Notes to Financial Statements For the year ended December 31, 2021

1. Organization and Summary of Significant Accounting Policies

Brookwood Associates, L.L.C. (the Company) was organized in 2000 pursuant to the provisions of the Georgia Business Corporation Code, and provides merger and acquisition services and financing services to middle-market companies. The Company operates from an office in Atlanta, Georgia and is registered with the Securities and Exchange Commission and the Financial Industry Regulatory Authority as a broker-dealer.

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with the accounting principles generally accepted in the United States as determined by the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC").

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amount of revenues and expenses during the reported periods. Actual results could differ from these estimates.

Cash and Cash Equivalents

Cash represents withdrawable deposits in both interest and non-interest bearing accounts. From time to time, balances in interest bearing accounts may exceed federally insured limits. Included in cash is \$1,111,968 of funds held in money market accounts held in federally insured financial institutions as of December 31, 2021.

Revenue and Expense Recognition

The Company enters into agreements, primarily with corporate clients, to provide merger and acquisition, capital raising, and other financial advisory services. These engagements may span one or more years. The Company recognizes revenue from these agreements ratably over applicable contract periods or as services are performed. Amounts billed and collected before the services are performed are included in deferred revenues when material. Contingent fees related to financing and merger and acquisition transactions are recognized when the transactions are closed. Reimbursements of expenses by clients are included in revenues, and the related expenses are included in operating expense. During 2021, four clients had fees exceeding 10% of total client revenue, which accounted for approximately 68% of revenue.

Brookwood Associates, L.L.C.

Notes to Financial Statements For the year ended December 31, 2021

1. Organization and Summary of Significant Accounting Policies (continued)

Under ASC Topic 606, the Company must identify the contract with a customer, identify the performance obligations in the contract, determine the transaction price, allocate the transaction price to the performance obligations in the contract, and recognize revenue when (or as) the Company satisfies a performance obligation.

The Company's revenue includes advisory fee revenue. The Company has performed an assessment of its contracts related to revenue streams that are within the scope of the standard. As such, the Company's accounting policies have not changed materially since the principles of revenue recognition from the guidance are largely consistent with prior guidance and current practices applied by the Company. Furthermore, significant revenue has not been recognized in the current reporting period that resulted from performance obligations satisfied in previous periods.

Income Taxes

The Company is a limited liability company and, as such, its earnings flow through directly to the members. Differences existing in the book and tax basis of assets and liabilities relate primarily to differences in revenue recognition policies for financial reporting and tax purposes.

Management of the Company considers the likelihood of changes by taxing authorities in its filed income tax returns and discloses potential significant changes that management believes are more likely than not to occur upon examination by tax authorities. Management has not identified any uncertain tax positions in its filed income tax returns that require disclosure in the accompanying financial statements. The Company's income tax returns for the past three years are subject to examination by tax authorities, and may change upon examination.

Property, Furniture, and Equipment

Property, furniture, and equipment are carried at cost less accumulated depreciation. Depreciation is provided using the straight-line method over useful lives of three to seven years. During 2021, the Company wrote off \$133,380 of fully depreciated computer equipment.

Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through the date the financial statements were issued.

6. Effect of COVID 19

The COVID 19 pandemic developed rapidly in 2020, with a significant number of cases. Measures taken by various governments to contain the virus as well as the uncertainty generated by the pandemic affected economic activity and to some extent, the Company's revenue. Total revenue for the year was down 8% as compared to the prior year. Although the exact impact of the continuing pandemic cannot be predicted, management is optimistic that the Company is strongly positioned to thrive in the coming year. Furthermore, the Company plans to continue operations in the best and safest way possible.

7. Other Accounting Pronouncements

Accounting standards that have been issued or proposed by FASB or other standard-setting bodies are not expected to have a material impact on the Company's financial position, results of operations or cash flows.
