,000 and \$4,000,000, respectively, in Trust Preferred Securities through investment pools sponsored by two national brokerage firms. The Trust Preferred Securities have maturities of 30 years and are redeemable at the Company's option on any quarterly interest payment date after five years. There are certain events (as defined in the Trust agreements) in which the securities may be redeemed within the first five years at the Company's option. At December 31, 2006, the interest rates on the securities were 8.22 and 7.59 percent, respectively, with quarterly resets at the three-month LIBOR plus 2.85 and 2.20 percent, respectively. The Company's liabilities to the nonconsolidated Trusts are recorded as liabilities of \$6.186 million and \$4.124 million and investments of \$186,000 and \$124,000, respectively, in the consolidated balance sheet. Subject to certain limitations, the securities qualify as Tier 1 capital for regulatory capital purposes under Federal Reserve Bank regulations.

Notes to Consolidated Financial Statements

Note 10 - Income Taxes

Income tax expense is composed of the following for each of the years ended December 31:

(\$ in thousands)	2006	2005	2004
Current federal	\$ 5,537	\$ 5,227	\$ 3,171
Current state	411	513	282
Total current	5,948	5,740	3,453
Deferred federal	(629)	(755)	(464)
Deferred state	(104)	(105)	(49)
Total deferred	(733)	(860)	(513)
Income tax expense	\$ 5,215	\$ 4,880	\$ 2,940

Investments in federal and state low-income housing tax credit partnerships yielded approximately \$227,000 in reduced federal and state income tax expense in 2006, \$226,000 in 2005 and \$105,000 in 2004.

A reconciliation between income tax expense and the amounts computed by applying the U.S. federal tax rate of 34 percent to income before income taxes is as follows:

(\$ in thousands)	2006	2005	2004
Tax provision at 34%	\$ 5,173	\$ 4,733	\$ 2,950
State tax, net of federal tax benefit	199	226	126
Benefit of tax-exempt income, net	(129)	(157)	(97)
Other	(28)	78	(39)
Income tax expense	\$ 5,215	\$ 4,880	\$ 2,940

Deferred income tax assets and liabilities are comprised of the following at December 31, 2006 and 2005:

(\$ in thousands)	2006	2005
Deferred tax assets:		
Allowance for credit losses	\$ 3,285	\$ 2,868
Unrealized losses on securities	93	204
Unamortized loan fees	361	430
Unamortized non-compete costs	39	45
Unrealized losses on derivatives	293	149
Deferred compensation expense	232	142
Stock-compensation expense	60	-
Other	165	198
Total deferred tax assets	4,528	4,036
Deferred tax liabilities:		
Depreciation	395	471
Deferred costs on loans and deposits	101	141
Other	79	237
Total deferred tax liabilities	575	849
Net deferred tax assets	\$ 3,953	\$ 3,187

The net deferred tax assets are included in the consolidated balance sheets in other assets.

Notes to Consolidated Financial Statements

Note 11 - Stock Option Plans and Benefit Plan

As discussed in Note 1, the Company has two stock option plans. All authorized shares have been awarded from the 1995 Plan. There are 193,830 remaining option shares authorized under the 2005 Omnibus Plan at December 31, 2006. The options granted in the chart below generally vest 20 percent each year over five years and are exercisable over ten years except for 18,250 option shares granted to directors in 2006 and 2005 which vest within one year and 8,310 restricted share grants which vest over ten years. Some of the executive officer option shares also include minimum performance triggers as a condition of vesting.

Changes in stock options outstanding for the three years ended December 31, 2006, 2005 and 2004 are as follows. All share and per share amounts have been restated to reflect the effect of a 5-for-4 stock split in December 2006.

	2006		2005		2004	
	Shares	Weighted Average Exercise Price	Shares	Weighted Average Exercise Price	Shares	Weighted Average Exercise Price
Outstanding at beginning						
of year	304,046	\$ 14.49	369,190	\$ 11.26	327,003	\$ 10.00
Granted	10,716	28.56	36,878	22.31	54,687	17.85
Exercised	(35,976)	10.28	(102,022)	5.64	(12,500)	7.06
Forfeited	(7,556)	15.99	-	-	-	-
Outstanding at end of year	271,230	\$ 15.58	304,046	\$ 14.49	369,190	\$ 11.26
Exercisable at end of year	182,254	\$ 14.12	176,199	\$ 12.30	232,052	\$ 8.64

Options outstanding at December 31, 2006 were as follows:

	Outstanding			Exercisable	
	Remaining Contractual Number	Weighted Average Life	Weighted Average Price	Number	Weighted Average Price
Outstanding Common Options					
Range of exercise prices					
\$5.43	8,895	0.01	\$ 5.43	8,895	\$ 5.43
\$9.98 - \$11.37	52,957	3.20	10.33	52,957	10.33
\$12.63 - \$13.56	64,088	3.81	13.22	57,557	13.24
\$15.76 - \$17.85	97,656	7.10	16.93	41,404	16.55
\$22.20 - \$28.56	47,634	8.41	23.72	21,441	24.78
Total outstanding	271,230	5.56	\$ 15.58	182,254	\$ 14.12

Restricted Stock - In 2006, the Board granted 8,310 shares of restricted stock under the 2005 Omnibus Plan which awards certain officers common shares of the Company. The cost of these shares is being amortized against earnings using the vesting schedule over the ten year vesting period. Unrecognized compensation cost for restricted stock grants was \$183,000 at December 31, 2006.

The Company sponsors a 401(k) employee savings and profit sharing plan in which substantially all full-time employees are eligible to participate. The plan allows eligible employees to save a portion of their salary on a pre-tax basis. Contributions by the Company to the plan are discretionary. Contributions and administrative expenses related to the plan aggregated \$356,000, \$276,000 and \$252,000 for the years ended December 31, 2006, 2005 and 2004, respectively.

Notes to Consolidated Financial Statements

Note 12 - Capital Ratios and Dividend Restrictions

The Subsidiary Banks' primary regulators have adopted capital requirements that specify the minimum capital level for which no prompt corrective action is required. In addition, the Federal Deposit Insurance Corporation ("FDIC") has adopted FDIC insurance assessment rates based on certain "well-capitalized" risk-based and equity capital ratios. Failure to meet minimum capital requirements can result in the initiation of certain actions by the regulators that, if undertaken, could have a material effect on the Company's and the Subsidiary Banks' financial statements. Management believes that the Company and the Subsidiary Banks meet all capital adequacy requirements to which they are subject as of December 31, 2006. The following tables show the capital ratios for the Company and the Subsidiary Banks at December 31, 2006 and 2005:

(\$ in thousands)	Company		Savannah		Bryan		Harbourside	
	2006	2005	2006	2005	2006	2005	2006	2005
Qualifying Capital								
Tier 1 capital	\$77,205	\$69,116	\$48,718	\$43,047	\$16,833	\$13,962	\$ 8,687	\$ -
Total capital	85,910	76,617	54,712	48,656	18,874	15,798	9,207	-
Leverage Ratios								
Tier 1 capital to average assets	9.57%	9.60%	8.58%	7.93%	9.23%	8.08%	15.55%	- %
Risk-based Ratios								
Tier 1 capital to risk-weighted assets	11.09%	11.52%	10.17%	9.60%	10.31%	9.51%	16.98%	- %
Total capital to risk-weighted assets	12.34%	12.77%	11.42%	10.85%	11.56%	10.76%	18.00%	- %

Required Regulatory Capital Ratios:	Minimum	Well-Capitalized
Tier 1 capital to average assets	4.00%	5.00%
Tier 1 capital to risk-weighted assets	4.00%	6.00%
Total capital to risk-weighted assets	8.00%	10.00%

As of December 31, 2006, the Subsidiary Banks were categorized as well-capitalized under the regulatory framework for prompt corrective action in the most recent notification from the FDIC. There are no conditions or events since the notification that management believes have changed the institutions' categories.

Banking regulations restrict the amount of cash dividends that banks may pay without obtaining regulatory approval. At December 31, 2006, \$14,081,000 in retained earnings of the Subsidiary Banks was available for the payment of dividends, subject to maintaining adequate capital ratios in the Subsidiary Banks. The Company is not subject to any regulatory restrictions on the payment of dividends to its shareholders.

Note 13 - Leases and Commitments

Future minimum payments under non-cancelable land and office space operating leases with remaining terms in excess of one year are presented as follows: 2007 - \$699,000; 2008 - \$939,000; 2009 - \$706,000; 2009 - \$582,000; 2010 - \$600,000; 2011 and thereafter is \$7,985,000. The land and office space leases contain customary escalation clauses. The Company or the Subsidiary Banks are responsible for taxes, insurance and maintenance during the lease term under certain leases. At December 31, 2006, the Company was in the process of renegotiating its long-term data processing contract. The Company is operating temporarily on a month-to-month extension until the new terms can be agreed upon.

The net rental expense for all office space operating leases amounted to \$1,006,000 in 2006, \$653,000 in 2005 and \$602,000 in 2004. The leases on the office space have five to twenty-year renewal options and require increased rental payments under consumer price index escalation clauses.

Notes to Consolidated Financial Statements

Note 14 - Other Operating Expense

The components of other operating expense for the years ended December 31, 2006, 2005 and 2004 were as follows:

(\$ in thousands)	2006	2005	2004
Professional and directors fees	\$ 959	\$ 748	\$ 581
Regulatory exams, FDIC and audit fees	832	694	528
Advertising and sales promotion	463	294	180
Stationery and supplies	301	239	228
Postage and courier	265	243	231
Taxes and licenses	204	154	99
Loan costs	185	170	258
Telephone	173	150	148
Correspondent bank charges	155	137	121
Dues and subscriptions	110	97	74
Insurance	90	76	59
Pre-opening expenses	263	129	-
Other expense	656	542	373
Total other operating expense	\$ 4,656	\$ 3,673	\$ 2,880

Note 15 - On-Balance Sheet Derivative Instruments and Hedging Activities

SFAS 133, as amended and interpreted, establishes accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities. As required by SFAS 133, the Company records all derivatives on the balance sheet at fair value. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative and the resulting designation. Derivatives used to hedge the exposure to variability in expected future cash flows, or other types of forecasted transactions, are considered cash flow hedges.

For derivatives designated as cash flow hedges, the effective portion of changes in the fair value of the derivative is initially reported in other comprehensive income (outside of earnings) and subsequently reclassified to earnings when the hedged transaction affects earnings. The ineffective portion of changes in the fair value of the derivative is recognized directly in earnings. The Company assesses the effectiveness of each hedging relationship by comparing the changes in cash flows of the derivative hedging instrument with the changes in cash flows of the designated hedged item or transaction. For derivatives not designated as hedges, changes in fair value are recognized in earnings. The Company does not currently have any derivatives that are not designated as hedges.

The Company's objective in using derivatives is to add stability to interest income and to manage its exposure to interest rate movements or other identified risks. To accomplish this objective, the Company primarily uses interest rate floors, collars or swaps as part of its cash flow hedging strategy. Interest rate floors and collars designated as cash flow hedges involve the receipt of variable-rate cash flows above or below the applicable strike rates over the life of the agreements without exchange of the underlying principal amount. Interest rate swap agreements designated as cash flow hedges involve the receipt of fixed rate amounts in exchange for variable rate payments over the life of the agreements without exchange of the underlying principal amount. During 2006, such derivatives were used to hedge the variable cash flows associated with existing variable rate assets. The Company does not use derivatives for trading or speculative purposes.

Exposure to credit risk arises from the possibility of nonperformance by counterparties. These counterparties consist of financial institutions that are well established and well capitalized. The Company controls this credit risk through limits and monitoring procedures. No losses on derivative instruments have resulted as a result of counterparty nonperformance. Nevertheless, the related credit risk is considered and measured when and where appropriate.

Notes to Consolidated Financial Statements

Note 15 - On-Balance Sheet Derivative Instruments and Hedging Activities (continued)

Selected information with respect to notional amounts, recorded fair values, and maturity dates of derivative instruments is summarized as follows.

(\$ in thousands)	Maturity	Notional Amount	December 31, 2006		December 31, 2005	
			Fair Value		Fair Value	
			Asset	Liability	Asset	Liability
Cash flow hedges:						
Interest rate swap	Nov 2010	\$ 50,000	\$ -	\$ 332	\$ 70	\$ -
6%/9% Interest rate collar	June 2010	40,000	-	29	-	104
6% Interest rate floor	June 2010	35,000	49	-	128	-
Total		\$ 125,000	\$ 49	\$ 361	\$ 198	\$ 104

The change in net unrealized losses of \$236,000 and \$243,000 in 2006 and 2005, respectively, for derivatives designated as cash flow hedges is separately disclosed in the statements of changes in shareholders' equity. No hedge ineffectiveness on cash flow hedges was recognized during 2006 or 2005.

Amounts reported in accumulated other comprehensive income related to derivatives will be reclassified to interest income as interest payments are received on the Company's variable-rate assets. The change in net unrealized gains (losses) on cash flow hedges reflects a reclassification of (\$184,000) and \$48,000 of net unrealized gains (losses) from accumulated other comprehensive income to interest income during 2006 and 2005, respectively. During 2007, the Company estimates that an additional (\$303,000) will be reclassified.

Note 16 - Financial Instruments with Off-Balance Sheet Risk

The Company is a party to financial instruments with off-balance sheet risk in the normal course of business in order to meet the financing needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit. These instruments involve, to varying degrees, elements of credit and interest rate risk.

The Company's exposure to credit losses in the event of nonperformance by the other party to the financial instrument for commitments to extend credit and standby letters of credit is represented by the contractual amounts of those instruments. The credit risk involved is essentially the same as that involved in extending loan facilities to customers. The Company uses the same credit policies in making commitments and conditional obligations as it does for on-balance sheet instruments. The Company evaluates each customer's credit worthiness on a case-by-case basis. The amount of collateral obtained by the Company upon extension of credit, if deemed necessary, is based on management's credit evaluation of the borrower. Collateral may include cash, securities, accounts receivable, inventory, equipment, and real estate.

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. At December 31, 2006 and 2005 unfunded commitments to extend credit and unfunded lines of credit were \$156,323,000 and \$172,854,000, of which some were subject to interest rate lock commitments. Since many of these commitments are expected to expire without being drawn upon, these amounts do not necessarily represent future cash requirements.

Letters of credit are conditional commitments issued by the Company to guarantee payment or performance by a customer to a third party. At December 31, 2006 and 2005, commitments under letters of credit aggregated approximately \$10,204,000 and \$7,205,000, respectively.

Notes to Consolidated Financial Statements

Note 17 - Fair Value of Financial Instruments

As with most financial institutions, the majority of the Company's assets and liabilities are considered financial instruments. Many of the financial instruments, however, lack an available trading market as characterized by a willing buyer and willing seller engaging in an exchange transaction. Therefore, significant estimates and present value calculations are used for the purpose of this disclosure. Such estimates involve judgments as to economic conditions, risk characteristics and future expected loss experience of various financial instruments and other factors that cannot be determined with precision.

Cash and due from banks, federal funds sold, variable rate loans, all deposits except for time deposits with remaining maturities over six months, and other borrowings have carrying amounts which approximate fair value primarily because of the short repricing opportunities of these instruments.

Following is a description of the methods and assumptions used by the Company to estimate the fair value of its financial instruments:

Investment Securities: Fair value is based upon quoted market prices, if available. If a quoted market price is not available, fair value is estimated using quoted market prices for similar securities.

Loans: The fair value for various types of fixed rate loans is estimated by discounting the expected future cash flows using the current interest rates charged by the Subsidiary Banks on loans made to borrowers with similar credit risk. As the discount rates are based on current loan rates, as well as management estimates, the fair values presented may not necessarily be indicative of the value negotiated in an actual sale. The estimated fair value of the Subsidiary Banks' off-balance sheet commitments is nominal since the committed rates approximate current rates offered for commitments with similar rate and maturity characteristics and since the estimated credit risk associated with such commitments is not significant.

Deposit liabilities: The fair value of fixed-maturity time deposits is estimated using the rates currently offered for deposits of similar remaining maturities.

The carrying amounts and estimated fair values of the Company's financial instruments are as follows:

(\$ in thousands)	December 31, 2006		December 31, 2005	
	Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value
Financial assets:				
Cash and federal funds sold	\$ 36,903	\$ 36,903	\$ 26,583	\$ 26,583

Management's Discussion and Analysis of Financial Condition and Results of Operations

Introduction

Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD & A") provides supplemental information which sets forth the major factors that have affected the Company's financial condition and results of operations. These discussions should be read in conjunction with the Consolidated Financial Statements and related notes. The MD & A is divided into subsections entitled:

Selected Financial Data Tables 1 - 5 (preceding pages)
Introduction
Critical Accounting Estimate
Results of Operations
Financial Condition and Capital Resources
Liquidity and Interest Rate Sensitivity Management
Off-Balance Sheet Arrangements
Forward Looking Statements

These discussions should facilitate a better understanding of the major factors and trends that affect the Company's earnings performance and financial condition and how the Company's performance during 2006 compared with prior years. Throughout this section, The Savannah Bancorp, Inc. and its subsidiaries, collectively, are referred to as "SAVB" or the "Company." The Savannah Bank, N.A. is referred to as "Savannah," Bryan Bank & Trust is referred to as "Bryan" and Harbourside Community Bank is referred to as "Harbourside". Collectively, Savannah, Bryan and Harbourside are referred to as the "Subsidiary Banks."

The averages used in this report are the averages of daily balances for each respective period. See Tables 8 and 9 for average balances and interest rates presented on an annual basis. All share and per share amounts have been restated to reflect the effect of a 5-for-4 stock split in December 2006 and December 2004 and a ten percent stock dividend in February 2003. Certain prior year balances have been reclassified to conform to the current year presentation.

The Company is headquartered in Savannah, Georgia and, as of December 31, 2006 had 8 banking offices and 9 ATMs in Savannah and surrounding Chatham County, Richmond Hill, Georgia and Hilton Head Island, South Carolina. In March 2006, Harbourside opened on Hilton Head Island as a separately chartered federal savings bank. In September 2006, Savannah opened a new office adjacent to the Landings community in Savannah.

Savannah and Bryan are located in the relatively diverse and growing Savannah Metropolitan Statistical Area. The diversity of major employers includes manufacturing, port related transportation, construction, military, healthcare, tourism, education, warehousing and the supporting services and products for each of these major employers. The real estate market is experiencing good commercial and residential growth driven in part by coastal Georgia's and South Carolina's growing reputation as a desired retiree residential destination.

Harbourside specifically targets real estate lending and related opportunities in the fast growing coastal South Carolina market. During 2006 the business strategy changed resulting in a significant reduction in the sale of loans on a servicing retained basis. The change was due to the lower profit opportunity on a relatively low volume of residential mortgage loans.

The primary risks to the Company include trends or events that would cause or result in a significant decline in local employment, real estate values, loans or core deposits. The Company operates in very competitive markets with the related challenges of competitive pricing on loans, deposits and other banking services. Competition for the best talent is also a strategic challenge faced in competitive markets.

The primary strategic objectives of the Company are growth in loans, deposits, product lines and service quality in existing markets, and quality expansion into new markets, within acceptable risk parameters, which results in enhanced shareholder value. The Company believes that the management team and the operational and internal control infrastructure are largely in place to execute the Board of Directors' ("Board") objectives over the long term.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Critical Accounting Estimate - Allowance for Credit Losses

The Company considers its policies regarding the allowance for credit losses to be its most critical accounting estimate due to the significant degree of management judgment involved. The allowance for credit losses is established through charges to earnings in the form of a provision for credit losses based on management's continuous evaluation of the loan portfolio. Credit losses and recoveries are charged or credited directly to the allowance. The amount of the allowance reflects management's opinion of an adequate level to absorb probable losses inherent in the loan portfolio at December 31, 2006. The amount charged to the provision and the level of the allowance is based on management's judgment and is dependent upon growth in the loan portfolio, the total amount of past due loans and nonperforming loans, known loan deteriorations, and concentrations of credit. Other factors affecting the allowance include market interest rates, loan sizes, portfolio maturity and composition, collateral values and general economic conditions. Finally, management's assessment of probable losses, based upon internal credit grading of the loans and periodic reviews and assessments of credit risk associated with particular loans, is considered in establishing the allowance amount.

No assurance can be given that the Company will not sustain credit losses which would be sizable in relationship to the amount reserved or that subsequent evaluation of the loan portfolio, in light of conditions and factors then prevailing, will not require significant changes in the allowance for credit losses by future charges or credits to earnings. The allowance for credit losses is also subject to review by various regulatory agencies through their periodic examinations of the Subsidiary Banks. Such examinations could result in required changes to the allowance for credit losses. No adjustment in the allowance or significant adjustments to the Bank's internally classified loans were made as a result of Savannah and Bryan's most recent examinations performed by the Office of the Comptroller of the Currency ("OCC") as of December 31, 2005 or the Georgia Department of Banking and Finance as of March 31, 2006. Harbourside has not yet had its first safety and soundness exam by the Office of Thrift Supervision ("OTS").

The allowance for credit losses totaled \$8,954,000 or 1.24 percent of total loans at December 31, 2006. This is compared to an allowance of \$7,813,000 or 1.27 percent of total loans at December 31, 2005. For 2006, the Company reported net credit losses of \$444,000 or 0.07 percent of average loans. This is compared to net credit losses of \$76,000 or 0.01 percent of average loans for 2005. During 2006 and 2005, provisions for credit losses of \$1,585,000 and \$1,500,000 were added to the allowance for credit losses. Significant growth in the loan portfolio in both years, larger credit exposures in a new market and the increase in net credit losses in 2006 provide the primary basis for the provision for credit losses.

If the allowance for credit losses had changed by five percent, the effect on net income would have been approximately \$278,000. If the allowance had to be increased by this amount, it would not have changed the Subsidiary Banks' status as well-capitalized financial institutions.

The Company's nonperforming assets consist of other real estate owned, loans on nonaccrual status and loans which are contractually past due 90 days or more on which interest is still being accrued. Nonaccrual loans of \$825,000 and loans past due 90 days or more of \$1,406,000 totaled \$2,231,000, or 0.31 percent of gross loans, at December 31, 2006. Nonaccrual loans of \$1,313,000 and loans past due 90 days or more of \$44,000 totaled \$1,357,000, or 0.22 percent of gross loans, at December 31, 2005. The increase in nonperforming loans primarily relates to specific isolated circumstances impacting a few borrowers and is not indicative of overall portfolio concerns. No significant losses are anticipated on these loans. Generally, loans are placed on nonaccrual status when the collection of the principal or interest in full becomes doubtful. Nonperforming assets at December 31, 2006 also included \$545,000 of other real estate owned. There was no other real estate owned at December 31, 2005.

Impaired loans under Statement of Financial Accounting Standards ("SFAS") No. 114 were all on nonaccrual status and totaled \$825,000 and \$1,313,000 at December 31, 2006 and 2005, respectively.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

2006 Compared with 2005

Net income in 2006 was \$10,002,000, up 11 percent from \$9,040,000 in 2005. Net income per diluted share was \$1.70 in 2006 compared to \$1.63 per share in 2005, an increase of 4.3 percent. The earnings increase is primarily attributable to growth in interest-earning assets and a higher net interest margin partially offset by higher expenses and lower noninterest income. Net income for 2006 includes after tax stock-based compensation expense of \$191,000 or \$0.03 per diluted share in 2006 and none in 2005. Average outstanding diluted shares increased 345,000, or 6.2 percent, in 2006 compared with 2005. The increase in average shares outstanding resulted from the private placement sale of 397,000 shares in August 2005 and additional shares being issued upon exercise of stock options. Return on average equity was 16.19 percent and return on average assets was 1.30 percent. The efficiency ratio was 54.29 percent in 2006.

Average interest-earning assets for 2006 increased 12 percent to \$734 million in 2006 from \$656 million in 2005. Net interest income was \$32,452,000 in 2006 compared to \$27,679,000 in 2005, an increase of \$4,773,000 or 17 percent. Average loans were \$659 million in 2006, 17 percent higher when compared to \$565 million in 2005. The net interest margin increased to 4.44 percent in 2006 from 4.25 percent in 2005. As shown in Table 8, the increase in the net interest margin was primarily due to the rise in loan rates and increases in equity and noninterest-bearing deposits. As shown in Table 7, the Company's balance sheet is asset-sensitive, which means that interest-earning assets reprice faster than interest-bearing liabilities. Rising interest rates favorably impact the net interest margin of an asset-sensitive balance sheet and falling rates adversely impact the net interest margin.

The provision for credit losses was \$1,585,000 for 2006, compared to \$1,500,000 in 2005. Changes in the provision are impacted as discussed under the "Allowance for Credit Losses" section above. Loan growth was \$107 million in 2006, primarily in real estate-secured loans, compared to \$114 million in loan growth in 2005. Net credit losses of \$444,000 in 2006 as compared to \$76,000 in 2005 are the primary reason for the higher provision for credit losses in 2006.

Noninterest income was \$4,303,000 in 2006 compared to \$4,387,000 in 2005, a decrease of \$84,000 or 1.9 percent. The decrease was a result of lower mortgage related income and service charges on deposit accounts offset by higher trust fees and other operating income. Noninterest income included mortgage banking related income, net of direct production costs, of \$886,000 in 2006 compared to \$1,292,000 in 2005, a decrease of \$406,000 or 31 percent. Net mortgage related income declined because of lower mortgage origination volume due to higher interest rates, personnel turnover at Harbourside and a decline in residential real estate market activity. No market valuation adjustments were required for loans held for sale during 2006. Service charges on deposit accounts declined 5.9 percent or \$96,000, primarily because of higher earnings credits on commercial checking accounts due to increases in the 90-day Treasury interest rate.

Noninterest expense was \$19,953,000 in 2006 compared to \$16,646,000 in 2005, an increase of \$3,307,000, or 20 percent. The increase in overall noninterest expense included normal operating cost increases, approximately \$263,000 non-recurring startup costs at Harbourside, approximately \$1,000,000 of increased operating costs for the Harbourside expansion and \$299,000 of stock-based compensation expense resulting from adopting SFAS No. 123R effective January 1, 2006. Salaries and benefits increased \$1,322,000 or 14 percent, and included \$200,000 of stock-based compensation expense. In addition to normal salary increases, the personnel cost increases included additional staff in credit administration, accounting, internal audit and at Harbourside. Occupancy, equipment and information technology expenses increased approximately \$1,002,000, or 29 percent, primarily due to the Harbourside expansion, enhancements to systems capabilities and account / transaction volume increases. Other operating expense increased \$983,000 or 27 percent and included additional costs related to the Harbourside expansion, higher audit, advertising and professional fees, \$99,000 in stock-based compensation expense for directors and various other expenses.

Income tax expense was \$5,215,000 in 2006 and \$4,880,000 in 2005. The combined effective federal and state tax rates were 34.3 percent and 35.1 percent in 2006 and 2005, respectively. The decline is primarily due to additional low income housing tax credits added in mid-2005. The Company has never recorded a valuation allowance against deferred tax assets. All deferred tax assets are considered to be realizable due to expected future taxable income.

Management's Discussion and Analysis of Financial Condition and Results of Operations

2005 Compared with 2004

Net income in 2005 was \$9,040,000, up 58 percent from \$5,736,000 in 2004. This represents returns of 19.06 percent on average equity and 1.32 percent on average assets. The efficiency ratio was 51.91 percent in 2005. Diluted earnings per share were \$1.63 in 2005, an increase of 50 percent compared to \$1.09 in 2004. Average outstanding diluted shares increased 270,000, or 5.1 percent, in 2005 compared to 2004. The increase is due to the August 2005 private placement offering of 397,000 shares (496,000 split-adjusted shares), the exercise of stock options and increases in common stock equivalents. Share and per share amounts have been restated to reflect the effect of 5-for-4 stock split in December 2006.

Average total assets for 2005 increased 23 percent to \$685 million from \$557 million in 2004. Total assets were \$718 million and \$617 million at December 31, 2005 and 2004, respectively, an increase of 16 percent. At December 31, 2005, Harbourside Mortgage Company, a division of Savannah, had total loans, excluding loans held for sale, of \$99 million, an increase of \$39 million over 2004.

Net interest income was \$27,679,000 in 2005 compared to \$20,280,000 in 2004, an increase of \$7,399,000, or 36 percent. Average loans, excluding loans held for sale, were \$565 million in 2005, 28 percent higher when compared to \$441 million in 2004. As shown in Table 9, net interest margin increased to 4.25 percent in 2005 from 3.86 percent in 2004, primarily due to higher interest rates on loans.

The provision for credit losses for 2005 and 2004 was \$1,500,000 and \$1,450,000, respectively. Loan growth was \$114 million in 2005 and \$113 million in 2004. Net credit losses were \$76,000 in 2005 compared with \$128,000 in 2004. Uncertain economic conditions, significant loan growth in a new market and borrower sensitivity to rising rates were the primary reasons for the relatively high provisions for credit losses compared to net charge-offs in 2005 and 2004.

Noninterest income was \$4,387,000 in 2005 compared to \$4,100,000 in 2004, an increase of \$287,000 or 7.0 percent. Noninterest income in 2005 included mortgage banking related income, net of direct production costs, of \$1,292,000 in 2005 compared to \$1,079,000 in 2004, an increase of \$213,000 or 20 percent. The sale of other real estate owned resulted in a loss of \$7,000 in 2005 and a gain of \$91,000 in 2004. Service charges on deposit accounts were \$1,622,000, up 1.5 percent from \$1,598,000 in 2004. Growth in service charges was impacted by a decrease in analysis charges on commercial checking accounts resulting from higher earnings credits due to increases in the 90-day Treasury interest rate.

Noninterest expense was \$16,646,000 in 2005 compared to \$14,254,000 in 2004, an increase of \$2,392,000 or 17 percent. Salaries and employee benefits expense increased \$1,168,000, or 14 percent in 2005 primarily due to increased staff, higher incentive accruals and normal salary increases. Equipment and technology expenses increased significantly in 2005 over the prior year related to new and enhanced technology systems and consulting/installation costs related to credit administration, mortgage banking, interest rate risk management, Check 21 and other systems. Other operating expense increases, as detailed in Note 14 to the consolidated financial statements, included significant increases in overtime costs, professional fees, regulatory, audit and consulting fees associated with the Company's first year costs to comply with Section 404 of the Sarbanes-Oxley Act of 2002 relating to the Company's internal controls.

Income tax expense was \$4,880,000 in 2005 and \$2,940,000 in 2004. The combined effective federal and state tax rates were 35.1 percent and 33.9 percent in 2005 and 2004, respectively. The increase in the effective rate was due primarily to lower tax-exempt income on investments and higher taxable income in 2005. The portion of taxable income in excess of \$10 million is taxed at a higher federal rate. The Company has never recorded a valuation allowance against deferred tax assets. All deferred tax assets are considered to be realizable due to expected future taxable income.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Financial Condition and Capital Resources

Balance Sheet Activity

The major changes in the Company's assets and liabilities for the current and prior period are shown in the consolidated statements of cash flows. Average total assets increased 12 percent to \$770 million in 2006 from \$685 million in 2005. Total assets were \$844 million and \$718 million at December 31, 2006 and 2005, respectively, an increase of 18 percent. The increase in loans of \$107 million in 2006 was funded by \$106 million in deposit growth.

The Company has classified all investment securities as available for sale. Higher short-term interest rates resulted in an overall net unrealized loss in the investment portfolio. The unrealized gain or loss amounts are recorded in shareholders' equity as accumulated other comprehensive income (loss), net of tax.

The Harbourside expansion impacts the funding sources, capital requirements and liquidity of the Company. Historically, deposits at the Subsidiary Banks have been obtained from local customers. Since 2004, funding sources have been expanded to include non-local deposits and more frequent use of short-term advances from the FHLB. Total deposits included brokered time deposits and institutional money markets of \$111 million at December 31, 2006 and \$95 million at December 31, 2005.

Loans

The following table shows the composition of the loan portfolio at December 31, 2006 and 2005, including a more detailed breakdown of real estate secured loans by collateral type and purpose. Certain prior year balances have been reclassified to conform to the current year presentation.

Table 6 - Loan Concentrations

(\$ in thousands)	2006	% of Total	2005	% of Total	% Change (\$)
Non-residential real estate

Management's Discussion and Analysis of Financial Condition and Results of Operations

Capital Resources

The OCC and OTS have adopted capital requirements that specify the minimum capital level for which no prompt corrective action is required. In addition, the FDIC assesses FDIC insurance premiums based on certain “well-capitalized” risk-based and equity capital ratios. As of December 31, 2006, the Subsidiary Banks and the Company exceeded the minimum requirements necessary to be classified as “well-capitalized.”

Total equity capital for the Company was \$66.6 million, or 7.89 percent of total assets, at December 31, 2006. Tier 1 capital was 11.09 percent of risk-weighted assets at the same date. Tier 1 capital at December 31, 2006 includes \$10.0 million of trust preferred debt issued by the Company's nonconsolidated subsidiaries.

Under Federal Reserve Bank holding company capital regulations, trust preferred debt qualifies for Tier 1 capital treatment up to a limit of 25 percent of equity capital plus trust preferred debt. All of the Company's trust preferred debt qualifies as Tier 1 capital. At December 31, 2006, the Company has the capacity to issue approximately \$12 million in additional qualifying trust preferred debt which would qualify as Tier 1 capital.

The Company has a \$5,000,000 line of credit through a correspondent bank, of which none was advanced at December 31, 2006. The primary purpose of the line is to provide access to funds that can be used for short-term corporate needs. The borrowing facility is available through June 6, 2007 at which time any outstanding indebtedness is due and payable in full. Advances on the line are subject to the Company certifying compliance with covenants and conditions specified in the agreement. The covenants include customary performance items and a negative pledge agreement on the stock of Savannah. The Company may not pledge the stock of Savannah for any other indebtedness or purpose without the express written consent of the lender.

Liquidity and Interest Rate Sensitivity Management

The objectives of balance sheet management include maintaining adequate liquidity and preserving reasonable balance between the repricing of interest sensitive assets and liabilities at favorable interest rate spreads. The objective of liquidity management is to ensure the availability of adequate funds to meet the loan demands and the deposit withdrawal needs of customers. This is achieved through maintaining a combination of sufficient liquid assets, core deposit growth and unused capacity to purchase and borrow funds in the money markets.

During 2006, portfolio loans increased \$107 million to \$721 million and deposits increased \$106 million to \$707 million. The loan to deposit ratio was 102 percent at December 31, 2006 and 2005. Average loan growth in 2006 was 17 percent. Average deposit growth in 2006 was 11 percent.

In addition to local deposit growth, primary funding and liquidity sources include borrowing capacity with the FHLB, temporary federal funds purchased lines with correspondent banks and non-local institutional and brokered deposits. Contingency funding and liquidity sources include the ability to sell loans, or participations in certain loans, to investors and borrowings from the Federal Reserve Bank of Atlanta (“FRB”) discount window.

The Subsidiary Banks have Blanket Floating Lien Agreements with the FHLB. Under these agreements, Savannah and Bryan have credit lines up to 80 percent of the FHLB qualifying collateral value of their 1-4 family first mortgage loans plus up to 50 percent of the FHLB qualifying collateral value of their home equity lines of credit and second mortgage residential loans. Total borrowings are limited to 20 percent and 16 percent of assets of Savannah and Bryan, respectively. Harbourside has an approved borrowing capacity of \$2.2 million at December 31, 2006. In aggregate, the Subsidiary Banks had secured borrowing capacity of approximately \$106.8 million of which \$37.3 million was advanced at December 31, 2006. These credit arrangements serve as a core funding source as well as liquidity backup for the Subsidiary Banks. The Subsidiary Banks also have conditional federal funds borrowing lines available from correspondent banks that management believes can provide up to \$20 million of funding needs for 30-60 days. Savannah and Bryan have been approved to access the FRB discount window to borrow on a secured basis at 100 basis points over the Federal Funds Target Rate. The amount of credit available is subject to the amounts and types of collateral available when borrowings are requested.

Management's Discussion and Analysis of Financial Condition and Results of Operations

A continuing objective of interest rate sensitivity management is to maintain appropriate levels of variable rate assets, including variable rate loans and shorter maturity investments, relative to interest rate sensitive liabilities, in order to control potential negative impacts upon earnings due to changes in interest rates. Interest rate sensitivity management requires analyses and actions that take into consideration volumes of assets and liabilities repricing and the timing and magnitude of their price changes to determine the effect upon net interest income. The Company utilizes hedging strategies to reduce interest rate risk as noted below.

The Company's cash flow, maturity and repricing gap at December 31, 2006 was \$81 million at one year, or 10 percent of total interest-earning assets. At December 31, 2005 the gap at one year was \$154 million, or 22 percent of total interest-earning assets. Interest-earning assets with maturities over five years totaled approximately \$17.5 million, or 2.2 percent of total interest-earning assets. See Table 7 for cash flow, maturity and repricing gap. The gap position between one and five years is of less concern because management has time to respond to changing financial conditions and interest rates with actions that reduce the impact of the longer-term gap positions on net interest income. However, interest-earning assets with maturities and/or repricing dates over five years may include significant rate risk and market value of equity concerns in the event of significant interest rate increases.

The Company is asset-sensitive within one year. The increases in the prime rate from 7.25 percent to 8.25 percent during 2006 have positively impacted net interest income and net interest margin. However, increased funding costs in the latter part of 2006 more than offset the increases in interest-earning assets resulting in net interest margin compression in the fourth quarter.

Since June 2005, the Company has implemented various strategies to reduce the Company's asset-sensitive position, primarily through the use of short maturity funding sources and hedging strategies such as interest rate floors, collars and swaps. During 2005, Savannah entered into a five year prime rate-based floor transaction with a notional amount of \$35 million and a 6 percent strike rate. Also in 2005, Savannah and Bryan entered into a five year prime rate-based collar with a notional amount of \$40 million that includes a 6 percent floor and 9 percent cap rate and a \$50 million interest rate swap, fully hedged by floating rate loans, in which they receive 7.645 percent fixed rate and pay a variable rate at the prime rate. These actions have reduced the Company's exposure to falling interest rates.

Management monitors interest rate risk quarterly using rate-sensitivity forecasting models and other balance sheet analytical reports. If and when projected interest rate risk exposures are outside of policy tolerances or desired positions, specific strategies to return interest rate risk exposures to desired levels are developed by management, approved by the Asset-Liability Committee and reported to the Board. Management upgraded its interest rate risk reporting systems by engaging outside balance sheet consultants during the second quarter of 2005. Better forecasting models are especially valuable during periods of volatile interest rates, rapid growth and changing interest rate yield curves.

Off-Balance Sheet Arrangements

In order to meet the financing needs of its customers, the Company is a party to financial instruments with off-balance sheet risks in the normal course of business. At December 31, 2006, the Company had unfunded commitments to extend credit of \$156 million and outstanding stand-by letters of credit of \$10.2 million. Since many of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Company uses the same credit policies in establishing commitments and issuing letters of credit as it does for on-balance sheet instruments. Management does not anticipate that funding obligations arising from these financial instruments will adversely impact its ability to fund future loan growth or deposit withdrawals.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward Looking Statements

This MD & A and other Company communications and statements may contain "forward-looking statements." These forward-looking statements may include, among others, statements about our beliefs, plans, objectives, goals, expectations, estimates and intentions that are subject to significant risks and uncertainties and which may change based on various factors, many of which are beyond our control. The words "may," "could," "should," "would," "believe," "anticipate," "estimate," "expect," "intend," "plan" and similar expressions are intended to identify forward-looking statements. The following factors, among others, could cause our financial performance to differ materially from what is contemplated in those forward-looking statements:

- * The strength of the United States economy in general and the strength of the local economies in which we conduct operations may be different than expected resulting in, among other things, a deterioration in credit quality or reduced demand for credit, including the resultant effect on our loan portfolio and allowance for credit losses;
- * The effects of, and changes in, trade, monetary and fiscal policies and laws, including interest rate policies of the Board of Governors of the Federal Reserve System;
- * Inflation, interest rate, market and monetary fluctuations;
- * Adverse conditions in the stock market and other capital markets and the impact of those conditions on our capital markets and capital management activities, including our investment and wealth management advisory businesses;
- * Changes in U.S. foreign or military policy;
- * The timely development of competitive new products and services by us and the acceptance of those products and services by new and existing customers;
- * The willingness of customers to accept third-party products marketed by us;
- * The willingness of customers to substitute competitors' products and services for our products and services and vice versa;
- * The impact of changes in financial services laws and regulations (including laws concerning taxes, banking, securities and insurance);
- * Technological changes;
- * Changes in consumer spending and saving habits;
- * The effect of corporate restructuring, acquisitions or dispositions, including the actual restructuring and other related charges and the failure to achieve the expected gains, revenue growth or expense savings from such corporate restructuring, acquisitions or dispositions;
- * The growth and profitability of our noninterest or fee income being less than expected;
- * Unanticipated regulatory or judicial proceedings;
- * The impact of changes in accounting policies by the SEC or the Financial Accounting Standards Board;
- * Adverse changes in the financial performance and/or condition of our borrowers, which could impact the repayment of those borrowers' outstanding loans; and
- * Our success at managing the risks involved in the foregoing.

We caution that the foregoing list of important factors is not exhaustive. Also, we do not undertake to update any forward-looking statements, whether written or oral, that may be made from time to time by us or on our behalf except as may be required by our disclosure obligations in filings we make with the SEC under federal securities laws.

Management's Discussion and Analysis of Financial Condition and Results of Operations

** Repricing of NOW, savings and money market accounts based on estimated percentages of market interest rate changes.

Note - At December 31, 2006 the Company had unfunded loan commitments and unfunded lines of credit totaling \$156 million. The Company believes the likelihood of these commitments either needing to be totally funded or funded at the same time is low. However, should a significant funding requirement occur, the Company has available borrowing capacity from the FHLB of \$69 million. Additionally, further sources of funding include brokered time deposits and certain other non-local deposits.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Table 8 - Average Balance Sheet and Rate/Volume Analysis - 2006 and 2005

The following table presents average balances of the Company and the Subsidiary Banks on a consolidated basis, the taxable-equivalent interest earned and the rate paid thereon during 2006 and 2005.

Average Balance		Average Rate			Taxable-Equivalent Interest (b)		Variance	(a) Variance Attributable to

\$576,879	\$448,470			Average deposits					
		2.14	1.44	Average cost of deposits					
98%	98%			Average loan to deposit ratio					

(a) This table shows the changes in interest income and interest expense for the comparative periods based on either changes in average volume or changes in average rates for interest-earning assets and interest-bearing liabilities. Changes which are not solely due to rate changes or solely due to volume changes are attributed to volume.

(b) The taxable equivalent adjustment of \$186 in 2005 and \$240 in 2004 results from tax exempt income less non-deductible TEFRA interest expense.

(c) Average nonaccruing loans have been excluded from total average loans and included in noninterest-earning assets.

Certification Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

I, John C. Helmken II, certify that:

1. I have reviewed this annual report on Form 10-K of The Savannah Bancorp, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal controls over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this annual report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal controls over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
