PROXY STATEMENT
FOR ANNUAL MEETING OF STOCKHOLDERS
To Be Held on June 19, 2002

This Proxy Statement and the enclosed form of proxy are being furnished by the Board of Directors of Hybridon, Inc. ("Hybridon" or the "Company") in connection with the Company's Annual Meeting of Stockholders (the "Annual Meeting") to be held on Wednesday, June 19, 2002 at 10:00 a.m., Boston time, at the Hyatt Hotel, 575 Memorial Drive, Cambridge, Massachusetts or any adjournment or postponement of the Annual Meeting.

All shares represented by proxy will be voted in accordance with the instructions of the stockholder. If no instructions are provided, proxies will be voted in favor of the matters set forth in the accompanying Notice of Annual Meeting. A stockholder may revoke a proxy at any time before its exercise by delivery of a written revocation or a subsequently dated proxy to the Secretary of the Company or by voting in person at the Annual Meeting. Attendance at the Annual Meeting will not itself be deemed to revoke a proxy unless the stockholder gives affirmative notice at the Annual Meeting that the stockholder intends to revoke the proxy and vote in person.

The Notice of the Annual Meeting, this Proxy Statement, the enclosed proxy, the Company's 2001 Annual Report to Stockholders and the Company's Annual Report on Form 10-K for the year ended December 31, 2001, as filed with the Securities and Exchange Commission, without exhibits, are being mailed to stockholders on or about May 1, 2002. Exhibits to the Company's Annual Report on Form 10-K will be provided upon written request and payment of an appropriate processing fee. Please address all such requests to the Company, Attention: Investor Relations, 345 Vassar Street, Cambridge, Massachusetts 02139.

Voting Securities and Votes Required

On April 26, 2002, the record date for determination of stockholders entitled to notice of and to vote at the Annual Meeting, there were outstanding and entitled to vote 46,512,142 shares of the Company's common stock, \$0.001 par value per share (the "Common Stock"). Each share of Common Stock entitles the holder to one vote on each of the matters to be considered at the Annual Meeting.

The presence, in person or by proxy, of the holders of a majority of all shares of Common Stock entitled to vote at the Annual Meeting (including shares which abstain or do not vote with respect to one or more of the matters presented for stockholder approval such as broker non-votes as described below) shall constitute a quorum for the transaction of business at the Annual Meeting.

The affirmative vote of the holders of a plurality of the votes cast by stockholders entitled to vote at the Annual Meeting is required for the election of directors. The affirmative vote of the holders of a majority of the Company's outstanding Common Stock entitled to vote at the meeting is required for the approval of the amendment to the Company's Restated Certificate of Incorporation to increase the number of authorized shares of Common Stock from 100,000,000 shares to 150,000,000 shares.

Shares that abstain from voting as to a particular matter and shares held in "street name" by brokers or nominees who indicate on their proxies that they do not have discretionary authority to vote such shares as to a particular matter ("broker non-votes") will not be counted as votes in favor of such matter, and will also not be counted as votes cast or shares voting on such matter. Accordingly, abstentions and broker non-votes will have no effect on the election of directors, but will have the same effect as a vote against the proposed amendment to the Company's Restated Certificate of Incorporation.

All of the directors are reimbursed for their expenses incurred in connection with their attendance at Board of Directors and committee meetings.

In addition, each non-employee director of the Company receives stock options under Hybridon's 1995 Director Stock Option Plan. The 1995 Director Stock Option Plan provides for the grant of options to purchase 5,000 shares of Common Stock to each outside director upon his or her initial election to the Board of Directors and for automatic annual grants of options to purchase an additional 5,000 shares on May 1 of each year. All options are granted with exercise prices equal to the fair market value of the Common Stock on the date of grant. All options vest on the first anniversary of the date of grant or, in the case of options granted automatically each year, on April 30 of the year following the date of the grant. The vesting of all options granted under the 1995 Director Stock Option Plan will be automatically accelerated upon the occurrence of a change in control of the Company, as defined in the 1995 Director Stock Option Plan.

Certain Transactions

Since January 1, 2001, Hybridon has entered into or has been engaged in the following transactions with the following Hybridon directors, officers, stockholders who beneficially owned more than 5% of the outstanding Common Stock ("5% Stockholders") of Hybridon at the time of these transactions and affiliates or immediate family members of those directors, officers and 5% Stockholders. Hybridon believes that the terms of the transactions described below were no less favorable than Hybridon could have obtained from unaffiliated third parties.

\$6.0 Million Loan Arrangement

During 1998, the Company entered into a \$6.0 million loan arrangement with Founders Financial Group, L.P., formerly Forum Capital Markets, L.L.C., and several other investors. The terms of the loan were as follows: (i) the maturity date was November 30, 2003; (ii) the interest rate was 8%; (iii) interest was payable monthly in arrears, with the principal due in full at maturity of the loan; (iv) the loan was convertible, at the holders' option, in whole or in part, into shares of common stock at a conversion price equal to \$2.40 per share; and (v) the loan required minimum liquidity, as defined, of \$2.0 million.

On March 28, 2001, the Company entered into an agreement with the lenders pursuant to which it agreed to pay \$3.0 million to the lenders in partial payment of the principal amount outstanding under the loan. In addition, the Company deposited \$821,250 in a restricted account for the purpose of securing the payment of the balance remaining on the loan. The Company entered into this arrangement in order to encourage the lenders to release their security interest in the shares of MethylGene Inc. held by Hybridon so that Hybridon could sell such shares to third parties. In addition, the Company agreed to reduce the conversion price of the loan from \$2.40 per share to \$1.50 per share upon completion of the sale of 60% of the Company's holdings in MethylGene. The Company also agreed to further reduce the conversion price from \$1.50 per share to \$0.50 per share if the balance of the loan was not paid in full by the Company before September 30, 2001. On September 27, 2001, the Company paid off the remaining \$3.0 million to the lenders in full satisfaction of the loan. The \$821,250 deposited in the restricted account to secure the loan was released to the Company.

Of the \$6.0 million loaned to the Company in 1998, \$3.0 million was loaned by Founders. In 2001, the Company repaid the Founders loan in full by paying to Founders \$900,000 on April 27, 2001, \$600,000 on May 14, 2001 and \$1,500,000 on September 27, 2001. The Company paid Founders a total of \$150,877 in interest on the Founders loan in 2001.

8% Convertible Notes

In March 2000, the Company completed an offering of 8% convertible notes ("8% Notes") in the aggregate original principal amount of \$7.6 million. On March 30, 2001, holders of 8% Notes in the aggregate principal amount of \$7,354,046 exchanged their 8% Notes (including principal and accrued interest thereon) for 76,046 shares of the Company's Series B Convertible Preferred Stock, \$0.01 par value (the "Series B

Early Exercise Program

In 2001, the Company conducted an early exercise program (the “Early Exercise Program”) under which it exchanged its Common Stock for Series B Preferred Stock, several classes of its warrants and a portion of its remaining 8% Notes in order to simplify the Company’s capital structure and to reduce the number of outstanding securities which are exercisable for or convertible into shares of its Common Stock. The Company offered the holders of its Series B Preferred Stock the right to convert such shares into Common Stock at a lower conversion price than that set forth in the Certificate of Designation governing the terms of the Series B Preferred Stock. The Company offered the holders of various warrants the opportunity to immediately exercise their warrants for the purchase of shares covered by such warrants at a reduced exercise price, either by paying the lower exercise price for such shares in cash or by engaging in a “cashless” transaction, whereby they could receive a reduced number of shares of Common Stock in exchange for warrants of equivalent value. The value of the warrants was determined by the Company based on advice from the Company’s investment bankers. The Company offered the holders of its remaining 8% Notes the opportunity to exchange the 8% Notes for shares of the Company’s Common Stock at a reduced conversion price. As of December 31, 2001, the results of the program were as follows:

All holders of the Company’s Series B Preferred Stock exchanged their shares of Series B Preferred Stock for 19,564,500 shares of the Company’s Common Stock, including the following directors, executive officers and 5% Stockholders of the Company, and affiliates thereof:

Report of the Compensation Committee on Executive Compensation

The Company's Compensation Committee is responsible for establishing compensation policies with respect to the Company's executive officers, including the Chief Executive Officer and the other executive officers named in the Summary Compensation Table, and setting the compensation for these individuals.

The Compensation Committee seeks to achieve three broad goals in connection with the Company's executive compensation programs and decisions regarding individual compensation. First, the Compensation Committee structures executive compensation programs in a manner that it believes will enable the Company to attract and retain key executives. In order to ensure continuity of certain key members of management, the Board of Directors has in some instances approved multi-year employment contracts for its executives. Second, the Compensation Committee establishes compensation programs that are designed to reward executives for the achievement of business objectives of the Company and/or the individual executive's particular area of responsibility. By linking compensation in part to achievement, the Compensation Committee believes that a performance-oriented environment is created for the Company's executives. Finally, the Company's executive compensation programs are intended to provide executives with an equity interest in the Company so as to link a portion of the compensation of the Company's executives with the performance of the Company's Common Stock.

The compensation programs for the Company's executives established by the Compensation Committee generally consist of three elements based upon the foregoing objectives: base salary; cash bonuses; and a stock-based equity incentive in the form of participation in the Company's stock option plans.

Base Salary. In establishing base salaries for the executive officers, including the Chief Executive Officer, the Compensation Committee monitors salaries at other companies, particularly those that are in the same industry as the Company or related industries and/or located in the same general geographic area as the Company, considers historic salary levels of the individual and the nature of the individual's responsibilities and compares the individual's base salary with those of other executives at the Company. The Compensation Committee also considers the challenges involved in retaining first-rate managerial and scientific personnel in the science of DNA because of the new nature of this technology. To the extent determined to be appropriate, the Compensation Committee also considers general economic conditions, the Company's financial performance and the individual's performance.

Performance Bonuses. The Compensation Committee generally structures cash bonuses by linking them to the achievement of specified Company and/or business unit performance objectives. The amount of the bonus paid, if any, varies among the executive officers and key managers depending on their success in achieving individual performance goals and their contribution to the achievement of corporate performance goals. The Compensation Committee reviews and assesses corporate goals and individual performance by executive officers. Corporate performance criteria that are considered by the Compensation Committee include performance with respect to development milestones, business development objectives, commercialization goals and other measures of financial performance, including stock price appreciation.

Stock-based Equity Incentives. The Compensation Committee uses stock options as a significant element of the compensation package of the Company's executive officers because they provide an incentive for executives to maximize stockholder value and because they reward the executives only to the extent that stockholders also benefit. The timing and amounts of such grants depends upon a number of factors, including new hires of executives, the executives' current stock and option holdings and such other factors as the Compensation Committee deems relevant. In granting stock options in 2001 to the Company's executives, the Compensation Committee considered a variety of factors, including the Company's accomplishments in the areas of product development and, enhancement of the Company's patent and licensing position. When granting stock options, it has generally been the policy of the Compensation Committee to fix the exercise price of such options at 100% of the fair market value of the Common Stock on the date of grant.

2001 Compensation for Mr. Seiler and Dr. Agrawal. Mr. Seiler's compensation for 2001 was fixed pursuant to the terms of the employment agreement entered into between the Company and Mr. Seiler when he joined the Company in September 2001. Under the terms of his employment agreement, Mr. Seiler's

annual base salary was \$360,000 in 2001. He was granted stock options to purchase an aggregate of 3,640,000 shares of Common Stock in 2001. Mr. Seiler did not receive a bonus in 2001 because he did not join the Company until September 2001. The Compensation Committee believes that Mr. Seiler's compensation package was set at a level competitive with other companies in the industry based on the Committee's analysis of other comparable public companies' chief executive officer compensation and that the compensation package was set at a level necessary to attract a Chief Executive Officer with the skills and experience of Mr. Seiler.

Dr. Agrawal served as the Company's Acting Chief Executive Officer from February 2000 to September 2001 and currently serves as the Company's President and Chief Scientific Officer. In 2001, Dr. Agrawal received an annual base salary of \$345,000, a cash bonus of \$200,000, a stock bonus having a value of \$100,000 and stock options to purchase an aggregate of 5,141,737 shares of Common Stock. Dr. Agrawal's salary was based on the Committee's analysis of other comparable public companies' executive officer compensation and the other factors considered by the Compensation Committee in determining salaries as described above. In deciding to award Dr. Agrawal the cash bonus, the stock bonus and the stock options the Compensation Committee considered Dr. Agrawal's overall compensation package, the past bonuses and option grants awarded to him, the leadership role that Dr. Agrawal has played in the Company's accomplishments in the areas of product and technological development and in the enhancement of the Company's patent and licensing position and on the other factors considered by the Compensation Committee in granting bonuses and stock options as described above.

For 2002, each of Mr. Seiler and Dr. Agrawal will receive an annual base salary of \$360,000 and will be eligible for cash bonuses and stock option grants. The amount of these bonuses, if any, and the size of the stock option grants, if any, will be based in part on the Company's performance against goals established by the Compensation Committee, on Mr. Seiler's and Dr. Agrawal's respective performance against individual goals established by the Compensation Committee and on the other factors considered by the Compensation Committee in granting bonuses and stock options as described above.

Compliance with Internal Revenue Code Section 162(m). Section 162(m) of the Internal Revenue Code of 1986, as amended, generally disallows a tax deduction to public companies for certain compensation in excess of \$1 million paid to the Company's Chief Executive Officer and the four other most highly compensated executive officers. Certain compensation, including qualified performance-based compensation, will not be subject to the deduction limit if specified requirements are met. The Company does not currently meet these requirements and therefore the Company will be subject to the limitations of Section 162(m).

- 14,530,944 shares of Common Stock reserved for issuance upon exercise of outstanding stock options, and
- 5,161,412 shares of Common Stock reserved for future issuances under the Company's stock plans.

The Board believes that the authorization of additional shares of Common Stock is necessary to provide shares of Common Stock for issuance in connection with the exercise of stock options expected to be granted under the Company's stock plans, possible future stock dividends, financings, joint ventures, acquisitions and other general corporate purposes. Other than the Company's agreement with Isis Pharmaceuticals, Inc. under which the Company has agreed to pay to Isis a total of \$6.0 million in cash or shares of its Common Stock in three equal annual installments beginning in May 2002 and the securities and stock plans noted above, there are no existing plans, understandings or agreements for the issuance of any shares of Common Stock. If the amendment is adopted by the stockholders, the Board of Directors will have authority to issue shares of Common Stock without the necessity of further stockholder action. Holders of the Common Stock have no preemptive rights with respect to any shares that may be issued in the future.

Under Delaware law, stockholders are not entitled to dissenter's rights with respect to the proposed amendment to the Company's Restated Certificate of Incorporation.

The Board of Directors believes that approval of the amendment to the Restated Certificate of Incorporation is in the best interests of the Company and the stockholders and therefore recommends that stockholders vote for the approval of the Amendment.

ACCOUNTING MATTERS

Report of the Audit Committee

For the fiscal year ended December 31, 2001, the Audit Committee of the Company's Board of Directors was composed of three members and acted under a written charter approved by the Board in June 2000. A copy of the Audit Committee Charter was attached to the Company's proxy statement for the 2001 Annual Meeting of Stockholders and is available on the Securities and Exchange Commission's website at www.sec.gov.

The Audit Committee reviewed the Company's audited financial statements for the fiscal year ended December 31, 2001 and discussed these financial statements with the Company's management. Management is responsible for the Company's internal controls and the financial reporting process. The Company's independent auditors are responsible for performing an independent audit of the Company's financial statements in accordance with audit standards generally accepted in the United States of America and for issuing a report on those financial statements. As appropriate, the Audit Committee reviews and evaluates, and discusses with the Company's management, internal accounting, financial and auditing personnel and the independent auditors, the following:

- the plan for, and the independent auditors' report on, each audit of the Company's financial statements;
- the Company's financial disclosure documents, including all financial statements and reports filed with the Securities and Exchange Commission or sent to shareholders;
- management's selection, application and disclosure of critical accounting policies;
- changes in the Company's accounting practices, principles, controls or methodologies;
- significant developments or changes in accounting rules applicable to the Company; and
- the adequacy of the Company's internal controls and accounting, financial and auditing personnel.

Management represented to the Audit Committee that the Company's financial statements had been prepared in accordance with accounting principles generally accepted in the United States of America.

The Audit Committee also reviewed and discussed the audited financial statements and the matters required by Statement on Auditing Standards 61 (Communication with Audit Committees) with the Company's independent auditors. SAS 61 requires the Company's independent auditors to discuss with the Company's Audit Committee, among other things, the following:

- methods to account for significant unusual transactions;
- the initial selection of and changes in significant accounting policies;
- the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus;
- the process used by management in formulating particularly sensitive accounting estimates and the basis for the auditors' conclusions regarding the reasonableness of those estimates;
- adjustments arising from the audit that, in the auditors' judgment, have a significant effect on the entity's financial reporting; and
- disagreements, if any, with management over the application of accounting principles, the basis for management's accounting estimates and the disclosures in the financial statements.

The Company's independent auditors also provided the Audit Committee with the written disclosures and the letter required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees). Independence Standards Board Standard No. 1 requires auditors to disclose annually in writing all relationships that in the auditors' professional opinion may reasonably be thought to bear on

independence confirm their perceived independence and engage in a discussion of their independence. The Audit Committee discussed with the independent auditors the matters disclosed in this letter and their independence from the Company. The Audit Committee also considered whether the independent auditors' provision of the other, non-audit related services to the Company, which are referred to in "Accounting Matters" below, is compatible with maintaining such auditors' independence.

Based on its discussions with management and the independent auditors, its review of the representations and information provided by management, and the report of the Company's independent auditors, the Audit Committee recommended to the Company's Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2001.

Independent Auditors

On April 25, 2002, the Board of Directors, upon the recommendation of the Audit Committee, selected Ernst & Young LLP to serve as the Company's independent auditors for the year ending December 31, 2002 and dismissed Arthur Andersen LLP, which had served as the Company's independent auditors in 2001.

During the Company's two most recently completed fiscal years and the subsequent interim period preceding the dismissal of Arthur Andersen, there were no disagreements (as defined under Item 304(a)(1)(iv) of Regulation S-K) between the Company and Arthur Andersen on any matters of accounting principles or practices, financial statement disclosure, or auditing scope or procedure which disagreements, if not resolved to Arthur Andersen's satisfaction, would have caused it to make reference to the subject matter of the disagreement in connection with its reports on the Company's financial statements for such years, except as described below.

During the fiscal year ended December 31, 2001, the Company and Arthur Andersen had a disagreement with respect to revenue recognition and the application of Staff Accounting Bulletin 101 (SAB 101) to the revenues that the Company received under its licensing agreement with Isis Pharmaceuticals, Inc. ("Isis").

SAB 101 provides the SEC staff's views in applying generally accepted accounting principles to selected revenue recognition issues. The four criteria to be met before revenue can be recognized include:

- persuasive evidence of an arrangement exists;
- delivery has occurred, services have been rendered and obligations have been satisfied;
- the fee is fixed or determinable; and
- collectibility is reasonably assured.

Determination of the last three criteria are based on management's judgments regarding the fixed nature of the fee charged for services rendered or products delivered and the collectibility of these fees. Should changes in conditions cause management to determine these criteria are not met for any future transactions, revenues recognized for any reporting period could be adversely affected. Arthur Andersen concluded that the Company should recognize revenue under the Isis agreement ratably over the 10-year term of the agreement. In Arthur Andersen's opinion, the combination of significant rights retained by the Company and the Company's ongoing obligation to make two representatives available to attend semi-annual telephonic meetings of a collaboration committee warranted deferring recognition of the revenue.

The Company's position was that all the revenue received under the Isis agreement should be recognized when it is received because the amounts received are not refundable under any circumstances and because the Company does not believe that it will be required to expend any significant future resources to comply with the Isis agreement. The Company does not believe that the ongoing obligation of the Company to make two representatives available to attend semi-annual telephonic meetings of a collaboration committee is material.

Both the Audit Committee and the Board of Directors discussed the issue with Arthur Andersen, and the Company agreed to recognize revenue under the Isis agreement in accordance with Arthur Andersen's conclusions. The Company has authorized Arthur Andersen to respond fully to any inquiries of Ernst & Young concerning the subject matter of the disagreement.

Arthur Andersen's reports on the Company's financial statements for each of the two fiscal years ended December 31, 2001 and 2000 did not contain an adverse opinion or a disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope or accounting principles.

There were no reportable events (as defined under Item 304(a)(1)(v) of Regulation S-K) during the two most recent fiscal years ended December 31, 2001 and 2000 or during the subsequent interim period preceding the dismissal of Arthur Andersen.

The Company engaged Ernst & Young LLP as the Company's new principal independent public accountants as of April 25, 2002. During the Company's two most recent fiscal years and the subsequent interim period prior to engaging Ernst & Young LLP, neither the Company nor anyone on its behalf consulted with Ernst & Young LLP regarding either (i) the application of accounting principles to a specified transaction, either completed or proposed, or the type of audit opinion that might be rendered on the Company's financial statements, and neither a written report nor oral advice was provided to the Company by Ernst & Young LLP that was an important factor considered by the Company in reaching a decision as to any accounting, auditing or financial reporting issue; or (ii) any matter that was either the subject of a disagreement or a reportable event.

Representatives of Ernst & Young will be present at the meeting to answer appropriate questions. They will have the opportunity to make a statement if they desire to do so. We do not expect that representatives of Arthur Andersen will attend the meeting.
