The Company is a wholly-owned subsidiary of Center Street Holdings, Inc. which is wholly-owned by Arete Wealth, Inc. #### **Basis of presentation:**

The financial statement is presented on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

#### **Use of estimates:**

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities and reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

#### **Cash and restricted cash:**

In accordance with the clearing agreement, all of the Company's property held by the clearing broker including, but not limited to, securities, deposits, monies and receivables, are used as collateral to secure the Company's liabilities and obligations to the clearing broker. As of December 31, 2022, the Company has a total of \$55,000 on deposit (required minimum of \$50,000) which is reflected as restricted cash in the statement of financial condition.

#### **Concentration of risk:**

### 1. Organization and summary of significant accounting policies (continued)

#### Commissions receivable:

Commission receivable consists of trades, 12b-1 fees and commissions on sales of alternative investments products earned but not yet received. The Company did not have an allowance for credit losses as all receivable amounts are deemed fully collectable.

#### Income taxes:

The Company is classified as a C corporation under the Internal Revenue Code. The Company is a member of a group that files a consolidated federal tax return. Accordingly, income taxes payable to (refundable from) the tax authority and the related deferred income taxes are recognized on the financial statements of the parent company who is the taxpayer for federal income tax purposes. The members of the consolidated group allocate payments to any member of the group for the income tax reduction resulting from the member's inclusion in the consolidated return, or the member makes payments to the parent company for its allocated share of the consolidated income tax liability. This allocation approximates the amounts that would be reported if the Company was separately filing its tax return. The Company is liable for state taxes and files income tax returns in certain state jurisdictions.

#### Financial Instruments – Credit Losses:

The Company accounts for estimated credit losses on financial assets measured at an amortized cost basis and certain off-balance sheet credit exposures in accordance with FASB ASC 326-20, Financial instruments – Credit Losses. FASB ASC 326-20 requires the Company to estimate expected credit losses over the life of its financial assets and certain off-balance sheet exposures as of the reporting date based on relevant information about past events, current conditions, and reasonable and supportable forecasts. The Company records the estimate of expected credit losses as an allowance for credit losses. The Company estimates expected credit losses on receivables over the life of the financial assets as of the reporting date based on relevant information about past events, current conditions, and reasonable and supportable forecasts.

### 2. Clearing agreement

The Company typically maintains, as collateral against losses due to potential nonperformance by its customers, deposits to cover its inventory and outstanding customer positions.

#### **3. Net capital requirements**

The Company is subject to the SEC Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to regulatory net capital, both as defined, shall not exceed a 15 to 1 ratio. At December 31, 2022, the Company had regulatory net capital of \$700,030, which was \$635,940 in excess of its required net capital of \$64,090. At December 31, 2022, the Company's net capital ratio was 1.37 to 1. Withdrawals of capital are subject to certain notification and other provisions of the net capital rule of the SEC and other regulatory bodies.

#### **4. Counterparty risk**

Customer transactions are introduced to and cleared through the Company's clearing broker, Pershing, on a fully disclosed basis. Under the terms of its clearing agreement, the Company is required to guarantee the performance of its customers in meeting contracted obligations. Such transactions may expose the Company to significant off-balance-sheet risk in the event margin requirements are not sufficient to fully cover losses that customers may incur. The Company's trades are settled daily between the clearing organization and the Company. Because of this daily settlement, the amount of the unsettled credit exposures is limited to the amount owed the Company for a very short period of time. In the event the customer fails to satisfy its obligations, the Company may be required to purchase or sell financial instruments at prevailing market prices to fulfill the customer's obligations.

The Company does not anticipate nonperformance by customers or counterparties in the above situations.

#### **5. Related party transactions and expense sharing**

These investments are subject to market fluctuations and risks and occasionally a customer may be unsatisfied with the investment and commence arbitration or litigation proceeding against the Company. There are 34 outstanding arbitration claims filed by customers against the Company with claims ranging from unspecified amounts up to approximately \$1.5 million and an aggregate total of approximately \$9.1 million. The customers allege either the investments were not suitable, or the investment decreased in value. The Company has accrued \$567,000 for these matters.
